HILLIARD'S, p. o., Shelby county, *Tex.*: 255 m. E. N. E. Austin City.

HILLIARDSTON, p. v., Nash co., *N. Car.*: 52 m. E. N. E. Raleigh.

HILLIARDSVILLE, p. v., Henry county, *Ala.*: 97 m. S. E. Montgomery.

HILLSBORO' county, *Flor.* Situate S. on W. side of the peninsula, and contains about 3,200 sq. m. It has the Gulf of Mexico for its W. boundary; in the N. W. Tampa or Espiritu Santo Bay, a large inlet of the Gulf, into which flow Hillsboro r., Alafia r., Indian r., and Manatee r.; and in the S. W. Charlotte Harbor, another inlet, which receives Pease cr. and other streams. It covers a large extent of territory as yet unsettled, where nature exhibits some of her greatest productions in the majestic forests of cedar, magnolia, and cypress that cover it. The surface is various, parts being marshy, with impenetrable swamps, and parts fine rolling cotton lands. Soil, where cultivated, very fertile, and generally heavily timbered. The productions embrace figs, oranges, and pomegranates. Tampa Bay affords a fine harbor. Farms 120; manuf. 9; dwell. 253, and pop.—wh. 1,711, fr. col. 6, sl. 660—total 2,377. *Capital*: Tampa.

HILLSBOROUGH county, *N. Hamp.* Situate S., and contains 844 sq. m. Drained W. by Contoocook r., N. by Piscataquog r., S. by Souhegan r., and Nashua r., all tributaries of the Merrimac, which flows S. through the E. part of the co. Surface uneven and broken. Much of the soil is fertile, and most finely adapted to grazing and grain-growing. Its streams afford great water-power, especially the Merrimac, on which are many large cotton and woolen factories, and thriving manufacturing cities and villages. Among these, Manchester and Nashua stand first, and have advantages hardly surpassed in New England. Farms 3,675; manuf. 399; dwell. 9,939, and pop.—wh. 57,359, fr. col. 118—total 57,477. *Capital*: Amherst. *Public Works*: Nashua and Lowell R. R.; Concord R. R.; Nashua and Worcester R. R.; Peterboro' and Shirley R. R.; Wilton R. R.; Contoocook Valley R. R.; New Hampshire Central R. R., etc.

HILLSBOROUGH, p. v., Lawrence co., *Ala.*: on the Memphis and Charleston R. R., 172 m. N. N. W. Montgomery.

HILLSBOROUGH, p. v., Union county, *Ark.*: 118 m. S. Little Rock.

HILLSBOROUGH, p. v., Oneida county, *N. Y.*: 96 m. N. W. Albany.

HILLSBOROUGH, p. v., Jasper county, *Ga.*: 26 m. W. N. W. Milledgeville.

HILLSBOROUGH, p. v., Fountain county, *Ind.*: on the E. fork of Coal cr., 56 m. W. N. W. Indianapolis. It contains about 20 dwellings.

HILLSBOROUGH, p. v., and cap. Montgomery co., *Ill.*: on the E. of the Middle Fork of Shoal cr., 47 m. S. S. E. Springfield. It contains a court-house, jail, etc., several stores and mechanic shops, and about 600 inhabitants. The Terre Haute and Alton R. R. will pass through the village.

HILLSBOROUGH, p. v., Henry county, *Ind.*: 49 m. S. Iowa City.

HILLSBOROUGH, p. v., Fleming county, *Ky.*: 74 m. E. Frankfort.

HILLSBOROUGH, p. v., and cap. Scott co., *Miss.*: on a small branch of Pearl r., 41 m. E. by N. Jackson. It contains a court-house and several stores and mechanic shops, and about 630 inhabitants. The North Carolina R. R. passes through it.

HILLSBOROUGH, p. v., Caroline co., *Md.*: on the E. side of Tuckahoe cr., 55 m. E. Annapolis.

HILLSBOROUGH, p. v., and cap. Jefferson co., *Mo.*: on the high land between Big r. and the Mississippi, 92 m. E. S. E. Jefferson City. It contains a court-house, jail, etc., and has several stores.

HILLSBOROUGH, p. v., and cap. Orange county, *N. Car.*: on Eno r. of the Neuse, 42 m. N. W. Raleigh. It contains a court-house, jail, etc., has several stores and mechanic shops, and publishes two newspapers, the "Recorder" (whig), and the "Democrat" (dem.), both weekly issues. Pop. about 600.

HILLSBOROUGH, t. and p. v., Hillsborough co., *N. Hamp.* 21 m. W. S. W. Concord. Drained by Contoocook and Hillsborough rivers, which supply water-power. Surface uneven and hilly; soil of moderate fertility. The v. has considerable manufactures, and in the t. are numerous industrial establishments, as mills, factories, mechanic shops, etc. Population 1,685.

HILLSBOROUGH, p. v., and cap. Highland co., *Ohio*: 61 m. S. S. W. Columbus. It contains a court-house, jail, etc., several mechanic shops and stores, and in 1850 had 1,392 inhabitants. Two newspapers are published here, the "H. Gazette" (dem.), and the "Highland News" (whig), both weekly issues. Hillsborough is a principal station on the Cincinnati, Hillsborough, and Parkersburg R. R., and as such must become the depot for a wide and fertile country. It is 60 m. by railroad route from Cincinnati.

HILLSBOROUGH, p. v., Washington co., *Penn.*: on the National Road, 173 m. W. Harrisburg. Pop. about 200. The site is 1,002 feet above the Ohio r. at Wheeling.

HILLSBOROUGH, p. v., Coffee county, *Tenn.*: 67 m. S. E. Nashville.

HILLSBOROUGH, p. v., and cap. Washington co., *Oreg.*: on a branch of Tualatin r., 42 m. N. Salem, and 14 m. W. Portland.

HILLSBOROUGH, p. v., Loudon co., *Virg.*: 128 m. N. by W. Richmond. It contains several mills and stores, and about 200 inhabitants.

HILLSBOROUGH BRIDGE, p. o., Hillsborough co., *N. Hamp.*: on the N. side of Contoocook r., which is here crossed by a bridge, 20 m. W. *SW.* Concord. The Contoocook Valley R. R. has its present terminus at this point.

HILLSBOROUGH CENTRE, p. o., Hillsborough county, *N. Hamp.*: 28 m. W. S. W. Concord.

HILL'S CORNERS, p. o., Penobscot co., *Me.*

HILLSDALE county, *Mich.* Situate S., and contains 608 sq. m. Drained S. by heads of St. Joseph's r., flowing into Maumee r., and N. by heads of St. Joseph's r., emptying into Lake Michigan. Surface undulating, with occasional marshes, and some of the highest land in the peninsula; soil a black, sandy loam, and very productive of grain, but less adapted to grazing. In the N. are "oak openings," but the rest of the co. was originally timbered heavily. Fine building sandstone is plenty in parts, and iron ore is found. Its streams have many fine mill-seats. Farms 1,411; manuf. 45; dwell. 2,965, and pop.—wh. 16,153, fr. col. 6—total 16,159. *Capital*: Hillsdale. *Public Works*: Michigan Southern R. R.

HILLSDALE, t. p. v., and cap. Hillsdale co., *Mich.*: on the outlet of St. Joseph or Bourbese Lake, 55 m. S. Lansing, and on the line of the Michigan Southern R. R., and about 70 miles from Monroe and Toledo. It is eligibly situate as a manufacturing place, having a large water-power, and as a centre of trade has many advantages. The v. contains a court-house, jail, etc., and about 600 inhabitants. Two newspapers are published here, the "H. Gazette" (dem.), and "H. Standard" (whig), both weekly issues. Pop. of t. 1,067.

HILLSDALE, p. v., Guilford co., *N. Car.*: 84 m. W. N. W. Raleigh.

HILLSDALE, t. and p. v., Columbia co., *N. Y.*: 82 m. S. S. E. Albany. Drained by Ancram and Copake creeks. Surface hilly and mountainous, containing Taghkanne Mountain; soil gravelly loam and clay. The village, sometimes called the "Turnpike," contains 2 churches and several stores, and 25 to 80 dwellings. The Housatonic Station, on the Harlem R. R., is 18 m. from Chatham Four Corners. Pop. 2,123.

HILL'S GROVE, p. o., McDonough co., *Ill.*: 76 m. W. N. W. Springfield.

HILL'S GROVE, p. o., Sullivan co., *Penn.*: 56 m. N. by E. Harrisburg.

HILL'S MILLS, p. o., Cook county, *Ill.*: 167 m. N. E. Springfield.

HILL'S STORE, p. o., Randolph co., *N. Car.*: 78 m. W. Raleigh.

HILL'S VALLEY, p. o., Williamson co., *Tenn.*

HILL'S VIEW, p. o., Westmoreland co., *Penn.*: 128 m. W. Harrisburg.

HILLSVILLE, p. v., and cap. Carroll co., *Virg.*: on a cr. of New river, 203 m. W. S. W. Richmond. It contains the co. offices, and about 200 inhabitants.

HILLSVILLE, p. v., Lawrence co., *Penn.*: 197 m. W. N. W. Harrisburg.

HILL TOP, p. v., Wayne county, *Penn.*: 147 m. N. E. Harrisburg.

HILLTOWN, t. and p. v., Bucks county, *Penn.*: 86 m. E. Harrisburg. Drained by branches of Nishaminy river. Pop. 2,108.

HILLCREE, p. o., Washington co., *Ark.*: 143 m. N. W. Little Rock.

HILTON, p. v., Monroe county, *Ky.*: 114 m. S. S. W. Frankfort.

HILTON'S, p. o., Sullivan county, *Tenn.*: on the Holston, 243 m. E. Nashville.

HINCKLEY, t. and p. o., Medina county, *Ohio*: 108 m. N. E. by N. Columbus. Drained by Rock r., which affords numerous mill-sites. Surface elevated and broken; soil fertile, adapted alike to grain and grass. Iron ores, coal, and red sandstone abound. Pop. 1,416.

HINDS county, *Miss.* Situate W. centrally, and contains 851 sq. m. Drained by affluents of Pearl r., its E. boundary, and of Big Black r., its N. W. boundary, and S. by Tallaha cr., which flows into the Mississippi. Surface level or rolling; soil very fertile, and admirably fitted for cotton growing. Cotton is the great staple, corn yields well, and some rice is made. Jackson, the capital of the State, is in its E. part, on the Pearl r. Farms 852; manuf. 8; dwell. 1,656, and pop.—wh. 8,690, fr. col. 25, sl. 16,625—total 25,340. *Capital*: Jackson. *Public Works*: Vicksburg, Jackson, and Brandon R. R.; Raymond Branch R. R.; New Orleans, Jackson, and Northern R. R.

HINDS, p. o., Brazoria co., *Tex.*: on the W. side of Oyster cr., 162 m. S. E. Austin City.

HINDSBURGH, p. v., Orleans co., *N. Y.*: 216 m. W. N. W. Albany.

HINESBURGH, t. and p. v., Chittenden co., *Verm.*: 24 m. W. by N. Montpelier. Drained by Platte r. and Lewis cr. Surface uneven; soil fertile, well adapted to grass. The v. is on Platte r., and is built on one street. Some manufactures are carried on in the t., and there are facilities for their increase. Pop. 1,837.

HINES' MILLS, p. o., Ohio county, *Ky.*: 181 m. W. S. W. Frankfort.

HINESTON, p. o., Rapides parish, *La.*: 116 m. N. W. Baton Rouge.

HINESVILLE, p. v., and cap. Liberty co., *Ga.*: on the pine land S. of Taylor's cr., 130 m. S. E. Milledgeville. It contains about half a dozen dwellings.

HINGHAM, t. and p. v., Plymouth co., *Mass.*: 13 m. S. E. Boston. Situate on the S. side of Boston Bay. Surface broken; soil in parts fertile, but not generally so. The v. is located at the head of an arm of the bay, and on the line of the South Shore R. R. It is a place of considerable trade, and is much employed in coasting and the fisheries. In the t. there are several manufactures. Pop. 8,952.

HINKLESBURGH, p. v., Oldham co., *Ky.*: 88 m. W. N. W. Frankfort.

HINKLETON, p. o., Lancaster co., *Penn.*: on the N. side of Conestoga cr., 41 m. E. S. E. Harrisburg.

HINMANSVILLE, p. v., Oswego co., *N. Y.*: 132 m. N. W. Albany.

HINSDALE, t. and p. v., Berkshire co., *Mass.*: 108 m. W. Boston. Drained by several creeks, affluents of Housatonic river. Surface elevated; soil generally good, and well adapted to grass. The v. is a small central settlement. In the t. there are several manufactories. Pop. 1,253. The Western R. R. passes through the t., and has a station a little W. of the village.

HINSDALE, t. and p. v., Cheshire co., *N. Hamp.*: 59 m. S. W. by W. Concord. Situate in the extreme S. W. corner of the State. Drained by Ashuelot r. and its branches, and small streams falling into Connecticut r., which is its W. boundary. A range of hills, from 800 to 900 feet high, crosses the t. E. and W. Surface, with this exception, moderately uneven; soil fertile and well cultivated. The Ashuelot R. R. passes through it. Pop. 1,903.

HINSDALE, t. and p. v., Cattaraugus co., *N. Y.*: 234 m. W. by S. Albany. Drained by Ichua and Olean creeks, and contains a small lake called the Reservoir. Surface hilly, and somewhat broken; soil well adapted to grass. The v. is situate on the Genesee Valley Canal and on the New York and Erie R. R., and contains several mills, mechanic shops, stores, etc., and about 800 inhabitants. It is eligibly situate for a considerable trading town, and has unusual facilities for expansion. Pop. of t. 1,302.

HINTON'S GROVE, p. o., Pickens co., *Ala.*: 126 m. N. W. Montgomery.

HIRAM, t. and p. o., Oxford co., *Me.*: 65 m. S. W. Augusta. Drained by Saco r., which runs through it and affords immense water-power. Surface diversified; soil of average fertility. Pop. 1,210.

HIRAM, t. and p. v., Portage co., *Ohio*: 132 m. N. E. Columbus. Drained by Cuyahoga r. and its affluents, and also by some head branches of Mahoning river. Surface elevated; soil rich and fertile. The v. is central, and on a branch of Mahoning river. Pop. of t. 1,106.

HIRAMBURGH, p. v., Morgan co., *Ohio*: 66 m. E. S. E. Columbus.

HITCHCOCKVILLE, p. v., Litchfield co., *Conn.*: on the W. branch of Farmington r., 21 m. N. W. Hartford. It contains several shops and stores, and about 250 inhabitants.

HITESVILLE, p. v., Coles county, *Ill.*: 88 m. E. S. E. Springfield.

HIWASSEE river, *Ga.* and *Tenn.*: rises in Union county, Georgia, and flowing into Tennessee enters the Tennessee r., 12 m. S. W. Washington.

HIX'S FERRY, p. o., Randolph co., *Ark.*: at the crossing of Current r., 146 m. N. N. E. Little Rock.

HIZERVILLE, p. v., Oneida county, *N. Y.*: 97 m. N. W. Albany.

HODLEY, p. o., Racine county, *Wisc.*: 76 m. E. by S. Madison.

HOAG'S CORNER, p. o., Rensselaer county, *N. Y.*: 12 m. E. by S. Albany.

HOBBART, p. v., Delaware co., *N. Y.*: on the head waters of Delaware r., 51 m. W. S. W. Albany. It contains several mills, stores, etc., and about 300 inhabitants.

HOBBART, p. v., Lake co., *Ind.*: on Deep r. of the Calumet, 128 m. N. W. Indianapolis.

HOBBIEVILLE, p. v., Greene county, *Ind.*: 77 m. S. W. Indianapolis.

HOBBIEVILLE, p. v., Alleghany co., *N. Y.*: 214 m. W. by S. Albany.

HOBBYVILLE, p. v., Spartanburgh dist., *S. Car.*: 97 m. N. W. Columbia.

HOBOKEN, p. v., Hudson co., *N. Jer.*: on the W. bank of the Hudson r., 62 m. N. E. Trenton. It lies immediately opposite New York City, with which it is connected by three ferries. Within the past few years it has become a large v., chiefly inhabited by persons doing business in the neighboring metropolis. The Elysian Fields lie immediately N. of the v., and are a famous holiday resort in the summer and fall seasons.

HOCKANUM, p. v., Hartford co., *Conn.*

HOCKANUM, v., Hampshire co., *Mass.*: on the E. side of Connecticut r., and at the base of Mount Holyoke, 83 m. W. Boston. There is at this point a horse ferry across the r. The v. contains a tavern, and about a dozen dwellings.

HOCKHOCKING river, *Ohio*: rises in Fairfield co., and after a course of about 80 m. through a hilly country, enters the Ohio at Hocking Port in the t. of Troy. Its name in the Delaware language means a *bottle*. It is navigable for small craft to Athens; 7 m. N. W. of Lancaster it falls over a ledge of rock 40 feet perpendicular, and above the falls resembles "a bottle" in shape, whence its name. The country through which it passes is wild and picturesque, and along its banks numerous ancient mounds and fortifications are found. The lower valley abounds in yellow pine. The Hocking Canal follows the valley of this river.

HOCKING county, *Ohio*. Situate S. centrally, and contains 861 sq. m. Drained by Salt cr. and Hocking r. and its branches. Surface considerably broken, with a few high hills; soil fertile, producing large crops of grain and some tobacco, and furnishing excellent grazing. Grain and pork are the chief exports. Farms 1,180; manuf. 15; dwell. 2,867, and pop.—wh. 14,002, fr. col. 117—total 14,119. *Capital*: Logan. *Public Works*: Hocking Canal.

HOCKING PORT, p. v., Athens co., *Ohio*: at the entrance of Big Hockhocking r. into the Ohio, 83 m. south-east Columbus.

HODGDON, t. and p. o., Aroostook co., *Me.*: 153 m. N. E. Augusta. Situate on the E. line of the State, and drained by branches of Meduxnekeag river, which empties in the St. John at Woodstock, N. B. Surface diversified; soil excellent for wheat and grass. Pop. 862.

HODGDON'S MILLS, p. o., Lincoln co., *Me.*: 28 m. S. E. Augusta.

HODGENSVILLE, p. v., La Rue county, *Ky.*: 64 m. S. W. Frankfort.

HODGE'S BEND, p. o., Fort Bend co., *Tex.*: 146 m. E. S. E. Austin City.

HOFFMAN'S FERRY, p. o., Schenectady co., *N. Y.*: 18 m. N. W. Albany.

HOFFMAN'S GATE, p. o., Columbia county, *N. Y.*: 29 m. S. S. E. Albany.

HOGANSBURGH, p. v., Franklin co., *N. Y.*: on St. Regis r., 2 m. from its entrance into the St. Lawrence, and 158 m. N. N. W. Albany. It has several large mills and stores, and about 300 inhabitants. Steamboats pass up the r. from the St. Lawrence to this point.

HOGANSVILLE, p. v., Du Buque co., *Ia.*: 60 m. N. N. E. Iowa City.

HOGANSVILLE, p. v., Troup co., *Ga.*: on Yellow Jacket cr. of Chattahoochee r., 100 m. W. by N. Milledgeville. The Lagrange R. R. passes through it 59 m. from Atlanta.

HOG CREEK, p. o., Allen county, *Ohio*: 81 m. N. W. Columbus.

HOGESTOWN, p. v., Cumberland co., *Penn.*: 9 m. S. W. Harrisburg.

HOGLE'S CREEK, p. o., St. Clair co., *Mo.*: on a cr. of Osage r. so called, 82 m. W. S. W. Jefferson City.

HOG MOUNTAIN, p. o., Hall co., *Ga.*: on the S. W. part of the co., 89 m. N. N. W. Milledgeville.

HOHENLINDEN, p. v., Chickasaw county, *Miss.*: 128 m. N. N. E. Jackson.

HOLCOMB, p. v., Burke co., *Ga.*: on the N. side of Ogeechee r., 64 m. E. S. E. Milledgeville. It is a station of the Central R. R., 100 m. from Savannah, and 91 m. from Macon.

HOLDEN, t. and p. o., Worcester co., *Mass.*: 43 m. W. Boston. Drained by Blackstone and Nashua rivers, which have immense water-power. Surface somewhat uneven; soil, except on the rivers, indifferent. The manufactures of the town are considerable. Pop. 1,933.

HOLDERMAN'S GROVE, p. o., Kendall co., *Ill.*: 126 m. N. N. E. Springfield.

HOLDERNESS, t. and p. v., Grafton co., *N. Hamp.*: 87 m. N. Concord. Drained by tributaries of Merrimac r., which lies on its W. side; and Squam Lake lies on its E. border, and affords by its outlets, which flow into Pemigewasset, excellent water-power. It has several mills and factories, and 1,744 inhabitants. The Boston, Concord, and Montreal R. R. passes through the S. W. corner, 45 m. by route from Concord.

HOLDERNESS CENTRE, v., Grafton co., *N. Hamp.*: 86 m. N. Concord.

HOLLAND, t. and p. o., Hampden county, *Mass.*: 63 m. W. S. W. Boston. Drained by head branches of Quinebaug r. It is a small town, with some manufactures. Pop. of t. 449.

HOLLAND, t. and v., Ottawa co., *Mich.*: at the confluence of Black r. with the estuary so called, 76 m. W. Lansing. It has good harborage, and the v. is a thriving place of some 400 inhabitants. The "Hollander," a weekly newspaper, is published. Pop. of t. 1,529.

HOLLAND, t. and p. v., Erie co., *N. Y.*: 237 m. W. Albany. Drained by Seneca and Cazenova creeks. Surface high and rolling; soil moist clay and sandy loam. The village consists of about 25 dwellings. Pop. of t. 1,315.

HOLLAND, p. o., Venango county, *Penn.*: 197 m. N. W. Harrisburg.

HOLLAND, t. and p. o., Orleans co., *Verm.*: 59 m. N. N. E. Montpelier. Situate on the Canada border. Drained by streams flowing N. into Lake Massawippi, S. into Seymour

Lake, and W. into Lake Memphremagog, the waters of all which are ultimately discharged through St. Francis r. into the St. Lawrence. Surface elevated, and has several ponds, the sources of the streams indicated; soil fertile. Pop. 669.

HOLLAND PATENT, p. v., Oneida county, *N. Y.*: 81 m. W. N. W. Albany. It contains 2 churches, an endowed academy, and about 360 inhabitants.

HOLLAND'S, p. o., Laurens district, *S. Car.*: 63 m. N. W. Columbia.

HOLLEY, p. v., Orleans co., *N. Y.*: on Sandy cr., 216 m. W. N. W. Albany. The Erie Canal and the Rochester, Lockport, and Niagara Falls R. R. here cross the creek. It is an active trading place of between 350 and 400 inhabitants.

HOLLIDAYSBURGH, p. b., and cap. Blair co., *Penn.*: on Beaver Dam cr., 83 m. W. N. W. direct, or by railroad 187 m. from Harrisburg. It is a place of considerable trade, and has some manufactures. The Alleghany Portage R. R. commences here and passes over the Alleghanies, uniting the two sections of the Pennsylvania Canal, and also the eastern and western divisions of the Pennsylvania R. R. Hollidaysburgh has four newspapers, the "Democratic Standard" (dem.), the "H. Register" (whig), the "Shield" (relig.), and the "Blair County Whig," all weekly issues. Pop. in 1840, 1,896, and in 1850, 2,417.

HOLLIDAY'S COVE, p. o., Hancock county, *Virg.*: 276 m. N. W. Richmond.

HOLLIDAYSVILLE, p. v., Dooly co., *Ga.*: on the E. bank of Flint r., 112 m. S. S. W. Milledgeville.

HOLLINGSWORTH, p. v., Habersham co., *Ga.*: on a branch of Hudson's fork of Broad r., 94 m. N. by W. Milledgeville.

HOLLIS, t. and p. v., York co., *Me.*: 69 m. S. W. Augusta. Drained by affluents of Saco r., which is its E. border, and Ossipee r. runs along its N. border. Surface diversified; soil generally fertile, with some fine meadows. The rivers afford excellent mill-sites. The v. lies on Saco r., opposite Buxton, with which it is connected by a bridge. The York and Cumberland R. R. crosses the t. and r. a little to the N. Lumber is extensively manufactured, and there are potteries etc. Pop. of t. 2,658.

HOLLIS, p. v., Peoria co., *Ill.*: 54 m. S. by E. Springfield.

HOLLIS, t. and p. o., Hillsboro' co., *N. Hamp.*: 35 m. S. Concord. Drained by Nashua and its tributaries, and ponds and other streams of Merrimac river. There is much fine farming land in the t., which is well cultivated. The v. lies centrally. Pop. of t. 1,293.

HOLLIS CENTRE, p. o., York county, *Me.*: 71 m. S. W. Augusta.

HOLLISTER'S MILLS, p. o., Holt co., *Mo.*: 204 m. N. W. Jefferson City.

HOLLISTON, t. and p. v., Middlesex co., *Mass.*: 25 m. W. S. W. Boston. Drained by a branch of Charles river. The v. is situate centrally, and there is a station on the Milford Branch R. R. The t. has considerable manufactures. Pop. 2,423.

HOLLOW CREEK, p. o., Lexington dist., *S. Car.*: on a creek of Saluda r. so called, 27 m. W. Columbia. Population, 1,912.

HOLLOW SQUARE, p. o., Greene co., *Ala.*: 98 m. W. N. W. Montgomery.

HOLLY CREEK, p. o., Murray co., *Ga.*: on a creek of Oostanaula r. so called, 147 m. N. W. Milledgeville.

HOLLY GROVE, p. o., Walker co., *Ala.*: 139 m. N. W. Montgomery.

HOLLY GROVE, p. o., Stewart co., *Ga.*: 126 m. S. W. Milledgeville.

HOLLY HILL, p. o., Charleston dist., *S. Car.*

HOLLY POINT, p. o., Drew county, *Ark.*: 97 m. S. S. E. Little Rock.

HOLLY RETREAT, p. o., Wilkinson co., *Miss.*: 108 m. S. W. Jackson.

HOLLY SPRING, p. v., Wake co., *N. Car.*: 16 m. N. N. W. Raleigh.

HOLLY SPRING, p. o., Dallas co., *Ark.*: 64 m. S. by W. Little Rock.

HOLLY SPRINGS, p. v., and cap. Marshall co., *Miss.*: on an elevated site or watershed dividing the streams, 163 m. N. by E. Jackson. It contains a court-house, jail, several stores, and about 600 inhabitants. Its success is prospective, but there is every reason to believe that it will shortly become a great railroad and business centre, as it lies on the routes of several projected lines of important roads. Two newspapers, the "H. S. Gazette" (whig), and the "Jacksonian" (dem.), are issued weekly. Pop. about 600.

HOLMDEL, p. v., Monmouth co., *N. Jer.*: 33 m. E. by N. Trenton. It is a small v. on an affluent of Navesink r., and contains about 20 dwellings.

HOLMES county, *Flor.* Situate N. W., and contains 732 sq. m. Choctawatchie r. runs S. through it, and it is drained by its branches. Surface mostly even, with some considerable elevations; soil on the streams fertile, and much covered with pine. Cotton is the staple. Farms 193; manuf. 0; dwell. 267, and pop.—wh. 1,431, fr. col. 0, sl. 163—total 1,644. *Capital*: Cerro Gordo.

HOLMES county, *Miss.* Situate N. centrally, and contains 376 sq. m. Yazoo r. bounds it W., and Big Black r. E., by branches of which it is drained. Surface various, and soils excellent. It possesses much good water-power, a part of which is improved, and raises large numbers of cattle and swine. The principal business is the culture of cotton, for which the soil is very favorable. Farms 640; manuf. 21; dwell. 995, and pop.—wh. 5,537, fr. col. 4, sl. 8,377—total 13,918. *Capital*: Lexington.

HOLMES county, *Ohio*. Situate E. centrally, and contains 439 sq. m. Surface diversified, and in parts broken; soils of excellent quality, equally adapted to grass and grain. It has numerous manufactures, and raises many cattle, sheep, and swine. Farms 2,171; manuf. 122; dwell. 3,436, and pop.—wh. 20,443, fr. col. 4—total 20,452. *Capital*: Millersburg. *Public Works*: Millersburg Extension of the Akron and Hudson R. R.; Ohio and Pennsylvania R. R.

HOLMES' BAY, p. o., Washington co., *Me.*

HOLMESBURGH, p. v., Philadelphia co., *Penn.*: on Penny-pack cr., 96 m. E. Harrisburg, and 9 m. N. Philadelphia. The cr. is navigable to Lewis' Mill, in the neighborhood. Pop. about 400. There is a mill here erected 1697, and built of stone.

HOLMES' HOLE, p. v., Dukes co., *Mass.*: on the W. side of the bay so called, 69 m. S. S. E. Boston. The village has about 400 inhabitants. Holmes' Hole is an important harbor on the N. side of Martha's Vineyard, deep enough for the largest class of vessels, and secure. It is much resorted to by mariners when the winds are unfavorable to rounding Cape Cod, and as a port of refuge it has no superior. The inhabitants have a number of vessels, chiefly employed in coasting and the fisheries.

HOLMES' VALLEY, p. v., and cap. Washington co., *Flor.*: 94 m. W. Tallahassee. Situate on Holmes' creek, which empties through Choctawatchie r. into the bay of the same name. It has a court-house and about 60 inhabitants.

HOLMESVILLE, p. v., and cap. Appling co., *Ga.*: on a branch of Little Santilla river, 107 miles S. E. Milledgeville. It contains a court-house, jail, etc., and about 160 inhabitants.

HOLMESVILLE, p. v., Avoyelles par., *La.*: on the W. bank of Bayou Têche, 73 m. N. W. Baton Rouge.

HOLMESVILLE, p. v., and cap. Pike co., *Miss.*: on the W. side of Bogue Chitto r., 72 m. S. Jackson. It has a court-house, and contains about 600 inhabitants. The "Temperance Banner" is a weekly newspaper, published here.

HOLMESVILLE, p. v., Holmes county, *Ohio*: 71 m. N. E. Columbus.

HOLSTON, p. v., Washington co., *Virg.*: on Holston r., 279 m. W. S. W. Richmond.

HOLSTON SPRINGS, p. v., Scott co., *Virg.*: 292 m. W. S. W. Richmond.

HOLSTON VALLEY, p. o., Sullivan co., *Tenn.*: 253 m. E. Nashville.

HOLT county, *Mo.* Situate N.W., and contains 442 sq. m. Drained by Nodaway r., which bounds it E., and Big and Little Tarkio rivers, all affluents of Missouri r., which is its W. boundary. Surface off the rivers, level or rolling; on the Missouri are bluffs or high grounds. Soil productive, and well adapted to grazing. Farms 305; manuf. 5; dwell. 614, and pop.—wh. 3,327, fr. col. 3, sl. 127—total 3,957. *Capital*: Oregon.

HOLT'S STORE, p. o., Orange co., *N. Car.*: 47 m. N. W. Raleigh.

HOLY NECK, p. o., Nansemond co., *Virg.*: 76 m. S. E. Richmond.

HOLYOKE, t. and p. v., Hampden co., *Mass.*: 92 m. W. Boston. Taken from N. part of West Springfield, and formerly called Ireland Parish. Drained by several creeks flowing to Westfield r., and the Connecticut forms its E. boundary. Surface, except on the Connecticut, hilly; soil generally fertile. The v. is situate opposite South Hadley Falls, and dates back only a few years. It is intended to make it a large manufacturing place, and for this purpose a dam has been thrown across the river, securing to it an immense water-power. The v. will be built up by Boston capital, and already between four and five million dollars are invested in the enterprise. The manufactures are chiefly cotton, and there is also a very extensive machine shop here, at which the mill machinery is built. The "Hampden Freeman" (whig), is issued weekly. Pop. of t. 3,245.

HOLYOKE mountain, Hampshire co., *Mass.*: a range of mountains, terminating in a high peak on the E. side of Connecticut river, opposite Mount Tom, and is, in fact, the same range as the latter, broken through by the Connecticut. Its greatest elevation is about 1,000 feet. Its faces on the river, and toward the N. are very steep and precipitous, and generally well wooded.

HOMASASSA, p. v., Benton co., *Flor.*: at the head of the river so called, 158 m. S. E. Tallahassee.

HOME, p. o., Indiana county, *Penn.*: 123 m. W. N. W. Harrisburg.

HOME, p. v., Jefferson co., *Ind.*: 86 m. S. E. Indianapolis.

HOME, p. o., Van Buren county, *Ind.*: 73 m. S. by W. Iowa City.

HOMER, p. o., Champaign county, *Ill.*: 90 m. E. N. E. Springfield.

HOMER, t. and p. v., Calhoun county, *Mich.*: 42 m. S. by W. Lansing. Drained by S. branch of Kalamazoo r., which has large water-power. Surface generally level—sometimes marshy; soil fertile. The v. is a thriving settlement on the r., and has about 800 inhabitants. Pop. of t. 929.

HOMER, t. and p. v., Cortlandt county, *N. Y.*: 122 m. W. Albany. Drained by Tionghnioga cr. and its tributaries. Surface level; soil sandy and clay loam. The v. on the W. bank of the creek has numerous mills, factories, and mechanic shops, with stores, etc., and a population of 1,600 souls. The "Cortlandt County Whig" is published weekly. The t. is also largely engaged in manufactures. Pop. 3,836.

HOMER, p. o., Potter co., *Penn.*: 137 m. N. W. Harrisburg.

HOMER, p. v., Licking co., *Ohio*: on the N. fork of Licking river, 81 m. N. E. Columbus. It contains several mills, mechanic shops, stores, etc., and about 400 inhabitants.

HOMER, p. v. and cap. Claiborne par., *La.*: on the E. side of Bayou Dorchet, 194 m. N. W. Baton Rouge.

HOMERVILLE, p. v., Medina county, *Ohio*: 84 m. N. N. E. Columbus.

HOME SPRING, p. o., Holmes co., *Flor.*: 108 m. W. N. W. Tallahassee.

HOMEWOOD, p. o., Scott county, *Miss.*: 42 m. E. N. E. Jackson.

HOMMENY CREEK, p. o., Buncombe co., *N. Car.*: 232 m. W. Raleigh.

HONEOYE, p. v., Ontario co., *N. Y.*: at the foot of Honeoye Lake, 189 m. W. by N. Albany. It has several mills and

workshops, and about 200 inhabitants. Honeoye Lake is about 5 m. long and 1 m. wide, and is a beautiful sheet of water.

HONEOYE FALLS, p. v., Monroe co., *N. Y.*: on Honeoye cr., 192 m. W. by N. Albany. The cr. has here a fall of 100 feet in 2 m., of which 30 feet is a perpendicular fall in the centre of the village. It is the seat of numerous industrial establishments, furnaces, woolen factories, flouring mills, etc., and contains about 1,400 inhabitants. In the vicinity there is abundance of fine building stone.

HONEDALE, p. b., and former cap. Wayne co., *Penn.* at the confluence of Dyberry and Lackawaxen creeks, 127 m. N. E. Harrisburg. It is the junction point of several railroads and canals, and may be considered as the W. terminus of the Delaware and Hudson Canal. It is a comparatively new place—in 1840 it contained 1,086 inhabitants, and in 1850, 2,268. Two newspapers are published here, the "Wayne County Herald" (whig), and the "H. Democrat" (dem.), both weekly issues. The borough has some important manufactures.

HONEY BROOK, t. and p. o., Chester co., *Penn.*: 54 m. E. by S. Harrisburg. Drained by branches of Brandywine river. Surface generally level; soil sandy loam. There are several mills, tanneries, stores, etc., in the t. Pop. 1,929.

HONEY CREEK, p. o., McDonald co., *Mo.*: in the S. W. corner of the State, 196 m. S. W. Jefferson City.

HONEY CREEK, p. o., Walworth co., *Wisc.*: on Honey cr. of Fox river, 62 m. E. S. Madison.

HONEY CUT, p. o., Baldwin co., *Ala.*: 156 m. S. S. W. Montgomery.

HONEY GROVE, p. o., Fannin co., *Tex.*: on Honey Grove cr. of Bois d'Arc r., 284 m. N. N. E. Austin City.

HONEY POINT, p. o., Macoupin co., *Ill.*: 47 m. S. by W. Springfield.

HONEY TOWN, p. v., Dale county, *Ala.*: 97 m. S. S. E. Montgomery.

HONEYVILLE, p. v., Page co., *Virg.*: on Shenandoah r., 96 m. N. W. Richmond.

HOOD'S MILLS, p. v., Carroll co., *Ind.*: on the W. branch of Patapsco r., and on the line of the Baltimore and Ohio R. R., 35 m. W. Baltimore, and 86 m. N. W. Annapolis.

HOODSVILLE, p. v., Marion county, *Virg.*: 208 m. N. W. Richmond.

HOOKER, p. o., Hunt county, *Tex.*: 256 m. N. N. E. Austin City.

HOOKERSTOWN, p. v., Greene co., *N. Car.*: on the W. side of Contentnea cr. of Neuse r., 63 m. E. S. E. Raleigh.

HOOKERSTOWN, p. v., Beaver co., *Penn.*: on a branch of Mill cr., 212 m. W. Harrisburg. Pop. about 250.

HOOKSET, t. and p. v., Merrimac co., *N. Hamp.*: 11 m. S. by E. Concord. Drained by Merrimac r., which runs through it, and has within the t. a descent of 16 feet in 18 rods, around which is a canal a quarter of a mile long. The v. is situate on the W. side of the r., and on the line of the Concord R. R., 9 m. S. Concord. In the t. there are several large cotton and other manufactures, and there is plenty of power for their expansion. Pop. 1,503.

HOOKSTOWN, p. v., Baltimore county, *Md.*: 81 N. by W. Annapolis.

HOOSICK, p. v., Greene county, *Wisc.*: 83 m. S. by W. Madison.

HOOSICK, t. and p. o., Rensselaer co., *N. Y.*: 24 m. N. E. Albany. Drained by Hoosick r. and its tributaries. Surface hilly; soil clay, sand, and loam, with some gravel, well adapted to grazing. The t. has several extensive mills and factories. In Hoosick the various railroads from Albany and Troy to Rutland, etc., north, and to Boston, etc., east, form junctions. The Troy and Boston R. R. passes through an immense tunnel, driven through the Hoosick Mountains, in the south part of the town. Pop. 3,724.

HOOSICK FALLS, p. v., Rensselaer co., *N. Y.*: on both sides of Hoosick r., 26 m. N. E. Albany. The r. here has a fall of 40 feet, affording immense water-power. The manu-

factures carried on are considerable, and the v. contains at least 600 inhabitants.

HOOSICK mountain, *Mass.*: lies in Berkshire co., and is the source of a branch of Hoosick r. Its elevation is from 1,500 to 2,000 feet from its base. The Troy and Boston R. R. will pass through a tunnel in this mountain.

HOOSICK (or Hoosack) river: rises from two heads, one having its sources in Berkshire co., *Mass.*, and the other in the mountain tracts of Bennington co., *Verm.*; these unite near Hoosick Falls in New York, and the single stream meets the Hudson at Schaghticoke, 15 m. N. Troy. This stream in many places is exceedingly rapid, and affords immense water-power.

HOOSIER GROVE, p. o., Linn co., *Ia.*: 14 m. N. Iowa City.

HOOSIER GROVE, p. v., Greene co., *Wisc.*: 43 m. S. by W. Madison.

HOOTENSVILLE, p. v., Upson co., *Ga.*: on the E. side of Flint r., 63 m. W. by S. Milledgeville.

HOOPER HILL, p. o., Randolph co., *N. Car.*: 72 m. W. Raleigh.

HOOPER'S POINT, p. o., Macoupin co., *Ill.*

HOPALKA, p. v., Leake co., *Miss.*: 53 m. N. E. Jackson.

HOPE, p. o., Stewart county, *Tenn.*: 65 m. W. N. W. Nashville.

HOPE, p. v., Pickens county, *Ala.*: on Lubbub cr. of Tombigbee r., 183 m. N. W. Montgomery.

HOPE, p. v., Bartholomew co., *Ind.*: on the S. side of Haw cr., 37 m. S. S. E. Indianapolis. It was originally settled by the Moravians, and now contains about 300 inhabitants.

HOPE, t. and p. v., Waldo county, *Me.*: 81 m. E. S. E. Augusta. Drained by St. George's r. and its tributaries, and there are several small ponds in the town. Surface flat and soil sandy, but not unfertile. The village is in the E. part. Pop. of t. 1,107.

HOPE, t. and p. v., Warren co., *N. Jer.*: 51 m. N. N. W. Trenton. Drained by Beaver and other creeks, affluents of Delaware r. The v. is on a branch of Beaver, and contains about 300 inhabitants. Pop. of t. 1,756.

HOPE, t. and p. v., Hamilton co., *N. Y.*: 53 m. N. W. Albany. Drained by Sacandaga r. and its tributaries, Stony creek, etc. Surface varied; soil, except on the rivers, not very fertile. Hope village lies on the E. side of Sacandaga river, below the confluence of Stony cr. Pop. of t. 759.

HOPE, p. v., Franklin co., *Ohio*: 17 m. N. E. Columbus.

HOPE CENTRE, p. v., Hamilton co., *N. Y.*: on the E. side of Sacandaga r., 55 m. N. W. Albany.

HOPEDALE, p. v., Harrison co., *Ohio*: 102 m. E. by N. Columbus.

HOPEDALE COMMUNITY settlement, Worcester co., *Mass.*: contains a population of 180 souls. The association owns 500 acres of land, and carries on a dozen different branches of industry. It is represented to be in a flourishing and harmonious condition.

HOPE FALLS, p. o., Hamilton county, *N. Y.*: 53 m. N. E. Albany.

HOPE FARM, p. o., Louisa county, *Ia.*: 36 m. S. S. E. Iowa City.

HOPE HILL, p. o., Pike co., *Miss.*: 73 m. S. Jackson.

HOPE HILL, p. o., Gibson county, *Tenn.*: 122 m. W. by S. Nashville.

HOPE MILL, p. o., Maury county, *Tenn.*: 42 m. S. by W. Nashville.

HOPE MILLS, p. o., Page co., *Virg.*: on Shenandoah r., 100 m. N. W. Richmond.

HOPE STATION, p. o., Lexington dist., *S. Car.*: on the line of the Greenville and Columbia R. R., 29 m. from Columbia.

HOPWELL, p. v., Mahaska county, *Ia.*: 64 m. W. S. W. Iowa City.

HOPWELL, p. v., Greene county, *Ala.*: 93 m. W. N. W. Montgomery.

HOPWELL, p. v., Crawford co., *Ga.*: 49 m. W. S. W. Milledgeville.

HOPWELL, p. o., Chickasaw co., *Miss.*: 108 m. N. N. E. Jackson.

HOPWELL, t. and p. o., Mercer co., *N. Jer.*: 16 m. N. Trenton. Drained by tributaries of Raritan river. Surface moderately uneven; soil good for wheat and grass. The t. has several grist, saw, and oil mills, etc., and 3,696 inhabitants.

HOPWELL, t. and p. v., Ontario county, *N. Y.*: 172 m. W. by N. Albany. Drained chiefly by tributaries of Canandaigua outlet. Surface rolling; soil, clay loam. The v. is a station on the Canandaigua and Elmira R. R., 8 miles E. by S. of the former place. The t. has some manufactures. Pop. 1,923.

HOPWELL, p. v., Mecklenburg county, *N. Car.*: 127 m. W. S. W. Raleigh.

HOPWELL, t. and p. o., Muskingum co., *Ohio*: 45 m. E. Columbus. Drained by Licking creek and its tributaries. Surface diversified; soil sandy loam and alluvion. The village is on the National Road, and contains about 150 inhabitants. Pop. of t. 2,838.

HOPWELL, p. v., Macon co., *Ill.*: 42 m. E. Springfield.

HOPWELL, t. and p. v., Bedford county, *Penn.*: 38 m. W. Harrisburg. Drained by Raystown branch of Juniata river and its tributaries. Surface mountainous; soil, chiefly calcareous loam. Bituminous coal is abundant. Pop. 1,392.

HOPWELL, p. v., Jennings co., *Ind.*: on a cr. of Muscatatuk r., 66 m. S. S. E. Indianapolis.

HOPWELL, p. v., York district, *S. Car.*: 86 m. N. Columbia.

HOPWELL, p. o., Upshur county, *Tex.*: 248 m. N. E. Austin City.

HOPWELL COTTON-WORKS, p. o., Chester co., *Penn.*: 67 m. E. S. E. Harrisburg.

HOPWELL CROSS ROADS, p. o., Harford co., *Md.*: on the main road between Baltimore and Philadelphia, where it is crossed by the Havre de Grace road, 4 m. W. of Susquehanna r., and 6 m. N. W. Havre de Grace. Large droves of cattle for the Eastern market pass this point.

HOPKINS county, *Ky.* Situate W., and contains 628 sq. m. Drained by Green r., its N. E. boundary, Deer and Otter creeks, and Pond r., its branches, the last forming its E. boundary, and S. by Clear cr., an affluent of the Ohio. Surface moderately uneven; soil very good, and in parts timbered. Tobacco is the staple, corn and wheat yield well, and much pork is raised. Farms 1,354; manuf. 10; dwell. 1,738, and pop.—wh. 10,199, fr. col. 50, sl. 2,192—total 13,441. *Capital*: Madisonville. *Public Works*: Nashville and Henderson R. R.

HOPKINS county, *Tex.* Situate N. E., and contains 1,064 sq. m. Drained N. by the S. fork of Sulphur r. and White Oak Bayou, affluents of Red r., and S. by heads of Lake Fork of Sabine r. Surface slightly uneven, and in the N. prairie; soil mostly very fertile, generally covered with a dense growth of timber, and when cleared gives great returns of cotton and corn. Farms 221; manuf. 0; dwell. 435, and pop.—wh. 2,469, fr. col. 0; sl. 154—total 2,623. *Capital*: Tarrant.

HOPKINS' GROVE, p. o., Polk co., *Ia.*: a little E. of Des Moines r., 117 m. S. W. Iowa City.

HOPKINS' TURN OUT, p. o., Richland dist., *S. Car.*: on the Columbia Branch of the South Carolina R. R., 11 m. S. E. Columbia.

HOPKINSVILLE, p. v., and cap. Christian co., *Ky.*: on Little r., 163 m. S. W. Frankfort. It contains a court-house, jail, etc., 7 or 8 churches, several academies, numerous stores and mechanic shops, and about 1,800 inhabitants; and it has two newspapers, the "People's Press" (dem.), and the "Green River Whig," both weekly issues. It lies on the proposed railroad line from Nashville to Henderson.

HOPKINSVILLE, p. v., Warren co., *Ohio*: about a mile E. of the Little Miami R. R., 76 m. S. W. Columbus. It contains about 250 inhabitants.

HOPKINTON, t. and p. v., Middlesex co., *Mass.*: 27 m.

W. S. W. Boston. Drained by branches of Charles and Mill rivers, which have some mill-sites. Surface rough; soil indifferent, but well cultivated. The Boston and Worcester R. R. runs on its N. border. Hopkinton mineral springs are much visited in the summer, and are said to be remedial. The v. is situate centrally. Pop. of t. 2,802.

HOPKINTON, t. and p. v., Merrimac co., *N. Hamp.*: 7 m. W. Concord. Drained by Contoocook r. and its branches, Warner and Blackwater rivers. Surface diversified; soil on the rivers fertile. The principal v. contains the county jail. Contoocookville and West Hopkinton are flourishing villages on the W. side of Contoocook r. and on the line of the Contoocook Valley R. R. The Concord and Claremont R. R. also passes through the town. Immense water-power is furnished by the rivers, and manufactories have been established in all the villages. Pop. of t. 2,169.

HOPKINTON, t. and p. v., St. Lawrence co., *N. Y.*: 140 m. N. N. W. Albany. Drained by the Racket and St. Regis rivers. Surface in the S. hilly and sterile, and in the N. level and fertile. The t. is about 85 m. long from N. to S., and about 8 m. wide; but is scarcely inhabited in the S. part. The v. in the N. part of the t. contains about 200 inhabitants. In the t. there are numerous grist and saw mills, tanneries, etc. Pop. 1,470.

HOPKINTON, t. and p. v., Washington co., *R. I.*: 82 m. S. W. Providence. Drained by Wood r. and other affluents of Charles and Pawcatuck rivers, which afford valuable water-power. Surface low and level; soil fertile, adapted to grain and grazing. The t. has cotton, woolen, and iron manufactures. The celebrated Brand's Iron Works are on Wood river. Hopkinton City is a flourishing v. on a branch of Charles r., in the S. part of the town. Pop. 2,478. Pawcatuck r. has productive fisheries of shad and alewives.

HOPPER'S MILLS, p. o., Henderson co., *Ill.*: 98 m. N. W. Springfield.

HORICON, t. and p. v., Warren county, *N. Y.*: 67 m. N. Albany. Drained by numerous lake creeks. Brandt Lake is wholly within this t., and Schroon Lake partly so—both have their outlets in the Schroon r., which bounds it on the W. Surface hilly and mountainous; soil indifferent, except on the alluvials of the streams. The v. lies in the S. part, and is a small agricultural settlement. Pop. of t. 1,152.

HORICON, p. v., Dodge co., *Wisc.*: on Rock r., 49 m. N. E. Madison.

HORNBECK, p. o., Bradford county, *Penn.*: 109 m. N. Harrisburg.

HORNBY, t. and p. v., Steuben co., *N. Y.*: 164 m. W. by S. Albany. Drained by creeks of Conchocton rivers. Surface somewhat hilly; soil of average fertility. Pop. 1,814.

HORNELLVILLE, t. and p. v., Steuben co., *N. Y.*: 196 m. W. by S. Albany. Drained by Canisteo r. and its tributaries. Surface hilly and broken, but mostly arable. The v. lies on the Canisteo r., on the line of the New York and Erie R. R., and at the point where the Buffalo and New York City R. R. diverges. There are large workshops here, several stores, and about 1,200 inhabitants. Pop. of t. 2,637.

HORNERSTOWN, p. v., Ocean co., *N. Jer.*: 39 m. S. E. Trenton.

HORNER'S NEST, p. o., Mecklenburgh co., *N. Car.*: 183 m. W. S. W. Raleigh.

HORNESBOROUGH, p. v., Chesterfield dist., *S. Car.*: 79 m. N. E. Columbia.

HORNTOWN, p. v., Accomac co., *Virg.*: 112 m. E. by N. Richmond.

HORRY DISTRICT, *S. Car.* Situate E., and contains 1,071 sq. m. Lies on the Atlantic Ocean, which is its S. E. boundary, and drained by Waccamaw r., which crosses the county from N. E. to S. W., and branches of Little Pee Dee r., which forms its W. boundary. Surface low and level; soil of moderate fertility, consisting in parts of marshes well adapted to rice growing. Corn, rice, and cotton are staples.

Farms 731; manuf. 7; dwell. 980, and pop.—wh. 5,521, fr. col. 50, sl. 2,075—total 7,646. *Capital*: Conwayboro'.

HORSE CREEK, p. o., Lexington dist., *S. Car.*

HORSE CREEK, p. o., Dade county, *Mo.*: 123 m. S. W. Jefferson City.

HORSE CREEK, p. o., Will county, *Ill.*: 123 m. N. E. Springfield.

HORSE CREEK, p. o., Greene county, *Tenn.*: 226 m. E. Nashville.

HORSE CREEK, p. o., Rutherford co., *N. Car.*: 188 m. W. S. W. Raleigh.

HORSE HEAD, p. o., Johnson co., *Ark.*: on a creek of Arkansas r. so called, 91 m. W. N. W. Little Rock.

HORSE HEAD, p. o., Macon county, *Ga.*: 76 m. S. W. Milledgeville.

HORSE HEAD, p. o., Prince George's co., *Md.*

HORSE PASTURE, p. o., Henry co., *Virg.*: 148 m. W. S. W. Richmond.

HORSE PEN, p. o., Choctaw co., *Miss.*: 97 m. N. N. E. Jackson.

HORSE SHOE, p. o., Pickens dist., *S. Car.*: on a fork of Tugaloo r., 144 W. N. W. Columbia.

HORSE SHOE BEND, p. o., Tallapoosa co., *Ala.*: on the Tallapoosa river, at the bend so called, 42 m. N. E. Montgomery.

HORSE SHOE BOTTOM, p. o., Russell co., *Ky.*: on the S. side of Cumberland r., 87 m. S. Frankfort.

HORSEHAM, t. and p. v., Montgomery co., *Penn.*: 97 m. E. Harrisburg. Drained by Neshaminy and Pennypack creeks. Surface level; soil calcareous loam. The v. called Horseham Square, in the centre of the t., has a Friend's meeting-house, and about a dozen dwellings. Pop. of t. 1,209.

HORSEY'S CROSS ROADS, p. o., Sussex co., *Del.*: 37 m. S. Dover.

HORTON'S VALLEY, p. o., Russell county, *Virg.*: 278 m. W. S. W. Richmond.

HORTONVILLE, p. v., Brown co., *Wisc.*: 118 m. N. N. E. Madison.

HOSKINSACK, p. o., Lehigh co., *Penn.*: 82 m. E. N. E. Harrisburg.

HOSKINSVILLE, p. v., Morgan co., *Ohio*: 69 m. E. by S. Columbus.

HOTCHKISSVILLE, p. o., Litchfield co., *Conn.*: between the branches of Pamperang r., 32 m. W. S. W. Hartford. It is a small manufacturing village of some 800 inhabitants.

HOTEL, p. o., Bertie co., *N. Car.*: 101 m. E. Raleigh.

HOT HOUSE, p. o., Gilmer county, *Ga.*: 137 m. N. W. Milledgeville.

HOT SPRINGS county, *Ark.* Situate S. centrally, and contains 969 sq. m. Drained centrally and W. by Washita r., and E. by Saline r., a branch of the Washita, and the E. line of the co. Surface high and broken, with level river bottoms; soils fertile, excellent corn land, and the best of pasturage. Cattle and grain are the staples. It contains vast deposits of coal and celebrated hot mineral springs. Farms 820; manuf. 10; dwell. 579, and pop.—wh. 3,237, fr. col. 11, sl. 361—total 3,609. *Capital*: Rockport. *Public Works*: Little Rock and Shreveport R. R.

HOT SPRINGS, p. v., and former cap. Hot Springs co., *Ark.*: 47 m. W. S. W. Little Rock. It is a v. of some 200 inhabitants. Here are a large number of hot springs breaking from the W. side of a mountain, and flowing into a small cr. of the Washita r., which is 6 m. S. of the Springs. The temperature of the several springs vary from 110° to 150° Fahr. About 3 m. N. E. are the chalybeate springs, the waters of which are cold; and in Montgomery co., about 30 m. W. by N., are also sulphur springs. The whole neighborhood is of volcanic formation, and affords fine scenery, which, in conjunction with the remedial properties of the waters, have a happy effect on the broken-down constitution.

HOT SPRINGS, p. v., Bath co., *Virg.*: 123 m. W. N. W.

Richmond. Here is a fashionable watering-place, with every accommodation for travel or sojourn. Dr. Rogers's analysis of 64 cubic inches of the water gives the solid matters contained therein as follows—carbonate of lime, 4.82 grains; sulphate of lime, 1.52; sulphate of soda, 0.92; sulphate of magnesia, 0.57; muriate of soda, 0.87; and silica, 0.05. There are six baths, and the hot pool or bath ranges from 100° to 107° Fahr. There is a hot spout for ladies, and one for gentlemen, of the temperature of 106° Fahr., with a fall of about 5 feet. The efficacy of these spouts in cases of local physical derangement is well established—their curative properties being much more rapid in action than if not thermal.

HOUCK'S STORE, p. o., Carroll co., *Md.*

HOUGH'S STORE, p. o., Jasper co., *Miss.*: 66 m. E. by S. Jackson.

HOUGHTON county, *Mich.* Situate on the Upper Peninsula, in the extreme N., and contains 1,910 sq. m. It consists principally of a large peninsula, extending N. E. into Lake Superior, between which and the S. part lies a large bay, bearing the same name—Keewaiwona Bay. It has many small streams flowing into the bay, and lake—on the E. side Yellow Dog, Pine, Huron, Sturgeon, Russell's, and Tobacco rivers; on the N. and W., Lower Montreal, Eagle, Salmon Trout, Elm, Misery, and Sleeping rivers. Surface much diversified, parts being rough and rocky, and parts cut up by numerous inlets of the lake. It has many lakes or ponds, the largest of which, Portage Lake, extends across the peninsula to a mile of the N. W. coast, over which the Indians and hunters carry their canoes—whence the name. The agricultural resources of the co. have been little examined as yet. It has much good timber and water-power. But its chief wealth is in its minerals, principally copper. Here, in immense masses, the purest and best of copper is found. The mines are of indefinite extent, and of surprising richness, and the amount exported is immense, though but a small part is yet wrought. Farms 18; manuf. 5; dwell. 116, and pop.—wh. 707, fr. col. 1—total 708. *Capital*: Eagle River. *Public Works*: Green Bay and Copper Harbor R.R.

HOUGHTONVILLE, p. v., Windham co., *Verm.*: 93 m. S. Montpelier.

HOULKA, p. o., Chickasaw co., *Miss.*: 123 m. N. N. E. Jackson.

HOULTON, t. p. v., and cap. Aroostook co., *Me.*: 163 m. N. E. Augusta. It lies on the New Brunswick boundary. Drained by Meduxnekeag r., a branch of the St. John. Surface elevated and level; soil generally fertile. The v. is located on the E. bank of the r., and about a mile N. is the old United States barracks. Stages from Bangor run daily. Pop. 1,453—in 1840 it was 1,597—decrease consequent on the abandonment of the garrison.

HOUMA, p. v., and cap. Terre Bonne par., *La.*: on Bayou Terre Bonne, 64 m. S. S. E. Baton Rouge.

HOUSATONIC, p. v., Berkshire co., *Mass.*: on the W. side of Housatonic r., and on the line of the Housatonic R. R., 90 m. from Bridgeport.

HOUSATONIC river, *Mass. and Conn.*: rises by two branches in the towns of Lanesboro' and Windsor, Berkshire co., Mass., and these meet at Pittsfield, where the river forms; it then passes S., and enters Connecticut, and meets the tide 14 m. above its entrance into Long Island Sound. Its sources are more than 1,000 feet above the ocean; and in its course of 150 miles it affords numerous mill sites, and has on its banks many pleasant villages and seats of manufacturing industry. The volume of water is not ordinarily large, but in seasons of flood its valley is inundated, and the soil fertilized by the alluvion deposited by the waters. The scenery is everywhere beautiful; in some places it is enchanting. At Canaan there is a fall of 60 feet perpendicular. The name of the river, an Indian appellation, signifies "over the mountains."

HOUSE CREEK, p. o., Irwin co., *Ga.*: on a cr. of Ockmulgee r. so called, 88 m. S. Milledgeville.

HOUSE'S SPRINGS, p. o., Jefferson co., *Mo.*: about 2 m. E. Big r., and 87 m. E. by S. Jefferson City.

HOUSEVILLE, p. v., Lewis co., *N. Y.*: 103 m. N. W. Albany.

HOUSTON county, *Ga.* Situate S. W. centrally, and contains 549 sq. m. Bounded E. by Ockmulgee r., and drained by its affluents Big Indian and Mossy creeks and Echeconno r. Surface various; soils very fertile and productive of corn, wheat, and cotton. Farms 750; manuf. 23; dwell. 1,138, and pop.—wh. 6,512, fr. col. 14, sl. 9,924—total 16,450. *Capital*: Perry. *Public Works*: South-Western R. R., and Muscogee R. R.

HOUSTON county, *Tex.* Situate E. centrally, and contains 1,362 sq. m. It lies between Neches r. on the E. and Trinity r. on the W., and is drained by Elkhart cr., Hurricane Bayou, Carigo, Lost, Negro, Wright's, and White Rock creeks of the latter, and San Pedro, Walnut, and Connor's creeks, and Cochino Bayou of the former. Surface level, or gently undulating; soil on the Trinity of the best in the State, on the Neches rather lighter and more sandy. Hickory uplands cover much of the co., and afford rich corn and cotton lands. Petrified trees are frequently met with, and iron ore of good quality is found. Cotton is the staple. Farms 192; manuf. 0; dwell. 357, and pop.—wh. 2,036, fr. col. 12, sl. 673—total 2,721. *Capital*: Crockett.

HOUSTON, p. v., Heard co., *Ga.*: 113 m. W. by N. Milledgeville.

HOUSTON, p. o., Jackson co., *Ind.*: on a branch of Salt cr., 51 m. S. Indianapolis.

HOUSTON, p. v., Adams county, *Ill.*: 78 m. W. N. W. Springfield.

HOUSTON, p. v., Marion co., *Mo.*: a little N. of South Fabius r., 96 m. N. by E. Jefferson City.

HOUSTON, p. o., and cap. Chickaw co., *Miss.*: on the head of Chuckaluckee cr. of Tombigbee r., 127 m. N. E. Jackson. It contains a court-house, jail, etc., and about 600 inhabitants; and three newspapers are published here, the "Southern Argus" (state rights), the "Southern Patriot" (whig), and the "Chickasaw Republican" (dem.), all weekly issues. Houston is a thriving v., and has a fine neighborhood.

HOUSTON, p. v., Shelby county, *Ohio*: 71 m. W. N. W. Columbus.

HOUSTON, p. o., Alleghany county, *Penn.*: 173 m. W. Harrisburg.

HOUSTON, p. v., Wayne co., *Tenn.*: on Indian cr. of Tennessee r., 85 m. S. S. W. Nashville.

HOUSTON, p. v., and cap. Harris co., *Tex.*: on Buffalo Bayou, at the head of steam navigation and directly opposite White Oak Bayou, 153 m. E. S. E. Austin City. It was commenced in October, 1836, and in November the old capitol was founded, and in the May following Congress held its first session in that building. In front of the city is a fine wharf 500 feet long, affording ample accommodation for its business. This wharf is flanked by two cotton presses, erected by individual enterprise. The public buildings are Episcopal, Presbyterian, Baptist, Catholic, and Methodist churches, each denomination one, a good market-house, and a jail. Regular stages run twice a week for Austin and San Antonio, and for Nacogdoches and the Sabine. There is a very large country business transacted, and several of its merchants have acquired large fortunes. The heavy business is done chiefly on Main Street, which faces the wharves on the bayou. There are in the city 16 large firms that advance capital to planters, and are reimbursed by the next crops. There are also many engaged in the grocery and provision business, and several extensive commission merchants, druggists, warehousemen, etc. Houston possesses superior advantages for manufacturing, and may at some future time become important in that branch of industry. At present all her manufactured articles are purchased from the North and carried in steamboats up the bayou. There are five newspapers published here, the "Morning Star" (dem.), tri-weekly, and the "Telegraph and Texas Register" (dem.), the "Houston Gazette" (dem.)

the "Commercial Advertiser" (whig), and the "Wesleyan Banner" (relig.), all weekly issues. It is proposed to build a branch railroad, 50 m. long, from this point to the Brazos Valley, where it will form a junction with the Red River and Galveston R. R. Pop. 2,396. Houston takes its name from Gen. Sam Houston, leader of the Texan army during the revolution—her first president as an independent state, and one of her present senators—a man, a soldier, and a statesman, worthy of the highest honors that the people can confer.

HOUSTON, p. v., and cap. Texas co., *Mo.*: 97 m. S. by E. Jefferson City.

HOUSTON, p. v., Bourbon co., *Ky.*: 87 m. E. Frankfort.

HOUSTON'S STORE, p. o., Morgan co., *Ala.*: 152 m. N. N. W. Montgomery.

HOUSTONVILLE, p. v., Iredell co., *N. Car.*: 127 m. W. Raleigh.

HOWARD county, *Ind.* Situate N. centrally, and contains 296 sq. m. Drained by Wild Cat cr. and its branches, a tributary of Wabash r. Surface level or slightly undulating, and soil uniformly rich. Timber is abundant, and corn, wheat, and the grasses grow finely. This county lies wholly on the Miami Reserves, and is not fully settled. Farms 746; manuf. 26; dwell. 1,190, and pop.—wh. 6,615, fr. col. 42—total 6,667. *Capital*: Kokomo (or Cocomo). *Public Works*: Indianapolis and Peru R. R.; Andersonstown and Logansport R. R.

HOWARD county, *Ia.* Situate N. E., and contains 432 sq. m. Drained by Upper Iowa r. and heads of Turkey r., both affluents of the Mississippi. Unorganized in 1850.

HOWARD county, *Md.* Situate centrally on W. shore, and contains 226 sq. m. It lies between Patapsco and Patuxent rivers, and is drained by their affluents. Surface undulating, and intersected by numerous creeks, which afford good water-power; soil mostly productive, with some waste land. This county was a part of Anne Arundel in 1850, and the census of that comprises both. *Capital*: Ellicott's Mills. *Public Works*: Baltimore and Ohio R. R.

HOWARD county, *Mo.* Situate N. centrally, and contains 453 sq. m. Bounded S. and S. W. by the Missouri, and drained by Great Manitou and Bonne Femme rivers, its affluents. Surface varied, with some hills, and considerable water-power; soil excellent, yielding fine crops of corn and wheat, and some tobacco; it is admirably adapted to grazing. Farms 1,105; manuf. 35; dwell. 1,635, and pop.—wh. 9,040, fr. col. 39, sl. 4,890. *Capital*: Fayette.

HOWARD, p. v., Parke co., *Ind.*: on Mill cr., near its entrance into the Wabash, and at the point where it is crossed by the Canal, 63 m. W. N. W. Indianapolis.

HOWARD, t. and p. v., Steuben co., *N. Y.*: 193 m. W. Albany. Drained by creeks of Canisteo and Conhocton rivers. Surface undulating; soil clay-loam and fertile. The v. contains about 250 inhabitants. Pop. of t. 3,244.

HOWARD, t. and p. o., Centre co., *Penn.*: 82 m. N. W. Harrisburg. Drained by Bald Eagle cr. and its tributaries, and by Marsh and Beach creeks. Surface mountainous, the main ridge of the Alleghanies passing through it. Pop. 1,527.

HOWARD'S, p. o., Waukesha county, *Wisc.*: 62 m. E. Madison.

HOWARD'S, st., Bibb co., *Ga.*: on the Macon and Western R. R., 6 m. W. by N. Macon.

HOWARD'S GROVE, p. o., Sheboygan co., *Wisc.*: 92 m. N. E. Madison.

HOWARD'S POINT, p. o., Fayette co., *Ill.*: on the National Road, 69 m. S. E. Springfield.

HOWARD'S VALLEY, p. o., Windham co., *Conn.*: 27 m. E. by N. Hartford.

HOWARDVILLE, p. v., Stephenson co., *Ill.*: 177 m. N. Springfield.

HOWARDSVILLE, p. v., Albemarle county, *Virg.*: 76 m. W. N. W. Richmond.

HOWELL, t., p. v., and cap. Livingston co., *Mich.*: 80 m. 298

E. S. E. Lansing. Drained by the heads of Shiawassee and Cedar rivers. The v. is situate on the Grand River Turnpike; it contains the county buildings, several stores and mills, and about 400 inhabitants; and has a newspaper, the "Livingston Courier," published weekly.

HOWELL'S DEPOT, p. o., Orange co., *N. Y.*

HOWELL'S SPRINGS, p. o., Hardin co., *Ky.*: 69 m. W. S. W. Frankfort.

HOWELLSVILLE, p. v., Robeson county, *N. Car.*: 77 m. S. by W. Raleigh.

HOWELLSVILLE, p. v., Delaware co., *Penn.*: 87 m. E. S. E. Harrisburg.

HOWELL WORKS, p. v., Monmouth co., *N. Jer.*: on Manasquan r., 87 m. E. by S. Trenton. Here are extensive iron works, and a number of dwellings and stores for the workers.

HOWE'S, p. o., Concordia par., *La.*: 87 m. N. N. W. Baton Rouge.

HOWLAND, t. and p. o., Penobscot co., *Me.*: 86 m. N. N. E. Augusta. Drained by Piscataquis r. and its tributaries, the Penobscot forming the E. boundary. Surface varies, with wide intervals on the rivers. The v. lies on the W. side of the Penobscot, opposite Enfield. Pop. 214.

HOWLAND, t. and p. v., Trumbull co., *Ohio*: 143 m. N. E. Columbus. Drained by Mahoning and Mosquito rivers, the latter of which runs from N. to S. through the town. Surface diversified; soils of average fertility. The v. lies about a mile E. of Mosquito r., and is a small settlement. Pop. of t. 919.

HOWLET HILL, p. o., Onondaga county, *N. Y.*: 126 m. W. N. W. Albany.

HOYSVILLE, p. v., Loudon co., *Virg.*: on Kittoctan cr., 126 m. N. Richmond. It contains several flouring mills, etc.

HUBBARD, t. and p. o., Trumbull co., *Ohio*: 151 m. N. E. Columbus. Drained by tributaries of Shenango r. It is a fine agricultural township, and contains 1,272 inhabitants.

HUBBARD'S CORNERS, p. o., Madison co., *N. Y.*: 94 m. W. by N. Albany.

HUBBARDSTON, t. and p. v., Worcester co., *Mass.*: 51 m. W. by N. Boston. Drained by Ware r. and its tributaries, on which are fine mill-sites. Surface various; soil indifferent, but well cultivated. The v. contains about 400 inhabitants. Pop. of t. 1,827.

HUBBARDTON, t. and p. o., Rutland co., *Verm.*: 53 m. S. S. W. Montpelier. Drained by Hubbardton cr. and several streams of Bombazine Lake, all which empty into Castleton r. of Lake Champlain, and also by creeks of Onion river. Surface uneven and rough—in some parts mountainous, and soil indifferent, but good for grass. The v. is central. Pop. of t. 701.

HUBBLETON, p. o., Jefferson co., *Wisc.*: 87 m. E. Madison.

HUBBERSBURGH, p. v., Centre county, *Penn.*: 88 m. N. W. Harrisburg.

HUDDLESTON, p. v., Pike county, *Ark.*: 97 m. W. S. W. Little Rock.

HUDDLESTON, p. o., Rapides parish, *La.*: 102 m. N. W. Baton Rouge.

HUDDLESTON CROSS ROADS, p. o., Wilson co., *Tenn.*: 26 m. E. Nashville.

HUDSON county, *N. Jer.* Situate N. E., and contains 66 sq. m. Drained by Hackensack r. and Passaic r., both emptying into Newark Bay, and the latter its W. as the Hudson is its E. boundary. Surface diversified, with high land in the N., and in the S. swamps; soil good. In the W. near the Passaic, is an old copper-mine, called the Stuyvesant Mine, which was wrought as early as 1731. The E. portion is fast changing into a suburb of the great metropolis opposite it. Farms 254; manuf. 52; dwell. 2,861, and pop.—wh. 21,319, fr. col. 500, sl. 2—total 21,821. *Capital*: North Bergen. *Public Works*: New Jersey R. R.; Union R. R., and Morris Canal.

HUDSON, p. v., La Porte co., *Ind.*: 183 m. N. by W. Indianapolis. The Indiana Northern R. R. passes through it

HUDSON, p. v., M'Clean co., *Ill.*: 66 m. N. E. Springfield.

HUDSON, t. and p. o., Lenawee co., *Mich.*: 60 m. S. by E. Lansing. Drained by Bear cr., Tiffin's cr., which affords extensive water-power. The v. lies on its W. bank, and is intersected by the Michigan Southern R. R., 54 m. from Monroe. Pop. of t. 1,544.

HUDSON, t. and p. v., Hillsborough co., *N. Hamp.*: 84 m. S. by E. Concord. Drains into the Merrimac, which makes its W. border, and over which is a bridge to Little's Station. Surface level and fertile on the streams, but otherwise hilly and broken. The v. lies on the outlet of a small pond centrally. Pop. of t. 1,812.

HUDSON, p. city, port, and cap. Columbia co., *N. Y.*: at the head of ship navigation, and on the E. side of Hudson river, 29 m. S. Albany. Lat. 42° 14' N., and long. 73° 46' W., 845 m. N. E. Washington. Fronting on the river, opposite Athens, is a promontory, rising 60 feet above the water, which has been formed into a promenade, commanding an extensive view, and on either side of this is a spacious bay, with sufficient depth of water for the largest shipping. The city is regularly laid out, and the streets, with the exception of those near the shore, cross each other at right angles. The main street extends S. E. for more than a mile, to Prospect Hill, 200 feet high, to which the ground rises. On the N. side of this street, toward its upper end, is a public square, and there is another, on which the court-house stands, in the S. part of the city; this building is 116 feet long, the central part 40 by 60 feet, and the height 60 feet, surmounted by a dome, and entered by a portico of 6 Ionic columns, and the wings are 34 feet front, 40 feet deep, and two stories high. There are numerous churches in the city, many of them handsome and substantial structures, and also several highly efficient institutions of learning. The Hudson Lunatic Asylum is situate on State-street, facing the court-house on the S., and is a very useful and flourishing institution. Hudson is supplied with water by a company from a spring at the foot of Becraft's Mountain. Formerly the city had a large West India trade, but this has been superseded by the whale-fishing business, in which it has several ships engaged. Its river trade is very considerable, and it is the market for a large back country. It has several steamboats, barges, etc., employed, and the New York and Albany steamers usually make this a stopping-place; a steam ferry connects it with Athens. The Hudson River R. R. passes through it, and the Hudson and Berkshire R. R. connects it with the Western R. R., and thence with New England. With regard to its manufactures, Hudson has great facilities from the water-power in its neighborhood; some of its manufacturing establishments—numbering 77 in all—are extensive and valuable. It has 1 daily paper, 5 weeklies, and 1 semi-monthly; the "Morning Star" (neutral), is issued daily; the "Columbia Republican" (whig), the "H. Gazette" (dem.), the "Democratic Freeman" (free soil), the "Washingtonian" (temp.), and the "Columbia County Journal" (whig), are weeklies; and the semi-monthly is the "Rural Republican" (literary). The number of houses in the city in 1850 was 582, and the inhabitants 6,214. Hudson was settled in 1783 by Thomas Jenkins and others, chiefly Quakers from Massachusetts and Rhode Island. In 1785 it was chartered as a city.

HUDSON, t. and p. v., Summit co., *Ohio*: 117 m. N. E. Columbus. Drained by numerous creeks flowing in several directions to the Cuyahoga r. Surface elevated and rolling; soil clay loam, very fertile in grass and grain. The village is pleasantly located on a plain, from which the ground rises toward the N. It contains several stores, and about 600 inhabitants. The Cleveland and Pittsburg R. R. passes through it 26 m. from Cleveland, and from it diverges the Akron Branch R. R. Hudson is the seat of the Western Reserve College, founded in 1826, and which is under Presbyterian supervision; it has a theological department. The College has 8 professors, and in 1850 had 181 alumni and 57 students, with a library of 8,000 volumes; and the

theological department had 8 professors and 14 students. The periodicals published here are the "Ohio Observer" (relig.), and the "Family Visitor" (literary)—the first a weekly and the latter a semi-monthly issue. The t. is chiefly agricultural. Pop. of t. 1,457.

HUDSON, p. o., Franklin co., *Ga.*: on Hudson's Fork of Broad r., 58 m. N. Milledgeville.

HUDSON (or North) river, *N. Y.*: one of the most important rivers of the United States, though in length and volume of water it is much less than many others. It was discovered in 1609 by Hendrich Hudson, whose name it bears, and it is supposed that he explored it as far as Albany. The Hudson rises by two main branches in the mountains W. of lakes Champlain and George; the E. or Schroon branch passes through Schroon Lake, and the other branch rises farther W. by various head streams, the two uniting in the S. part of Warren co., about 40 m. from their respective sources. After a course of 15 m. S., the Hudson receives Sacandaga river; it then runs E. by S. 15 m. to Hadley's Falls, and thence 20 m. N. by E. to Glen's Falls; it then flows S. 40 m., and receives from the W. its principal tributary, the Mohawk. Its fall in this distance is 147 feet; thence running a little W. of S. 156 m., it enters the ocean at Sandy Hook. The whole length of the river from its sources to its entrance into New York Bay, is a little over 300 m.; and so straight is the river between Albany and New York, that the distance by water is less than that by land. The influence of the tide is felt a little above Albany, though it properly does not flow so far. It is navigable for large ships 118 m. above New York, to Hudson, and for sloops and large steamers to Albany, 145 m. Sloops and steamboats proceed 6 m. farther to Troy, and sloops, by a dam and lock, to Waterford, 8 m. above Albany. Through a considerable part of its course its banks are elevated, particularly on the W. side, and in some parts are high, rocky, and precipitous. The Hudson River R. R. skirts its E. shore, and often is carried into the river on embankments. No part of the Union presents more picturesque scenery than the banks of the Hudson, and the passage through the Highlands, 53 m. above New York City, is grand—here the mountains, over 1,400 feet high, come down to the very margin of the stream. New York owes much of its pre-eminent advantages to this noble river; being connected with the great western lakes by the Erie Canal and several lines of railroad, and with Lake Champlain and Canada also by both canal and railroad, and with Delaware r. and the coal region of Pennsylvania—by the Delaware and Hudson Canal, it becomes the main trunk of an immense commerce; it forms, indeed, one of the great connecting links of the chain which binds the East and West, and bears upon its bosom in the noblest steamers the world ever saw, and in a vast number of other craft, the traveler and the merchandise to and from the American metropolis. As might have been expected, its banks are lined by many large and flourishing cities and villages, the principal of which on the E. side, are Troy, Hudson, Poughkeepsie, and New York; and on the W. side, Albany, Catskill, and Newburg. Its waters were the theatre of the first successful attempt to apply steam to the propelling of vessels, and the very first to witness the application of caloric to the same purposes. The one dates from 1808, and immortalizes the names of Fulton and Livingston, and the latter from January, 1853, immortalizing the name of Ericsson. Little did those who saw the commencement of the era of steam navigation dream of the extent of its application to the purpose of commerce; and as little may the lookers-on of to-day foresee the vastness of the project just initiated by the later discovery.

HUDSONVILLE, p. v., Breckenridge co., *Ky.*: on the N. side of Rough cr., 91 m. W. W. S. W. Frankfort.

HUDSONVILLE, p. v., Marshall co., *Miss.*: 176 m. N. by E. Jackson.

HUFF'S CREEK, p. o., Logan county, *Virg.*: 247 m. W. Richmond.

HUGGIN'S CREEK, p. o., McNairy county, *Tenn.*: 122 m. S. W. Nashville.

HUGHESVILLE, p. v., Lycoming co., *Penn.*: on Muncy cr., 67 m. N. Harrisburg.

HUGHESVILLE, p. v., Loudon co., *Virg.*: 114 m. N. by W. Richmond.

HUGHSONVILLE, p. v., Duchess co., *N. Y.*: 76 m. S. Albany. It contains about 85 dwellings.

HUGUENOT, p. v., Orange county, *N. Y.*: 92 m. S. S. W. Albany.

HULBERTON, p. v., Orleans co., *N. Y.*: on the line of the Erie Canal, 214 m. W. by N. Albany. It contains several stores and about 300 inhabitants.

HULL, t. and p. v., Plymouth co., *Mass.*: 11 m. E. S. E. Boston—occupies a long, narrow peninsula, forming the S. E. boundary of Boston Harbor. The village is situate on Nantasket Head. Salt is manufactured in the town. Population 258.

HULLS, p. o., Athens co., *Ohio*: 68 m. S. E. Columbus.

HULL'S CORNERS, p. o., Oswego co., *N. Y.*: 146 m. W. N. W. Albany.

HULL'S MILLS, p. o., Duchess co., *N. Y.*: 51 m. S. Albany.

HULMESVILLE, p. v., Bucks co., *Penn.*: 107 m. E. S. E. Harrisburg.

HUMANSVILLE, p. v., Polk co., *Mo.*: 97 m. S. W. Jefferson City.

HUMBOLDT county, *Ida.* Situate N. W. centrally, and contains 576 sq. m. Drained by several head streams of Des Moines r. Unorganized in 1850.

HUMBOLDT, v., Trinity co., *Calif.*: on the E. side of Humboldt Harbor, opposite its entrance to the Pacific ocean, and about 200 m. N. N. W. Vallejo. There is a v. called West Humboldt at the N. of the entrance to the bay. These are small and uncertain settlements.

HUMBOLDT harbor, *Calif.*: a large bay, on the coast of California, the entrance of which is in lat. $40^{\circ} 44' N.$ It was discovered in 1850 by the gold hunters, and it is said that a considerable quantity of gold has been collected in its neighborhood. Some settlements have been made on its shores.

HUMBOLDT lake, *Utah Ter.*: a large lake in the California desert, in about lat. $40^{\circ} 15' N.$, and long. $118^{\circ} 20' W.$, and the recipient of Humboldt r. It has no outlet.

HUMBOLDT mountains, *Utah Ter.*: a chain of hills so called, extending between the 118th and 119th meridian, and from about 89° to $41^{\circ} 41' N.$ lat. The Humboldt r. has its sources in the W. slope of this range.

HUMBOLDT river, *Utah Ter.*: a river rising about 115° W. long., in the Humboldt River mountains. It has a tortuous course S. and W. until it falls into Humboldt Lake. The valley of this river is the route usually pursued by the overland emigration between the Salt Lake and California.

HUME, t. and p. v., Alleghany county, *N. Y.*: 217 m. W. Albany. Drained by tributaries of Genesee r., which passes through it. Surface undulating; soil clay loam, very fertile. Hume is a small agricultural village. Pop. of t. 2,478.

HUMILITY, p. o., Pulaski county, *Virg.*: 192 m. W. by S. Richmond.

HUMMELSTOWN, p. b., Dauphin co., *Penn.*: on Swatara cr., 9 m. E. Harrisburg. Pop. 620.

HUMPHREYS county, *Tenn.* Situate N. W., and contains 519 sq. m. Bounded W. by Tennessee r., and drained by its affluents, Turkey cr., Richland cr., Bay cr., Duck r., etc. Surface mostly even, with good mill seats. Soil very good. Corn is the staple, but fine wheat is raised, and many hogs fattened. Farms 679; manuf. 16; dwel. 919, and pop.—wh. 5,304, fr. col. 21, sl. 1,097—total 6,422. *Capital*: Waverley. *Public Works*: Nashville and Mississippi R. R.

HUMPHREY'S VILLA, p. o., Holmes co., *Ohio*: 74 m. N. E. Columbus.

HUMPHREYSVILLE, p. v., New Haven co., *Conn.*: on Naugatuck r., 6 m. from its confluence with the Housatonic, and 87 S. W. Hartford. It has considerable manufactures,

also iron and copper works, several stores, and about 400 inhabitants.

HUMLOCK'S CREEK, p. o., Luzerne co., *Penn.*: 87 m. N. E. Harrisburg.

HUNGARY, sta., Hanover county, *Virg.*: on the line of the Richmond, Frederick, and Potomac R. R., 8 m. N. Richmond.

HUNT county, *Taz.* Situate N. E., and contains 976 sq. m. Drained by heads of S. fork of Sulphur r., and heads of the Sabine. Surface undulating, or hills of small elevation and gentle slope, and generally densely wooded; soil a rich loam in the river bottoms, which comprise a large part of the co., and though more sandy or clayey between them, yet always very productive. The timber common to this region abounds, and on the streams are found the best of grapes in great quantities. It is well adapted to the staple of this quarter (cotton), and grows fine crops of corn. Farms 93; manuf. 0; dwel. 263, and pop.—wh. 1,477, fr. col. 2, sl. 41—total 1,520. *Capital*: Greenville.

HUNTER, p. v., Belmont co., *Ohio*: 106 m. E. Columbus.

HUNTER, p. v., Boone county, *Ill.*: 187 m. N. by E. Springfield.

HUNTER, t. and p. v., Greene co., *N. Y.*: 98 m. S. S. W. Albany. Drained by heads of Schoharie cr. Surface mountainous, lying on the principal range of the Kaatsbergs. Round Top, their highest peak, is 3,804 feet above the Hudson river. Soil sterile, except in some exceptional valleys, and along the streams. Wood, timber, and bark are exported. The v. is on Schoharie cr., and contains a number of mills, etc., and about 400 inhabitants. Pop. of t. 1,849.

HUNTERDON county, *N. Jer.* Situate N. W., and contains 484 sq. m. Drained by Musconetongue r. and other affluents of Delaware r., its S. W. boundary, and E. by Raritan r., which empties into the Atlantic. Surface in the N. high and broken; in the S. much more even; soil mostly fertile, producing fine crops of all the grains, and affording excellent pasturage. It has considerable water-power, and convenient markets by land or water. Farms 2,486; manuf. 309; dwel. 5,167, and pop.—wh. 23,212, fr. col. 769, sl. 8—total 23,989. *Capital*: Flemington. *Public Works*: Belvidere Delaware R. R.; Flemington Branch R. R.; New Jersey Central R. R.

HUNTER'S CAVE, p. o., Greene co., *Penn.*: 188 m. W. S. W. Harrisburg.

HUNTERSLAND, p. o., Schoharie co., *N. Y.*: 28 m. W. by S. Albany.

HUNTERSTOWN, p. v., Adams co., *Penn.*: 28 m. S. W. Harrisburg.

HUNTERSVILLE, p. v., Lycoming co., *Penn.*

HUNTERSVILLE, p. v., and cap. Pocahontas co., *Virg.*: on Knapp's cr. of Greenbrier r., 154 m. W. N. W. Richmond. The site is 1,300 feet above the level of the Atlantic Ocean; and in the vicinity are several mineral springs. The v. contains a C. H., jail, etc., and has several stores and about 200 inhabitants.

HUNTERSVILLE, p. v., Hardin county, *Ohio*: 63 m. N. W. Columbus. Pop. 84.

HUNTINGBURGH, p. v., Dubois co., *Ind.*: 107 m. S. S. W. Indianapolis. Pop. 250.

HUNTING CREEK, p. o., Accomack co., *Virg.*: 106 m. E. Richmond.

HUNTINGDON county, *Penn.* Situate S. centrally, and contains 754 sq. m. Drained by Raystown Branch and other affluents of Juniata r., which crosses the N. part from E. to W. Surface much varied; parts are mountainous, but there are many beautiful valleys, which are exceedingly fertile. A part is too rough for cultivation, but abounds in fine timber and numerous mill streams. The lower lands produce excellent crops of wheat, rye, corn, buckwheat, and oats, and the higher afford the best of grazing. The dairies are fine, and beef, pork, and wool, staples. Iron ore and bituminous coal are abundant; lead, salt, and alum

are found. Farms 1,445; manuf. 93; dwell. 4,298, and pop.—wh. 24,461, fr. col. 325—total 24,786. *Capital*: Huntingdon. *Public Works*: Pennsylvania Canal; Pennsylvania R. R.

HUNTINGDON, p. b., and cap. Huntingdon co., *Penn.*: on the W. side of Frankstown branch of Juniata r., at its entrance into the latter, 61 m. direct, or by railroad 97 m. W. N. W. Harrisburg. It contains a court-house, jail, etc., and has considerable manufactures and a good trade. The "H. Globe" (dem.) and the "H. Journal" (whig) are issued weekly. The Pennsylvania Canal and R. R. pass through the borough. Pop. in 1840, 1,045—in 1850, 1,479.

HUNTINGDON, p. v., and cap. Carroll co., *Tenn.*: on the S. fork of Obion r., 90 m. W. by S. Nashville. It contains a court-house and other county buildings, several stores, and about 300 inhabitants. The neighborhood is one of the finest agricultural regions of the State, beautifully diversified, well watered, and rich and deep soil.

HUNTINGDON VALLEY, p. o., Montgomery co., *Penn.*: 88 m. E. by S. Harrisburg.

HUNTINGDON county, *Ind.* Situate N. E., and contains 884 sq. m. Drained by Wabash r., and Little r., and Salamonie r., its branches. Surface level or undulating; soils a mixture of clay and sand, deep, and very fertile. Forest land predominates. Wheat, corn, beef, and pork are the leading products. Farms 789; manuf. 92; dwell. 1,356, and pop.—wh. 7,847, fr. col. 8—total 7,850. *Capital*: Huntington. *Public Works*: Wabash and Erie Canal; Wabash Valley R. R.

HUNTINGTON, t. and p. v., Fairfield co., *Conn.*: 44 m. S. W. Hartford. Drained by several creeks of Housatonic r., which makes the E. border, and is crossed by several bridges. Surface somewhat uneven; soils generally fertile. The v. is located centrally, about equi-distant between the Housatonic and the Naugatuck Railroads. The manufactures of the town consist of woolen goods, paper, leather, etc. Pop. of t. 1,301.

HUNTINGTON, p. v., and cap. Huntington co., *Ind.*: at the mouth of Flint cr., on Little r., 2 m. above its entrance into the Wabash, and on the line of the canal, 81 m. N. N. E. Indianapolis. It contains a court-house, jail, etc., about 120 dwellings, and 594 inhabitants, and has two newspapers, the "Herald" (whig) and the "Age" (dem.), both weekly issues. It is the shipping place of a large and fertile back country.

HUNTINGTON, t. and p. v., Suffolk co., *N. Y.*: 124 m. S. S. E. Albany. This t. stretches across Long Island, and embraces Oak Island beach, which here divides Great South Bay from the Atlantic Ocean. In the N. the shores are deeply indented by several bays—in the S. the land is drained by numerous small streams flowing into Great South Bay. Surface generally level—toward the N., however, it is somewhat hilly; soils various, none very fertile, but usually under the highest state of cultivation. The v. is situate at the head of Huntington Harbor, a continuation of Huntington Bay, and contains about 600 inhabitants. There are three newspapers published in the town, the "Long Islander," the "Suffolk Democrat," and the "Eastern State Journal," all issued weekly. The manufactures of Huntington are considerable. Pop. 7,481.

HUNTINGTON, t. and p. v., Lorain co., *Ohio*: 86 m. N. N. E. Columbus. Drained by the W. branch of Black r. Surface elevated and rolling; soil clay loam, very fertile. The v. is central, and is a small farming settlement. Pop. of t. 1,173.

HUNTINGTON, p. v., Laurens dist., *S. Car.*: 66 m. N. W. Columbia.

HUNTINGTON, t. and p. v., Chittenden co., *Verm.*: 19 m. W. Montpelier. Drained by Huntington r., a branch of the Onion. Surface mountainous; soil generally adapted to grass. The t. contains Camel's Rump, one of the highest peaks of the Green Mountains. The v. is situate on the W. side of the r., which here affords water-power. Pop. of township 885.

HUNTINGTOWN, p. v., Calvert co., *Md.*: on the S. side of a cr. so called, 81 m. S. Annapolis.

HUNTSBURGH, t. and p. o., Geauga co., *Ohio*: 145 m. N. E. Columbus. Drained by the head-waters of Cuyahoga r. Surface elevated and rolling; soil fertile. Pop. 1,007.

HUNT'S HOLLOW, p. v., Livingston co., *N. Y.*: 212 m. W. Albany. Pop. about 200.

HUNT'S STORE, p. o., Guilford county, *N. Car.*: 77 m. W. N. W. Raleigh.

HUNTSVILLE, p. v., and cap. Madison co., *Ala.*: on Indian cr. of Tennessee r., 10 m. from the confluence, and 167 m. N. by W. Montgomery. It is the seat of a U. S. land office; and contains a court-house, jail, etc., a bank, several handsome churches, and has two newspapers, the "Democrat" (dem.) and the "Southern Star," both weeklies. It has considerable business, and promises to become one of the most flourishing towns of the State. The Memphis and Charleston R. R. will pass through it, and others in a N. and S. direction will connect with that important line. A canal extends hence to Triana, on the Tennessee, 16 m. Pop. 2,868.

HUNTSVILLE, p. v., and cap. Madison county, *Ark.*: on War Eagle cr. of White r., 123 m. N. W. Little Rock. It has a court-house, etc., and about 255 inhabitants.

HUNTSVILLE, p. v., Paulding co., *Ga.*: 116 m. W. N. W. Milledgeville.

HUNTSVILLE, p. v., Choctaw co., *Miss.*: 83 m. N. N. E. Jackson.

HUNTSVILLE, p. v., Schuyler co., *Ill.*: 67 m. W. N. W. Springfield.

HUNTSVILLE, p. v., and cap. Randolph co., *Mo.*: on the E. side of East Chariton r., 64 m. N. by W. Jefferson City. It contains a court-house, jail, etc., and has several stores. Pop. 300.

HUNTSVILLE, p. v., Yadkin (formerly Surry) county, *N. Car.*: on the W. bank of Yadkin r., 103 m. W. N. W. Raleigh.

HUNTSVILLE, v. and sta., Wake co., *N. Car.*: on the line of the Gaston and Raleigh R. R., 9 m. N. Raleigh.

HUNTSVILLE, p. v., Luzerne co., *Penn.*: 107 m. N. E. Harrisburg.

HUNTSVILLE, p. v., Laurens dist., *S. Car.*: 53 m. N. W. Columbia.

HUNTSVILLE, p. v., and cap. Walker co., *Tex.*: on Harmon's cr. of Trinity r., 143 m. E. by N. Austin City. It is one of the progressive settlements of Texas, and is surrounded by a thickly peopled and well cultivated country. The v. contains a court-house, etc., and several large stores. Two newspapers, the "Texas Presbyterian" (relig.), and the "H. Item," are published weekly. It is proposed to erect at this place a Female College, under charge of the Methodists, and other foundations are spoken of which, if completed, will make Huntsville a great seat of learning. Pop. about 600.

HUNTSVILLE, p. v., Madison co., *Ind.*: on the N. side of Fall cr. of White r., a little above Pendleton, and about 26 m. N. E. Indianapolis. It is named after the families that first settled here.

HUNTSVILLE, p. v., Logan co., *Ohio*: on Cherokee-mans cr., 49 m. W. N. W. Columbus. The Mad River and Lake Erie R. R. passes through it 93 m. from Sandusky.

HUNTSVILLE, p. v., and cap. Scott co., *Tenn.*

HURLEY, t. and p. v., Ulster co., *N. Y.*: 47 m. S. S. W. Albany. Drained by Esopus cr. Surface hilly; soil fertile loam, underlaid with limestone. The v. on Esopus cr. is a small agricultural settlement, and contains 30 or 35 dwellings. Pop. of t. 2,008.

HURON county, *Mich.* Situate E. between Saginaw Bay and Lake Huron, and contains 859 sq. m. Drained by Pinnebog and Willow rivers, flowing N., Zappopie r., flowing E., and other small streams. Surface mostly level; soil of moderate fertility, without stone, but marshy in places. It is well timbered with beech, maple, pine, and tamarack, the last two supplying great numbers of spars.

Lumber is the greatest export, the county being little settled. Farms 18; manuf. 0; dwell. 52, and pop.—wh. 210, fr. col. 0—total 210. *Capital*:—

HURON county, *Ohio*. Situate N. centrally, and contains 764 sq. m. Drained by Huron and Vermillion rivers and their branches. Surface rolling or level; soil very fertile and finely adapted to grain and grass. Wheat and corn are leading crops, and great numbers of cattle, sheep, and swine are fed. Farms 2,414; manuf. 256; dwell. 4,619, and pop.—wh. 26,167, fr. col. 86—total 26,203. *Capital*: Newark. *Public Works*: Cleveland, Columbus, and Cincinnati R.R.; Sandusky and Newark R. R.; Cleveland, Norwalk, and Toledo R. R.

HURON, t. and p. o., Wayne co., *Mich.*: 72 m. S. E. Lansing. Drained by Huron r., which affords water-power and navigation. In the S. W. there are swamps, but the general surface is elevated and fertile. Pop. 452.

HURON, p. v., Des Moines co., *Ia.*: on the W. bank of the Mississippi, 53 m. S. E. Iowa City.

HURON, t. and p. v., Wayne co., *N. Y.*: 159 m. W. N. W. Albany. Drained by streams falling into Lake Ontario through East Port, and Sodus Bays, which lie in this town. Surface level; soil gravelly and sandy loam. The villages are Huron and Port Glasgow. Pop. of t. 1,966.

HURON, t. and p. v., Erie co., *Ohio*: 100 m. N. N. E. Columbus. Drained by Huron r. and other affluents of Lake Erie. Surface level; soil sandy alluvion. The v. is located at the mouth of Huron r., and has a good harbor. It contains numerous warehouses, stores, commission-houses, etc., and about 800 inhabitants; and is intersected by the Junction (Lake Shore) R. R. Pop. of t. 1,397.

HURON isles, *Mich.*: on the S. shore of Lake Superior, E. of Kew-y-wee-non Bay.

HURON lake: one of the five great lakes of North America. It lies between Lake Superior on the N. W., Michigan on the N. W. and W., and Erie and Ontario on the S. and S. E.; and in regard to its astronomical position, lies between 43° 5' and 46° 15' N. lat., and between 79° 30' and 84° 50' W. lon. Its length is 260 m.—along the coast of its W. shore it is 360 m.; and its greatest breadth is 160 m., but exclusive of the bay on the N. E., it is only about 90 m.; and its circumference is about 1,100 m. Its principal indentations are, Saginaw Bay, extending into Michigan, and two others, one immediately N. of the Manitou Islands, and the other S. E. of them. The latter, called Georgian Bay, is about 170 m. long and 70 m. broad, and is not far from one-fourth the whole size of the lake. Manitou, or Great Spirit Islands, extend from a peninsula in the S. E. part, through its N. part—and with Drummond's Island, separate another sheet of water from the main lake 50 m. long and 20 m. wide. The boundary between the United States and Canada passes along the main Huron 225 m., and between Lesser Manitou and Drummond's Island by what is called the Middle Passage, and curves round to the N. and W. 25 m. to the entrance of St. Mary's r. The elevation of the surface of the lake is 596 feet above the ocean, or less than that of Lake Superior by 45 feet, or than that of Lake Michigan by 4 feet. The greatest depth toward the W. shore is at least 1,000 feet, and its mean depth 900 feet, or about 300 feet below the level of the Atlantic. The largest of the Manitou Islands, called Great Manitoulin, is 90 m. long, and in its widest part nearly 30 m. broad. The islands of Lake Huron are said to amount in number to 32,000. It receives the waters of Lake Superior by St. Mary's r., and those of Lake Michigan by the Straits of Michilimackinac; and discharges its own waters by the Strait of St. Clair. Lake Nipissing empties into it through Francis r., and Lake Simcoe by Severn r. The Huron is subject to violent storms, which render its navigation dangerous. It has, however, fine harbors, and in process of time cities and a crowded population will vitalize its shores.

HURON river, *Mich.*: a considerable stream of the Upper Peninsula, having its source in the Porcupine Mountains,

from which it flows N. E., and discharges its waters into Lake Superior. It is navigable for canoes.

HURON river, *Mich.*: one of the most considerable streams watering the E. part of the lower peninsula. It rises from many heads in Oakland and Livingston counties, and flows in a S. W. course to the N. boundary of Washtenaw county, where it expands into Portage Lake. It then contracts and passes S. for a few miles, and then, pursuing a S. E. direction through Washtenaw and Wayne counties, enters Lake Erie a few miles below the mouth of Detroit r. It has few tributaries in its lower course. The Huron is a beautiful transparent stream, passing alternately through rich bottoms, openings, plains, and sloping woodlands. Its length, by its meanderings, is about 90 miles.

HURON river, *Ohio*: rises in Richland co., and flows through Huron and Erie counties into Lake Erie at Huron. It is navigable by a crooked channel six or seven miles from its mouth, and has a canal along its border to Milan. It affords good water-power.

HURRICANE, p. o., Conway county, *Ark.*: 47 m. N. W. Little Rock.

HURRICANE, p. v., Montgomery co., *Ill.*: 57 m. S. S. E. Springfield.

HURRICANE, p. o., Franklin par., *Ia.*: 118 m. N. N. W. Baton Rouge.

HURRICANE, p. o., Spartanburg dist., *S. Car.*: 103 m. N. W. Columbia.

HURRICANE CREEK, p. o., Lauderdale co., *Miss.*: 92 m. E. Jackson.

HURRICANE CREEK, p. o., Saline co., *Ark.*: 28 m. S. W. Little Rock.

HURRICANE CREEK, p. o., Henderson co., *Tenn.*: 112 m. W. S. W. Nashville.

HURRICANE GROVE, p. o., Grant county, *Wisc.*: 8 m. E. of Grant river.

HURRICANE HILL, p. o., Lafayette co., *Ark.*: 118 m. S. W. Little Rock, 73 m. W. S. W. Madison.

HURT'S CROSS ROADS, p. o., Maury county, *Tenn.*: 36 m. S. Nashville.

HURT'S MILLS, p. o., Harrison county, *Ind.*: 112 m. S. Indianapolis.

HUSSAW, p. o., Carroll co., *Ark.*: 132 m. N. W. Little Rock.

HUSTISFORD, p. v., Dodge county, *Wisc.*: 48 m. N. E. Madison.

HUSTONVILLE, p. v., Lincoln co., *Ky.*: 51 m. S. S. E. Frankfort.

HUTSONVILLE, p. v., Crawford co., *Ill.*: on the W. bank of Wabash r., 114 m. E. S. E. Springfield.

HUTTON'S FORK, p. o., Wilkes county, *Ga.*: 54 m. N. N. E. Milledgeville.

HUTTONSVILLE, p. v., Randolph county, *Virg.*: 162 m. W. N. W. Richmond.

HYANNIS, p. v., Barnstable co., *Mass.*: 5 m. S. Barnstable Court-house, and 63 m. S. S. E. Boston. It contains 2 churches and 120 inhabitants.

HYANNIS PORT, p. v., Barnstable co., *Mass.*: 65 m. S. S. E. Boston. The v. has a good harbor, with a breakwater constructed by the United States, and is a refuge for wind-bound vessels.

HYATTS TOWN, p. v., Montgomery co., *Md.*: on the N. W. line of the co., 62 m. W. N. W. Annapolis.

HYATTSVILLE, p. v., Miami co., *Ohio*: on the Miami Canal, 62 m. W. Columbus. It has several stores, and about 250 inhabitants.

HYCO, p. o., Halifax co., *Virg.*: 93 m. S. W. Richmond.

HYCO FALLS, p. o., Halifax co., *Virg.*: on Hyco cr., 98 m. S. W. Richmond.

HYDE county, *N. Car.* Situate E., and contains 809 sq. m. It has Pamlico Sound on the E. and S., and Pungo r. (or bay) on the W., and is drained by small creeks flowing into these. Surface low, level, and frequently marshy; soil moderately productive, with a heavy growth of pine. Corn is the chief crop—lumber the export. Farms 293; manuf.

6; dwell. 923, and pop.—wh. 4,798, fr. col. 211, sl. 2,627—total 7,636. *Capital*: Swan Quarter.

HYDE, p. v., Warren co., *N. Y.*: 58 m. N. W. Albany.

HYDE PARK, p. v., Grundy county, *Ill.*: 129 m. N. E. Springfield.

HYDE PARK, v. and sta., Queen's co., *N. Y.*: on the line of the Long Island R. R., 17 m. from Brooklyn.

HYDE PARK, t. and p. v., Dutchess co., *N. Y.*: 61 m. S. Albany. Drained by Crum Elbow cr., and bounded W. by Hudson r. Surface uneven; soil gravelly loam and clay; on the river very fertile. The v. is situate on the E. side of Hudson r., and has commodious landings and a horse-ferry across the river. It is a considerable place, with stores, mechanic shops, etc., and carries on a trade with New York City, with which it is connected by the Hudson River R. R. and steamboats. Pop. of t. 2,426.

HYDE PARK, p. v., Luzerne co., *Penn.*: 113 m. N. E. Harrisburg.

HYDE PARK, v., Halifax county, *N. Car.*: 64 m. N. N. E. Raleigh.

HYDE PARK, t., p. v., and cap. Lamoille co., *Verm.*: 26 m. N. Montpelier. Drained by numerous tributaries of Lamoille river, which afford water-power. Surface hilly; soil fertile, and easy of cultivation. The v. contains a court-house, jail, etc. Agriculture is the sole occupation. Population of t. 1,107.

HYDESBURGH, p. v., Ralls co., *Mo.*: on a cr. of Salt r., 82 m. N. N. E. Jefferson City.

HYDE SETTLEMENT, p. v., Broome co., *N. Y.*: on the W. side of Tioughnioga cr., 113 m. W. S. W. Albany.

HYDEVILLE, p. v., Rutland co., *Verm.*: on the line of the Saratoga and Washington R. R., 3 m. from Castleton, and 57 m. S. S. W. Montpelier.

HYDRAULIC MILLS, p. o., Albemarle county, *Virg.*: 73 m. W. N. W. Richmond.

HYGEIA, p. o., Hamilton county, *Ohio*: 100 m. S. W. Columbus.

HYNDVILLE, p. v., Schoharie co., *N. Y.*: on Cobleskill creek, 39 m. W. Albany.

I.

IBERIA, p. v., Miller co., *Mo.*: about 2 m. W. of Taverner cr. of Osage r., 32 m. S. by W. Jefferson City.

IBERIA, p. v., Morrow co., *Ohio*: on the line of the Cincinnati, Cleveland, and Columbus R. R., 50 m. N. by E. Columbus and 85 m. from Cleveland.

IBERVILLE parish, *La.* Situate S. E. centrally, and contains 239 sq. m. It lies on both sides of the Mississippi, and has Iberville and Amite rivers on its E., and Atchafalaya and Grand rivers on the W. Surface level and very low; soil very fertile on the rivers, where it is principally cultivated. Corn produces good crops, but cotton and sugar are the staples, of which large amounts are made and exported. Farms 219; manuf. 10; dwell. 638, and pop.—wh. 3,563, fr. col. 104, sl. 8,542—total 12,214. *Capital*. Iberville.

IBERVILLE (or Bayou Manchae), *La.*: an outlet of the Mississippi, about 15 m. below Baton Rouge, and uniting it with Amite r., which flows into Lake Maurepas. It is navigable for small vessels in time of flood.

IBERVILLE, p. v., and cap. Iberville par., *La.*: on the E. bank of the Mississippi, 23 m. S. S. E. Baton Rouge. It contains besides the county buildings, a fine hotel, several stores and private dwellings, and is surrounded by a tract of excellent cotton and sugar land.

IOE'S FERRY, p. o., Monongalia co., *Virg.*: 199 m. N. W. Richmond.

IOHEPUCKWASSA, p. o., Hillsboro' co., *Flor.*: on Hillsboro' r., 213 m. S. E. Tallahassee.

IOKESBURGH, p. v., Perry co., *Penn.*: on a branch of the Susquehanna r., 29 m. N. W. Harrisburg.

IDA county, *Ida.* Situate N. W., and contains 432 sq. m. Drained by Little Sioux r., an affluent of the Missouri, and its branches. Unorganized in 1850.

IDA, t. and p. o., Monroe co., *Mich.*: 49 m. S. E. Lansing. It has a rolling surface, a fertile soil, mostly sandy loam, and excellent pastures. The Michigan Southern R. R. passes through the N., and Ida sta. is 13 m. from Monroe. Pop. of t. 345.

IJAMSVILLE, p. v., Frederick co., *Md.*: on the N. side of Bush cr., 6 m. from Monocacy r. and 51 m. N. W. Annapolis. The Baltimore and Ohio R. R. passes through the v. 54 m. from Baltimore.

LOCHESTER MILLS, p. v., Howard co., *Md.*: on S. side of Patapsco r., 24 m. N. W. Annapolis. The Baltimore and Ohio R. R. passes this v. 13 m. from Baltimore. There are extensive flouring mills at this place.

LION, p. o., Herkimer county, *N. Y.*: 69 m. W. N. W. Albany.

THE STATE OF ILLINOIS.

ILLINOIS lies between latitudes 37° 00' and 42° 30' N., and between longitudes 87° 49' and 91° 28' W. from Greenwich, or 109° 47' and 140° 26' W. from Washington. It is bounded N. by Wisconsin; N. E. by Lake Michigan; E. by Indiana—the Wabash River forming the boundary in half its length; S. by the Ohio River, which separates Illinois from Kentucky, and W. by the Mississippi River, which flows between this State and the states of Wisconsin and Iowa.* The extreme length of Illinois, on the meridian of Cairo City, is 373 miles, and its greatest breadth, which occurs on the parallel of Danville, is 212 miles; but the average length and breadth are much less. The periphery of the State measures 1,160 miles, the whole of which, with the exception of 305 miles, is formed by navigable waters; and its superficial land area is estimated at 55,405 square miles.

As a physical section Illinois occupies the lower part of that inclined plane of which Lake Michigan and both its shores are the higher sections, and which is extended into and embraces the much greater part of Indiana. Down this plane, in a very nearly south-western direction, flow the Wabash and its confluent, the Kaskaskia, the Illinois and its confluent, and the Rock and Wisconsin rivers. The lowest section of the plane is also the extreme southern angle of Illinois, at the mouth of the Ohio River, about 340 feet above tide-water in the Gulf of Mexico. Though the State of Illinois does contain some low hilly sections, as a whole, it may be regarded as a gently inclining plane in the direction of its rivers, as already indicated. Without including minute parts, the extreme arable elevation may be safely stated at 800 feet above tide-water, and the mean height at 550 feet.

In some former period, observes Mr. Schoolcraft, there has been an obstruction in the channel of the Mississippi, at or near Grand Tower, producing a stagnation of the current at an elevation of about 130 feet above the present ordinary

* The Act of Congress admitting this State into the Union prescribes the boundaries as follows: Beginning at the mouth of the Wabash River, thence up the middle of the main channel thereof to the point where a line drawn due north of Vincennes last crosses that stream, thence due north to the north-west corner of the State of Indiana, thence east with the boundary line of the same State to the middle of Lake Michigan, thence due north along the middle of said lake to north latitude 40° 30', thence west to the middle of the Mississippi River, thence down the middle of the main channel thereof to the mouth of the Ohio River, thence up the latter stream along its northern or right shore to the place of beginning.

water-mark. This appears evident from the general elevation and direction of the hills, which for several hundred miles above are separated by a valley from 20 to 25 miles wide, that deeply embosoms the current of the Mississippi.

Wherever these hills exhibit rocky and abrupt fronts, a series of water-lines are distinctly visible, and preserve a remarkable parallelism, uniformly presenting their greatest depression toward the sources of the river; and, at Grand Tower, these water-lines are elevated about one hundred feet above the summit of the stratum, in which petrifications of the madrepora and various fossil organic remains are deposited. Here the rocks of dark-colored limestone, which pervade the country to a great extent, by their projections toward each other, indicate that they have, at a remote period, been disunited, if not by some convulsion of nature, by the incessant action of the water upon a secondary formation, and that a passage has been effected through them, giving vent to the stagnant waters on the prairie lands above, and opening for the Mississippi its present channel.

Next to Louisiana and Delaware, Illinois is the most level State in the Union. A small tract in the southern part of the State is hilly, and the northern portion is also somewhat broken. There are, likewise, considerable elevations along the Illinois River, and the bluffs of the Mississippi in some places might pass almost for mountains. But by far the greater portion of the State is either distributed in vast plains, or in barrens, that are gently rolling like the waves of the sea after a storm.

The largest prairie in Illinois is denominated the Grand Prairie. Under this general name is embraced the country lying between the waters falling into the Mississippi, and those which enter the Wabash rivers. It does not consist of one vast tract, but is made up of continuous tracts with points of timber projecting inward, and long arms of prairie extending between. The southern points of the Grand Prairie are formed in Jackson County, and extend in a north-eastern course, varying in width from one to twelve miles through Perry, Washington, Jefferson, Marion, Fayette, Effingham, Coles, Champaign, and Iroquois counties, where it becomes connected with the prairies that project eastward from the Illinois River. A large arm lies in Marion County, between the waters of Crooked Creek and the east fork of the Kaskaskia River, where the Vincennes road passes through. This part alone is frequently called the Grand Prairie.

Much the largest part of the Grand Prairie is gently undulating, rich, and fertile land; but of the southern portion, considerable tracts are flat, and of rather inferior soil. No insurmountable obstacle exists to its future population. No portion of it is more than six or eight miles distant from timber; and coal in abundance is found in most parts. Those who have witnessed the changes produced upon a prairie surface within twenty or thirty years, consider these extensive prairies as offering no serious impediment to the future growth of the State.

Dr. Beck, in his *Gazetteer of Missouri*, published in 1823, describes the uplands of St. Louis County as generally prairie; but almost all of that tract of country thus described is now covered with a young growth of fine thrifty timber, and it would be difficult to find an acre of prairie in the county. This important change has been produced by keeping the fires out of the prairies.

The first improvements are usually made on that part of the prairie which adjoins the timber; and thus we may see, at the commencement, a range of farms circumscribing the entire prairie. The burning of the prairies is then stopped through the whole distance of the circuit in the neighborhood of these farms, to prevent injury to the fences and other improvements. This is done by plowing two or three furrows all round the settlement. In a short time the timber springs up spontaneously on all the parts not burned, and the groves and forests commence a gradual encroachment on the adjacent prairies; by-and-by you will see another tier of farms springing up on the outside of the first, and farther out on the prairie; and thus farm succeeds farm, as the timber grows up, until the entire prairie is occupied.—*Illinois in 1837.*

Illinois possesses immense advantages for internal navigation. Its north-eastern corner for fifty miles is washed by the waters of Lake Michigan, which open a communication with the whole lake-country of the North. The Mississippi River forms its western border, and the Ohio and Wabash rivers demark its southern and eastern limits, together forming a natural water highway of unexampled extent. The rivers which have their courses within the limits of the State are Rock, Illinois, Kaskaskia, and Big Muddy, affluents of the Mississippi; the Embarras and Little Wabash, tributaries of the Wabash, and the Saline and Cash rivers, which empty into the Ohio. The *Illinois* is much the largest of these; it is formed by the union of the Kankakee and Des Plaines, and in its course of 500 miles toward the Mississippi receives Fox and Spoon rivers, Crooked Creek, and several other streams from the north, and the Vermillion, Mackinaw, Sangamon, and others from the south. The current of the Illinois is in general gentle, with a wide, deep bed—in some places opening into broad and lake-like expanses. *Rock River* rises in Wisconsin, and has a course of 800 miles; it is navigable for some distance, but in its upper course is impeded by several rapids. The *Kaskaskia* rises in the eastern part of the State and pursues a direction nearly parallel to that of the Illinois and Rock rivers, and after a course of 300 miles reaches the Mississippi in latitude 35° north. The *Big Muddy* is also a considerable stream. The rivers flowing to the Ohio and Wabash are generally of less volume than the smaller class of rivers flowing toward the Mississippi, but several are navigable, and all contribute much to the wealth of the country by the abundance of water-power they supply for mechanical purposes.

The northern portion of Illinois is inexhaustibly rich in minerals, while coal, secondary limestone, and sandstone are found in almost every part. Iron ore is also widely distributed. The minerals most common to the north-western section are lead and copper. The lead diggings extend over a vast tract and into the adjoining States, and are, doubtless, the most productive of any hitherto known. Silver has also been found in this region intermixed with galena. The coal of Illinois is bituminous, and is spread over a large extent of country; it is found in the ravines and bluffs of the Mississippi, and large veins were struck in excavating the canal below Ottawa. The great coal region, however, extends from central Iowa to northern Kentucky, across the State. Building stones of almost every description are quarried. Sulphur and chalybeate springs exist in several parts of the State, and there are salt springs in Gallatin, Jackson, Vermillion, and other counties. Immense boulders of granite are frequently seen upon the surface.

The soils of Illinois, though of such various character, are all highly fertile and productive. In the bottoms, or alluvial borders of the rivers, the soil is chiefly formed from the deposits of the waters during flood. In some cases the mold so formed is twenty-five feet and upward in depth, and of inexhaustible fertility. One-sixth of the alluvial land, however, is unfit for present cultivation, although it is productive in timber. A tract called the "American Bottom," extending along the Mississippi for 90 miles and about 5 miles in average width, is of this formation. About the French towns it has been cultivated, and produced Indian corn every year, without manuring, for a century and a half. The prairie lands, although not so productive, are yet not inferior for many agricultural purposes, and are preferred, where wood is to be had, on account of their superior salubrity. The barrens, or oak openings, have frequently a thin soil. In the

ILLINOIS.

north there are tracts somewhat stony, yet in every other part the plough may pass over millions of acres without meeting so much as a pebble to impede its course.

Illinois, extending as it does over five and a half degrees of latitude, must possess some variety in its climate, and the level surface that characterizes it, exposes it alike to sun and storm. The winters are everywhere severe, and the summers hot and prolonged. The climate is also subject to sudden changes, especially from November to May, and below the parallel of 40° the summer heat is extremely enervating. The prevailing winds are the south-west, which blow for three-fourths of the year. The north and north-westerly prevail in the winter months. On the whole, however, the climate is favorable to out-door occupations, the proportion of clear and cloudy days being as 245 of the former to 120 of the latter. Vegetation commences with April, and the first killing frost occurs from the 1st to the 15th September. The general salubrity of Illinois is well attested, and few suffer from endemic diseases, except those who are imprudent or settle near swamps and other sources of miasms.

In general Illinois is well supplied with timber, and were it equally distributed through the State, there would be no part wanting. The kinds of timber most abundant are oaks of various species, black and white walnut, ash of several kinds, elm, sugar maple, honey locust, hackberry, linden, hickory, cotton wood, pecanun, mulberry, buckeye, sycamore, wild cherry, box elder, sassafras, and persimmon. In the southern and eastern parts of the State, yellow poplar and beech are the peculiar growths, and near the Ohio are clumps of yellow pine and cedar. The under growths are red-bud, pawpaw, sumac, plum, crab-apple, grape-vines, dog-wood, spice-bush, green-brier, hazel, etc. The alluvial soil of the rivers produces cotton-wood and sycamore timber of amazing size. Many valuable medicinal plants are found in every part of the State.

The wild animals found in Illinois are similar to those existing in other parts of the Great West, but many species have become extinct. Of wolves the species still found are the gray wolf (*canis lupus*), the black wolf (*canis lycaon*), and the common prairie wolf (*canis latrans*). The latter is most common, and is found in considerable numbers. Panthers and wild cats are less frequently seen, but occasionally do mischief. The buffalo no longer roams on the prairies, and the deer and bear have retreated from the settlements. Foxes, raccoons, opossums, gophars, and squirrels, however, are numerous, as are muskrats, otters, and occasionally beavers about the rivers and lakes; but all these are being destroyed rapidly, and in a few years the trapper and hunter will have to move westward for sport and prey. Ducks, geese, swans, and many other aquatic birds visit the waters in spring time, and the small lakes and sloughs are often literally covered with the prairie fowl, and partridges are also abundant. The bee is found in the trees of every forest, and few States can boast of such variety and abundance of fish as are here found in the rivers and lakes.

Illinois is divided into 99 counties, the general statistics of which and the capitals of each in 1850 were as follows:

The whole number of dwellings in the State was, at the above date, 146,544; of families, 149,153; and of inhabitants, 851,470, viz.: whites, 846,104—males 445,644, and females 400,460; free colored, 5,366—males 2,756, and females 2,610. Of the whole population, there were, *deaf and dumb*—wh. 473, fr. col. 2—total 475; *blind*—wh. 253, fr. col. 4—total 257; *insane*—wh. 246, fr. col. 8—total 249; and *idiotic*—wh. 363, fr. col. 8—total 371. The number of free persons born in the United States was 786,981; the number of foreign birth, 110,593, and of birth unknown, 3,947; the *native* population originated as follows: Maine 8,693, N. Hamp. 4,288, Verm. 1,351, Mass. 9,230, R. I. 1,051, Conn. 6,599, N. York 67,180, N. Jer. 6,848, Penn. 87,979, Del. 1,397, Md. 6,598, Dist. of Col. 226, Virg. 24,697, N. Car. 18,851, S. Car. 4,162, Ga. 1,341, Flor. 23, Ala. 1,395, Miss. 490, La. 480, Tex. 63, Ark. 727, Tenn. 32,303, Ky. 49,508, Ohio 64,219, Mich. 2,158, Ind. 80,953, *Illinois* 243,618, Mo. 7,288, Ia. 1,511, Wisc. 1,095, Calif. 3, Territories 16. And the *foreign* population was composed of persons from—England 18,623, Ireland 27,786, Scotland 4,661, Wales 572, Germany 88,160, France 8,396, Spain 70, Portugal 42, Belgium 83, Holland 220, Italy 43, Austria 65, Switzerland 1,635, Russia 27, Denmark 93, Norway 2,415, Sweden 1,123, Prussia 286, Greece 4, China 1, Asia 2, Africa 11, British America 10,699, Mexico 80, South America 12, West Indies 75, Sandwich Islands 9, and other countries 495.

The following table will exhibit the decennial progress of the population since the first census of the State taken by the United States authorities:

Census. Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1810	11,501	613	168	781	12,282		
1820	53,788	506	917	1,423	55,211	42,929	849.5
1830	155,061	1,687	747	2,884	157,445	102,234	185.2
1840	472,254	8,599	881	8,929	476,183	818,788	202.4
1850	846,104	5,366		5,366	851,470	875,287	78.8

The statistics of the wealth and industry of Illinois, as furnished by the general census of 1850 and other official returns referring to that year, are as follows:

Occupied Lands, etc.—Improved lands, 5,039,545 acres, and unimproved lands, 6,997,867 acres—together valued in cash at \$96,133,290. Number of farms under cultivation, 76,208. Value of farming implements and machinery, \$6,405,561.

Live Stock.—Horses, 267,653; asses and mules, 10,573; milch cows, 294,671; working oxen, 76,156; other cattle, 541,209; sheep, 894,043; swine, 1,915,910—valued in the aggregate at \$24,209,258. In 1840 there were in the State 199,235 horses, mules, etc.; 626,274 neat cattle; 895,672 sheep, and 1,495,254 swine.

Grain Crops.—Wheat, 9,414,575 bushels; rye, 83,864 bushels; Indian corn, 57,646,984 bushels; oats, 10,087,241 bushels; barley, 110,795 bushels; and buckwheat, 184,504 bushels. The crops of 1839–40 consisted of—wheat, 8,335,393 bushels; barley, 82,251 bushels; oats, 4,983,008 bushels; rye, 83,197 bushels; buckwheat, 57,884 bushels; and Indian corn, 22,634,211 bushels.

Other Crops.—Rice, 0 pounds; tobacco, 841,394 pounds; ginned cotton, 1 bale of 400 pounds; peas and beans, 82,814 bushels; potatoes—Irish, 2,514,861, and sweet, 157,483 bushels; hay, 601,952 tons; clover-seed, 3,427, and other grass-seeds, 14,880 bushels; hops, 3,551 pounds; hemp—dew-rotted, 142, and water-rotted, 141 tons; flax, 160,063 pounds; flax-seed, 10,785 bushels; sugar—maple, 248,904 pounds, and cane, 0 hogsheads of 1,000 pounds; molasses, 8,354 gallons; wine, 2,997 gallons, etc. The value of orchard products was \$446,089, and of market-garden products, \$127,494. The following table compares some of the principal staples at the two periods, 1840 and 1850:

Staples.	1840.	1850.	Movement.
Tobacco.....	564,326 pounds	841,394 pounds	incr. 277,068 pounds, or 49.09 per cent.
Hemp.....	1,976 tons	283 tons	decr. 3,682,817 “ or 82.06 “
Flax.....	164,932 “	160,063 pounds	incr. 437,020 tons or 264.96 “
Hay		601,952 tons	

Products of Animals.—Wool, 2,150,113 (in 1839–40, 650,007) pounds; butter, 12,526,543 pounds; and cheese, 1,273,225 pounds. Value of animals slaughtered in the year 1849–50, \$4,972,286. Silk cocoons were produced to the amount of 47 (in 1839–40, 1,150) pounds; and beeswax and honey, to that of 869,444 pounds.

Home-made Manufactures for the year ending 30th June, 1850, were valued at \$1,155,902. In 1839–40, the value is set down at \$993,567.

Manufactures.—Aggregate capital invested, \$00,000,000; value of raw materials, fuel, etc., consumed, \$0,000,000; average number of hands, 90,000—males 0,000, and females, 0,000; average monthly cost of labor—male, 00,000, and female, \$00,000; annual value of products, \$00,000,000. The whole number of manufacturing establishments producing to the value of \$500 and upward in 1850, was 3,099, and of these—0 were cotton factories, 16 woolen factories, 96 tanneries, and 81 iron manufactures, of which 29 made castings, 2 pig iron, and 0 wrought iron.

The *woolen* manufactures employ a capital of \$154,500; and consume annually 396,964 pounds of wool; value of all raw material, fuel, etc., consumed, \$115,367; hands employed—males 124, and females 54; monthly cost of labor—male, \$2,723, and female, \$676; cloth manufactured, 806,995 yards, and yarn, 137,000 pounds; value of entire products, \$206,572.

The *tanneries* have a capital of \$188,373; value of hides and skins used, \$129,907; male hands employed, 240; monthly cost of labor, \$5,145; sides of leather tanned, 101,650, and of skins, 21,575; value of products, \$244,028.

ILLINOIS.

The *iron* manufactures, under the three separate heads as given in the census, are exhibited as follows—in the manufacture of *pig iron* the capital invested amounts to \$65,000; ore consumed, 5,500 tons, and coke and charcoal, 170,000 bushels; value of all raw material, \$15,500; hands employed, 150; monthly cost of labor \$3,310; pig iron produced, 2,700 tons; value of entire products, \$70,200;—and in the manufacture of *cast iron*, \$260,400 is invested; material consumed—pig iron 4,818 tons, old metal 50 tons, mineral coal 1,412 tons, and coke and charcoal 12,500 bushels—valued in the aggregate at \$172,880; hands employed, 382, at average monthly wages \$28 50; castings made, 4,160 tons; and other products to the value of \$59,250; total value of products, \$441,185. According to the census no *wrought iron* is manufactured in the State. The total capital invested in the manufacture of iron is thus \$325,400; the value of raw material, fuel, etc., consumed, \$187,880; the annual cost of labor, \$153,264; and the value of products, \$511,385.

The manufactures, otherwise than those enumerated, consist chiefly of the various trades and mechanic arts which usually exist in agricultural States, as saw, grist, oil, flour, and other mills; wheelwright shops; agricultural implement factories, etc., which, taken together and in connection with the staple manufactures above detailed, exhibit a very respectable condition of the country in relation to this branch of industry.

Foreign Commerce.—The direct foreign commerce of Illinois is chiefly with the British provinces. The *exports*, all of domestic origin, for the year ending 30th June, 1850, were valued at \$17,669; and the *imports* at \$15,705. Of the exports only \$1,282, and of the imports \$7,788; were the values of goods carried in American bottoms. This represents the commerce of the collection district, of which Chicago is the port of entry, the ports on the Mississippi being in the district of New Orleans. The total entries were 22 (7,383 tons), of which 4 (645 tons) were foreign; and the total clearances were 9 (2,041 tons), of which 5 (998 tons) were foreign. The shipping owned in the district of Chicago on the 30th June, 1830, amounted to 21,242 tons, all "permanent register," and engaged in the coasting trade, and of this 649 tons was navigated by steam. The total number of vessels built in the district during the year as above was 18 (1,691 tons), of which 2 were brigs, 7 schooners, 3 sloops, and 1 steamer. The statistics of the foreign commerce for several years exhibit the following—*exports* in 1847 \$52,100, in 1848 \$41,835, in 1849 \$88,417, and in 1850 \$17,669; and *imports* in 1847 \$266, in 1848 \$4,865, in 1849 \$9,766, and in 1850 \$15,705.

Internal and Coasting Trade.—The means of internal communication in Illinois, except in one or two favored localities, are as yet very limited. Some of her interior rivers are navigable, and a cordon of navigable water almost insulates the State; but until access to these be facilitated by railroads, their use to commerce must be comparatively small. Nevertheless, there are few ports that equal Chicago in its commerce, and Alton on the Mississippi is fast rising into importance, nor is Galena to be left unnamed in the list of commercial places. At these ports, as well as those on the Illinois River and Canal, a vast amount of business is transacted—that of Chicago with the East, and that of Galena, Alton, etc., chiefly with the South. The interests of the two sections are partially blended by the canal, which opens the lakes to the South and West, and will be completely united, when the vast system of railroads in course of construction is brought into action. The length of railroad now in operation within the State is 287 miles; the length in progress is 1,822 miles; and the length projected and surveyed about 600 miles. The principal points from and to which the several lines extend are—Chicago, where at least seven lines centre; Alton, which is the terminus of three lines; Galena, which is connected with Chicago on the east, and Cairo on the south; Cairo, where the great central railroad connects with the Mobile and Ohio railroad; Rock Island, the west terminus of the Chicago and Rock Island Railroad; and on the Indiana line, Vincennes, Terre Haute, etc., from which latter places the principal east and west lines pass, uniting the system of Illinois with those of Indiana, Ohio, etc. All the lines referred to will be completed within the next three years, and by that time Illinois will have fairly entered upon that great commercial destiny that awaits her career. The proportion of completed railroads to superficies in this State in January, 1853, was as 1 mile of road to every 19½ square miles, and to the population as 1 mile of road to every 2,971 persons.

Banks, etc.—The condition of the State bank of Illinois on the 1st January, 1851, was as follows: *assets*—debts of all kinds due, \$706,890 57; real estate at cost, \$747,575 05; Illinois State bonds, \$17,501 54, and interest, \$20,240 48; Illinois State scrip, \$14,555 20, and coupons, \$4,750 86; sundry stocks, \$9,674 99; due by other banks and bankers, \$18,858 93; broken bank notes, \$12,801; specie, \$36,666 85; total, \$1,675,554 94; and *liabilities* other than to stockholders—bonds of the bank outstanding, \$184,000; interest on same to date, \$49,560; due to other banks and individuals, \$1,652 89; and notes and certificates outstanding, \$218,975 01; total, \$445,190 90. All other banks in operation at the present time, 16 or 17 in number, are organized under the Free Banking Law of the State, and the notes are considered to be well secured, having government bonds and stocks as their basis.

Government.—The first constitution of Illinois is dated 26th August, 1818. The constitution on which the government is based at the present time was adopted in convention 31st August, 1847, and accepted by the people 7th March, 1848. It provides that every white male citizen, 21 years old, resident in the State for one year, may vote for all elective offices.

The legislature is termed the General Assembly, and consists of a Senate and House of Representatives; the Senate composed of 25 members, elected for four years, one-half every two years; and the House of Representatives composed of 75 members, elected for two years. Members of both houses must be citizens of the United States—senators must be 30 years old, and have been resident in the State for 5 years; and representatives must be 25, and have resided in the State 3 years. These numbers may be increased when the population amounts to 1,000,000, but the number of representatives must never exceed 100. Pay of members \$2 a day for 42 days, and \$1 a day afterward. In forming senatorial or representative districts, the number of *white* inhabitants is only to be regarded.

The Governor is elected quadrennially by a plurality of votes. He must be 35 years old, a citizen of the United States and a resident of the State for the 10 years next preceding. The Governor must reside at the seat of government, and is not eligible for re-election at a consecutive term. A majority of the members elected to both houses may nullify the Governor's veto on any act of the legislature. The Lieutenant-Governor is required to have the same qualifications as the Governor; and in case of the death or disability of the chief executive, the Lieutenant-Governor acts in his stead, and he is also *ex-officio* President of the Senate.

The judiciary consists of a Supreme Court, Circuit Courts, and County Courts. The State is divided into three grand judicial divisions, each of which elects a judge for nine years, who must be 35 years of age, a citizen of the United States, and resident in the State five years; and the three judges compose the Supreme Court, the jurisdiction of which is original in cases relating to the revenue, cases of mandamus and habeas corpus, and in some impeachments—in all other cases, appellate. One of the judges is elected every three years. This court holds one session in each division annually; the terms are: 1st division, at Mount Vernon, on the second Monday in November; 2d division, at Springfield, on the third Monday in December, and 3d division, at Ottawa, on the first Monday in February. There are fifteen judicial circuits, each

ILLINOIS.

of which elects a judge for six years, who must be 30 years of age, and otherwise qualified as are judges of the Supreme Court. Judges are not eligible to any other office during their term, nor for one year after. Cook County has a District Court of Common Pleas. Each county elects a judge for four years, who holds a county court for the transaction of county and probate business, with limited civil and criminal jurisdiction.

Among the provisions of the Constitution are the following: no State bank can be created nor revived; acts creating banks must be submitted to the people and receive a majority of votes in their favor to become law; stockholders are individually liable to the amount of their shares; corporations not for banking purposes may be established under general laws; slavery and lotteries are prohibited; duelling is a disqualification for office; colored persons, free or slave, are not permitted to come into the State.

To alter the Constitution, the amendments must be passed by a two-thirds vote of the whole number of members elected to both houses, published and referred to the next legislature, and if passed again by a majority, then they must be submitted to the people, whose approval by a majority vote makes them law.

The calling of a convention to amend the Constitution, if recommended by a two-thirds vote of the legislature, is submitted to the people, and if a majority of votes are in its favor, the convention shall be called by the succeeding legislature. Amendments can be proposed to but one article of the Constitution at one session.

The militia of Illinois, according to the Army Register for 1851, consists of 170,859 men of all arms, of which 4,618 are commissioned officers, and 165,741 non-commissioned officers, musicians, and privates. Of the commissioned officers 80 are general officers, 99 general staff officers, 1,297 field officers, and 8,192 company officers.

The principal State benevolent institution is the Asylum for the Deaf and Dumb at Springfield. This institution was opened in January, 1846. The number of pupils in January, 1849, was 60, of whom 26 were females; and 10 were from Missouri and 1 from Iowa—the remainder from Illinois. The annual session commences the first Thursday in October.

Finances, Public Debt, etc.—The receipts into the treasury for the two years ending 30th November, 1850, were \$402,179 27, of which \$894,103 53 was derived from taxes, and \$8,075 74 from all other sources; and the expenditures for the same period amounted to \$326,126 27, of which \$137,196 16 was ordinary expenses of the government, \$78,486 90 special appropriations and expenditures, \$4,618 98 interest on funds due deaf and dumb asylum, \$105,698 08 issued to school commissioners, and \$176 15 interest paid on old warrants. The receipts for the two years exceeded the disbursements \$76,053. The amount of interest fund tax received for the same period was \$296,326 89, and the amount of interest paid was \$268,084 50. The whole amount of real and personal estate subject to taxation in 1849 was \$105,432,752, upon which the State tax was \$612,428, but which netted only \$578,768 81. In 1850 the value of taxable property amounted to \$114,782,645 (true or estimated valuation according to the census \$156,595,006). The aggregate of the public debt on the 1st January, 1851, was \$16,627,509 91; of this \$8,784,451 43 was state debt proper, and \$7,843,028 48 the canal debt. These two debts are explained as follows:

STATE DEBT.	
Principal debt funded under act of 1847.....	\$5,590,565 86
Interest on same to same date	1,020,278 18
Arrears of interest funded	1,945,485 27
Unfunded internal improvement bonds.....	\$180,000 00
Other kinds of indebtedness.....	144,680 00
Interest on last two amounts.....	178,261 40
Wiggins loan, princ'l and interest	142,000 00
Liquidation bonds.....	150,000 00
	789,941 40
	\$9,846,270 21
From which deduct interest paid from mill and a half tax, bonds surrendered, and sale of lands, etc.	561,788 73
	\$9,784,481 48

CANAL DEBT.	
Principal debt, exclusive of \$1,600,000 loan..	\$7,079,117 08
Balance due on canal loan of \$1,600,000.....	1,088,000 00
	\$8,112,117 08
From which deduct:	
Interest paid from mill and a half tax	\$255,818 51
Bonds and scrip redeemed and interest	13,270 14
	269,088 65
Total canal debt.....	\$7,843,028 48
AGGREGATE DEBT.	
State debt proper.....	\$8,784,451 43
Canal debt.....	7,843,028 48
Total debt.....	\$16,627,509 91

Federal Representation.—Illinois, in accordance with the law regulating the distribution of members to the United States House of Representatives, occupies nine seats in that body.

Education.—Illinois has large funds devoted to school purposes. On the 29th December, 1850, the permanent funds applicable to the support of common schools amounted to \$790,120 66; and the university fund amounted to \$90,889 58, and the seminary fund, to \$58,788 72—together making a total of \$939,798 96. The whole of this sum has been borrowed by the State, which pays six per cent. interest on the amount. The interest on the common school fund is \$47,407 23, which is divided among the several counties in proportion to the number of white children under 21 years of age. In 66 counties that made returns for the year 1850, there were 2,641 organized districts and school-houses, of which 1,370 were log-houses, 925 frame, 139 brick, and 37 stone, and of the whole number 106 contained more than one room. There were school libraries in 108 districts. The total amount of public moneys paid out for teachers' wages during the year was \$148,871 09; amount, other than public moneys, \$81,841 20—total cost of teaching, exclusive of buildings, repairs, etc., \$230,712 29. The principal colleges in the State are, Illinois College, at Jacksonville, founded in 1829, and in 1850 it had 7 professors, 93 alumni, 84 students, and a library of 8,000 volumes; Shurtleff College, at Upper Alton (Baptist), founded in 1835, and in 1850 it had 6 professors, 3 alumni, and 13 students, with a library of 1,600 volumes; McKendree College, at Lebanon (Methodist), founded in 1835, and in 1850 it had 4 professors, 83 alumni, 57 students, and a library of 1,700 volumes; Knox College, at Galesburg, founded in 1837, and in 1850 it had 5 professors, 16 alumni, 58 students, and a library of 8,000 volumes. Shurtleff College has connected with it a theological seminary; and at Chicago is located the Rush Medical School, founded 1842, and in 1850 it had 6 professors, 70 students, and 16 graduates.

Public Libraries.—One State Library of 4,000 volumes, 2 social libraries of 2,821 volumes, 4 college libraries of 8,120 volumes, 2 student's libraries of 625 volumes, 2 academic libraries of 2,000 volumes, and 16 public school libraries of 2,350 volumes—total 27 libraries, and 19,916 volumes.

Periodical Press, etc.—The whole number of newspapers and other periodicals published within the State is 119, of which 73 are political, viz.: 39 whig and 36 democratic, and 43 are devoted to literature, science, religion, etc.; and 10 are published daily, 4 tri-weekly, 94 weekly, and 11 at other periods. The daily papers have an aggregate average

circulation of 8,580 copies, the tri-weekly of 1,650 copies, the weekly of 69,472 copies, and those published at other period of 14,625 copies. Of the eleven periodicals published at other periods, as above, 2 are semi-monthlies, 7 monthlies, 1 quarterly, and one is issued eight times a year.

Religious Denominations.—The statistics of the several religious denominations in 1850 are exhibited in the following table:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	265	91,620	\$204,095	German Ref. 2	180	—	\$810	R. Catholic..	58	29,000	\$220,400
Christian....	67	30,754	42,950	Jewish.....	—	—	—	Swedenbor'n.	1	140	800
Congregat'l.	46	15,576	89,250	Lutheran....	40	16,440	40,120	Tunker.....	4	1,225	2,250
Dutch Ref. .	2	875	2,700	Mennonite...	—	—	—	Union.....	81	8,575	82,050
Episcopal ..	27	14,000	78,350	Methodist...	389	176,474	327,290	Unitarian ..	6	1,500	9,000
Free	2	750	6,400	Moravian....	2	400	850	Universalist.	4	1,800	11,500
Friends	6	1,550	2,840	Presbyterian.	198	81,529	895,130	Minor Sects..	17	6,890	11,050

Making a total of 1,167 churches, having accommodation for 636,478 persons, and valued at \$1,476,335. The State constitutes the Protestant Episcopal diocese of Illinois and the Roman Catholic diocese of Chicago.

Pauperism.—The whole number of paupers who received support within the year ending June 1st, 1850, was 797, of which number 376 were native born and 411 foreign; and at the date specified the number of paupers on the list was 484, of which 279 were native and 155 foreign born. The cost of supporting these had been during the year \$45,213.

Historical Sketch.—The name which now pertains exclusively to this State was, during a great part of the last century, bestowed upon all that vast country which lies north-west of the Ohio, and was derived from the River Illinois, which in the indigenous language signifies the *River of Men*. The first settlements were made by the French, and were the consequence of the enterprise of La Salle in search of the Mississippi. This traveler set out from Canada in 1670, and passing across the lakes to Michigan, descended the Illinois River. After examining the country, with which he was greatly pleased, he returned to Canada, leaving Chev. de Tonte in command of a small fort he had built and named Crèvecoeur. While in Canada he procured a number of volunteers to unite in the scheme of forming a settlement on the Mississippi in the Illinois country. They reached their destination in 1673, and founded the villages of Kaskaskia, Cahokia, and several others of less note; here La Salle left his colony, while he descended the Mississippi to its mouth. Soon after this settlement, many enterprising persons explored the country in search of mineral wealth, and after the establishment of a colony at the mouth of the Mississippi, Iberville, the French governor, in company with others, undertook a similar expedition. At the beginning of the eighteenth century the settlements in Illinois are represented to have been in a flourishing condition. Kaskaskia had become a considerable town before any great progress had been made in the settlements on the Lower Mississippi; and one who calculated the future by what the present exhibited would have seen little reason to foretell the rapid growth of Louisiana and the decline of Illinois, which afterward occurred. The descriptions given of Illinois by French writers were of the most captivating kind—its beautiful scenery, its fertile prairies, its supposed (now realized) mineral wealth, were painted in glowing colors, and a new paradise was opened to Frenchmen on the banks of the Illinois; and to add to the attractions of the country, a monastery of Jesuits was established at Kaskaskia; the settlers, however, soon degenerated, and assimilated by degrees their manners to those of the Indians among whom they resided. Of these savages, their number and varieties, at the epoch of the first settlements, and soil, are not well ascertained. From the beginning to the middle of the 18th century, we hear little of the settlers; as the colonies of France and England extended, disputes arose respecting the boundaries, which had never been sufficiently defined. The French, anticipating a struggle for the preservation of their American possessions as early as 1749, strengthened themselves by fortifications on the lakes, on the Ohio, the Wabash, and Illinois, and in other parts of the Valley of the Mississippi, to which they laid claim. The British, on the other hand, claimed the country on the Ohio and the neighboring streams by virtue of the charters they had granted. The Ohio Company, which was formed soon after, produced hostilities between the two nations. At the close of the war, which gave to Britain the province of Canada, the whole of the French claim to the Illinois country was also ceded to Great Britain. During its continuance as a British dependency, nothing of importance seems to have occurred. Few or no additions were made to the settlements at Kaskaskia and the other French posts, the inhabitants of which were but little removed in scale of civilization above the Indians. At the peace of 1783, the Illinois country fell to the United States, and the whole territory, north-west of the Ohio River, was claimed by Virginia and other States as included in their charters. At the instance of Congress, a liberal cession of these claims was made to the General Government, and by the ordinance of 1781 a territorial government was established over the whole region. Ohio was made a separate territory in 1799, and in 1802 was admitted into the Union as a State, while the remainder of the territory retained its territorial attributes under the name of Indiana. In 1809 this territory was again divided, the eastern portion retaining the name of Indiana, and the western taking that of Illinois. Indiana was admitted as a State in 1816, and Illinois, within its present limits, in 1818, since which period the progress of the country in population, general industry and wealth, has been still onward, and at the present day it has grander works of internal improvement than many of the States that at the era of the Revolution were flourishing and populous communities.

SPRINGFIELD is the political capital of the State, and has been such since 1840. Kaskaskia and Vandalia were successively the metropolitan cities.

ILLINOIS CITY, p. v., Rock Island co., ILL.: 2 m. from the Mississippi r.; 124 m. N. N. W. of Springfield.

ILLINOIS RIVER, *Ind. Ter.*: an affluent of the Arkansas. It rises in Benton and Washington counties, Ark., and after receiving several tributaries in its course, falls into Arkansas r., about 4 m. above the confluence of Canadian r. Along its lower course there are numerous salt springs.

ILLINOIS RIVER, ILL.: one of the largest affluents of the Mississippi r. It is formed by the union of Des Plaines and Kankakee rivers, which come together at Kankakee village. The *Des Plaines* rises in Wisconsin, a few miles above the boundary of Illinois, and about 6 m. from Lake Michigan.

It runs a S. course over a bed of limestone, and through a fertile country. Groves of timber are found on its banks, and are interspersed through the vast prairie region. In many places along its banks rock is abundant, and in some measure compensates the comparative scarcity of timber for buildings and fences. This r. is frequently written Aux Plaines or O'Plane. The Kankakee rises in the N. part of Indiana, near the S. bend of St. Joseph's r., and runs a westerly course into Illinois, where it receives the Iroquois, and forms a junction with the Des Plaines in section 35, township 34 N., and range 8 E. from the third principal meridian. Here is a large body of fine timber, but along

the river itself there is very little. It is a rapid stream, and runs through a limestone bed. (*See KANKAKEE r.*) The Illinois, formed by these two main constituents, is the largest navigable river within the State. From the junction it runs nearly a W. course for part of the distance over the Grand Rapids to Ottawa, at the mouth of Fox r., receiving Au Sable from the N. and Little cr., or Mazon, from the S. Along this line, and especially at Marseilles, there is immense water-power, but no convenient navigation. The canal runs on the N. side, parallel with its bank. At Ottawa the r. is deep, and there is a convenient basin harbor for large steamboats, which ascend to this point in a high stage of the waters. The Lower Rapids, at a low stage of water, however, interrupt navigation between Ottawa and La Salle, where the Illinois and Michigan Canal terminates. The junction of the canal with the r., where have been constructed commodious basins for both canal and steamboats, and it being the crossing place of the Central R. R., makes La Salle a business place of pre-eminent importance to the State. A short distance above, the Illinois receives Vermilion r. from the S., and Little Vermillion from the N., and about 6 m. above Hennepin it curves to the S., and then to the S. W., receiving Bureau and several smaller streams, and then expands into the beautiful sheet of water known as Peoria Lake. Three miles below Peoria the Illinois receives the Kickapoo cr. from the N., and the same distance below Pekin comes in Mackinaw from the W. Copas cr. enters from the E. part of Fulton co., where for many miles the W. bank of the r. below the bluffs is a low, swampy region, interspersed with strips of land elevated above high water, the most conspicuous of which is Bailey's Island, or Liverpool, handsomely situated above the highest flood. Near Havana, on the E. side, is a lagoon or slough, which in former times was frequently mistaken for the main stream, and directly opposite that village Spoon r. comes in from the N. E. Pursuing the course of the r. downward the mouth of Otter cr., from the W., is passed, and one or two other trifling streams, and at the N. W. corner of Cass co. the Sangamon r. flows in. Sugar cr. comes in from the W., near the bluffs of which is located Schuyler City. Six miles below Beardstown, Crook cr. enters from the W., and a few miles farther down, Indian cr., which loses itself in the inundated bottoms before its waters enter the Illinois. McKee's cr., from the W., enters the Illinois 2 m. below Naples, and 2 m. below that, from the E., the Mauvaise Terre. Passing Big and Little Blue rivers, two magnificent streams from the W., the Sandy, from the S. W. part of Scott co., enters the r. Macoupin cr., Otter, Raccoon, and other creeks, enter the r. farther down. At Naples the Illinois turns to a more southerly course, which it pursues till within 6 m. of the Mississippi, where it bends to the S. E., and finally to an E. course, where its waters unite with that river behind a cluster of islands. The parting of the channels of the Mississippi and Illinois rivers for steamboat navigation is at Grafton, 2 m. below its mouth.

IMLAYSTOWN, p. v., Monmouth co., *N. Jer.*

INDEPENDENCE county, *Ark.* Situate N. E. centrally, and contains 1,007 sq. m. Big Black r. bounds it on the E., and White r. flows through from W. to E., and their affluents drain it. Surface mostly rolling, and soil highly productive.

Cotton and tobacco are grown, but it is best adapted to grain and grass, which yield finely, and feed many cattle and hogs. On the rivers are the best of ash and cypress forests. Farms 694; manuf. 10; dwell. 1,159, and pop—wh. 6,927, fr. col. 12, sl. 828—total 7,767. *Capital*: Batesville.

INDEPENDENCE, p. v., Warren co., *Ind.*: on the W. side of Wabash r., 63 m. N. W. Indianapolis. A plank-road runs hence to Oxford, Benton co.

INDEPENDENCE, p. o., Grayson co., *Virg.*: 217 m. W. S. W. Richmond.

INDEPENDENCE, p. v., and cap. Kenton co., *Ky.*: 51 m. N. N. E. Frankfort. It contains a court-house, jail, several stores, and about 80 dwellings. It is 10 m. from Covington. Pop. 250.

INDEPENDENCE, p. v., and cap. Jackson co., *Mo.*: about 4 m. S. of Missouri r., and 129 m. W. by N. Jefferson City. It has a court-house, jail, etc., several extensive stores, and about 800 inhabitants. There are two newspapers published here, the "Missouri Commonwealth," issued semi-weekly, and "Occidental Messenger," weekly. This is a great rendezvous of overland emigration to the Pacific, and a point through which the Pacific R. R. will be carried. Its business, which is immense, is chiefly connected with emigration, and here many of the emigrants obtain the bulk of their supplies. It has also some Indian trade.

INDEPENDENCE, t. and p. v., Alleghany co., *N. Y.*: 208 m. W. by S. Albany. Drained by Independence and Cryder's creeks, heads of Genesee river. Surface elevated and rolling; soil clayey loam, and superior for grass-growing. A farming t., which makes some woollen goods. In the v. are several stores and mills. Pop. of t. 1,701.

INDEPENDENCE, t. and p. o., Cuyahoga co., *Ohio*: 117 m. N. E. by N. Columbus. Drained by the Cuyahoga and its branches. Surface diversified; soils rich and fertile. The Ohio Canal passes through the v., about 9 m. S. Cleveland. Pop. 1,455.

INDEPENDENCE, sta., Richland co., *Ohio*: on the Sandusky, Mansfield, and Newark R. R., 76 m. from Sandusky, and 41 from Newark.

INDEPENDENCE, p. v., Washington co., *Penn.*: 178 m. W. Harrisburg.

INDEPENDENCE, p. o., Autauga county, *Ala.*: 23 m. N. W. Montgomery.

INDEPENDENCE, p. v., Washington co., *Tex.*: about 8 m. W. of Brazos r., 81 m. E. Austin City. It has a high situation in La Bahia prairie, 10 m. from Washington, with extensive beds of coal in its vicinity.

INDEPENDENCE, p. o., McLean county, *Ill.*: 76 m. N. E. Springfield.

INDEPENDENCE, p. v., and cap. Buchanan co., *Ia.*: on the E. side of Wabsipineon r., 59 m. N. N. E. Iowa City. It has a court-house, etc., and about 30 dwellings.

INDEPENDENCE HILL, p. o., Prince William co., *Virg.*: 84 m. N. Richmond.

INDEPENDENCE river, *N. Y.*: an affluent of Black r. It rises in Hamilton co., and flows W. to its confluence with the Black, about 2 m. E. of Martinsburg.

INDESVILLE, p. v., Surry co., *N. Car.*: 127 m. W. N. W. Raleigh.

THE STATE OF INDIANA.

INDIANA* lies in the form of a parallelogram between Ohio and Illinois, and extends from Michigan, on the north, to the Ohio River, on the south. Geographically, it is situated between the latitudes 37° 51' and 41° 48' north, and between the longitudes 85° 49' 30" and 88° 2' 30" west from Greenwich, or 8° 47' 30" and 11° 0' 30" from Washington. Its extreme length from north to south is 276 miles, and its greatest width 176 miles; but its average length is only about

* The definite boundaries of the State, according to the ordinance of Congress, dated 19th April, 1816, are as follows: "Bounded on the east by the meridian line which forms the western boundary of the State of Ohio, being a north line from the mouth of the Miami; on the south by the river Ohio, from the mouth of the Great Miami to the mouth of the river Wabash; on the west by a line drawn along the middle of the Wabash from its mouth to a point where a due north line, drawn from the town of Vincennes, would last touch the north-western shore of the said river, and from thence by a due north line until the same shall intersect an east and west line drawn through a point ten miles north of the southern extreme of Lake Michigan; on the north by the said east and west line," etc., to beginning.

242 miles, and its average breadth not more than 153 miles; and within these limits the area of its superficies is 88,809 square miles.

The general features of Indiana are those which pertain to all countries where mountain, in the strict sense of the word, is wanting; for if we except the river-hills and the accumulations of sand on the southern shore of Lake Michigan, no portion of the country has any continuous or definite elevation which even a florid imagination could dignify by such a term, and all of mountain that really appears is a few isolated "knobs," which serve only to diversify the scenery. Nearly two-thirds of the State is level, or at most, undulating, and a most singular feature of the country is the absence of any watershed or dividing ridge, such as almost every geographical region presents, from which the waters flow in different directions; still, however, the country has continuous slopes of great extent, and the difference in elevation of the highest land and the Ohio River at the Falls is nearly 600 feet, and a considerable difference is observed (about 70 feet) between the levels on the Ohio, at the Falls, and at the mouth of the Wabash, the latter being the lowest.

The river-hills, of which previous mention has been made, extend at various distances from, and parallel to, the courses of the Ohio and other streams, and inclose what are termed the bottom-lands, which are chiefly covered with a rich alluvial soil, and thickly set with forests. These hills, along the Ohio River, are generally as high as the highest levels of the interior, often of a rugged and broken aspect, and where torn through by the tributaries of the Ohio, present much imposing scenery. Behind these a table-land spreads out and forms what with propriety may be termed the interior of the country; and now every thing is changed. Instead of the bottoms, with their mighty forests, the most various landscape appears; here are extensive groves of oak, ash, and other trees—there vast prairies, sea-like in their dimensions, and with untroubled surface; here the land undulates or rolls, as if formed into billows, by the dalliance of soft winds, and occasionally hills, rising from 100 to 300 feet high, remind us of a tempest-tossed sea, when the waves accumulate in their might. There is such a marked difference between the several parts of the country, however, that no general description could embrace its topography, and hence it is necessary to detail its principal characteristics and its divisions as indicated by nature. 1. The Ohio Valley, including that of the White Water, contains some 5,000 square miles. This is a limestone region; it was originally clothed with heavy forests; and the soil in the bottoms, hill-tops, and sides is very rich. The hills are abrupt and broken, and the numerous tributaries of the Ohio River break through them in every direction. Many of these streams in dry weather show only the marks where the torrents have disappeared almost as soon as the storms which occasioned them. Of this division of the State, about two-thirds is good farming land, and the residue either too hilly or the soil too poor for profitable culture. The poorest part is in the flats at the heads of the streams. 2. The White River Valley extends from the Wabash centrally through the State to the Ohio line, and covers about 9,000 square miles of surface. It is almost uniformly level and heavily timbered, except in the western parts, where there are some prairies and barrens, and ranges of low rugged hills. The whole valley is destitute of rock, and the soils are of the richest kind, with little that is unprofitable. Most of the streams are clear and never-failing, and water-power is generally abundant. 3. The Wabash Valley is the largest division, and embraces an area of upward of 12,000 square miles. It interlocks with the valley of the White River, and the eastern portion resembles it. It is equally fertile, but more broken. The middle part of the valley has abundant water-power, but in the upper and lower parts it is less plentiful. From the river-hills, on the Ohio, to the Wabash, the surface is an inclined plane, and it is not a little curious to find streams, the head waters of which are near the borders of the Ohio Valley, traversing toward the Wabash, a river so much farther distant from their sources. 4. The north part of the State, watered by the St. Joseph's and the Kankakee, is much similar in its general character to the Wabash country, but is, perhaps, more swampy, and near the lake the country has extensive sand-hills, which are covered only with stunted and shriveled pines and burr-oaks.

Indiana has numerous fine rivers, but for navigable purposes few of them except the Ohio, Wabash, White, etc., are at all eligible; most of them, however, afford valuable water-power. The Ohio, the final reservoir of the principal water-courses of the State, borders the whole country on the south, from the mouth of the Miami to that of the Wabash, a distance, by the river's course, of 380 miles. Between these two points few streams of any volume empty into it, and none exceed 80 or 40 yards in width at their mouths. Laughery, Indian Kentucky, Silver, Indian, Blue, Anderson, Big Pigeon, Little Pigeon, etc., are the principal. The White Water joins the Miami six miles above its entrance into the Ohio. The Wabash, which rises in Ohio, runs first north, then north-west, then west, then south-west, then south, and again south-west, making the whole distance to its junction with the Ohio, upward of 600 miles, of which more than one half is navigable. Its principal tributaries are: from the south and east, the Salamonie, Mississinewa, Wild Cat, Sugar or Rock, Racoon, White, and Patoka rivers; and from the west and north, Little Wabash and Embarras rivers in Illinois, Vermillion in both States, and in Indiana altogether, Tippecanoe, Eel, and Little rivers. White River, the most important of these, empties into the Wabash, 100 miles above its mouth; the West Fork, its longest branch, rises in Randolph County, near the Ohio line, and runs in a south-west direction, receiving in its course Eel River, Fall Creek, etc.; and the East Fork, the principal tributaries of which are Salt Creek, the Muscatatuck, Sand Creek, Clifty, Flat Rock, and Sugar creeks, rises in Ripley County, and has a western course to its junction with the West Fork—the two forming White River proper—about fifty miles from its entrance into the Wabash. The St. Joseph's and St. Mary's form the Maumee, which passes to Ohio and Lake Erie. Another St. Joseph's and its tributaries, the Elkhart, etc., pass through the northern tier of counties, and ultimately fall into Lake Michigan. The Kankakee, the principal branch of the Illinois River, rises near South Bend, and runs sluggishly through the north-western counties for 100 miles, and in its course receives Yellow River, a stream about 50 miles long; extensive marshes everywhere bound its course. Deep and Calumic rivers lie near and south of Lake Michigan, and in some places are only separated from it by banks of sand. The Iroquois or Pickamink rises south of the Kankakee, and runs nearly parallel to it for 50 miles, and joins it in Illinois.

Besides Lake Michigan, on the northern border, there are numerous other but small lakes in different parts of the State, principally to the north of the Wabash River. Several of them have no outlets; they are generally clear, however, and have sandy shores and bottoms. They seldom exceed a few acres in extent, though some at the head of Tippecanoe River and Turkey Creek, and near La Porte, cover several hundred acres. Mexanoukkee Lake, a beautiful sheet of water, in Marshall County, is three miles long and half as broad; and Beaver Lake, six miles long and three miles wide, covers 10,000 acres. All these lakes abound in fish, and form in the surrounding scene objects which attract the gaze of the traveler.

The concluding chapter of the Report of D. D. Owen on the Geology of Indiana, thus sums up the results of his reconnaissance on that topic: "Three geological formations exist in Indiana. 1st, a bituminous coal formation, occupying that portion of the State west of the second principal meridian; 2d, a limestone formation (similar to the mountain limestone of European geologists), prevailing in the counties east of that meridian; 3d, a diluvium, consisting of deposits of clay,

sand, gravel, and boulders, overlying, and in many places covering up, the two other formations to a greater or less depth, particularly in the northern part of the State. Now, as in this country no perfect seams of bituminous coal are found associated with calcareous deposits, similar to those of Middle and Eastern Indiana, the geologist can confidently predict that it is a waste of time and labor to search for coal in any part of the State east of this second meridian—for instance, as has been done in the neighborhood of the black bituminous aluminous slate, stretching north in a narrow band, commencing at New Albany, in Floyd County, and extending through part of Clarke, Scott, Jennings, Bartholomew, Decatur, and probably beneath the diluvium in a northerly direction toward Elkhart. If we were to speculate, from geological observations, on the future condition of Indiana, we should say that the western counties are destined to become one day the chief manufacturing counties; since, with a few exceptions, all large manufacturing towns and districts are situated on the coal formation. The freestones of this formation being soft and fissile, owing to the existence of mica disseminated in layers through their substance, and to the ferruginous cement which unites their particles, being liable to several alterations by the action of the atmosphere upon it, a careful selection by the builder is always necessary. In sundry places, particularly toward the base of the formation, or near its eastern boundary, as at Attica, Williamsport, on Pine Creek, and near the French Lick, with a little care, freestone, white and fine grained, and excellently suited for architectural purposes, may be readily obtained. In character and geographical position it resembles the celebrated Scotch freestone, of which the new town of Edinburgh, and a portion of the town of Glasgow are built. At New Harmony there is a quarry of freestone, yielding rock that has stood the test of twenty years, yet it is by no means equal to the strata above alluded to in our eastern counties. A freestone of a very fine grain and white color is quarried at the French Lick, west of Paoli; it is manufactured into whetstones, that answer admirably for putting a fine edge on tools, and for polishing; they are exported to all parts of the United States. Good grindstones are also manufactured from a similar stratum of these freestones, of a coarser grain. The eastern boundary or base of the coal formation is the most likely place to afford salt water; for we find the most productive salt wells throughout the Western country occupying in the inferior members of the coal formation. Thus, should symptoms of salt water make their appearance in the counties of Perry, Spencer, Dubois, Martin, Daviess, Greene, Owen, Clay, Putnam, Montgomery, or Tippecanoe, the encouragement to make a search would be greater than if found elsewhere in the State. Salt, however, is not, strictly speaking, constant in its geological position. In Europe it usually occurs in the new red sandstone, a formation higher and of more recent origin than the bituminous coal formation; while on the Holston, a tributary of the Tennessee River, there is a fine salt deposit, surrounded by gypsum or plaster of Paris, lying on the grauwacke formation. Two or three salt wells have been sunk in the knobs east of Bloomington, through the silicious beds belonging to the sub-carboniferous group. The salt is of excellent quality; but the water has hitherto proved too weak to afford a fair profit. The boring after salt is, in truth, at all times attended with considerable uncertainty. Quantities of argillaceous iron ore—from which in Great Britain 600,000 tons of iron are annually obtained—occur in some of the clay slates of the bituminous coal formation of Indiana. Some of the clay slates answer well for fire-brick; that now excavated near Troy is to be manufactured into fire-brick for sale—an important article of commerce in a country where steam-engines are so extensively used, and indispensable where furnace operations are carried on to any extent. Some of our clays in the coal formation answer well for the manufacturing of stone-ware and gray pottery-ware: such wares are now manufactured from them at Troy. Since I first called the attention of the proprietors to the deposit of the hydrated brown oxide of iron, near the Falls of Eel River, examinations have been made by digging in four or five different places; ore has been struck in all of them; many tons have been thrown up, and the prospects are so encouraging that the proprietors of the Falls are now endeavoring to form a company, to erect a furnace, and commence, on an extensive scale, smelting the ore. Sandstone being the predominating rock in the coal formation, and the greatest part of the soil of those western counties being formed from its disintegration, we find it generally of a sandy character. The dip and position of the various beds belonging to coal measures are generally constant, unless where, from the protrusions of basalt or greenstone, those volcanic disturbances, called by the miners '*fautes*,' '*troubles*,' or '*dykes*,' have disturbed the regularity of position. If, then, the general dip and order of succession of the strata can be ascertained, and these should appear to be free from faults or material undulation, a pretty correct estimate might be formed of the depth of the various seams of coal and other strata in different parts of the coal-fields of Indiana. Most of the limestones in the oolitic series—that is, those occurring in the counties of Crawford, Orange, Lawrence, Monroe, Owen, and Putnam—make good building materials. The encrinital limestones in Harrison, Washington, Jackson, Bartholomew, and Morgan counties, are also very suitable for that purpose; but the silicious strata, or sand rocks, in these counties, are generally soft and crumbling, and by no means durable. The only use that the black bituminous aluminous slate, occurring in the sub-carboniferous group, can be put to, is for the manufacture of alum. The sub-carboniferous group affords a water-lime, which appears to be a compound chiefly of limestone and clay, with some bituminous matter. It is associated with the black bituminous aluminous slate above mentioned. Some of the limestone in its neighborhood—for instance, those rocks which are excavated at the top of the hill behind Madison—contain green earth, and some are impregnated with bitumen and sulphuretted of iron. In making a selection of building materials in such strata, care should be taken not to use any such unless their durability has been well tested, for they are generally liable to decay. The fossiliferous limestones of East Indiana, namely, those found in Jefferson, Switzerland, Dearborn, Ripley, Franklin, Fayette, and Union counties, are durable rocks, and some of them make beautiful marbles. The sub-carboniferous formation of Indiana is identical with the formation occurring in Middle Tennessee, in which the enormous deposits of the hydrated brown oxide of iron, constituting so much of the mineral wealth of that State, are found. The deposits of this kind of ore in Indiana, however, although found in the same formation, are not associated with exactly the same strata. In Tennessee they are in the silicious strata, just above the encrinital limestone: those at present discovered in Indiana are either resting on the oolitic series of limestone, or near the bituminous aluminous slate. The soil in Crawford, Lawrence, Orange, Monroe, Owen, and Putnam counties, being formed chiefly from the oolitic limestones, has a calcareous character, and is admirably adapted for the growth of grasses. Clay will be found to predominate in the soil of the counties of Floyd, Clark, Scott, Jennings, and parts of Bartholomew, Decatur, Shelby, Johnson, Marion, and Hancock, because the soil of these counties is underlaid by clay slates. Hence we find the beech-tree, which delights in a clayey soil, there growing luxuriantly. The soil of Jefferson, Switzerland, Dearborn, Ripley, Franklin, Fayette, Union, and parts of Decatur and Rush, being formed upon alternating strata of clay and limestone, must partake chiefly of these two earths. This soil is also well adapted to the growth of grasses. The soil of the north-western counties appears to be a siliceo-calcareous sand, resting upon a clay bottom; this I conceive to be the reason why it is so much more productive than its external appearance promises. These points, however, I intend more fully to verify by analysis so soon as I can get samples

INDIANA.

of all the various soils. As yet, my opinion has been formed chiefly from ocular observation, and reasoning from general principles. The water in the north-western counties is strongly impregnated with carbonic acid; this, acting as a solvent upon limestone and the protoxide of iron, dissolves them whenever it meets them in its passage to the surface. And thus we find these waters, often highly charged with these two ingredients, forming calcareous and chalybeate springs. As they lose very soon, by exposure to the air, the excess of carbonic acid, which acts as a solvent of these ingredients—and as iron is brought also by the same exposure to air to a higher degree of oxidation, and therefore to a more insoluble form—these two causes acting together, soon produce deposits of calcareous tufas and bog-iron ore, so frequently found in that country. The quantity of bog-iron ore is therefore continually on the increase. The greater part of Indiana must have been, at some period of the earth's history, covered by an ocean, for most of the fossils in the limestones are of a marine origin. None of the precious metals will ever be found in Indiana, unless in minute portions in boulders, or in small quantities in combination with other metals, because the primitive and grauwaacke formations, in which alone productive mines of gold and silver ore occur, do not exist in Indiana. It is true that, in some rare instances, silver is found as a sulphuret and as red silver ore in such formations as exist in the Western country; but I have seen no symptoms of any such in our State. The same may be said of bismuth, tin ore, and native arsenic. The only metals which we need look for are iron, lead, antimony, manganese, zinc, cobalt, and possibly some varieties of copper and arsenic ores. It is not likely that anthracite coal will ever be found in Indiana, because that mineral is usually found in the primitive and grauwaacke formations. Several detached pieces of native copper have been found in the State, one weighing five pounds; but, from the nature of the ore, its occurring in washed gravels, and only in isolated pieces, I have reason to believe that they do not originate in the State. I may add, that the Kupferschiefer of the German miners yields, at the mines of Mansfield, in Thuringia, an abundant supply of copper ore. This copper slate, as found at the bottom of the new red sandstone formation, which overlies the bituminous coal formation, and copper ores, have been found in the carboniferous and mountain limestone; there is, therefore, a possibility of discovering workable copper ore in the formations of Indiana. The fertility of the soil of Indiana is universally admitted, yet few are aware that it arises mainly from its geological position. It is well known to geologists that that soil is the most productive which has been derived from the destruction of the greatest variety of different rocks; for thus only is produced the due mixture of gravel, sand, clay, and limestone, necessary to form a good medium for the retention and transmission of nutritive fluids, be they liquid or æriform, to the roots of plants. Now, Indiana is situated near the middle of the Great Valley of north-western America, and far distant from the primitive range of mountains; and her soil is accordingly formed from the destruction of a vast variety of rocks, both crystalline and sedimentary, which have been minutely divided and intimately blended together by the action of air and water. It has all the elements, therefore, of extraordinary fertility."

The forests of Indiana contain all the trees natural to the soil and climate of the whole central region of the United States; oaks and beech-trees, however, preponderate; they are found in almost every portion of the State, and probably count two-thirds of the whole number of its forest trees. Next in order are the sugar-tree, hickory, ash, walnut, poplar, elm, sycamore, cherry, hackberry, linden, coffee-tree, honey locust, and white maple, which are as widely diffused as the oak and beech. The black locust is abundant near the Ohio River, but is not found in the interior; the chestnut is only found in the neighborhood of the upper course of the east fork of White River; the pine is only found on the "knobs," near the Ohio, and on the sand-hills near Lake Michigan, while the tamarack is found only in the swamps of the Kankakee. The cypress, catalpa, and pecan, are chiefly found in the counties on both sides of the White River, below the junction of the forks; and cotton-wood is rare, except on the bottoms of the southern streams. Of the smaller trees and undergrowths, the principal are the dogwood, pawpaw, spear, plum, and thorn, and the persimmon and crab-apple. Many of the forest trees attain magnificent dimensions, and in numerous instances the oak, sycamore, walnut, and poplar have been found, measuring from five to seven feet in diameter, and more than 120 and 180 feet in height. The indigenous fruit trees found in Indiana comprise the wild plum, hawthorn, persimmon, pawpaw, wild cherry, mulberry, crab-apple, etc. These are found intermingling with forest trees, or bordering the prairies and barrens. Cranberries are abundant in the north, and wild grapes, blackberries, gooseberries, and strawberries of excellent flavor grow spontaneously, and giving assurance that the corresponding domestic fruits can be cultivated with success. Walnuts, hickory nuts, and hazel nuts, are unusually abundant, and generally oak and beech mast is found in such quantities as to contribute largely both to feeding and fattening hogs.

Indiana is divided into 91 counties, the general statistics of which and the capitals of each in 1850 were as follows:

Counties.	Dwell.	Pop.	Farms incult.	Manf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms incult.	Manf. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 170,178; of families 171,564, and of inhabitants 988,416, viz.: whites 977,605—males 506,400, and females 471,205; free col. 10,788—males 5,472, and females 5,316. Of the whole population, there were *deaf and dumb*—wh. 514, fr. col. 4—total 518; *blind*—wh. 840, fr. col. 9—total 849; *insane*—wh. 569, fr. col. 10—total 579; and *idiotic*—wh. 906, fr. col. 18—total 919. The number of free persons born in the United States was 931,892, the number of foreign birth 54,426, and of birth unknown 2,598; the *native* population originated as follows: Maine 976, N. Hamp. 886, Verm. 8,188, Mass. 2,678, R. I. 488, Conn. 2,485, N. York 24,810, N. Jer. 7,887, Penn. 44,245, Del. 2,787, Md. 10,177, Dist. of Col. 227, Virg. 41,819, N. Car. 83,175, S. Car. 4,069, Ga. 761, Flor. 21, Ala. 395, Miss. 257, La. 821, Tex. 44, Ark. 151, Tenn. 12,734, Ky. 68,651, Ohio 120,193, Mich. 1,817, *Indiana* 541,079, Ill. 4,173, Mo. 1,006, Ia. 407, Wisc. 99, Calif. 0, Territories 11; and the *foreign* population was composed of persons from—England 5,550, Ireland 12,787, Scotland 1,341, Wales 169, Germany 28,584, France 2,279, Spain 8, Portugal 6, Belgium 86, Holland 43, Italy 6, Austria 17, Switzerland 724, Russia 6, Denmark 10, Norway 18, Sweden 16, Prussia 740, Asia 4, Africa 4, Brit. America 1,878, Mexico 31, Cent. America 0, S. America 4, West Indies 12, and other countries 108.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1800.....	4,577.....	163.....	135.....	298.....	4,875.....	—	—
1810.....	23,890.....	893.....	237.....	680.....	24,520.....	19,645.....	402.9
1820.....	145,758.....	1,230.....	180.....	1,420.....	147,178.....	122,658.....	500.2
1830.....	839,399.....	8,629.....	3.....	8,632.....	848,031.....	195,853.....	183.1
1840.....	678,698.....	7,165.....	0.....	7,168.....	685,866.....	342,835.....	99.9
1850.....	977,605.....	10,511.....	—.....	10,511.....	988,416.....	802,550.....	44.1

The statistical returns of the industry and wealth of Indiana, as furnished by the census of 1850, and other official documents referring to that period, are as follows:

Occupied Lands, etc.—Improved lands 5,046,543 acres, and unimproved lands 7,746,879 acres—valued in cash at \$186,895,173. Number of farms under cultivation 93,596. Value of farming implements and machinery \$6,704,444.

Live-Stock.—Horses, 314,299; asses and mules, 6,599; milch cows, 234,554; working oxen, 40,221; other cattle 889,891; sheep, 1,122,493; swine, 2,268,776—total value of live-stock, \$22,478,555. In 1840 there were in the State 241,036 horses, mules, etc., 619,980 neat cattle of all descriptions, 675,982 sheep, 1,623,606 swine, etc.

Grain Crops.—Wheat, 6,214,458 bushels; rye, 78,792 bushels; Indian corn, 52,964,868 bushels; oats, 5,635,014 bushels; barley, 45,488 bushels; buckwheat, 149,740 bushels. The crops of 1839-40 were—wheat, 4,049,375 bushels; barley, 28,015 bushels; oats, 5,981,605 bushels; rye, 129,621 bushels; buckwheat, 49,019 bushels, and Indian corn, 28,155,887 bushels.

Other Crops.—Tobacco, 1,044,620 pounds; ginned cotton, 14 bales of 400 pounds each; peas and beans, 85,773 bushels; potatoes—Irish, 2,083,887, and sweet, 201,711 bushels; hay, 408,280 tons; clover-seed, 18,329 bushels; other grass-seed, 11,951 bushels; hops, 92,796 pounds; hemp—dew-rotted, 341, and water-rotted, 1,071 tons; flax, 534,469 pounds; flax-seed, 86,888 bushels; maple sugar, 2,921,642 pounds; molasses, 180,325 gallons; wine, 14,055 gallons, etc. The value of orchard products was \$324,940, and of market-garden products \$72,564. In comparing the principal crops of 1840 and 1850, the following results are shown:

Staples.	1840.	1850.	Movement.
Tobacco.....	1,820,806 pounds	1,044,623 pounds	decr. 775,686 pounds, or 42.61 per cent.
Hemp—dew-rotted.....		841 tons	
“ —water-rotted.....	8,605½ tons	1,071 tons	decr. 15,528,971 pounds, or 80.56 “
Flax.....		584,469 pounds	
Wine.....	10,265 gallons	14,055 gallons	incr. 8,790 gallons, or 86.92 “

INDIANA.

Products of Animals.—Wool, 2,610,287 (in 1840, 1,287,919) pounds; butter, 12,881,535 pounds, and cheese, 624,564 pounds; and the value of animals slaughtered in the year had been \$6,567,935. Silk cocoons were produced to the amount of 887 (in 1840, 379) pounds; and beeswax and honey to that of 935,329 pounds.

Home-made Manufactures for the year ending 30th June, 1850, were produced to the value of \$1,631,039.

Manufactures—Aggregate capital invested, \$7,235,220; value of raw material, fuel, etc., consumed, \$6,229,113; average number of hands employed, 27,312—males, 24,137, and females, 3,205; average monthly cost of labor, \$600,000—male, \$520,000, and female, \$80,000—total value of products for the year, \$19,199,651. The whole number of manufacturing establishments in the State in 1850, producing to the value of \$500 and upward, was 4,826, and of these 2 were cotton factories, 83 woolen factories, 353 tanneries, and 19 iron manufactories, viz.: 14 for castings, 2 for pig iron, and 3 for wrought iron.

The *cotton* manufactures employ a capital of \$43,000; the cotton consumed during the year ending 1st June, 1850, was 675 bales; and the value of all raw material, fuel, etc., was \$28,220; average hands—males, 33, and females, 57; monthly cost of labor—male, \$495, and female, \$856; entire value of products, among which were 800,000 pounds yarn, \$44,200.

The *woolen* manufactures had a capital of \$171,545, wool consumed, 413,350 pounds, and value of all raw material, fuel, etc., \$120,496; hands—males, 189, and females, 57; monthly cost of labor—male, \$4,122, and female, \$630; products of the year, 235,500 yards of cloth and 104,000 pounds of yarn—valued at \$205,802.

In *tanneries* the capital employed, \$514,597; value of raw material, \$405,383; hands—male, 886, and female, 2 monthly cost of labor—male, \$15,199, and female, \$14; products—skins, 57,070, and sides of leather, 238,098—valued at \$714,813.

The condition of the *iron* manufactures is exhibited in the annexed tabular form:

	Pig Iron.	Castings.	Wrought Iron.	Total.
Capital invested dollars.....	72,000	82,900	17,000	171,900
Iron ore tons.....	5,200	—	3,150	8,350
Pig iron“.....	—	1,968	50	2,013
Old metal.....“.....	—	5	—	5
Coal, mineral.....“.....	—	132	—	132
Coke and charcoal.....bushels.....	310,000	29,000	85,000	424,000
Value of raw material, etc.....dollars.....	24,400	66,918	4,425	95,743
Hands—male.....number.....	88	143	22	253
“—female.....“.....	—	—	2	2
Monthly cost of labor—male.....dollars.....	2,290	3,681	604	6,575
“—female.....“.....	—	—	8	8
Iron made.....tons.....	1,850	1,757	175	3,782
Value of entire products.....dollars.....	58,000	149,430	11,760	219,190

Indiana has also a large number of flour, grist, oil, saw, and other mills, asheries, etc., and the numerous trades and handicrafts, which constitute the aggregate of its manufacturing industry. Among its principal manufacturing places may be named Madison, Indianapolis, New Albany, Cannelton, etc.—the last destined to become, at no distant day, the seat of a vast industry.

Inland Communication.—Indiana has no direct foreign commerce, but it has a vast domestic and inter-state trade by means of its navigable waters and magnificent systems of canals and railroads, and besides it is well supplied with plank, M-Adam, and other roads, which facilitate travel and transportation. The State has (January, 1853), within its borders 454 miles of canal and 929 miles of railroad completed. The canals are, the Wabash and Erie Canal, extending from Evansville, on the Ohio, to Toledo, on Lake Erie, 467 miles, of which 379 miles are in Indiana; and the White Water Canal, extending from Lawrenceville, on the Ohio, *via* Cambridge, on the National Road, to Hagerstown, 75 miles. The principal railroads of the State centre at Indianapolis, radiating in all directions, and forming links in the great national system which is rapidly springing into existence. There is also a large number of railroads in course of construction, the most important of which are, the Cincinnati and St. Louis Railroad, the Lawrenceburg and Upper Mississippi Railroad, the upper portions of the New Albany and Salem Railroad, and the Fort Wayne and Southern Railroad. These will be opened within a year or two, and there are others already projected that must be built within a very short space of time.

Banks, etc.—There are in Indiana 1 bank and 18 branch banks, the same being the State Bank of Indiana, at Indianapolis, and its several branches at Bedford, Evansville, Fort Wayne, Indianapolis, Lafayette, Lawrenceburg, Madison, Michigan City, New Albany, Richmond, South Bend, Terre Haute, and Vincennes. The aggregate condition of these institutions in November, 1850, was as follows—*liabilities*: capital, \$2,082,953; circulation, \$3,422,455; deposits, \$680,335; due other banks, \$112,175; and *assets*—loans and discounts, \$4,395,099; real estate, \$364,233; other investments, \$108,485; due by other banks, \$815,062; notes of other banks, \$224,842; specie, \$1,197,830. The constitutional provisions respecting banking in this State are: that no banks shall be established except under a general law, and the stockholders shall be individually responsible for the debts of the corporation, in addition to their stock, to an amount equal thereto, and every bank must close banking operations within twenty years from its organization and promptly close its business. There are, besides the above-named banks, several others organized under the general banking law, but these have only lately been established, and have not yet published any returns. Their circulating notes are secured by pledge of public stocks.

Government, etc.—The first constitution of Indiana is dated 29th June, 1816; the constitution on which the present State government is based was done in convention 10th February, 1851; ratified by the people 4th August, and went into operation 1st November of the same year. It provides as follows:

Every white male citizen of the United States, 21 years old, resident in the State six months next preceding an election, and every white male of foreign birth, 21 years old, resident in the United States one year, and in the State six months next preceding an election, who shall have duly declared his intention to become a citizen of the United States, may vote. No negro or mulatto can vote. All elections by the people are by ballot, and all elections by the General Assembly *viva voce*. All general elections are held on the second Tuesday in October.

The *General Assembly* consists of a Senate and House of Representatives. The senate, not exceeding 50 members, and representatives, 100 members, are chosen in their respective districts—the former for four years (half every two years),

INDIANA.

and the latter for two years. They must be citizens of the United States, residents of the State for the two years next preceding their election, and for one year of the district from which they are chosen. The sessions of the General Assembly are biennial, commencing on the Thursday next after the first Monday of January; and no session can be prolonged beyond sixty-one days, and no special session beyond forty days. Representation is apportioned according to a census of all white males over 21 years of age, taken every six years. "In all cases where a general law is applicable, general and not special laws shall be passed."

The *Governor* and *Lieutenant-Governor* are chosen for four years by a plurality of votes; they must be severally 30 years of age, and residents of the United States and of the State for the five years next preceding their election. The gubernatorial term commences on the second Monday of January. The Lieutenant-Governor is *ex-officio* President of the Senate; and in case of the removal or death of the Governor, *he* first, and after him such person as the General Assembly may appoint, shall act as Governor. The Governor is not eligible more than four years in any period of eight years. The Governor has power to grant pardons for all offenses, except in cases of treason and impeachment; and he may veto a bill, but, if afterward passed by a *majority* of those elected to each house of the General Assembly, it becomes a law nevertheless.

The *administrative officers* of the government are a Secretary of State, a State Auditor, and a State Treasurer, elected biennially by the people, and no one is eligible to either of these offices more than four out of any six years.

The *officers* elected by the people in each county are a Clerk of the Circuit Court, an Auditor, a Recorder, a Treasurer, a Sheriff, a Coroner, and a Surveyor—the three first for four years and the others for two years, and none are eligible for more than two out of any three consecutive terms. All county officers must be residents for one year of the places from which they are chosen; and they and all town officers must reside in their precincts.

The *Judiciary* consists of a Supreme Court, Circuit Court, and Courts of Common Pleas, for the counties of Tippecanoe and Marion. These consist of not less than three nor more than five justices, chosen from districts by the people at large, for six years. At present it has three, of whom one is chief judge. A clerk of this court is chosen by the people for four years. The Supreme Court has appellate and such original jurisdiction as the General Assembly may confer. The State is divided into thirteen circuits, and each Circuit Court has a Judge elected by the people of the circuit for six years, and he must reside therein. A prosecuting attorney is also elected for each circuit for two years. The Courts of Common Pleas for Tippecanoe and Marion counties are Special Courts, and have each one Judge. Justices of peace are elected by the people of each township for four years. The Constitution provides, in this connection, for the establishment of tribunals of conciliation, the decisions of which are obligatory on those voluntarily submitting thereto; for commissioners to revise and simplify practice, and to codify the laws; that any voter of good moral character may be admitted to practice law in all the courts of the State; that the Assembly may modify or abolish the Grand Jury system; that no person shall be an incompetent witness in consequence of his opinions on matters of religion; that in all criminal cases the juries may determine the law and the facts; that no man's property shall be taken without just compensation is first awarded and tendered.

Respecting colored people, it is provided that no negro or mulatto shall come into or settle in the State; all contracts made with such shall be void, and all persons employing them shall be punished by a fine of \$10 to \$500, and the proceeds of such fines shall be appropriated for the colonization of those negroes and mulattoes, and their descendants, in the State, at the adoption of the Constitution, and who are willing to emigrate.

Amendments to the Constitution are to be passed on by a majority of one Legislature, and referred to the next; and if passed by a like majority, then the amendments proposed are submitted to the people for ratification or rejection.

The *militia* of Indiana has not been reported to the U. S. authorities since 1832, since which period the population of the State has nearly trebled. At that time it consisted of 53,913 men of all grades and arms, and at present probably numbers 150,000 men.

Indiana has several *benevolent institutions*, among which the principal are the Asylum for the Deaf and Dumb, the Institution for the Blind, and the Hospital for the Insane at Indianapolis. At the Asylum all the Deaf and Dumb of the State, between the ages of 10 and 30, are entitled to education without charge for board or tuition; and at the Institute the same privileges are granted, but except in extraordinary cases, applicants over 21 years of age are not admissible. The Hospital for the Insane, in the year ending 30th October, 1850, admitted 58 (31 males and 27 females); 54 were discharged (26 males and 28 females); and at the end of the year 80 (40 males and 40 females) were left under treatment. This last institution was opened for the reception of patients (part of the buildings only being erected) in December, 1843. From that time to 30th October, 1849, there were 104 admitted, of whom 20 recovered, 4 improved, and 4 died, leaving 76 in the hospital, which, added to the 53 admitted in 1849-50, makes a total of 162 since the opening of the institution.

Finances, Debts, etc.—The balance in the Treasury on the 31st October amounted to \$423,941 19, and the receipts for the fiscal year 1850 were \$1,432,442 78—total revenue \$1,561,858 97; and the expenditures for the same period amounted to \$1,513,584 04, leaving a balance for future draft of \$347,949 93. The chief sources of *income* are—permanent revenue, \$455,680; state prison, \$11,145; common school fund, \$55,863; university fund, \$9,479; bank tax, \$1,984; saline tax, \$4,999; Wabash and Erie Canal (by trustees), \$857,149, etc. And the principal *expenditures* were on account of—Legislature, \$31,010; Executive, \$5,573; Judiciary, \$19,706; public printing, \$11,522; state prison, \$3,606; treasury notes cancelled, \$144,575; interest on treasury notes, \$59,428; interest on public debt, \$188,595; Wabash and Erie Canal (by trustees), \$824,988; deaf and dumb, \$27,979; blind, \$11,781; insane, \$32,501; university fund, \$14,332; saline fund, \$7,765; bank tax fund, \$3,624, etc.

Prior to 1847 the State owed on her foreign debt—principal \$11,048,000, and interest \$3,326,640—total \$14,374,640. In accordance with the acts of the Legislature of 19th January, 1846, and 27th January, 1847, proposals were made to the bond holders that they should complete the Wabash and Erie Canal, and take the State's interest in it for one half this debt, and the State would issue new certificates for the other half, upon which she would pay interest at the rate of 4 per cent. per annum, until January, 1853, and after that time 5 per cent., and issue certificates for one half the arrears of interest, upon which she would pay interest at the rate of 2½ per cent. per annum after January, 1853. In this 2½ per cent. stock is also included 1 per cent. per annum upon the principal, which gives the holder of the old bond, when surrendered, 5 per cent. per annum upon the new 5 per cent. stock, from the dividend day next preceding his surrender of the old bonds. On the 5th August, 1850, there had been surrendered of the old bonds, and new certificates taken of principal \$9,568,000, leaving then outstanding of her old bonds of principal, \$1,786,727 50. The liabilities of the State and Canal, at the date last mentioned, may be thus stated:

State Debt.—State's half principal of bonds surrendered, \$4,751,500; State's half interest on bonds with 1 per cent. of 816

INDIANA.

principal with half of coupons added, \$1,736,727 50—total foreign debt, \$6,513,227 50. To which add domestic debt \$257,295. Aggregate debt, \$6,775,522 50.

State and Canal Stock.—The amount of the several stocks issued under the act for liquidating the public debt, up to 5th August, 1850, is as follows: 5 per cent. *State stock*, \$4,731,500; 2½ per cent. *State stock*, \$1,736,727 50; 5 per cent. preferred *Canal stock*, \$4,079,500; 5 per cent. deferred *Canal stock*, \$702,000; 2½ per cent. special preferred *Canal stock*, \$1,216,250; 2½ per cent. special deferred *Canal stock*, \$207,400—total stock issued to 5th August, 1850, \$12,728,377 50, of which amount deduct for 2½ per cent. *State stock* redeemed, \$20,000, and the total outstanding is reduced to \$12,708,377 50. The State is paying interest only on the 5 per cent. *State stock*, at the rate of 4 per cent.; after 1853 the rate will be 5 per cent.; and after 1853 also the 2½ per cent. *State stock* will draw interest at that rate. The remaining stocks are thrown upon the Canal, and their redemption, principal and interest, depends upon the receipts from the Canal, in accordance with the provisions of the acts heretofore referred to.

In 1839–40 the State issued \$1,500,000 treasury notes to pay off her internal improvement liabilities, but these having been made receivable for all State dues, have now been almost all returned to the treasury. The State also issued bonds for the State Bank capital, and treasury notes to pay the bank a debt which the State owed it. But these treasury notes were based upon a sinking fund belonging to the State, and held by the bank, which institution attends to the bonds issued for its capital, and also to the redemption of the notes based upon the sinking fund. The means held by the bank are considered ample for these purposes.

The assessed value of personal and real estate in Indiana in 1850 was \$152,870,399, but the true or estimated value amounted to no less a sum than \$202,650,264.

Federal Representation.—Indiana, in accordance with the law apportioning federal representation, sends eleven representatives to Congress.

Religious Denominations.—The statistics of the several religious denominations in 1850 were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.

Indiana constitutes a diocese of the Protestant Episcopal church, and also the Roman Catholic diocese of Vincennes.

Education.—Indiana has endowed her common schools and colleges more liberally than any others of the New States. The constitution provides that "the common school fund shall consist of the congressional township fund, and the lands belonging thereto, of the surplus revenue, saline, and bank tax funds, the fund to be derived from the sale of county seminaries, and money and property heretofore held for such seminaries, all fines, forfeitures, and escheats, and lands not otherwise specially granted, including the net proceeds of the sales of the swamp lands granted to the State by the Act of Congress of September 28th, 1850. The principal of the fund may be increased, but shall never be diminished, and its income shall be devoted solely to the support of common schools." The value of these several funds and incomes is stated by Governor Wright in his Message of December 2, 1851, to be \$4,664,279; and in addition to this sum, the school fund will be constantly augmented by the receipt of fines and forfeitures, and the profits of the sinking fund. The schools of the State are under the supervision of a Superintendent of Public Instruction, who is elected by the people, and holds office for two years. From the report of this officer, it appears that there were in 1851 about 400,000 between the ages of 5 and 21 years. The number of common schools was 5,399, and the number of children attending school was 225,313.

Indiana has also a large number of high schools and academies; and among her collegiate establishments the following are the most conspicuous: the Indiana State University, at Bloomington, founded in 1816; Hanover College, founded in 1829; Wabash College, founded in 1834, and Indiana Ashbury University, at Green Castle, founded in 1837. At Hanover is also the Indiana Theological Seminary (Presbyterian), a department of Hanover College. The Universities have each a law department; and there are medical schools at La Porte and Indianapolis—at the first place the Indiana Medical College, and at the latter, the Indiana Central Medical College, both highly-flourishing institutions.

Libraries.—One State library (7,000 volumes); four social libraries (10,700); six college libraries (17,300); four students' libraries (4,890); one public school library (200)—total, sixteen libraries and 40,000 volumes.

Periodical Press.—The public press consists of 121 periodical publications, of which 79 are political—43 whig, and 36 democratic—and 42 are devoted to literature, science, religion, etc. Of the whole number, 9 are published daily, 2 tri-weekly, 109 weekly, and 1 monthly. The average circulation of the dailies, at each issue, is 8,934; of the tri-weeklies, 1,500; of the weeklies, 49,784; and of the monthly, about 2,000 copies.

Pauperism and Crime.—The whole number of paupers who received support from the public funds within the year ending June 1st, 1850, was 1,182, of which 860 were natives, and 322 foreigners; and the whole number of paupers at the date referred to was 538, of which number 446 were natives, and 137 foreigners—costs to the public for the year \$57,560. The whole number of convicts in the State Prison on the 30th November, 1850, was 142, and the number received during the following official year was 108, and during the same period there were discharged—by expiration of sentence, 21; by escape, 8; by pardon, 16; by order of court, 1; by death, 7—total 53; and hence there were in prison on the 30th November, 1851, 192 convicts, of which 8 were committed for life, 1 for 36 years, and 96 for less than 2 years; and 151 are committed for offenses against property, and 39 for offenses against the person. The State Prison is situate at Jeffersonville.

Historical Sketch.—Indiana originally constituted a part of "New France," and subsequently of the "Territory North-West of the Ohio River." The exact period of its first settlement is not ascertained. It appears, however, that about 1690 the French Indians visited the site of Vincennes, at that time occupied by the Indian village of Appecaughke, and in 1702 a party of the same nation descended the Wabash, and established several posts on its banks, and among others Vincennes. The tribes inhabiting the country at that time, either from intestine feuds, or inability, made little opposition to the new-comers. The colonists at Vincennes, insulated, as it were, from the rest of mankind, and buried in the midst of the wilderness, gradually approximated the manners and customs of the Indians by whom they were sur-

rounded, and formed marriages with their women, joined in their hunting parties, and subsisted more by the chase than by the proceeds of their agriculture. Of their simple annals they have left no records, for until 1783, when the country was ceded to England, we hear nothing of them. By the treaty of cession, the settlers were confirmed in their possessions; but immigration did not reach the country till some time afterward. During the Revolutionary War they displayed their hereditary animosity to the English, and seized the first opportunity to join with the people; and in 1773 a Spanish resident gave such information respecting the strength and position of the British forces stationed at Vincennes, that by his directions General Clarke easily obtained possession, which, however, he did not long retain. By the treaty of 1783, the country was included in the United States, and again the settlers were confirmed in their possessions. In 1788 an Indian war broke out, which caused great distress among them, but they did not suffer to the same extent as the Americans, against whom vengeance was directed without mercy; but by the attack of General Wilkinson in 1791 at the mouth of the Tippecanoe, and by the subsequent victories of General Wayne, a dangerous confederacy was broken up, and the tribes obliged to submit, when the district began to enjoy that repose of which it had for many years been deprived. By the treaty of Greenville in 1795 the United States obtained several eligible parcels of land, for which, as a compensation, they paid the Indians sums of money and sundry goods. Other cessions were made at subsequent periods; but notwithstanding these, a part of the Indians still remained hostile, and, excited and exasperated by the eloquence of Tecumseh, a leader of the Shawnees, and one of the most extraordinary men that ever appeared among them, several of the tribes united in resistance to the increasing power of the whites; and depredation had been committed to such an extent that in 1811 the government determined to exert its power. A force of regulars and militia was concentrated at Vincennes, and placed under the command of William Henry Harrison, then Governor. On the 6th November of the same year, the Governor appeared before Prophetstown, or Tippecanoe, on the Wabash, and demanded restitution of the property the Indians had carried off. After a conference, it was agreed that hostilities should not commence until next morning, that an amicable arrangement might be made, but in violation of this armistice, the Americans were attacked before daybreak by a large body of savages. Governor Harrison, however, knowing the character of the enemy, had so disposed his troops as to be able immediately to arrange them in order of battle; and therefore, though taken by surprise, the Americans received their insidious enemy in a state of preparation. The combat, though short, was unusually severe; the Indians fought with desperate courage, but the precision of action on the part of the troops was such that the fate of the battle was soon decided, and the Indians driven in all directions, leaving forty of their number on the field, while their whole loss was not less than one hundred and fifty; nor was the American loss less in proportion. After the action, Governor Harrison having burned the town, and laid waste the surrounding settlements, returned to Vincennes, and not long afterward the tribes sued for peace. The war with England in 1812 gave a fresh impetus to Indian hostility. Seduced into the service of England, the Indians, after committing great cruelties and excesses, received full retribution from the Americans; their villages were destroyed, and their whole country laid waste. During the latter part of the war with England, Indiana enjoyed comparative repose, and after the conclusion of peace in 1815, the Indians ceased to molest or trouble the settlers. They are now wholly removed from the State. Until 1801 the territory now included in Indiana remained a portion of the Territory North-West of the Ohio; in that year it was erected into a separate territorial government, and at that time included all the territory West and North of the Ohio boundary. In December, 1815, the territorial legislature petitioned Congress for admission into the Union, and the privilege of forming a State Constitution. A bill for these purposes passed Congress in April, 1816; a State Constitution (dated 29th June, 1816) was framed by a convention of delegates called for that special purpose; and the same having been acceptable to the federal legislature, Indiana was, in accordance with the law before mentioned, admitted in the December following, and became an independent member of that Union of which she is now so bright an ornament. The constitution formed at this period has since been revised, and in 1851 it was set aside by the adoption of a new constitution more consonant with the altered condition of the affairs and policy of the country.

INDIANAPOLIS, near the centre of the State, is the political capital; Corydon was capital until 10th January, 1825.

INDIANA county, *Penn.* Situate W. centrally, and contains 753 sq. m. Bounded S. by Kiskiminitas or Conemaugh river, and drained by its affluents, and by Mahoning cr. and other streams—all branches of Alleghany river. Surface uneven; soil generally a sandy or clayey loam, and very productive. Its crops of wheat are very large, as are most grains, and it is especially fitted for grazing and dairies. It has much good water-power and mineral resources—coal and salt particularly, which are very productive. Iron ore is found in the N. Farms 2,496; manuf. 75; dwell. 4,644, and pop.—wh. 26,916, fr. col. 254—total 27,170. *Capital:* Indiana. *Public Works:* Pennsylvania R. R. and Canal.

INDIANA, p. b., and cap. Indiana county, *Penn.*: 122 m. W. N. W. Harrisburg. It contains a court-house, jail, etc., and about 1,000 inhabitants. It has several large stores, 2 hotels, 2 flourishing academies, and several manufactories and fine churches. Three weekly newspapers are printed here. Pop. 963.

INDIANAPOLIS, p. city, and cap. Marion co., *Ind.*, and cap. of the State of Indiana: near the geographical centre of the State, and on the E. side of the W. fork of White r., in lat. 39° 55' N., and long. 86° 05' W.—573 m. W. by N. Washington. The city is located on a beautiful, fertile, and extensive plain just below the mouth of Fall cr. In the ordinance of Congress, authorizing the formation of a State constitution, 4 sections, or 2,560 acres of land, were donated for the permanent seat of government: commissioners were

appointed in 1820 to make the selection, and in 1821 the city was laid out—in the October of which year 314 lots, central in the old plot of the city, were sold for \$35,596; lots which then sold for \$200 or \$300, now readily realize from \$8,000 to \$10,000. At the period referred to the site was covered by dense forests, and for 40 or 50 miles around the country still remained in its pristine condition of an untouched wilderness. The original town plot was a mile square, but like all progressive cities, Indianapolis has overstepped its artificial limits, and extended itself on all sides. The streets are at right angles with each other. Washington, through which the National Road passes, the principal street of the city, is 120 feet wide; Circle-street 80 feet, and others 90 feet; the alleys, E. and W., are 30 feet wide, those N. and S. 15 feet. The lots in the full lots are 97½ feet by 195, but on the diagonal streets and in the central blocks, touching Circle-street, the lots contain about a fourth of an acre each. On the 1st January, 1825, the public offices of the State were removed from Corydon, the former capital, to Indianapolis, and the permanent seat of government established here; but the Legislature held its sessions in the county court-house until December, 1834, when the State House, an elegant building, 180 feet by 80, was completed, at a cost of about \$60,000; it is on the model of the Parthenon at Athens. The Governor's House is near the centre of the city, and is a fine four-fronted building, standing on a natural mound 60 feet high, and circumscribed by Circle-street; and from this also diverge four diagonal streets in the di-

rection of the several corners of the city plot. The State House, governor's residence, and the State offices, were built by the proceeds of the sales of lots in the *donation*, as the Congressional grant was called. The other public buildings are its spacious market-houses, its many elegant and substantial churches, its fine hotels, its depôts, bridges, etc. No city of its size in the Union, indeed, has so many public accommodations; it is also a place of considerable manufactures, trade, and general business, being the centre of a vast system of railroads from every direction. From the Ohio River comes the Lawrenceburg and Upper Mississippi R. R., the Madison and Indianapolis R. R., the Jeffersonville R. R., and a branch from the Evansville and Illinois R. R.; from the Wabash r. the Terre Haute and Richmond R. R., the Lafayette R. R., the Peru and Indianapolis R. R., and the Fort Wayne and Southern R. R.; and from the State of Ohio, the Indianapolis and Bellefontaine R. R., the Indiana Central R. R., etc. All these roads centering in the "railroad city of the West" bring to it an immense amount of business and travel, and will ultimately make this one of the most prosperous cities of the north middle section of the Union; most, if not all of these, connect with each other on the Union Track and Depot, constructed at the joint expense of the several companies, and are but as so many links in the chain of intercommunication between the North and South, and the East and West, connecting as they do, at their exterior termini, with the railroads of the Union generally.

The newspapers published in Indianapolis are the "Indiana State Journal" (whig), daily and weekly; the "Indiana State Sentinel" (dem.), tri-weekly; the "Indiana Statesman," weekly; the "Family Visitor" (temp.), weekly; the "Locomotive" (neutral), weekly; the "Home Miscellany" (literary), weekly; the "Volkblatt," and "Suabia P. Organ" (Germ. dem.), both weekly. In reference to education, Indianapolis has made ample provision; it has 14 public schools, open to all, and numerous academies, seminaries, and classical schools. The Indiana Central Medical College was founded in 1849, and in 1851 had 49 students, and 10 had graduated: the lectures commenced 28th Oct., 1850. There is a United States land office at Indianapolis. The general statistics of the city embrace about 90 dry-goods stores, 80 groceries, 22 warehouses, 120 mechanic shops, 4 breweries, and about two-fifths of the dwellings are of more than one story in height, and about one sixth are of brick, the others being frame dwellings. In 1830 the inhabitants numbered 1,085, in 1840 2,692, and in 1850 8,084.

INDIAN RIVER, hund., Sussex co., Del.: 47 m. S. by E. Dover. Situate on Indian r. and Rehoboth Bay, and approached from the Atlantic through an inlet so called. Area 54,420 acres. It has some trade, but is chiefly a manufacturing district. Pop. 1,822.

INDIAN RIVER, p. o., St. Lucie co., Flor.: 309 m. S. E. Tallahassee.

INDIAN RIVER, p. o., Washington co., Ma.: near a cr. so called, 114 E. by N. Augusta.

INDIAN RIVER, p. o., Lewis co., N. Y.: 108 m. N. W. Albany.

INDIAN river, N. Y.: a tributary of Oswegatchie r. It rises in Lewis county, and passes through Jefferson into St. Lawrence co., where it enters Black Lake, through which it flows to the Oswegatchie, and thence to the St. Lawrence.

INDIAN river, Flor.: a long lagoon on the E. side of the peninsula, running nearly parallel with the coast line. It is about 120 m. long, and varies much in breadth, frequently expanding into lakes 3 or 4 miles wide, and again contracting to less than 50 yards. Its depth varies likewise, and it is not safe to navigate a sloop of more than 6 feet draft. The stream empties into the Atlantic through Indian River outlet. Along its shores are excellent sugar lands.

INDIAN river, or stream, N. Hamp.: the principal head stream of Connecticut r. It rises in the highlands on the N. line of the State, and after a S. W. course of about 80 m. unites with the eastern constituent of the Connecticut, which has its source in the lake of the same name.

INDIAN SPRINGS, p. v., Butts co., Ga.: 46 m. W. N. W. Milledgeville. Here are, near a branch of the Ocmulgee, sulphur springs of great efficacy in curing diseases of the skin, rheumatism, etc., and much visited. The v. has a large hotel, some substantial houses, three stores, and 200 inhabitants.

THE INDIAN TERRITORY.

THE INDIAN TERRITORY is an extensive country bordering on Missouri, Arkansas, and Texas, and situate generally between latitudes 33° 40' and 39° 30' north, and between longitudes 94° and 100° west from Greenwich, or 17° and 23° west from Washington. It is about 420 miles from north to south, and about 350 miles from east to west; but within this compass is included only the Indian Territory proper, or that extending from the Kansas to the Red River, and from the west lines of Missouri and Arkansas to the old line of Texas. Beyond these limits the allotment of territory has been generally going on, and the Indian settlements now range as far north as the Missouri River, across the proposed limits of Nebraska, and are stated in the census of 1850 to contain in the aggregate an area of 187,171 square miles.

This Territory was set apart by Congress for the permanent residence of the Indian tribes transported from the settled

States, and here they are secured a residence from the encroachments of the white races. They live under governments of their own, and many of the tribes have made great advances in civilization. The number of Indians resident in the Territory is computed at about 120,000, four-fifths of which number has been transported from the countries east of the Mississippi. The most numerous tribes are the Cherokees, the Creeks, the Pawnees, the Choctaws, the Osages, and the Seminoles. The other tribes are numerically small.

Those tribes which have made most progress in civilization are the *Choctaws*, who have a written constitution and laws, their legislative, executive, and judicial officers, their schools, churches, and all the ordinary appliances of civilized societies; the *Creeks*, who, though not so far progressed in intelligence and industry, yet have made good advance, and have also a written constitution, recognizing a chief and council of the nation, and the *Cherokees*, who are, perhaps, on the whole, more civilized than either of the above. These nations are described in their proper alphabetical order. The other transported tribes are also improving under the efforts of the missionary and schoolmaster. They occupy various determined sections of the Territory, and are not allowed to interfere with each others' governments. They have each their own laws, and are considered as so many distinct nations. The indigenous tribes have not, as a general thing, advanced in the same degree as their brethren from the East. Some tribes, however, are settling into habits of industry. The barbarism of the Indian, indeed, is passing away, and the symbols of civilization are becoming every day more apparent. Of late years considerable quantities of cotton, peltry, and other staples of the Territory have been brought down to New Orleans, and there is every prospect of this branch of commerce becoming permanent and extensive. The Indians have also a competent knowledge of many useful manufactures, such as the manufacture of domestic cloths, agricultural implements, wagons, etc., and as builders are equal to the most ingenious among their white brethren. In fact, they now manufacture almost every thing necessary to their comfort.

A proposition is on foot, advocated by the Indians themselves, to petition Congress for the removal of all the Indian tribes within the United States to the lands at the base of the Rocky Mountains, and there secure to them a permanent residence; and also to constitute them a State of the Union, with Senators and Representatives in Congress. This elevation will doubtless be effected at no distant period, but at present few persons acquainted with the Indian character under its present circumstances, would be found to advocate such a proceeding. The next generation will be fitted by education and civilized habits to take part in the affairs of a confederation of which they may have become a member.

The t. is fertile, with fine grazing land, and a large pond in the N. furnishing water-power. The v. is near the pond, has several mechanic shops, two churches, a hotel, and 200 inhabitants. Pop. of t. 1,041.

INDUSTRY, p. o., Beaver co., *Penn.*: 157 m. W. by N. Harrisburg.

INDUSTRY, p. o., Austin co., *Tex.*: on W. fork of Mill cr., 74 m. E. S. E. Austin City.

INGHAM county, *Mich.* Situate S. centrally, and contains 564 sq. m. Drained N. by Cedar r., and W. by Portage r., which form Grand r., and flow into Lake Michigan. Surface mostly level, and well timbered with beech and sugar maple; the "openings" are more uneven and chiefly in the S.; soil very good, and, like the adjacent country, excellent grain and grass land. It has good water privileges, and there are indications of bituminous coal. Farms 991; manuf. 32; dwell. 1,583, and pop.—wh. 8,606, fr. col. 25—total 8,631. *Capital*: Lansing.

INGHAM, t. and p. v., Ingham co., *Mich.*: 17 m. S. E. Lansing. A branch of Cedar r. flows on its E. border, which is mostly level and well timbered. Pop. 754.

INGHAM'S CROSS ROADS, p. o., Lauderdale county, *Ala.*: 159 m. N. N. W. Montgomery.

INLAND, p. o., Summit county, *Ohio*: 103 m. N. E. Columbus.

INMANSVILLE, p. o., Rock county, *Wis.*: 87 m. S. E. Madison.

INSTITUTE, p. o., Randolph co., *N. Car.*: 63 m. W. Raleigh.

INTERCOURSE, p. o., Sumter co., *Ala.*: 114 m. W. by N. Montgomery.

INTERCOURSE, p. v., Lancaster co., *Penn.*: 43 m. E. S. E. Harrisburg.

IVERNESS, p. o., Columbiana co., *Ohio*: 126 m. E. N. E. Columbus.

IONI, p. o., Anderson co., *Tex.*: equidistant from Trinity and Neches rivers, 159 m. N. E. Austin City.

IONIA county, *Mich.* Situate W. centrally, and contains 576 sq. m. Drained by Grand r., which crosses it from E. to W., and its branches Maple and Flat rivers, and Lake, Sebewa, and Prairie creeks. Surface gently undulating; soil, black sandy loam, and on the streams alluvial bottoms of great fertility—generally timbered with oak, ash, and maple, free from stone, and excellent for grazing; good building stone is found on Grand r. Farms 601; manuf. 17; dwell. 1,867, and pop.—wh. 7,589, fr. col. 8—total 7,597. *Capital*: Ionia.

IONIA, t., p. v., and cap. Ionia county, *Mich.*: 23 m. W. N. W. Lansing. The t. lies on both sides of Grand r., with Prairie cr. in the N.; has a rich alluvial soil, and plenty of timber, and raises many cattle and sheep. The village is on the right bank of Grand r., at the head of boat navigation, and contains a court-house, jail, etc., a U. S. land office, and about 500 inhabitants. Population of t. 774.

IOSEO county, *Mich.* Situate E. on Saginaw Bay, and contains 549 sq. m. Drained N. by Au Sable r., and S. by Augrais r. Surface broken, and in parts covered with swamps. Timber of all kinds is abundant, and lumber the chief export of this yet unsettled county. Unorganized in 1850.

THE STATE OF IOWA.

IOWA, the fourth of those magnificent States carved out of that vast territory acquired of France in 1808, is situate generally between the latitudes 40° 35' and 43° 30' north, and between longitudes 90° 15' and 96° 53' west of Greenwich, or 13° 16' and 19° 51' west of Washington; and is bounded north by Minnesota Territory, east by the Mississippi River, which separates it from Wisconsin and Illinois, south by the State of Missouri, and west by Missouri River and its tribu

tary the Tchankasdata or Big Sioux River, which divides it from the old North-West Territory.* Its width from north to south is 196 miles, and its greatest length from east to west 307 miles; included within which limits is an area of 59,914 square miles.

Situate nearly midway between the two great oceans; bounded on both sides by the great rivers of the continent, and watered by innumerable smaller streams; possessing a fertile soil, inexhaustible mineral resources, a healthful climate, a free constitution, and a hardy and industrious population, the State of Iowa has commenced its career with prospects of far more than ordinary brilliancy. In extent of boundary, it is one of the largest in the Union, and it may safely be prophesied, that with these great advantages, it is destined at no distant day to rank among the first in point of wealth and political importance, as it already exceeds its compeers in rapidity of growth.

The general face of the country is that of a high, rolling prairie watered by magnificent streams, and on the river courses skirted with woodland. An idea prevails at the East that the prairies are uniformly level. This is by no means the case. Sometimes, indeed, they spread out in boundless plains; but the high or upland prairies, which are much the most beautiful, as well as the best adapted to cultivation, present a series of graceful undulations not unlike the swell of the sea, from which they derive the appellation "rolling."—*Sargent*, 1848.

The chief rivers of the State are: the Mississippi, which winds along its eastern border for nearly 450 miles, and the Missouri, which bounds it on the west from the mouth of Big Sioux River to the parallel of $40^{\circ} 35'$ N. lat., a distance of more than 300 miles, both furnishing an almost unprecedented extent of external navigation, and their banks affording many eligible sites for commercial cities. Besides these magnificent streams, Iowa has many large interior navigable rivers, the most prominent of which are the Des Moines, extending through and dividing the State into two nearly equal sections, Skunk River, the Iowa, from which the State has its name, Wapsipinicon River, the Makoqueta, the Turkey River, the Upper Iowa River, and others flowing into the Mississippi, and numerous fine streams affluents of the Missouri. The Des Moines passes diagonally from north-west to south-east, and reaches the Mississippi at the foot of the lower rapids in the south-east corner of the State—the whole distance from the point where it strikes the northern boundary line of Iowa to its confluence being over 400 miles. It is this river—represented as being one of the most beautiful of all the noble rivers of the great West—that the State has undertaken, with the aid of a grant of lands made by Congress, to render navigable for steamboats of a medium class up to Fort Des Moines, a distance of over 200 miles from its mouth. It passes through the great coal fields and through a country scarcely equalled for its agricultural capacities. The stream is said to be peculiarly adapted to improvement in accordance with the plan proposed—a succession of substantial locks and dams creating slack-water—from the fact of its having rock bottom and high banks, which are not subject to overflow. The Iowa, Skunk, etc., are rivers secondary in magnitude to the Des Moines, but they are of inestimable local value, being navigable into the interior for distances varying from 20 to 60 miles, and by their numerous affluent streams, furnishing to the settler hydraulic power sufficient for all the varied wants of a large manufacturing State. Most of these rivers pass over lime or sand-rock beds, and are generally skirted with fine timber. Limestone, indeed, is distributed abundantly over a great portion of the State.

Iowa is numbered as one of the great mineral producing States of the Union. Its lead mines in the north-east, and of which Dubuque is the centre, have been worked for a long period, and have been very productive in proportion to the number engaged in mining. The lead mines of Iowa are continuous of those of Illinois and Wisconsin. A review of the resources and capabilities of this country, says Doctor Owen, induces me to say, with confidence, that 10,000 laborers and miners could find profitable employment within its confines. The lead mines alone afford as much of that metal as the whole of Europe, excepting Great Britain, and their capabilities are unbounded. Zinc occurs in fissures, along with the lead; it is chiefly in the form of electric calamine, and is found in cellular masses; in some "diggings" this mineral is found in a state of carbonate, and in others as a sulphuret. Iron ore is abundantly distributed, but as yet no large amount has been converted into metal. In reference to the coal deposits, the geologist above quoted remarks, that between Johnson and Iowa counties an uplift of carboniferous sandstone is encountered which is probably near the eastern limits of the Des Moines coal-field. The Iowa River meanders near the east margin of this deposit, but the seams presented on the river bluff are of inferior quality. *It is upward of two hundred miles in the direction of the valley of the Des Moines across the great coal-field*; westwardly it extends from the Des Moines River, nearly across the State. The entire area of this field in Iowa alone can not be less than 20,000 square miles—in all, embracing a country equal in extent to more than one half the State of Indiana. He estimates the beds of coal at 100 feet in thickness; and lying near the surface, they must be capable of being worked easily, and at small expense. Copper is also found in this State.

But Iowa mainly owes its prosperity to its agricultural resources. Its fine prairies are easily converted to cultivation, and its natural pastures afford peculiar facilities for the rearing of cattle and sheep-farming; wool-growing, indeed, has become one of the staple employments of the settlers, and the raising of hogs for market has become no less a profitable occupation. The sheep and hog are here fed with little or no trouble, the natural productions of the earth affording a plentiful subsistence. For all agricultural purposes, indeed, Iowa is perhaps as fine a region as ever the sun cherished by its beams. It is demonstrated by actual survey that no State in the Union has a less quantity of inferior land. The timber lands are less extensive than the prairies, but the growths are so distributed as to negative any objection that might be interposed on this account. Compared to the lifetime of labor it takes to open a farm in the woods, the facility with which one can be established on the prairie is most striking and gratifying to the settler; and as sufficient timber for all ordinary purposes is always within reasonable distance, the comparative absence of forests is not so important as it otherwise would be, and artificial groves of that useful and ornamental tree, the locust, can be easily and quickly raised. Nothing can exceed the beauty of a prairie cottage, surrounded by its grove of locust, and, wherever met with,

* The constitutional boundaries of Iowa are as follows: "Beginning in the middle of the main channel of the Mississippi River at a point due east of the middle of the mouth of the main channel of the Des Moines River; thence up the middle of the main channel of the said Des Moines River to a point on said river where the northern boundary line of the State of Missouri, as established by the constitution of that State, adopted June 12th, 1820, crosses the said middle of the main channel of the said Des Moines River; thence westwardly along the said northern boundary line of the State of Missouri, as established at the time aforesaid, until an extension of said line intersects the middle of the main channel of the Missouri River; thence up the middle of the main channel of the said Missouri River, to a point opposite the middle of the main channel of the Big Sioux River, until it is intersected by the parallel of forty-three degrees and thirty minutes north latitude; thence east, along said parallel of forty-three degrees and thirty minutes, until said parallel intersects the middle of the main channel of the Mississippi River; thence down the middle of the main channel of said Mississippi River to the place of beginning."

IOWA.

it marks the abode of taste and comfort. In riding over the State, however, the chief characteristic observed is its evenness—the monotony of its very beauty and fertility becomes tiresome.

In point of salubrity, Iowa is not surpassed by any of the new States. It is not exempt from the diseases incidental to rich and uncultivated regions, but from the openness of the country it is less liable to the scourge of malaria than ordinary. Take it altogether, it is a most attractive country for the immigrant. The salubrity of the climate, however, depends much on locality. The thermometer does not range so widely here as in similar latitudes east of the Alleghanies; it is exempt, too, from those easterly winds so searching and baneful in their effects on the pulmonic invalid. Along the low bottom-lands of the rivers, which are occasionally subject to inundation, there will be liability and predisposition to bilious affections, fevers, etc.; but upon the uplands and rolling prairies the air is buoyant and free from all baneful influences. Periodic breezes blow over these elevated portions of the country as regularly and refreshing as from the ocean between the tropics, tempering the extremes incidental to the latitude.

Iowa is divided into 49 counties, the general statistics of which and the capitals of each in 1850 were as follows:

Counties.	Dwell.	Pop.	Farms	Manuf.	Capitals.	Counties.	Dwell.	Pop.	Farms	Manuf.	Capitals.

Since the census of 1850 was taken, Pottawattomee county has been divided into the following named counties: Adair, Adams, Audubon, Bancroft, Bremer, Buena Vista, Buncombe, Butler, Carroll, Cass, Cerro Gordo, Cherokee, Chickasaw, Clay, Crawford, Dickinson, Emmett, Floyd, Fox, Franklin, Greene, Grundy, Guthrie, Hancock, Hardin, Harrison, Howard, Humboldt, Ida, Kossuth, Macon, Mills, Mitchell, Montgomery, O'Brien, Oceola, Palo Alto, Plymouth, Pocahontas, Riley, Sac, Shelby, Sioux, Union, Waukau, Winnebago, Worth, Wright, and Yell.

The whole number of dwellings in the State was, at the above date, 82,962, of families 83,517, and of inhabitants 192,214, viz.: whites 191,879—males 100,885, and females 90,994, free colored 835—males 163, and females 167. Of the whole population, there were *deaf and dumb*—wh. 51, fr. col. 0—total 51; *blind*—wh. 47, fr. col. 0—total 47; *insane*—wh. 40, fr. col. 0—total 40; and *idiotic*—wh. 93, fr. col. 0—total 93. The number of free persons born in the United States was 170,620, the number of foreign birth 21,232, and of births unknown 362; the *native* population originated as follows: Me. 718, N. Hamp. 580, Verm. 1,645, Mass. 1,251, R. I. 256, Conn. 1,090, N. Y. 8,184, N. Jer. 1,199, Penn. 14,744, Del. 589, Md. 1,888, Dist. of Col. 70, Virg. 7,861, N. Car. 2,589, S. Car. 676, Ga. 119, Flor. 51, Ala. 180, Miss. 183, La. 183, Tex. 10, Ark. 163, Tenn. 4,274, Ky. 8,994, Oh. 80,713, Mich. 521, Ind. 19,925, Ill. 7,247, Mo. 8,807, Iowa 50,850, Wisc. 692, Calif. 8, Territories 185, and the *foreign* population was composed of persons from—England 8,735, Ireland 4,888, Scotland 712, Wales 852, Germany 7,152, France 882, Spain 1, Portugal 3, Belgium 4, Holland 1,108, Italy 1, Austria 18, Switzerland 175, Russia 41, Denmark 19, Norway 86, Sweden 881, Prussia 88, Greece 1, Asia 2, British America 1,756, Mexico 16, Cent. America 0, South America 1, West Indies 14, and other countries 124.

The following table will show the decennial progress of the population since the first census taken by the United States authorities:

Census. Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1840.....	42,924.....	172.....	16.....	188.....	43,112.....	—.....	—.....
1850.....	191,879.....	835.....	—.....	885.....	192,214.....	149,102*	845.7

* A census of this State was taken in the latter part of the year 1852: the population of the counties was as follows: Allamakee 2,000, Appanoose 4,243, Benton 1,237, Black Hawk 315, Boone 1,024, Bremer 309, Buchanan 1,023, Butler 73, Cedar 4,971, Clark 549, Clayton 6,318, Clinton 3,822, Dallas 1,216, Davis 7,553, Decatur 1,184, Delaware 2,615, Des Moines 12,525, Dubuque 12,500, Fayette 2,065, Fremont 2,044, Guthrie 300, Henry 9,683, Iowa 1,323, Jackson 8,231, Jasper 1,974, Jefferson 10,225, Johnson 5,788, Jones 4,201, Keokuk 5,306, Lee 20,360, Linn 6,890, Louisa 5,476, Lucas 1,046, Madison 1,822, Mahaska 7,479, Marion 6,289, Marshall 710, Mills 1,483, Monroe 3,430, Muscatine 6,812, Page 636, Polk 5,939, Pottawattomee 5,057, Poweshiek 916, Ringgold 250, Riley 122, Scott 8,628, Story 214, Tama 262, Taylor 479, Union 79, Van Buren 12,753, Wapello 8,888, Warren 1,488, Washington 5,881, Wayne 794, Winneskiek 1,823, Yell 250.

The statistics of the industry and wealth of Iowa, as ascertained by the census of 1850, and in accordance with other public documents referring to the same period, were as follows:

Occupied Lands, etc.—Improved lands, 824,682 acres, and unimproved lands, 1,911,382 acres—valued in cash at \$16,657,567; number of farms under cultivation, 14,805; value of farming implements and machinery, \$1,172,869.

Live-Stock.—Horses, 88,686; asses and mules, 754; milk cows, 45,704; working oxen, 21,892; other cattle, 69,025; sheep, 149,990; and swine, 823,247—valued in the aggregate at \$8,689,275. In 1840 there were—horses, mules, etc., 10,794; neat cattle, 38,549; sheep, 15,354; and swine, 104,899.

Grain Crops.—Wheat, 1,630,581 bushels; rye, 19,916 bushels; Indian corn, 8,656,799 bushels; oats, 1,524,345 bushels; barley, 25,093 bushels; and buckwheat, 52,516 bushels. The crops of 1839-40 consisted of wheat, 154,693 bushels; barley, 728 bushels; oats, 216,335 bushels; rye, 3,792 bushels; buckwheat, 6,212 bushels; and Indian corn, 1,406,241 bushels.

Other Crops.—Rice, 500 pounds; tobacco, 6,041 pounds; peas and beans, 4,775 bushels; potatoes—Irish, 276,120, and sweet, 6,243 bushels; hay, 89,055 tons; clover-seed, 342, and other grass seed, 2,096 bushels; hops, 8,242 pounds; hemp—dew-rotted, 0, and water-rotted, 0 tons; flax, 62,553 pounds; flax-seed, 1,959 bushels; maple sugar, 78,407 pounds; molasses, 8,162 gallons; wine, 420 gallons, etc. The value of orchard products was \$8,494, and of market-garden products, \$8,848.

Products of Animals.—Wool, 873,898 (in 1840, 23,039) pounds; butter, 2,171,188 pounds; and cheese, 209,340 pounds; and the value of animals slaughtered during the year had been \$921,164. Silk cocoons were produced to the amount of 246 pounds; and beeswax and honey, to that of 321,711 pounds.

Home-made manufactures for the year ending 1st June, 1850, were valued at \$221,292 (in 1840, at \$25,966).

Manufactures.—Aggregate capital invested, \$600,000; value of raw material, fuel, etc., consumed, \$600,000; average hands employed, 00,000—males 00,000, and females 000; average monthly cost of labor—male \$60,000, and female \$6,000; annual value of products, \$600,000. The whole number of manufacturing establishments producing to the value of \$500 and upward, in 1850, was 432; and of these, 1 was a woolen factory, 14 were tanneries, and 8 were for the manufacture of cast iron. The balance of the manufactures and handicrafts, making up the sum of the establishments, consist of such as minister to the immediate wants of agricultural communities.

The *woolen* manufacture employed a capital of \$10,000; wool consumed, 14,500 pounds; value of all raw material, \$3,500; hands employed, 7; monthly cost of labor, \$78; entire annual value of products, \$13,000; cloth produced, 14,000 yards.

The *tanneries* employed a capital of \$20,850; value of raw material consumed, \$10,745; average hands, 28; monthly cost of labor, \$549; number of skins tanned, 850, and of sides tanned, 10,650; value of products, \$24,520.

In the manufacture of *cast iron*, \$5,500 invested; pig iron, 81 tons, and coke and charcoal, 200 bushels—valued at \$2,524—consumed; average hands, 17; monthly cost of labor, \$550; castings made, 71 tons; value of entire products, \$8,500.

These summaries of the different national manufactures are relatively small; but they are a germ which the immense water-power of the country and the spirit of the people will soon foster into interests of magnitude and importance.

Commerce and Internal Communication.—Iowa has no direct trade with foreign countries, but its trade with the Atlantic and Gulf ports is comparatively extensive, its exports consisting principally of the products of agriculture and the mines, and its imports of the manufactures of Europe and the Eastern States, groceries, wine, etc. The shipping ports are Keokuk, Fort Madison, Burlington, Muscatine City, Davenport, Lyons, Bellevue, Dubuque, etc., at all which places a busy trade is carried on with the interior. The annual value of the commerce of Keokuk, at the mouth of Des Moines River, though a city numbering less than seven years' existence, amounts to between five and six million dollars, and at the other ports the value of the import and export trade is little less in value. Keokuk is the entrepôt and dépôt of the whole valley of the Des Moines—a region in which more than half the population and agricultural wealth of the State is concentrated; and when the contemplated improvements in the navigation of the river are completed, it must of necessity become one of the most important of Western commercial cities. The exports from Dubuque consist chiefly of lead. Keokuk, Davenport, Lyons, and Dubuque will shortly be connected with the interior by railroads, and hence their commerce will be indefinitely enlarged, and the interests of the whole State be developed by the increased facilities these highways will afford to transportation. Most of the railroads will centre at Iowa City, from which point a grand trunk railroad will be carried westward to Council Bluffs, on the Missouri, and thence, in the progress of events, to the Pacific Ocean. None of these roads are completed; but, perhaps, as a means of developing the wealth of the interior, these lines are of inferior importance to the grand project of opening the channel of the Des Moines to steam navigation, as before alluded to: it will thus become the channel through which the greater part of the commerce of the country will pass, and along its banks will rise up cities and towns, equal in magnitude and wealth, to those on the Illinois or the Hudson—in fact, it will become as important to Iowa as those rivers are to the States through which they have their courses. Through Iowa will also pass a link of the great chain of North and South railroads, connecting St. Louis with the extreme settlements of Minnesota, etc. That portion of this chain within Missouri is already provided for, and will have the aid of the State to build it, and the same policy in relation to State aid will probably be pursued in Iowa.

Banking.—The constitution provides that "no corporation with banking privileges shall be created; and all persons or associations shall be prohibited by law from banking or creating paper to circulate as money."

Government.—The constitution, the basis of the present government of Iowa, was adopted 3d August, 1846. Its principal provisions are as follows:

Every white male citizen of the United States, twenty-one years of age, insane and infamous persons excepted, having resided in the State six months and in the county in which he claims to vote thirty days, is allowed the right of suffrage. The general election is held biennially on first Monday in August.

The *Legislature* is styled the General Assembly, and consists of a Senate of 30 members, and a House of Representatives of 69 members. The number of representatives is not to exceed 72, and senators not less than a third, nor more than a half of that number. Senators are chosen for four years, one half every two years, and must be 25 years of age; and representatives are chosen for two years—both senators and representatives must have been resident in the State at least one year next before the election. The governor's veto to any act of the Legislature is nullified by a subsequent two-thirds vote of both houses in favor of the rejected law. No member of either house is eligible to any office created or the emoluments of which have been increased during his term of service. No person holding any lucrative office under the State or United States, is eligible to a seat in the House of Representatives. No law shall embrace more than one object, and that shall be expressed in its title. No divorce shall be granted by the Legislature. A census of the State is taken every two years, and after each enumeration members are apportioned among the several counties according to

IOWA.

the number of white inhabitants in each. The Legislature meets at Iowa City biennially on the first Monday of December.

The governor is chosen for four years by a plurality of votes; he must be at least 30 years of age, and have resided in the State two years next preceding. In case of disability of the governor, his place is occupied by the Secretary of State, and after him by the President of the Senate and Speaker of the House of Representatives. The chief administrative officers are a Secretary of State, a State Auditor, and a State Treasurer, chosen by the people each for two years.

The *Judiciary* consists of a Supreme Court, Circuit Courts, and courts of local jurisdiction. The Supreme Court consists of a chief and two associate justices, elected by joint vote of the General Assembly for six years, and until their successors are elected and qualified. Any two of the judges form a quorum. The court holds a session each year in each of the five Supreme Court districts into which the State is divided. This court has appellate jurisdiction only in all chancery cases, and corrects errors at law under restrictions provided by the Legislature. The Supreme Court has a reporter. For the purpose of holding District Courts, the State is divided into six districts. The judges of this court are elected by the voters of their district for five years, and until their successors are elected and qualified; a prosecuting attorney and clerk of the District Court are elected each for two years by the voters of each county. Each county also elects a judge of probate, etc. Justices of the peace have jurisdiction in civil cases where the amount in controversy does not exceed \$100, and by consent of parties when it is below \$500.

Among the special provisions of the constitution are the following: No State debt shall be created exceeding \$100,000 except in case of war or insurrection, unless authorized by a special law which shall provide for the payment of the interest and of the principal within 20 years, which law shall be irrevocable, and before going into effect must be submitted to the people at a general election, having been published in at least one newspaper in each judicial district for three months preceding, and be approved by a majority of the voters. Corporations other than for banking purposes may be organized under general laws with certain resolutions. The State shall never become a stockholder in any corporation.

Finances, Public Debt, etc.—On the 30th November, 1850, the funded debt of the State amounted to \$79,442, on which the annual interest was \$5,804; to this should be added auditor's warrants unpaid, \$10,771—total debt, \$90,818. The expenditures for the two years ending at the above period amounted to \$75,410, namely—expenses of legislature, \$7,458; executive, \$11,200; judiciary, \$13,979; public buildings at Iowa City, \$3,200; interest, \$11,692; and public printing, \$8,028. The revenue is derived from taxes upon real and personal property, which, according to the assessors' returns for 1850, was valued at \$22,623,334, being \$4,114,567 more than in 1849. The levy for State purposes was 2½ mills on the dollar—the tax for 1849 was \$47,296, and for 1850 \$56,553. The following are the various objects of taxation in 1850—polls, 332,289; land, 3,752,163 acres—\$13,277,483; town lots, etc., \$3,640,546; capital employed in merchandise, \$687,287; mills, manufactories, distilleries, carding machines, and tan yards, with stock, etc., \$432,238; horses over two years old, 38,565—\$1,460,475; mules and asses over a year old, 305—\$15,591; neat cattle over two years old, 99,406—\$1,106,055; sheep over six months old, 140,599—\$155,765; hogs six months old, 206,452—\$202,897; pleasure carriages, 3,922—\$151,904; watches, 8,577—\$43,702; piano fortes, 55—\$3,185; capital, stocks, and profits in any incorporated or unincorporated company, \$13,107; boats and vessels, \$15,089; all other personal property over \$100—\$207,554; gold and silver coin and bank notes in actual possession, \$238,371; claims for money or other consideration, \$470,353; annuities, \$981; notes, mortgages, etc., \$105,956; miscellaneous property, \$90,309—total, \$22,623,334.

Federal Representation.—Iowa, in conformity with the law regulating the apportionment of members to the United States House of Representatives, occupies two seats in that body.

Religious Denominations.—The statistics of the several religious denominations in 1850 were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.

German Ref.	1 ..	200 ..	800	Swedenborg'g ..	— ..	— ..	—				

The total number of churches in the State is 143, in which is provided accommodation for 37,759 persons, and the value of church property is \$177,400. Iowa constitutes a diocese of the Protestant Episcopal Church, and is included in the Roman Catholic diocese of Dubuque.

Education.—A superintendent of *public instruction* is chosen by the people for three years. All lands granted by Congress to this State, all escheated estates, and such per centage as may be granted by Congress on the sale of the Public Lands in Iowa, constitute a perpetual fund, the interest of which, and the rents of the unsold lands, are applicable to the support of common schools. It is the duty of the Legislature to provide a school in each school district for at least three months in each year; and all moneys received from exemption from military duty and for fines imposed by the courts, are appropriated to such schools, or for the establishment of school libraries. The moneys arising from the sale or lease of public lands granted for the support of a University remain a perpetual fund to maintain such an institution. The school fund amounts to about \$260,000.

Libraries.—One State library, containing 2,500 volumes; and 4 public school libraries, containing 160 volumes—total 5 libraries, and 2,660 volumes.

Public Press.—The public press of Iowa consists of 82 periodicals and newspapers, of which 24 are devoted to politics (12 whig and 12 democratic), and 8 to literature, religion, science, etc. One of these is published tri-weekly, and circulates 1,200 copies at each issue; 23 are weekly issues, with an aggregate circulation of 13,390 copies, and there are issued at other periods—1 semi-monthly, and 2 monthly, circulating 4,050 copies. The tri-weekly and 3 weekly papers are published at Burlington, 4 weeklies at Dubuque, 2 weeklies and 1 monthly at Mount Pleasant, 1 weekly at Andrew, 2 at Fairfield, 2 at Iowa City, 2 at Fort Madison, 1 at Keokuk, 1 at Wapello, 1 at Oskaloosa, 2 at Muscatine, 2 at Fort Des Moines, 2 at Davenport, 1 at Keosauqua, 2 at Ottumwa, 1 semi-monthly at Kanesville, and 1 monthly at Tipton.

Indian Cessions.—Until as late as the year 1832, the whole territory north of the State of Missouri was in undisputed possession of the Indians. By a treaty made in 1830, the Sacs and Foxes, who were then the principal tribes, had ceded

to the United States the best of their lands east of the Mississippi River. Their unwillingness to leave the ceded territory, in compliance with the treaty, led to the "Black Hawk War," which resulted in the total defeat of the Indians at the Battle of the Bad Axe, in Wisconsin, on the 2d of August, 1832. In the September following, partly as an indemnity for the expenses of the war, and partly to secure the future safety and tranquillity of the invaded frontier, a slip of country on the west of the Mississippi, extending nearly 300 miles north of Missouri, and about 50 miles in width (now commonly called the *Black Hawk purchase*), was ceded to the United States, and in June, 1833, the settlement of Iowa by the white man was commenced.

Further purchases were made successively in the years 1836 and 1837; and in 1842, by a treaty concluded by Governor Chambers, an immense tract of land, containing some 15,000,000 acres, was purchased of the Sacs and Foxes for the sum of \$1,000,000. This tract, known as the "new purchase," now contains some of the finest counties in the State, though a large part of it was occupied by the Indians until October in 1845.

The Pottowatomies, who inhabited the south-western corner of the State, and the Winnebagoes, who occupied the "neutral ground," a strip of country on the northern borders, have been peaceably removed within the past few years, and the Indian title thus became extinct in the whole country lying within the established limits of the State of Iowa.—*Sargent.*

Historical Sketch.—Iowa was originally a part of the French province of Louisiana, which was purchased by the United States in 1803. The first white settlements were made in 1686, at Dubuque, by Frenchmen, who built a fort at that point and commenced a trade with the Indians, which was the sole dependence of the place for more than a century and a half. It is here that the great lead mines of the State were first discovered, but at a later period. The territory now comprised within the State was a part of the Missouri Territory from 1804 to 1821, but after that was placed successively under the jurisdiction of Michigan and Wisconsin territories. In June, 1833, it was erected into the separate Territorial Government of Iowa; under which was also included all that portion of the present Territory of Minnesota west of the Mississippi River, and on the 3d December, 1846, it was admitted into the Union as an independent State.

IOWA CITY, on the left bank of Iowa River, is the political capital of the State; previous to May, 1839, Burlington, on the Mississippi, was the seat of government.

IOWA county, *Ia.* Situate S. E. centrally, and contains 576 sq. m. Iowa r. passes E. through the N., and its branch, English r., through the S. Surface rolling; soil fertile, and adapted to grain. Good timber on the streams, and some prairie between. Farms 70; manuf. 2; dwell. 143, and pop.—wh. 823, fr. col. 0—total 823. Capital: Marengo. *Public Works:* Council Bluffs R. R.

IOWA county, *Wisc.* Situate S. W., and contains 732 sq. m. Bounded N. by Wisconsin r., and drained N. by its affluents, S. by heads of Peckatonica r., a branch of Rock r. Surface considerably broken, and inclining N. and E. from a ridge or watershed crossing the county; soil very productive, with a basis of limestone. The chief wealth consists in its great mineral deposits; of these lead and copper are the principal, and great quantities of them are dug. Zinc and iron are also found. Farms 470; manuf. 24; dwell. 1,846, and pop.—wh. 9,502, fr. col. 23—total 9,530. Capital: Mineral Point. *Public Works:* Milwaukee and Mississippi R. R., and Mineral Point R. R.

IOWA, p. v., Perry co., *Ill.* on a branch of Little Muddy cr., 129 m. S. by E. Springfield.

IOWA CITY, p. v., and cap. Johnson co., *Ia.*, and cap. of the State of Iowa: on the E. bank of Iowa r., 52 m. from the Mississippi r., 63 m. from Burlington, 51 m. from Davenport, and 70 m. from Dubuque—from Washington, D. C., 1,485 m. The river is navigable to this place at all stages of the water, and regular steamboats from the Mississippi ascend it daily. The surface consists of a succession of plateaux rising from the margin of the r., the first plain, about 100 yards wide, being devoted to a public promenade; the second plateaux is about 12 feet, and the third about 30 feet above the promenade, and on these the city is built. The principal avenues run along the brows of these eminences, and are intersected centrally by Iowa Avenue, a magnificent street, on which stands the State House, an elegant building of bird's-eye marble, a richly variegated species of limestone; it is 100 feet long and 60 feet wide, and is built in the Greco-doric style, surmounted by a dome resting on 22 Corinthian columns. The avenues are 160 feet wide. Iowa City, as the capital of a wealthy State, is well situated, being easy of access from all points, and is capable of every species of improvement for manufacturing, mechanical operations, trade, and commerce. Already it is being made the centre of communication from all the principal ports of the Mississippi toward Council Bluffs and the Pacific—in which direction railroads will soon be built. Above the city the river affords immense water-power, and has been improved by the erection of several extensive mills. It is the seat of

a U. S. land office; and here, also, is an elegant county court-house, a jail, several substantial church buildings, and here will be located the State University recently chartered by the General Assembly of the State. The newspapers published here are the "Iowa Republican" (whig), and the "Iowa Capital Reporter" (dem.), both weekly issues. The site of the city previous to 1839 was in the wilderness: in that year it was selected by the legislature as the seat of government. Pop. 2,262.

IOWA river, *Ia.*: a considerable affluent of the Mississippi. It rises in Hancock county, and passes in an E. S. E. and E. direction through Franklin, Hardin, Marshall, Tama, Iowa, and Johnson counties, in the latter of which it suddenly turns to the S., and on entering Louisa county, again changes its direction S. E., and disembogues into the Mississippi by two mouths, forming a delta, the sides of which are about six miles in length; the upper fork is the main stream, and empties opposite Edward's r. of Illinois, and the other, called the Iowa Slough, is the lower fork. The river is navigable for light draft steamers at all seasons, and for boats much farther up. Its whole length is 300 miles. Red Cedar r., its main branch, enters at Fredonia, and at certain seasons is navigable for keel-boats 100 miles from its mouth. The Iowa is a fine clear stream, and affords in its course innumerable mill seats and eligible city sites.

IOWAVILLE, p. v., Van Buren county, *Ia.*: on the N. side of Des Moines r., 61 m. S. S. W. Iowa City. It has several large stores, 3 mills, 50 houses, and about 300 inhabitants.

IPSWICH, t. p. v., and cap. Essex co., *Mass.*: on Ipswich r., 25 m. N. N. E. Boston. The t. has an uneven surface and a productive soil. The v. lies on both sides of the r., which is passed by a stone bridge, 2 m. from its mouth. It has a court-house, jail, a noted female seminary, a bank, several commercial houses, and about 1,000 inhabitants. On the r., just above, are large factories. The r. is navigable, and the port had in 1850, 578 tons shipping, mostly in the coasting trade. The Eastern R. R. passes through the v. 25 m. from Boston. The "Ipswich Clarion," a semi-monthly literary, is published here. Pop. of t. 3,849.

IRA, t. and p. v., St. Clair county, *Mich.*: 93 m. E. by S. Lansing. It lies on the N. shore of Lake St. Clair, and is drained by Swan and LaSalle rivers. Soil fertile, and surface undulating, and well covered with pine timber. Pop. of t. 597.

IRA, t. and p. v., Cayuga co., *N. Y.*: 141 m. W. N. W. Albany. Little Sodus cr. touches the N., but the streams are small. Surface level, and soil very fertile. Farming is

the chief pursuit. The v. has a hotel and several stores. Pop. of t. 2,110.

IRA, t. and p. v., Rutland co., *Verm.*: on Castleton r., 54 m. S. S. W. Montpelier. The t. is rough and fitter for grazing. The v. has a church, 2 or 3 stores, and 20 houses. The Troy, Whitehall, and Castleton R. R. crosses the N. of the town. Pop. of t. 407.

IRASBURGH, t. p. v., and cap. Orleans co., *Verm.*: 42 m. N. N. W. Montpelier. Surface of the t. gently broken, and soil productive. Drained by Black r., which flows into Lake Memphremagog. The v. is on the river, and contains a court-house, jail, 2 stores, and a few houses. The "Orleans Gazette" (whig), is published here weekly. Pop. of t. 1,034.

IREDELL county, *N. Car.* Situate W. centrally, and contains 685 sq. m. Bounded S. W. by Catawba r., a head of Santee r., and drained N. and E. by numerous affluents of Yadkin r. Surface broken and hilly, affording excellent water-power; soil very productive of wheat, corn, and cotton, which are the leading staples, and furnishes fine pasturage. It has some good timber. Farms 1,096; manuf. 23, dwell. 1,884, and pop.—wh. 10,547, fr. col. 30, sl. 4,142—total 14,719. *Capital*: Statesville.

IRELAND, p. o., Hampden co., *Mass.*: 82 m. W. by S. Boston.

IRELAND, p. o., Lewis county, *Virg.*: 139 m. W. N. W. Richmond.

IRELAND CORNERS, p. o., Albany co., *N. Y.*

IRISH GROVE, p. o., Atchison co., *Mo.*: 214 m. N. W. Jefferson City.

IRISH RIFLE, p. o., Lawrence county, *Penn.*: 139 m. W. N. W. Harrisburg.

IRON county, *Utah Ter.* Situate S., stretching E. and W. across the Territory between latitudes 37° 30' and 38° 30'. Surface much varied, and where best known, well wooded and abounding in bituminous coal, salt, and gypsum. Farms 54; manuf. 2; dwell. 86, and pop.—wh. 360, fr. col. 1—total 360. *Capital*: —

IRON CREEK, p. o., Washtenaw co., *Mich.*: 43 m. S. E. Lansing.

IRONDEQUOIT, t. and p. v., Monroe co., *N. Y.*: 139 m. W. N. W. Albany. Genesee r. bounds it on the W., Lake Ontario N., and W. Irondequoit Bay. Surface level, with sand-hills in the E., and soil productive. It has some commerce, and is a resort for fishing. Pop. 2,397.

IRONDEQUOIT bay, Monroe co., *N. Y.*: an arm of Lake Ontario, 6 m. deep and 1 m. wide. A creek of the same name, which affords numerous mill-sites, falls into the bay. Fish of various descriptions are taken here in abundance.

IRON FURNACE, p. o., Scioto co., *Ohio*: 83 m. S. by E. Columbus.

IRON MOUNTAIN, p. o., St. Francis co., *Mo.*: 93 m. S. E. Jefferson City. The celebrated Iron Mountain lies on the E. extreme of the Ozark Mountains, is 1½ m. long, 1 m. broad, and 444 feet high. The top is solid ore, a micaceous oxide of iron of superior quality, yielding 60 per cent. of metal, and in the crude state is used to manufacture edge tools. The amount that may be made is immense, and is soon to be brought into universal use by a railroad from St. Louis.

IRON RIDGE, p. v., Dodge co., *Wisc.*: 51 m. N. E. by E. Madison.

IRONTON, p. v., Lawrence co., *Ohio*: on the Ohio r., near the mouth of Stormes' cr., 97 m. S. S. E. Columbus. It is a fine little village of rapid growth, the terminus of the Iron R. R., and the shipping port for the iron of a rich and extensive mining region. It has a fine depôt, several large stores and warehouses, and a large trade. The "Ironton Register" (neutral), is published here weekly.

IRONWOOD BLUFF, p. o., Itawamba county, *Miss.*: 179 m. N. N. E. Jackson.

IROQUOIS county, *Ill.* Situate N. E., and contains 1,393 sq. m. Drained by Sugar cr., Iroquois r., and other branches

of Kankakee r., which flows on its N. border, and soon into the Illinois. Surface mostly low and level, with many swamps and marshes, and some prairie; soils usually productive, raising good crops of corn, and feeding numbers of cattle and swine. Farms 387; manuf. 0; dwell. 718, and pop.—wh. 4,072, fr. col. 77—total 4,149. *Capital*: Middleport.

IROQUOIS, p. v., Iroquois co., *Ill.*: on the Iroquois r., 181 m. E. N. E. Springfield. It contains a large hotel, several fine stores, and two mills.

IRVILLE, p. v., Muskingum co., *Ohio*: about 2 m. from the Ohio Canal, 45 m. E. by N. Columbus. It has several stores, and 200 inhabitants.

IRVINE, p. v., and cap. Estill co., *Ky.*: on the N. side of Kentucky r., 57 m. S. E. Frankfort. It has a fine location, and contains the court-house, jail, etc., about 40 dwellings, and 300 inhabitants.

IRVINE, p. o., Warren county, *Penn.*: 171 m. N. W. Harrisburg.

IRVINE'S STORE, p. o., Weakly co., *Tenn.*: 92 m. W. by N. Nashville.

IRVING, p. v., Chautauque co., *N. Y.*: on Lake Erie, at the mouth of Cattaraugus cr., 205 m. W. by S. Albany. It has a good landing, and several stores and dwellings.

IRVING, p. o., Barry co., *Mich.*: 44 m. W. by S. Lansing.

IRVING COLLEGE, p. o., Warren co., *Tenn.*: 58 m. S. E. Nashville.

IRWIN county, *Ga.* Situate S. centrally, and contains 2,064 sq. m. Drained by Ocmulgee r., its N. E. line, and heads of Santilla (or St. Illa) r., streams flowing into the Atlantic, and Little r., New r., Allapahaw r., and their branches, heads of Suwanee r., emptying into the Gulf. Surface diversified, with no great elevations, and much low land; soil productive of the grains, on which many cattle and hogs are raised, and cotton. Timber is abundant, pine particularly. Farms 414; manuf. 0; dwell. 443, and pop.—wh. 2,833, fr. col. 1, sl. 450—total 3,334. *Capital*: Irwinsville. *Public Works*: Savannah and Pensacola R. R.

IRWIN'S CROSS ROADS, p. o., Washington co., *Ga.*: 26 m. S. E. Milledgeville.

IRWINSVILLE, p. v., and cap. Irwin co., *Ga.*: about 3 m. E. Allapahaw r., 102 m. S. by W. Milledgeville. It has a court-house, jail, etc., a few stores, and 20 dwellings.

IRWINTON, p. v., and cap. Wilkinson co., *Ga.*: about 6 m. W. Oconee r., 19 m. S. Milledgeville. It has a court-house, jail, academy, three churches, and 160 inhabitants.

ISABELLA county, *Mich.* Situate centrally on Lower Peninsula, and contains 576 sq. m. Drained by Salt, Chippewa, and Pine rivers, affluents of the Saginaw. A new county, unorganized in 1850.

ISCHUA river, *N. Y.*: an affluent of Oil cr., from Cattaraugus co., and which, through that river, empties into the Allegheny at Olean.

ISLAND CREEK, t. and p. o., Jefferson co., *Ohio*: on the Ohio r., 126 m. E. N. E. Columbus. Drained by Island cr. Surface uneven, and soil very fertile, and excellent grazing. Wool is largely grown. Pop. 1,937.

ISLAND FORD, p. o., Rutherford county, *N. Car.*: 202 m. W. by S. Raleigh.

ISLAND GROVE, sta., Morgan co., *Ill.*: on the Sangamon and Morgan R. R., 19 m. from Springfield.

ISLE AU CHATS, *N. Y.*: an island of the St. Lawrence, of which there is another on the British side of the same name, between which the dividing line of the two countries passes. The one on the American side of the line belongs to the t. of Louisville, St. Lawrence co.

ISLE AU GALLON, *N. Y.*: an island of the St. Lawrence, and a part of the t. of Lisbon, in St. Lawrence co.

ISLE AU RAPID, an island of St. Lawrence r., in the t. of Madrid, St. Lawrence co.

ISLEBOROUGH, t. and p. v., Waldo co., *Me.*: in Penobscot Bay, 47 m. E. Augusta. It is composed of a large, and several small islands near it, which have a fertile soil, with

fine harbors, much frequented by fishermen and coasters. Fishing is the chief pursuit. Pop. of t. 984.

ISLE BREVILLE, p. o., Natchitoches par., La.: 159 m. N. W. Baton Rouge.

ISLE OF SHOALS; a cluster of islands in the Atlantic, 8 m. from Portsmouth Harbor, and called Hog, Duck, Star, Smutty Nose, Londoner, White, and Malaga. They constitute the t. of Gosport, and are chiefly composed of rocks. Several of the islands have been connected with each other by sea walls, and their harbors otherwise improved. The inhabitants are fishermen, and besides supplying the Portsmouth market, salt large quantities for export. Pop. 103.

ISLE OF WIGHT county, Virg. Situate S. E., and contains 352 sq. m. Bounded W. by Black r., a head of Chowan r., and N. E. by James r. Surface various, with some good mill seats; soil mostly fertile. Corn is the staple. Sweet potatoes are much grown, and many hogs fattened. It has fine peach orchards, and its peach brandy is much noted. Farms 629; manuf. 13; dwell. 1,200, and pop.—wh. 4,724, fr. col. 1,234, sl. 3,395—total 9,353. Capital: Smithfield. Public Works: Norfolk and Petersburg R. R.; Seaboard and Roanoke R. R.

ISLIP, t. and p. v., Suffolk co., N. Y.: on the Atlantic, 129 m. S. S. E. Albany. The surface is level, and soil sandy and mostly productive, with few streams. The v. contains two churches, and several stores and dwellings. Pop. of t. 2,602.

ISNEY, p. o., Choctaw county, Ala.: 122 m. W. by S. Montgomery.

ISORN'S STORE, p. o., Maury co., Tenn.: 33 m. S. S. W. Nashville.

ISPAHAN, p. o., Fayette county, Tenn.: 163 m. S. W. Nashville.

ISRAEL'S river, Coos co., N. Hamp.: a noted tributary of the Connecticut r., formed by the cascades and falls from the summit of Mt. Adams and Mt. Jefferson, and meeting the Connecticut at Lancaster. It is a beautiful stream, and along its banks is much picturesque scenery.

ISSAQUENA county, Miss. Situate W. centrally, and contains 964 sq. m. Yazoo r. is on its E. border, and the Mississippi its W. boundary; between these are Sunflower r., Williams bayou, and other streams. Surface low and even; soil highly productive. Cotton is the staple. Farms 75; manuf. 0; dwell. 110, and pop.—wh. 866, fr. col. 7, sl. 4,105—total 4,473. Capital: Tallula.

ITALY HILL, p. o., Yates co., N. Y.: 173 m. W. Albany.

ITALY HOLLOW, p. o., Yates county, N. Y.: 176 m. W. Albany.

ITASCA county, Minn. Situate N. E. part of the Territory, and extent not ascertained. It lies on the N. line of the U. S., and has on the N. a chain of lakes and rivers, extending from Lake of the Woods to Lake Superior, the last forming its E. boundary. It is bounded S. by Ramsey and Washington counties, and W. by the Mississippi r. and Pembina co. It embraces a large territory, hardly settled at all by white men, and little known, except by hunters and the natives, between whom a lively trade is kept up in furs, the only important product of the co. Many streams afford fine fishing and facilitate travel, most of which have one or more lakes emptying into them. The largest of these are Mississippi r. and its lakes, Cass, and Winnibigoshish. Flowing E. into Lake Superior are Embarras r., East Swan r., Second Embarras r., and Cloquet r., branches of St. Louis r.—a large stream—Knife r., Gooseberry r., Baptism r., etc. Farms 36; manuf. 0; dwell. 23, and pop.—wh. 97.

ITASCA LAKE, Minn. Ter.: a small lake, the source of the head stream of the Mississippi r. Lat. 47° 10' N., and long. 95° 54' W.—3,160 m. above the Gulf of Mexico. It is a beautiful lake, lying among the hills, surrounded by pines. Its outlet is 10 or 12 feet wide, and from 12 to 15 inches deep. It was discovered by Schoolcraft, July 13, 1832.

ITAWAMBA county, Miss. Situate N. E., and contains 943 sq. m. Drained by several head streams of Tombigbee r. Surface level or undulating; soil mostly very productive.

Cotton is the staple, and corn but little inferior in its yield. Farms 1,499; manuf. 6; dwell. 1,862, and pop.—wh. 11,395, fr. col. 6, sl. 2,127—total 13,528. Capital: Fulton. Public Works: Mobile and Ohio R. R.

ITHACA, t. p. v., and cap. Tompkins co., N. Y.: 134 m. W. Albany. Drained by Fall, Six Mile, and Cascadilla creeks, which fall into Cayuga Lake. The v. is situated on a plain, 1½ m. S. of the lake, and on both sides of Cayuga inlet, which is navigable for large canal boats. The alluvial flat, on which the city is chiefly located, is inclosed on three sides by hills, which rise gradually to the height of 500 feet, and a part of the v. lies on the hill overlooking the beautiful lake in its front. The streets are at right angles, forming square blocks; its buildings are usually neat and commodious, and most of the thoroughfares are ornamented with shade trees. In available hydraulic power applicable to manufactures Ithaca is second to no other village in the State, and it is already engaged largely in industrial pursuits. The streams before named, in descending from the hills, have numerous falls. Fall cr. descends 438 feet in the course of a mile, having three successive falls of 70, 50, and 116 feet, the latter a grand cataract, and in an unbroken sheet, and other falls in the vicinity of the place are almost co-equal in extent and grandeur with these. The manufactures of the place comprise extensive cotton and woolen mills, flouring mills, iron works, machine shops, plaster mills, paper mills, and a variety of other industrial establishments. Its commercial advantages are also great. Southward the Cayuga and Susquehanna R. R. gives it access to the iron and coal fields of Pennsylvania, and at Owego it unites with the New York and Erie R. R., forming a direct route to New York City; and Northward through Cayuga Lake and Seneca Canal it communicates with the Erie Canal and the central chain of railroads extending between Albany and Buffalo. The principal exports south are plaster, flour, etc., which are exchanged for the coal, iron, etc., of that region. Ithaca has two newspapers, the "I. Chronicle" (whig), issued daily and weekly, and the "I. Journal" (dem.), issued weekly. The v. was planned in 1800 by Simeon De Witt, and in 1821 it was incorporated. Pop. in 1830, 3,324; in 1840, 5,650; and in 1850, 6,909.

ITHACA, p. o., Darke county, Ohio: 87 m. W. N. W. Columbus.

IVE'S, sta., Hampden t., New Haven co., Conn.: on the New Haven and Northampton R. R., 7 m. from New Haven.

IVE'S GROVE, p. v., Racine co., Wisc.: 79 m. E. S. E. Madison. A plank road passes W. through this village 11 m. from Racine.

IVE'S STORE, p. o., Princess Anne co., Virg.: 94 m. S. E. Richmond.

IVY, p. o., Yancey co., N. Car.: 206 m. W. Raleigh.

IVY ISLAND, p. o., Edgefield dist., S. Car.: 78 m. W. S. W. Columbia.

IVY LOG, p. v., Union county, Ga.: 147 m. N. N. W. Milledgeville.

IVY MILLS, p. v., Delaware co., Penn.: 83 m. E. by S. Harrisburg.

IXONIA, t. and p. v., Jefferson co., Wisc.: on Rock r., 41 m. E. by N. Madison. The t. has a rolling surface, well timbered, and fine water-power. The soil is very rich, with prime grass lands. The v. lies on the left bank of Rock r., and contains several stores and mills, and about 250 inhabitants. The plank road from Milwaukee to Madison passes through the town. Pop. of t. 1,113.

IZARD county, Ark. Situate N. centrally, and contains 841 sq. m. Drained by White r., which runs through the county from N. W. to S. E., and its branches Pine cr., Buffalo fork, etc. Surface somewhat elevated, but pretty even; soil very fertile and excellent for grass and grain. The pine is very abundant. Cattle and swine are raised in large numbers. Farms 832; manuf. 7; dwell. 496, and pop.—wh. 3,017, fr. col. 0, sl. 196—total 3,213. Capital: Athens.

J.

JACKINTO, p. v., and cap. Tishemingo co., *Miss.*: 191 m. N. N. E. Jackson. It contains a court-house, jail, etc., several stores and shops, and about 150 inhabitants. The "North Mississippi Union," a weekly paper, is published in this village.

JACKSBOROUGH, p. v., and cap. Campbell co., *Tenn.*: 148 m. E. by N. Nashville. It has a court-house, jail, a few stores and dwellings, and 100 inhabitants.

JACK'S CREEK, p. o., Henderson county, *Tenn.*: 102 m. W. S. W. Nashville.

JACK'S FORKS, p. o., Texas co., *Mo.*: on a branch of Current r. so called, 106 m. S. S. E. Jefferson City.

JACKSON county, *Ala.* Situate N. E., and contains 1,087 sq. m. Tennessee r. runs S. W. through the E. part, and Raccoon cr. and other branches drain it. Surface various, with considerable low land; soil very fertile. Cotton and corn are the great staples. Wheat grows well, and many hogs are raised. Farms 856; manuf. 4; dwell. 2,000, and pop.—wh. 11,766, fr. col. 40, sl. 2,292—total 14,068. *Capital*: Bellefonte. *Public Works*: Memphis and Charleston R. R.; Nashville and Chattanooga R. R.

JACKSON county, *Ark.* Situate N. E., and contains 679 sq. m. It lies between Big Black and White rivers on the W., and Cache r., a branch of White r., on the E. Surface mostly undulating or level; soil fine and well adapted to grazing. Corn is the staple, and large numbers of cattle and swine are raised. It has a great deal of excellent ash and cypress timber on its streams. Farms 232; manuf. 4; dwell. 447, and pop.—wh. 2,517, fr. col. 6, sl. 568—total 3,086. *Capital*: Elizabeth.

JACKSON county, *Flor.* Situate N. W., and contains 929 sq. m. Apalachicola r. forms its E. boundary, and Chipola r., a branch of it, with its affluents, drains it. Surface level, with slight hills; soil generally fertile, on the streams very rich. Cotton is the great staple. Corn and wheat are good crops, and many cattle and swine are kept. Farms 287; manuf. 0; dwell. 560, and pop.—wh. 3,075, fr. col. 30, sl. 3,584—total 6,659. *Capital*: Marianna.

JACKSON county, *Ga.* Situate N. E. centrally, and contains 523 sq. m. Drained by North and Allen's forks and Apalachee r., head streams of Oconee r. Surface broken and elevated, with good meadows and water-power; soil fertile, and well adapted to grass. Cotton grows well. Farms 547; manuf. 6; dwell. 1,200, and pop.—wh. 6,808, fr. col. 19, sl. 2,941—total 9,768. *Capital*: Jefferson.

JACKSON county, *Ill.* Situate S. W., and contains 588 sq. m. Drained by branches of Big Muddy r., a navigable stream crossing it S. W. to the Mississippi, which is its S. W. boundary. Surface rolling or slightly broken, with much timber and some prairie and swamp land; soil very fertile, with excellent grazing. On Big Muddy r. are salt springs and immense deposits of coal. Copper is found. Farms 604; manuf. 23; dwell. 1,088, and pop.—wh. 5,520, fr. col. 33—total 5,802. *Capital*: Murphysboro. *Public Works*: Illinois Central R. R.

JACKSON county, *Ind.* Situate S. centrally, and contains 524 sq. m. Drained by Driftwood, White, Salt, and Muscatuck creeks, all fine mill streams. Surface level or undulating, with some "knobs" in the N. The bottoms are large and rich, and the soil generally sandy clay. Most of the county is well timbered. All the grains yield great crops, and much beef and pork is fattened. Indian mounds are found in the N. Farms 1,173; manuf. 18; dwell. 1,965, and pop.—wh. 10,837, fr. col. 210—total 11,047. *Capital*: Brownstown. *Public Works*: Jeffersonville R. R.

JACKSON county, *Ia.* Situate E., and contains 643 sq. m. Drained by Macquetetals r. and its branches, affluents of the Mississippi, its E. boundary. Surface diversified, in parts broken; soil good and well timbered, producing the cereals in abundance. This county is rich in minerals. It

lies opposite the Galena lead district, and is abundantly supplied with lead, iron ore, copper, zinc, and gypsum. Farms 703; manuf. 10; dwell. 1,277, and pop.—wh. 7,201, fr. col. 9—total 7,210. *Capital*: Andrew.

JACKSON parish, *La.* Situate N. centrally, and contains 927 sq. m. Drained by Dugdemona r. and branches W., and E. by branches of Wachita r., all affluents of Red r. Surface undulating, and covered mostly with a heavy growth of oak, hickory, sassafras, and poplar; soil on the river bottoms very fertile, and well adapted to cotton, which is the staple production. Farms 290; manuf. 6; dwell. 622, and pop.—wh. 3,406, fr. col. 2, sl. 2,153—total 5,566. *Capital*: Vernon.

JACKSON county, *Mich.* Situate S. centrally, and contains 720 sq. m. Drained N. and W. by Portage r., a head of Grand r., and heads of Kalamazoo r., both flowing into Lake Michigan, and S. E. by heads of Raisin r., flowing into Lake Erie. Surface undulating, with few hills; soil a rich, sandy loam, bearing great grain crops and grass. It has good water-power, abundance of limestone and marl, fine building stone, and some coal. Farms 2,250; manuf. 95; dwell. 3,540, and pop.—wh. 19,346, fr. col. 85—total 19,481. *Capital*: Jackson. *Public Works*: Michigan Central R. R.

JACKSON county, *Miss.* Situate S. on the Gulf, and contains 1,243 sq. m. Drained by numerous branches of Pascagoula r., which crosses it from N. to S., and empties into Pascagoula Bay. Surface level and much of it wooded with pine; soil of moderate fertility. Corn is the staple, and many cattle and swine are raised. Farms 212; manuf. 8; dwell. 440, and pop.—wh. 2,273, fr. col. 100, sl. 825—total 3,198. *Capital*: Jackson C. H.

JACKSON county, *Mo.* Situate W., and contains 759 sq. m. Drained by Big and Little Blue rivers, affluents of the Missouri, its N. boundary. Surface elevated and somewhat undulating; soil excellent, particularly for grain and grass. Corn is the agricultural staple. Large numbers of cattle, hogs, and sheep are raised on its fine pastures and abundant mast. It is well timbered and has good water-power. Farms 956; manuf. 78; dwell. 1,719, and pop.—wh. 10,992, fr. col. 39, sl. 2,969—total 14,000. *Capital*: Independence. *Public Works*: Pacific R. R.

JACKSON county, *N. Car.* Situate S. W., and contains 884 sq. m. Drained by Tuckassege r., a head of the Tennessee r., and its affluents. Surface broken and mountainous. Soil very productive, yielding large crops of all the grains, and affording excellent pasture. Corn and pork are staples. Erected since 1850.

JACKSON county, *Ohio.* Situate S., and contains 384 sq. m. Drained by Raccoon and Symmes creeks, and Little Scioto, affluents of Ohio r., and Salt cr., a branch of Scioto r. Surface somewhat broken, and soils highly productive of the grains and grass. Coal and iron ore are abundant. Corn, wheat, wool, and pork are farming staples. Farms 1,164; manuf. 14; dwell. 2,120, and pop.—wh. 12,380, fr. col. 891—total 12,721. *Capital*: Jackson. *Public Works*: Cincinnati, Hillsboro', and Parkersburg R. R.; Scioto and Hocking Valley R. R.

JACKSON county, *Tenn.* Situate N. centrally, and contains 369 sq. m. Drained by small affluents of Cumberland r., which crosses it from N. E. to S. W., and is boatable at all seasons. Surface diversified, but not rough, with some water-power; soils fine. Tobacco and all the grains grow well, and many sheep and swine are raised. Farms 1,211; manuf. 4; dwell. 2,325, and pop.—wh. 14,000, fr. col. 115, sl. 1,558—total 15,673. *Capital*: Gainesboro'.

JACKSON county, *Tex.* Situate S. near the Gulf, and contains 884 sq. m. Drained by Arenosa bayou W., Caranca bayou E., but mostly by Lavacca and Navidad rivers, which are navigable for vessels of light draft, and their branches. Surface a rolling prairie, wholly destitute of stone. The streams are lined with forests, the rest of the county is open; soil a deep black mold lying over red

loam, and very rich. Corn and cotton yield enormously, and most esculents flourish. Indigo is raised abundantly. Cattle are an important staple, requiring little attention, and grazing on the prairies the year round. Farms 73; manuf. 0; dwell. 114, and pop.—wh. 627, fr. col. 80, sl. 339—total 996. *Capital*: Texana.

JACKSON county, *Virg.* Situate N. W., and contains 412 sq. m. Drained E. by branches of Little Kanawha r., and W. by Big Mill, Big and Little Sandy creeks, affluents of Ohio r., which bounds it N. W. Surface varied, with good mill seats; soil very good, adapted to grain growing and grazing. Corn, wheat, and pork are staples. Farms 602; manuf. 16; dwell. 1,034, and pop.—wh. 6,480, fr. col. 11, sl. 53—total 6,544. *Capital*: Ripley (Jackson C. H.)

JACKSON, p. v., Clarke co., *Ala.*: on the left bank of Tombigbee r., 112 m. S. W. by W. Montgomery.

JACKSON, p. v., Stephenson co., *Ill.*: on a branch of Peckatonic r., 171 m. N. Springfield.

JACKSON, p. v., and cap. Butts co., *Ga.*: 46 m. W. N. W. Milledgeville. It lies about 8 m. W. of Ocmulgee r., and contains a court-house, jail, an academy, several churches and stores, and about 200 inhabitants.

JACKSON, p. o., Elkhart county, *Ind.*: 87 m. N. by E. Indianapolis.

JACKSON, p. v., and cap. Breathitt co., *Ky.*: on the N. fork of Kentucky r., 92 m. E. S. E. Frankfort. It is a pretty village, containing the county buildings, and has valuable salt works in the vicinity.

JACKSON, p. v., and cap. East Feliciana par., *La.*: on the E. side of Thompson's cr., 26 m. N. Baton Rouge. Here is located Centenary College, founded in 1839, with 7 instructors, 40 alumni, 94 students, and 5,000 volumes in its library. The v. contains the court-house, several stores, and about 1,000 inhabitants.

JACKSON, t. and p. v., Waldo co., *Me.*: on a branch of Marsh r., 87 m. N. E. Augusta. It has a fine soil, producing superior wheat. Pop. of t. 833.

JACKSON, t., p. v., and cap. Jackson co., *Mich.*: on Grand r., 32 m. S. by E. Lansing. The t. is drained by Grand and Portage rivers, affording excellent water-power, and has a rich soil adapted to grass or grain. Coal and abundance of white sandstone and limestone are found. The v. is on Grand r., where the falls furnish abundant water-power, and is extensively engaged in manufactures of flour, leather, iron ware, machinery, etc. It contains a court-house, jail, the State penitentiary, a branch of the university, and several banks. Its situation and facilities for transportation and travel give it a large trade with the interior and the East. The Michigan Central R. R. passes through the v. 76 m. from Detroit. Two newspapers, the "American Citizen" (whig), and the "Jackson Patriot" (dem.), are published weekly. Pop. of t. 4,147.

JACKSON, p. v., and cap. Hinds co., *Miss.*, and capital of the State of Mississippi: on the W. bank of Pearl r., in lat. 32° 23' N., and long. 90° 08' W.—1,035 m. W. S. W. Washington. The site is level, and about a quarter of a mile from the river. The v., regularly laid off, contains a handsome State house, the governor's house, the State penitentiary, a U. S. land office, etc., several mechanic shops, about 40 stores of various descriptions, and 1,872 inhabitants. Three newspapers are published here, viz., the "Mississippian" (dem.), the "Flag of the Union" (whig), and the "Hinds Gazette" (whig), all weekly issues. The Vicksburg, Jackson, and Brandon R. R. passes through Jackson, as will also the New Orleans, Jackson, and Northern R. R., etc.

JACKSON C. H., p. v., and cap. Jackson co., *Miss.*: on Cedar cr., near Pascagoula r., 139 m. S. E. Jackson. It contains a court-house, jail, hotel, and a few houses.

JACKSON, t. and p. v., Washington co., *N. Y.*: on S. side of Batten Kill, 36 m. N. N. E. Albany. The t. has a varied surface, a soil of moderate fertility, and considerable water-power. The Rutland and Washington R. R. crosses

the E. part. The v. contains an academy, several stores, and 300 inhabitants. Pop. of t. 2,123.

JACKSON, p. v., and cap. Cape Girardeau co., *Mo.*: on Hubbes' cr. of Whitewater r., 12 m. from the Mississippi, 162 m. S. E. by E. Jefferson City. It contains a court-house, jail, etc., a U. S. land office, and about 600 inhabitants. The "Southern Democrat" is published weekly.

JACKSON, t. and p. v., Coos co., *N. Hamp.*: at the E. base of White Mountains, 64 m. N. N. E. Concord. Drained by Ellis's r., a branch of Saco r., affording water-power. Surface very rugged; soil good. The v. lies near the E. branch of Ellis's r. Pop. of t. 539.

JACKSON, p. v., and cap. Northampton co., *N. Car.*: about 5 m. N. Roanoke r., 84 m. N. E. Raleigh. It contains the court-house, and a few stores and dwellings.

JACKSON, t., Jackson co., *Ohio*: 56 m. S. S. E. Columbus. A fine grazing town. Drained by Salt creek. Pop. 717.

JACKSON, p. v., and cap. Jackson co., *Ohio*: on a branch of the Scioto, 65 m. S. S. E. Columbus. It contains a court-house, jail, several stores and small mills, and 430 inhabitants. The Iron R. R. will connect here with the Scioto and Hocking Valley R. R. The "Jackson Standard" (whig), and "Jackson Union" (dem.), are issued here weekly.

JACKSON, t. and p. v., Susquehanna co., *Penn.*: on head of Tunkhannock cr., 135 m. N. E. by N. Harrisburg. Surface rough, and soil good pasture. The v. has 3 stores and 25 houses.

JACKSON, p. v., and cap. Madison co., *Tenn.*: on Forked Deer r., 118 m. W. S. W. Nashville. It contains a court-house, jail, 3 churches, 12 stores, and 600 inhabitants.

JACKSON C. H., p. v., and cap. Jackson co., *Virg.*: on Big Mill cr. of Ohio r., 241 m. W. N. W. Richmond. It contains, besides a court-house and jail, several stores and mills, an academy, and 250 inhabitants.

JACKSON, p. o., Louisa county, *Virg.*: 45 m. N. W. Richmond.

JACKSON, p. v., and cap. Calaveras co., *Calif.*: at the junction of N. and S. forks of Mokelumne r., 106 m. E. by N. Vallejo. It contains a court-house, several stores, and 600 inhabitants. The washings in the vicinity are very rich in gold, and the soil excellent.

JACKSONBOROUGH, p. v., and cap. Scriven co., *Ga.*: on Brier cr., 104 m. E. by S. Milledgeville. It contains a court-house, jail, high school, several stores, and 150 inhabitants.

JACKSONBOROUGH, p. v., Butler co., *Ohio*: 83 m. W. S. W. Columbus.

JACKSON BROOK, p. o., Washington co., *Me.*: 123 m. E. N. E. Augusta.

JACKSONBURGH, p. v., Wayne county, *Ind.*: 73 m. E. Indianapolis.

JACKSONBURGH, p. v., Herkimer co., *N. Y.*: 68 m. N. W. Albany.

JACKSON CORNERS, p. v., Dutchess co., *N. Y.*: 43 m. S. Albany.

JACKSON CREEK, p. v., Will co., *Ill.*: on an affluent of Illinois r. so called, 139 m. N. E. Springfield.

JACKSON FURNACE, p. v., Jackson co., *Ohio*: near the Little Scioto r., 77 m. S. by E. Columbus.

JACKSON HALL, p. v., Franklin co., *Penn.*: 56 m. W. S. W. Harrisburg.

JACKSONHAM, p. o., Lancaster dist., *S. Car.*: 53 m. N. N. E. Columbia.

JACKSON HILL, p. o., Davidson co., *N. Car.*: 96 m. W. Raleigh.

JACKSON HILL, p. o., Spartanburgh dist., *S. Car.*: 89 m. N. N. W. Columbia.

JACKSON POINT, p. o., Holt co., *Mo.*: 203 m. W. N. W. Jefferson City.

JACKSON PORT, p. o., Jackson co., *Ark.*: 97 m. N. N. E. Little Rock.

JACKSON'S CAMP, p. o., Tallapoosa co., *Ala.*: N. E. Montgomery.

JACKSON'S CREEK, p. o., Fairfield dist., *S. Car.*: 28 m. N. by W. Columbia.

JACKSON'S FERRY, p. o., Wythe co., *Virg.*: near New r., 195 m. W. S. W. Richmond.

JACKSON'S MILLS, p. v., Lenawee co., *Mich.*: 59 m. S. S. E. Lansing.

JACKSON'S MILLS, p. o., Ocean co., *N. Jer.*: 26 m. E. Trenton.

JACKSON'S river, *Virg.*: rises in Highland co., on E. side of Alleghany Mountains, and flows S. to Covington, then E. to its junction with Cowpasture r., which two form the James. It has a very rapid descent, and furnishes much water-power.

JACKSONTOWN, p. v., Licking co., *Ohio*: about 4 m. E. of the Ohio Canal, 29 m. E. Columbus. It has several stores and 800 inhabitants.

JACKSON VALLEY, p. v., Susquehanna co., *Penn.*: 182 m. N. E. by N. Harrisburg.

JACKSONVILLE, p. v., and cap. Benton co., *Ala.*: on Choccolochee cr. of Coosa r., 102 m. N. N. E. Montgomery. It contains a court-house, jail, several large stores, a few manufactories of farming implements, and 716 inhabitants. The "Republican" (dem.) is issued weekly.

JACKSONVILLE, p. v., and cap. Duval co., *Flor.*: on the left bank of St. John's r., about 20 m. from its mouth, 162 m. E. Tallahassee. The St. John's, here 1 m. wide, furnishes access to the interior and the N. coast, carrying hence heavy cargoes of cotton, and bringing hither many invalids attracted by the mildness of the climate. It contains a court-house, jail, academy, and several stores. Pop. 1,145.

JACKSONVILLE, p. v., and cap. Telfair co., *Ga.*: on the left bank of Ocmulgee r., 94 m. S. by E. Milledgeville. It contains a court-house, jail, academy, and about 119 inhabitants.

JACKSONVILLE, p. v., and cap. Morgan co., *Ill.*: 30 m. W. Springfield. It is near Mauvaise terre cr., surrounded by rich prairie, and is one of the most flourishing villages in the State. It has extensive manufactures of flour, cotton goods, leather, machinery, etc., a court-house, jail, several excellent high schools, and 2,745 inhabitants. Illinois College, founded in 1880, has a fine location here, 6 instructors, 94 graduates, of whom 35 are ministers, 32 students, and a library of 2,500 volumes. The State institutions for the deaf and dumb, the insane, and the blind are pleasantly located and in successful operation in the outskirts of the village. The Sangamon and Morgan R. R. passes the v. 33 m. from Springfield, and 21 from Naples. The "Morgan Journal" (whig) publishes weekly and tri-weekly editions.

JACKSONVILLE, p. v., Switzerland co., *Ind.*: 82 m. S. E. Indianapolis.

JACKSONVILLE, p. v., Burlington county, *N. Jer.*: on Assineunk cr., 10 m. S. Trenton.

JACKSONVILLE, p. v., Tompkins co., *N. Y.*: 149 m. W. Albany.

JACKSONVILLE, p. v., Darke co., *Ohio*: 81 m. W. by N. Columbus.

JACKSONVILLE, p. v., Lehigh co., *Penn.*: 79 m. E. N. E. Harrisburg.

JACKSONVILLE, p. v., Windham co., *Verm.*: 105 m. S. by W. Montpelier. It contains several stores and 200 inhabitants.

JACKSONVILLE, p. v., Cherokee co., *Tex.*: 176 m. N. E. Austin City.

JACKSONVILLE, p. o., Bourbon county, *Ky.*: 43 m. E. Frankfort.

JACKSONVILLE, p. v., Tuolumne co., *Calif.*: on Tuolumne r., near the junction of Rattlesnake cr., 98 m. E. S. E. Vallejo. It is the centre of a rich gold district, and has several stores and 500 inhabitants.

JACK'S REEF, p. v., Onondaga co., *N. Y.*: 141 m. W. by N. Albany.

JACKVILLE, p. v., Butler co., *Penn.*: 177 m. W. N. W. Harrisburg.

JACOBESBURGH, p. v., Belmont county, *Ohio*: 107 m. E. Columbus. A village of about 300 inhabitants.

JACOBESBURGH, p. v., Northampton co., *Penn.*: 94 m. E. N. E. Harrisburg. Here is a bloomery forge making 50 tons iron per annum, and a few dwellings.

JACOB'S FORK, p. o., Catawba co., *N. Car.*: 124 m. W. Raleigh.

JACOBSTOWN, p. o., Burlington co., *N. Jer.*: S. S. E. Trenton.

JAFFREY, t. and p. v., Cheshire co., *N. Hamp.*: at the head of Contoocook r., 37 m. S. W. by S. Concord. It lies S. E. of Monadnock Mountain, has a fine soil for grass, several ponds, affording excellent mill streams, a mineral spring furnishing yellow ochre, and small factories for cotton and woolen goods. The v. has a high school, a hotel, several stores, and 200 inhabitants. Pop. of t. 1,497.

JAKE'S PRAIRIE, p. v., Gasconade county, *Mo.*: near Bourbeuse cr., 43 m. S. E. Jefferson City.

JAKE'S RUN, p. o., Monongalia co., *Virg.*: 191 m. N. W. Richmond.

JALAPA, p. v., Grant co., *Ind.*: on Mississinewa r., 63 m. N. N. E. Indianapolis.

JALAPA, p. o., McMinn co., *Tenn.*: 126 m. E. S. E. Nashville.

JALAPA, p. o., Greene co., *Ill.*: 43 m. S. W. Springfield.

JAMAICA, t. and p. v., Queens co., *N. Y.*: 137 m. S. Albany. Surface level, with slight hills in the N.; soil a sandy loam, and mostly fertile, with extensive salt meadows in the S., producing large crops of grass. Jamaica Bay occupies the S., and the Union Race-course is in the W. part, 8 m. from Brooklyn. The v. is on the Long Island R. R., 11 m. from Brooklyn, and contains the county clerk's and surrogate's offices, an academy, a female seminary, 6 churches, 6 hotels, 20 stores, several manufactories, an extensive repair shop for the railroad, and about 1,800 inhabitants. Two weekly papers are published, the "Long Island Farmer" (whig), and the "Long Island Democrat." Pop. of t. 4,247.

JAMAICA, t. and p. v., Windham co., *Verm.*: 86 m. S. by W. Montpelier. Drained by West r., which affords fine water-power. Surface uneven, and soil mostly good. Limestone is abundant. The v. is on a branch of the river, has valuable mills, several stores, and 450 inhabitants. Pop. of t. 1,606.

JAMAICA, p. o., Middlesex county, *Virg.*: 51 m. E. Richmond.

JAMAICA PLAIN, p. v., Norfolk co., *Mass.*: on the Boston and Providence R. R., $8\frac{1}{2}$ m. S. W. Boston. Jamaica Pond, 5 m. from the Exchange in Boston, supplied that city with water through 40 m. of pipe, from 1795 to Oct., 1848, when the Cochituate Aqueduct was opened. The v. is a beautiful suburb of the city, containing many splendid private residences and fine schools, and has some trade and manufactures.

JAMES CITY county, *Virg.* Situate E., and contains 113 sq. m. It has James r. on the S., Chickahominy r., its branch, on the W., and York r. on the N. E. Surface generally level, and soil mostly fertile. Corn and wheat are the staples. In this county was the first permanent settlement made by the English in America, Jamestown, its site, lying in the S. on James r. This town is noted now only for its monuments; but Williamsburg, 8 m. distant, was long the capital of the colony, and is the seat of William and Mary College, the oldest, save Harvard, in the U. S., and widely distinguished for the elegance and refinement of its society. Farms 129; manuf. 0; dwell. 396, and pop.—wh. 1,489, fr. col. 663, sl. 1,868—total 4,020. *Capital*: Williamsburg.

JAMES river, *Mo.*: with its branches, drain most of Greene county, and then by a S. course empties through Stone county into White river.

JAMES river, *Virg.*: the most important river of the State, and having its course wholly within it. It rises in the Al-

leghanes, and is formed by the union of Cowpasture and Jackson's rivers. North r. joins it at the passage of the Blue Ridge, and it is afterward joined by the Rivanna and Appomattox, the latter of which is its largest affluent. James r. is upward of 500 m. long, and enters Hampton Roads near the mouth of Chesapeake Bay. Lynchburg and Richmond are on this river. Above Richmond the navigation has been improved by the James River Canal, which is now completed to Balcony Falls. This river and its improved navigation form the outlet of a country abounding in tobacco, wheat, corn, hemp, coal, etc. Below Richmond the navigation is open to large vessels—120 ton ships come up to Rocket's, just below; 250 tons to Warwick, and to Jamestown a 40 gun man-of-war. On Harrison's bar there is 15 feet water at low tide.

JAMESBURGH, p. v., Middlesex co., *N. Jer.*: N. E. Trenton.

JAMES' CREEK, p. v., Huntingdon co., *Penn.*: on an affluent of the Juniata so called, 67 m. W. Harrisburg.

JAMES' CROSS ROADS, p. o., Washington co., *Tenn.*: 244 m. E. Nashville.

JAMES' FORK, p. o., Crawford co., *Ark.*: on a branch of Poteau r. so called, 124 m. W. N. W. Little Rock.

JAMES' MILL, p. o., Monroe co., *Ill.*: 112 m. S. S. W. Springfield.

JAMESTON, p. o., Owen co., *Ky.*: 22 m. N. Frankfort.

JAMESPORT, p. v., Suffolk co., *N. Y.*: about 2 m. from Great Peconic Bay, 184 m. S. E. by S. Albany. It is on the Long Island R. R., 16 m. from Greenport.

JAMESTOWN, v., Tuolumne co., *Calif.*: on the Tuolumne r., above the junction of Rattlesnake cr., 99 m. E. S. E. Vallejo.

JAMESTOWN, t. and p. v., Boone co., *Ind.*: 26 m. W. N. W. Indianapolis.

JAMESTOWN, p. o., Clinton county, *Ill.*: 85 m. S. by E. Springfield.

JAMESTOWN, p. v., and cap. Russell co., *Ky.*: about 5 m. N. of Cumberland r., 83 m. S. Frankfort. It contains the county buildings, several stores, and 200 inhabitants.

JAMESTOWN, p. o., Monticue co., *Mo.*: W. Jefferson City.

JAMESTOWN, p. v., Chautauque county, *N. Y.*: 281 m. W. by S. Albany. It is near the S. E. end of Chautauque lake, or Conewango cr., its outlet, which furnishes fine water-power. The lake is crossed to Maysville, 21 m., by steamboats. The v. has numerous and valuable manufactures of flour, woollens, cabinet ware, leather, iron ware, and agricultural implements. It contains 6 churches, a bank, an academy, 25 stores, and about 2,000 inhabitants.

JAMESTOWN, p. o., Guilford co., *N. Car.*: on W. side of Deep r., 81 m. W. by N. Raleigh.

JAMESTOWN, v., *Virg.*: on the N. bank of James r., 46 m. E. S. E. Richmond. Here, 82 m. above the mouth of James r., was the first permanent English settlement in America, made in 1607. Historical associations have made it classical ground, which business does not disturb. The only remains of the first settlement are the ivy-covered ruins of a church and the moss-grown stones in the churchyard.

JAMESTOWN, p. v., Greene co., *Ohio*: on Caesar's cr. of the Little Miami, 44 m. S. W. by W. Columbus. It contains 8 churches, several mills, a high school, 6 stores, and about 400 inhabitants.

JAMESTOWN, p. v., Mercer co., *Penn.*: on Shenango cr., 214 m. N. W. by W. Harrisburg. It contains several stores and mills, and 300 inhabitants.

JAMESTOWN, p. o., Muscogee co., *Ga.*: 115 m. W. S. W. Milledgeville.

JAMESTOWN, p. v., and cap. Fentress co., *Tenn.*: 126 m. E. by N. Nashville. It lies at the foot of Cumberland Mountain, and contains the county buildings and a few stores and dwellings.

JAMESTOWN, t. and p. v., Newport co., *R. I.*: in Narragansett Bay, 22 m. S. Providence. The t. comprises Conanicut Island, and has a rich soil, adapted to grass and

corn. A fine farming t., 1 m. W. from Newport and 1 m. E. South Kingston, with ferries to both places. Pop. of t. 358.

JAMESTOWN, t. and p. v., Grant co., *Wisc.*: on the Mississippi, 74 m. W. S. W. Madison. The t. is well drained by affluents of the Mississippi, affording good mill-sites, is uneven, and very fertile. The v. is small and on the river. Pop. of t. 622.

JAMESVILLE, p. v., Onondaga co., *N. Y.*: on the W. side of Butternut cr., which furnishes water-power, 124 m. W. by N. Albany. It contains 4 churches, 2 hotels, 6 mills for flour and gypsum, and 450 inhabitants.

JAMISON'S, sta., Orangeburg dist., *S. Car.*: on the Columbia Branch of the S. Carolina R. R., 7 m. N. Orangeburg, 43 m. S. Columbia.

JANELEU, p. o., Lewis county, *Virg.*: 187 m. W. N. W. Richmond.

JANESVILLE, t. and p. v., Rock co., *Wisc.*: on Rock r., 84 m. S. S. E. Madison. The t. has a rich and highly cultivated soil and even surface. The v. occupies both sides of Rock r. back to the bluffs, which are 100 feet high, and has several large mills on the excellent sites the falls here afford. The court-house occupies a bold eminence, overlooking a jail, several large stores, and many fine dwellings. Its trade is extensive and rapidly increasing. A railroad to Chicago is commenced. Two weeklies, the "Janesville Gazette" (whig), and "Rock County Badger" (dem.), are published. Pop. 8,419.

JARRATTS, p. v., Sussex co., *Virg.*: on Nottaway r., 43 m. S. Richmond. The Petersburg R. R. passes through the v. 81 m. from Petersburg and 83 m. from Weldon.

JARRETS FORD, p. o., Kanawha county, *Virg.*: 219 m. W. by N. Richmond.

JARRETTSVILLE, p. v., Harford co., *Md.*: near Deer cr., 45 m. N. Annapolis.

JASPER county, *Ga.* Situate N. centrally, and contains 369 sq. m. Drained by affluents of Ocmulgee r., its W. boundary, and E. by heads of Oconee r. Surface various; soils very fertile. Cotton is the staple, for which the country is admirably adapted, raising very large crops of excellent quality. Corn and wheat yield well. It has some water-power. Farms 588; manuf. 12; dwell. 812, and pop.—wh. 4,323, fr. col. 29, sl. 7,134—total 11,456. *Capital*: Monticello.

JASPER county, *Ill.* Situate S. E., and contains 456 sq. m. Drained by Embarras and heads of Little Wabash r., both branches of Wabash r. Surface low and level, and in parts marshy; soil wet and not sufficiently drained. This done it would be very productive. Much of it is prairie, and part well timbered. Corn is chiefly grown. Farms 238; manuf. 0; dwell. 588, and pop.—wh. 3,206, and fr. col. 14—total 3,220. *Capital*: Newton.

JASPER county, *Ind.* Situate N. W., and contains 978 sq. m. Drained by Kankakee r., its N. boundary, and Pickamink, or Iroquois r., its branch, with their affluents. Beaver Lake, in the N. W., is the largest sheet of water in the State, and abounds in excellent fish. Surface level, mostly wet or dry prairie, interspersed with groves or oak openings. Much of the land is fertile, and well adapted to grazing. Wheat, corn, and oats are the cereal staples. Farms 343; manuf. 4; dwell. 592, and pop.—wh. 3,589, fr. col. 1—total 3,540. *Capital*: Rensselaer.

JASPER county, *Ia.* Situate E. centrally, and contains 743 sq. m. Drained by N. and S. forks of Chicagua, or Skunk r., which runs S. E. to the Mississippi. Surface level or undulating; soil mostly prairie and very fertile. Good timber on the streams, which furnish some water-power. This region is a fine farming and grazing country. Farms 150; manuf. 0; dwell. 214, and pop.—wh. 1,280, fr. col. 0—total 1,280. *Capital*: Newton. *Public Works*: Council Bluffs R. R.

JASPER county, *Miss.* Situate S. E. centrally, and contains 661 sq. m. Drained by Bogue Hume, Tallahala, and Leaf creeks, and branches of Chickasawha r., all flowing

through Pascagoula r. into the Gulf. Surface level with moderate hills; soil productive. Cotton is the staple, corn a good crop, and large numbers of cattle and hogs are fattened. Its many streams furnish considerable water-power. Farms 540; manuf. 9; dwell. 674, and pop.—wh. 4,296, fr. col. 1, sl. 1,887—total 6,184. *Capital*: Paulding.

JASPER county, Mo. Situate S. W., and contains 1,179 sq. m. Drained N. by Big Dry Wood, Dry Wood, Clear, and Horse creeks, flowing N. into Osage r., and S. by N. and S. forks of Spring r., Centre cr., and other affluents of Neosho r., which runs into the Arkansas. Surface elevated and broken in parts, but mostly undulating; soil highly productive. Corn is the chief crop, but all the cereals thrive, and there is excellent pasturage. Cattle and hogs are raised in great numbers. Farms 408; manuf. 8; dwell. 664, and pop.—wh. 4,009, fr. col. 1, sl. 213—total 4,223. *Capital*: Carthage.

JASPER county, Tex. Situate E. near Sabine r., and contains 882 sq. m. Drained N. by Angelina r., and other affluents of Neches r., which forms its W. boundary, and with its branches drains most of the county. Surface undulating in the S., in the N. hilly; soil on the Angelina and Neches, which overflow their banks, a rich alluvial bottom of great fertility, producing heavy crops of corn, cotton, and sugar. Back of this the soil is sandy and much less fertile. The county is well timbered, and the Angelina and Neches, large navigable streams, make exportation easy and markets convenient. Farms 123; manuf. 6; dwell. 192, and pop.—wh. 1,226, fr. col. 0, sl. 541—total 1,767. *Capital*: Jasper.

JASPER, p. v., and cap. Walker co., Ala.: 116 m. N. N. W. Montgomery.

JASPER, p. v., and cap. Newton co., Ark.: 104 m. N. N. W. Little Rock. It contains a court-house and a few dwellings.

JASPER, p. v., and cap. Hamilton co., Flor.: about 5 m. E. of Allapahais r., 81 m. E. by N. Tallahassee. It contains a court-house and a few stores and dwellings.

JASPER, p. v., and cap. Dubois co., Ind.: on the right bank of Patoka cr., 101 m. S. S. W. Indianapolis. It contains a court-house, jail, hotel, several stores, and 400 inhabitants.

JASPER, t. and p. v., Steuben co., N. Y.: 204 m. W. by S. Albany. The t. has an undulating surface and loamy soil, well fitted for grazing, and is drained by Bennett's and Tuscarora creeks. It is a farming t. and has a pop. of 1,749.

JASPER, p. v., Pike co., Ohio: on the Scioto r. and Ohio Canal, 61 m. S. Columbus. Pop. 84.

JASPER, p. v., and cap. Marion co., Tenn.: on Sequatchy r., 92 m. S. E. Nashville. It is a small v. containing the county buildings.

JASPER, p. v., and cap. Jasper co., Tex.: on the W. bank of Sandy cr., a branch of the Neches, 124 m. E. by N. Austin City. It occupies the centre of an extensive plain, and contains a court-house, 3 stores, hotel, and 200 inhabitants.

JATT, p. o., Rapides par., La.: 117 m. N. W. Baton Rouge.

JATTON, p. o., Grant county, Ind.: 64 m. N. N. E. Indianapolis.

JAYA, t. and p. o., Wyoming county, N. Y.: 244 m. W. Albany. Drained by Seneca cr., which has a few mill sites. Surface rolling; soil clayey loam, adapted to grass. Farming is the chief business. Pop. 2,245.

JAYA, p. v., Lucas co., Ohio: 117 m. N. N. W. Columbus.

JAYA VILLAGE, p. v., Wyoming co., N. Y.: on Seneca cr., 245 m. W. Albany. It contains a church, hotel, several mills, and 200 inhabitants.

JAY county, Ind. Situate on middle of E. line, and contains 862 sq. m. Drained by Wabash r., and Salamonie r., its branch, with their affluents. Surface rolling or level; soils everywhere very productive, with plenty of timber. It is a fine grazing region. Corn, wheat, and pork are the staples. Farms 876; manuf. 9; dwell. 1,179, and pop.—wh. 7,017, fr. col. 30—total 7,047. *Capital*: Portland.

JAY, t. and p. v., Essex co., N. Y.: 116 m. N. Albany. Drained by Au Sable r., which furnishes water-power. Surface mountainous, the Adirondack Mountains being in the E. part. On the Au Sable are rich flats. The v. is on the E. branch of the Au Sable, and contains a hotel, 8 churches, a forge, several mills, and 500 inhabitants. Pop. of t. 2,688.

JAY, t. and p. v., Orleans co., Verm.: on N. line of the State, 51 m. N. Montpelier. Drained by branches of Missisquoi r., affording water-power. Surface very rugged. In the S. W. is Jay's Peak; soil fertile. Pop. of t. 371.

JAY, t., Franklin co., Me.: on the Androscoggin, 27 m. W. N. W. Augusta. A fine farming town. Pop. 1,738.

JAY BRIDGE, p. v., Franklin co., Me.: on the Androscoggin, 26 m. W. N. W. Augusta. It contains several stores and mills, and is surrounded by a fine wheat and grazing region. Pop. 450.

JAY C. H., p. o., and cap. Jay co., Ind.: on the N. side of Salamonie r., 73 m. N. E. by E. Indianapolis. It contains a court-house, jail, academy, several stores, and about 400 inhabitants. Formerly called Portland.

JAYNESVILLE, p. v., Covington co., Miss.: 44 m. S. E. Jackson.

JEANERETT's, p. o., St. Mary's par., La.: 53 m. S. S. W. Baton Rouge.

JEANSVILLE, p. v., Luzerne county, Penn.: 93 m. N. E. Harrisburg.

JEDDO, p. v., Orleans county, N. Y.: 241 m. W. by N. Albany.

JEDDO, p. v., Jefferson county, Ohio: 123 m. E. N. E. Columbus.

JEDDO, p. v., Luzerne co., Penn.: 77 m. N. E. Harrisburg.

JEFFERSON county, Ala. Situate N. centrally, and contains 916 sq. m. Drained by Locust Fork and its affluents, flowing into Black Warrior r., which touches its W. border, and by heads of Cahawba r., a branch of Alabama r., in the E. Surface somewhat broken; soil excellent generally. Cotton, wheat, corn, and other grains yield largely, and there is much good pasturage. Coal is abundant in this part of the State. Farms 752; manuf. 4; dwell. 1,140, and pop.—wh. 6,714, fr. col. 8, sl. 2,267—total 8,959. *Capital*: Elyton.

JEFFERSON county, Ark. Situate S. E. centrally, and contains 1,293 sq. m. Drained by Saline r. and Bayou Bartholomew, flowing S. into Red r., and the Arkansas r., which crosses the county, running S. E. Surface varied, and generally well wooded, with good mill streams; soil very productive, particularly of cotton and corn, and well fitted for raising cattle and swine, of which many are fattened. Farms 817; manuf. 9; dwell. 595, and pop.—wh. 3,197, fr. col. 16, sl. 2,621—total 5,834. *Capital*: Pine Bluff.

JEFFERSON county, Flor. Situate N. centrally, and contains 453 sq. m. It extends from Georgia to the Gulf, and is bounded E. by Oscilla r., emptying into Appalachee Bay. Lake Mickasukie lies on its N. W. border, and gives rise to a large stream, which in a mile or two disappears in one of the "sinks" common in parts of this State. Surface even, and soil fertile. Cotton is the staple. Corn does well, and some rice and sugar are made. Farms 377; manuf. 7; dwell. 520, and pop.—wh. 2,775, fr. col. 5, sl. 4,988. *Capital*: Monticello.

JEFFERSON county, Ga. Situate E. centrally, and contains 627 sq. m. Drained N. by Briar cr., an affluent of Savannah r., and S. by Ogeechee r. and its branches. Surface moderately uneven, with good mill streams; soil very productive, and good pasture in parts. Cotton is the great product of the county, of which a very large amount is grown. Corn is a good crop. Farms 535; manuf. 48; dwell. 765, and pop.—wh. 3,717, fr. col. 47, sl. 5,367—total 9,121. *Capital*: Louisville. *Public Works*: Georgia Central R. R.

JEFFERSON county, Ill. Situate S. centrally, and contains 576 sq. m. Drained by heads of Big Muddy r., an affluent

of Mississippi r., and branches of Little Wabash r. of the Ohio. Surface undulating, timbered in part with much prairie; soil of moderate fertility, and adapted finely to grazing. Corn is the cereal staple, and beef and pork are leading products. Farms 470; manuf. 2; dwell. 1,363, and pop.—wh. 8,088, fr. col. 26—total 8,109. *Capital*: Mount Vernon.

JEFFERSON county, Ind. Situate S. E. on the Ohio, and contains 357 sq. m. Drained by heads of Muscatatuk r. flowing W. into White r., and Indian Kentucky r. and other small streams, affluents of Ohio r. Except on the Ohio the surface is generally level, but at Hart's Falls, near Hanover, and the falls of Clifty, near Madison, the scenery is grand and beautiful. Bottom lands are rich, sandy loam, and the adjacent hills are very fertile. Uplands chiefly covered with beech and fitted for grass. Corn, wheat, beef, pork, and wool are staples. It has good water-power, and its manufactures are important and increasing. Farms 1,896; manuf. 188; dwell. 4,092, and pop.—wh. 23,848, fr. col. 568—total 25,916. *Capital*: Madison. *Public Works*: Indianapolis and Madison R. R.

JEFFERSON county, Ia. Situate S. E., and contains 492 sq. m. Drained by Big Cedar cr. and other affluents of Skunk r., which crosses its N. E. border. Surface diversified, furnishing much excellent water-power; soil very fertile, bearing heavy crops of corn and wheat, and affording fine pasture. Cattle and grain are farming staples. Good coal is found. Farms 1,067; manuf. 54; dwell. 1,649, and pop.—wh. 9,908, fr. col. 1—total 9,904. *Capital*: Fairfield. *Public Works*: Dubuque and Keokuk R. R.

JEFFERSON county, Ky. Situate N. centrally, and contains 479 sq. m. Drained by Floyd's fork and Pond cr. of Salt r., and Mill cr., Harrod's cr., and other small affluents of Ohio r., which forms its W. boundary. Surface diversified, and soil very productive. It lies on the Ohio, above and below the falls or rapids, which have been avoided by a ship canal around them, affording easy navigation at all seasons and abundance of excellent water-power. Limestone is abundant, and fine crops of wheat and corn are grown, and large numbers of cattle, sheep, and hogs are fattened. Though a good farming county, its great interests are commerce and manufactures, the Ohio supplying ample facilities for both, which centre in Louisville, the largest city in the State, and one of the most important in the Great West. The manufactures embrace almost every thing wanted in the West, and a large tract of country on both sides of the Ohio exports its various products from this point. Farms 887; manuf. 614; dwell. 7,690, and pop.—wh. 47,329, fr. col. 1,581, sl. 10,911—total 59,831. *Capital*: Louisville. *Public Works*: Louisville and Portland Canal; Louisville and Frankfort R. R.; and Nashville and Louisville R. R.; Louisville and Covington R. R., etc.

JEFFERSON parish, La. Situate S. E., and contains 876 sq. m. Drained by Mississippi r., which crosses the N. part, and numerous bayoux running into the bays and lakes around the country. There are Lake Pontchartrain on the N., Catouche, Washa, and Little lakes on the W., and Barataria Bay on the S. Surface low, and much of it covered with swamps; soil immediately on the rivers exceedingly fertile, but much is unfillable back of them, though furnishing great quantities of fine timber. Sugar is the great staple. Corn thrives abundantly and some rice is grown. Farms 81; manuf. 54; dwell. 8,825, and pop.—wh. 18,021, fr. col. 874, sl. 6,196—total 25,091. *Capital*: Lafayette City. *Public Works*: New Orleans, Jackson, and Northern R. R.

JEFFERSON county, Miss. Situate S. W., and contains 518 sq. m. Drained by small affluents of Mississippi r., which forms its W. boundary. Surface moderately uneven, with numerous mill seats; soil in the W. very fertile, in the E. lighter, with a good growth of pine. Cotton is the staple—its culture commands almost exclusive attention, and gives immense returns. Farms 299; manuf. 7; dwell. 514, and pop.—wh. 2,657, fr. col. 43, sl. 10,498—total 13,193.

Capital: Fayette. *Public Works*: Natchez and Malcolm R. R.

JEFFERSON county, Mo. Situate E. on the Mississippi, and contains 689 sq. m. Drained W. by Big r., a branch of Maumee r., which runs on and near its N. border into the Mississippi, and E. by Isle au Bois, Platin, Joachin, and other small creeks. Surface moderately elevated and broken, with low land in parts; soil very good, affording fine grazing and large crops of corn and wheat. Much pork is made. It is rich in minerals; lead mines are numerous and inexhaustible; iron and copper are found, and mineral springs abundant. It has water-power, and makes large quantities of shot. Farms 704; manuf. 12; dwell. 1,119, and pop.—wh. 6,407, fr. col. 9, sl. 512—total 6,925. *Capital*: Hillsboro'. *Public Works*: Iron Mountain R. R.

JEFFERSON county, N. Y. Situate along E. shore of Lake Ontario, and contains 1,125 sq. m. Bounded N. W. by St. Lawrence r., and drained by Indian r. flowing N. into it, and Black r., Chaumont, Stoney, and Sandy creeks, flowing into the lake. Surface for 10 m. back from the lake, level or undulating; it then slopes to the S. E., and becomes broken and hilly. Most of the county is of the transition formation, consisting of Potsdam sandstone and varieties of limestone and shale. Bog, specular, and spaltic iron ores, tremolite, fluor spar, green malachite, heavy spar, peat, etc., are found. Soil a rich sandy loam, very productive. In the N. W. great crops of wheat are raised; in the S. E. is excellent grazing, and the swamps produce many cranberries for export. Farming is the chief pursuit; large dairies are kept, thousands of cattle and swine sent to market, much flax raised, and many sheep sheared. Its manufactures are extensive, chiefly of flour, lumber, iron, leather, potash, and woolen goods. Its commerce and shipping are large, and interior communication good and improving. Sackett's Harbor is one of the best on the lake, and the water-power on Black r. immense. Farms 5,490; manuf. 630; dwell. 11,926, and pop.—wh. 67,971, fr. col. 182—total 68,153. *Capital*: Watertown. *Public Works*: Watertown and Rome R. R.; Sackett's Harbor R. R.; Watertown and Potsdam R. R.

JEFFERSON county, Ohio. Situate E. on Ohio r., and contains 362 sq. m. Drained by Yellow, Cross, Short, and Wells creeks, affluents of the Ohio, its E. boundary. Surface considerably broken, with numerous good mill streams; soil very productive, equally adapted to grain and grass. Wheat, corn, and oats are farming staples, and much attention is paid to wool growing. Its manufactures are important, chiefly flour, leather, and woolen goods. Its lumber is valuable, and coal and iron are abundant. Farms 1,881; manuf. 381; dwell. 5,191, and pop.—wh. 28,526, fr. col. 606—total 29,132. *Capital*: Steubenville. *Public Works*: Steubenville and Indiana R. R.; Wellsville and Wheeling Railroad.

JEFFERSON county, Penn. Situate W. centrally, and contains 479 sq. m. Drained by Mahoning and Bank creeks, flowing W. into Alleghany r. Surface broken and hilly, affording many fine mill seats; soil good, with beautiful and very fertile valleys, and generally excellent pasturage. The grains yield abundantly, and there is good timber. Iron ore and coal exist in all parts in profusion. Farms 1,170; manuf. 222; dwell. 2,253, and pop.—wh. 18,421, fr. col. 97—total 18,578. *Capital*: Brookville.

JEFFERSON county, Tenn. Situate N. E., and contains 412 sq. m. It lies between Holston and Nolichucky rivers, and is drained by their branches. Surface rough and broken, well wooded, and abundantly supplied with water-power; soil fertile. Corn and wheat are staples. A great many hogs are raised. It has several manufactures of importance, flour, leather, liquors, powder, woolen goods, etc. Farms 904; manuf. 73; dwell. 1,975, and pop.—wh. 11,469, fr. col. 107, sl. 1,628—total 13,204. *Capital*: Dandridge. *Public Works*: East Tennessee and Virginia R. R.

JEFFERSON county, Tex. Situate S. E., and contains 2,017

sq. m. It is bounded S. by the Gulf of Mexico, and E. by Sabine r. and lake. Drained by Neches r., which runs through the county into Sabine lake, its branches Pin Island bayou and Big Sandy cr., Cypress, Adams, and Cow bayous, affluents of Sabine r., and Taylor's bayou, of Sabine lake. Surface almost uniformly level, and, except a strip of timber land across the N., an open prairie, with many large swamps; soil on the Neches, in the N. E. and in the N. W., a black mold over yellow clay and sand, and very fertile—the rest fit only for grazing. The swamps are finely adapted to rice growing. Cotton and corn are the staples as yet, the county being little settled. The Neches and Sabine are large streams; the latter has a good harbor near its mouth, and Adam's, Cypress, and Cow bayous are navigable for boats of light draft. Farms 91; manuf. 4; dwell. 259, and pop.—wh. 1,504, fr. col. 63, sl. 269—total 1,836. *Capital*: Beaumont.

JEFFERSON county, Virg. Situate N. E., and contains 221 sq. m. Drained by Opequan and Shenandoah rivers, branches of the Potomac, which bounds it N. E. Surface broken—in parts mountainous, with abundance of fine water-power; soil excellent, among the best grain and grazing land and the most valuable, taking the county through, in the State. Its scenery is very fine, that on the Shenandoah having no superior in the world for beauty or majesty. Its crops of wheat, corn, rye, oats, and potatoes are equally good, and all superior for yield and quality. For grazing, it is admirably fitted, and sheep and swine are reared in great numbers. Its manufactures are various and extensive, exclusive of the great U. S. armory, at Harper's Ferry. Farms 447; manuf. 165; dwell. 1,960, and pop.—wh. 10,476, fr. col. 540, sl. 4,841—total 15,857. *Capital*: Charlestown. *Public Works*: Baltimore and Ohio R. R.; Winchester and Potomac R. R.

JEFFERSON county, Wisc. Situate S. E., and contains 576 sq. m. Drained by Rock r., which crosses the county diagonally, and Beaver Dam r., and other of its branches. Koshkonong lake, through which Rock r. flows, is in the S. W. corner, and it has several fine ponds, which, with the streams, supply abundance of water-power. Surface varied, parts are hilly and rough, and parts quite marshy; soil fertile, very productive on Rock r. and the streams generally, and most is heavily timbered, there being little prairie. Grain and grass thrive equally, and this is a fine farming county. Manufactures are increasing, and already of much importance. Farms 952; manuf. 74; dwell. 2,984, and pop.—wh. 15,314, fr. col. 8—total 15,317. *Capital*: Jefferson. *Public Works*: Milwaukee and Mississippi R. R.

JEFFERSON, p. v., and cap. Jackson county, Ga.: 79 m. N. by W. Milledgeville. It contains a court-house, an academy, and a few stores.

JEFFERSON, p. v., Clinton co., Ind.: 4 m. W. Frankfort, 42 m. N. N. W. Indianapolis.

JEFFERSON, p. v., Cook co., Ill.: on N. branch of Chicago r., 179 m. N. N. E. Springfield.

JEFFERSON, t. and p. v., Lincoln co., Me.: at the head of Damariscotta r., 18 m. E. S. E. Augusta. The t. embraces a large part of Damariscotta Pond, and has many mill streams, which are used to saw great quantities of lumber. It has a good soil and several manufactories of leather and woollens. Pop. of t. 2,228.

JEFFERSON, p. v., Frederick co., Md.: about 4 m. from the Potomac, 77 m. W. N. W. Annapolis. It lies between Catocin cr. and mountain, and has several stores and 850 inhabitants.

JEFFERSON, t. and p. v., Coos co., N. Hamp.: 79 m. N. Concord. Drained by Israel's r. and its branches, which furnish water-power. John's r. rises in Pondicherry Pond, in the S. W. corner. Surface mountainous; soil in the lower parts fertile, and generally good pasture. The v. has 8 stores and a few dwellings. Pop. of t. 629.

JEFFERSON, v., Chemung co., N. Y.: at the S. end of Seneca lake, 165 m. W. Albany. It has a finelanding, and 884

a steamboat plies daily to Geneva, at the other end of the lake, which never freezes over. It contains several hotels, stores, and warehouses, 9 flour, plaster, and lumber mills, and 1,000 inhabitants. The Canandaigua and Elmira R. R. passes the v. 21 m. from Elmira. Two papers are published, the "American Standard" and "Corona Borealis."

JEFFERSON, t. and p. v., Schoharie co., N. Y.: 47 m. W. by S. Albany. Surface mountainous, the high hills forming the watershed between the affluents of the Hudson and Delaware; soil unproductive, except in the valleys. Farming and grazing form the chief business. Pop. of town 1,743.

JEFFERSON, p. v., and cap. Ashe co., N. Car.: about 2 m. W. of New r., 158 W. N. W. Raleigh. It contains, besides a court-house and jail, several stores and 200 inhabitants.

JEFFERSON, p. v., and cap. Ashtabula co., Ohio: on a branch of Grand r., 164 m. N. E. by N. Columbus. The t. is slightly uneven, and has a fertile soil. The v. is about 10 m. S. of Lake Erie, and contains a fine court-house, jail, an academy, and several stores. Pop. of t. 625.

JEFFERSON, t. and p. v., Greene county, Penn.: on Monongahela r., 177 m. W. by S. Harrisburg. The t. has a rolling surface, rich soil, and fine water-power. The v. is on Ten Mile cr., near its mouth, and contains an academy, a dozen stores, 8 mills, and 600 inhabitants.

JEFFERSON, p. v., Rutherford co., Tenn.: 24 m. S. E. Nashville.

JEFFERSON, p. v., Cass co., Tex.: between Big Cypress r. and Black Cypress cr., about 4 m. above their confluence, 249 m. N. E. Austin City. The land around it is among the best for cotton and corn in the State.

JEFFERSON, p. o., Powhatan co., Virg.: 26 m. W. by N. Richmond.

JEFFERSON, p. o., Marengo county, Ala.: 87 m. W. Montgomery.

JEFFERSON, t. p. v., and cap. Jefferson co., Wisc.: on Rock r., 81 m. E. by S. Madison. The v. lies a little above the junction of Crawfish r., and by a dam across Rock r. has abundant water-power, which is largely used in manufacturing. It has a good trade, several large stores, and 800 inhabitants. Pop. of t. 1,610.

JEFFERSON BARRACKS, p. v., St. Louis co., Mo.: on the Mississippi, 11 m. S. St. Louis, 104 m. E. Jefferson City. This is a U. S. military post, and contains a few stores and dwellings.

JEFFERSON CITY, p. o., and cap. Cole co., Mo., and cap. of the State of Missouri: on the S. bank of Missouri r., opposite the mouth of Cedar cr., and 187 m. from its entrance into the Mississippi r.—lat. 38° 38' N., and long. 92° 08' W.—980 m. W. Washington. The site is elevated and uneven, and furnishes many beautiful building locations. It contains the State House, Governor's House, a large and elegant mansion, the State Penitentiary, etc., and has several extensive mercantile houses, stores, and mechanic shops, equal to the demands of the locality. Two newspapers are published here, the "Metropolitan," and "Jefferson Enquirer" (dem.), both weekly issues. Population about 2,600.

JEFFERSON FURNACE, p. v., Clarion co., Penn.: 161 m. W. N. W. Harrisburg. Here is a furnace producing 1,000 tons iron per annum.

JEFFERSON MILLS, p. o., Jefferson co., Mo.: 96 m. E. S. E. Jefferson City.

JEFFERSON MILLS, p. v., Coos co., N. Hamp.: on Israel's r., 81 m. N. Concord.

JEFFERSTON, p. v., and cap. Camden co., Ga.: on the S. side of Santilla river, at the head of navigation, 177 m. S. E. by S. Milledgeville. It has a court-house and jail, several large stores, and 800 inhabitants.

JEFFERSTON, p. v., Culpepper co., Virg.: 74 m. N. N. W. Richmond. It contains several stores and 350 inhabitants. Lee's Sulphur Springs are in the vicinity.

JEFFERSTOWN, p. v., Jefferson county, Ky.: 39 m. W. Frankfort.

JEFFERSON VALLEY, p. o., Westchester co., *N. Y.*: 104 m. S. Albany.

JEFFERSONVILLE, p. v., Sullivan county, *N. Y.*: 87 m. S. W. Albany.

JEFFERSONVILLE, p. v., Clark co., *Ind.*: at the head of the falls on the Ohio, 103 m. S. by E. Indianapolis. It lies on elevated ground, has a fine landing, and is the site of the State Prison. Steamboats are built here, and it has great facilities for trade and commerce, lying opposite Louisville, and being connected by railroad with the interior. It contains a United States land office, several large stores and warehouses, and about 2,122 inhabitants. The Jeffersonville R. R. terminates here.

JEFFERSONVILLE, p. o., Twiggs co., *Ga.*: 27 m. S. by W. Milledgeville.

JEFFERSONVILLE, p. v., Fayette co., *Ohio*: 35 m. S. W. Columbus.

JEFFERSONVILLE, p. v., Montgomery co., *Penn.*: near the Schuylkill, 87 m. E. by S. Harrisburg.

JEFFERSONVILLE, p. v., Lamoille co., *Verm.*: on Lamoille river, 29 m. N. N. W. Montpelier. It has small manufactories, several stores, and 850 inhabitants.

JEFFRESS' STORE, p. o., Nottoway co., *Virg.*: 45 m. S. W. Richmond.

JEFFRY'S CREEK, p. o., Marion dist., *S. Car.*: on a branch of Great Pedee r. so called, 79 m. E. Columbia.

JELLOWAY, p. v., Knox county, *Ohio*: 41 m. N. E. Columbus.

JENA, p. o., Tuscaloosa co., *Ala.*: 102 m. N. W. by W. Montgomery.

JENKIN'S BRIDGE, p. v., St. Clair co., *Mo.*: on Warblow cr. of the Osage, 86 m. S. W. by W. Jefferson City.

JENKIN'S STORE, p. o., Union co., *N. Car.*: 99 m. W. S. W. Raleigh.

JENKINTOWN, p. v., Montgomery county, *Penn.*: 85 m. E. Harrisburg.

JENNER'S CROSS ROADS, p. v., Somerset co., *Penn.*: 117 m. W. Harrisburg.

JENNERSVILLE, p. v., Chester co., *Penn.*: 69 m. E. by S. Harrisburg. It contains several stores, and about 800 inhabitants.

JENNINGS county, *Ind.* Situate S. E., and contains 353 sq. m. Drained by Vernon and Graham forks of Muscatuck r., Sand cr., and their numerous branches, all flowing W. into White r. Surface rugged and broken, with several beech flats. Soil of good fertility near the streams; the beech flats at their heads are used only for grazing. It has good water-power, abundance of excellent timber, fine limestone-quarries, much used for building, and a millstone-quarry. Corn, wheat, and pork are farming staples. Farms 1,208; manuf. 73; dwell. 2,064, and pop.—wh. 11,773, fr. col. 323—total 12,096. *Capital*: Vernon. *Public Works*: Madison and Indianapolis R. R.

JENNINGS, p. o., Franklin county, *Ind.*: 66 m. E. S. E. Indianapolis.

JENNINGS, p. o., Hamilton county, *Flor.*: 69 m. E. Tallahassee.

JENNING'S GAP, p. o., Augusta co., *Virg.*: on E. side of Shenandoah mountains, 123 m. W. N. W. Richmond. North river, a branch of the James, rises here, and branches of the Shenandoah in the vicinity.

JENNING'S ORDINARY, p. o., Nottoway co., *Virg.*: 45 m. S. W. Richmond, on the Richmond and Danville R. R., 50 m. from Richmond (by cars).

JENNY LIND, p. o., Chatham county, *N. Car.*: 46 m. W. Raleigh.

JENNY LIND, p. o., Sebastian county, *Ark.*: 123 m. W. Little Rock.

JERICO, p. v., Perry co., *Ala.*: near Catawba r., 64 m. N. W. by W. Montgomery.

JERICO, p. v., Queens co., *N. Y.*: about 2 m. from the Sound and Long Island R. R., 129 m. S. S. E. Albany. It has 2 hotels, several stores, and 300 inhabitants.

JERICO, p. o., Wayne co., *N. Car.*: 41 m. S. E. Raleigh.

JERICO, t. and p. v., Chittenden co., *Verm.*: on N. side of Onion r., 26 m. N. W. by W. Montpelier. Drained N. by Brown's r. of the Lamoille, which affords good water-power. Surface moderately uneven, and soil good; pasture on the hills, and fine meadows on the streams. The Vermont Central R. E. passes through the S. W. part. The v. is in the N. on Brown's r., and has several mills and factories, and 500 inhabitants. Pop. of t. 1,389.

JERICO, p. v., Kane co., *Ill.*: near Big Rock cr. of Fox river, 149 m. N. N. E. Springfield.

JERICO CENTRE, p. v., Chittenden county, *Verm.*: 22 m. N. W. by W. Montpelier. It contains a hotel, several stores, and 40 dwellings.

JERNIGAN, p. o., Orange county, *Flor.*: 223 m. S. E. Tallahassee.

JEROME, t. and p. v., Union co., *Ohio*: on Big Darby cr., 18 m. N. W. Columbus. The t. has a rolling surface and fertile soil, with some mill-power. The v. has a few stores and 200 inhabitants. Pop. of t. 1,249.

JEROME, p. v., Howard co., *Ind.*: on the N. side Wild Cat cr., 46 m. N. by E. Indianapolis.

JEROMESVILLE, p. v., Ashland county, *Ohio*: on Walhonding r., 63 m. N. N. E. Columbus.

JERSEY county, *Ill.* Situate W. centrally, and contains 320 sq. m. Drained N. by Macoupin cr., W. by Illinois r., S. by the Mississippi, and by their affluents. Surface generally level; soil very productive of corn and wheat, and excellent grazing land. On the Mississippi are bluffs, 100 or 200 feet high, of alternate limestone and sandstone strata, and through the county coal is found just below the surface. There is some prairie, but timber is plenty. Farms 645; manuf. 44; dwell. 1,222, and pop.—wh. 7,800, fr. col. 54—total 7,354. *Capital*: Jerseyville.

JERSEY, t. and p. v., Licking county, *Ohio*: 17 m. N. E. Columbus. The t. has a rich soil and some water-power. Pop. 1,230.

JERSEY, p. v., Oakland co., *Mich.*: 56 m. E. Lansing.

JERSEY CITY, p. city, and p. of entry, Hudson co., *N. J.*: on the W. bank of Hudson river, opposite the city of New York, and connected with it by steam ferries. Incorporated in 1820, and in 1851 the v. of Harsimus, Pavonia, etc., were annexed. The streets run at right angles along and from the river front. There are several important manufactories here, as soap, glass, iron, pottery, ropes, starch, etc., and ship-building, and it has good wharves. The Cunard Steamships' Dock is here, and much business is created by the Morris Canal and the railroads terminating at this point. Southern and Western travel from New York City properly commences at Jersey City. Pop. of the city proper, 6,856, or with its recent accessions, 11,473.

JERSEY PRAIRIE, p. o., Cass co., *Ill.*: 81 m. W. by N. Springfield.

JERSEY SETTLEMENT, p. o., Davidson co., *N. Car.*: 92 m. W. Raleigh.

JERSEY SHORE, p. b., Lycoming co., *Penn.*: on N. side of W. branch of Susquehanna r., 73 m. N. by W. Harrisburg. It lies in a great coal and iron region, and has a large trade, some small manufactories, a dozen stores, and 725 inhabitants. A furnace and forge is 4 m. distant. The Pennsylvania Canal passes through the b. 53 m. from Northumberland. The "Jersey Shore Republican" (dem.) is issued weekly.

JERSEYTOWN, p. v., Montour co., *Penn.*: 56 m. N. by E. Harrisburg. It contains two stores, a high school, and 200 inhabitants.

JERSEYVILLE, p. v., and cap. Jersey county, *Ill.*: 59 m. S. W. by S. Springfield. Situate near Jersey Prairie, and contains a court-house, jail, several stores, and 760 inhabitants.

JERUSALEM, t. and p. v., Yates co., *N. Y.*: on the W. side of Crooked Lake, 187 m. W. Albany. Surface somewhat hilly; soil a fertile loam, yielding good grass and grain.

Farming is the chief occupation. The v. has two hotels, a high school, several stores, and 400 inhabitants. Population of t. 2,912.

JERUSALEM, p. v., and cap. Southampton co., *Virg.*: on the N. side of Nottoway r., 62 m. S. by E. Richmond. It contains a court-house, jail, two hotels, and a few houses and stores.

JERUSALEM, p. o., Davie co., *N. Car.*: 106 m. W. by N. Raleigh.

JERUSALEM, p. v., Monroe county, *Ohio*: 87 m. E. by S. Columbus.

JERUSALEM MILLS, p. o., Harford co., *Md.*: on E. side of Little Gunpowder Falls, 41 m. N. by E. Annapolis.

JERUSALEM SOUTH, p. v., Queens co., *N. Y.*: 137 m. S. Albany—a small village settled by Friends.

JESSAMINE county, *Ky.* Situate N. centrally, and contains 184 sq. m. Bounded S. E., S., and S. W. by Kentucky r., and drained by Hickman and Jessamine creeks. Surface uneven, affording fine mill-seats; soil very good, equally for grain and grass. Large numbers of sheep and swine are raised. Farms 651; manuf. 67; dwell. 1,093, and pop.—wh. 6,289, fr. col. 135, sl. 8,925—total 10,249. *Capital*: Nicholasville. *Public Works*: Lexington and Danville R. R.

JESSE'S STORE, p. o., Shelby co., *Ky.*: W. Frankfort.

JESSUP'S CUT, sta., Anne Arundel co., *Md.*: on Washington Branch R. R., 14 m. from Baltimore.

JETERSVILLE, p. o., Amelia co., *Virg.*: 41 m. W. S. W. Richmond.

JEWETT, t. and p. v., Greene county, *N. Y.*: 32 m. S. W. Albany. Drained by heads of Schoharie cr. Surface uneven, and soil mostly fertile. Fanning is largely carried on. The v. has a hotel and several dwellings. Population of t. 1,451.

JEWETT CENTER, p. v., Greene co., *N. Y.*: 35 m. S. W. Albany.

JEWETT CITY, p. v., New London co., *Conn.*: on the E. side of Quinnebaug r., at the junction of the Patchaug, 38 m. E. S. E. Hartford. The rivers have a large fall here, which furnishes abundance of water-power. The v. has several large cotton factories, a bank, academy, machine-shop, and 1,600 inhabitants. Its trade is considerable. On the Norwich and Worcester R. R., 16 m. from Norwich.

JIM TOWN, p. o., Monongalia co., *Virg.*: 209 m. N. W. Richmond.

JOANNA FURNACE, p. v., Berks county, *Penn.*: 53 m. E. Harrisburg. A furnace of 1,000 tons capacity is located here.

JOBE, p. o., Oregon co., *Mo.*: 103 m. S. S. E. Jefferson City.

JOBSTOWN, p. v., Burlington co., *N. Jer.*: 12 m. S. S. E. Trenton.

JO DAVIES county, *Ill.* Situate N. W. corner, and contains 594 sq. m. Drained by Sinsinewa, Fevre, Small Pox, Apple, Rush, and Plum rivers, affluents of the Mississippi, its W. boundary. Surface undulating and in parts broken; soil generally very good. A good farming county, with some water-power, but its minerals engross almost exclusive attention. It is in the heart of the great lead region of N. W. Illinois, S. W. Wisconsin, and E. Iowa, and its lead mines are apparently inexhaustible, the amount exported from Galena in 1851 being more than 88,000,000 pounds. Copper of excellent quality is abundant; considerable silver, and even gold, has been found; and limestone, freestone, and sandstone exist through the county. Farms 1,370; manuf. 279; dwell. 8,431, and pop.—wh. 18,386, fr. col. 218—total 18,604. *Capital*: Galena. *Public Works*: Central Illinois R. R.

JOHN'S, p. o., Liberty county, *Tex.*: 171 m. E. S. E. Austin City.

JOHN'S river, *N. Hamp.*: rises in Jefferson, Coos co., and flows N. W. into the Connecticut. Bordered by forests of huge pines.

JOHNSBURGH, t. and p. v., Warren co., *N. Y.*: on W. side of Hudson r., 68 m. N. by W. Albany. Drained by affluents of the Hudson, which furnish many mill-sites. Surface mountainous; soil a light sandy loam adapted to grass. The v. contains 2 hotels, 4 stores, and 800 inhabitants. Pop. of t. 1,503.

JOHNSON county, *Ark.* Situate N. W., and contains 979 sq. m. Drained by Horse Head, Great Pine, Caney creek, etc., affluents of the Arkansas, which crosses the S. of the county. Surface uneven, and in parts hilly; soil fertile on the streams, and generally excellent pasture. Corn, cattle, and pork are staples, and good cotton is raised. Farms 526; manuf. 24; dwell. 777, and pop.—wh. 4,459, fr. col. 7, sl. 731—total 5,227. *Capital*: Clarksville.

JOHNSON county, *Ill.* Situate S., and contains 326 sq. m. Drained by Cedar, Big Bay, and Cash creeks, affluents of the Ohio. Surface mostly level, with low land and ponds in the S.; soil sandy and well timbered. Corn and pork are the leading products. Sulphur springs are found. Farms 301; manuf. 4; dwell. 718, and pop.—wh. 4,096, fr. col. 17—total 4,113. *Capital*: Vienna.

JOHNSON county, *Ind.* Situate centrally, and contains 321 sq. m. It lies between the upper portions of E. and W. forks of White r., and is drained by their branches, Sugar, Young's, Indian, and other creeks. Surface varied, in the S. W. hilly, S. and S. E. undulating, in other parts level. It has no waste land, but a rich loamy soil, generally covered with excellent timber. The staples are grain and pork. Tobacco is also raised. Farms 1,153; manuf. 25; dwell. 2,067, and pop.—wh. 12,086, fr. col. 15—total 12,101. *Capital*: Franklin. *Public Works*: Madison and Indianapolis R. R.; Martinsville Branch R. R.

JOHNSON county, *Ia.* Situate E., and contains 584 sq. m. Drained by Iowa r., Clear and Old Man's creeks, and in the N. E. by Cedar r., all branches of the Iowa. Surface diversified, with some prairie; soil very fertile. The Iowa is navigable part of the year, and furnishes excellent water-power above Iowa City. It has quarries of fine building stone, beautifully variegated, and known as "bird's-eye marble." Farms 377; manuf. 19; dwell. 799, and pop.—wh. 4,450, fr. col. 22—total 4,472. *Capital*: Iowa City. *Public Works*: Lyons and Iowa City R. R.; Camanche and Iowa City R. R.; Davenport and Council Bluffs R. R.; Dubuque and Keokuk R. R., etc.

JOHNSON county, *Ky.* Situate N. E., and contains 879 sq. m. Drained by W. fork of Big Sandy r. and Big Paint cr. Surface elevated and uneven; soil well adapted to grazing. Cattle and hogs are the leading products. Farms 504; manuf. 5; dwell. 608, and pop.—wh. 3,843, fr. col. 0, sl. 30—total 3,873. *Capital*: Painesville.

JOHNSON county, *Mo.* Situate W. centrally, and contains 809 sq. m. Drained by Black Water r., flowing into Missouri r., and Panther r., a branch of the Osage. Surface slightly broken, with excellent timber and good mill streams; soil fine, generally, and superior for grazing. Corn and pork are the staples, and some tobacco is grown. Farms 750; manuf. 23; dwell. 1,030, and pop.—wh. 6,573, fr. col. 12, sl. 879—total 7,464. *Capital*: Warrensburg.

JOHNSON county, *Tenn.* Situate in N. E. corner, and contains 812 sq. m. Drained by Watauga r. and its branches, affluents of Holston r. It lies between mountain ridges and is much broken in parts, but has a rich soil in the valleys and fine grazing. It has good water-power and considerable iron ore. Farms 325; manuf. 42; dwell. 565, and pop.—wh. 8,435, fr. col. 14, sl. 206—total 8,705. *Capital*: Taylorsville.

JOHNSON, t. and p. v., Lamoille co., *Verm.*: on the Lamoille, 29 m. N. by W. Montpelier. Surface uneven and well wooded with hemlock, spruce, and oak; soil largely alluvial and very fertile; back of the streams chiefly fitted for grazing. The v. is in the S., on the Lamoille, and has several mills and 300 inhabitants. Soapstone is found. Pop. of t. 1,351.

JOHNSON, p. o., Floyd county, *Ga.*: 149 m. N. W. Milledgeville.

JOHNSON, p. o., McDonough county, *Ill.*: 63 m. N. W. Springfield.

JOHNSON, p. o., Washington county, *Mo.*: 73 m. S. E. Jefferson City.

JOHNSONBURGH, p. v., Warren co., *N. Jer.*: about 4 m. from Pequest r., 51 m. N. by W. Trenton. It has several mills and about 300 inhabitants.

JOHNSON'S, p. o., Montgomery co., *Tenn.*: 51 m. N. W. Nashville.

JOHNSON'S, sta., Barnwell dist., *S. Car.*: on S. Carolina R. R., 22 m. from Augusta and 115 from Charleston.

JOHNSONSBURGH, p. v., Wyoming co., *N. Y.*: 236 m. W. Albany.

JOHNSON'S CORNERS, p. v., Summit co., *Ohio*: 111 m. N. E. Columbus.

JOHNSON'S CREEK, p. v., Jefferson co., *Wisc.*: on a branch of Rock r. so called, 31 m. E. Madison.

JOHNSON'S CREEK, p. v., Niagara co., *N. Y.*: on a creek so called, flowing into Lake Ontario, 249 m. W. by N. Albany.

JOHNSON'S FORKS, p. o., Morgan co., *Ky.*: 93 m. E. S. E. Frankfort.

JOHNSON'S MILLS, p. o., Pitt co., *N. Car.*: on Swift cr., an affluent of the Neuse, 59 m. E. S. E. Raleigh.

JOHNSON'S MILLS, p. o., Clark co., *Ill.*: on N. fork of Embarras r., 101 m. E. S. E. Springfield.

JOHNSON'S SPRINGS, p. o., Goochland co., *Virg.*: 27 m. W. N. W. Richmond.

JOHNSONTOWN, p. o., Northampton co., *Virg.*: on the Eastern Shore, 94 m. E. by S. Richmond.

JOHNSONVILLE, sta., Rensselaer co., *N. Y.*: on the Troy and Boston R. R., 16 m. from Troy.

JOHNSONVILLE, p. o., Cumberland co., *N. Car.*: 44 m. S. S. W. Raleigh.

JOHNSONVILLE, p. v., Trumbull co., *Ohio*: 117 m. N. E. Columbus.

JOHNSONVILLE, p. o., Williamsburgh dist., *S. Car.*: near Black r., 91 m. E. S. E. Columbia.

JOHNSTON county, *N. Car.* Situate E. centrally, and contains 664 sq. m. Drained by Moccasin and Little rivers, and Swift, Middle, and Black creeks, all affluents of the Neuse, which crosses the county in its S. E. course. Surface uneven and broken, with numerous mill-seats; soil of average fertility. Cotton and corn, beef and pork are leading products. Farms 1,002; manuf. 102; dwell. 1,704, and pop.—wh. 8,900, fr. col. 163, sl. 4,663—total 13,726. *Capital*: Smithfield. *Public Works*: N. Carolina Central R. R.

JOHNSTON, p. o., Poinsett county, *Ark.*: 112 m. N. E. Little Rock.

JOHNSTONVILLE, p. o., Monroe co., *Ga.*: 51 m. W. by N. Milledgeville.

JOHNSTOWN, t. and p. v., Barry co., *Mich.*: 38 m. W. S. W. Lansing. The t. has an uneven surface and good soil, is well timbered, and has several ponds, the sources of affluents of Thorn-apple r. on the N., and S. of the Kalamazoo. The v. has a few houses and stores. Pop. of t. 450.

JOHNSTOWN, t. p. v., and cap. Fulton co., *N. Y.*: 39 m. N. W. Albany. Drained by Cayuduta and Garoga creeks of the Mohawk. Surface hilly, and soil a fertile loam. Noted for the manufacture of buckskin gloves, mittens, and moccasins. The v. is on Cayuduta, or Little Canada cr., 4 m. N. of Mohawk r. and the Utica and Schenectady R. R. It has some water-power, and manufactures carriages, arms, leather, and various kinds of machinery. It has a court-house and jail, the oldest in the State, the county clerk's office, a bank, an academy, 7 churches, 6 hotels, 20 stores, and 1,500 inhabitants. There is a sulphur spring near here, The "F. County Democrat" (dem.), and "F. County Republican" (whig), are published weekly. Population of town 6,131.

JOHNSTOWN, p. v., Licking co., *Ohio*: 21 m. N. E. Columbus. It contains 8 churches, several large stores, a high school, and 357 inhabitants.

JOHNSTOWN, p. b., Cambria co., *Penn.*: at the junction of Stony cr. and Kiskiminitas r., 114 m. W. by N. Harrisburg. It is regularly laid out, has good water-power, some manufactures, and 1,269 inhabitants. There are 4 furnaces near here, with an aggregate capacity of 7,000 tons. The Pennsylvania Canal and R. R. pass through the borough 85 m. from Pittsburg. Two newspapers, the "Echo" (dem.), and "Valley Wreath" (whig), are published weekly.

JOHNSTOWN, t. and p. v., Rock co., *Wisc.*: 34 m. S. E. Madison. The town has an undulating surface, and a soil adapted to grain. Fine limestone is quarried in its vicinity. The v. has several stores and workshops. Population of town 1,571.

JOHNSTOWN CENTRE, p. v., Rock co., *Wisc.*: 33 m. S. E. Madison.

JOHNSVILLE, p. v., Montgomery co., *Ohio*: 51 m. W. by S. Columbus.

JOHNSVILLE, p. v., Frederick co., *Md.*: near Sam's cr., 52 m. N. W. Annapolis. The v. is not large, but surrounded by excellent farms.

JOLIET, p. v., and cap. Will co., *Ill.*: on the O'Plain r., 148 m. N. E. by N. Springfield. The r. affords valuable water-power, which is used for several factories and mills. The principal buildings are a court-house, jail, an academy, several fine hotels and churches, and large warehouses. The Illinois and Michigan Canal passes through the v., and the Chicago and Rock Island R. R. 40 m. from Chicago. The "Joliet Signal" (dem.), and the "True Democrat" (whig), are published weekly. Pop. about 2,659.

JOLLY, t. and p. v., Washington co., *Ohio*: 79 m. E. S. E. Columbus. Pop. of t. 1,015.

JOLLYTOWN, p. v., Greene co., *Penn.*: 139 m. W. by S. Harrisburg.

JONATHAN'S CREEK, p. o., Haywood co., *N. Car.*: near a branch of Big Pigeon r. so called, 249 m. W. Raleigh.

JONES county, *Ga.* Situate N. centrally, and contains 816 sq. m. Drained by Walnut and Falling creeks, affluents of Ocmulgee river, which touches its W. border. Surface somewhat broken, affording fine mill-streams; soil very fertile, producing large cotton crops, a good yield of wheat and corn, and good pasturage. It has important manufactures of flour and iron ware. Farms 406; manuf. 15; dwell. 739, and pop.—wh. 3,899, fr. col. 46, sl. 6,279—total 10,224. *Capital*: Clinton. *Public Works*: Central Georgia R. R.

JONES county, *Ia.* Situate E. centrally, and contains 576 sq. m. Drained by Makoqueta r. and its branches, Fall r. and Bear cr., and Wapsipicon r. and its branches, Walnut and Buffalo creeks. Surface level or undulating. It has a fine soil for grain and grass, plenty of timber, and good water-power. The grains form the staple exports. Farms 225; manuf. 8; dwell. 559, and pop.—wh. 3,006, fr. col. 1—total 3,007. *Capital*: Anamosa. *Public Works*: Dubuque and Keokuk R. R.

JONES county, *Miss.* Situate S. E., and contains 789 sq. m. Drained by Bogue Hume, Tallaha, and Leaf creeks, affluents of Pascagoula r. Surface slightly uneven, and soil of moderate fertility. Corn, cattle, and swine are the chief products. Farms 274; manuf. 0; dwell. 319, and pop.—wh. 1,857, fr. col. 3, sl. 274—total 2,164. *Capital*: Ellisville.

JONES county, *N. Car.* Situate S. E., and contains 329 sq. m. Drained by Trent r., which flows E. into the Neuse. Surface level, and much of it low and marshy; soil, in parts, very fertile—in others, waste, irreclaimable land. Cotton is the chief product; corn is a large crop, and the marshes produce rice. Farms 240; manuf. 14; dwell. 440, and pop.—wh. 2,139, fr. col. 142, sl. 2,737—total 5,083. *Capital*: Trenton.

JONES, p. o., Panola county, *Tex.*: 236 m. E. N. E. Austin City.

JONES' BLUFF, p. v., Sumter co., *Ala.*: on the right bank of Tombigbee r., 108 m. W. by N. Montgomery.

JONESBOROUGH, p. v., Grant co., *Ind.*: on Mississinewa r., 54 m. N. N. E. Indianapolis.

JONESBOROUGH, p. v., Jefferson co., *Ala.*: 79 m. N. N. W. Montgomery.

JONESBOROUGH, p. v., Fayette co., *Ga.*: 76 m. W. N. W. Milledgeville. The Macon and Western R. R. passes through the v. 79 m. from Macon, and 22 from Atlanta.

JONESBOROUGH, p. v., and cap. Union county, *Ill.*: 167 m. S. by E. Springfield. It contains a court-house, jail, a few large stores, and 230 inhabitants. The "J. Gazette" (dem.) is issued weekly.

JONESBOROUGH, t. and p. v., Washington co., *Me.*: at the head of Englishman's Bay, 114 miles E. by N. Augusta. Chandler's r. flows through the t., affording water-power, at the mouth of which the v. lies. Pop. of t. 466.

JONESBOROUGH, p. v., Saline co., *Mo.*: on Salt fork of La Mine r., 61 m. W. N. W. Jefferson City.

JONESBOROUGH, p. v., and cap. Washington co., *Tenn.*: 239 m. E. by N. Nashville. It contains a court-house, jail, two academies, and about 500 inhabitants.

JONESBOROUGH, p. v., Brunswick county, *Virg.*: 52 m. S. W. by S. Richmond.

JONES' CREEK, p. o., Randolph co., *Ill.*: on the cr. so called, and near the Mississippi, 137 m. S. Springfield.

JONES' CREEK, p. o., Liberty county, *Ga.*: 76 m. S. E. Milledgeville.

JONES' MILLS, p. o., Yallabusha co., *Miss.*: 109 m. N. N. E. Jackson.

JONES' MILLS, p. o., McNairy co., *Tenn.*: 123 m. S. W. Nashville.

JONES' MILLS, p. o., Merriwether county, *Ga.*: 83 m. W. Milledgeville.

JONES' MILLS, p. v., Westmoreland co., *Penn.*: 147 m. W. Harrisburg.

JONES' NURSERY, p. o., Clark county, *Ky.*: 51 m. E. S. E. Frankfort.

JONESPORT, t. and p. o., Washington county, *Me.*: 112 m. E. by N. Augusta. It has an excellent harbor, and is engaged in ship-building, the fisheries, and coasting trade. Pop. 826.

JONES's, sta., Hamilton co., *Ohio*: on the Cincinnati, Hamilton, and Dayton R. R., 20 m. from Cincinnati.

JONES's SWIRCH, sta., Morgan co., *Ill.*: on the Sangamon and Morgan R. R., 89 m. from Springfield.

JONES' TAN-YARD, p. o., Calloway co., *Mo.*: 34 m. N. E. Jefferson City.

JONESTOWN, p. v., Lebanon co., *Penn.*: at the junction of Great and Little Swatara creeks, 24 m. E. N. E. Harrisburg. It contains several stores, and 616 inhabitants. Near the v. is a forge producing annually 150 tons of bars.

JONSVILLE, p. v., Hillsdale co., *Mich.*: on E. side of St. Joseph r. of Lake Michigan, 49 m. S. Lansing. There is fine water-power here and extensive mills, manufacturing flour, woolens, coarse cottons, and machinery. It has a considerable amount of trade. The Michigan Southern R. R. passes through the village 75 m. from Monroe. The "Jonesville Telegraph" (neutral) is published weekly, and the "Union S. S. Visitor" (religious), semi-monthly. Population 565.

JONSVILLE, p. v., Saratoga co., *N. Y.*: 17 m. N. by W. Albany.

JONSVILLE, p. o., Yadkin co., *N. Car.*: on the S. side of Yadkin r., 122 m. W. S. W. Raleigh.

JONSVILLE, p. v., Monroe co., *Ohio*: near Sunfish creek, 110 m. E. by S. Columbia.

JONSVILLE, p. v., Union district, *S. Car.*: about 3 m. from Pacolet r., 69 m. N. N. W. Columbia.

JONSVILLE, p. v., Harrison county, *Tex.*: 241 m. N. E. Austin City.

JONSVILLE, p. v., Chittenden co., *Verm.*: on N. side of

Onion r., 19 m. W. N. W. Montpelier, on the line of the Vermont Central R. R., 23 m. from Burlington.

JONSVILLE, p. v., and cap. Lee co., *Virg.*: on a branch of Powell's r., about 6 m. from the Cumberland mountains, 816 m. W. by S. Richmond. It contains a court-house, jail, a few stores, and 300 inhabitants.

JOPPA, sta., Plymouth county, *Mass.*: on Bridgewater Branch of Old Colony R. R., 26 m. from Boston.

JORDAN, p. v., Onondaga co., *N. Y.*: on the outlet of Skencateles Lake, 141 m. W. by N. Albany. It contains 4 churches, 6 hotels, 15 stores, several flouring and saw mills, and manufactories of wooden ware. The Erie Canal passes through the v. 19 m. W. Syracuse. Pop. of v. 1,500.

JORDAN'S MILLS, p. o., Orangeburgh dist., *S. Car.*: on a branch of South Edisto r., 37 m. S. by W. Columbia.

JORDAN'S PRAIRIE, p. o., Jefferson co., *Ill.*: 108 m. S. S. E. Springfield.

JORDAN'S SALINE, p. v., and cap. Vanzandt county, *Tex.*: near the Sabine r., 197 m. N. E. Austin City. It contains a court-house, a few stores, and 150 inhabitants. In the vicinity are salt springs of much value, and excellent pasture land.

JORDAN'S STORE, p. o., Williamson co., *Tenn.*: 26 m. S. W. Nashville.

JORDAN'S VALLEY, p. o., Rutherford co., *Tenn.*: 26 m. S. E. Nashville.

JORDANVILLE, p. v., Herkimer co., *N. Y.*: 131 m. W. N. W. Albany.

JOSCO, t. and p. v., Livingston co., *Mich.*: 37 m. E. S. E. Lansing. Drained by heads of Cedar r. Surface undulating; soil sandy loam. A farming town. Pop. of t. 645.

JOSEPHINE, p. o., Woodford co., *Ill.*: on a branch of Mackinac cr., 76 m. N. N. E. Springfield.

JOY, p. v., Wayne co., *N. Y.*: 182 m. W. by N. Albany.

JOYNER'S DEPOT, p. v., Edgecombe co., *N. Car.*: 46 m. E. by N. Raleigh. The sta. is on the Wilmington and Weldon R. R., 38 m. from Weldon, and 126 from Wilmington.

JUDA, p. v., Greene county, *Wisc.*: 34 m. S. by W. Madison.

JULIA DEAN, p. o., Davidson co., *Tenn.*

JULIAN FURNACE, Centre co., *Penn.*: 72 m. N. W. Harrisburg. The furnace produces 1,400 tons of iron annually.

JULIAN'S GAP, p. o., Hamilton co., *Tenn.*: 112 m. S. E. Nashville.

JULUSTOWN, p. v., Burlington co., *N. Jer.*: 15 m. S. S. E. Trenton.

JUNCTION, p. o., Du Page co., *Ill.*: 165 m. N. N. E. Springfield. On the line of the Galena and Chicago Union R. R., 30 m. from Chicago, and here the branches diverge to Aurora and Geneva.

JUNCTION, sta., Providence co., *R. I.*: on the Stonington R. R., 5 m. S. Providence.

JUNCTION, sta., New Haven co., *Conn.*: on the E. bank of Housatonic r., at the divergence of Naugatuck R. R. from the New York and New Haven Railroad, 9 m. from Bridgeport.

JUNCTION, p. o., Rensselaer co., *N. Y.*: 14 m. N. by E. Albany.

JUNCTION, sta., Chemung co., *N. Y.*: at the junction of the Canandaigua and Elmira R. R. with the Erie R. R., 4 m. W. Elmira.

JUNCTION, p. o., Contra Costa co., *Calif.*

JUNCTION, p. o., Yuba co., *Calif.*: on Yuba r., 127 m. N. E. Vallejo.

JUNCTION, p. v., Paulding co., *Ohio*: at the junction of Miami Canal with the Wabash and Erie Canal, 112 m. N. W. Columbus.

JUNCTION, p. v., Hanover co., *Virg.*: on N. side of South Anna r., at the junction of the Virginia Central R. R. and the Richmond, Frederick, and Potomac R. R., 23 m. by the latter from Richmond.

JUNCTION, sta., Greenville co., *Virg.*: on the Petersburg

R. R., 20 m. N. Weldon. The Greenville and Roanoke R. R. diverges hence and connects with the Gaston and Raleigh R. R.

JUNCTION STORE, p. o., Botetourt co., *Virg.*: 129 m. W. Richmond.

JUNEAT, p. v., and cap. Dodge co., *Wisc.*: on a branch of Beaver Dam r., 89 m. E. N. E. Madison. It contains the court-house, a few stores, and 150 inhabitants.

JUNIATA county, *Penn.* Situate S. centrally, and contains 326 sq. m. Drained by Juniata r. and Licking and Tuscarora creeks, affluents of the Susquehanna, which its E. border touches. Surface broken and mountainous; soil very fertile in the valleys and very good, producing great crops of wheat, rye, corn, and buckwheat, and affording the best of grazing. This is an excellent farming and dairy county, and great numbers of cattle and sheep feed on its fine pastures. Much pork is fatted also, and it is not wanting in deposits of coal and iron. Farms 882; manuf. 58; dwell. 2,168, and pop.—wh. 12,904, fr. col. 125—total 13,029. **Capital**: Mifflintown. **Public Works**: Pennsylvania R. R. and Canal.

JUNIATA river, *Penn.*: formed by the junction of Frankstown and Raystown branches, and flows E. to the Susquehanna, 15 m. above Harrisburg. The Pennsylvania Canal and R. R. pass along its banks.

JUNIATA, t. and p. v., Perry co., *Penn.*: on S. side of Juniata r., 26 m. N. W. Harrisburg. Drained by Buffalo and Raccoon creeks. Surface broken; soil in the valleys very rich. It has fine water-power, and manufactures flour, leather, and iron. The Pennsylvania R. R. crosses the N. part. Pop. of t. 8,215.

JUNIATA CROSSINGS, p. v., Bedford co., *Penn.*: 86 m. W. S. W. Harrisburg.

JUNIOR, p. v., Scioto co., *Ohio*: about 8 m. from the Ohio, 92 m. S. by E. Columbus.

JUNUS, t. and p. v., Seneca co., *N. Y.*: 165 m. W. by N. Albany. Surface rolling; soil a rich loam, producing fine wheat. It has little water-power, and farming is the chief occupation. The v. has several stores and 200 inhabitants. Pop. of t. 1,516.

JUNO, p. o., Henderson co., *Tenn.*: 95 m. W. S. W. Nashville.

JUSTUS MILLS, p. o., Hempstead co., *Ark.*: 116 m. S. W. Little Rock.

JYKILL island, *Ga.*: at the mouth of Turtle and Little Santilla rivers, and on the S. E. coast of Glynn co. It produces the best of sea-island cotton.

K.

KAATERSKILL, *N. Y.*: an affluent of Catskill cr. It has its sources from two ponds, each a mile and a half in circumference, in the town of Hunter, west of the Mountain House, on Catskill Mountain. Two miles from the house are a succession of beautiful and romantic water-falls—the first being a descent of 175 feet—the second, immediately following, 85 feet more; making the whole descent 260 feet, then plunging through a dark chasm, from which it takes a meandering course to Catskill creek.

KABLETOWN, p. o., Jefferson co., *Virg.*: 128 m. N. by W. Richmond.

KALAMA river, *Oreg. Ter.*: a tributary of Columbia r., which it meets about 12 m. above the mouth of Cowlitz r.

KALAMAZOO county, *Mich.* Situate S. W., and contains 576 sq. m. Drained by Kalamazoo r. in the N. and by Four Mile, Bear, and Gull creeks. Surface level, or slightly undulating; soil, a black loam of extraordinary fertility. It has much heavy timber, beech, maple, ash, and black walnut, and a small part is prairie. It is an excellent farming and grazing co., producing all the grains in the greatest profusion, and is hardly less adapted to manufacturing, having an abundance of the best water-power. Bog-iron ore

is extensively found. Farms 1,098; manuf. 51; dwell. 2,887, and pop.—wh. 13,070, fr. col. 109—total 13,179. **Capital**: Kalamazoo. **Public Works**: Michigan Central R. R.

KALAMAZOO, t., p. v., and cap. Kalamazoo co., *Mich.*: 51 m. W. S. W. Lansing. Drained by Kalamazoo r. and several small tributaries. Surface moderately level, thickly wooded, and rich and productive. The v. lies on the W. bank of the Kalamazoo r., and on the line of the Michigan Central R. R. The principal buildings are the court-house, jail, Huron Literary Institute, and a branch of the University of Michigan. Pop. 2,507. This is a very thriving, commercial, and manufacturing town, and is surrounded by a rich farming district. There are two papers published weekly, the "Kalamazoo Gazette" (dem.), and "Michigan Telegraph" (whig). There is here an U. S. land office. Pop. of t. 3,284.

KALAMAZOO river, *Mich.*: it has its sources in Hillsdale and Jackson counties, with its affluents drains also Calhoun, Eaton, Barry, Kalamazoo, and Allegan counties. Its course is circuitous, with a length of 200 m., generally W. N. W., emptying into Lake Michigan only 93 m. in a direct line from its source, and 41 m. N. of St. Joseph's r. This river, with its tributaries, affords extensive mill-power, and flows through farming districts of unsurpassed fertility. It is navigable for vessels of 50 tons to Allegan, 85 m. from the mouth, where there is 6 or 7 feet of water on the bar, when the stream pours its least amount into the lake.

KALAMO, t. and p. o., Eaton co., *Mich.*: 24 m. W. S. W. Lansing. Drained by the Big Fork of Thorn-apple river. Pop. 429.

KALAPOOYA, v., Linn co., *Oreg. Ter.*: on Kalapooya cr., which falls into the Willamette at Albany.

KALASKA county, *Mich.* Situate N. W. on Lower Peninsula, and contains 576 sq. m. Drained by Manistee river, emptying into Lake Michigan, and Grand Traverse r., into Grand Traverse Bay. Erected since 1850.

KALIDA, p. v., and cap. Putnam co., *Ohio*: on the E. bank of Ottawa r., 92 m. N. W. Columbus. It contains a court-house and jail, and supports one newspaper, the "K. Venture" (dem.), a weekly issue.

KANAWHA county, *Virg.* Situate N. W., and contains 1,218 sq. m. Intersected by Great Kanawha r., and drained by its affluents in the N., Elk r., Pocataligo r., and Sycamore, Sandy, and Big Sandy creeks; in the S., by Coal and Little Coal rivers, and Paint and Cabin creeks. It has a broken surface, and an ordinary soil, but great mineral resources; these consist principally of bituminous coal, of which six or seven million bushels are dug annually, and salt springs, which are very numerous and rich, the salt made from their waters exceeding two million bushels per year. It has, besides, good water-power on the numerous branches of Great Kanawha r., which is here a large navigable stream. Farms 777; manuf. 110; dwell. 2,110, and pop.—wh. 12,002, fr. col. 211, sl. 3,140—total 15,353. **Capital**: Kanawha. **Public Works**: Covington and Ohio R. R.; Improvements in the Kanawha river by James River Canal Company.

KANAWHA COURT-HOUSE, p. v., and cap. Kanawha co., *Virg.*: on the N. bank of Great Kanawha r., at the junction with Elk r., about 6 m. above its confluence with Ohio r., 223 m. W. by N. Richmond. Is pleasantly situated, with an extended front on the river, which is here navigable for steamboats at low water. Also called CHARLESTON. It contains a court-house, jail, etc., numerous stores, several steam and water mills—saw and flour—and about 170 dwellings.

KANAWHA SALINE, p. o., Kanawha co., *Virg.*: on the N. W. side of Great Kanawha r., 223 m. W. by N. Richmond. It derives its name from the salt business pursued in its vicinity, and is a place of growing importance.

KANAWHA river, *Virg.*: it has its source in Ashe co., N. Carolina, where it receives the waters of a number of mill-streams, and passing into Virginia, it drains Grayson, Carroll, Wythe, Pulaski, Montgomery, Giles, Monroe, Mercer, Greenbrier, Fayette, Nicholas, Kanawha, Putnam, and Ma

son counties: taking a circuitous course, with many meanderings, nearly 800 miles, it empties into the Ohio r. at Point Pleasant, in lat. 38° 52' N., 174 m. N. by W. of its source, and 252 m. below Pittsburgh. At Point Pleasant, 66 m. above the mouth, are the Kanawha Salt-works, where the river is nearly 500 feet wide. The salt district extends 15 m. on the river, where the salt water is obtained by boring 300 to 500 feet through rock formation, tubing being passed down to exclude fresh water from the sides, and through which the brine rises to a level with the river. Steam-power is used for raising it still higher, and the bituminous coal of the same vicinity is used to effect evaporation. There are on this river and its tributaries five veins of common bituminous coal and two of cannel, all capable of being worked, and all above the level of the river. The largest is said to have an aggregate thickness of 24 feet. The cannel-coal is said to be equal to any of this kind in the world. About 100 m. from the mouth are the Great Falls, where there is a single perpendicular descent of 50 feet. The principal affluents are the Elk, Coal, and Greenbrier rivers; the other tributaries are numerous, and afford very extensive water-powers.

KANE county, Ill. Situate N. E., and contains 543 sq. m. Drained by Fox r., a branch of the Illinois, which flows S. through the E. part. Surface level or rolling; soil of great fertility, and well cultivated—a superior farming co. On the branches of Fox r. is fine water-power and timber, and limestone is abundant. Farms 1,015; manuf. 49; dwell. 2,823, and pop.—wh. 16,696, fr. col. 6—total 16,702. *Capital*: Geneva. *Public Works*: Galena and Chicago Union R. R.; St. Charles Branch R. R.; Aurora Branch R. R. and its extension.

KANE, p. o., Greene co., Ill.: 53 m. S. W. Springfield.

KANESVILLE, p. v., and cap. Pottawattomee co., Ia.: 6 m. N. from Fort Croghan, and 4 m. E. from Missouri r., 224 m. W. by S. Iowa City. This place was settled and built by the Mormons, and is an intermediate station for the overland emigration to Great Salt Lake Valley. The "Frontier Guardian" (whig), is published weekly. Pop. about 1,200.

KANEVILLE, p. o., Kane county, Ill.: 150 m. N. N. W. Springfield.

KANKAKEE river, Ill.: its source is in St. Joseph's co., Indiana. This river, with its tributaries, drains the N. W. part of the State of Indiana, and Iroquois and Mill counties, in Illinois, and uniting with the Des Plaines river, their waters form the Illinois river. The principal tributary is the Iroquois river. On the S. side of the Kankakee, in Illinois, are extensive fields of bituminous coal, and on the upper portion of the river are beds of iron ore. This river forms the northern boundary of the coal region of Illinois, E. of the Illinois r. A company has been chartered for the improvement of the river, to render it navigable by a system of dams and locks, which at some future day will probably open for 150 miles as beautiful a country as there is in the West. The prairie country is interspersed with groves and barrens, and on the E. side there are some sand-ridges. The river was discovered by the French at an early period.

KANSAS river, Ind. Ter.: its source is in lat. 39°, near the E. base of the Rocky Mountains, and pursues a generally eastern course to the Missouri river, at the point where the west boundary of the State of Missouri leaves the Missouri river. Its whole course is about 1,200 m., and navigable 900 m. Its width at its mouth is 840 yards.

KANZAS, p. o., Jackson co., Mo.: on the S. side of the Missouri r., 185 m. W. by N. Jefferson City.

KAPOSA, v., Decatur co., Minn. Ter.: on the W. side of the Mississippi r., about 6 m. below St. Paul. It is a fine site for a town, but as yet is little more than an Indian settlement.

KARTHAUS, p. v., Clearfield co., Penn.: on the N. bank of the W. branch of the Susquehanna r., 92 m. W. N. W. Harrisburg. Coal, iron, and salt are produced in the vicinity.

KASEY's, p. o., Bedford county, Virg.: 123 m. W. by S. Richmond.

KASKASKIA, p. v., and cap. Randolph co., Ill.: on Kaskaskia r., 10 m. above its confluence with the Mississippi r., and on a neck of land between the two, 127 m. S. S. W. Springfield. This town is one of the oldest in the Valley of the Mississippi, having been settled by the French in 1683, and in 1763, when ceded to the English, had some 130 families. It is beautifully situate in a lovely country. It contains a brick court-house and county jail, and also a nunnery and Catholic church, and a U. S. land office. Pop. about 1,000.

KASKASKIA river, Ill.: its source is in Champaign co., and runs in its general course S. S. W., draining with its numerous but small affluents the counties of Piatt, Moultrie, Coles, Shelby, Montgomery, Fayette, Bond, Marion, Clinton, Washington, Madison, St. Clair, Monroe, and Randolph. The navigation of this river has been improved by the labor applied under the direction of the Board of Public Works, the drift-wood and other obstructions being removed from the channel, and sloping timber cut from the banks. In high water the river is navigable for 150 m. to Vandalia, and some seasons to Shelbyville. At Vandalia the river is spanned by a substantial bridge for the National Road. The country drained by this river is very fertile, and varied by suitable proportions of prairie and timber-belts and groves. The source is 133 m. N. N. E. from the mouth in a direct line, and its length in full. 300 m.

KASOAG, p. v., Oswego county, N. Y.: 152 m. W. N. W. Albany.

KATAHDIN IRON WORKS, p. o., Piscataquis co., Me.: 96 m. N. N. E. Augusta, near Katahdin Mountain, which rises 5,300 feet above the sea level, and affords a vastly grand and beautiful view. This mountain may be seen from Bangor, 70 miles distant, and is particularly noted for its steep acclivities, and its isolation in the district.

KATTELVILLE, p. o., Broome co., N. Y.: 124 m. W. S. W. Albany.

KAUFMAN county, Tex. Situate N. E. centrally, and contains 1,103 sq. m. Drained by E. and W. fork of Trinity r., its S. W. boundary, Ferry's and Lacey's forks of Cedar cr., its branch, and many small affluents, and in the N. E. by heads of Sabine r. Surface undulating, with some considerable elevations in the N., and good timber on the streams; soil a sandy loam, and mostly very productive—adapted to corn and cotton. Here is also excellent grazing in many parts. Its streams are not large, but some of them furnish good mill-seats. Farms 94; manuf. 0; dwell. 170, and pop.—wh. 952, fr. col. 0, sl. 65—total 1,047. *Capital*: Kaufman C. H.

KAUFMAN C. H., p. v., and cap. Kaufman co., Tex.: on the upper waters of Cedar cr., 180 m. N. N. E. Austin.

KAUKAUNA, p. v., Browne co., Wisc.: 112 m. N. N. E. Madison. At the rapids so called, and on the W. side of the Fox or Neenah river.

KAUTATINGCHUNK, p. o., Northampton co., Penn.: 84 m. N. E. by E. Harrisburg.

KEARSAGE mountain, Merrimac co., N. Hamp.: about 20 m. N. W. Concord. Elevation, 2,461 feet above sea level.

KAYADEROSEERAS mountains, N. Y.: extending through a part of Warren, Saratoga, and Fulton counties, in a S. W. direction. Their greatest elevations are in the northern portions, which rise 800 to 1,200 feet above tide level; they gradually subside to the Mohawk Valley.

KEARSARGE mountain, N. Hamp.: a mountain in Merrimac co. Its summit, composed of naked granite rock, is 2,463 feet above the sea, and affords, on a clear day, an extensive and interesting view of the country. Its slopes are covered with a heavy growth of timber.

KEARSLY, p. o., Genesee co., Mich.: about 40 m. W. N. W. Lansing.

KEATCHIE, p. o., De Soto par., La.: 176 m. N. W. Baton Rouge.

KEARNEYVILLE, v., Jefferson co., *Virg.*: on the line of the Baltimore and Ohio R. R., 93 m. from Baltimore, and 126 m. N. N. W. Richmond.

KEATON'S SHOALS, p. o., Baker co., *Ga.*: 147 m. S. W. by S. Milledgeville.

KECK'S CHURCH, p. o., Martin co., *Ind.*: 76 m. S. S. W. Indianapolis.

KEEDYSVILLE, p. v., Washington co., *Md.*: on Antietam cr., 78 m. N. W. by W. Annapolis.

KEEFER'S STORE, p. o., Franklin co., *Penn.*: about 50 m. S. W. Harrisburg.

KEELERSBURGH, p. o., Wyoming co., *Penn.*: 48 N. N. E. Harrisburg.

KEELERSVILLE, p. v., Van Buren county, *Mich.*: 88 m. W. S. W. Lansing.

KEENE, p. v., Jessamine co., *Ky.*: 26 m. S. E. Frankfort. The line of the Lexington and Danville R. R. passes through the village.

KEENE, p. t. and cap. Cheshire co., *N. Hamp.*: 43 m. S. W. Concord. Drained by Ashuelot r. and its tributaries, which flows through it, and affords excellent water-power. Surface diversified; soil rich, fertile, and well cultivated. At Keene the Ashuelot R. R. forms a junction with the Cheshire R. R. The v. on the W. side of Ashuelot r. is beautifully situated, and contains many pleasant residences; and its wide streets are well shaded by ornamental trees. The court-house and jail are here. The v. supports very considerable commercial and manufacturing interests; and has 3 newspapers, the "Spirit of the Times" (whig), "N. H. Sentinel" (whig), and "Cheshire Republican and Farmer" (dem.), all weekly issues. Pop. of t. 3,890.

KEENE, t. and p. v., Essex co., *N. Y.*: 112 m. N. by W. Albany. Drained by Ausable r. and its tributaries, which empty into Lake Champlain. Here are also numerous small lakes, from which several of the heads of the Hudson river have their sources. Surface mountainous, being traversed by the Adirondack range; and here it has its loftiest culminations, Mount Marcy, Mount M'Intire, and Mount M'Martin. Soils along the rivers and in the valleys are fertile, but in other parts the rugged face of the country forbids cultivation. The v., a small agricultural settlement, lies on the E. side of the Ausable. Iron ore and other minerals abound in all this region. Pop. of t. 798.

KEENE, t. and p. v., Coshocton co., *Ohio*: 63 m. E. N. E. Columbus. Drained by Mill cr., an affluent of Walhonding r. Surface elevated and rolling; soil deep, rich, and productive. The v. lies on the E. side of the cr., and is a small agricultural settlement of about 200 inhabitants. Population of t. 1,079.

KEENESVILLE, p. o., Wayne co., *Ill.*: 116 m. S. W. by S. Springfield.

KEENEY'S SETTLEMENT, p. o., Cortlandt co., *N. Y.*: 125 m. W. Albany.

KEENSVILLE, p. o., Union co., *Penn.*: 86 m. N. by W. Harrisburg.

KEESEVILLE, p. v., Essex county, *N. Y.*: on both sides of Ausable r., 4 m. from Lake Champlain, 123 m. N. by E. Albany. There is here an extensive water-power, used by a number of thriving manufactories of iron and other products. It supports a paper, the "Essex Co. Republican" (whig), which is issued weekly. Pop. about 1,800.

KEEZLETOWN, p. v., Rockingham co., *Virg.*: 85 m. N. W. Richmond.

KEITH'S, p. o., Morgan county, *Ohio*: 88 m. E. by S. Columbus.

KEITHSBURGH, p. v., Mercer co., *Ill.*: on the Mississippi at the confluence of Pope r., 112 m. N. W. Springfield. It is a thriving v., and was once the county seat.

KEITH'S CROSS ROADS, p. o., Kent co., *Del.*

KELLERSVILLE, p. v., Monroe co., *Penn.*: 95 m. N. E. Harrisburg.

KELLERTOWN, p. v., Wilkinson co., *Miss.*: 108 m. S. W. Jackson.

KELLEY'S MILLS, p. o., Lawrence co., *Ohio*: 96 m. S. S. E. Columbus.

KELLOGGSVILLE, p. v., Cayuga co., *N. Y.*: between lakes Owaseo and Skaneateles, 2 m. W. of the latter and 183 m. W. Albany.

KELLOGGSVILLE, p. v., Ashtabula co., *Ohio*: on the N. side of Ashtabula cr., 172 m. N. E. Columbus.

KELLEY'S CREEK, p. o., St. Clair co., *Ala.*: 96 m. N. Montgomery.

KELLY'S FERRY, p. o., Meigs co., *Tenn.*: on the Tennessee r., 117 m. E. S. E. Nashville.

KELLY'S SPRINGS, p. o., Talladega county, *Ala.*: 78 m. N. by E. Montgomery.

KELLYSVILLE, p. v., Delaware county, *Penn.*: 83 m. S. E. by E. Harrisburg.

KELLYSVILLE, p. o., Culpepper co., *Virg.*: 73 m. N. W. by N. Richmond.

KELSO, t. and p. v., Dearborn co., *Ind.*: 71 m. S. E. Indianapolis. Drained by the upper branches of Tanner's cr. and affluents of White Water river. Surface somewhat broken; soils of average fertility, and productive. Pop. of t. 1,712.

KELVIN GROVE, p. o., Wake co., *N. Car.*: 10 m. N. Raleigh.

KEMBLESVILLE, p. v., Chester co., *Penn.*: 53 m. E. S. E. Harrisburg.

KEMPER county, *Miss.* Situate on E. line, and contains 745 sq. m. Drained E. by heads of Suquinochee r., flowing into Tombigbee r.; S. by heads of Chickasawha r., and W. by heads of Pearl r. Surface elevated and somewhat uneven, with several good mill streams; soil very fertile. Cotton is the great staple, and its culture is almost exclusive. Corn thrives well, and great numbers of cattle and swine are reared. Farms 730; manuf. 1; dwell. 1,249, and pop.—wh. 7,138, fr. col. 1, sl. 5,378—total 12,517. *Capital*. De Kalb. *Public Works*: Mobile and Ohio R. R.

KEMP, p. o., Kaufman county, *Tex.*: 153 m. N. N. E. Austin City.

KEMP'S CREEK, p. o., Benton co., *Ala.*: 95 m. N. by E. Montgomery.

KEMPSVILLE, p. v., Princess Anne co., *Virg.*: on a branch of Elizabeth r. and at the head of tide-water, 88 m. S. E. Richmond. It contains several stores and about 300 inhabitants.

KENANSVILLE, p. v., and cap. Duplin co., *N. Car.*: on the E. side of Grove cr., 71 m. S. E. Raleigh. The v. contains the court-house and about 150 inhabitants.

KENDALL county, *Ill.* Situate N. E., and contains 824 sq. m. Drained by Fox r., which crosses the N. W., and in the S. E. by Au Sable r., a small branch of Des Plaines r. Surface level or undulating; soil fertile, and much of it prairie, with timber on a few streams. It has considerable water-power and large deposits of coal. Farms 659; manuf. 0; dwell. 1,258, and pop.—wh. 7,724, fr. col. 6—total 7,730. *Capital*: Oswego. *Public Works*: Aurora Extension R. R.

KENDALL, t. and p. v., Orleans co., *N. Y.*: 232 m. W. by N. Albany. Drained by Sandy and other creeks. Surface nearly level, with a gradual ascent from Lake Ontario, which forms the N. boundary; soil sandy and gravelly loam, and well tilled. Pop. 2,289.

KENDALL, p. o., Beaver co., *Penn.*: 184 m. W. by N. Harrisburg.

KENDALL, p. o., Kendall county, *Ill.*: 123 m. N. N. E. Springfield.

KENDALL CREEK, p. o., McKean co., *Penn.*: 151 m. N. W. Harrisburg.

KENDALL MILLS, p. o., Orleans county, *N. Y.*: 229 m. W. by N. Albany.

KENDALL'S MILLS, p. o., Somerset co., *Me.*: on the W. bank of Kennebec r., 20 m. N. by E. Augusta.

KENDALL'S STORE, p. o., Stanley co., *N. Car.*: 67 m. W. S. W. Raleigh.

KENDALLVILLE, p. v., Noble co., *Ind.*: on Little Cedar

cr. and on the line of the Fort Wayne and Lima plank-road, 126 m. N. N. E. Indianapolis.

KENDEICK'S SPUR, p. o., Patrick county, *Virg.*: 168 m. W. S. W. Richmond.

KENDUSKEAG stream, *Me.*: a tributary of the Penobscot r., which it joins at Bangor. It furnishes a large and valuable water-power.

KENNEBEC county, *Me.* Situate S. W. centrally, and contains 1,109 sq. m. Drained by Kennebec and Sebasticook rivers, and their affluents, and W. by the Androscoggin. Surface undulating, without being hilly, and soil highly productive. It has many ponds, which, with their streams and the Kennebec, afford immense water-power. It abounds in fine timber, and the lumber trade is of great importance. The Kennebec is a large navigable stream, and its commercial facilities fine. Wheat, corn, oats, and barley yield well, and its pastures feed great numbers of cattle and sheep. The great export is potatoes, of which immense quantities are raised and sent to all parts of the Union. Farms 5,256; manuf. 381; dwell. 10,162, and pop.—wh. 62,379, fr. col. 142—total 62,521. *Capital*: Augusta. *Public Works*: Androscoggin and Kennebec R. R.; Androscoggin R. R.; Portland and Kennebec R. R.

KENNEBEC, t. and p. v., Kennebec co., *Me.*: 5 m. W. S. W. Augusta. About one-third the surface is covered by lakes; soil rich and well cultivated. The principal v. lies on the N. E. corner.

KENNEBEC river, *Me.*: one of the most important rivers of New England. Its principal source is at the outlet of Moosehead lake, but its more remote source is that of Dead r., which empties into Kennebec r., 20 m. below the outlet. The source of Dead r. is in the N. W. part of Franklin county, within 5 m. of Chaudiere r., which flows into the St. Lawrence. The general course of Kennebec r. is S. by E., making several considerable curves, and draining with its tributaries, Somerset, Franklin, and Kennebec, and portions of Penobscot and Waldo counties, and traversing Lincoln. Its length from its remotest source is about 200 m. It is navigable for boats 60 m. to Waterville, for sloops to Augusta, 42 m., and for ships to Bath, 12 m. from its mouth. Its largest tributary is the Androscoggin, flowing in 18 m. from its mouth. The confluent stream is sometimes called the Sagadahock. At Waterville, and other places above, are very valuable water-powers. The whole fall of the river is more than 1,000 feet, affording, with its tributaries, incalculable hydraulic power. The river is closed by ice generally for four months of the winter season, except below Bath, where the salt water usually keeps the port open at all seasons. The principal towns on the river are Bath, Hallowell, Augusta, Waterville, and Norridgewock. It flows through a fertile country and bears an extensive trade.

KENNEBUNK, t. and p. v., York co., *Me.*: 66 m. S. S. W. Augusta. Drained chiefly by Mousum r., on which and on the Kennebunk there are several mills and factories. The v. is on the S. W. side of Mousum r., and at the entrance of the Kennebec into the Atlantic there is a good harbor. It is a port of entry, and has some shipping employed in the fisheries and coasting trade. Formerly it had an extensive trade with the West Indies, and many fine ships are still built in the town. Pop. 2,650.

KENNEBUNK DEPÔT, p. o., York co., *Me.*: on the N. bank of Mousum r., and on the Portland, Saco, and Portsmouth R. R., 60 m. S. S. W. Augusta.

KENNEBUNKPORT, t. and p. v., York co., *Me.*: 62 m. S. S. W. Augusta, on the N. E. side of Kennebec r. and opposite to Kennebunk, with which its chief interests are connected. It has considerable shipping, and many of the inhabitants are engaged in coasting and the fisheries. Granite, much resembling that of Quincy, is abundant, and furnishes a staple of export. This t. and Kennebunk were in former times among the most active and busy shipping places in Maine, but their trade has immensely diminished. Pop. of t. 2,706.

KENNEDY'S, p. o., Brunswick co., *Virg.*: 63 m. S. S. W. Richmond.

KENNEDYVILLE, p. v., Steuben county, *N. Y.*: 138 m. W. by S. Albany. The v. lies on the Buffalo, Corning, and New York R. R., 24 m. from Corning. It contains several stores and workshops, and about 260 inhabitants.

KENNEBER, p. o., Marshall county, *Ala.*: 136 m. N. Montgomery.

KENNETT'S SQUARE, p. v., Chester county, *Penn.*: 71 m. E. S. E. Harrisburg. It contains a Quakers' meeting-house and about a score of dwellings.

KENNON, p. o., Belmont county, *Ohio*: 89 m. E. by N. Columbus.

KENNONSBURGH, p. o., Guernsey co., *Ohio*: 85 m. E. by N. Columbus.

KENOSHA county, *Wisc.* Situate S. E. corner, and contains 282 sq. m. Drained by Fox and Des Plaines (or O'Plain) rivers, which flow S. into Illinois r. Surface gently undulating; soil a fertile prairie for the most part, and very productive of the grains and grasses. Its stock is very fine and dairies large. There is some timber on the streams, but where wanting, the lake supplies lumber and coal. Limestone is quarried on the rivers. Farms 914; manuf. 51; dwell. 1,312, and pop.—wh. 10,714, fr. col. 18—total 10,732. *Capital*: Kenosha.

KENOSHA, p. v., and cap. Kenosha co., *Wisc.*: on Lake Michigan, 89 m. E. S. E. Madison, 10 m. S. Racine. Has an excellent harbor, and commands the trade of one of the finest farming districts in the world, the prairies of the county being of the richest and most beautiful character of the West. Two small creeks empty into the lake, one above and the other below the port. Kenosha was formerly called Southport. The location is very desirable and pleasant: its shipping interests are likely to improve. Pop. 3,460.

KENSICO, p. v., Westchester co., *N. Y.*: on the Harlem R. R., 125 m. by route from Albany.

KENSINGTON, p. v., Hartford co., *Conn.*: on a S. branch of Little r., 14 m. S. S. W. Hartford. The New Haven, Hartford, and Springfield R. R. passes it about a mile to the east. The v. has several manufactures, etc.

KENSINGTON, p. v., Oakland co., *Mich.*: on Woodruff cr., a branch of Huron r., 46 m. W. S. W. Lansing. A thriving v., surrounded by a rich farming district, and it has several flourishing mills and about 200 inhabitants.

KENSINGTON, t. and p. v., Rockingham co., *N. Hamp.*: 36 m. S. E. Concord. Surface is nearly level and almost without streams. The v. has several stores. Pop. of t. 700.

KENSINGTON, t. and p. v., Philadelphia co., *Penn.*: 96 m. E. by S. Harrisburg. Although under a separate government, Kensington is in reality a part of Philadelphia and a suburb of that city. It is situate N. E. on the Delaware, and contains a large number of industrial establishments for the manufacture of cotton and woolen goods, etc., and has also manufactures of iron, glass, etc. Ship-building is also extensively carried on. It has a large wholesale and retail trade. Dwellings 7,555, families 9,066, and pop. 46,776.

KENT county, *Del.* Situate centrally, and contains 614 sq. m. Drained by Duck, Little, Jones, Motherkill, and Mispillion creeks, emptying into Delaware Bay, and Nanticoke and Choptank rivers, flowing into Chesapeake Bay. Surface moderately uneven; soil mostly very productive. Corn, wheat, rye, and oats are the chief crops, and great numbers of cattle and sheep are reared. It has some water-power, and exports considerable lumber. Farms 1,655; manuf. 121; dwell. 3,873, and pop.—wh. 16,119, fr. col. 6,350, sl. 347—total 22,816. *Capital*: Dover. *Public Works*: a projected railroad from New York to Norfolk (air line).

KENT county, *Md.* Situate N. E., and contains 272 sq. m. It has Sassafras r. on the N., Chesapeake Bay on the W., and Chester r. on the S., and a few creeks flowing into these. Surface high and rolling; soil fertile. Corn, wheat,

oats, and sweet potatoes are the leading products of the soil. Marl and lime, from shell beds, are abundant. It has some mill-seats and considerable manufactures. Farms 667; manuf. 85; dwell. 1,694, and pop.—wh. 5,616, fr. col. 3,143, sl. 2,627—total 11,886. *Capital*: Chestertown.

KENT county, *Mich.* Situate S. W., and contains 576 sq. m. Drained by Grand r., which crosses it, running to the W., and its branches, Rouge and Thorn-apple rivers. Surface rolling, except on Grand r., where it is hilly; soil a rich vegetable loam. It is equally adapted to grain or grass, and produces great crops. The W. is well timbered with black walnut, beech, and sugar maple, and on Rouge r. are valuable pine forests. It has immense water-power, especially on Grand r. Limestone and superior gypsum are abundant, and salt springs are found. Farms 847; manuf. 67; dwell. 2,251, and pop.—wh. 11,982, fr. col. 34—total 12,016. *Capital*: Grand Rapids.

KENT county, *R. I.* Situate W. centrally, and contains 186 sq. m. Drained by Pawtuxet and Flat rivers. Surface uneven and rough, with level tracts in the E.; soil a sandy or gravelly loam, and of great fertility. Its pastures are excellent, and many sheep are reared. It has fine orchards and gardens, known in all the markets around. The streams are small, but afford much water-power, and its manufactures of wool and cotton are extensive. Narraganset Bay lies E. of it, and its coasting trade and fisheries are valuable. Farms 688; manuf. 90; dwell. 2,625, and pop.—wh. 14,821, fr. col. 247—total 15,068. *Capital*: East Greenwich. *Public Works*: Providence and Stonington R. R.; Hartford, Providence, and Fishkill R. R.

KENT, t. and p. v., Litchfield co., *Conn.*: 41 m. W. by S. Hartford. Drained by the Housatonic r. and several of its affluents, all which afford excellent water-power. Surface generally mountainous, with fine valleys and intervals; soil in the mountains gravelly and hard—in the valleys calcareous loam, and fertile. The v. lies on the line of the Housatonic R. R. and on the E. side of the river, which is here spanned by a bridge. In the t. there are extensive deposits of iron ore and several furnaces, etc. Pop. 1,848.

KENT, p. o., Stephenson co., *Ill.*: 184 m. N. Springfield. KENT, t. and p. v., Putnam co., *N. Y.*: 84 m. S. Albany. Drained by head branches of Croton r. Surface generally hilly—in the N. mountainous. Pop. 1,557.

KENT, p. o., Indiana co., *Penn.*: about 118 m. W. by N. Harrisburg.

KENT, p. v., Jefferson county, *Ind.*: 78 m. S. S. E. Indianapolis.

KENT island, *Ma.*: the largest and most important island of Chesapeake Bay, containing 42 sq. m. of surface. The first settlement within the present limits of the State was made on this island by Claiborne, and here is the scene of many interesting events in the early colonial history of the State. It lies opposite Annapolis.

KENTON county, *Ky.* Situate in most N. point, and contains 145 sq. m. Drained by affluents of Licking r., its E. boundary, and Ohio r., its N. boundary. Surface moderately uneven; soil fertile, admirably adapted to grain-growing and grazing. Tobacco, corn, wheat, and pork are the farming staples. It has much fine water-power and extensive manufactures. The N. is quite level, is under high cultivation, and densely populated, being a kind of dependency of Cincinnati, which is just opposite Covington, the largest town in the county. Farms 656; manuf. 109; dwell. 2,854, and pop.—wh. 16,116, fr. col. 92, sl. 880—total 17,088. *Capital*: Independence. *Public Works*: Nashville and Covington R. R.; Covington and Ohio R. R.; Lexington and Covington R. R., etc.

KENTON, p. v., and cap. Hardin co., *Ohio*: on the N. side of Scioto r., 56 m. N. W. by W. Columbus. The Mad River and Lake Erie R. R. passes through the v., 78 m. from Sandusky. Two papers are issued here weekly, the "K. Republican" (whig), and "K. Herald" (dem.). This is the business centre of an excellent farming district. Population of v. 1,065.

KENTONTOWN, p. v., Harrison co., *Ky.*: 54 m. N. E. by E. Frankfort.

KENT'S HILL, p. v., Kennebec co., *Me.*: 13 m. W. N. W. Augusta.

THE STATE OF KENTUCKY.

KENTUCKY is separated from Ohio, Indiana, and Illinois by the Ohio River, which demarks its north boundary; and from Missouri by the Mississippi River, its western boundary. The east boundary is formed chiefly by Big Sandy River and the Cumberland Mountains, which separate it from Virginia, and on the south the boundary is co-terminus with the north boundary of Tennessee. The State lies generally between the latitudes 36° 30' and 39° 12' N., and between the longitudes 82° 02' and 89° 40' W. from Greenwich, or 5° 00' and 12° 38' W. from Washington. Its greatest length on the parallel of Cairo, in Illinois, is 368 miles, and its greatest width on the meridian of North Bend, in Ohio, is 163 miles; but the irregularity of its outline in some parts narrows its width to 40 miles, as on the east line of Graves County, and its length varies as much as 100 miles from a maximum. The estimated land area of the State is 37,680 square miles.

The face of the country may be generally described as level or moderately uneven. The levels, however, are not like a carpet, but are interspersed with small risings and declivities, which make a scene of varying interest. In the south-east the Cumberland Mountains, which form the boundary toward Virginia, except from this character; but even here no great elevations are attained, yet they give to that portion of the country a rugged and mountainous aspect, and their numerous spurs or offshoots, projecting quite into the middle of the State, render the surface of the whole eastern division somewhat broken and hilly. Farther westward the country becomes undulating, abounding in bold features, although the hills are much less abrupt than in the east, and gradually sink down with more rounded forms and gentler acclivities, until merged into the almost level plains of the Cumberland, Tennessee, and Mississippi rivers. Along the Ohio, and extending from 10 to 20 miles in different places from it, are the Ohio Hills, parallel with that beautiful stream. These hills are often high, generally gracefully rounded and conical, with narrow vales and bottoms around their bases, and give to the country through which they extend a rough appearance; they are covered with lofty forests, and have often a good soil on their sides and summits; and the alluvial bottoms between them and the Ohio, and along the streams which fall into that river, are of the richest description.

In the geology of Kentucky the blue limestone occupies a conspicuous place; it forms the surface rock in a large part of the State, and is used for building purposes. Among the cliffs of the Kentucky River is found an excellent marble, capable of a fine polish. The cliff limestone is the base of the Ohio Falls at Louisville; the slate or shale is very common, bituminous, and supports combustion, and contains iron pyrites and ores, giving rise to mineral springs. The sand or freestone extends from Danville to Louisville, etc., and is used in the arts, and even for grindstones. The cavernous limestone, as its name imports, gives rise to many caves, the most famous of which is the Mammoth Cave (*see* MAMMOTH CAVE). The limestone region, indeed, abounds in caverns, sinks, and subterranean water-courses. Several of the caves are of extraordinary dimensions, but the one above mentioned is the most spacious and best known. The sinks or sink-holes are cavities or depressions on the surface of the ground, resembling those of Florida, already described, but of infe-

rior extent; they are commonly in the shape of inverted cones, 60 or 70 feet in depth, and from 60 to 800 feet in circumference at the top. Their sides and bottoms are generally covered with willows and aquatic productions, and the ear can often distinguish the sound of waters flowing under them. It is believed that these sinks are perforations in the bed of limestone below the soil, which have caused the earth to sink. Sometimes the ground has been opened, and disclosed a subterranean stream of water at the bottom of these cavities. The conglomerate or pudding-stone consists of quartz pebbles, rounded and united with fine sand by a kind of natural cement: it underlies the coal formation. The coal-beds of Kentucky are continuous of those of the Illinois and Ohio; they cover 10,000 or 12,000 square miles, and are very accessible, but hitherto the quantity of coal mined has not been to any great amount—not more than five or six million bushels a year. Iron is equally abundant in the State, and it, too, is comparatively neglected, but from its deposits being mainly on or near navigable streams, it must inevitably become a source of future wealth to the country. An estimate of the quantity embraced has been fixed at 83,000,000 tons. Small quantities of lead are also traced in Kentucky, and silver ore has lately been discovered near the Cumberland Falls. Salt springs abound in the sandstone formation, and have become very productive. Saltpetre—earth, or nitrate of lime, gypsum, or plaster of Paris, are found in the caves. Mineral springs are numerous, embracing sulphur, saline, chalybeate, etc. The salt springs received the name of "licks" from the early settlers, on account of their being the favorite resorts of the wild animals, which were fond of licking the efflorescences so abundant around them. The name is also applied to the sulphureted fountains which occur in various places.

The most productive soil of Kentucky is that of the blue limestone formation; and in the neighborhood of Lexington and toward the Ohio, the country based on that route is said to be the garden of the State. The line demarking this region passes from the Ohio round the heads of Licking and Kentucky rivers, Dick's River, and down Great Green River to the Ohio; and in this great compass of above 100 miles square is found one of the most fertile and extraordinary countries on which the sun has ever shone. The soil is of a loose, deep, and black mold, without sand—on first-rate lands, from two to three feet deep, and exceedingly luxuriant in all its productions. It is well watered by fine springs and streams, and its beautiful climate and the salubrity of the country are unequalled, the winter, even, being seldom so inclement as to render the housing of cattle necessary. In a state of nature, nearly the whole surface of this region was covered with a dense forest of majestic trees, and a close undergrowth of gigantic reeds, forming what in the country are called cane-brakes. In the southern part, however, on the head waters of Green River and its tributaries, is an extensive tract, thinly wooded, and covered in summer with high grass growing amid scattered and stunted oaks: struck with the contrast this region presented to the luxuriant forests of the neighboring districts, the first settlers gave the country the unpromising name of "barrens." As a general thing, the term is by no means appropriate. There are, indeed, portions of the barrens, which are known as the *knobs*, that are too sterile and rugged to admit of cultivation; but the soil is generally productive, although not of the first quality, and is well suited for grazing. There are also tracts in the mountain regions and portions of land on the Ohio Hills too much broken for general agriculture; but as a whole, Kentucky has as great a proportion of the best soils as any other of her sister States, and from the splendor of its climate, has many advantages possessed by few other regions.

The country in general may be considered as well timbered, producing large trees of many kinds, and to be exceeded by no country in variety. Perhaps among its forest growths none is more valuable to the settler than the sugar-tree, which grows in all parts, and furnishes every family with a plenty of excellent sugar; and the honey-locust, so curiously surrounded by large thorny spikes, bears long pods in the form of peas, having a sweet flavor, and from which domestic beer is made. The coffee-tree, greatly resembling the black oak, grows large, and also bears a pod in which is inclosed coffee. The pawpaw bears a fine fruit like a cucumber in shape and size, and of a sweet taste. The cane, on which cattle feed and grow fat, in general grows from three to twelve feet high, is of a hard substance, with joints at eight or ten inches distance along the stalk, from which proceed leaves resembling the willow. There are many cane-brakes, so thick and tall that it is difficult to pass through them. Where no cane grows there is an abundance of wild rye, clover, and buffalo-grass covering vast tracts, and affording excellent pasture for cattle; and the fields are covered with wild herbage not common to other countries. Here is seen the finest crown imperial in the world, the cardinal flower, so much extolled for its scarlet color; and all the year, except the short winter months, the plains and valleys are adorned with a variety of flowers of the most admirable beauty. Here is also found the tulip-bearing laurel-tree, or magnolia, which is very fragrant, and continues to blossom and seed for several months together.

Among the agricultural staples of Kentucky, hemp and flax are the most conspicuous. Tobacco is also extensively grown; and the Indian corn and wheat of this State are large crops and excellent in quality. The first-named—hemp, flax, and tobacco—are, however, the great staples. The hemp crop of Kentucky is five-eighths of the whole yield of the United States—that of dew-rotted hemp is two-thirds, and that of water-rotted hemp is seven-twelfths of the whole of the respective descriptions; four-sevenths of the crop of flax is grown in Kentucky; and the tobacco crop yields more than a fourth of the aggregate of that production. Its wheat crop is surpassed in quantity by only ten States; its Indian corn crop is surpassed only by that of Ohio; only two States have larger crops of oats; only six produce more wool; only four a larger abundance of market-garden products; only seven more butter; only two more beeswax and honey; and only one exceeds it in its home-made manufactures. The cash value of its farms makes it fourth in the list of States in point of agricultural wealth, and only three other States possess a greater wealth in live-stock, and one other equals it in the latter respect. And yet, with all this vast amount of wealth and production, not one-half of its surface was under cultivation in 1849-50, to which period the above returns refer.

Nature has been most bountiful to this State in its noble rivers and useful streams. Beside the great peripheral waters, the Ohio, Mississippi, etc., several large and important water-courses traverse the interior, and, with the single exception of the Upper Cumberland, these flow in a uniform direction from south-east to north-west; and while the Ohio is the recipient of all the great rivers of the State, the Mississippi only receives a few inconsiderable streams of trifling use as avenues of commerce. The Sandy, Licking, Kentucky, and Cumberland rise in the same region in the mountains of the south-east. The *Kentucky* is a rapid stream, running, like the other rivers of the State, in a deep channel with a rocky bed and generally perpendicular banks; it flows through a rich and highly cultivated country, and in high stages of the water is navigable for steamboats to Frankfort, 60 miles, and for flat boats about 100 miles further. The *Licking*, which also flows through a rich region of country, enters the Ohio, opposite Cincinnati, and affords boat navigation for about 80 miles. *Salt River* rises in the centre of the State; it has a great volume of water in proportion to the length of its course, and is navigable for boats for 100 miles. It receives from the south a large tributary, called the Rolling Fork. *Green River*, likewise, rises in the centre of the State, and takes a westerly course, until having received the Big Barren River

KENTUCKY.

from the south, it turns to the north-west; it has a gentle current, with great depth of water. Steamboats go up to Bowling Green, on the Big Barren, 180 miles, and flat boats ascend nearly to the heads of the river. The Cumberland has its sources and its mouth in Kentucky, but the greater part of its course is in Tennessee. Rising on the western declivity of the Cumberland Mountains, it passes into the latter, and returning north, enters the Ohio in the former State. Its course is about 600 miles long, and steamboats go up to Nashville, Tenn., 200 miles, and in high stages of water even to Burkesville, in Kentucky. The Tennessee, being separated from the Cumberland by the mountains of that name, has no portion of its head waters in Kentucky, but it enters the State about 70 miles above its mouth, and admits steamboats to Florence, in Ala., a distance of about 300 miles. The navigation of several of these rivers has been improved by locks, etc., and in some the obstructions are overcome by canals and railroads.

Kentucky is divided into 100 counties, the general statistics of which and the capitals of each in 1850 were as follows:

Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 130,769; of families, 132,920; and of inhabitants, 952,405; viz., whites 761,638—males 392,540, and females 369,098; free colored 9,736—males 4,771, females 4,965, and slaves 180,951. Of the whole population there were, *deaf and dumb*—wh. 455, fr. col. 4, sl. 50—total 539; *blind*—wh. 421, fr. col. 19, sl. 90—total 530; *insane*—wh. 488, fr. col. 3, sl. 16—total 507, and *idiotic*—wh. 749, fr. col. 20, sl. 80—total 849. The number of free persons born in the United States was 740,881, the number of foreign birth 29,189, and of birth unknown 1,354; the *native* population originated as follows: Me. 227, N. Hamp. 225, Verm. 277, Mass. 665, R. I. 226, Conn. 443, N. Y. 2,851, N. Jer. 1,249, Penn. 7,491, Del. 507, Md. 6,470, Dist. of Col. 176, Virg. 54,694, N. Car. 14,279, S. Car. 3,164, Ga. 592, Flor. 30, Ala. 792, Miss. 657, La. 671, Tex. 71, Ark. 271, Tenn. 23,628, Kentucky 601,764, Oh. 9,935, Mich. 59, Ind. 5,595, Ill. 1,649, Mo. 1,467, Ia. 59, Wisc. 11, Territories 3; and the *foreign* population was composed of persons from—England 2,805, Ireland 9,466, Scotland 658, Wales 171, Germany 13,607, France 1,116, Spain 21, Portugal

KENTUCKY.

5, Belgium 27, Holland 33, Italy 143, Austria 12, Switzerland 279, Russia 70, Denmark 7, Norway 13, Sweden 20, Prussia 193, Sardinia 1, Greece 1, Asia 3, Africa 4, British America 275, Mexico 42, Central America 1, South America 2, West Indies 41, and other countries 133.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	61,133	114	11,830	11,944	73,077	—	—
1800	179,371	741	40,343	41,084	220,955	147,373	202.3
1810	324,237	1,713	80,561	82,374	406,511	185,556	84.3
1820	434,644	2,941	126,732	129,673	564,317	157,306	33.8
1830	517,767	4,037	165,213	169,250	687,917	123,600	21.9
1840	590,253	7,317	182,253	189,575	779,328	919,111	13.3
1850	761,633	9,736	210,931	220,717	932,405	202,577	25.9

The statistics of the wealth, industry, productions, and institutions of the State, according to the census of 1850, and other official returns referring to the same period of time, are as follows:

Occupied Lands, etc.—Improved lands, 11,363,270 acres, and unimproved lands, 10,972,473 acres—valued in cash at \$154,330,262; whole number of farms under cultivation, 74,777; value of farming implements and machinery, \$5,169,037.

Live Stock.—Horses, 315,632; asses and mules, 65,609; milch cows, 247,475; working oxen, 62,074; other cattle, 442,763; sheep, 1,102,121; and swine, 2,361,163—valued in the aggregate at \$29,591,387. In 1840 there were in the State 395,353 horses, mules, etc.; 737,093 neat cattle of all kinds; 1,008,240 sheep; and 2,310,533 hogs.

Grain Crops.—Wheat, 2,140,322 bushels; rye, 415,073 bushels; Indian corn, 53,675,591 bushels; oats, 3,201,311 bushels; barley, 95,343 bushels; and buckwheat, 16,097 bushels. In 1840 the crops were as follows—wheat, 4,303,152 bushels; barley, 17,491 bushels; oats, 7,155,974 bushels; rye, 1,821,373 bushels; buckwheat, 3,169 bushels; Indian corn, 39,847,120 bushels.

Other Crops.—Rice, 5,633 (in 1840, 16,376) pounds; tobacco, 55,501,196 pounds; ginned cotton, 753 bales of 400 pounds; peas and beans, 202,574 bushels; potatoes—Irish, 1,492,437 bushels, and sweet, 993,134 bushels; hay, 113,655 tons; clover-seed, 3,230, and other grass-seed, 21,451 bushels; hops, 5,304 pounds; hemp—dew-rotted, 40,936 and water-rotted, 14,756 tons; flax, 7,793,123 pounds; flax-seed, 75,579 bushels; maple sugar, 437,345 pounds; cane-sugar, 234 hogsheds of 1,000 pounds; molasses, 40,047 gallons; wine, 8,093 gallons, etc. The value of orchard products was \$106,160, and of market-garden products, \$293,120. The annexed form will exhibit the staple crops of 1840 and 1850 comparatively:

Staples.	1840.		1850.		Movement.	
Tobacco	53,436,909	pounds	55,501,196	pounds	incr.	2,064,287 pounds, or 3.86 per cent.
Hemp—dew-rotted	9,992½	tons	40,936	tons	incr.	110,332,640 “ “ 492.17 “
“ water-rotted			14,756	“		
Flax			7,793,123	pounds		
Rice	16,376	pounds	5,633	“	decr.	10,683 “ “ 65.26 “
Ginned cotton	691,456	“	303,200	“	decr.	388,256 “ “ 56.15 “

Products of Animals.—Wool, 2,297,403 (in 1840, 1,736,347) pounds; butter, 9,377,363 pounds; cheese, 213,734 pounds; and the value of animals slaughtered during the year had been \$6,459,313. Silk cocoons were produced to the amount of 1,301 (in 1840, 737) pounds; and beeswax and honey to that of 1,156,939 pounds.

Home-made Manufactures for the year ending 1st June, 1850, were produced to the value of \$2,456,333. In 1840 the same class of goods were valued at \$2,622,462.

Manufactures.—Aggregate capital invested, \$60,000,000; value of raw material, fuel, etc., used and consumed, \$60,000,000; average number of hands employed, 00,000—males 0,000, and females 000; average monthly cost of labor—male \$600,000, and female \$60,000; total value of products during the year, \$60,000,000. The whole number of manufacturing establishments producing to the annual value of \$500 and upward was 3,471; and of these 8 were cotton factories, 25 woolen factories, 275 tanneries, and 45 iron works—20 for the manufacture of castings, 21 for pig iron, and 4 for wrought iron.

The *cotton* manufacture employs a capital amounting to \$239,000; value of all raw material, fuel, etc., consumed, \$180,907; average hands employed—males 131, and females 221; entire wages per month to—males \$2,707, and females \$2,070; value of entire products during the year, \$273,439. The annual quantity of cotton consumed was 3,760 bales, and the products consisted of 1,003,000 yards of sheeting, etc., and 725,000 pounds of yarn. Mineral coal used, 720 tons.

The *woolen* manufactures employ a capital of \$249,320; value of raw material consumed, \$205,287; average hands employed—males 256, and females 62; monthly cost of labor—male \$3,919, and female \$639; value of annual products, \$313,319. The quantity of wool consumed was 673,900 pounds, and there were produced in the year 373,034 yards of cloth.

The capital invested in the *tanneries* amounts to \$763,455; the value of raw material used was, in 1840–50, \$537,147; the average number of hands employed—males 377, and females 2; at a monthly cost of labor—male \$14,417, and female \$9; skins tanned, 69,330; and sides tanned, 392,400—together valued at \$935,267.

The *iron* interest is in accordance with the following schedule referring to the year 1849–50:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested	924,700	502,200	176,000	1,602,900
Ore used	72,010	—	—	72,010
Pig iron used	—	9,731	2,000	11,731
Blooms used	—	—	1,600	1,600
Mineral coal used	—	2,649	—	2,649
Coke and charcoal used	4,576,269	432,750	280,000	5,289,019
Value of all raw material, fuel, etc.	260,152	295,533	130,800	736,435

KENTUCKY.

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Hands employed—males.....number..	1,845	553	188	2,586
“ “ females..... “	10	20	—	30
Monthly cost of labor—male.....dollars....	87,855	18,889	5,867	57,111

“ entire products	604,087	744,316	299,700	1,648,053

The industrial establishments of Kentucky, comprised in the aggregate number, as before given, and not specially referred to, consist of the handicrafts usually found in agricultural countries, and several which may be considered peculiar to this State, as tobacco factories, rope-walks, bagging factories, etc., in which the great staples of the country are worked up and made ready for the market.

Foreign Commerce.—The internal position of Kentucky almost precludes it from a direct intercourse with foreign countries—its natural port is New Orleans, in the direction of which all its great rivers point, and from that port chiefly are its products and staples shipped, although a considerable quantity finds its way to the Atlantic ports *via* the Illinois River and Canal to Chicago, and thence by the great lakes to Dunkirk and Buffalo, and from those points to New York, etc., by railroad, canal, and river. Its exports in some measure are also sent *via* the Ohio River and Pittsburg. But if Kentucky does not export its merchandise directly, the official returns for a number of years have noticed direct exports, of which the following are the values—1837, \$17,782; 1838, \$8,932; 1839, \$0; 1840, \$2,241; 1841, \$0; 1842, \$17,306; 1843, \$8,145; 1844, \$25,627; 1845, \$17,469; 1846, \$32,953; 1847, \$26,956; 1848, \$25,971; 1849, \$19,738; and 1850, \$190,987. The shipping owned in the collection district of Louisville in 1850 amounted to 14,820 tons—the whole navigated by steam power, and employed in river navigation. Thirty-four steamboats were built in the State during the year ending 30th June, 1850, and these had an aggregate burden of 6,461 tons.

Internal Communication.—Kentucky is bountifully supplied with navigable waters, and in all its great rivers important improvements have been made by locks, dams, and canals. The principal of these are the works on the Kentucky, Green, Licking, and Big Sandy Rivers; and the Portland and Louisville Canal, overcoming the falls of the Ohio at Louisville, properly belongs to this State. This work, although less than three miles in length, is one of the most important improvements in the West; it is 50 feet wide at the top, and admits the passage of the largest river steamers. The fall between the two points at which it joins the river is 22½ feet, which is overcome by four locks. Almost the whole line is excavated out of solid limestone, and was completed in 1833 at a cost of about \$1,200,000. The cost of the improvements on the four interior rivers above mentioned amounted to \$2,133,580. Kentucky has also an excellent system of turn-pikes, and recently has commenced to build plank-roads. With regard to railroads, as yet about 130 miles only have been completed; but there are several vitally important works of this description in a state of forwardness, and which will be completed within the next two years. Of these the principal are the Kentucky portion of the Mobile and Ohio R. R., the Nashville and Henderson R. R., the Louisville and Nashville R. R., the Covington and Lexington R. R., the Maysville and Lexington R. R., and several others pointing to the south and south-east, to the Gulf of Mexico and the ports of the Atlantic; and the Maysville and Big Sandy R. R., which will connect with the lines terminating at Richmond, Petersburg, and Norfolk in Virginia. Upward of 600 miles of these projected lines are now (January, 1853) in process of construction, and a considerable length of the whole contemplated has been surveyed and partially located. The several railroads named (and others, no doubt, there are), when in full steam, will have a mighty effect on the interests of the State, even as local channels of trade; but when their importance to the North and South, being links in the great chains in those directions, is considered, their very existence becomes the lever of all connection between the two divisions of the Union. In this point of view, Kentucky to the West of the mountains, and New Jersey to the East, are on a par, both essential to the building up of a national system of roads to connect the extremes of the country. The influence of these roads, even in the prospective, is well illustrated in the rapid advance in the value of property. In 1845 the assessment roll amounted to \$225,488,161; in 1850 it amounted to \$299,331,465; and in 1851 it had increased to \$317,062,604; or in the latter year, which was one of great projects in matters of internal improvement, the increase amounted to \$17,751,139, or about 6 per cent. Such facts as these are lessons applicable to every State and to every individual who has at heart the advancement of his country in wealth and prosperity.

Banks, etc.—In January, 1851, Kentucky had 5 banks and 21 branch banks; the *Bank of Kentucky* (Louisville), has branches at Bowling Green, Dansville, Frankfort, Greenburg, Hopkinsville, Lexington, and Maysville; the *Farmers' Bank of Kentucky* (Frankfort) has branches at Covington, Henderson, Maysville, Mount Sterling, Princeton, and Somerset; the *Northern Bank of Kentucky* (Lexington), has branches at Covington, Louisville, Paris, and Richmond; the *South-eastern Bank of Kentucky* (Russellville), has branches at Hickman, Owensboro, and Smithland; and the *Bank of Louisville* has branches at Paducah and Flemingsburgh. There are also other banks at Paducah, Covington, and Newport. At the date above referred to the aggregate statistics of all the banks and branches then existing, were as follows: *Liabilities*—capital \$7,536,927, circulation \$7,613,075, deposits \$2,323,607, and due other banks \$1,256,559; and *assets*—loans and discounts \$12,506,305, stocks \$694,962, real estate \$419,070, other investments \$440,127, due by other banks \$2,451,155, notes of other banks \$550,879, and specie \$2,791,351.

Government, etc.—The present constitution of Kentucky was adopted in convention on the 11th June, 1850, and was subsequently ratified by the people by a vote of 71,563 in favor to 20,302 against it. The first State constitution was framed in 1790, and a second in 1799.

Every free white male citizen, 21 years of age, resident in the State two years, or in the county, town, or city one year next preceding the election, has the *right of suffrage*, but he shall have been for 60 days a resident of the precinct in which he offers his vote. The general election is held on the 1st Monday of August. All votes are given *viva voce*.

The *Legislature* consists of a Senate and House of Representatives. Senators, thirty-eight in number, are chosen in single districts, one-half the number biennially, and at the time of election must be citizens of the United States, thirty years of age, and resident in the State six years, and in the district one year next preceding the election; and representatives, one hundred in number, are chosen from single districts for two years, and must be twenty-four years of age, and resident of the State for two years—the last year of the district. Representation depends on the number of qualified voters. In 1857, and every eight years thereafter, a census is to be taken, and representation apportioned accordingly. The sessions of the Legislature are biennial, commencing 1st November (odd years). No session is to continue more than

KENTUCKY.

sixty days, unless prolongation is agreed upon by two-thirds of all the members elected to both branches of the Legislature. Teachers of religion, and persons holding offices of profit under the State or the United States, are ineligible; and members during their term, and for a year thereafter, can not be appointed or elected, except by the people, to any civil office of profit in the State created, or the pay attached to which is increased during such term; nor are collectors of the public moneys eligible, unless six months before the election their accounts are closed and settled. The Legislature can not grant divorces, or change of names, or sales of estates of persons under legal disabilities, nor change the venue in any criminal or penal prosecution by special legislation, but by general laws shall confer such powers upon the courts.

The governor and lieutenant-governor are chosen quadrennially by a plurality of votes; they must be thirty-five years of age, citizens of the United States, and inhabitants of the State for the six years next preceding the election. The governor is not eligible for two consecutive terms: he enters upon office the fifth Tuesday after the general election, and continues in office until his successor has taken the oath of office. He grants pardons, etc., and may *veto* a bill, but a majority of all the members elect of both houses negatives his objections, and the bill becomes law. The lieutenant-governor is *ex-officio* President of the Senate, *with the right to debate and vote*, and when there is a tie to throw a casting vote; and if the office of governor become vacant he, and after him the Speaker of the Senate, shall act as governor if the vacancy occur after the first two years of the gubernatorial term—if before, the people fill the vacancy.

The *administrative* officers of the government are—a Secretary of State, appointed by the governor; and the people elect a State Treasurer for two years, and an Auditor of Public Accounts, a Register of the Land Office, an Attorney-general, and other inferior officers for four years.

The *Judiciary* consists of a Court of Appeals, Circuit Courts, and County Courts. At Louisville there is a separate Chancery Court. The Court of Appeals has appellate jurisdiction only; the judges are elected for eight years by the people in districts, one every two years, and the judge having the shortest period to serve is chief justice. The judges must have been eight years practicing lawyers, and must be resident citizens, etc. Any three of the judges may constitute a court for the transaction of business. Circuit courts are established in each county, and for the election of judges of these courts the State is divided into twelve judicial circuits, each of which elects a judge to serve for six years. There is also a County Court in each county, consisting of a presiding judge and two associates, elected for four years, any two of whom may transact business. There are also in each county two justices of the peace, to hold office for four years. Attorneys for the Commonwealth, clerks of courts, surveyors, coroners, jailers, and assessors are elected in their several circuits, districts, or counties, and their terms of office are the same as that of the presiding judge of the circuits, districts, etc. Each county elects a sheriff for two years, and each justice's district a constable.

"A commission to revise and arrange the statute law of the State, and another to prepare a code of practice, civil and criminal, shall be appointed by the Assembly at its first session."

Regarding *slavery*, the constitution provides that no laws shall be passed for the emancipation of slaves without the consent of their owners, or without paying the owners, prior to emancipation, a full equivalent, and providing for their removal from the State. Owners of slaves may emancipate them, saving the rights of creditors. Immigrants to the State may bring their slaves with them, but slaves are not allowed to be introduced as merchandise, nor under any circumstances slaves imported into the Union since January 1st, 1793. Masters must treat their slaves humanely, or the slaves shall be sold. Slaves shall not have the right of an inquest by the Grand Jury, but shall not be deprived of an impartial trial by a petit jury. Free negroes or mulattoes coming into or refusing to leave the State, are deemed guilty of felony, and may be sent to the Penitentiary.

To amend the constitution, a majority of the members elect of each house must, within the first twenty days of a regular session, vote to lay the matter before the people, and at the next general election a majority of those entitled to vote for representatives, must vote therefor; the Assembly, at its next regular session, must pass a vote to lay the matter again before the people, and the majority of all the votes, as before, must be given therefor, and then at its next session, the Assembly shall appoint an election for members to compose the convention, which shall consist of as many members as there may be in the House of Representatives, and no more—such convention to meet within three months after election for the re-adopting, amending, or changing the constitution.

The *State militia* of Kentucky, according to a return of 1851, consists of \$1,840 men of all arms, of which 4,805 are commissioned officers, and 77,085 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 43 are general officers, 145 general staff officers, 1,658 field officers, and 3,459 company officers. According to the constitution, all free white, able-bodied male persons in the State, between 18 and 45 years of age, except such as are by law exempt, compose the militia of the State, and elect their own officers.

The principal *State institutions* for the relief of the unfortunate are—the Lunatic Asylum, at Lexington, which, on the 1st January, 1850, had 366 inmates; the Deaf and Dumb Asylum, at Danville, which had at the same date 48 pupils; and the Institution for the Blind, at Louisville, which had 38 pupils. A second Lunatic Asylum, at Hopkinsville, is nearly completed.

Finances, Public Debt, etc.—The ordinary receipts into the treasury for the year ending 10th October, 1851, amounted to \$738,245 52, and the ordinary expenditures for the same year to \$733,658 40—excess of income (including balance from 1850), \$4,589 12. The value of taxable property in 1851 was \$317,082,604—increased since 1850, \$17,751,139. The rate of taxation is 17 cents on every \$100 worth of property (10 cents for the ordinary expenses, 5 cents for the sinking fund, and 2 cents for the school fund). The objects of taxation are—*general*: land, 19,845,672 acres, valued at \$146,477,116; town lots, 34,357—\$35,742,374; slaves, 196,138—\$63,656,217; horses, 892,998—\$12,658,510; mules, 49,694—\$2,264,009; jennies, 2,476—\$174,953; stores, 3,718—\$9,362,457; surplus cash, bonds, etc., \$39,092,992; and *specific*: carriages and barouches, 3,468—tax \$1 each; buggies, 4,679—tax 50 cents each; pianos, 1,833—tax \$1 each; gold spectacles, 1,422—tax 50 cents each; gold watches, 6,943—tax \$1 each; silver lever watches, 3,053—tax 50 cents each; studs, jacks, and bulls, 2,357—taxed \$5,636. Total white males over 21 years old who pay a poll tax for *county purposes*, 157,410.

The public debt has been chiefly contracted for the purposes of internal improvement. In 1829 so economically had the government been administered, that there was a surplus in the treasury of some \$200,000. This was distributed among the counties, and applied to internal improvements; and stimulated by the resulting benefits and the "new impulse" which had seized upon the adjoining states, Kentucky, in 1835, borrowed \$1,000,000, to be expended also on turnpike roads, of which the country was then woefully deficient; other sums were subsequently borrowed, to be applied in the same way, for turnpikes, for railroads, and for locking, and damming, and creating slackwater navigation in the Kentucky, Green, and Licking rivers. For these purposes, also, a large share of the school fund was appropriated, for which the State now pays interest. The entire debt on the 1st January, 1852, was \$5,726,307 80, composed as follows: debt to

KENTUCKY.

Individuals, \$4,247,537 40; to Southern Bank of Kentucky for stock, \$150,000; to what is known as the Craddock Fund, \$2,000; and to Board of Education, \$1,326,770 40. To pay the interest and principal of this debt, the State has a sinking fund, the receipts into which, in 1851, were \$531,044 54, and the expenditures were \$506,445 06—excess of receipts, \$24,589 48. The sources of income to this fund are—a tax from banks and dividends on stocks in the same, premiums on State bonds, dividends on stocks in turnpike-roads, dividends for slackwater improvements, of 5 cents on \$100 worth of property listed for taxation, tax on brokers and insurance companies, excess of ordinary revenue at the end of each fiscal year over \$5,000. The interest on the State debt has been punctually paid and some portion of the principal—Kentucky stocks are always held at a large premium in the markets.

Federal Representation.—Kentucky, in accordance with the ratio of apportionment adopted by the act of 23d May, 1850, sends 10 representatives to the national legislature.

Education.—The school fund in December, 1851, amounted to \$1,400,270, consisting of State and bank stock, and besides this the 2 per cent. tax, before named, is devoted to school purposes. The common schools are under a superintendent of public instruction, elected by the people for four years. According to his exhibit at the above date 99 counties and 5 cities and towns had made reports; the number of children reported as attending the district schools was 186,111, and the average attendance was 74,343. Money distributed to the reporting counties, cities, and towns \$111,666 60, the same having been paid from the interest on the permanent fund and 2 per cent. tax. These statistics embrace only the schools connected with the State system; the number of children in the State between the ages of 5 and 16 years was 205,755, many of whom are doubtless attending the numerous private schools and academies which exist in every part of the State. The principal collegiate institutions in the State are—Transylvania University, at Lexington, founded 1798—in 1850 it had 7 professors, 610 alumni, and 40 students, and its library contained 14,000 volumes; St. Joseph's College, at Bardstow, founded 1829 (Catholic)—in 1850 it had 15 professors, 196 alumni, 155 students, and a library of 5,000 volumes; the Center College, at Danville, founded 1820—in 1850 it had 7 professors, 363 alumni, and 152 students, and 5,500 volumes in its library; Augusta College (Methodist), at Augusta, founded 1825—in 1850 it had 4 professors, 60 alumni, 51 students, and a library of 2,500 volumes; Georgetown College (Baptist), at Georgetown, founded 1840—in 1850 it had 7 professors, 80 alumni, and 66 students, and a library of 6,500 volumes; Bacon College, at Harrodsburg, founded 1836—in 1850 it had 5 professors and 75 students, and its library contained 1,200 volumes; Western Military Institute, at Drennon Springs, founded 1847—in 1850 it had 10 professors and 150 students, and a library of 1,000 volumes; and Shelby College, at Shelbyville—in 1850 it had 4 professors and 93 students, and a library of 4,000 volumes; the Western Baptist Theological Institution, at Covington, was founded in 1840, and in 1850 had 4 professors and 18 students, and a library of 2,000 volumes. There is a law school attached to the University at Lexington, and another to that of Louisville—both have 3 professors, and the former had in 1850 75 students and the latter 52 students. Medical schools are also attached to these universities—that attached to Transylvania University was founded 1818, and in 1850 had 7 professors, 214 students, and 1,351 graduates, and that to Louisville University, founded 1837, 7 professors, 376 students, and 53 graduates. The law and medical schools of the University of Louisville are its most flourishing and important departments.

Public Libraries.—One State library, 9,000 volumes; one social library, 3,500 volumes; ten college libraries, 37,150 volumes; ten students' libraries, 7,190 volumes; three academic and professional libraries, 4,000 volumes; one library of scientific and historical society, 1,500 volumes; one public school library, 1,100 volumes; total, 27 libraries, 63,440 volumes.

Periodical Press.—The whole number of periodicals published in Kentucky in 1850 was 64, of which 27 were newspapers devoted to whig and 12 devoted to democratic principles, the remainder being devoted to neutral politics, literature, religion, etc. Of the total number, 9 are published daily, and circulate at each issue an aggregate of 23,163 copies; 5 tri-weekly (1,356 copies); 4 semi-weeklies (4,000 copies); 41 weekly (21,412 copies); 1 semi-monthly (5,000 copies); and 7 monthly (5,150 copies). The monthly publications are—the "Methodist Monthly," at Frankfort; the "Baptist Review," the "Ciceronian Magazine," the "Examiner," and the "Medical Journal," at Louisville; the "Gazette," at Covington, and the "Delphian Oracle," at Georgetown College. The principal daily newspapers are—the "Democrat," "Journal," "Advertiser," "Courier," "Journal of Commerce," published at Louisville. Daily papers also published at Covington, Lexington, and Frankfort.

Religious Denominations.—The statistics of the several religious denominations in 1850, according to the census of that year, were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	789	290,460	\$571,655	Ger'n Ref.	—	—	\$—	R. Catholic.	48	24,240	\$336,910
Christian.....	112	48,040	165,725	Jewish.....	1	600	13,000	Swedenb'g.	—	—	—
Congregat'l.	—	—	—	Lutheran....	5	2,850	21,800	Tunker	1	200	200
Dutch Ref.	—	—	—	Mennonite.	—	—	—	Union	31	11,600	18,000
Episcopal.....	17	7,050	112,150	Methodist..	522	167,860	462,955	Unitarian..	1	700	15,000

Friends.....	—	—	—	Presbyter'n.	222	99,006	492,303	Minor Sects	51	8,650	27,150

Making a total of 1,818 churches, having accommodation for 672,093 persons, and church property valued in cash at \$2,259,998; or 1 church, accommodating 370 persons, to every 540 inhabitants, and valued as property at \$1,243. Kentucky is a *diocese* of the Protestant Episcopal Church, and also constitutes the Roman Catholic diocese of Louisville.

Pauperism and Crime.—The whole number of paupers who received support within the year ending 1st June, 1850, was 1,126, of which number 971 were native born, and 155 foreigners; and the whole number on the pauper list at that date was 777, of which 690 were natives and 87 foreigners. Cost of support for the year, \$57,543. The whole number of convicts in the State Penitentiary, on the 1st December, 1850, was 159—16 more than were incarcerated at the same period of the year 1849.

Historical Sketch.—It was not until the middle of the eighteenth century that the white man's foot-print was traced in Kentucky. The region was one great hunting-ground and battle-field for the savages of the North and South. Among the earliest American explorers were Boone and Knox, and these, after incredible perils, returned to Virginia and Carolina, spreading everywhere the fame of the backwoods. Then came Bullitt, Harrod, and Henderson. The foundation of Boonesboro' was laid by Daniel himself, who had brought to the banks of the Kentucky the first white women—his wife and daughter. Kenton, Calloway, and Logan arrived next. Kentucky was now made a county of Virginia, and in 1777 the first court was held at Harrodsburg.

KENTUCKY.

A review of the political history of Kentucky presents but few prominent landmarks. The war of the Revolution closed, but left the Kentuckian in constant danger of Indian outrage. The citizens assembled at Danville, which became afterward famous for conventions west of the mountains, and soon came to the conclusion that the government at Richmond was too far distant to be relied upon for the means of defending the scanty settlements from the savage. Two other conventions at Danville recommended a peaceable and constitutional separation from Virginia. The third convention sent a petition to Richmond, and in 1786 an act was passed complying with the desires of Kentucky; but from several causes the separation was not completed, chiefly from a disinclination of the people to bind themselves to the old confederation, and for some time after this period the Kentuckian sought to obtain an independent nationality. A fourth convention at Danville only served to inflame more and more the minds of the people against the Central Government, and a report having become current that Mr. Jay had ceded the navigation of the Mississippi River to Spain, the utmost ill-feeling was the consequence. A fifth convention met, and on petition, a delegate to Congress was allowed by Virginia; but the Constitution having been adopted, Congress turned over to the new government all action upon the claims of Kentucky. The whole State was again in ferment at this delay, and at this early period the refusal of Congress was attributed by able minds to the jealousy of New England of any increase of Southern power, and this jealousy was expected to continue under the new government.

Taking advantage of this state of things in the West, Spain proposed clandestinely through her minister peculiar commercial favors and facilities to Kentucky if she would erect herself into an independent government. These propositions had the effect of disturbing the public mind, and the risk of a severance from the Union was imminent. But a sixth and seventh convention were held at Danville; and though party politics ran high in the debates, constitutional measures at length prevailed, and an address to Congress was moved and voted. Two more conventions were subsequently held, and the question was determined by Kentucky becoming a separate territory in 1790, and its admission into the Union on the 1st June, 1792.

Indian wars continued frequent on the frontiers, and complaints of the inefficiency of the federal powers were again heard. The whisky tax also became oppressive, and the American policy toward the French Republic was denounced in every cabin. Enthusiasm was at its height, and the agents of the mad minister Genet were received in triumph throughout the West. It was even proposed to raise troops in Kentucky to make a descent on New Orleans. Democratic clubs were extending everywhere, and even the governor did not scruple to write to the Secretary of State, "I shall feel but little inclination in restraining or preventing my fellow-citizens, etc., to gratify or remove the fears of a minister of a prince who openly withholds from us an invaluable right, and who secretly instigates against us a savage and cruel enemy." The old idea of independence was again mooted, but the storm passed over.

In the ten or twelve years which succeeded, and which included the period of negotiation for the navigation of the Mississippi, and then for the purchase of Louisiana, Kentucky was again destined to be agitated to her very centre. The treaty of 1795 with Spain gave to the United States the right of deposit at New Orleans, and the freedom of the river. Pending the negotiations, the Governor of Louisiana had approached some leading Kentuckians, with the view of a different treaty, but action on these premises was stayed by federal interference, and the faithlessness of the Spaniard was soon made evident. Seven years now passed in comparative quiet and prosperity, when the whole nation was excited by the intelligence that the Spaniards had violated the treaty by a denial of the right secured by the treaty of 1795, and it became known that even Louisiana itself had been retroceded to France.

The purchase of Louisiana by the United States would forever have composed the turbulent elements of the West but for the appearance there, at that period, of a man whose genius was of the most profound character, whose popularity had been wide, but whose career and ambition had been prematurely arrested. Aaron Burr was prepared for any great and desperate enterprise, and the West seemed to promise the widest field for his abilities. What the designs of Burr really were, has never, perhaps, been fully divulged. The probability is, they have been exaggerated; nor can any faith be placed in Eaton's story about the assassination of the President, the corruption of the navy, and the violent overthrow of Congress. Thirty years after this, when on his deathbed, Burr solemnly denied these treasonable designs. The policy, if not the ambition or virtue, of Burr was opposed to such a course. The material that he could rely on was entirely in the West; and within the bounds of a not very clearly ascertained national policy or duty at that period, an army of adventurers might be found to precipitate themselves upon the Spanish colonies of the South-west, and entirely revolutionize them. The success of the citizen Genet, a few years before, evinced this, but now the times were even riper, as the Spanish troops, in the first heart-burnings of Spain after the cession to Bonaparte, had been ordered to our frontier, and an American army, under Gen. Wilkinson, was ready to check their advance. War with Spain was daily expected.

This Southern empire, or republic, which loomed up so magnificently in the mind of Burr, was not intended to dispossess Spain; only a part—it is difficult to say how much—of the territory lately purchased by our own government, was to be included, certainly New Orleans. The result of these transactions, however, belong to general history, and hence, in this connection, may be passed over in silence. Suffice it to say, that Burr was tried for treason, but though acquitted, the stain of the imputation cast on his patriotism has never been effaced; and to our own times, and in every school, his *treason* and its consequences are held before the youth of our land as a warning to their ambition. The lesson thus taught, however, seems to have little effect, else the extension of the area of freedom would still be more limited than it is found to be; in fact, the dream of Burr has become a real existence; and what he coveted—Louisiana, Texas, New Mexico, and California—are parts and parcels of the Union. Burr's great fault, then, appears to be, that he was in advance of the times in which he lived.

Kentucky took an active part in the war of 1812. When the United States proclaimed against Great Britain, the war was hailed with acclamation, and supported with zeal by the inhabitants. When the news of the surrender of General Hull reached the State, it excited no feelings but those of a warmer enthusiasm in the cause. The whole quota of the State, consisting of upward of 5,000 men, was composed of volunteers, and was called into active service. In addition to these a force of mounted volunteers was raised, and at one time upward of 7,000 Kentuckians are said to have been in the field. So universal was the desire to share in the dangers and glories of the war, that the executive authority was obliged to interpose, to limit the numbers. During this period the chair of the State government was filled by Isaac Shelby, a hero of the Revolutionary War, who, at an advanced age, manifested the same enterprise and bravery that had gained him an honorable distinction in the battle of King's Mountain. At the battle of Frenchtown, and the barbarous massacre that followed it, many of the best citizens of Kentucky were destroyed; and the impetuous, but ill-regulated, courage of her militia at the unfortunate attempt to relieve Fort Meigs, proved fatal to a large body of her troops.

Since the termination of this war by the treaty of 1815, the history of Kentucky is undisturbed by any stirring events.

Its progress has been rapid, and the development of the country in agriculture and other national industries has occupied the minds of the people in preference to warfare and strife. True, the war with Mexico was engaged in by many of its best citizens, but the scene of action was too far distant to affect the fortunes of the State. This happy termination of the feuds and fights of the first periods of its history, has resulted in Kentucky becoming one of the wealthiest and most prosperous States of the Union, and in many respects she stands conspicuous as an example of wisdom and patriotism for the instruction of future political communities.

FRANKFORT, on the Kentucky River, is the political capital of the State.

KENTUCKY RIVER, *Ky.*: one of the largest and most important tributaries of the Ohio River, from which the State derives its name, has three principal sources, by the north, middle, and south forks, which unite in Owsley co. The most remote source is that of the north fork in Letcher co., but all three are in the Cumberland Mountains. The length of the river to the junction is 260 m., and in a direct line only 108 m.; its general course being N. W. The navigation of this river has been improved by a system of dams and locks, creating slackwater, and affording a least depth of six feet, to the confluence of the forks. There are 17 dams and 17 locks, giving a rise of 20 to 25 feet each. The locks are 178 feet long, and 88 feet wide, allowing boats of heavy tonnage to pass. The whole ascent is 216 feet. For beauty and grandeur of scenery, the river is not surpassed by any in America, excepting the Hudson. For a great part of its course it runs through a deep channel in lime-rock, as it were worn by attrition. Coal is found in its banks at several localities, and a species of marble is found which is capable of a fine polish.

KENTUCKYVILLE, p. o., Susquehanna co., *Penn.*: 120 m. N. N. E. Harrisburg.

KENYON, p. o., Jackson co., *Ark.*: 67 m. N. E. Little Rock.

KEOKUK COUNTY, *Ia.* Situate S. E. centrally, and contains 576 sq. m. Drained by N. and S. forks of Skunk r., which unite in the S. E., and in the N. by S. fork of English r., a branch of Iowa r. Surface rolling or almost level. Soil a sandy loam of great fertility, producing all the cereals in abundance, and feeding large dairies. It has excellent water-power. Farms 826; manuf. 12; dwell. 820, and pop. —wh. 4,822, fr. col. 0—total 4,822 *Capital*: Lancaster.

KEOKUK, p. v., Lee co., *Ia.*: on W. bank of Mississippi r. (at the foot of the Lower Rapids), 3 m. above the confluence of Des Moines r., 86 m. S. by E. Iowa City. It has a good landing and levee. The main body of the town is built back upon the bluff, which is nearly level. It stands upon a basis of limestone rock, of the finest quality, affording inexhaustible supplies for building. The settlement of this place was originally owing to the existence of the "Lower Rapids" of the Mississippi r., at the foot of which it is situated. These are eleven miles in length, running over a limestone bed. The fall in that distance is 24 feet. Hence, at low water, steamboats are compelled to here discharge their freight, towing it over the rapids with lighters. A company has been incorporated to build a canal around these rapids, sufficient to pass large steamers. The water of the canal will also be used for machinery. The locality of Keokuk, at the confluence of the Des Moines r., makes it the depot, and entrepôt of the fertile valley of the Des Moines, which contains more than half the population and agricultural wealth of the State. Pop., in 1840, was about 150; in 1845, 460; 1850, 2,773; 1852, 3,968. The town contains 2 steam flour-mills, 3 steam saw-mills, 2 large foundries, between 80 and 90 stores, several hotels, a good market, and steam-ferry. The number of steamboat arrivals in 1851 and 1852, was 1,590. Here is the Medical Department of the State University, which is well endowed, and has 7 professorsships. There are 6 churches, 1 hospital, 3 academies, 3 public schools, 3 select schools. The newspapers are "The Keokuk Dispatch" (dem.), "Whig and Register" (whig), a medical journal, and a temp. newspaper.

KEOSAUQUA, p. v., and cap. Van Buren co., *Ia.*: on the N. or left bank of Des Moines r., 66 m. S. S. W. of Iowa city. It contains the C. H., jail, etc., numerous stores, and about 705 inhabitants; and is a place of shipment for a fer-

tile and extensive district of country. The "K. Jeffersonian" (dem.) is published weekly.

KERSEY'S, p. o., Elk co., *Penn.*: 118 m. N. W. Harrisburg.

KERSHAW DISTRICT, *S. Car.* Situate N. E., and contains 888 sq. m. Lynch's cr., a branch of Great Pedee r., forms its N. E. line, into which Little Lynch cr. flows. Wateree r. flows S. through the W., and has many small tributaries. Surface diversified; soil on the streams of great fertility, the higher lands are somewhat sandy, but are all productive. Corn is the chief agricultural product. It has good pastures, on which are fed large numbers of cattle and sheep. Its water-power is large and important. Farms 888; manuf. 21; dwell. 923, and pop.—wh. 4,631, fr. col. 214, sl. 9,578—total 14,478. *Capital*: Camden. *Public Works*: Camden Branch R. R.

KEWANNA, p. o., Fulton co., *Ind.*: 80 m. N. Indianapolis.

KEWASKUM, p. o., Washington co., *Wisc.*: 63 m. E. N. E. Madison.

KEWAUNEE COUNTY, *Wisc.* Situate N. E., and contains 342 sq. m. It lies on the neck of the peninsula between Green Bay and Lake Michigan, and is drained by East and West Twin rivers, Scarborough r., and other small streams. Surface uneven, and covered with heavy timber; soil little cultivated as yet. The county is but partially settled, and the timber business is the chief pursuit. Unorganized in 1850. *Capital*: Kewaunee.

KEWAUNEE, v., p. t., and cap. Kewaunee co., *Wisc.*: on the W. side of Lake Michigan, 137 m. N. E. Madison.

KEWENAW PENINSULA, *Mich.*: a part of Houghton co., projecting into Lake Superior from its southern shore. Its length is about 43 miles, with an average width of 15 miles. It is surrounded on the N. W., N., and E. by the lake, on the S. by Kewenaw Bay, and on the S. W. by Portage lake, leaving an isthmus, which is but a mile across, and is used as a portage by the Indians and traders, with whom it has been the custom, when arriving here, to transport on their backs their peltries and canoes to the opposite shore. The peninsula is drained by a great number of small streams, which afford ample hydraulic power; and the same may be said of the whole coast of the mineral district of the trap rock elevations, extending from Kewenaw Point to Presque Isle river. The principal harbors are the Copper, Eagle, and Carp rivers, Kewenaw Bay, and Ontonagon river, which has a depth of six feet over the bar at the en-

trance. The post-offices are, Algonquin, Kewenaw Bay, North-West Mine, Ontonagon, and Peninsula. The soil of the peninsula is rich, and very favorable for cereals, as the climate is comparatively mild, on account of the moderating effect of a large body of water on three sides. At Fort *Wilkins* the *meteorological observations* instituted by order of the General Government, proved the mean temperature to be two degrees milder than at Fort Brady, although the latter post is 60 miles farther south. The Hon. Truman Smith, who spent a season in examinations of the mining country, pronounces it to be decidedly more favorable for agriculture than large portions of New England, including the northern part of Connecticut. Corn, potatoes, and summer and winter grains have yielded fair returns. The principal mining operations are for copper and iron, though gold, silver, lead, and other metals are found. The greater part of the copper is obtained pure in its native state, some containing a portion of silver. Masses are frequently raised of many hundred weight, and often give great labor in their removal from the deep shafts. The shipments of native copper and ore for the year 1850 were equal to 4,000 tons of copper, and for 1851 equal to the consumption of the United States, or about 6,000 tons. The iron mines have been worked very extensively the past two years, and there are some 80 organized companies engaged in active operations in the vicinity of the celebrated iron mountains. The metal produced is remarkable for malleability, and peculiarly adapted to boiler plate and wire. By an act of the General Government passed Sept. 26th, 1850, the mineral lands of this whole region were thrown into the market with the rights of pre-emption as to occupants of other public lands; and to occupants and lessees the privilege of purchasing one full section and no more, at the minimum price of \$2 50 per acre. The State of Michigan sent to the Washington National Monument a block of native copper 8 feet long, 1½ feet wide, and 2 feet deep, polished, and bearing this inscription:

FROM
MICHIGAN,
"AN EMBLEM OF HER TRUST IN THE UNION."

KEWENAW BAY, p. o., Houghton county, *Mich.*: on Lake Superior, 886 m. N. N. W. Lansing. Kewenaw (or Kew-y-wee-non) Bay is an indentation of Lake Superior, on its southern shore. It is an inlet extending into the Upper Peninsula, dividing a peninsula of the same name on the N. from the mainland on the opposite side.

KEY PORT, p. o., Monmouth co., *N. Jer.*: on a cove of Raritan Bay, 82 m. E. N. E. Trenton. Great efforts have been made of late years to bring this place into notice, and with some success. It is eligibly situated for a port, and has excellent water accommodation. The southern route of railroad to Norfolk it is intended shall commence here, and it is also the N. terminus of a plank road to Trenton and Philadelphia. Steamboats run regularly to and from New York City—distance in a direct line, 24 miles.

KEYSBURGH, p. o., Logan co., *Ky.*: 156 m. S. W. Frankfort. KEYSBURGH, p. o., Pike county, *Ill.*: 77 m. W. S. W. Springfield.

KEYBER'S BRIDGE, p. o., Alleghany co., *Pa.*: 176 m. W. N. W. Annapolis.

KEYSPORT, p. v., Clinton co., *Ill.*: on the W. bank of Kaskaskia r., 81 m. S. by E. Springfield.

KEY STONE, p. o., Perry county, *Penn.*: 23 m. W. Harrisburg.

KEYSTONE, p. v., Jackson co., *Ohio*: on a branch of Laccoon cr., 69 m. S. S. E. Columbus. Here are extensive iron works.

KEYSVILLE, p. v., Charlotte co., *Virg.*: 66 m. S. W. by W. Richmond.

KEYTESVILLE, p. v., and cap. Chariton co., *Mo.*: on the E. side of Muscle Fork of Chariton r., near its confluence, and about 15 m. from the Missouri r., 74 m. N. W. Jefferson City. Pop. 954.

KEY WEST, p. v., port of entry, and cap. Monroe co., *Flor.*: on the island so called, about 480 m. in a direct S. S. W. line from Tallahassee. Lat. 24° 32' N., and long. 81° 47' 30" W. The island is 4 m. long by 1 m. in its widest part, and, including the salt pond, contains 197 acres. It is of coral formation, with little available soil, and very low and flat, nowhere 20 feet above the sea. Dogwood, Madeira-wood, mangrove, and some other species, cover the unoccupied parts, and the cocoa-nut, orange, and guava, flourish luxuriantly where they can find soil sufficient. The key was granted by the Spanish crown, some 40 years ago, to John P. Salas, and in Dec., 1821, it was purchased of him by Col. Simonton, who took possession in person on the 22d Jan., 1832, and in the following April he erected thereon the first small house. In April, 1823, a custom-house was established here, and it was made a station for the Gulf squadron. In 1832 it was made a military post, but the barracks were not completed until 1845. The buildings are large, airy, and commodious, and are placed on three sides of a quadrangle, the open side being toward the sea. Mrs. Mallory, mother of Senator Mallory, was the first white female that settled on the island. This was in 1823, and for a long time she was without a single companion of her sex. As pioneer matron of the place she was presented with a choice lot of land, on which she has erected a mansion, and now occupies it as a boarding-house. John Halleck, now a printer in Washington City, was the first white child born on the key—this was in Aug. 1829. From these small and recent beginnings, Key West has grown to be an important and prosperous place of about 2,387 inhabitants. It is the largest town in Florida, and in 1850 contained a court-house, jail, the latter a substantial stone building, 30 feet square, the U. S. District Court, which has cognizance of all wrecks and disasters, the State Circuit Court, the Marine Hospital, etc., and had 26 stores, 10 warehouses, 4 look-out cupolas, 4 churches, 11 wharves, and 650 dwellings. The Marine Hospital is 100 feet by 45, in the shape of the letter H; it is a handsome building, well ventilated, and commodious. The churches are Episcopal, Baptist, Methodist, and Roman Catholic—small but neat buildings. There are 4 private schools, and 1 county school—the latter open free to the fatherless only. Fort Taylor is situate at the N. W. angle of the island, within the main entrance to the harbor; it is built on an artificial island, made by the deposit of many thousand tons of stone. It stands about 1,000 feet from the shore, and is 700 feet long in the rear, and 250 deep. The front façade is 253 feet within the bastions, the curtains being of the same length as the front. It is very substantially built, and has cost about \$1,500,000. The harbor is capacious, safe, and easy of access. It may be enlarged by several different channels, the principal one being at the N. W. angle of the island—ships of 22 feet draft can enter there with safety. It is the only port admitting such between Pensacola and Hampton Roads. The principal business of Key West is wrecking, but numbers are employed in fishing, sponging, salt making, and other similar occupations. Wrecking is a business peculiar to the reefs, and a matter of the highest importance. (On this subject, see "Hunt's Merchants' Magazine," for Jan., 1852.) Sponges abound on the reefs, and the people are making a profitable business in gathering them. A large portion of the population comes from the Bahama Islands, and are called couch-men, from their skill in diving, and the part of the city this class inhabits is called Couchtown. Many of the leading merchants are from New England. The position of Key West is important; it is the *Key* of the United States to the Florida Pass and the Gulf of Mexico; and hence it has been strongly fortified. The light-house stands on the highest ground of the island, and can be seen 16 miles at sea; and there is a

light-ship anchored on the reef at the W. entrance of the harbor. There is also a substantial iron lighthouse on Sandy Key, 11 m. S. S. W. At the E. part of the island there is a natural salt pond, from which 80,000 bushels of salt are annually manufactured. The steamers to Havana and the Isthmus touch here regularly, and afford an opportunity for visiting it, and conveying to its sunny shores and fine climate the invalid of the North. In 1850, 66 vessels (3,723 tons) cleared, and 68 vessels (5,379 tons) entered the port. Shipping owned by residents, 6,766 tons, of which 4,415 was registered tonnage. Of the remaining tonnage, 27 vessels (1,539 tons) were wreckers, and 8 vessels (720 tons) were engaged in coasting and the fisheries.

KEZAR FALLS, p. o., York co., *Me.*: 91 m. S. S. W. Augusta.

KICKAPOO, p. v., Peoria co., *Ill.*: 66 m. N. Springfield.

KICKAPOO, p. o., Anderson county, *Tex.*: 156 m. N. E. Austin City.

KIDDVILLE, p. o., Clark county, *Ky.*: 44 m. E. by S. Frankfort.

KIDRON, p. v., Cherokee Nation, *Ind. Ter.*: on the W. side of Sullivan cr., 17 m. above its confluence with the Arkansas. Dwight mission station is located here, and also a flourishing school for the education of Indian youth. The stream is navigable for keel boats.

KIDRON, p. v., Coweta co., *Ga.*: on a branch of Flint r., 76 m. N. W. Milledgeville.

KILGARE, p. v., Carroll co., *Oh.*: 107 m. E. N. E. Columbus.

KILLAMOOK river, *Oreg. Ter.*: a stream emptying into the Pacific Ocean, in 45° 38' N. lat. Its sources are almost interlocked with those of Tualatin and of the Willamette.

KILLBOURNE, p. o., Delaware co., *Ohio*: 21 m. N. Columbus.

KILLBUCK, p. o., Cattaraugus co., *N. Y.*: 253 m. W. by S. Albany.

KILLBUCK, p. o., Ogle co., *Ill.*: 163 m. N. N. E. Springfield.

KILLBUCK, t. and p. o., Holmes co., *Oh.*: 64 m. N. E. Columbus. Drained by Killbuck and its tributary creeks, which are fine mill-streams. Surface diversified; soil deep and fertile. Oxford, on the E. side of Killbuck, is the principal village. Pop. of t. 1,245.

KILLIAN'S MILLS, p. o., Lincoln co., *N. Car.*: 184 W. by S. Raleigh.

KILLINGLY, t. and p. v., Windham county, *Conn.*: 44 m. E. by N. Hartford. Drained by Quinnebaug r. and its branches, which afford valuable mill-power. Surface uneven and rough; soil generally adapted to grass—on the streams, very fertile. There are, besides the principal v., several others, at which extensive manufactures are carried on. The Norwich and Worcester R. R. skirts the Quinnebaug in this t., and the New York and Boston (direct) R. R. will pass through its N. part. The manufactures of the t. consist chiefly of cotton goods, but there are also numerous handicrafts of minor importance. The "Windham County Telegraph" (whig), is issued weekly. Pop. of t. 4,545.

KILLINGTON PEAK, *Verm.*: one of the highest culminations of the Green Mountains. It is located in the S. part of Sherburne township, and has an elevation of 2,924 feet above tide-water.

KILLINGWORTH, t. and p. o., Middlesex co., *Conn.*: 82 m. S. by E. Hartford. Drained by Hammonasset and Menunketesuk rivers, which empty into Long Island Sound. Surface uneven—in the N. rough; soil sandy and gravelly loam. It is a good farming t., and has excellent dairies. Pop. 1,104.

KILMAHNOCK, t. and p. v., Piscataquis co., *Me.*: 94 m. N. N. E. Augusta. Drained by Piscataquis r., and several of its affluents, one of which is the outlet of Otter Pond. Surface and soil adapted to grazing. The v. lies on the S. side of the Piscataquis, and has several mills, etc. Pop. of t. 322.

KILMAHNOCK, p. v., Lancaster co., *Virg.*: on Chesapeake Bay, 54 m. E. by N. Richmond. It contains about 200 inhabitants. The vicinity is a fine timber region.

KILMICHAEL, p. o., Choctaw county, *Miss.*: 65 m. N. E. Jackson.

KIMBALL'S LANDING, De Soto par., *La.*: on the S. end of Bayou Pierre Lake, 176 m. N. W. Baton Rouge.

KIMBERLIN, p. o., Giles county, *Virg.*: 192 m. W. by S. Richmond.

KIMBERTON, p. v., Chester county, *Penn.*: 68 m. E. by S. Harrisburg.

KIMBOLTON, p. o., Guernsey county, *Oh.*: 88 m. E. by N. Columbus.

KIMULGA, p. o., Talladega co., *Ala.*: on the Coosa r., 83 m. W. Montgomery.

KINCANNON'S FREEY, p. o., Meigs county, *Tenn.*: 120 m. E. S. E. Nashville.

KINCARA, sta., Burlington co., *N. Jer.*: on the Camden and Amboy R. R., 4 m. W. of Bordentown.

KINDER, p. o., Hancock county, *Ind.*: 26 m. E. by N. Indianapolis.

KINDERHOOK, p. v., Van Buren co., *Ark.*: on the N. side of Little Rock r., 68 m. N. Little Rock.

KINDERHOOK, p. v., Pike county, *Ill.*: 77 m. W. S. W. Springfield.

KINDERHOOK, t. and p. o., Branch county, *Mich.*: 68 m. S. S. W. Lansing. There are several small lakes in this town. Pop. 356.

KINDERHOOK, t. and p. v., Columbia co., *N. Y.*: 16 m. S. Albany. Drained chiefly by Kinderhook cr., an affluent of the Hudson and its numerous tributaries, one of which is the outlet of Fish Lake, and all afford extensive water-power. Surface beautifully diversified; soil sandy loam and clay, and highly cultivated. The village, 5 m. E. of the Hudson r., and N. of the creek, contains about 1,500 inhabitants, and has numerous stores, etc.; and a newspaper, the "K. Sentinel" (dem.), is published weekly. About 2 m. S. of the village is Lindenwald, the residence of the venerable Martin Van Buren, ex-president of the United States; and there are several other villages. The manufactures of the t. are considerable. Pop. 3,972.

KINDERHOOK, p. o., Lincoln co., *Tenn.*: 62 m. S. by E. Nashville.

KINDERHOOK, p. o., Washington county, *Virg.*: 248 m. W. by S. Richmond.

KING AND QUEEN county, *Virg.* Situate E., and contains 337 sq. m. Mattapony river forms its W. boundary, and Piankintank r. its S. E. Surface agreeably diversified, and in parts quite hilly. Soil generally fertile. Dragon Swamp, on the head of the Piankintank, has been drained, and affords a large tract of diluvial soil of great depth and almost incredible fertility. The crops of corn grown on the same spot, year after year, are unsurpassed in the Union. The staples of the co. are corn and wheat. Farms 502; manuf. 6; dwell. 892, and pop.—wh. 4,094, fr. col. 461, sl. 5,764—total 10,319. Capital: King and Queen C. H.

KING AND QUEEN COURT-HOUSE, p. v., and cap. King and Queen co., *Virg.*: 83 m. E. N. E. Richmond. It is situate on a plain about 1 m. from Mattapony r., and contains a court-house, the co. jail, and about 70 or 80 inhabitants.

KING CREEK, p. o., Barawell dist., *S. Car.*: 86 m. S. by W. Columbia.

KINGFIELD, t. and p. o., Franklin county, *Me.*: 48 m. N. by W. Augusta. Drained by Seven Mile Brook, an affluent of Kennebec r. Surface generally hilly—in the W. is Mount Abraham, a considerable elevation, from which the stream has its source; soil of average fertility. The v. is a small settlement in the S. E. corner. It is a fine grazing country. Pop. of t. 662.

KING GEORGE county, *Virg.* Situate N. E., and contains 217 sq. m. It has Rappahannock river on the S. W., and Potomac r. on the N. E., lying between them, and drained by small creeks flowing into them. Surface broken, and in parts marshy; soil of average fertility; corn and wheat are the staples. It has good timber. Farms 279; manuf. 8; dwell. 526, and pop.—wh. 2,303, fr. col. 285, sl. 3,408—total 5,971. Capital: King George C. H.

KING GEORGE COURT-HOUSE, p. v., and cap. King George

co., *Virg.*: about 2 m. from Rappahannock river, 51 m. N. by E. Richmond. It contains a court-house, jail, etc., and about 100 inhabitants.

KING OF PRUSSIA, p. o., Montgomery co., *Penn.*: 84 m. E. Harrisburg.

KINGS county, *N. Y.* Situate on the W. end of Long Island, and contains 76 sq. m. It has East r., Wallabout, Gowanus, and New York bays on the W., and the Atlantic and Jamaica Bay on the S. Its streams are all small. Newtown cr., emptying into East r., is the largest. Surface near East r. hilly; S. is a sandy plain. Various ores of iron, porcelain clay, and peat are found in small quantities. Soil the best on the island, and under high cultivation. Its gardens are objects of great attention, and its fruit, especially grapes, very superior. Butter, potatoes, fruit, and market vegetables are the principal farming products. The great interests of the co. are manufacturing and commercial, and centre mostly in Brooklyn and Williamsburg. The chief manufactures are distilled liquors, cordage, iron ware, oils, oil-cloths, flour, leather, glass, etc. For particulars of these, and its commerce and ship-building, see BROOKLYN and WILLIAMSBURG. Farms 363; manuf. 576; dwell. 15,809, and pop.—wh. 134,898, fr. col. 3,984—total 138,882. *Capital*: Brooklyn. *Public Works*: Long Island R. R.

KING's, p. o., Barbour county, *Ala.*: about 65 m. S. E. Montgomery.

KINGS BENCH, p. o., Franklin county, *Ga.*: 104 m. N. Milledgeville.

KINGSBERRY, t. and p. o., Piscataquis county, *Me.*: 59 m. N. by W. Augusta. Drained by the heads of Piscataquis river, one of which rises from small lakes in the S. W. part of the t., and the other from two others at the base of Russell Mount, in the N. E. Surface diversified; soil well adapted to grazing and wheat-growing. Pop. of t. 181.

KINGSBOROUGH, p. v., Fulton co., *N. Y.*: 44 m. N. W. Albany. It is a flourishing v. of some 400 inhabitants.

KINGS BRIDGE, p. v., New York co., *N. Y.*: 121 m. S. Albany. The p. o. is at the bridge so called, which crosses Spuyten Tuvil creek, the dividing line between New York island and Westchester county.

KINGSBURY, p. v., Whitesides county, *Ill.*: 12 m. from Albany, and 133 m. N. N. W. Springfield.

KINGSBURY, p. o., Cumberland co., *N. Car.*: 43 m. S. by W. Raleigh.

KINGSBURY, p. v., Laporte county, *Ind.*: on a branch of Kankakee river, 123 m. N. by W. Indianapolis, and 6 m. from Laporte.

KINGSBURY, t. and p. v., Washington co., *N. Y.*: 49 m. N. by E. Albany. Drained by Wood cr., which empties into Lake Champlain; also by the Hudson r. on the S. W. angle. Surface generally level; soil sand, clay, and sandy loam, well cultivated and productive. The village contains about 25 dwellings. The v. of Sandy Hill, the county seat of justice and scene of B. F. Butler's "Stated Preachings," is also in this town. Pop. 3,032.

KING'S CREEK, p. o., Caldwell co., *N. Car.*: 165 m. W. by N. Raleigh.

KINGSSESSING, p. t. and v., Philadelphia co., *Penn.*: 89 m. E. by S. Harrisburg, and 7 m. S. W. Philadelphia City. Schuylkill on the E., and Darby cr. on the W., bound it in those directions; both flow into the Delaware on its S. border; surface level; soil alluvial, and highly cultivated. In the Delaware are several islands belonging to the t., one of which, Mud Island, is the site of Old Fort Mifflin, noted for its protracted resistance to the British in 1777. On the Schuylkill is the botanical garden founded by the naturalist Bartram. Pop. of t. 1,178.

KINGS FERRY, p. v., Cayuga co., *N. Y.*: 136 m. W. Albany. It contains about 40 dwellings.

KINGS GAP, p. v., Harris county, *Ga.*: 97 m. W. by S. Milledgeville.

KINGSLEY's, p. o., Crawford co., *Penn.*: 197 m. N. W. by W. Harrisburg.

KING'S MILLS, p. o., Kane county, *Ill.*: 153 m. N. N. E. Springfield.

KING'S MILLS, p. v., Montgomery county, *Mo.*: 58 m. N. E. by E. Jefferson City.

KING'S MOUNTAIN, p. v., Lincoln co., *N. Car.*: 156 m. W. by S. Raleigh. In the neighborhood of this mountain is the scene of the celebrated battle of the 7th Oct., 1780, in which the British were defeated and compelled to surrender to the American militia.

KING'S POINT, p. v., Dade county, *Mo.*: 181 m. S. W. Jefferson City.

KINGSFORD, p. v., Sullivan co., *Tenn.*: above the junction of the forks of Holston r., 236 m. E. by N. Nashville. Contains several stores and about 30 dwellings.

KING'S RIVER, p. o., Carroll co., *Ark.*: on the r. so called, 144 m. N. W. Little Rock.

KING'S SETTLEMENT, p. o., Chenango co., *N. Y.*: 97 m. W. Albany.

KINGSTON, p. v., and cap. Autauga co., *Ala.*: on the W. side Autauga cr., 22 m. N. W. Montgomery. The court-house is here, and a few dwellings.

KINGSTON, p. v., Cass co., *Ga.*: on a branch of the Coosa r., 136 m. N. W. Milledgeville. The Western and Atlantic R. R. passes through the v.; and here is the eastern terminus of Rome R. R., which is to be continued to Jacksonville, *Ala.*, where it will connect the Selma and Tennessee River Railroad.

KINGSTON, p. v., De Kalb co., *Ill.*: on Sycamore cr., 162 m. N. N. E. Springfield.

KINGSTON, p. o., Madison county, *Ky.*: 48 m. S. E. Frankfort.

KINGSTON, p. v., Somerset co., *MD.*: at the head waters of Annesmesix r., 74 m. S. S. E. Annapolia.

KINGSTON, t. and p. v., Plymouth co., *Mass.*: 32 m. S. S. E. Boston. Drained by Jones r. and its branches, which have their sources in several ponds, and empty into a branch of Plymouth Harbor. The harbor, in common with that of Duxbury, lies within the Gurnet, which forms the N. boundary of Plymouth Harbor. Surface level; soil thin, sandy, and barren. Monk's Hill, on the borders of Plymouth, commands extensive views in every direction. The v., on Jones r., has an elevated site, and contains 3 churches and 50 or 60 dwellings, many of them neat and substantial. The t. has many vessels engaged in the cod and mackerel fisheries; and has also several factories and commercial houses. Pop. 1,598. The Old Colony R. R. passes through the town.

KINGSTON, p. v., and cap. Caldwell co., *Mo.*: 123 m. N. W. by W. Jefferson City.

KINGSTON, t. and p. v., Rockingham co., *N. Hamp.*: 85 m. S. S. E. Concord. Drained by two large ponds, the outlets of which unite and empty into the Merrimae; the largest, Great Pond, contains about 300 acres, and a wooded island of about 12 acres. Surface diversified, with several low hills; soil a fertile loam. Pop. of t. 1,192.

KINGSTON, p. v., Middlesex co., *N. Jer.*: on Millstone r., 15 m. N. E. by N. Trenton, on the line of the New Jersey R. R. and the Delaware and Raritan Canal. Part of the v. lies in Somerset co. It contains several industrial establishments, stores, etc., and about 60 dwellings.

KINGSTON, t., p. v., and cap. Ulster co., *N. Y.*: 53 m. S. by W. Albany. Drained by Esopus cr. and its tributaries, and the Hudson r. makes its E. boundary. Surface somewhat uneven; soil sandy loam, overlying limestone. The v., on the right bank of Esopus cr., is 3 m. W. of the landing on the Hudson. It contains the court-house, jail, numerous stores, factories, and here are printed 3 newspapers, the "Ulster Republican," the "Democratic Journal," and the "Ulster Democrat." Kingston, originally called Esopus, was early settled by the Dutch. Here was held the first convention of the State Representatives, which formed the old constitution—this was in April, 1777. On the 16th day of Oct. following, the British army burnt the village.

Gen. Vaughan was marching to the relief of Gen. Burgoyne, who was compelled to surrender to the American army the day following at Bemus' Heights. Kingston is now a flourishing town, with very considerable commercial and manufacturing interests. Pop. 10,236.

KINGSTON, p. v., Ross county, *Ohio*: 34 m. S. by E. Columbus.

KINGSTON, p. o., Cumberland co., *N. Car.*: 50 m. S. by W. Raleigh.

KINGSTON, t. and p. v., Luzerne co., *Penn.*: 81 m. N. N. E. Harrisburg. Drained into Susquehanna r., which forms its S. E. border. Surface uneven; soil generally fertile. The v., formerly called Wyoming, is situate on the N. bank of the river, and is the shipping place of the coal mined in the neighborhood. It contains several stores, and about 80 dwellings. The railroad surveyed along the Susquehanna will pass through Kingston. The t. has some manufactures and mines. Pop. 2,306.

KINGSTON, p. v., Marquette co., *Wisc.*: on a branch of Neenah r., into which it empties at the head of Puckawa Lake, 47 m. N. by E. Madison.

KINGSTON, p. v., and cap. Washington co., *R. I.*: pleasantly situate, 27 m. S. by W. Providence. It contains a court-house, church, and about 80 dwellings.

KINGSTON, p. v., and cap. Roane co., *Tenn.*: on the point formed by the junction of Tennessee and Clinch rivers, 128 m. E. by S. Nashville. It contains the court-house, jail, and several stores.

KINGSTON, p. o., Decatur county, *Ind.*: 54 m. S. E. Indianapolis.

KINGSTON CENTRE, p. o., Delaware co., *Ohio*: 24 m. N. by E. Columbus.

KINGSTON MINKS, p. v., Peoria co., *Ill.*: on the bluff near Illinois r., 52 m. N. E. Springfield.

KINGSTOWN, v., Talbot county, *Md.*: on the W. side of Choptank r., 84 m. E. S. E. Annapolis.

KINGTREE, p. v., and cap. Williamsburgh dist., *S. Car.*: on the N. E. side of Black r., 73 m. E. S. E. Columbia.

KINGTREE, t. and p. v., Ashtabula county, *Ohio*: on Conneaut r., 172 m. N. E. Columbus. The t. is bounded on the N. by Lake Erie, and is traversed by Conneaut r. Surface somewhat broken; soils rich and fertile. The v. is situate at the westernmost bend of the Conneaut, and about 2 m. S. of the line of the Cleveland and Erie R. R. Population of t. 1,494.

KINGSVILLE, p. v., Clarion co., *Penn.*: 152 m. W. N. W. Harrisburg.

KINGSVILLE, p. o., Talledega co., *Ala.*: N. E. Montgomery.

KING WILLIAM county, *Virg.* Situate E. centrally, and contains 235 sq. m. It lies between Mattaponi r. and Pamunky r., which, uniting at the S. end of the county, form York r. Surface uneven, and pleasantly varied; soil generally good, with many very fine plantations. Corn and wheat are the staples; some cotton and tobacco are raised. It has several good mill-streams. Farms 888; manuf. 10; dwell. 625, and pop.—wh. 2,702, fr. col. 346, sl. 5,731—total 8,779. *Capital*: King William C. H.

KING WILLIAM, C. H., p. v., and cap. King William co., *Virg.*: 24 m. N. E. by E. Richmond. It contains a handsome court-house, a clerk's office, and co. jail, all of brick, handsomely inclosed with iron railing, and shaded by locust trees.

KINGWOOD, t. and p. o., Hunterdon co., *N. Jer.*: 29 m. N. W. Trenton. Drained by Loakatong r. Surface hilly; soil the red shale, clay, and loam, peculiar to this State—fertile. The t. contains several thriving villages. Population 1,799.

KINGWOOD, p. v., and cap. Preston co., *Virg.*: 174 m. N. W. by N. Richmond.

KINKHEAD, p. o., St. Francois co., *Mo.*: 118 m. S. E. by E. Jefferson City.

KINLOCK, p. o., Lawrence co., *Ala.*: 169 m. N. N. W. Montgomery.

KINLOCK, p. o., Panola co., *Tex.*: 240 m. N. E. by E. Austin.

KINNARD, p. o., Hancock county, *Ind.*: about 20 m. W. Indianapolis.

KINNARD'S STORE, p. o., Maury co., *Tenn.*

KINNE, p. v., Du Page county, *Ill.*: 163 m. N. N. E. Springfield.

KINNEY'S FOUR CORNERS, p. o., Oswego co., *N. Y.*: 154 m. W. N. W. Albany.

KINNICOONICK, p. o., Lewis county, *Ky.*: 98 m. N. E. Frankfort.

KINSDALE, p. o., Westmoreland co., *Virg.*: 57 m. N. E. Richmond.

KINSMAN, t. and p. v., Trumbull co., *Ohio*: 156 m. N. E. Columbus. Drained by Pymatuning cr., an affluent of Shenango cr. in Pennsylvania. Surface diversified; soil deep, dark mold, and fertile. The v. lies on the left bank of the creek. Pop. of t. 1,005.

KINSTON, p. v., and cap. Lenoir co., *N. Car.*: on the N. side of Neuse r., 73 m. S. E. by E. Raleigh. It contains the court-house, jail, and several stores.

KINTABISH, p. o., Sumter co., *Ala.*: on Kintabish cr., a tributary of Tombigbee r., 118 m. W. Montgomery.

KINZER'S, p. o. and sta., Lancaster co., *Penn.*: on the Columbia and Philadelphia R. R., 62 m. E. S. E. Harrisburg.

KINZUA, t. and p. v., Warren co., *Penn.*: 158 m. N. W. Harrisburg. Drained by Kinzua cr. of Alleghany r., which makes its N. boundary, and supplies an immense water-power—which operates a large number of saw and other mills. Surface very diversified; soil of average fertility. Pop. 431.

KIOMATIA, p. o., Red River co., *Tex.*: 263 m. N. E. by N. Austin.

KIRBY, p. o., Greene county, *Penn.*: 178 m. W. S. W. Harrisburg.

KIRKERSVILLE, p. v., Licking co., *Ohio*: on the S. side of a branch of Licking r., 21 m. E. Columbus. It contains several stores, and about 250 inhabitants.

KIRKLAND, t. and p. v., Penobscot co., *Me.*: 68 m. N. E. Augusta. Drained by streams, affluents of Pushaw Lake, the latter emptying through the river of the same name into the Penobscot, which it reaches opposite the village of Old Town. Surface level; soil generally fertile. There is a small v. in the centre. Pop. of t. 717.

KIRKLAND, t. and p. o., Oneida co., *N. Y.*: 92 m. W. by N. Albany. Drained by Oriskany cr. Surface diversified by hills and fertile valleys; soil rich calcareous loam. The Cheraugo Canal passes through the t. about 10 m. S. W. of Utica. There are several flourishing villages in the town which have considerable manufactures, and the town generally is engaged in a variety of handicrafts. Pop. of t. 3,421.

KIRKLAND, p. o., Cabarras co., *N. Car.*: 112 m. W. by S. Raleigh.

KIRK'S CROSS ROADS, p. o., Clinton county, *Ind.*: 80 m. N. N. W. Indianapolis.

KIRK'S FERRY, p. o., Tensas parish, *La.*: 102 m. N. Baton Rouge.

KIRK'S MILLS, p. o., Lancaster co., *Penn.*: 47 m. E. S. E. Harrisburg.

KIRKSVILLE, p. v., Madison county, *Ky.*: 49 m. S. E. Frankfort.

KIRKSVILLE, p. v., and cap. Adair county, *Mo.*: 112 m. N. by W. Jefferson City.

KIRKVILLE, p. o., Butler county, *Ala.*: 33 m. S. S. W. Montgomery.

KIRKVILLE, p. v., Wapello county, *Ia.*: 63 m. S. W. Iowa City.

KIRKVILLE, p. v., Onondaga county, *N. Y.*: on the Erie Canal and Syracuse and Utica R. R., 119 m. W. by N. Albany, by route of canal 158 m. and by railroad 187 m. from Albany. It contains several stores and about 800 inhabitants.

KIRKWOOD, p. v., Broome co., *N. Y.*: 118 m. W. S. W. Albany. The v. lies on the New York and Erie R. R., 216 m. from New York City.

KIRSEY'S CROSS ROADS, p. o., Edgefield dist., *S. Car.*: 67 m. W. Columbia.

KIRTLAND, t. and p. v., Lake county, *Ohio*: 133 m. N. E. by N. Columbus, about 8 m. from Lake Erie. Here the Mormons erected their first temple, which, since their leaving, has been used as a normal school. A tributary of Chagrine r. traverses the town. Soil rich and productive. Pop. 1,598.

KISHAOC-QUILLAS, p. o., Mifflin co., *Penn.*: 46 m. N. W. Harrisburg.

KISKATOM, p. o., Greene co., *N. Y.*: 43 m. S. W. Albany.

KISKIMINTAS, t. and p. v., Armstrong co., *Penn.*: 142 m. W. by N. Harrisburg. Drained chiefly by affluents of the Kiskimintas, or Conemaugh r., which forms its S. W. border, and Crooked cr. makes its N. border. Salt is manufactured here. The Pennsylvania Canal has its course through the town. Mills of various descriptions are found on its streams. Pop. 2,503.

KISWAUKEE, p. v., Winnebago co., *Ill.*: 163 m. N. N. E. Springfield. A thriving town on Rock r. at the junction of Kiskauke river.

KITCHING'S MILLS, p. o., Orangeburgh dist., *S. Car.*: 43 m. S. Columbia.

KITTANING, t. p. b., and cap. Armstrong co., *Penn.*: 152 m. W. by N. Harrisburg. Drained by several creeks of Alleghany r. and its tributaries, Crooked, Cowanshannock, and other creeks—the Alleghany making its W. and Crooked cr. its S. boundary. Surface hilly; soil a fertile, gravelly loam. The b. is situate on the Alleghany in the N. W. corner of the t., and contains a court-house, jail, etc., a number of stores, tanneries, and workshops, and about 800 inhabitants. Two newspapers are published here, the "Armstrong Democrat" (dem.), and the "Free Press" (whig), both weekly issues. The Alleghany Valley R. R. will pass through Kittaning. Pop. 1,561.

KITTERY, t. and p. v., York co., *Me.*: 104 m. S. S. W. Augusta. On the N. E. side of Piscataqua r., opposite Portsmouth, and having its E. front on the Atlantic. It is the S. W. extremity of the State. Its coasts are deeply indented, and Spruce cr., or inlet, affords convenient harbors for the coasters and fishing vessels frequenting them. Ship-building is carried on at Kittery to some extent, and on Badger's Island, with which connection is made by a bridge, is located a U. S. navy yard. A bridge also connects it with Portsmouth. This t. was settled at an early date, and formerly enjoyed considerable trade with the West Indies. The Portsmouth, Saco, and Portland R. R. crosses the river here. Pop. of t. 2,706.

KLECKNERSVILLE, p. o., Northampton co., *Penn.*: 94 m. N. E. by E. Harrisburg.

KLINESVILLE, p. o., Henderson county, *N. Jer.*: 33 m. N. by W. Trenton.

KLINESVILLE, p. o., Berks co., *Penn.*: 55 m. E. by N. Harrisburg.

KNAP OF REEDS, p. o., Granville co., *N. Car.*: 35 m. N. Raleigh.

KNAPP'S, sta., St. Lawrence co., *N. Y.*: on the Northern (Ogdensburg) R. R., 23 m. E. Ogdensburg and 85 m. W. Rouse's Point.

KNAPS, p. o., Carter co., *Ky.*: 113 m. E. by N. Frankfort.

KNIGHT'S, sta., Lenawee co., *Mich.*: on the Erie and Kalamazoo R. R., 20 m. from Toledo and 12 from Adrian.

KNIGHTSTOWN, p. v., Henry co., *Ind.*: on a high bluff W. side of Blue r., 33 m. E. Indianapolis. The National Road and Central Indiana R. R. pass through it, and are here tapped by the Knightstown and Shelbyville R. R., and this point will also be the terminus of the Fort Wayne and Southern R. R. This is a flourishing v., with extensive water-power, and is situate in the midst of a fine agricultural region. It contains about 800 inhabitants; but is des-

tinued to become a place of great commercial importance and the centre of a large local trade.

KNIGHTSVILLE, p. v., Providence co., *R. I.*: 5 m. S. W. Providence. It is a small manufacturing village. The Hartford, Providence, and Fishkill R. R. will pass a little to the E. of it.

KNOB, p. o., Tazewell county, *Virg.*: 233 m. W. S. W. Richmond.

KNOB CREEK, p. o., Barren co., *Ky.*: 103 m. S. S. W. Frankfort.

KNOB FORK, p. o., Wetzel co., *Virg.*: 219 m. W. N. W. Richmond.

KNOB LICK, p. o., Daviess co., *Ky.*: 133 m. W. by S. Frankfort.

KNOBMASTER, p. v., Johnson co., *Mo.*: 75 m. W. by N. Jefferson City.

KNOTSVILLE, p. o., Daviess co., *Ky.*: 132 m. W. by S. Frankfort.

KNOWERSVILLE, p. o., Albany county, *N. Y.*: 14 m. W. Albany.

KNOWLESVILLE, p. v., Orleans co., *N. Y.*: on the Erie Canal, 246 m. W. by N. Albany. It contains several warehouses, stores, and about 80 dwellings.

KNOWLTON, t. and p. o., Warren co., *N. Jer.*: 49 m. N. N. W. Trenton. Drained by Paulin's Kill, Beaver Brook, and Shawpocussing creeks. Surface hilly and varied; soil on the hills slaty, and in the valleys calcareous loam. Blue Mountain lies on its N. boundary, where is the Water Gap of the Delaware, and through which the connection will be made between the Belvidere Delaware R. R. and Cobb's Gap R. R. The v. lies on the S. side of Paulin's Kill, at its confluence with the Delaware, opposite the village of Columbia, and on the line of the Belvidere Delaware R. R. The Morris and Essex R. R. will also form a junction at this point. Pop. of t. 1,336.

Knox county, *Ill.* Situate N. W. centrally, and contains 720 sq. m. Drained principally by Spoon r. and its W. branch, affluents of the Illinois. Surface level or undulating; soil a very rich prairie over most of the county. It has excellent timber on several of its streams. It is well calculated for grain crops and has the best of pasture. Corn and wheat are the leading staples, and much beef and pork is sent to market. Farms 619; manuf. 100; dwell. 2,193, and pop.—wh. 18,221, fr. col. 58—total 13,279. *Capital*: Knoxville. *Public Works*: Oquawka and Peoria R. R., etc.

Knox county, *Ind.* Situate S. W., and contains 496 sq. m. It lies between Wabash r. on the W., its branch, White r., on the S., and W. fork of White r. on the E. Surface undulating, with some river hills. It has rich prairies, and the timbered lands, which occupy a large share of the county, are mostly productive. Here are some sandy barrens and swamps, and the bottoms are subject to inundation. Corn and wheat are most raised. Tobacco is grown. It is a very fine grazing county, and cattle, wool, and especially pork, are much exported. Farms 961; manuf. 37; dwell. 1,969, and pop.—wh. 10,546, fr. col. 533—total 11,054. *Capital*: Vincennes. *Public Works*: Evansville and Illinois R. R.; Cincinnati and St. Louis R. R., etc.

Knox county, *Ky.* Situate in S. E. corner, and contains 665 sq. m. Drained by Riehland and Stinking creeks, and other affluents of Cumberland r., which crosses the county. Surface uneven—in parts mountainous; soil in the valleys fertile and generally good grazing land. It has many mill streams. Corn is the chief product, and great numbers of hogs are kept. Farms 637; manuf. 6; dwell. 1,060, and pop.—wh. 6,239, fr. col. 199, sl. 612—total 7,050. *Capital*: Barbourville.

Knox county, *Mo.* Situate N. E., and contains 513 sq. m. Drained by North, Middle, and South Fabius rivers and their branches, and S. W. by N. fork of Salt r. Surface gently uneven; soil excellent. The streams are skirted with valuable timber, and the bottoms very productive. Corn

and cattle are the principal exports. Numerous mill-seats are found on the rivers. Farms 803; manuf. 7; dwell. 427, and pop.—wh. 2,626, fr. col. 2, sl. 266—total 2,894. *Capital*: Edina.

KNOX county, Ohio. Situate centrally, and contains 523 sq. m. Drained by Vernon, Walhonding, and N. branch of Licking rivers, affluents of Muskingum r., which, with their branches, afford abundant water-power. Surface slightly broken in E. part, in the W. level or undulating; soil a vegetable loam in the W., and generally very productive. It is an excellent farming county, and immense quantities of wheat and corn are sent to the East. The dairy is of much importance, and large flocks of sheep are everywhere kept. Pork is also a very large export. It has superior facilities for manufactures, which are large and rapidly increasing, and great conveniences for reaching distant markets. Farms 2,268; manuf. 117; dwell. 4,858, and pop.—wh. 28,811, fr. col. 62—total 28,873. *Capital*: Mount Vernon. *Public Works*: Springfield, Mount Vernon, and Pittsburg R. R.; Mansfield and Sandusky City R. R.; Columbus and Lake Erie R. R., etc.

KNOX county, Tenn. Situate N. E., and contains 445 sq. m. Drained by Holston, Nolichucky, French Broad, and Clinch rivers, all branches of Tennessee r., and affording fine water privileges. Surface broken and mountainous; soil fertile, especially in the numerous beautiful valleys. Corn and wheat are very large crops, and the staples. The grazing is excellent, and many cattle, horses, sheep, and swine are reared. The manufactures of the co. are important and growing, consisting of flour, leather, iron, oils, liquors, paper, earthenware, etc. Farms 1,408; manuf. 67; dwell. 2,804, and pop.—wh. 16,387, fr. col. 225, sl. 2,195—total 18,755. *Capital*: Knoxville. *Public Works*: Georgia and E. Tennessee R. R.; E. Tennessee and Virginia R. R.; Knoxville and Cincinnati R. R.; Blue Ridge R. R., etc.

KNOX, t. and p. v., Albany co., N. Y.: 22 m. W. Albany. Drained by Bozrakill and a tributary of Foxes cr. Surface rough and hilly—the t. being partly covered by the Helderberg series of limestone; soil of average fertility. The v. (Knoxville) contains about 200 inhabitants. The t. has numerous mills and tanneries, and 2,021 inhabitants.

KNOX, p. v., and cap. Stark co., Ind.: on the S. side of Yellow r. 108 m. N. by W. Indianapolis.

KNOX, p. v., Knox co., Ohio: 88 m. N. E. Columbus.

KNOX, t. and p. v., Waldo county, Me.: 31 m. E. N. E. Augusta. Drained by branches of Sebasticook r.; surface somewhat hilly; soil rich, and fine grass land. The v. lies toward the N. W. Pop. of t. 1,102.

KNOX CENTRE, p. v., Waldo co., Me.: 81 m. E. N. E. Augusta.

KNOX CORNERS, p. o., Oneida co., N. Y.: 98 m. W. N. W. Albany.

KNOXVILLE, p. v., Greene co., Ala.: 98 m. N. W. by W. Montgomery.

KNOXVILLE, p. v., and cap. Crawford co., Ga.: on an affluent of Flint r. 88 m. S. W. by W. Milledgeville. It contains a court-house, jail, etc., and about 40 dwellings.

KNOXVILLE, p. o., Franklin county, Miss.: 78 m. S. W. Jackson.

KNOXVILLE, p. v., and cap. Knox co., Ill.: near Haw cr. 88 m. N. N. W. Springfield. Beautifully located on high rolling prairie, contains about 850 inhabitants. The court-house is here. The "K. Journal" is published weekly.

KNOXVILLE, p. v., and cap. Marion co., Ia.: on an elevation between White Breast r. and English cr. 81 m. W. S. W. Iowa City.

KNOXVILLE, v., Frederick co., Md.: on the lines of Chesapeake and Ohio Canal and of the Baltimore and Ohio R. R., 79 m. W. Baltimore.

KNOXVILLE, p. v., Ray co., Mo.: 117 m. N. W. by W. Jefferson City.

KNOXVILLE, p. v., Jefferson co., Ohio: 4 m. from Ohio r. and 126 m. E. by N. Columbus; contains several stores. The

t. of Knox contains several villages, is bounded on the E. by the Ohio r., and has 1,902 inhabitants.

KNOXVILLE, p. o., Tioga co., Penn.: 115 m. N. by W. Harrisburg.

KNOXVILLE, p. city, and cap. Knox co., Tenn.: on the N. bank of Holston r., at the head of navigation, and about 4 m. below the confluence of French Broad river, 157 m. E. Nashville. Lat. 35° 59' N., and long. 83° 54' W. The city is most eligibly situate for an extensive inland trade, being at the navigable head of a great river, and on the line of intercommunication E. and W. nearly through the middle zone of the Union, and at a point whence will diverge N. and S. lines of railroad, extending on the one hand to Cincinnati, and on the other to the chief ports of the southern Atlantic States and Gulf of Mexico. Here, indeed, a junction is formed by three great railroads—the East Tennessee and Georgia R. R., connecting S. with lines to Charleston and Savannah, and S. W. with those to Memphis and the Gulf cities; the Knoxville and Ohio R. R. terminating at Covington on the Ohio; and the East Tennessee and Virginia R. R., which, connecting with the Virginia and Tennessee R. R. on the State line, and the latter uniting at Knoxville with the railroads to Petersburg and Norfolk, Richmond and Alexandria, reaches directly to the great seaboard marts, which will take the vast productions of the interior, and return in exchange the manufactures and products of the outer world. The city itself is regularly laid out, and handsomely built. It contains a fine court-house, a jail, and other county buildings. It is also the seat of East Tennessee College, founded 1792. This is a very efficient and flourishing institution. In 1850 it had a president, 5 professors, 122 alumni, and 57 students; and its library contained 4,500 volumes. A preparatory department is attached to the college, which has usually from 70 to 80 scholars. The public press of Knoxville consists of 5 periodicals, viz.: 1 semi-weekly and 4 weekly papers; the semi-weekly is the "K. Register" (whig), of which also a weekly edition is issued; and the weeklies are the "K. Whig" (whig), the "Plebeian," (dem.), the "Methodist Episcopalian" (relig.), and the "Holston Christian Advocate" (relig.). The city has already a good trade with the neighborhood, and contains wholesale and retail stores, churches of several denominations, two academies, and several primary schools. The present population is 2,076.

KOKOMO, p. v., and cap. Howard co., Ind.: on Wild Cat cr. 53 m. N. Indianapolis. The site of an Indian v. by the same name. The Indianapolis and Peru R. R. and the New Castle and Logansport R. R. intersect each other at this point. It is the centre of a fine farming region, and must become the depôt of a considerable internal traffic. Pop. about 600.

KOOSKOOSKIE river, Oreg. Ter.: a tributary of Lewis, or Snake r. It rises in the Rocky Mountains, and flowing W. falls into Lewis r. in about 46° lat. and 117° long. The Presbyterians have missions on this stream.

KOOTANIE (Kutunaha, or Flat Bow) river, Oreg. Ter.: a large affluent of Columbia r. It has its sources in the Rocky Mountains in about 51° N. lat. In its first part it flows along the base of the mountains to 49°, and then bends W., and passing through Flat Bow Lake enters the Columbia above the British line. At its extreme S. bend is Fort Kootanie, a settlement of the Hudson Bay Company.

KORO, p. o., Winnebago county, Wisc.: 79 m. N. N. E. Madison.

KORTRIGHT, t. and p. v., Delaware county, N. Y.: 58 m. W. by S. Albany. Drained by tributaries of the Delaware r. Surface hilly and mountainous; soil fertile loam. The v. is situate centrally. South Kortright and Bloomville are other villages. Pop. of t. 2,181.

KOSCRUSKO county, Ind. Situate N. centrally, and contains 579 sq. m. Drained by Tippecanoe and Eel rivers and their branches, flowing S. W. into the Wabash, and Turkey cr., flowing N. through St. Joseph's r. into Lake Michi-

gan. Surface undulating. Soil fertile, and timber abundant. In the N. are some wet prairies, and several lakes or ponds abounding in fish. It has many ponds that feed fine mill-streams, and afford much water-power. Corn and wheat are leading staples. Great numbers of hogs are fattened. Farms 1,127; manuf. 21; dwell. 1,783, and pop.—wh. 10,242; fr. col. 1—total 10,243. *Capital:* Warsaw. *Public Works:* Goshen, Warsaw, and Peru R. R.

KOSCIUSCO, p. v., and cap. Attala co., *Miss.*: on the W. side of Yockonockony r., 61 m. N. N. E. Jackson. There are 8 papers issued here weekly—the "Chronicle" (whig), "Attala Democrat" (dem.), "Sentinel and Pilot" (dem.) The v. contains a court-house, etc., several stores, and 400 inhabitants.

KOSKONONG, t. and p. o., Jefferson co., *Wisc.*: 82 m. E. S. E. Madison. Within this town lies Lake Koskonong, through which Rock r. flows. Several tributaries also pour into the lake and r. within its limits. Pop. 1,512.

KOSSUTH county, *Ida.* Situate N. centrally, and contains 576 sq. m. Drained by Boone r. and other heads of Des Moines r. Erected since 1850.

KOSSUTH, p. o., Jackson co., *Tenn.*: 73 m. E. N. E. Nashville.

KOSSUTH, p. o., Des Moines co., *Ida.*: 56 m. S. E. Iowa City.

KOSSUTH, p. o., Racine county, *Wisc.*: 59 m. E. by S. Madison.

KOSSUTH, p. o., Boone county, *Ill.*: 185 m. N. by E. Springfield.

KOSSUTH, p. o., Auglaize county, *Ohio*: 73 m. N. W. Columbus. Pop. 76.

KOSSUTH, p. o., Washington county, *Ind.*: 83 m. S. Indianapolis.

KOSSUTH, p. o., Cherokee county, *Ga.*: 117 m. N. W. Milledgeville.

KOSSUTH, p. o., Washington co., *Me.*: 112 m. W. by N. Augusta.

KOSSUTH, p. o., Clarion co., *Penn.*: 143 m. W. N. W. Harrisburg.

KOWALIGA, p. o., Tallapoosa county, *Ala.*: 43 m. N. E. Montgomery.

KOWE's river, *Oreg. Ter.*: a small r. emptying into the Pacific Ocean above Cape Arago.

KRAATZERSVILLE, p. o., Union co., *Penn.*: 48 m. N. by W. Harrisburg.

KREIDERSVILLE, p. v., Northampton co., *Penn.*: on Hockendocque cr. of Lehigh r., 79 m. N. E. by E. Harrisburg.

KRESGEVILLE, p. o., Monroe county, *Penn.*: 79 m. N. E. Harrisburg.

KROH'S MILLS, p. o., Carroll co., *Md.*: 63 m. N. N. W. Annapolis.

KULPSVILLE, p. o., Montgomery county, *Penn.*: 83 m. E. Harrisburg.

KUNKLETOWN, p. o., Monroe county, *Penn.*: 83 m. N. E. Harrisburg.

KUTZTOWN, p. b., Berks co., *Penn.*: on a branch of Maiden cr., 53 m. E. by N. Harrisburg. It contains several stores, mechanic shops, etc., and has 642 inhabitants.

KYGER, p. v., Gallia county, *Ohio*: 83 miles S. E. by S. Columbus.

KYSERIKE, p. o., Ulster county, *N. Y.*: 63 m. S. by W. Albany.

KYSERVILLE, p. o., Livingston county, *N. Y.*: 214 m. W. Albany.

KYTE RIVER, p. o., Ogle county, *Ill.*: 143 miles N. by E. Springfield.

L.

LABANUS, p. o., Robertson county, *Tenn.*: N. by W. Nashville.

LACEY, p. v., De Kalb co., *Ill.*: about 2 m. S. of Sycamore r., 166 m. N. by E. Springfield.

LACEY SPRING, p. v., Rockingham county, *Virg.*: 98 m. N. W. Richmond.

LACEY'S SPRING, p. o., Morgan co., *Ala.*: about 2 m. N. from Tennessee r., 143 m. N. by W. Montgomery.

LACEYVILLE, p. v., Wyoming co., *Penn.*: 89 m. N. N. E. Harrisburg.

LACEYVILLE, p. v., Harrison co., *Ohio*: 104 m. E. by N. Columbus.

LACKAWACK, p. v., Ulster co., *N. Y.*: on a branch of Rondout cr., 63 m. S. S. W. Albany.

LACKAWANNA, t. and p. o., Luzerne co., *Penn.*: 96 m. N. E. by N. Harrisburg. Drained by Lackawanna r. Iron ore is dug. The N. branch division of the Pennsylvania canal crosses the t. 73 m. from Northumberland. Pop. 511.

LACKAWANNA river, *Penn.*: a tributary of Susquehanna r. It rises in Wayne and Susquehanna counties, and pursues a course S. and S. W. 30 m. to its confluence. It affords extensive and valuable water-power.

LACKAWANNOO mountains, *Penn.*: these mountains run between the sources of Lackawaxen and Lackawannock rivers. One of their W. peaks is called Moosack Mountain, and is traversed by the railroad from Carbondale to Honesdale.

LACKAWAXEN river, *Penn.*: a tributary of Delaware r. It rises chiefly in Wayne co., and flows through a deep valley, receiving Dyberry, Middle, and Waulenpaupack creeks, and enters the Delaware in Pike co., where is a dam across the Delaware to supply the Delaware and Hudson Canal water, and to enable the boats to cross the river. This canal follows the course of the Lackawaxen 25 m. to the mouth of Dyberry creek at Honesdale, whence is a railroad to the Lackawanna coal mines, 16 miles distant.

LACKAWAXENT, p. v. and sta., Pike co., *Penn.*: on the Delaware r., 124 m. N. E. by E. Harrisburg. Drained by Lackawaxen r. and other streams flowing into the Delaware. Surface rugged and heavily timbered; soil productive. The v. is at the junction of the Lackawaxen and Delaware, the latter being dammed, and affording great water-power for the lumber mills and iron works, which constitute its chief business. The Delaware and Hudson Canal crosses the Delaware here in an aqueduct supported by an iron wire suspension bridge, and proceeds up the valley of the Lackawaxen, which the Erie R. R. here crosses on two bridges. The sta. is 121 m. from New York. Pop. of t. 2,080.

LACKEMUTE, p. o., Polk co., *Oreg. Ter.*: on the branch of the Willamette so called, 13 m. S. W. Salem.

LA CLAIR, p. v., De Kalb county, *Ill.*: 136 m. N. by E. Springfield.

LA CLEDE county, *Mo.* Situate S. centrally, and contains 708 sq. m. Drained E. and S. E. by Gasconade r. and its branch, Osage Fork; N. and N. W. by Dry Auglaize cr. and Niangua r., branches of Osage r.; all flowing N. into the Missouri. Surface quite elevated and rolling, with some hills. Soil very productive. A very fine farming and grazing co., with good timber, rich bottoms, and a sufficiency of water-power. Corn and wheat are the staple cereals. Cattle and hogs are exported in large numbers. Farms 238; manuf. 2; dwell. 385; and pop.—wh. 2,357, fr. col. 1, sl. 140—total 2,498. *Capital:* Wiota.

LAON, p. v., and cap. Marshall co., *Ill.*: on the left bank of the Illinois r., 79 m. N. by E. Springfield. It has a favorable position for trade and manufactures, and contains the county buildings, a high school, several stores, and 500 inhabitants. The "Lacon Herald" (dem.), and "Illinois Gazette" (whig), are published weekly.

LACONA, p. o., Jefferson co., *Ky.*: 49 m. W. Frankfort.

LACONIA, p. v., Harrison co., *Ind.*: about 2 m. from the Ohio r., 117 m. S. Indianapolis.

LACONIA, p. o., Desha co., *Ark.*: 87 m. S. E. Little Rock.

LAC QUI PARLE, p. o., Dakotah co., *Minn. Ter.*: 137 m. W. St. Paul. This is a trading post on the Minnesota or St. Peter's r., which here expands to a considerable body of water, called by the French, Lac qui Parle (lake that

talks), from the remarkable echoes produced by its rugged shores.

LA CROSSE county, Wisc. Situate W. centrally, and contains about 3,450 sq. m. Drained by Mountain, Black, and La Crosse rivers, and their many branches, affluents of the Mississippi, which is its S. W. boundary. This co. covers a large territory, as yet little settled. It has fine large streams, lined with vast forests of valuable pine timber, which is in great demand, and furnishes the chief trade of the county. The surface is much varied, and the rivers afford excellent water-power. The soil is very fertile, and there is little prairie. That portion of La Crosse county lying N. of the N. line of township No. 9, has lately been erected into a separate county, under the name of Jackson. *Capital:* La Crosse (Prairie La Crosse).

LA CROSSE, p. v., La Crosse co., Wisc.: on the left bank of the Mississippi, at the mouth of La Crosse river, 108 miles N. W. by W. Madison. It has a good landing, and contains several stores, and 300 inhabitants.

LACY, p. o., Drew co., Ark.: 77 miles S. S. E. Little Rock.

LACY'S HILL, p. o., Pickens co., Ala.: 112 m. W. N. W. Montgomery.

LADD'S, sta., Erie co., Ohio: on the Sandusky, Mansfield, and Newark R. R., 8 m. from Sandusky.

LADDSBURGH, p. o., Bradford co., Penn.: 106 m. N. by E. Harrisburg.

LADISSBURGH, p. v., Frederick co., Md.: on the S. side of Sam's cr., 58 m. N. N. W. Annapolis.

LADIGA, p. o., Benton co., Ala.: on a branch of Coosa r., 112 m. N. N. E. Montgomery.

LADOGA, p. v., Montgomery co., Ind.: on N. side of Big Raccoon cr., 34 m. W. by N. Indianapolis.

LADSON'S, station, Charleston dist., S. Car.: on the South Carolina R. R., 17 m. from Charleston.

LA FARGEVILLE, p. v., Jefferson co., N. Y.: on Chamount r., near its head, 158 m. N. W. Albany.

LA FAYETTE county, Ark. Situate S. W. corner, and contains 1,664 sq. m. Drained W. by Red r., and Sulphur fork of Red r., and E. by bayous Bodeau and Dorchheat, affluents of Red r. Surface gently uneven, with some hills, on the rivers, and a few swamps. Soil on the streams of exceeding fertility; back of these it is sandy and less productive. Cotton is raised in immense quantities on the river plantations, and constitutes the almost sole object of cultivation and export. Corn produces well, and there is some good pasture. Farms 177; manuf. 2; dwell. 349, and pop.—wh. 1,900, fr. col. 0, sl. 3,320—total 5,220. *Capital:* Lewisville.

LA FAYETTE parish, La. Situate S. W., and contains 876 sq. m. Drained by Vermillion r., which flows through it S. into Vermillion Bay and the Gulf of Mexico. Surface low and level, with frequent swamps. Soil of great fertility, where not too wet for cultivation. Cotton and sugar are the staple products, of which great amounts are exported. Corn grows luxuriantly, and yields finely. Some rice is raised in the swamps. Farms 441; manuf. 0; dwell. 630, and pop.—wh. 3,390, fr. col. 160, sl. 3,170—total 6,720. *Capital:* Vermillionville.

LA FAYETTE county, Miss. Situate N., and contains 785 sq. m. Drained by Tallahatchie and Yocanapatafa rivers, and Olackatuffa cr., affluents of Yazoo r. Surface level or gently rolling. Soil generally very productive, and affords fine pasturage. Cotton is the great staple. Corn yields finely, and is extensively exported, and cattle and hogs are raised in large numbers. It has good facilities for manufacturing, which is a growing interest in the co. Farms 1,044; manuf. 49; dwell. 1,332, and pop.—wh. 8,346, fr. col. 4, sl. 5,719—total 14,069. *Capital:* Oxford. *Public Works:* Mississippi Central R. R.

LA FAYETTE county, Mo. Situate N. W., and contains 658 sq. m. Drained by Dan's fork and Salt fork of Black r. flowing E., and Big Synbar and Big Terre Bean creeks flowing N. into the Missouri, its N. boundary. Surface va-

ried; hills and broken ground in the S., and gentle swells in the N. Soil of great fertility, adapted to grain and grass. Corn and wheat are the cereal staples. Great numbers of sheep and swine are fed on its fine pastures and abundant mast, and pork is an important export. It has fine water-power, the use of which is extensive and rapidly increasing. Farms 895; manuf. 67; dwell. 1,459, and pop.—wh. 9,005, fr. col. 70, sl. 4,615—total 13,690. *Capital:* Lexington. *Public Works:* Pacific R. R.

LA FAYETTE county, Wisc. Situate S. W., and contains 681 sq. m. Drained by Otter cr., Pecatonica and Wassemom rivers, affluents of Rock river, and Fevre river, an affluent of the Mississippi. Surface broken and hilly, with a little prairie. Soil of good quality, and adapted to grazing or grain, but the great interest of the co. is mining. It lies on the S. line of the State, and in the rich mining district around Galena and Dubuque, the former of which is the outlet of its wealth. This consists chiefly of almost inexhaustible deposits of rich galena or lead ore, the working of which is the principal pursuit, and less extensive but valuable copper and iron ores, with some silver. It has several mineral springs, good water privileges, and some timber. Farms 399; manuf. 21; dwell. 2,076, and pop.—wh. 11,527, fr. col. 14—total 11,541. *Capital:* Shullsburg. *Public Works:* Milwaukee and Mississippi R. R.

LA FAYETTE, p. v., and cap. Walker county, Ga.: 172 m. N. W. Milledgeville. It contains a court-house, jail, two academies, a dozen stores, and 588 inhabitants.

LA FAYETTE, p. v., Stark co., Ill.: on middle branch of Spoon r., 96 m. N. by W. Springfield.

LA FAYETTE, p. v., and cap. Tippecanoe co., Ind.: on the E. bank of Wabash r., at the head of steamboat navigation, 58 miles N. W. Indianapolis. Lat. 40° 25' N., and long. 86° 49' W.; it is the centre of railroad, canal, and plank-road traffic of great amount, and has several important manufactures. It contains about 40 dry goods stores, 13 clothing stores, 26 groceries, etc. About a dozen warehouses, and a variety of minor sales stores; also foundries, packing-houses, paper-mills, printing establishments, etc. It has also a large flouring business; three newspapers are published here, the "L. Courier" (dem.), daily and weekly, the "L. Journal" (whig), daily and weekly, and the "Wabash Atlas," weekly. The means of education are ample, and there are churches of all the leading denominations. A branch of the State bank is located at La Fayette, and two other banks have been established under the new law of the State. The Wabash and Erie Canal passes through the v., and intersecting it the New Albany and Salem Extension R. R.; and here also the La Fayette and Indianapolis R. R. forms a connection with the foregoing. Plank-roads extend hence to Oxford, Frankfort, Crawfordsville, etc. The situation of La Fayette is a very fine one; the ground rising gradually from the river, and the neighboring hills presenting much delightful scenery. It is also surrounded by an extensive body of land, which can not be excelled in fertility, and it abounds with streams, which afford much valuable water-power. Pop. about 6,129.

LA FAYETTE, p. v., Linn co., Ia.: on a branch of Cedar r., 32 m. N. by W. Iowa City.

LA FAYETTE, p. o., Christian co., Ky.: 132 m. S. W. by W. Frankfort.

LA FAYETTE, p. o., Grafton county, N. Hamp.: 66 m. N. by W. Concord.

LA FAYETTE, p. v., Sussex co., N. Jer.: on Paulinskil r., 58 m. N. Trenton. It contains a furnace, mill, several stores, and 100 inhabitants.

LA FAYETTE, t. and p. o., Onondaga co., N. Y.: 126 m. W. by N. Albany. Drained E. by Butternut cr., and W. by Onondaga cr., which furnish power for several flouring, saw, and grist mills. Surface hilly; soil a clayey loam, and very productive. In the N. W. is a large Indian Reservation, through which the proposed railroad from Binghamton to Syracuse is to pass. Pop. 2,532.

LA FAYETTE, p. v., Madison co., *Ohio*: on Deer cr., 22 m. W. Columbus. Pop. 147.

LA FAYETTE, t. and p. o., McKean co., *Penn.*: 142 m. N. W. Harrisburg. Drained by branches of Alleghany r. Surface broken, and soil adapted to grass. Pop. 923.

LA FAYETTE, p. v., and cap. Macon co., *Tenn.*: on Long creek, a head of Greene r., 47 m. E. N. E. Nashville. It contains a court-house, jail, a half dozen stores, and 200 inhabitants.

LA FAYETTE, p. o., Montgomery county, *Virg.*: 149 m. W. by S. Richmond.

LA FAYETTE, t. and p. o., Walworth co., *Wisc.*: 55 m. E. S. E. Madison. The t. has a varied surface, fertile soil, and fine mill streams flowing into Fox r. A plank-road passes through to Racine. Pop. of t. 1,003.

LA FAYETTE, p. v., and cap. Yam Hill co., *Oreg. Ter.*: at the falls just below the junction of the N. and S. forks of Yam Hill r., 24 m. N. N. W. Salem. The Yam Hill r. is navigable for batteaux to within 3 m. of this place, and empties into the Willamette r., about 22 m. above the mouth of Tualatin river.

LA FAYETTE CITY, p. o., and cap. Jefferson par., *La.*: on the left bank of the Mississippi, 71 m. S. E. by E. Baton Rouge. It is a continuation of New Orleans, and was consolidated under the same municipal government in 1852. The New Orleans and Carrollton R. R. passes through it, and several ferries cross the river. In 1850 four papers were published, the "State Republican" (whig), and "Statesman" (dem.), semi-weekly; the "Spectator" (whig), weekly; and "German Courier" (dem.), daily. Pop. 14,190.

LA FAYETTE HILL, p. o., Fluvanna county, *Virg.*: 49 m. W. N. W. Richmond.

LA FAYETTE SPRINGS, p. o., La Fayette co., *Miss.*: 135 m. N. N. E. Jackson.

LA FAYETTEVILLE, p. o., Dutchess county, *N. Y.*: 47 m. S. by E. Albany.

LA FONTAINE, p. o., Harlan co., *Ky.*: 129 m. S. S. E. Frankfort.

LA FONTAINE, p. o., Wabash co., *Ind.*: 76 m. N. by E. Indianapolis.

LA FOUACHE INTERIOR parish, *La.* Situate S. E., and contains 1,387 sq. m. Drained by Bayou La Fourche, which flows S. E. through the length of the co., and Bayou Blue, its S. W. boundary, both connecting the Mississippi with the Gulf. Along the E. border are Allemande, Washa, and Little lakes, and Barrataria Bay, connected by rivers, and emptying into the Gulf, and smaller ones in the interior. Surface low and level, much of it too wet for tillage. Soil of great productiveness, yielding heavy crops of cotton and sugar, which are the great staples, and universally cultivated. Corn thrives very well, and some rice is grown. Farms 235; manuf. 4; dwell. 938, and pop.—wh. 5,143, fr. col. 22, sl. 4,363—total 9,533. Capital: Thibodeauxville.

LA FOUACHE river, *La.*: an outlet of the Mississippi, which leaves the river above Donaldsonville, and after a S. E. course of 90 m. falls into the Gulf of Mexico.

LAGADA, p. o., Wilson co., *Tenn.*: 22 m. E. Nashville.

LA GRANGE county, *Ind.* Situate N. E., and contains 886 sq. m. Drained by Fawn, Pigeon, and Little Elkhart rivers, branches of St. Joseph's of Lake Michigan; with these are connected many ponds, which feed fine mill streams, and afford excellent water-power. Surface mostly level; about two-thirds of the county are barrens or oak-openings; the rest is mostly well timbered, and a little prairie. Soil in the openings, a sandy loam; in the forest-lands clay preponderates—everywhere good, and adapted to grain or grass. The openings produce wheat in profusion—the prairie corn, and the wooded parts grass and oats. The produce of all the grains is large, and great numbers of cattle, horses, and swine are raised for market. Farms 1,062; manuf. 64; dwell. 1,479, and pop.—wh. 8,369, fr. col. 18—total 8,387. Capital: La Grange.

LA GRANGE, p. v., Franklin co., *Ala.*: 171 m. N. N. W.

Montgomery. It occupies a commanding eminence. La Grange College, founded in 1830, is located here. In 1850 it had 5 instructors, 140 alumni, 96 students, and a library of 4,000 volumes.

LA GRANGE, p. v., and cap. Troup co., *Ga.*: on a small branch of Chattahoochie r., 109 m. W. Milledgeville. The v. contains a court-house, jail, 2 academies, several stores, and 600 inhabitants. It is on the La Grange R. R., 15 m. from West Point. The "Citizens' Reporter" is published weekly.

LA GRANGE, p. v., and cap. La Grange co., *Ind.*: 131 m. N. by E. Indianapolis. It contains a court-house, academy, several large stores, and 500 inhabitants. A plank-road leads hence 12 m. to the N. Indiana R. R.

LA GRANGE, p. o., Monroe co., *La.*: near Cedar cr., 87 W. S. W. Iowa City.

LA GRANGE, p. v., Oldham county, *Ky.*: 30 m. N. W. Frankfort. The v. is on the Louisville and Frankfort R. R., 33 m. from Louisville, and is the site of a Masonic College, under the supervision of the Grand Lodge of the State.

LA GRANGE, t. and p. o., Penobscot co., *Me.*: 78 m. N. E. Augusta. Drained by Birch and Pushaw rivers, branches of the Penobscot. Soil good, and well timbered. Lumbering is the chief business. Pop. 432.

LA GRANGE, t. and p. v., Cass county, *Mich.*: 92 m. S. W. by W. Lansing. Drained by affluents of St. Joseph's river, affording good mill-seats. Surface level, well timbered in parts, with prairie in the centre. Soil, superior wheat land. Pop. of t. 1,327.

LA GRANGE, p. v., Lewis co., *Mo.*: on the Mississippi, at the mouth of Wyaconda r., 104 m. N. N. E. Jefferson City. A landing-place, with a few stores.

LA GRANGE, p. o., Wyoming county, *N. Y.*: 224 m. W. Albany.

LA GRANGE, sta., Erie co., *N. Y.*: on Buffalo and State Line R. R., 29 m. from Buffalo.

LA GRANGE, p. o., Randolph co., *N. Car.*: on E. side of Utlarie r., 82 m. W. by N. Raleigh.

LA GRANGE, t. and p. o., Lorain co., *Ohio*: 97 m. N. N. E. Columbus. Drained by E. and W. branches of Black r., which afford water-power. Surface varied, and soil adapted to grain. The Cleveland, Columbus, and Cincinnati R. R. passes through it, 29 m. from Cleveland. Pop. 1,402.

LA GRANGE, p. o., Wyoming co., *Penn.*: 97 m. N. E. by N. Harrisburg.

LA GRANGE, p. v., Fayette co., *Tenn.*: on the N. side of Wolf cr., 181 m. W. S. W. Nashville. The Memphis and Charleston R. R. passes through this place, which contains an academy, several stores, and 500 inhabitants.

LA GRANGE, p. v., and cap. Fayette county, *Tex.*: 53 m. E. S. E. Austin City. It is pleasantly situated on the left bank of the Colorado, about 100 m. above its mouth, and contains a court-house, jail, academy, and 700 inhabitants. In the vicinity are quarries of a fine-grained sandstone, and dense forests of pine and cedar, affording the best of building materials in immense quantities.

LA GRANGE, t. and p. o., Walworth co., *Wisc.*: 44 m. E. S. E. Madison. The t. has an elevated surface, several ponds, and a good soil, producing grain, etc. Pop. 966.

LA GRANGE BLUFF, p. v., Brown co., *Ill.*: on the right bank of the Illinois, 47 m. W. by N. Springfield.

LA GREW SPRINGS, p. o., Arkansas co., *Ark.*: 59 m. S. E. Little Rock.

LAGRO, p. v., Wabash county, *Ind.*: on the N. side of Wabash r., 78 m. N. N. E. Indianapolis. The Salamonie r. here joins the Wabash; the Erie and Wabash Canal passes through the v., and plank-roads lead to Marion and Manchester. It has a large trade, and growing manufactures, and 700 inhabitants. The "Indiana Eagle" (dem.) is published weekly.

LA HARPE, p. v., Hancock co., *Ill.*: 87 m. W. N. W. Springfield.

LAHASKA, p. o., Bucks co., *Penn.*: 93 m. E. Harrisburg.

LAING's, p. o., Monroe county, *Ohio*: 103 m. E. by S. Columbus.

LAINSBURG, p. o., Shiawassee co., *Mich.*: 81 m. N. E. Lansing.

LAIRDSVILLE, p. v., Onelda co., *N. Y.*: 96 m. W. N. W. Albany.

LAIRDSVILLE, p. o., Lycoming county, *Penn.*: 74 m. N. Harrisburg.

LAKE county, *Ill.* Situate N. E. corner, and contains 468 sq. m. Fox r. passes S. on or near the W. border, and through Pistakee lake in the N. W. corner, and Des Plaines (or O'Plain) r. passes S. through the E., parallel to the shore of Lake Michigan, its E. boundary. It has numerous smaller lakes or ponds, and in the E. several swamps. Surface level or gently undulating; soil very fertile, and much of it prairie, adapted to grain or grass, raising heavy crops of wheat, corn, buckwheat, oats, and potatoes, and feeding great herds of cattle and swine. The dairies are large, and very profitable; pork is a large export, and wool beginning to be. Its lake trade is important, markets convenient, water-power plenty, and is being brought into use. Farms 1,895; manuf. 43; dwell. 2,455, and pop.—wh. 14,187, fr. col. 39—total 14,226. *Capital*: Waukegan.

LAKE county, *Ind.* Situate N. W. corner, and contains 469 sq. m. Kankakee r. bounds it S., and Lake Michigan N., and their affluents Calumic, Cedar, and Eagle rivers, etc., drain it. Surface diversified—generally somewhat broken; soil various, on the lake shore sand-hills, covered with dwarf pine and cedar; farther S. is a rich alluvial tract, and S. of that a sandy loam, and on Kankakee r. large marshes. The central parts are excellent grazing; the S. grows an abundance of grain. A large part is prairie and marl is plentiful. Farms 423; manuf. 5; dwell. 715, and pop.—wh. 8,990, fr. col. 1—total 3,991. *Capital*: Crown Point. *Public Works*: Northern Indiana R. R.; Central Michigan R. R.

LAKE county, *Mich.* Situate W. middle, on Lower Peninsula, and contains 576 sq. m. Drained by Notiepegon or Marquette, and Memoosie rivers, and a branch of Manistee r., affluents of Lake Michigan. Its bottoms are well timbered with oak and pine, and the soil is said to be very productive. It is thinly settled, and has been organized since 1850.

LAKE county, *Ohio*. Situate N. E. on Lake Erie, and contains 221 sq. m. Drained by Chagrine and Grand rivers and their branches. Surface rolling, and soil exceeding fertile. Corn and wheat are the leading crops. The other grains thrive well, and the grazing is of the best. Great numbers of cattle and hogs are raised for the Eastern markets, and the growth of wool is very heavy. It has good commercial facilities, and very important manufactures of lumber, flour, leather, iron, liquors, etc. Farms 1,449; manuf. 250; dwell. 2,700, and pop.—wh. 14,616, fr. col. 38—total 14,654. *Capital*: Painesville. *Public Works*: Cleveland, Painesville, and Ashtabula R. R.

LAKE, p. o., Washington county, *N. Y.*: 35 m. N. by E. Albany.

LAKE, t. and p. o., Luzerne county, *Penn.*: 84 m. N. E. by N., Harrisburg. Surface rough. Bowman's Mountains are in the N., and Harvey's Lake in the E., which furnishes a good mill-stream. Grazing is chiefly attended to. Pop. 730.

LAKE, t. and p. o., Stark county, *Ohio*: 105 m. N. E. Columbus. Pop. 1,732.

LAKE, sta., Lake co., *Ind.*: on the Michigan Central R.R., 20 m. W. of Michigan City.

LAKE CARRAWAY, p. o., Carroll par., *La.*: 151 m. N. by W. Baton Rouge.

LAKE CHAMPLAIN (see CHAMPLAIN lake).

LAKE CHARLES, p. o., Calcasieu par., *La.*: 129 m. W. Baton Rouge.

LAKE COMFORT, p. o., Hyde co., *N. Car.*: 188 m. E. by S. Raleigh.

LAKE CREEK, p. o., Lamar co., *Tex.*: on an affluent of Sulphur cr. so called, 251 m. N. E. by N. Austin City.

LAKE DRUMMOND, p. o., Norfolk co., *Virg.*: 88 m. S. E. Richmond.

LAKE ERIE (see ERIE lake).

LAKE GRIFFIN, p. o., Marion co., *Flor.*: at the head of Oclawaha r., 188 m. S. E. by E. Tallahassee.

LAKE HURON (see HURON lake).

LAKELAND, p. o. and sta., Suffolk co., *N. Y.*: 129 m. S. S. E. Albany. The station is 49 m. from Brooklyn on the Long Island R. R.

LAKE LANDING, p. o., Hyde co., *N. Car.*: 152 m. E. by S. Raleigh.

LAKE MARIA, p. v., Marquette co., *Wisc.*: near the lake of that name, 46 m. N. by E. Madison.

LAKE MICHIGAN (see MICHIGAN lake).

LAKE MILLS, t. and p. o., Jefferson co., *Wisc.*: 23 m. E. Madison. The t. has a fine soil for the grains, good water-power, and rapidly increasing manufactures. Pop. 884.

LAKE OF THE DESERT, *Mich.* and *Wisc.*: an inconsiderable lakelet, about half-way between the mouths of the Montreal and Menomonee rivers, through the former of which it empties into Lake Superior. The boundary line between the Upper Peninsula and the State of Wisconsin passes through its waters.

LAKE ONTARIO (see ONTARIO lake).

LAKE PLEASANT, t. and p. v., Hamilton co., *N. Y.*: 65 m. N. W. by N. Albany. Drained by Scandaga, Cedar, and Jessup's rivers, branches of the Hudson. It extends some 50 m. N. and S., and is mostly a wilderness dotted with beautiful lakes, the largest of which are Round Lake, Lake Emmons, and Lake Pleasant, on the W. shore of which latter is the small village of that name. It affords unsurpassed facilities for hunting and fishing, and is much resorted to for those purposes. Pop. 305.

LAKEPORT, p. v., Madison co., *N. Y.*: 112 m. W. by N. Albany.

LAKE PROVIDENCE, p. v., Carroll par., *La.*: on the right bank of the Mississippi, 156 m. N. Baton Rouge. It contains a court-house, jail, hospital, several stores and warehouses, and 600 inhabitants. Cotton is shipped in large quantities, and a considerable trade with the interior is carried on. Two newspapers are published here, "Le Republican" (whig) and the "Carroll Watchman," both weekly issues. The lake consists of an ancient bed of the Mississippi r., which has taken a different course, and in the north and south part the entrance from the river is entirely closed. Its outlet to the S. forms Tensas r. This v. is selected as one of the points from which the Louisiana and Texas R. R. ought to commence.

LAKE RIDGE, p. o., Tompkins co., *N. Y.*: 149 m. W. by S. Albany.

LAKE ST. CLAIR, *Mich.*: between Canada and Michigan. It is by far the smallest of the chain of lakes connecting Lake Superior with the Gulf of St. Lawrence. Lat. $42^{\circ} 52'$ N., and long $82^{\circ} 25'$ W. It is 24 m. long, and in circumference 90 m., and 20 feet deep. Its banks are alluvial, elevated 20 feet above the water, and have an undulating surface. Its principal tributary streams are the Clinton r. from the W., and the rivers Chenal, Ecarte, and Thames from Canada. It is a beautiful lake, with clear and transparent waters.

LAKEVILLE, p. v., Dorchester co., *Md.*: S. of Little Choptank r., 41 m. S. E. Annapolis.

LAKE SUPERIOR (see SUPERIOR lake).

LAKE SWAMP, p. o., Horry dist., *S. Car.*: about 4 m. S. of Lumber r., 107 m. E. by N. Columbia.

LAKETON, p. v., Wabash co., *Ind.*: about 1 m. W. of Eel r., 88 m. N. by E. Indianapolis.

LAKE VIEW, p. v., Dane co., *Wisc.*: 6 m. S. by E. Madison. The Milwaukee and Mississippi R. R. will pass through it.

LAKE VILLAGE, p. v. and sta., Belknap co., *N. Hamp.*: on an arm of Winnepiseogee Lake, 25 m. N. by E. Concord.

It is on the Boston, Concord, and Montreal R. R., 29 m. from Concord.

LAKEVILLE, p. v., Litchfield co., *Conn.*

LAKEVILLE, p. v., Oakland county, *Mich.*: 71 m. E. Lansing.

LAKEVILLE, sta., Ashland county, *Ohio*: on the Ohio and Pennsylvania R. R., 16 m. W. of Wooster. At or near this point, the Springfield, Mount Vernon, and Pittsburg R. R. will intersect the line and form its best and most direct connection with Cincinnati.

LAKEVILLE, p. v., Livingston co., *N. Y.*: at the N. end of Conesus Lake, 209 m. W. by N. Albany. The Buffalo, Corning, and New York R. R. passes near it.

LAKEVILLE, p. o., St. Joseph county, *Ind.*: 118 m. N. Indianapolis.

LAKE WACCAMAW, sta., Columbus co., *N. Car.*: 32 m. W. of Wilmington, on the Wilmington and Manchester R. R.

LAKE ZURICH, p. v., Lake county, *Ill.*: 188 m. N. N. E. Springfield. It is a thriving v. on the borders of a pond so called.

LAMAR county *Tex.* Situate N. E. on Red r., and contains 1,189 sq. m. Drained N. by Sander's and Upper and Lower Pine creeks of Red r., and S. by N. fork of Sulphur r. and its affluents, Brigham's, Crockett's, Honey, Hickory, Sandy, Mulberry creeks, etc. Surface diversified, with hills in the S., and a wide belt of river bottom in the N.; soil of great fertility, that on Red r. yields almost incredible crops of corn and cotton, and is never failing. The other portions afford excellent grazing, and good returns of potatoes and grain. Most of the county is heavily timbered with oak, walnut, ash, elm, and cedar. Cotton is the staple. Farms 409; manuf. 7; dwell. 497, and pop.—wh. 2,898, fr. col. 0, sl. 1,085—total. 3,973. *Capital*: Paris.

LAMAR, p. o., Marshall county, *Miss.*: 179 m. N. by E. Jackson.

LAMAR, p. o., Randolph county, *Ala.*: 77 m. N. N. E. Montgomery.

LAMAR, p. v., Refugio co., *Tex.*: on the N. side of the entrance into Aransas Bay, 154 m. S. by E. Austin City. It has a favorable position for commerce, having a fine harbor in its vicinity and a limited trade on the coast. Pop. 500.

LAMAR, p. v., Lake co., *Ill.*: 197 m. N. N. E. Springfield.

LAMAR, t. and p. o., Clinton co., *Penn.*: 67 m. N. N. W. Harrisburg. Drained by Big Fishing and Cedar creeks. Surface rugged, with valleys of rich loam. It is well supplied with water-power, and has large flouring and saw mills and extensive iron-works.

LAMARTINE, p. o., Clarion co., *Penn.*: 107 m. W. N. W. Harrisburg.

LAMARTINE, p. o., Washita co., *Ark.*: 86 m. S. S. W. Little Rock.

LAMARTINE, p. o., Giles county, *Tenn.*: 69 m. S. by W. Nashville.

LAMARTINE, p. o., Carroll co., *Ohio*: 103 m. E. N. E. Columbus.

LAMARTINE, p. o., Benton county, *Ala.*: 98 m. N. N. E. Montgomery.

LAMARTINE, t. and p. o., Fond du Lac co., *Wis.*: 66 m. N. E. Madison. It has an even surface, with some water-power and some low land. Pop. 518.

LAMASCO, v., Vanderburg co., *Ind.*: on the N. side of Ohio r., at the confluences of Little cr., and immediately W. of Evansville. It is a new village founded by Law, McCall, and Scott, and is named from the first letters of the several names—La-ma-sco—of those gentlemen. Its prosperity will be developed with that of Evansville.

LAMBERTSVILLE, t. and p. v., Hunterdon county, *N. Jer.*: on the E. bank of Delaware r., 14 m. N. W. by N. Trenton. It has a favorable situation for trade and manufactures, which are prosecuted extensively. The Belvidere Delaware R. R. passes the v. 17 m. from Trenton. A literary weekly, the "Delaware Valley Diarist," is published. Pop. of t. 1,417.

LAMBERTVILLE, p. o., Monroe co., *Mich.*: 78 m. S. E. Lansing.

LAMBURGH, p. v., Iroquois co., *Ill.*: on the right bank of Kankakee r., 132 m. N. E. Springfield.

LA MINE, p. o., Cooper co., *Mo.*: on the river so called, about 4 m. S. of the Missouri, 44 m. N. W. Jefferson City.

LA MINE river, *Mo.*: a tributary of the Missouri. It rises in Lafayette and Johnson counties, and flowing E. enters the above river 5 or 6 m. above Booneville. It receives the Blackwater about 20 m. from its confluence with the Missouri. These rivers are navigable for keel boats for a considerable distance.

LAMINGTON, p. o., Russell county, *Ala.*: 63 miles E. Montgomery.

LA MIRA, p. o., Belmont co., *Ohio*: 102 m. E. Columbus.

LAMOILLE county, *Verm.* Situate N. W., and contains 454 sq. m. Drained by Lamoille r. and its branches, and S. by Waterbury r., a branch of Onion r., both affluents of Lake Champlain. Surface broken and mountainous. The Green Mountains pass through the co. The Mansfield Mountains, a branch of the Green Mountain range, lies in the S., and are among the highest in the State—one summit is 4,279, and another 3,938 feet high. The face of the co. is not prepossessing, being much scarred by rough and rocky elevations, but it has many fertile valleys and much fine pasture. Corn and wheat yield well, but oats and potatoes much better, and grazing is the chief business. The produce of the dairy, live stock, beef, and wool, are the leading exports. The rugged hills are well grown with timber, and the maple furnishes abundance of sugar for consumption and export. The hills are also the sources of many streams, which furnish much water-power for its valuable manufactures of leather, woolen goods, and "Yankee notions." Farms 1,082; manuf. 42; dwell. 2,022, and pop.—wh. 10,869, fr. col. 8—total 10,872. *Capital*: Hyde Park.

LAMOILLE, p. v., Bureau co., *Ill.*: on a tributary of Illinois r., 123 m. N. Springfield.

LAMOILLE river, *Verm.*: a considerable stream rising in Long Pond, on the N. W. border of Caledonia county, whence its course is W. by N. to Lake Champlain, into which it falls, 12 m. N. Burlington. It has numerous tributaries, and its falls produce an immense and valuable water-power.

LA MOTTE, p. v., Jackson co., *Ia.*: 61 m. N. E. Iowa City.

LAMPETER, t. and p. o., Lancaster county, *Penn.*: 87 m. E. S. E. Harrisburg. Drained by Mill and Pecquea creeks and Conestoga r., which furnish good water privileges. Surface uneven, and soil fertile and highly cultivated. Leather and woolen goods are made. Pop. 3,586.

LAMPSVILLE, p. v., Belmont county, *Ohio*: 108 miles E. Columbus.

LAMSON'S, p. o. and sta., Onondaga co., *N. Y.*: about 1 m. W. of Oswego r., 141 m. W. by N. Albany. The sta. is 18 m. S. of Oswego, on the Oswego and Syracuse R. R.

LANARK, p. o., Bradley county, *Ark.*: 69 m. S. by E. Little Rock.

LANCASTER county, *Penn.* Situate S. E., and contains 938 sq. m. Drained by Conestoga, Pecquea, Conewango, and other creeks, affluents of the Susquehanna, which forms its S. W. boundary. Surface much diversified; parts very hilly, and parts with only an agreeable variety of hill and valley; affording much of the most delightful scenery to be found in the Union, particularly on the banks of the Susquehanna. Soil of excellent quality, equally adapted to grass and grain, and under a superior cultivation. Corn, wheat, rye, and oats, produce great crops—the cereal staples. The dairies are large, widely known, and very profitable; beef and pork are important exports, and wool is sheared to a large amount. The streams afford unlimited water-power, which is all employed in manufactures of iron, flour, lumber, woolen and cotton goods, leather, liquors, earthenware, etc. Iron, flour, and lumber, furnaces and mills, employ a large capital, and form a leading interest with the citizens.

Farms 5,629; manuf. 1,146; dwell. 17,138, and pop.—wh. 95,318, fr. col. 3,626—total 98,944. *Capital*: Lancaster. *Public Works*: Philadelphia and Columbia R. R.; Columbia Branch R. R.; Harrisburg and Lancaster R. R.; Tide-water Canal, etc.

LANCASTER district, *S. Car.* Situated N. centrally, and contains 562 sq. m. Bounded W. by Catawba r., E. by Lynch's cr., and drained by their affluents. Surface elevated, and somewhat broken. Soils mostly very fertile. Cotton is the staple product, and very large crops are raised. Corn is the chief cereal, and wheat of a good quality is considerably raised. It has several good water privileges, and some manufactures. Farms 580; manuf. 208; dwell. 1,096, and pop.—wh. 5,861, fr. col. 113, sl. 5,014—total 10,988. *Capital*: Lancaster.

LANCASTER county, *Virg.* Situate E., at the mouth of Rappahannock r., and contains 90 sq. m. The Rappahannock forms its S. W. boundary, and several small creeks flow through the co. into it—among them, Carter's cr., noted for its excellent oysters. Surface varied, with no great elevation. Soil of average fertility, producing chiefly corn and oats. It has good timber, pine and oak in abundance. Farms 299; manuf. 4; dwell. 426, and pop.—wh. 1,805, fr. col. 263, sl. 2,640—total 4,708. *Capital*: Lancaster Court-house.

LANCASTER, p. v., Cass county, *Ill.*: 21 m. W. N. W. Springfield.

LANCASTER, p. v., Jefferson county, *Ind.*: 72 m. S. S. E. Indianapolis. It lies within 2 m. of the Madison and Indianapolis R. R.

LANCASTER, p. v., and cap. Garrard co., *Ky.*: about 3 m. E. of Dick's r., 42 m. S. S. E. Frankfort. It contains a court-house, jail, 2 academies, several stores, and 600 inhabitants.

LANCASTER, t. and p. v., Worcester co., *Mass.*: 83 m. W. by N. Boston. Drained by Nashua r. and its W. branch—large streams, which supply fine water-power. Surface much varied—parts are quite hilly, while the rivers are bordered with extensive alluvial meadows; soil generally of superior quality, equally fitted for grass or grain. For farming its facilities are great, and none of them overlooked, and for manufacturing little inferior. The articles made are numerous and steadily increasing in amount; among them are cotton and woolen goods, boots and shoes, leather, hats, combs, mechanic's tools, cabinet ware, etc. The Worcester and Nashua R. R. passes through the town along the river, and the sta. is 19 m. N. of Worcester. The village is on a plain, at the junction of the two branches of the river, surrounded by hills, and contains an academy, a bank, and several stores. Pop. of t. 1,638.

LANCASTER, p. v., and cap. Schuyler co., *Mo.*: 133 m. N. by W. Jefferson City. It contains a court-house, and several stores and dwellings.

LANCASTER, t. p. v., and cap. Coos co., *N. Hamp.*: on the Connecticut r., along which the t. extends about 10 m., 88 m. N. Concord. Drained by Israel's r. and its branches, which afford good water-power. Surface level, and soil very fertile along the Connecticut; the E. parts are too rugged for tillage, but furnish excellent pasture. The v. extends N. from Israel's r., which has several dams on it, about 1 m. from the Connecticut, and contains a court-house, jail, 2 banks, an academy, and several stores and mills. The "Coos County Democrat" is published here weekly. Pop. of t. 1,550.

LANCASTER, t. p. v., and sta., Erie co., *N. Y.*: 258 m. W. by N. Albany. Drained by Ellicott's, Cayuga, and Seneca creeks, on which are several large mills. Surface undulating; soil a rich loam, yielding fine crops of grass and grain. The Buffalo and Rochester R. R. and Buffalo and New York City R. R. cross the township, and the sta. is 10 m. from Buffalo. The v. is on Cayuga cr., and contains 3 hotels, several mills and stores, and 800 inhabitants. Pop. of t. 3,794.

LANCASTER, p. v., and cap. Fairfield co., *Ohio*: on the

upper part of Hocking r., 27 m. S. E. Columbus. It is well laid out on both sides of the r., and contains a court-house and jail, several large flouring and other mills, extensive machine shops, and many elegant stores. It enjoys a large trade with the surrounding country, and is the outlet of its produce, which here reaches the Hocking Canal 9 m. from its junction with the Ohio Canal. The "Ohio Eagle" (dem.), and "L. Gazette" (whig), both publish daily and weekly editions, and the "L. Telegraph" (dem.), is published weekly. The Wilmington and Zanesville R. R. passes through it. Pop. 3,488.

LANCASTER, t. p. city, and cap. Lancaster co., *Penn.*: on the right side of, and 1½ m. from, Conestoga cr., 13 m. from its confluence with the Susquehanna, and 34 miles E. S. E. Harrisburg. Lat. 40° 02' 36" N., and long. 76° 20' 38" W. 109 m. N. N. E. Washington. It is a comfortable city, with wide streets crossing each other at right angles, well paved, and lighted with gas. The city is divided into four wards. Many of the dwellings have an antique appearance, but generally are well built of brick and stone; and the inhabitants are supplied with water by means of an artificial basin and conducting pipes. The court-house is a handsome structure. Pop. in 1810, 5,407; in 1820, 6,663; in 1830, 7,704; in 1840, 8,417; and in 1850, 12,365. Previous to 1819 it was the capital of the State; it was originally chartered as a borough in 1754, and was incorporated as a city in 1818. Lancaster is venerable on account of its associations with the past, and remarkable for its modern progress. It has ever been a place of trade, and a main entrepôt of the commerce between the sea-board and interior. The rapid increase of the city in later days is owing chiefly to its railroad connections, and the consequent development of the vicinity on account of the increased facilities of travel and transportation. The lines connecting at this point, 70 miles from Philadelphia, and 87 from Harrisburg by route, are the Philadelphia and Columbia R. R., and the Lancaster and Harrisburg R. R.; forming portions of the great east and west line across the State. The improvements of Conestoga cr. are also available to Lancaster. Numerous manufactures are carried on in the town and city; it has two large cotton mills, 1 steam furnace, 1 rolling mill, and three forges—the latter using water-power—and a large variety of mechanic shops. Stores of every description are numerous, and have a large wholesale and retail trade; and the large number of hotels and taverns are evidence of the prosperous condition of the country trade, which requires such accommodation. There are four banks in Lancaster; and there are, besides the manufactures above-named, numerous distilleries, breweries, potteries, printing establishments, binderies, etc. It is also well supplied with churches and schools—one of the latter, a well-endowed institution, and formerly known as Franklin College, founded chiefly by Germans in 1787; and has several libraries, and other literary institutions. The public press of the city consists of nine weekly newspapers and one monthly; the latter being the "American Law Journal." The newspapers are, the "Union and Tribune," the "Folks' Friend," the "Examiner and Herald," the "L. Gazette," and the "American Press and Republican" (all whig); the "Lancasterian" and "L. Intelligencer" (both dem.), the "Saturday Express" (temperance), and the "Columbia Spy." The city is surrounded by a very fertile, highly cultivated, and populous country.

LANCASTER, p. v., and cap. Keokuk county, *Ia.*: between Skunk river and its N. fork, 89 m. S. W. Iowa City. It contains a court-house, several stores, and about 300 inhabitants.

LANCASTER, t. p. v., and cap. Grant county, *Wis.*: 69 m. W. S. W. Madison. Drained by a branch of Grant r., which has considerable fall. Surface uneven, and soil well adapted to wheat. It is in the mineral region, and has lead veins in the S. part. The v. contains a court-house, high school, several stores, and 300 inhabitants. The "Grant County Herald" (whig) is published weekly. Pop. of t. 1,692.

LANCASTER, p. v., Smith co., *Tenn.*: on W. side of Caney fork of Cumberland r., 51 m. E. by S. Nashville.

LANCASTER C. H., p. v., and cap. Lancaster dist., *S. Car.*: on a small branch of Catawaba r., 48 m. N. by E. Columbia. It contains a court-house, jail, 2 academies, several stores, and 376 inhabitants.

LANCASTER C. H., p. v., and cap. Lancaster co., *Virg.*: 53 m. E. by N. Richmond. It contains a court-house and several dwellings.

LANDAFF, t. and p. o., Grafton county, *N. Hamp.*: 57 m. N. by W. Concord. Drained by branches of Ammonoosuc r. Surface much broken. Landaff Mountain is in the E. Soil in the lower parts very fertile. Iron ore is found in the north. Pop. 948.

LANDERSVILLE, p. o., Lawrence co., *Ala.*: 157 m. N. N. W. Montgomery.

LANDGROVE, t. and p. o., Bennington co., *Verm.*: 72 m. S. by W. Montpelier. Drained by West r. Surface elevated, and generally too rough for cultivation. Pop. 387.

LANDISBURGH, p. v., Perry co., *Penn.*: 23 m. W. by N. Harrisburg. It contains several stores, and a furnace of 1,100 tons annual capacity.

LANDISVILLE, p. o., Lancaster co., *Penn.*: 26 m. E. by S. Harrisburg.

LAND OF PROMISE, p. o., Princess Anne co., *Virg.*: 102 m. S. E. Richmond.

LANDSDOWN, p. o., Prince William co., *Virg.*: 84 m. N. Richmond.

LANDSFORD, p. o., Chester dist., *S. Car.*: 2 m. W. Catawba river, 49 m. N. Columbia.

LANE county, *Oreg.* Situate S., and contains a large area of perhaps 50,000 sq. m. It has Linn co. on the N., Umpqua co. on the W., between it and the Pacific, and an unorganized region, attached to Umpqua co., on the S. The Cascade range of mountains, which run parallel to the ocean through the territory, crosses the W. part of the co., separating the waters of its streams. West of this range it is drained by Long Tom, Coast, Middle, and McKenies forks, head streams of Willamette r., which flows N. into the Columbia, and E. by Fall r. and its branches, pursuing a N. course, and emptying into the Columbia far to the E. of the Willamette. It has fine streams, skirted with noble forests of gigantic growth, and is mostly in possession of the red man. Of its soil and products under cultivation, little is known, it being scarcely settled, and but just organized.

LANE, p. o., Elkhart county, *Ind.*: 127 m. N. by E. Indianapolis.

LANEFIELD, p. v., Haywood co., *Tenn.*: on S. bank of Forked Deer r., 141 m. W. by S. Nashville.

LANESBORO', t. and p. v., Berkshire co., *Mass.*: 114 m. W. by N. Boston. It consists chiefly of a valley of great fertility, through which flow several heads of Housatonic and Hoosic rivers. The higher parts are excellent grazing land, and the lower highly cultivated and very productive farms. Wool is a heavy export; limestone is abundant, and beautiful marble and graphic slate are found. In the S. is a pond much resorted to by fishing parties, and through the E. passes the Pittsfield and North Adams R. R., East Lanesboro' Station being 6 m. N. of Pittsfield. The v. contains an academy and several stores. The new State Prison has recently been located here. Pop. 1,226.

LANESBOROUGH, p. o., Anson co., *N. Car.*: on Lane cr. of Rocky r., 107 m. S. W. by W. Raleigh.

LANESBOROUGH, p. v., Susquehanna co., *Penn.*: on the E. side of Cannawacta cr., 132 m. N. E. by N. Harrisburg. It contains 2 hotels, several mills and tanneries, and 500 inhabitants. The Erie R. R. passes over the r. on a tressle bridge, 450 feet long, and 70 feet above the creek.

LANE'S CREEK, p. o., Union co., *N. Car.*: on a branch of Rocky r., 112 m. S. W. by W. Raleigh.

LANE'S PRAIRIE, p. o., Osage county, *Mo.*: 36 m. S. E. Jefferson City.

LANESVILLE, p. v., Harrison county, *Ind.*: 103 m. S.

Indianapolis. A plank-road passes through from Corydon to New Albany.

LANESVILLE, sta., Marion co., *Ind.*: on the Indianapolis and Bellefontaine R. R., 9 m. from Indianapolis.

LANESVILLE, p. v., Floyd co., *Ky.*: on the W. fork of Big Sandy r., 162 m. E. S. E. Frankfort.

LANESVILLE, p. o., King William co., *Virg.*: 26 m. N. N. E. Richmond.

LANGDON, p. v., Du Page county, *Ill.*: 164 m. N. N. E. Springfield.

LANGDON, t. and p. o., Sullivan co., *N. Hamp.*: 41 m. W. by S. Concord. Drained by Cold r. Surface various; soil fertile and well timbered. A farming and grazing town. Pop. 575.

LANGDON'S, sta., Jackson co., *Ind.*: on the Jeffersonville R. R., 25 m. S. of Columbus.

LANGHARNE'S TAVERN, p. o., Cumberland co., *Virg.*: 41 m. W. Richmond.

LANGLEY, p. o., Fairfax co., *Virg.*: 89 m. N. Richmond.

LANGSBURY, p. o., Camden co., *Ga.*: near Little St. Illa river, 166 m. S. E. by S. Milledgeville.

LANGSTON, p. o., Jackson county, *Ala.*: about 7 m. E. Tennessee r., 145 m. N. by E. Montgomery.

LANGSVILLE, p. v., Meigs county, *Ohio*: 78 m. S. E. Columbus.

LANGVILLE, p. o., St. François co., *Ark.*: near the branch of St. Francis r. so called, 82 m. E. by N. Little Rock.

LANIER, p. v., and cap. Macon co., *Ga.*: about 3 m. W. Flint river, 69 m. S. W. Milledgeville. It contains a court-house, jail, and 150 inhabitants.

LANNAHASSEE, p. o., Stewart co., *Ga.*: near Kickafoone cr. of Flint r., 107 m. S. W. Milledgeville.

LANING, p. v., Outagamie co., *Wisc.*: 122 m. N. N. E. Madison.

LANING, t., p. city, and cap. Ingham co., *Mich.*, and cap. of the State of Michigan: on the right or N. bank of Grand river, in a direct line, 483 m. N. W. by W. Washington. Lat. 42° 43' N., and long. 84° 29' W. The t. is drained by Grand river, which in the centre receives Cedar r. from the E., and has also several minor streams, all affording an immense hydraulic power. Grand r. is here navigable for batteaux; the surface is level, and the soils rich and productive, yielding the grains and esculent vegetables abundantly. The city was commenced in 1847, and on the 25th December of that year became the permanent seat of the State government; previous to that it was a wilderness, without an inhabitant. It is now a place of considerable pretension, and its future is predestined to be one of prosperity. The streets and squares are well arranged, and its public buildings projected on a scale of more than ordinary elegance. The State House, a large and handsome edifice, surrounded by an inclosed park, is situate on an eminence 50 feet above the river, and overlooking a beautiful region of woodland and intervals. It contains, besides, several steam and water mills for flouring and sawing, and has two fine hotels, about 250 dwellings, and 10 or 12 wholesale and retail stores. Two newspapers, the "Michigan State Journal" (dem.), issued weekly, and the "Primitive Expounder" (whig), semi-weekly. Pop. of t. 1,226.

LANING, p. v., and cap. Allamakee co., *Ia.*: on the right bank of the Mississippi, 113 m. N. by E. Iowa City. It has a landing on the river, and contains a few stores and dwellings.

LANINGSBURG, t. and p. v., Rensselaer co., *N. Y.*: 9 m. N. by E. Albany. Drained by creeks of Hudson r., which on the W. forms its boundary. Surface near the river level, in the E. somewhat hilly; soil gravelly and clay loam. The village, at the head of sloop navigation, on the Hudson, is a flourishing place, and with streets intersecting at right angles, and contains many substantial and neat buildings. It has 9 churches, numerous stores, wholesale and retail, hotels, groceries, etc., a bank, and several extensive and important manufactures, among which are those

of fire-arms, brushes, iron and copper ware, oil floor-cloth, etc., and also plaster, flour, and other mills; it is noted, also, for its malt. Three newspapers are published in the v., the "L. Democrat," and the "L. Gazette," both issued weekly, and the "Golden Rule," a monthly issue. The v. has also several schools and a good academy. Several sloops, etc., are owned here, and are employed on the river. The State Dam, between here and Troy, 1,100 feet long and 9 feet high, forms a spacious basin, and by means of a lock enables vessels to come up to this place; and a bridge across the Hudson connects it with Waterford; and the Troy and Boston R. R. passes through it, connecting it with the railroads to the North and South. Pop. in 1840, 3,830, and in 1850, 5,752, of which about 4,300 are in the village. It is one of the most improving villages of the State, and with its present facilities of water and land travel and transportation, must continue to rise in the scale of importance.

LANSINGVILLE, p. v., Tompkins co., *N. Y.*: 146 m. W. Albany.

LAONA, p. v., Chautauque county, *N. Y.*: on Canadawa creek, 298 m. W. Albany. It is a thriving village, containing several mills and 500 inhabitants.

LAONA, p. v., Winnebago co., *Ill.*: 192 m. N. Springfield.

LAPEER county, *Mich.* Situate S. E., and contains 720 sq. m. Drained by Flint r. and its branches flowing into Saginaw r. and bay, and Mill cr., Belle r., and N. branch of Clinton r., flowing into St. Clair r. and lake. Surface gently undulating. The soil is mostly oak-openings; the N. is well wooded with oak, elm, beech, maple, and pine—the last abundant on Flint r., and of excellent quality. Soil on the streams very fertile, and superior for tillage. There is much first-rate pasture between them. Cattle, pork, and grain are the staples. There are many small streams in the co.; all are fine mill-streams, and the water-power is of great value. Farms 628; manuf. 45; dwell. 1,286, and pop.—wh. 7,007, fr. col. 22—total 7,029. *Capital*: Lapeer.

LAPEER, t. and p. o., Cortlandt county, *N. Y.*: 122 m. W. by S. Albany. Drained by Tioughnioga creek and branches. Surface uneven, and soil clayey loam, admirably adapted to grain-growing, which is the chief business. Incorporated in 1845. Pop. 822.

LAPEER, t., p. v., and cap. Lapeer county, *Mich.*: 66 m. E. by N. Lansing. Drained by Flint r. and its branches, which afford much superior water-power. Surface rolling, and soil very fertile. The v. is at the junction of Farmer's cr. with Flint r., and has abundant water-power in its vicinity. It contains a court-house and jail, an academy, several flouring and other mills, and growing manufactures. The "L. County Democrat" is published weekly. Pop. of t. 1,467.

LAPHAMSVILLE, p. v., Kent co., *Mich.*: 47 m. W. by N. Lansing.

LAPLAND, p. o., Buncombe county, *N. Car.*: 245 m. W. Raleigh.

LA POINTE county, *Wisc.* Situate N. W., and contains about 4,400 sq. m. Drained S. W. by St. Croix r. and its numerous tributaries, S. E. by heads of Chippewa r., all affluents of the Mississippi, and N. by St. Louis r., Mashkeg r., Burnt Wood r., and smaller streams flowing N. into Lake Superior, its N. boundary. With its streams are connected many large ponds, affording excellent fish, and much of the co. is covered with swamps. The chief products are fish, game, and furs, and the inhabitants Indians, hunters, and trappers, with a few traders. Farms 5; manuf. 1; dwell. 74, and pop.—wh. 433, fr. col. 6—total 439. *Capital*: La Pointe.

LA POINTE, p. v., La Pointe co., *Wisc.*: on S. end of Madeline Island, 286 m. N. by W. Madison.

LAPOMBA, p. o., La Fayette co., *Miss.*: 129 m. N. by E. Jackson.

LA PORTE county, *Ind.* Situate N. W., and contains 552 sq. m. Drained by Kankakee r. and its affluents, Calumet river and Trail cr., the last emptying into Lake Michigan, where the co. touches the lake in the N. W. Surface undu-

lating—prairies, groves, and ponds varying the scenery with sand-hills near the lake, and marshes on the Kankakee. Except near the lake and in the S., the soil is very productive, raising large crops of the grains, and much of it is excellent grazing land. Corn, wheat, cattle, and hogs are the farming exports. Its ponds and streams furnish fine water-power, and it enjoys a good share of the lake trade. Farms 1,116; manuf. 122; dwell. 2,124, and pop.—wh. 12,070, fr. col. 75—total 13,145. *Capital*: La Porte. *Public Works*: Northern Indiana R. R.; New Albany and Salem Extension R. R.; Michigan Central R. R.

LA PORTE, p. o., Warren county, *Penn.*: 166 m. N. W. Harrisburg.

LA PORTE, p. v., and cap. La Porte co., *Ind.*: 128 m. N. by W. Indianapolis. It lies near several ponds on the edge of a prairie, and contains a court-house and jail, a bank, an academy and several high schools, and has an extensive trade in grain and live-stock, with 1,821 inhabitants. The Indiana Medical College is located here, and in 1850 had 7 instructors, 19 alumni, and 104 students. The Northern Indiana R. R. passes the v. 58 m. from Chicago. The "L. County Whig" is published weekly.

LA PORTE, p. o., Lorain county, *Ohio*: 98 m. N. N. E. Columbus.

LAPPON'S CROSS ROADS, p. o., Washington co., *Me.*: 84 m. N. W. by W. Annapolis.

LAPUTA, p. o., Franklin co., *Ky.*: 8 m. W. Frankfort.

LAREDO, p. v., and cap. Webb co., *Tex.*: on the left bank of the Rio Grande, 227 m. S. W. by W. Austin City. This was an old Spanish settlement of much importance, but through its border position, has lost its superiority. It is surrounded by a fine grazing region, and is rising again as a place of trade. It has steamboat communication with the Gulf cities, is a U. S. military post, and contains a court-house and 500 inhabitants.

LARISSA, p. o., Cherokee county, *Tex.*: 138 m. E. N. E. Austin City.

LARKINSBURG, p. v., Clay county, *Ill.*: 69 m. S. E. Springfield.

LARKIN'S FORK, p. o., Jackson co., *Ala.*: on a branch of Tennessee r. so called, 166 m. N. Montgomery.

LARKINSVILLE, p. v., Jackson county, *Ala.*: 155 m. N. Montgomery. It contains an academy and 150 inhabitants.

LARNED'S CORNERS, p. o., Ontario county, *N. Y.*: 179 m. W. by N. Albany.

LAROME, p. o., Somerset co., *Me.*: 47 m. N. Augusta.

LARRABEE'S POINT, p. v., Addison co., *Verm.*: on the E. side of Lake Champlain, near the entrance of Lake George, 43 m. S. W. Montpelier.

LARRY'S CREEK, p. o., Lycoming county, *Penn.*: 72 m. N. Harrisburg.

LA RUE county, *Ky.* Situate centrally, and contains 213 sq. m. Drained by Rolling Fork of Salt r., an affluent of the Ohio, and S. fork of Nolin cr., an affluent of Green r. Surface various; soil fertile, and grazing excellent. Corn, wheat, and tobacco are staple products. Many hogs, horses, and cattle are raised and exported. Farms 420; manuf. 12; dwell. 845, and pop.—wh. 5,177, fr. col. 10, sl. 672—total 5,859. *Capital*: La Rue.

LA SALLE county, *Ill.* Situate N. E., and contains 994 sq. m. Illinois r. crosses the middle, and its branches drain it; N., Fox r. and its affluents, Indian and Somonauk creeks; S. Vermillion r. Surface undulating; soil very productive. Much of the co. is dry prairie, and deficient in timber. All the grains produce largely, and, with live stock, beef, and pork, constitute the farmers' staples. It has abundance of fine mill streams, and manufactures extensively. Beds of excellent coal yield fuel in abundance for consumption and export. Farms 1,336; manuf. 46; dwell. 8,074, and pop.—wh. 17,799, fr. col. 16—total 17,815. *Capital*: Ottawa. *Public Works*: Illinois and Michigan Canal; Chicago and Rock Island R. R.; Aurora Extension R. R.; Illinois Central R. R., etc.

LA SALLE, I. and p. o., Monroe co., *Mich.*: on Lake Erie, 78 m. S. E. Lansing. Drained by Otter cr. and Aux Vases r., small streams, entering the lake. Surface level, and soil somewhat sandy, but finely adapted to wheat and grass. Pop. 1,406.

LA SALLE, p. v., La Salle co., *Ill.*: on the right bank of Illinois r., 86 m. N. by E. Springfield. It is at the junction of the Illinois and Michigan Canal with the Illinois r., 1 m. above Peru. The r. is navigable for the largest steamboats, and immense quantities of grain are shipped from this point by r. and canal. Huge warehouses line the river bank, and the dwellings occupy the high bluffs a little back. It is chiefly a commercial place, and fast increasing in importance and population. Pop. about 3,000.

LA SALLE, p. v., Calhoun co., *Tex.*: on the S. W. shore of Matagorda Bay, 147 m. S. S. E. Austin City. It is a landing place for steamers, and has a small coasting trade.

LA SALLE, p. o., Niagara county, *N. Y.*: 298 m. W. by N. Albany.

LAS CASAS, p. v., Rutherford co., *Tenn.*: 27 m. E. S. E. Nashville.

LASSELLSVILLE, p. v., Fulton co., *N. Y.*: on a branch of the Mohawk, 52 m. N. W. by W. Albany.

LASSITER'S MILLS, p. o., Randolph co., *N. Car.*: 71 m. W. Raleigh.

LAS VEGAS, p. v., San Miguel co., *N. Mex.*: on Gallinas r., a branch of the Pecos, 45 m. (direct) E. by S. Santa Fé. It is on the great route from Fort Leavenworth to Santa Fé, and in a sandy valley, made productive by artificial irrigation from the Gallinas, which is a small and sluggish stream. It is well laid out, and mostly built of adobes, or sun-dried bricks. A considerable trade centres here, and it contains several mercantile houses, and about 1,000 inhabitants.

LATHROP, p. o., Susquehanna co., *Penn.*: 116 m. N. N. E. Harrisburg.

LATONIAN SPRINGS, v., Kenton county, *Ky.*: 4 m. S. Covington. It is a fashionable watering-place, and is much resorted to in the summer season.

LATROBE, sta., Westmoreland co., *Penn.*: on W. division of Pennsylvania R. R., 42 m. from Pittsburgh.

LATTAS, p. o., Ross co., *Ohio*: 44 m. S. by W. Columbus.

LAUBACH, p. o., Northampton co., *Penn.*: 83 m. E. N. E. Harrisburg.

LAUDERDALE county, *Ala.* Situate N. W., and contains 653 sq. m. It lies between Tennessee r. on the S. and W., and the State of Tennessee on the N., and is drained by Elk r., Blue Water and Cypress creeks, and other affluents of the Tennessee. Surface undulating or slightly broken; soil very fertile. Cotton is the staple, of which great crops are raised. Corn grows about as well, and wheat yields largely. The pastures are very good, and great numbers of swine are fattened. It has a large supply of water-power, and important and growing manufactures. The Muscle Shoals in the S. E. obstruct the navigation of the Tennessee, but a long canal has been built around them, and markets are easily accessible. Farms 1,180; manuf. 32; dwell. 1,863; and pop.—wh. 10,097, fr. col. 60, sl. 6,015—total 17,112. *Capital*: Florence. *Public Works*: Muscle Shoals Canal, 85½ m. long.

LAUDERDALE county, *Miss.* Situate E. middle, and contains 703 sq. m. Drained by Chankey, Octibbeha, and Backalony creeks, heads of Chickasawha r., and E. by small affluents of Tombigbee r. Surface varied; soil of average fertility, producing cotton, corn, and oats, and furnishing mast and grazing for many swine and cattle. It has a good growth of pine forest, and a few good mill streams. Farms 922; manuf. 31; dwell. 1,008; and pop.—wh. 5,029, fr. col. 27, sl. 2,661—total 8,717. *Capital*: Marion.

LAUDERDALE county, *Tenn.* Situate W. middle, and contains 474 sq. m. Drained by Forked Deer r. N., and Big Hatchie r. S., affluents of the Mississippi, its W. boundary. Surface pleasantly diversified, with some low

land; soils various, and mostly of great fertility. Corn, cotton, and tobacco are the agricultural staples. Swine are fattened in great numbers. It has considerable water power, which is fast coming into use. Farms 237; manuf. 4; dwell. 563, and pop.—wh. 8,897, fr. col. 6, sl. 1,766—total 5,169. *Capital*: Ripley.

LAUDERDALE FACTORY, p. v., Lauderdale county, *Ala.*: 181 m. N. N. W. Montgomery. There is an extensive cotton factory, and a growing v. of 400 inhabitants.

LAUDERDALE SPRINGS, p. o., Lauderdale co., *Miss.*: 77 m. E. Jackson.

LAUGHERY creek, *Ind.*: an affluent of Ohio r., which it joins 2 m. below Aurora. It is a large and valuable mill stream, and is navigable for flat boats nearly 40 m. from its mouth. It rises in the S. E. corner of Decatur co., and runs through Ripley, Ohio, and Dearborn counties. Captain Laughery's company was massacred by the Indians on this cr., and hence its name.

LAUGHLINTOWN, p. v., Westmoreland co., *Penn.*: 118 m. W. Harrisburg. A charcoal furnace, of 1,400 tons annual capacity, is moved by a small stream near it.

LAURA, p. o., Miami co., *Ohio*: 69 m. W. Columbus.

LAURAMIE, p. o., Tippecanoe county, *Ind.*: 65 m. N. W. Indianapolis.

LAUREL county, *Ky.* Situate S. E., and contains 355 sq. m. Drained by Rockcastle and Laurel creeks, branches of Cumberland r. Surface uneven; soil good, better adapted to grazing than grain. Corn is the chief cereal. Attention is mostly directed to the rearing of cattle, horses, and swine, and large numbers are sent to market. Farms 284; manuf. 0; dwell. 671, and pop.—wh. 8,946, fr. col. 7, sl. 192—total 4,145. *Capital*: London. *Public Works*: Knoxville and Ohio R. R.

LAUREL, p. v., Sussex county, *Del.*: on Broad cr. of Nanticoke r., 39 m. S. Dover.

LAUREL, p. o., Franklin co., *Ind.*: on the W. branch of White Water r., 52 m. E. S. E. Indianapolis. The v. (called Laurel City) is on the Whitewater Canal, and has considerable manufactures, and a large trade, with 600 inhabitants.

LAUREL, p. o., Clermont county, *Ohio*: 86 m. S. W. Columbus.

LAUREL, p. o., Washington co., *Virg.*: on a branch of S. fork of Holston r., 246 m. W. by S. Richmond.

LAUREL, p. o., Marion co., *Mo.*: 82 m. N. N. E. Jefferson City.

LAUREL mountains, *Penn.*, *Virg.*, and *Tenn.*: a ridge of the Alleghanies, west of the main chain. They extend from Pennsylvania across Virginia to Kentucky, and under the name of Cumberland mountains, divide the two latter States, and cross Tennessee, terminating near its S. border.

LAUREL BRANCH, p. o., Henrico co., *Virg.*

LAUREL CITY, v., Franklin co., *Ind.*: on the Whitewater Canal, 14 m. N. W. Brookville.

LAUREL CREEK, p. o., Fayette co., *Tenn.*: 151 m. W. S. W. Nashville.

LAUREL FACTORY, p. v., Prince George's co., *Md.*: on the right bank of Big Patuxent r., 21 m. W. N. W. Annapolis. The Washington Branch R. R. passes the v., 22 m. from Baltimore.

LAUREL FORK, p. o., Bath co., *Ky.*: on a cr. of Licking r. so called, 66 m. E. Frankfort.

LAUREL GAP, p. o., Greene co., *Tenn.*: on W. side of Lick cr., 219 m. E. Nashville.

LAUREL GROVE, p. o., Pittsylvania co., *Virg.*: 118 m. S. W. by W. Richmond.

LAUREL HILL, p. o., Marengo co., *Ala.*: on Beaver cr. of Tombigbee r., 82 m. W. by S. Montgomery.

LAUREL HILL, p. o., Carroll co., *Ga.*: about 2 m. S. Tallapoosa r., 122 m. W. by N. Milledgeville.

LAUREL HILL, p. o., Richmond co., *N. Car.*: near Shoe Heel Swamp, 77 m. S. W. by S. Raleigh.

LAUREL HILL, p. o., Lunenburg co., *Virg.*: 54 m. S. W. Richmond.

LAUREL HILL, sta., West Feliciana par., *La.*: 86 m. N. by W. Baton Rouge. The West Feliciana R. R. passes here, 12 miles from Bayou Sara.

LAUREL MILLS, p. o., Rappahannock county, *Virg.*: 86 m. N. N. W. Richmond.

LAUREL POINT, p. o., Monongalia county, *Virg.*: 107 m. N. W. by W. Richmond.

LAUREL SPRINGS, p. o., Ashe co., *N. Car.*: at the west base of the Blue Ridge, 165 m. W. N. W. Raleigh.

LAURELVILLE, p. v., Westmoreland co., *Penn.*: 134 m. W. Harrisburg.

LAURENS county, *Ga.* Situate S. E. centrally, and contains 763 sq. m. Intersected by Oconee r., and drained by its affluents, Big, Cool Spring, Palmetto, and Mercer's creeks, and north fork of Little Ocmulgee r. Surface considerably broken; soil excellent. Cotton and corn are the staples. It is a fine grazing county, and raises great numbers of cattle and hogs, and has superior dairies. Its water-power is plentiful. Farms 323; manuf. 6; dwell. 634; and pop.—wh. 3,459, fr. col. 9, sl. 2,974—total 6,442. *Capital*: Dublin.

LAURENS district, *S. Car.* Situate N. W., and contains 926 sq. m. Bounded S. W. by Saluda r., and N. E. by Ennoree r., a branch of Broad r., and drained by their affluents, Reedy and Redburn rivers, and Duncan's cr., all flowing into the Santee. Surface much diversified; in parts hilly; soil of great fertility—producing fine grass, great crops of corn and wheat, and an immense yield of cotton. Cotton is the great staple. Many cattle and sheep are reared, and great quantities of pork fattened. It has superior and abundant water-power, and limestone and marl are extensively found. Its manufactures are large, and much capital is invested in making woolen and cotton goods, leather, lumber, flour, etc. Farms 1,603; manuf. 141; dwell. 2,132, and pop.—wh. 11,371, fr. col. 83, sl. 11,953—total 23,407. *Capital*: Laurensville. *Public Works*: Laurens R. R.

LAURENS, t. and p. o., Otsego co., *N. Y.*: 71 m. W. Albany. Drained by Otsego cr. Surface hilly; soil a rich sandy loam. Farming is very profitable, and the leading interest. Iron ore is found. The v. called Laurensville is on the cr., and contains two hotels, a foundry, several stores, and 500 inhabitants. Pop. of t. 2,163.

LAURENSVILLE, p. v., and cap. Laurens dist., *S. Car.*: near the head of Little r., 63 m. W. N. W. Columbia. It stands on high land, and contains a court-house, jail, 3 academies, 15 stores, and 700 inhabitants. The "L. Herald" is published weekly. The p. o. is Laurens C. H. The Laurens R. R. extends hence to Helena, on the Greenville and Columbia R. R.

LAURENS HILL, p. o., Laurens co., *Ga.*: near Rocky cr., 39 m. S. Milledgeville.

LAURETTA, p. o., Sauk co., *Wisc.*: 38 m. N. W. Madison.

LAUSANNE, t. and p. o., Carbon co., *Penn.*: on the W. side of Lehigh r., 72 m. N. E. Harrisburg. Surface mountainous, and soil unpropitious for farming. It is rich in coal, and the Beaver Meadow mine lies within it. A canal follows the Lehigh, with which several railroads connect the mines.

LAVACCA county, *Texas.* Situate S. E. centrally, and contains 1,064 sq. m. Drained by Lavacca r., its branches, Smith's, Clark's, Supple Jack, and Big and Little Brushy creeks, Navidad r., and its branches, Upper and Lower Rocky, Nixon's, and Sandy creeks. Surface mostly undulating, intersected in places by ravines, generally of no great depth; soil a rich black mold near the stream, with a substratum of reddish loam, which, mixed, are of a chocolate color, indicative of, and peculiar to, the finest lands in the State. Back of the rivers is more sandy, but scarcely less fertile. The streams are skirted with heavy timber; between them are a few prairies. Corn and cotton yield enormously, and most other crops are heavy. The grazing is peculiarly fine, and horses and cattle, requiring little or no attention, are reared in great numbers for the eastern markets and exportation. Indigo is easily raised, and peaches, figs, and

melons are abundant. Farms 139; manuf. 0; dwell. 203, and pop.—wh. 1,139, fr. col. 0, sl. 432—total 1,571. *Capital*: Petersburg.

LAVANSVILLE, p. v., Somerset co., *Penn.*: 117 m. W. by S. Harrisburg.

LAVONA, p. o., Lucas co., *Oh.*: 112 m. N. N. W. Columbus.

LAWN RIDGE, p. o., Marshall county, *Ill.*: 87 m. north Springfield.

LAWRENCE county, *Ala.* Situate N. W., and contains 758 sq. m. Bounded N. by Tennessee r., and drained by its affluents, and S. by head streams of Black Warrior r. Surface much diversified; in the S. elevated and broken, in the N. less broken, with some marshes; soil of great fertility. Cotton and corn are the leading and almost exclusive staples. The annual yield of each is very large—among the highest in the State. Large numbers of cattle, and especially of swine, are fattened for consumption and export. It has many mill streams and growing manufactures, and excellent facilities for marketing its staples. Farms 930; manuf. 24; dwell. 1,469, and pop.—wh. 8,343, fr. col. 63, sl. 6,852—total 15,255. *Capital*: Moulton. *Public Works*: Memphis and Charleston R. R.

LAWRENCE county, *Ark.* Situate N. E., and contains 1,363 sq. m. Big Black r., a branch of White r., runs S. through the E. of the co., and the W. is drained by its affluents, Spring and Strawberry rivers, with their branches. Cache r., another branch of White r., is its E. boundary. Surface in the E. low and level; generally undulating, or slightly broken; soil fertile, adapted equally to grass or grain, and producing superior qualities of both. Corn is the staple. It is an excellent wheat region, and produces good crops of nearly every thing planted. The streams are heavily timbered with pine, ash, and oak, and the forests furnish mast for vast herds of swine. The Big Black is navigable through the co. Farms 601; manuf. 0; dwell. 800, and pop.—wh. 4,892, fr. col. 4, sl. 388—total 5,274. *Capital*: Smithville.

LAWRENCE county, *Ill.* Situate S. E., and contains 354 sq. m. Drained by Embarras r. and its branches, and Bompas and Fox creeks, affluents of Wabash r., its E. boundary. Surface undulating or level; soils various; in the N. E. are large swamps, on the Embarras r. rich bottoms, and W. large prairies, with good timber on the streams. Much of the co. is fine land, and in good cultivation. Corn, wheat, beef, and pork are staples. Farms 656; manuf. 26; dwell. 1,057, and pop.—wh. 5,843, fr. col. 278—total 6,121. *Capital*: Lawrenceville. *Public Works*: Cincinnati and St. Louis Railroad.

LAWRENCE county, *Ind.* Situate S. centrally, and contains 438 sq. m. Intersected by E. fork of White r., and drained by its branches, Indian, Salt, Leatherwood, and Guthrie's creeks. Surface generally rolling, with some hilly and broken land; soil excellent, and timber abundant. Corn, wheat, pork, cattle, and horses are the chief exports, pork being a very large one. Limestone is found in abundance. Farms 1,031; manuf. 19; dwell. 2,012, and pop.—wh. 12,008, fr. col. 94—total 12,097. *Capital*: Bedford. *Public Works*: New Albany and Salem R. R.

LAWRENCE county, *Ky.* Situate N. E., and contains 442 sq. m. Bounded E. by Big Sandy r., and drained E. by its branches, Westfork and Blanes creeks, and W. by heads of Little Sandy r., flowing N. into the Ohio. Surface moderately hilly; soil of great productiveness. Corn is the staple grain; wheat, oats, and rye yield well. This co. is abundantly supplied with excellent pastures, and grazing is a leading interest. Its cattle and swine are superior, and reared in large numbers for N. and E. markets. Horses of a fine breed are also sent to Virginia and Maryland. It has good salt springs. Farms 655; manuf. 10; dwell. 989, and pop.—wh. 6,143, fr. col. 1, sl. 187—total 6,331. *Capital*: Louisa.

LAWRENCE county, *Miss.* Situate S. W., and contains 786 sq. m. Pearl r. passes S. through the co., and its affluents drain it; E., Silver and White Sand creeks, W., Babala cr.,

Fair r., Falling cr., and heads of Bogue Chitto. Surface mostly uneven, without being rough; soil fertile. Cotton is the leading product; corn and potatoes give good returns, and rice is cultivated. Cattle and swine are raised largely. It has good mill streams, and some pine timber. Farms 458; manuf. 12; dwell. 613, and pop.—wh. 3,549, fr. col. 0, sl. 2,929—total 6,478. *Capital*: Monticello.

LAWRENCE county, *Mo.* Situate S. W., and contains 573 sq. m. Drained by Spring r., Centre cr., and Neh-hah r. flowing W. and into Arkansas r., and by heads of Sac r. flowing N. into the Osage. The Ozark mountains lie on its E. border, and the surface is much broken, giving rise to many streams and good water-power. The streams are small, but skirted with timber, and, in the lower parts, rich bottoms. The soil is well fitted for grazing, and parts are excellent grain land. Cattle and corn are the staples. Farms 4,107; manuf. 5; dwell. 743, and pop.—wh. 4,607, fr. col. 4, sl. 248—total 4,859. *Capital*: Mount Vernon.

LAWRENCE county, *Ohio*. Contains an area of 430 sq. m., and is the most S. county in the State. Bounded S. E. and S. by the Ohio, and drained by its affluents, Storm's cr., Symmes cr., and Indian Guyandotte r. Surface hilly and broken; soil very productive, and excellent grazing land. Corn, wheat, and oats yield fine crops, and great numbers of cattle and sheep are reared. Live stock, wool, and pork, are leading agricultural exports. A fine farming co., with plenty of mill-seats, but the great interest is mining the extensive deposits of iron ore and coal that are here so abundant, and manufacturing the iron into castings of all kinds. These employ a large capital and many laborers, and the exports of coal, and pig and cast iron, are very large. Excellent stoneware is made from clay found here. Farms 254; manuf. 29; dwell. 2,553, and pop.—wh. 14,920, fr. col. 326—total 15,246. *Capital*: Burlington. *Public Works*: Iron R. R.

LAWRENCE county, *Penn.* Situate W., on State line, and contains 353 sq. m. Drained by Beaver r. and its branches, Mahoning r., and Shenango and Neshannock creeks. Surface hilly and broken; soil excellent, and water-power abundant. All the grains grow well, and produce large crops. It has fine pastures, and raises beef and pork, wool and stock for export. Its greatest resources are its mines of coal and iron, which are very rich and extensive. These are much wrought, and iron is manufactured, both cast and wrought, very largely. For all its produce good markets are easily accessible in every direction. Farms 1,606; manuf. 49; dwell. 3,637, and pop.—wh. 20,947, fr. col. 132—total 21,079. *Capital*: New Castle. *Public Works*: Pennsylvania and Ohio Canal; Beaver and Erie Canal.

LAWRENCE county, *Tenn.* Situate centrally on S. line, and contains 564 sq. m. Drained by Buffalo r., flowing W., and Blue Water cr., and Moody's fork, flowing south into the Tennessee. Surface uneven, and soil fertile. Corn and wheat are the staples. A great deal of pork is exported. It has good mill streams, and extensive manufactures of iron, cotton, leather, and flour. Farms 993; manuf. 43; dwell. 1,364, and pop.—wh. 8,095, fr. col. 28, sl. 1,162—total 9,250. *Capital*: Lawrenceburg. *Public Works*: Nashville and New Orleans R. R.; Memphis and Nashville R. R.

LAWRENCE, t. and p. v., Van Buren co., *Mich.*: 81 m. W. S. W. Lansing. Drained by Pawpaw r., which is navigable for batteaux. Surface varied, and soil mostly good. The village is on the S. side of the Pawpaw. Population of t. 510.

LAWRENCE, sta., Stark county, *Ohio*: on the Ohio and Pennsylvania R. R., 15 W. of Canton.

LAWRENCE, t. and p. o., Washington county, *Ohio*: 92 m. E. S. E. Columbus. Drained by Little Muskingum r., which has good mill-seats. Surface uneven, and soil fertile. Coal, iron ore, and salt springs are found. Pop. 814.

LAWRENCE, t. and p. v., Essex co., *Mass.*: 26 m. N. by W. Boston. The Merrimac r., which passes through the t., furnishes an immense water-power, by means of a stone dam

900 feet long, with wings 324 and 405 feet, affording a head and fall of 28 feet for the whole river, and a water-power equal to that enjoyed by Lowell. This dam was erected by the Essex Company, organized, with Hon. Abbot Lawrence at its head, in 1845. For manufacturing purposes a canal 5,330 feet long, 100 feet wide at its head, and 60 at its tail, and 12 feet deep, and running parallel with the river 400 feet distance, has been excavated, and between the canal and river the space is occupied by the factory buildings. With these facilities, the progress of manufactures and general industry has been rapid and sustained; and numerous mills for the manufacture of cotton and woolen goods, etc., have sprung into existence, chiefly belonging to companies; the Atlantic Cotton Mills employ 1,000 hands, and consume annually 14,000 to 15,000 bales in the manufacture of coarse sheeting and shirting. The Bay State Mills employ about 2,000 hands in the manufacture of woolen goods, and consume between three and four million pounds of wool annually. The Plymouth Company, manufacturing ducks, and the Pacific Mills for the manufacture of haresges, lawns, etc., are also large establishments. The Essex Company, the original owners of the property, have a large machine shop here, at which are manufactured steam-engines, machinery, locomotives, and employ 700 or 800 hands. Paper-hangings are also manufactured by the Charter Paper Company. Besides these, there are various smaller establishments, among which may be named a steam saw-mill, a piano-forte factory, a carriage factory, a steam planing mill, etc. The city is well planned, and contains a town hall, a handsome brick building, 120 feet by 62, containing the town offices, and a hall capable of containing 1,600 persons; and a common of 13 acres in the centre of the t. has been planted and laid out in walks for the benefit of the inhabitants. There is also a bank in the village. The public buildings and factories are lighted with gas, supplied by the Lawrence Gas Light Company; and water is supplied from a reservoir 150 feet above the canal, and of 1,400,000 gallons capacity, into which water is pumped by the force pumps of the several mills. Such is the material of the v. or future city. Its religious and educational welfare is equally well attended to; it has 7 church edifices, and 10 religious societies of various denominations; and its school department consists of a high school, 2 grammar schools, and 15 others, with an aggregate of 23 teachers, and 1,800 scholars. Provision is also made for public lectures, and a public library. Two newspapers are published in the village, the "L. Courier" (whig), and the "L. Sentinel" (dem.), both weekly issues, and circulating upward of 1,000 copies each. There are 5 railroads centering here, viz., the Lowell and Lawrence R. R., the Boston and Maine R. R., the Essex County R. R., the Newburyport R. R., and the Manchester and Lawrence R. R. Lawrence was taken from Methuen and Andover in 1847, and contains 2,039 acres, of which area 1,980 acres belonged to the latter, and 2,050 to the former. It took its name from the Lawrence family, the great manufacturing heroes of Massachusetts, and the liberal and enlightened patrons of literature and education. Pop. of t. in 1850, 3,283; in 1852, 12,186; increased 3,902, or 47 per cent. in two years.

LAWRENCE, p. o., Monroe co., *Miss.*: 13 m. N. E. by N. Jackson.

LAWRENCE, p. o., Marion co., *Ind.*

LAWRENCEBURG, p. city, and cap. Dearborn co., *Ind.*: on the Ohio, 2 m. below the mouth of the Great Miami, 79 m. S. E. by E. Indianapolis. It is built on a rich bottom, and the terrace back of it is the outlet for the rich valleys of the Miami, and W. Whitewater. The Whitewater Canal terminates here, and furnishes fine water-power. It contains a court-house, bank, several academies, 8 large flouring mills, a very large distillery, and numerous minor manufactories. Its advantages for trade and commerce are great, and the shipping business very heavy. The Lawrenceburg and Upper Mississippi R. R. commences here, and is connected with the Cincinnati and St. Louis R. R. near the city. The "Indiana

Register" (dem.), and "Independent Press," are published weekly. Incorporated a city 1846. [^]Pop. 3,457.

LAWRENCEBURG, p. v., and cap. Anderson co., *Ky.*: 9 m. S. Frankfort. It contains a court-house, jail, academy, and several stores.

LAWRENCEBURG, p. v., Armstrong co., *Penn.*: on the W. bank of Alleghany r., 153 m. W. N. W. Harrisburg. A furnace of 1,400 tons annual capacity is near it, and the Alleghany Valley R. R. passes through it.

LAWRENCEBURG, p. v., and cap. Lawrence co., *Tenn.*: on Shoal cr. of Tennessee r., 67 m. S. by W. Nashville. It contains a court-house, jail, an academy, high school, a bank, several stores, and 400 inhabitants. A weekly paper, the "Middle Tennessean" (whig), is published.

LAWRENCEPORT, p. v., Lawrence co., *Ind.*: on Driftwood r., 68 m. S. by W. Indianapolis.

LAWRENCE'S, sta., Colleton dist., *S. Car.*: on the South Carolina R. R., 28 m. from Charleston.

LAWRENCEVILLE, p. v., and cap. Monroe county, *Ark.*: about 4 m. E. of White r., 62 m. E. by S. Little Rock. It contains a court-house and several stores.

LAWRENCEVILLE, p. v., and cap. Gwinnett co., *Ga.*: 51 m. N. W. by N. Milledgeville. It contains a court-house, jail, academy, several large stores, and 850 inhabitants.

LAWRENCEVILLE, p. v., and cap. Lawrence co., *Ill.*: on the W. side of Embarras r., 181 m. S. E. by E. Springfield. The v. contains the county buildings, several stores and mills, and 350 inhabitants. The "L. Banner" (whig) is published weekly.

LAWRENCEVILLE, p. v., Dearborn co., *Ind.*: 76 m. S. E. Indianapolis.

LAWRENCEVILLE, p. v., Mercer co., *N. Jer.*: 6 m. N. N. E. Trenton. It contains an academy, several stores, and 200 inhabitants.

LAWRENCEVILLE, p. v. and sta., St. Lawrence co., *N. Y.*: 156 m. N. N. W. Albany. The station is 41 miles E. of Ogdensburg, on the Northern (Ogdensburg) R. R.

LAWRENCEVILLE, p. v. and sta., Tioga co., *Penn.*: on Tioga r., which supplies it with water-power, 112 miles N. by W. Harrisburg. It has a large trade in lumber. The sta. is on the Corning and Blossburg R. R., 15 m. from Corning. Pop. 494.

LAWRENCEVILLE, p. o., Henry co., *Ala.*: 94 m. S. S. E. Montgomery.

LAWRENCEVILLE, p. v., and cap. Brunswick co., *Virg.*: on a branch of Meherrin r., 55 m. S. S. W. Richmond. It contains a court-house, jail, academy, several stores, and 400 inhabitants.

LAWSONVILLE, p. v., Rockingham co., *N. Car.*: 77 m. N. W. by W. Raleigh.

LAWSVILLE CENTRE, p. o., Susquehanna county, *Penn.*: 118 m. N. N. E. Harrisburg.

LAWTON, p. o., Van Buren co., *Mich.*: 88 m. W. by S. Lansing.

LAWTONVILLE, p. o., Beaufort dist., *S. Car.*: 84 m. S. by W. Columbia.

LAWYERSVILLE, p. v., Schoharie county, *N. Y.*: on the Cobleskill, 36 m. W. by N. Albany. It contains several mills and 200 inhabitants.

LAYSVILLE, p. v., New London co., *Conn.*

LAYTONSVILLE, p. v., Montgomery co., *Md.*: W. N. W. Annapolis.

LAZARETTO, sta., Delaware county, *Penn.*: 11 m. from Philadelphia, on the Philadelphia, Wilmington, and Baltimore R. R.

LEACHMAN, p. o., Buchanan co., *Mo.*: near the Missouri, 165 m. W. N. W. Jefferson City.

LEACOCK, t. and p. o., Lancaster county, *Penn.*: 42 m. E. S. E. Harrisburg. Drained by Conestoga and Pecquea creeks. Surface even, and soil rich. It has fine mill streams and large flouring mills, distilleries, and various manufacturing establishments. Pop. 3,529.

LEADING CREEK, p. o., Lewis county, *Virg.*: near the

branch of Little Kanawha r. so called, 195 m. W. N. W. Richmond.

LEADSVILLE, p. o., Randolph county, *Virg.*: 158 m. N. W. by W. Richmond.

LEADVALE, p. o., Jefferson co., *Tenn.*: 193 m. E. Nashville.

LEAKE county, *Miss.* Situate centrally, and contains 635 sq. m. Drained by Pearl r. and its branches, Tuscalameta, Yocanucani, and Yalobusha creeks, which furnish some water-power. Surface pleasantly diversified, without great elevations; soil of average fertility. Cotton is the staple product. Corn yields good crops. Great numbers of cattle and hogs are raised, and beef and bacon are considerable exports. Farms 437; manuf. 4; dwell. 635, and pop.—wh. 8,982, fr. col. 2, sl. 1,549—total 5,538. *Capital*: Carthage.

LEAKE'S STORE, p. o., Washita co., *Ark.*: 78 m. S. S. W. Little Rock.

LEAKESVILLE, p. v., Newton co., *Ga.*: 48 m. N. W. Milledgeville.

LEAKESVILLE, p. v., and cap. Greene co., *Miss.*: on Chickasawha r., 118 m. S. E. by E. Jackson. It contains a court-house and jail, and a few houses and stores.

LEAKSVILLE, p. v., Rockingham co., *N. Car.*: near the confluence of Smith's and Dan rivers, 91 m. N. W. by W. Raleigh.

LEANDER, p. o., Graves county, *Ky.*: 229 m. W. S. W. Frankfort.

LEASBURG, p. o., Caswell county, *N. Car.*: on Tycotee r., 62 m. N. W. Raleigh.

LEATHERWOOD, p. o., Guernsey co., *Ohio*: on the cr. so called, 83 m. E. Columbus.

LEATHERWOOD, p. o., Clarion co., *Penn.*: 143 m. W. N. W. Harrisburg. A furnace of 1,400 tons annual capacity is located here.

LEATHERWOOD'S STORE, p. o., Henry co., *Virg.*: 143 m. S. W. by W. Richmond.

LEAVENSWORTH, p. o., Darlington dist., *S. Car.*: 59 m. E. N. E. Columbia.

LEAVITT, p. o., Carroll county, *Ohio*: 106 m. E. N. E. Columbus.

LEBANON county, *Penn.* Situate S. E. centrally, and contains 876 sq. m. Drained by Swatara cr., an affluent of the Susquehanna, and its branches. Surface moderately uneven, with some broken tracts; soil exceedingly rich, constituting an excellent farming and dairy co., where wheat, rye, corn, oats, and potatoes thrive almost equally, and all produce largely, where cattle and sheep find the best of grass, and the products of the dairy are hardly surpassed. But it has also abundant water-power, good timber, and great quantities of iron ore and coal. Its manufactures are various and extensive, but cast and wrought ironware is the most important product. Woolen goods and earthenware are largely made. Farms 1,449; manuf. 146; dwell. 4,452; and pop.—wh. 25,985, fr. col. 66—total 26,071. *Capital*: Lebanon. *Public Works*: Union Canal.

LEBANON, p. v., and cap. De Kalb co., *Ala.*: on W. side of Big Wills cr. of Coosa r., 184 m. N. by E. Montgomery. It contains a court-house, jail, U. S. land office, several stores, and 300 inhabitants.

LEBANON, p. v., and cap. Searcy co., *Ark.*: on the S. side of Buffalo fork of White r., 85 m. N. N. W. Little Rock. The v. consists of a court-house and a few dwellings.

LEBANON, p. o., Laclede county, *Mo.*: 66 m. S. S. W. Jefferson City.

LEBANON, t. p. v., and sta., New London co., *Conn.*: 26 m. E. S. E. Hartford. Drained by branches of Yantic r., which afford numerous mill-seats. Surface hilly, but not rugged; soil a deep mold, and exceedingly fertile. Farming and the dairy engross attention, and their products are not exceeded in amount or quality by any t. in the State. It has also several mills and factories. The New London, Willimantic, and Palmer R. R. crosses the E. part, and the sta. is 8 m. S. of Willimantic. The v. lies near the centre, and consists of a wide street, about 1 m. long, and mostly,

though not compactly built, with a flourishing academy. Pop. of t. 1,901.

LEBANON, p. o., Cobb co., *Ga.*: about 8 m. N. Chattahoochee r., 98 m. N. W. Milledgeville.

LEBANON, p. v., St. Clair co., *Ill.*: 85 m. S. Springfield. It has considerable manufactures, though destitute of water-power, and contains an academy, several stores, and 607 inhabitants. McKendree College, founded in 1835, is located here, and in 1850 had 9 instructors, 72 alumni, of whom 23 were ministers, 83 students, and 7,000 volumes in its library. The "Illinois Advocate" (Meth.) is published weekly.

LEBANON, p. v., and cap. Boone co., *Ind.*: 24 m. N. W. Indianapolis. It contains a court-house, jail, academy, several stores, and 600 inhabitants. The Lafayette and Indianapolis R. R. passes through it, 87 m. from Lafayette.

LEBANON, p. v., and cap. Marion co., *Ky.*: on a small branch of Salt r., 44 m. S. by W. Frankfort. It contains a court-house, jail, several stores and workshops, and 700 inhabitants.

LEBANON, t. and p. o., York co., *Me.*: 87 m. S. W. by S. Augusta. Drained by branches of Salmon Falls r., which separates it from N. Hamp., and furnishes water-power. Surface uneven, and soil well adapted to farming and grazing, which are the leading interests. Pop. 1,473.

LEBANON, t. and p. v., Grafton co., *N. Hamp.*: on the Connecticut r., 45 m. N. W. Concord. Drained by Mascomy r., which, rising in a pond on its E. line, flows through it into the Connecticut, and affords fine water-power. It contains extensive meadows on both the rivers, and is an excellent farming region. Veins of lead and iron ore are found. The v. is in a plain, near the centre, at the falls of Mascomy r., and has extensive trade, and valuable manufactures. It contains a bank, an academy, and several stores and mills. The "Granite State Whig" is published here weekly. It is on the Northern R. R., 4 m. from its connection with the Vermont Central R. R., at White River Junction. Pop. of t. 2,136.

LEBANON, t. and p. v., Hunterdon county, *N. J.*: 29 m. N. by W. Trenton. Drained by Spruce Run and S. branch of Raritan r. Surface hilly; soil rich loam, well cultivated. The streams furnish many mill-sites, which are much improved in various manufactures. The New Jersey Central R. R. crosses the t., and the sta. is 54 m. from New York. The v. contains an academy, several distilleries and stores, and 500 inhabitants. Pop. of t. 2,127.

LEBANON, t. and p. o., Madison county, *N. Y.*: 98 m. W. by N. Albany. Drained by Chenango r. and its branches, which furnish power for many small mills. Surface uneven; soil clayey loam, and very productive of grain. It is a farming t. Pop. 1,709.

LEBANON, p. v., and cap. Warren county, *Ohio*: 72 m. S. W. by W. Columbus. Turtle cr. furnishes some water-power, and flour, iron, and woolen goods are manufactured. It contains a court-house, jail, and academy, and is the terminus of a branch of the Miami Canal. The "Western Star" (whig) is published weekly. Pop. 2,088.

LEBANON, p. b., and cap. Lebanon county, *Penn.*: 24 m. E. by N. Harrisburg. The b. contains a court-house, jail, and other county buildings, an academy, 2 furnaces, producing 7,000 tons of iron per annum, a bank, a dozen stores, and several large warehouses on the Union Canal, which passes it 83 m. from Middletown, its terminus, on the Susquehanna. Four weeklies are published, the "L. Courier" (whig), and the "L. Advertiser," "L. Democrat," and "True Democrat" (dem.) Pop. about 8,000. The t. is drained by Swatara cr. and branches, and has an uneven face and generally fertile soil. Leather, earthen ware, and iron are the leading mechanical products. Pop. of t. 7,360.

LEBANON, p. o., Abbeville dist., *S. Car.*: 73 m. W. by N. Columbia.

LEBANON, p. v., and cap. Wilson co., *Tenn.*: on a branch of Cumberland r., 27 m. E. Nashville. It has a pleasant location amid a great tobacco district, and contains a court-

house, jail, 8 academies, 20 stores, and 1,700 inhabitants. In the vicinity are extensive cotton factories. Cumberland University was founded here in 1844, and in 1850 had 6 instructors, 80 alumni, of whom 21 were ministers, 63 students, and a library of 5,000 volumes. Connected with the University is a Law School, which had in 1850 3 instructors and 56 students. Two weekly papers are published, the "L. Packet" (whig) and "Banner of Peace."

LEBANON, p. v., and cap. Russell co., *Virg.*: near Big Cedar cr. of Clinch r., 163 m. W. by S. Richmond. It contains the county buildings, and several stores and has 145 inhabitants.

LEBANON WHITE SULPHUR SPRINGS, p. o., Augusta co., *Virg.*: 86 m. W. N. W. Richmond.

LE CLAIRE, p. v., Scott co., *La.*: on the Mississippi, 62 m. E. by S. Iowa City.

LE COMPTE VALLEY, p. o., (Unknown) co., *Utah Terr.*

LEDLIES, p. o., Meigs co., *Ohio*: 63 m. S. E. Columbus.

LEDYARD, t. and p. v., New London co., *Conn.*: on the E. side of Thames r., 42 m. S. E. Hartford. Surface pleasantly diversified; soil mostly productive. Farming is the chief employment. Good granite is found in abundance. The Norwich and Worcester R. R. terminates at Allyn's Point on the Thames, 7 m. S. of Norwich, where is a ferry and a growing village, with a brisk trade, and some commerce. Pop. of t. 1,588.

LEDYARD, t. and p. o., Cayuga co., *N. Y.*: on the E. side of Cayuga Lake, 154 m. W. by N. Albany. Drained by small streams flowing into the lake. Surface rolling. Soil, clay and loam. Mari is abundant, and great crops of grain are raised. In the town are 2 academies. Pop. 2,048.

LEE county, *Ga.* Situate S. W., and contains 506 sq. m. Bounded E. by Flint r., and drained by its affluents, Muckalee, Kickafonee, and other creeks. Surface agreeably varied; soil mostly fertile. Cotton is extensively cultivated, and forms the great staple, a very large amount being raised. Other branches of agriculture are little attended to, corn-growing an exception. It has considerable water-power, which is not much used. Farms 387; manuf. 7; dwell. 550, and pop.—wh. 3,025, fr. col. 8, sl. 3,626—total 6,659. *Capital*: Starkville.

LEE county, *Ill.* Situate N. W. centrally, and contains 718 sq. m. Drained by Rock r., which crosses the N. W. corner, and its branch, Green r. Surface undulating or level; soil very fertile. It has much prairie, interspersed with occasional groves of timber, and some large swamps. Large crops of corn and wheat are grown, and the grazing is excellent. Rock r. affords fine water-power, and a bottom of great fertility. Farms 478; manuf. 12; dwell. 905, and pop.—wh. 5,288, fr. col. 4—total 5,292. *Capital*: Dixon.

LEE county, *Ja.* Situate S. E. corner, and contains 476 sq. m. Bounded N. E. by Skunk r., E. by Mississippi r., and S. W. by Des Moines r., and drained by their affluents, Half Breed and Sugar creeks, etc. Surface pleasantly diversified; soil very productive. A superior farming co., which raises large crops of wheat and corn, affords excellent pasture, and exports live stock, beef, and pork. It has also fine timber, and abundance of water-power, which is much used in manufacturing. Its means, natural and artificial, for transportation of produce and passengers, are extensive, and make it a great thoroughfare for emigration and freight destined E. or S. Farms 1,850; manuf. 78; dwell. 8,252, and pop. wh.—18,309, fr. col. 51—total 18,860. *Capital*: Fort Madison.

LEE county, *Virg.* Situate S. W. corner, and contains 628 sq. m. Drained by Powell's r., a branch of Clinch r., and its affluents, Stone Fork, and Indian, Martin's, and Pigeon creeks. Surface broken, the Cumberland Mountains bounding it N. W., with beautiful valleys. Soil very fertile in the lower parts, and excellent pasturage in the higher. Corn and wheat are grown largely, and are the staple grains. Most grains thrive, and some tobacco is raised. Great numbers of cattle and sheep are kept, and large quantities of

pork exported. It has fine facilities for manufacturing, and plenty of iron ore. Farms 595; manuf. 5; dwell 1,536, and pop.—wh. 9,440, fr. col. 40, al. 787—total 10,267. *Capital*: Jonesville.

LEE, t. and p. o., Penobscot co., *Me.*: 106 m. N. E. Augusta. It has several large ponds, which are the sources of Passadumkrag and Mattakeunk rivers, and afford good mill-streams. It produces fine crops of grain, and is well timbered. Pop. 917.

LEE, t. and p. v., Berkshire co., *Mass.*: 113 m. W. Boston. Drained by Housatonic r. and its branches, which supply it with superior water-power. Surface hilly; soil adapted to grazing, with fine farms and meadows on the larger streams. It has fine facilities for manufacturing in its abundant water-power and fuel, and convenient markets, and makes a great variety of articles, among which paper is the most important, and employs a large capital. Other leading articles are cotton and woolen goods, leather, boots and shoes, bar iron, iron castings, mechanical and agricultural implements, cabinet and wooden ware, etc. Excellent iron ore and marble are abundant. The v. contains an academy, a bank, and several stores and workshops, and is 11 m. S. of Pittsfield on the Housatonic R. R. Pop. of t. 8,220.

LEE, t. and p. v., Strafford co., *N. Hamp.*: 27 m. E. S. E. Concord. Drained by Lamprey r. and its branches, which move several saw-mills. Surface uneven, and soil mostly good. Farming is the chief business. Pop. 864.

LEE, t. and p. v., Oneida co., *N. Y.*: 104 m. W. N. W. Albany. Drained by branches of Fish, Wood, and Lansing's creeks, which furnish numerous mill-sites. Surface undulating; soil clayey or sandy loam, and very fertile. It has fine timber, and makes iron, leather, woolens, and flour. Pop. 3,033.

LEE, t. and p. o., Athens co., *Ohio*: 64 m. S. E. Columbus. Pop. 961.

LEE, p. o., Warwick county, *Ind.*: 124 miles S. S. W. Indianapolis.

LEE, p. v., Ogle co., *Ill.*: 159 m. N. Springfield.

LEE CENTRE, p. v., Lee co., *Ill.*: 138 m. N. Springfield.

LEE CENTRE, p. o., Oneida co., *N. Y.*: 106 m. W. N. W. Albany

LEECHBURG, p. v., Armstrong co., *Penn.*: on the N. bank of Conemaugh r., 143 m. W. by N. Harrisburg. It is on the W. division of the Pennsylvania Canal, 37 m. from Pittsburg.

LEECHVILLE, p. o., Beaufort co., *N. Car.*: 112 m. E. by S. Raleigh.

LEEDS, t. and p. v., Kennebec co., *Me.*: on the E. side of Androscoggin r., 21 m. W. S. W. Augusta. Androscoggin Pond, a large sheet of water in the N., furnishes abundance of water for manufacturing, which is an important interest, though excelled by farming, for which the soil is excellent. The v. is on the r., and contains an academy and several stores. The Androscoggin R. R. passes through the town, and joins the Androscoggin and Kennebec R. R. in the S. part. Pop. of t. 1,952.

LEEDS, p. o., Hampshire co., *Mass.*: 95 m. W. by N. Boston.

LEEDS, p. v., Greene co., *N. Y.*: on Catskill cr., 4 m. from Catskill, 28 m. S. by W. Albany. It contains a hotel, furnace, and several flouring mills, with 300 inhabitants.

LEEDS CENTRE, sta., Kennebec co., *Me.*: on the Androscoggin R. R., 7 m. from its junction with the Androscoggin and Kennebec R. R.

LEEDS MANOR, p. o., Fauquier county, *Virg.*: 86 m. N. Richmond.

LEEDS POINT, p. v., Atlantic co., *N. Jer.*: about 2 m. S. of Little Egg Harbor r., 59 m. S. S. E. Trenton.

LEEDS STATION, p. o., Kennebec county, *Me.*: 17 miles W. S. W. Augusta. The Androscoggin R. R. here diverges from the Androscoggin and Kennebec R. R., 44 m. from Portland.

LEEDSVILLE, p. v., Monmouth co., *N. Jer.*: about 1 m. W. of Navesink r., 83 m. E. by N. Trenton.

LEEDSVILLE, p. v., Dutchess co., *N. Y.*: on Ten Mile cr 58 m. S. by E. Albany. It contains a bank, several mills, and 450 inhabitants.

LEEFERTOWN, p. v., Bureau county, *Ill.*: 116 m. N. Springfield.

LEESBOROUGH, v., Montgomery co., *Md.*: see COTTAGE.

LEESBURG, p. o. Cherokee co., *Ala.*: 126 m. N. N. E. Montgomery.

LEESBURG, p. v., Kosciusko co., *Ind.*: 107 m. N. by E. Indianapolis.

LEESBURG, p. o., Harrison county, *Ky.*: 31 m. E. by N. Frankfort.

LEESBURG, p. v., Highland co., *Ohio*: 62 m. S. W. by S. Columbus. The Cincinnati, Hillsboro', and Parkersburg R. R. passes the v. 50 m. from Cincinnati.

LEESBURG, p. v., Mercer co., *Penn.*: on the E. side of Neshanock cr., 153 m. W. N. W. Harrisburg. On the creek is a furnace of 900 tons annual capacity.

LEESBURG, p. v., Washington county, *Tenn.*: 235 m. E. Nashville. It contains several stores, a high school, and 200 inhabitants.

LEESBURG, p. v., and cap. Loudon co., *Virg.*: about 2 m. W. of the Potomac, 107 m. N. Richmond. It occupies a commanding position at the base of Kittoctan Mountains. is tastefully laid out, and has a fine aqueduct leading from the hills. It contains a court-house and jail, a bank, 8 academies, 30 stores, several manufactories, and about 1,691 inhabitants. The "Washingtonian" and Loudon Chronicle" are published weekly.

LEE'S COVE, p. o., Shelby county, *Ala.*: 59 m. N. N. W. Montgomery.

LEE'S CREEK, p. o., Clinton county, *Ohio*: 56 m. S. W. Columbus.

LEE'S CROSS ROADS, p. o., Cumberland co., *Penn.*: 29 m. W. S. W. Harrisburg.

LEE'S MILLS, p. o., Owen co., *Ky.*: N. Frankfort.

LEESPORT, p. o., Berks county, *Penn.*: 43 m. E. by N. Harrisburg.

LEE'S RIDGE, p. o., Randolph co., *Ala.*: 78 m. N. N. E. Montgomery.

LEESVILLE, p. v., Middlesex co., *Conn.*

LEESVILLE, p. v., Lawrence county, *Ind.*: 63 miles S. Indianapolis.

LEESVILLE, p. v., Hart county, *Ky.*: on Bacon cr., 74 m. S. S. W. Frankfort.

LEESVILLE, p. v., Schoharie co., *N. Y.*: 49 m. W. by N. Albany.

LEESVILLE, p. v., Robeson co., *N. Car.*: on a branch of Lumber r., 89 m. S. by W. Raleigh.

LEESVILLE, p. v., Carroll county, *Ohio*: 95 m. E. N. E. Columbus.

LEESVILLE, p. o., Lexington dist., *S. Car.*: 27 m. W. by S. Columbia.

LEESVILLE, p. v., Campbell co., *Virg.*: at the junction of Goose cr. and Stanton r., 104 m. W. S. W. Richmond. It contains several mills and 150 inhabitants.

LEESVILLE CROSS ROADS, p. o., Crawford co., *Ohio*: 57 m. N. by E. Columbus.

LEETOWN, p. v., Jefferson co., *Virg.*: on Ocoquan r., 124 m. N. by W. Richmond. It contains several mills and 200 inhabitants.

LEE VALLEY, p. o., Hawkins county, *Tenn.*: 3 m. S. of Clinch r., 236 m. E. by N. Nashville.

LEFEVER, p. o., Bartholomew co., *Ind.*: 33 m. S. by E. Indianapolis.

LEFLORE, p. o., Carroll county, *Miss.*: 83 m. N. by E. Jackson.

LEGAL LAW, p. v., York dist., *S. Car.*: 67 m. N. Columbia.

LEHI CITY, v., Utah co., *Utah Ter.*: on the E. side of Jordan r., and at the outlet of Utah Lake, 104 m. N. by E. Fillmore City. It is one of the Mormon settlements.

LEHI, p. o., Jefferson co., *Ark.*: S. S. E. Little Rock.

LEHIGH county, *Penn.* Situate E. middle, and contains 821 sq. m. Drained by Lehigh r., which runs on its N. E. border, and its branches. The Blue Ridge occupies the N. border, and parts of the county are broken—most is delightfully varied; soil generally excellent, raising fine crops of wheat, corn, rye, and oats, and feeding large dairies. It has much water-power, and its manufactures are very large. The chief of these is iron, which is found in abundance, with inexhaustible beds of coal in the vicinity. Cotton and woolen goods, powder, leather, stoneware, and distilled liquors are also made. Farms 2,074; manuf. 270; dwell. 5,589, and pop.—wh. 32,431, fr. col. 48—total 32,479. *Capital*: Allentown. *Public Works*: Philadelphia and Delaware Water Gap R. R.; Easton and Mauch Chunk R. R.

LEHIGH river, *Penn.*: a tributary of Delaware river. It rises in Luzerne county, near Wilkesbarre, and flows about 100 m. to Easton. Along this river, by means of locks, dams, and canals, a navigation is opened from Easton to Whitehaven, 84½ m., of which 80½ consist of pools, 89½ of canal, 2½ of locks, and the remainder of sluices. This forms a most important opening to the coal mines, to which railroads are continued. The river in its upper part is a rapid mountain stream, with many falls and cascades.

LEHIGH GAP, p. v., Carbon co., *Penn.*: 74 m. E. N. E. Harrisburg. The Lehigh r. here passes through the Blue Mountain, which rises about 1,200 feet above the channel on either hand, and forms a spectacle of great grandeur. Water cement is made in the v. from limestone found here. A few miles distant are 2 bloomeries and a charcoal forge, which together make 220 tons of bars per annum, mostly from the magnetic ores of New Jersey.

LEIGHTON, p. v., Carbon co., *Penn.*: on Lehigh r., 76 m. N. E. Harrisburg. A bridge crosses the river. In and near the v. are 2 bloomery forges, producing 75 tons of bars per annum, and a charcoal furnace of 2,060 tons capacity.

LEHMAN, t. and p. o., Luzerne county, *Penn.*: 82 m. N. E. by N. Harrisburg. Drained by Lehman's, Harvey's, and other creeks, which furnish fine mill-sites. Surface much broken, and soil good. Farming and grazing are the principal pursuits.

LEICESTER, t. and p. v., Worcester co., *Mass.*: 46 m. W. Boston. It lies on the highest land between Boston Harbor and the Connecticut, and has many hills, from which descend branches of Chicopee, Quinnebaug, and Blackstone rivers, affording numerous mill-seats. Surface very uneven, and soil deep and fertile. It contains many excellent farms and large dairies and orchards. Woolen and cotton goods are largely manufactured, and machinery of various kinds, cards, combs, chairs, cabinet-ware, farming implements, boots and shoes, etc. The Western R. R. has a sta. in the E. part 9 m. W. Worcester. The v. is on a hill commanding an extensive and charming view, is beautifully laid out, and contains a celebrated and well-endowed academy, incorporated in 1784, a bank, several hotels, stores, and work-shops, and many elegant mansions. Pop. of t. 2,269.

LEICESTER, t. and p. o., Addison co., *Verm.*: 88 m. S. W. Montpelier. Drained by Otter cr. and its branches. Great Trout Pond, a large sheet of water, lies partly in it on the N. Surface broken, and in the E. mountainous; soil, except in the highest parts, a fertile sandy loam, with some clay flats. The Rutland and Burlington R. R. crosses the W. part along Otter cr. Pop. 596.

LEIGHTON, p. v., Lawrence co., *Ala.*: 171 m. N. N. W. Montgomery. The Memphis and Charleston R. R. passes here.

LEIGHTON'S, p. o., Yalabusha co., *Miss.*: 118 m. N. by E. Jackson.

LEIGHTON'S CORNERS, p. o., Carroll co., *N. Hamp.*: 85 m. N. E. Concord.

LEIFER'S FORK, p. o., Williamson co., *Tenn.*: on a branch of Harpett r. so called, 22 m. S. S. W. Nashville.

LEIPSVILLE, p. v., Delaware co., *Penn.*: about 1 m.

from Delaware r., 84 m. E. by S. Harrisburg. A canal, 2 m. long, leads through it from stone quarries on Ridley's cr. to the Delaware.

LEIPSIQ, p. v., Kent co., *Del.*: on Little Duck cr., 7 m. N. Dover.

LEIPSIQ, p. o., Putnam co., *Ohio*: 95 m. N. W. by N. Columbus.

LEISTVILLE, p. v., Pickaway county, *Ohio*: 23 m. S. Columbus.

LEITERSBURG, p. v., Washington co., *Md.*: 2 m. E. of Antietam cr., 77 m. N. W. Annapolis. Pop. 293.

LELANAU county, *Mich.* Situate N. W. on Lower Peninsula, and contains 687 sq. m. Bounded W. and N. by Lake Michigan, and N. E. by Grand Traverse Bay, and drained by Betsie r., and other small rivers flowing into the lake. Surface in parts low and marshy, with bold bluffs on the lake shore and hills farther back. It has numerous ponds filled with fine fish, and is well timbered, the last being the chief attraction, as the co. is little settled. It includes Great and Little Manitou islands, which have a beautiful appearance on the water, and are resorted to for hunting and fishing. Unorganized in 1850.

LELAND'S MILL, p. o., Sauk co., *Wisc.*

LEMINGTON, t. and p. o., Essex county, *Verm.*: on the Connecticut, 67 m. N. E. Montpelier. Drained by several small streams, on one of which is a beautiful cascade of 50 feet. Surface mountainous, and mostly incapable of cultivation. Pop. 157.

LEMON PLACE, sta., Lancaster co., *Penn.*: 12 m. E. of Lancaster, on the Columbia and Philadelphia R. R.

LEMONT, p. v., Cook county, *Ill.*: 167 m. N. E. by N. Springfield.

LEMPSTER, t. and p. o., Sullivan co., *N. Hamp.*: 83 m. W. Concord. Drained by heads of Cold and Sugar rivers, which supply water-power. Surface uneven, and in the E. mountainous; soil best adapted to grass. It contains several small manufactories. Pop. 906.

LENAWEE county, *Mich.* Situate S. E., and contains 733 sq. m. Drained by Raisin r. and its branches, Macon and Little Raisin rivers, and Bear, Wolf, and Evan's creeks, and N. and S. branches of Raisin r.; and W. by Tiffin's or Bear cr. of the Maumee. Surface mostly undulating—in the N. somewhat hilly; soil a black, sandy loam, free from stone, and very prolific of wheat, corn, oats, and grass—a superior farming or grazing co. The S. is well timbered. In the N. W. are several large ponds or lakes, the largest being Michemanetue, or Devil's Lake, Wampler's and Evans's, and the co. is abundantly supplied with excellent water-power, and has extensive manufactures. Marl is abundant, and good iron ore is found. Wheat, corn, live-stock, beef, and pork are leading exports. Farms 2,470; manuf. 156; dwell. 4,892, and pop.—wh. 26,282, fr. col. 90—total 26,372. *Capital*: Tecumseh. *Public Works*: Michigan Southern R. R.; Erie and Kalamazoo R. R.; Tecumseh Branch Railroad.

LENN'S CREEK, p. o., Kanawha county, *Virg.*: 137 m. W. N. W. Richmond.

LENOIR county, *N. Car.* Situate S. E., and contains 353 sq. m. Intersected by Neuse r., and drained by Mockasin and Trent rivers, and smaller branches of it. Surface mostly level or slightly uneven; soil on the streams rich, but back of them sandy and much less fertile. Corn is the chief crop; wheat, cotton, sweet potatoes, and, in the marshes, rice, are successfully cultivated. It has considerable excellent pine timber and some water-power. Farms 362; manuf. 17; dwell. 702, and pop.—wh. 3,567, fr. col. 145, sl. 4,116—total 7,528. *Capital*: Kingston. *Public Works*: Goldsboro' and Newbern R. R. (projected).

LENOIR, p. v., and cap. Caldwell co., *N. Car.*: 166 m. W. by N. Raleigh. It contains a court-house and jail, and several dwellings.

LENOIR'S, p. o., Roane county, *Tenn.*: 141 m. E. by S. Nashville.

LENOX, t., p. v., and cap. Berkshire co., *Mass.*: 115 m. W. Boston. Drained by Housatonic r., which flows on its E. border, and affords some water-power. Surface checkered with rugged hills and lovely valleys, and soil very productive. It has rich deposits of iron ore and quarries of beautiful marble, both of which are wrought, but is chiefly a farming town, the attractive scenery of which has made it the favorite retreat of genius, native and foreign, and a summer resort of the beauty and fashion of the land. The v. is neatly built on elevated ground, and contains a court-house, jail, an academy, founded in 1803, and many elegant mansions. The Housatonic R. R. passes along the river, and Lenox sta. is 9 m. S. of Pittsfield. Pop. of t. 1,598.

LENOX, t. and p. o., Madison co., *N. Y.*: 108 m. W. N. W. Albany. Drained by Oneida, Canaseraga, Cowaseon, and Chittenango creeks, flowing into Oneida Lake, its N. boundary. It is a large t., and has an extensive swamp in the N. The surface is mostly level, and soil adapted to wheat, and very fertile. It contains an academy, and several manufactories. The Syracuse and Utica R. R. and Erie Canal cross the town. On the latter is the v. of Lenox Basin, where are several stores and warehouses, 27 m. E. of Syracuse. Pop. of t. 7,597.

LENOX, t. and p. o., Ashtabula co., *Ohio*: 161 m. N. E. Columbus. Drained by branches of Grand r. Surface uneven, and soil generally good. Pop. 781.

LENOX, t. and p. o., Susquehanna co., *Penn.*: 112 m. N. E. by N. Harrisburg. Drained by Tunkhannock and Martin's creeks. Surface rough, and soil adapted to pasturage. Timber is largely exported. The Lackawanna and Western R. R. crosses the W. part.

LENOX, t. and p. o., McComb co., *Mich.*: 87 m. E. Lansing. Drained by branches of Clinton and Saline rivers. It is well timbered, and has a salt spring in the S. part. Pop. 654.

LENOX CASTLE, p. o., Rockingham co., *N. Car.*: 73 m. N. W. by W. Raleigh.

LENOX FURNACE, p. o., Berkshire co., *Mass.*: 116 m. W. Boston.

LENOXVILLE, p. v., Susquehanna co., *Penn.*: 116 m. N. E. by N. Harrisburg.

LEO, p. o., Allen co., *Ind.*: 128 m. N. E. by E. Indianapolis.

LEO, p. o., Washington co., *N. Car.*: 119 m. E. Raleigh.

LEO, p. o., Habersham county, *Ga.*: 107 m. N. by W. Milledgeville.

LEOMINSTER, t. and p. v., Worcester co., *Mass.*: 87 m. W. N. W. Boston. Drained by branches of Nashua r., on which are many fine mill privileges. Surface moderately uneven, with no large hills; soil clayey and mostly of excellent quality—on the large streams are extensive meadows. Rich rock alum is found. Farming and grazing are the chief occupations; but numerous and various manufactories are operated. Paper, cabinet-ware, boots and shoes, combs, chairs, harnesses, carriages, and mechanics' tools are made. The v. contains an academy and several stores. The Fitchburg R. R. and Fitchburg and Worcester R. R. pass through the t. The station of the latter is 9 m. S. of Fitchburg. Pop. of t. 3,121.

LEON county, *Flor.* Situate N. middle, and contains 955 sq. m. Drained by Little and Ocklockony rivers, which bound it W., and St. Mark's r., all flowing into Apalachee Bay. Surface moderately uneven, with low marshes in parts, and largely covered with a growth of pine; soil various—much is very fertile. It has large ponds or lakes in the N., but its streams are small, though furnishing many mill-seats. Cotton is the great staple, and is raised in very large quantities. Corn and sweet potatoes yield well, and some sugar is made. Farms 356; manuf. 15; dwell. 787, and pop.—wh. 3,158, fr. col. 46, sl. 8,208—total 11,432. Capital: Tallahassee. *Public Works*: St. Marks and Tallahassee R. R.

LEON county, *Tex.* Situate E. centrally, and contains 1,184 sq. m. Bounded W. by Navasoto r., a branch of the

Brazos, and E. by Trinity r. Drained W. by Birch and Deer creeks; E. by Alligator, Buffalo, Upper and Lower Keechi, Leona, and Boggy creeks. Surface undulating—in the E. are hills of gentle ascent, but no great elevation; soil on the Navasoto and Trinity a deep loam, variously mixed with sand and clay, and of great fertility—in the S., between the rivers, are sandy ridges. Corn and cotton produce great crops, and most of the grains thrive. It is also a fine grazing co., and many cattle and horses are sent to market. On the Trinity are dense forests of excellent timber, but a large portion is prairie, dotted over with post oak groves. The Trinity is a large stream navigable for light draft steamboats, and the Navasoto is boatable in most seasons. Farms 151; manuf. 5; dwell. 281, and pop.—wh. 1,325, fr. col. 0, sl. 621—total 1,946. Capital: Leona.

LEON, t. and p. o., Cattaraugus co., *N. Y.*: 273 m. W. by S. Albany. Drained by Conewago cr., on which are numerous saw-mills. Surface generally level; soil sandy loam. A good farming t. Pop. 1,340.

LEON, p. o., Madison county, *Virg.*: 78 m. N. W. Richmond.

LEON, p. o., Ashtabula co., *Ohio*: 152 m. E. Columbus.

LEONA, p. v., and cap. Leon co., *Tex.*: about midway between Navasoto and Trinidad rivers, 121 m. N. E. by E. Austin City. It is in a rolling and somewhat sandy region, but sparsely settled, and contains a court-house, jail, and 150 inhabitants.

LEONARDTOWN, p. v., and cap. St. Mary's co., *Md.*: on the E. side of Britton's Bay, a small branch of the Potomac, 46 m. S. by W. Annapolis. It contains a court-house, jail, academy, several stores, and 350 inhabitants. The "St. Mary's Beacon" is published weekly.

LEONARDSVILLE, p. v., Madison co., *N. Y.*: on Unadilla river, 81 m. W. by N. Albany. It contains several mills and 400 inhabitants.

LEONT, t. and p. o., Jackson co., *Mich.*: 86 m. S. S. E. Lansing. Drained by heads of Grand river, flowing from numerous ponds within it, and furnishing mill-seats. Surface undulating, and soil rich loam, producing large crops of grain. The Michigan Central R. R. crosses the N. part. Pop. 290.

LEONIDAS, t. and p. o., St. Joseph's county, *Mich.*: on St. Joseph's river, 59 m. S. W. by S. Lansing. Drained by Bear and Pine creeks; soil a fertile prairie. Pop. 858.

LEOPOLD, p. v., Perry co., *Ind.*: about 7 m. from the Ohio, 114 m. S. by W. Indianapolis.

LE RAYSVILLE, p. v., Jefferson co., *N. Y.*: 142 m. N. W. Albany.

LE RAYSVILLE, p. v., Bradford co., *Penn.*: 109 m. N. N. E. Harrisburg. It contains an academy, several stores, and 300 inhabitants.

LE ROY, p. v., McLean county, *Ill.*: 53 m. N. E. by E. Springfield.

LE ROY, t. and p. v., Genesee co., *N. Y.*: 226 m. W. by N. Albany. Drained by Allen's cr., which affords great water-power. Surface mostly level; soil sandy loam, and exceedingly productive of wheat and other grain. The Buffalo, Corning, and New York R. R. crosses it. The v. is on the creek, which falls 125 feet within 2 miles, and is largely engaged in manufacturing flour, oil, and leather. It is mostly built of stone, and contains a bank, an academy, 25 stores, several large flouring mills, and about 2,000 inhabitants. The "L. Gazette," and "Genesee Courier" (both whig), are published here weekly. Pop. of t. 3,472.

LE ROY, p. o., Medina county, *Ohio*: 89 m. N. E. by N. Columbus.

LE ROY, t. and p. o., Dodge county, *Wisc.*: 56 m. N. E. Madison. The t. has fine land in the E., but the W. is a portion of the great Winnebago Marsh. Pop. 897.

LE ROY, t. and p. o., Bradford county, *Penn.*: 91 m. N. Harrisburg. Drained by Towanda creek and its branches, which move numerous saw-mills. Surface uneven, and soil good; woollens are manufactured, and lumber exported.

LE ROY, t. and p. o., Ingham co., *Mich.*: 19 m. E. S. E. Lansing. Drained by Cedar r. and its branches. It has a fertile soil, and is well supplied with timber and mill-sites. Pop. 254.

LESLIE, t. and p. v., Ingham co., *Mich.*: 21 m. S. by E. Lansing. Drained by a branch of Grand r. Surface level, and soil finely adapted to grain. Pop. 673.

LE SOURDSVILLE, p. v., Butler co., *Ohio*: 59 m. S. W. W. Columbus.

LESSER CROSS ROADS, p. o., Somerset co., *N. Jer.*: 84 m. N. Trenton.

LESSLEY, p. o., Benton co., *Mo.*: on Beaver creek of the Osage, 63 m. W. S. W. Jefferson City.

LESTER'S DISTRICT, p. o., Burke co., *Ga.*: 84 m. E. by S. Milledgeville.

LESTERVILLE, p. o., Reynolds co., *Mo.*: on the E. side of Big Black Water r., 98 m. S. E. Jefferson City.

LETAERT FALLS, p. v., Meigs co., *Ohio*: on the Ohio r., 92 m. S. E. Columbus.

LETCHER county, *Ky.*. Situate S. E., and contains 305 sq. m. It has the Cumberland Mountains on the S. E., and gives rise to the Kentucky r., by small head streams of which it is drained—Boone's, Carr's, King's, and Line Fork creeks. Surface broken, with fine mill-streams in parts, and many rich bottoms. Soil generally very fertile; corn and oats grow finely, and the pastures are excellent, feeding many cattle, horses, and sheep. Pork is the principal export. Farms 343; manuf. 0; dwell. 416, and pop.—wh. 2,440, fr. col. 10, sl. 62—total 2,512. *Capital*: Whitesburg.

LETCHER, p. o., Harlan co., *Ky.*: 107 m. S. E. Frankfort.

LETCHERVILLE, p. v., Greene co., *Ill.*: 43 m. W. S. W. Springfield.

LETIMBERVILLE, p. v., Marion county, *Ohio*: 49 m. N. Columbus.

LETTER A No. 2, t. and p. o., Oxford county, *Me.*: 61 m. W. by N. Augusta. Surface elevated, and mostly covered with heavy timber. It is little cultivated. Pop. 108.

LETTER B, t. and p. o., Oxford co., *Me.*: 66 m. W. N. W. Augusta. Lake Umbagog occupies the N., and its affluents afford abundant mill privileges. Soil fertile; lumbering is the chief business. Pop. 174.

LEVANNA, p. v., Cayuga co., *N. Y.*: on the E. side of Cayuga Lake, 156 m. W. by N. Albany. It has a steamboat landing, and contains a flouring mill, several warehouses, and 400 inhabitants.

LEVANNA, v., Brown co., *Ohio*: on the N. bank of the Ohio r., opposite Dover, 92 m. S. S. W. Columbus. Pop. 174.

LEVANT, t. and p. v., Penobscot co., *Me.*: 59 m. N. E. Augusta. Drained by Kenduskeag r., which crosses the E. part, and its branches. Surface uneven, and soil fertile. The v. is on the r., which turns several mills. Population of t. 1,842.

LEVANT, p. v., Chautauque co., *N. Y.*: on Conewango cr., 287 m. W. by S. Albany.

LEVEE, p. o., Montgomery county, *Ky.*: 62 m. E. by S. Frankfort.

LEWEL, p. o., Richland dist., *S. Car.*: on Rice cr., 12 m. N. by E. Columbia.

LEWEL, p. o., Warren county, *Ohio*: 74 miles W. S. W. Columbus.

LEVEL GREEN, p. o., Giles county, *Virg.*: 164 m. W. Richmond.

LEVENWORTH, p. v., and cap. Crawford co., *Ind.*: on the Ohio, 107 m. S. Indianapolis. It has a fine landing, and an extensive trade with the interior. In the vicinity is the coal region, and ship timber is abundant. It contains a courthouse, several stores, and 600 inhabitants.

LEVERETT, t. and p. v., Franklin co., *Mass.*: 74 m. W. by N. Boston. Drained by affluents of the Connecticut, which furnish power for small mills. Surface uneven, with large fertile meadows, and superior pasture land. Farming and grazing form its great interests, but timber is plenty, and much maple sugar is made. Wooden-ware, leather, and

woolens are manufactured. The Amherst and Belcher-town R. R. passes through it. Pop. 943.

LEVERING, p. o., Knox co., *Oh.*: 43 m. N. by E. Columbus.

LEVERINGTON, p. o., Philadelphia county, *Penn.*: 92 m. E. by S. Harrisburg.

LEVI, p. o., Jackson co., *Ohio*: 73 m. S. S. E. Columbus.

LEVY county, *Flor.*. Situate on the neck of the peninsula, W. side, and contains 778 sq. m. Bounded N. W. by Suwanee r., and S. by Withlacoochee r., between which Wakasse, Wakasassa, and Ten Mile creeks empty into Wakasassa Bay. Surface low and level, and covered extensively with swamps abounding in heavy timber, with occasional dry elevations. Soil, when tillable, very rich, producing abundantly corn, cotton, and semi-tropical fruits and melons. Farms 0; manuf. 0; dwell. 64; and pop.—wh. 320, fr. col. 0, sl. 145—total 465. *Capital*: Wakasassa.

LEWES, p. v., Sussex co., *Del.*: 33 m. S. S. E. Dover. It contains an academy, several stores, and 350 inhabitants.

LEWES AND REHOBOTH, hund., Sussex co., *Del.*: at the mouth of Delaware Bay, with the Atlantic on the E. and Rehoboth Bay on the S. Has a level surface, sandy soil, and an area of 35,080 acres. The Delaware Breakwater is on its N. coast. Pop. 2,015.

LEWIS county, *Ky.*. Situate N. E., and contains 816 sq. m. Bounded N. by the Ohio, and drained by its affluents, Salt Lick and Kinniconink creeks, and North Lick, a branch of Licking r. Surface uneven, and soil fertile. Corn and wheat are staple cereals. It has good pastures, and raises considerable pork for export. In the N. copperas, limestone, and fine clay for fire-brick and stoneware are found. Farther S. are the Æsculapian Springs, a celebrated watering-place, and salt-springs are found. Farms 651; manuf. 21; dwell. 1,223, and pop.—wh. 6,869, fr. col. 11, sl. 322—total 7,202. *Capital*: Clarksburg. *Public Works*: Covington and Ohio R. R.

Lewis county, *Mo.*. Situate N. E., and contains 519 sq. m. Bounded E. by the Mississippi, and drained by Wyaconda r., and N., Middle and S. Fabius rivers, and Taylor's fork. Surface rolling or slightly uneven. Soil highly productive, affording excellent grass and grain lands; raising large crops of corn and wheat, and good tobacco, and feeding numerous cattle and sheep. It has fine mill streams, abundance of timber, and growing manufactures. The forests furnish mast for great numbers of swine, and pork is a large article of export. Bituminous coal, salt springs, and lead, exist abundantly in parts. Farms 448; manuf. 15; dwell. 905, and pop.—wh. 5,364, fr. col. 8, sl. 1,206—total 6,578. *Capital*: Monticello.

Lewis county, *N. Y.*. Situate N., a little E. of Lake Ontario, and contains 1,122 sq. m. Drained by Black r. and its tributaries, Beaver r., Independence r., Otter cr., and Moose river, all E., and several minor ones W.; S. W. by Salmon river of Lake Ontario, and Fish cr. of Lake Oneida, and N. by Indian r. and W. fork of Oswegatchie r., flowing into the St. Lawrence. Surface in the E. hilly, rising from Black river toward the mountains E. of it: W. rolling, with frequent hills, and an inclination to the W. and S.; on Black r. are broad alluvial flats. Soil various; the bottoms are very fertile; the rest a gravelly, sandy, or clayey loam, produces well under good cultivation, and is especially fitted for pasture. The E. has large forests of pine, spruce, hemlock, beech, maple, and ash. From the maple much sugar is made. Farming and grazing are the chief pursuits. Potatoes, oats, wheat, and barley, the chief crops, and the produce of the dairy very large. The streams afford water-power almost without limit, but it is little used. Flour, lumber, leather, and woolen goods are the chief manufactures. Wool, butter, and cheese, the chief exports. W. of Black r. fine limestone abounds. Superior iron ore is found in abundance, and lead ore in smaller quantities. Farms 2,374; manuf. 67; dwell. 4,624, and pop.—wh. 24,524, fr. col. 40—total 24,564. *Capital*: Martinsburg. *Public Works*: Black River Canal; Saratoga and Sackett's Harbor R. R., etc.

Lewis county, Oregon. Situate N. W., and covers an area of about 80,000 sq. m. It has the British Possessions and Strait of Juan de Fuca on the N., the Pacific on the W., and extends S. to the Columbia, with Pacific co. occupying the corner N. of the lower part of that river. There are several inlets from the ocean around it; Shoalwater Bay, Gray's Harbor, Hood's Channel, Puget Sound, and Admiralty Inlet, into which flow streams of considerable length, but of difficult or impossible navigation. These are Chikeelis r. of Gray's Harbor, and its branches, Mc Kenzie's Fork, Newaukum, and Skukumchuck rivers; and Tenalquit or Shute's and Nisqually rivers, with others of Puget's Sound. It is deficient in harbors, except in the Straits of Fuca, the inlets and mouths of the rivers being obstructed by shifting sandbars, which render their entrance uncertain and hazardous. The rivers abound in fine fish, particularly salmon, and fishing is extensively pursued, furnishing the natives and recent emigrants with a large share of their food. The coast abounds in all varieties of shell-fish, which are taken in great quantities, and furnish an important article of diet. Whales are often caught off the shore, and even in the straits of Fuca. Surface broken by spurs of the Cascade Mountains, and much varied. There are dense forests in all parts of excellent timber, pine, fir, spruce, white and red oaks, ash, cedar, and maple. Soil various, from a brown loam to a thin vegetable mold, and generally productive of all kinds of grain, corn excepted. The climate is mild; snow seldom remaining longer than a week together, except in the most N. and elevated parts, and free from extremes of heat or cold. This county is little settled, but is scoured by hunters in search of the abundant game and fine furs it produces. Coal is found on the Chikeelis and Cowlitz rivers in abundance. In 1850 it had—Farms 55; manuf. 3; dwell. 146, and pop.—wh. 457, fr. col. 101—total 558. *Capital:* Monticello.

Lewis county, Tenn. Situate W. middle, and contains 337 sq. m. Drained by Buffalo and Duck rivers, branches of Tennessee r., and their affluents. Surface pleasantly diversified; soil fertile. Corn is the staple. Wheat and tobacco grow well, and there is much good grazing land. Pork is largely exported. Farms 394; manuf. 13; dwell. 599, and pop.—wh. 3,697, fr. col. 5, sl. 736—total 4,433. *Capital:* Newburg.

Lewis county, Virg. Situate N. W., and contains 603 sq. m. Drained by heads of E. and W. forks of Monongahela r., and branches of Little Kanawha r., Leading, Sand, Stone, Coal, and French creeks. Surface elevated and much broken; soil generally very productive, raising good crops of wheat, corn, and potatoes, and furnishing excellent pasture. Large numbers of cattle and sheep are reared, and wool and pork are exported. It has fine mill streams, and many small manufacturing establishments. Coal and iron are found. Farms 378; manuf. 27; dwell. 1,533, and pop.—wh. 9,621, fr. col. 42, sl. 363—total 10,031. *Capital:* Weston.

Lewis, p. o., Vigo county, Ind.: 67 miles W. S. W. Indianapolis.

Lewis, t. and p. o., Essex co., N. Y.: 113 m. N. by E. Albany. Drained by Boquet r. and its branches. Surface mountainous in the W., in the E. more even. Soil generally good, and everywhere heavily timbered. It is rich in iron ore, and contains several forges, and numerous mills for sawing lumber. Pop. 2,058.

Lewis, t. and p. o., Brown co., Ohio: on the Ohio, 83 m. S. W. by S. Columbus. Drained by White Oak and Eagle creeks. Surface somewhat uneven, and soil very fertile. Pop. 1,997.

Lewisberry, p. v., York co., Penn.: 8 m. S. Harrisburg. **Lewisborough, t. and p. o., Westchester co., N. Y.:** 95 m. S. by E. Albany. Drained by branches of Croton r., its W. boundary. Surface uneven, and soil sandy loam of good fertility. A farming town. Pop. 1,609.

Lewisburg, p. v. and cap. Conway co., Ark.: on the left

bank of Arkansas r., 37 m. N. W. Little Rock. It has a good landing, a court-house and jail, and 200 inhabitants.

Lewisburg, p. v., Cass co., Ind.: on the N. bank of Wabash r., 66 m. N. Indianapolis. The Wabash and Erie Canal passes through the v., 3 m. from Logansport.

Lewisburg, p. v., Preble county, Oh.: 81 m. W. by S. Columbus.

Lewisburg, v., Champaign county, Oh.: 51 m. W. by N. Columbus. Pop. 302.

Lewisburg, p. b., Union co., Penn.: on the right bank of Susquehanna r., just below the mouth of Buffalo cr., 45 m. N. by W. Harrisburg. A short branch crossing the river connects it with the W. branch division of the Pennsylvania Canal. It has a brisk trade in farming products, and contains an academy and about 20 stores. A college was founded here by the Baptists in 1849, and in 1851 had 5 instructors and 46 students. Three newspapers are published, "Der Christliche Botschafter," a religious semi-monthly, in German, and the "L. Democrat" (dem.), and "L. Chronicle" (independent), weekly. Pop. 2,012.

Lewisburg, p. v., and cap. Marshall co., Tenn.: near a branch of Duck r., 43 m. S. Nashville. It is the centre of a rich corn region, and contains a court-house, jail, several stores, and 300 inhabitants.

Lewisburg, p. v., and cap. Greenbrier co., Virg.: 162 m. W. by N. Richmond. It contains a court-house and jail, two academies, several large stores, and about 1,000 inhabitants. Within a few miles are the celebrated White and Blue Sulphur Springs, which are reached through the v., and add much to its other attractions. The "L. Chronicle" is issued weekly.

Lewis' Fork, p. o., Wilkes co., N. Car.: on a branch of Yadkin r. so called, 162 m. W. N. W. Raleigh.

Lewisport, p. v., Hancock co., Ky.: on the S. bank of the Ohio, 112 m. W. by S. Frankfort. It contains 3 stores, 80 houses, and 250 inhabitants.

Lewis' Store, p. o., Spotsylvania co., Virg.: 47 m. N. by W. Richmond.

Lewiston, Virg. See Lunenburg C. H.

Lewiston, t. and p. v., Niagara co., N. Y.: on the E. side of Niagara r., 273 m. W. by N. Albany. Surface generally level; soil calcareous or sandy loam, and mostly fertile. The Rochester, Lockport, and Niagara Falls R. R. passes through it, and a branch extends to the v. The v., at the head of steamboat navigation, 7 m. from Lake Ontario, has a good landing and constant communication, and an extensive trade with most of the lake ports. A ferry connects it with Queenstown, and railroads leading west. It contains an academy, about 20 stores and warehouses, and 1,000 inhabitants. Pop. of t. 2,933.

Lewiston, t. and p. v., Lincoln co., Me.: on the E. side of Androscoggin r., 28 m. S. W. Augusta. The t. stretches along the r. about 13 m., and has a fine soil, which is well cultivated. The leading interest is manufactures, and centres in the v., on the r., which descends about 50 feet in 15 rods. A dam has been thrown across it, and almost unlimited water-power obtained. Large cotton-mills are built, and it bids fair to become one of the large manufacturing places of the Union. A bridge, 1,000 feet long, connects it with Auburn, on the opposite side. The Androscoggin and Kennebec R. R. passes it, 33 m. from Portland. The "L. Falls Journal" (neut.) is published weekly. Pop. of t. 3,554.

Lewistown, p. v., and cap. Fulton co., Ill.: about 4 m. from Spoon r., 45 m. N. W. Springfield. It contains a court-house, jail, high school, and about 1,515 inhabitants.

Lewistown, p. v., Logan co., Oh.: on the E. side of Miami r., 56 m. N. W. by W. Columbus.

Lewistown, p. b., and cap. Mifflin co., Penn.: on the N. side Juniata r., at the mouth of Kishicoquil cr., 43 m. N. W. by W. Harrisburg. It is regularly laid out, with a square in the centre, containing the court-house and other co. buildings. It also contains an academy, 25 stores, a furnace of 1,800 tons capacity, and a forge producing 500 tons of blooms

per annum. In the vicinity are mineral springs, and a furnace of 1,600 tons capacity. The "L. Gazette" (whig) and "True Democrat" (dem.) are published weekly. The Pennsylvania Canal passes through it, 83 m. from Hollidaysburg, and the Eastern division of the Pennsylvania R. R., 61 m. from Harrisburg. Pop. 2,735.

LEWISVILLE, p. v., and cap. Lafayette co., Ark.: about 6 m. E. of Red r., and 126 m. S. W. Little Rock. It is surrounded by rich cotton and corn plantations, and contains a court-house, a few stores, and 200 inhabitants.

LEWISVILLE, p. v., Monroe co., Ohio: 92 m. E. by S. Columbus.

LEWISVILLE, p. v., Henry co., Ind.: on the E. side of Flat Rock cr., 39 m. E. Indianapolis. The Indiana Central R. R. passes near it.

LEWISVILLE, p. o., Chester dist., S. Car.: near Fishing cr., 48 m. N. by E. Columbia.

LEWISVILLE, sta., Orangeburg dist., S. Car.: on the Columbia Branch R. R., 87 m. from Columbia.

LEWISVILLE, p. o., Brunswick co., Virg.: 62 m. S. by W. Richmond.

LEWISVILLE, p. v., Chester co., Penn.: 62 m. E. S. E. Harrisburg.

LEXINGTON district, S. Car. Situate W. centrally, and contains 884 sq. m. Drained by N. Edisto r., its S. W. boundary; Saluda r. and its branches in the N., and Broad r., which, uniting with the Saluda, takes the name of Congaree r., and forms the N. E. boundary, and has small affluents, which drain the central and E. portions. Surface diversified, with moderate swells, and a few considerable elevations. Soil generally of good quality, producing cotton, corn, wheat, and potatoes largely, and furnishing pasture for large numbers of cattle. Some of the low lands grow good rice in small quantities. It has much water-power along its rivers, a part of which is profitably employed in manufactures. Farms 887; manuf. 40; dwell. 1,312, and pop.—wh. 7,352, fr. col. 21, sl. 5,557—total 12,930. Capital: Lexington.

LEXINGTON, p. o., Lauderdale co., Ala.: about 3 m. E. Blue Water creek of the Tennessee, 134 miles N. by W. Montgomery.

LEXINGTON, p. v., and cap. Oglethorpe co., Ga.: 59 m. N. Milledgeville. It contains a court-house, jail, a well-endowed academy, a public library, 20 stores, and 300 inhabitants. The Athens branch of Georgia R. R. passes a little W. of the v., 17 m. from Athens.

LEXINGTON, p. v., McLean co., Ill.: about 2 m. N. of Mackinaw cr., 74 m. N. E. Springfield.

LEXINGTON, p. v., and cap. Scott co., Ind.: 81 m. S. S. E. Indianapolis. It is connected with Madison by a plank-road, and contains a court-house and 1,159 inhabitants.

LEXINGTON, p. city, and cap. Fayette co., Ky.: on Town branch of Elkhorn r., 24 m. E. S. E. Frankfort. Lat. 36° 6' N., and long. 84° 18' W., and by railroad distant from Louisville 65 m., from Covington 96 m., from Maysville 75 m., from Danville 35 m., from Nashville 137 m., from Savannah 716 m., from Charleston 732 m., and from Mobile 975 m. It is one of the oldest cities of Kentucky, and was formerly capital of the State. The city occupies a square of 2 m., and is laid out in wide, rectangular streets, the main street being 80 feet wide, and containing many elegant buildings. There is a square in the centre of the city, upon which is the market-house. The public edifices are generally of brick, and substantially built, as are also many of the stores and dwellings. The public buildings are the court-house, jail, and several literary and benevolent institutions, etc. Transylvania University is the oldest college in the State, having been established in 1793; it has departments of law and medicine, and every department is in a flourishing condition. The University Hall and Medical College are fine buildings. The State Lunatic Asylum is also located here, and is a noble institution. Lexington has several manufactures and large tobacco warehouses, and its trade with the

interior is extensive. It is the head-quarters of the Northern Bank of Kentucky, and there is also a branch of the Bank of Kentucky. The newspapers published here are the "Kentucky Statesman" (dem.) and the "Observer and Reporter" (whig), both semi-weekly issues, and the "Locomotive" (neutral), a daily paper. The railroads diverging from Lexington are the Louisville and Lexington R. R., the Frankfort and Lexington R. R., the Covington and Lexington R. R., the Maysville and Lexington R. R., the Lexington and Danville R. R., etc. There are also several turnpikes diverging from the city. About 1½ m. S. E. of the City is Ashland, the seat of the late lamented statesman, Hon. Henry Clay, and there are many others in the vicinity which give tone and character to the country. Lexington was settled about 1779; incorporated by the Virginia Legislature in 1782, and was chartered as a city in 1831. Pop. 9,180.

LEXINGTON, t. and p. o., Somerset co., Me.: 51 m. N. N. W. Augusta. It has several ponds flowing into Seven Mile branch of Kennebec r., and affording fine mill-lands. Surface uneven; soil fertile. Timber forms the chief source of wealth. Pop. 538.

LEXINGTON, t. and p. v., Middlesex co., Mass.: 10 m. N. W. Boston. Drained by branches of Shawheen r. Surface pleasantly varied, with many hills and extensive meadows; soil of medium quality, rendered highly productive by skillful cultivation. It is principally a farming t., with excellent gardens and orchards, but manufactures boots and shoes, cabinet-ware, farming and mechanical implements, carriages, etc. The v. contains an academy and about 75 houses and stores, neatly arranged around a pleasant green. Here was fought, on the 19th of April, 1775, the first action of the American Revolution. A tasteful monument, erected by the State, marks the spot and commemorates the valor of the first victims. The v. is 11 m. from Boston, on the Lexington and West Cambridge Branch of the Fitchburg R. R. Pop. of t. 1,894.

LEXINGTON, t. and p. v., St. Clair county, Mich.: 105 m. E. N. E. Lansing. Black r. crosses the W. part and Lake Huron lies on the E. It is well timbered, and lumbering is the chief business. Pop. 1,176.

LEXINGTON, p. v., and cap. Holmes co., Miss.: on Black cr. of the Yazoo, 54 m. N. by E. Jackson. It comprises a court-house, jail, several hotels, stores, and small manufactures, and a pop. of 600. Two weeklies are published, the "L. Advertiser" (whig), and "Equal Rights" (dem.).

LEXINGTON, p. v., and cap. Lafayette co., Mo.: about 1 m. S. of the Missouri, 93 m. W. N. W. Jefferson City. It contains a court-house and jail, an academy, a bank, several large stores, and 2,202 inhabitants. Two newspapers are published, the "L. Weekly Journal" and the "Western Missouri Express."

LEXINGTON, t. and p. v., Greene co., N. Y.: 45 m. S. W. Albany. Drained by Schoharie cr., on which are many saw-mills. Surface much broken by the Catskill Mountains; soil generally good. Timber is abundant, and tanning extensively carried on. Pop. 2,263. Hallcott is a new town, set off from Lexington in 1851.

LEXINGTON, p. v., and cap. Davidson co., N. Car.: about 1 m. W. of Abbot's cr. of the Yadkin, 97 m. W. by N. Raleigh. It contains the county buildings and several stores, and is on the line of the North Carolina Central R. R.

LEXINGTON, p. v., Richland co., Ohio: on Clear fork of Mohican cr., which has a good fall here, 51 m. N. by E. Columbus. It contains several stores and mills, and 500 inhabitants. The Sandusky, Mansfield, and Newark R. R. passes through it 9 m. from Mansfield.

LEXINGTON C. H., p. v., and cap. Lexington dist., S. Car.: on a branch of Saluda r., 12 m. W. Columbia. It contains a court-house, jail, an academy, several fine stores, and 800 inhabitants. A Lutheran Theological Seminary was founded here in 1835, and in 1850 had 2 instructors, 10 students, 20 alumni, and a library of 2,000 volumes.

LEXINGTON, p. v., and cap. Henderson co., Tenn.: at the

head of Beech r., 92 m. W. S. W. Nashville. Great numbers of hogs are fattened in the vicinity of the v., which contains a court-house, jail, an academy, several mills and stores, and 800 inhabitants.

LExINGTON, p. v., and cap. Rockbridge co., *Virg.*: on the W. side of North r., 107 m. W. by N. Richmond. It lies on a high bank of the river, and contains a court-house, jail, an academy, a female seminary, 15 stores, and 1,733 inhabitants. Washington College was founded here in 1798, and liberally endowed by George Washington. In 1850 it had 6 instructors, 600 alumni, 42 of whom were ministers, 50 students, and a library of 5,000 volumes. The Virginia Military Institute, modeled after that at West Point, was located here in 1839, and in 1850 had 6 instructors, 107 alumni, 120 students, and 2,000 volumes in its library. The "L. Gazette" (whig), and "Valley Star" (dem.), are published weekly.

LExINGTON, p. v., Clatsop co., *Oreg. Ter.*: on the W. or left bank of Willamette r., 49 m. N. by E. Salem.

LeyDEN, t. and p. v., Franklin co., *Mass.*: 84 m. W. N. W. Boston. Drained by Green r., a branch of Deerfield r., on which are fine mill-sites. Surface mountainous, and soil adapted to grazing. Large numbers of sheep and good dairies are kept. On Green r. is a narrow ravine, inclosed by high rocks, called the "Glen," or "Ghor," which attracts many visitors by its wildness and beauty. Pop. of t. 716.

LeyDEN, p. v., Cook county, *Ill.*: 179 m. N. N. E. E. Springfield.

LeyDEN, t. and p. o., Lewis co., *N. Y.*: 104 m. N. W. by W. Albany. Drained by branches of Black r., which forms its E. line, and falls 63 feet before leaving the town. Surface hilly, and soil a fertile sandy loam. A large farming town. The Black River Canal passes down the river to the falls. Pop. 2,253.

LeyDEN, p. o., Rock co., *Wisc.*: S. E. Madison.

LIBERTY county, *Ga.* Situate S. E. on the Atlantic, and contains 759 sq. m. Drained N. E. by Little Cunnawchee r. and Taylor's cr., E. by Newport and Midway rivers, and W. by Beard's and Doctor's creeks and Altamaha r. Surface level, and in parts low and marshy; soil mostly of great fertility near the water-courses, with poorer land at a distance from the shore. Cotton is the staple. St. Catharine's Island forms a part of the county, and raises sea-land cotton of a superior quality. Corn and potatoes produce largely, and the marshes on the coast and some of the creeks raise much excellent rice. Cattle are reared in large numbers, though the grains do not succeed. It has valuable forests of pine, hickory, and live oak. Farms 244; manuf. 4; dwell. 860, and pop.—wh. 2,002, fr. col. 16, sl. 5,908—total 7,926. *Capital*: Hinesville.

LIBERTY county, *Tex.* Situate S. in E. part, and contains 2,746 sq. m. Trinity r. flows S. through the middle; on the N. E. is Big Sandy cr., and farther S. Pin Island bayou, both affluents of the Neches; S. E. are Oyster and East Bay bayoux, flowing into East Bay; and W. it is drained by E. fork of San Jacinto r. and Cedar bayou, flowing into Galveston Bay, which, with the Gulf of Mexico, forms its S. boundary. Surface level, with scarcely a noticeable hill; soil of various fertility—in the S. a thin, black mold, resting on sand and shells; in the N. the mold is deeper, and frequently has a substratum of yellow loam; on the Trinity is rich bottom land, often overflowed, and exceedingly productive. The S. is a grassy plain destitute of trees, and adapted to grazing. The N. is prairie, with lines of wood on the streams, and is excellent cotton land. The Trinity is a large stream, about 80 yards wide and 10 feet deep, and navigated by steamers through the county and a considerable distance N. of it. Farms 149; manuf. 1; dwell. 812, and pop.—wh. 1,623, fr. col. 7, sl. 592—total 2,522. *Capital*: Liberty.

LIBERTY, p. v., Adams co., *Ill.*: 76 m. W. Springfield.

LIBERTY, p. o., Jackson county, *Ala.*: 165 m. N. by E. Montgomery.

LIBERTY, p. v., and cap. Union co., *Ind.*: 62 m. E. by S. Indianapolis. It contains a court-house, jail, academy, and 979 inhabitants.

LIBERTY, p. v., and cap. Casey co., *Ky.*: on Greene r., here a small stream, 59 m. S. Frankfort. It contains a court-house and jail, several stores, and 200 inhabitants.

LIBERTY, t. and p. o., Waldo co., *Me.*: 22 m. E. Augusta. St. George's r. rises from a large pond in the N., and Muscongus r. flows from the S. part. Surface uneven, and soil adapted to grass. Pop. 1,116.

LIBERTY, t. and p. o., Jackson co., *Mich.*: 42 m. S. by E. Lansing. Surface undulating, and soil productive of all the grains and grasses. Pop. 891.

LIBERTY, p. v., and cap. Amiteé co., *Miss.*: on a branch of Amiteé r., 82 m. S. S. W. Jackson. It contains a court-house and jail, and 200 inhabitants.

LIBERTY, p. v., and cap. Clay co., *Mo.*: about 8 m. N. of the Missouri, 184 m. W. N. W. Jefferson City. It has a convenient landing on the Missouri, and carries on an extensive trade with the back region. It contains a court-house and jail, 8 academies, several large stores, and 800 inhabitants.

LIBERTY, t. and p. o., Sullivan co., *N. Y.*: 78 m. S. W. Albany. Surface elevated and hilly, giving rise to Collikoon and Mongaup creeks of the Delaware, on which are numerous saw-mills; soil gravelly loam. Lumber is a large export. Pop. 2,612.

LIBERTY, p. v., Montgomery co., *Ohio*: 71 m. W. by S. Columbus.

LIBERTY, t. and p. o., Tioga co., *Penn.*: 92 m. N. by W. Harrisburg. Drained by branches of Pine and Locoming creeks, which turn many saw-mills. Surface rough, and grazing is the chief business. Iron and coal are found.

LIBERTY, p. v., De Kalb county, *Tenn.*: on a branch of Caney fork of Cumberland r., 44 m. E. by S. Nashville.

LIBERTY, p. v., and cap. Bedford co., *Virg.*: on a branch of Otter r., 112 m. W. by S. Richmond. It contains a court-house and jail, several stores and small manufactories, and 500 inhabitants. It is on the Virginia and Tennessee R. R., 25 m. from Lynchburg.

LIBERTY, sta., Alleghany co., *Penn.*: on W. division of Pennsylvania R. R., 5 m. from Pittsburg.

LIBERTY, p. v., and cap. Liberty co., *Tex.*: on the left bank of Trinity r., about 30 m. from its mouth, 174 m. E. by S. Austin City. It has a good landing, and steamboats touch here on their way from the interior to Galveston, which is 70 m. S. of it. The vicinity produces fine cotton. The v. contains a court-house and 200 inhabitants.

LIBERTY, p. o., Racine co., *Wisc.*: 74 m. E. S. E. Madison.

LIBERTY, p. o., Washita co., *Ark.*: 91 m. S. by W. Little Rock.

LIBERTY CORNER, p. o., Somerset co., *N. J.*: about 1 m. from Dead River, a branch of the Passaic, 80 m. N. by E. Trenton.

LIBERTY CORNERS, p. o., Crawford co., *Ohio*: 63 m. N. Columbus.

LIBERTY FALLS, p. v., Sullivan co., *N. Y.*: 81 m. S. W. Albany.

LIBERTY HALL, p. o., Warren co., *Ohio*: 72 m. W. S. W. Columbus.

LIBERTY HALL, p. o., Newberry dist., *S. Car.*: 46 m. N. W. Columbia.

LIBERTY HALL, p. o., Washington co., *Virg.*: 246 m. W. S. W. Richmond.

LIBERTY HILL, p. o., Dallas county, *Ala.*: 61 m. W. Montgomery.

LIBERTY HILL, p. v., New London co., *Conn.*: in the N. part of Lebanon, 32 m. E. by S. Hartford.

LIBERTY HILL, p. o., Pike co., *Ga.*: 56 m. W. by N. Milledgeville.

LIBERTY HILL, p. o., Iredell co., *N. Car.*: near South Yadkin r., 165 m. W. Raleigh.

LIBERTY HILL, p. o., Kershaw dist., *S. Car.*: 33 m. N. by E. Columbia.

LIBERTY HILL, p. o., La Fayette co., *Miss.*: 185 m. N. N. E. Jackson.

LIBERTY MILLS, p. v., Wabash co., *Ind.*: on Eel r., 83 m. N. by E. Indianapolis.

LIBERTY MILLS, p. o., Orange co., *Virg.*: 51 m. N. W. Richmond.

LIBERTY SQUARE, p. o., Lancaster co., *Penn.*: E. S. E. Harrisburg.

LIBERTY TOWN, p. v., Frederick co., *Md.*: 2 m. N. of Linganore cr., 25 m. N. W. Annapolis.

LIBERTYVILLE, p. v., Lake co., *Ill.*: on the W. side of Des Plaines r., 194 m. N. N. E. Springfield. Pop. 756.

LIBERTYVILLE, p. v., Jefferson co., *Ia.*: 53 m. S. S. W. Iowa City.

LIBERTYVILLE, p. v., Sussex co., *N. Jer.*: about 3 m. E. of Blue Mountain, 54 m. N. Trenton.

LIBERTYVILLE, p. v., Ulster co., *N. Y.*: on the Wall Kill r., 65 m. S. by W. Albany. It contains a hotel and several mills.

LIBRARY, p. o., Alleghany co., *Penn.*: 168 m. W. by N. Harrisburg.

LICK BRANCH, p. o., Parke county, *Ind.*: 54 m. W. Indianapolis.

LICK CREEK, p. v., Sangamon co., *Ill.*: on a branch of Sugar cr. so called, 11 m. S. S. W. Springfield.

LICK CREEK, p. o., Ralls co., *Mo.*: on a branch of Salt r. so called, 61 m. N. by E. Jefferson City.

LICK CREEK, p. v., Van Buren co., *Ia.*: near the branch of Des Moines r. so called, 59 m. S. S. W. Iowa City.

LICK CREEK, p. o., Hickman co., *Tenn.*: on a branch of Duck r. so called, 32 m. S. W. Nashville.

LICKS, p. o., Fannin co., *Tex.*: 269 m. N. N. E. Austin City.

LICK FORK, p. o., Daviess county, *Mo.*: on a branch of Grand r., 136 m. N. W. Jefferson City.

LICKING county, Ohio. Situate centrally, and contains 633 sq. m. Drained by Licking r. and its branches, Rocky fork, North fork, Raccoon cr. and South fork, which furnish abundance of excellent water-power. Surface elevated and rolling, or nearly level; soil highly productive, and under thorough cultivation. It is an excellent farming, and superior grazing co. Wheat and corn are raised in great quantities. Buckwheat grows easily, and tobacco is a profitable crop, and receiving increased attention. The dairies are very fine, and cattle and sheep are kept in large numbers. Live stock, beef, and especially wool and pork, are leading exports. Most of its water-power is occupied by extensive and various manufactories, in which a large capital is invested. Iron-ware is made, and iron ore is abundant. Farms 3,313; manuf. 332; dwell. 6,689, and pop.—wh. 33,781, fr. col. 115—total 33,846. *Capital*: Newark. *Public Works*: Ohio Canal; Ohio Central R. R.; Columbus and Lake Erie R. R.

LICKING, p. o., Texas co., *Mo.*: 122 m. S. by E. Jefferson City.

LICKING river, Ky.: a tributary of the Ohio. It rises in Floyd co., and has a course of about 100 m., reaching its confluence at Newport, opposite Cincinnati. It is navigable for 70 miles.

LICKING river, Ohio: a large W. branch of the Muskingum, formed by the union of three principal branches at Newark. It furnishes extensive water-power, particularly by a dam at its mouth.

LICKVILLE, p. o., Greenville district, *S. Car.*: 73 miles N. W. by W. Columbia.

LIGHT-HOUSES OF THE UNITED STATES.

LIGHTS CORNERS, p. o., Waldo co., *Me.*: about 1 m. E. of Muscongus r., 25 m. E. by S. Augusta.

LIGHT STREET, p. v., Columbia co., *Penn.*: on the E. side of Fishing cr., 56 m. N. by E. Harrisburg. It contains 2 anthracite blast furnaces, of 2,000 tons capacity each, and 489 inhabitants.

LIGONIER, t. and p. v., Westmoreland county, *Penn.*:

119 m. W. Harrisburg. Drained by Loyalhanna cr. and branches, which turn several large flour and saw mills. It is mostly a rich valley, on the W. side of Laurel Hills, and farming and grazing are the leading interests. The village contains an academy, several stores, and a printing-office, whence the "Ligonier Free Press" (neut.) is issued weekly.

LIGONIER, p. v., Noble co., *Ind.*: on Elkhart r., 118 m. N. by E. Indianapolis.

LIKENS, t. and p. o., Crawford county, *Ohio*: 65 m. N. Columbus. Drained by branches of Sandusky r. Surface varied, and soil adapted to grain. Pop. 1,185.

LILESVILLE, p. o., Anson co., *N. Car.*: 9½ m. S.W. by W. Raleigh.

LILLECAASH, p. v., Will county, *Ill.*: 153 miles N. N. E. Springfield.

LIMA, p. o., Adams county, *Ill.*: about 6 m. E. of the Mississippi, 93 m. W. by N. Springfield.

LIMA, p. v., La Grange county, *Ind.*: on the N. side of Pigeon r., 137 m. N. by E. Indianapolis. It enjoys a large trade with the fertile country around it by means of several plank-roads centering here, and contains an academy, several mills and stores, and 1,112 inhabitants. The "La Grange Whig" is published weekly.

LIMA, t. and p. v., Washtenau co., *Mich.*: 43 m. S. E. Lansing. Drained by Mill cr. and its N. branch, affluents of Huron r., which supply fine mill-sites. Surface gently rolling, and soil excellent for wheat and corn. The Michigan Central R. R. crosses the N. part. The v. is on the N. branch, and contains several stores and mills. Pop. of t. 912.

LIMA, t. and p. v., Livingston co., *N. Y.*: 202 m. W. by N. Albany. Drained by Honeoye cr. and its branches, which furnish good mill-sites. Surface rolling; soil clay and calcareous loam, and under high cultivation. A superior farming t., with several flouring mills and small manufactories. The v. is not compact, but very pleasantly built, and contains a number of stores, and 500 inhabitants. The Genesee Wesleyan Seminary, incorporated here in 1834, is a large, well endowed, and flourishing institution. The Canandaigua and Niagara R. R. crosses the t. Pop. of t. 2,433.

LIMA, p. v., and cap. Allen co., *Ohio*: on Ottawa cr., a branch of Maumee r., 79 m. N. W. Columbus. It contains a court-house and jail, an academy, a dozen stores, and 757 inhabitants. The "L. Argus" (dem.) is published weekly.

LIMA, p. v., Delaware county, *Penn.*: 78 m. E. by S. Harrisburg.

LIMA, p. o., St. Tammany par., *La.*: 69 m. E. Baton Rouge.

LIMA, t. and p. o., Rock co., *Wisc.*: 33 m. S. E. by E. Madison. Surface undulating, and soil very productive. The Milwaukee and Mississippi R. R. passes through it. Pop. 839.

LIMA, sta., Stark county, *Ohio*: on the Cleveland and Pittsburgh R. R., 53 m. from Cleveland.

LIMAVILLE, p. v., Stark co., *Ohio*: 116 m. N. E. by E. Columbus.

LIMBER LOST, p. o., Adams co., *Ind.*: on a branch of Wabash r., 82 m. N. E. Indianapolis.

LIMERICK, t. and p. v., York county, *Me.*: 72 m. S. W. Augusta. Drained by Little Ossipee r. and a cr. flowing into it, which furnish good mill-sites. Soil very productive of most farming staples. The v. contains a large and flourishing academy, incorporated in 1812, several stores and industrial establishments, and a printing office, where the "Free Will Baptist Repository" is published weekly. Pop. of t. 1,473.

LIMERICK, p. v. and sta., Jefferson co., *N. Y.*: on Perch cr., 152 m. N. W. Albany. It contains several stores and 800 inhabitants. The sta. is 8 m. W. of Watertown, on the Watertown and Rome R. R.

LIMERICK, t. p. o., and sta., Montgomery co., *Penn.*: on the left bank of Schuylkill r., 71 m. E. Harrisburg. Surface varied, and soil highly productive. The Philadelphia and Reading R. R. passes along the r., and the sta. is 14 m. from Reading. Pop. of t. 2,165.

LIMERICK BRIDGE, p. o., Montgomery co., *Penn.*: 69 m. E. Harrisburg.

LIME RIDGE, p. o., Columbia co., *Penn.*: 58 m. N. N. E. Harrisburg.

LIME ROCK, p. o., Litchfield co., *Conn.*: near Salmon cr. of the Housatonic, 41 m. W. by N. Hartford. The iron mines of Salisbury are in its vicinity.

LIME ROCK, p. v., Providence co., *R. I.*: 8 m. N. by W. Providence. The chief business carried on is the manufacture of lime, which employs a large capital and many hands. It contains a bank, an academy, and several stores.

LIMESTONE county, *Ala.* Situate N., and contains 549 sq. m. Drained by Elk r., Moody's Fork, Swan, Pinery, and Limestone creeks, affluents of the Tennessee, which forms its S. boundary. Surface gently broken, with some quite low land; soil very productive. Cotton is the leading staple, and is raised in very large quantities, the land being inferior to little in the State for its cultivation. Corn yields fine crops, and wheat and oats generally do well. Pork is an important article of export. Its streams afford many water privileges, and its manufactures are considerable and rapidly increasing. Farms 649; manuf. 28; dwell. 1,429, and pop.—wh. 8,405, fr. col. 15, sl. 8,063—total 16,483. *Capital*: Athens.

LIMESTONE county, *Tex.* Situate E. centrally, and contains 856 sq. m. Drained by Navasoto r. and its branches, Lake, Plumer, Christmas, and Steel's creeks, and Big cr. of the Brazos. Surface considerably broken and hilly; in the S. undulating. Much of the co. is prairie, with groves of post oak, and the soil a deep loam of great fertility. Corn and cotton grow finely, and the grazing is superior. Limestone and sandstone are abundant, and salt springs are found. Iron ore in immense quantities is found in or near the hilly regions; and coal is supposed to be in the vicinity. Farms 279; manuf. 0; dwell. 880, and pop.—wh. 1,990, fr. col. 0; sl. 618—total 2,608. *Capital*: Springfield.

LIMESTONE, p. o., Buncombe co., *N. Car.*: 223 m. W. by S. Raleigh.

LIMESTONE, p. o., Clarion co., *Penn.*: 139 m. W. N. W. Harrisburg.

LIMESTONE, p. o., Hamilton co., *Tenn.*: 107 m. S. E. Nashville.

LIMESTONE, p. o., Cattaraugus co., *N. Y.*: 257 m. W. by S. Albany.

LIMESTONE, p. v., Iroquois co., *Ill.*: on the left bank of the Kankakee r., 131 m. N. E. Springfield.

LIMESTONE RIVER, p. o., Aroostook co., *Me.*: 133 m. N. N. E. Augusta.

LIMESTONE SPRINGS, p. o., Spartanburg dist., *S. Car.*: 78 m. N. N. W. Columbia.

LIMESTONE SPRINGS, p. o., Greene co., *Tenn.*: 221 m. E. Nashville.

LIMESTONE WELL, p. o., Forsyth co., *N. Car.*: 109 m. W. N. W. Raleigh.

LIMETOWN, p. o., Washington co., *Penn.*: 173 m. W. Harrisburg.

LIMINGTON, t. and p. o., York co., *Me.*: 65 m. S. W. Augusta. Bounded N. and E. by Saco r., and S. by Little Ossipee r., its branch, on which are numerous water privileges. Surface broken; soil very fertile, and excellent grain land. Incorporated in 1762. Pop. 2,116.

LINCOLN county, *Ga.* Situate N. E., and contains 195 sq. m. Bounded E. by Savannah River, S. by its branch, Little r., and drained by their branches, Broad r., Fishing, Soap, and Loyd's creeks. Surface diversified, in parts hilly; soil fertile. Cotton is the great and almost exclusive staple, being universally cultivated, and producing great crops. Corn and wheat are raised with considerable success, and large numbers of swine are fattened. It has good mill streams, on which are several flourishing manufactories. Farms, 273; manuf. 13; dwell. 873, and pop.—wh. 2,187, fr. col. 81, sl. 8,730—total 5,993. *Capital*: Lincolnton.

LINCOLN county, *Ky.* Situate E. centrally, and contains 363 sq. m. Drained N. E. by Dick's r. and its branch, Hanging Fork, affluents of the Kentucky, and S. and W.

by small affluents of Cumberland r., and heads of Green r. Surface elevated table land; soil very productive, and well adapted to rearing cattle. Corn is the staple cereal; wheat, rye, and oats yield well. Particular attention is given to raising cattle, horses, and sheep. Live stock, wool, and pork are important exports. The streams are small, but furnish many mill-seats. Farms 614; manuf. 67; dwell. 1,145, and pop.—wh. 6,635, fr. col. 103, sl. 3,855—total 10,993. *Capital*: Stanford.

LINCOLN county, *Ma.* Situate S. W., and contains 824 sq. m. Androscoggin r. bounds it S. W.; in the W. Kennebec r. and farther E. Sheepscott, Damariscotta, Muscongus, and St. George rivers flow through the co. into the Atlantic, which forms the S. boundary. In the S. are Sheepscott and Muscongus bays, and E. the mouth of Penobscot Bay, with numerous smaller ones, which, sheltered by innumerable islands that cover almost the whole coast, furnish many excellent harbors. Surface much varied, and cut up by ponds and large water-courses; soil mostly very fertile, and superior grazing land. Corn, barley, oats, wheat, and rye are grown with profit; but the staple is the potato crop, which is very large, and furnishes a valuable export. Sheep are special objects of care, and the shearings are very large and of superior quality. Water-power is abundant, and the manufactures of lumber, leather, woolen goods, ironware, and earthenware are extensive. Large cotton factories have lately been built in the W., and bid fair to become its leading interest. Its rivers are navigable for vessels of all sizes; the lumber trade and ship-building are much prosecuted; and its facilities for commerce are hardly equalled. It has a large trade with the West Indies, and is extensively concerned in the coast trade and fisheries. Farms 4,975; manuf. 526; dwell. 12,176, and pop.—wh. 74,616, fr. col. 259—total 74,875. *Capitals*: Warren, Wiscasset, and Topsham. *Public Works*: Portland and Kennebec R. R., Penobscot and Kennebec R. R., etc.

LINCOLN county, *Mo.* Situate E. on the N. of Missouri r., and contains 577 sq. m. Drained by Au Cuivre r., its branches Indian cr. and Eagle Fork, and smaller affluents of the Mississippi, which forms its E. boundary. Surface generally uneven; soil very fertile, and well adapted to grain and grass. Corn is the staple cereal. Wheat and tobacco are successfully cultivated. Cattle and pork are exported. The streams are of good size, with considerable water-power, and timber is plenty. Farms 849; manuf. 10; dwell. 1,239, and pop.—wh. 7,889, fr. col. 5, sl. 2,027—total 9,411. *Capital*: Troy.

LINCOLN county, *N. Car.* Situate W., and contains 269 sq. m. Drained by Catawba and Little Catawba rivers and their branches. Surface somewhat broken; soil of good fertility. Cotton, corn, and wheat are the staples, and largely raised. It has fine pasture, and exports live stock and pork. The streams are numerous, and afford much water-power, a large part of which is used in manufacturing flour, leather, oil, and cotton goods. Farms 711; manuf. 61; dwell. 1,022, and pop.—wh. 5,661, fr. col. 80, sl. 2,055—total 7,746. *Capital*: Lincolnton.

LINCOLN county, *Tenn.* Situate centrally on S. line, and contains 332 sq. m. Drained by Elk r. and its branches, affluents of the Tennessee. Surface moderately elevated, and somewhat hilly; soil highly productive. Corn is the chief staple. Cotton and wheat are good crops, and pork is a very large export. A fine co. for farming or grazing, with good mill streams and large manufactures of flour, leather, liquor, cottons, etc. Farms 1,926; manuf. 100; dwell. 3,010, and pop.—wh. 17,809, fr. col. 62, sl. 5,621—total 23,492. *Capital*: Fayetteville.

LINCOLN, t. and p. o., Penobscot co., *Ma.*: 95 m. N. E. by N. Augusta. It lies on the left bank of the Penobscot, below Matakeunk r., and has a large territory of fertile soil, with numerous ponds, and abundance of timber. The lumber trade is very heavy. Pop. 1,858.

LINCOLN, t. and p. v., Middlesex co., *Mass.*: 13 m. W. N. W. Boston. Drained by branches of Sudbury r.,

its W. boundary, and a branch of Charles r. Surface rough and hilly; soil various. It has many excellent farms, and a pond, much visited for its fine pickerel. Various manufactures are carried on in a small way. The Fitchburg R. R. passes through it, and has a sta. about 2 m. from the v., and 17 m. W. of Boston. Pop. of t. 632.

LINCOLN, p. o., Yazoo co., *Miss.*: on a branch of Yazoo r., 81 m. N. N. W. Jackson.

LINCOLN, p. v., Winnebago co., *Ill.*: 182 m. N. Springfield.

LINCOLN, t. and p. o., Grafton co., *N. Hamp.*: 59 m. N. by W. Concord. It is very mountainous, subject to frequent land slides, and has a sterile soil, but abounds in game of all kinds, and is a favorite summer resort. Pop. 57.

LINCOLN, t. and p. o., Morrow co., *Ohio*: 84 m. N. by E. Columbus. The Cleveland, Columbus, and Cincinnati R. R. crosses the N. W. corner. Pop. 891.

LINCOLN, t. and p. o., Addison county, *Verm.*: 28 m. W. S. W. Montpelier. Drained by New Haven r., a branch of Otter cr., which supplies it with fine mill-sites. Surface uneven, and soil better adapted to grazing than grain growing. The clip of wool is large, and several forges are successfully operated. Pop. 1,057.

LINCOLN CENTRE, p. v., Penobscot co., *Ma.*: on the left bank of Penobscot r., 101 m. N. E. by N. Augusta.

LINCOLNTON, p. v., and cap. Lincoln co., *Ga.*: 73 m. N. E. Milledgeville. It contains a court-house, jail, academy, and 200 inhabitants.

LINCOLNTON, p. v., and cap. Lincoln co., *N. Car.*: on the E. side of Little (or South) Catawba r., 178 m. W. by S. Raleigh. It contains a court-house, 3 academies, 15 large stores, and about 1,000 inhabitants. Its trade is extensive, and near it are several mills and furnaces, producing large amounts of cotton goods, ironware, etc. The "Courier" and "Republican" are published weekly.

LINCOLNVILLE, t. and p. o., Waldo co., *Me.*: 37 m. E. Augusta. The t. lies on the W. side of Penobscot Bay, and has a large pond in the W., which, and a stream on the N. line, afford good water-power. It has a fine soil for grain and potatoes, and manufactures woolens, leather, and lumber. Duck Trap in the N. E. is a good harbor, and the t. has a valuable coasting trade. Pop. 2,174.

LIND, p. o., Winnebago co., *Wisc.*: 84 m. N. N. E. Madison.

LINDEN, p. v., and cap. Marengo co., *Ala.*: on Chickasaw Bogue, 9 m. E. of the Tombigbee, 85 m. W. Montgomery. It contains a court-house, jail, 2 academies, several large stores, and 400 inhabitants. Two weekly papers are published, the "L. Free Press" and the "Alabama Argus."

LINDEN, p. o., Copiah co., *Miss.*: 37 m. S. S. W. Jackson.

LINDEN, p. v., and cap. Atchison county, *Mo.*: 249 miles N. W. by W. Jefferson City. It contains a court-house, hotel, and a few stores.

LINDEN, p. v. and sta., Genesee county, *N. Y.*: 281 m. W. by N. Albany. The sta. is 7 m. E. of Attica on the Buffalo and New York City R. R.

LINDEN, p. v., Lycoming co., *Penn.*: on the N. bank of Susquehanna r., 63 m. N. by W. Harrisburg. The Pennsylvania Canal passes through it 8 m. W. of Williamsport.

LINDEN, p. v., Iowa co., *Wisc.*: on a branch of Peckatonia r., 44 m. W. by S. Madison. Mining is the chief business.

LINDEN, p. v., and cap. Perry co., *Tenn.*: 66 m. W. S. W. Nashville. It contains a court-house, and a few stores and dwellings.

LINDEN GROVE, Kenton co., *Ky.*: the site of a fine cemetery, about a mile from Covington.

LINDENVILLE, p. v., Ashtabula co., *Ohio*: 153 m. N. E. Columbus.

LINDENWOOD, p. v., Ogle county, *Ill.*: 164 miles N. by E. Springfield.

LINDLEY'S, p. o., Ohio co., *Ky.*: near Green r., 132 m. W. S. W. Frankfort.

LINDLEY'S STORE, p. o., Orange county, *N. Car.*: 37 m. N. W. Raleigh.

LINDLEYTOWN, p. v., Steuben co., *N. Y.*: 181 m. W. by S. Albany. It is near Tioga r., along which the Corning and Blossburg R. R. passes.

LINDLEY'S MILLS, p. o., Washington co., *Penn.*: 182 m. W. Harrisburg.

LINDSAY'S MILL, p. o., Trigg co., *Ky.*: 191 m. S. W. by W. Frankfort.

LINDSAY'S TURNOUT, sta., Albemarle co., *Virg.*: on the Virginia Central R. R., 5 m. S. W. of Gordonsville.

LINE, p. o., De Kalb co., *Ill.*: 167 m. N. by E. Springfield.

LINE, p. o., Fulton co., *Ky.*: 256 m. W. S. W. Frankfort.

LINE CREEK, p. o., Laurens district, *S. Car.*: 74 miles N. W. by W. Columbia.

LINE CREEK, p. o., Montgomery co., *Ala.*: 26 m. E. S. E. Montgomery.

LINE CREEK, p. o., Oktibbeha county, *Miss.*: 104 m. N. E. by N. Jackson.

LINE LEXINGTON, p. v., Bucks county, *Penn.*: 83 m. E. Harrisburg. It contains about 100 inhabitants, and lies on the county line, where three towns meet in it.

LINE MILLS, p. o., Crawford county, *Penn.*: 207 miles N. W. by W. Harrisburg.

LINE MOUNTAIN, p. o., Northumberland co., *Penn.*: 84 m. N. by E. Harrisburg.

LINE PORT, p. o., Stewart co., *Tenn.*: 55 m. W. N. W. Nashville.

LINE STORE, p. o., Hinds county, *Miss.*: 17 m. S. by W. Jackson. The New Orleans, Jackson, and Northern R. R. passes here.

LINGLESTOWN, p. v., Dauphin co., *Penn.*: 8 m. N. N. E. Harrisburg.

LINLEAEN, t. and p. o., Chenango co., *N. Y.*: 109 m. W. Albany. Drained by branches of Otselee r. Surface even, and soil adapted to grain growing, which is the leading interest. Pop. 1,196.

LINN county, *Ia.* Situate centrally, and contains 720 sq. m. Drained by Prairie and Cedar creeks and branches, and N. E. by Buffalo cr. and Wapsipinicon r. Surface undulating, and soil very fertile, equally adapted to grain and grass, raising heavy crops of corn and wheat, and feeding many cattle and sheep. The streams are large, with considerable falls, and skirted with good timber. Farms 526; manuf. 23; dwell. 991, and pop.—wh. 5,441, fr. col. 3—total 5,444. *Capital*: Marion.

LINN county, *Mo.* Situate N. middle, and contains 648 sq. m. Drained by Locust, Elk, Turkey, Yellow, and Little Yellow creeks, branches of Grand r. Surface rolling, and soil generally fertile. It has plenty of timber, fine grazing, and abundance of mast, and exports corn and pork in large quantities. Farms 429; manuf. 0; dwell. 625, and pop.—wh. 3,651, fr. col. 0, sl. 877—total 4,058. *Capital*: Linneus.

LINN county, *Oreg. Ter.* Situate S., and contains about 18,000 sq. m. It has the Willamette for its W. boundary, and is drained by its branches, North and South forks of Santiam r., with their affluents, Thomas, Crab Tree, and Beaver creeks, and Calapooga and McKenzie's forks. The settled parts are between Cascade mountains and the Willamette, where the surface is but slightly broken, and the valleys alluvial bottoms of great beauty and fertility. Grains, fruits, and vegetables of most kinds yield abundantly. The water-power is very superior, and timber of the tallest kind. Farms 136; manuf. 6; dwell. 172, and pop.—wh. 994, fr. col. 0—total 994. *Capital*: New Albany.

LINN, p. v., and cap. Ossage co., *Mo.*: at the head of Loose cr. of the Missouri, 18 m. E. by S. Jefferson City. It consists of a court-house, an academy, and several stores.

LINN CITY, p. v., Washington co., *Oreg. Ter.*: on the left bank of the Willamette, 33 m. N. E. by N. Salem. It is situate at the extreme bend of the r., opposite to Oregon City, and has a great water-power, which is improved by several saw and flouring mills. Pop. about 185.

LINNEUS, t. and p. o., Aroostook county, *Me.*: 154 m. N. E. by N. Augusta. It has several ponds, which give

rise to streams flowing into the St. John and Penobscot. An elevated surface, and a dense growth of timber. The soil is fertile. Pop. 561.

LINNEUS, p. v., and cap. Linn co., *Mo.*: on a branch of Locust cr., 102 m. N. W. by N. Jefferson City. It contains a court-house and several dwellings.

LINN FLAT, p. o., Nacogdoches co., *Tex.*: 216 m. E. N. E. Austin City.

LINN GROVE, p. v., Adams county, *Ind.*: on W. side of Wabash r., 82 m. N. E. Indianapolis.

LINNVILLE, p. v., Licking co., *Ohio*: 84 m. E. Columbus. Pop. 188.

LINVILLE CREEK, p. o., Rockingham co., *Virg.*: 106 m. N. W. by W. Richmond.

LINNVILLE RIVER, p. o., Burke co., *N. Car.*: on a branch of Catawba r. so called, 184 m. W. Raleigh.

LINTON, p. v., Des Moines co., *Ia.*: 45 m. S. by E. Iowa City.

LINTON, p. v., Greene co., *Ind.*: 72 m. S. W. Indianapolis.

LINWOOD, p. o., Cherokee county, *Tex.*: 184 m. E. N. E. Austin City.

LION'S BEARD, p. o., Sevier co., *Ark.*: 128 m. W. S. W. Little Rock.

LIONVILLE, p. v., Chester co., *Penn.*: 64 m. E. by S. Harrisburg.

LISBON, t. and p. v., New London county, *Conn.*: 86 m. E. S. E. Hartford. It lies chiefly between Shetucket and Quinnebaug rivers, which unite in the S., and with their branches supply fine water-power. Surface uneven; soil sandy or gravelly loam, and excellent farming land, with extensive meadows on the streams. Farming is the leading pursuit. Cotton and woolen goods are made, and several kinds of "Yankee notions." The Norwich and Worcester R. R. passes through the E. part along the Quinnebaug. Pop. 937.

LISBON, p. v., Kendall county, *Ill.*: 184 m. N. E. by N. Springfield.

LISBON, t. and p. o., Lincoln county, *Me.*: 27 m. S. S. W. Augusta. Drained by Little r. and the Androscoggin, which bounds it S., and has fine falls here, 6 m. below Lewiston falls. Soil very fertile, and well cultivated. Cotton and woolen goods are made, and large saw-mills run. A bridge crosses the r. here. Pop. of t. 1,495.

LISBON, p. v., Howard co., *Md.*: on the Baltimore and Frederick turnpike, 13 m. from Elliott's Mills, 37 m. N. W. Annapolis.

LISBON, t. and p. v., Grafton county, *N. Hamp.*: 68 m. N. by W. Concord. Drained by Ammonoosuc r. Surface varied. In the S. is Blueberry Mountain. Soil fertile, and divided into alluvial meadows and strong uplands. It is well timbered, makes maple sugar largely, and abounds in iron ore and limestone. Pop. 1,882.

LISBON, t., p. o., and sta., St. Lawrence co., *N. Y.*: on St. Lawrence r., 166 m. N. W. by N. Albany. Surface undulating and heavily timbered with pine, oak, and hemlock. Soil a fertile loam. Lumber and dairy products are valuable exports. The sta. is 9 m. E. of Ogdensburg, on the Northern (Ogdensburg) R. R. Pop. 6,295.

LISBON, p. o. and sta., Bedford co., *Virg.*: on the Virginia and Tennessee R. R., 32 m. W. of Lynchburg, 121 m. W. by S. Richmond.

LISBON, t. and p. o., Waukesha co., *Wisc.*: 59 m. E. Madison. Drained by heads of Rock r., affording numerous mill-sites. Soils adapted to grass or grain. A plank-road to Milwaukee passes through the S. part. Pop. 1,056.

LISBON, p. o., Union co., *Ark.*: 106 m. S. by W. Little Rock.

LISBON, p. v., Noble co., *Ind.*: 119 m. N. N. E. Indianapolis. A plank-road from Fort Wayne passes through it.

LISBON CENTRE, p. o., St. Lawrence co., *N. Y.*: 162 m. N. W. by N. Albany.

LISBURN, p. o., Sampson co., *N. Car.*: on Black r., a branch of Cape Fear r., 69 m. S. by E. Raleigh.

LISBURN, p. v., Cumberland co., *Penn.*: on Yellow Breeches cr., 7 m. S. S. W. Harrisburg. It contains a charcoal forge, which makes 520 tons of blooms, and 80 tons of bars per annum.

LISHA'S KILL, p. o., Albany co., *N. Y.*

LISLE, p. v., Osage co., *Mo.*: on the E. bank of Osage r., about 3 m. from its mouth, 10 m. E. by S. Jefferson City. It has a fine landing, and considerable trade.

LISLE, t. and p. o., Broome co., *N. Y.*: 122 m. W. by S. Albany. Drained by Tioughnioga r., on which are numerous saw-mills. Surface undulating, and soil well adapted to grazing. Timber is abundant. Pop. 1,681.

LITCHFIELD county, *Conn.* Situate N. W., and contains 385 sq. m. Drained W. by Housatonic r. and its branches, and E. by Naugatuck and Farmington rivers and their branches. Surface hilly, and in parts rugged and mountainous; soil a gravelly loam, well cultivated, very productive of all the grains, and generally capital grazing. Large dairies are kept, and a large amount of wool sheared. The exports are butter, cheese, beef, pork, and wool. It has an abundance of excellent water-power, and very extensive manufactures. Iron ore of great fineness, and a kind much sought after, is found in parts, and largely wrought, and a valuable copper mine lies in the S. E. Farms 3,621; manuf. 487; dwell. 8,724, and pop.—wh. 44,266, fr. col. 987—total 45,253. Capital: Litchfield. *Public Works*: Housatonic R. R.; Naugatuck R. R.; Hartford, Providence, and Fishkill R. R.

LITCHFIELD, t., p. b., and cap. Litchfield co., *Conn.*: 28 m. W. by S. Hartford. The t. lies between the Naugatuck and Shepaug rivers, and is well drained by their affluents and other streams, many of which have large water-power. Great Pond occupies 900 acres, and is the largest water-surface in the State. Surface elevated, and diversified by hills and valleys; soil generally loam, and admirably adapted for grazing. The v. on Litchfield Hill is environed by a rich and glowing scenery, and is built mainly on two streets crossing each other at right angles, at the intersection of which is an elegant square. It contains a court-house, jail, etc., an academy, and several schools, 2 churches, 2 printing-offices, and about 700 inhabitants. Two newspapers are published here, the "L. Enquirer" (whig), and the "L. Republican" (dem.), both issued weekly, and circulating about 1,200 copies each. There are several other villages in the t., South Farms, Milton, etc. The t. has numerous manufactures of woollens, paper, leather, iron, etc., and mills of all descriptions. It has also a good wholesale and retail trade, and is connected with the sea-board and interior by the Naugatuck R. R., which follows the valley of the river in the east border of the town. Pop. of t. 3,957. Litchfield has been the birthplace of many men distinguished in national history, science, and in literature.

LITCHFIELD, p. v., and cap. Grayson co., *Ky.*: 88 m. W. S. W. Frankfort. It contains a court-house, jail, academy, and several stores. The Nashville and Louisville R. R. will pass through it.

LITCHFIELD, t. and p. v., Kennebec co., *Me.*: 12 m. S. W. by S. Augusta. In the N. and E. are two large ponds, tributary to the Kennebec, which afford mill-sites. Surface rough in parts, and soil very productive of grain and potatoes. The v. is in the N., and contains several stores. Pop. of t. 2,106.

LITCHFIELD, t. and p. v., Hillsdale co., *Mich.*: 47 m. S. by W. Lansing. Drained by St. Joseph's and Sandy rivers, which furnish excellent water privileges. Surface diversified; soil very productive of wheat. Sandstone and iron ore are found. The v. is on St. Joseph's r., and has extensive mills and a considerable trade. Pop. of t. 1,362.

LITCHFIELD, t. and p. o., Herkimer co., *N. Y.*: 116 m. W. by N. Albany. Surface broken, and soil calcareous loam. A farming town, well supplied with timber. Pop. 1,676.

LITCHFIELD, t. and p. o., Medina co., *Ohio*: 95 m. N. E. by N. Columbus. Drained by branches of Black r. Surface elevated, and soil fertile. Pop. 1,332.

LITCHFIELD, t. and p. o., Bradford co., *Penn.*: on the N. line of the State, 114 m. N. by E. Harrisburg. Drained by Wepossepung cr. Surface rough, and soil adapted to grazing. It is mostly covered with fine timber, which constitutes its wealth.

LITCHFIELD CORNERS, p. o., Kennebec co., *Me.*: 17 m. S. S. W. Augusta.

LITHGOW, p. o., Duchess co., *N. Y.*: 59 m. S. Albany.

LITHONIA, sta., De Kalb co., *Ga.*: 24 m. E. of Atlanta, on the Georgia R. R.

LITHOPOLIS, p. v., Fairfield county, *Ohio*: 15 m. S. E. Columbus. Pop. 386.

LITIZ, p. v., Lancaster co., *Penn.*: 80 m. E. by S. Harrisburg. It contains an academy, and about 500 inhabitants.

LITTLE BEAVER BRIDGE, p. v., Columbiana co., *Ohio*: on Little Beaver cr., and Sandy and Beaver Canal, about 8 m. from the Ohio r., 136 m. E. by N. Columbus.

LITTLE BLUE RIVER, p. o., Shelby co., *Ind.*: near a branch of White r. so called, 28 m. E. S. E. Indianapolis.

LITTLE BRITAIN, p. o., Orange co., *N. Y.*: 117 m. S. by W. Albany.

LITTLE CACAPON, sta., Hampshire co., *Virg.*: on the Baltimore and Ohio R. R., 21 m. E. Cumberland.

LITTLE CHUCKY, p. o., Greene county, *Tenn.*: 218 m. E. Nashville.

LITTLE CHUTE, p. v., Brown co., *Wisc.*: on the left bank of Neenah or Fox r., 108 m. N. N. E. Madison. The r. has a fall here of 32 feet in less than 2 m., and affords superior facilities for manufacturing.

LITTLE COMPTON, t. and p. o., Newport co., *R. I.*: 25 m. S. S. E. Providence. It lies on the Atlantic, at the E. side of Narragansett Bay, and has a somewhat uneven surface, and a very fertile and highly cultivated soil. Farming is the chief pursuit, and wool, live stock, and dairy produce, the staples. At Seacomet Point, in the S. W. corner, is a breakwater, erected by government. The t. is a favorite summer resort for those in search of sea-air. Pop. 1,462.

LITTLE COMPTON, p. o., Carroll co., *Mo.*: on Grand r., 88 m. N. W. Jefferson City.

LITTLE CREEK, hund., Kent co., *Del.*: extends across the State, bounded S. by Dover hund., and N. by Little cr., containing 45,800 acres. Surface even, with small elevations in the W., and soil productive. Lumber is exported. Population 2,237.

LITTLE CREEK, hund., Sussex county, *Del.*: occupies the S. W. corner of the State, has a fertile soil, well timbered, and numerous mill-sites. Bog-iron ore is found. Area 61,030 acres. Pop. 3,226.

LITTLE CREEK LANDING, p. v., Kent co., *Del.*: on the cr. so called, about 8 m. N. E. Dover.

LITTLE DELAWARE river, *N. Y.*: an affluent of the Mohawk or W. branch of Delaware r. It rises in the t. of Bovinn, in Delaware co., and flows W. to its confluence.

LITTLE DETROIT, p. v., Tazewell co., *Ill.*: on the left bank of Illinois r., 66 m. N. Springfield.

LITTLE EAGLE, p. o., Scott co., *Ky.*: E. N. E. Frankfort.

LITTLE ELKHART, p. o., Elkhart co., *Ind.*: 132 m. N. by E. Indianapolis.

LITTLE FALLS, p. v., Passaic co., *N. Jer.*: on the Passaic r., 49 m. N. E. by N. Trenton. The r. here falls 88 feet, and furnishes immense water-power, used in extensive cotton factories and large iron works. An excellent freestone is quarried here. The Morris Canal crosses the river on an aqueduct, 80 m. from Jersey City. Pop. 700.

LITTLE FALLS, Herkimer co., *N. Y.* (see ROCKTON).

LITTLE FLAT, p. o., Bath county, *Ky.*: 58 miles E. by S. Frankfort.

LITTLE GAP, p. o., Carbon co., *Penn.*: 69 m. N. E. by E. Harrisburg.

LITTLE GENESEE, p. o., Alleghany co., *N. Y.*: 239 m. W. by S. Albany.

LITTLE GROVE, p. o., Montgomery county, *Tenn.*: 51 m. W. N. W. Nashville.

LITTLE GUNPOWDER, p. o., Baltimore co., *Md.*: on W. side of cr. so called, 2 m. from Gunpowder r., 84 m. N. by E. Annapolis.

LITTLE HOCKHOCKING, p. v., Washington co., *Ohio*: on the Ohio, at the mouth of the r. so called, 81 m. S. E. by E. Columbus.

LITTLE LEVEL, p. o., Pocahontas county, *Virg.*: near Greenbrier r., 155 m. W. by N. Richmond.

LITTLE MARSH, p. o., Tioga co., *Penn.*: 107 m. N. by W. Harrisburg.

LITTLE MEADOWS, p. o., Susquehanna co., *Penn.*: 119 m. N. N. E. Harrisburg.

LITTLE MILL CREEK, p. o., Delaware co., *Ohio*: 32 m. N. Columbus.

LITTLE MILLS, p. o., Richmond co., *N. Car.*: 85 m. S. W. Raleigh.

LITTLE MUDDY, p. o., Franklin co., *Ill.*: about 1 m. E. of Little Muddy cr., a branch of Big Muddy r., 132 m. S. by E. Springfield.

LITTLE OSAGE, p. o., Bates co., *Mo.*: on a branch of the Osage so called, 126 m. W. S. W. Jefferson City.

LITTLE PINE CREEK, p. o., Lycoming co., *Penn.*: 82 m. N. N. W. Harrisburg.

LITTLE PINEY, p. o., Pulaski co., *Mo.*: near the junction of Little Piney creek with Gasconade river, 43 m. S. by E. Jefferson City.

LITTLE PLYMOUTH, p. v., King and Queen county, *Virg.*: 88 m. E. by N. Richmond. It contains an academy and about 100 inhabitants.

LITTLE PRAIRIE, p. o., Crawford co., *Mo.*: 47 m. S. E. by S. Jefferson City.

LITTLE PRAIRIE, p. o., Cass county, *Ga.*: 182 m. N. W. Milledgeville.

LITTLE PRAIRIE, p. o., Chatahoula parish, *La.*: 94 m. N. N. W. Baton Rouge.

LITTLE PRAIRIE, p. v., Walworth co., *Wisc.*: 58 m. S. E. Madison.

LITTLE PRAIRIE RONDE, p. v., Cass county, *Mich.*: 81 m. S. W. Lansing.

LITTLE REST, p. o., Dutchess co., *N. Y.*

LITTLE RIVER, p. v., Blount co., *Tenn.*: on a branch of Tennessee r. so called, 257 m. E. by S. Nashville.

LITTLE RIVER, p. o., Columbia co., *Flor.*: 91 m. E. by S. Tallahassee.

LITTLE RIVER, p. o., Caldwell co., *N. Car.*: on a branch of Catawba r., 149 m. W. by N. Raleigh.

LITTLE RIVER, p. o., Horry dist., *S. Car.*: on a stream of that name, flowing into the Atlantic, 128 m. E. by S. Columbia.

LITTLE RIVER, p. o., Floyd co., *Virg.*: on a branch of New r., 171 m. W. S. W. Richmond.

LITTLE RIVER VILLAGE, p. v., Lincoln co., *Ms.*: near the junction of Little r. and the Androscoggin, 27 m. S. S. W. Augusta. It contains several mills and 400 inhabitants.

LITTLE river: a tributary of Peedee river, and forms the boundary between North and South Carolina.

LITTLE river, *Ky.*: a tributary of Cumberland river.

LITTLE river, *Ind.*: a tributary of Wabash r., which it enters above Vincennes.

LITTLE river, *Ga.*: a tributary of the Savannah, which it meets 80 m. above Augusta. It rises in Oglethorpe county, and in its course to the E. passes through Taliaferro, and between Wilkes and Lincoln on the N., and Warren and Columbia on the S., forming their boundaries.

LITTLE ROCK, p. v., and cap. Pulaski county, *Ark.*: and capital of the State of Arkansas; on the S. side of Arkansas river, 300 miles above its mouth—lat. 34° 40' N. and long. 92° 12' W.—1,086 m. W. by S. Washington. It was first settled in 1829. The v., as its name implies, is situate on a high rocky bluff, 150 to 200 feet above the r., and is the first place where rocks appear above its mouth. It is regularly laid out, the streets intersecting at right angles, and contains the State House and the State Penitentiary, the

County Court-house, jail, etc., and a United States arsenal, the offices of the Surveyor General of Public Lands for the district of Arkansas, and a Register and Receiver's Office. It has also numerous stores and warehouses, and several flour and saw mills, both steam and water. It has a large trade with the interior, and may be considered as the depôt of all the region extending far into the Indian Territory. Many of the churches are well built, and even elegant, and number some dozen, including the Catholic Cathedral of St. Andrew. The Catholic Bishop of the diocese of Little Rock, and the Protestant Episcopal Bishop of the diocese of Arkansas reside in the village. There are several academies and schools, and in this connection it may be stated that the Catholics have charge of the most efficient and flourishing. At Little Rock is the head of ordinary steam navigation; during high flood, however, steamboats ascend the river to Fort Gibson, 1,000 m. further up. Pop. 2,167.

LITTLE ROCK, p. o., Kendall co., *Ill.*: 146 m. N. by E. Springfield.

LITTLE ROCK FISH, p. o., Cumberland co., *N. Car.*: on a branch of Cape Fear r., 59 m. S. Raleigh.

LITTLE's, sta., Hillsboro' county, *N. Hamp.*: 11m. N. of Lowell, on Nashua and Lowell R. R.

LITTLE SANDUSKY, p. v., Wyandott co., *Ohio*: on a branch of Sandusky river, 53 m. N. by W. Columbus. It contains several stores and 800 inhabitants.

LITTLE ST. JOSEPH river, *Ind.*: a constituent of Maumee river. It rises in Ohio, and after passing through De Kalb and Allen counties of Indiana, joins St. Mary's r. at Fort Wayne—the two forming the Maumee. It is otherwise called St. Joseph of Lake Erie.

LITTLE SANDY, p. o., Morgan co., *Ky.*: 88 m. E. by S. Frankfort.

LITTLE SCIOTO, p. o., Marion co., *Ohio*: 45 m. N. by W. Columbus.

LITTLE SKIN CREEK, p. o., Lewis county, *Virg.*: 187 m. W. N. W. Richmond.

LITTLE SODUS, p. v., Cayuga co., *N. Y.*: on Little Sodus Bay, 161 m. W. by N. Albany.

LITTLE SODUS bay, Cayuga co., *N. Y.*: a small inlet of Lake Ontario, about 8 m. deep and 1 m. wide. It is situate about 18 m. E. of Sodus Bay, in the town of Sterling, and receives near its outlet Sodus cr. The water is deep, but a bar obstructs the entrance from the lake.

LITTLESTOWN, p. v., Adams co., *Penn.*: 84 m. S. S. W. Harrisburg.

LITTLETON, p. v., Schuylcr co., *Ill.*: 43 m. W. N. W. Springfield.

LITTLETON, t. and p. v., Middlesex co., *Mass.*: 24 m. N. W. by W. Boston. Drained by Stony Brook, a branch of the Merrimac, and Beaver r., a branch of Concord r., which supply it with water-power. Surface uneven, and soil generally of good quality. Superior rye and hops are raised, and fine dairies kept. Various small factories occupy the streams, which are fed by two large ponds. A variety of limestone is quarried. The Fitchburg R. R. crosses the t., and has a sta. 31 m. from Boston. Pop. of t. 991.

LITTLETON, t. and p. v., Grafton co., *N. Hamp.*: 76 m. N. by W. Concord. The t. extends 14 m. on the Connecticut r., which, for the whole distance, has an impetuous current that no boat can stem, known as the Fifteen Mile Falls. Surface broken by numerous high hills, and soil adapted to grazing chiefly. Drained S. by Ammonoosuc r., on which are fertile meadows; and the v., which is at the falls, contains several mills and factories. Pop. of t. 2,008.

LITTLETON, p. o., Morris co., *N. Jer.*: 44 m. N. N. E. Trenton.

LITTLETON, p. o. and sta., Halifax co., *N. Car.*: 63 m. N. E. by N. Raleigh. It is on the Gaston and Raleigh R. R., 9 m. from Gaston.

LITTLETON, p. o. and sta., Richland dist., *S. Car.*: at the junction of Little and Broad rivers by the Greenville and Columbia R. R., 15 m. from Columbia.

LITTLETON, p. o., Sussex county, *Virg.*: 46 m. S. by E. Richmond.

LITTLE TRAVERSE bay, *Mich.*: in the N. W. part of the Lower Peninsula. It has the best harbor N. of Grand r. and Saginaw Bay. The anchorage is good, and vessels may come within 10 feet of the shore.

LITTLE UPCA, p. o., Onondaga co., *N. Y.*: 126 m. W. by N. Albany.

LITTLE VALLEY, t., p. v., and sta., Cattaraugus co., *N. Y.*: 282 m. W. by S. Albany. Intersected by Alleghany r., and drained by its branches, which furnish many mill-sites. Surface broken, and soil of average fertility. Timber is plenty. The Erie R. R. crosses the N. part of the t., and the sta. is 33 m. E. of Dunkirk. Pop. 1,888.

LITTLE WOODS, p. v., Kane co., *Ill.*: about 2 m. E. of Fox r., and near the Galena and Chicago Union R. R., 172 m. N. N. E. Springfield.

LITTLE YADKIN, p. o., Stokes co., *N. Car.*: on a branch of Yadkin r., 118 m. W. N. W. Raleigh.

LITTLE YORK, p. v., Warren co., *Ill.*: on S. side of Henderson's r., 101 m. N. W. by N. Springfield.

LITTLE YORK, p. o., Washington co., *Ind.*: 74 m. S. by E. Indianapolis.

LITTLE YORK, p. o., Hunterdon co., *N. Jer.*

LITTLE YORK, p. o., Cortlandt co., *N. Y.*: 126 m. W. Albany.

LITTLE YORK, p. v., Montgomery co., *Ohio*: on the Miami r., 67 m. W. by S. Columbus.

LITWALTON, p. o., Lancaster co., *Virg.*: 51 m. E. by N. Richmond.

LIVELY, p. v., St. Clair co., *Ill.*: on the left bank of Kaskaskia r., 105 m. S. Springfield.

LIVELY OAK, p. o., Lancaster county, *Virg.*: 54 m. E. Richmond.

LIVE OAK, p. o., Ascension par., *La.*: 26 m. S. S. E. Baton Rouge.

LIVE OAK, p. o., Dewitt co., *Tenn.*: 66 m. S. S. E. Austin City.

LIVERMORE, p. o., Ohio county, *Ky.*: 118 m. W. S. W. Frankfort.

LIVERMORE, t. and p. o., Oxford co., *Me.*: on the right bank of Androscoggin r., 22 m. W. Augusta. Soil excellent, and large crops of wheat and potatoes are raised. The r. has a large descent, and moves several factories and mills. Pop. 1,764.

LIVERMORE, p. v., Westmoreland co., *Penn.*: on the S. side of Conemaugh r., 127 m. W. by N. Harrisburg. The Pennsylvania Canal passes through it.

LIVERMORE CENTRE, p. o., Oxford co., *Me.*: 24 m. W. Augusta.

LIVERMORE FALLS, p. v., Kennebec co., *Me.*: on the left bank of Androscoggin r., 23 m. W. N. W. Augusta. The r. furnishes excellent water-power, which is improved to move several factories, mills, and mechanic shops. The Androscoggin R. R. terminates here, 20 m. from its junction with the Androscoggin and Kennebec R. R. Pop. 480.

LIVERPOOL, p. v., Onondaga co., *N. Y.*: on the E. side of Onondaga Lake, 132 m. W. by N. Albany. The manufacture of salt from the springs here is the principal business of the v., and the produce in 1850 was 648,832 bushels of fine or table-salt. It is on the Oswego Canal, 5 m. N. of its junction with the Erie Canal at Syracuse, and contains a dozen stores, and about 1,000 inhabitants.

LIVERPOOL, t. and p. o., Medina county, *Ohio*: 99 m. N. E. by N. Columbus. Drained by Rocky r., which furnishes water-power. Surface somewhat broken, and soil fertile. Iron ore, salt, sulphur, and rock oil are found. Pop. 2,164.

LIVERPOOL, t. and v., Columbia co., *Ohio*: 132 m. E. N. E. Columbus. The Ohio r. flows on its S. boundary. The v. is situate on the r., about 50 m. below Pittsburg, and has 685 inhabitants. The manufacture of earthen-ware is carried on extensively. Pop. of t. 1,564.

LIVERPOOL, t. and p. b., Perry co., *Penn.*: on the W. side of Susquehanna r., 24 m. N. by W. Harrisburg. Surface rough in parts, with rich loamy valleys. It is well supplied with water-power and timber, and has many flour and saw mills. The v. is on the r., at the mouth of a cr., and contains several stores and establishments for making iron.

LIVERPOOL, p. o., Brazoria co., *Tex.*: on Chocolate Bayou, 157 m. E. S. E. Austin City.

LIVERPOOL, p. v., Fulton co., *Ill.*: on the right bank of Illinois r., 44 m. N. N. W. Springfield.

LIVINGSTON county, *Ill.* Situate N. E., and contains 1,029 sq. m. Drained by Vermillion r. of the Illinois and its branches. Surface level; soil fertile. It consists mostly of extensive prairies, some of which are low and wet, with few streams, and little timber. It has some water-power, and in parts, deposits of coal and limestone. Farms 135; manuf. 0; dwell. 261, and pop.—wh. 1,552, fr. col. 0—total 1,552. *Capital*: Pontiac.

LIVINGSTON county, *Ky.* Situate W., and contains 236 sq. m. Bounded N. and W. by the Ohio, and S. by the Tennessee, and intersected by the Cumberland. Surface pleasantly varied, and soil very productive. Tobacco is the farming staple, but corn and wheat are fine crops. It exports a great deal of pork, and manufactures leather, and agricultural machinery. Farms 453; manuf. 13; dwell. 915, and pop.—wh. 5,404, fr. col. 56, sl. 1,118—total 6,378. *Capital*: Salem.

LIVINGSTON parish, *La.* Situate S. E., and contains 736 sq. m. Bounded W. and S. by Amite r. and Lake Maurepas, into which it flows, and E. by Tangipahoa r., entering Lake Pontchartrain, between which are Tickfaw r. and many small streams. Surface level, with extensive marshes; soil fertile. Cotton, corn, and rice, are staples. There are on some of its streams water-privileges, which are profitably employed. Farms 219; manuf. 13; dwell. 450, and pop.—wh. 2,523, fr. col. 20, sl. 842—total 3,885. *Capital*: Springfield. *Public Works*: New Orleans, Jackson, and Northern R. R.

LIVINGSTON county, *Mich.* Situate S. E., and contains 576 sq. m. Drained N. by heads of Shiawasee r., W. by heads of Cedar r., a branch of Grand r., and S. by heads of Huron r. Surface undulating. The N. is heavily timbered; the S. is open land, a black, sandy, or clayey loam, and superior for grain-growing. The grain and pork are the exports. It has numerous ponds and streams, furnishing abundant water-power for its growing manufactures. Good iron ore is extensively found, and salt springs in parts. Farms 1,644; manuf. 40; dwell. 2,368, and pop.—wh. 13,451, fr. col. 4—total 13,455. *Capital*: Howell.

LIVINGSTON county, *Mo.* Situate N. W., and contains 537 sq. m. Drained by Grand r. and its affluents, Medicine, Indian, and Shoal creeks, and Crooked Fork. Surface undulating or level; soil fertile, well timbered, and much of it excellent pasture. Corn is the staple product, and pork a large and the chief export. Farms 457; manuf. 2; dwell. 653, and pop.—wh. 3,933, fr. col. 6, sl. 308—total 4,247. *Capital*: Chillicothe.

LIVINGSTON county, *N. Y.* Situate W. middle, and contains 563 sq. m. Drained by Genesee r. and its branches, Cashaqua and Canaseraga rivers, and Conesus outlet. The last carries to it the water of Conesus Lake, which, with Hemlock Lake, lies in the co., and both feed its tributaries. Surface elevated in the S., and slopes toward Lake Ontario in two terraces divided N. and S. by the Genesee, which flows in a deep valley of 3 or 4 miles width. Soil very fertile; a sandy loam mixed with decomposed limestone, on which the co. rests, and especially adapted to grain. Wheat, pork, and cattle, are the great staples. Butter, wool, corn, and oats, are large exports, and in the Genesee valley great quantities of hemp and flax are grown. It has abundant water-power, and extensive manufactures of flour, paper, iron, leather, lumber, etc., and unsurpassed facilities for reaching markets in all parts of the Union.

Gypsum is abundant; bog-iron ore and salt springs are found, and sulphur springs, long known and visited by the Indians, and now widely celebrated. Farms 2,508; manuf. 863; dwell. 7,172, and pop. wh. 48,690, fr. col. 186—total 40,875. *Capital*: Geneseo. *Public Works*: Genesee Valley Canal; Buffalo, Corning, and New York R. R.; Canandaigua and Niagara Falls R. R., etc.

LIVINGSTON, p. v., and cap. Sumter co., *Ala.*: near Squimochee r., a branch of the Tombigbee, 107 m. W. by N. Montgomery. It contains a court-house, jail, academy, and 850 inhabitants. The "Sumter County Whig" is published weekly.

LIVINGSTON, p. v., Clark co., *Ill.*: about 10 m. W. of Wabash r., 112 m. E. by S. Springfield.

LIVINGSTON, t. and p. v., Livingston co., *Mich.*: 45 m. E. S. E. Lansing. It occupies high land on Woodruff's cr., which has a large fall, and moves several mills. Pop. 450.

LIVINGSTON, p. o., Madison co., *Miss.*: 16 m. N. Jackson.

LIVINGSTON, p. v., and cap. Polk co., *Tex.*: on the E. side of Long King cr. of Trinity r., 163 m. E. by N. Austin City. It is surrounded by rich cotton plantations, and contains a court-house and several stores.

LIVINGSTON, t. and p. o., Essex co., *N. Jer.*: on the E. side of Passaic r., 42 m. N. N. E. Trenton. Short Hills or Second Mountains occupy the E., but the W. is more even; soil of average fertility. Pop. 1,151.

LIVINGSTON, t. and p. o., Columbia co., *N. Y.*: on the E. side of Hudson r., 35 m. S. Albany. Drained by Copake and Rodcliff Jansen's creeks. Surface varied; soil clayey or gravelly loam. It belongs to the Livingston manor, and has in it several furnaces, flouring mills, and other manufacturing. The Hudson River R. R. passes through it. Pop. 2,022.

LIVINGSTON, p. v., and cap. Overton co., *Tenn.*: 79 m. E. by N. Nashville. It contains a court-house, several stores, and 150 inhabitants.

LIVINGSTONVILLE, p. v., Schoharie county, *N. Y.*: 27 m. W. S. W. Albany.

LIVONIA, p. v., Washington co., *Ind.*: 82 m. W. S. W. Indianapolis.

LIVONIA, p. o., Point Coupee par., *La.*: 37 m. N. W. Baton Rouge.

LIVONIA, t. and p. o., Wayne co., *Mich.*: 62 m. E. S. E. Lansing. Drained by Power's and Bell's creeks, and W. branch of Rouge r., affording good mill-seats. Surface rolling; soil clayey loam, and fine grazing land, generally timbered. Pop. 1,376.

LIVONIA, t. and p. o., Livingston county, *N. Y.*: 204 m. W. by N. Albany. Drained by the outlets of Hemlock and Conesus Lakes, which lie partly in it. Surface rolling; soil loam, on a substratum of limestone, and very fertile of grain. It has an academy, and several flouring mills and woolen factories. The Buffalo, Corning, and New York R. R. passes through it. Pop. 2,627.

LIVONIA CENTRE, p. o., Wayne co., *Mich.*: 66 m. E. S. E. Lansing.

LLEWELLYN, p. v., Schuylkill co., *Penn.*: 42 m. N. E. Harrisburg.

LLOYD, t. and p. o., Ulster co., *N. Y.*: on the W. side of Hudson r., 63 m. S. Albany. Surface somewhat hilly; soil loam, overlying limestone. It has some water-power on Black cr. and the Wallkill, and is a superior farming region. Incorporated in 1845. Pop. 2,035.

LLOYDS, p. o., Essex county, *Virg.*: 39 miles N. N. E. Richmond.

LLOYD'S NECK, Queen's co., *N. Y.*: a peninsula on the N. side of Long Island, in the t. of Oyster Bay. It has Huntington Bay on the E., and Oyster Bay on the W., with a deep indentation from Huntington Bay on the S., called Lloyd's Harbor.

LOACHAPOKA, p. o., Macon co., *Ala.*: on the line of the Montgomery and West Point R. R., 53 miles E. by N. Montgomery.

LOAG, p. o., Chester co., *Penn.*: 54 m. E. by S. Harrisburg. LOBACHSVILLE, p. o., Berks county, *Penn.*: 54 miles E. Harrisburg.

LOBDELL'S STORE, p. o., W. Baton Rouge par., *La.*

LOCAL, p. o., Talladega co., *Ala.*: 71 m. N. by E. Montgomery.

LOCATION, p. o., Coweta county, *Ga.*: 92 m. W. by N. Milledgeville.

LOCK, p. o., Knox co., *Ohio*: 47 m. N. E. Columbus.

LOCK BERLIN, p. v., Wayne co., *N. Y.*: 169 m. W. by N. Albany. It is 4 m. E. of Lyons, on the Erie Canal.

LOCKBOURNE, p. v., Franklin co., *Ohio*: on Big Walnut cr., 11 m. S. by E. Columbus. The Ohio Canal passes through it, 45 m. from Newark, and a branch diverges hence to Columbus.

LOCKE, t. and p. o., Cayuga co., *N. Y.*: 138 m. W. Albany. Drained by Owaseo inlet, which affords power for several flour-mills and woolen factories. Surface hilly; soil gravelly loam, raising fine crops of grass. Pop. 1,478.

LOCKE, p. o., Elkhart county, *Ind.*: 124 m. N. by E. Indianapolis.

LOCKE'S MILLS, p. o., Mifflin co., *Penn.*: 47 m. W. N. W. Harrisburg.

LOCKE'S MILLS, p. v. and sta., Oxford co., *Ma.*: near the head of Alder r., 45 m. W. Augusta. The sta. is 65 m. from Portland, on the Atlantic and St. Lawrence R. R.

LOCKHART, p. v., and cap. Caldwell co., *Tex.*: on Plum cr. of the San Marcos, 24 m. S. by E. Austin City. It lies in a fine grazing and mineral district, and contains a court-house, academy, several stores, and 300 inhabitants.

LOCKHART'S STORE, p. o., Holmes co., *Miss.*: 2 m. W. Big Black r., 57 m. N. N. E. Jackson.

LOCK HAVEN, p. b., and cap. Clinton co., *Penn.*: between and near the confluence of Bald Eagle cr. and the Susquehanna, 67 m. N. N. W. Harrisburg. The Pennsylvania Canal here crosses the Susquehanna, and proceeds up the valley of Bald Eagle cr. to Bellefonte. It contains a court-house, academy, and several stores and warehouses, and has an extensive trade. The "C. Tribune" (whig), and "C. Democrat" are published weekly. Pop. 830.

LOCKINGTON, p. v., Shelby county, *Ohio*: 68 m. W. by N. Columbus.

LOCKLAND, p. o., Macon county, *Ala.*: 53 m. E. by S. Montgomery.

LOCKLAND, sta., Hamilton co., *Ohio*: on the Cincinnati, Hamilton, and Dayton R. R. 11 m. from Cincinnati.

LOCK LEVEN, p. o., Lunenburg co., *Virg.*: 53 m. S. W. Richmond.

LOCK LOMOND, p. o., Goochland co., *Virg.*: W. N. W. Richmond.

LOCKPORT, p. v., Will co., *Ill.*: on the E. side of Des Plaines r., 151 m. N. E. by N. Springfield. It is on the Illinois and Michigan Canal, 6 m. from Joliet, with 50 feet descent by locks between. This, and 15 feet fall in the Des Plaines, near the v., furnish abundant water-power, and large quarries of limestone ample building material. It has valuable manufactures, an extensive trade, and 1,300 inhabitants. The "L. Telegraph" is published weekly.

LOCKPORT, p. v., Carroll co., *Ind.*: on the N. bank of Wabash r., 67 m. N. N. W. Indianapolis. It is on the Wabash and Erie Canal, 17 m. from Logansport.

LOCKPORT, p. o., Henry co., *Ky.*: N. W. Frankfort.

LOCKPORT, t. p. v., and cap. Niagara co., *N. Y.*: 249 m. W. by N. Albany. Lat. 43° 11' N., and long. 78° 46' W. Drained by streams flowing N. into Lake Ontario, and S. into Tonawanda cr. Surface elevated and varied, sloping from a ridge or terrace which forms the water-shed dividing the streams above noticed. Soil calcareous and sandy loam, very fertile, and admirably adapted to grazing. There are extensive quarries of fine building-stone in the town. The v., one of the most prosperous of the W. section of the State, is situate on the line of the Erie Canal, 31 m. from Buffalo, and on the Canandaigua and Niagara Falls R. R., 23 m.

from Niagara Falls. The business activity depending on these avenues of commerce is immense; and the water-power created by the surplus of the canal, which here rises 60 feet by locks, is of the greatest importance to the manufacturing interests of the place. Among the large number of manufactures carried on, especial mention may be made of its cotton and woolen mills, its furnaces, its machine-shops, agricultural machinery and implement factories, and of its flouring, grist, saw, plaster, and other mills, and in the neighborhood manufactures are rapidly springing into existence. Four banks are located here. The village contains a courthouse, jail, and other county buildings, 17 or 18 churches of various denominations, several good schools and academies, and numerous common schools, and has a public press numbering four separate publications, viz.: the "L. Courier" (whig), daily and weekly, the "Niagara Democrat" (dem.), the "Niagara Cataract" (F. S.), and the "Iris of Niagara" (lit.), all weekly issues. The v. was incorporated in 1827, and will probably, at no distant period, be entered on the list of cities. The population of the t. in 1830 was 3,823; in 1840 it was 9,125, and in 1850 12,823, having increased from 1830 in the decennial ratio of 183.68 and 85.04 per cent. The railroad from Canandaigua has been opened since the latter period, and its access eastward thus fully established, which will greatly accelerate its growth in wealth and population.

LOCKPORT, sta., Westmoreland co., Penn.: on the W. division of the Pennsylvania R. R., 65 m. E. of Pittsburgh. Here is a thriving v., with a brisk trade, on the Conemaugh r. and W. division Canal, and a charcoal furnace of 1,000 tons annual capacity.

LOCKPORT, p. v., Williams co., Ohio: on W. side of Tiffin cr., 128 m. N. W. by N. Columbus.

LOCKPORT, v., Licking co., Ohio: on the Ohio Canal, 31 m. E. by N. Columbus. Population 42.

LOCKPORT, v., Tuscarawas co., Ohio: on the Ohio Canal, about a mile S. of New Philadelphia, and 83 m. E. N. E. Columbus. Pop. 178.

LOCKRIDGE, p. v., Jefferson county, Ia.: 47 m. S. by W. Iowa City.

LOCK'S VILLAGE, p. v., Franklin co., Mass.: 71 m. W. by N. Boston.

LOCKVILLE, p. v., Fairfield co., Ohio: 17 m. S. E. by E. Columbus. It is on the Ohio Canal, 30 m. from Newark.

LOCKWOOD, p. o., Sussex co., N. Jer.: 49 m. N. Trenton.

LOCO PRAIRIE, p. v., McHenry co., Ill.: 189 m. N. by E. Springfield.

LOCUST BAYOU, p. o., Washita co., Ark.: on an affluent of Washita r. so called, 93 m. S. S. W. Little Rock.

LOCUST CORNER, p. o., Clermont co., Ohio: 76 m. S. W. Columbus.

LOCUST CREEK, p. o., Louisa county, Virg.: 29 m. N. W. Richmond.

LOCUST DALE, p. o., Madison co., Virg.: on a branch of Rapid Ann r., 62 m. N. W. Richmond.

LOCUST GROVE, p. o., Searcy co., Ark.: 93 m. N. by W. Little Rock.

LOCUST GROVE, p. o., Henry co., Ga.: 56 m. W. N. W. Milledgeville.

LOCUST GROVE, p. o., Callaway county, Ky.: 112 m. S. W. by W. Frankfort.

LOCUST GROVE, p. v., Williamson co., Ill.: 146 m. S. S. E. Springfield.

LOCUST GROVE, p. v., Adams co., Ohio: on the E. side of Brush cr., 67 m. S. by W. Columbus.

LOCUST GROVE, p. o., Weakly co., Tenn.: 93 m. W. by N. Nashville.

LOCUST GROVE, p. o., Orange co., Virg.: 53 m. N. W. Richmond.

LOCUST GROVE, p. o., Montgomery county, Ind.: 44 m. W. N. W. Indianapolis.

LOCUST GROVE, p. o., Henry co., Mo.: about 3 m. S. of Grand r., 76 m. W. by S. Jefferson City.

LOCUST HILL, p. o., Caswell co., N. Car.: 66 m. N. W. Raleigh.

LOCUST HILL, p. o., Washington county, Penn.: 141 W. Harrisburg.

LOCUST HILL, p. o., Anderson district, S. Car.: 105 m. W. N. W. Columbia.

LOCUST LANE, p. o., Fayette co., Virg.: 194 m. W. by N. Richmond.

LOCUST MILLS, p. o., Bracken co., Ky.: 58 m. N. E. by E. Frankfort.

LOCUST MOUNT, p. o., Accomac co., Virg.: 96 m. E. N. E. Richmond.

LOCUST MOUNT, p. o., Washington co., Tenn.: 238 m. E. Nashville.

LOCUST SHADE, p. o., Overton county, Tenn.: 82 m. E. Nashville.

LOCUST SPRING, p. v., Macoupin co., Ill.: 27 m. S. S. W. Springfield.

LOCUST SPRING, p. o., Cumberland county, Ky.: 106 m. S. by W. Frankfort.

LOCUST TREE, p. o., Niagara co., N. Y.: 263 m. W. by N. Albany.

LOCUSTVILLE, p. o., Accomac co., Virg.: 89 m. E. by N. Richmond.

LODDY, p. o., Hamilton co., Tenn.: near Saluda cr. of the Tennessee, 79 m. E. S. E. Nashville.

LODI, t. and p. o., Bergen county, N. Jer.: 53 m. N. E. Trenton. It is mostly level, and lies between Hackensack r. on the E. and the Passaic and its branch, Saddle r., on the W., which furnish good mill-sites. The Union E. R. crosses the Passaic on its W. border, 12 m. from New York. Pop. 1,113.

LODI, p. o., Coweta county, Ga.: 106 m. W. by N. Milledgeville.

LODI, p. o., Choctaw co., Miss.: 83 m. N. N. E. Jackson.

LODI, p. v., Clark co., Ill.: 106 m. E. by S. Springfield.

LODI, t. and p. o., Washtenaw co., Mich.: 52 m. S. E. Lansing. Surface level, and soil admirably adapted to grazing. Pop. 1,234.

LODI, t. and p. v., Seneca co., N. Y.: on the E. side of Seneca Lake, 164 m. W. Albany. Surface rolling; soil clayey loam, and very fertile. Farming is the chief pursuit. Gypsum is found. Pop. 2,269.

LODI, t. and p. o., Columbia co., Wisc.: on the E. side of Wisconsin r., 13 m. N. Madison. Drained by Ockee cr. It has a good soil and excellent timber. Pop. 303.

LODI, p. v., Medina co., Ohio: on E. branch of Black r., 87 m. N. E. by N. Columbus. It contains several mills and 200 inhabitants.

LODI, sta., Seneca co., Ohio: 23 m. from Sandusky on the Mad River and Lake Erie R. R.

LODI, p. o., Abbeville dist., S. Car.: about 2 m. W. of Saluda r., 56 m. W. by N. Columbia.

LODI, p. o., Jackson co., Tenn.: 67 m. E. N. E. Nashville.

LODI BAR, p. o., Sumter dist., S. Car.: E. Columbia.

LODI CENTRE, p. o., Seneca co., N. Y.: 161 m. W. Albany.

LODIVILLE, p. v., Parke co., Ind.: on the E. bank of Wabash r., 44 m. W. by N. Indianapolis. It is at the mouth of Coal cr. and on the Wabash and Erie Canal.

LODORE, p. o., Amelia co., Virg.: 82 m. S. W. Richmond.

LOGAN county, Ill. Situate centrally, and contains 538 sq. m. Drained by Salt cr., a branch of Sangamon r., and its affluents, Lake Fork, Sugar, and Kickapoo creeks. Surface undulating and nearly level; soil exceedingly fertile, being mostly rich prairie with occasional groves of timber, and producing large crops of corn and wheat with little effort. It is especially adapted to grazing, and live-stock, beef, and pork, are the exports. Farms 476; manuf 14; dwell. 835, and pop.—wh. 5,123, fr. col. 0—total 5,123. Capital: Postville. Public Works: Central R. R.; Chicago and Mississippi R. R.

LOGAN county, Ky. Situate S. W., and contains 591 sq. m. Drained S. by Red and Big Whippoorwill rivers,

branches of the Cumberland, and N. by Elk Lick, Wolf Lick, and Big Muddy creeks of Green r. Surface elevated table-land; soil generally fertile. Tobacco, corn, oats, and wheat are staple products. It has fine facilities for manufactures, and they are extensively improved in producing woolen and cotton goods, flour, leather, earthen-ware, etc. Farms 1,180; manuf. 40; dwell. 1,917, and pop.—wh. 10,751, fr. col. 863, sl. 5,467—total 16,581. *Capital*: Russellville.

LOGAN county, Ohio. Situate W. centrally, and contains 438 sq. m. Drained E. by Rush, Mill, and Big Darby creeks of the Scioto; W. by Little Miami and branches, Stony and Cherokee creeks, etc. Surface undulating or slightly broken; soil productive and well adapted to grain. Corn is the staple. Wheat is a successful crop and pork an export. It has many mill-streams and flourishing factories, with convenient markets. Farms 1,626; manuf. 88; dwell. 3,243, and pop.—wh. 18,631, fr. col. 531—total 19,162. *Capital*: Bellefontaine. *Public Works*: Bellefontaine and Indiana R. R.; Mad River and Lake Erie R. R., etc.

LOGAN county, Virg. Situate S. W., and contains 702 sq. m. Tug fork of Big Sandy r. bounds it W., the Guyandotte and branches drain it E., and Laurel and Caney creeks flow between into the Ohio. Surface hilly and broken; soil fertile, and excellent pasturage. Corn, oats, and potatoes are staples. It has fine mill-streams, which are used principally to work up the timber of the higher portions. Farms 469; manuf. 0; dwell. 572, and pop.—wh. 3,583, fr. col. 0, sl. 87—total 8,620. *Capital*: Logan C. H.

LOGAN, p. v., Dearborn county, Ind.: 74 m. E. S. E. Indianapolis.

LOGAN, p. o., Tompkins co., N. Y.: 161 m. W. Albany.

LOGAN, p. v., and cap. Hocking co., Ohio: on the N. bank of Hocking r., 42 m. S. E. Columbus. It contains a court-house, jail, academy, and several mills. Excellent water-power is furnished by the falls, which are 1 m. above the v. The "H. Sentinel" (dem.), and "H. Valley Republican" (whig), are published weekly. The Hocking Canal passes through the v. 23 m. from Athens. Pop. 793.

LOGAN, p. o., Laclede county, Mo.: 69 m. S. by W. Jefferson City.

LOGAN C. H., p. v., and cap. Logan co., Virg.: on the right bank of Guyandotte r., 244 m. W. Richmond. It contains a court-house and several stores.

LOGAN MILLS, p. o., Clinton co., Penn.: 59 m. N. N. W. Harrisburg. A charcoal furnace of 800 tons annual capacity is located here.

LOGAN'S CREEK, p. o., Reynolds co., Mo.: 127 m. S. S. E. Jefferson City.

LOGAN'S FERRY, p. o., Alleghany co., Penn.: 128 m. W. Harrisburg.

LOGANSFORD, p. v., De Soto par., La.: on the left bank of Sabine r., 191 m. N. W. by W. Baton Rouge.

LOGANSFORD, p. v., and cap. Cass co., Ind.: at the junction of Eel r. with the Wabash, 63 m. N. by W. Indianapolis. It is at the head of steamboat navigation, and just below the falls, which furnish immense water-power, and has a large trade, by river, canal, and plank-roads, with the fertile region on every side; the products of which are shipped here for the E. and S. markets. It contains a court-house and jail, 2 banks, an academy, several large mills, and 2,251 inhabitants. The "L. Journal" (whig), and the "Democratic Pharos," are published weekly.

LOGAN'S STORE, p. o., Rutherford co., N. Car.: 211 m. W. by S. Raleigh.

LOGANVILLE, p. v., Logan co., Ohio: on Miami r., 54 m. W. N. W. Columbus.

LOGANVILLE, p. v., York co., Penn.: 26 m. S. Harrisburg.

LOG CABIN, p. o. Morgan co., Ohio: 64 m. E. S. E. Columbus.

LOG LICK, p. o. Switzerland county, Ind.: 87 m. S. E. Indianapolis.

LOGTOWN, p. o., Wachita par., La.: 151 m. N. N. W. Baton Rouge.

LOMBARDY, p. o., Columbia co., Ga.: 69 m. E. N. E. Milledgeville.

LOMBARDY GROVE, p. o., Mecklenburg co., Virg.: 68 m. S. S. W. Richmond.

LOMIRA, t. and p. o., Dodge co., Wisc.: 62 m. N. E. Madison. Drained by heads of Rock r., furnishing good mill-seats. Surface varied, and soil excellent. Pop. 653.

LONAACONING, p. v., Alleghany co., Md.: on W. side of George's cr., about 6 m. from the Potomac, 141 m. W. N. W. Annapolis. It is in the mining region, and connected by a private railway with the Baltimore and Ohio R. R. A furnace here producing 3,000 tons of iron per annum.

LONDON, p. v., and cap. Laurel co., Ky.: 83 m. S. S. E. Frankfort. It consists of a court-house and a few dwellings. The Knoxville and Lexington R. R. will pass through it.

LONDON, t. and p. o., Monroe co., Mich.: 67 m. S. E. Lansing. Drained by Stony cr. and a branch of River Raisin. Surface level, and well-timbered; soil very productive of wheat. Pop. 626.

LONDON, p. v., Mercer co., Penn.: 138 m. W. N. W. Harrisburg.

LONDON, p. v., and cap. Madison co., Ohio: 25 m. W. by S. Columbus. It contains a court-house, jail, and an academy, and has a large trade in domestic products. The Columbus and Xenia R. R. passes through it, 35 m. from Xenia. The "L. Sentinel" is published weekly. Pop. 513.

LONDON BRIDGE, p. o., Princess Anne co., Virg.: 86 m. E. S. E. Richmond.

LONDON CTRY, p. v., Fayette co., Ill.: 64 m. S. E. by S. Springfield.

LONDONDERRY, t. and p. v., Rockingham co., N. Hamp.: 29 m. S. by W. Concord. Drained by Beaver r., a branch of the Merrimac, which touches the N. W. corner. Surface uneven; soil fertile, making it a very superior farming and dairy district. The Manchester and Lawrence R. R. crosses the N. part, and the sta. is 6 m. S. of its connection with the Concord R. R. at Manchester. The v. is in the S., and contains an excellent and well-endowed academy. Population of t. 1,731.

LONDONDERRY, t. and p. o., Guernsey co., Ohio: 83 m. E. by N. Columbus. Drained by a branch of Tuscarawas r. Surface rolling, and soil excellent for grass and grain. Pop. 1,551.

LONDONDERRY, t. and p. o., Windham co., Verm.: 74 m. W. by S. Montpelier. Drained by branches of West r., which furnish good water-power. Surface uneven; soil on the streams very fertile—in the higher parts fit only for grazing. Wool is a large export. It has several manufactories of woollens and farming implements. Pop. 1,274.

LONDONDERRY, t. and p. o., Chester co., Penn.: 62 m. E. S. E. Harrisburg. Drained by Doe Run, a branch of the Brandywine. Surface even, and soil sandy and well cultivated. Farming is the chief business.

LONDON GROVE, t. and p. o., Chester co., Penn.: 59 m. E. S. E. Harrisburg. Drained by White Clay cr. and its branches, which furnish valuable mill privileges. Surface somewhat uneven, and soil a rich loam. It has extensive manufactories of cotton and woolen goods, flour, leather, etc.

LONE JACK, p. o., Jackson co., Mo.: 106 m. W. by N. Jefferson City.

LONE STAR, p. o., Titus co., Tex.: 271 m. N. E. Austin City.

LONE TREE, p. o., Bureau co., Ill.: 99 m. N. Springfield.

LONG-A-COMING, p. v., Camden co., N. Jer.: 80 m. S. by W. Trenton.

LONG BOTTOM, p. o., Meigs co., Ohio: 83 m. S. E. by E. Columbus.

LONG BOTTOM, p. o., Marshall co., Virg.: 234 m. N. W. Richmond.

LONG BRANCH, p. o., Monroe co., Mo.: on a branch of Salt r., 52 m. N. by E. Jefferson City.

LONG BRANCH, p. o., Franklin co., Virg.: 145 m. W. S. W. Richmond.

LONG BRANCH, p. v., Monmouth county, *N. Jer.*: 88 m. E. by N. Trenton. The beach known by that name is a long sandy peninsula, having the Atlantic on the E. and Shrewsbury r. on the W., and is much resorted to in summer for its fine bathing, fishing, and gunning. Ample accommodations are afforded for visitors, and many cottages are occupied by permanent residents. In the vicinity there are many pleasant and romantic villages, and much fine natural scenery. Steamboats ply regularly in the summer season from New York City.

LONG CANE, p. o., Troup county, *Ga.*: about 2 m. E. Chattahoochee r., 117 m. W. Milledgeville.

LONG CANE, p. o., Abbeville district, *S. Car.*: 78 m. W. Columbia.

LONG CREEK, p. o., New Hanover county, *N. Car.*: 97 m. S. S. E. Raleigh.

LONG CREEK, p. o., Louisa county, *Virg.*: 84 m. N. W. Richmond.

LONG CREEK, p. o., Panola co., *Miss.*: 146 m. N. Jackson.

LONG FALLS CREEK, p. o., Daviess co., *Ky.*: on a branch of Green r. of that name, 136 m. W. S. W. Frankfort.

LONG GLADE, p. o., Augusta co., *Virg.*: 102 m. W. N. W. Richmond.

LONG GREEN ACADEMY, p. o., Baltimore co., *Md.*: 84 m. N. Annapolis.

LONG GROVE, p. v., Lake co., *Ill.*: on Buffalo cr. of the Des Plaines, 189 m. N. E. by N. Springfield.

LONG HALL, p. o., Caldwell co., *Ky.*: 191 m. W. S. W. Frankfort.

LONG HILL, p. o., Morris county, *N. Jer.*: 44 m. N. N. E. Trenton.

LONG ISLAND, *N. Y.*: a long narrow island, forming the S. E. portion of the State of New York, and lying between the Atlantic on the South and Long Island Sound on the North. Its length from the "Narrows" to Montauk Point is 113 m., and its general width varies from 12 to 20 miles. It is divided into the counties of Kings, Queens, and Suffolk, and contains about 1,448 sq. m. Its coasts are much broken by indentations, forming innumerable small bays and harbors, many of which embosom marshy islands, and almost the whole south coast is lined with a long sandy beach, between which and the main island is a fine inland navigation for small craft. A ridge or chain of hills, more or less elevated, but not exceeding 300 feet in height, extends east and west; the surface N. of the ridge is in general rough and broken, while on its S. side the surface is a plain, gently falling toward the Atlantic. On both sides of the island are numerous streams emptying into bays and inlets, affording, however, but small hydraulic power—the bays abounding in fine fish, oysters, etc. The streams at the W. end of the island are destined to furnish water for the cities of Brooklyn, Williamsburg, etc., by means of dams and culverts. Light-houses have been erected at several points on both sides of the island and on Montauk Point, its E. extremity. The Long Island R. R. traverses the island almost through its middle from Brooklyn to Greenport.

LONG ISLAND SOUND, *N. Y.*: a large and important body of water, between the State of Connecticut and Long Island. It is about 100 m. long, and from 10 to 20 m. wide, and receives from Connecticut all its great rivers. The sound connects with the ocean on the E., and on the W. with New York Bay, through Hell Gate and the East river. The coasting vessels and the steamers plying between New York and the New England States almost invariably take the sound or inside route.

LONG JOHN, p. o., Will county, *Ill.*: 157 m. N. E. by N. Springfield.

LONG LAKE, p. o., Genesee co., *Mich.*: near a pond so called, tributary to Shiawassee r., 43 m. E. Lansing.

LONG LAKE, p. o., Dallas county, *Mo.*: 68 miles S. S. W. Jefferson City.

LONG MARSH, p. o., Queen Anne co., *Md.*: 37 m. E. N. E. Annapolis.

LONG MEADOW, t. and p. v., Hampden co., *Mass.*: on the E. side of Connecticut river, and S. line of the State, 81 m. W. S. W. Boston. Drained by small affluents of the Connecticut. Surface mostly level, a large part of the town being alluvial meadows. Soil very fertile and highly cultivated. It has several tanneries, and makes excellent bricks, but is eminently a farming t., with markets for its produce at its doors. A superior kind of red building stone is abundant, and extensively quarried. The New Haven, Hartford, and Springfield R. R. passes through it, and has a sta. 4 m. S. of Springfield. The v., a long broad street, about 1 m. from and parallel with the river, is beautifully shaded by rows of tall elms, and contains many elegant farm houses and country residences. Population of town 1,252.

LONG MEADOW, p. o., Page county, *Virg.*: on E. side of Shenandoah r., 91 m. N. W. Richmond.

LONGMIRE, p. o., Washington county, *Tenn.*: near the Nolichucky r., 245 m. E. Nashville.

LONGMIRE'S STORE, p. o., Edgefield dist., *S. Car.*: 63 m. W. Columbia.

LONG OLD FIELDS, p. o., Prince George's co., *Md.*: 26 m. W. S. W. Annapolis.

LONG PERCUMMON, p. o., Yallabusha co., *Miss.*: 119 m. N. by E. Jackson.

LONG PLAIN, p. o., Bristol county, *Mass.*: 46 m. S. by E. Boston.

LONG POINT, p. v., Livingston co., *Ill.*: on a W. branch of Vermillion r., 245 m. N. N. E. Springfield.

LONG POINT, p. o., Washington county, *Tex.*: 92 m. E. Austin City.

LONG POND, p. o., Caldwell co., *Ky.*: 186 m. W. S. W. Frankfort.

LONG PRAIRIE, p. o., Wahnahta co., *Minn. Ter.*: near the river of that name, a branch of Crow Wing r., 103 m. N. W. St. Paul.

LONG RIDGE, p. o., Fairfield co., *Conn.*: 55 m. S. W. Hartford.

LONG RUN, p. o., Jefferson co., *Ky.*: 26 m. W. by N. Frankfort.

LONG SAVANNAH, p. o., Hamilton county, *Tenn.*: 140 m. S. E. by E. Nashville.

LONG'S BRIDGE, p. o., Hancock co., *Ga.*: near Buffalo cr. of the Oconee, 17 m. E. by N. Milledgeville.

LONG'S MILLS, p. o., Randolph county, *N. Car.*: 61 m. W. by N. Raleigh.

LONG STREET, p. o., Moore co., *N. Car.*: 35 m. S. W. Raleigh.

LONG STREET, p. o., Pulaski co., *Ga.*: 42 m. S. by W. Milledgeville.

LONG STREET, p. o., Lancaster dist., *S. Car.*: about 8 m. E. of Catawba r., 42 m. N. by E. Columbia.

LONG SWAMP, p. o., Marion co., *Flor.*: 169 m. S. E. Tallahassee.

LONG SWAMP, t. and p. o., Berks county, *Penn.*: 66 m. E. by N. Harrisburg. Drained by Little Lehigh r., on which are several mills and small factories. Surface hilly, and soil gravelly loam. Leather, powder, and iron are made. At the v. is a furnace of 1,000 tons capacity.

LONGTOWN, p. o., Fairfield dist., *S. Car.*: 23 m. N. N. E. Columbia.

LONGTOWN, p. o., Panola co., *Miss.*: 183 m. N. by E. Jackson.

LONG VALLEY, p. o., Monroe co., *Penn.*: 98 m. N. E. by E. Harrisburg.

LONG VIEW, p. o., Bradley co., *Ark.*: on the W. bank of Sabine r. of the Washita, 94 m. S. by E. Little Rock.

LONG VIEW, p. o., Morgan county, *Tenn.*: 127 m. E. Nashville.

LONG VIEW, p. o., Christian co., *Ky.*: 176 m. W. S. W. Frankfort.

LONGWOOD, p. o., Fayette county, *Ind.*: 49 m. S. by E. Indianapolis.

LONGWOOD, p. o., Sabine co., *Tex.*: near Patroon bayou, 249 m. E. N. E. Austin City.

LONGWOOD, p. o., Union county, *Ky.*: 171 m. W. by S. Frankfort.

LONGSDALE, p. v. and sta., Providence co., *R. I.*: on Blackstone r., 7 m. N. Providence. It has a good share of trade, and is largely interested in manufactures of various kinds, for which its situation is well fitted. The sta. is 7 m. from Providence on the Providence and Worcester R. R.

LONSVILLE, p. o., Pike county, *Ky.*: 143 m. E. S. E. Frankfort.

LOOKING GLASS, p. v., Clinton co., *Ill.*: on the W. side of Sugar cr. of Kaskaskia r., 89 m. S. Springfield.

LOOKING GLASS (or Wabenassee) river, *Mich.*: a beautiful clear stream rising in a small lake on the S. border of Shiawassee co., flowing first N. and then W. through Shiawassee, Clinton, etc., into Grand r. It is 70 m. long and about 40 yards wide, and navigable for canoes to near its sources. The country near its sources is somewhat swampy, but in its lower course is well timbered and fine lands.

LOOK OUT, p. o., Cole co., *Mo.*: N. side of N. Moreau cr., 15 m. W. Jefferson City.

LOOKOUT mountain, *Ga.*: a remarkable elevation in the N. W. part of the State. At its highest culmination it is crowned with a watch-tower of rock palisades, from which the eye obtains a most extensive and beautiful prospect of the wild scenery of the country.

LOOMISVILLE, p. v., Kent co., *Mich.*: 52 m. W. N. W. Lansing.

LOONEY'S CREEK, p. o., Marion co., *Tenn.*: on an affluent of the Tennessee so called, 97 m. S. E. Nashville.

LOONIESVILLE, p. v., McDonald co., *Mo.*: on Elk r., an E. branch of the Neosho, 172 m. S. W. by S. Jefferson City.

LOOSHATCHER, p. o., Shelby co., *Tenn.*: near an affluent of Mississippi r. so called, 174 m. W. S. W. Nashville.

LOOSE CREEK, p. o., Osage county, *Mo.*: 14 m. E. S. E. Jefferson City.

LOOXAHOMA, p. o., De Soto co., *Miss.*: 156 m. N. Jackson.

LOBADO, p. o., Greene co., *Ark.*: 147 m. N. E. by N. Little Rock.

LORAIN county, *Ohio*. Situate N. on Lake Erie, and contains 727 sq. m. Drained by Black r. and its branches, and W. by Vermillion r. Surface undulating and sloping to the N.; soil fertile, adapted equally to grass and grain. Wheat and corn are the cereal staples, and they yield luxuriantly. It has large dairies, and many sheep are reared. Livestock, beef, wool, and pork are important exports. The streams afford excellent water-power, and manufactures are extensively prosecuted. It also has a large trade on the lake. Farms 2,430; manuf. 64; dwell. 4,674, and pop.—wh. 25,824, fr. col. 262—total 26,086. *Capital*: Elyria. *Public Works*: Cincinnati, Cleveland, and Columbus R. R.; Toledo, Norwalk, and Cleveland R. R.; Junction R. R., etc.

LORAMIE, t. and p. o., Shelby co., *Ohio*: 74 m. W. by N. Columbus. Drained by branches of Miami r.; soil mostly fertile. Miami Canal passes the N. E. corner, and the Bellefontaine and Indiana R. R. crosses it. Pop. 1,049.

LORENTZ'S STORE, p. o., Lewis co., *Virg.*: 182 m. W. N. W. Richmond.

LORENTZVILLE FOUNDRY, p. o., Shenandoah co., *Virg.*: 107 m. N. W. Richmond.

LORETO, p. o., Essex county, *Virg.*: 41 m. N. E. by N. Richmond.

LORETO, p. o., Marion co., *Ky.*: 49 m. S. S. W. Frankfort.

LORETO, p. o., Cambria co., *Penn.*: 94 m. W. by N. Harrisburg.

LORRAINE, t. and p. o., Jefferson county, *N. Y.*: 183 m. N. W. by W. Albany. Drained by branches of Sandy cr., which move several flour and numerous saw mills. Surface broken, and soil clay and sandy loam, well fitted for grazing. A fine farming t. and heavily timbered. Pop. 1,511.

LOS ANGELOS county, *Calif.* Situate S., and comprises about 18,000 sq. m. The streams emptying into the Pacific,

along the coast of which the county extends about 150 m., are Santa Clara, the N., and Santa Anna, the S. boundary, San Pedro, San Gabriel, and Los Angeles; the principal stream E. is Mohave r., a branch of the Colorado. San Pedro Bay, on the S., is a good harbor, and opposite it is Santa Catalina, and separated from the N. by the channel of Santa Barbara, is Santa Cruz, two large and beautiful islands. Surface broken in the W. by the Sierra Nevada Mountains and their spurs, extending to the coast; in the E. are many high hills, with extensive sandy plains. The soil has been suffered to lie waste a long time, but is capable of producing in abundance all the grains and fruits of the Atlantic coast, with bananas, plantains, pomegranates, indigo, and olives. Grapes and olives are abundant of the best quality. Corn is the staple. The climate is equable, mild, and very healthy. The white population is about 10,000. *Capital*: Los Angeles.

LOS ANGELOS, p. v., and cap. Los Angeles co., *Calif.*: on the W. side of the Rio de los Angeles, which falls into San Pedro Bay, and 800 m. S. S. E. Vallejo. It is the seat of an ancient mission, and was capital of California Alta previous to the Mexican War. The v. has several substantial military and ecclesiastical buildings, and in many respects is now a flourishing inland place. It was here that General Kearney and Colonel Fremont had their famous dispute for command, which led ultimately to court-marring of the latter. Lat. 19° 00' 15" N., and long. 100° 22' 45" W.

LOSS CREEK, p. o., Crawford county, *Ohio*: 55 m. N. Columbus.

LOST CREEK, p. o., Saline co., *Ark.*: 86 m. W. Little Rock.

LOST CREEK, p. o., Lincoln co., *Mo.*: about 3 m. W. of the Mississippi, 79 m. E. N. E. Jefferson City.

LOST CREEK, p. o., Campbell co., *Tenn.*: between Powell's and Clinch rivers, 163 m. E. by N. Nashville.

LOST CREEK, p. o., Harrison co., *Virg.*: on a branch of Monongahela r. so called, 189 m. N. W. by W. Richmond.

LOST CREEK, p. o., Breathitt co., *Ky.*: on a branch of Kentucky r., 102 m. E. S. E. Frankfort.

LOST GROVE, p. o., De Kalb co., *Ill.*: 157 m. N. by E. Springfield.

LOST MOUNTAIN, p. o., Cobb co., *Ga.*: 109 m. N. W. Milledgeville.

LOST RIVER, p. o., Orange co., *Ind.*: near the branch of White r. so called, 78 m. S. by W. Indianapolis. Lost r. rises in Washington co., and takes a W. course through the N. part of Orange, and forms a junction with Lick cr., and falls into the E. fork of White r. near the S. line of Martin county. This stream, as well as many of its tributaries, sinks and runs underground for considerable distances, and then rises again.

LOST RIVER, p. o., Hardy co., *Virg.*: on a branch of Great Cacapon r., 118 m. N. W. Richmond.

LOST VILLAGE, p. o., New Madrid co., *Mo.*: 94 m. S. E. Jefferson City.

LOTTRIDGE, p. o., Athens co., *Ohio*: 69 m. S. E. Columbus.

LOTS, p. o., Edgefield dist., *S. Car.*: 35 m. W. Columbia.

LOTTISBURG, p. o., Northumberland co., *Virg.*: 55 m. E. N. E. Richmond.

LOTTISVILLE, p. v., Warren co., *Penn.*: on Little Broken Straw cr., which affords power for several mills here, 177 m. N. W. Harrisburg.

LOUPON county, *Virg.* Situate N. E., and contains 473 sq. m. Bounded N. E. by the Potomac, and drained by its affluents, Goose, Kittoctan, and other small creeks. Surface broken by several ridges of mountains, and very uneven, with beautiful and fertile valleys; soil various, but mostly very productive. Wheat, corn, oats, and rye bring large crops, and are the staples. Great numbers of cattle and sheep are raised; beef and wool are exported, and pork largely. It has good water-power, and numerous flourishing manufactories, especially of flour and lumber. Farms 1,256; manuf. 139; dwell. 2,834, and pop.—wh. 14,061, fr. col. 1,857, sl. 5,641—total 21,079. *Capital*: Leesburg.

LOUDON, t. and p. v., Merrimac co., *N. Hamp.*: 6 m. N. E. Concord. Drained by Suncook r., which supplies it with fine water-power. Suncook r. rises from a pond in the E. Surface hilly; soil on the Suncook fertile, and generally adapted to grass. The v. is in the S., and contains several m.lls. Pop. of t. 1,568.

LOUDON, p. b., Franklin co., *Penn.*: 57 m. W. S. W. Harrisburg. Here are 2 charcoal forges, making 90 tons of bars per annum, and 2 m. distant is a charcoal furnace of 800 tons annual capacity.

LOUDON CENTRE, p. o., Merrimac co., *N. Hamp.*: 10 m. N. E. Concord.

LOUDON RIDGE, p. o., Merrimac co., *N. Hamp.*: 11 m. N. N. E. Concord.

LOUDONVILLE, p. v., Ashland co., *Ohio*: on Black fork of Walhonding r., 58 m. N. E. by N. Columbus.

LOUDBURY, p. v., Habersham co., *Ga.*: 126 m. N. by W. Milledgeville. It lies in the heart of the gold region, and near the head of Chestatee river.

LOUISA county, *La.* Situate S. E., and contains 413 sq. m. Drained by Iowa r., its branches, Cedar r., and Long cr., and Muscatine Slough. Surface moderately uneven; soil very fertile, equally adapted to grass and grain. Corn, wheat, beef, and pork, are leading products. It has large streams, which afford abundance of water-power. The Iowa crosses the co. from N. W. to S. E., diagonally, and is navigable the whole length, and the E. line is formed by

the Mississippi. Limestone, copper, and lead are found. Farms 838; manuf. 18; dwell. 842, and pop.—wh. 4,918, fr. col. 26—total 4,989. *Capital*: Wapello.

LOUISA county, *Virg.* Situate E. centrally, and contains 427 sq. m. Drained by N. and S. Anna rivers, which form the Pamunky, and flow into York r. Surface diversified, with pleasant river valleys; soil of great productiveness. Tobacco is a very large crop, and the staple. Corn and wheat yield finely, and there is much good pasture. Water-power is plentiful for working up all the products, and gold in small quantities has been found. Farms 838; manuf. 22; dwell. 1,254, and pop.—wh. 6,423, fr. col. 404, sl. 9,864—total 16,691. *Capital*: Louisa C. H. *Public Works*: Virginia Central R. R.

LOUISA, p. o., Randolph county, *Ala.*: 79 miles N. N. E. Montgomery.

LOUISA, p. v., Stephenson co., *Ill.*: 185 m. N. Springfield.

LOUISA, p. v., and cap. Lawrence co., *Ky.*: near the junction of Big Sandy r. and its W. fork, 129 m. E. Frankfort.

LOUISA C. H., p. v., and cap. Louisa co., *Virg.*: 42 m. N. W. Richmond. It contains a court-house, jail, academy, and several stores and dwellings. The Virginia Central R. R. passes the v. 62 m. from Richmond.

LOUISBURG, p. v., and cap. Franklin co., *N. Car.*: on the left bank of Tar r., 81 m. N. N. E. Raleigh. It has an extensive trade, and contains a court-house, jail, an academy, a dozen stores, and 500 inhabitants.

THE STATE OF LOUISIANA.

LOUISIANA occupies all the territory of the purchase of 1803 below the 33d parallel, and that portion of Spanish Florida west of Pearl River, and below the 31st parallel, its front stretching along the Gulf of Mexico for nearly 300 miles. It lies generally between the latitudes 29° and 33° N., and between longitudes 88° 40' and 94° 23' W.; and is bounded north by Arkansas and Mississippi; east by Mississippi, from which it is divided by the river of the same name, and Pearl River; south by the Gulf of Mexico; and west by Texas, the Sabine River being its boundary in this direction more than two-thirds the distance. The area of the land surface of the State is computed at 46,431 square miles.

The surface of Louisiana is low and generally level, with some hilly ranges of little elevation in the western part, and numerous basins or depressions of the soil. The great delta of the Mississippi, included within the Atchafalaya and the Iberville, and amounting to one-fourth part the area of the State, is seldom elevated more than ten feet above the sea, and is annually inundated by the spring floods. A great part of the delta is composed of sea marsh, which also forms the whole southern coast to the Sabine, and which, through its whole extent, is subject to inundations by the high tides. To the north of this marsh, spreads out the vast level of the prairies, which is but slightly elevated above the former district. The western margin of the Mississippi is also a low country, intersected by numerous small rivers, and liable to inundation. To the west and north of these is an extensive region comprising one-half of the State, considerably broken, but nowhere exceeding 200 feet in elevation. The section north of the Iberville and Lake Pontchartrain and east of the Mississippi is of a similar description with the north-western region, and, like that, is principally covered with pine.

The State presents but a limited geological field. It is divided into the leading grades or divisions of tertiary, diluvial, and alluvial. The tertiary, occupying about two-fifths of the State, lies north of a waving line, commencing on the Sabine near the mouth of the Neches, crossing Red River 20 miles north of Alexandria, and the Washita 10 miles north of Harrisburg. Its beds contain coal (aluminous brown coal), salt, iron, ochre, gypsum, and marls. The coal is inferior to that of Pittsburg, and could not compete with it in the market, but is worth developing for use in those portions of the State where the better coal would not bear the expense of transportation. It abounds in Sabine, Natchitoches, Caddo, and De Soto, and all the parishes thence east to the Washita. Salt springs are common in Natchitoches and Rapides, and have been wrought in earlier times. A saline bed, it is thought, underlies the tertiary series generally. Iron is found in great quantities in all the tertiary parishes, and is well worth the attention of those who would develop the State's resources. Ochre, gypsum, and marls, too, are found—the first in the native form, and the others co-extensive with the tertiary beds. The gypsum is very fine, equal to any known to commerce, and the marls very rich in the regions where they will be most needed.

About one-fifth of the whole surface is periodically overflowed by the waters of the Mississippi, and a great portion of these inundated lands is rendered unfit for cultivation in its present state. This immense alluvial tract embraces soil of various descriptions, which may be arranged into four classes—the first, which is thought to be equal to two-thirds of the whole, is covered with heavy timber, and an almost impenetrable undergrowth of cane and other shrubbery. This portion is quickly drained as the river retires into its natural channels, and has a soil of the greatest fertility. The second class consists of cypress swamps: these are basins or depressions of the surface, from which there is no natural outlet, and which, being filled with water by the floods, remain covered with it until carried off by evaporation or absorption; these, by draining, might become excellent rice lands. The third class embraces the sea marsh, a belt of land partially covered by common tides, and subject to inundation from the high waters of the Gulf during the equinoctial gales; it is generally without timber, and its soil is partially clayey, and, in part, as black as ink, cracking by the heat of the sun into fissures wide enough to admit a man's arm. And the fourth class consists of small bodies of prairie land dispersed in different parts of the alluvial territory. These spots are elevated and without timber, but of great fertility. The pine lands have usually a poor soil, but the interval lands on the rivers, or bottoms, as they are universally called in the West, are always rich. On the Red River the soil contains a portion of salt, and is of a dark-red color, from its containing the oxide of iron. A great portion of the prairies is second-rate land, and some of them are sterile. The richest tract in the State is a nar-

LOUISIANA.

row belt, called the coast, lying along the Mississippi on both sides, and extending from 150 miles above to 140 miles below New Orleans; it is from 1 to 2 miles wide, and lies below the level of the water in the river in ordinary times of flood, and is only defended from drowning by a dyke or levée 6 or 8 feet in height, and sufficiently broad for a highway. The whole of this tract is under cultivation, and produces valuable crops of sugar.

The prairies, or unwooded plains, occupy the interior section between the Teche and Sabine; the water-courses are here lined with trees, and occasionally little groves or clumps, called, from their isolated appearance in these grassy expanses, "islands," are met with. Northward of the prairies is an extensive tract, before alluded to as the tertiary region, reaching to the northern boundary, and approaching the Washita on the east, the surface of which is much broken into hills, though of moderate height. It consists mostly of pine barrens covered with a vast forest of pitch pine, interspersed with oaks, elms, cypress, honey-locust, etc., in low spots and on the margins of the streams. The tract east of the Mississippi and north of the Iberville and the connected lakes, closely resembles that last described in its surface and finest growths. It is, in fact, a part of the same upland plain whose margin on the western side is separated from the river-bed by the low, inundated lands, but on the east comes up to the channel of the river, in many places forming those prominent bluffs on which stand Baton Rouge, St. Francisville, Fort Adams, Natchez, and Vicksburg.

The Mississippi, after having formed the boundary of the State for about 450 miles, enters its limits 850 miles from the sea, by the course of the river channel. Throughout this distance of 800 miles, its western bank is low, and flooded in high stages of the water. At the point where it enters the State, it throws off its first outlet, the Atchafalaya, and here may be said to commence the delta of the river. The Atchafalaya, here called the Chafalio, receives the waters of the Mississippi only in flood, and the navigation is obstructed by collections of timber, often covered with mud and weeds, which choke up its channel. The Teche and Courtableau are its principal tributaries. The Bayou Plaquemine, the next considerable outlet of the Mississippi, discharges the waters of that river into the Atchafalaya during the floods, and is the channel of trade between the country on the Atchafalaya and New Orleans. Lower down is the La Fourche outlet, which has high banks along its upper course, and admits vessels of 4 or 5 feet draft nearly to its head. On the left bank the Bayou Manchac, a little below Baton Rouge, or the last highland passed in descending the Mississippi, is the first and principal outlet; after receiving the River Amite from Mississippi, it takes the name of Iberville River. It may here be remarked that the term "bayou," applied to arms of rivers in Louisiana, is generally confined to those that have no proper current, but are sometimes stagnant, and flow sometimes in one direction, and sometimes in another, according to the high or low stage of the waters—it appears to be a corruption of *boyau*, used in the sense of the corresponding English sea-term "gut."

The Red River is the most important and, indeed, with the exception of two or three magnificent streams on the eastern side above Baton Rouge, the only tributary of the Mississippi within this State; for the surrounding country being lower than the river banks, its waters can not gain access to the bed. The Red River rises in the Rocky Mountains, and flowing eastwardly along the north border of Texas, and into Arkansas, turns to the south, and passes into Louisiana. Soon after entering this State, its bed is choked up by an immense accumulation of fallen timber, called the "Raft," and the water is dispersed into numerous channels, and spread over wide expanses. The Raft extended formerly over a distance of 160 miles, but its length has been materially diminished, and, in fact, its complete removal is considered certain. Below Natchitoches the river divides into several arms, which again unite above Alexandria, and its waters reach the Mississippi just above the first outlet, after a course of 2,000 miles, of which 1,500 miles is open to steam navigation. The Black River, its principal tributary, is formed by the junction of the Tensas, Washita, Catahoula or Little River, all considerable streams, and navigable by steamboats; but most of the country along their courses is overflowed. The Bayou du Bon Dieu is also a large and navigable river, which enters it above the Black. There are numerous lakes in this section of the State, formed chiefly by the overflows of the rivers, which fill the low basins back of their banks. In the south are the Vermillion, Mermeteau, and Calcasieu, which, rising in a tract of pine hills to the south of the Red River, and flowing through the great pastoral plains of the west, reach the low marshy strip to the Mexican Gulf, and spread into shallow lagoons. The Sabine, which partakes of the character of the last described rivers, is, however, a considerable stream, rising farther to the north in Texas, and is a navigable river beyond the Louisiana boundary, but its mouth is obstructed by a bar. From the north-eastern pine region, the Pearl, Tangipahoa, Chefuncta, and Iberville, large navigable rivers, flow into the lakes and passes which separate that region from the fluvial district. The Iberville, formed by the junction of the Amite from the north, and the Manchac from the west, enters the head of Lake Maurepas, which is from 10 to 12 feet deep, and connected with Lake Pontchartrain by the Pass Manchac. Lake Pontchartrain is about 40 miles long, and 24 miles wide, with an average depth of 10 fathoms, but is shallow near the shores. Vessels drawing 8 feet of water can, however, go up to Madisonville and to the mouth of Bayou St. John, in the rear of New Orleans; and not more than that draft can be carried through the passes or channels called the Rigolets and Chef Menteur, through which it communicates with Lake Borgne. This last is, properly speaking, no lake, but the termination of Pascagoula Sound; it approaches to within 15 miles of New Orleans, and boats can go up the bayou to empty into it to within a short distance of the city. It is of about the same average depth with Lake Pontchartrain, but somewhat deeper along the shores.

Louisiana is remarkably destitute of good harbors. Vessels drawing 8 feet of water can go up to Madisonville on Lake Pontchartrain, but the other inlets on the coast are shallow. There is, however, a good roadstead on the west side of Chandeleur Islands, called the Road of Naso, in which the heavy vessels of the English fleet lay during the expedition against New Orleans. Numerous sheets of water, improperly called lakes, lie along the coast. Of Lake Borgne mention has already been made. Barataria, Vermillion, Côte Blanche, Atchafalaya, and Simballier Bays, are shallow tide basins. In the interior, lakes L'Allemands and Chetimaches are large bodies of waters.

Although Louisiana extends more than a degree farther south than any other portion of the Union, except the Peninsula of Florida, its winters are longer and more severe there than in the corresponding latitudes on the Atlantic borders. Thus, according to Darby, New Orleans has the winters of Charleston, which is nearly two degrees farther north, and the live oak, which on the Atlantic is found as far north as 34°, does not in Louisiana occur above 30° 30'; but that writer has overlooked the fact that the live oak is a maritime tree, and does not grow more than 20 or 25 miles from the sea. The tall palmetto, or cabbage palm, and the long leaved pine, so characteristic of the southern Atlantic States, do not appear here; nor does the China orange thrive higher than 30° 30'. The climate is favorable to the peach and fig tree; but the apple can not be cultivated to advantage, and the cherry is wholly unproductive. The agricultural staples are cotton and sugar; rice, maize, or Indian corn, and tobacco, are also cultivated, but have been neglected for the first named articles; and indigo, which was formerly a staple, has been abandoned. The prairie lands of the west afford valuable pastures; and here are found large herds of cattle and horses. In the north-western part of the State, between the Mississippi and

LOUISIANA.

Pearl Rivers, much lumber is cut for exportation, and much tar, pitch, and turpentine is prepared. The cotton plant is cultivated chiefly on the Red River and in the north-eastern parts of the State; but there is no parish in which it is not produced in a greater or less quantity. Sugar is planted as far north as the head of the delta, and it has been raised with success in the parish of Rapides. It was formerly asserted that it would not thrive farther north than the 30th parallel. Those interested in the productions of the south and south-west will find elaborate essays on each staple cultivated in those regions in De Bow's work, "*The Industrial Resources, etc., of the Southern and Western States*," published in 1852, in 8 volumes, a work which every statesman and commercial man ought to place within his immediate reach, and frequently consult. It is a perfect encyclopedia of national economies.

Louisiana is divided into two Districts; the Eastern District has 21 parishes, and the Western District 26 parishes, the general statistics of which, and the capitals of each in 1850, were as follows:

The whole number of dwellings in the State was, at the above date, 49,101; of families 54,112, and of inhabitants 511,974, viz.: whites 255,416—males 141,059, and females 114,357; free col. 17,537—males 7,593, and females 9,939, and slaves 239,021. Of the whole population, there were *deaf and dumb*—wh. 89, fr. col. 5, sl. 84—total 123; *blind*—wh. 67, fr. col. 25, sl. 126—total 218; *insane*—wh. 150, fr. col. 15, sl. 43—total 208; and *idiotic*—wh. 104, fr. col. 13, sl. 36—total 173. The number of free persons born in the United States was 205,921; the number of foreign birth 66,413, and of birth unknown 620. The *native* population originated as follows: Maine 816, N. Hamp. 247, Verm. 233, Mass. 1,620, R. I. 239, Conn. 469, N. York 5,510, N. Jer. 493, Penn. 2,493, Del. 117, Ind. 1,440, Dist. of Col. 156, Virg. 3,216, N. Car. 2,923, S. Car. 4583, Ga. 5,917, Flor. 872, Ala. 7,346, Miss. 10,913, Louisiana 145,474, Tex. 864, Ark. 803, Tenn. 3,352, Ky. 2,963, Ohio, 1,473, Mich. 68, Ind. 414, Ill. 401, Mo. 909, Ia. 25, Wisc. 7, Calif. 1, Territories 1; and the *foreign* population was composed of persons from—England 3,550, Ireland 24,266, Scotland 1,196, Wales 43, Germany 17,507, France 11,562, Spain 1,417, Portugal 157, Belgium 115, Holland 112, Turkey 43, Italy 915, Austria 156, Switzerland 723, Russia 65, Denmar 288, Norway 64, Sweden 249, Prussia 830, Sardinia 9, Greece 23, China 33, Asia 17, Africa 90, Brit. America 499, Mexico 405, Cent. America 3, S. America 15, West Indies 1,337, Sandwich Islands 1, and other countries 1,173.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1810.....	34,311.....	7,555.....	84,660.....	42,245.....	76,556.....	—	—
1820.....	73,853.....	10,960.....	69,064.....	170,024.....	153,407.....	76,551.....	100.4
1830.....	89,231.....	16,710.....	109,588.....	126,293.....	215,529.....	62,122.....	40.5
1840.....	153,457.....	25,502.....	163,452.....	193,954.....	352,411.....	136,832.....	63.5
1850.....	255,416.....	17,537.....	239,021.....	256,558.....	511,974.....	159,563.....	45.2

The statistical returns of the industry and wealth of Louisiana, as furnished by the seventh census of the United States taken in 1850, and other official documents referring to the same period, are as follows:

Occupied Lands, etc.—Improved lands, 1,590,025 acres, and unimproved lands, 3,983,018 acres—valued in cash at \$75,514,393; number of farms under cultivation, 13,422—in western division, 9,209, and in eastern division, 4,213. Value of farming implements and machinery, \$11,576,938.

Live-Stock.—Horses, 89,514; asses and mules, 44,549; milch cows, 105,576; working oxen, 54,963; other cattle, 414,798; sheep, 110,333; swine, 597,301. The returns under this head in 1840 sum up thus—horses, mules, etc., 99,888; neat cattle of all descriptions, 331,243; sheep, 93,072; and swine, 823,220.

LOUISIANA.

Grain Crops.—Wheat, 417 bushels; rye, 475 bushels; Indian corn, 10,226,373 bushels; oats, 89,637 bushels; barley, 0 bushels; and buckwheat, 3 bushels. The crops of 1839-40 were—wheat, 60 bushels; barley, 0 bushels; oats, 107,353 bushels; rye, 1,812 bushels; buckwheat, 0 bushels; Indian corn, 5,952,912 bushels.

Other Staple Crops.—Rice, 4,425,349 (in 1840, 3,604,534) pounds; tobacco, 26,878 (in 1840, 119,824) pounds; ginned cotton, 178,737 bales of 400 pounds each, or 71,494,800 (in 1840, 152,555,368) pounds; sugar—maple, 255 pounds, and cane, 226,001 (in 1840, 119,947) hogsheds of 1,000 pounds; and molasses, 10,931,177 gallons.

Miscellaneous Crops.—Peas and beans, 161,732 bushels; potatoes—Irish, 95,632, and sweet, 1,428,453 bushels; hay, 25,752 tons; clover-seed, 2 bushels, and other grass-seeds, 97 bushels; hops, 125 pounds; hemp—dew-rotted, 0 tons, and water-rotted, 0 tons; flax, 0 pounds; flax-seed, 0 bushels; wine, 15 gallons, etc. The value of orchard products for the year was, \$22,359, and of market-garden products, \$143,329.

Products of Animals.—Wool, 109,897 (in 1840, 49,258) pounds; butter, 683,069 pounds; cheese, 1,957 pounds; and value of animals slaughtered during the year had been \$1,453,990. Silk cocoons were produced to the amount of 29 (in 1840, 317) pounds; and beeswax and honey, to that of 96,701 pounds.

Home-made manufactures for the year ending 1st June, 1850, were produced to the value of \$189,232.

The comparison of the principal crops in 1840 and 1850 results as follows:

Staples.	1840.	1850.	Movement.
Indian Corn.....	5,952,912 bushels	10,226,373 bushels	<i>incr.</i> 4,273,461 bushels, or 71-79 per cent.
Rice.....	3,604,534 pounds	4,425,349 pounds	<i>incr.</i> 820,815 pounds, or 22-73 “
Tobacco.....	119,824 “	26,878 “	<i>decr.</i> 92,946 “ or 77-57 “
Ginned Cotton.....	152,555,368 “	71,494,800 “	<i>decr.</i> 81,060,568 “ or 53-14 “
Cane Sugar.....	119,947,720 “	226,001,000 “	<i>incr.</i> 106,053,280 “ or 89-42 “

It is thus apparent that all the great crops, except that of cotton, have materially increased; but the falling off in the cotton crop is more apparent than real, the greater part of it having been destroyed by the extraordinary and destructive floods, which swept over whole plantations in the fall of 1849, to which year the census returns of 1850 refer. It is a well-known fact, however, that the culture of sugar in Louisiana is employing the labor formerly devoted to cotton, and this change of crops is annually progressing.

Manufactures.—Aggregate capital invested, \$0,000,000; value of raw material, fuel, etc., consumed, \$0,000,000; average number of hands employed, 00,000—males, 00,000, and females, 0,000; average monthly cost of labor \$000,000—male \$000,000, and female \$00,000; total value of products for the year ending 1st June, 1850, \$0,000,000. The whole number of manufacturing establishments in the State producing to the value of \$500 and upward annually, at the above date was 1,021—in western district 121, and in eastern district 900; and of these, 8 were manufacturing castings of iron, and there were 15 tanneries, the remainder consisting of mills, and other establishments usual in a Southern agricultural State.

The *iron* manufacture employed a capital of \$255,000; pig iron consumed, 1,660 tons; mineral coal consumed, 3,205 tons; value of all raw material used, \$75,800; hands employed, 347; average monthly wages, \$35 60; castings made, 1,570 tons; value of entire products, \$312,500.

The *tanneries* employed a capital of \$38,800; value of raw material used, \$26,440; average number of hands employed, 54—males 51, and females, 3; monthly cost of labor—male, \$930, and female, \$22; number of skins tanned, 2,850, and of sides, 21,000; value of skins and hides when tanned, \$55,025.

The distribution of the manufactures is very unequal, and many of the parishes are entirely without them: of the 900 establishments in the eastern district, 521 are in Orleans parish, 147 in West Feliciana, 54 in Jefferson, 49 in East Feliciana, 36 in Livingston, 33 in St. Tammany, 14 in St. John Baptist, 10 each in West Baton Rouge and Iberville, 9 in St. Helena, 6 in St. James, 4 each in La Fourche and Terre Bonne, and 3 in St. Charles—Ascension, Assumption, East Baton Rouge, Plaquemines, Point Coupee, St. Bernard, and Washington, returning no manufactures; and of the 121 in the western district 24 are in Madison, 18 in St. Landry, 11 in Rapides, 10 in Carroll, 9 each in De Soto and Natchitoches, 6 each in Tensas and Jackson, 5 each in Avoyelles and Sabine, 4 each in Morehouse and Wachita, 3 each in Catahoula and Claiborne, 2 in Bienville, and one each in Caldwell and Union—Bossier, Caddo, Calcasieu, Concordia, Franklin, Lafayette, St. Martin, St. Mary, and Vermillion returning none.

Commerce.—In the aggregate of exports and imports, Louisiana is second only to New York, but in the amount of its imports both Massachusetts and Pennsylvania exceed it. The total value of its exports to foreign countries in the year ending 30th June, 1850, was \$38,105,350, of which \$37,698,277 was the value of domestic produce exported, and \$407,073 the value of re-exported foreign produce. The value of domestic produce carried in American bottoms was \$20,927,751, and in foreign bottoms \$16,770,526; and the value of foreign re-exports carried in American bottoms, was \$325,930, and in foreign bottoms \$78,143. The total value of imports was \$10,760,499, of which the value brought in American bottoms was \$5,107,929, and in foreign bottoms \$2,652,570. The shipping employed in this trade was as follows:

SHIPPING ENTERED.				SHIPPING CLEARED.			
Nationality.	Number.	Tons.	Men.	Nationality.	Number.	Tons.	Men.
American.....	524.....	175,969.....	6,620.....	American.....	493.....	211,800.....	7,575.....
Foreign.....	374.....	174,834.....	6,442.....	Foreign.....	350.....	153,137.....	5,790.....
Total.....	898.....	350,803.....	13,062.....	Total.....	843.....	369,937.....	13,365.....

The whole of this commerce and navigation belongs to the district of which New Orleans is the port of entry, except two American ships of 904 tons and 14 men, which are entered in the district of Teche.

The aggregate of the shipping owned in Louisiana amounted at the date specified to 250,090 tons, of which the whole, except 1,331 tons enrolled and licensed shipping owned in the district of Teche, belonged to the district of New Orleans. Of the aggregate, 83,663 tons were registered, 160,632 tons were enrolled and licensed, and 5,799 tons were licensed (under 20 tons.) Of the registered shipping, 6,839 tons, and of the two latter classes 144,724 tons were navigated by steam; and during the year 24 vessels, viz., 1 ship, 16 schooners, 3 sloops, and 4 steamers, of an aggregate burden of 1,592 tons, were built in the State.

LOUISIANA.

The statistics of the foreign trade of the State for a series of years, exhibit the following movement :

Years.	Exports.	Imports.	Years.	Exports.	Imports.	Years.	Exports.	Imports.
1804.....	\$1,600,862	\$—	1820.....	\$7,596,157	\$—	1836.....	87,179,828	\$15,117,649

Coasting and River Trade.—The coasting trade of Louisiana is equally valuable with its foreign trade, and its trade with the interior is perhaps fully equal to both the foreign and coastwise trade together. These, however, will be fully examined under the head of "New Orleans," and hence, in this connection, the aggregates alone need be exhibited. The arrivals and clearances in the coasting trade for the year ending 30th June, 1851, were as follows:

Movements.	1st Quarter.	2d Quarter.	3d Quarter.	4th Quarter.	Total.
	Vessels. Tons.	Vessels. Tons.	Vessels. Tons.	Vessels. Tons.	Vessels. Tons.
Entrances.....	205 93,608	308 124,585	365 125,082	305 123,190	1,178 466,415
Clearances.....	199 57,442	275 76,789	424 121,362	329 97,579	1,227 358,178
Value of exports coastwise.....	\$2,859,567	\$6,177,128	\$11,707,593	\$6,484,624	\$27,228,912

The following will show the quantity and destination of some of the principal staples of export in the year above quoted:

Ports.	Flour.	Pork.	Bacon.	Lard.	Beef.	Whisky.	Corn.	Cotton.	Tobacco.	Sugar.	Molasses.
	bbls.	bbls.	hds.	kegs.	bbls.	bbls.	sacks.	bales.	hds.	bbls.	bbls.
New York.....	72,584	55,840	9,856	209,925	3,055	1,381	160,728	52,398	10,067	18,595	655
Boston.....	83,925	77,806	6,530	224,338	13,495	2,242	82,461	82,540	1,594	738	27
Philadelphia.....	418	5,538	2,768	41,045	421	268	9,477	14,867	1,118	10,264	867
Baltimore.....	—	13,421	1,843	82,585	955	1,542	—	2,511	745	8,670	287
Charleston.....	6,175	1,003	2,872	2,769	119	11,514	23,978	—	—	8,517	660
Other ports.....	150,960	22,890	19,972	40,046	3,785	30,383	150,125	1	291	12,368	6,198

The total quantities of the above specified articles exported to foreign and domestic ports, were as follows:

583,418. 192,787. 46,241. 788,956. 42,415. 67,392. 535,382. 997,458. 54,501. 44,147. 8,644. 636. 67,024

The receipts from the interior by the Mississippi River in the same year (1850-51) were valued at \$106,924,083, and comprised all the various staples for which the several regions of production are noted, alike mineral, vegetable, and animal; and there is, besides the river trade, an immense traffic on the new canal. The total number of flat-boats arriving at New Orleans during the year was 941, of which 218 were from Ohio, 58 from Kentucky, 298 from Indiana, 12 from Virginia, 222 from Pennsylvania, 19 from Illinois, 104 from Tennessee, and 10 from Mississippi; and the whole number of steamboat arrivals was 2,918.

Internal Improvements.—Hitherto Louisiana has depended with confidence on the great natural facilities for inland communication the State enjoys by means of the magnificent river and its dependencies which traverse its surface; but when it was discovered that the North had, by means of the Illinois Canal, constructed an artificial outlet for this great river into the lakes, this dream of security vanished, and the people interested in the commerce of the Gulf ports at once beset themselves to remedy the impending destruction of a commerce unequalled in extent by but one other section of the Union. The magnificent lines of railroads from the "father of waters" to the Atlantic Ocean, were also diverting a vast amount of the legitimate trade which naturally concentrated at New Orleans. And all these changes in the avenues of trade had been allowed to proceed, and with the exception of a few local railroads, Louisiana had not even extended her arms to arrest their influences. Awakened to a sense of duty, however, by the results of these new works—decreased receipts of produce, and decreased returning merchandise—no time was lost in premises, but the whole south-west met in convention at New Orleans, and unanimously resolved to cope with the leviathans which were sapping the foundations of their commercial prosperity. The principal remedies proposed were the extension of the railroad from New Orleans and the Gulf ports to the north and north-east, and seek a new market in the west by building lines into Texas, Arkansas, etc. The first would counteract the northern improvements, which had superseded the old river-course of trade, and by offering a more direct and rapid channel to the sea, recover the preference the deposit at New Orleans had formerly enjoyed. The improvement of the channel of the Mississippi below New Orleans, was also recommended, and will doubtlessly be undertaken by the general government at no distant period. The results of the convention have been an active enforcement of its recommendations, and numerous lines of railroad are being laid out and constructed in the directions indicated, the most important of which are the New Orleans, Jackson, and Northern R. R., and the railroads from the Mississippi toward Texas, from Lake Providence, via Shreveport, Marshall, etc., from Natchez, via Shreveport, etc., and from New Orleans, via Opelousas, Huntsville, etc. Railroads are also being built in almost every direction, to connect with the lines of other States, or afford facilities to the gulf ports generally; and at no distant day, it may be foreseen, Louisiana will be on a par with, or have outstripped many of her now successful competitors.

Banks, etc.—In December, 1850, the bank returns of Louisiana showed that there were at that period 5 banks, and 20 branch banks in the State, the aggregate condition of which was as follows: *Liabilities*—capital \$12,870,890, circulation

LOUISIANA.

\$5,059,229, deposits \$8,464,889, and due other banks \$1,884,232; and *assets*—loans and discounts \$19,809,108, real estate \$2,255,169, other investments \$2,042,149, due by other banks \$2,225,896, specie funds \$1,200,000, and specie \$5,716,001. The whole number of banks are located at New Orleans, the country banks being their branches.

Government.—The present constitution, which superseded the first constitution of the State, formed in 1812, was ratified by the people on the 5th November, 1845.

Every free white male person 21 years of age, two years a citizen of the United States, or resident in the State for two consecutive years next preceding the election, and the last thereof in the parish in which he proposes to vote, is allowed the *right of suffrage*. Absence from the State for more than 90 consecutive days, unless his house or place of business be occupied by his family or servants, interrupts the residence of the absentee.

The *Legislature* consists of a House of Representatives and a Senate; representatives not less than 70, nor more than 100 in number (now 97), and 16 senators, being half the whole number of senators, are chosen every second year, on the first Monday in November, and convene at the capital every second year, on the third Monday in January. Representatives must be free white males, 21 years of age, citizens of the United States, and residents of the State for the three years and residents of the parish for one year next preceding their election. A census will be taken in 1855, and every ten years thereafter, which will form the basis of apportionment; but every parish is entitled to at least one representative. Senators are chosen for four years. A senator must be 27 years of age, ten years a citizen of the United States, four years a resident of the State, and one year of the district he represents. Deducting the population of New Orleans from that of the State, the remainder, divided by 23, is the senatorial ratio for the districts. No session of the legislature shall last more than 60 days, and no act passed after being 60 days in session is valid. Members may address either house in the French or English languages, and the proceedings are published in both languages. Any one who fights a duel, acts as second, or sends or accepts a challenge, shall neither hold an office, nor enjoy the right of suffrage in the State.

The *Governor* is chosen by a plurality of votes, and holds office for four years. He must be 35 years of age, and a citizen of the United States, and resident in the State for 15 years next preceding his election. The Lieutenant-governor is elected for the same term, in the same manner, and must be similarly qualified. The governor is ineligible for the four years succeeding his term. He may veto a bill, but two-thirds of both houses may pass it again, and it thus becomes law. The lieutenant-governor is *ex-officio* president of the Senate.

The principal *administrative* officers are the Secretary of State, State Treasurer, Surveyor-general, Adjutant and Inspector-general, Auditor of Accounts, etc. The Treasurer is chosen biennially by joint ballot of the legislature.

The *Judiciary* consists of the Supreme Court and District Courts. The Supreme Court consists of a Chief Justice and three associate Justices, appointed by the Governor, with the advice and consent of the Senate, for the term of eight years. The Court sits in New Orleans from the first Monday in November to the end of June inclusive. The Supreme Court has appellate jurisdiction only when more than \$300 is in dispute, when the legality of any tax is in question, on all fines and penalties imposed by municipal corporations, and in criminal cases on points of law where death, hard labor, or a fine of more than \$300 is imposed. The Court may issue writs of habeas corpus in all cases where they have appellate jurisdiction. If the Judges are equally divided, the judgment appealed from stands affirmed. The Court has a reporter and clerks in New Orleans, Opelousas, Alexandria, and Monroe. The State is divided into seventeen districts. One district judge is appointed for each district, except for the district of New Orleans and Lafayette, where as many are appointed as are necessary. District judges must be citizens of the United States, above thirty years old, resident of the State for five years, and have practiced law therein five years. District Courts have jurisdiction when more than \$50 is at stake, and in all criminal cases.

The State has an Attorney-general, and in each district there is a District Attorney, appointed for two years. All civil officers, except the governor and the judges, are removable on an address of a majority of both houses of the legislature.

Amendments of the constitution must first be approved by three-fifths of both houses, then published in the newspapers throughout the State three months before the next general election, then approved by a majority of both houses in the next succeeding legislature, then published again as before, then submitted to the people, and if ratified by a majority of voters, the amendments shall form a part of the constitution.*

The *militia* of Louisiana consists of 43,823 men of all arms, of which number 1,392 are commissioned officers, and 42,431 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 10 are general officers, 55 general staff officers, 159 field officers, and 1,168 company officers. Every free white male person between the ages of 18 and 45 is liable to militia duty, unless exempt by law.

The most noted of the benevolent institutions of the State is the Charity Hospital at New Orleans, the benefits of which have been experienced by thousands who have been taken sick in that malarious city, and as many thousands have blessed the nursing hand of the kind sisters whose vocation it may have been to attend to their wants. In 1849 the number of admissions to this famous hospital was 15,553, of which 1,782 were natives of the United States, and 13,634 were foreigners, and 71 were blacks and 12,216 white males, and 3,342 white females. The number of deaths was 2,745, of which 2,369 were males and 376 females, and 1,122 died of Asiatic cholera, 545 of yellow fever, 224 of typhus fever, and 56 of other fevers. The number of patients remaining in the hospital on the 1st January, 1850, was 719. The income of the hospital for the year was \$89,951 30, and the expenditures \$92,998 43, averaging \$4 26 for each patient. Such an institution as this is an oasis in the wilderness of humanity.

Finances, Debts, &c.—The financial statement is made up biennially. The total receipts into the treasury for the year 1850 were \$1,008,175 91, and for the year 1851 \$836,247 44—total \$1,844,423 35; and the expenditures for 1850 were \$951,545, and for 1851 \$852,787 54—total \$1,804,332 54, leaving a balance of \$40,090 81 for future appropriation.

In 1845 the liabilities of the State on account of the property banks amounted to \$14,321,596; this has since been reduced \$3,744,596, leaving the liabilities of the State in 1850 \$10,577,000. The State debt proper amounted at the latter period to \$915,566. The State holds property not now productive valued at \$2,416,983.

The constitutional provisions respecting legislative finance were made very stringent in the new fundamental law. The constitution provides that the credit of the State shall not be lent to any person or corporation whatever, but new

* A convention was held at Baton Rouge in July, 1852, to revise the constitution, and the revised constitution would be submitted to the people for ratification on the 24 November of the same year. If ratified, the general elections were to take place on the fourth Monday of December, and the first Legislature would meet on the third Monday of January, 1853. The revised constitution provides for annual sessions of the Legislature, an elective judiciary, and removes some of the restrictions against the State's contracting debts, and permits the establishment of corporations.

LOUISIANA.

bonds may be issued to replace outstanding bonds. No State debt shall be contracted for more than \$100,000, except in case of war, invasion, or insurrection, unless authorized by law for some distinctly specified object or work, which law shall impose taxes to pay the current interest during the whole term of the debt, and also to pay the debt itself at maturity, and this law shall be irrevocable till the debt and interest are fully discharged, and shall not go into force till again enacted by the next legislature after its first passage. The State shall not subscribe to the stock of any company or corporation. No corporate company shall be hereafter created, renewed, or extended with banking or discounting privileges. After 1890 the charters of all corporations may be revoked, and no charter shall now be granted, except for municipal or political purposes for more than 25 years.

The assessed value of all real and personal property in Louisiana, on the 1st June, 1850, was \$220,165,172; but the true or estimate valuation of the same amounted, according to the returns of the federal census, to \$233,908,764.

Federal Representation.—Louisiana, according to the law of 23d May, 1850, apportioning federal representation, is entitled to send four representatives to Congress.

Religious Denominations.—The statistics of the several religious denominations in 1850, as ascertained by the census of that year, were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist	72 ..	15,258 ..	\$50,470	Germ'n Ref.	1 ..	500 ..	\$4,000	R. Catholic ..	55 ..	37,240 ..	\$1,045,650
Christian	2 ..	1,500 ..	61,000	Jewish	1 ..	600 ..	20,000	Swedenb'g ..	..	..	..

Friends	..	..	..	Presbyter'n.	17 ..	9,510 ..	149,300	Minor Sects 2 ..	1,650 ..	59,000	

Making the aggregate number of churches 268, valued as property at \$1,732,470, and capable of accommodating 104,053 persons. Louisiana forms a diocese of the Protestant Episcopal Church; and the arch-diocese, or province of New Orleans in the Roman Catholic Church, which has for its suffragan sees, Mobile, Natchez, Galveston, and Little Rock.

Education.—The constitution provides that "there shall be a superintendent of education, to hold office for two years. Free public schools shall be established throughout the State; the proceeds of lands granted for the purpose, and of lands escheated to the State, shall be held as a permanent fund, on which six per cent. interest shall be paid by the State for the support of these schools." The school fund, 1st January, 1850, amounted to \$40,272 63, on which \$19,105 84 of interest had accrued up to that date; and besides the proceeds of the school fund, the yearly sum of \$250,000 is appropriated for the support of the free schools of the State, and is derived from a mill tax on property, and a poll tax of one dollar on each white male inhabitant. The whole number of school districts in the State on the 30th September, 1849, was 521; number of schools in operation, 704; number of children between 6 and 16 years of age, 53,716; average attendance for the year, 22,927; and 20,262 children did not attend school. The average period of tuition was 6 months and 13 days. Amount expended for teachers' salaries, \$195,889; expended for building, renting, and purchasing school-houses, \$134,639. There are also in almost every parish numerous private, classical, and other high schools. The principal collegiate institutions in the State are—the University of Louisiana at New Orleans, founded in 1849, and established with 7 professors; it has also a medical department, which in 1850 had 7 professors and 183 students; the Centenary College (Methodist), at Jackson, founded 1839—in 1850 it had 7 professors, 40 alumni, 94 students, and a library of 5,000 volumes; the St. Charles College (Roman Catholic), at Grand Coteau, founded 1838—in 1850 it had 21 professors and 108 students, with a valuable library of about 4,000 volumes; Baton Rouge College, founded 1838—in 1850 it had 4 professors and 45 students; Franklin College, at Opelousas, founded 1839—in 1850 it had 4 professors and 70 students; and several others, among which are the Catholic Colleges at Baton Rouge and New Orleans, both of which are flourishing institutions.

Libraries.—One State library, 7,000 volumes; 1 social library, 10,000 volumes; 4 college libraries, 13,000 volumes—being a total of 6 libraries and 80,000 volumes. The census makes no returns of students' libraries, the libraries of academies and professional schools, the libraries of scientific and historical societies, nor of school libraries, although there are numbers of each description in the State.

Periodical Press.—The whole number of periodicals and newspapers published in the State on the 1st June, 1850, was 60, of which 17 were whig and 17 were democratic—the remaining 26 being neutral in politics or devoted to literature, science, religion, etc. Of the whole number 11 were issued daily, circulating 81,750 copies; 2 tri-weekly, 1,900 copies; 6 semi-weekly, 3,300 copies; 40 weekly, 32,017 copies; and 1 monthly, 12,200. Among the publications in New Orleans are many of the best conducted and most talented papers of the Union; and no other city can boast of such a magazine of statistical information as De Bow's Review.

Pauperism and Crime.—The whole number of paupers that received support within the year ending June 1st, 1850, was 423, of which 133 were native born, and 290 foreign; and the whole number of paupers at the above date was 106, of which 76 native born, and 30 foreign annual cost of support, \$39,806. The State Penitentiary is at Baton Rouge. The number of convicts remaining in confinement, 1st October, 1848, was 152, and the number received during the year following was 105—male, 257; 52 discharged, 2 pardoned, 7 died, and 2 escaped—in all 63, leaving, 1st October, 1849, 194. The receipts for the year were \$49,283 74; and the expenditures, \$42,623 69—making a net gain from convict labor equal to \$6,655 05

Historical Sketch.—The legends of De Soto, Marquette, and La Salle, shall not arrest our attention. These wild and daring passages belong rather to the romancer than to the historian. Louis XIV. seized upon the proposal of Iberville, and addressed himself in earnest to a new and vast country, which dazzled his ambition. Iberville, and Bienville, his brother, founded a colony of Frenchmen on the shores of Louisiana in 1699. This is the earliest era in the history of Louisiana.

In 1712 the King of France granted a charter to M. Crozat, which covered the whole province. The aims of both parties were commercial, and included the whole of the Mississippi and its tributary bays, lakes, rivers, and bordering territories. M. Crozat was endowed for twenty years with exclusive privileges of trade in these countries—to work mines for gold and precious stones, with a large share of the results. The laws, edicts, and ordinances of the realm, and the customs of Paris were extended over Louisiana. The privileges allowed to Crozat were ample; but so vain are the calculations of men when employed upon novel enterprises, they satisfied not one of his greedy desires after wealth in the

LOUISIANA.

Western World. The grant was surrendered, after five years, into the hands of the king, with the bitter complaint that from the imbecility of the colony, the strength of the Indians, the presence of the British, and the sterility of the soil, it had proved of no kind of value whatever to him, but rather a ruinous expense.

There settled in Paris about this time a man from Scotland by the name of John Law; he was a restless projector, a daring financier, and full of enterprise. This extraordinary man soon succeeded in gaining an influence over the Duke of Orleans, then regent, obtained a charter for a bank of \$1,200,000, substituted paper for specie, and set the whole French nation mad with magnificent schemes of creating wealth, as it were, by the wand of a magician. The Chancellor D'Aguesseau opposed this daring scheme with infinite peril to himself. To the Royal Bank of Law was attached a great commercial company, in which were to be concentrated all the rights, privileges, and possessions of all the trading companies then chartered in France. To this company was granted the great territory of Louisiana as it was surrendered up by Crozat. All France was in commotion—every man, woman, and child became a financier; the boot-black and collier of to-day were the grandees of to-morrow, and their splendid equipages dazzled the bewildered populace. The Royal Bank stock went up to six hundred times its par value, and dividends were rendered at 200 per cent. The exhaustless mines near the Mississippi would reimburse any investment, it was said; but in three years John Law was a bankrupt, the government itself was prostrated, the deluded votaries of stock-jobbing were undone, the magnificent Western Company—the Mississippi Scheme—became a by-word; the banking bubble, when inflated to the skies, had burst! The charter of the company was granted for twenty-five years; it was to have exclusive privileges of trade, and of the purchase of beaver skins for exportation. To it belonged by prescription the right to make all Indian wars and treaties, work all mines, grant lands, construct fortifications, nominate governors, and appoint inferior judges. Its vessels and crews to be of the French nation, and the descendants of the colonists to be counted natural born subjects of France, etc. There are different accounts of the condition of Louisiana during the time it remained under the Western Company, who enjoyed the privileges granted to Law. By some it is represented to have been in a deplorable condition; while others assert that these were the best years which Louisiana knew under the dominion of France, the white population having increased from 700 to 5,000, and the black from 20 to 2,000; "a vast number of handsome cottages lined both sides of the river at the German coast; the culture of rice, indigo, and tobacco, and a regular administration of justice were provided for." The Western Company, in despair of finding the gold they had anticipated in Louisiana, from mineral researches turned their attention to agriculture. To promote their aims, large grants were made to powerful and wealthy individuals: to Law they granted a plot of twelve miles square. These grantees were to introduce settlers, but they succeeded to an extent far less than was anticipated, while sanguinary Indian wars desolated the colony. The company, in utter hopelessness, threw up their charter in April, 1733, which the king accepted, and declared the commerce of Louisiana thenceforward free.

The French colonial government was now initiated. The commissioner, Salmon, took possession for the king. The new government established consisted of a Superior Council, of the Governor-general of New France, the Governor and Commissary of Louisiana, the King's Lieutenant, and the Town Mayor of New Orleans, six councillors, an attorney, and a clerk. A war broke out between Great Britain and France in 1760, the influence of which was felt throughout all America. In this war our own Washington began his career of glory. Canada fell into the hands of the English, and rather than submit to the consequences, large numbers of its inhabitants sought a home in southern climes, fixing themselves on the Acadian coast of Louisiana, or taking their course westward of the river, formed the settlements of Attakapas, Opelousas, and Avoyelles.

France looked to Spain in her emergencies, and the Duc de Choiseul, the minister, entered into a family compact with the Spanish king on the 15th August, 1760, and on the 3d Nov., 1762, a secret treaty between the two governments ceded the territory of Louisiana west of the Mississippi, with New Orleans, to Spain. The bad system of government under which Louisiana had long suffered, was attended with the consequences which were to be expected from it, and the sovereignty of the finest country of the world, says Marbois, a country which might have become another France, was of no use to the parent State, but was even a charge to her. After the experience of several years, the government, wearied with a possession which its faults and ignorance had made burdensome, felt disposed to abandon it. In 1763 Great Britain, France, and Spain entered upon the Treaty of Paris, and terminated their difficulties. France abandoned to Great Britain all her northern possessions, the whole of Louisiana east of the Mississippi, except New Orleans, and the navigation of that river was made free to the subjects of either nation. Thus did France, by her cessions to Britain and Spain, divest herself of every foot of territory she held in North America. The private treaty of cession to Spain was long held secret, and it was not till 1764 that D'Abadie was ordered by Louis XV. to announce the fact to the colony. D'Abadie was broken-hearted at the intelligence, and died before he could communicate it. The duty devolved upon his successor, Aubry. A day of lamentation and sorrow had dawned upon the Louisianians, and they heard their fate with settled gloom. A general meeting of the leading inhabitants was hastily assembled in New Orleans, and entreaties were sent up to the throne that this painful treaty might not be made to go into effect. The king declared the treaty to be irrevocable.

Don Ant. de Ulloa arrived in Louisiana in 1766, appointed, as he professed, by Charles of Spain to take possession of the province. His powers being demanded by the colonists, were not shown, and hence he was notified to depart, which he did in a few days, amid the universal rejoicing of the people. Scarcely, however, had the colony breathing time, before it was announced that a Spanish frigate was upon the coast, and notwithstanding the threats of the populace, Don Alex. O'Reilly, commander of the Spanish forces, landed and sent up a message to Governor Aubry, informing him that he was prepared to take possession of the country, and that any show of resistance would be signally punished. The inhabitants returned a declaration to the Spaniard, declaring their intention to abandon the colony, and requested two years delay to effect the arrangement. O'Reilly consented with apparent cheerfulness and with the warmest professions of regard. He soon after landed at the city and took formal possession in the name of the king. But this display of clemency was but the precursor of the worst excesses of tyranny. Some of the first citizens were arrested and thrown into prison, declared guilty of treason, and tried under the statute of Alphonzo, making it death to incite insurrection against the king. Sentence and execution followed. "Posterity," says the historian Martin, "will doom this act to public execration," and posterity, we may add, has already branded it as one of the blackest which it is the shame of history to record. What was the precise character of the powers conferred upon O'Reilly has never yet been satisfactorily determined. The King of France, in writing to D'Abadie at the period of the cession, conceded that the laws, forms, and usages of the colony would be preserved, but this does not appear to have been inserted in the treaty of cession. O'Reilly, as soon as he was at ease in his government, made a proclamation to the people, declaring himself empowered to establish that form of government, dependence, and subordination which should accord with the good of his master's

LOUISIANA.

service and the happiness of his subjects in the colony. The laws of Spain were now gradually extended over Louisiana, and in the end but little trace of French legislation remained. The transition, however, was not sudden, and little inconvenience resulted from it. When the American Revolution had progressed, and Spain, in an endeavor to mediate between the contestants had failed, the Catholic king prepared himself for war. Galvez, governor of Louisiana, threw himself upon the British garrison at Baton Rouge, and captured it. An American minister was sent to Madrid to negotiate a favorable treaty for his countrymen, and to obtain for them, if possible, the free navigation of the Mississippi to the sea. The treaties between Great Britain, France, and Spain, and the United States concluded in 1788, opened the navigation of the river, ceded the Floridas to Spain, and bounded the possessions of the two countries by a line eastward of the 31st parallel on the Mississippi to the Appalachicola River, through the middle of that river to its junction with the Flint, from the Flint to the head of St. Mary's River, and down the St. Mary's to the Atlantic. These treaties were soon followed by embarrassing disputes, in which the Spaniards laid claim to a large tract of country and an exclusive right to the navigation of that portion of the Mississippi which passed through their territories, against both which claims the United States protested.

It may be remarked that very little, if any, intercourse was tolerated by the Spaniards through the Mississippi, with the people of the United States. Any attempt to navigate the river, or to introduce merchandise into New Orleans by boats was resisted and the property seized. About the year 1787, General Wilkinson, a revolutionary officer, conceived the design of making a settlement of American families in Louisiana, for which he expected to receive some commercial favors from the Spaniards. He descended the river to New Orleans with a small adventure of tobacco, flour, etc., and by an artifice, so worked upon the fears of Miro, the governor, that he was disposed to listen to the proposals of opening a traffic with the people of the Western States. Miro flattered himself that the result would be a division of the States of the Union, and that those westward of the Alleghanies would attach themselves to the interests of Spain. In 1788 the navigation of the Mississippi was conceded to the young West, on condition of its forming an empire distinct from that of the Atlantic States. That the people of the West entertained the project can not be denied, but on second thoughts returned loyally to their country, and on the admission of Kentucky into the Union, the whole scheme of separation fell through.

In 1790 it was again attempted to procure from Spain the navigation of the Mississippi for the United States, also the island on which New Orleans is situate, and the Floridas. The propositions were not assented to, but five years after the American plenipotentiaries signed, at San Lorenzo, a treaty stipulation for the freedom of the river to their countrymen, and a freedom to use for ten years the City of New Orleans as a depot for their merchandise.

Spain had no sooner signed the treaty than she began to regret her liberality. Her alliance with France and the position of the United States, determined her by all means to hold on to the territory of Upper Louisiana, which she had agreed to cede. In vain the United States sent its officers to take possession of the ports and settlements—in vain the settlers protested against the delay. A magnificent scheme had been planned and was in progress, the design of which was to prevent Louisiana forever from falling into the hands of the American government. The Baron de Carondelet endeavored to sound General Wilkinson on the subject, and to bring him over to the plan by flatteries and by the most liberal offers. Wilkinson, however, dismissed the messenger with an expression of views little favorable to the project that had been opened to him. The blame or innocence of the general on these premises is a canvassed subject, and need not be further mentioned in this connection. Nor need we here mention his connection with Burr on a future occasion, further than to state that whatever plans of aggrandizement either might have entertained were never brought to fruition, and are subjects now only interesting to the historical antiquary.

The face of European affairs in May, 1798, influenced the American people to put on their armor. Washington was again appointed to the head of the army, and difficulties with regard to Louisiana, and consequent losses to the government, forced upon all minds the absolute necessity for the acquisition of New Orleans, whatever might be the hazard. Louisiana, indeed, occupied an unenviable position at this time. She had been abandoned by France, and the French people had regarded the cession with regret and indignation, so much so, indeed, that on the breaking out of hostilities with the Spaniards, Mons. Genet, the young and rash minister from France, employed himself, immediately after his arrival, in devising and carrying out a comprehensive scheme for the invasion of Louisiana with troops and arms procured in the United States. How his course was denounced at Washington—how he appealed from the President to the people—and though his conduct was disowned by his own government, how that same government demanded the restoration of Louisiana to the French Republic, are matters of general history. In other respects was the position of Louisiana remarkable. The United States had long been regarding with jealousy the existence of a territory in the hands of a foreign power, capable of influencing the destiny of the great central valley. A plot had been laid, too, by an American citizen, Blount, then governor of Tennessee, the object of which was to throw down upon Louisiana, during the wars between England and Spain, in 1797, through the medium of the western waters, large numbers of British troops from Canada. The plot was discovered, Blount degraded by the Senate, and the English Government exonerated from the charge of any knowledge of the proceedings. The eyes of Spain were not closed to the difficulties of her position. Bonaparte had by this time assumed the reins of government, and he cherished the idea of bringing back to the parent country a province he conceived had been unnaturally severed from her. His sophisms soon prevailed over Spain; he represented "that Louisiana, restored to France, would be a bulwark for Mexico, and a security for the tranquillity of the Gulf." On the 1st October, 1800, was concluded the celebrated treaty of San Ildefonso, and Louisiana again became a French colony. Bonaparte took immediate steps to enter upon his new possession. Gen. Victor was appointed Commissioner for accepting the transfer, and proclamations announcing the changed circumstances of the colony were issued. The Louisianians prepared an address in reply, in which they declared that the proclamations had filled the people with joy, and that they already felt the happiness of their reunion with their ancient nationality. Every thing, indeed, seemed favorable for the re-establishment of the French government in the province—and all was rejoicing and congratulation, when a vessel arrived at the levée from Bordeaux, and the news soon spread that the Corsican had sold their country and themselves to the neighboring republic. The treaty of Paris, signed 18th April, 1803, had ceded Louisiana and all its appurtenances forever to the United States; and the United States had agreed to pay 60,000,000 francs to discharge certain claims of their citizens on France. The difficulties which immediately followed the acquisition were perplexing; and even in the United States many there were who viewed the treaty as unconstitutional; but, like all difficulties, these came to an end, and the American flag waved over the city of New Orleans on the 20th December—the same day having witnessed the descent of the Spanish ensign and the elevation of the tri-color, the latter only having been raised to be re-placed by the stars and stripes.

LOUISIANA.

The first act of Governor Claiborne, on taking the chair of authority, was to organize a judiciary, which he did by establishing a Court of Pleas, consisting of seven justices. The Act of Congress, 20th March, 1804, established a territorial government, Louisiana was divided into two sections, of which that now constituting the State of the same name was to be known as the Territory of Orleans. The Act provided for a governor, appointed for three years, a secretary for four years, a legislative council of thirteen freeholders, a judiciary, according to the regulations of the legislative council, but to be appointed by the President. The period that elapsed between the Act of 1804 and the one of 2d March, 1805, which set up another territorial government, was one of dissatisfaction to the people. They complained that the governor was unacquainted with the language, their laws, and their interests, and that he favored only his own countrymen, etc. On these subjects the citizens memorialized Congress. The council as established in the meanwhile passed several acts bearing upon the proper organization of the territory, dividing it into 12 parishes or counties, with inferior courts in each, instituting modes of procedure, defining crimes, etc., chartering the city, and establishing (on paper) a university. The effect of the dissatisfaction before alluded to produced the territorial act of 1805, by which Congress set up a government in Louisiana similar to that of the Mississippi Territory, and provided for its admission into the Union when it should have 60,000 inhabitants. This act gave to the people the election of a legislature, and to the legislature the election of a legislative council or Upper House. The first acts of the new government were the adoption of the "code Noir," or black code, for the government of the slaves, and the appointment of a commission to prepare a civil code based upon the former laws of the country. The latter was completed in 1808, and embraced, besides the compilation of the old codes, many of the provisions of the "code Napoleon."

Having settled these points, Louisiana was prepared to meet the position of things which was forced upon her in relation to Spain, and in the anxieties which arose in relation to boundaries, and the opposing claims of the two nations, it is likely that hostilities would have occurred, had not the intimation of a vast scheme on foot for the separation of the western country from the Union, at the head of which was Aaron Burr, influenced Gen. Wilkinson and the Americans to compromise matters with the Spaniards, and concentrate every thing to meet the threatened danger. The reports which reached Louisiana each day in relation to this plot were alarming; military preparations were being urged on all sides, and Burr himself, after a reward offered for his arrest, was taken at Fort Stoddard, and conveyed to Richmond.

The conflicting claims of the United States and Spain, to the strip of territory east of the Mississippi River, and south of the 31st parallel to the Perdido River, were brought to something like a crisis in 1810, by the seizure of the Spanish post at Baton Rouge, the holding a convention at St. Francisville, declaring their independence, and setting up a constitution, and, by a proclamation of the President, taking possession of the territory. The event was peaceable, and the parishes of Feliciana, East Baton Rouge, St. Helena, St. Tammany, Bienville, and Pascagoula were soon after established.

On the 11th February, 1811, an act of Congress was passed to enable the inhabitants of Louisiana to form a constitution and State government, if the same should be the desire of the people, signified by the calling of a convention. This body being called, assembled at New Orleans, and unanimously signed a constitution based upon that of Kentucky, on the 22d January, 1812. This constitution was superseded by that of 1845, and another constitution, or a revision of the latter, is now about to be voted on by the people.

The share that Louisiana took in the war of 1812, though signalized in history, is so familiar as to require only a short notice. Wilkinson took possession of the country west of the Perdido, then in the occupation of Spain. The English colonel, Nichols, arrived at Pensacola, and made proclamation to all Englishmen, Spaniards, and Frenchmen to join his standard, and resist the encroachments of the United States. To the people of Kentucky this officer proposed similar terms; and to the privateer La Fitte and his followers at Barrataria, he was most prodigal in his offers. The overtures, says Marbois, were repelled with indignation, and the men who saw no degradation in enriching themselves by plunder, had a horror of treason. The course of General Jackson, in relation to the Spaniards and English at Pensacola, is familiar to all.

An attack on New Orleans being now inevitable, the most extraordinary preparations were made to raise forces, and provide fortifications and armaments to meet the impending danger. The city was all excitement. "The people were preparing for battle, as if for a party of pleasure," says a historian, "the streets resounded with martial airs, several corps of militia were constantly exercising, every bosom glowed with the feelings of national honor." The west was pouring down upon the city—martial law was proclaimed. The battle of New Orleans, of 8th January, 1815, was fought and won to the high honor of the American people, and the lasting laurels of the great man who commanded, and who, whatever his faults, is becoming every day more and more honored in the memory of his grateful and admiring countrymen.

The history of Louisiana, since she has become a State, has yet to be written. The uninterrupted prevalence of peace in our country takes away from this chapter those lively features which characterize anterior periods. The records of revolution, of changing dynasties, of deeds of arms and high renown, are not presented here, and perhaps to the general reader the whole is a hopeless blank. But to those seeking higher views of individual good and national destiny, the onward march of the arts of peace, the extraordinary development of industrial resources, the unmatched augmentation of population and wealth, the erection of an opulent State, with laws, government, and order, in a former French and Spanish province, are events worthy of the highest efforts of the historian, replete with interest, and deserving of careful study.

BATON ROUGE, on the east bank of the Mississippi, has been the seat of government since the constitution of 1845 went into effect, until which time New Orleans was the State capital.

LOUISIANA, p. v., Pike co., *Mo.*: on the left bank of the Mississippi, about 2 m. below the mouth of Salt r., 82 m. N. E. Jefferson City. It has a good landing, and considerable river trade. It contains several stores, warehouses, and lumber yards, and 1,840 inhabitants, of whom 130 are slaves. Two weekly papers are published, the "L. Weekly Record" (whig), and the "Democratic Banner."

LOUISVILLE, p. o., Barbour co., *Ala.*: 8 m. E. of Pea r., 57 m. S. E. Montgomery.

LOUISVILLE, p. v., and cap. Jefferson co., *Ga.*: a little E. of Ogeechee r., 54 m. E. by S. Milledgeville. It contains a court-house, formerly the State house, an academy, jail, and

200 inhabitants. Here the Legislature of the State met from 1835 to 1837, and here, on the 13th February, 1796, the celebrated *Yacoo Acts* were burned.

LOUISVILLE, p. v., Clay co., *Ill.*: on the W. bank of Little Wabash r., and E. side of Twelve Mile Prairie, 94 m. S. E. Springfield.

LOUISVILLE, p. city, port of entry, and cap. Jefferson co., *Ky.*: on the S. or left bank of the Ohio r., at the head of the rapids, 51 m. W. Frankfort. Lat. 38° 08' N., and long. 85° 30' W.—590 m. W. by S. Washington; and by the course of the river 625 m. below Pittsburg, and 394 m. above the mouth of the Ohio. Jeffersonville, the terminus of the

Jeffersonville R. R. from Indianapolis, lies on the opposite side of the river. The navigation of the Ohio is here interrupted by rapids, and except in the time of flood Louisville is the natural head of steam navigation, but the navigation is continued around this obstruction by means of the Louisville and Portland Canal, which is capacious enough to admit the passage of the largest river craft. It is 50 feet wide, 10 feet deep, and $2\frac{1}{2}$ m. in length. Its influence in directing trade to the upper ports, however, is supposed to be prejudicial to Louisville.

This city is the commercial and manufacturing metropolis of the State, and is the natural entrepôt of a large country, reached by several railroads and turnpikes. The lines of railroad diverging from this point (including those in progress) are the Louisville and Lexington R. R., which at Lexington connects with railroads to the Gulf and Southern Atlantic ports, the Louisville and Covington R. R., which at the latter place meets the railroads of Ohio and those pointing to Boston, New York, Philadelphia, Baltimore, Richmond, etc., and the Louisville and Nashville R. R., pointing to the South, and the Jeffersonville R. R. gives it access to the N. and N. W., *via* Indianapolis. A company has also been organized for the purpose of bridging the Ohio at Louisville. Hitherto the railroads have had comparatively little influence on its trade; their benefits are in the future.

Louisville was laid out as early as 1773, but no settlement was made for the subsequent five years, nor until after the expulsion of the British from their posts on the Wabash. The first block house was built in 1773, but this was subsequently removed to make way for Fort Nelson, erected in 1782. In 1780 the town was established by an act of the Legislature of Virginia. At this period the inhabitants numbered only thirty. In 1800 the population amounted to 600; in 1810 to 1,300; in 1820 to 4,000; in 1830 to 10,341; in 1840 to 21,210; and in 1850 to 43,196.

The city is built on a spacious sloping plane 70 feet above low water mark, and is laid out with regularity, the streets intersecting at right angles, in a direction with and from the river, on which are extensive wharves. Ten streets run parallel with the river, and thirty streets intersect them. It contains the County Court-house and a City Hall, both extensive and handsome edifices, the county jail, the city prison, a marine hospital, and numerous benevolent institutions, the University of Louisville, a School of Medicine, and a Law School, departments of the University, and two banks and one branch bank, two savings banks, several insurance companies, etc. It is liberally supplied with churches and schools, some of the church buildings being fine specimens of architecture. Louisville may proudly claim a pre-eminence both as to the early foundation, the progress and the present condition of its public schools, and within the limits of the city there are besides many private and church schools, which would compare well with the best eastward of the mountains. It has orphan asylums and a Magdalen retreat, a school for the blind, a public hospital, and many other liberally supported establishments, designed to relieve the unfortunate of the city. The streets are lighted with gas, and it is supplied with excellent water: both accommodations by companies. Its hotels are spacious and fitted with every convenience, and its markets abound in all esculent products, for which the vicinity is famed. Among the literary and scientific institutions of the city the most prominent are the Mercantile Library Association, the Kentucky Historical Society, the Agricultural and Horticultural Society, etc. The whole number of church buildings is 46, capable of accommodating 19,610 persons, and valued as property at \$590,900. Of these 5 are Baptist, 8 Episcopal, 17 Methodist, 5 Presbyterian, 4 German Evangelical, 1 German Lutheran, 1 German Reformed, 2 Disciples, 1 Unitarian, 4 Roman Catholic, and 2 Jewish. The public press of Louisville is conducted with great talent, and several of the papers are rich in statistical information. The daily papers are the "Democrat" (dem.),

"Journal" (dem.), the "Advertiser" (neut.), the "Courier" (whig), the "Journal of Commerce" (whig), and the "Beobachter am Ohio" (Germ.), and of these the Democrat and the Journal have tri-weekly and weekly editions, the Advertiser and Beobachter semi-weekly and weekly editions, and the Courier and Journal of Commerce weekly editions. The weekly papers, others than those above named, are the "Presbyterian Herald" and the "Baptist Banner" (relig.), and the "Indian Advocate," and the monthly periodicals are the "Baptist Review" (relig.), the "Ciceronian Magazine" (liter.), the "Medical Journal" (med.), and the "Examiner," devoted to the cause of negro emancipation. The papers having the largest circulation are the Democrat, Journal, and Courier.

The manufactures of Louisville are very extensive, and embrace a great variety of objects. It has several foundries and machine-shops, at which a vast amount of machinery, etc., is annually turned out; several large steam bagging factories and ropewalks, cotton and woolen factories, tobacco factories, flouring mills, distilleries, breweries, agricultural implement factories, and numerous other establishments, small and large, which in the aggregate constitute a vast industry. Louisville is also extensively engaged in ship-building, and in the year ending 30th June, 1850, no less than 84 steamers, of 6,460 tons, were built in the district. The shipping owned at the period specified amounted to 14,820 tons, all navigated by steam and employed in the river trade.

As a commercial and shipping point, Louisville is the third in importance on the Ohio. Its immediate trade extends into all the surrounding country, and embraces, within the State of Kentucky, a circuit of the most productive region in the world. Its wharves are at all times thronged by steamboats and other river craft, carrying to and fro a merchandise in amount inferior only to that coming to and going from Cincinnati and Pittsburgh. The value of its commerce has been estimated at \$70,000,000 per annum. Its exports consist chiefly of tobacco, bagging, rope and cordage, spirits, pork, flax and hemp, live-stock, machinery for steamboats and railroads, factories, mills, and farms, and a great amount of groceries and assorted goods, which are carried to every river-town, or to the sea-board for exportation; and its exports comprise every article and product needed in its interior commercial range. In the year 1850 its chief imports were as follows: Sugar, 13,320 hds., 9,200 bls., and 755 boxes; molasses, 13,010 bls.; coffee, 34,572 bags; rice, 752 tierces; bagging, 65,250 pieces; rope, 56,300 coils; twine, 2,056 bales; hemp, 15,354 bales; cotton, 7,857 bales; cheese, 20,373 boxes; flour, 73,850 bls.; whisky, 39,897 bls.; liquors and wines, 5,988 casks; nails, 45,261 kegs; tobacco, 7,425 hds. and 6,530 boxes; salt—Kanawha, 112,250 bls.; Turks Island, 40,525 bags; and Liverpool, 10,350 bags; merchandise, 105,730 boxes, bales, and pkgs.; drugs, dyes, etc., 14,378 pkgs.; hides, 13,891 dozen; merchandise, 5,132 crates and casks; hogs for slaughter, 197,750; pork, 75,500 bls., etc. In addition to this quantity of pork, there are annually received thousands of tons of bacon by wagon, etc., which is packed in this city in casks, and largely exported. The detail of the exports can not well be ascertained, as no record whatever has been kept of them; but some estimate may be formed as to their amount from the foregoing. Steam-packets, carrying the mail and passengers, come and go several times daily. It is estimated that at least 10 steamboats leave the port daily, and also from 6 to 7 packets.

The following statistical information is from Mr. Casse-day's History of Louisville: "Louisville contains 25 exclusively wholesale dry goods houses, whose sales are made only to dealers, and whose market reaches from Northern Louisiana to Northern Kentucky, and embraces a large part of the States of Kentucky, Indiana, Tennessee, Alabama, Illinois, Mississippi, and Arkansas. The aggregate amount of annual sales by these houses is \$5,533,000, or an average

of \$284,000 to each house. The sales of three of the largest of these houses amount in the aggregate to \$1,789,000. Neither this statement nor those which follow include any auction sales. In boots and shoes, the sales of eight houses of the above description reach \$1,184,000, or \$184,000 to each house. The sales of the three largest houses in this business reach \$680,000. The aggregate amount of eight houses in drugs, etc., is \$1,128,000, or \$140,875 to each house; and the sales of the three largest houses amount to \$758,000. The sales of hardware by nine houses amount annually to \$590,000, being an average of \$65,555 to each house. The sales of saddlery reach \$950,000, of which nearly one-half is of domestic manufacture. The sales of hats and caps, necessarily including sales at retail, amount to \$683,000. The sales of queens-ware, less reliably taken, reach \$265,000. There are thirty-nine wholesale grocery houses, whose aggregate sales reach \$10,628,400, which gives an average of \$272,400 each." The amount of imports, before given, will perhaps afford a better idea of this business than these figures, and hence are referred to. The following recapitulatory table will enable the reader to see at a glance all that has just been stated:

Description of Business.	Number of Houses.	Aggregate Annual Sales.	Average Sales of each House.
Groceries	39	\$10,628,400	\$272,400
Dry Goods	25	5,858,000	284,000
Boots and Shoes. .	8	1,184,000	148,000
Drugs	8	1,128,000	140,875
Hardware	9	590,000	65,555
Queens-ware	6	265,000	44,166
Hats,Caps,F's,etc.	8	688,000	85,875
Total	108	\$20,821,400	\$197,295

Louisville was named by the Virginia Legislature after Louis XVI. of France, in commemoration of his alliance with the great Republic of the West, then just rising from its probationary condition of colonial dependence.

LOUISVILLE, p. v., and cap. Winston co., *Miss.*: 82 m. N. E. Jackson. It contains a court-house, jail, 3 academies, several large stores, and 400 inhabitants. The "L. Telegraph" is published weekly.

LOUISVILLE, p. o., Lincoln co., *Mo.*: 64 m. N. E. Jefferson City.

LOUISVILLE, t. and p. v., St. Lawrence co., *N. Y.*: on the St. Lawrence, 169 m. N. N. W. Albany. Drained by Grasse river. Surface undulating; soil fertile loam, lying upon limestone. Agriculture is the leading interest. The v. lies on Grasse r., and contains a bank and several stores. Pop. of t. 2,054.

LOUISVILLE, p. v., Stark co., *Ohio*: 104 m. N. E. by E. Columbus. It is on the Ohio and Pennsylvania R. R., 12 m. from Alliance.

LOUISVILLE, sta., Licking co., *Ohio*: on the Sandusky, Mansfield, and Newark R. R., 7 m. from Newark.

LOUISVILLE, p. v., Blount co., *Tenn.*: on the S. or left bank of Tennessee r., 154 m. E. by S. Nashville.

LOUISVILLE LANDING, p. v., St. Lawrence co., *N. Y.*: on the bank of St. Lawrence r., 172 m. N. N. W. Albany.

LOUTRE ISLAND, p. o., Montgomery co., *Mo.*: near the entrance of Loutre r. into the Missouri, 41 m. E. by N. Jefferson City.

LOVELACE, p. o., Wilkes co., *N. Car.*: 162 m. W. by N. Raleigh.

LOVELACEVILLE, p. o., Ballard co., *Ky.*: 242 m. W. S. W. Frankfort.

LOVELADY, p. o., Caldwell co., *N. Car.*: 158 m. W. by N. Raleigh.

LOVELAND, p. o., Clinton co., *Penn.*: 82 m. N. W. by N. Harrisburg.

LOVELAND, p. v. and sta., Clermont county, *Ohio*: 82 m. S. W. by W. Columbus. The sta. is 27 m. from Cincinnati, by the Little Miami R. R., and from this point the Cincinnati, Hillsboro', and Parkersburg R. R. diverges.

LOVELLA, p. v., Monroe co., *La.*: 77 m. W. S. W. Iowa City.

LOVELL, t. and p. o., Oxford co., *Me.*: 67 m. W. S. W. Augusta. It contains a large, and many small ponds, sending out branches of Saco r., on one of which is a curious fall, of 40 feet perpendicular descent. Soil very fertile, and water-power and timber abundant. Pop. 1,196.

LOVELY MOUNT p. o., Montgomery co., *Virg.*: near New river, 167 m. W. by S. Richmond.

LOVE'S MILLS, p. o., Washington county, *Virg.*: 235 miles W. by S. Richmond.

LOVE'S, sta., Baltimore co., *Md.*: on the Baltimore and Susquehanna R. R., 20 m. N. of Baltimore.

LOVETTSVILLE p. v., Loudon county, *Virg.*: 114 miles N. Richmond.

LOVETTS, p. o., Adams county, *Ohio*: 78 miles S. by W. Columbus.

LOVEVILLE, p. v., New Castle co., *Del.*: 89 m. N. Dover.

LOVINGTON, p. v., and cap. Nelson county, *Virg.*: 76 m. W. by N. Richmond. It contains a court-house, jail, and several stores.

LOVINGTON, p. v., Moultrie co., *Ill.*: 46 m. E. Springfield.

LOWELL, p. o., Randolph co., *Ga.*: on Patoula cr. near its entrance into Chattahoochee river, 149 miles S. W. Milledgeville.

LOWELL, p. v., Henry co., *La.*: on the left bank of Skunk river, 57 m. S. Iowa City.

LOWELL, p. o., Johnson co., *N. Car.*: 26 m. S. E. Raleigh.

LOWELL, t. and p. o., Penobscot co., *Me.*: 91 m. N. E. Augusta. A large pond lies on the N., and Passadumkeag river flows through the S. into the Penobscot, turning several lumber-mills. Lumbering is the principal occupation. Pop. 873.

LOWELL, t., p. city, and one of the caps. Middlesex co., *Mass.*: 24 m. N. W. Boston. Drained by Concord r., which falls into the Merrimac in the N. E. part of the town. Lowell was taken from Chelmsford in 1826, and embraces also some territory and the v. of Belvidere, E. of Concord r., formerly belonging to Tewksbury. The city lies at the confluence of the Concord, in lat. 42° 38' 46" N., and long. 71° 19' 02" W. It is this city which, from the amount, variety, and character of its manufactures, has been appropriately designated the "Manchester of America." Few other places in the Union have sustained so rapid a growth. In 1820 scarcely 200 inhabitants were found within its limits, nor was it until 1821 that the site was chosen whereon to establish a manufacturing community. In the next succeeding year the Merrimac Manufacturing Company, with a capital of \$1,500,000, was established, and their first mill went into operation in 1828. From these small beginnings the city has risen to its present eminence and world-wide celebrity. In thirty years what a change!

In 1850 it had ten manufacturing companies making cotton or woolen goods, and two other companies—one bleaching and the other owning the machine shop, and the aggregate condition of the establishments of each at that period was as follows:

Companies.	When Com'd.	Company Capital.	No. Mills.	No. of Spind's.	No. of Looms.	Hands.	Emp. M. F.
Mer. Manf. Co. 1828	\$2,500,000	6	69,440	2,108	645	1,614	
Ham. Maf. Co. 1825	1,200,000	4	38,416	1,124	325	840	
Appleton Co. 1828	600,000	2	17,920	600	120	400	
Low. Manf. Co. 1828	1,500,000	8	11,862	154	225	550	
Middlesex Co. 1882	1,000,000	4	16,340	408	575	730	
Suf. Manf. Co. 1882	600,000	8	17,528	590	100	400	
Tremont Mills 1832	600,000	2	14,560	557	100	400	
Law. Manf. Co. 1838	1,500,000	5	44,800	1,882	200	1,200	
Low. Bleach'y 1832	262,400	—	—	—	200	20	
Boott Cot.Mills 1886	1,200,000	5	49,434	1,432	262	870	
Mass. Cot.Mills 1840	1,800,000	6	45,720	1,556	250	1,250	
Low. Mach.Sh. 1845	600,000	—	—	—	700	—	
Total	\$18,862,400	40	325,520	9,906	8,702	8,274	

In the ten cotton and woolen establishments, consisting of forty mills, the weekly consumption of cotton was 705,400 pounds, and of wool 69,000 pounds; and the number of yards of fabric produced was 2,185,477, of which 1,190,000 yards were cotton, 20,477 woolen, 15,000 carpeting, and 40 rugs. In the dyeing and bleach works the goods finished per week amounted to 9,889,000 yards. In these manufactures the consumption of coal was annually 28,520 tons, of charcoal 34,993 bushels, of wood 2,270 cords, of oil 107,577 gallons, of starch 1,890,000 pounds, and of flour 1,640 barrels. The whole of these establishments are warmed by steam and lighted with gas. The average wages of females, clear of board, is \$2 per week, and the average wages of men, clear of board, 80 cents a day. Medium produce of a loom, No. 14 yarn, is 45 yards a day, and of No. 80 yarn, 38 yards—average per spindle, 1½ yard a day. The Middlesex Company also own the Wamscet Carpet Mill on Concord River, where are consumed annually 93,600 pounds coarse wool and 36,400 pounds of worsted yarn, producing annually 91,000 yards of ingrain carpeting. Other manufactures are produced in the city than those specified above, of a value of \$1,500,000, employing a capital of \$400,000, and about 1,500 hands, and embracing several different handicrafts—powder-mills, paper-mills, batting-mills, a foundry, a planing-mill, etc., owned by individuals. The Lowell Machine Shop, included among the establishments noted in the table, can furnish machinery complete for a mill of 6,000 spindles in three months, and a mill can be built in the same time.

The association called "The Proprietors of the Locks and Canals on the Merrimac River," are the principal owners of the water-power at Lowell. This company was organized 1792, for the construction of a canal from the head of Pawtucket Falls, in Merrimac River, to Concord River, and open a passage for boats and rafts. This canal is 1½ m. long, 60 feet wide, and 6 or 8 deep, and is still used to some extent for its original purpose; but the company's revenue chiefly consists of rents for supplying water-power to the several mills. In 1847 this canal was found to be insufficient for the increasing wants of the community, and the company constructed a new canal of greater capacity; this is a mile long, and 100 feet wide, and 15 feet deep, and for solidity of workmanship and completeness in its arrangements, is unsurpassed by any like work in the Union. The facilities thus created have been the means of building up the important manufactures which distinguish the place, and place it so far ahead of all other manufacturing centres.

Lowell, as a city, is regularly planned, and has many important public buildings and institutions. The Court-house, City Hall, Market-house, Hospital, Mechanics' Hall, etc., are edifices worthy the greatness of the place. The Mechanics' Hall was erected by an association of mechanics in 1845, and is a splendid building, with philosophical apparatus and a mineralogical museum, and lectures on scientific and literary subjects are delivered in it at stated periods. The library, containing about 7,000 volumes, is open to all at a charge of 50 cents a year. The Hospital was erected in 1839 by the several companies, for the convenience and comfort of persons employed by them respectively when sick, and is under the superintendence of an able surgeon and physician.

Among the institutions of Lowell, perhaps none speak more loudly of a moral community than its two savings institutions—the Lowell and the City. The Lowell had on deposit the first Saturday of November, 1850, from 4,609 depositors \$736,623 12; and the City, from 615 depositors \$75,970 51. The operatives in the mills are the principal depositors in these institutions. For business purposes Lowell has four banks.

The churches of the city are many of them neat and substantial edifices, and are twenty-three in number, including sectaries of every denomination. These are well attended

by the young people employed in the mills. Schools are also amply provided for. The appropriation for the purposes of education in 1850 was \$43,000, which goes toward the support of the City High School, 10 grammar schools, and 46 primary schools. The total expenditure of the city in the same year was \$178,614. The public press of Lowell consists of one daily, two tri-weekly, three weeklies, and two monthly publications. The daily is the "L. Journal" (whig), which has also a weekly edition; the tri-weeklies are the "L. Advertiser" (whig), and "L. American" (dem.), the latter of which issues also a weekly edition; the weeklies are the "Patriot and Republican" (dem.), the "Vox Populi," and the "Business Directory;" and the monthlies, the "New England Offering," and the "Insurance Intelligencer." The "Offering" was originally written and edited by the ladies attached to the factories, and was one of the best edited periodicals of the State, reflecting credit alike on the fair editors themselves and the institutions which could furnish education sufficiently extended to fit them for such occupations.

A reservoir of great capacity has been built on the high ground in Belvidere, east of the city, for the purpose of furnishing a ready supply of water to any part of the city in cases of fire. The water is conveyed into the reservoir by force-pumps from the Lowell Machine Shop. Pipes are laid from the reservoir to various parts of the city, at which points hose can be attached to the hydrants without delay, when necessary.

The railroads diverging from Lowell are the Salem and Lowell R. R., the Boston and Lowell R. R., the Nashua and Lowell R. R., and the Lowell and Lawrence R. R.; and these connect it with the sea-board and interior, and make it a great centre of transportation and local trade.

The population of Lowell in 1830, was 6,474; in 1840, 20,796, and in 1850, 33,383, being an increase from 1830 to 1840 of 221.22 per cent., and from 1840 to 1850, 60.53 per cent. The present (1853) population can not be less than 40,000.

LOWELL, t. and p. o., Dodge co., *Wisc.*: 88 m. N. E. by E. Madison. Drained by Beaver dam (or Crawfish) r., the W. branch of Rock r. and its branches. Soil superior for grass growing. Pop. 894.

LOWELL, p. o., Oneida co., *N. Y.*

LOWELL, p. v., Washington co., *Ohio*: on the left bank of Muskingum r., 89 m. E. by S. Columbus.

LOWELL, t. and p. o., Orleans co., *Verm.*: 88 m. N. by E. Montpelier. Mississippi r. rises in the S., and furnishes water-power. Surface somewhat rugged, but soil mostly fertile and productive. Pop. 637.

LOWELL, p. v., La Salle county, *Ill.*: on the W. side of Vermillion r., 109 m. N. by E. Springfield. Here are considerable falls in the river, and extensive mills.

LOWELLVILLE, p. v., Mahoning co., *Ohio*: on the left bank of Mahoning r., 143 m. N. E. by E. Columbus.

LOWER BARTLETT, p. v., Coos co., *N. Hamp.*: on Saco r., 61 m. N. N. E. Concord.

LOWER BERN, p. o., Berks co., *Penn.*: 43 m. E. by N. Harrisburg.

LOWER CHANCEFORD, t. and p. o., York co., *Penn.*: 88 m. S. E. Harrisburg. Susquehanna r. bounds it E., and Muddy cr., which furnishes good water-power, on the S. and W. Surface varied, and soil very productive. The Tidewater Canal passes through it along the Susquehanna.

LOWER COLUMBIA, p. o., Coos co., *N. Hamp.*: 106 m. N. by W. Concord.

LOWER GILMANTON, p. o., Belknap co., *N. Hamp.*: 18 m. N. E. Concord.

LOWER LAWRENCE, p. v., Washington co., *Ohio*: 92 m. E. S. E. Columbus.

LOWER MAHANTANGO, t. and p. o., Schuylkill county, *Penn.*: 29 m. N. E. Harrisburg. Drained by Deep and Swatara creeks, on which are large saw-mills. Surface mountainous; soil in the valleys very fertile. Anthracite-

coal is largely found and conveyed east and west by railroads.

LOWER MABELBOROUGH, p. v., Calvert co., *Md.*: on the E. side of Patuxent r., 24 m. S. S. W. Annapolis.

LOWER MERION, t. and p. o., Montgomery co., *Penn.*: on the W. side of the Schuylkill, 86 m. E. by S. Harrisburg. Drained by Mill and Cobb's creeks, and well supplied with water-power. Surface moderately uneven, and soil a highly cultivated loam. It is extensively engaged in manufacturing cotton and woollen goods, paper, etc. The Columbia and Philadelphia A. R. and Philadelphia and Reading A. R. pass through it.

LOWER NEWPORT, p. v., Washington co., *Ohio*: on the Ohio r., 96 m. E. S. E. Columbus.

LOWER PEACH TREE, p. v., Wilcox co., *Ala.*: on right bank of Alabama r., 76 m. W. S. W. Montgomery. Here is a good landing, several stores, and 200 inhabitants.

LOWER SALEM, p. v., Washington county, *Ohio*: 86 m. E. by S. Columbus.

LOWER SAUCON, t. and p. o., Northampton co., *Penn.*: on the S. side of Lehigh r., 88 m. E. by N. Harrisburg. Drained by Saucon cr., and well furnished with mill privileges. Surface hilly, and soil adapted to grass or grain. Two bridges cross the Lehigh, along which the Lehigh Navigation Canal passes.

LOWER SQUANKUM, p. v., Monmouth co., *N. Jer.*: 84 m. E. S. E. Trenton.

LOWER THREE RUNS, p. o., Barnwell dist., *S. Car.*: on a branch of Savannah r., 66 m. S. W. Columbia.

LOWER WATERFORD, p. v., Caledonia co., *Verm.*: near the Connecticut r., 32 m. E. by N. Montpelier.

LOWERY, p. o., Barnwell dist., *S. Car.*: S. W. Columbia.

LOWEVILLE, p. o., Meriwether county, *Ga.*: 97 m. W. Milledgeville.

LOW HAMPTON, p. v., Washington co., *N. Y.*: 51 m. N. N. E. Albany. It is near the Rutland and Washington Railroad.

LOWHILL, t. and p. o., Lehigh co., *Penn.*: 69 m. E. N. E. Harrisburg. Surface hilly; soil gravelly loam and mostly productive. It has considerable trade in lumber, and several small manufactories.

LOWNDES county, Ala. Situate S. centrally, and contains 869 sq. m. Drained by Pintala, Big Swamp, and Mask creeks, affluents of the Alabama, which is its N. boundary. Surface rolling or gently uneven; soil of average fertility. Cotton and corn are the leading crops. Swine are fed in great numbers, and the export of pork is very large. It has several mill streams, and a good growth of pine forest. Farms 874; manuf. 2; dwell. 1,854, and pop.—wh. 7,258, fr. col. 8, sl. 14,649—total 21,915. *Capital*: Haynesville. *Public Works*: Montgomery and Mobile Railroad (projected).

LOWNDES county, Ga. Situate S., and contains about 1,650 sq. m. Drained by Allapahaw r., its E. boundary. Withlacoochee, Little, and New rivers, all branches of the Suwanee, which flows into the Gulf. Surface level or undulating; soil various—in parts very fertile, in parts sandy barrens. It is generally well wooded, and has some excellent timber near the rivers. Cotton, corn, buckwheat, and potatoes produce largely, but the great business is raising cattle and swine. Live-stock, beef, butter, and pork are the exports. It is on the S. line, and the State boundary is in dispute with Florida. Farms 649; manuf. 2; dwell. 932, and pop.—wh. 5,845, fr. col. 22, sl. 2,484—total 8,351. *Capital*: Troupsville. *Public Works*: Brunswick and Florida R. R. and Albany Branch R. R.

LOWNDES county, Miss. Situate N. E., and contains 589 sq. m. Drained by Little Tombigbee r. and its numerous branches. Surface undulating, and somewhat uneven; soil very fertile. Cotton is the great staple, and it is one of the largest cotton-growing counties in the State. Corn yields a good crop, and some parts grow wheat. It has fine water-power and extensive and rapidly increasing manufactures.

Lying at the head of navigation on the Tombigbee, it has easy access to market, and is the outlet for a large district. Farms 725; manuf. 68; dwell. 1,168, and pop.—wh. 6,523, fr. col. 28, sl. 12,993—total 19,544. *Capital*: Columbus.

LOWNDES, p. o., Wayne county, *Mo.*: 137 m. S. E. Jefferson City.

LOWNDESBOROUGH, p. o., Lowndes county, *Ala.*: 18 m. W. by S. Montgomery.

LOWNDESVILLE, p. o., Abbeville dist., *S. Car.*: about 5 m. E. of Savannah r., 44 m. W. by N. Columbia.

LOW POINT, p. v., Woodford co., *Ill.*: 55 m. E. by E. Springfield. Pop. 140.

LOW POINT, sta., Dutchess co., *N. Y.*: on the left bank of the Hudson, 11 m. S. of Poughkeepsie by the Hudson River R. R. Here is a ferry to Newburg on the W. side, and a convenient landing for vessels and steamboats, with several large warehouses.

LOWRANCE'S MILL, p. o., Lincoln co., *N. Car.*: 118 m. W. by S. Raleigh.

LOWRY, p. o., Athens co., *Ohio*: 81 m. S. E. by E. Columbus.

LOWRY'S CROSSING, sta., Bedford co., *Virg.*: 19 m. W. of Lynchburg, on the Virginia and Tennessee R. R.

LOWRYVILLE, p. v., Madison co., *Ill.*: 68 m. S. by W. Springfield.

LOWRYVILLE, p. v., Hardin co., *Tenn.*: 102 m. S. W. Nashville.

LOW'S CORNER, p. o., Sullivan county, *N. Y.*: 84 m. S. W. by S. Albany.

LOWVILLE, t. and p. v., Lewis co., *N. Y.*: 122 m. N. W. Albany. Drained by branches of Black r., which turn many saw and grist mills. Surface rolling; soil very fertile, especially in the E. on Black r. A superior farming t., well timbered. The v. is near Black r., and contains a bank, an incorporated academy, a dozen stores, several mills, and 800 inhabitants. Two weekly papers are published, the "L. County Republican" (dem.), and "Northern Journal" (whig). Pop. of t. 2,377.

LOWVILLE, t. and p. o., Columbia co., *Wis.*: 24 m. N. by E. Madison. Surface slightly broken, and soil fine grain land. Pop. 297.

LOYDSVILLE, p. v., Belmont co., *Ohio*: 103 m. E. by N. Columbus.

LOY'S CROSS ROADS, p. o., Anderson co., *Tenn.*: 154 m. E. Nashville.

LUBEC, t. and p. v., Washington co., *Me.*: at the W. entrance of Passamaquoddy Bay, 146 m. E. N. E. Augusta; soil fertile. The chief interests are commerce and the fisheries, and centre in the v., which occupies a point of land extending into the harbor, 8 m. from Eastport. The harbor is of easy access, admits vessels of any size, and is well protected by Grand Menan and Campobello islands. On the most E. point of the t. is W. Quoddy Head light-house. An extensive coasting trade is carried on, and cod and mackerel fishing largely followed. Pop. of t. 2,814.

LUBEC MILLS, p. o., Washington co., *Me.*: 141 m. E. N. E. Augusta.

LUCAS county, Ia. Situate S. middle, and contains 492 sq. m. Drained by Fox cr. and Chariton r. of the Missouri, and White Breast River, and other branches of the Des Moines. Surface rolling, and soil fertile, adapted to grass or grain, and generally timbered, with a sufficiency of mill-seats. Little settled. Farms 32; manuf. 0; dwell. 92, and pop.—wh. 471, and fr. col. 0—total, 471. *Capital*: Polk.

LUCAS county, Ohio. Situate N. W., and contains 392 sq. m. Drained by Ottawa and Maumee rivers, and Swan cr., emptying into Maumee Bay, the W. end of Lake Erie, which is the E. boundary of the county. Surface generally even, and soil mostly fertile. Wheat, corn, oats, and barley grow easily and produce well. It is a good grazing co., and rears many cattle, and exports much pork. Water-power is abundant, and its manufactures, already large, are

growing rapidly. It has considerable lake-trade, and is the great thoroughfare for W. travel and freight, by water and land routes. Farms 638; manuf. 101; dwell. 2,225, and pop.—wh. 12,223, fr. col. 140—total 12,363. *Capital*: Maumee City. *Public Works*: Wabash and Erie Canal; Erie and Kalamazoo R. R., etc.

LUCAS, p. o., Richland county, *Ohio*: 66 m. N. by E. Columbus.

LUCASVILLE, p. v., Scioto co., *Ohio*: on the left bank of Scioto r., 73 m. S. Columbus.

LUCERNE, p. o., Washtenau co., *Mich.*: 51 m. S. E. Lansing.

LUCERNE, p. o., Knox co., *Ohio*: 47 m. N. E. Columbus.

LUCINDA FURNACE, p. o., Clarion co., *Penn.*: 148 m. W. N. W. Harrisburg. Here is a charcoal furnace of 1,500 tons annual capacity.

LUCKY HIT, p. o., Limestone co., *Ala.*: 176 m. N. by W. Montgomery.

LUDA, p. o., Washita co., *Ark.*: 81 m. S. S. W. Little Rock.

LUDLOW, t. and p. v., Hampden county, *Mass.*: 73 m. W. by S. Boston. Drained by Chicopee r. and its branches, which afford good water-power. Surface agreeably uneven; soil productive and well tilled. It is mostly a farming t. and well wooded. In the S. on the Chicopee, and near the Western R. R., is a thriving manufacturing village where are cotton factories with abundance of water. Pop. of t. 1,186.

LUDLOW, p. o., Scott co., *Miss.*: E. Jackson.

LUDLOW, sta., Hamilton co., *Ohio*: 8 m. N. of Cincinnati, on the Cincinnati, Hamilton, and Dayton R. R.

LUDLOW, t. and p. v., Windsor co., *Verm.*: 61 m. S. Montpelier. Drained by Black and Williams' rivers, which afford excellent water-power. Surface hilly, and soil finely adapted to grazing. Live-stock and wool are valuable exports. The v. is on Black r., and has a large trade and growing manufactures. It contains a flourishing academy, and several stores and mills, and is 28 m. by the Rutland and Burlington R. R. from Bellows Falls. Pop. of t. 2,063.

LUDLOWVILLE, p. v., Tompkins co., *N. Y.*: on Salmon cr., near the E. side of Cayuga Lake, 146 m. W. Albany. The cr. has a very large fall here, and in the v. are 6 or 8 mills, and 600 inhabitants.

LUMBER BRIDGE, p. o., Robeson co., *N. Car.*: 85 m. S. by W. Raleigh.

LUMBER CITY, p. o., Telfair co., *Ga.*: near the confluence of Oconee and Ocmulgee rivers, 89 m. S. by E. Milledgeville.

LUMBERLAND, t. and p. o., Sullivan co., *N. Y.*: On Delaware r., 96 m. S. W. by S. Albany. Drained by Mongaup r. and other branches of the Delaware, on which are great numbers of large saw-mills. Surface hilly, and soil gravelly loam, and densely covered with pine and oak timber. The soil is little tilled, but lumber, which is exported by the r. and canal in immense quantities, and leather, are products of great value. The Delaware and Hudson Canal passes along the r. in the S., crossing it at the mouth of Lackawaxen cr., and the Erie R. R. enters the t. some miles above from the Pennsylvania side. Pop. 2,635.

LUMBERPORT, p. o., Harrison county, *Virg.*: 203 m. N. W. by W. Richmond.

LUMBER RIVER, sta., Horry district, *S. Car.*: on the Wilmington and Manchester R. R., 72 m. from Wilmington.

LUMBERTON, p. v., and cap. Robeson co., *N. Car.*: on the E. bank of Lumber r., 83 m. S. by W. Raleigh. It contains a court-house and several stores, and is engaged in the turpentine and lumber trade.

LUMBERTON, p. o., Clinton county, *Ohio*: 65 m. S. W. Columbus.

LUMBERTON, p. v., Burlington co., *N. Jer.*: 19 m. S. by W. Trenton.

LUMBERVILLE, p. v., Bucks co., *Penn.*: on the right bank of Delaware r., 96 m. E. by N. Harrisburg. The Delaware

division of the Pennsylvania Canal passes through it, 27 m. S. of Easton.

LUMPKIN county, *Ga.* Situate N., and contains 546 sq. m. Drained by Chestatie r., a branch of the Chattahoochee, and Etowah r. of the Coosa, heads of the Alabama and Appalachicola respectively. Surface rugged and mountainous, with beautiful fertile valleys on the streams. Corn and pork are the staples. It has some excellent grazing and good dairies, and raises fine wheat in small quantities. It is in the heart of the gold region, and has the richest mines E. of the Mississippi, and a branch mint at its capital. Farms 598; manuf. 0; dwell. 1,881, and pop.—wh. 7,993, fr. col. 22, sl. 939—total 8,954. *Capital*: Dahlonega.

LUMPKIN, p. v., and cap. Stewart county, *Ga.*: 123 m. S. W. by W. Milledgeville. It contains a court-house, jail, a dozen stores, and 300 inhabitants.

LUMPKIN'S, sta., Burke co., *Ga.*: on the Augusta and Waynesboro' R. R., 41 m. from Augusta.

LUNENBURG county, *Virg.* Situate S. E., and contains 408 sq. m. It has Nottoway r. on the N., and Meherrin r. on the S., which form the Chowan, and is drained by their branches. Surface diversified agreeably, with some considerable hills; soil of good fertility, yielding great crops of tobacco, which is the staple product, and fair crops of corn and wheat. It has many mill-streams and small manufactures. Farms 543; manuf. 13; dwell. 820, and pop.—wh. 4,810, fr. col. 195, sl. 7,187—total 11,992. *Capital*: Lunenburg C. H.

LUNENBURG C. H., p. v., and cap. Lunenburg co., *Virg.*: 61 m. S. W. Richmond. It contains a brick court-house, jail, and clerk's office, and 150 inhabitants.

LUNENBURG, t. and p. v., Worcester co., *Mass.*: 39 m. W. N. W. Boston. Drained by branches of Nashua r., which are fed by three large ponds. Surface elevated and uneven; soil clayey and adhesive, and generally productive. Farming and grazing are the leading pursuits, but it manufactures boots and shoes, leather, cabinet-ware, and agricultural implements, etc., in small amounts. The Fitchburg R. R. passes through the S. part, and has a sta. there 8 m. E. of Fitchburg. Pop. of t. 1,249.

LUNENBURG, t. and p. o., Essex co., *Verm.*: on Connecticut r., 45 m. E. by N. Montpelier. It lies immediately above the Fifteen Mile Falls on that r., and is well furnished with water-power by Neal's and Catbow branches. Surface uneven and soil very stony, but mostly fine pasture. Cattle and dairy products are the chief exports. Pop. 1,124.

LUNNEY'S CREEK, p. o., Hardy county, *Virg.*: 161 m. N. W. Richmond.

LURAY, p. v., Henry county, *Ind.*: 44 miles E. N. E. Indianapolis.

LURAY, v., Licking co., *Ohio*: on the S. branch of Licking river, 23 m. E. Columbus. Pop. 88.

LURAY, p. v., and cap. Page co., *Virg.*: on a branch of Shenandoah r., 88 m. N. W. by N. Richmond. It contains a court-house, several stores, and 500 inhabitants.

LUTHERSBURG, p. v., Clearfield county, *Penn.*: 113 m. W. N. W. Harrisburg. Limestone is quarried near it.

LUTHERSVILLE, p. o., Meriwether co., *Ga.*: 97 m. W. by N. Milledgeville.

LUTZERNE county, *Penn.* Situate N. E., and contains 1,265 sq. m. Bounded S. E. by Lehigh r., and W. by the Susquehanna, and drained by its numerous branches, the largest, Lackawanna r., and its affluents, draining the N. half. Surface much diversified, in parts rugged and broken, with lovely valleys; soil generally very fertile; parts are untillable. Oats, corn, wheat, buckwheat, rye, and potatoes are all fine crops, and produce largely. It is a fine grazing region, and feeds great numbers of sheep, and markets much live-stock, beef, and pork. Anthracite coal abounds, and forms a valuable export. It has great facilities for manufactures, which are very largely prosecuted, especially of flour, iron, iron-ware, and lumber. Farms 1,936; manuf. 175; dwell. 9,587, and pop.—wh. 55,699, fr. col. 373—

total 66,072. *Capital*: Wilkesbarre. *Public Works*: Lackawanna and Western R. R.; Cobb's Gap R. R.; Pennsylvania Coal Co. R. R.; North Branch Division of Pennsylvania Canal, etc.

LUZEBNE, t. and p. v., Warren co., *N. Y.*: 86 m. N. Albany. Bounded W. and S. by Hudson river, on which are Hadley and other large falls. Surface very hilly in the E.; on the Hudson level bottom of great fertility. Lumber is the chief product. The v. is on the r., and contains several mills and 800 inhabitants. Pop. of t. 1,300.

LYCOMING county, *Penn.* Situate N. centrally, and contains 927 sq. m. Drained by W. branch of the Susquehanna, and Pine, Lycoming, Lyeosock, and Muncy creeks, its affluents. Surface broken and mountainous in the middle; more even, though hilly, in the N. and S. parts. Soil of great fertility, especially on the streams, in its numerous valleys. Wheat, corn, buckwheat, rye, oats, and potatoes are the staples, all growing excellent crops of superior quality. It is eminently a grazing co., pasturing large numbers of cattle and sheep, with fine dairies and valuable exports of butter, cheese, wool, and pork. Water-power it has in abundance, and superior timber. Its manufactures are varied, extensive, and employ a large capital. Iron, flour, lumber, leather, liquors, and woolen goods are made. Farms 1,561; manuf. 282; dwell. 4,586, and pop.—wh. 25,890, fr. col. 867—total 26,257. *Capital*: Williamsport. *Public Works*: Pennsylvania Canal; Williamsport and Elmira R. R.

LYCOMING CREEK, p. o., Lycoming county, *Penn.*: 73 m. N. by W. Harrisburg.

LYELL'S STORE, p. o., Richmond county, *Virg.*: 44 m. E. N. E. Richmond.

LYMAN, t. and p. o., York co., *Me.*: 74 m. S. W. by S. Augusta. Drained by a branch of Saco r. and Kennebunk r., which rises in a pond near its centre. Surface somewhat uneven, and soil fertile and well cultivated. The York and Cumberland R. R. passes near the N. corner. Pop. 1,876.

LYMAN, t. and p. v., Grafton co., *N. Hamp.*: on the Connecticut river, 78 m. N. N. W. Concord. Drained E. by branches of Ammonoosuc river. Surface uneven, but not mountainous. Soil generally productive, and good pasture land. The v. is on the Connecticut, which has several falls, and is crossed by a ferry. Pop. of t. 1,442.

LYMAN CENTRE, p. v., York co., *Me.*: 76 m. S. W. by S. Augusta.

LYMANSVILLE, p. v., Potter co., *Penn.*: 119 m. N. W. by N. Harrisburg.

LYME, t. and p. v., New London co., *Conn.*: at the mouth of the Connecticut, on the E. side, 39 m. S. S. E. Hartford. Drained by Blackhall and Four Mile rivers, and other small streams flowing into the river and Sound. Surface in the S. mostly level, with extensive salt meadows; in the N. broken and stony, with much excellent pasture. Farming and grazing are leading interests, and wool a considerable export. Small factories of cotton and woolen goods are operated on the streams, and the indentations of the coast afford several harbors and give it facilities for commerce. The village is a wide street, lined with fine farm-houses, half a mile E. of the river, and has a landing for steamboats and a ferry to Saybrook. The New Haven and New London R. R. crosses the town, and connects with the W. side of the river by a ferry. The station at the ferry is 16 m. W. of New London. Pop. of t. 2,668.

LYME, t. and p. v., Grafton co., *N. Hamp.*: on the Connecticut, 52 m. N. W. by N. Concord. Drained by small affluents of the Connecticut, on which are numerous saw-mills. Surface moderately uneven, and soil generally fertile and well timbered. The village is on the Connecticut, and contains a flourishing academy and several stores. Pop. of t. 1,618.

LYME, t. and p. o., Huron county, *Ohio*: 88 m. N. by E. Columbus. Drained by Pipe cr., which flows into Lake Erie. Surface level, and soil superior for grain-growing. The Toledo, Norwalk, and Cleveland R. R., and Mad River

and Lake Erie R. R. pass through it and intersect near its W. line. Pop. 1,869.

LYNCHBURG, p. v., Campbell co., *Virg.*: on the S. side of James r., 22 m. below Balcony Falls, and 91 m. W. by S. Richmond. Lat. 37° 38' N., and long. 79° 22' W. The James River and Kanawha Canal, now finished W. to the mouth of North r., is at present the great channel of its commerce with the sea-board; but it is soon to be connected E. and W. by a magnificent line of railroads—the South Side R. R. to Petersburg, 120 m., and Richmond, 122 m., and the Virginia and Tennessee R. R., and connections to and beyond the Ohio r. and the Mississippi, passing through the principal commercial centres of the great interior basin; these lines are rapidly being completed, and before the expiration of the year 1855 the whole will be in operation. The v. is well located for business and health, on ground rising gently from the river, and on every side environed by magnificent scenery, overlooked on the W. by the lofty peaks of the Blue Ridge mountains, rising in one place—the Peaks of Otter—to an elevation of 4,260 feet above the sea level. In 1793 Lynchburg contained but five dwellings, and it is now one of the largest, most wealthy, and busy places of the State, and has an amount of trade surpassed by no other place between the Ohio River and the Atlantic sea-board. Its buildings, public and private, are substantial, and in many instances handsome structures; and its warehouses are large and filled with the produce of a wide tributary country. It has 6 or 7 extensive tobacco warehouses, in which from 10,000 to 12,000 hogsheds of tobacco are annually inspected, and there are some 25 or 30 tobacco factories, each of which on an average turn out 1,500 boxes annually. Cotton and iron are also manufactured here to a considerable extent, and there are several extensive flouring and other mills. Lynchburg has three banks; and there are published in the v. three newspapers, the “*L. Virginian*” (whig), the “*Virginia Patriot*” (whig), and the “*L. Republican*” (dem.); the water-power applicable to manufactures is large and valuable, and has been greatly increased by a dam above the v., which latter also creates the reservoir or source of the water supplied to the inhabitants, which is raised to an elevation by means of pumps and distributed through pipes. Below this, and connecting the city with the opposite bank, a bridge crosses the river, over which is the road to Charlottesville. Pop. about 8,071.

LYNCHBURG, p. v. and sta., Highland co., *Ohio*: on the E. branch of Little Miami river, which affords several fine mill-sites, 63 m. S. W. by S. Columbus. The station is 10 m. from Hillsboro', on the Cincinnati, Hillsboro', and Parkersburg R. R.

LYNCHBURG, p. o., Lincoln co., *Tenn.*: 56 m. S. by E. Nashville.

LYNCHBURG, sta., Sumter dist., *S. Car.*: on the Wilmington and Manchester R. R., 28 m. from Manchester.

LYNCH'S CREEK, p. o., Marion district, *S. Car.*: on the stream so called, 87 m. E. by S. Columbia.

LYNCH'S creek, *S. Car.*: rising in North Carolina, after a S. S. E. course of 125 m. flows into Great Pedee r., and is navigable through half its length.

LYNCH'S LAKE, p. o., Williamsburg dist., *S. Car.*: 81 m. S. S. E. Columbia.

LYNCHWOOD, p. o., Kershaw dist., *S. Car.*: on the W. side of Lynch's cr., 47 m. N. E. by E. Columbia.

LYNDBOROUGH, t. and p. o., Hillsborough co., *N. Hamp.*: 26 m. S. W. by S. Concord. Drained by branches of Souhegan r. Surface rough and stony, but it has very superior pastures, and some good farms. Pop. 968.

LYNDON, p. v., Whitesides co., *Ill.*: about 1 m. W. of Rock r., 184 m. N. by W. Springfield. It was the former cap. of the co., and contains an academy, several stores, and 450 inhabitants.

LYNDON, t. and p. v., Caledonia co., *Verm.*: 85 m. N. E. Montpelier. Drained by Passumpsic r. and its branches, which supply it with an abundance of excellent water-power.

The Great Falls of the Passumpsic descend 65 feet in 80 rods, within the t., and the Little Falls 18. Surface undulating, and soil rich loam, free from stone, and of easy tillage. Live-stock, wool, and dairy products, form heavy exports. The v. is on the Passumpsic, and contains an academy, and several manufactories. The Connecticut and Passumpsic Rivers B. R. passes through the t. Pop. of t. 1,752.

LYNDON CENTRE, p. o., Caledonia co., *Verm.*: 87 m. N. E. Montpelier.

LYNDONVILLE, p. v., Orleans co., *N. Y.*: on Johnson's cr. 246 m. W. by N. Albany. It contains several mills and stores, and 500 inhabitants.

LYNESVILLE, p. v., Granville county, *N. Car.*: 55 m. N. Raleigh.

LYNN, t., p. city, and port, Essex co., *Mass.*: 9 m. N. E. Boston. The town extends some 6 m. along the sea, and is almost surrounded with water. On the W. is Saugus river, on the S. the harbor, on the S. E. the ocean, and on the N. are the Lakes of Lynn, a chain of ponds. The S. part of the t. is an inclined plane, bounded on the N. by bold porphyritic hills, beyond which the surface is thickly covered with timber. From its S. E. corner, extending into the ocean 4 m., is Nahant peninsula, at the S. extremity of which is located the celebrated watering-place of the same name. Phillip's Point, another peninsula, is also a fine summer resort, and in the N. part of the t. is a noted mineral spring, much frequented by invalids. The city of Lynn is pleasantly situated, and well laid out in broad and airy streets, and has an excellent harbor. Lat. $42^{\circ} 27' 51''$ N., and long. $70^{\circ} 57' 25''$ W. It contains 15 churches, 10 school-houses, an academy, 2 banks, a savings institution, 2 insurance offices, and several literary, scientific, and benevolent institutions. Two newspapers, the "L. News (whig), and the "Bay State" (dem), are issued weekly. It is celebrated for its manufacture of ladies' shoes, and its extensive cod and mackerel fisheries. The shoe business is the life of Lynn. Only women's, misses', and children's shoes are made here. Engaged in this business, there are of manufacturers, or men who "carry on the business," 89; of cutters, or men who "cut out" the shoes, 175; of men and boys employed in "making" shoes, 2,458; of men and boys so employed, but living out of the town, about 900; of women and girls employed in "binding" shoes, 4,925; of the same so employed, and living out of the town, about 1,600; making of employees an aggregate of 10,058. The number of men and boys employed in making shoes is more than 70 per cent. now than it was in 1842. The increase in the number of women and girls employed in binding shoes has been correspondingly great. The number of pairs of shoes made last year (1849), was 3,540,000 pairs. The cost of material of these was \$1,585,545; that of making them \$957,080—making the cost of the 3,540,000 pairs of shoes to have been \$2,392,575. Shoe-making was a principal business of the inhabitants before the Revolution, and hence the people of the "City of Shoes" ought to be endowed with good *understandings*. The population of the town in 1790 was 2,291; in 1800, 2,887; in 1810, 4,087; in 1820, 4,515; in 1830, 6,138; in 1840, 9,867, and in 1850, 14,259—the increase for the last two decennial periods having been upward of 52 per cent. The Eastern R. R. passes through Lynn, 9 m. from Boston.

LYNN, p. o., Susquehanna co., *Penn.*: 114 m. N. N. E. Harrisburg.

LYNN, p. o., Randolph county, *Ind.*: 53 m. E. by W. Indianapolis.

LYNN CAMP, Knox county, *Ky.*: 93 m. S. E. by S. Frankfort.

LYNNFIELD, t. and p. v., Essex co., *Mass.*: 12 m. N. Boston. Drained by Ipswich and Saugus rivers, which afford good water-power. Surface rugged; soil unproductive, with some arable land of superior quality, mostly well wooded, and in parts covered with large forests. Woollens, boots and shoes, iron-ware, and several kinds of tools, etc., are

manufactured. Its romantic scenery makes it a favorite resort in summer of parties from the neighboring cities. The South Reading Branch of the Boston and Maine R. R. passes through it, and has a sta. 6 m. W. of Salem. Pop. of t. 1723.

LYNNFIELD CENTRE, p. v., Essex co., *Mass.*: 15 m. N. Boston.

LYNNFORD, p. o., Jefferson county, *Ky.*: 41 m. W. Frankfort.

LYNNVILLE, p. v., Morgan county, *Ill.*: 37 m. W. by S. Springfield.

LYNNVILLE, p. o., Jasper co., *Ind.*: 79 m. W. of Iowa City.

LYNNVILLE, p. v., Warrick co., *Ind.*: 121 m. S. W. by S. Indianapolis. A plank-road leads hence to Newburg on the Ohio.

LYNNVILLE, p. v., Lehigh county, *Penn.*: 64 m. E. N. E. Harrisburg. Here is a furnace of 800 tons capacity.

LYNNVILLE, p. o., Giles co., *Tenn.*: on a branch of Elk r., 54 m. S. by W. Nashville.

LYONS, p. v., Clinton co., *Ind.*: on the Mississippi, 71 m. E. by N. Iowa City.

LYONS, t. and p. v., Ionia county, *Mich.*: 32 m. N. W. Lansing. Drained by Maple and Grand rivers and their branches. Surface level or rolling. Soil a rich alluvium, producing fine grass and grain. The v. is 1 m. above the union of Maple and Grand rivers, on the latter, and at the head of steamboat navigation. The r. has a considerable fall, and the facilities for manufacturing are very good. Pop. of t. 850.

LYONS, t., p. v., and cap. Wayne county, *N. Y.*: 172 m. W. by N. Albany. Surface hilly. Soil sandy and calcareous loam, and very productive of grain. Flour, leather, and earthen-ware, are important manufactures. The Erie Canal passes through it, on which is the v. 44 m. E. of Rochester, and near the junction of Mud cr. and Canandaigua r., which form the Clyde, and from which it is amply supplied with water-power by a canal half a mile in length. It is largely engaged in manufacturing flour, iron castings, leather, carriages, etc. It contains a court-house, jail, and the county offices, several large hotels, 25 stores, an excellent high school, and 2,000 inhabitants. Two weeklies are published, the "W. County Whig," and "L. Gazette" (dem). A railroad from Rochester to Syracuse direct will pass through it. Pop. of t. 4,926.

LYONS, p. o., Fulton co., *Ohio*: 122 m. N. N. W. Columbus.

LYONS, p. v., Cook co., *Ill.*: 163 m. N. E. Springfield.

LYONS, p. v., Walworth co., *Wisc.*: on a branch of Fox r., 63 m. E. S. E. Madison.

LYONS, p. o., Fayette co., *Tenn.*: 49 m. E. S. E. Austin City.

LYONSDALE, p. v., Lewis co., *N. Y.*: about 2 m. S. of Moose r., 99 m. N. W. Albany.

LYON'S HOLLOW, p. o., Steuben co., *N. Y.*: 204 m. W. by S. Albany.

LYON'S LANDING, p. o., Bladen co., *N. Car.*: 74 m. S. Raleigh.

LYON'S STORE, p. o., Hawkins co., *Tenn.*: 222 m. E. by N. Nashville.

LYONVILLE, p. v., Cook co., *Ill.*: about two miles W. of Des Plaines r., 165 m. N. E. Springfield.

LYRA, p. o., Scioto co., *Ohio*: 86 m. S. Columbus.

LYSANDER, t. and p. o., Onondaga county, *N. Y.*: 142 m. W. by N. Albany. Bounded E. by Oswego r., and S. by Seneca r. Surface mostly level, and soil of excellent quality. It is a large t., principally devoted to agricultural pursuits, for which it is admirably adapted. The Oswego and Syracuse R. R. crosses the E. part, and has a sta. near Seneca r. Pop. 5,838.

LYTHONIA, p. o. and sta., De Kalb county, *Ga.*: on the Georgia R. E., 24 m. from Atlanta, 71 m. N. W. Milledgeville.

LYTLESVILLE, p. v., McLean county, *Ill.*: 68 m. N. E. Springfield.

M.

M'AFEE, p. o., Mercer co., *Ky.*: 23 m. S. Frankfort.

M'ALEY'S FORT, p. o., Huntingdon co., *Penn.*: 59 m. W. by N. Harrisburg.

M'ALLISTER'S CROSS ROADS, p. o., Montgomery co., *Tenn.*: 89 m. N. W. Nashville.

M'ALLISTERVILLE, p. v., Juniata co., *Penn.*: 35 m. N. W. Harrisburg.

M'ARTHUR, p. o., Vinton co., *Ohio*: 53 m. S. E. Columbus.

M'ARTHURSTOWN, p. v., and cap. Vinton co., *Ohio*: on a branch of Raccoon cr., 55 m. S. E. Columbus. There is an extensive burr-millstone factory here. The "Vinton co. Republican" (whig) is published here. Pop. 424.

M'BEEN, p. o., Richmond county, *Ga.*: 85 m. E. by N. Milledgeville.

M'BRIE'S MILLS, p. o., Heard co., *Ga.*: 97 m. W. by N. Milledgeville.

M'BREIDESTVILLE, p. v., Union dist., *S. Car.*: near M'Bride r., 69 m. N. W. Columbia.

M'CALL'S CREEK, p. o., Franklin co., *Miss.*: 71 m. S. W. Jackson.

M'CALLUM'S STORE, p. o., Montgomery co., *N. Car.*: 71 m. S. W. Raleigh.

M'CLELLANDTOWN, p. v., Fayette co., *Penn.*: 155 m. W. by S. Harrisburg.

M'CLENNAN county, *Tex.*: situate centrally, and contains about 940 sq. m. It lies on the upper part of, and mostly to the W. of Brazos r., that river intersecting the E. part and its branches, the largest of which is N. Bosque r., draining it. It is a new co. erected since 1850, and but little settled.

M'COMB, p. v., Hancock county, *Ohio*: 73 m. N. N. W. Columbus.

M'CONNELLSBURG, p. v., Fulton co., *Penn.*: in a valley on Big Cove cr., 59 m. W. S. W. Harrisburg. The Hanover Blast Furnaces of 2,000 tons capacity are at this village. The Fulton County "Democrat" is issued weekly.

M'CONNELL'S GROVE, p. o., Stephenson co., *Ill.*: 179 m. N. Springfield.

M'CONNELLSTOWN, p. o., Huntingdon co., *Penn.*: 63 m. W. by N. Harrisburg.

M'CONNELLSVILLE, p. o., Oneida county, *N. Y.*: 135 m. W. by N. Albany.

M'CONNELLSVILLE, p. v., and cap. Morgan co., *Ohio*: on the E. side of Muskingum r., 63 m. E. S. E. Columbus. The v. is situate on an elevation of from 15 to 20 feet above high water mark. There is a C. H., jail, 2 churches, and several tanneries here. The "Morgan Chronicle" (dem.), and "Morgan Herald" (whig), are published weekly. Pop. 1,660.

M'COTSVILLE, p. o., Juniata county, *Penn.*: 35 m. N. W. Harrisburg.

M'CRACKEN county, *Ky.*: Situate W., and contains 223 sq. m. Bounded N. by the Ohio, E. by the Tennessee, and drained by Clark's and Mayfield's rivers. Surface mostly even, and soil fertile. Corn is the staple; wheat and tobacco are considerably raised. It has good pastures, and exports a large quantity of pork. Its manufactures are important, and fast increasing. Farms 348; manuf. 38; dwell. 885, and pop.—wh. 5,241, fr. col. 18, sl. 808—total 6,067. *Capital*: Paducah.

M'CULLOCH'S MILLS, p. o., Juniata county, *Penn.*: 37 m. W. N. W. Harrisburg.

M'CUTCHENVILLE, p. o., Vanderburg co., *Ind.*: 131 m. S. W. Indianapolis.

M'CUTCHENVILLE, p. o., Wyandott county, *Ohio*: on a branch of the Sandusky r., 71 m. N. by W. Columbus, and 2 m. E. from Mad River and Lake Erie R. R.

M'CUTCHEON'S, p. o., St. Charles par., *La.*: 59 m. S. E. Baton Rouge.

M'DANIEL'S, p. o., Orange county, *N. Car.*: 41 m. N. W. Raleigh.

M'DONALD county, *Mo.*: Situate S. W. corner, and contains 519 sq. m. Drained by Elk r. and its branches, affluents of Neosho. Surface pleasantly diversified, and soil of superior fertility. Corn is the staple. It grows grass or grain in profusion, and is an excellent grazing co. It is well timbered, and has very good water-power. Farms 126; manuf. 42; dwell. 371, and pop.—wh. 2,132, f. col. 21, sl. 83—total 2,236. *Capital*: Rutledge.

M'DONALD, p. o., Wilkinson co., *Ga.*: 17 m. S. Milledgeville. The Central (Georgia) R. R. passes it 160 m. from Savannah, and 81 m. from Macon.

M'DONALD, p. v., Barry co., *Mo.*: on Flat cr., 157 m. S. W. Jefferson City.

M'DONALD'S MILL, p. o., Montgomery co., *Virg.*: 159 m. W. by S. Richmond.

M'DONOUGH county, *Ill.*: Situate N. W., and contains 576 sq. m. Drained by Drowning Fork, Troublesome, Turkey, and Grindstone creeks, branches of Crooked cr., a branch of the Illinois. Surface level, or gently undulating. Soil very fertile, in the W. particularly. In the E. is a strip of prairie; the rest is sufficiently wooded. It has a few mill-streams. Corn and wheat are staples, and pork a large export. Farms 843; manuf. 19; dwell. 1,262, and pop.—wh. 7,611, and fr. col. 5—total 7,616. *Capital*: Macomb. *Public Works*: Central Military Tract R. R.

M'DONOUGH, p. o., New Castle co., *Del.*: 23 m. N. Dover.

M'DONOUGH, p. v., and cap. Henry co., *Ga.*: near a branch of the Ocmulgee r., 63 m. W. N. W. Milledgeville. It contains a fine court-house, jail, and two churches, an academy, 60 dwellings, and about 350 inhabitants.

M'DONOUGH, t. and p. v., Chenango co., *N. Y.*: 109 m. W. by S. Albany. Drained by Genegansletts cr. Surface uneven; soil fertile, and well adapted to grazing. The v. is situate on Genegansletts cr., and has several mills, tanneries, and a printing-office. Pop. of t. 1,522.

M'DOWELL county, *N. Car.*: Situate W., and contains 545 sq. m. Drained by Catawba r. and its heads, Turkey, Goose, and Crooked creeks. Surface elevated, and in parts mountainous, the water-shed between E. and W. rivers lying on its W., and the Catawba rising here. Soil mostly fertile, adapted especially to grazing and producing fine crops of wheat and corn, with some cotton and tobacco. It has much water-power and flourishing manufactures. This is in the gold region, and the production has been considerable. Farms 508; manuf. 29; dwell. 860, and pop.—wh. 4,777, fr. col. 207, sl. 1,262—total 6,246. *Capital*: Marion.

M'DOWELL, p. o., Highland co., *Virg.*: 123 m. N. W. Richmond.

M'ELAVEY FORT, p. o., Huntington co., *Penn.*: The Rebecca Blast Furnace, of 500 tons annual capacity, also a charcoal forge (of same name), which produces 200 tons of blooms annually, are located here.

M'EVEN'S CROSS-ROADS, p. o., Morrow co., *Ohio*: 49 m. N. by E. Columbus.

M'EWENSVILLE, p. o., Northumberland co., *Penn.*: 55 m. N. Harrisburg.

M'FARLAND'S, p. o., Lunenburg co., *Virg.*: 57 m. S. W. Richmond.

M'GAHEYSVILLE, p. o., Rockingham co., *Virg.*: 93 m. N. W. Richmond.

M'GARY, p. o., Hancock co., *Ill.*: 89 m. N. W. Springfield.

M'GEE'S p. o., Polk co., *Tex.*: 169 m. E. by N. Austin City.

M'GEE'S BRIDGE, p. o., Yallabusha co., *Miss.*: 119 m. N. by E. Jackson.

M'GHEE'S STORE, p. o., Jackson co., *Ohio*: 63 m. S. by E. Columbus.

M'GRAWVILLE, p. v., Cortlandt co., *N. Y.*: on a branch of Tioughnoga r., 131 m. W. Albany. Contains several churches, and a number of workshops and stores. The "Cortlandt County Express" (neutral), "Morning Star" (R. Meth.), and "Christian Contributor" (Baptist), are issued here. It is the seat of a college for the promiscuous education of colored and white persons.

M'GREGOR'S LANDING, p. v., Clayton co., *Ja.*: in N. E. part of co., on W. bank Mississippi r., 91 m. N. Iowa City.

M'HARGUE'S MILLS, p. o., Knox co., *Ky.*: 107 m. S. E. Frankfort.

M'HENRY county, *Ill.* Situate N. E., and contains 486 sq. m. Drained E. by Fox r. and its branches, and W. by Piskashau and Ruch creeks, and N. branch of Kishwaukee r., affluents of Rock r. Surface undulating; soil mostly a sandy loam, and very productive. On Fox r. is much good timber; the W. mingled grove and prairie. Wheat, corn, oats, and potatoes yield well, and great numbers of cattle and hogs are raised. It has many ponds in the E., and a sufficiency of water-power. Farms 1,950; manuf. 17; dwell. 2,650, and pop.—wh. 14,977, fr. col. 2—total 14,979. *Capital*: Dorr (formerly Woodstock). *Public Works*: Galena and Chicago Union R. R., etc.

M'HENRY, p. v., and cap. M'Henry co., *Ill.*: on the W. side of Fox r., 195 m. N. N. E. Springfield. The country round about the v. is excellent farming land.

M'INDOE'S FALLS, p. o., Caledonia co., *Verm.*: on W. bank Connecticut r., 27 m. E. Montpelier, and at the head of navigation. The Connecticut and Passumpsic Rivers R. R. passes through the v., 48 m. from White river junction.

M'INTOSH county, *Ga.* Situate S. E. on the Atlantic, and contains 548 sq. m. Altamaha r. bounds it S., and S. Newport r. N., and drain it by their affluents. Sapelo r. flows into Sapelo Sound between them. Surface level, and much of it low and swampy; soil fertile generally, in parts exceedingly rich. The W. is a pine barren; on the coast are very productive rice marshes. Sapelo I., which lies off shore a little, is very fertile, as is the land between the barrens and coast, and produces Sea Island cotton largely. Rice is a very large and the chief crop. Cotton and corn are much less raised, but the former is very superior. Farms 117; manuf. 10; dwell. 283, and pop.—wh. 1,327, fr. col. 72, sl. 4,629—total 6,028. *Capital*: Darien.

M'KAIG'S MILLS, p. v., Columbiana co., *Ohio*: 121 m. E. N. E. Columbus.

M'KAY, p. o., Ashland county, *Ohio*: 65 m. N. N. E. Columbus.

M'KAY, p. o., Dallas co., *Tex.*: 125 m. W. Iowa City.

M'KEAN county, *Penn.* Situate N. W., and contains 1,122 sq. m. Drained by Alleghany r. and its branches, Potato and Kenjua creeks, and affluents of W. branch of the Susquehanna. Surface rough and hilly; soil generally good, and adapted to grazing. Wheat, corn, oats, and potatoes are raised in small quantities. Cattle and sheep are largely reared, and live-stock, butter, and wool exported. It has abundant water-power, and timber, and valuable manufactories of salt, iron, lumber, etc. It abounds in coal, iron ore, and salt-springs. Farms 246; manuf. 40; dwell. 953, and pop.—wh. 5,218, fr. col. 36—total 5,254. *Capital*: Smithport.

M'KEAN, t. and p. v., Erie co., *Penn.*: 205 m. N. W. Harrisburg, and 9 m. S. Erie. Drained by Elk cr. Surface varied, in parts hilly; soil sandy loam. It has several mills. Pop. of t. 2,809.

M'KEANSBURG, p. v., Schuylkill co., *Penn.* Situate about 1½ m. W. Little Schuylkill river and railroad, 53 m. N. E. Harrisburg.

M'KEAN'S OLD STAND, p. o., Westmoreland co., *Penn.*: 185 m. W. Harrisburg.

M'KEE'S HALF FALLS, p. o., Union co., *Penn.*: 41 m. N. Harrisburg.

M'KEE'S PORT, p. v., Alleghany co., *Penn.*: on the E. side of Monongahela r., near the mouth of the Youghiogeny r., 155 m. W. by N. Harrisburg. It contains a church, several stores, and 6 schools with 340 scholars. Pop. 1,892.

M'KINLEY county, *Tex.* Situate S. W., and contains 3,989 sq. m. It lies between the Neuces and Grand rivers, the latter its W. boundary for 150 miles, the former its E. for 120. San Felipe, Pedro, Mavericks, Zoquette, Las Morus, Elm, and San Ambrosio creeks flow into the Grand and

Turkey, Elm, Live Oak, Mustang, and St. Mary's creeks, into the Neuces. Surface much varied; in the N. mountain ridges and broken intervals, in the S. plains of great extent, with ravines and high hills in parts; soil various; on the large streams fertile, producing corn abundantly, with most of the grains, fruits, and vegetables. A large part of the co. is but moderately productive, and used mostly to pasture horses and cattle, which thrive with little or no attention in this mild climate. The Grande is here a stream of good size, but too swift for navigation; the Neuces is smaller; the banks of both are generally well wooded, as are their branches. The parts back of the rivers are somewhat deficient in timber. This large tract is recovering the population it has lost in long border strifes, but is as yet sparsely settled. *Capital*: Fort Duncan. Unorganized in 1850.

M'KINLEY, p. v., Marengo county, *Ala.*: 71 m. W. by S. Montgomery.

M'KINNEY, p. v., and cap. Collins co., *Tex.* Situate centrally between Ten Mile and Honey creeks, 215 m. N. by E. Austin City.

M'KINSTY'S MILLS, p. o., Carroll county, *Md.*: 87 m. E. Annapolis.

M'KISSACK'S GROVE, p. o., Fremont county, *Ja.*: 219 m. W. S. W. Iowa City.

M'LAINS MILLS, p. v., Waldo co., *Me.*: on the St. George r., 31 m. E. by S. Augusta.

M'LEAN county, *Ill.* Situate N. E. centre, and contains 1,064 sq. m. Drained by Mackinaw, Kickapoo, and Sugar creeks, affluents of the Illinois. Surface elevated and undulating; soil very fertile. A large share is prairie, dotted with groves of excellent timber. Its streams afford good mill-seats, and limestone and coal are found in parts. Corn is the staple, on which pork is largely fattened for export. Wheat is a good crop, and the grazing very fine. Farms 916; manuf. 3; dwell. 1,851, and pop.—wh. 10,121, fr. col. 42—total 10,168. *Capital*: Bloomington. *Public Works*: Illinois Central R. R.; Chicago and Mississippi R. R.; Peoria and Oquawka R. R., etc.

M'LEAN, p. v., Tompkins co., *N. Y.*: 133 m. W. Albany, on Fall cr., which affords great water-power. It has several manufactories, mills, and workshops, 60 dwellings, and about 400 inhabitants.

M'LEANSBOROUGH, p. v., and cap. Hamilton co., *Ill.*: 133 m. S. S. E. Springfield. It contains a court-house and jail, etc.

M'LEAN'S STORE, p. o., Tippah co., *Miss.*: 167 m. N. E. Jackson.

M'LEANSVILLE, p. o., Jackson co., *Tenn.*: 59 m. E. by N. Nashville.

M'LEMARESVILLE, p. v., Carroll co., *Tenn.*: 97 m. W. by S. Nashville.

M'LEOD's, p. v., Greene county, *Miss.*: on W. side of Pascagoula r., 101 m. S. E. Jackson.

M'MANUS, p. o., Greene co., *Miss.*: 99 m. S. E. Jackson.

M'MATH's, p. v., Tuscaloosa co., *Ala.*: on the Tuscaloosa and Ellington post-road, 75 m. N. W. Montgomery.

M'MEEKIN's, p. v., Fairfield dist., *S. Car.*: 23 m. N. N. W. Columbia.

M'MILLAN's, p. o., Panola county, *Tex.*: 247 m. N. E. Austin City.

M'MILLEN'S GROVE, p. o., Du Page co., *Ill.*: 161 m. N. N. E. Springfield, and 81 m. W. ½ N. Chicago.

M'MINN county, *Tenn.* Situate S. E., and contains 508 sq. m. Bounded N. W. by the Tennessee, S. W. by its branch, the Hiwassee, and drained by its affluents. Surface varied, with broken land and hills E. and S., which send down many streams, affording excellent water-power; soil generally fertile, and good pasture. Corn is the leading crop, and wheat yields largely. Pork and beef are exported, and it has very fine horses. Its facilities for manufacturing are well improved by many extensive and flourishing establishments that produce cotton and woolen goods, flour,

leather, lumber, liquors, oil, etc. Farms 1,688; manuf. 115; dwell. 2,040; and pop.—wh. 12,286, fr. col. 52, sl. 1,568—total 13,906. *Capital*: Athens. *Public Works*: East Tennessee and Georgia R. R.; Chattanooga and Charleston Railroad, etc.

M·MINNVILLE, p. v., and cap. Warren co., *Tenn.*: on N. side Barren Fork, which flows into the Caney, a fork of the Cumberland r., 61 m. S. E. Frankfort. The M·Minville and Manchester R. R., a branch of the Nashville and Chattanooga R. R., comes up to the village from Tullahoma, and it is the S. terminus of the Danville and M·Minville R. R. Pop. about 600.

M·NAIRY county, *Tenn.* Situate S. W., and contains 871 sq. m. Drained W. by heads of Big Hatchie r., and E. by White Oak, Mud, Snake, and Owl creeks of the Tennessee. Surface moderately uneven; soil of good fertility. Corn, wheat, and tobacco are leading crops. Pork is a heavy export. It has good mill-streams, and some manufactures of much importance. Farms 1,879; manuf. 33; dwell. 1,895, and pop.—wh. 11,447, fr. col. 24, sl. 1,898—total 12,864. *Capital*: Purdy. *Public Works*: Memphis and Charleston Railroad.

M·NUTT, p. o., Sunflower co., *Miss.*: 93 m. N. by W. Jackson.

M·RAE'S MILLS, p. o., Montgomery co., *N. Car.*: 71 m. S. W. Raleigh.

M·RAE'S STORE, p. o., Telfair co., *Ga.*: near a tributary of the Altamaha r., 85 m. S. by E. Milledgeville.

M·SHEERSTOWN, p. v., Adams co., *Penn.*: in the S. E. part of the co., 80 m. S. by W. Harrisburg.

M·VETZTOWN, p. v., Mifflin co., *Penn.*: on the W. side of the Juniata r., and on the line of the E. division of the Pennsylvania R. R., 14 miles S. W. Lewistown, and 49 miles W. N. W. Harrisburg.

M·WILLIAMSTOWN, p. o., Chester co., *Penn.*: 61 m. S. E. Harrisburg.

MABBETTSVILLE, p. o., Dutchess county, *N. Y.*: 63 m. S. Albany.

MABEE'S, p. o., Jackson co., *Ohio*: 70 m. S. E. Columbus.

MACEDON, t. and p. v., Wayne co., *N. Y.*: 190 m. W. by N. Albany. Drained by Mud cr. Surface uneven; soil very fertile. The Erie Canal passes through the centre of the t. It has a number of mills, etc. Pop. of t. 2,384.

MACEDON, p. o., Mercer county, *Ohio*: 97 m. W. N. W. Columbus.

MACEDON CENTRE, p. o., Wayne co., *N. Y.*: in centre of Macedon t., 193 m. W. by N. Albany.

MACEDONIA, p. o., Montgomery co., *N. Car.*: 71 m. S. W. Raleigh.

MACEDONIA, sta., Summit co., *Ohio*: on the Cleveland and Pittsburg R. R., 20 m. S. E. Cleveland.

MACEDONIA, p. v., Carroll co., *Tenn.*: on a tributary of Obion r., in N. part of co., 95 m. W. Frankfort.

MACEDONIA, p. o., Pottowotamie co., *Ia.*: 203 m. W. by S. Iowa City.

MACE'S, sta., Middlesex co., *Mass.*: on the Lowell and Lawrence R. R., 118 m. W. Lawrence.

MACHIAS, t. and p. v., port of entry, and cap. Washington co., *Me.*: 123 m. E. N. E. Augusta. Drained by the Machias r., which passes through the t., and a number of small lakes in the N. E. part, which connect with the r. by a small creek. Surface varied; soil good, with much timber land. The v. is situate on the Machias r., near its mouth, and contains the usual number of public buildings. It has a fine harbor, admitting vessels of 250 tons to within a very short distance of the place. It is the seat of numerous mills, and carries on the lumber trade and fisheries. The v. was first settled in 1762, incorporated in 1784, and was the first corporate town between Penobscot and St. Croix rivers. It is now an interesting and flourishing place. Whitneyville is the name of a v. and p. o. in the N. W. of the town, from which to Machias Port, a distance of 9 m., the Franklin R. R. extends. Pop. of t. 1,590.

MACHIAS, t. and p. v., Cattaraugus county, *N. Y.*: 225 m. W. by S. Albany. Drained by outlet of Lime Lake, which empties into Cattaraugus cr., and other small streams flowing into Nine Mile cr. Surface elevated, but even or table land; soil fertile and adapted to grazing. There are in the t. several stores and mills. The v. is situate in N. E. part of t., near Lime Lake, and contains several stores, mills, etc., and about 45 dwellings. Pop. of t. 1,342.

MACHIAS river, *Me.*: rises in two main streams, which originate in small lakes in Washington co., and unite at Machias Port, in their courses affording extensive mill-power. The bay of the same name lies between Machias Port and Chester, and is 10 m. long, and from 4 to 5 wide at its mouth, and contains several coves, harbors, and islands.

MACHIAS PORT, t. and p. v., Washington co., *Me.*: at the mouth of Machias r., 3 m. S. of Machias, 123 m. E. N. E. Augusta. It is a port of entry, having an excellent harbor for vessels of all classes. The fishing and lumber trade is carried on to a great extent, and considerable navigation in coasting. It has several mills and considerable trade in lumber. Pop. 1,266.

MACKEVILLE, p. o., Clark county, *Miss.*: 85 m. E. by S. Jacksonville.

MACKINAC, p. v., and cap. Michilimackinac co., *Mich.*: 219 m. N. Lansing. Situated on S. side of an island of same name, 4 m. N. the W. extremity of Bois Blanc Island, in Lake Huron. Fort Mackinac, on an eminence commanding the v. and surrounding coast, is a U. S. military post. The harbor is very fine and secure, capable of accommodating some 200 vessels. Furs and fish are the materials of the chief traffic, the former quite extensive. There is a court-house and several dwellings here.

MACKINAW, p. v., Tazewell county, *Ill.*: 53 m. N. by E. Springfield. The v. is situated on and surrounded by fine prairie land, near Mackinaw river.

MACKINAW creek, *Ill.*: an excellent mill-stream, falling into the Illinois 3 m. below Pekin. It has rich bottoms, but the bluffs have a thin and poor soil.

MACKEBURG, p. o., Giles county, *Virg.*: 171 m. W. † S. Richmond.

MACK'S PLACE, p. o., St. Clair co., *Mich.*: 95 m. E. by N. Lansing.

MACKEYSVILLE, p. v., Randolph co., *Ind.*: on the W. Fork of White r., 59 m. N. E. Indianapolis.

MACKVILLE, p. v., Washington co., *Ky.*: in E. part of co., 81 m. S. by W. Frankfort.

MACOMB county, *Mich.* Situate S. E., and contains 459 sq. m. Drained principally by Clinton river and its branches, S., Red r., and N. E. fork, N. branch and middle branch flowing into Lake St. Clair, its S. E. boundary. Surface E. mostly level, W. rolling and somewhat broken; soil generally very fertile, adapted particularly to grass and wheat. The E. is heavily timbered, and ship building is carried on extensively near the lake. The W. is mostly openings and prairie. Most of the grains produce well, and fine dairies are kept. It has excellent water-power and rapidly increasing manufactures. Valuable salt springs are found, and a fine clay for pottery. Farms 1,277; manuf. 65; dwell. 2,660, and pop.—wh. 15,516, fr. col. 14—total 15,530. *Capital*: Mount Clemens.

MACOMB, p. v., and cap. M·Donough county, *Ill.*: near Downing Fork, a branch of Crooked creek, 69 m. N. W. Springfield. It contains a court-house, a few stores, and about 200 inhabitants. The v. is situate on a fertile prairie.

MACOMB, t. and p. o., Macomb county, *Mich.*: 81 m. E. Lansing. Drained by Clinton r. and Middle and Partridge, two of its branches. Surface gently undulating; soil rich loam, well adapted to grain. The rivers afford excellent water-power. There are several grist and saw mills in the town. Pop. 757.

MACOMB, p. o., St. Lawrence co., *N. Y.*: 143 m. N. W. Albany.

MACON county, *Ala.* Situate S. E., and contains 938 sq. m.

Drained by Tallapoosa river and its branches, Ufawpee, Calleebee, Crepia, and Oakfuskee creeks. Surface moderately uneven; soil of average fertility. Corn and cotton are the leading products. It has good mill-seats and plenty of fine timber. Farms 1,208; manuf. 19; dwell. 1,849, and pop. wh. 11,280, fr. col. 22, sl. 15,596—total 26,898. *Capital*: Tuskegee. *Public Works*: Montgomery and West Point R. R.; Girard and Mobile R. R., etc.

MACON county, *Ga.* Situate S.W. centrally, and contains 878 sq. m. Intersected by Flint river, and drained by its branches, N. and S. Whitewater and Beaver creeks. Surface uneven; soil very productive. Cotton is the staple, and the crop very large. Corn is an excellent crop, and very large numbers of cattle and swine are fattened. Farms 419; manuf. 0; dwell. 679, and pop.—wh. 4,090, fr. col. 1, sl. 2,961—total 7,052. *Capital*: Lanier. *Public Works*: Muscogee R. R.; South Western R. R.

MACON county, *Ill.* Situate near centre, and contains 469 sq. m. Sangamon r. passes W. through the middle, and with its branches drains the co. Surface undulating or level; soil generally fertile. Much of the co. is prairie, but there is some good timber. Corn is the chief, and wheat a good crop. Pork is a large export, and the pastures are excellent. It has not much water-power. Farms 487; manuf. 17; dwell. 698, and pop.—wh. 8,983, fr. col. 0,—total 8,983. *Capital*: Decatur. *Public Works*: Illinois Central R. R.; Sangamon and Morgan R. R.; and extensions to Terre Haute and Covington, etc.

MACON county, *Mo.* Situate N. E., and contains 823 sq. m. Drained by Wolf cr., Chariton and E. Chariton rivers of the Missouri, and N. and S. forks of Salt river of the Mississippi. Surface moderately elevated and mostly even; soil very fertile and fine, adapted to grazing. Corn is the leading crop. Tobacco is considerably raised. Mast is abundant; cattle and sheep are largely reared, and pork is a heavy export. It is well furnished with timber and water-power. Farms 711; manuf. 8; dwell. 1,079, and pop.—wh. 6,262, fr. col. 0, sl. 808—total 6,566. *Capital*: Bloomington.

MACON county, *N. Car.* Situate W., and contains 776 sq. m. Drained by Tennessee r. and its branch, Tuckasee r. Surface elevated and in parts mountainous, with many broad and fertile valleys. Corn is the staple; the other grains are not extensively grown, and the co. is better adapted to grazing. It has fine mill-streams and numerous small manufactories. Iron ore is found. Farms 681; manuf. 18; dwell. 936, and pop.—wh. 5,613, fr. col. 106, sl. 549, Indians 121—total 6,889. *Capital*: Franklin.

MACON county, *Tenn.* Situate N. middle, and contains 244 sq. m. Drained by branches of Big Barren r. on the N.; on the S. by branches of Cumberland r. Surface somewhat hilly; soil very fertile. Corn, wheat, and tobacco are the staples. Pork is fattened and exported largely. It has good mill-sites. Farms 782; manuf. 8; dwell. 1,044, and pop.—wh. 6,187, fr. col. 45, sl. 766—total 6,948. *Capital*: Lafayette.

MACON, p. v., Marengo county, *Ala.*: near E. side Black Warrior r., 83 m. W. $\frac{1}{2}$ N. Montgomery.

MACON, city, and cap. Bibb co., *Ga.*: on the W. side of the Ocmulgee r., at the head of steamboat navigation, 29 m. S. W. Milledgeville, at the junction of the Central (Georgia) R. R. with the Macon and Western and South Western R. R., which connect it with Savannah, Augusta, and Charleston. A bridge 800 feet in length affords communication with the opposite shore. A number of steamboats and other craft are employed on the river chiefly in carrying cotton, of which a large amount is shipped from here. From a mere village (in 1822) Macon has risen to be quite an important commercial depôt. There is now a fine court-house and jail, market-house, and several churches, besides foreign commission houses, printing offices, stores, lumber yards, and grist mills. The "Journal and Messenger" (whig), "Georgia Telegraph" (dem.), "Georgia Citizen" (dem.), and "Southern Tribune," weekly, and "Reformer" (med.), monthly issues,

are published here. It is the site of the Wesleyan Female College, founded in 1839, having (in 1850) a president, 8 professors, 156 alumni, and 198 students. This institution is said to have been the first female college founded in the United States. Pop. 4,982.

MACON, p. v., and cap. Noxubee co., *Miss.*: on Noxubee r., 107 m. N. E. Jackson. The "Planter's Advocate" (neut.), a weekly issue, is published here.

MACON, t. and p. o., Lenawee co., *Mich.*: 57 m. S. by E. Lansing. Drained by the Middle and South branches of Macon r. Surface somewhat hilly; soil black sandy loam, adapted to grass, corn, oats, and wheat. Ridgeway is the name of a v. in the S. W. part of the town. In the t. there are some saw-mills. Pop. of t. 1,080.

MACON, p. o., Fayette co., *Tenn.*: on a branch of Wolf cr., 163 m. S. W. Nashville.

MACON, p. o., Powhattan co., *Virg.*: 27 m. W. Richmond.

MACON DEPÔT, p. v., Warren co., *N. Car.*: 51 m. N. E. Raleigh. The Gaston and Raleigh R. R. passes it, 20 m. from Gaston and 67 m. (by railroad) from Raleigh.

MACOUPIN county, *Ill.* Situate S. W., and contains 864 sq. m. Drained by Apple, Otter, Macoupin, and Cahokia creeks, affluents of the Illinois and Mississippi. Surface undulating; soil highly productive—a large part is prairie, and equally adapted to grass and grain. Corn and wheat are the staples, and heavy crops. Live-stock, beef, pork, and wool are the exports. It has fine water-power and rapidly increasing manufactures. Farms 1,183; manuf. 24; dwell. 2,037, and pop.—wh. 12,272, fr. col. 83—total 12,855. *Capital*: Carlinville. *Public Works*: Chicago and Mississippi R. R., etc.

MACOUPIN river, *Ill.*: a considerable stream rising in the N. part of Montgomery county, and running S. W. into Greene county to the Illinois, which it enters 26 m. above its mouth. Its branches are Phill's, Dry Fork, Bear, and Hodge's creeks and Lake Fork. The country along its banks is generally fertile, suitably apportioned into timber and prairie.

MACOUNGIE, t. and p. o., Lehigh co., *Penn.*: 69 m. E. N. E. Harrisburg. Drained by tributaries of Lehigh r. Surface in most part level; soil fertile, and well cultivated. It is rich in minerals as in agricultural resources.

MADBURY, sta., Stratford co., *N. Hamp.*: on the line of Boston and Maine R. R. 7 m. S. Dover.

MADDENVILLE, p. o., Huntingdon co., *Penn.*: 59 m. W. Harrisburg.

MADDOX, p. o., Hanover co., *Virg.*: 28 m. N. Richmond.

MADISON county, *Ala.* Situate on N. line, and contains 763 sq. m. Bounded S. by Tennessee r. and drained by its branches. Surface somewhat hilly; soil highly productive. Cotton is the staple, and in quantity produced this is about the first county in the State. Corn and wheat are also very large crops. It has much fine pasture, and exports a large amount of pork. The facilities for manufacturing are very fine and extensively improved. Farms 1,080; manuf. 92; dwell. 2,046, and pop.—wh. 11,937, fr. col. 164, sl. 14,826—total 26,427. *Capital*: Huntsville. *Public Works*: Memphis and Charleston R. R.; Huntsville Canal, etc.

MADISON county, *Ark.* Situate N. W., and contains 963 sq. m. Drained by White r. and its branches, Kings r., and War Eagle and Richland creeks. Surface elevated, in the S. mountainous; soil productive, and well adapted to grass. Corn is the leading cereal. Other grains and tobacco do well. Hogs are fattened largely. It has abundant timber and water-power, and is rich in galena or lead ore. Farms 660; manuf. 12; dwell. 843, and pop.—wh. 4,659, fr. col. 0, sl. 164—total 5,823. *Capital*: Huntsville.

MADISON county, *Flor.* Situate N. middle, and contains 2,946 sq. m. Bounded E. by the Suwanee and W. by Aucilla (or Ocilla) r., and has a few creeks flowing into the Gulf. Surface even or rolling; soil very fertile S. E., middle poor, and N. and W. excellent. Cotton and corn are leading crops. It has some fine sugar lands, and swamps

well fitted for rice growing. Timber is abundant, pine, cypress, and cedar. The Gulf is its S. W. boundary, and markets are convenient. Farms 262; manuf. 4; dwell. 498, and pop.—wh. 2,802, fr. col. 0, sl. 2,688—total 5,490. *Capital*: Madison.

MADISON county, Ga. Situate N. E., and contains 272 sq. m. Drained by Hudson's and South forks, and Beaver Dam cr. of Broad r., a branch of the Savannah. Surface elevated and somewhat hilly; soil of average fertility. Cotton is grown largely for the region, and corn is the staple grain. Other crops are not large. Grazing is the chief use of much of the county. Mill-streams are plenty, and valuable mineral springs are found. Farms 404; manuf. 8; dwell. 692, and pop.—wh. 8,767, fr. col. 8, sl. 1,938—total 5,708. *Capital*: Danielsville.

MADISON county, Ill. Situate S. W. on the Mississippi, and contains 728 sq. m. Drained by Wood r. and Cahokia cr. of the Mississippi, and Silver cr. and its E. fork of the Kaskaskia. Surface on the Mississippi low, and in places marshy, but of exceeding fertility; this is separated by bluffs from the back country, which is an elevated tableland, gently undulating; soil very rich. The W. parts have excellent timber in abundance; the E. is mostly prairie, with wood on the streams. The principal crop is corn. Wheat, oats, and potatoes produce good crops, and the pastures are very fine. Cattle, sheep, and particularly swine, are reared largely. Corn, beef, pork, horses, and lumber are heavy exports. Coal, limestone, and freestone are abundant, the last a fine building and monumental material, and excellent water cement is made. It lies opposite the mouth of the Missouri, and has very superior advantages for commerce and manufactures, the last are very large and important. Farms 1,867; manuf. 182; dwell. 8,490, and pop.—wh. 19,990, fr. col. 446—total 20,436. *Capital*: Edwardsville. *Public Works*: Ohio and Mississippi R. R.; Mississippi and Atlantic R. R.; Terre Haute and Alton R. R.; Chicago and Mississippi R. R., etc.

MADISON county, Ind. Situate centrally, and contains 870 sq. m. Drained by W. fork of White r., and Pipe, Kill-buck, Fall, and Lick creeks. Surface level or undulating, with some wet prairies and a few hills; soils various, generally clayey loam, mixed with sand, and very productive. Wheat and corn are raised largely, and much stock fattened. It has excellent mill-sites and extensive manufactures, and was originally well timbered. Limestone and marble abound. Farms 1,494; manuf. 67; dwell. 2,159, and pop.—wh. 12,858, fr. col. 17—total 12,875. *Capital*: Anderson. *Public Works*: Indianapolis and Bellefontaine R. R.; Richmond and Newcastle R. R.; Logansport R. R., etc.

MADISON county, Ia. Situate S. W., and contains 576 sq. m. Drained by North and Middle rivers, and Prairie branch, affluents of the Des Moines. Surface rolling, and soil fertile, adapted to grazing. It has abundant timber and water-power, with a sparse population as yet. Farms 53; manuf. 0; dwell. 180, and pop.—wh. 1,179, fr. col. 0—total 1,179. *Capital*: Winterset.

MADISON county, Ky. Situate E. centrally, and contains 488 sq. m. Bounded N. and N. E. by the Kentucky drained by its branches, Paint Lick, Silver, Muddy, and Drowning creeks, and S. by affluents of the Cumberland. Surface considerably broken; soil very productive. Corn is the staple; rye, wheat, and tobacco yield well. Sheep are reared in large numbers, and pork is a very heavy export. Fine horses for the Eastern markets are raised here. Its mill-seats are numerous and extensively occupied. Farms 1,185; manuf. 89; dwell. 1,847, and pop.—wh. 10,270, fr. col. 64, sl. 5,898—total 15,727. *Capital*: Richmond. *Public Works*: Knoxville and Covington R. R., etc.

MADISON parish, La. Situate N. E., and contains 656 sq. m. Bounded E. by the Mississippi and W. by Bayou Macon, and drained by Tensas r., and Walnut, Roundaway, and Vidal bayoux. Surface level, in parts low and marshy; soil, where tillable, exceedingly rich. Cotton is the almost

exclusive product. The plantations on the Mississippi are very large and profitable, and the cotton crop is enormous. It is well timbered and has some water-power. Farms 218; manuf. 24; dwell. 448, and pop.—wh. 1,416, fr. col. 4, sl. 7,858—total 8,778. *Capital*: Richmond.

MADISON county, Miss. Situate W. centrally, and contains 656 sq. m. Bounded W. by Big Black r., S. E. by Pearl r., and drained by their affluents. Surface moderately uneven; soil exceedingly rich. Cotton is the great staple, and this county is one of the best in the State for cotton growing. It has also good pasturage, and rears large numbers of cattle and swine. Water-power is plenty, and markets very convenient. Farms 552; manuf. 10; dwell. 767, and pop.—wh. 4,328, fr. col. 2, sl. 18,848—total 18,178. *Capital*: Canton. *Public Works*: New Orleans, Jackson, and Northern R. R.; Mississippi Central R. R.

MADISON county, Mo. Situate S. E., and contains 638 sq. m. Drained by St. François r. and Big, Castor, and Twelve Mile creeks. Surface considerably broken and hilly; soil of average fertility. Corn is the leading crop. Wheat, oats, and potatoes are grown in small quantities. Pork is the chief farming export. It has much good water-power, and is exceedingly rich in lead, copper, and iron ores. In the N. is Pilot Knob, an iron mountain 800 feet high, where ore containing 80 per cent. of pure metal is found in huge masses of several tons weight. Farms 515; manuf. 19; dwell. 878, and pop.—wh. 5,273, fr. col. 29, sl. 696—total 6,008. *Capital*: Fredericktown.

MADISON county, N. Y. Situate centrally, and contains 582 sq. m. Drained S. by Chenango r. and N. by Chittenango, Cowsasalon, and Canaseraga rivers flowing into Oneida Lake, its N. W. boundary. Surface generally hilly, with a great swamp on the border of Oneida Lake, and the watershed of the Ontario and Susquehanna streams in the middle; soil fertile, very rich in the valleys—N. better for grain, and S. for grazing. It is well wooded with hemlock, maple, and beech. The dairies are large and superior, and sheep raising the leading business of a large part. Wool, hops, butter, cheese, maple sugar, and potash are large exports. Iron ore much used for castings, water lime, and gypsum are abundant. Sulphur and salt springs, and marl are extensively found. Water-power is abundant, and manufactures very largely carried on. Flour, leather, lumber, woollens, iron, and potash are the leading articles made. Farms 3,845; manuf. 404; dwell. 8,198, and pop.—wh. 42,738, fr. col. 289—total 43,073. *Capital*: Morrisville. *Public Works*: Erie Canal; Chenango Canal; Syracuse and Utica R. R.

MADISON county, Ohio. Situate W. centrally, and contains 420 sq. m. Drained by Little and Big Darby and Deer creeks of Scioto r. Surface undulating or slightly broken; soil fertile, adapted to grass or grain. Corn and wheat are the staple crops. Grazing is the great business. Live-stock, beef, wool, butter, cheese, and pork are exported largely. It has very good mill-seats and flourishing manufactures. Farms 474; manuf. 48; dwell. 1,742, and pop.—wh. 9,946, fr. col. 69—total 10,015. *Capital*: London. *Public Works*: Columbus and Xenia R. R.; Springfield and London R. R.; Columbus, Pequa, and Indiana R. R., etc.

MADISON county, Tenn. Situate W., and contains 906 sq. m. Drained by branches of Big Hatchie and Forked Deer rivers, affluents of the Mississippi. Surface somewhat broken; soil very productive. Cotton and corn are the staples. Wheat and tobacco are successful crops. It has some water-power, which is well improved in making woolen and cotton goods, flour, leather, and iron. Farms 1,408; manuf. 49; dwell. 2,282, and pop.—wh. 12,861, fr. col. 57, sl. 8,552—total 21,470. *Capital*: Jackson. *Public Works*: Mississippi Central R. R.

MADISON county, Tex. A new county set off in Feb., 1758, from portions of Walker, Grimes, and Leon counties. It extends from the Trinity to the Navasoto, and is drained by Bedais cr. and other affluents of these rivers.

MADISON county, Virg. Situate N. E. centrally, and con-

tains 261 sq. m. Drained by Robertson, Wolf, and Conway rivers, branches of the Rappahannock. Surface elevated, uneven, and in parts mountainous, the Blue Ridge forming its W. boundary; soil generally good, with rich and beautiful valleys. Corn and wheat are the staple cereals. Rye and tobacco are successfully cultivated. It has fine pasture and grass land. Manufactures of flour, lumber, and woolen goods are large and flourishing. Farms 513; manuf. 88; dwell. 827, and pop.—wh. 4,453, fr. col. 149, sl. 4,724—total 9,381. *Capital*: Madison.

MADISON, t. and p. v., New Haven co., *Conn.*: 31 m. S. Hartford. Bounded on the S. by Long Island Sound, and embraces Hammonasset Point. Drained by East and Neck rivers, Hammonasset r. forming its E. boundary. Soil stony and hard to cultivate, but is made quite productive by plowing in *white fish*, which are taken in the Sound in large quantities. This place has a small but secure harbor, and some navigation. There is a large quantity of lumber here, and ship-building is carried on to some extent. The v. is situate near the coast, on the line of the New Haven and New London R. R., 20 m. distant from New Haven and 80 m. from New London. It contains some fine buildings. There are in the t. several mills and some manufactories. Pop. of t. 2,068.

MADISON, p. v., and cap. Madison co., *Flor.*: 59 m. E. Tallahassee. Situate in the N. part of co., and contains a court-house, etc.

MADISON, p. v., and cap. Morgan co., *Ga.*: 38 m. N. N. W. Milledgeville. Situate on a branch of the Oconee r. and on the line of Georgia R. R., 104 m. W. Augusta. It has a court-house, jail, 2 academies, a number of stores, and about 80 dwellings.

MADISON, p. o., city, and cap. Jefferson co., *Ind.*: on the N. side of the Ohio r., at the S. terminus of the Madison and Indianapolis R. R., 86 m. S. by E. Indianapolis. It is the seat of the county court-house. The v. is finely laid out and neatly built, and there is much traffic, both wholesale and retail. There are a number of manufactories of various descriptions in active operation. The elevated ground in the rear of the v. affords a delightful prospect. The "Madison Courier" (whig), and "Republican Banner" (dem.), are issued here. Pop. of v. 7,800.

MADISON, p. o., Livingston co., *Mich.*: 37 m. W. by S. Lansing.

MADISON, p. v., Monroe co., *Mo.*: on N. side of Elk fork of Salt r., 63 m. N. Jefferson City.

MADISON, p. v., Morris co., *N. Jer.*: 37 m. N. N. E. Trenton. The Morris and Essex R. R. passes through the village 28 m. W. New York and 16 m. S. E. Dover.

MADISON, t. and p. v., Madison co., *N. Y.*: 93 m. W. by N. Albany. Surface high and rolling; soil rich and fertile. Drained by Chenango r. S., and Oriskany cr. N., which empties into the Mohawk r. The Chenango Canal passes through the town. The village, incorporated in 1816, is situate on the Cherry Valley Turnpike, and contains several considerable factories and numerous stores, and about 600 inhabitants. Pop. of t. 2,405.

MADISON, p. o., Rockingham co., *N. Car.*: 81 m. N. W. Raleigh.

MADISON, t. and p. v., Lake co., *Ohio*: 157 m. N. E. Columbus. Drained by Grand r., which passes through it centrally. Surface rolling; soil fertile. The Cleveland and Erie R. R. passes through the N. part of town 40 m. from Cleveland. Unionville and Centreville are villages on the post road; on the R. R. is Madison Station. Population of t. 2,987.

MADISON, p. v., Westmoreland co., *Penn.*: 143 m. W. Harrisburg.

MADISON COURT-HOUSE, p. v., and cap. Madison county, *Virg.*: in centre of county, 73 m. N. W. Richmond. There are several stores and mills here, and a population of about 350.

MADISON, p. v., and cap. Dane co., *Wisc.*, and cap. of the

State of Wisconsin: on what are called the *Four Lakes*, almost directly S. of the portage between Wisconsin and Fox rivers, 71 m. W. Milwaukee. Madison occupies the isthmus between the Third and Fourth lakes. It is in the centre of the county, near the centre of the basin of the Catfish. The land on which it is located rises abruptly from the shore of the Third Lake about 50 feet, and from thence ascends gradually until the centre of the *Capitol Park* is reached, about 70 feet above the lakes. From thence it descends gradually until near the Fourth Lake, when it rises with considerable abruptness about 75 feet, and then falls off boldly to the shore of the Fourth Lake—distance across being about three-fourths of a mile. Following the cardinal points, the ground descends every way from the *Capitol*, all the streets from the corners of the square terminating in the lakes, save the western, which slopes gradually about half a mile, and then rises until, at a distance of exactly one mile from the capitol, it attains an elevation of at least 125 feet. This is *College Hill*, the magnificent site of the Wisconsin University, founded in 1848. It is rapidly increasing in its population, buildings, and other improvements. A telegraph line connects with the lakes and the Mississippi. There is excellent water-power, which is used in running some of the most extensive mills in the State. It contains several stores and workshops. There are three papers issued here, the "Wisconsin Express" (whig), "Wisconsin Argus" (dem.), "Wisconsin Democrat" (dem.) Pop. (in 1850) 1,871. The Milwaukee and Mississippi R. R. will probably intersect Madison.

MADISONBOROUGH, p. v., Alachua county, *Flor.*: 121 m. E. S. E. Tallahassee.

MADISON CENTRE, p. v., Somerset co., *Me.*: 29 m. N. Augusta, and near a beautiful pond, the outlet of which is at Skouhyau.

MADISON CROSS ROADS, p. v., Madison co., *Ala.*: 169 m. N. by W. Montgomery.

MADISON MILL, p. o., Madison co., *Virg.*: 75 m. N. W. Richmond.

MADISON SPRINGS, p. v., Madison county, *Ga.*: 38 m. N. Milledgeville, in N. part of the co., near Broad r. There is a chalybeate spring here which is beneficial in many complaints, and there is a fine hotel for the accommodation of visitors to the springs.

MADISONVILLE, p. v., and cap. Hopkins co., *Ky.*: situate on the E. side of Green r. (on an elevation), 169 m. W. S. W. Frankfort. It contains a court-house and about 60 inhabitants.

MADISONVILLE, p. v. and seaport, St. Tammany par., *La.*: on the N. bank of Lake Pontchartrain, and W. of Bogue Falla, which empties itself at this point, 59 m. E. Baton Rouge, and 29 m. N. New Orleans. It is an important place, and will be made the W. terminus of the line of railroad from Alabama toward New Orleans, to which city the connection will be by steamboat.

MADISONVILLE, p. o., Madison co., *Miss.*: 21 m. N. by E. Jackson.

MADISONVILLE, p. v., Ralls co., *Mo.*: on Spencer's cr., 71 m. N. E. Jefferson City.

MADISONVILLE, p. v., Hamilton co., *Ohio*: 91 m. S. W. Columbus, 4 m. N. of the Ohio river. It contains about 650 inhabitants.

MADISONVILLE, p. v., and cap. Monroe co., *Tenn.*: 137 m. S. E. Nashville.

MAD river, *Ohio*: a large branch of the Great Miami from the E., rising in Logan co., and after a course of 50 m. terminates at Dayton. It has a rapid and broken current, and supplies an immense water-power.

MADRID, t. and p. o., Franklin co., *Me.*: 49 m. N. W. Augusta. Drained by branches of Sandy river. Surface varied; in some parts mountainous, containing a part of Saddleback Mountain. Soil is excellent, well adapted to wheat, of which it yields a large quantity. Pop. of t. 404.

MADRID, t. and p. v., St. Lawrence co., *N. Y.*: 161 m.

N. W. Albany. Drained by Grass river and several small creeks flowing into the St. Lawrence r., which bounds it on the N. W. The "Isle au Rapid Plat" belongs to the t. Surface undulating; soil of good quality, rich and productive. The t. contains several manufactories, mills, etc., in active operation. The v. is situate on the line of the Northern Ogdensburg R. R., in S. part of town. The "True Democrat" (dem.) is issued here. Pop. of t. 4,856.

MAGNOLIA, p. o., La Rue county, *Ky.*: 59 m. S. W. Frankfort.

MAGNOLIA, p. v., Putnam county, *Ill.*: 91 m. N. by E. Springfield. Situate on the S. boundary of the county, surrounded by prairie land.

MAGNOLIA, t. and p. v., Rock county, *Wisc.*: 29 m. S. Madison. Drained in the N. by a branch of Sugar r., and in the S. by Bass cr. Surface level; soil fertile. The v. is on the Janesville post-road. There are some mills and workshops in the t. Pop. 673.

MAGNOLIA, p. o. and sta., Harford county, *Md.*: on the Philadelphia, Wilmington, and Baltimore R. R., 18 m. N. E. Baltimore, and 43 m. N. N. E. Annapolis.

MAGNOLIA, p. v., Chautauque co., *N. Y.*: on W. side of Chautauque Lake, 303 m. W. by S. Albany.

MAGNOLIA, p. v., Crawford county, *Ind.*: 103 m. S. $\frac{1}{2}$ W. Indianapolis, 4 m. N. Ohio river.

MAGNOLIA, p. v., Stark co., *Ohio*: on the Tuscarawas r., 99 m. N. E. Columbus. The Beaver Canal passes through the village.

MAGNOLIA SPRINGS, p. o., Jasper county, *Tex.*: 227 m. E. by N. Austin City.

MAHALA, p. o., Adams county, *Ohio*: 79 m. S. by W. Columbus.

MAHANOY, p. v., Northumberland co., *Penn.*: on a tributary of the Susquehanna r., 83 m. N. Harrisburg.

MAHASKA county, *Ia.* Situate S. E. centrally, and contains 576 sq. m. Drained by Des Moines r. and N. and S. forks of Skunk r. Surface undulating; soils very fertile, equally adapted to grass and grain. Corn and wheat, cattle and pork, are the leading products. It has abundant water-power and timber, with some rich prairie. Farms 480; manuf. 18; dwell. 931, and pop.—wh. 5,988, fr. col. 1—total 5,989. *Capital*: Oskaloosa.

MAHOMET, p. v., Champaign co., *Ill.*: on the W. side of the North Fork of Sangamon r., 67 m. W. N. W. Springfield.

MAHONING county, *Ohio*. Situate N. E., and contains 506 sq. m. Drained by Mahoning r. and its branches. Surface rolling and somewhat broken; soils highly productive and admirably adapted to grazing. Corn, wheat, and oats are the staple grains. Cattle and swine are fattened largely; the dairies are superior, and live-stock, beef, pork, and wool are heavy exports. Excellent water-power is abundant, and manufactures of woollens, leather, lumber, flour, etc., extensive; marl, common and water limestone, and iron ore are found. Farms 2,052; manuf. 105; dwell. 4,293, and pop.—wh. 23,646, fr. col. 89—total 23,735. *Capital*: Canfield. *Public Works*: Pennsylvania and Ohio Canal; Cleveland and Mahoning R. R.; Ohio and Pennsylvania R. R., etc.

MAHONING, p. o., Stark county, *Ohio*: 95 m. N. E. Columbus.

MAHONING, t. and p. o., Indiana county, *Penn.*: 125 m. W. N. W. Harrisburg. Drained by Mahoning cr. Surface uneven; soil loam, mixed with clay. Iron ore is found in the t. It has several distilleries and grist and saw mills.

MAHONING river, *Ohio* and *Penn.*: a large tributary of Beaver r., which it joins in Pennsylvania. The Pennsylvania and Ohio Canal follows the valley of the stream, and will also the Cleveland and Mahoning R. R.

MAHOPAC, p. o., Oakland co., *Mich.*: 55 m. E. Lansing.

MAHOPAC, p. o., Putnam co., *N. Y.*: near a lake of same name, 87 m. S. Albany.

MAIDEN CREEK, t. and p. o., Berks co., *Penn.*: 101 m. E. Harrisburg. Drained by Schuylkill river and Maiden cr. Surface finely diversified; soil fertile. It contains several grist and saw mills.

MAIDEN SPRING, p. v., Tazewell co., *Virg.*: on N. side of a fork of Clinch r., 235 m. W. S. W. Richmond.

MAIDSTONE, t. and p. v., Essex co., *Verm.*: 53 m. N. E. Montpelier. Drained by branches of Connecticut river and Maidstone Lake, which has its outlet into Paul's stream. Surface undulating; soil fertile, and productive of grain. There are in the town several grist-mills, stores, and workshops. The village is one mile W. Connecticut r. Population of t. 237.

THE STATE OF MAINE.

MAINE, occupying a little less than one half the surface of New England, is of a long, irregular shape, extending between latitudes 43° and 47° 30' N., and between longitudes 66° 52', and 71° 06' W. from Greenwich, or 5° 56' and 10° 10' E. from Washington. The boundaries of Maine* as established by the treaty of Washington, 1842, are the result of a controversy with Great Britain of a quarter of a century's standing, and one which came near involving the two countries in a war. By the treaty, the St. Croix, and a line running due north from a monument at its source to St. John's River form the boundary on the east. On the north the line follows the St. John's and St. Francis rivers to Lake Pohenagamook. On the north-west it follows the highlands from that lake in a south-west direction to the north-east corner of New Hampshire, which State forms the greatest length of its west boundary. The Atlantic lies on the south. Within these limits the estimated area contains 80,000 square miles.

There are said to be as many islands on the coasts, and in the bays of Maine, as there are days in the year. Most of these are small, but many are of considerable size, fertile, and inhabited. The bays and inlets are proportionally numerous, and afford a series of excellent harbors. The length of the coast in a straight line from Kittery Point to Quoddy Head is about 225 miles, but following its windings, nearly 1,000 miles. The Isles of Shoals are seven in number,† and lie about eight miles south-easterly from the mouth of the Piscataqua River. Four of them belong to Maine, and the three others to New Hampshire. These islands are little more than masses of rock, but at one time had 500 or 600 inhabitants,

* The following are the astronomical positions of several important points on the line of the new boundary survey,

† The "Isles of Shoals" are seven in number, viz., Hog, Smutty Nose, Star, Duck, White, Malaga, and Londoner Islands. The three first constitute the town of Gosport, *N. Hamp.*, and the four latter the town of Isles of Shoals, *Me.* They were originally called Smith's Islands, having been discovered by the celebrated John Smith in 1614. The present population is 132—in *N. Hamp.* 103, and in Maine 29.

MAINE.

attracted thither by the superior advantages they afforded for the pursuit of the fisheries, and they became celebrated for their dried fish, known by the name of Isles of Shoal dun-fish, which were prepared by drying them slowly and carefully on the rocks. Their population in 1850 was 132. Casco Bay, a spacious basin between Cape Elizabeth and Cape Small Point, contains a great number of fine islands, among which Great Gebrag and Sebascodegan Islands are the largest. The shores of the bay afford several excellent harbors. Seguin Island, further east, is a noted landmark at the mouth of the river Kennebec. Parker's Island, on which is Georgetown, the island of Cape Newagen, and Jeremisquam, are large bodies of land between the Kennebec and Damariscotta rivers, south of which are the Damariscove islands, a group of small but inhabited islets. Farther from the shore are Monhegan, St. George's, Matinic, and Matineux islands. Monhegan was formerly famous for its fisheries. The Fox Island, Long Island, and Deer Island, are the principal islands in Penobscot Bay, which extends from White Head, on the west, to Ilé au Haut on the east, and runs up about 35 miles inland. But the largest island on the coast is Mount Desert, containing about 60,000 acres. Several of its heights are conspicuous objects far off at sea, and some of them attain an elevation of from 1,500 to 1,800 feet. Farther east is Petit Menan, often corrupted to Titmenan, and at the entrance of Passamaquoddy Bay is Grand Menan, belonging to New Brunswick, to which province, also, Campobello and Deer Island, in that bay, are politically attached. Moose Islands belong to Maine.

The surface of the interior country beyond the coast region, which is somewhat flat and sandy, is, in general, pleasantly varied with hills and valleys. There is no connected ridge of mountains in the State, but the north-western part contains numerous detached elevations, which may be considered as "outliers" of the White Mountains, and from this section all the principal rivers descend in different directions. The Bald Mountain, to the west of Moosehead Lake, Katahdin Mountain, between the east and west branches of Penobscot River, Saddleback, Mt. Abraham, and Mt. Bigelow, between the Androscoggin and the Kennebec, and the Sugar Loaf Mountains at the head of the west branch of the Walloostook are thought to be the loftiest points. The highest point of land in the State is Mt. Katahdin, which rises 5,885 feet above the sea level.

It is estimated that one tenth part of the State is covered with water; and every portion is abundantly supplied with streams and rivulets which, for the most part, flow from or through lakes, and are copiously supplied from these reservoirs throughout the year. The rivers of Maine are characterized by numerous falls, which, while they impede the navigation of large craft, do not interrupt the descent of logs and rafts, and furnish excellent mill-seats. Along the coasts the tide-waters often penetrate far inland, filling natural channels, which take the name of rivers, but which are, in truth, arms of the sea. The whole of the northern part is drained by the constituents of St. John River—the St. Francis, and Madawaska from the north, and the Walloostook, Allagash, and Aroostook from the south. The great river of the southern section is the Penobscot, which collects its tribute of waters from the whole breadth of the State. Its western branch rises near the heads of the Chaudière, and flows east, receiving in its course several streams from the vicinity of the sources of the Allagash and Walloostook, and passing through Chesuncook and Pemadumcook lakes below which it has a fall of 50 feet. It receives the eastern or Sebcois branch formed by confluents coming from the same tract which sends off the Aroostook to the north. The Mattawamkeag and the Piscataquis, its principal tributaries, then come in from opposite sides, and at Orono the river falls about 50 or 60 feet to the tide level. The tides at Bangor, 60 miles from the sea, and 80 from Belfast Bay, rise 15 feet, and the river is navigable for the largest vessels to that place, but navigation is closed four or five months in the year by ice. The total length of its course is about 350 miles. The Kennebec preserves a remarkable parallelism with the Penobscot, but drains a less extent of country. Its head stream, the Moose, rising in the highlands, from which issue the south-eastern branches of the Chaudière, flows east into Moosehead Lake, the outlet of which takes the name of Kennebec, and runs south to the sea. It is broken at Embden by the Carrutuek Falls; at the mouth of Sandy River by the Norridgewock Falls; below Norridgewock by Skowhegan Falls, and at Waterville by Tecomet Falls. The tide flows up to Augusta, 50 miles from the sea, and small vessels and steamboats go up to that place, and its whole length is about 200 miles. Below Merry Meeting Bay, where it unites with the Androscoggin, it often has the name of Sagadahewk. The Androscoggin runs in a winding course, much broken by falls from the north-west corner of the State, south through Moosetogmagunke and Umbago lakes, into New Hampshire, then turning east repasses into Maine, and pursues a south-easterly direction to Merry Meeting Bay. At Brunswick, a few miles from its mouth, are Pejepscot Falls, with a total descent of 50 feet, and higher up are Lewiston Falls, and Pennacook Falls in Rumford. The Magalloway, which flows into Lake Umbagog, is its principal tributary. The Dead River and Sebasticook are useful mill streams flowing into the Kennebec. The Saco, Union, and Machias, are small streams. The St. Croix, or Schoodic, which forms a part of the boundary toward New Brunswick, is formed by the confluence of two large branches, each issuing from a cluster of lakelets; the northern branch, called also the Cheputnatecook, is a rapid and broken stream, and there are several falls below the junction of the west branch. At Calais, 12 miles from its mouth, the tide rises 15 feet.

The lakes of Maine are so numerous, and some of them so extensive, as to form one of the characteristic features of the country. Some of them are remarkable for the picturesque beauties of their scenery, and many of them will be useful channels of communication when their neighborhoods become more thickly peopled. In the north the Temisconata discharges its waters into the Madawaska, and the Baamchenungamook and Pongokwahem are the reservoirs from which the Allagash is fed. In the centre are Moosehead Lake, the largest in the State, being about fifty miles in length, but very irregular—from five to fifteen miles in width, Chesuncook, twenty miles long, and Pemadumcook. The Moosetogmagunke and Umbagog are on the western border, and the Schoodic, and the Upper Shoodic lakes on the eastern border. These are the largest and most conspicuous on the map, but there are hundreds of others, in every direction, giving rise to, and receiving streams of various magnitudes.

Maine is a country chiefly of primary rocks, with a large division of those that refer to the transition period, and toward New Brunswick it has an important region of the lower secondary formation. Everywhere it has alluvial and diluvial deposits, and vast igneous formations, not only in the interior, but forming a barrier against the ocean surge along a considerable part of an immense sea-coast. Its mineral deposits are various, and extensively distributed throughout its limits. Iron ore of excellent quality is found in great abundance, and in the south-eastern district, between the Kennebec and the St. Croix, there are indications of the existence of bituminous coal. Marble, granite, and limestone, however, constitute the principal mineral products, and all are extensively quarried. Lime is abundant, particularly at Thomaston and Camden, where it is burnt in great quantities for exportation. Maine, indeed, supplies most of the States with this article. Granite is chiefly found near Hallowell, and is peculiarly well adapted for material in public buildings. It is abundant also in many other parts. Mica, talcose, and other slates occur in extensive beds between the Kennebec and the St. John.

MAINE.

Soapstone, sandstone, and brecciated rocks of many varieties are found; also jasper, including the beautiful greenstone trap and its varieties and porphyry. The trap-dykes are numerous and exceedingly distinct; they cut through most of the other rocks, and produce upon them most distinctly those peculiar effects which to a demonstration prove their igneous origin; while the diluvial deposits, the boulders and ruins, the diluvial furrows in the rocks, the sea-shells now adhering to and inherent in rocks, which once formed the sea-coast, although now elevated 26 feet above the water, a salt spring at Lubec, and many other interesting phenomena illustrate other parts of scientific geology. Maine is also said to have its gold region, and of late some excitement has been produced among the inhabitants, by reports of successful mining, but it does not seem that any great amount of the mineral has been collected, nor is the estimate important enough to beguile the more wary from their usual occupations. There is no doubt, however, of its existence in the State. It is found on the streams that rise on the east side of the height of land, and flow east into the west branch of the Penobscot, and also in the tributaries of Moose River. The whole neighboring country is mountainous, and similar, in many respects, to the mining regions of other countries. The Chaudiere River, on the British side, is also said to yield the metal in considerable quantities.

The soils of this State are of various compost and fertility: near the sea the lands are sandy, and generally unsuited to the purposes of agriculture. In the more mountainous regions, though the soil is thin and not of the best quality, extensive tracts are found which might be used as grazing lands. The district between the Penobscot and Kennebec rivers, however, is eminently rich, fertile, and productive. That part of the State lying between the Penobscot and the Passamaquoddy, is what is called "White Pine Land"—the soil is moist and of considerable strength, and the principal natural growth is the white pine mixed with oak, white ash, and beech. At Wells and Scarborough are several tracts of salt marsh.

Maine has a climate of extremes, but it is seldom so severe as to interrupt farm operations. Vegetation commences late, but it is rapid and vigorous. The season of growth extends from the middle of April to the middle of October, but it does not continue in its full force for more than three and a half months. The temperature ranges between 100° above and 20° below zero, but the changes are seasonal, and seldom interfere with personal health. Near the coast the summers are tempered and rendered pleasant by the recurrence of sea breezes, and in the eastern districts the atmospheric temperature is modified by the fogs and vapors rising from the Gulf Stream which in these latitudes sweeps the shores. The frosts of winter are uninterrupted, and the lakes and rivers may be passed upon the ice from December to the beginning of April. The less hardy cereals frequently suffer from the early frosts.

The greater part of the surface of Maine is covered with dense forests of pine, oak, beech, birch, etc. White pine and spruce, when dressed into masts, boards, and shingles, are largely exported. There is also abundance of timber suitable for ship-building, and from the facilities with which it is procured, Maine has become the greatest ship-building State of the Union, and in this department of industry on an average of years produces more tonnage than the three great States of Massachusetts, New York, and Pennsylvania together, or more than one-third that of the whole Union.

Of the aboriginal tribes that formerly hunted in the deep forests of Maine, but few now inhabit the country. There are about 500 still in the State; they live principally on the islands of the Penobscot River, which they own, and enjoy a considerable annuity secured to them by the government. There is also an Indian settlement on the western side of Passamaquoddy Bay. The present inhabitants are chiefly of British descent, and the greater portion of them the immediate descendants of the original colonists of New England. There are, however, large numbers of emigrants from other European countries, but the proportion of these classes is by no means so great as in most of the other States. The colored races form but a small moiety of the people.

Maine is divided into 13 counties, the general statistics of which and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Aroostook	2,088.	12,535.	1,223.	59.	Houlton	Penobscot	10,374.	63,089.	3,933.	407.	Bangor
Cumberland	12,762.	79,549.	5,352.	644.	Portland	Piscataquis	2,539.	14,735.	1,779.	61.	Dover
Franklin	8,457.	20,027.	2,521.	135.	Phillips	Somerset	5,917.	25,531.	3,313.	155.	Norridgewock
Hancock	5,550.	34,372.	2,271.	205.	Castine	Waldo	7,631.	47,230.	4,415.	347.	Belfast
Kennebec	10,162.	62,521.	5,256.	331.	AUGUSTA	Washington	5,835.	38,810.	1,875.	310.	Machias
Lincoln	12,176.	74,875.	4,975.	526.	Wiscasset	York	10,564.	60,101.	5,004.	352.	York
Oxford	6,712.	39,663.	4,288.	150.	Paris						

The whole number of dwellings in the State was, at the above date, 95,797; of families, 103,757; and of inhabitants, 538,088; viz., whites 531,763—males 296,635, and females 235,128; free colored 1,325—males 705, and females 620. Of the whole population there were, *deaf and dumb*—wh. 223, fr. col. 1—total 230; *blind*—wh. 201, fr. col. 0—total 201; *insane*—wh. 533, fr. col. 3—total 536, and *idiotic*—wh. 555, fr. col. 3—total 558. The number of free persons born in the United States was 551,129, the number of foreign birth 31,456, and of birth unknown 584; *native* population originated as follows: *Maine* 517,117, N. Hamp. 13,509, Verm. 1,177, Mass. 16,535, R. I. 410, Conn. 460, N. Y. 973, N. J. 134, Penn. 201, Del. 36, Md. 113, Dist. of Col. 23, Virg. 94, N. Car. 27, S. Car. 31, Ga. 24, Fla. 24, Ala. 6, Miss. 16, La. 21, Tex. 9, Ark. 6, Tenn. 6, Ky. 14, Oh. 63, Mich. 19, Ind. 5, Ill. 33, Mo. 11, Ia. 1, Wisc. 10, Calif. 2, Territories 4. And the *foreign* population was composed of persons, from—England 1,949, Ireland 13,871, Scotland 532, Wales 60, Germany 290, France 143, Spain 13, Portugal 53, Belgium 2, Holland 12, Turkey 4, Italy 20, Austria 3, Switzerland 11, Russia 2, Denmark 47, Norway 12, Sweden 55, Prussia 27, China 3, Asia 5, Africa 5, British America 14,131, Mexico 2, Central America 0, South America 31, West Indies 61, Sandwich Islands 1, and other countries, 51.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Percent.
1790	96,002	533	—	533	96,540	—	—
1800	150,901	813	—	813	151,719	55,179	57.1
1810	227,736	969	—	969	228,705	76,956	50.7
1820	297,340	995	—	995	298,335	69,630	30.4
1830	393,263	1,190	1	1,192	399,455	101,120	33.9
1840	500,493	1,355	—	1,355	501,793	102,333	25.6
1850	531,763	1,325	—	1,325	533,088	31,295	16.2

MAINE.

The statistical returns of the wealth and industry of Maine, as furnished by the census of 1st June, 1850, and other official documents referring to that period, are as follows:

Occupied Lands, &c.—Improved lands 2,039,596 acres, and unimproved lands 2,515,797 acres—valued in cash at \$54,861,748. Number of farms under cultivation, 46,760; value of farming implements and machinery, \$2,284,554.

Live-Stock.—Horses, 41,721; asses and mules, 55; milch cows, 183,556; working oxen, 83,393; other cattle, 125,890; sheep, 451,577; and swine, 54,598—total value of live-stock, \$9,705,726. In 1840, there were in the State—horses, mules, &c., 59,208; neat cattle of all descriptions, 327,255; sheep, 649,264; swine, 117,886, etc.

Grain Crops.—Wheat, 296,259 bushels; rye, 102,916 bushels; Indian corn, 1,750,056 bushels; oats, 2,181,087 bushels; barley, 151,731 bushels; and buckwheat, 104,523 bushels. The same crops in 1840 amounted to—wheat, 848,166 bushels; rye, 137,941 bushels; Indian corn, 950,523 bushels; oats, 1,076,409 bushels; barley, 855,161 bushels; and buckwheat, 51,543 bushels. Thus, while the wheat and barley crops have diminished about five-eighths, all the other crops have increased, and most of them have doubled in quantity.

Other Food Crops.—Peas and beans, 205,541 bushels; Irish potatoes, 3,436,040 bushels. In 1840, the production of the potato crop amounted to 10,392,280 bushels, or nearly three times that of 1850.

Miscellaneous Crops.—Hay, 755,889 (in 1840, 691,358) tons; clover-seed, 9,097 bushels; other grass-seed, 9,214 bushels; hops, 40,120 (in 1840, 36,940) pounds; flax, 17,081 pounds; flax-seed, 580 bushels; maple sugar, 93,542 pounds; molasses, 3,167 gallons; bees wax and honey, 189,618 pounds; silk cocoons, 252 (in 1840, 211) pounds; wine, 724 gallons. The value of orchard products was \$342,865, and of market-garden products, \$122,357.

Products of Animals.—Wool, 1,364,084 (in 1840, 1,465,551) pounds; butter, 9,243,811 pounds; cheese, 2,434,454 pounds; and the value of animals slaughtered during the year was \$1,646,773.

Home-made Manufactures for the year ending 1st June, 1850, were produced to the value of \$513,599.

Manufactures.—Aggregate capital invested, \$600,000,000; value of raw material, fuel, &c., consumed, \$600,000,000; average number of hands employed, 60,000—males, 60,000, and females, 0,000; monthly cost of labor, \$600,000—males \$600,000, and females \$600,000—total value of products for the year, \$600,000,000. The whole number of manufacturing establishments in the State, in 1850, producing to the value of \$500 and upward, was 3,682; and of these, 12 were cotton factories, 86 woolen factories, 213 tanneries, and 26 establishments for the manufacture of iron—26 for castings, and 1 for pig iron.

The *cotton* manufactures employ a capital of \$3,929,700; value of all raw material consumed, \$1,573,110; monthly cost of labor—male \$22,895, and female \$35,973; value of entire products, \$2,596,356. In this department of manufactures 51,581 bales of cotton were used, and 2,921 tons of coal consumed; and the number of hands employed—males 780, and females 2,959. The products for the year were 32,852,556 yards of sheeting, &c.

The *woolen* manufactures employ a capital of \$467,600; and use 1,433,434 pounds of wool, valued at \$495,940; number of hands—males 310, and females 314; monthly cost of labor—male \$6,998, and female \$3,697; value of entire products, \$753,300, and quantity of products, 1,023,020 yards of cloth, and 1,200 pounds yarn.

In *tanneries*, the invested capital is \$732,747; value of hides and skins, \$892,343; hands employed—males, 787, and females 8; monthly cost of labor—male \$17,229, and female \$28; skins tanned 81,350, and sides of leather tanned 682,668; value of products, \$1,620,686.

In the manufacture of *pig iron*, the capital invested is \$214,000; value of all raw material, fuel, &c., \$14,939; hands employed—males, 71; monthly cost of labor, \$1,562; pig iron made, 1,484 tons; value of products, \$36,616. The material consumed consisted of 2,907 tons ore, and 213,970 bushels coke and charcoal.

In the manufacture of *iron castings*, the invested capital is \$150,100; value of raw material, fuel, &c., \$112,570; number of hands employed—males 243, and females 1; average wages per month—to males \$29, and to females \$5; entire value of products—3,691 tons castings—\$265,000. The material and fuel consumed consisted of pig iron, 3,591 tons; old metal, 245 tons; mineral coal, 1,319 tons; and coke and charcoal, 14,000 bushels.

Besides the above, Maine has other considerable interests—numerous mills, and various mechanical establishments, &c., which, in the aggregate, make up a long list of industrial pursuits, for the profitable prosecution of which the fine streams of the country afford special facilities.

Commerce, Navigation, &c.—The total value of merchandise exported to foreign countries, from Maine, during the year ending 30th January, 1850, was \$1,556,912, of which \$1,536,818 was the value of domestic produce and manufactures, and \$20,094 that of foreign goods re-exported. The value of domestic merchandise, exported in American vessels, was \$1,185,993, and in foreign vessels \$400,820; and the value of foreign merchandise, re-exported in American vessels, was \$14,564, and in foreign vessels \$5,580. The total value of imports for the same year was \$856,411, of which \$609,155 was the value of goods carried in American vessels, and \$247,256 in foreign vessels. The following table exhibits the statistics of shipping employed in the foreign trade:

SHIPPING ENTERED.				SHIPPING CLEARED.			
Nationality.	Vessels.	Tonnage.	Crews.	Nationality.	Vessels.	Tonnage.	Crews.
American.....	253	53,309	2,084	American.....	585	111,123	4,543
Foreign.....	1,040	89,877	5,083	Foreign.....	1,046	91,014	5,131
Total.....	1,293	143,186	7,167	Total.....	1,631	202,137	9,674

The tonnage cleared from Passamaquoddy district was 63,367 tons; from Machias, 5,145 tons; from Penobscot, 3,441 tons; from Waldoboro', 2,546 tons; from Wiscasset, 4,509 tons; from Belfast, 11,950 tons; from Bath, 19,382 tons; from Bangor, 12,810 tons; from Portland, 77,645 tons; from Kennebec, 1,343 tons; and from Saco, 496 tons; and the tonnage entered at Passamaquoddy was 58,453 tons; at Machias, 889 tons; at Penobscot, 4,140 tons; at Waldoboro', 492 tons; at Wiscasset, 1,025 tons; at Belfast, 820 tons; at Bath, 10,094 tons; at Bangor, 3,365 tons; at Portland, 64,195 tons; and at Saco, 213 tons. The shipping owned in the State, on the 30th of June, 1850, amounted to 501,421 tons; registered—permanent, 198,955 tons, and temporary, 41,524 tons; enrolled and licensed—permanent, 259,845 tons, and temporary 499 tons; licensed (under 20 tons)—employed in coasting 904 tons, and in the cod fisheries 4,694 tons. Of the registered shipping 321 tons, and of the enrolled and licensed shipping 5,259 tons, were navigated by steam. The proportion of the enrolled and licensed shipping employed—in coasting was 209,079 tons, in the cod fisheries 37,218 tons, and in the mackerel fisheries 12,046 tons.

MAINE.

The statistics of the commerce of Maine for a series of years exhibit the following movements :

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1820.....	\$1,108,081	\$ —	1831.....	\$805,573	\$941,407	1842.....	\$1,050,523	\$606,864
1821.....	1,040,848	950,294	1832.....	981,443	1,123,326	1843.....	682,891	250,260
1822.....	1,036,642	943,775	1833.....	1,019,831	1,380,308	1844.....	1,176,135	570,824

Internal Communication.—The bays and estuaries of Maine, many of which, however, penetrate to a considerable distance inland, are the only natural ways for internal intercourse enjoyed by the State. The great interior back from the sea-board district is beyond their reach, and the chief rivers, except as far as they can be made to float down the timber and rafts of the vast forests which abound at their upper courses, are almost useless to navigation. The State, then, has had to depend on artificial channels for travel and transportation; and from necessity, these are extensive and systematic. But the position of Maine to the British provinces has demanded of it something more than roads to the interior, and hence we find its system, completed and projected, extending into Canada on the one hand, and into New Brunswick and Nova Scotia on the other; while lines of railroad are in operation from the south-east part of the State to Boston, connecting with the general system of the Union, and furnishing a link in the great chain extending from Halifax, the northern terminus of European steam navigation, to the ports of the Gulf of Mexico. The Atlantic and St. Lawrence Railroad, one of the greatest enterprises of the age, gives to Montreal and Quebec an outlet on the Atlantic, and avoids the tedious navigation down the St. Lawrence River. The European and North American Railroad will greatly facilitate and shorten the period of travel between Europe and the Union. The first of these is now about complete, and the latter has so far progressed as to insure its completion within the next four or five years. With the exception of one or two short lines, the railroads as yet complete are found in the south-east part of the State, between the Kennebec River and the line of New Hampshire. The total length of completed railroad in the State, on the 1st January, 1853, was 417 miles. The State has also constructed the Cumberland and Oxford Canal, connecting Portland with Sebago Pond, twenty and a half miles long. It has 25 locks, and by another lock, in Saco River, it is extended through Brandy and Long Ponds, making its whole length 50 miles.

Banks.—The bank returns for October, 1850, reported 82 banks. The following statement exhibits their condition at that period: *Liabilities*—capital \$8,243,000, circulation \$2,651,205, deposits \$1,223,671, due other banks \$48,036, and other liabilities \$38,235; and *assets*—loans and discounts \$5,830,330, real estate \$111,805, due by other banks \$778,955, notes of other banks \$187,435, and specie \$475,589. The banks are subject to the control of Bank Commissioners appointed by the Governor.

Government, &c.—The constitution of Maine went into operation in 1820, on the separation of the State from Massachusetts. It confers the *right of suffrage* on every white male citizen (except paupers, persons under guardianship, and Indians not taxed) 21 years of age, and for three months next preceding any election a resident, and such citizen may vote in the town where a residence is so established. The general election is held annually on the second Monday in September.

The *Legislature* is composed of a House of Representatives and a Senate; representatives not less than 100, nor more than 200 in number (now 151), and elected annually, must be 21 years of age, five years citizens of the United States, one year residents of the State, and three months next preceding the election inhabitants of the town they may represent. A town having 1,500 inhabitants, is entitled to *one* representative; having 3,750, *two*; having 6,775, *three*; having 10,500, *four*; having 15,000, *five*; having 20,250, *six*; and having 26,250, *seven*; and no town can ever be entitled to more than seven representatives. Senators not less than 20 nor more than 31 in number (now 31), must be 35 years of age, and otherwise their term of office and qualifications same as for representatives. Vacancies in the Senate shall be filled by joint vote of the senators and the representatives, from those who had the highest number of votes in each district at the popular election. The Senate tries all impeachments, and a two-thirds vote is necessary to conviction; but judgment in such cases only extends to removal from and disqualification for office, the party being still liable to indictment. No senator or representative shall, during his term, be appointed to any civil office of profit that may have been created, or its emoluments increased during such term; and no member of Congress, or person holding office under the United States, post-officers excepted, can hold a seat in either house. The legislature convenes on the second Wednesday in January annually.

The *Governor* is chosen by a plurality of votes, and holds office for one year. He must be 30 years of age, a natural born citizen of the United States, and for five years, and at the time of his election, and during his term, a resident of the State. If no person has a majority of votes, the House of Representatives, from those having the four highest numbers, if there be so many, shall elect two, and return their names to the Senate, one of whom the Senate shall elect and declare governor. No person holding office under the United States, this State, or any other power, shall be governor. If the office become vacant, the president of the Senate, and after him the speaker of the Representatives, shall act as governor. A two-third vote of both houses in favor of a bill vetoed by the governor, nullifies his objection, and it becomes law nevertheless. The gubernatorial term commences on the second Wednesday of May.

The *Executive Council*, consisting of seven councilors, not more than one from any senatorial district, is chosen annually by joint ballot of the senators and representatives. They must be citizens of the United States, and residents of the State; and their proper office is to advise the governor in the executive part of the government.

The principal *administrative officers* are the Secretary of State and the State Treasurer. They are chosen annually in the same manner as the executive council. The Treasurer is not eligible more than five years successively.

The constitutional organization of the judiciary was essentially altered by an act of the Legislature of 1852. The district courts, which took the place of the old courts of Common Pleas were, abolished, and all their jurisdiction transferred

MAINE.

to the supreme judicial court, to which three additional justices were authorized by the above act. The State is now divided into three judicial districts—western, middle, and eastern, and for the purpose of hearing and determining questions of law and equity, instead of being as heretofore held in the several counties, the terms are annually held for these districts; at Portland for the western district, at Augusta for the middle district, and at Bangor for the eastern district. The other classes of cases are tried as formerly in the several counties where they are commenced. There is a probate court in each county, with a judge and register; and each county has a clerk of the judicial court. Municipal and police courts are established at Portland, Bath, Bangor, Augusta, Gardiner, Belfast, Calais, Rockland, and Brunswick. All State judges are appointed by the governor, with the advice and consent of the council, and hold office for seven years, unless sooner removed for cause.

Among the *general provisions* of the constitution, are the following: Quakers, Shakers, justices of the Supreme Court and ministers of the gospel, shall be exempt from military duty. Suitable provision shall be made by towns to support and maintain public schools. No grant shall be made by the legislature to any literary institution, unless it has control over its charter. No religious test shall be required as a qualification for any office or trust. In all libel cases, the truth may be given in evidence, and the jury shall determine both the law and the facts.

Amendments to the constitution must receive a two-thirds vote of both houses, and be submitted to the people at the next general election; and if a majority is in favor of the amendment, it shall become a part of the constitution.

The *militia* of Maine, according to the returns of 1851, consists of 62,583 men of all arms and grades, of which 188 are commissioned officers, and 62,350 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers, 12 are general officers, 18 general staff officers, 24 field officers, and 129 company officers. All persons between 18 and 45 years of age, not exempt by law, are liable to do military duty.

Maine has several *benevolent institutions*, among which the Insane Hospital at Augusta stands pre-eminent. On the 4th of December, 1850, the two wings and most of the main building were destroyed by fire; the books, library, and papers of the institution were saved, but 27 of the inmates and one of the assistants perished in the flames. The north wing was made habitable by the 1st of January, 1851, and has since been occupied. The returns for the year ending 31st March, 1850, exhibited the condition of the hospital at that time as follows: number of patients in hospital at the commencement of the past year, 127; and received during the year, 126—total 253, of which number 142 were males, and 111 females. Discharged during the year: recovered—males 38, and females 28; improved—males 10, and females 10; unimproved—males 8, and females 8; and died—males 8, and females 7; making a total of 117. Of the 126 admitted, 64 were married—males 35, and females 29; 50 were single—28 males, and 22 females; and 12 were widows; and of the number, 97 had been diseased less than one year, and 29 more than a year. In ordinary cases, the expenses, including board, washing, medical attendance, etc., do not exceed, for males, \$250, and for females, \$225 per week. In 1850 a commission was appointed to establish a Reform School, and construct appropriate buildings therefor.

Finances, Debt, etc.—According to the annual report of the State Treasurer, the amount of receipts for the year ending 30th April, 1850, was \$525,633 26, which, with a balance remaining from the last past year of \$79,038 26, made the total resources of the Treasury \$604,726 52. The expenditures for the same period amounted to \$478,802 45, leaving a surplus of \$125,924 07 for future appropriation. The principal objects of expenditure were—pay of Legislature, \$41,690; executive expenses, \$5,007 93; salaries, \$25,163 02; clerks, \$2,800; roll of accounts, \$18,044 20; printing, etc., \$2,500; cost of criminal prosecutions, \$23,573 66; officers of the State prison, \$4,756 25; Insane Hospital, \$1,519 50; deaf, dumb, and blind, \$9,750 09; school fund, No. 16, \$24,435 56; Teachers' Institute, \$2,600; Board of Education, \$735; Penobscot Indians' fund, \$4,187 38; agricultural products of Indians, \$219 80; Indian annuities, \$1,500; State roads and bridges, \$1,500; militia pensions, \$2,123; Maine Reports, \$1,560; Eastman's Digest of the same, \$1,875; agricultural societies, \$2,202 90; county taxes, \$24,479 92; furniture and repairs, \$1,100; contingent fund of Treasurer, \$1,000; State prison, \$3,300; public debt paid, \$124,250; interest on debt, \$61,574 29; temporary loan, \$2,350, etc.; and the chief sources of income were—direct taxes, \$190,976 60; land office, \$132,340 95; permanent school fund, \$2,009 30; school fund, No. 17, \$27,230 21; county taxes, \$14,508 14; interest on United States loan, \$8,100; premium on United States stock sold, \$7,725; interest, \$3,673 08; bank dividends, \$700; duties on commissions, \$2,170, etc. The resources of the State are estimated at \$519,267 39, among which are enumerated, besides cash on hand and the proceeds of the annual taxes, 100 shares in the Augusta Bank, \$10,000, and United States six per cent. stock due 1856, \$20,000. The whole amount of the public debt at the date above referred to was \$854,750, which pays an annual interest of about \$55,000.

Federal Representation.—Maine, according to the provisions of the Act of 23d May, 1850, apportioning representation, is entitled to send 6 representatives to the United States Congress.

Religious Denominations.—According to the census returns of the United States, taken in 1850, the statistics of the several religious denominations in this State were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	283	93,079	\$426,787	German Ref.	—	—	\$ —	R. Catholic..	11	6,650	\$20,700
Christian	9	3,550	13,500	Jewish.....	—	—	—	Swedenbo'n	2	640	8,000
Congregat'l. 165	67,153	526,270		Lutheran	—	—	—	Tunker.....	—	—	—
Dutch Ref.	—	—	—	Mennonite ..	—	—	—	Union.....	53	26,087	108,670
Episcopal ..	8	8,937	52,600	Methodist ..	171	55,111	259,695	Unitarian..	15	10,144	103,000
Free.	19	6,742	25,700	Moravian....	—	—	—	Universalist	53	19,893	120,150
Friends.....	24	7,225	14,550	Presbyter'n..	7	4,084	32,000	Minor Sects..	1	150	200

—making a total of 851 churches, with accommodation for 304,475 persons, and valued as property at \$1,712,152. Maine constitutes a diocese of the Protestant Episcopal Church, and a part of the Roman Catholic diocese of Boston.

Education.—The Board of Education has been abolished, and an Act has been passed, authorizing, instead thereof, the appointment by the governor of a school commissioner for each county, to hold office for one year from 1st May, and it is made the duty of each commissioner to spend 50 days at least in his county during the winter term of the schools, in visiting and examining the scholars, etc.

In 1828 twenty townships of public land were reserved as a basis for a school fund—the proceeds of the land already sold are \$104,863 63, which constitute the permanent school fund of the State; and in 1850, twenty-four half townships were added to this fund. The banks pay one-half of one per cent. of their capital stock semi-annually for school use. This tax in 1850 amounted to \$27,230 27. Of the school fund thus constituted, \$33,492 10 was apportioned among the

towns, and the towns receiving their share are obliged to raise an amount of school money equal to 40 cents for each inhabitant. In 3,948 districts and 279 part districts, which made returns for 1850, there were 2,706 male and 3,921 female teachers; average monthly wages—male \$16 66, and female \$5 92; average length of schools in weeks, 18.8; schools suspended by incompetency of teachers, 152; number of good school-houses, 1,596; number of poor school-houses, 2,012; number of school-houses built the past year, 120; whole number of scholars, 280,274; whole attendance in winter, 151,360; average attendance, 91,519. The whole amount of school money raised by tax was \$264,351 17, which was \$41,010 81 more than required by law. The sum of \$29,921 46 was expended for private schools. There were school libraries in 9 towns. The whole number of chartered academies in the State in 1850 was 92, of which 64 sustain schools during a greater or less part of the year. Teachers' institutes have been in successful operation for several years; 1,732 teachers attended them in 1850—501 males, and 931 females; and the session of each institute lasted ten days.

The two great colleges of Maine are Bowdoin and Waterville colleges. Bowdoin College, at Brunswick, was founded in 1802, and in 1850 had 14 professors, 1,062 alumni, of whom 187 had entered the ministry, 129 students, and a library of 27,500 volumes; and Waterville College, of Waterville, under Baptist jurisdiction, was founded in 1820, and in 1850 had 5 professors, 267 alumni, of whom 82 had entered the ministry, 88 students, and a library of 15,500 volumes. There is a Theological Seminary at Bangor, under Congregational auspices. It was founded in 1816, and in 1850 had 3 professors, 87 students, 202 graduates, and 7,000 volumes in its library. The Maine Medical School, at Brunswick, was founded in 1820, and in 1850 had 5 professors, 51 students, and 634 graduates. These institutions are liberally endowed, and have all the appliances, apparatus, etc., necessary to illustrate the various subjects taught.

Public Libraries.—One State library—9,000 volumes; two social libraries—6,370 volumes; two college libraries—16,800 volumes; six students' libraries—13,134 volumes; two academic and professional libraries—10,800 volumes; one scientific and historical library—300 volumes; seventeen public school libraries—452 volumes—total 31 libraries and 56,856 volumes. There is a great discrepancy between the account of the college libraries given by the census as above and that published in the annual catalogues of the respective institutions.

Periodical Press.—The whole number of periodicals in Maine, according to the ascertainment of the census of 1850 was 55, of which 15 were whig in politics, 15 democratic, and 25 neutral or devoted to literature, science, religion, etc.; and of the whole number 4 were published daily, 3 tri-weekly, 4 semi-weekly, 43 weekly, and one semi-monthly. The aggregate circulation of each issue of the dailies was 6,100; of the tri-weeklies, 370; of the semi-weeklies, 1,350; of the weeklies, 53,567; and of the semi-monthly, 2,500. Of the dailies 2 were published in Portland, and 2 at Bangor; of the tri-weeklies, 2 at Portland, and 1 at Bath; of the semi-weeklies, 1 at Gardiner, 1 at Bath, 1 at Thomaston, and 1 at Biddeford; of the weeklies, 9 at Portland, 1 at Farmington, 4 at Augusta, 1 at Hallowell, 2 at Waterville, 4 at Bath, 1 at Newcastle, 1 at Lewiston, 1 at Rockland, 2 at Paris, 2 at Norway, 1 at Dover, 2 at Bangor, 2 at Skowhegan, 3 at Calais, 2 at Belfast, 2 at Saco, and 1 at Limerick; and the semi-monthly, the "Scholar's Leaf," at Portland. The "Maine Farmer," an agricultural paper, published at Augusta, circulates 5,300 copies at each issue, and has the highest circulation of any periodical in the State. The "Transcript," a literary issue, published at Portland, circulates 4,608 copies, and has the second highest circulation.

Pauperism and Crime.—The whole number of paupers who received support within the year ending 1st June, 1850, was 5,503, of which 4,553 were natives, and 950 foreign born; and the whole number of paupers on the list at the above date was 3,535, of which 3,209 were natives, and 326 foreign born; annual cost of support, \$154,664. The State prison is located at Thomaston. The whole number of convicts in this institution 30th April, 1849, was 97, and the number received in the year next following was 81—total 98. Discharged by expiration of sentence 17, by pardon 5, and by death 1; and on the 30th April, 1850, 75 remained incarcerated. Of those convicted in 1849-50, 4 were for arson, 5 for burglary, 2 for forgery, 49 for larceny, 5 for murder, and 1 for passing counterfeit coin. The whole number of convicts received into the prison since 2d July, 1824, up to the end of the official year 1850, was 931.

Historical Sketch.—The first settlements of Maine were for a long period interrupted by savage incursion. Though visited at an early period, no permanent colonies were established until the commencement of the seventeenth century. In 1604 the French settled on the Kennebec, and in 1607 Sir John Gilbert arrived at the mouth of the same river with 100 colonists, but having passed the winter in great suffering, the party returned to England, representing the country as a "cold, barren, and mountainous desert." The unfortunate result of this enterprise discouraged any further attempts on the part of the English for some years. The French, however, had established themselves on different parts of the coast, and the Dutch also had a settlement at a place called Newcastle. After the formation of the Plymouth Company a more regular system of colonization was attempted, but no effectual settlement by the English was made before 1635. In that year the country was parceled into shares, but none of the holders, except Sir Ferdinand Gorges, who received a grant of the lands between the Piscataqua and Kennebec, obtained their patents. His charter, granted in 1639, gave him despotic power over the district, and the laws he promulgated on taking possession were aristocratic and feudal in their character, and little suited to the English emigrant of the time. The population of the province seems accordingly to have increased but slowly. The first general council was held at Saco in 1640. The government was administered in the name of Gorges until 1617, when, on his death being announced, the people took the administration of affairs into their own hands, and elected a governor from among themselves until 1652, in which year the province was incorporated with Massachusetts, and so remained until Charles II. restored it to the heirs of Gorges. The government of Massachusetts, however, shortly afterward purchased the whole country for £1,200 sterling, and thenceafter it was governed as part of her territory, and was included in the new charter of Massachusetts in 1691. At that time the present State of Maine was divided into two parts—the country between the Piscataqua and Kennebec, which contained the principal settlements, and was exclusively called Maine, and that between the Kennebec and the St. Croix, which was known by the ancient French name of Acadie. The province was not supposed to extend back from the sea farther than 120 miles, and the territory beyond that distance was considered as crown lands. The whole country, from the Piscataqua to the St. Croix, was now granted to Massachusetts.

From its first settlement to the middle of the eighteenth century the inhabitants suffered grievously from Indian warfare. The savages opposed step by step the progress of the colony. In 1675 almost all the settlements were destroyed, and from 1692 to 1703 the province was a uniform scene of rapine. In 1720 the harassing conflict was renewed, and the settlers suffered severely until 1726, when a treaty was concluded which secured peace for several years. So late as 1744 and 1748 many of the inhabitants were killed or carried off from the towns. Since 1749, however, when another treaty was made, tranquillity has prevailed, and at the present time few Indians remain within the State.

From the period of the union with Massachusetts to the final separation in 1820, the history of Maine has been merged

in that of Massachusetts. We hear little of the former during the Revolutionary War. In the war of 1812-15 a portion of the district was compelled to submit to the British arms, and remained under their control until the return of peace. No attempt was made to dislodge the enemy.

The separation of the district from the jurisdiction of Massachusetts, and its erection into an independent State, were frequently attempted, but without success. In October, 1785, a convention met at Portland for the purpose of considering the subject. In the succeeding year the question was submitted to the people of Maine, to be decided in town meetings, when it was found that a majority of the freemen were against the measure. The subject was renewed in 1802, when again a majority appeared adverse to a separation. In 1819, numerous petitions having been presented to the Legislature, an act was passed for ascertaining the will of the people, in conformity to which a vote was taken in all the towns. A large majority now voted in favor of the separation, and in consequence of the desires of the inhabitants thus expressed, a convention was called under the authorization of the Legislature of Massachusetts. A constitution was adopted which received the approbation of the people, and on the 15th March, 1820, the District of Maine became an independent State and a member of the United States.

AUGUSTA, on the Kennebec River, is the political capital and seat of the State Government.

MAINE, t. and p. v., Broome co., *N. Y.*: 125 m. W. S. W. Albany. Drained by two creeks flowing into the Susquehanna r. Surface much broken; soil best adapted to grazing. The v. is situate in S. W. part of t., on Nanticoke cr. The t. contains several saw-mills, grist-mills, and tanneries. Pop. 1,843.

MAINE, p. o., Cook co., *Ill.*: 175 m. N. E. Springfield.

MAINESBURG, p. o., Tioga county, *Penn.*: 103 m. N. Harrisburg.

MAINEVILLE, p. v., Columbia co., *Penn.*: 61 m. N. N. E. Harrisburg. There is a cold blast furnace (the Cattawissa), constructed in 1815, of 1,800 tons annual capacity, also a forge of same name, constructed in 1824, which produces annually 100 tons of bars.

MALAGA, p. v., Gloucester co., *N. Jer.*: near Scotland Branch fork of Maurice r., 47 m. S. S. W. Trenton. It contains a glass manufactory, several stores, and workshops.

MALAGA, t. and p. v., Monroe co., *Ohio*: 95 m. E. by S. Columbus. Drained by tributaries of Seneca cr. Surface hilly and rough; soil varied. The v. is situated in N. part. Pop. 1,561.

MALCOLM, p. v., Jefferson co., *Miss.*: 61 m. S. W. Jackson. There is a railroad running from Natchez to this v., a distance of 29 miles.

MALDEN, t. and p. v., Middlesex co., *Mass.*: 5 m. N. Boston. Bounded on the S. by Mystic r., which separates it from Charlestown, to which it is connected by a bridge. Drained by Charles r. Surface uneven, abounding in salt meadows and timber lands. Malden, like Medford, Somerville, and Cambridge, is considered as a suburb of Boston. First settled in 1648, incorporated in 1649. It is a busy town, with several manufactures, workshops, and numerous stores. The Boston and Maine R. R. passes through it, from which point the Medford Branch R. R. diverges. Pop. of t. 3,520.

MALDEN, p. v., Ulster co., *N. Y.*: on the W. side of the Hudson r., 41 m. S. by W. Albany. There is a regular steamboat landing, and large quantities of leather and flagging stones are shipped.

MALDEN BRIDGE, p. v., Columbia county, *N. Y.*: on Kinderhook cr., 17 m. S. by E. Albany.

MALHEUREUX islands, *La.*: a small cluster of islands lying off the mouth of Lake Borgne.

MALLET CREEK, p. v., Medina co., *Ohio*: on a fork of Rocky r., 97 m. N. N. E. Columbus.

MALLOYSVILLE, p. v., Wilkes co., *Ga.*: 66 m. N. N. E. Milledgeville.

MALONE, t. p. v., and cap. Franklin co., *N. Y.*: 145 m. N. by W. Albany. Drained by Salmon and Trout rivers, which flow into Canada. The Northern (Ogdensburg) R. R. crosses the N. part of the t., running through the v., which is pleasantly situate on both sides of Salmon r., over which there is a bridge built of stone. Surface level; soil in general fertile. There are very fine specimens of the Potsdam sandstone quarried here. Magnetic iron ore, bog iron ore, and other minerals, are to be found along the river. There is fine water-power, which is employed extensively in manufactories, of which there are a great number. The v.

is the seat of justice for the county, and has several manufactories of cotton goods, leather, scythes, pails, etc. The "Franklin Gazette" (dem.), and "Frontier Palladium" (whig), are issued weekly. Pop. of t. 4,547.

MALTA, t. and p. o., Saratoga co., *N. Y.*: 23 m. N. Albany. Drained by a small stream which bounds it on the N. and Saratoga Lake on the E., and Anthony's Kill (outlet of Round Lake), in the S. Surface undulating; soil fertile. In the t. there are several stores, mills, and manufactories. Pop. 1,349.

MALTA, t. and p. v., Morgan co., *Ohio*: 61 m. E. S. E. Columbus. Drained by Muskingum r., which forms its E. boundary. Surface uneven; soil fertile. The v. is situate in the N. E. part of the t. on the Muskingum river. Pop. of t. 1,302.

MALTAVILLE, p. v., Saratoga co., *N. Y.*: 21 m. N. by W. Albany, near Round Lake. It contains a factory and mill, and about 25 dwellings.

MALUGIN GROVE, p. o., Lee co., *Ill.*: 133 m. N. by E. Springfield.

MALVERN, p. o., Carroll county, *Ohio*: 101 m. N. E. Columbus.

MAMAKATING, t. and p. o., Sullivan co., *N. Y.*: 81 m. S. S. W. Albany. Surface hilly and mountainous, having on the E. the Shawangunk Mountain, and in the W. a high ridge; through the centre flows Bash's Kill, and the Delaware and Hudson Canal. The New York and Erie R. R. crosses the S. part of town. It contains numerous stores, 6 tanneries, 3 distilleries, a number of grist-mills and saw-mills. Pop. of t. 4,107.

MAMARONECK, t. and p. v., Westchester co., *N. Y.*: 119 m. S. Albany. Drained by Mamaroneck cr., flowing into Long Island Sound, which bounds it on the S. The New York and New Haven R. R. passes through the t. Surface uneven—in parts hilly; soil good and well cultivated. The v. is situate on the Sound. Several sloops owned here ply between the v. and New York. There are 2 churches, several stores, and a salamander safe manufactory in the v., and about 800 inhabitants. Pop. of t. 923.

MAMMOTH CAVE, p. o., Edmonson county, *Ky.*: 95 m. S. W. Frankfort, and near Green river. It is situated midway between Louisville and Nashville, and is a fashionable place of resort. The cave is approached through a romantic shade. At the entrance is a rush of cold air; a descent of 30 feet by stone steps, and an advance of 150 feet inward brings the visitor to the door, in a solid stone wall, which blocks up the entrance of the cave. A narrow passage leads to the great *vestibule* or ante-chamber, an oval hall, 200 by 150 feet, and 50 feet high. Two passages, of 100 feet width, open into it, and the whole is supported without a single column. This chamber was used by the races of yore as a cemetery, judging from the bones of gigantic size which are discovered. A hundred feet above your head you catch a fitful glimpse of a dark-gray ceiling, rolling dimly away like a cloud, and heavy buttresses, apparently bending under the superincumbent weight, project their enormous masses from the shadowy wall. The scene is vast, solemn, and awful. In the silence that per-

vades, you can distinctly hear the throbings of your heart. In *Audubon Avenue*, leading from the hall, is a deep well of pure spring water, surrounded by stalagmite columns from the floor to the roof. The *Little Bat Room* contains a pit 280 feet deep, and is the resort of myriads of bats. The *Grand Gallery* is a vast tunnel, many miles long and fifty feet high, and as wide. At the end of the first quarter of a mile is the *Kentucky Cliffs* and the *Church*, 100 feet in diameter and 63 feet high. A natural pulpit and organ-loft are not wanting. "In this temple religious services have frequently been performed." The *Gothic Avenue*, reached by a flight of stairs, is 40 feet wide, 15 feet high, and 2 m. long. Mummies have been discovered here which have been the subject of curious study to science; there are also stalagmites and stalactites, *Louisa's Bower*, and *Vulcan's Furnace*. On the walls of the *Register Rooms* are inscribed thousands of names. "The *Gothic Chapel*, when illuminated with lamps, inspires the beholder with feelings of solemnity and awe." At the foot of the *Devil's Arm Chair* is a small basin of sulphur water. Then there is the *Breast-work*, the *Elephant's Head*, *Lover's Leap*, *Gatewood's Dining Table*, and the *Cooling Tub*, a basin 6 feet wide and 3 feet deep, of the purest water—*Napoleon's Dome*, etc., etc. The *Ball Room* contains an orchestra 15 feet high; near by is a row of cabins for consumptive patients—the atmosphere being always temperate and pure. The *Star Chamber* presents an optical illusion. "In looking up, the spectator seems to see the firmament itself, studded with stars, and afar off a comet with a bright tail." The *Temple* is an immense vault, covering an area of two acres, and covered by a single dome of solid rock, 120 feet high. It rivals the celebrated vault in the Grotto of Antiparos, which is said to be the largest in the world. In the middle of the dome there is a large mound of rocks rising on one side nearly to the top, very steep, and forming what is called the *Mountain*. The *River Hall* descends like the slope of a mountain; the ceiling stretches away before you, vast and grand, as the firmament at midnight. A short distance on the left is a steep precipice, over which you can look down by the aid of torches upon a broad, black sheet of water, 80 feet below, called the *Dead Sea*. This an awfully impressive place, the sights and sounds of which do not easily pass from memory. The Mammoth Cave is said to be explored to the distance of ten miles without reaching its termination, while the aggregate width of all the branches is over *forty miles*! Next to Niagara, it is the wonder of nature in the western world, or perhaps throughout all her domains.

MANACK, p. o., Lowndes county, *Ala.*: 27 m. S. W. Montgomery.

MANAHAWKIN, p. v., Ocean co., *N. Jer.*: on Manahawkin cr., 4 m. W. Little Egg Harbor Bay, 45 m. S. E. Taunton. It contains 3 churches, several small stores, and about 260 inhabitants.

MANALAPAN, p. o., Monmouth co., *N. J.*: 21 m. E. Trenton.

MANASQUAM, p. v., Monmouth co., *N. Jer.*: on Manasquam cr., 35 m. E. S. E. Trenton.

MANASQUAM river, Monmouth county, *N. Jer.*: rises in Freehold t., and after a S. E. course of 13 m., enters the Atlantic by Manasquam inlet. The tide-water, 3 m. above its mouth, is crossed by Squam Bridge.

MANASSES GAP, p. o., Warren co., *Virg.*: the gap is a pass on the Blue Ridge, which here divides the counties of Fauquier and Warren. The Manasses Gap R. R., from Alexandria to Front Royal, passes through it.

MANATAWNY, t. and p. o., Berks county, *Penn.*: 61 m. E. N. E. Harrisburg. Drained by Sacony cr., a tributary of Maiden cr. Surface level; soil loam and gravel, and very productive. The v. of Kutztown is situated in the W. part of t., and has a church, 3 stores, and about 90 dwellings.

MANATEE, p. v., Hillsboro' co., *Flor.*: on an arm of Spiritu Santo Bay, 37 m. S. Tampa, 241 m. S. S. E. Tallahassee.

MANAYUNK, t. and p. v., Philadelphia co., *Penn.*: one of the suburban districts of Philadelphia, 7 m. N. N. W. Phila-

delphia, and 89 m. W. by S. Harrisburg. It is situate on E. bank Schuylkill river, at the junction of Philadelphia and Reading R. R. with the Philadelphia, Germantown, and Norristown R. R. It has fine water-power, created by the waste water of the canal. Two bridges cross the Schuylkill river at this place. There is a forge situate here, as also a rolling mill; the latter produced (in 1849) 600 tons boiler and flue iron, and otherwise considerable manufacturing and other business are carried on. Pop. 6,139.

MANCHAC, p. v., E. Baton Rouge par., *La.*: on E. bank Mississippi r., 9 m. S. Baton Rouge.

MANCHAO HOUSE, p. o., Travis county, *Tex.*: 11 m. S. Austin City.

MANCHAUG, p. v., Worcester co., *Mass.*: on a fork of Blackstone r., 39 m. S. W. Boston.

MANCHESTER, t. and p. v., Hartford co., *Conn.*: 9 m. E. Hartford. Drained by Hockanum r., which affords excellent water-power. Surface uneven; soil fertile and productive. In 1794 the first cotton-mill in the State was built here. It is a very important manufacturing town. There are several paper-mills, 2 powder-mills, and a number of wooden and other manufactories. The v. is pleasantly situated in the N. of t., on line of the Hartford, Providence, and Fishkill R. R., 23 m. W. by N. Willimantic. Pop. of town, 2,546.

MANCHESTER, p. v., Scott county, *Ill.*: 40 m. W. S. W. Springfield.

MANCHESTER, p. v., Dearborn county, *Ind.*: 72 m. S. E. Indianapolis.

MANCHESTER, p. v., and cap. Clay co., *Ky.*: situate on S. side of Little Goose cr., a tributary of Kentucky r., 93 m. S. E. Frankfort. There are salt works in the vicinity. It contains a court-house, etc.

MANCHESTER, p. v., Carroll county, *Md.*: 49 m. N. by W. Annapolis.

MANCHESTER, t. and p. v., Essex county, *Mass.*: on Massachusetts Bay, 7 m. N. E. Marblehead, 21 m. N. E. Boston. Manchester has a fine harbor, suitable and safe for vessels of moderate draft. Fishing is the chief employment of the inhabitants. The surface of the t. is rough, and the soil varied. Ship-building is carried on to some extent, besides which there are manufactories of leather, boots, shoes, cabinet-ware, palm-leaf hats, and ships' wheels are manufactured here. The village is pleasantly situated, and commands a delightful prospect. The Gloucester Branch R. R. passes through it, connecting at Beverly (9 m. W.) with the Eastern R. R. Pop. of the t. 1,638.

MANCHESTER, p. o., Washtenaw co., *Mich.*: 45 m. S. E. Lansing.

MANCHESTER, p. v., St. Louis co., *Mo.*: on the St. Louis and Jefferson City post-road, 13 m. W. St. Louis, 93 m. E. Jefferson City.

MANCHESTER, t. p. city, and one of the capitals Hillsborough co., *N. Hamp.*: 18 m. S. $\frac{1}{2}$ E. Concord. Drained by a number of small streams which discharge themselves into the Merrimac r., which forms the W. boundary, and affords excellent water-power. Massabesick Pond is on the E. border of the t., from which Cohas brook issues and flows into the Merrimac river. Surface undulating; soil varied, that along the river being easy of cultivation and very productive. The canal by Amoskeag Falls, 1 m. in length, is in this town. These are the largest falls on the Merrimac, having a descent, in the course of a mile, of from 50 to 60 feet. There are now in operation at this place several large cotton-mills, owned and operated by the Amoskeag Manufacturing Company, and three by the Stark Mills Corporation, consuming annually 36,000 bales of cotton, 635,000 pounds of potato starch, 31,000 gallons sperm oil, 6,700 cords wood, 1,200 tons anthracite coal, and producing 39,500,000 yards of sheeting, shirting, ticking, denims, merino stripes, and cotton flannel. There is a blue-dyeing establishment, cotton warehouses, repair shops, counting-houses, and numerous blocks of dwelling-houses used for

boarding-houses for the operatives, all built of brick, and neat in appearance. There is an extensive machine-shop and foundry owned by the Amoskeag Company, with houses adjoining for the accommodation of the hands employed. The Mousselin De Laine Works, owned by the Manchester Print Works Corporation, produce 10,000,000 yards of mousselin de laine and fine prints annually, which are celebrated for their superior quality. There is quite a large village near the mills, having a good town-house, two stories high, with a spacious hall, cupola, clock, etc., and the usual number of other public buildings, a large number of neat dwellings and stores, and several hotels and schools. The city of Manchester is situate on a plain about 95 feet above the river; it is neatly laid out with wide streets, the principal one being 100 feet wide, extending more than a mile N. and S.; the chief part of the other streets intersect it at nearly right angles, while four run parallel with it. There are extensive public squares, ornamented with trees. A public cemetery, called the Valley, containing some 20 acres, laid out with winding paths and avenues, is situate near the v. by the side of a beautiful stream. The t. is connected by bridges with Goffstown and Bedford. The villages of Piscataquog and Amoskeag, on the W. side of the r., are connected by these bridges with Manchester, and constitute with it but one place of business. The growth of the city is rapid and unrivaled by any other in the country except Lowell. The Manchester and Lawrence R. R., Concord R. R., and the New Hampshire Central R. R., all diverge from this point, 18 m. distant from Concord. The city is lighted with gas. There are 10 churches in the town—2 Congregational, 1 Episcopalian, 3 Baptist, 2 Methodist, 1 Universalist, and 1 Unitarian; 2 banks, the Manchester Bank, capital \$125,000, and the Amoskeag Bank, capital \$150,000. The "Granite Farmer" (weekly, agric.), "Manchester Messenger" (weekly), "Manchester American" (weekly, whig), "Manchester Mirror" (daily), and "The Democrat" (weekly, dem.), are published here. Pop. of t. 13,923.

MANCHESTER, p. o., Ocean county, *N. Jer.*: 35 m. S. E. Trenton.

MANCHESTER, t. and p. v., Ontario county, *N. Y.*: 183 m. W. by N. Albany. Drained by outlet of Canandaigua Lake. Surface undulating; soil sandy loam and clay, underlain by lime, and very fertile, being well adapted to wheat. There is a sulphur spring in the E. part of town, called Clifton Springs, of some celebrity. The v. is situate on Canandaigua outlet, and contains several churches, stores, a woolen factory, a furnace, 35 dwellings, and about 250 inhabitants. There are in the t. a number of manufactories. Pop. of t. 2,940.

MANCHESTER, p. v., Adams co., *Ohio*: 91 m. S. by W. Columbus. Pleasantly situate on the N. side of the Ohio r.

MANCHESTER, t. and p. o., York co., *Penn.*: situate on the S. side Susquehanna r., between Conewago cr. and Codorus Creek, 15 m. S. E. Harrisburg. Surface uneven; soil fertile. There are several distilleries, a flour and grist mill, and saw-mills. There is a hot blast furnace situate here, the annual capacity of which is 1,400 tons. Pop. of t. 6,139.

MANCHESTER, p. v., Sumter dist., *S. Car.*: 31 m. E. S. E. Columbia. The Wilmington and Manchester R. R. passes it 156 m. from Wilmington, and 6 m. from the junction.

MANCHESTER, p. v., and cap. Coffee co., *Tenn.*: on a fork of Duck r., W. part of county, 49 m. S. E. Nashville.

MANCHESTER, t., p. v., and cap. Bennington co., *Verm.*: 81 m. S. W. Montpelier. Situate between the Green and Equinox mountains. The scenery is very beautiful. Drained by Battenkill r. and its branches, which afford good water-power. The soil along the water-course is good, but the principal part of the t. is better adapted to grazing than tillage. There are extensive quarries of beautiful marble, and also several manufactories, saw-mills and grist-mills. The v. is pleasantly situate in the centre of t. on an elevation. The Western Vermont R. R. passes through it 30 m. from Rutland. Pop. 1,782.

MANCHESTER, p. v., Chesterfield co., *Virg.*: on the W. bank of James r., 2 m. below Richmond. Mayo's Bridge connects the v. with Richmond. It contains several factories and mills, 400 dwellings, and about 2,000 inhabitants. Immense water-power is furnished by the falls at this place.

MANCHESTER BRIDGE, p. o., Duchess co., *N. Y.*: 63 m. S. Albany.

MANCHESTER CENTRE, p. o., Ontario co., *N. Y.*: 181 m. W. by N. Albany.

MANCHESTER STATION, p. o., Hartford co., *Conn.*: 9 m. E. Hartford.

MANDANA, p. v., Onondaga co., *N. Y.*: near Skaneateles Lake, 141 m. W. by N. Albany.

MANDARIN, p. v., Duval co., *Flor.*: on E. bank of St. John's r., 165 m. E. Tallahassee.

MANDEVILLE, p. v., St. Tammany par., *La.*: on N. bank of Lake Pontchartrain, 63 m. E. $\frac{1}{2}$ S. Baton Rouge, and 13 m. E. Pass Manchac.

MANGOHICK, p. o., King William co., *Virg.*: 27 m. N. E. Richmond.

MANHASSET, p. v., Queens co., *N. Y.*: at the head of Cow Neck, 127 m. S. Albany.

MANHATTAN, p. v., Putnam co., *Ind.*: 39 m. W. S. W. Indianapolis, 2 m. W. El river.

MANHATTAN, t. and p. v., Lucas co., *Ohio*: 117 m. N. by W. Columbus. Situate at the mouth of the Maumee r., which divides it in two parts, and bounded on the N. E. by Maumee Bay. Drained by the Maumee and Ottawa rivers, and the Wabash and Erie Canal terminates here. Surface level; soil fertile. Pop. 541.

MANHATTAN island. (See NEW YORK CITY).

MANHATTANVILLE, p. v., New York co., *N. Y.*: on the line of the Hudson River R. R., 8 m. from City Hall, New York, 130 S. Albany. Situate on the E. side of the Hudson river, contains several stores and a white-lead factory, etc., and there is a fine wharf here. About half a mile distant, on an elevation, is the New York Lunatic Asylum.

MANHEIM, t. and p. v., Herkimer co., *N. Y.*: 63 m. N. W. Albany. Bounded on the S. by the Mohawk r. Drained by East Canada cr., which flows into the Mohawk r. Surface level; soil rich and very productive on the alluvial flats along the river. It contains several stores and mills. The village is situate in S. part of town, near the line of the Utica and Schenectady R. R. Pop. of t. 1,902.

MANHEIM, t. and p. v., Lancaster co., *Penn.*: 25 m. E. S. E. Harrisburg. Drained by Great Conestoga and Little Conestoga creeks, which bound it on its E. and S. W. sides. Surface uneven; soil calcareous loam and clay. It has flouring, grist, and saw mills, and an oil mill. The "Sentinel," a weekly issue, is published here. Pop. of t. 2,089.

MANHEIM CENTRE, p. o., Herkimer co., *N. Y.*: 65 m. N. W. Albany.

MANILLA, p. v., Rush co., *Ind.*: on the W. boundary of county, 29 m. S. E. Indianapolis, and on the Rushville and Shelbyville R. R., 11 m. from Rushville.

MANISTEE county, *Mich.* Situate N. W. on Lower Peninsula, and contains 551 sq. m. Drained by Manistee and M'Moosie rivers, flowing into Lake Michigan, its N. boundary. Capital: Manistee. Not organized in 1850.

MANISTEE, p. o., Manistee county, *Mich.*: 125 m. N. W. Lansing.

MANITOWOC county, *Wisc.* Situate E. on Lake Michigan, and contains 534 sq. m. Drained by Manitowoc, Centre, and E. and W. Twin rivers, and smaller streams. Surface considerably broken; soils deep and rich, generally clay, with strips of sandy loam. Most grains do well, and the pasturage is fine. It is heavily timbered with pine, oak, and maple, and the lumber trade is the chief business. The rivers furnish fine mill-seats, and on the lake it has a good harbor, with a growing lake trade. Farms 35; manuf. 22; dwell. 715, and pop.—wh. 3,702, fr. col. 0—total 3,702. Capital: Manitowoc.

MANITOWOC, t., p. v., and cap. Manitowoc county, *Wisc.*:

113 m. N. E. Madison. Surface undulating; soil fertile, with good timber lands. Drained by Manitowoc r., which falls into Lake Michigan. The v. at the mouth of the r. has considerable trade, and is indicated as a future place of importance. Exports in 1851, \$13,719, and imports, \$49,129. Pop. of t. 766.

MANITOWOC RAPIDS, t. and p. o., Manitowoc co., *Wisc.*: 107 m. N. E. Madison. Drained by Manitowoc r. and Silver cr. Surface undulating; soil fertile, with much timber land. It has excellent water-power, capable of supplying a large number of mills. Pop. of t. 966.

MANKAHTAH county, *Minn.* Situate N., and contains about 18,000 sq. m. The territory thus named stretches from the Mississippi to the Missouri, and is drained by Tchan Sansan or a'Jaques r., a branch of the Missouri, and Red r., of the N., flowing into Lake Winnipeg, with their branches, and innumerable smaller streams. The E. is almost covered with small lakes, which abound in fish, and furnish abundance of wild rice. This region is chiefly inhabited by Indians, and visited only by hunters and fur traders, who collect great numbers of skins and furs for the eastern and European markets. Farms 9; manuf. 0; dwell. 16, and pop.—wh. 153, fr. col. 0—total 153. Not yet organized.

MANLIUS, t. and p. o., Allegan county, *Mich.*: 73 m. W. Lansing. Drained by Kalamazoo and Rabbit rivers. Surface undulating; soil varied—on the banks of the river, rich alluvion. There is lumber here in abundance. The v. of Richmond is situate in the N. W. part of the t., on the N. side of the Kalamazoo r. Pop. of t. 82.

MANLIUS, t. and p. o., Onondaga co., *N. Y.*: 127 m. N. W. Albany. Drained by Limestone and Chittenango cr. Surface level; soil calcareous loam and vegetable mold, very productive. The v. is situate in centre, on the Syracuse and Utica R. R. There are sulphur springs in the vicinity. Pop. of t. 6,298.

MANLIUS CENTRE, p. v., Onondaga co., *N. Y.*: on the Erie Canal, 129 m. N. W. Albany.

MANLY, p. o., Ashe co., *N. Car.*: 185 m. W. by N. Raleigh.

MANLYVILLE, p. o., Henry co., *Tenn.*: 83 m. W. by N. Nashville.

MANNBOROUGH, p. v., Amelia county, *Virg.*: 2 m. S. Appomattox r., and 23 m. S. by W. Richmond.

MANXINGHAM, p. v., Butler co., *Ala.*: near a branch of Cedar r., 41 m. S. W. Montgomery.

MANNINGTON, p. v., Leon county, *Flor.*: 5 m. N. E. Tallahassee.

MANN'S CHOICE, p. o., Bedford co., *Penn.*: 87 m. S. S. W. Harrisburg.

MANNSVILLE, p. v., Jefferson co., *N. Y.*: 141 m. N. W. Albany. The Watertown and Rome R. R. passes through the village.

MANNY, p. v., and cap. Sabine par., *La.*: on Bayou Haspoon, 5 m. S. Fort Jessup, 153 m. N. W. Baton Rouge.

MANONA county, *Ida.* Situate N. W., and contains 780 sq. m. Drained by Little Lion and Soldier rivers, affluents of the Missouri, its W. boundary. Unorganized in 1850.

MANOR, t. and p. v., Lancaster co., *Penn.*: on the N. side of Susquehanna r., 31 m. S. E. Harrisburg. The Conestoga r. forms its S. E. boundary, by which and its branches it is watered. Surface hilly; soil fertile. It has several flouring, grist, and saw mills. Pop. of t. 3,826.

MANOR, sta., Suffolk co., *N. Y.*: on the Long Island R. R., 66 m. E. New York.

MANOR HILL, p. o., Huntingdon co., *Penn.*: 65 m. W. Harrisburg.

MANORVILLE, p. o., Suffolk co., *N. Y.*: 131 m. S. by E. Albany.

MANSFIELD, t. and p. v., Tolland co., *Conn.*: 23 m. E. Hartford. Drained by Natchaug r. and its branches, tributaries of Willimantic r., which latter bounds it on the W. Surface uneven—in parts hilly; soil fertile. It has excellent water-power. This t. is important for its silk manufactories, which are the most extensive in the United States. Besides the silk, there are cotton and other factories in the town.

The v. is situate on N. side of the t., near the New London, Willimantic, and Palmer R. R., 88 m. N. New London. Eagleville is the hame of a v. in W. part of t., situate on the railroad. Pop. of t. 2,530.

MANSFIELD, p. v., De Soto par., *La.*: on a small cr. flowing into Big Pierre Lake, 115 m. N. W. Baton Rouge. It contains the court-house of the parish. The "Mansfield Advertiser" (lit.) is issued weekly.

MANSFIELD, t. and p. v., Bristol co., *Mass.*: 24 m. S. by W. Boston. Drained by branches of Taunton r. Surface level; soil good. This place bids fair to be of some importance as a coal region. A mine of anthracite coal is situate here (discovered 20 years ago), the vein 5 feet in thickness, dipping to N. W.; besides which there are numerous other veins. The coal is of fine quality. There are several cotton and wool manufactories, as also a nail factory. Mansfield sta. is in N. part of t., on the Boston and Providence R. R., at which place the New Bedford and Taunton, and Taunton Branch R. R. diverges. Pop. of t. 1,789.

MANSFIELD, p. v., Warren co., *N. Jer.*: 37 m. N. N. W. Trenton. The Morris Canal passes through the village.

MANSFIELD, sta., Cattaraugus co., *N. Y.*: on the Corning and Blossburg R. R., 25 m. from Corning.

MANSFIELD, p. o., Henry county, *Tenn.*: 83 m. W. by N. Nashville.

MANSFIELD, p. v., and cap. Richland co., *Ohio*: on the Sandusky, Mansfield, and Newark R. R., 67 m. N. by E. Columbus. It is pleasantly situated, and has a court-house, jail, 2 churches, several stores and workshops, and a large number of dwellings. There are 5 papers published here, the "Richland Democrat" (dem.), "Richland Jeffersonian" (whig), "Shield and Banner" (dem.), "Mansfield Herald" (whig), the "Rainbow" (lit.). Pop. of t. 3,567.

MANSFIELD, p. v., Kendall county, *Ill.*: 135 m. N. E. Springfield.

MANSFIELD, p. o., Tioga co., *Penn.*: 113 m. N. by W. Harrisburg.

MANSFIELD, p. o., Louisa county, *Virg.*: 37 m. N. W. Richmond.

MANSFIELD CENTRE, p. v., Tolland co., *Conn.*: on the cross roads, in S. E. part of Mansfield t., near Natchaug r., 25 m. E. Hartford.

MANSFIELD DEPÔT, p. v., Tolland county, *Conn.*: on the New London, Willimantic, and Palmer R. R., 88 m. N. by W. New London and 21 m. E. Hartford.

MANSFIELD mountains, *Verm.*: a branch of the Green Mountains, which presents some of the loftiest culminations in the State.

MANSKEE'S CREEK, p. o., Davidson co., *Tenn.*: 13 m. N. Nashville.

MANSURA, p. v., Avoyelles par., *La.*: on W. side of Red river, and about 2 m. N. Mississippi r., 53 m. N. W. Baton Rouge.

MANTI CITY, v., Sanpete co., *Utah Ter.*: in a hilly region, nearly 5,000 feet above the sea, and 45 m. N. E. Fillmore City.

MANTON, p. o., Providence county, *R. I.*: 11 m. W. Providence.

MANTON, p. o., Marion county, *Ky.*: 47 m. S. by W. Frankfort.

MANTUA, p. o., Pickens county, *Ala.*: 119 m. N. W. Montgomery.

MANTUA, p. o., M'Minn county, *Tenn.*: 125 m. S. E. Nashville.

MANTUA CENTRE, p. o., Portage co., *Ohio*: 125 m. N. E. Columbus.

MANVILLE, p. v., Providence co., *R. I.*: on the Blackstone river, and line of Providence and Worcester R. R., 12 m. N. Providence.

MANWARING'S, p. o., Shelby county, *Ind.*: 23 m. S. E. Indianapolis.

MAON, p. o., Panola co., *Miss.*: 133 m. N. Jackson.

MAPLE, p. o., Ionia co., *Mich.*: at the junction of Maple

river with First cr., branches of Grand river, 25 m. N. W. Lansing.

MAPLE, p. o., Brown co., *Ohio*: 81 m. S. S. W. Columbus.

MAPLE RIVER, *Mich.*: a considerable stream, rising near the centre of Shiawassee co., and pursuing a N. W. course through Shiawassee, etc., into Gratiot, and then a S. W. course through Gratiot, etc., into Ionia co., where it enters the Grand river, about 8 m. below the mouth of Looking-glass river. It is 60 yards wide at its mouth, and is not less than 100 miles long. The bottoms on this stream are exceedingly rich and fertile.

MAPLE BOTTOM, p. o., Iredell county, *N. Car.*: 119 m. W. Raleigh.

MAPLE CREEK, p. o., Washington co., *Penn.*: 169 m. W. Harrisburg.

MAPLE FURNACE, v., Butler co., *Penn.*: 169 m. W. N. W. Harrisburg. There is a coal blast furnace here (constructed in 1843) which has an annual capacity of 1,400 tons.

MAPLE GROVE, t. and p. o., Barry county, *Mich.*: 81 m. S. S. W. Lansing. Drained by a small cr., tributary of Big Fork of Thorn-apple r. Surface undulating; soil fertile; abounds in fine timber lands. Pop. 153.

MAPLE GROVE, p. o., Arcostook co., *Me.*: 183 m. N. E. Augusta.

MAPLE GROVE, sta., Berkshire co., *Mass.*: on Pittsfield and North Adams R. R., 13 m. Pittsfield, 107 m. W. by N. Boston.

MAPLE GROVE, p. o., Knox county, *Ohio*: 85 m. N. E. Columbus.

MAPLE GROVE, p. o., Otsego county, *N. Y.*: 85 m. W. Albany.

MAPLE HILL, p. o., Davidson co., *N. Car.*: 85 m. W. Raleigh.

MAPLE SPRINGS, p. o., Red River co., *Tex.*: 285 m. N. E. Austin City.

MAPLESVILLE, p. v., Bibb county, *Ala.*: on N. side of Mulberry cr., 41 m. N. W. Montgomery.

MAPLETON, p. o., Abbeville dist., *S. Car.*: 79 m. W. Columbia.

MAPLETON, p. o., Niagara co., *N. Y.*: 271 m. W. by N. Albany.

MAPLETON, p. o., Waukesha county, *Wis.*: 59 m. E. Madison.

MAPLETON, p. o., Stark co., *Ohio*: 25 m. N. E. Columbus.

MAPLETOWN, p. v., Greene co., *Penn.*: on Whitelay cr., 159 m. S. by W. Harrisburg.

MAPLEVILLE, p. o., Providence county, *R. I.*: 9 m. W. Providence.

MAQUOKETA, p. v., Jackson county, *Ia.*: in S. part of co., on a branch of the Maquoketa r., 53 m. N. E. Iowa City.

MAQUON, p. v., Knox co., *Ill.*: situate in a fertile prairie 1 m. W. Spoon r., 73 m. N. N. W. Springfield.

MARAMEC, p. v., Crawford co., *Mo.*: situate in an extensive iron region on the W. bank of the Maramec r., 52 m. S. E. Jefferson City. There is a blast furnace and several forges (called "Massey's Iron Works") in operation, yielding from 1,000 to 1,500 tons bar iron annually of excellent quality. "Big Spring" (so called, at the junction of the river), affords excellent water-power to the v., on the site of which are several saw and grist mills.

MARAMEC river, *Mo.*: rises in Dent county, whence its course is generally N. E. through Crawford and into Franklin, and thence it passes in an E. and E. N. E. direction into Jefferson and St. Louis counties, and falls into the Mississippi about 20 m. below St. Louis City. Its principal affluents are Osage Fork and Big r. from the S. and Bourbeuse cr. from the W., besides many smaller streams from both directions. The river is about 180 m. long, and navigable for steamboats 60 miles.

MARATHON county, *Wis.*: Situate N. middle, and contains about 5,100 sq. m. Drained by Wisconsin r. and its branches, heads of Black and Chippewa rivers, and of Montreal r. of Lake Superior. Many of the rivers have

lakes, or chains of lakes, at their sources, and most furnish water-power. The surface is much varied, and parts are very hilly. The soil is various, with much excellent grain land, and is generally well timbered. Only the S. is yet settled, and that but sparsely. Farms 7; manuf. 15; dwell. 76, and pop.—wh. 508, fr. col. 0—total 508. *Capital*: Wausau.

MARATHON, t. and p. v., Cortlandt co., *N. Y.*: 128 m. W. $\frac{1}{2}$ S. Albany. Drained by Tioughnioga r. and its branches, which pass through the town. Surface undulating; soil gravelly loam, intermingled with lime and slate, and very fertile. The v. is situate on the E. side of the Tioughnioga. Pop. of t. 1,149.

MARATHON, p. o., Clermont county, *Ohio*: 85 m. S. W. Columbus.

MARBLE CREEK, p. o., Jessamine co., *Ky.*: 26 m. S. E. Frankfort.

MARBLE DALE, p. o., Litchfield co., *Conn.*: 87 m. W. Hartford.

MARBLE FURNACE, p. o., Adams co., *Ohio*: 91 m. S. by W. Columbus.

MARBLE HALL, p. o., Hawkins co., *Tenn.*: 208 m. E. by N. Nashville.

MARBLEHEAD, p. o., Ottawa county, *Ohio*: 107 m. N. Columbus.

MARBLEHEAD, t. p. v., and port of entry, Essex co., *Mass.*: 14 m. N. E. Boston. Situate on a peninsula formed by the harbor of Salem on the N. and Nahant Bay on the S. Surface elevated and rocky. The v. is pleasantly located on a deep inlet of the coast called the harbor, and is accessible to the largest vessels; and a branch of the Eastern R. R. comes up here. The people are noted for their devotion to the fisheries and coast navigation. The clearances in the foreign trade in 1850 numbered 176 vessels (11,414 tons), and the entrances 177 vessels (12,086 tons)—nearly all foreign shipping from the British provinces. Shipping owned in the district 6,842 tons, of which 2,231 tons were employed in coasting, 2,689 tons in the cod fisheries, and 248 tons in the mackerel fisheries, etc. Coasting steamers touch at this point several times daily. Pop. of the t. 6,167.

MARBLEHEAD, p. o., Gilmer county, *Ga.*: 185 m. N. W. Milledgeville.

MARBLE HILL, p. v., Prince Edward co., *Virg.*: on a fork of Appomattox r., 99 m. S. W. Richmond.

MARBLE HILL, p. o., Franklin county, *Tenn.*: 61 m. S. Nashville.

MARBLETOWN, t. and p. v., Ulster county, *N. Y.*: 57 m. S. by W. Albany. Drained by Esopus cr. on the N. E. and Rondout Kill on the S. E., both which afford excellent water-power. The Shawangunk Mountains are in the S. E. part of town. Surface hilly; soil on the mountains barren, and in the lower parts fertile, being a rich vegetable mold. The v. is situate near Esopus cr. The t. has numerous mills, tanneries, etc., and 3,839 inhabitants. The Delaware and Hudson Canal passes through it.

MARBURYVILLE, p. v., St. Tammany par., *La.*: on E. bank of Tangipahoa r., 43 m. E. by N. Baton Rouge.

MARCELLINE, p. o., Adams county, *Ill.*: 79 m. N. by W. Springfield.

MARCELLON, t. and p. v., Columbia co., *Wis.*: 87 m. N. Madison. Drained by branches of Wisconsin r. Surface varied; soil fertile, with good timber land. The v. is in the S. E. part of t., on a branch of Wisconsin r. The t. has excellent water-power and some mills. Pop. 505.

MARCELLUS, p. o., Washington county, *Ia.*: 27 m. S. Iowa City.

MARCELLUS, t. and p. v., Onondaga co., *N. Y.*: 131 m. W. by N. Albany. Drained by Nine Mile cr. Surface uneven, in parts hilly; soil calcareous loam, and highly fertile. The v. is situate on Nine Mile cr. in N. part of t., and on the line of the Rochester and Syracuse R. R. There are several mills and factories in operation. Pop. of t. 2,759.

MARCELLUS FALLS, p. v., Onondaga co., *N. Y.*: situate

about 1 m. S. Marcellus on Nine Mile cr., 129 m. W. by N. Albany.

MARCHAND, p. o., Indiana co., *Penn.*: 117 m. W. by N. Harrisburg.

MARCUS, p. v., Jackson co., *Ga.*: on a fork of the Oconee r., 53 m. N. N. W. Milledgeville.

MARCUS HOOK, p. v., Delaware co., *Penn.*: on the Delaware r., 81 m. E. S. E. Harrisburg. It is on the line of the Philadelphia, Wilmington, and Baltimore R. R., 18 m. Philadelphia.

MARCY, p. o., La Grange county, *Ind.*: 127 m. N. by E. Indianapolis.

MARCY, p. v., Waukesha co., *Wisc.*: on the Milwaukee post-road, 63 m. E. Madison.

MARCY, t. and p. o., Oneida co., *N. Y.*: 83 m. W. N. W. Albany. Drained by Nine Mile cr.; and Mohawk r. bounds it on the S. Surface hilly, the Hassenclever Mountain covering it in part; soil clay and sandy loam. Pop. of t. 1,857.

MARDISVILLE, p. v., Talladega co., *Ala.*: near Talladega river, 113 m. N. Montgomery. A United States land office is situate here. There are a number of stores and dwellings in the village.

MARENGO county, *Ala.* Situate S. W., and contains 1,088 sq. m. Bounded W. by Tombigbee r., and drained by its affluents, and E. by affluents of the Alabama. Surface moderately uneven; soil in parts pine-barrens, but most of it is very fertile. Cotton is the great and almost exclusive product. Corn is largely grown in parts; some rice and tobacco is raised; coal and iron ore are found. Farms 818; manuf. 4; dwell. 1,853, and pop.—wh. 7,101, fr. col. 37, sl. 20,693—total 27,831. *Capital*: Linden. *Public Works*: Alabama Southern R. R.

MARENGO, p. v., and cap. Iowa co., *Ia.*: on S. side of Iowa river, 29 m. W. by N. Iowa City. A post-road passes through the v., connecting with the contemplated line of the Dubuque and Keokuk R. R. and Iowa City.

MARENGO, p. o., Laurens district, *S. Car.*: 67 m. N. W. Columbia.

MARENGO, p. v., McHenry county, *Ill.*: 175 m. N. N. E. Springfield, on the Kishwaukee r., and on the Galena and Chicago Union R. R., 66 m. from Chicago.

MARENGO, t. and p. v., Calhoun co., *Mich.*: 31 m. S. by W. Lansing. Drained by Kalamazoo r. and Rice cr., one of its branches. Surface undulating; soil of a rich sandy loam. There are extensive sand-stone quarries along the banks of the river, which here affords excellent water-power. The v. lies on the S. side of the Kalamazoo. The Michigan Central R. R. passes through the t. on N. side of the r., and a short distance from the village, 101 m. W. Detroit, and 177 N. E. Chicago. Pop. of t. 1,013.

MARENGO, p. v., Wayne co., *N. Y.*: 167 m. W. by N. Albany.

MARENGO, p. o., Morrow co., *Ohio*: 39 m. N. Columbus.

MARGALLAWAY river, *N. Hamp.*: rises in the highlands which separate Canada from Maine, and after a short course enters the latter; and from thence, after flowing a distance of 40 m., turns into New Hampshire, and enters the Androscoggin r. a few miles below Umbagog Lake.

MARGARETTA, p. v., Clark co., *Ill.*: 3 m. E. North Fork Embarras r., 93 m. E. S. E. Springfield.

MARGARETTA, sta., Erie co., *Ohio*: on the Mad River and Lake Erie R. R., 211 m. Cincinnati, 97 m. N. Columbus.

MARGARETTA FURNACE, p. o., York co., *Penn.*: 25 m. S. E. Harrisburg. There is a furnace here with annual capacity of 1,200 tons, constructed in 1823.

MARGARETTSVILLE, sta., Northampton co., *N. Car.*: on the Sea-board and Roanoke R. R., 17 m. N. E. Weldon.

MARIA CREEK, p. v., Knox co., *Ind.*: on a cr. of West Fork White river so called, 85 m. S. W. Indianapolis.

MARIA FORGE, p. o., Talladega co., *Ala.*: 51 m. N. by E. Montgomery.

MARIANA, p. v., and cap. Jackson co., *Flor.*: on the Chipota r., 63 m. N. W. Tallahassee; contains the county

court-house and other public buildings, a number of stores and workshops.

MARIA STEIN, p. o., Mercer county, *Ohio*: 139 m. W. N. W. Columbus.

MARIAVILLE, t. and p. o., Hancock co., *Ma.*: 75 m. N. E. Augusta. Drained by Union r. and its branches. Surface uneven; soil good. The river affords extensive water-power, which keeps several mills in active operation. There is a great quantity of lumber sent from here. Potatoes and wool are the chief agricultural products. Pop. 375.

MARIAVILLE, p. o., Schenectady co., *N. Y.*: 25 m. W. by N. Albany.

MARIETTA, p. v., and cap. Cobb co., *Ga.*: 7 m. W. by N. Chattahoochee r., 100 m. N. W. Milledgeville. The Western and Atlantic R. R. passes through it 20 m. from Atlanta. It contains the county buildings, 2 academies, and about 150 dwellings. The "M. Advocate" (dem.), and "Constitutional Union" (union), are issued weekly, and "Masonic Journal," monthly. The business of a fine agricultural region centres at this point.

MARIETTA, p. v., Fulton co., *Ill.*: on S. side Sheen's cr., 61 m. N. W. Springfield. Situate on a fertile prairie.

MARIETTA, p. o., Onondaga county, *N. Y.*: 137 W. by N. Albany.

MARIETTA, p. v., Shelby county, *Ind.*: on the E. branch White r., 27 m. S. E. Indianapolis, and on the Shelbyville Lateral Branch R. R., 7 m. from Edinburg.

MARIETTA, t. p. v., and cap. Washington co., *Ohio*: 87 m. S. E. Columbus. Its W. part is crossed by the Muskingum river at its entrance into the Ohio river. The Ohio bounds it in the S. W., and it is drained by Duck cr. and Little Muskingum r. The streets are well laid out and thickly built. There is a court-house, jail, U. S. land office, a banking establishment, all handsomely built, and forming ornaments to the place. Several mounds are found in the vicinity. The Marietta College is situate here, founded in 1835, having (in 1850) a president, 6 professors, 113 alumni, of whom 44 are in the ministry, and 55 students, with a library containing 6,400 volumes. The t. was founded in 1783, and is the oldest in the State. There are a number of steam saw-mills, flouring-mills, tanneries, foundries, and other factories here. The v. is pleasantly situate on the N. bank of the Ohio r., at the mouth of the Muskingum river. There are two newspapers published in the village, the "M. Intelligencer" (whig), and the "M. Republican" (dem.), both weekly issues. Marietta is destined to be a place of considerable business, and its future railroad connections will give it direct access to the principal centres. Several steamboats are owned here, and ply regularly to Pittsburg, Cincinnati, etc. Pop. of the t. 4,292, of which 3,133 are in the village.

MARIETTA, p. o., Itawamba county, *Miss.*: 150 m. N. E. Jackson.

MARIETTA, p. b., Lancaster county, *Penn.*: 25 m. S. E. Harrisburg, on the E. bank of Susquehanna r., and near the mouth of Little Chiques cr. It contains about 1,000 inhabitants.

MARIN county, *Calif.* Situate W. middle, and contains 516 sq. m. Bounded W. by the Pacific, and E. by Pablo Bay, and lies on the N. side of the entrance to San Francisco Bay. The streams are small, American river flowing W., and Petaluma cr. S. E., are the principal. The surface is broken with extensive valleys. Soils very productive of wheat and most other grains, and generally well wooded. Pop. about 1,036. *Capital*: San Raphael.

MARINE MILLS, p. v., St. Croix co., *Wisc.*: on E. side of St. Croix r., 225 m. N. W. Madison.

MARINE SETTLEMENT, p. o., Madison co., *Ill.*: 71 m. S. Springfield, near Silver cr., on a rich and fertile prairie.

MARION county, *Ala.* Situate N. W., and contains 1,083 sq. m. Drained by Buttahatchie r. of the Tombigbee, Big Bear cr. of the Tennessee, and E. by Nine Island cr. Surface rolling or slightly broken; soil of moderate fertility,

best fitted for grazing. Corn, wheat, and cotton are raised, but cattle and pork are leading products. It is well wooded with oak, pine, hickory, and chestnut. Farms 573; manuf. 5; dwell. 1,108, and pop.—wh. 6,922, fr. col. 3, sl. 908—total 7,838. *Capital*: Pikeville.

MARION county, Ark. Situate N. middle, and contains 587 sq. m. Drained by Crooked cr. and other branches of White r., which flow S. E. through it. Surface varied; soil very fertile and excellent grazing. Corn is the chief crop, and live-stock and pork the exports. White river is navigable to this co., and is skirted with noble forests of pine timber, and its branches furnish good mill-seats. Farms 255; manuf. 2; dwell. 861, and pop.—wh. 2,047, fr. col. 129, sl. 126—total 2,302. *Capital*: Yellville.

MARION county, Flor. Situate on N. part of the peninsula, and contains 3,127 sq. m. Drained E. by Ocklawaha r., a branch of St. John's r., and S. W. by Withlacoochee r. Surface low and level, with numerous lakes and swamps; soil exceedingly fertile, producing large crops of cotton, sugar, and corn, and raising many semi-tropical fruits and vegetables in profusion. It has extensive forests of valuable live oak, cedar, and cypress timber, and in parts fine water-power. Sulphur and magnesia springs of great medicinal virtues attract many invalids who seek a mild climate, and salt springs are found. Farms 329; manuf. 0; dwell. 394, and pop.—wh. 2,068, fr. col. 1, sl. 1,269—total 3,333. *Capital*: Ocala.

MARION county, Ga. Situate S. W., and contains 519 sq. m. It lies midway between Chattahoochee and Flint rivers, and is drained by small branches of both, N. and S. Whitewater creeks being the largest. Surface moderately hilly; soil fertile. Cotton is the chief product, and the crop a very large one. Corn is an average crop, and wheat not much grown. Grazing is generally good, and cattle and swine receive much attention. Farms 563; manuf. 4; dwell. 1,101, and pop.—wh. 5,568, fr. col. 8, sl. 3,604—total 10,180. *Capital*: Tazewell. *Public Works*: Muscogee R. R.

MARION county, Ill. Situate S. centrally, and contains 576 sq. m. Drained by Crooked cr. and E. fork of the Kaskaskia, and E. by Adam's and Skillet forks of the Little Wabash. Surface gently undulating, and soil of good fertility. It lies on the E. side of the Grand Prairie, and is largely made up of prairie, with wood on the streams, which afford some good mill-seats. Corn is the staple. Cattle are raised in large numbers, and pork is an important export. Bituminous coal and water-lime are found. Farms 827; manuf. 9; dwell. 1,132, and pop.—wh. 6,716, fr. col. 4—total 6,720. *Capital*: Salem. *Public Works*: Ohio and Mississippi R. R.; Chicago Branch of Illinois Central Railroad, etc.

MARION county, Ind. Situate centrally, and contains 316 sq. m. Drained by W. fork of White r., Fall, Eagle, and other creeks. Surface beautifully rolling and diversified by slight elevations toward the streams. Prairie bottoms and woodland are pleasantly mingled. Soil generally a black loam, mixed with sand or clay, and resting on limestone, and is very fertile. Corn, wheat, and oats are all large crops, and the chief farming products. The grazing is very fine; cattle and sheep are raised in great numbers, and pork is a large export. It has much water-power, and very extensive manufactures of woolen and cotton goods, flour, lumber, leather, liquors, oil, earthen-ware, etc. Farms 1,581; manuf. 179; dwell. 3,984, and pop.—wh. 23,453, fr. col. 650—total 24,103. *Capital*: Indianapolis. *Public Works*: Madison and Indianapolis R. R.; Indiana Central R. R.; Terre Haute and Richmond R. R.; Lafayette R. R.; Indianapolis and Peru R. R.; and Indianapolis Bellefontaine R. R.; Jeffersonville R. R., etc., all of which centre here at the union depot.

MARION county, Ia. Situate S. centrally, and contains 576 sq. m. Drained by the Des Moines and its branches, Coal, English, and Cedar creeks, and Whitebreast r.; Skunk r. touches the N. E. corner. Surface somewhat

broken; soil fertile, adapted equally to grass and grain. Corn, wheat, live-stock, and pork are the leading products of the farm. It has excellent water privileges, growing manufactures, and much fine timber. Coal and iron ore are found near the Des Moines. Farms 342; manuf. 24; dwell. 930, and pop.—wh. 5,453, fr. col. 29—total 5,482. *Capital*: Knoxville.

MARION county, Ky. Situate centrally, and contains 832 sq. m. Drained by Rolling Fork of Salt r., a branch of the Ohio. Surface uneven, but not rough; soils generally fertile. Corn and wheat are the staple cereals. Rye, oats, and tobacco are successfully cultivated. Large numbers of sheep are kept, and a good deal of pork exported. This region is stocked with fine horses, which are much attended to and furnish Eastern markets largely. Water-power is plentiful, and manufactures an important interest. Farms 963; manuf. 47; dwell. 1,423, and pop.—wh. 8,599, fr. col. 80, sl. 3,086—total 11,765. *Capital*: Lebanon. *Public Works*: Danville and Nashville R. R., etc.

MARION county, Miss. Situate S., and contains 1,544 sq. m. Drained by Pearl r. and its branches. Surface level or undulating; soil sandy and of no great fertility, except on the streams, where is much excellent land. Cotton and corn are the staples. Rice is grown in the marshes. Great numbers of cattle and swine are reared, and form the leading interest of the co. It is well timbered with pine. Farms 322; manuf. 7; dwell. 377, and pop.—wh. 2,215, fr. col. 0, sl. 2,195—total 4,410. *Capital*: Columbia.

MARION county, Mo. Situate N. E., and contains 423 sq. m. Drained by N. and S. Fabius and N. and S. two rivers and their branches, affluents of the Mississippi, its E. boundary. Surface moderately uneven; soil very rich. Corn, wheat, oats, and potatoes yield great crops, and the pasture is very fine. Live-stock, beef, wool, and pork are exported. It has excellent mill streams and very important manufactures, and abounds in timber, bituminous coal, and lead. Salt springs are found. Farms 810; manuf. 75; dwell. 1,595, and pop.—wh. 9,322, fr. col. 76, sl. 2,832—total 12,230. *Capital*: Palmyra.

MARION county, Ohio. Situate N. centrally, and contains 303 sq. m. Drained by Scioto r. and its branches, Rush cr. and Whetstone r. Surface mostly a level table land; soil very productive, adapted to grass or grain. Corn, wheat, rye, oats, and potatoes produce largely. It is a superior grazing co., supports fine dairies and large numbers of cattle and sheep, and exports live-stock and pork to a large amount. It has also good water-power, and considerable manufactures of flour, leather, and woollens. Farms 919; manuf. 14; dwell. 2,153, and pop.—wh. 12,597, fr. col. 21—total 12,613. *Capital*: Marion. *Public Works*: Bellefontaine and Indiana R. R.

MARION county, Oreg. Ter. Situate centrally, and contains 21,000 sq. m. It has Clackamas co. on the N., Polk on the W., and Linn on the S., and is drained by branches of the Willamette, its W. boundary, Butte, Abercree, Silver, and Mill creeks, and N. fork of Santiam r. Surface diversified; extensive and very rich valleys in the W., and in the E. elevated and mountainous; soil in the bottoms a black vegetable loam; in higher lands a stiff clay or loose gravel, mostly very productive. All kinds of grain except corn grow finely, and fruits and vegetables are abundant. It has the best of timber, pine, fir, spruce, and oak, and very superior water-power. Farms 293; manuf. 11; dwell. 502, and pop.—wh. 2,740, fr. col. 9—total 2,749. *Capital*: Salem.

MARION district, S. Car. Situate E., and contains 1,032 sq. m. Drained by Great and Little Pedee rivers, and Lynch's cr. and their branches, Lumber r. and Jeffries and Catfish creeks. Surface level, much of it low and marshy; soil generally of good fertility, and many parts best adapted to grazing. Corn and cotton are the principal crops. The marshes produce considerable rice. Many cattle are raised and great quantities of pork fatted. It has a large growth of pitch-pine timber. Farms 1,374; manuf. 0; dwell. 1,356,

and pop.—wh. 9,784, fr. col. 108, sl. 7,520—total 17,407. *Capital*: Marion. *Public Works*: Wilmington and Manchester R. R.

MARION county, *Tenn.* Situate S. E., and contains 588 sq. m. Drained by the Tennessee and its branches, Sequatchy r., Little Sequatchy, and Battle creeks. Surface elevated and broken; soil fertile and fine pasture land. Corn, wheat, and oats are the staple grains. Great numbers of cattle and swine are reared, and live-stock and pork are heavy exports. Farms 724; manuf. 9; dwell. 957, and pop.—wh. 5,720, fr. col. 43, sl. 551—total 6,314. *Capital*: Jasper. *Public Works*: Nashville and Chattanooga R. R.

MARION county, *Virg.* Situate N. W., and contains 168 sq. m. Drained by Monongahela r., E. and W. forks, and Buffalo cr. Surface elevated and uneven; soil very fertile, and excellent grazing land. Corn, wheat, oats, and potatoes are raised largely, and great numbers of cattle, sheep, and swine are reared. It has fine water-power and extensive manufactories of iron, flour, woolen goods, leather, liquors, etc. Iron ore and coal are found in abundance in parts of the co. Erected in 1842 from Harrison and Monongalia. Farms 904; manuf. 44; dwell. 1,786, and pop.—wh. 10,488, fr. col. 20, sl. 94—total 10,552. *Capital*: Fairmount. *Public Works*: Baltimore and Ohio R. R.

MARION, p. v., and cap. Perry county, *Ala.*: on E. side Washington cr., 61 m. W. N. W. Montgomery. It contains a college, a theological seminary, several schools, a court-house, and about 1,500 inhabitants. The "South-Western Baptist" (Baptist) and "Alabama Commonwealth," weekly issues, are published here. Howard College, situate here, was founded in 1841; in 1850 it had a president, 6 professors, 29 alumni, 88 students, and a library of 2,200 volumes; and Howard Theological Institution was founded in 1843; in 1850 it had a professor and 18 students, and a library of about 1,000 volumes. Both are Baptist schools.

MARION, p. v., and cap. Crittenden co., *Ky.*: 187 m. W. S. W. Frankfort. It contains a court-house, several stores, and workshops.

MARION, sta., Shelby county, *Ind.*: on the Knightstown and Shelbyville R. R., 4 m. N. Shelbyville, 25 m. S. E. Indianapolis.

MARION, p. v., and cap. Twiggs co., *Ga.*: near a branch of the Ocmulgee r., 32 m. S. W. Milledgeville.

MARION, p. v., Williamson co., *Ill.*: on a branch of Big Muddy r., 145 m. S. S. E. Springfield.

MARION, p. v., and cap. Grant co., *Ind.*: on the Mississinewa r., 59 m. N. E. Indianapolis. The "Whig Thermometer" (whig) is issued weekly.

MARION, p. v., and cap. Linn co., *Ia.*: on a fork of Cedar r. in centre of co., 23 m. N. Iowa City. The v. is situated on the edge of a beautiful grove, and contains several stores, saw-mills, etc., and the county offices.

MARION, p. o., Union par., *La.*: 169 m. N. W. Baton Rouge.

MARION, t. and p. v., Washington co., *Me.*: 126 m. E. N. E. Augusta. It has on its W. a large pond which separates it from Mechisses r., and by which it is drained. Surface hilly; soil variable, chiefly good. It has several saw-mills. The v. is situate on N. E. part of t., on the post-road leading to Dennyville. Pop. of t. 207.

MARION, p. v., and cap. Angelina co., *Tex.*: on S. bank of Angelina r., 209 m. E. N. E. Austin City.

MARION, t. and p. o., Livingston co., *Mich.*: 81 m. S. E. Lansing. Drained by a number of small streams, tributaries of Shiawassee and Cedar rivers. Surface generally undulating; soil fertile. There are several small ponds in S. part. Pop. 873.

MARION, p. v., and cap. Lauderdale co., *Miss.*: at the head of Octibbeha cr., 89 m. E. by N. Jackson.

MARION, p. v., and cap. Cole co., *Mo.*: on the S. bank of the Missouri r., 5 m. N. by W. Jefferson City.

MARION, t. and p. v., Wayne co., *N. Y.*: 183 m. W. N. W. Albany. Drained by a branch of Mud cr. Surface much

broken by hills and ridges; soil fertile, and well adapted to grain. The v. is situate centrally. There is a steam-furnace, grist-mill, and tannery here. Pop. of t. 1,889.

MARION, p. v., and cap. McDowell co., *N. Car.*: near a fork of the Catawba r., 190 m. W. Raleigh.

MARION, p. v., and cap. Marion co., *Ohio*: 41 m. N. by W. Columbus. Drained by a fork of the Scioto r., which passes through its W. part. Surface level; soil fertile. The v. is situate in S. part of t. and contains many fine buildings, the most conspicuous of which are the court-house, jail, and churches. There are also tanneries, grist-mills, saw-mills, and flouring-mills. There are 2 newspapers printed here, the "Buckeye Eagle" (whig), and "Democratic Mirror" (dem.) Pop. of v. 1,807, and of t. 2,287.

MARION, p. v., Franklin co., *Penn.*: 47 m. W. S. W. Harrisburg.

MARION, p. o., Hartford co., *Conn.*: 7 m. N. Hartford.

MARION, p. v., and cap. Smyth co., *Virg.*: on S. side middle fork Holston r., 237 m. W. S. W. Richmond. The Virginia and Tennessee R. R. passes through the village.

MARION, p. o., Kenosha county, *Wisc.*: 77 m. S. E. Madison.

MARION CITY, p. v., Marion co., *Mo.*: 98 m. N. E. Jefferson City, on the W. bank of the Mississippi r., 7 m. below Quincy, and 7 m. E. Palmyra, the capital of the county, for which latter place it is the shipping port. The country round about is very rich, and abounds in excellent timber and coal. It contains several steam, saw, and other mills, and has about 600 inhabitants.

MARION C. H., p. v., and cap. Marion dist., *S. Car.*: on the E. side of Catfish cr., an affluent of Great Pedee River, 91 m. W. N. W. Columbia. The Wilmington and Manchester R. R. runs through the v. It contains a court-house, jail, several stores, and dwellings. The "Marion Star" (ind.) is issued weekly.

MARION MILLS, p. o., Washington co., *Me.*: 125 m. E. Augusta.

MARIPOSA county, *Calif.* Situate S. middle, and contains about 16,000 sq. m. It lies E. of the Coast Range, and extends to the E. line of the State. The N. W. part is drained by the San Joaquin and its branches, and forms the head of the San Joaquin valley. This part is rich in gold mines, which are much wrought, and very productive. The soil here is very fertile. The Sierra Nevada, or Snowy Mountains and their spurs, occupy a large part of the N. E., and E. of the county, passing through it in a S. S. E. direction. Between them and the Coast Range in the S. is a large basin, drained by numerous small rivers, emptying into Tulare Lake, a sheet of water 50 miles long, and 10 or 12 broad. In this basin is excellent grain and grass land, but little of which is under cultivation.

MARIPOSA, p. v., and cap. Mariposa co., *Calif.*: on the S. bank of a r. so called, an affluent of the San Joaquin. It is a growing place, and in common with an extensive tract around it, is owned by Colonel Fremont. The quartz in this region is highly auriferous, and is attracting the attention of capitalists and miners.

MARISSA, p. v., St. Clair co., *Ill.*: situate on the border of a fertile prairie, S. E. part of county, 109 miles S. Springfield.

MARIT's, p. o., Morrow co., *Ohio*: 89 m. N. Columbus.

MARKESAN, p. o., Marquette county, *Wisc.*: 45 m. N. Madison.

MARKESBOROUGH, p. o., Warren co., *N. Jer.*: 53 m. N. Trenton.

MARKSVILLE, p. v., and cap. Avoyelles par., *La.*: near Lake Pearl, 67 m. N. W. Baton Rouge. It is the seat of the parish court-house.

MARKSVILLE, p. v., Page co., *Virg.*: in a valley of the Blue Ridge Mountains, which form the E. boundary of the co., 85 m. N. W. Richmond.

MARLBORO', p. o., Carroll co., *Tenn.*: 88 m. W. by S. Nashville.

MARLBOROUGH district, *S. Car.* Situate N. E., and contains 443 sq. m. Bounded W. by the Great Pedee, and drained by its branches, and E. by heads of Little Pedee. Surface elevated and somewhat uneven. Soil generally fertile. Cotton is the chief product. Corn is a good crop, and large numbers of hogs are reared. It has fine water privileges, and valuable manufactures of cotton goods and flour. Farms 621; manuf. 23; dwell. 929, and pop.—wh. 5,033, fr. col. 156, sl. 5,600—total 10,739. *Capital*: Bennettsville.

MARLBOROUGH, p. o., Hartford co., *Conn.*: 5 m. Hartford.

MARLBOROUGH, t. and p. v., Middlesex co., *Mass.*: 25 m. W. Boston. Drained by branches of Concord r., and a number of small ponds. Surface undulating, and soil very fertile. Agricultural pursuits are the chief employment of the inhabitants. Products of the t. are large, consisting of cattle, pork, the dairy, etc., which are sent to Boston market chiefly by the Lancaster and Sterling Branch R. R., which passes through the N. W. part of t., at Feltonville, and connects with road to the city. Manufactures of t. consist of boots, shoes, and cabinet-ware. The v. is pleasantly situated, surrounded by beautiful scenery. Pop. of t. 2,941.

MARLBOROUGH, t. and p. v., Cheshire county, *N. Hamp.*: 41 m. S. W. Concord. Drained by branches of Ashuelot r. Surface uneven; soil rocky, but good for grazing. There are a number of small ponds in the t. There are several mills, manufactories, and workshops. The v. is in W. part, and through it the Cheshire R. R. passes, distant 36 m. from Fitchburg. Pop. of t. 886.

MARLBOROUGH, p. o., Monmouth co., *N. Jer.*: 31 m. E. Trenton.

MARLBOROUGH, t. and p. v., Ulster co., *N. Y.*: 69 m. S. Albany. Drained by Old Man's Kill, flowing into the Hudson r., which latter bounds it on the E. Surface very uneven; soil clay loam, and very fertile. The v. is situate near the Hudson r. and Old Man's Kill. It contains several lumber yards, manufactories, etc. Pop. of t. 2,405.

MARLBOROUGH, t. and p. v., Stark co., *Ohio*: 107 m. N. E. Columbus. Drained by several small streams. Surface uneven; soil very good, abounding with beech and sugar maple. The v. in N. E. part of t. is a thriving settlement. Pop. of t. 2,133.

MARLBOROUGH, t. and p. o., Chester co., *Penn.*: 63 m. S. E. Harrisburg. Drained by several small streams flowing into the Delaware. Surface rolling; soil, red shale. Iron ore is found in the vicinity.

MARLBOROUGH, t. and p. v., Windham co., *Verm.*: 99 m. S. Montpelier. Drained by a branch of West r. and Whetstone brook. Surface rolling; soil fertile, and very productive of all kinds of grain, fruit, and potatoes. There are some mineral and medicinal springs in the t.; and it has several stores, mills, and workshops. The v. is in N. part of t., through which the Brattleboro' and Bennington post-road passes. Pop. of t. 896.

MARLBROOK, p. o., Hempstead co., *Ark.*: 115 m. S. W. Little Rock.

MARLEY'S MILLS, p. o., Randolph co., *N. Car.*: 71 m. W. Raleigh.

MARLIN BOTTOM, p. o., Pocahontas co., *Virg.*: 147 m. W. N. W. Richmond.

MARLOW, t. and p. v., Cheshire co., *N. Hamp.*: W. by S. Concord. Drained by Ashuelot r. Surface level; soil good. The v. is situate N. of the r. The t. has several mills and workshops. Pop. 703.

MARLTON, p. o., Burlington co., *N. J.*: 25 m. S. Trenton.

MARPLE, t. and p. o., Delaware co., *Penn.*: 83 m. E. S. E. Harrisburg. Pop. 902.

MARQUETTE county, *Mich.* Situate N. W. on Upper Peninsula, and contains 3,880 sq. m. It touches Lake Superior on the N. E., and is drained by Escanaba, Ford, and heads of Menomonee r., flowing into Green Bay and Sturgeon and Ontonagon rivers of Lake Superior. Surface diversified, but not rugged or very hilly. Soil of moderate

fertility, covered largely with immense forests of pine, which constitute the chief wealth of this region. The streams are small, but are supposed to furnish abundant water-power to work up the timber which must, ere long, be very valuable. It is little visited except by hunters and fur traders. Unorganized in 1850.

MARQUETTE county, *Wisc.* Situate S. centrally, and contains 860 sq. m. Drained by the Neenah or Fox r. and its branches. In the S. are 3 large ponds, Buffalo, Puckaway, and Green lakes; and the streams furnish much water-power. Surface beautifully diversified; soil of great fertility, producing grass or grain in profusion, and furnishing excellent pasturage. Corn, wheat, live-stock, and pork, are the leading products. The facilities for manufacturing are very superior, and good timber is abundant. Farms 827; manuf. 7; dwell. 1778, and pop.—wh. 8,622, fr. col. 20—total 8,642. *Capital*: Marquette.

MARQUETTE, t., p. v., and cap. Marquette co., *Wisc.*: 45 m. N. Madison. Drained by Neenah r., a tributary of Wisconsin r. Surface even; soil excellent. Puckaway Lake, an expansion of Neenah r., bounds the t. on the N. The v. is pleasantly situated on the S. bank of the lake. Population of t. 246.

MARQUETTE, t. and p. o., Marquette co., *Mich.*: 289 m. N. W. Lansing. Pop. 136.

MARIOTTSTOWN, p. o., Anne Arundel co., *Md.*: 25 m. N. W. Annapolis.

MARROWBONE, p. v., Cumberland co., *Ky.*: 97 m. S. by W. Frankfort.

MARS, p. v., Bibb co., *Ala.*: in N. W. part of co., 73 m. N. W. Montgomery.

MARS BLUFF, p. v., Marion dist., *S. Car.*: on the E. side of Great Pedee r., 81 m. N. N. E. Columbia. The Wilmington and Manchester R. R. passes through the v. 101 m. Wilmington, and 61 miles from the junction.

MARSEILLES, p. v., La Salle co., *Ill.*: on the N. side Illinois r., at the Grand Rapids, 113 m. N. E. Springfield. An immense water-power for manufacturing purposes is afforded by the rapids, on which there are a number of lumber and flour mills, etc. The Illinois and Michigan Canal runs through the village.

MARSEILLES, p. v., Noble co., *Ind.*: on the Fort Wayne and Ontario post-road, 123 m. N. N. E. Indianapolis.

MARSEILLES, t. and p. o., Wyandott co., *Ohio*: 53 m. N. by W. Columbus. Drained by branches of Tycnochee r. Surface level, or table land; soil fertile. Pop. 539.

MARSH, p. o., Chester county, *Penn.*: 59 m. E. by S. Harrisburg.

MARSHALL county, *Ala.* Situate N. E., and contains 645 sq. m. Drained N. by the Tennessee and its branches; S. by Mulberry and Locust forks of the Black Warrior. Surface uneven, in parts broken; soil very productive. Cotton is the great staple, and the crop very large. Corn yields well generally, and pork is a considerable export. It has fine water privileges, and valuable and increasing manufactures. Farms 586; manuf. 12; dwell. 1,801, and pop.—wh. 7,953, fr. col. 25, sl. 863—total 8,846. *Capital*: Warrenton. *Public Works*: Alabama and Tennessee River Railroad.

MARSHALL county, *Ill.* Situate N. centrally, and contains 472 sq. m. Intersected by the Illinois, and drained by its branches, Crow, Sand, and Senachwine creeks. Surface level or gently undulating. Soil very rich, consisting of large prairies, and heavily wooded alluvial bottoms. Corn and wheat are the leading crops. The pasturage is superior, and raising cattle and sheep much attended to. Farms 464; manuf. 11; dwell. 910, and pop.—wh. 5,173, fr. col. 2—total 5,180. *Capital*: Lacon. *Public Works*: Illinois Central R. R.

MARSHALL county, *Ind.* Situate N. middle, and contains 442 sq. m. Drained by Yellow r. centrally, and Pine cr. N. W., branches of Kankakee r., and S. E. by Tippecanoe r. Surface mostly level, sometimes rolling, and about one

half good timberland. Soil fertile, and adapted for farming in all its branches. Corn and wheat, live-stock and wool, are produced. Water-power is plentiful, and iron ore abundant. Farms 570; manuf. 10; dwell. 923, and pop.—wh. 5,346, fr. col. 2—total 5,348. *Capital*: Plymouth.

MARSHALL county, Ia. Situate centrally, and contains 576 sq. m. Drained by the Iowa and its branches. Surface slightly uneven; soil fertile, and finely adapted to grazing. It has excellent mill streams and abundance of timber. Farms 84; manuf. 0; dwell. 62, and pop.—wh. 838, fr. col. 0—total 838. *Capital*: Timber Creek.

MARSHALL county, Ky. Situate W., and contains 278 sq. m. Bounded N. and E. by the Tennessee, and drained by its affluents, Clark's r. and Jonathan's cr. Surface diversified, and in parts hilly; soil very productive. Corn, wheat, oats, and tobacco, are the agricultural products. Pork is exported in large quantities. Water-power is plentiful, and manufactures increasing. Farms 415; manuf. 7; dwell. 865, and pop.—wh. 5,020, fr. col. 0, sl. 249—total 5,269. *Capital*: Benton.

MARSHALL county, Miss. Situate N., and contains 806 sq. m. Drained N. by Wolf cr. and branches of Cold Water r., affluents of the Mississippi, and S. by Tallahatchie r., a branch of the Yazoo. Surface rolling, or moderately uneven; soil fertile. The staple products are cotton and corn, which are excellent crops. Wheat, oats, and potatoes are successfully cultivated, and large numbers of neat cattle and swine are raised, the latter furnishing a considerable export. It has extensive manufactories of cotton and woolen goods, flour, lumber, and leather. Farms 1,611; manuf. 54; dwell. 2,806, and pop.—wh. 14,271, fr. col. 1, sl. 15,417—total 29,689. *Capital*: Holly Springs.

MARSHALL county, Tenn. Situate S. centrally, and contains 267 sq. m. Drained by Duck r., a branch of the Tennessee, and its affluents. Surface diversified, in parts somewhat broken; soil highly productive. Corn is the staple cereal, and a very heavy crop. Wheat, cotton, oats, and tobacco are all profitable crops. It is also a superior grazing county, and feeds large numbers of cattle and sheep, besides exporting a great deal of pork. Good mill streams are numerous, and occupied by many small manufactories. Farms 1,032; manuf. 38; dwell. 2,061, and pop.—wh. 11,916, fr. col. 66, sl. 3,684—total 15,616. *Capital*: Lewisburg.

MARSHALL county, Virg. Situate N. W., and contains 871 sq. m. Drained by Wheeling, Big and Little Grave, and Fish creeks of the Ohio, which forms its W. boundary. Surface various, in parts quite hilly; soil fertile. Corn, wheat, oats, and potatoes are thrifty crops, and it is well fitted for grazing. It has good water-power, and rapidly increasing manufactures of flour, iron, lumber, etc. Coal and iron ore are extensively found. Farms 847; manuf. 19; dwell. 1,668, and pop.—wh. 10,050, fr. col. 39, sl. 49—total 10,188. *Capital*: Elizabethtown. *Public Works*: Baltimore and Ohio R. R.

MARSHALL, p. v., and cap. Clark co., *Ill.*: on the National Road, 105 m. E. S. E. Springfield. It contains a court-house and other county offices. The railroad between Terre Haute and Alton will pass through it.

MARSHALL t., p. v., and cap. Calhoun co., *Mich.*: 81 m. S. S. W. Lansing. Drained principally by Kalamazoo river and Rice cr. There are a number of other small streams running through it. Surface undulating; soil, sand and rich clay loam, producing large quantities of grain. It has extensive water-power, and a number of mills, manufactories, and a furnace. The v. is pleasantly situate at the confluence of Rice cr. with the Kalamazoo. It contains the court-house and several fine buildings. The Michigan Central R. R. passes through it, 103 m. from Detroit. There are 2 weekly papers here, the "Statesman," and "Democratic Expounder." Pop. of t. 2,923.

MARSHALL, p. v., and cap. Saline co., *Mo.*: near Salt Fork, a branch of Black r., 65 m. N. W. Jefferson City.

MARSHALL, t. and p. o., Oneida county, N. Y.: 89 m. W. N. W. Albany. Surface rolling; soil fertile. Drained by Oriskany cr. The Chenango Canal passes through its N. W. part. Deans v. is situate on the canal. The t. has several flouring and grist mills, and some other industrial establishments. Pop. 2,115

MARSHALL, p. o., Bath co., Ky.: 59 m. E. Frankfort.

MARSHALL, p. v., Highland co., Ohio: at the head of a fork of Brush cr., 59 m. S. S. W. Columbus, and on the Cincinnati, Hillsboro', and Parkersburg R. R., 7 m. E. Hillsboro'.

MARSHALL, p. o., Marshall county, Ind.: 107 m. N. Indianapolis.

MARSHALL, p. v., and cap. Harrison co., *Tex.*: on the water-shed between the Sabine r. and Caddo Lake, 266 m. N. E. Austin City, and distant about 24 m. from Shreveport, La. It is a flourishing v., containing the co. offices, etc., and has two newspapers, the "Texas Republican" and the "Star State Patriot," both issued weekly. The Texas and Louisiana R. R. will probably pass through Marshall, as does now the post-road from Shreveport. Pop. about 2,000.

MARSHALL'S CREEK, p. o., Monroe co., Penn.

MARSHALL'S FERRY, p. o., Grainger co., Tenn.: on Holston r., 193 m. E. Nashville.

MARSHALLSVILLE, p. v., Wayne co., Ohio: 91 m. N. E. Columbus.

MARSHALLSVILLE, p. v., Macon county, Ga.: 65 m. S. W. Milledgeville. The South-western R. R. passes through it, 35 m. from Macon.

MARSHALLTON, p. v., Chester co., Penn.: 65 m. E. S. E. Harrisburg.

MARSHFIELD, t. and p. v., Plymouth co., Mass.: 27 m. S. E. Boston. Drained by North and South rivers. Surface level; soil fertile. It is finely situate on Massachusetts Bay. Ship-building is carried on to some extent, and there are several manufacturing establishments in the town. North, East, and South Marshfield, are names of villages. The homestead and farm of the late Hon. Daniel Webster is situate in the S. part of the t., about 12 m. N. Plymouth. Pop. of t. 1,837.

MARSHFIELD, p. o., Erie county, N. Y.: 263 m. W. by N. Albany.

MARSHFIELD, t. and p. v., Washington co., Verm.: 13 m. E. by N. Montpelier. Drained by Onion r. and its branches, which pass through it. Soil varied; a part is good and well timbered, the rest wet and stony. The v. is situate on the left side of the r. Pop. of t. 1,102.

MARS HILL, Me.: a celebrated mountain near the line of Maine, toward New Brunswick, in lat. 46° 33' N. The approach to this mountain is difficult; its sides are rugged and its summit bold. It has two culminations, one 1,363 feet and the other 1,506 feet above the waters of Goose Quill r., New Brunswick.

MARSHPEE district, Barnstable co., Mass.: 59 m. S. S. E. Boston. This is an ancient Indian settlement, and is still chiefly inhabited by the descendants of the Marshpee tribe, but of mixed blood. It contains 15,000 acres, or about 16 sq. m., and is secured to the Indians in perpetuity. The Marshpee and Quashmet are considerable streams, which, with numerous ponds and the ocean, afford an abundant supply of fish. The inhabitants are occupied chiefly in agriculture and in the manufacture of various kinds of Indian ware. Many occupy themselves in the fisheries. They are docile and hospitable, and have long supported a Christian minister. The population numbers only 102, and yet it is the largest remnant of any of the tribes that once were lords of the whole country.

MARSH'S station, Edgefield dist., S. Car.: on the South Carolina R. R., 123 m. from Charleston, and 55 m. S. W. Columbia.

MARSTON'S MILLS, p. o., Barnstable co., Mass.: 61 m. S. E. Boston.

MARTHA FURNACE, p. o., Hardin co., Ill.: 175 m. S. E. Springfield.

MARTHA FURNACE, p. o., Centre co., *Penn.*: 45 m. N. W. Harrisburg. There is a furnace here having an annual capacity for 1,100 tons; it was constructed in 1892.

MARTHA MILLS, p. o., Fleming county, *Ky.*: 73 m. E. Frankfort.

MARTHASVILLE, p. v., Warren co., *Mo.*: on the N. side of the Missouri r., 63 m. E. Jefferson City.

MARTHASVILLE, sta., Macon co., *Ga.*: on the South Western R. R., 42 m. S. by W. Macon.

MARTHA'S VINEYARD, p. o., Chatham co., *N. Car.*: 36 m. W. Raleigh.

MARTHA'S VINEYARD, *Mass.*: an island lying off the S. shore of Massachusetts, S. of Falmouth, and W. N. W. of Nantucket Island. It is 21 m. long, and is a component of Dukes co. The soil is poor, and some sheep and cattle are reared, but the inhabitants are chiefly engaged in the fisheries. An Indian church was founded here in 1666. Originally the colony was governed independently; in 1664 it was united to New York, but in 1692 it was granted to Massachusetts.

MARTICKVILLE, p. v., Lancaster co., *Penn.*: 37 m. S. E. Harrisburg.

MARTIN county, *Ind.* Situate S. W., and contains 834 sq. m. Drained by E. fork of White r. and its branches, Lick, Beaver, and Indian creeks. Surface somewhat hilly. A large part of the co. is heavily timbered, and the soils are various; but mostly of clay, and generally fertile. Corn is the staple cereal; the pastures are fine, and beef, pork, and flax-seed are exported. It has good mill streams, and exports much lumber in various forms. Farms 633; manuf. 18; dwell. 1,025, and pop.—wh. 5,844, fr. col. 97—total 5,941. *Capital*: Mount Pleasant. *Public Works*: Cincinnati and St. Louis R. R.

MARTIN county, *N. Car.* Situate N. E., and contains 841 sq. m. Bounded N. by the Roanoke, and drained by its small affluents. Surface level, with marshes in parts; soil of moderate fertility. Corn is the chief cereal. Cotton and rice are good crops in some portions. The wealth of the co. lies in extensive forests of pine timber, which furnish large quantities of lumber, tar, pitch, and turpentine for exportation. Farms 510; manuf. 17; dwell. 923, and pop.—wh. 4,615, fr. col. 323, sl. 3,367—total 8,307. *Capital*: Williamston.

MARTIN, t. and p. o., Allegan county, *Mich.*: 51 miles W. S. W. Lansing. Drained by a branch of the Kalamazoo and Rabbit rivers. Surface undulating; soil varied, in most parts fertile. It has extensive wooded plains. Pop. 329.

MARTINDALE, p. o., Mecklenburg co., *N. Car.*: 109 m. S. W. Raleigh.

MARTINDALE, sta., Rensselaer co., *N. Y.*: on Harlem R. R., 35 m. E. Albany.

MARTINEZ, p. v., Contra Costa co., *Calif.*: on the S. shore of the Strait of Carquines, between San Pablo and Suisun bays. It is favorably situate for commerce, and has been commenced under such auspices as to insure its future prosperity. The strait is here about a mile wide, and on the opposite shore are the cities of Vallejo, the State capital, and Benicia.

MARTINSBURG, p. v., Washington co., *Ind.*: 89 m. S. by E. Indianapolis. It is a small v., in S. E. part of co., containing about 200 inhabitants.

MARTINSBURG, t. p. v., and cap. Lewis co., *N. Y.*: 119 m. N. W. Albany. Drained by Martin's cr., which flows into Black r., which latter bounds it on the E. Surface undulating; soil fertile loam, well adapted to grain. The v. is situate on the post-road between Utica and Ogdensburg, and contains a court-house, jail, female academy, banking-house, and several fine stores. There is a valuable lead mine in the vicinity. Pop. of t. 2,677.

MARTINSBURG, p. v., Knox co., *Ohio*: on a tributary of the Muskingum r.; 39 m. N. E. Columbus. It contains 90 dwellings, and about 500 inhabitants.

MARTINSBURG, p. v., Pike co., *Ill.*: 63 m. S. S. W. Springfield.

MARTINSBURG, p. v., Ripley co., *Mo.*: on a branch of Current r., 153 m. S. E. Jefferson City.

MARTINSBURG, p. v., Blair co., *Penn.*: near a fork of Clover cr., 75 m. W. Harrisburg. There is a blast furnace here with an annual capacity of 1,500 tons.

MARTINSBURG, p. v., and cap. Berkeley co., *Virg.*: on the Baltimore and Ohio R. R., 19m. from Harper's Ferry, and 181 m. N. by W. Richmond. The "Virginia Republican" (whig), and "Virginia Patriot" (dem.), are issued weekly. Martinsburg enjoys a large country business, and has several considerable manufacturing establishments. It contains the court-house and county offices, and is well provided with schools and churches. Pop. about 2,000.

MARTIN'S CREEK, p. o., Northampton co., *Penn.*: 89 m. N. E. Harrisburg.

MARTIN'S CREEK, p. o., Carroll co., *Tenn.*: 95 m. E. by S. Nashville.

MARTIN'S CREEK, p. o., Pickens district, *S. Car.*: on an affluent of Savannah River so called, 119 m. N. W. Columbia.

MARTIN'S DEPÔT, p. o. and sta., Laurens dist., *S. Car.*: 52 m. N. W. Columbia. The p. o. was formerly called Huntsville, and the sta. is 16 m. from Newberry court-house on the Laurens R. R.

MARTIN'S FERRY, p. o., Belmont county, *Ohio*: 117 m. E. by N. Columbus.

MARTIN'S FERRY, sta., Merrimac co., *N. Hamp.*: on the Merrimac r., and on line of the Concord R. R., 13 m. from Concord.

MARTIN'S HILL, p. o., Chemung co., *N. Y.*: 165 m. W. by S. Albany.

MARTIN'S LANDING, p. o., Perry co., *Ind.*: on N. side of Ohio r., 111 m. S. by W. Indianapolis.

MARTIN'S LIME KILNS, p. o., Stokes co., *N. Car.*: 101 m. N. W. Raleigh.

MARTIN'S MILLS, p. o., Buchanan co., *Mo.*: 157 m. N. W. Jefferson City.

MARTINSVILLE, p. v., Clark co., *Ill.*: on the E. side of N. fork of Embarras r., 95 m. E. by S. Springfield.

MARTINSVILLE, p. o., Lancaster co., *Penn.*: 39 m. S. E. Harrisburg.

MARTINSVILLE, p. v., and cap. Morgan co., *Ind.*: about half a mile E. of the E. fork of White r., and W. terminus of the Martinsville R. R., 25 m. S. W. Indianapolis. The county court-house and other public buildings are situate here. The "Morgan County Gazette" (neut) is a weekly issue. Pop. about 600.

MARTINSVILLE, p. v., Somerset co., *N. Jer.*: on N. bank of Raritan r., 29 m. N. Trenton.

MARTINSVILLE, p. v., Clinton co., *Ohio*: at the head of E. fork Little Miami r., 59 m. S. W. Columbus. It contains several stores, a steam-mill, 50 dwellings, and about 300 inhabitants.

MARTINSVILLE, p. o., Niagara co., *N. Y.*: 273 m. W. by N. Albany.

MARTINSVILLE, p. v., Henry co., *Virg.*: near Smith's r., a branch of Dan r., 143 m. S. W. Richmond. The county court-house and other public buildings are situate here, and it contains about 180 inhabitants.

MARTVILLE, p. v., Cayuga co., *N. Y.*: 154 m. N. W. Albany. It is situate on Little Sodus cr., and contains several mills, etc., and about 260 inhabitants.

MARVEL, p. v., Vernon co., *Mo.*: on the N. side of Marais des Cygnes r., 129 m. W. S. W. Jefferson City.

MARVIN, p. o., Chautauque co., *N. Y.*: 277 m. W. by S. Albany.

MARY, p. o., Pulaski co., *Ark.*

MARY (or Humboldt) river, *Utah Terr.*: rises by two branches in the Humboldt River Mountains, in Weber and Tooele counties, running W. 95 m., and S. 63 m., empties into Humboldt Lake.

THE STATE OF MARYLAND.

MARYLAND, the most southern part of that division of the United States of America usually called the "Middle States," is situate between the latitudes 38° and $39^{\circ} 43'$ north, and between the longitudes $75^{\circ} 08'$ and $79^{\circ} 32'$ west from Greenwich, or $2^{\circ} 31'$ and $1^{\circ} 55'$ east from Washington. Its outline is extremely irregular, except on the north and east, where Mason and Dixon's line constitutes the frontier, and separates Maryland from the adjoining states of Pennsylvania and Delaware. On the south the Potomac River, with a winding channel and circuitous general course, is its liminary stream, and divides it from Virginia. The main body of the eastern section is bounded by Delaware State line; but a narrow strip, projecting eastward to the sea, intrudes itself between that State and the Virginia portion of Chesapeake peninsula. The periphery of the State is estimated to be about 766 miles, namely: from the mouth of Potomac River to the source of its north branch, 320 miles; thence north to the Pennsylvania line, 85 miles; thence along that line eastward, 199 miles; thence along the west and south line of Delaware, 122 miles; thence along the Atlantic Ocean, 32 miles; thence across the peninsula to the mouth of Pocomoke River, 20 miles; and directly west to the confluence of Potomac River with Chesapeake Bay, the place of beginning, about 38 miles. Within this outline is contained a superficies of 13,959 square miles; but of this extent only 9,674 square miles are land, the residue being covered by the waters of Chesapeake Bay and its numerous inlets and bays.

Maryland is naturally divided into three distinct geographical sections. The *first* section comprises that portion lying to the east of Susquehanna River and Chesapeake Bay, known locally as the "Eastern Shore," and which contains the counties of Worcester, Somerset, Dorchester, Talbot, Caroline, Queen Anne, Kent, and Cecil. It forms a part of that long peninsula which, projecting southward toward and into the Atlantic Ocean, divides the waters of Chesapeake and Delaware bays, and which, though of very limited extent, comprises the whole of one state, and portions of two others. The surface of the whole tract is level, and but slightly elevated above the sea; and in every part its soils are more or less sandy, but, in their general character, may be considered as above the average in respect of their adaptation to the purposes of agriculture. Few rocks are found in any part, and the mineral deposits are chiefly bog-iron ore, chromes, etc., with aluminous and magnesia salts. Marl, shell-lime, marsh mud, peat or turf, and other agents used as fertilizers, abound. In the northern districts of this region, however, the country is hilly, and in some parts has a rocky substratum—the rocks chiefly sandstone and slate. The forest growths consist principally of oaks of various species, hickory, chestnut, pine, locust, walnut, cedar, gum, beech, and a great variety of shrub and herbaceous annuals. Wheat, Indian corn, and tobacco are the staple productions; and in the more southern counties, the cotton plant is said to succeed well. The climate is temperate, and highly favorable to the enjoyment and extended duration of life. The land area of this section is computed at 3,386 square miles, or 2,167,040 acres. The peninsula, of which this portion of Maryland forms a part, is about 180 miles in length from the north line of the State to Cape Charles, and has an area of about 5,980 square miles; the neck between the inclosing bays is only about 17 miles wide; but as it stretches southward, it expands gradually to the width of 70 miles, and then as gradually contracts until it terminates in a long, narrow tongue, called Accomac Peninsula, about 50 miles in length and 10 miles wide. The coast on the Chesapeake is deeply indented by numerous spacious gulfs and estuaries; such as those at the confluence with the bay of the Pocomoke, Nanticoke, Choptank, Chester, and Elk rivers, each receiving considerable streams from the interior and affording great facilities to navigation. The eastern coast presents a striking contrast when compared with the western coast. "Between the ocean and the cultivated portion of the country, there is a prolonged sandy beach, varying from a few hundred yards to a quarter of a mile or upward in breadth, and extending the whole length of the coast, without a single outlet to the ocean, from Indian River, in Delaware, to the southern extremity of Chincoteague Island, in Virginia. Between this beach and the mainland lies Sinepuxent Bay, from one to four or five miles wide, and nearly 80 miles in length. It is a shallow sheet of water, navigable only to a short distance above South Point, at the lower end of Sinepuxent Neck." Some inlets that formerly existed in this beach, and admitted the sea, are now closed, and the waters of the bay have become comparatively fresh. The *second* section, comprising what is usually called the Western Shore, consists of another peninsula lying inland between the Potomac River and Chesapeake Bay, and up to the line of the river falls, which extend from above Port Deposit to above Georgetown. In its general features, soil, and productions, it closely resembles the section of country already described. It is alluvial in its formation, and lying principally on the western shores of the bay, or upon the eastern bank of the lower Potomac, has the same climate as the "Eastern Shore." The counties comprised in this section are St. Mary's, Calvert, Charles, Prince George, Anne Arundel, Howard, parts of Montgomery, Baltimore, and Harford. The territorial extent of these counties is about 3,693 square miles, or 2,366,520 acres. The leading geographical feature of the north-western part of this section, is the ledge of primitive rocks which runs from the left bank of the Potomac, in Montgomery County, north-easterly to the Susquehanna River, where it crosses the north line of the State. The primitive ledge forms a natural boundary between the alluvial region and the mountainous district of Maryland, which latter constitutes the *third*, or western section, passing through which we meet with, in succession, South-East Mountain, or Parr's Ridge, terminating with Sugar-Loaf Mountain, on the Potomac; Catocin Mountain, reaching the same river at the Point of Rocks; South Mountain, or Blue Ridge, crossing it at Harper's Ferry; the Kittatinny, crossing it at Hancock; Rugged Mountain, Wills Mountain, and other detached ridges; and the great Alleghany ridge, traversing the far western part of the State. Many fine valleys interlie the mountains, which in climate and soil are not surpassed by the most favored regions of the earth. This section extends along the left bank of the Potomac to the western boundary of the State, and following the sinuosities of the river, is nearly 175 miles in length, but so irregular in shape, that though it is more than 100 miles wide at the eastern end, it is compressed in the middle by the near approach of the border lines of Virginia and Pennsylvania to a width of less than 3 miles. From the base of the primitive ledge, which is, in fact, a lower branch of the Appalachian chain, the surface gradually rises to the head waters of the Potomac River 2,000 or more feet. This represents the rise from tide-water at Baltimore to the dividing grounds in Alleghany County, between the waters of the Potomac and those falling into Ohio River. Embraced in this section are Carroll, Frederick, Washington, and Alleghany counties, which together cover an area of 2,590 square miles, or 1,657,600 acres.

Chesapeake Bay, which divides the State into two unequal parts, in its greatest extent, lies within Maryland. It is a noble sheet of water, equalled in its commercial capacities by few of the great estuaries that in various parts of the world have attracted the notice and admiration of the mariner. Its entrance between Cape Charles and Cape Henry, in Virginia, is about 15 miles in width, and opens from east to west; but on penetrating the land it suddenly changes its direction, and stretches from south to north over a distance of 180 miles, with a width in the southern part of 20 to 30 miles, and in the northern part of about 10 miles. It is, throughout, deep and navigable for large vessels, and it receives

MARYLAND.

a great many deep and navigable rivers, of which the largest and principal are from Virginia. Its area is about 8,500 square miles. The Susquehanna River has its lower course in Maryland; the tide reaches Port Deposit 5 miles from its mouth, above which there are falls; the Patapsco River is a fine mill stream falling into the bay of the same name below Baltimore; the Patuxent, the principal river of the Western Shore, is a wide stream, flowing nearly parallel with the Potomac, and navigable to Nottingham, about 50 miles, for large vessels; the Elk, Chester, Choptank, Nanticoke, and Pocomoke, on the Eastern Shore, are navigable for 30 or 40 miles; and the Monocacy River, Antietam and Coneocheague creeks are the principal tributaries of the Potomac in Maryland. All these contribute to the volume of the waters of Chesapeake Bay, and, in their several courses, furnish fine avenues of internal trade, or provide water-power sufficient for all the purposes of extensive manufacturing operations. The Potomac, common to Virginia and Maryland, forming the boundary between the two, is the most important of all the streams of the latter, and the largest of the tributaries of the Chesapeake. It rises in the recesses of the Alleghany Mountains, and reaches the bay between Point Lookout and Smith's Point. This river is $7\frac{1}{2}$ miles wide at its mouth, and navigable for ships of the greatest burden for 800 miles from the sea, 3 miles below the head of tide-water. Above this point, the navigation is obstructed by a succession of falls, around which, however, canals have been dug, and the navigable channel so far improved as to render the river passable for boats to Cumberland, 191 miles above Washington. The descent of the Potomac, from the mouth of Savage River to Cumberland, a distance of 31 miles, is 445 feet; from Cumberland to the Shenandoah Falls, 130 miles, it is 490 feet; hence to Great Falls, 40 miles, 39 feet; and between these and tide-water, 12 miles, 143 feet; making the whole descent from the mouth of Savage River to tide-water, a distance of 213 miles, 1,117 feet, or on the average $5\frac{1}{2}$ feet in each mile. Rising westward of the Alleghany Mountains is the Youghiogeny, the only river of Maryland that does not empty its waters into Chesapeake Bay; it flows northward through Alleghany County, and passing into Pennsylvania, falls into Monongahela River, 18 miles south-east of Pittsburg; and thence its waters are carried through the Ohio and Mississippi rivers to the Gulf of Mexico.

To comprehend the geology of Maryland,* we must understand the general facts as to the structure of the broad plain which skirts the ocean in the Middle and Southern States; of the less elevated region lying west of this plain, called sometimes the Atlantic slope; and of the great Apalachian chain, which includes the greatest variety of rocks and the most important formations.

Commencing at the ocean and proceeding westward, we find a low and almost level region. This plain extends from New Jersey through the Southern States. As the soil composing this plain consists of incoherent materials, which are easily washed away, the tide flows across it and forms large estuaries, where it meets the rivers which flow from the interior. This plain does not now present an unbroken surface, but is marked by minor irregularities and undulations, which have been due to the action of brooks, creeks, and rain torrents; still, the general character of a broad level is preserved, as it is in the ocean, notwithstanding its surface is broken by waves. The portion of the plain lying in Maryland, which is sometimes called the tide-water district, embraces nearly one-half of the territory of the State. This great region, which once formed the bed of an ancient ocean, and has risen by means of those elevatory forces which have acted upon all the continents, contains beneath its surface unquestioned records of the epochs when its materials were deposited. In the strata which compose this plain toward the north, in New Jersey, fossils are found indicating that the strata belong to the cretaceous or chalk formation, which occupies in the geological scale the upper part of the secondary formation. The cretaceous strata, if they exist in Maryland, are concealed by the overlying deposits; but they probably form the floor of these deposits from New Jersey to North Carolina, where they again appear at the surface. The fossils found in the cliffs and banks of the Atlantic plain, prove that the strata which compose it belong principally to the tertiary formation, which lies next the chalk.† All the tertiary deposits, with the exception of the pliocene, occur in the State. The inclination of the tertiary beds in Maryland is very slight, and toward the south-east, so that the Potomac below Washington presents sections of each of the divisions, the lower beds rising to the surface as we proceed west.

The later tertiary, or post pliocene, which represents the epochs next antecedent to the introduction of the human race, occurs in Maryland only in limited patches. The principal one is in St. Mary's County. To this period are referred the numerous beds of oysters which skirt the low margins of the islets and rivers of Maryland, and which are usually attributed to the agency of the aborigines. The deposit in St. Mary's County is interesting, as containing several southern species, and particularly the *gnathodon cameatus*, which is now found only in the warmer waters of the Gulf of Mexico; a fact indicating the prevalence in this region of a climate like that of Florida, at the period of the formation of this deposit. The miocene formation, which underlies the last named deposits, is the most widely extended of the tertiary beds. The principal marl beds are in this formation. It occurs near Chestertown, Wye Mills, on Choptank River, near Easton, and at other places near the Eastern Shore; also through the counties of St. Mary's, Calvert, etc. Within the miocene, at Piscataway, has been traced a remarkable bed of silicious clay, entirely composed of silicious cases (of infusoria) so minute as only to be detected by a powerful microscope, yet containing distinct specific characters, enabling us to refer them to the miocene. Of the shells in the miocene deposits in this State, about seventeen per cent. have been identified with living species. Thus, at this remote period, the peculiar distribution of living mollusca, which now exists, had begun to prevail in the region of Maryland, while at this geological era the fauna were so distinct from the present, that four-fifths of the species now living had not come into existence.

An abrupt line of demarkation exists between the fossil groups of the miocene and eocene, which lies next below the former. Before the deposition of the miocene beds, some event has occurred, like a sudden fall in the temperature of the ocean, which has destroyed every kind of animal life; for in the miocene deposits not a single form of the lower tertiary bed exists, even where the two beds are juxtaposition. The eocene, which toward the ocean has been sunk beneath the miocene, rises shortly after passing a line from Fort Washington to Annapolis. Of two hundred species of shells found in this formation, not one now exists on the coast, or is found in the more recent deposits of the United States, although many are identical with the eocene fossils of the Paris basin. A circumstance of much economical interest in relation to this formation is the occurrence, in many localities of the eocene, of that most valuable fertilizer, the green sand, which occurs in the secondary beds of New Jersey, and has added so much to the agricultural wealth of

* The whole of this article on geology is taken from the census of Maryland, the less important points being omitted or abbreviated.

† By collecting all the fossils contained in any tertiary deposit, and comparing them with existing species, the geologist is enabled to classify the deposits into one of three great groups. In the lowest deposit, or group, but few recent species are found. It is thence called the eocene, or dawn of recent species. The next above contains a minority of recent species, and is thence called miocene. Over this occurs a deposit containing a majority of recent species, which is called pliocene, and above the last a deposit called the post pliocene.

MARYLAND.

that State. The decomposed shells, or marl, of the tertiary have contributed, in scarcely a less degree, to the fertility of the lower counties of Maryland.

The head of tide-water forms the limit of the tertiary. On the western borders of this formation, all along the Atlantic coast, all the great rivers descend by falls and rapids. At these points the navigation is stopped, and large cities have sprung up. Thus the western boundary of the tertiary is a line of great geographical and political interest. Proceeding westward from the limit of the tertiary, we find a belt of stratified metamorphic, or hypogene rocks, which ranges nearly parallel with the Atlantic coast. These rocks include gneiss, micaceous, chloritic, and talcose slates, and beds of serpentine, granite, and limestone. The width of this belt, in Maryland, from its eastern border to the points where its rocks begin to be covered unconformably with new red sandstone, is from 20 to 30 miles. This region is characterized by hills generally of moderate height, but sometimes rising as high as 900 feet above mid tide. Their summits are rounded, and present a striking contrast to the long, steep, parallel ridges of the Alleghanies. The beds of the rivers which pass through this region are in deeply-cleft valleys, with rounded or abrupt sides, that afford small tracts of alluvial soil. The general inclination of these hypogene rocks is to the south-east, at an angle of about 45°; the direction of the range is north-east and south-west. The principal minerals and rocks of economical value in this belt are the gneiss, which forms an excellent and indestructible material for ordinary building purposes; primary limestone, or saccharoidal marble, extensively used for building purposes in Baltimore and Washington; hydrosilicates of magnesia, which furnish a material for the production of a large amount of magnesia. The serpentine of Harford County, and the northern border of Cecil County, has yielded a large amount of ferroxide of chrome, for making pigments and dyes; titanated iron, which occurs in gneiss, has been worked with success in Harford County. Ores of brown hematite, extensively used in Maryland for the manufacture of iron of excellent quality, occur in beds of clay and loam, particularly on the borders of the primary limestone within this belt.

Near Frederick, in passing westward, we perceive that the hypogene rocks begin to be covered with unconformable beds of red sandstone. This group of rocks is one of the most remarkably uniform in the country, possessing the same characteristics from the Hudson to North Carolina. It consists of dark reddish brown argillaceous sandstones, of crumbly-brown shales and coarse conglomerates. The strata dip gently toward the north-west, or toward the mountains. The beds, which show themselves along the south-eastern edge of the tract, consist mostly of coarse sandstones, alternating with red shales. The central parts consist more exclusively of brown shales and brown argillaceous sandstone. The uppermost beds, or those occurring along the north-western margin of the formation, have frequently the character of coarse conglomerates, made up of pebbles derived from a great variety of rocks, chiefly those which occur at the base or on the side of the adjoining South Mountain. The beds of rock on the Potomac, which have furnished the material from which the columns in the House of Representatives in the Capitol at Washington have been constructed, belong to this formation, the pebbles and the cementing materials in these beds being of limestone. The few fossil fishes and shells found in this formation establish its age to be that of the upper new red sandstones of Europe, or the period of the middle ages of geological history. To this formation belong the most important localities of copper ores in Maryland. Indeed, this formation is the depository of the principal copper mines in the United States, the beds containing the copper of Lake Superior being referred to this formation.

After passing the formation of new red sandstone, which occupies, as we have seen, a narrow trough in the hypogene or metamorphic rocks, proceeding westwardly, we approach the first ridge of the Alleghanies, or the great Appalachian chain. A rapid glance at the general features in the structure of the whole chain will enable us to comprehend more fully the portion of the chain which exists in this State. This chain, geologically considered, extends from Vermont to Alabama, being more than 1,000 miles long, from 50 to 100 miles broad, and varying in height from 800 to 4,000 feet. Unlike the great chains of many countries which contain a principal central mountain, to which all the minor ranges tend, this system consists of a broad zone of almost innumerable parallel ridges of nearly equal parallel height. The characteristic features of the ridges are great length, narrowness, and steepness, the evenness of their summits, and their remarkable parallelism; many of them are almost straight for more than 50 miles. This feature, combined with their steep slopes and sharp and level summits, gives them the appearance, seen in perspective, of so many colossal intrenchments. The first belt of the chain, having in a less degree the characteristics above mentioned, is the narrow undulating mountain range, called in New York and New Jersey, the Highlands; in Pennsylvania, the South Mountain; in Maryland, the South Mountain or Blue Ridge—the latter name being applied to the range in Virginia—the Catocin Mountain, which is the first chain of importance which presents itself in Maryland as we proceed west, being a spur of the Blue Ridge. The rocks of this belt are, for the most part, of the older metamorphic strata, including gneiss, micaceous, chloritic, argillaceous, and talcose slates, and the Pottsdam sandstone. Such is the character of the rocks exposed by the canal and railroad excavations at Harper's Ferry. Immediately north-west of this mountain range is the great Appalachian Valley, which ranges from Vermont to Alabama under various local names. The portion lying in Maryland is called the Hagerstown Valley. The latter, like the continuation of the same valley north and south, is principally based upon the Trenton limestone, remarkable as containing all the great caverns in the country. Beyond this valley to the north-west is a wide belt of long, narrow, parallel ridges and included valleys, spreading north-westward to the foot of the great plateau of the Allegheny or Cumberland Mountain. This belt has a breadth varying from 30 to 60 miles. These narrow and parallel ridges consist of strata folded into a succession of convex and concave strata, which have been subsequently laid open by denudation. They consist of silurian, devonian, and carboniferous formations, adopting the terms applied to similar formations in England—the older groups, or silurian, lying chiefly along the south-eastern flank of the Appalachians, and the carboniferous making their appearances as we proceed west. It is evident that these beds, now so much folded and fractured, were originally horizontal, and formed continuous deposits with the rocks of the great western coal field. It appears that the bending and fracture of the beds is greatest on the Atlantic side of the chain, and the strata becomes less and less disturbed as we proceed toward the west. The most important feature in the geology of the Appalachian chain, as it exists in Maryland, is the occurrence among its strata of the carboniferous formation, and its included beds of coal and ores of iron. There are three important coal areas within the State; two north-west of the so-called Backbone of the Allegheny Mountain; the north-west, or Yioughigeny field, estimated to contain 250 square miles; the middle area, between Negro and Meadow mountains, estimated to contain 120 square miles. These fields, lying in the midst of a forest region, have not been thoroughly explored. The estimates of their value can not be much relied on. This is of comparatively little importance, as from their location they must remain for a long time undisturbed. The Frostburg, or Cumberland coal basin, lies between Davis Mountain to the east, and Savage Mountain to the west, extending within the State 20 miles in length, with an average breadth of 4½ miles. The carboniferous strata, composing

MARYLAND.

the coal series, consisting, as elsewhere, of shale, grit, sandstone, limestone, argillaceous iron ore, and coal, dip on every side toward the centre of the trough. The successive beds have been compared, in shape, to a great number of Indian canoes, placed one within the other. The entire thickness of the coal measures about 1,500 feet. The present surface of the basin is irregular, as it has been intersected by numerous deep ravines, formed by streams and rivers. By these means large portions of the beds have been swept away. Wherever the beds have been cut off by the intervention of a valley, they are seen on the opposite sides at the same level, showing that the beds were once continuous. The whole amount of denudation has been estimated at 26,250 acres, 86,847 acres or 135 square miles, being the supposed present area of the coal. This denudation has given great facility for exploration of the strata and working the coal, and saves the large expenditures necessary in other regions for draining the mines. The whole quantity of coal may be extracted without the use of a shaft. The principal seam has been 10 feet in thickness of workable coal, and there are several other workable beds of less thickness; the whole thickness of available coal having been estimated at 45 feet. The data above given, supposing the whole coal to be accessible, would make the gross amount in this basin 6,305,137,827 tons, and the available quantity, making the ordinary deductions, over four thousand million tons. The analysis of the Cumberland coal shows it to be of the kind denominated dry or close burning, or intermediate between the fat coal of Pittsburg and the anthracite of Pennsylvania. Experiments prove that this coal, in evaporative power, occupies the very highest place among American coals. This is further demonstrated by its extensive use in the ocean steamers.

It will be seen from this rapid sketch, in which, from want of space, many interesting details are omitted, that the State of Maryland, in the extended range of its geological formations, is favored with one of the most important physical elements of prosperity. The same cause has been, in a high degree, conducive to the wealth of England. The *tertiary* of Maryland has contributed a soil of easy tillage and inexhaustible supplies of the best and cheapest material for enriching it. Its incoherent beds have suffered the tide to penetrate far inland, thus giving the advantages of the sea-board to the inhabitant of the interior. The *metamorphic* rocks furnish the best materials for construction near the points where they are most needed, and producing waterfalls on the rivers at the borders of the Atlantic plain, have placed the sites of manufactures near the great water highways. The shales and sandstones of the *secondary* have formed new varieties of soil, and contributed new material for architecture and metallurgy. To the *silurian* formation is due the broad and fertile valley resting on the Trenton limestone, and to the peculiar structure of the Appalachian chain, the rich glades of the upper mountain valleys. Finally, the *carboniferous* beds supply without limit the minerals most essential to commerce and the arts—coal, the indispensable aliment of industry, and iron, the instrument with which all wealth is created.

Maryland, in 1850, was divided into twenty counties, the general statistics of which, and the capitals of each, was as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State, at the period referred to, was 81,708, of families 87,384, and of inhabitants 583,084, viz.: whites 417,943—males 211,187, and females 206,756; free colored 74,723—males 35,192, and females 39,531; and slaves 90,368—males 45,944, and females 44,424. Of the whole population, there were *deaf and dumb*—wh. 195, fr. col. 36, and sl. 23—total 254; *blind*—wh. 193, fr. col. 71, and sl. 43—total 307; *insane*—wh. 477, fr. col. 52, and sl. 24—total 553; and *idiotic*—wh. 263, fr. col. 53, and sl. 72—total 393. The number of free persons born in the United States was 438,916; the number of foreign birth 52,288; and the number of birth unknown 462. The *native* population originated as follows: Maine 456, N. Hamp. 260, Vern. 262, Mass. 1,421, R. I. 209, Conn. 434, N. York 2,646, N. Jer. 1,321, Penn. 16,076, Del. 4,373, *Maryland* 400,594, Dist. of Col. 1,940, Virg. 7,030, N. Car. 225, S. Car. 153, Ga. 74, Flor. 37, Ala. 51, Miss. 143, La. 181, Tex. 24, Ark. 14, Tenn. 39, Ky. 131, Ohio 535, Mich. 16, Ind. 65, Ill. 54, Mo. 86, Ia. 5, Wisc. 4, Calif. 1, and territories 1; and the *foreign* population was composed of persons from—England 8,467, Ireland 19,557, Scotland 1,093, Wales 260, Germany 26,936, France 507, Spain 18, Portugal 29, Belgium 5, Holland 106, Turkey 11, Italy 82, Austria 16, Switzerland 63, Russia 23, Denmark 35, Norway 10, Sweden 57, Prussia 188, Greece 0, China 1, Asia 2, Africa 10, British America 215, Mexico 8, Central America 0, South America 52, West Indies 279, Sandwich Islands 2, and other countries 251.

The following table will exhibit the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	208,649	8,043	103,036	111,075	319,728	—	—
1800	216,326	19,587	105,635	125,222	341,548	21,820	6.82
1810	235,117	33,927	111,502	145,429	380,546	38,998	11.41
1820	260,222	39,730	107,398	147,123	407,350	26,804	7.04
1830	291,108	52,938	102,994	155,932	447,040	39,690	9.74
1840	318,204	62,078	89,737	151,815	470,019	22,979	5.14
1850	417,943	74,723	90,368	165,091	583,084	113,015	24.04

The statistics of the wealth and industry of the State, as ascertained by the census of 1850, and in accordance with other official documents referring to the same period, are as follows:

Occupied Lands.—Improved lands 2,797,905 acres, and unimproved lands 1,836,445 acres—valued in cash at \$87,178,545. The whole number of farms under cultivation on the 1st June, 1850, 21,860. Value of farming implements and machinery, \$2,463,443.

MARYLAND.

Live-Stock.—Horses, 75,684; asses and mules, 5,644; milch cows, 86,859; working oxen, 84,135; other cattle, 93,595; sheep, 177,902; and swine, 852,911—the value of these in the aggregate, \$7,997,634. In 1840 the number of horses, mules, etc., was 92,220; of neat cattle, including milch cows, working oxen, and other cattle, 225,714; of sheep, 257,922; and of swine, 416,943. These statistics exhibit in the decade intervening, a decrease of 10,892 horses, mules, etc., of 6,125 cattle, of 80,020 sheep, and 64,032 swine.

Grain Crops.—Wheat, 4,494,680 bushels; rye, 226,014 bushels; Indian corn, 10,749,859 bushels; oats, 2,242,151 bushels; barley, 745 bushels; buckwheat, 103,671 bushels. The production of the same crops, according to the census of 1840, was: wheat, 3,845,735 bushels; rye, 723,577 bushels; Indian corn, 8,233,086 bushels; oats, 3,534,211 bushels; barley, 3,591 bushels; and buckwheat, 78,606 bushels.

Other Food Crops.—Peas and beans, 12,816 bushels; and potatoes—Irish, 764,939 bushels, and sweet, 203,993 bushels. The potato crops together in 1839–40, were 1,036,433 bushels.

Miscellaneous Crops.—Tobacco, 21,407,497 (in 1840, 24,816,012) pounds; hay, 157,956 (in 1840, 106,687) tons; cloverseed, 15,217 bushels; other grass-seed, 2,561 bushels; hops, 1,870 pounds; hemp—dew-rotted, 63 tons, and water-rotted, 0 tons; flax, 85,686 pounds; flax-seed, 2,446 bushels; maple sugar, 47,740 pounds, and maple molasses, 1,430 gallons (all from Alleghany County); wine, 1,431 gallons, etc. Value of orchard products, \$164,051; and of market-garden products, \$200,869.

Products of Animals.—Wool, 450,226 (in 1840, 493,201) pounds; butter, 3,806,160 pounds; and cheese, 3,975 pounds. Value of animals slaughtered during the year, \$1,954,800. Silk cocoons were produced to the amount of 30 pounds; and beeswax and honey to that of 74,802 pounds.

Aggregate value of *home-made manufactures* for the year, \$111,521.

Manufactures—Capital invested, \$14,753,143; value of raw material, fuel, etc., \$17,326,734; average hands employed, 30,124—males 22,641, and females 7,483; average monthly cost of labor \$614,556—male \$544,931, and female \$69,625; annual value of products \$32,477,702. The amount of capital invested in 1840 was \$6,450,234, and hence the manufacturing interests of Maryland have duplicated in the decade.

The whole number of industrial establishments, manufacturing to the value of \$500 and upward, on the 1st June, 1850, was 3,703, comprising 148 several pursuits, and of these 76 were agricultural implement factories, 232 blacksmith shops, 464 boot and shoe shops, 61 brick fields, 141 cabinet-ware factories, 234 carpenters' and builders' shops, 125 cigar factories, 265 clothing shops, 52 coach, etc., factories, 99 coopers' shops, 21 curriers' shops, 16 distilleries, 33 cotton factories, 43 woolen factories, 5 forges, 10 brass founderies, and 18 iron founderies, 19 furnaces, 15 machine shops, 245 flour-mills, 147 grist-mills, 25 paper-mills, 118 saw-mills; mines—3 coal, 3 copper, 1 gold, and 21 iron; 10 piano-forte factories, 12 plumbing shops, 71 saddleries, 24 ship-building yards, 116 tanneries, 33 wheelwright shops, etc., the remaining handicrafts being those common to every civilized country. The following table will show the details of some of the largest manufactures:

Manufactures.	Capital Invested.	Value of Raw Material, etc.	Average Hands Employed.	Monthly Cost of Labor.	Value of Annual Products.
Boot and Shoe	\$297,965	\$504,210	2,756	\$50,264	\$1,372,358

Tanneries	628,900	725,612	479	8,034	1,103,139

In the cotton manufacture there were consumed 23,325 bales of cotton; in the woolen manufacture, 430,300 pounds of wool; and in the tanneries, 169,535 hides and 63,810 skins.

Internal Communication.—Maryland has projected and completed a magnificent system of railroads and canals. At an early period of its State history the necessity of opening communication with the west and the interior was agitated, and in some measure the projects of that day were matured by opening the navigation of the Upper Potomac, and more recently by building the great national road west from Cumberland. These works, however, have been superseded by the Chesapeake and Ohio Canal, extending from Alexandria in Virginia to Cumberland, 191 miles, and the Baltimore and Ohio Railroad, from Baltimore to Wheeling, on the Ohio River, 319 miles. These two great thoroughfares secure to the principal sea-port of the State a vast amount of Western commerce, and open to the markets of the East the rich mineral deposits of Alleghany County, etc. The other great avenues within the State are the Philadelphia, Wilmington, and Baltimore Railroad, the Baltimore and Susquehanna Railroad, and the Washington Branch Railroad, etc., which, with their external connections, communicate with every portion of the Union. Besides these there is a short canal and railroad across the neck of the Delaware Peninsula, the canal being navigable for sloops and barges, and also the Susquehanna and Tide-water Canal. The total length of completed railroad within Maryland in January, 1853, was 544 miles, or in the proportion of 1 mile to every 18 square miles of its territory, or to every 1,072 inhabitants.

Foreign Commerce.—In regard of foreign commerce, Maryland ranks fifth or sixth among the United States. According to the report of the Register of the Treasury for the year ending 30th June, 1850, the total exports were valued at

MARYLAND.

\$6,967,358; the value of domestic produce was \$6,589,481, of which the value of that portion carried in American ships was \$4,657,185, and of that carried in foreign, \$1,932,296; and the value of foreign produce was \$377,872, of which the value exported in American ships was \$250,861, and in foreign ships, \$127,011. The value of imports amounted to \$6,124,201, of which \$5,529,682 was the value of merchandise carried in American ships, and \$594,515 of that carried in foreign ships. The character, tonnage, and crews of the shipping employed in the foreign trade were as follows—*Entrances*: Vessels 438, burden 99,588 tons, and crews 4,111 men and boys, viz., American, 295 vessels, 70,427 tons, and 2,770 men and boys; and foreign, 143 vessels, 29,161 tons, and 1,341 men and boys; and—*Clearances*: Vessels 521, burden 126,819, and crews 5,275 men and boys, viz., American, 359 vessels, 89,296 tons, and 3,605 men and boys; and foreign, 162 vessels, 37,523 tons, and 1,670 men and boys. The shipping owned within the State, at the date above appearing, was as follows:

Districts.	Registered.		Enrolled and Licensed.		Licensed (under 20 tons.)	Aggregate Tonnage.	Navigated by Steam.
	Perm't.	Temp'y.	Perm't.	Temp'y.			
Baltimore	67,061	23,609	57,612	—	737	149,019	13,115
Oxford	—	—	12,066	—	277	12,343	—
Vienna	—	—	14,941	—	537	15,478	—
Snow Hill	—	—	9,226	—	236	9,511	—
St. Mary's	—	—	2,143	—	42	2,185	—
Town Creek	—	—	2,227	—	—	2,227	—
Annapolis	—	—	2,239	—	25	2,324	836
Total	67,061	23,609	100,514	—	1,903	193,087	13,451

The total amount of shipping built in the State, in the year ending as above, was 15 vessels, of an aggregate burden of 15,965 tons, of which 16 were ships, 5 brigs, 125 schooners, and 4 steamers; and of the whole amount, 66 vessels (11,633 tons) were built in Baltimore district, 81 schooners (1,753 tons) in Oxford, 27 schooners (1,593 tons) in Vienna, and 26 schooners (990 tons) in Snow Hill.

The following table exhibits the movements in the values of imports and exports for a series of years embraced between 1791 and 1850 inclusive:

Years.	Exports.	Imports.	Years.	Exports.	Imports.	Years.	Exports.	Imports.
1791	\$2,239,691	\$ —	1811	\$6,333,937	\$ —	1831	\$4,308,647	\$4,526,577

Banks.—The aggregate condition of 28 banks and 2 branch banks in Maryland, according to the returns of January, 1851, were as follows: *Liabilities*—capital \$18,128,831, circulation \$3,532,869, deposits \$5,833,706, due other banks \$1,923,206, and other liabilities \$9,395; and *assets*—loans and discounts \$14,900,516, stocks \$760,417, real estate \$405,245, other investments \$763, due by other banks \$1,173,200, notes of other banks \$965,796, specie fund \$73,552, and specie \$2,709,035.

Government.—The present constitution of Maryland was done in convention 13th May, 1851, ratified by the people 4th June, 1851, and went into operation 4th July, 1851. It supplanted the old constitution of 1776, which had, however, been amended more than twenty times. This constitution provides that every free white male citizen of the United States, 21 years of age, resident in the State one year, and in the county, town, or city where his vote is offered, for the six months next preceding the election, may vote. Citizens removing from one part of the State to another do not lose one residence before acquiring another. Persons convicted of giving or receiving bribes, and persons knowingly casting illegal votes, are forever disqualified to hold any office of trust or profit, or to vote at any election thereafter, and are in addition punishable by fine and imprisonment. No citizen convicted of larceny or other infamous crime, unless pardoned, and no lunatic or non compos can vote. The general election is held on the first Wednesday in November.

The Legislature is composed of a Senate of 22 members, one from each county and the city of Baltimore, and chosen for four years, and a House of Delegates, composed of not less than 65 nor more than 80 members (now 74) chosen for two years from single districts. Members of both houses must have resided in the State for three years, and in the district for which elected for the last year thereof, and Senators must be at least 25, and delegates 21 years of age. After the returns of each federal census are published, commencing with that of 1850, the Assembly shall reapportion the delegates according to population, but Baltimore city shall always have four delegates more than the most populous county, and no county shall have less than two members. After 1854 the sessions will be biennial. No bill shall become a law unless passed by a majority of all the members elected, and on its final passage the ayes and noes shall be recorded; and no law shall take effect until the 1st June next after the session when it is passed. The Legislature meets at Annapolis on the first Wednesday in January annually.

MARYLAND.

The Governor is chosen by a plurality of votes, and his term, commencing on the 2d Wednesday of January, shall continue four years. He must be 30 years of age, a citizen of the United States, and a resident of the State for five years preceding his election, and three years a resident of the district from which he is elected. For the purpose of electing the Governor the State is divided into three districts, and he is elected from each successively. The first district comprises St. Mary, Charles, Calvert, Prince George, Anne Arundel, Montgomery, and Howard counties, and Baltimore City; the second district, the eight counties of the Eastern shore, and the third district, Baltimore, Frederick, Washington, Alleghany, and Carroll counties. He is obligated to reside at the seat of government during his official term. He may grant pardons, but not until after a publication in the newspapers of the applications made therefor and the day when a hearing will be had, and he shall report every case to the Legislature. In case of vacancy the President of the Senate, and after him the Speaker of the House of Delegates shall act as Governor until an election by the people.

The administrative officers of the State are—a Secretary of State, appointed by the Governor to hold office during his term; a State Treasurer and Comptroller, whose accounts the Governor is bound to examine semi-annually, or oftener if necessary; Commissioners of the Land Office, of Stamps, and of Public Works, and an Adjutant-general, the latter of which is appointed by the Governor, with the consent of the Senate, to hold office for six years.

The Judiciary consists of a Court of Appeals, Circuit Court, Orphans' Court, etc. The Court of Appeals has appellate jurisdiction only; the judges, four in number, are elected from districts by the voters therein for 10 years, unless they before reach the age of 70 years. They must be above 30 years of age, citizens of the State at least five years, resident of the judicial district from which elected, and have been admitted to practice in the State. The court appoints its own clerk, to hold office six years, and he may be re-appointed at the end thereof. The Governor, with the consent of the Senate, may designate any one of the four judges elected to be Chief Justice. The judicial districts are, 1st—Alleghany, Washington, Frederick, Carroll, Baltimore, and Harford counties; 2d—Montgomery, Howard, Anne Arundel, Calvert, St. Mary, Charles, and Prince George's counties; 3d—Baltimore City; and 4th—the eight counties of the Eastern shore. For the holding of circuit courts the State is divided into eight circuits, each of which elects a judge of the circuit court to hold office for 10 years. The circuits are, 1st—St. Mary, Charles, and Prince George counties; 2d—Anne Arundel, Howard, Montgomery, and Calvert counties; 3d—Frederick and Carroll counties; 4th—Washington and Alleghany counties; 5th—Baltimore city; 6th—Baltimore, Harford, and Cecil counties; 7th—Kent, Queen Anne, Talbot, and Caroline counties; and 8th—Dorchester, Somerset, and Worcester counties. The qualifications of judges of the circuit courts are the same as those required for judges of appeals, except that they must be citizens of the United States, and residents for two years in their judicial districts. There is in the 5th district a court of common pleas, with jurisdiction in civil cases between \$100 and \$500, and exclusive jurisdiction in appeals from justices of the peace in the city of which it is composed; and a superior court, with jurisdiction in cases over \$500. Each of these courts consist of one judge, elected by the people for ten years. There is also a criminal court, consisting of one judge, elected for six years. Clerks of the circuit courts in each county, and of the Baltimore courts, are chosen for six years, and are re-eligible. Each county, and Baltimore city, elects three persons as judges of the orphans' court, to hold office for four years; a register of wills for six years; justices of the peace, two sheriffs, and constables for two years. Attorneys for the commonwealth are chosen in each county by the people for four years. The office of Attorney-general was abolished by the new constitution. The court of chancery will cease to exist on the 4th July, 1853, having been granted that time to finish up its business.

Among the provisions of the constitution are the following: "Teachers of religion, and those holding offices of profit under the State or United States, except justices of peace, are ineligible to the House of Delegates; two commissioners to revise and codify the laws of the State, and one or more to revise and simplify the practice, form of pleading, and conveyancing, were to be appointed by the legislature at its first session; persons any way engaged in any duel shall be forever incapable of holding any office of honor or trust in the State, and holders of public money are ineligible until they pay the same into the treasury; the Assembly shall pass laws to protect and secure the property of married women; imprisonment for debt is abolished; a reasonable amount of debtor's property, not exceeding in amount \$500, is exempt from seizure; the relation of master and slave, as now existing, shall not be altered by the legislature; no bank shall be established, except with the individual liability of the stockholders to the amount of their shares; corporations shall not be created by special laws, except for municipal and other specified purposes; private property shall not be taken for public use unless compensation be first paid or tendered; the rate of interest shall not exceed six per cent; in all criminal cases the jury shall be judges of the law as well as the facts; all officers, except the Governor, whose pay exceeds \$3,000 per annum, shall account for the excess under oath; after 1st April, 1859, no lottery scheme shall be drawn nor ticket sold, and until that time the system shall be under a commissioner of lotteries; no debt shall be contracted exceeding \$100,000, nor unless the act creating it shall provide for a tax sufficient to pay the interest as it falls due, and the principal in 15 years, nor shall such taxes be repealed or applied to other purposes; the credit of the State shall never be given nor lent, nor shall the State be any way concerned in internal improvements; the monies levied to pay the public debt shall never be diverted until the debt is paid, or until the sinking fund equals the outstanding debt.

At its first session after every federal census, the legislature shall pass a law to ascertain the sense of the people in regard to calling a convention to revise the constitution; and if a majority vote therefor, a convention shall be called at the earliest convenient day—the delegates to be elected by the several counties, and Baltimore city, in proportion to their representatives at the time when the convention may be called.

The militia of Maryland, according to the Adjutant-general's return of 1850, consisted of 46,864 men of all arms, of which 2,397 were commissioned officers, and 44,467 non-commissioned officers, musicians, privates, and artificers; and of the commissioned officers, 22 were general officers, 63 general staff officers, 544 field officers, etc., and 1,768 company officers. All free white male persons between 18 and 45 years of age, and not exempt by law, are liable to do military duty.

Finances, Public Debt, etc.—The nominal debt of the State on the 1st December, 1850, amounted to \$15,424,381 46; but, deducting Baltimore and Ohio Railroad loan, \$3,266,000, total county loan, \$163,689 67, and Susquehanna and Tidewater Canals loan, \$1,000,000, otherwise provided for, the real debt amounted only to \$10,960,691 79. The sinking fund at the above date amounted to \$2,000,728, and must be deducted from the debt to get the present liabilities of the State. To meet these liabilities, in addition to the proceeds of a special annual tax, the State has \$5,341,801 84 in productive property, consisting of stocks, bonds, etc., and \$15,910,018 17 in property not now productive.

The balance in the treasury 1st December, 1849, was \$484,892 96, and the receipts during the year were \$1,227,986 24, being a total of resources for the year ending 1st December, 1850, amounting to \$1,712,879 20; and the expenditures in the same year were \$1,467,470 86, leaving a balance of \$245,408 84 for future appropriation. The principal objects of expenditure were—for Annapolis and Elridge Railroad \$3,950 83, civil officers \$14,614 97, colleges, academies, and schools

MARYLAND.

\$21,899, indigent deaf and dumb \$2,840 50, judiciary \$38,818 50, legislature \$56,686 01, militia \$1,100, penitentiary \$30,000, pensions \$5,679 68, surplus revenue \$34,069 86, State colonization \$10,000, interest on public debt \$690,846 86, redemption of funded arrears of interest \$500,509 09, State tobacco inspection and warehouses \$21,961 77, contingent expenses \$9,833 49, and miscellaneous expenses \$21,172 94; and the chief sources of *income* were—auction duties and licenses \$25,685 44, railroads \$129,840 80, bank dividends and bonus \$37,356 06, fines and forfeitures \$5,032 86, licenses by county clerks \$127,835 02, road stock dividends \$46,490, stamps \$52,579 75, lotteries and stamps on lottery tickets \$38,633 82, canal companies \$67,090, direct tax \$438,086 88, taxes on State and city of Baltimore stocks \$46,886 24, on collateral inheritances \$23,060 73, on commissions of executors and administrators \$29,166 26, on commissions of trustees \$5,289 26, on foreign assurances \$7,484 87, on policies of insurance \$6,056, on protests \$4,923, on certain officers \$10,551 56, on civil commissions \$7,221 80, and on incorporated institutions \$25,570 58, tax on colonization \$3,668 04, and State tobacco inspection in Baltimore \$51,519 93.

The assessed value of all real and personal estate subject to taxation in 1850, according to the returns of the census of that year, was \$196,608,625, but truly assessed, it would amount to \$207,257,523. The aggregate of all taxes assessed amounted to \$1,884,429; of this amount \$444,866 was for State purposes, \$380,727 for county purposes, \$89,810 for school purposes, \$22,651 for support of paupers, \$14,866 for road repairs, etc., and \$381,509 for other purposes.

Federal Representation.—Maryland, in accordance with the provisions of the act of Congress, 23d May, 1850, sends six representatives to the national legislature.

Education.—The provisions for education in Maryland, though by no means sufficient for the amount of population in the State, are still very respectable. The law with regard to schools has been recently amended, and in consonance with its provisions, the counties have been divided into school districts, in which it is imperative on the inhabitants to establish and maintain schools for a certain period in each year. Many of the counties, however, have not yet complied with the law, but nevertheless there have been great improvements effected, and the prospect of future efficiency in all that pertains to public schools is very promising. The means of obtaining education in this State, as they existed 1st June, 1850, are returned in the census as follows:

1. Primary schools—number 923, teachers 1,104, scholars 84,467, total annual income \$225,260—namely, income from endowment \$2,959, from taxation \$75,296, from public funds \$67,412, and from other sources \$79,563.

2. Academies, etc.—number 174, teachers 427, scholars 7,759, total annual income \$206,430—namely, income from endowments \$12,865, from public funds \$15,227, and from other sources \$178,808.

3. Colleges and universities—number 12, professors 95, students 1,112, total annual income \$124,714—namely, income from public funds \$3,200, and from other sources \$121,514. The principal collegiate institutions of the State are—St. John's College at Annapolis (formerly a branch of the University), founded in 1784; St. Mary's College (Catholic), at Baltimore, founded 1805; St. James' College (Episcopal), in Washington County, founded 1842; Mount St. Mary's College (Catholic), at Emmetsburg, founded 1830; Washington College, at Chestertown, founded 1783; Medical School of the University, at Baltimore, founded 1807; Washington Medical College, also at Baltimore, founded 1827, etc., etc.

The whole number of white children who attended school within or during any part of the year, was 60,417, of which 82,214 were males, and 28,283 females; and the total number of free colored children was 1,616, of which 886 were males, and 930 females. Of all classes, amounting to 62,063; those of native birth numbered 60,886, and those of foreign birth 1,679. Of those classed, "adults who can not read or write," the whites numbered 20,815—3,557 males, and 12,258 females; and the free colored numbered 21,062—9,422 males, and 11 640 females; and of the total number of white persons of this class, 17,364 were native born, and 8,451 foreigners.

Libraries.—Public libraries 17, containing 54,750 volumes; private libraries 825—222,455 volumes; school libraries 8—6,385 volumes; Sunday-school libraries 84—28,315 volumes; college libraries 10—33,792 volumes; and church libraries 5—1,550 volumes; total 449 libraries, and 847,497 volumes.

Periodical Press.—The whole number of periodicals published in Maryland in 1850 was 63, circulating at each issue an aggregate of 124,287 copies, and annually 19,612,724 copies. Of this number, 89 were political—22 whig in principle, circulating at each issue 19,172 copies; and 17 democratic, circulating 12,465 copies; 20 were miscellaneous—71,000 copies; 6 religious—13,950 copies; 1 agricultural—6,000 copies; 1 musical—1,000; and 1 colonization—700 copies; and of the whole number 6 were published daily, and issued annually 15,806,500 copies; 4 tri-weekly—499,700 copies; 54 weekly—3,166,124 copies; 1 semi-monthly—48,000 copies; and 3 monthly—92,400 copies. The *dailies* are all published in Baltimore city—the "Sun," the "Clipper," the "American," the "Patriot," the "Republican and Argus," and the "German Correspondent;" the *tri-weeklies* are also published solely in Baltimore, and, with the exception of the "B. Herald," are editions of the dailies, viz.: the "American," the "Patriot," and the "Republican and Argus;" the *weeklies* are published—8 at Cumberland; 2 at Annapolis; 1 at Ellicott's Mills; 10 at Baltimore, four of which are editions of dailies, namely, of the "Sun," of the "Clipper," of the "Patriot," and of the "Republican and Argus;" 2 at Washington; 2 at Elkton; 1 at Port Tobacco; 1 at Denton; 2 at Cambridge; 5 at Frederick; 1 at Catoclin; 1 at Emmetsburg; 1 at Havre de Grace; 1 at Bel-Air; 1 at Charlestown; 1 at Rockville; 1 at Upper Marlboro'; 2 at Centerville; 1 at Princess Anne; 1 at Leonardstown; 2 at Easton; 1 at Boonsboro'; 1 at Clear Spring; 7 at Hagerstown; and 1 at Snow Hill; the semi-monthly—the Lutheran Christian Messenger, was published at Baltimore; and the three monthlies also at Baltimore.

Religious Denominations.—The statistics of the several religious denominations in the State, in 1850, which are taken from the census returns of that year, were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.

—making a total of 909 churches, having accommodation for 890,065 persons, and owning property to the aggregate value of \$3,947,584. Maryland forms a diocese of the Protestant Episcopal Church; and with the District of Columbia, and the county of Alexandria, in Virginia, the Roman Catholic archdiocese of Baltimore, which has for its suffragan sees, Philadelphia, Pittsburgh, Charleston, Savannah, Richmond, and Wheeling.

MARYLAND.

Pauperism and Crime.—The whole number of paupers who received support within the year ending 1st June, 1850, was 4,494—2,591 native-born, and 1,903 foreigners; and the whole number of paupers in the State, at that period, was 2,001—1,681 native-born, and 320 foreigners. Annual cost of support \$71,668. The whole number of criminals convicted within the same year was 207—188 native-born, and 24 foreigners; and the number in prison on the 1st June, 1850, was 897—825 native-born, and 72 foreigners.

Historical Sketch.—Kent Island was the site of the first white settlements within the limits of Maryland. In 1631, William Claiborne commenced a colony on this island. But the charter under which Maryland was permanently established was granted to Cecilus, Lord Calvert, second Lord Baltimore, by Charles I., and bears date 20th June, 1632. The name *Terra Mariæ*, or Maryland, was given it in honor of Henrietta Maria, queen of the reigning monarch. The first settlers, chiefly Roman Catholics, sailed from the Isle of Wight, 22d November, 1633, and landed on the island of St. Clement, 25th March, 1634, and immediately took possession of the country with religious ceremonies. On the 27th, they commenced a settlement on the main land, at St. Mary's; and this is counted the date of the foundation of the colony. These settlers of Maryland were refugees from ecclesiastical tyranny; and have been denominated by historians the "Pilgrims of St. Mary's." The first governor was Leonard Calvert. The first legislature convened in 1639, and adopted many wise and useful laws. Tobacco had already become so important a staple, that it was deemed expedient to tax its exportation, as a source of revenue. The great revolution in England now began; the proprietary was a Catholic and adherent of the king, and a congregation of Puritans, from Virginia, who had been expelled as non-conformists, in 1642, having settled in Maryland, now attempted to gain ascendancy in the government, and to some extent succeeded; but they were overthrown again in 1646. In 1649, the Assembly passed that noble act of religious toleration, which threw the mantle of charity over all, and in the benefits of which Catholic, Quaker, and Puritan, participated, for all had experienced the rigors of persecution. Monarchy having been overthrown in England, the Puritan power rapidly increased, and again the proprietary was for a time suspended. In 1654, Lord Baltimore made efforts to regain the colony, and succeeded; but scarcely had he resumed the reins of government when the Puritans again deposed him, and for the space of three years thereafter the peace of the colony was compromised by excesses on both sides. During this period the Puritans were concentrated at Providence, now Annapolis, which they considered the actual seat of government, although St. Mary's continued to be the nominal capital. The power of the proprietary was now restored, and Philip Calvert, his brother, was appointed governor. In 1660, twenty-six years from the foundation of the colony, the population of Maryland was about 12,000; in 1665, it was 16,000; and in 1671, it had increased to 20,000. The extension of political organization had kept pace with population. Up to this period, seven counties had been founded, but there were no considerable towns. Importations supplied the place of domestic manufactures, except such as were made in the families of the settlers. Mention of negro slaves is first made in the laws of Maryland in 1663, but it is probable that slavery existed in the colony anteriorly to that time. In 1671, an act was passed to encourage their importation. Philip Calvert was superseded in 1663, as governor, by Charles, son of the Lord Proprietary, who acted in that capacity until 1675, when, on the death of his father, he succeeded to his rights, and appointed Thomas Notely as his representative. On the occurrence of the Revolution, in 1688, the king assumed the government, and in 1791, appointed Sir Lione Copley governor. Among the first acts of the new government was the removal of the capital from St. Mary's to Providence, thenceafter known as Annapolis. The government was again restored to the family of the proprietary, in 1715. At this period, the population was estimated at 30,000, and the almost exclusive staple of production was tobacco. Before 1697, the colonists had been without manufactures of their own; but in that year an effort had been initiated to make woolen and linen cloths. Every attempt of this kind, however, was closely watched by the English government, and hence these efforts to supply a domestic manufacture either failed at once, or languished into a sickly existence. In 1714, Charles, Lord Baltimore, died, and his son, Benedict Leonard Calvert, succeeded to the province, but lived only long enough to have his rights acknowledged. The principal obstacle to the recognition of the claim of this family was now removed, for the young heir had been educated a Protestant. In 1715, therefore, the authority of the proprietary was restored, and a commission in his name was issued to Hart, the last of the governors appointed by the king. From this period until the breaking out of the French war, in 1758, the history of Maryland is not marked by any great event. Its local annals are filled with relations of contentions between the proprietary and the people—the one struggling to maintain his hereditary privileges, and the other to establish their liberties. In all these struggles are discernible the germs of the Revolution of 1776. In 1740, Maryland contributed 500 men and £7,500 to the disastrous expedition against the Spanish Main. A noble fleet of nearly 100 vessels, including 30 ships of the line, commanded by Admiral Vernon, and an army of 12,000 men, under General Wentworth, assembled at Jamaica, in 1741. With this imposing force, a descent was made on Cartagena, which was rendered abortive rather by the malignity of the climate than the prowess of the enemy. It was calculated that nine out of ten of these levies perished in this most fatal enterprise. The province, in 1748, contained about 180,000 inhabitants, of whom 94,000 were white, and 86,000 colored persons. In 1745, the first, and for a long time the only newspaper in the colony, the "Maryland Gazette," was published at Annapolis, but a printing press had been set up some forty years before this, for printing the laws and public documents. In 1756, the number of inhabitants was computed at 154,188, exhibiting the very satisfactory increase of 24,188, or about 18.6 per centum in eight years.

The development of the resources of the province had perhaps hardly kept pace with this advancement of population. The policy of England continued to be rigorous in the discouragement of domestic manufactures, and its repressive measures were not without effect. Meanwhile the legislature of the province offered bounties in land for the erection of flour-mills, iron furnaces, and forges, and other works of industry, and its efforts succeeded to a considerable extent. In 1749, there were in the colony eight furnaces and nine forges. In 1742, copper works were in operation. The great staple export, however, was tobacco—in 1747, 5,000 hogsheds were exported. For many purposes tobacco was the currency of the province, and in certain years the great depression in the price of this article drew out the specie of the colony to meet the balance accruing in its foreign trade. The government sought to remedy this evil by an issue of bills of credit, which experiment, of course, proved unavailing. In 1732, tobacco was made a legal tender at one penny per pound, and Indian corn at 20 pence a bushel; but the issue of paper money continued, even after this expedient, to supply the place of a safe and convenient currency.

The boundary disputes of Maryland with the adjoining provinces have become somewhat famous among controversies of that kind; the most celebrated was that which concerned her northern and part of her eastern frontier, and which resulted in the establishment of "Mason and Dixon's Line." This dispute had an even date almost with the original grant to Lord Baltimore. His grant, it was contended, covered all the territory bordering the Atlantic and Delaware Bay, between 38° and 40° N. lat., including the whole of the present State of Delaware and a considerable strip of Penn-

MARYLAND.

sylvania; but this portion of his grant was at the time occupied by settlements of the Swedes, who were subsequently conquered by the Dutch. After the latter were dispossessed, the territory wrested from them was conferred by a special grant from the Duke of York, in 1682, upon William Penn. A decree was obtained in 1685 by Penn, confirming to him the boundaries named in his grant; but the Proprietary of Maryland refused to submit, and from this time to 1732 the dispute was the cause of almost ceaseless litigation between the Proprietaries of the two colonies, and of violence and outrage on the border. At length, in consequence of a decree in chancery in favor of the heirs of William Penn, granted in 1750, commissioners were appointed to determine and mark the line mentioned in the decree of 1685. The "scientific gentlemen" employed in this important service, probably the chief surveyors, were Messrs. Mason and Dixon, from whom this celebrated boundary received its name. They began at the angle formed by the intersection of the boundary line between Delaware and Maryland with that between Pennsylvania and Maryland, and proceeded westward 130 miles, when their operations were suspended by fear of hostilities from the Indians. At the end of every mile they set up a stone, with the letter "P" and the arms of the Penns engraved on the north side, and "M," with the escutcheon of Lord Baltimore, on the south. In 1732-3 a continuation was made of "Mason and Dixon's line" to its western terminus; this, however, was looked upon as a mere temporary arrangement, and the controversies and recriminations continued; and complaints were made to the Governor of Virginia, who appealed to the Supreme Executive Council of Pennsylvania to come into some arrangement to effect a permanent and acknowledged boundary. "For this desirable purpose each State selected the best and most suitable men within its reach, so that their work, when completed, would merit and receive entire confidence in its accuracy." The commissioners on the part of Pennsylvania were David Rittenhouse, John Ewing, and Captain Hutchins; those on the part of Virginia were Andrew Ellicott, Rev. James Madison, Rev. Robert Andrews, and T. Page. They performed the duty assigned them in the fall of 1784. The line having been thus carried to its western terminus, it only remained to run a meridian line from that point to the Ohio River to close this long-protracted controversy. This task was committed to Messrs. Rittenhouse and Porter, on the part of Pennsylvania, and Andrew Ellicott and Joseph Neville on that of Virginia. They entered on their work in May, 1785, and on the 23d August they had made a final report, locating the western boundary of Pennsylvania, as now acknowledged, from the south-western corner of the State to the Ohio River; for Virginia had no special interest in extending the line further north, having finally relinquished in favor of the general government her claims to territory north and west of the Ohio the year before.

In the contest which annihilated French dominion in America Maryland bore a gallant part. Braddock's unfortunate expedition against Fort Duquesne was organized in this province, and marched from Frederick in the spring of 1754. After the defeat and death of this general a fearful panic pervaded the frontier region of all the Middle States, and extended in Maryland even to the Bay Shore. Numbers of the inhabitants fled to Baltimore, and even prepared to leave the country altogether. From this time until the capture of Fort Duquesne in 1758, the western part of Maryland was kept in constant terror, and of course the incidents of the war fully occupied the attention of the people and the public authorities. The progress of population during these years of Indian warfare was necessarily slow. The inhabitants in 1761 numbered 164,007, of whom 114,332 were whites, and 49,675 slaves, showing an increase for five years following 1756 of somewhat less than 10,000. The relative increase was but little over half as great as that of the preceding five years. The extension of settlements toward the west was also suspended during the war.

From the conclusion of the French war until the commencement of the Revolution, the history of Maryland, like that of most of the other colonies, is a narrative of usurpations upon public liberty attempted by the royal government and resisted by the people. In 1765, the stamp act, and afterward the tea tax, excited general indignation and hostility. The most violent opponents of these measures took the name of "Sons of Liberty." As the contest drew toward the issue which had been inevitable from the beginning, the Proprietary government fell, as a matter of course, giving place to local and general committees of safety, and to conventions assembled in the name of the people, to supply the want of a more regular authority. The war, which had long been expected, and for which great preparations were made, commenced with the desultory fight at Lexington, 19th April, 1775.

The Revolution having now fairly commenced, elections were held throughout the province in August, 1776, for delegates to a convention to frame a Constitution and State Government. This body assembled August 14th, and by the 10th September a bill of rights and a constitution were reported. On the 3d November the constitution was adopted in convention, and elections ordered to carry it into effect. The system of government established by this first constitution of Maryland was republican, and as nearly democratic as the state of public opinion of that day, and the circumstances under which it was adopted, gave reason to expect.

The elections took place in November, as provided for in the constitution, and the legislature convened at Annapolis on the 5th February, 1777. On the 13th February Thomas Johnson was chosen first constitutional governor of Maryland.

Throughout the Revolutionary War the services of the Maryland troops were marked by gallantry and efficiency. In the first considerable action after that of Bunker's Hill, the "Maryland line" signalized its valor and took a high position among the several corps of the continental army. They were under the command of Col. Wm. Smallwood, who afterward became a major-general, and one of the most distinguished officers whose achievements in the struggle illustrate the bravery of his native state. In the battle of Long Island, and in those of Harlem Heights, White Plains, and Fort Washington, the Maryland regiments were conspicuous for their courage and discipline; nor were they less so in the memorable actions at Trenton and Princeton. With the exception of actions in the campaign against Burgoyne, indeed, there was no prominent battle of the war, from Brooklyn Heights to Yorktown, in which the Marylanders did not take an active part; and under every commander—Washington, La Fayette, De Kalb, and Greene—they earned special notice and applause for gallantry and good conduct. The number of troops furnished by Maryland during the war was 15,229 regulars, and 5,407 militia; and the expenditures of the State amounted to \$7,568,145 in specie, a large portion of which was raised by the sale of confiscated British property within the State.

On the 23d December, 1783, the brilliant drama of the Revolution was closed by Washington's resignation of his commission. This event took place at Annapolis, in the presence of Congress, the State legislature, many officers who had served through the war, and a crowd of deeply interested spectators. The ceremony constitutes a scene in our history second in solemnity and importance only to the reading of the Declaration of Independence.

The Federal Constitution was readily and heartily adopted by Maryland. The convention that accepted it on the part of the State met on the 21st April, 1788, and adjourned on the 28th, having agreed to the instrument, without reservation or amendment, by a vote of 63 to 11.

From this period to the war of 1812, the history of Maryland presents nothing calling for special notice. During that war Admiral Cockburn, commanding the British naval forces, committed on the shores of Chesapeake Bay a series of

MARYLAND.

wanton outrages against the property and persons of the citizens. In the spring of 1813 the villages of Frenchtown, Havre de Grace, Fredericktown, and Georgetown, were plundered and burned by his orders, and in August, 1814, occurred the expedition of General Ross against the city of Washington. Cockburn, since the opening of the preceding year, had been cruising about the bay and the mouth of the Potomac with four ships of the line and six frigates; in the course of the summer he was largely re-enforced, and in August a landing was effected at Benedict, on the Patuxent, some thirty-five miles south-east of Washington. The land force was under the command of General Ross, and was 5,000 strong. It proceeded toward Washington; the militia of Maryland and of the District assembled under General Winder to oppose their march; but the Americans were in no condition to resist their numerous and well disciplined enemies. The army retired to Bladensburg, and was re-enforced by General Stansbury with 2,100 Maryland troops, including the sailors and marines of Commodore Barney. At this point it was resolved to risk an action in defense of the national capital. The result of the conflict that ensued was not fortunate to the American arms.

The British gained a complete victory, though at a cost of life much greater than the loss sustained by the Americans. The victors marched on to Washington, occupied the city as long as they thought advisable, and then returned to their shipping at Benedict. They, however, sullied the laurels which their daring and successful expedition might have gained for them by an act of Vandalic barbarism to which the annals of modern warfare among civilized nations hardly furnishes a parallel. While in secure possession of the seat of government, they burned and destroyed the Capitol, the president's house, the offices of the treasury, war, and navy, all the national records accessible to them, the public library, and other property belonging to the public and individuals. Their loss in this expedition is said to have been four hundred in killed and wounded, and five hundred prisoners. At nearly the same time Alexandria was occupied and plundered, or laid under tribute. The remaining principal incidents of the war particularly belonging to the history of Maryland, are the battle of North Point and the defense of Baltimore. The British forces engaged at North Point numbered 5,000, and were under General Ross. He was killed in a skirmish between parties of the advance immediately before the battle. The Americans were commanded by General Striker, who had under his command 3,200 men. The result of the engagement was unfavorable to the invaders, though the American general judged it prudent to retire toward Baltimore. The British lost about 400 men, and the Americans about half that number. The battle of North Point was fought 13th Sept., 1814. On the evening of next day the enemy commenced a bombardment of Fort M'Henry, the work chiefly relied upon for the defense of the city. The attack was gallantly repelled, and the failure of the operations during the night, which were conducted by land and water, was so complete that a day or two after the land forces were taken on board the shipping, and all attempts against Baltimore were abandoned. On the 16th of the month the hostile fleet was seen standing down the bay.

From the earliest period the condition of the African race in Maryland had attracted much attention. By gradations, which there are now no means of tracing, this class of the population had attained in 1790 the number of 111,079, of which 8,048 were free, and 108,036 were slaves. The tendency of public opinion in this State, for many years subsequent to the commencement of the Revolution, seemed favorable to emancipation, and its effect was perceived in the gradual increase of free blacks. It was shown by the census of 1800 that the free colored had gained 11,544 during the preceding ten years, equal to 143 per centum, while the slaves had increased only 2,599, or about 24 per centum. The decennial census from this period exhibited an equally remarkable increase of free negroes and decrease of slaves, so that from 1790 to 1850 the free negroes had increased 821 per centum, and the slaves had decreased more than 12 per centum. The decennial movement is shown elsewhere. But during the first twenty years of this period there had been a small increase of slaves, so that for the next thirty years to 1840 the falling off had been 21,765, or about 19 per centum; which decrease, if sustained, would have extirpated slavery in Maryland in a very short time; but owing to various circumstances in the history of the times, the policy of emancipation, without a provision for the removal of the persons whose condition was affected by it, began to be looked upon with disfavor, and a provision was inserted in the constitution of 1836, declaring "That the relation of master and slave in this State shall not be abolished, unless a bill for that purpose shall be passed by a unanimous vote of both branches of the General Assembly, be published three months before a new election, and be unanimously confirmed by a succeeding Legislature." Thus was checked effectually the disposition to public emancipation; but individuals continued to exercise it, and the prevalence of this desire to confer freedom upon slaves gave occasion to the institution of the American Colonization Society about the year 1819; a branch of the association was established in Maryland, but in order to obviate certain features in the organization and proceedings of the General Society not acceptable to the friends of colonization in this State, it was determined to establish an independent colony in Africa for the blacks of Maryland. The Legislature extended its fostering care to the enterprise, and an annual appropriation of \$20,000 was allowed to the Society, which is yet continued. The Maryland colony has flourished, having now a considerable trade, and being visited at stated periods by regular packets from Baltimore.

ANNAPOLIS is the political capital of the State.

MARYLAND, t. and p. v., Otsego county, *N. Y.*: 63 m. W. & S. Albany. - Drained by Schenectady cr. and its branches. Surface varied, in some parts mountainous; soil rich and fertile, with excellent pasture. The v. is situated centrally on the Albany and Ithaca post-road, and contains several mechanic shops, saw-mills, etc. Pop. of t. 2,152.

MARYLAND LINE, p. o., Baltimore co., *Md.*: on the N. line of the State, and the Baltimore and Susquehanna R. R., 52 m. N. Annapolis.

MARYSVILLE, p. city, and cap. Yuba co., *Calif.*: on the N. bank of Yuba r., 98 m. N. N. E. Vallejo. It contains the court-house and clerk's office, 6 hotels, a number of mills, and some stores and shops. A steamer plies daily between this city and Benecia, touching at Sacramento. There are two newspapers printed here, the "California Express," and "Marysville Herald," both tri-weekly and weekly issues. The population of Marysville is between 7,000 and 8,000.

MARYSVILLE, p. v., and cap. Union co., *Ohio*: 25 m. N. W. Columbus, on the S. side Mill cr., a branch of the

Scioto r. It contains a court-house, jail, and several dwellings. The "Tribune" (whig) is published here. Population 605.

MARYSVILLE, p. o., Paulding co., *Ga.*: 127 m. N. W. Milledgeville.

MARYSVILLE, p. v., and cap. Blount co., *Tenn.*: on a branch of Pistol cr., 15 m. S. Knoxville, and 157 m. E. S. E. Nashville. The v. contains the county court-house and other public buildings, also the South-western Theological Seminary (founded in 1821), and which had (in 1850) 2 professors, 24 students, and 90 graduates, with a library containing 6,000 volumes. Pop. of the v. about 600.

MARYSVILLE, p. v., and cap. Benton co., *Oreg.*: on the W. side of Willamette r., at the mouth of Mary's r., 32 m. S. S. W. Salem. The village site is prairie, which extends 6 or 7 m. northward; but timber is plentiful on the rivers. The mouth of Mary's r. may be considered as the head of navigation above the falls at Oregon City, owing to rapids which steamers stem with great difficulty.

MARYSVILLE, p. v., Campbell co., *Virg.*: on N. side of Staunton r., 103 m. W. S. W. Richmond.

MARYSVILLE, p. v., Benton co., *Ida.*: in the N. E. part of co., 5 m. S. Cedar r., 35 m. N. W. Iowa City.

MARYVILLE, p. v., Nodaway co., *Mo.*: on W. side of One Hundred and Two r., 194 m. N. W. Jefferson City.

MASARDIS, t. and p. o., Aroostook county, *Me.*: 171 m. N. N. E. Augusta. Drained by St. Croix, or Masardis r. and its branches. Surface varied; soil good, with fine timber lands. Pop. of t. 122.

MASCOUTAH, p. v., St. Clair co., *Ill.*: 91 m. S. by W. Springfield, on the edge of a fertile prairie, 2 m. E. Silver cr.

MASHAFAUG, p. o., Tolland county, *Conn.*: 19 m. E. Hartford.

MASON county, *Ill.* Situate W. centrally, and contains 468 sq. m. It has Illinois r. on the W., and the Sangamon and Salt cr. on the S., occupying the tongue of land between them. Surface undulating; soil very fertile; the largest part is prairie, and the lowest parts subject to inundation. Corn, wheat, and most grains yield largely, and parts are excellent pasture. Farms 127; manuf. 3; dwell. 1,041, and pop.—wh. 5,998, fr. col. 23—total 5,921. *Capital*: Bath.

MASON county, *Ky.* Situate N. E., and contains 194 sq. m. Drained S. by Johnson's cr. and North Lick, branches of Licking r., and N. by small affluents of the Ohio, which forms its N. boundary. Surface various; soil of great fertility. Tobacco, flax, hemp, corn, and wheat are all large products. Rye, oats, and potatoes are good crops. Great numbers of sheep and swine are reared, and pork is a large export. It has superior facilities for commerce and manufactures, and the latter are very extensive, consisting of cotton and woolen goods, flour, leather, liquors, earthen-ware, cordage, bagging, iron castings, etc. Most of the imports and exports of the N. E. part of the State reach the Ohio through this co. Farms 898; manuf. 221; dwell. 2,423, and pop.—wh. 13,675, fr. col. 385, sl. 4,284—total 18,344. *Capital*: Washington. *Public Works*: Maysville and Lexington R. R., Maysville and Big Sandy R. R.

MASON county, *Mich.* Situate W. on Lake Michigan, and contains 504 sq. m. Drained by Memoosic, Sabie, and Notiepegac rivers. This co. is little settled and unorganized, visited only or mostly by lumbermen in quest of the fine timber with which it is densely covered. Farms 0; manuf. 5; dwell. 12, and pop.—wh. 93, fr. col. 0—total 93.

MASON county, *Virg.* Situate W., and contains 372

sq. m. Bounded N. and W. by the Ohio, and intersected by the Great Kanawha, which receive a few small streams in the co. Surface hilly; soil very productive, and excellent pasture land. Corn is the staple crop. Superior wheat is raised in moderate quantities. It has good water-power, convenient markets, several valuable salt-springs, and some coal. Farms 563; manuf. 9; dwell. 1,151, and pop.—wh. 6,843, fr. col. 49, sl. 647—total 7,589. *Capital*: Point Pleasant. *Public Works*: Covington and Ohio R. R.

MASON, p. v., Ingham co., *Mich.*: on a branch of Willow cr., 18 m. S. by E. Lansing. It has several buildings, and about 800 inhabitants.

MASON, t. and p. v., Hillsboro co., *N. Hamp.*: 83 m. S. Concord. Drained by Souhegan r. and several small streams. Surface rugged and hilly; soil strong and deep, but stony, well adapted to grass or grain. The streams afford motive power to several mills. Mason Village, at the terminus of the Petersboro' and Shirley R. R., in N. part of t., is the seat of a number of cotton and woolen manufactures, and other handicrafts. Pop. of t. 1,226.

MASON, p. o., Warren co., *Ohio*: 71 m. S. W. Columbus.

MASON HALL, p. o., Orange co., *N. Car.*: 45 m. N. W. Raleigh. The North Carolina Central R. R. passes it.

MASONT COLLEGE, Marion co., *Mo.*: 12 m. W. Palmyra. The college was founded in 1831—in 1850 it had a president, 5 professors, and 45 students. It has also a good library. This was originally a manual labor establishment, and owns a large tract of highly improved farming land.

MASON'S GROVE, p. o., Madison co., *Tenn.*: on the S. fork of Deer r., 127 m. W. S. W. Nashville.

MASONSVILLE, sta., Windham co., *Conn.*: on the Norwich and Worcester R. R., 44 m. N. Allyn's Point.

MASONTOWN, p. v., Fayette county, *Penn.*: 3 m. E. Monongahela r., 159 m. W. by S. Harrisburg.

MASONVILLE, p. v., Lauderdale co., *Ala.*: 2 m. N. Muscle Shoals of Tennessee r., 187 m. N. N. W. Montgomery.

MASONVILLE, t. and p. v., Delaware co., *N. Y.*: 87 m. S. W. Albany. Drained by tributaries of the Susquehanna r. Surface for the most part mountainous—a ridge of mountains extending through it; soil varied—in the valleys rich and fertile. There are excellent timber lands, producing pine and other timber. Principal manufactures are flour, leather, and filled cloths. The v. is situated in the N. W. part of the t. on a small cr., and contains several fine dwellings, and about 600 inhabitants. Population of the t. 1,550.

THE STATE OF MASSACHUSETTS.*

MASSACHUSETTS, the parent State of New England, and the chief manufacturing district of the United States, is bounded north by New Hampshire and Vermont, east by the Atlantic Ocean, south by the Atlantic, Rhode Island, and Connecticut, and west by New York. It is situated between 41° 15' and 42° 52' latitudes north, and between 69° 54' and 73° 34' longitudes west from Greenwich, or 80° 28' and 70° 08' east from Washington. This State has a general breadth of not more than 50 miles, with a length of about 160 miles; but in the eastern part it extends abruptly to the breadth of 90 miles, and shoots a long narrow tongue of sand into the ocean, which extends nearly 50 miles beyond the mainland. The area of the State is estimated at 7,800 square miles. Although the surface is generally hilly, and in some places rugged, no part of it rises to an elevation of 4,000 feet, the isolated peak called Saddle Mountain, in the north-western corner of the State, the loftiest summit within its limits, being not more than 3,600 feet above the level of the sea. The Green Mountains enter the western part of Massachusetts from the north, forming the Hoosic and Taghkanuc or Taconic ridges, which run nearly parallel to each other southward into Connecticut. The Taghkanuc ridge is near the western boundary of the State—its most elevated peaks are Saddle Mountain, above referred to, on the north, and Taghkanuc Mountain, in the south, the latter being 3,000 feet in height. The Hoosic ridge has no summits above half these elevations; it divides the waters of the Connecticut from those of the Housatonic. The White Mountain range enters this State from New Hampshire, a little to the east of the Connecticut, and running southerly, divides below Northampton into the Mount Tom and Lyme ranges. Mount Tom and Mount Holyoke are peaks in this range—the first 1,214 feet and the latter 830 feet above the level of the Connecticut River, which flows between them; Wachusett, a solitary mountain in the north-eastern part of Worcester County, is 2,018 feet above the level of the sea. Eastward of these ranges, the surface is for the most part broken by gentle swells, and in the south-east spreads out into a level sandy plain, which extends from the margins of the ocean, and is continued in the peninsula of Cape Cod.

* The name of this State probably arose from the name of a tribe of Indians formerly at Barnstable, or from two Indian words, *mas* and *wetuset*, the former signifying an Indian arrow-head, and the latter a hill. It is stated that the Sachem who governed in this region, on the landing of the pilgrims, lived on a hill in the form of an Indian arrow-head, a few miles south of Boston, and was called by the natives *Maswetusset*.

MASSACHUSETTS.

The county of Barnstable is a peninsula commonly called the Peninsula of Cape Cod. Its shape is that of a man's arm bent inward both at the elbow and at the wrist. A great part of this peninsula is barren, and in many places wholly destitute of vegetation. The inhabitants derive their support principally from the ocean. Nantucket Island lies south of Cape Cod. It is of a triangular form, 15 miles long, and in its widest part about 11 miles; and is little more than a heap of sand without a tree of native growth upon it—yet it maintains a numerous population distinguished for activity and enterprise. The island affords some pasturage, and cattle and sheep in considerable numbers are raised on it. The climate is much milder than that of the neighboring continent. South-east of this island, out of sight of land, lie the Nantucket Shoals, a dangerous sand-reef about 50 miles long and about 45 miles broad, and which has been the scene of many dreadful shipwrecks. Martha's Vineyard, to the west of Nantucket, is about 21 miles long, and from 2 to 10 miles broad. The soil is for the most part poor, but many sheep and cattle are raised, and the people are much employed as pilots or in the fisheries. There is a spacious harbor on the north side of the island called Holmes's Hole, and vessels bound to the eastward are frequently seen here in great numbers, waiting for a wind to enable them to double Cape Cod. It is calculated that more than 1,000 vessels anchor here in the course of a year. The Elizabeth Islands are sixteen in number, extending in a line from the elbow of Cape Cod Peninsula westward, and forming the south-eastern side of Buzzard's Bay. No Man's Land is a small island south-west of Martha's Vineyard. Plum Island, off the east coast, extends from Newburyport southward to Ipswich. It is 9 miles long and 1 broad, and is separated from the mainland by a narrow sound, over which a bridge has been built. In the season when plums are ripe, this island is the resort of the neighboring inhabitants, and a scene of lively amusement.

The valley of the Connecticut, which, varying in width, extends through the State in a direction north and south, consists, for the most part, of a sandy alluvion. The lower flats are fertile, and produce rich crops of grain. In the vicinity of Hadley in this valley are extensive fields of broom-corn, and the manufacture of this article into brooms absorbs a considerable portion of the labor of the towns in the neighborhood. A portion of this valley is occupied by sandy tracts, which yield light crops of rye and maize. Some of these plains are covered with low pine forests. The valley of the Housatonic extends nearly in the same direction with that of the Connecticut, and consists of alluvial tracts of the same description. The valley of the Hoosic in the north-west consists of an almost uninterrupted succession of intervals, about a mile in width, extremely rich, and ornamented with the liveliest verdure. The waters of this stream are remarkably limpid, and wind their way along this valley through luxuriant meadows and pastures, green to the water's edge, and fringed with willows and other moisture-loving growths.

Every part of the State is well watered; but in general the streams are more useful for agricultural and manufacturing purposes than as channels of communication. The Connecticut crosses the western part of the State from north to south, intersecting the counties of Franklin, Hampshire, and Hampden, and passes into Connecticut. By means of short canals round several falls of the river, it has been made navigable for small vessels through its whole course in this State. Its principal tributaries are the Deerfield and Westfield Rivers from the west, and Miller's and Chicopee Rivers from the east—all of which afford the best of water-power, and at their several falls are scenes of busy industry. The upper waters of the Housatonic lie on the west of the mountains, and flow southward into Connecticut. The Quinnebaug and Blackstone Rivers have also their sources in this State. Charles' River, reaching the sea at Boston, and Taunton River, which falls into Narragansett Bay, are useful mill-streams. The Nashua and Concord Rivers are tributaries of the Merrimac, which last finds the sea at Newburyport, near the northern boundary line. The Merrimac, after entering this State from New Hampshire, has a course east and north-east, and is navigable for sloops to Haverhill, 20 miles from its mouth.

The northern shore of Massachusetts is bold and rocky, and the coast everywhere is deeply indented, and presents several far projecting peninsulas and headlands, forming bays of immense extent. Massachusetts Bay, which gives its name to the State, extends between Cape Ann, which projects sea-ward about 13 miles on the north, and Cape Cod on the south. It is about 70 miles in length, and comprises Boston Bay and Cape Cod Bay. On the southern coast is Buzzard's Bay, about 80 miles in length, and comprising a large number of fine and secure harbors. Boston Harbor is one of the finest in the world—capacious, safe, easy of access, and easily defended; but in the winter season it is often ice-bound. New Bedford on Buzzard's Bay has a fine harbor, and is the greatest whale-ship depot of the Union. The Peninsula of Nahant, a few miles north of Boston Harbor, is connected with the mainland by Lynn Beach, two miles in length, and from its fine open situation, has been a favorite place of resort during the hot season of summer.

Massachusetts is not, as far as yet ascertained, rich in minerals. Iron is found in various parts of the State, and is extensively worked. It appears chiefly in the form of bog ore. Sulphuret of iron, or pyrites, occurs in the central districts, where it is used for the manufacture of copperas; and the plumbago found at Worcester and Stockbridge is used in the manufacture of lead pencils and crucibles. Lead mines exist in the Connecticut valley. The white clay of Martha's Vineyard furnishes alum; and anthracite coal is now obtained in the graywacke district to the west of Taunton River.

It is on its building material, however, that Massachusetts relies for distinction. Granite of excellent quality abounds in Quincy and vicinity, and is extensively quarried and shipped to nearly every Atlantic port, in greater or lesser degree. The Astor House at New York, the front of the Tremont House at Boston, and the Bunker Hill Monument, are built of this stone. Blocks and shafts of almost any dimensions may be obtained. Granite suitable for building is also found at Gloucester, Fall River, Fitchburg, and many other places. Gneiss, nearly answering the same purposes, is found in many parts, and serpentine, suitable for ornamental architecture, exists in Middlefield, West Field, Newbury, etc. Limestone is extensively distributed. Berkshire is renowned for the fine marble it produces, denominated primitive marble. Its prevailing color is white, and some of the varieties admit of a fine polish; more or less is quarried in almost every town of Berkshire. The City Hall in New York, and the Girard College in Philadelphia, are built of marble from this district. Soap-stone, and argillaceous or roofing slate, are found in various parts, and potter's clay, used in the manufacture of common delft, and kaolin, or porcelain clay, are abundant. Peat is found and used as a common fuel in many towns in the eastern part of the State; and what adds to the importance of this article is, that it is frequently situated where wood is scarce.

The climate of Massachusetts, though identical in many respects to that of the three States lying north of it, is not so extreme as that of either. It is very favorable to health, and a large ratio of the inhabitants attain to a good old age. The extremes of temperature are from 20° below zero to 100° above, but such are rare and of short continuance. The season of growth commences earlier than in the more northern States, and the summer is more prolonged. On the eastern and southern shores the summer season is delightfully tempered by the breezes from the ocean.

The Indian population, a small remnant of the once powerful tribes that inhabited Massachusetts prior to the arrival of Europeans in the country, now numbers less than 1,000 souls. With the exception of the Naticks, who are scattered

MASSACHUSETTS.

over the Commonwealth, they all live in separate communities; but few of these are of pure blood, the majority coming under those classes which in South America would be termed Meztizos or Zambos, mixtures of white and Indian, and of black and Indian. The following tribes are enumerated in a report of a commission appointed in 1848 to inquire into the condition of these people:

Names of Tribes.	Number.	Residence.	Occupation.
Chappequidde Tribe	85	Chappequidde Island	Agriculture.
Christiantown	40	N. W. shore of Martha's Vineyard	Agriculture and fishing.
Gay Head	174	Gay Head, W. part of "	Agriculture—also alum manuf.
Marshpee	805	S. W. shore of Cape Cod	Agriculture and navigation.
Herring-Pond	55	Near Plymouth and Sandwich	Agriculture and fishing.
Fall River	37	Fall River Township	Very improvident.
Dudley	48	Town of Webster	Men beg—Women do worse.
Hassanamisco	26	Grafton	Industrious, but have no particular occupation.
Punkapop	10	Canton and Stoughton	
Yarmouth	58	Town of Yarmouth	
Naticks		Scattered over the State, and extinct as a tribe.	

The more industrious of these tribes not only enjoy the necessities of life, but also many of the comforts and even luxuries of civilization. Nearly all live in good houses, most of them decently furnished; and their schools and churches are represented to be in a flourishing condition. Only two of the tribes are represented as degraded. The Indians are not members of the body politic; they pay no taxes, nor do they have a voice in legislation. The State, indeed, allows to each tribe a small annuity for the promotion of their civilization.

Massachusetts is divided into 14 counties, the general statistics of which, and the capitals of each in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms. in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms. in cult.	Manuf. Estab.	Capitals.
Barnstable..	6,582..	35,276..	789..	423..	Barnstable	Hampshire..	5,905..	35,732..	2,965..	819..	Northampton
Berkshire...	8,683..	49,591..	2,897..	387..	Lenox	Middlesex..	23,450..	161,833..	4,345..	1,089..	Concord
Bristol.....	12,134..	76,192..	2,550..	562..	New Bedford						Cambridge
Dukes.....	771..	4,540..	265..	18..	Taunton						Lowell
					Edgartown	Nantucket..	1,285..	8,452..	58..	60..	Nantucket
					Ipswich	Norfolk....	12,545..	78,592..	2,637..	906..	Dedham
Essex.....	18,578..	131,800..	2,816..	1,538..	Newburyport	Plymouth...	9,506..	55,697..	2,447..	511..	Plymouth

Hampden...	9,038..	51,281..	2,616..	889..	Springfield						

The whole number of dwellings in the State was, at the above date, 152,335; of families 192,679, and of inhabitants 994,499, viz.: whites 985,704—males 484,284, and females 501,420, free col. 8,795—males 4,314, and females 4,481.

Of the whole population, there were *deaf and dumb*—wh. 360, fr. col. 4—total 364; *blind*—wh. 490, fr. col. 7—total 497; *insane*—wh. 1,629, fr. col. 18—total 1,647; and *idiotic*—wh. 785, fr. col. 6—total 791. The number of free persons born in the United States was 890,066; the number of foreign birth 160,909, and of birth unknown 8,589. The *native* population originated as follows: Maine 29,507, N. Hamp. 89,592, Verm. 17,646, *Massachusetts* 695,236, R. I. 11,414, Conn. 15,602, N. York 14,483, N. Jer. 773, Penn. 1,831, Del. 90, Md. 744, Dist. of Col. 196, Virg. 798, N. Car. 196, S. Car. 224, Ga. 237, Flor. 32, Ala. 71, Miss. 84, La. 179, Tex. 10, Ark. 10, Tenn. 25, Ky. 75, Ohio 593, Mich. 122, Ind. 60, Ill. 165, Mo. 53, Ia. 12, Wisc. 32, Calif. 7, Territories 9; and the *foreign* population was composed of persons from—England 16,685, Ireland 115,917, Scotland 4,469, Wales 214, Germany 4,319, France 805, Spain 173, Portugal 200, Belgium 86, Holland 138, Turkey 14, Italy 196, Austria 10, Switzerland 72, Russia 33, Denmark 181, Norway 69, Sweden 263, Prussia 98, Sardinia 1, Greece 23, China 2, Asia 31, Africa 27, British America 15,562, Mexico 32, Central America 7, South America 84, West Indies 303, Sandwich Islands 51, and other countries 466.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790.....	373,254	5,468	—	5,468	373,717	—	—
1800.....	416,793	6,452	—	6,452	423,245	44,528	11.7
1810.....	465,303	6,737	—	6,737	472,040	48,795	11.5
1820.....	516,419	6,868	—	6,868	523,287	51,247	10.8
1830.....	603,359	7,048	1	7,049	610,408	87,121	16.6
1840.....	729,030	8,669	—	8,669	737,699	127,291	20.8
1850.....	985,704	8,795	—	8,795	994,499	256,800	34.8

The statistical returns of the wealth, industry, products, and institutions of the State, according to the census of 1850 and other official documents referring to the same period of time, are as follows:

Occupied Lands, &c.—Improved farm lands, 2,133,436 acres, and unimproved lands, 1,222,576 acres—valued in cash at \$109,076,347. The whole number of farms under cultivation, 34,235. Value of farming implements and machinery, \$3,209,584.

Live-Stock.—Horses, 42,216; asses and mules, 34; milch cows, 130,099; working oxen, 46,611; other cattle, 38,284; sheep, 188,651; and swine, 81,119—valued in the aggregate at \$9,647,710. The number of animals of these descriptions in 1840 was—horses, mules, &c., 61,484; neat cattle of all kinds, 232,574; sheep, 373,226; and swine, 143,221. These comparative figures show an enormous falling off in every description of live-stock.

Products of Animals.—Wool, 585,136 (in 1840, 941,906) pounds; butter, 8,071,370 pounds; cheese, 7,088,142 pounds and the value of animals slaughtered during the year, \$2,500,924. Silk cocoons were produced to the amount of 7 (in 1840, 1,741) pounds; and beeswax and honey, to that of 59,508 pounds.

Grain Crops.—Wheat, 31,211 bushels; rye, 481,021 bushels; Indian corn, 2,845,490 bushels; oats, 1,165,106 bushels;

MASSACHUSETTS.

barley, 112,835 bushels; and buckwheat, 106,095 bushels. In 1839-40 these crops yielded as follows: wheat, 157,923 bushels; barley, 165,819 bushels; oats, 1,319,680 bushels; rye, 536,014 bushels; buckwheat, 87,000 bushels; and Indian corn, 1,809,192 bushels.

Other Food Crops.—Peas and beans, 43,709 bushels; potatoes, Irish, 3,585,884 bushels. In 1839-40 the potato crop amounted to 5,885,652 bushels.

Miscellaneous Crops.—Tobacco, 138,246 (in 1840, 64,955) pounds; hay, 651,807 tons; clover-seed, 1,002 bushels; other grass-seed, 5,085 bushels; hops, 121,595 pounds (in 1840, 254,795) pounds; flax, 1,162 pounds; flax-seed, 72 bushels; maple sugar, 795,525 pounds; molasses, 4,693 gallons; wine, 4,688 (in 1840, 193) gallons, etc. Value of orchard products, \$463,995, and of market-garden products, \$600,020.

Home-made manufactures for the year ending 1st June, 1850, were produced to the value of \$205,833. The same class of productions, according to the census of 1840, were valued at \$231,942.

Manufactures.—Aggregate capital invested, \$300,000,000; value of raw material, fuel, etc., \$300,000,000; average number of hands employed, 600,000—males 00,000, and females 00,000; average monthly cost of labor, \$300,000—male \$300,000, and female \$300,000; total value of products for the year ending 1st June, 1850, \$300,000,000. The whole number of industrial establishments producing to the value of \$500 and upward, annually, was, at the date referred to, 9,637; and of these 218 were cotton factories; 119 woolen factories, 248 tanneries, and 80 iron manufactories—68 for castings, 6 for pig iron, and 6 for wrought iron.

The *cotton manufactures* employ a capital of \$23,455,630; value of raw material, fuel, etc., \$11,239,309; and value of entire products \$19,712,461; cotton consumed 223,607 bales; coal 46,545 tons; and products—sheeting, etc., 298,751,392 yards, and yarn 353,660 pounds. The number of hands employed is—males 9,293, and females 19,437; and the monthly cost of labor—male \$212,592, and female \$264,514; average monthly wages—to males \$23 01, and to females \$13 55.

The capital invested in the *woolen manufactures* was \$9,089,342; value of all raw material, etc. \$8,671,671, and value of entire products for the year \$12,770,565. Wool consumed 22,923,952 pounds; coal 15,440 tons; and products 25,865,658 yards of cloth, etc., and 749,555 pounds of yarn. Average hands employed—males 6,167, and females 4,963; monthly cost of labor—male \$141,538, and female \$70,581; average wages—to males \$22 95, and to females \$14 22 per month.

The *tanneries* employ a capital of \$1,377,725; value of hides, skins, etc. \$2,311,173; value of products \$3,519,123. Skins tanned 293,000, and sides tanned 1,500,440; hands employed—males 1,510, and females 32; monthly cost of labor—male \$41,245, and female \$360.

The *iron manufactures*, in extent and value, according to the returns of 1850, were as follows:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars....	469,000.....	1,499,050.....	610,300.....	2,578,350

Value of entire products.....dollars.....	295,123.....	2,285,635.....	428,320.....	2,959,078

The above exhibited manufactures, comprising what may with propriety be termed national manufactures, compose but a moiety of the aggregate industrial establishments within the State. Besides these there are in the State immense interests in the manufacture of shoes and boots, carpeting, sperm candles and oil, soap, carriages and cars, cabinet-ware, copper-ware, cordage, cutlery, engines and boilers, fire-arms, glass, glue, hats and caps, hollow-ware, etc., hosiery, lead paints, linen thread, lumber and shingles, machinery, musical instruments, paper, powder, ploughs, etc., saddlery, etc., snuff, tobacco, etc., building stone, straw hats, etc., sugar, tin-ware, tools, upholstery, wooden-ware, etc., and a large number of minor, but still profitable manufactures. Massachusetts, indeed, is the great manufacturing State of the Union, and in reference to its extent and population, has no superior. It manufactures at least one sixth of the aggregate articles produced in the workshops of the United States. The products of its cotton-mills constitute one-third of the whole of that staple, and its woolen manufactures are equally preponderant.

Commerce, Navigation, etc.—Massachusetts, in the year ending 30th June, 1850, exported to foreign countries to the value of \$10,631,763, and imported to that of \$30,374,684. Of the *exports*, \$8,253,473 was the value of domestic produce—in American vessels \$7,000,103, and in foreign vessels \$1,253,370, and \$2,428,290 the value of foreign produce—in American vessels \$1,898,497, and in foreign vessels \$529,793; and of the *imports* \$22,106,011 in American vessels, and \$8,268,673 in foreign vessels. The entrances and clearances in the same year were as follows:

ENTRANCES.				CLEARANCES.

MASSACHUSETTS.

The total shipping owned in the State at the date referred to amounted to 634,442 tons; registered—permanent 411,973 tons, and temporary 61,850 tons; enrolled and licensed—permanent 208,767 tons; and licensed (under 20 tons)—in the coasting trade 1,821 tons, and in the cod fisheries 1,748 tons. Of the registered shipping 122,676 tons were engaged in the whale fishery, and the enrolled and licensed tonnage was employed—in the coasting trade 115,546 tons, in the cod fishery 40,003 tons, and the mackerel fishery 42,895 tons; and 7,908 tons were navigated by steam-power. The tonnage of the several districts was—Newburyport 23,262 tons, Ipswich 578 tons, Gloucester 22,474 tons, Salem 23,916 tons, Beverley 3,173 tons, Marblehead 6,842 tons, Boston 320,687 tons, Plymouth 10,722 tons, Fall River 13,102 tons, New Bedford 127,960 tons, Barnstable 91,102 tons, Edgartown 7,609 tons, and Nantucket 29,013 tons.

The shipping built in the State during the year amounted to 121 vessels of all kinds—51 ships, 19 brigs, 46 schooners, 3 sloops, and 2 steamers—of an aggregate burden of 85,836 tons; and of the whole number 10 (4,657 tons) were built at Newburyport, 26 (1,996 tons) at Gloucester, 1 (298 tons) at Salem, 8 (817 tons) at Marblehead, 43 (23,480 tons) at Boston, 5 (579 tons) at Plymouth, 5 (1,254 tons) at Fall River, 4 (781 tons) at New Bedford, 23 (1,864 tons) at Barnstable, and 1 (109 tons) at Edgartown. The statistics of the foreign commerce of the State for a series of years—1791 to 1850—exhibit the following movements in the value of exports and imports:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791	\$2,519,651 ...	\$ ———	1811	\$11,235,465 ...	\$ ———	1831	\$7,738,763 ...	\$14,269,056

Internal Improvements.—In proportion to surface no other State of the Union is so thoroughly supplied with railroads and other means of communication as Massachusetts. It was the first State to adopt the railroad, and it has ever since maintained a pre-eminence in respect of railroads, and at the present time the several lines extend in every direction, forming a net-work of iron bands. The principal lines are those extending from Boston and Worcester toward Maine and New Hampshire, passing through the great manufacturing towns of the north-east section, and those extending southward from those centres to the Atlantic and Long Island Sound. Two great lines also extend through the length of the State from Boston *via* Worcester to Albany, and from Boston *via* Greenfield to Troy on the Hudson River, both forming links in the chains toward the great lakes and the far West. The total length of railroad in the State in 1853 was 1,261 miles, or about 1 mile of road to every 6½ miles of surface. Massachusetts has also several canals, as the Blackstone Canal, from Worcester to Providence, 45 miles long; the Middlesex Canal, from Boston to the Merrimac River, 27 miles long; the Hampshire and Hampden Canal, 22 miles long, and several short canals and river improvements for the purpose of overcoming falls and rapids in the rivers. The canals in this State, however, are at the present time little used as means of commercial intercourse, but in some instances their waters are valuable for manufacturing purposes.

Banks and Savings Institutions.—In 1851 there was a total of 130 banking institutions in Massachusetts, of which 30 were in Boston and 100 in other parts of the State. The following exhibits their condition in the aggregate in that year:

Liabilities.	Boston Banks.	Other Banks.	Total.	Resources.	Boston Banks.	Other Banks.	Total.
Capital.....	\$21,760,000	\$16,505,000	\$38,265,000	Specie.....	\$1,817,383	\$661,471	\$2,478,859

“ —less than \$5...	1,001,363	2,923,140	3,929,503	Bills of other banks in State	5,302,591	535,245	5,837,836
Net profits on hand.....	2,465,373	1,359,235	8,524,608	“ “ “ “ elsewhere	344,840	53,111	397,951
Due other banks.....	6,787,143	214,773	7,001,921	Due from other banks...	3,223,354	8,326,379	6,550,238
Deposits without interest	8,796,575	4,173,200	12,969,775	Notes, bills of exchange,			
“ at interest.....	601,317	263,811	870,128	and all other stock...	36,811,525	29,529,533	66,341,110
Total.....	\$48,090,092	\$34,587,559	\$82,627,651	Total.....	\$48,090,092	\$34,514,109	\$82,604,202

Average dividends of 30 Boston banks in October, 1850, was a fraction over 3.4 per cent.—in April, 1851, it was a fraction over 3.9 per cent.; average dividends of 100 other banks in October, 1850, a fraction over 3.39 per cent., and in April, 1851, a fraction over 3.7 per cent.

In 45 savings institutions that made returns there were 86,537 depositors, and \$15,554,088 deposits securely invested. The average dividends for the year was 4.73 per cent. The whole expense of managing these institutions has been \$43,707 during the year.

Government.—The constitution of this State was framed in 1780, amended in 1821, and since that period has undergone several modifications. According to its provisions every male citizen, of the age and upward of 21 years, paupers and persons under guardianship excepted, resident the last past year in the State, and the last past six months at the place of voting, and who, unless exempt from taxation, shall have paid any state or county tax within the last two years, enjoys the right of voting at all popular elections. The general election is held on the second Monday in November annually.

MASSACHUSETTS.

The *legislative* authority is vested in a General Court, consisting of a Senate and House of Representatives. The representatives, at present 299 in number, are chosen by towns in ratio of their population. "Every town containing 1,200 inhabitants may elect one, and an additional representative for every 2,400 above that number; and every town of less than 1,200 inhabitants may elect a representative as many times within 10 years as 160 is contained in 1,200; and every two or more towns may unite and form a representative district; and all these numbers shall be raised one-tenth when the population of the State shall be 770,000, and at the same rate for every increase of 70,000 thereafter." Representatives must be residents for the last past year of the towns which return them. The Senate consists of 40 members, elected from districts of equal population, but no county is divided in the apportionment, and Nantucket and Duke's counties have only one senator conjointly. The Legislature meets annually on the first Wednesday in January. For the purpose of settling the ratio of representation and the senatorial districts a census is taken every ten years.

The chief *executive* power is vested in a Governor, and a Lieutenant-governor is elected with the same qualifications and in the same manner as the governor, *viz.*, annually by a majority of votes. He must have resided in the State for the last past seven years, and be seized of a freehold of \$1,000 value. If there be no choice by the people, the representatives choose two of the four candidates, if so many there be, having the highest number of votes, and of which two the Senate chooses one for governor. The governor can veto any bill of the general court, but two-thirds of the members thereof afterward voting in favor of such negative bill it becomes law nevertheless. The governor is advised and assisted in his duties by an Executive Council, of which the lieutenant-governor is *ex-officio* a member, and which is chosen annually by joint ballot of the legislature. The lieutenant-governor, in case of a vacancy occurring in the office of governor, exercises the chief executive powers, and both failing, the same is exercised by the council. The Secretary of State and Treasurer are chosen in like manner.

The *Judiciary* consists of a Supreme Court, Courts of Common Pleas, Probate Courts, etc. The supreme court has a chief justice and four other justices, who are appointed by the governor and council, and hold office during good behavior. It has exclusive cognizance of all capital crimes, and exclusive chancery jurisdiction, and concurrent original jurisdiction in all civil cases where the amount in dispute exceeds \$600 in Suffolk and \$800 in the other counties. It holds law terms in eight of the fourteen counties, and *visi prius* terms in all the counties. The court of common pleas is held for the trial of civil cases above \$20, and, except in Suffolk County, has criminal jurisdiction in all cases not capital. There are six judges, one of whom is chief judge, and frequent terms are held in each county. In Suffolk criminal jurisdiction is exercised by the municipal court. Trial justices and justices of the peace exercise local civil and criminal jurisdiction in cases of minor importance. A court of insolvency is held in each county on the first Tuesday of each month before special commissioners, and a probate court, consisting of a judge and register, is established at each county seat. Permanent and honorable salaries are provided for all judicial officers.

The *State militia* of Massachusetts in 1850, according to the returns of the Adjutant-general, consisted of 119,690 men of all arms, of which number 549 were commissioned officers, and 119,141 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 10 are general officers, 85 general staff officers, 112 field officers, etc., and 892 company officers. The *enrolled militia* consists of all able-bodied white male citizens of the age of 18 years, and under that of 45 years, and the *active militia* consists of volunteers who have a per diem allowance when on duty. The latter are comprised in three divisions and six brigades, embracing two division corps of cadets, one troop of cavalry, four regiments, one battalion, and one company "annexed" of artillery, and nine regiments of light infantry.

Among a large number of *benevolent institutions* for the relief of the unfortunate which exist in Massachusetts, the following are conspicuous for their extent and efficiency: The State Lunatic Asylum at Worcester, founded in 1833; the Massachusetts General Hospital, at Boston, incorporated in 1811; Perkins Institution, or Massachusetts Asylum for the Blind, at Boston, instituted in 1831; the Boston Lying-in Hospital, instituted in 1832; the U. S. Marine Hospital, at Chelsea; the Lowell Hospital; and the McLean Asylum for the Insane, at Somerville, a department of the General Hospital. The Asylum at Worcester is one of the best institutions of the kind anywhere established. On the 1st December, 1849, the number of inmates was 429—220 males and 209 females; admitted during the year 241—129 males and 112 females; remaining in the Hospital, 80th November, 1850, 441—228 males and 213 females, and of this number 169 were foreigners. Of those admitted during the year 194 were committed by the courts, 16 by the overseers, and 81 were private boarders; and of the number discharged, 125 were recovered, 15 improved, 28 incurable and harmless, 4 incurable and dangerous, and 57 died. Total means of the institution for the year, \$62,470; expenditures, \$46,776. The average annual expense of each patient, for the 18 years the hospital has been in operation, is \$118 75. Besides the institutions above named, there is a School for Idiots, at Newton, and an Eye and Ear Infirmary, at Boston. The deaf and dumb of the State are provided for in the American Asylum, at Hartford. In 1850, the sums appropriated by the legislature for the support of unfortunates were as follows: Asylum for the Blind, \$14,000; Asylum for the Deaf and Dumb, \$3,206; Eye and Ear Infirmary, \$7,000; State Lunatic Asylum, \$3,200; School for Idiots, \$2,500, etc.

Finances, Debt, etc.—The ordinary revenue received into the public treasury, during the year ending 1st January, 1851, amounted to \$492,810 64, and all other receipts (including \$495,600 temporary loans), to \$983,960 83—total receipts, \$1,481,761 02; to which add cash on hand, 1st January, 1850, \$68,558 83, and the *total means* of the treasury is exhibited at \$1,540,319 40. Ordinary expenditure, \$566,055 54; expenditure on other accounts (including \$495,600 loans repaid), \$850,225 25—*total expenditures*, \$1,416,280 79. Excess of expenditures on account of ordinary revenue, \$73,244 90; excess of receipts on other accounts, \$183,725 18; and excess of aggregate receipts, \$65,480 23, or, including the cash on hand at the commencement of the year, \$124,038 61, of which sum \$3,809 22 is on account of ordinary revenue, and \$118,229 39 on all other interests.

The public debt of Massachusetts on its own account, on the 1st January, 1851, was \$1,210,375; liability for scrip loaned to the various railroads, \$5,049,555 56—total absolute and contingent debt, \$6,259,930 56. The value of all property belonging to the commonwealth, at that date, was \$10,886,337 45. Excess of resources over liabilities, \$4,126,426 89. The total value of personal and real estate assessed for taxation, in 1850, was \$546,003,067; but the estimate, or true valuation, according to the census of that year, was \$573,342,236.

Federal Representation.—Massachusetts, in pursuance of the provisions of the Act of Congress, 23d May, 1850, is entitled to send *eleven* representatives to the National Legislature.

Education.—According to the school report of 1850, the towns raised by taxation for school purposes \$864,667, and besides this, \$8,714, income of the "surplus revenue," was so appropriated—total, \$873,382, to which must also be added \$34,704, contributed as board and fuel. Amount of school fund, 1st December, 1850, \$958,921, of which only \$740,361 was productive, and yielded \$40,000 for distribution among the towns. The whole number of children in the State, from 5 to

MASSACHUSETTS.

15 years old, was 193,332—the number under 5 years attending school was 17,782, and over 15 years, 18,203. Number of public schools, 3,873, taught by 8,427 teachers—males 2,442, and females 5,985. Average scholars in winter schools, 194,403; and in summer schools, 176,844. Average monthly wages, inclusive of board to males, \$34 89, and to females \$14 42.

There were, at the date above referred to, 67 incorporated academies in this State, with 8,717 pupils, and an aggregate expenditure of \$57,444 for tuition; also, 845 unincorporated academies, private schools, etc., with 19,534 scholars, and an aggregate income for teaching of \$261,241. There are also local funds (endowments) for the support of academies, etc., to the amount of \$354,620, yielding an income of \$21,584. Value of school libraries \$42,707, and of apparatus \$23,826. The value of public school-houses, in 1848, was \$2,750,000, of which \$2,200,000 had been expended since 1838; probably in 1850 the value would not fall short of *three millions*. There are three normal schools supported by the State at an annual cost of \$6,500—one at Westfield, one at West Newton, and one at Bridgewater—averaging annually, in all, 225 pupils.

Massachusetts has four celebrated colleges: Harvard University, at Cambridge, founded 1638; William's College, at Williamstown, founded 1793; Amherst College, founded 1821; and College of the Holy Cross (catholic), founded 1843. There is also a Theological Seminary, at Andover, founded 1807, and the Newton Theological Institution, at Newton, founded 1825. Phillip's Academy, incorporated 1780, and located at Andover, stands first among the academic institutions of the State. Harvard University is generally considered as the best collegiate institution in the United States, and certainly is the best endowed. It has Divinity, Law, and Medical departments, and the Lawrence Scientific School, lately endowed by Hon. Abbot Lawrence, is also a department. Its libraries contain 54,200 volumes. In the college department proper, in 1850, there were 20 professors, 293 students, and 6,342 alumni; in the Law School, 3 professors and 98 students; in the Divinity School, 2 professors and 23 students; and in the Medical School, 6 professors, 117 students, and 575 graduates. There is also the Berkshire Medical School, at Pittsfield, founded in 1823, which, in 1850, had 5 professors, 108 students, and 473 graduates. William's College had 8 professors, 1,317 alumni, 179 students, and a library of 13,751 volumes. Amherst College had 12 professors, 963 alumni, 182 students, and a library of 14,000 volumes; and this college has recently added a scientific department to its foundation. Holy Cross College had 14 professors, 120 students, and a library of 4,220 volumes—this last institution, however, has been destroyed by fire, and at present its collegiate exercises are suspended.

Public Libraries.—One State library, 7,400 volumes; 23 social libraries, 126,269 volumes; 4 college libraries, 71,693 volumes; 15 students' libraries, 28,785 volumes; 9 libraries of academies and professional schools, 45,450 volumes; 10 libraries of scientific and historical societies, 44,572 volumes; 700 public school libraries, 91,639 volumes—total, 762 libraries, and 415,658 volumes.

Periodical Press.—The whole number of periodicals and newspapers published in Massachusetts, in 1850, was 209, of which 70 were devoted to politics—46 whig, and 24 democratic in opinion; and 139 were devoted to literature, religion, science, etc., including all the character of which is not specially denoted in the returns; and of the whole number, 22 were published daily, 4 tri-weekly, 11 semi-weekly, 125 weekly, 3 semi-monthly, 29 monthly, and 7 quarterly. The total circulation of the dailies at each issue was 133,083 copies, of the tri-weeklies 3,000 copies, of the semi-weeklies 19,904 copies, of the weeklies 389,102 copies, of the semi-monthlies 2,570 copies, of the monthlies 113,100 copies, and of the quarterlies 6,000 copies. Boston is one of the principal literary cities of the Union, and many of its publications are favorably known throughout the world; and in many other towns the periodical issues are conducted with great talent.

Religious Denominations.—In the table underneath will be found the statistics of the several religious denominations, as returned in the census of 1850:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist.	262	114,140	\$1,460,350	Germ'n Ref.	—	—	\$ —	R. Catholic . 36 ..	30,315	..	\$477,500
Christian... ..	29	11,200	84,250	Jewish	1	200	1,200	Swedenb'g . 3 ..	1,840	..	66,000

Free	3	1,000	11,750	Moravian... ..	—	—	—	Universalist.117 ..	49,364	..	643,575
Friends	37	13,823	108,600	Presbyter'n. 15 ..	7,785	..	82,500	Minor Sects 11 ..	3,880	..	17,450

—making a total of 1,430 churches, having accommodation for 682,908 persons, and valued as property at \$10,205,284. Massachusetts constitutes a diocese of the Protestant Episcopal Church, and is a portion of the Roman Catholic diocese of Boston, province of New York.

Pauperism and Crime.—The number of persons relieved or supported as paupers, in 1850, was 25,951, of whom 7,900 were town paupers, and 16,058 State paupers; and of these State paupers 12,334 were foreigners. There were in the State 204 alms-houses, with 20,654 acres attached, the whole valued at \$1,255,125. Number relieved in the alms-houses 12,547, (the average being 4,825), of whom 6,429 were unable to labor. Number relieved out of alms-house, 13,757. Average weekly cost of each pauper—in the alms-house \$1 08, and out-doors \$0 98. Net expenses of alms-houses, including interest, \$467,959. Estimated value of pauper labor in alms-houses, \$17,966. And the report shows that 1,391 foreign paupers had come into the State during the year; that 676 insane persons and 390 idiots had been relieved or supported, and that 969 are paupers by reason of insanity or idiocy, and it is probable that 14,674 were made paupers by intemperance in themselves or others.

There were in the State prison at Charlestown, on the 1st October, 1849, 349 convicts, and 221 were received during the year immediately following, and 180 were discharged. The number in prison, on the 30th September, 1850, was 440, of which 373 were committed for offenses against property, and 67 for offenses against the person. Sentences—for life 21, for 35 years 1, for 30 years 1, for 20 years 1, for 15 years 3, for terms below 18 and above 2 years 270, and for two years or less 143; and 161 were natives of Massachusetts, 143 of other States, and 186 foreigners. Average number of convicts for the year, 411. The expenses of maintenance, etc., was \$45,261, and the proceeds of convict labor \$45,817.

At Westboro' there is a State reform school for juvenile delinquents. On the 1st December, 1849, there were 310 inmates; received during the year 106, and discharged 94; leaving 324 inmates on the 30th November, 1850. All the boys are employed, during a portion of the day, at some mechanical, agricultural, or domestic labor; they do their own washing, ironing, and cooking, and make and mend their own clothes. Each day, 4 hours are devoted to school, 6 to labor, 3½ to sleep, and 5½ to recreation and miscellaneous duties. The buildings can accommodate 350 boys. The boys are healthy, and but four deaths had occurred during the year.

MASSACHUSETTS.

The jails and houses of correction, in 1849-50, received 10,661 prisoners, and 1,112 remained in confinement on the 11th November, 1850. Of the whole number, 9,180 were males, and 1,481 females—1,619 minors, 535 colored, 3,583 able to read and write, 23 insane, 1,546 natives of Massachusetts, 582 natives of other States, 5,854 foreigners, 2,429 nativity not known. Average cost of board for each prisoner, per week, \$1 66. Total expense for the year, \$102,271. Estimated value of labor in houses of correction, \$22,312.

Historical Sketch.—The first accurate account of the country now called New England, was furnished by Bartholomew Gosnold, who, sailing from England in 1602 in a course nearly west, discovered a promontory which he called Cape Cod. Navigating the coast southwest, he touched at various points and examined the country. On his return, he gave so favorable an account of its climate and soil, as at once to revive the slumbering spirit of adventure and colonization. By the exertions of Hackluyt, a man of science and learning, two companies were formed in 1606—the first consisting of adventurers chiefly of London, and the other of merchants of Plymouth and Bristol. The former settled Virginia, and the latter the provinces of New England. The Plymouth company was unfortunate in its first attempts. In 1607, a party of about one hundred persons were landed, but these, discouraged, returned the ensuing year, and no further attempts were made for some time afterward. Religious fervor, however, effected what commercial enterprises had failed to accomplish. In 1620, a congregation of English puritans, whom oppression had driven to Holland, obtained from the London company grants of land within their patent, and (in number 102) sailed from Plymouth for the river Hudson, on the banks of which they had intended to have formed settlements. They were carried further north, however, and landed near Cape Cod. Their first care was now to form a civil government. They chose a governor, and to aid him an assistant, but the number of assistants was afterward increased to seven. The supreme power resided with the whole people, and it was not until 1639 that they established a representative body. In imitation of the primitive Christians they threw all their property into common stock, but experience soon taught them the impracticability of such a system. In 1630, they obtained from the Plymouth company a grant of the land on which they had settled. These original colonists are now known by the title of the "Pilgrim Fathers," and the anniversary of their arrival is still religiously observed by their descendants.

Although many detached parties were constantly arriving, the settlement progressed slowly. The first permanent town erected was Salem, and afterward Charlestown was built. A fresh spring, however, was given to the exertions of the Plymouth company in 1628, in which year it received a new patent, and its powers, which had previously been exercised in England, were now removed to America. Emigration hence became considerable; in July, 1630, seventeen ships arrived at Salem with 1,500 persons, by some of whom Boston was founded. The early years of the colonies were passed under a complication of troubles—the French and Indians hovered around them, and the policy of the people was distasteful to the Stuart dynasty. In 1635 Charles I. appointed commissioners, with absolute powers "to make laws and constitutions concerning either the State, public, or the utility of individuals." Two years afterward he forbade the emigration of all non-conformists, and in 1638 a *quo warranto* was issued, upon which judgment was given against the colonists without affording them a hearing. The state of affairs at home, however, prevented any further prosecution of these designs on the part of the king.

The political axiom of the times was, that the peace of the State depended upon the unity of religious opinion, and it was mainly the enforcement of this axiom that led to the persecution of dissenting sects by the established government. The experience of their own sufferings in England, from religious persecution, unfortunately taught the colonists no lesson of toleration. Scarcely had they organized themselves, than they began to put in practice a similar mode of compelling uniformity to that pursued by their own persecutors, and all not professing the peculiar views of the puritan government, then in vogue, were excluded from its protection. In 1635 the famous dispute arose respecting the *covenant of grace* and the *covenant of works*, and those who espoused the side of the latter being the most numerous, resorted to the accepted and ancient mode of glorifying God by persecuting their opponents. The leaders of the Antinomian party were banished, and thus contributed to the settlement of Rhode Island, which had been begun the year previous by Roger Williams and a party exiled for a similar cause.

The downfall of monarchy in England checked the progress of emigration, by securing protection to the puritans at home, but was, in many other respects, advantageous to the colonies. Their civil liberties were safer, and some extraordinary privileges were granted to their commerce. The prospects of hostilities with the Indians, however, compelled Massachusetts, Plymouth, Connecticut, and New Haven to form a defensive confederation. On the Restoration Massachusetts was found to have increased in importance to such a degree, that the anxiety of the king was naturally awakened, lest an impression should be made in favor of the superior advantages of democratic institutions, and accordingly coercive measures were adopted by the crown, and commissioners were appointed to superintend affairs. The navigation laws were enforced, and the destruction of the colonial charters resolved upon, but death marred the execution of the project by Charles II. His successor James was equally hostile to freedom. He determined to unite all the provinces of New England into one government under a president and council, and found a fit agent for his purpose in Sir Edmund Andross. After dissolving the charter governments of Connecticut and Rhode Island, the president proceeded to Massachusetts, where he compelled a temporary submission. Remonstrances were in vain. The infatuated monarch was determined to crush the spirit of freedom in both hemispheres, and in furtherance of his designs, annexed New York and New Jersey to the Union already formed. The government of Andross expired with that of his royal master, and the former order of things was immediately restored.

The people of Massachusetts, however, derived no great advantages from the Revolution. They petitioned for the legal restoration of their charter, which the judges of Charles II. had declared to be forfeited, but they found to their dissatisfaction that they were not to expect the same liberal provisions as before. The king was to appoint the governor, and by him the assembly was to be called, prorogued, and dissolved, and by him all officers were to be appointed. By the new charter Plymouth was now finally united to Massachusetts. Notwithstanding its objectionable provisions, the new government went into operation without any interference on the part of the people, and this may not seem extraordinary when it is considered that the right of voting, which hitherto had been confined to church members, was now extended to all freeholders.

Almost the first act of the governor and counsel, on their coming into office, was the institution of a court to try the unfortunate victims of popular delusion accused of witchcraft at Salem. This delusion took possession of the minds of all, and so firmly convinced were the magistrates that the Prince of Darkness was in their midst, using human instruments to accomplish his purposes, that the slightest testimony was deemed sufficient to justify a committal for trial. Many were tried, and received sentence of death. The jails were full of the accused, and, alas! before the spell of infatuation was

broken, which was not before the rich and influential became involved by accusations, no less than twenty unfortunates had undergone the penalty of the law!

The war with the French and Indians, which began in 1690, was not yet terminated. For seven years the frontiers were ravaged. Peace between England and France, which was concluded in 1697, was soon followed by peace with the savages. When war again broke out in Europe, in 1707, Massachusetts again joined in arms with the mother country, and contributed largely in money and men. While thus supporting the wars undertaken by England, however, the assembly did not forget its own rights, and was warmly engaged in contests with the royal governor. Every session presented a scene of altercation, and public business was with difficulty transacted, through the determination of the representatives not to give a fixed salary to their governor, which the latter was resolved to obtain.

War again broke out between France and England in 1745, and an expedition against Louisburg was projected in Massachusetts. A powerful armament was prepared principally by this province, and the command given to Colonel Pepperell, a rich merchant of Boston. The fort was taken, but at the subsequent peace Louisburg was restored to the French, a proceeding which caused great discontent in Massachusetts. In the war which ended in the subjugation of Canada, Massachusetts surpassed her former exertions in supporting the arms of England. In the year 1757 she had 9,000 men in the field, and maintained this number until the return of peace in 1763.

The extraordinary expenses of this war led to the imposition of internal taxes on the very colonies which had expended so much blood and treasure in their support. Massachusetts was the first to remonstrate against, and the most strenuous to oppose, this injustice. At the recommendation of her court it was that the first continental congress was convened. When, after the repeal of the stamp act, the duty on tea was attempted to be imposed, the earliest popular movements appeared at Boston. The attempts of the British ministry to enforce obedience only strengthened the cause of the colonists, and the flame of war which broke out in Massachusetts gradually extended itself over the whole Anglo-American possessions. Massachusetts was, in the early part of the contest, the theatre of hostilities, by which she suffered much, while she contributed greatly by her exertions to the successful issue of the conflict.

The extreme pressure of the taxes consequent on these exertions led to serious discontent among the people after the peace of 1788. The government was feebly administered, and at length, in 1786, an open insurrection took place in the western counties. The insurgents, under a popular leader, named Shays, committed great excesses, and all order for a time was suspended. They were at length overcome by General Sheppard, and their leaders driven out of the State.

Massachusetts ratified the federal constitution on the 6th February, 1788.

The policy of the State, during the war of 1812, was in opposition to that of the general government. Her political weight had always been cast in the scale of the federal party. The whole people were vehemently opposed to the war, and her governors refused to place the State militia under the control of their political opponents. From this period to the Convention at Hartford, in which Massachusetts took an active part, the acts of her party leaders uniformly tended to embarrass the government. Massachusetts suffered somewhat in her commerce during the latter part of the war, but except in the occupation of a part of the then district of Maine by British forces, experienced little injury from the contest. It was during the wars which succeeded the French Revolution, and this war, that the manufacturing interests of Massachusetts took root, and obtained a permanent stability.

Maine hitherto had been attached to Massachusetts, but in 1820 this connection was dissolved by mutual consent, and the former was admitted as an independent State of the United States.

Boston, on Massachusetts Bay, is the political capital of the State.

MASSAC county, *Ill.* Situate in the extreme S., and contains 234 sq. m. Ohio r. is its S. boundary, and in the N. is the Pond Slough, a line of ponds and marshes, with islands of rich land between, but it has no considerable streams. On the Ohio is a tract of dry barrens, and further N. much excellent land. Corn is the staple product. Tobacco is raised, and beef and pork are exported. Farms 885; manuf. 11; dwell. 704, and pop.—wh. 4,070, fr. col. 22—total 4,092. *Capital*: Metropolis.

MASSANUTTON, p. o., Page co., *Virg.*: 97 m. N. N. W. Richmond. Near it is a beautiful sheet of water on Massanutton Mountain, which has an unbroken fall of near 50 feet, below which the water flows in a deep chasm of limestone rock with banks nearly perpendicular. The fall presents a beautiful spectacle.

MASSENA, t. and p. v., St. Lawrence co., *N. Y.*: 165 m. N. by W. Albany. Drained by Rackett and Grass r., flowing into the St. Lawrence, the latter bounding it on the N. Surface pleasantly diversified: soil rich and fertile, producing grass and grains. There is an extensive sulphur spring near Rackett r., which evolves large quantities of sulphureted hydrogen gas, and contains carbonates of soda, lime, magnesia, and sulphur. There is extensive water-power here which is improved, and moves several large mills. The v. contains several mills, workshops, and stores, and about 400 inhabitants. Pop. of t. 2,915.

MASSY'S CROSS ROADS, p. o., Kent co., *Md.*: 45 m. N. E. Annapolis.

MASSILON, p. v., Stark co., *Ohio*: on the left bank of Tuscarawas r., 93 m. N. E. Columbus. At this point also the Ohio Canal and the Ohio and Pennsylvania R. R. intersect, furnishing avenues of travel and transportation in every direction. Massilon was founded in 1826—in 1840 it contain-

ed 1,422 inhabitants, and in 1850 upward of 3,500 inhabitants. It is one of the most flourishing interior towns of the State, and is the depot of a rich and extensive agricultural vicinity. It has been called, and not inaptly, the "wheat city," its trade in that staple being enormous. The v. is neatly and substantially built, and many of the dwellings and warehouses are of stone, which is abundant in the neighborhood, and the bridge over the Tuscarawas is also an elegant stone structure. The manufactures of Massilon are in a flourishing condition, and comprise a considerable variety of handicrafts—iron-ware and flour being the principal products. Bituminous coal of an excellent quality is abundant, and has been mined for several years. The aggregate exports and imports of this place are estimated at nearly \$5,000,000 annually. A bank is located here. The newspapers published here are, the "M. News" (indep.), the "Wheat City Mercury" (dem.), and the "Missionary Messenger" (Luth.), all published weekly. The v. has several good schools, among which the Union School stands pre-eminent, and also churches of the principal Christian denominations. The location of Massilon is well chosen, and is one abounding in rich and warm scenery; its vicinity is thickly settled, and villages have sprung up on all sides. On the west side of the river is a suburb of the v., called West Massilon, which will probably become a large place, having equal facilities with the original village.

MASSILON, p. v., Allen co., *Ind.*: in S. E. part of county, 99 m. N. E. Indianapolis.

MASSILON, p. v., Clinton co., *Ia.*: near W. boundary of county, 2 m. N. Wapsipinicon r., 37 m. N. E. Iowa City.

MASTEN'S CORNER, p. o., Kent co., *Del.*: 5 m. W. Dover.

MASTERSONVILLE, p. v., Lancaster co., *Penn.*: 39 m. S. E. Harrisburg

MASTERTON, p. v., Monroe co., *Ohio*: 99 m. E. by S. Columbus.

MAST HOPE, sta., Sullivan co., *N. Y.*: on the New York and Erie R. R., 126 m. New York.

MAST YARD, p. v., Merrimac co., *N. Hamp.*: on N. side of Contoocook r., a branch of the Merrimac r., 7 m. W. Concord. The Concord and Claremont R. R. passes through the v., distant 19 m. from Bradford, at which place stages connect with cars for Newberry, Sunapee, Newport, Claremont, etc.

MATAGORDA county, *Tex.* Situate S. E. on the Gulf, and contains 992 sq. m. Colorado r. flows S. through the middle, and many small streams empty into Matagorda Bay, the largest being the Trespalacios and Caney bayoux. Surface almost uniformly level. Most of the county is open prairie, but the Colorado and Caney have broad forests on either side, and the smaller streams have all narrow belts of timber. Soil exceedingly rich, being generally a deep black mold, free from stones, with a substratum of red loam; near the Caney it is of a mulatto color, light and friable, but clammy and adhesive near the prairies. Corn and cotton produce large crops. Tobacco of the very best kind is raised in the S., and the coast region is eminently fitted for rice-growing. The sugar raised is superior, and the county is admirably adapted to its cultivation. When the rafts are removed the rivers will open abundant communication with the interior. Farms 39; manuf. 0; dwell. 176, and pop.—wh. 918, fr. col. 3, sl. 1,208—total 2,124. *Capital*: Matagorda.

MATAGORDA, p. v., and cap. Matagorda co., *Tex.*: on an elevated plain at the S. W. corner of Bay Prairie, 2 m. E. of the outlet of Colorado r., on the N. bank of Matagorda Bay, 138 m. S. E. Austin City. It is the only important v. in the county, it has an excellent harbor, and is at all seasons approachable by vessels drawing 8 and 9 feet of water. When the raft of the Colorado shall have been removed, this town will become the depot of one of the most fertile, productive, and extensive sections of Texas. "The Colorado Tribune" is the name of a weekly issue.

MATAMORA, p. o., Hardeman co., *Tenn.*: 155 m. S. W. Nashville.

MATAMORAS, p. o., Montgomery co., *N. Car.*: 81 m. S. W. Raleigh.

MATHERTON, p. o., Ionia county, *Mich.*: 25 m. N. W. Lansing.

MATLDAVILLE, p. v., St. Lawrence co., *N. Y.*: on Racket r., 147 m. N. N. W. Albany.

MATLDAVILLE, p. v., Clarion co., *Penn.*: on the S. side of Clarion r., 67 m. N. by E. Pittsburg, and 155 W. N. W. Harrisburg.

MATTAPONY river, *Virg.*: rises in Spotsylvania county, and is formed by the junction of Mat, Ta, Po, and Ny rivers. At the S. E. point of King William County it unites with Pamunky r. to form York river.

MATTAPOISETT, p. o., Plymouth co., *Mass.*: on Buzzard's Bay, 53 m. S. by E. Boston. The fishery is the chief employment of the inhabitants, and is carried to a great extent. There is a fine harbor by the same name which makes up to the v. and affords good anchorage.

MATTAWAKEAG, p. v., Penobscot co., *Me.*: on the E. side of the Penobscot r., 113 m. N. E. Augusta.

MATTAWAN, p. v., Van Buren co., *Mich.*: 69 m. S. W. Lansing. The Michigan Central R. R. passes the v. 126 m. distant Detroit and 127 Chicago.

MATTEAWAN, p. v., Dutchess co., *N. Y.*: on Fishkill cr., $1\frac{1}{2}$ m. from the landing on the Hudson, 77 m. S. Albany. The creek has here a fall of 40 feet, and affords extensive water-power, which is improved for manufacturing purposes. The v. contains about 2,000 inhabitants, and is the seat of extensive iron-works and machine shops, and has besides these several cotton and other factories, chiefly engaged in the manufacture of heavy goods.

MATTHEWS county, *Virg.* Situate S. E. on the Chesapeake, and contains 89 sq. m. Piankatank r. is its N. boundary, and Mobjack Bay lies on the S., into which East r. flows, the largest stream of the county. Surface low and level; soil of average fertility. Corn is the staple, and there is some good wheat land. The bays and creeks abound in fine oysters, and the shad and herring fisheries are very valuable. It has no mill-streams, but wind-mills and tide-mills are used. On the Piankatank is excellent ship timber. Farms 293; manuf. 3; dwell. 711, and pop.—wh. 3,644, fr. col. 147, sl. 2,923—total 6,714. *Capital*: Matthews C. H.

MATTHEWS'S C. H., p. v., and cap. Matthews co., *Virg.*: in the centre of county, 9 m. N. W. New Point Comfort, and 59 m. E. Richmond.

MATTHEWS'S MILLS, p. o., Richland co., *Ill.*: on W. side Fox r., 109 m. S. E. Springfield.

MATTHEWS'S STORE, p. o., Anne Arundel co., *Md.*: 15 m. N. by W. Annapolis.

MATTHEWSVILLE, p. v., Pocahontas co., *Virg.*: 123 m. W. N. W. Richmond. The v. is situate at the foot of the Alleghany Mountains, which bound the county on the E.

MATTISON, t. and p. o., Branch co., *Mich.*: 61 m. S. W. Lansing. Drained by St. Joseph's r. and Swan cr., one of its branches. There is a pond in the S. E. part of the t. Surface rolling; soil dark, rich, sandy loam, with oak openings. The timber land affords excellent grazing, the remainder is well adapted to grain. Pop. of t. 475.

MATTITUCK, p. v., Suffolk co., *N. Y.*: on the Long Island R. R., 88 m. New York, 133 m. S. E. Albany. It is a small v. situate midway between Great Peconic Bay and Long Island Sound. It contains a church and about 35 dwellings.

MATTOAX, sta., Amelia co., *Virg.*: on the Richmond and Danville R. R., 27 m. S. W. Richmond.

MAUCH CHUNK, t., p. v., and cap. Carbon co., *Penn.*: 71 m. N. E. Harrisburg. Surface mountainous; soil gravelly. Drained by Beaver, Mauch Chunk, and other creeks which empty into the Lehigh r. The v. is situate at the head of the Lehigh Canal, on which the great bulk of the coal is carried to market, and on the W. bank of Lehigh r., in a beautiful ravine, walled in on either side by rocky mountains of a great height, forming a very picturesque appearance. This being an important coal region, the inhabitants are chiefly employed in mining and shipping coal. There is but little of the t. under culture, provisions being brought from a distance. There are two anthracite blast furnaces here, each having an annual capacity of 2,000 tons. The great coal mine is reached by an inclined plane some 700 feet in length with a 200 feet rise. A railway extends to the mine. The Mauch Chunk and Summit Hill R. R. verges from here and connects with the Philadelphia and Reading R. R. by stage from Summit Hill to Tamaqua, distance by stage 6 m. Besides the court-house and usual public buildings, there are some fine stores, dwellings, and a number of mills and workshops in the t. There are two weekly newspapers published here, the "Carbon Democrat" (dem.), and "Carbon County Gazette" (whig). Pop. of t. 2,558.

MAUCKPORT, p. v., Harrison co., *Ind.*: on the N. bank of the Ohio r., near the mouth of Buck cr., 115 m. S. Indianapolis.

MAULDING'S MILLS, p. o., Wayne co., *Ill.*: 115 m. S. E. Springfield, on the W. side Skillet Fork of Little Wabash.

MAUMEE CITY, p. v., and cap. Lucas co., *Ohio*: on the W. side of Maumee r., at the foot of the rapids and at the head of navigation, 118 m. N. N. W. Columbus. The Wabash and Erie Canal passes the v., and is connected with the river by a side cut, affording it excellent commercial facilities. It contains a court-house and other county buildings, churches of several denominations, numerous stores, and several factories and flouring mills driven by the excellent water-power afforded by the rapids above the place. Pop. 1,757. The "Maumee River Times" (whig) is published here weekly.

MAUMEE river, *Ohio*. This river rises in the N. E. part

of Indiana, and flowing N. E., enters Lake Erie through Maumee Bay. It is formed by the junction of Little St. Joseph's, St. Mary's, and Great and Little Auglaise rivers. Its length is about 100 m., and 50 m. from its mouth it is 70 rods wide. The navigation is open to schooners and steamboats 18 m. to Perrysburg, and in spring and fall is boatable to Fort Wayne, and at all times furnishes extensive water-power. The Wabash and Erie Canal is constructed along its banks. The country on its borders is very productive.

MAUMELLE, p. o., Pulaski co., *Ark.*: 15 m. N. W. Little Rock.

MAURICE river, *N. Jer.*: a tributary of Delaware r. from Gloucester co. It is navigable 20 m. for vessels of 80 or 100 tons. It has fine embanked meadows, and on its upper course affords valuable water-power. Excellent oysters are taken at its mouth.

MAURICETOWN, p. v., Cumberland county, *N. Jer.*: on W. bank of Maurice r., 10 m. from its mouth and 61 m. S. $\frac{1}{2}$ W. Trenton.

MAURIUS, p. v., Vigo co., *Ind.*: near a fork of Furman's cr., 71 m. W. S. W. Indianapolis.

MAURY county, *Tenn.* Situate W. centrally, and contains 498 sq. m. Drained by Duck r. and its branches. Surface diversified; soil very fertile, adapted equally to grass or grain. Corn is the great staple, and the crop very large. Cotton is a heavy product; and wheat and the other grains and tobacco all succeed well. The pastures are fine, and feed great numbers of cattle and sheep. Pork is a very heavy export. It has extensive and flourishing manufactures of cotton and woolen goods, liquors, leather, flour, iron-ware, etc. Farms 1,501; manuf. 112; dwell. 2,961, and pop.—wh. 16,760, fr. col. 90, sl. 12,670—total 29,520. *Capital*: Columbia. *Public Works*: Nashville and Alabama R. R.

MAVAIS, p. v., Osage co., *Mo.*: on W. bank of Mavais cr., a tributary of Osage r., 28 m. S. by E. Jefferson City.

MAXEY, p. v., Oglethorpe co., *Ga.*: 47 m. N. Milledgeville, on the Athens Branch of Georgia R. R., 18 m. from Union Point station.

MAXFIELD, t. and p. v., Penobscot co., *Me.*: 87 m. N. E. Augusta. Drained by Piscataquis river and Sebols stream. Surface rolling; soil fertile; well adapted to grain. The v. is pleasantly situate on N. side of Piscataquis r. Water-power is good and is used by several saw-mills. Population of the t. 186.

MAXWELL, p. o., Delaware co., *Ohio*: 21 m. N. Columbus.

MAY, p. o., Lancaster county, *Penn.*: 89 m. E. by S. Harrisburg.

MAYBERRY, p. o., Lewis county, *Mo.*: 105 m. N. by E. Jefferson City.

MAYBINTON, p. v., Newberry dist., *S. Car.*: on a small cr. which flows into the Congaree r., 89 m. N. W. Columbia.

MAYFIELD, p. o., Warren county, *Ga.*: on the E. side of Ogeechee r., 89 m. N. E. Milledgeville.

MAYFIELD, p. v., and cap. Graves co., *Ky.*: on a branch of Mayfield r., 229 m. S. W. Frankfort. It contains a court-house, jail, several stores and dwellings, and about 200 inhabitants.

MAYFIELD, p. o., Jackson county, *Tenn.*: 61 m. N. N. E. Nashville.

MAYFIELD, t. and p. v., Fulton co., *N. Y.*: 83 m. N. W. Albany. Drained by tributaries of Sacondaga r. Surface mountainous; soil sandy and clay loam, well adapted to grain. The Mayfield ridge crosses the N. part. The v. of Mayfield is situate centrally, and contains about 30 dwellings. The town has several considerable and important manufactures. Pop. 2,429.

MAYFIELD, t. and p. o., Cuyahoga co., *Ohio*: 129 m. N. E. Columbus. Drained by Chagrine r. and some small creeks which empty into Lake Erie. Surface level; soil fertile. Pop. of t. 1,117.

MAYFIELD, p. o., Isle of Wight co., *Virg.*: 57 m. S. E. Richmond.

MAY FLOWER, p. o., Otsego co., *N. Y.*: 63 m. W. Albany.

MAY HILL, p. o., Lee co., *Ill.*: 138 m. N. Springfield.

MAYO, p. v., Halifax county, *Virg.*: on the Halifax and Boydton post-road, 93 m. S. W. Richmond.

MAYONING, p. o., Patrick county, *Virg.*: 157 m. S. W. by W. Richmond.

MAYPORT MILLS, p. v., Duval co., *Flor.*: on the N. bank of St. John's r., 157 m. E. Tallahassee.

MAY'S LANDING, p. v., and cap. Atlantic co., *N. Jer.*: on Great Egg Harbor r., at the head of sloop navigation, 16 m. from the ocean, and 51 m. S. Trenton. It has a considerable trade in wood and lumber, and ship-building is carried on to some extent. It is built on both sides of the r., and contains a court-house, several stores, and workshops. Pop. about 250.

MAY'S LICK, p. o., Mason co., *Ky.*: near Johnson's cr., 61 m. N. E. Frankfort.

MAYSVILLE, p. v., and cap. Clay co., *Ill.*: on the outskirts of Twelve Mile Prairie, 99 m. S. E. Springfield, 2 m. W. Little Wabash r. The court-house is situated here.

MAYSVILLE, p. v., Mason co., *Ky.*: on the S. side of Ohio river, 73 m. N. E. Frankfort. It is situate on a high bank, and is backed by hills which rise to a considerable height. For many years it was known as "Limestone," from the creek of that name, which here enters the Ohio. It is regularly laid out, the streets crossing each other at right angles, and most of its stores and dwellings are substantially built. The principal buildings are the city hall, 7 or 8 churches, 12 schools and seminaries, a hospital, a bank, 2 steam cotton factories, a bagging factory, 2 foundries, 5 or 6 rope-walks, several saw and flour mills, and other factories, about 50 groceries, wholesale and retail, 27 dry goods stores, several pork-packing establishments, 4 lumber yards, and numerous other manufacturing and trading establishments. The newspapers published here are the "Post Boy" (indep.), and the "M. Eagle" (whig), both issued tri-weekly and weekly, and the "M. Flag" (dem.) and the "M. Herald" (whig), both weekly issues. Maysville is one of the most important places in Kentucky; it has a good harbor, and is the port of a large and productive section of the State, and when the railroads now in progress—the Maysville and Lexington R. R., and the Maysville and Big Sandy R. R.—are completed, its commercial field will be immeasurably enlarged, and the prospects of its becoming a first-rate mart greatly favored. The great road leading from Chillicothe, in Ohio, to Lexington, passes through this place. The v. was first settled in 1784, under the auspices of Simon Kenton; in 1786 it was the residence of Daniel Boone, the famous pioneer; until 1815 it made little progress; in 1838 it was incorporated; in 1840 it contained 2,741 inhabitants, and in 1850, 4,255 inhabitants. Its population within the past two years since 1850 is supposed to have gained 50 per cent. in numbers, an increase dependant on the great facilities its railroad connections will give to its trade.

MAYSVILLE, p. o., Jackson county, *Ga.*: 73 m. N. N. W. Milledgeville.

MAYSVILLE, p. o., Madison county, *Ala.*: 167 m. N. $\frac{1}{2}$ W. Montgomery.

MAYSVILLE C. H., p. v., and cap. De Kalb co., *Mo.*: on a branch of Blue creek, centre of co., 149 m. N. E. Jefferson City.

MAYSVILLE, p. v., and cap. Buckingham co., *Virg.*: on Slate r., 57 m. W. Richmond. It contains the county buildings, several stores, and about 300 inhabitants.

MAYSVILLE, p. v., Benton co., *Ark.*: on a branch of Flag cr., near Bates Prairie, 175 m. N. W. Little Rock.

MAYSVILLE, p. v., Huntingdon county, *Ind.*: 79 m. N. E. Indianapolis.

MAYSVILLE, p. o., Greenbrier co., *Virg.*: 173 m. W. by N. Richmond.

MAYTOWN, p. v., Lancaster co., *Penn.*: 21 m. S. E. Harrisburg. It is located about 3 m. N. E. from Susquehanna r., and contains several stores, and about 200 inhabitants.

MAYVILLE, p. v., and cap. Chautauque co., *N. Y.*: at the N. W. end of Chautauque lake, 299 m. W. by S. Albany. It contains the county buildings. The v. is pleasantly situated, and is accessible by steamboat. The "M. Sentinel" (dem.), "M. Beacon" (whig), and "M. Express" (dem.), are published here. It has several shops and stores, and about 600 inhabitants.

MAYVILLE, p. v., Dodge co., *Wisc.*: on N. side of Rock r., 47 m. N. E. Madison.

MAZON, p. v., Grundy co., *Ill.*: on the W. side of Mazon r., and on the border of Grand Prairie, which covers the S. E. part of the county.

MEADE county, *Ky.* Situate N. W., and contains 279 sq. m. Drained by Otter, Wolf, and Spring creeks, small affluents of the Ohio, which forms its N. boundary. Surface uneven, and in parts hilly; soil mostly fertile. Corn, wheat, and tobacco are the principal crops. It has considerable water-power and manufactories of woolen and cotton goods, flour, and liquors. Farms 489; manuf. 7; dwell. 947, and pop.—wh. 5,799, fr. col. 21, sl. 1,573—total 7,393. *Capital*: Brandenburg.

MEADERVILLE, p. o., Macon co., *Tenn.*: 47 m. N. E. Nashville.

MEADOW BLUFF, p. o., Greenbrier co., *Virg.*: on W. bank of Meadow r., 179 m. W. by N. Richmond.

MEADOW BRANCH, p. o., Jackson county, *Ohio*: 61 m. S. by E. Columbus.

MEADOW CREEK, p. o., Orange co., *N. Car.*: 85 m. N. W. Raleigh.

MEADOW CREEK, p. o., Whitley co., *Ky.*: 97 m. S. by E. Frankfort.

MEADOW DALE, p. o., Highland co., *Virg.*: 119 m. N. W. Richmond.

MEADOW FARM, p. o., Muskingum co., *Ohio*: 53 m. E. Columbus.

MEAD'S BASON, p. v., Passaic co., *N. Jer.*: on the Morris and Essex Canal, 57 m. S. by W. Trenton.

MEAD'S CORNERS, p. o., Crawford co., *Penn.*: 191 m. N. W. Harrisburg.

MEAD'S MILL, p. o., Wayne co., *Mich.*: 65 m. S. E. Lansing.

MEADSVILLE, p. o., Jackson county, *Ala.*: 155 miles N. Montgomery.

MEADVILLE, p. v., and cap. Franklin co., *Miss.*: on Morgan's Fork, a branch of Homochitto r., 69 m. S. W. Jackson. The court-house is situate in this village.

MEADVILLE, p. v., and cap. Crawford co., *Penn.*: on the E. side of French cr., 98 m. N. W. by W. Harrisburg. It is very pleasantly located on an elevation rising gradually from the r. In the centre is a fine square, on one side of which is the court-house, built of brick and cut stone, and ornamented with a fine cupola. It contains a number of churches, an academy, and a State arsenal, and is the seat of the Alleghany College, founded in 1817, having (in 1850) a president, 7 professors, 114 alumni, and 106 students, with a library containing 8,200 volumes. The Western Theological School, also situated here (commenced in 1844), has 4 professors and 40 students. The library contains 8,000 volumes. Meadville is also a manufacturing place. It has several furnaces, tanneries, distilleries, mills, etc., and here are published four newspapers, the "Crawford Democrat" (dem.), the "M. Gazette" (whig), the "Pennsylvania Sentinel" (dem.), and the "Whig Journal" (whig), all issued weekly. Pop. 2,578.

MEADVILLE, p. o., Halifax county, *Virg.*: 105 m. S. W. Richmond.

MEADWAY, p. o., Burke county, *Ga.*: 75 m. W. by S. Milledgeville.

MEANSVILLE, p. o., Union dist., *S. Car.*: 67 m. W. N. W. Columbia.

MECCA, t. and p. o., Trumbull county, *Ohio*: 149 m. N. E. Columbus. Drained by the Musquito r. and its branches, a tributary of the Ohio r. Surface undulating; soil fertile, and adapted to grazing. Pop. of t. 872.

MECHANICSBURG, p. v., Lehigh co., *Penn.*: 69 m. E. N. E. Harrisburg.

MECHANICSBURG, p. v., Sangamon co., *Ill.*: 13 m. E. by N. Springfield, on a fertile prairie, 4 m. W. Sangamon r.

MECHANICSBURG, p. v., Champaign co., *Ohio*: on Little Darby cr., 33 m. W. Columbus. It contains several mills, mechanic shops, etc., and 632 inhabitants.

MECHANICSBURG, p. o., Henry county, *Ind.*: 89 m. N. E. Indianapolis.

MECHANICSBURG, p. b., Cumberland co., *Penn.*: 12 m. W. by S. Harrisburg. The Cumberland Valley R. R. passes through it, 10 m. from Carlisle. It contains a number of distilleries, flouring-mills, saw-mills, etc., and about 800 inhabitants.

MECHANICSBURG, p. o., Macon co., *Mo.*: 91 m. N. N. W. Jefferson City.

MECHANICSBURG, p. v., Van Buren co., *La.*: in a beautiful and well-cultivated district, 108 m. S. S. E. Iowa City.

MECHANICSBURG, p. v., Giles co., *Virg.*: on a branch of New r., near Walker's mtn., 199 m. W. by S. Richmond.

MECHANIO'S FALLS, p. v., Cumberland co., *Me.*: on the Androscoggin r., 84 m. S. W. Augusta. The Buckfield Branch R. R. here diverges from the Atlantic and St. Lawrence R. R., 36 m. from Portland. The water-power is here immense.

MECHANIO'S GROVE, p. o., Lancaster co., *Penn.*: 85 m. S. E. Harrisburg.

MECHANICSTOWN, p. v., Frederick co., *Md.*: 65 m. N. W. Annapolis.

MECHANICSTOWN, p. v., Carroll co., *Ohio*: 118 m. E. N. E. Columbus.

MECHANICSVILLE, p. v., Jasper co., *Ga.*: about 1½ m. E. Ocmulgee r., and 43 m. N. W. by W. Milledgeville.

MECHANICSVILLE, v. and sta., Westchester co., *N. Y.*: on the line of the Harlem R. R., 45 m. from City Hall of New York City.

MECHANICSVILLE, p. v., Saratoga co., *N. Y.*: on the W. bank of the Hudson r., 17 m. N. Albany, and at the mouth of Anthony's Kill, the outlet to Round Lake. There are several mills of different kinds, a number of factories and workshops, and a match factory here. The Champlain Canal and Rensselaer and Saratoga R. R. pass through the v., 11 m. N. Troy.

MECHANICSVILLE, p. o., Cannon co., *Tenn.*: 45 m. E. S. E. Nashville.

MECHANICSVILLE, p. v., Sumter dist., *S. Car.*: on the Sumterville post-road, 41 m. E. by N. Columbia.

MECHANICSVILLE, p. o., Rutland co., *Verm.*: 49 m. S. W. Montpelier.

MECHANICSVILLE, p. v., Bucks co., *Penn.*: 95 m. E. Harrisburg. This place was formerly called Newark.

MECHANICSVILLE, p. v., Louisa co., *Virg.*: 46 m. N. W. Richmond.

MECHUM'S RIVER, p. o., Albemarle co., *Virg.*: 107 m. W. N. W. Richmond. The river is here crossed by the Virginia Central R. R., 10 m. W. Charlottesville.

MECKLENBURG county, *N. Car.* Situate S. W., and contains 578 sq. m. Bounded W. by the Catawba, and drained by its branches, McAlpin's, Great and Little Sugar, Davidson's, and other creeks. Surface moderately uneven, and soil very fertile. Cotton is the staple. Corn and wheat are very fine crops, and the grazing is excellent; live-stock, wool, and pork are exported. Fine mill-seats are abundant, and it has large flouring-mills and distilleries. Several rich gold-mines are in this county. Davidson College, founded 1838, is in the N. E. part of Mecklenburg, and has a president and 4 professors, and in 1850 had 140 alumni, 60 students, and a library of 5,000 volumes. Farms 1,030; manuf. 16; dwell. 1,632, and pop.—wh. 8,284, fr. col. 153, sl. 5,473—total 13,914. *Capital*: Charlotte. *Public Works*: North Carolina Central R. R.; Charlotte and South Carolina R. R., etc.

MECKLENBURG county, *Virg.* Situate E. on S. line, and

contains 635 sq. m. Bounded N. by Meherrin river, and drained by branches of the Roanoke, which flows E. through the S. part. Surface uneven—in parts hilly; soil generally fertile, with many tracts of pasture land. Tobacco is the staple, and the production very large; cotton and wheat are also excellent crops, and the number of sheep reared is large. It has good water-power, fine timber, and manufactures flour, leather, iron castings, etc. Randolph Macon College is in Mecklenburg. Farms 666; manuf. 25; dwell. 1,500, and pop.—wh. 7,256, fr. col. 912, sl. 12,462—total 20,630. *Capital*: Boydton. *Public Works*: Roanoke Valley R. R.

MECKLENBURG, p. v., Knox co., *Tenn.*: on the E. side of Holston r., above the junction of French Broad r., 166 m. E. Nashville, and 12 m. E. by S. from Knoxville.

MECKLENBURG, p. v., Tompkins co., *N. Y.*: on the Ithaca post-road, 159 m. W. Albany. There are a number of mills, factories, and workshops here, and about 400 inhabitants.

MECOSTA county, *Mich.* Situate centrally on Lower Peninsula, and contains 720 sq. m. Maskegon river flows S. W. through the W. part, and has numerous branches which drain the co. In the N. are many ponds, among them Chippewa Lake, the source of Chippewa river, whose waters flow into Lake Huron. The surface is elevated and rolling, with a fine growth of timber. It is unorganized.

MEDARY, p. o., Putnam county, *Ohio*: 106 m. N. W. Columbus.

MEDFIELD, t. and p. v., Norfolk co., *Mass.*: 15 m. S. W. Boston. Drained by Charles and Stop rivers. Surface diversified; soil fertile and well cultivated. There are in the town several mills and manufactories, among the latter of which there are some of straw goods, which are in a flourishing condition. The v. contains several stores and workshops, and about 50 dwellings. Pop. of t. 966.

MEDFORD, t. and p. v., Middlesex co., *Mass.*: at the head of navigation, on the Mystic river, 5 m. N. by W. Boston. Drained by Mystic r. and its branches. Surface undulating; soil good and well cultivated. Medford is a flourishing t., having a large number of manufactories of various kinds, producing linseed oil, spirits, bricks, leather, plows, etc., together with a number of mills and workshops. Ship-building is carried on successfully to a large extent. The Boston and Lowell R. R., as also the Middlesex Canal, pass through it, the latter 7 m. from Boston. The village, situate centrally, contains a number of stores and workshops. West Medford is the name of a station on the line of the R. R., 21 miles from Lowell. Pop. of t. 3,749.

MEDFORD, p. v., Burlington co., *N. Jer.*: 23 m. S. Trenton. It contains a Friends' meeting-house, half a dozen stores, and about 300 inhabitants.

MEDINA county, *Ohio*. Situate N. E., and contains 416 sq. m. Drained by Rocky r., E. branch of Black r., and branches of Chippewa and Cuyahoga rivers. Surface rolling; soil of great fertility, equally adapted to grass and grain. Wheat and corn are the leading cereals. The grazing lands are very fine—the dairies large, and wool and pork considerable exports. It has some water-power and numerous small manufactories. Farms 2,461; manuf. 77; dwell. 4,430, and pop.—wh. 24,411, fr. col. 30—total 24,441. *Capital*: Medina.

MEDINA county, *Tex.* Situate S. W., and contains 1,214 sq. m. Bounded N. E. by Medina and San Antonio rivers, and drained by Hondo, Seco, and Deer creeks of the Rio Frio and Chacana and Perez creeks of the San Miguel. Surface undulating, with elevations of considerable height in the N., and mostly a rolling prairie, with narrow strips of wood on the streams. Soil very fertile, producing large crops of corn, and furnishing the best of pasture for droves of horses and cattle that roam at large over the plains. The streams are small, but afford sufficient mill-seats, and the climate is very salubrious. Limestone, marl, and iron are found. Farms 40; manuf. 0; dwell. 177, and pop.—wh. 881, fr. col. 0, sl. 28—total 909. *Capital*: Castroville.

MEDINA, p. v., Winnebago county, *Ill.*: 214 m. N. Springfield.

MEDINA, t. and p. v., Lenawee co., *Mich.*: 67 m. S. Lansing. Drained by Tiffin's cr. Surface undulating; soil, sand and argillaceous loam; very fertile. There are a number of mills in the t.; the v. is in N. E. on Tiffin's cr., and contains several stores and workshops. Pop. of t. 1,685.

MEDINA, p. v., Orleans co., *N. Y.*: on the Erie Canal, at the junction of Oak Orchard cr., which is used as a feeder, and the Rochester, Lockport, and Niagara Falls R. R., 80 m. E. by N. Niagara Falls, and 247 m. W. by N. Albany. There are several mills and factories, together with a number of warehouses, stores, and workshops, and a furnace in the village. The "Medina Citizen" (dem.) is issued here. Pop. about 800.

MEDINA, t. p. v., and cap. Medina co., *Ohio*: 97 m. N. E. Columbus. Drained by Rocky river and its branches. Surface undulating; soil fertile. The river affords good water-power. The v. is very pleasantly situate on an eminence in S. W. part of t., on the Cleveland post-road, and contains the court-house and usual number of public buildings, as also a number of stores, mills, and workshops, and 1,008 inhabitants. The "Democratic Whig" (whig), and "Medina Democrat" (F. S. D.) are issued here. Pop. of t. 2,010.

MEDON, p. v., Madison county, *Tenn.*: 120 m. W. S. W. Nashville.

MEDUSA, p. o., Albany co., *N. Y.*: 15 m. W. Albany.

MEDWAY, t. and p. v., Norfolk co., *Mass.*: 25 m. S. W. Boston. Drained by Charles river and its branches, which afford it excellent water-power. Surface undulating; soil fertile, producing fine grain. Incorporated in 1713, and has several stores, a number of mills and manufactories—among the latter, several cotton manufactories. The v. is at the terminus of a branch of the Norfolk County R. R., and contains a number of stores and workshops, and about 60 dwellings. Pop. of t. 2,778.

MEDWAY, p. o., Clark county, *Ohio*: 49 m. W. by S. Columbus.

MEDWAY, p. o., Greene co., *N. Y.*: 81 m. S. W. Albany.

MEDYBEMPS, t. and p. v., Washington co., *Me.*: 182 m. E. N. E. Augusta. There is a pond on the N. of the t., by the outlet of which it is drained. Surface rugged; soil varied, with good wood lands. Pop. of t. 137.

MEEK'S HILL, p. o., York district, *S. Car.*: 76 m. N. Columbia.

MEEME, t. and p. v., Manitowoc co., *Wisc.*: 101 m. N. E. Madison. Drained by a number of small streams flowing into Lake Michigan. Surface various; soil fertile and heavily timbered. The v. is situate centrally. Pop. of t. 210.

MEETING STREET, p. v., Edgefield dist., *S. Car.*: 52 m. W. by S. Columbia.

MEHERRIN river, *Virg.*: rises in Charlotte co., and running E. through several counties, enters North Carolina, and unites with Nottoway r. to form the Chowan.

MEHOOPANY, p. v., Wyoming co., *Penn.*: on Mehoopany cr., near its confluence with the Susquehanna river, 96 m. N. N. E. Harrisburg.

MEIGS county, *Ohio*. Situate S. E., and contains 408 sq. m. Bounded E. by the Ohio, and drained by Leading cr., Shade r., and smaller affluents. Surface diversified—in parts hilly. Soil fertile; corn and wheat are large crops, and the staple cereals. Large numbers of sheep are raised, and much wool exported. Large deposits of coal are found near the Ohio, which are wrought with much profit, and are demanding increased attention. It manufactures iron castings, machinery of various kinds, cordage, flour, and leather. Farms 1,149; manuf. 57; dwell. 3,136, and pop.—wh. 17,924, fr. col. 47—total 17,971. *Capital*: Pomeroy. *Public Works*: Cincinnati, Hillsboro', and Parkersburg R. R.; Pomeroy Branch R. R.

MEIGS county, *Tenn.* Situate S. E., and contains 182 sq. m. Bounded W. by the Tennessee, and S. by the Hiwassee. Surface broken, and soil mostly fertile. Corn is

the staple. Wheat and oats thrive, and small patches of cotton and tobacco may be seen. Pork is an export. Farms 598; manuf. 1; dwell. 819, and pop.—wh. 4,438, fr. col. 1, sl. 395—total 4,879. *Capital*: Decatur.

MEIGS CREEK, p. o., Morgan co., *Ohio*: 66 m. E. by S. Columbus.

MEIGSVILLE, t. and p. v., Morgan county, *Ohio*: 63 m. E. by S. Columbus. Drained by Meigs cr. and its branches, which flow into the Muskingum r. Surface uneven; soil fertile. It has good hydraulic power. There are a number of mills and manufactories in the t. The village contains several dwellings, stores, and workshops. Population of t. 1,512.

MEIGSVILLE, p. v., Jackson co., *Tenn.*: on the W. side of Cumberland r., 66 m. E. N. E. Nashville.

MELENDEZ, p. v., and cap. Benton co., *Flor.*: 150 m. S. E. Tallahassee.

MELLENVILLE, p. v., Columbia co., *N. Y.*: on the line of the Hudson and Berkshire R. R., 9 m. E. Hudson, 29 m. S. Albany. It contains several factories and mills.

MELLONVILLE, p. v., and cap. Orange co., *Flor.*: on the S. shore of Lake Monroe, 196 m. S. E. Tallahassee.

MELLVILLE, p. o., Chattooga co., *Ga.*: 169 m. N. W. Milledgeville.

MELMORE, p. v., Seneca co., *Ohio*: on the N. side of Honey cr., a branch of Sandusky r., 72 m. N. by W. Columbus.

MELON, p. o., Harrison county, *Virg.*: 203 m. N. W. Richmond.

MELPINE, p. o., Muscatine county, *Ia.*: 80 m. S. E. Iowa City.

MELROSE, p. o., Rockingham co., *Virg.*: 114 m. W. Richmond.

MELROSE, p. v., Clark co., *Ill.*: 108 m. E. S. E. Springfield.

MELROSE, t. and p. v., Middlesex co., *Mass.*: 3 m. N. Boston; formerly the N. part of Malden. Drained by the head of Mystic r. Surface uneven; soil good. The v. is on the line of the Boston and Maine R. R., 5 m. from Boston, from which point the Medford Branch R. R. diverges. It is a very desirable place of residence for merchants doing business in Boston. Pop. of t. 1,260.

MELROSE, p. o., Rush county, *Ind.*: 39 m. E. S. E. Indianapolis.

MELROSE, p. v., and cap. Nacogdoches co., *Tex.*: on the old military road, 219 m. N. E. Austin City.

MELTON'S, p. o., Navarro county, *Tex.*: 143 m. N. by E. Austin City.

MELTONSVILLE, p. v., Marshall county, *Ala.*: 132 m. N. Montgomery.

MELTONSVILLE, p. v., Anson co., *N. Car.*: on Big Brown cr., 102 m. S. W. Raleigh.

MELVIN, p. o., Ballard county, *Ky.*: 243 m. W. S. W. Frankfort.

MELVIN'S MILLS, sta., Merrimac co., *N. Hamp.*: on the line of the Concord and Claremont R. R., 23 m. W. from Concord.

MELVIN VILLAGE, p. o., Carroll co., *N. Hamp.*: 39 m. N. E. Concord.

MEMPHIS, p. v., Pickens co., *Ala.*: on the W. side of Tombigbee r., 126 m. W. N. W. Montgomery.

MEMPHIS, sta., Clark co., *Ind.*: on the line of the Jeffersonville R. R., 15 m. N. Jeffersonville, and 87 m. S. by E. Indianapolis.

MEMPHIS, p. v., and cap. Scotland co., *Mo.*: on North Fabius r., 136 m. N. Jefferson City. Pop. 138.

MEMPHIS, p. v., and cap. Shelby co., *Tenn.*: on the E. bank of the Mississippi r., beautifully situated on the fourth Chickasaw bluff, just below the mouth of Wolf r., 191 m. W. S. W. Nashville. This spot was formerly the site of Fort Assumption, used for the purpose of protecting the country against the Chickasaws. The bluff on which it stands is thirty feet above the highest floods, and its base is washed by the river for a distance of 8 m., while a bed of sandstone, the only known stratum of rocks below the Ohio, juts into

the stream, and forms a convenient landing. From the mouth of the Ohio to Vicksburg, 650 m., it is the only site for a commercial mart on either side of the Mississippi. Some distance from the brow of the bluff, a handsome range of fine buildings extends for several squares. Every day gives additional evidence of the increasing prosperity of this already prosperous city; and although the commerce is great, yet the citizens do not intend to rely on that alone. Manufactories will soon claim a part in adding to her wealth. Preparations are making for building a boat yard on as extensive a scale as any in the west. The gentleman who opens the yard is said to be one of the most experienced boat builders in the Union. In addition to this, there is an extensive flour-mill just completed, capable of making 62,000 barrels of flour annually; also a large cotton manufactory, employing a large number of operatives. There is a fine, well laid out navy yard situate here, with facilities to build the largest size vessels, at which a commander and usual complement of officers are stationed. It bids fair to be one of the finest navy yards in the United States. The public spirit is such in Memphis, that it will soon be one of the finest cities in the West. The Memphis and Charleston R. R. is now partially in operation, and other public works are in contemplation. There are a large number of fine dwellings, stores, workshops, etc. The "Inquirer," daily and weekly (dem.), "Eagle," daily and weekly (whig), "Appeal," weekly and semi-weekly (dem.), "Express," daily and weekly (dem.), "Christian Advocate," weekly (Meth.), "The Southerner," weekly (Indepen.), and "Daily Time," daily (neut.), are the names of the newspapers published here. Pop. 8,889.

MEMPHIS, p. o., St. Clair co., *Mich.*: 95 m. E. Lansing.

MEMPHREMAGOG lake, *Verm.* This lake lies on the N. boundary, and the greater part within Canada. It is between 30 and 40 miles long, and from 2 to 3 wide—but 7 or 8 miles only is within the United States. It covers about 15 sq. m. in Vermont, and receives Clyde, Barton, and Black rivers; and its own waters are discharged through St. Francis r. into Lake St. Peter's, an expansion of St. Lawrence r. On an island 2 miles within the Canada line is found a quarry of *novaculite*, known by the name of "Magog oil-stone," which is in high repute.

MENALLEN, t. and p. o., Adams co., *Penn.*: 30 m. S. W. Harrisburg. Drained by Conewago cr. and its branches. Surface hilly, in some parts mountainous; soil fertile. The water-power is excellent. There are a large number of mills, some manufactories, and several stores in the t. Bendersville and Middletown are names of villages. Pop. of t. 2,623.

MENAN islands, *Me.* *Petit* or *Little Menan* lies off the harbor of Steuben in the Atlantic, 3 m. S. E. Gouldsborough Harbor; and Grand Menan, a large island, lies off Passamaquoddy bay, and is within the British lines. There is a light-house on Petit Menan. (See LIGHTHOUSES OF THE UNITED STATES).

MENARD county, *Ill.* Situate W. centrally, and contains 307 sq. m. Drained by Sangamon r. and Salt cr. Surface undulating; soil largely prairie, a deep rich loam mixed with sand, and exceedingly fertile. Timber is found plentifully in groves, and near the rivers. A superior farming co., raising heavy crops of corn, wheat, oats, and potatoes, and exporting live-stock, wool, and pork. It has good mill streams, and considerable manufactures. Farms 706; manuf. 38; dwell. 1,085, and pop.—wh. 6,823, fr. col. 21—total 6,849. *Capital*: Petersburg.

MENASHA, p. v., Winnebago co., *Wisc.*: on the N. shore of Winnebago Lake, 96 m. N. N. E. Madison. The U. S. land office for the Menasha district is at this village.

MENDHAM, t. and p. v., Morris county, *N. Jer.*: 37 m. N. Trenton. Drained by Indian r. and the head waters of Whippany r. Surface hilly, in the N. mountainous; soil fertile. There are in the t. several mills and manufactories, and a number of stores and workshops. The v. is situate on the Morristown post-road, and contains a number of

dwellings and stores and several workshops. Population of the t. 1,720.

MENDOCINO county, *Calif.* Situate N. W., and contains about 3,500 sq. m. The Pacific forms its W., and Russian r. most of its E. boundary. It has few streams of any considerable size, but all flow into the Pacific from the range of mountains which lies near its E. border. The surface is much broken by spurs of the coast range, which extend nearly to the ocean. The county is unorganized and little settled, the population being only 416.

MENDON, p. o., Madison county, *Ind.*: 85 m. N. E. Indianapolis.

MENDON, p. v., Adams county, *Ill.*: 85 m. W. by N. Springfield.

MENDON, t. and p. v., Worcester co., *Mass.*: 85 m. S. W. Boston. Drained by branches of Blackstone and Mill rivers. Surface variegated; soil of good quality and well cultivated. The products of the dairy are large and valuable. It has excellent water-power. There are several mills and manufactories of different kinds in the t., and a large quantity of cotton and woolen is manufactured. First settled about 1647; incorporated, 1667. The v. is situate on an elevation on E. side of Mill r., in S. E. part of t., and contains some fine houses, a number of stores, and several workshops. Pop. of t. 1,301.

MENDON, p. o., Lenawee county, *Mich.*: 65 m. S. by E. Lansing.

MENDON, t. and p. v., Monroe co., *N. Y.*: 197 m. W. by N. Albany. Drained by tributaries of Genesee r. Surface gently undulating; soil fertile. There are several mills and manufactories, besides stores, and a number of workshops in the t. The v. is situate on Irondequoit cr. Was incorporated in 1833, and contains several dwellings, some stores, and workshops. North Mendon and West Mendon are also names of villages. Pop. of t. 3,353.

MENDON, p. o., Mercer co., *Ohio*: 103 m. W. N. W. Columbus.

MENDON, t. and p. o., Rutland co., *Verm.*: 44 m. S. by W. Montpelier. Drained by branches of Otter cr.; surface varied; in the W. hilly, in the E. mountainous. Soil in the mountains good, but too far up for cultivation. Pop. of the t. 504.

MENDOTA (or ST. PETER'S), v., Dacotah co., *Minn. Ter.*: on the W. bank of the Mississippi, S. of the confluence of Minnesota r., 5 m. W. by N. St. Paul. It has been occupied by the American Fur Company for several years as a depot for their trading establishments among the Indians of the north-west. Two stores and a few houses constitute the village. It is, however, a fine town site, and being situate at the junction of two great rivers, and near the head of steam navigation, its importance in a commercial point of view has not been overlooked. It is within the military reservation, and whites are not allowed to reside here without permission of the U. S. government. Pop. 122.

MENELOS, p. o., Madison co., *Ky.*: S. E. Frankfort.

MENOMONEE river, *Mich.*: rises in the country S. of Lake Superior, and runs E. by S. about 100 m., and falls into Green Bay. It forms the S. boundary of the upper peninsula, separating it from Minnesota.

MENOMONEE FALLS, p. o., Waukesha co., *Wisc.*: 63 m. E. Madison.

MENTER, p. v., Sheboygan co., *Wisc.*: on a branch of Onion r., 87 m. N. E. by E. Madison.

MENTOR, t. and p. v., Lake co., *Ohio*: 141 m. N. N. E. Columbus. Lake Erie makes its N. boundary. Drained by a stream flowing into the lake. Surface undulating; soil good, adapted to grain. There are some mills and manufactories in the t. The v. is on the line of the Cleveland and Erie R. R., 23 m. N. E. Cleveland, and contains a number of stores and workshops. Pop. of t. 1,571.

MEQUON RIVER, p. o., Washington co., *Wisc.*: on the W. side of Milwaukee r., S. of the confluence of Mequon r., 74 m. E. by N. Madison.

MENATA, p. o., Jefferson co., *Penn.*: 128 m. N. W. by W. Harrisburg.

MERCER county, *Ill.* Situate N. W., and contains 549 sq. m. Drained by Edward's, Pope's, and Henderson's rivers, flowing into the Mississippi, its W. boundary. Surface undulating; soil fertile. A large part of the co. is prairie, with excellent timber on the streams, and near the Mississippi. Corn and wheat are the staples, and pork a large export. Farms 517; manuf. 0; dwell. 892, and pop.—wh. 5,244, free col. 2—total 5,246. *Capital*: Millersburg.

MERCER county, *Ky.* Situate E. centrally, and contains 248 sq. m. Bounded N. E. by the Kentucky, E. by Dick's r., and drained W. by heads of Salt r. Surface uneven; soil very productive. Corn is the great staple. Wheat, rye, and oats yield largely, and the pastures are very superior. Live-stock, beef, wool, and pork, are large exports. It manufactures cotton and woolen goods, flour, iron castings, and leather. Farms 881; manuf. 87; dwell. 1,762, and pop.—wh. 10,472, free col. 385, sl. 3,260—total 14,067. *Capital*: Harrodsburg.

MERCER county, *Mo.* Situate on N. line, and contains 521 sq. m. Drained by E. and W. forks of Medicine cr., Muddy cr., Weldon r., and Crooked Fork of Grand r. Surface somewhat uneven, with few hills; soil generally fertile, and adapted to grazing. Corn, live-stock, and pork, are the principal products. The county is well timbered, and has abundant water-power. Farms 272; manuf. 8; dwell. 412, and pop.—wh. 2,671, free col. 6, slaves 14—total 2,691. *Capital*: Princeton.

MERCER county, *N. Jer.* Situate W. middle, and contains 272 sq. m. Bounded E. by a branch of Raritan r., and W. by the Delaware, and drained by small affluents of both. Surface mostly even; soil very productive, and under high cultivation. Corn, wheat, rye, buckwheat, oats, and potatoes, are all fine crops. It has very superior gardens and orchards, and furnishes for the adjacent markets excellent vegetables and fruits, particularly apples and peaches. It has a large capital employed in manufactures of cotton and woolen goods, liquors, leather, earthen-ware, iron castings, and machinery, flour, cordage, paper, oil, and lumber. Farms 1,051; manuf. 191; dwell. 4,624, and pop.—wh. 25,987, free col. 1,999, sl. 6—total 27,992. *Capital*: Trenton. *Public Works*: Delaware and Raritan Canal; New Jersey R. R.; Belvidere Delaware R. R.; Trenton Branch R. R.; Camden and Amboy R. R.

MERCER county, *Ohio*. Situate on W. line, and contains 451 sq. m. Drained by St. Mary's and Wabash rivers and their branches. Surface gently undulating, and soil mostly fertile. Corn is the staple product. Wheat, oats, and potatoes are successfully cultivated, and some live-stock and pork exported. Farms 675; manuf. 9; dwell. 1,812, and pop.—wh. 7,401, free col. 811—total 7,712. *Capital*: Celina.

MERCER county, *Penn.* Situate N. W., and contains 618 sq. m. Drained by Shenango, Neshanock, Pymatuning, Deer, and Sandy creeks. Surface hilly and broken; soil generally fertile, and better adapted to grass than grain. Wheat, corn, buckwheat, rye, oats, and potatoes, are for the most part successful crops. Grazing demands the chief attention, and the dairies are large and very fine. The amount of wool sheared is very large, and live-stock, beef, and pork, are very heavy exports. It has abundance of water-power, bituminous coal, and iron ore, and is largely engaged in the manufacture of iron. Woolen goods, leather, and earthenware, are also extensively made. Farms 2,939; manuf. 150; dwell. 5,402, and pop.—wh. 82,851, free col. 291—total 83,192. *Capital*: Mercer. *Public Works*: Beaver and Erie Canal.

MERCER county, *Virg.* Situate S. W., and contains 533 sq. m. New r. forms the E. boundary, and unites in the N. with the Greenbrier, to form the Great Kanawha, Blue Stone, and East rivers. Brush and Lick creeks drain the co. Surface elevated, with a mountain range on the W., and extensive valleys in the E.; soil fertile in the lower

grounds, and generally best adapted to grazing. Corn, oats, and wheat, yield moderate crops. Farms 472; manuf. 2; dwell. 655, and pop.—wh. 4,018, free col. 27, sl. 177—total 4,222. *Capital*: Prince on. *Public Works*: Covington and Ohio R. R.

MERCER, t. and p. v., Somerset co., *Me.*: 24 m. N. by W. Augusta. Drained by Sandy r. in the N. W. corner, and a mill-pond makes part of the S. boundary. Soil fertile, and adapted to grain. It contains some mills and manufactories. The v. is situate centrally on a small pond, and contains a number of dwellings, stores, and workshops. Pop. of t. 1,186.

MERCER, p. o., Mercer co., *Oh.*: 103 m. W. N. W. Columbus.

MERCER, p. b., and cap. Mercer co., *Penn.*: on the N. side of Neshanock cr., 186 m. W. N. W. Harrisburg, and near the proposed line of the Alleghany Valley R. R. It contains the court-house and usual number of county buildings. It has a manufactory of copperas. There are 4 furnaces here; a charcoal hot-blast furnace of 1,000 tons annual capacity, a raw bituminous coal hot-blast furnace of 1,500 tons capacity, and 2 steam-power charcoal cold-blast furnaces of a capacity each of 1,350 tons. There are a number of stores and several manufactories in the b.; and here are published the "Western Press" (dem.), "Mercer County Whig" (whig), "Mercer County Luminary" (free soil), and "Free Presbyterian," all issued weekly. Pop. 1,014.

MERCERSBURG, p. b., Franklin co., *Penn.*: on a branch of Conococheague cr., 81 m. S. W. by W. Harrisburg. Incorporated in 1831. It is the seat of "Marshall College," founded in 1836, and had (in 1850) a president, 11 professors, 94 alumni, and 81 students, with a library containing 1,300 volumes. The German Reformed Theo. School, commenced in 1825, and had (in 1850) 2 professors, 18 students, and 121 alumni, with a library containing 6,000 volumes, is also situate here. Pop. 1,222.

MERCHANT'S BLUFF, p. o., Darlington dist., *S. Car.*: 53 m. E. N. E. Columbia.

MEREDITH, t. and p. v., Delaware co., *N. Y.*: 65 m. S. W. Albany. Drained by branches of Susquehanna and Delaware rivers. Surface uneven, and somewhat broken; soil fertile. It has good water-power and several mills and manufactories, also a number of workshops. The v. is situate on an elevation in S. W., and contains several dwellings and stores. Pop. of t. 1,634.

MEREDITH BRIDGE, sta., Belknap co., *N. Hamp.*: on the line of the Boston, Concord, and Montreal R. R., 44 m. from Concord.

MEREDITH CENTRE, p. o., Belknap co., *N. Hamp.*: 25 m. Warren, and 27 m. N. Concord.

MEREDITH MILLS, p. o., Fulton county, *Ind.*: 85 m. N. Indianapolis.

MEREDITH'S TAVERN, p. o., Monongalia co., *Virg.*: 208 m. N. W. Richmond.

MEREDITH VILLAGE, p. v., Belknap co., *N. Hamp.*: at the outlet of Winnipiseogee Lake, and on the line of the Boston, Concord, and Montreal R. R., 37 m. N. Concord.

MEREDOSIA, p. v., Morgan co., *Ill.*: on the E. bank Illinois r., 6 m. above Naples, and 49 m. W. Springfield. The name is a corruption from Marais d'Ogee. The v. is situate on an elevated sand ridge, and has a good landing at ordinary stages of the water. Here are several mills, stores, and a considerable population. Meredosia may be considered as the port of Jacksonville, and is the outlet of a fine country.

MERIDEN, t. and p. v., New Haven county, *Conn.*: 17 m. S. W. Hartford. Drained by Quinnipiack r. and its branches. Surface uneven, in parts hilly; soil fertile. There are several manufactories here, principally in hard-ware. The v. is on a branch of Quinnipiack r., and on the line of the New Haven, Hartford, and Springfield R. R., 18 m. from New Haven, and 44 m. from Springfield. It contains several dwellings and stores, and a number of workshops. Pop. of t. 3,526.

MERIDEN, p. o., Sullivan co., *N. Hamp.*: 35 m. W. N. W. Concord.

MERIDIAN, p. o., Mercer county, *Ill.*: 113 m. N. N. W. Springfield.

MERIDIAN, p. o., Cayuga co., *N. Y.*: 151 m. W. by N. Albany.

MERIDIAN SPRINGS, p. v., Hinds co., *Miss.*: at the source of Bayou Chitto cr., 12 m. N. Jackson.

MERIDIANVILLE, p. v., Madison county, *Ala.*: 166 m. N. Montgomery. The Meridian line of the U. S. surveys of Northern Alabama passes through this place.

MERIVILLE, p. o., Montgomery co., *Tenn.*: 87 m. N. W. Nashville.

MERMAID, p. o., New Castle co., *Del.*: 25 m. N. Dover.

MERMETAU river, *La.* This river drains the extensive prairies of S. W. Louisiana, and after a course of some 200 m. falls into the Gulf of Mexico, 200 m. W. of the Mississippi r. The country through which it flows is covered with grass, excepting narrow lines of timber along the water-courses. Live oak is found on its borders. The r. passes through a lake of the same name; at its mouth it is very shoal, not having more than three feet of water on the bar.

MEROM, p. v., Sullivan co., *Ind.*: on the E. bank of the Wabash r., 91 m. S. W. by W. Indianapolis.

MERONA, p. v., M'Henry co., *Ill.*: on the borders of a prairie, 180 m. N. E. Springfield.

MERRELL, p. o., Greene county, *Ga.*: 23 m. N. by E. Milledgeville.

MERRICK, p. o., Queens co., *N. Y.*: 135 m. S. Albany.

MERRILLSVILLE, p. o., Franklin co., *N. Y.*: 127 m. N. $\frac{1}{2}$ W. Albany.

MERRILLTOWN, p. v., Travis co., *Tex.*

MERRILLVILLE, p. o., Lake county, *Ind.*: 139 m. N. W. Indianapolis.

MERRIMAC county, *N. Hamp.* Situate S. centrally, and contains 847 sq. m. Drained by the Merrimac r. and its branches—W. Blackwater and Contoocook, and E. Soucook and Suncook rivers. Surface very uneven, in the N. rugged and mountainous; soil mostly fertile, and excellent pasture land. Corn, wheat, potatoes, and rye are the staples. It has very fine dairies, and shears an immense amount of wool. Sunapee Lake lies in the W., and on the Merrimac it has almost unlimited water-power, most of which is occupied by large cotton and woolen factories, and numerous lumber, flour, and grist mills. It also manufactures leather, earthen-ware, glass, paper, books, etc. In the E. is a quarry of granite, highly valued for building purposes. Farms 3,220; manuf. 215; dwell. 7,400, and pop.—wh. 33,864, fr. col. 81—total 33,445. *Capital*: Concord. *Public Works*: Portsmouth and Concord R. R.; Contoocook Valley R. R.; Concord R. R.; Concord and Claremont R. R.; Concord and Montreal R. R.; Northern R. R.; New Hampshire Central R. R.

MERRIMAC river, *N. Hamp.* and *Mass.*: one of the largest rivers of New England. It is formed by the union of Pemegewasset r., which rises near the Notch of the White Mountains, with Winnipiseogee r., which proceeds from the lake so called. The junction takes place at Sanbornton, 70 miles below the source of the former, which is the main stream. Its general course is S. by E. until it enters the State of Massachusetts, when it curves to a general course of nearly N. E. and E., until it falls into the Atlantic, a little below Newburyport. It is navigable for vessels of 200 tons to Haverhill, and by means of the Middlesex Canal from Chelmsford to Boston harbor, and canals and locks around the Falls, a boat navigation is opened to Concord, New Hampshire. Bow Canal, a few miles below Concord, completed in 1812, cost \$20,000; six miles farther down, Hookset Canal cost \$15,000, overcoming a fall of 17 feet; Amoskeag Canal cost \$50,000, overcoming a fall of 45 feet; below Amoskeag Canal the r., for 9 m., is converted into the Union Canal, overcoming six distinct falls; and 5 m. below are Cromwell's Falls, made passable by a canal. Union Canal, including that of Cromwell's, cost \$50,000; 15 m. below, in Massachusetts, is Wecassee Canal, cost \$14,000; and 3 m.

below is the entrance of the Middlesex Canal. The r., by means of these canals, furnishes an incredible amount of water-power, which has resulted in the establishment of the principal manufacturing towns of the Union along its course. It is bridged in almost every town along its banks.

MERRIMAN'S SHOP, p. o., Prince Edward co., *Virg.*: 59 m. S. W. Richmond.

MERRITT'S BRIDGE, p. o., Lexington dist., *S. Car.*

MERRITTSTOWN, p. v., Fayette co., *Penn.*: on W. side of Dunlap's cr., 156 m. W. by S. Harrisburg. It contains a number of dwellings, stores, and a few workshops.

MERRITTSVILLE, p. v., Greenville dist., *S. Car.*: on the N. fork of Saluda r., 106 m. N. W. Columbia.

MERRIWETHER county, *Ga.* Situate W. middle, and contains 476 sq. m. Bounded E. by Flint r., and drained by its branches, and W. by branches of the Chattahoochee. Surface pleasantly diversified; soil very fertile. Cotton is the great staple, and commands almost exclusive attention. Corn and wheat yield more than average crops, and neat cattle and swine are reared in large numbers. In the S. are white sulphur and warm springs. Farms 824; manuf. 0; dwell. 1,423, and pop.—wh. 8,451, fr. col. 2, sl. 7,999—total 16,476. *Capital*: Greenville.

MERRYALL, p. o., Bradford county, *Penn.*: 113 m. N. Harrisburg.

MERRY HILL, p. v., Bertie co., *N. Car.*: 103 m. E. by N. Raleigh.

MERRY MEETING bay, *N. Hamp.*: a S. E. branch of Winnipisogee Lake, 1,600 rods long.

MERRY MEETING bay, *Me.*: an expansion of Kennebec r., at the confluence of Androscoggin r., above Bath.

MERRY MOUNT, p. o., Warren co., *N. Car.*: 53 m. N. N. E. Raleigh.

MERRY OAKS, p. v., Barren county, *Ky.*: 102 m. S. W. Frankfort.

MERRY OAKS, p. o., Hamilton co., *Tenn.*: 114 m. S. W. Nashville.

MERRISON'S CROSS ROADS, p. o., Laurel county, *Ky.*: 78 m. S. S. E. Frankfort.

MERTON, t. and p. v., Waukesha co., *Wisc.*: 52 m. E. by N. Madison. Drained by several streams, and contains several small lakes. Surface undulating; soil fertile. The v. is connected with Milwaukee by a plank-road. Pop. of t. 1,763.

MERWINSBURG, p. o., Monroe co., *Penn.*: 97 m. N. E. Harrisburg.

MESOPOTAMIA, t. and p. v., Trumbull co., *Ohio*: 143 m. N. E. Columbus. Drained by Grand r. and several affluents. Surface undulating; soil fertile. There are in the t. a number of mills and workshops. Pop. 959.

MESSINA SPRINGS, p. o., Onondaga co., *N. Y.*: 129 m. W. by N. Albany.

MESSONGO, p. o., Accomac co., *Virg.*: 104 m. E. by N. Richmond.

METAMORA, p. v., Woodford co., *Ill.*: 69 m. N. by E. Springfield. The v. is on the border of fine prairie land.

METAMORA, p. o., Franklin co., *Ind.*: on the N. side of White Water r., 58 m. E. S. E. Indianapolis.

METAMORA, t. and p. o., Lapeer co., *Mich.*: 67 m. E. by N. Lansing. Drained by forks of Flint r., which have their sources in this t. Surface undulating; soil fertile. It contains a few stores and mills. Pop. of t. 821.

METAMORA, p. v., Fulton co., *Ohio*: on S. side Ottawa r., 129 m. N. N. W. Columbus.

METAMORA, p. o., Pike county, *Penn.*: 113 m. N. E. Harrisburg.

METEA, p. v., Cass co., *Ind.*: 79 m. N. Indianapolis.

METEDCOUCK, p. v., Ocean co., *N. Jer.*: on the S. side, and near the mouth of Metedcouck r., 33 m. S. by E. Trenton.

METHUEN, t. and p. v., Essex co., *Mass.*: on the N. bank of the Merrimack r., which forms its S. boundary, 25 m. N. $\frac{1}{2}$ W. Boston. Drained by Spigot r., which has a waterfall of from 30 to 35 feet, affording excellent hydraulic

power. Surface uneven; soil fertile, yielding abundantly. There are a number of mills and manufactories in the t. Wood is to be found here in abundance. There is also an extensive bed of excellent peat. The v. is romantically situated on an eminence on both sides of Spigot r., at the falls, and on the line of the Manchester and Lawrence R. R., 24 m. Manchester, and contains a number of stores, several mills and manufactories, and some workshops. Pop. of t. 2,543.

METOMEN, t. and p. o., Fond du Lac co., *Wisc.*: 52 m. N. by E. Madison. Drained by tributaries of Wisconsin r. Pop. 766.

METOMPKIN, p. o. and isle, Accomac co., *Virg.*: on the Atlantic coast, 107 m. E. by N. Richmond.

METROPOLIS CITY, p. v., and cap. Massac co., *Ill.*: on a high bank on the N. side of the Ohio r., 194 m. S. S. E. Springfield. It contains the court-house and usual number of public buildings, and 427 inhabitants. The "Metropolitan" (dem.), and "Metropolis Register" (whig), are weekly issues.

METS, p. o., Steuben county, *Ind.*: 143 m. N. N. E. Indianapolis.

METUCHEN, p. v., Middlesex co., *N. Jer.*: on the line of the New York and Philadelphia R. R., 26 m. Jersey City, and 30 m. N. E. Trenton.

MEXICO, p. v., Miami co., *Ind.*: on the E. side of Eel r., 73 m. N. Indianapolis.

MEXICO, p. o., Jefferson county, *Ala.*: 96 m. N. by W. Montgomery.

MEXICO, t. and p. v., Oxford co., *Me.*: 35 m. W. N. W. Augusta. Drained by Webb's branch on the E., Androscoggin r. on the S. boundary, and by Swift brook on the W., near the mouth of which is the village. Soil fertile, and adapted to wheat. Pop. 481.

MEXICO, p. v., and cap. Audrain co., *Mo.*: on the E. side of the S. fork of Salt r., 44 m. N. N. E. Jefferson City. It contains the court-house.

MEXICO, t. and p. v., Oswego co., *N. Y.*: 137 m. N. W. Albany. Drained by Salmon cr., which flows into Lake Ontario, and forms the N. boundary. Surface varied; soil clay loam, and very fertile. Water-power is very good. There are in the t. several mills and factories and a number of workshops. The v. is situate on Salmon cr., and is the site of a number of mills, etc. Colosse, Texas, and Union Square are names of other post-offices in the town. Pop. of t. 4,221.

MEXICO, p. v., Wyandott co., *Ohio*: on the E. side of Sandusky r., 71 m. N. N. W. Columbus.

MEXICO, p. v., Juniata co., *Penn.*: on the S. side of Juniata r., 33 m. N. W. Harrisburg, and 44 m. from Harrisburg by the Pennsylvania R. R., which passes through the village.

MEXICO, Gulf of: a great inland sea between the coasts of Mexico and the United States—that part within the United States washing the shores of Texas, Louisiana, Mississippi, Alabama, and Florida. It receives the Mississippi, the Rio Grande, and a number of other but smaller rivers from the central valley and the southern slope.

MEYER'S MILLS, p. o., Somerset co., *Penn.*: 127 m. W. Harrisburg.

MEYERSTOWN, p. v., Lebanon co., *Penn.*: on the head waters of Tulpehocken cr., 31 m. E. N. E. Harrisburg. The Union Canal passes the village.

MIAMI county, *Ind.* Situate N. centrally, and contains 376 sq. m. Drained by the Wabash and its branches, Eel and the Mississinewa rivers and Deer cr. Surface generally level, somewhat hilly on the Wabash. About one-half is prairie or bottoms, the rest well timbered, and the soil universally fertile. Corn is the leading staple, and pork a large export. Most of the grains succeed well, and the raising of horses and stock receives much attention. The county has good water-power, and large and rapidly increasing manufactures of flour, lumber, iron castings, machinery, leather, etc. Farms 1,134; manuf. 43; dwell. 1,944, and pop.—wh. 11,293, fr. col. 11—total 11,304. *Capital*:

Peru. *Public Works*: Wabash and Erie Canal; Peru and Indianapolis R. R., with the Goshen Extension.

MIAMI county, *Ohio*. Situate W. middle, and contains 414 sq. m. Drained by Miami r. and its branches, Panther, Greenville, and Stillwater creeks. Surface slightly uneven; soil very productive, and well adapted to grazing. Corn, wheat, rye, and oats are large staples. The dairies are very fine, wool is sheared largely, and beef and pork are heavy exports. Water-power is plenty, and flour, leather, woollens, earthen-ware, and liquors are manufactured. Farms 1,882; manuf. 177; dwell. 4,891, and pop.—wh. 24,393, fr. col. 598—total 24,996. *Capital*: Troy. *Public Works*: Miami Canal; Columbus, Urbana, and Piqua R. R.

MIAMI, p. v., and cap. Dade co., *Flor.*: on Key Biscayne Bay, 429 m. S. E. Tallahassee. Here is a flourishing v., with ample accommodation for invalids, and a climate unsurpassed for equable temperature and elasticity of the atmosphere.

MIAMI, p. v., Saline co., *Mo.*: on the S. bank of the Missouri r., 68 m. N. W. Jefferson City.

MIAMI, t. and p. o., Hamilton co., *Ohio*: on the N. bank of the Ohio r., 103 m. S. W. Columbus. The t. is bounded on the N. and W. by the Miami r., several small branches of which serve to drain it. Surface, a series of beautiful hills; soil very productive, and under high cultivation, with some excellent wood lands. There are some fine mill-sites on the banks of the rivers, and several manufactories have been established. North Bend and Cleves are names of places: the former is the place originally laid out by Judge Symmes for the great city of the West. All traces of a village have disappeared, and it is now only noted as the former residence and grave of the lamented President Harrison, a short distance from which is also the grave of the

Hon. John Cleves Symmes. The latter is a beautiful and thriving village, with about 800 inhabitants. The proposed line of the St. Louis and Cincinnati R. R. crosses the S. part of the t. Pop. 1,557.

MIAMI, p. v., Miami county, *Ind.*: on Deer cr., 53 m. N. Indianapolis. The contemplated line of the Peru and Indianapolis R. R. passes through the village.

MIAMI river, *Ohio*: a large tributary of the Ohio r., which rises in Hardin county, and after a S. W. course of 100 m., enters the Ohio in the S. W. corner of the State. It is 200 yards wide at its mouth; the current is very rapid, but it is navigable only to a limited extent for 75 m., and its waters are connected with those of the Auglaize, a S. branch of Maumee r., by a portage of only 5 miles. It receives many important branches, and affords extensive and valuable water-power, which has been improved at several points.

MIAMISBURG, p. v., Montgomery co., *Ohio*: on the Miami Canal, 53 m. N. Cincinnati, and on E. side of the Miami river, 71 m. W. by S. Columbus. The v. communicates with the Cincinnati, Hamilton, and Dayton R. R. by a bridge across the river, 24 m. N. by E. from Hamilton. It contains a number of fine stores and warehouses, some mills and factories, and about 160 dwellings.

MIAMISVILLE, p. o. and sta., Clermont co., *Ohio*: on the line of the Little Miami R. R., 17 m. from Cincinnati, and 81 m. S. W. Columbus.

MIANUS, p. o., Fairfield co., *Conn.*: 45 m. S. W. Hartford.

MICANOPT, p. o., Alachua co., *Flor.*: 119 m. E. S. E. Tallahassee.

MICCOSUKEE, p. v., Leon co., *Flor.*: on the W. border of Miccosukee Lake, 19 m. N. E. Tallahassee.

MICHAELSVILLE, p. o., Harford co., *Md.*: 46 m. N. by E. Annapolis.

THE STATE OF MICHIGAN.

MICHIGAN, consisting of two peninsulas, lies between latitudes 41° 45' and 45° N., and between longitudes 82° 25' and 90° 34' W. from Greenwich, or 5° 23' and 13° 32' from Washington. It is bounded* north, north-east, and east by Canada, from which it is separated by Lake Superior, the Sault St. Marie, Lake Huron, the Strait and Lake St. Clair, Detroit Strait, and Lake Erie; on the south by the States of Ohio and Indiana; and on the west by Lake Michigan, which divides it from Illinois and Wisconsin, and the Monomonic and Montreal rivers, separating it from Minnesota Territory. The total land surface comprises an area of 56,243 square miles, and the area of the waters within the constitutional limits of the State is computed at 86,324 square miles. The lake coast of Michigan is more than 1,400 miles long.

The location of the separate peninsulas determines their nomenclature. The *Southern*, or Michigan Proper, is bounded on the south by Indiana and Ohio; on the east by Lake Erie, Detroit Strait, the Lake and Strait St. Clair, and Lake Huron; on the north by the Strait of Michilimackinac, and on the west by Lake Michigan. In these limits are comprised nearly two-thirds the land surface of the State. The *Northern* Peninsula extends from the Montreal and Monomonic rivers to the St. Marie River, and has Lake Superior on the north and Lake Huron on the south of it.

The surface of the *Northern Peninsula* is much diversified by mountains, hills, valleys, and plains. The eastern portion, from the head of the peninsula to the "Pictured Rocks," is represented as undulating, rising gradually from lakes Michigan and Superior to the interior, where it terminates in a more elevated table-land, with a shore on the north sandy, and on the south calcareous rock. Westward the country becomes broken into hills, with intervening plains, until it is interrupted by the Porcupine Mountains, which form the dividing ridge separating the waters of Lake Superior from those of Lake Michigan. The highest peaks toward the western boundary have been estimated at from 1,800 to 2,000 feet high. The ridge is often broken through by the larger streams, bordered by extensive valleys. The spurs of these mountains project in different directions, often exhibiting their denuded cliffs upon the northern shores. This ridge has a greater proximity to the northern coast, which it lines with rock, from the Pictured Rocks to the western extremity of this peninsula, except where interrupted by occasional plains of sand. The structure of a part of the northern and eastern portion is of the primitive, and the southern of the secondary formation. Many parts exhibit little else than "developments of sublime scenery, and some portions appear like a dreary, deserted solitude, surrounded by all the frightful terrors incident

* The boundaries of Michigan, as defined by an Act of Congress, passed 15th June, 1836, are as follows: "Beginning at the point where a line drawn direct from the southern extremity of Lake Michigan to the most northerly cape (called North Cape) of Maumee (Miami) Bay, intersects the eastern boundary line of the State of Indiana, and running thence with the said line to the said most northerly cape of the Maumee Bay,—and thence from the said north cape of the said Bay, north-east to the boundary line between the United States and the province of Upper Canada in Lake Erie,—thence, with the said boundary line between the United States and Canada, through the Detroit River, Lake Huron, and Lake Superior, to a point where the said line last touches Lake Superior" (being the mouth of Pigeon River),—"thence, in a direct line through Lake Superior, to the mouth of the Montreal River,—thence, through the middle of the main channel of the said River Montreal, to the middle of the Lake of the Desert,—thence, in a direct line to the nearest head water of the Monomonic River,—thence, through the middle of that fork of the said river first touched by the said line, to the main channel of the said Monomonic River,—thence, down the centre of the main channel of the same, to the centre of the most usual ship channel of the Green Bay of Lake Michigan,—thence, through the centre of the most usual ship channel of the said bay, to the middle of Lake Michigan,—thence, through the middle of Lake Michigan, to the northern boundary of the State of Indiana, as that line was established by the Act of Congress of the nineteenth of April, eighteen hundred and sixteen,—thence, due east, with the north boundary line of the said State of Indiana, to the north-east corner thereof,—and thence south, with the east boundary line of Indiana, to the place of beginning."

to such northern latitudes. The greater portion of the peninsula, the sand plains excepted, is covered with immense forests, principally of white and yellow pine, a portion of spruce, hemlock, birch, oak, and aspen, with a mixture of maple, ash, and elm, especially upon the rivers. Of the pine lands, there are millions of acres stretching between the Sault St. Marie, the Ontonagon, and Montreal rivers. To convert this material into lumber, there are discharging into the lakes forty large and sixty smaller streams, which will furnish a hydraulic power sufficient for all purposes. These streams, the largest of which does not exceed 150 miles, irrigate the country abundantly, and by their facilities for navigation, furnish easy access to the interior. The head branches of the opposite lake-streams often interlock, and when they do not communicate, furnish an easy portage from one to the other, by which navigation between the lakes is easily effected with the lighter craft. The lake coast of this section of the State has been estimated at between seven hundred and eight hundred miles in length, and that five-sevenths of the entire peninsula may be reached by the common lake vessels. This peninsula (the northern part of which has sometimes been called the *Siberia* of Michigan), it is probable will never be noted for its agricultural productions, or immediately for the density of its population. With the exception of the fertile intervals on the rivers, the soil of the northern portion has all the evidences of sterility, as is exhibited in its mountains and barren sand plains. The southern part is more congenial in climate and soil. This is the limestone region, which extends to an undetermined line, separating the primary and secondary formations. Throughout this region the sugar maple tree is abundant, interspersed with the white and red oak, the beech, and occasionally tracts of spruce and other forest trees. It is here that the more even and fertile tracts of land are found, and where, at some future day, will cluster the agricultural population of the peninsula. The soil is admirably fitted for grasses and all esculent roots; the potato also finds here a congenial locality, and the ordinary garden vegetables grow luxuriantly. Wheat and other small grains may be cultivated, but for corn the country and climate appears to be uncongenial. The lake fisheries, on both sides of the peninsula, are destined to be of no mean importance to the welfare of the settlers.* In variety numerous, and in the greatest abundance, the fisheries in these waters have long attracted the attention of those counting the resources of the section. The Indians formerly derived a considerable portion of their subsistence from this source, and from the first settlements of the French to the present day their value has always been asserted. But this peninsula is also the great mineral region—not only of the State, but of the Union, and on that interest will its future prosperity mainly depend. Iron* and copper are found in all the western and northern parts, from the Pictured Rocks and the Keweenaw Point to the Montreal River, the iron being chiefly a magnetic ore, equal in purity and quality to that of Missouri, and the copper, often in native boulders, more plentiful than elsewhere occurring. The production of these minerals, however, has hitherto been small, on account of the distance and inaccessible nature of the country; but the time has now arrived for the mines to be opened on an extensive scale, and such, indeed, has in a partial degree been accomplished; yet, until the difficulties opposing navigation to Lake Superior be overcome, the expense of transportation will be too great to admit of a full development of the wealth of this region. It has been proposed to form this peninsula into the State of North Michigan, and thus separate it from Michigan Proper politically, as it now is physically separate. There are many reasons that would indicate the necessity of such a change.

The *Southern Peninsula* has generally a level or rolling surface, and in some parts is broken and hilly. The eastern portion, for a distance varying from 5 to 25 miles from the shore, is almost a dead level; but westward the land rises into an irregular ridge, in some parts of which it attains a height of from 600 to 700 feet above the sea level. This ridge has a much greater proximity to the eastern than to the western margin, and serves to separate the tributaries discharging into Lake Michigan from those flowing into Huron, the Strait, and Erie. The portion of the southern part of the State denominated hilly, branches off from the principal ridge in different directions through the adjoining counties. The hills consist of an irregular assemblage of somewhat conical elevations, occasionally attaining a height of from 150 to 200 feet, but ordinarily of not more than from 80 to 40 feet. From the main portion of the table land passing westward to Lake Michigan, the country, with the exceptions noted, assumes a very gradual descent, exhibiting a gently undulating but very rarely broken surface. The ridge of land before spoken of, again takes its rise near the mouth of Au Sable river, and is seen from the lake to stretch on for many miles along and beyond the coast. This constitutes the Highlands of Au Sable. Its height has not been ascertained, but it has hitherto been estimated to be much the highest part of the peninsula. A considerable portion of it has generally been unfavorably represented, as being interspersed with sand ridges and marshes, having an abrupt descent from the highlands eastward, and a gradual slope toward the west. Taking the great extent of the lower peninsula into consideration, it may, in a comparative point of view, be said to possess a great evenness of surface, with a sufficient declivity, however, to allow its waters to drain off in lively and healthy streams. Such are the general features of the interior. The coasts form an exception. The coast of both Michigan and Huron is sometimes exhibited in high, steep banks. The coast of the former is frequently seen in bluffs and banks of sand, varying in height from 100 to 300 feet. To the traveler, the country presents an appearance eminently picturesque and delightful. Through a considerable portion the surface is so even and free from brush, as to admit of carriages being driven through it, with the same facility as over the prairie or common road. The lowering forest and grove, the luxuriant prairie, the crystal lake and limpid rivulet, are so frequently and happily blended together, especially in the southern section of the peninsula, as

* The United States Geologists thus speak of the iron of the Lake Superior Land District in the Northern Peninsula of Michigan, in their report for 1861. In designating the lands containing iron * * * the beds are found on a scale of such magnitude, and the ore is of such purity, that it requires little search to discover them, and little caution in pronouncing on their value. This iron region is, perhaps, the most valuable and extensive in the world, for the manufacturing of the finer varieties of wrought iron and steel. When we consider the immense extent of the district, the mountain masses of ore, its purity and adaptation to the manufacture of the most valuable kinds of iron, and the immense forests which cover the surface, suitable for charcoal, this district may be pronounced unrivaled. * * * The iron occurs in a metamorphic formation, bounded by two granite belts, one on the north, and the other on the south, and it is prolonged westerly beyond the Machiganig River. This formation consists of hornblende, talcose, and chlorite slates, with associated beds of hornblende and feldspar rocks, evidently trappian in their origin. The ore consists mainly of the specular or peroxide of iron, with an admixture of the fine-grained magnetic. In some instances, the whole ridge or knob appears to consist of one mass of pure ore—so pure that no selection is required, but an unlimited quantity might be quarried, or picked up in loose blocks around the slopes. In others the ore is mixed with seams of quartz or jasper which renders it less valuable, and requires more care in the selection. The iron, in such cases, presents a banded structure, or alternating seams of steel grey and brilliant red. The appearance of a mountain cliff thus made up is extraordinary. This region possesses an inexhaustible supply of iron ore, of the best quality, removed from twelve to thirty miles from the lake shore, with a soil by no means sterile, and covered with a heavy growth of maple, yellow birch, pine, and oak—and that it is to this source that the great West will ultimately look for the finer varieties of bar iron and steel. The "Iron Mountain" of Missouri becomes insignificant compared with these immense deposits. This region also contains extensive beds of marble. Flesh red is the prevailing tint, with veins of a deeper hue. The Novaculite slates are valuable, affording hones equal to the Turkey or Scotch stones

MICHIGAN.

to confer additional charms to the high finishing of a landscape, the beauty of which is probably second to that of no other part of the Union.

The geological structure of Michigan is extremely various. The Southern Peninsula is exclusively secondary in its formation. The Northern Peninsula, bordering on Lake Superior, is primitive, but the portions bordering on Lake Michigan and Green Bay secondary. Primitive boulders, or "lost rocks," are discoverable in every part of the State, especially upon the coasts, and upon the margin or in the beds of the rivers. These are found of enormous dimensions on the coast of Huron, especially north of Saginaw Bay. Here granite masses exist, weighing from 1 to 100 tons, or even more. Michigan bears evident marks of once having been partially or entirely inundated. It is skirted by a belt of heavily timbered land, about 25 miles deep, surrounding the entire lake coast, which lies several feet below the adjoining plains and openings, and seems to have been the bed of the lakes long after the waters receded from the plains and burst their barriers through the Gulf of St. Lawrence. The Southern Peninsula is of the same geological formation as Western New York, its rocks consisting of mostly horizontal strata of limestones, sandstones, and shales; the limestones being generally found in the beds of the rivers, near the lakes, and the sandstones in the interior. The soil covering these shales is either alluvial or diluvial, and has a depth varying from 1 to 150 feet. The upper sandstone occupies the central and more elevated portions of the peninsula, and discovers itself often immediately under the surface of the soil. Its thickness and general inclination are uncertain. Quarries of this stone have been opened in numerous localities on and south of Grand River. It generally admits of being easily quarried, furnishing a good building material, and is frequently used for grindstones. The stratum underlying the sandstone is a gray-colored limestone. It has been traced from the rapids of the Maumee, in Ohio, to Charity Islands of Saginaw Bay, and has been noticed at the river Raisin, the bed of which it forms at several places, at Stony Point, and other points along the coast of Lake Erie, and in numerous other places. Associated with this rock is found calcareous spar, strontian, barytes, gypsum, etc., varying with locality. The limestone of Michigan is for the most part of a subgranular structure, quite compact, and well adapted to agricultural purposes, and though at many points it is capable of producing a valuable lime upon burning, it is not unfrequently too silicious to answer that purpose. Below the gray limestone formation the graywacke, or lower sandstone, stratum is supposed to exist. This is noticed on the Lake Huron shore, on the St. Mary's Strait, at the Pictured Rocks, and at various other points in the upper peninsula. Gypsum is found in several places; and in all those localities where the superior stratum, or carboniferous limestone formation exists, there are indications of the existence of bituminous coal. Marl is abundant; it is composed of deposits of recent shells, and when submitted to the process of calcination, it has been found to produce lime of a superior quality. It is likewise an excellent manure for lands when judiciously applied. Deposits of marly clay are quite common. A fine bed occurs in the county of Macomb, near the middle branch of Clinton River, and it exists also near Ann Arbor, where pottery is manufactured from it with success. The sand comprising the downs that border Lake Michigan shore is said to be of a quality in some instances fitted for the manufacture of glass. The best bed of sand for this purpose, however, occurs near Monroe; it is composed of small, snowy white, angular grains of pure quartz, which has proceeded from the disintegration of a silicious lime rock.

In the upper peninsula the great mineral region lies in the primitive formation; here are the most stupendous copper and iron deposits in the world, containing a sufficiency of mineral to supply the markets for many centuries. Of the iron mention has been made heretofore. The great copper region is principally confined to the Keweenaw peninsula. The extreme length of the deposit is about 185 miles, and it has a width varying from 1 to 6 miles. The mineral, however, does not exist in every portion of this region, for miles may intervene and no trace be ascertained. In some of the river beds immense boulders of native copper are met with. These mines are now being actively wrought, and are in general proving remunerating to the companies working them, but until the navigation of Lake Superior is opened to shipping, the expenses of transportation to market will prove a formidable obstacle to the full development of the capacities of the mines. Salt springs are also known to exist in different parts of the State. The saline district lies mostly north of a line drawn from Monroe to Grandville. Medicinal waters, mostly chalybeate, and sulphur springs, also occur in numerous localities, and are useful in cutaneous and chronic disorders generally. One near Havre is 35 feet deep and 150 feet in circumference, and produces a volume of water sufficient to propel a run of stones.

The rivers of Michigan are in general comparatively smaller but more numerous, having in the lower peninsula a greater length from their mouths to where they head, than is commonly observed in most other sections of the Union. This latter circumstance may, perhaps, be attributed not only to the uniformity of descent, but to the more favorable structure of the interior to furnish them constant supplies. The Detroit, St. Clair, and St. Mary's are more properly called straits and not rivers. They are tranquil, deep, copious, and expansive streams, uniting the great lakes, the waters of which they conduct toward the ocean. The largest rivers of the lower peninsula are the Grand, Maskegon, St. Joseph, and Kalamazoo, which flow into Lake Michigan; the Cheboygan and Thunder Bay rivers, that discharge into Lake Huron, and the Saginaw into Saginaw Bay. The streams flowing eastward are small, owing to the position of the dividing ridge, which is considerably east of the middle of the peninsula; the largest are the Raisin, Huron, Clinton, and Rouge. The largest rivers of the upper peninsula are the Montreal, the Great Iron, the Ontonagon, the Huron, the St. John's, and the Chocolate, which put into Lake Superior; and the Menomomie and Manistee, which flow, the former into Green Bay, and the latter into Lake Michigan. There are several other considerable streams, though of a smaller grade, and these, with few exceptions, are lively, pure, and healthy, supplying mill-power, and draining the fine agricultural lands through which they course.

Michigan is encompassed by five lakes, four of which are the largest collections of fresh water on the globe. These are Lake Superior, Lake Michigan, Lake Huron, Lake St. Clair, and Lake Erie, which are connected by the Straits of Detroit, St. Clair, Michilimackinac, and St. Mary. Of these immense Mediterranean waters, *Lake Superior* is by far the largest. It lies directly north of the upper peninsula, and the greater part of its southern coast is bordered by it. *Lake Michigan* is the second in size. It is a long narrow lake, stretching a little north-easterly between the lower peninsula and the States of Wisconsin and Illinois. The northern part, together with the straits, separate the two peninsulas from each other. *Lake Huron* is next in dimensions, and is situate on the north-eastern border of Lower Michigan, separating it from Canada West. The shape of this lake is extremely irregular; its principal indentations are Saginaw Bay, which extends down into the interior, and two others, one immediately north of Manito islands, and the other south-east of them. The latter, sometimes called the Manito Bay or Georgian Lake, is very large, estimated at one-fourth of Lake Huron. It empties through the Strait St. Clair, into *St. Clair Lake*, the smallest of the five bordering on Michigan, and this again discharges itself through Detroit Strait into *Lake Erie*. More than 80 miles of this latter borders Michigan, and opens to the State a free navigation to the principal ports along its coasts, Buffalo, Dunkirk, Erie, Sandusky, etc. Nor is this

MICHIGAN.

State merely surrounded by lakes, but the interior is interspersed with them from one border to the other. The country indeed is literally maculated with small lakes of every form and size, from an area of 1 to 1,000 acres, though, as a general rule, they do not perhaps average 500 acres in extent. They are sometimes so frequent that several of them may be seen from the same position. They are usually very deep, with gravelly bottoms, waters transparent, and of a cool temperature at all seasons. This latter fact is supposed to be in consequence of springs which furnish them constant supplies. Water fowl of various sorts inhabit their shores, and their depths are the domain of abundance of fish, trout, bass, pike, pickerel, dace, perch, cat-fish, sucker, bull-head, etc., which often grow to an extraordinary size. It is usual to find some creek or rivulet originating in these, but what is a singular fact, and not easily accounted for, many of these bodies of living water have no perceptible outlet, and yet are stored with fish. A lake of this description, with its rich stores of fish and game, forms no unenviable appendage to a farm, and is properly appreciated. But with all its length of lake coast, Michigan can boast of but few good harbors, yet there are several that afford excellent shelter from the storms that frequently sweep over these great inland seas, and lash them into turmoil.

Michigan is divided into 43 counties, the general statistics of which and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 71,616; of families, 72,611; and of inhabitants, 397,654; viz., whites 395,097—males 208,471, and females 186,626; free colored, 2,557—males 1,412, and females 1,145. Of the whole population there were, *deaf and dumb*—wh. 121, fr. col. 1—total 122; *blind*—wh. 122, fr. col. 0—total 122; *insane*—wh. 135, fr. col. 1—total 136, and *idiotic*—wh. 187, fr. col. 3—total 190. The number of free persons born in the United States was 341,591, the number of foreign birth 54,852, and of birth unknown 1,211; *natives* population originated as follows: Me. 1,117, N. Hamp. 2,744, Verm. 11,118, Mass. 8,167, R. I. 1,031, Conn. 6,751, N. Y. 183,756, N. J. 5,572, Penn. 9,451, Del. 368, Md. 537, Dist. of Col. 45, Virg. 1,504, N. Car. 312, S. Car. 31, Ga. 63, Flor. 12, Ala. 19, Miss. 34, La. 30, Tex. 4, Ark. 25, Tenn. 101, Ky. 402, Oh. 14,677, *Michigan* 140,643, Ind. 2,098, Ill. 496, Mo. 92, Ia. 59, Wisc. 332, Calif. 3, Territories 36; and the *foreign* population was composed of persons, from—England 10,620, Ireland 13,430, Scotland 2,361, Wales 127, Germany 10,070, France 945, Spain 10, Portugal 2, Belgium 113, Holland 2,542, Turkey 2, Italy 12, Austria 21, Switzerland 113, Russia 75, Denmark 13, Norway 110, Sweden 16, Prussia 190, Sardinia 2, Greece 1, China 1, Asia 0, Africa 3, British America 14,003, Mexico 4, Central America 0, South America 5, West Indies 34, Sandwich Islands 2, and other countries 66.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1810	4,613	120	24	144	4,762	—	—
1820	8,591	305	—	305	8,896	4,134	86.8
1830	31,346	261	32	293	31,639	22,743	255.6
1840	211,560	707	—	707	212,267	180,628	570.9
1850	395,097	2,557	—	2,557	397,654	185,387	87.8

The statistics of the wealth, production, manufactures, and institutions of Michigan, as exhibited by the census of 1850, and other official returns referring to the same period, are as follows:

Occupied Lands, etc.—Improved lands 1,929,110 acres, and unimproved lands 2,454,790 acres—valued in cash at \$51,872,446. The whole number of farms 34,089. Value of farming implements and machinery, \$2,890,371.

Live-Stock.—Horses, 55,506; asses and mules, 70; milch cows, 99,676; working oxen, 55,850; other cattle, 119,471; sheep, 746,435; and swine, 205,847—valued in the aggregate at \$8,008,734. The returns of 1840 exhibited the live-stock in the State as follows: horses, mules, etc., 30,144; neat cattle of all descriptions, 185,190; sheep, 99,618; and swine, 295,890.

Products of Animals.—Wool, 2,043,283 (in 1840, 153,375) pounds; butter, 7,065,373 pounds; cheese, 1,011,492 pounds; and value of animals slaughtered during the year, \$1,328,327. Silk cocoons were produced to the amount of 8 (in 1840, 266) pounds; and beeswax and honey to that of 359,232 pounds.

Grain Crops.—Wheat, 4,925,589 bushels; rye, 105,571 bushels; Indian corn, 5,641,420 bushels; oats, 2,866,056 bushels; barley, 75,249 bushels; and buckwheat, 472,917 bushels. The crops of the same cereals, in 1840, were: wheat, 2,137,103

MICHIGAN.

bushels; Indian corn, 2,277,039 bushels; oats, 2,114,051 bushels; rye, 34,236 bushels; barley, 127,302 bushels; and buckwheat, 113,592 bushels.

Other Food Crops.—Peas and beans, 74,254 bushels; and potatoes—Irish, 2,359,597 bushels, and sweet, 1,177 bushels. The potato crop of 1840 amounted to 2,109,205 bushels.

Miscellaneous Crops.—Tobacco, 1,245 pounds; hay, 404,934 tons; clover-seed, 16,969 bushels; other grass-seed, 9,735 bushels; hops, 10,663 (in 1840, 11,381) pounds; hemp—dew-rotted 166 tons, and water-rotted 37 tons; flax, 6,994 pounds (crop of hemp and flax in 1840, 755½ tons); flax-seed, 1,421 bushels; maple sugar, 2,433,987 pounds; molasses, 19,523 gallons; wine, 1,654 gallons, etc. The value of orchard products was \$132,650, and of market-garden products \$14,738.

Home-made Manufactures for the year 1849–50 were produced to the value of \$1,323,327. In 1839–40 the same description of products were valued at \$113,955.

Manufactures.—Aggregate capital invested, \$5,965,551; value of raw material, fuel, etc., consumed, \$0,000,000; average number of hands employed 8,686—males 8,384, and females 302; average monthly cost of labor \$000,000—male \$000,000, and female \$0,000; total value of products for the year ending 1st June, 1850, \$10,111,483. The whole number of manufacturing establishments in the State producing to the value of \$500 and upward annually, at the above date, was 1,979, distributed among the several counties, as shown in the general table, and of these 15 were woolen factories, 64 iron factories—63 for castings, and 1 for pig iron, and 60 tanneries.

The *woolen* manufactures employed a capital of \$94,000, consumed annually 162,250 pounds of wool, valued at \$43,402, employed 73 males and 51 males, at a monthly cost—for male labor, \$1,659, and for female labor, \$535, and produced 141,570 yards of cloth, valued at \$90,242.

The *foundries* manufacturing castings employed a capital of \$195,450; used 2,494 tons pig metal, 901 tons mineral coal, and 16,200 bushels coke and charcoal, valued at \$91,565; employed 337 hands at average wages amounting to \$23 68 to each hand, and produced 2,070 tons of castings and other products, valued in the aggregate at \$279,697. The capital employed in making *pig iron* was \$15,000, and the quantity manufactured was 660 tons, valued at \$21,000.

In the *tanneries*, the invested capital amounted to \$236,000; value of raw material used, \$203,450; hands employed, 265; monthly cost of labor, \$6,782; skins 23,600, and sides 144,730 tanned; value of both \$363,930.

There are 193 *flouring-mills* in this State—130 water and 13 steam, using a capital of \$1,746,050, and making annually 784,634 barrels of flour, valued at \$3,031,976; and the number of *saw-mills* is 435—351 water and 134 steam, using a capital of \$1,688,156, and producing annually 301,157,186 feet sawed lumber, valued at \$2,221,798. There are 24 copper-mining companies in the upper peninsula, employing 706 hands and a capital of \$614,360; copper raised, 1,507 tons, valued at \$386,960.

Foreign Commerce.—The total value of the exports from Michigan to foreign countries during the year ending 30th June, 1850, was \$132,045, of which \$57,282 was the value of products carried in American bottoms, and \$74,313 in foreign bottoms; and the total value of imports was \$144,102, all of which were brought in American bottoms.

The shipping employed in the carrying trade was 56,963 tons inward, and 54,701 tons outward—in detail as follows:

Nationality.	INWARD.			Nationality.	OUTWARD.		
	Ships.	Tonnage.	Crews.		Ships.	Tonnage.	Crews.
American.....	97	7,254	699	American.....	112	7,932	720
Foreign.....	394	49,709	3,944	Foreign.....	390	46,719	3,903
Total.....	491	56,963	4,643	Total.....	502	54,701	4,623

Of the aggregate shipping inward, 54,130 tons entered in Detroit district, and 2,833 tons in that of Michilimackinac; and of the aggregate outward, 52,554 tons cleared from Detroit, and 2,147 from Michilimackinac districts. The shipping owned in the two districts amounts to 35,144 tons, all of the class enrolled and licensed, and of which 13,015 tons are navigated by steam-power. In the Detroit district 14 vessels—5 schooners, 6 sloops, and 3 steamers—of an aggregate burden of 2,062 tons, were built during the year above referred to. The greater portion of the external commerce of Michigan is with the adjoining British provinces. The following table exhibits the movements of the foreign commerce of the State for a series of years:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1823.....	\$ —	\$3,440	1836.....	\$61,231	\$502,259	1844.....	\$ —	\$19,379
1829.....	—	2,957	1837.....	69,790	—	1845.....	251,220	41,952
1830.....	1,588	21,315	1838.....	125,660	256,662	1846.....	251,590	154,923

1835.....	64,830	130,629	1843.....	262,994	76,370			

Lake Commerce.—This department of commerce in Michigan is large, and yearly increasing. Twenty years ago it had no existence, and even ten years ago it was of very trifling importance compared with its present extent. Of the commercial movements on Lake Superior, no statistics have been published, but it is well understood that all the products of the country bordering on it, from their very nature being mineral, must seek a distant market, and that the great bulk of necessities of life must be carried to the miners—thus creating a large commerce, and that an increasing one. A navigable canal, 5,267 feet long, around the Sault Ste. Marie, is about to be constructed, and hence the commerce on Lake Superior will be at once established on a sure and lasting basis. On Lake Huron the exports from the two districts of Sault Ste. Marie and Michilimackinac in 1850–51 amounted to \$553,618, and the imports to \$294,534; on the lake and river St. Clair, from the districts of Algonac, St. Clair, Trenton, and Mount Clemens, the exports in the same year amounted to \$438,660, and the imports to \$155,563; and on Lake Michigan, from district of St. Joseph's, the exports were valued at \$543,894, and the imports at \$672,592—making a total of exports by lake valued at \$1,551,172, and of imports valued at \$1,323,259. The above figures embrace the total imports and exports on Lake Huron, and also on the river and Lake St. Clair, so far as domestic commerce is concerned; the total commerce on Lake Michigan, inclusive of that of St. Joseph's above, was in the same year—exports \$8,536,108, and imports \$15,454,723, or a total value of exports and imports amounting to \$24,320,536, of which \$395,038 belonged to Indiana, \$11,903,777 to Illinois, and the remainder to Wisconsin.

Internal Communication.—Michigan has two transverse railroads—one extending from Detroit, via New Buffalo, to

Chicago, and the other from Toledo and Monroe, *via* White Pigeon and the Indiana Northern Railroad, to the same destination. These two roads form links in the great chains running east and west connecting the northern Atlantic States and sea-board with the Mississippi, and ultimately with the shores of the Pacific Ocean. On these lines the transit of goods and passengers is immense, being the shortest routes hitherto constructed on the longitudinal extent of the country. Their connections with the railroads and steam navigation lines of other States and of Canada give to Michigan access by railroad and water to vast regions hitherto accessible only by ordinary roads, and tend to swell the already large commercial connection of the State. There are also several short railroads in the State, as the one from Detroit to Pontiac, and from White Pigeon to Constantine; and others are projected, as the line from Toledo to Detroit, and from Detroit to the mineral regions in the upper peninsula. A line is also projected from Jackson, on the Central Road, to Lansing, the capital. The total length of completed railroad in the State, on the 1st of January, 1853, was 481 miles, which had cost about \$12,000,000, or about one mile of railroad to every 117 square miles of territory. A canal is also about being constructed around Sault Ste. Marie, which will connect the waters of Lake Superior and the lower lakes, and thus open up the commerce of the richest mineral region of the world to the markets of the east.

Banks.—On the 1st January, 1851, there were in the State five banks and one branch bank, the financial condition of which, at the date affixed, was as follows: *Liabilities*—capital \$764,022, circulation \$897,364, deposits \$416,147, due other banks \$42,559, and other liabilities \$342,816; and *assets*—loans and discounts \$1,319,808, stocks \$420,521, real estate \$221,626, other investments \$65,033, due by other banks \$404,691, notes of other banks \$109,086, specie fund \$195, and specie \$125,722.

Government.—The government is based on the constitution approved by the people, in November, 1850. It provides that the *right of suffrage* be enjoyed by every white male citizen; every white male inhabitant who, six months previously, has declared his intention to become a citizen of the United States, or who has resided in the State two and a half years, and declared his intention as aforesaid, and every civilized male Indian, not a member of any tribe. Every elector shall be above 21 years of age, and have resided in the State three months, and in the township or ward in which he offers his vote ten days preceding an election. Duellists are disqualified from voting, or being elected to any office. The general elections are held on Tuesday succeeding the first Monday in November, biennially (even years).

Legislative power is vested in a Senate and House of Representatives. Senators, 32 in number, are elected from single districts for two years, and Representatives, not less than 64 nor more than 100 in number (now 66), from districts, and for the same term. When any town or district is entitled to more than one representative, the number to which it is entitled is elected by general ticket, but counties entitled to more than one are divided into districts. Senators and Representatives shall be citizens of the United States and qualified electors, and shall hold no other office under the State. A subsequent vote of two-thirds of all the members elected abnegates the governor's *veto* to any bill, and it becomes law. The legislature meets biennially (odd years), on the first Wednesday in February.

Executive power is vested in the Governor. The Governor and Lieutenant-governor are elected biennially by a plurality of votes. Each must have attained the age of 30 years, have been a citizen of the United States for five years, and of the State two years next preceding. The powers of the governor are those usually enjoyed by that officer. No person holding any other office under the authority of the United States or of Michigan shall execute the office of governor, nor shall the governor or lieutenant-governor be eligible for any other office during the time for which they may have been chosen.

The *administrative officers* are, a Secretary of State, State Treasurer, a Commissioner of the State Land Office, Superintendent of Public Instruction, an Auditor-general, and an Attorney-general, elected at the biennial election, their terms to commence on the 1st January, 1853, and of every second year thereafter. The three first-named constitute a Board of State Auditors, to examine and adjust all claims against the State not otherwise provided for by general law, and also a Board of State Canvassers, to determine the results of all elections for State officers.

The *judiciary* is vested in one Superior Court, in Circuit Courts, in Probate Courts, and in Justices of the peace. There are also municipal courts of civil and criminal jurisdiction. All judges and justices are elected by the people. The Supreme Court has general superintending control over all inferior courts, and holds four terms annually. It has power by general rules to modify, amend, and simplify the practice of the courts, and the legislature is enjoined to abolish, as far as practicable, the distinctions between law and equity proceedings. The Circuit Court consists of eight judges, one for each judicial circuit, who hold office for six years. These courts have original jurisdiction in all matters not excepted in the constitution or prohibited by law, and appellate jurisdiction from all inferior courts. Judges are ineligible for any other office during their respective terms, and for one year thereafter. A circuit court is held twice a year in every county organized for judicial purposes, and four times in each year in counties of more than 10,000 inhabitants. The probate courts of the several counties have jurisdiction as provided by special law—the judges hold office for four years. The whole of the above are courts of record, and have a common seal. Justices of the peace are chosen for four years, and each town may have four—cities may have more than that number. In civil cases, justices of the peace have exclusive jurisdiction to the amount of \$100, and concurrent to \$300, which may be increased by law to \$500. They have also criminal jurisdiction in minor offenses. Courts of conciliation may be established. Any suitor in any court of Michigan has the right to prosecute and defend his suit either in his own person or by an attorney or agent of his own choice. In all prosecutions for libel, the truth may be given in evidence. Treason against the State shall consist only in levying war against it or adhering to its enemies, giving them aid and comfort, etc.

Any amendments to the constitution may be proposed in either house, and if agreed to by two-thirds of each house, such shall be submitted to the electors at the next general election, and if a majority of the electors voting thereon ratify and approve them, the same shall become a part of the constitution. All amendments to take effect at the commencement of the political year after their adoption. In 1866, and every sixteenth year thereafter, the question of a general revision of the constitution shall be submitted to the electors, and in case a majority shall decide in favor of a convention, the legislature, at its next session, shall provide by law for the election of delegates to such convention.

The *militia* of the State of Michigan in 1850, according to the report of the adjutant-general for 1851, consisted of 64,178 men of all arms, of which number 2,798 were commissioned officers, and 61,145 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 30 were general officers, 154 general staff officers, 401 field officers, etc., and 2,208 company officers.

The principal *benevolent institutions* of the State are, the Asylum for the Insane at Flint, and the Asylum for the Deaf and Dumb and the Blind at Kalamazoo. These institutions are endowed with lands, and are under the control of a board of five trustees elected by the legislature.

MICHIGAN.

Finance, Debts, etc.—The total available means in the treasury for the year ending 30th November, 1850, was \$454,715 67, of which sum \$55,447 89 was a balance from the fiscal year 1849, and \$429,268 28 receipts during the year ending as above. The total expenditures amounted to \$449,355 40, leaving a balance of \$35,360 27 for future appropriation. The chief sources of *income* were—general taxes and sales of land about \$300,000, and specific State taxes \$24,404; and the principal objects of *expenditure* were—legislation \$54,607 58, constitutional convention \$31,463 05, executive \$11,958 16, judiciary \$9,154 83, state prison \$6,000, counties for taxes \$6,637 27, expenses of sales of tax lands \$14,045 37, State library \$142 86, school moneys apportioned \$42,794 44, university \$9,644 70, etc. The aggregate *debt* of Michigan as stated by the auditor-general in his report of 1st December, 1850, was \$28,809,905 88; bearing interest mostly at six per cent. The resources and property of the State, other than State buildings and furniture, are stated at \$628,224 35, leaving the actual State debt, over and above the resources of the State, \$2,181,651 43. The total value of real and personal estate assessed for taxes in 1850, was \$30,877,223; but the true or estimated value of the same was \$59,787,255.

Federal Representation.—Michigan, in accordance with the provisions of the act of 23d May, 1850, apportioning the federal representation, is entitled to four representatives in Congress.

Education.—Michigan, in 1850, contained 3,097 schools, of which 2,525 only made returns in that year. According to the report of the Superintendent of Public Education, 182,284 children, between the ages of 4 and 18, attended school during the year; the number drawing public money, 125,866. Number of scholars under 4 years of age, 2,056, and over 18 years of age, 8,946. Amount of school money appropriated, \$42,794 44, and raised by tax, \$31,392 44 for support of teachers. Raised for purchasing, building, etc., school-houses, \$46,797 01. Received from local funds, \$5,889 59. Volumes in township libraries, 84,823. Mill tax for township libraries and support of schools, \$7,937 30. Total amount expended for school purposes, \$194,330 78. The number of scholars attending unincorporated, select, or private schools, was 4,065. A State normal school has been established at Ypsilanti, with an endowment of school lands, and is under the control of the Board of Education. The principal collegiate institution of Michigan is the University at Ann Arbor. It is under a Board of Regents, who have control of the University fund. In 1850 it had 7 professors, 91 alumni, 64 students, and a library of 6,000 volumes. The medical department of the University in the same year had 5 professors and 95 students. An agricultural department is provided for by the new constitution. St. Philip's College, near Detroit, is a Roman Catholic institution, founded in 1839, and in 1850 had 4 professors, 30 students, and a library of 3,000 volumes. There are numerous academies and other literary institutions in the State, the former connected with the University, and receiving an apportionment of the University Fund.

Libraries.—One State library, 4,400 volumes; 2 social libraries, 3,315 volumes; 4 college libraries, 10,300 volumes; 374 school libraries, 47,220 volumes—total 381 libraries, and 65,235 volumes. The number of volumes in the school libraries, as given in the report of the Superintendent of Public Instruction, differs essentially from the above census account, being stated at 84,823 volumes.

Periodical Press.—The whole number of periodicals published in the State in 1850 was 67, of which 37 were devoted to politics—16 whig and 21 democratic—and 30 were devoted to literature, science, religion, etc. Of the whole number 3 were issued daily and semi-weekly, 53 weekly, 2 semi-monthly, and 4 monthly; and the circulation of the dailies at each issue was 5,000, of the semi-weekly, 200, of the weeklies, 31,568, of the semi-monthlies, 2,600, and of the monthlies, 13,300. The *dailies* are published at Detroit; of the *weekly* issues, 1 is published at Allegan, 3 at Niles, 1 at Coldwater, 2 at Marshall, 1 at Sault Ste. Marie, 1 at Cassopolis, 1 at De Witt, 1 at Eaton Rapids, 2 at Flint, 2 at Hillsdale, 1 at Jonesville, 1 at Lansing, 1 at Ionia, 2 at Jackson, 2 at Kalamazoo, 2 at Grand Rapids, 1 at Lapeer, 1 at Adrian, 1 at Howell, 1 at Romeo, 2 at Mount Clemens, 2 at Monroe, 2 at Pontiac, 1 at Holland, 1 at Saginaw, 1 at Corunna, 1 at St. Clair, 1 at Port Huron, 2 at Centreville, 1 at Paw Paw, 2 at Ann Arbor, 2 at Ypsilanti, and 6 at Detroit; the *semi-monthlies* are published at Lansing and Jonesville, and the *monthlies* at Adrian, Monroe, and Detroit.

Religious Denominations.—The statistics of the several religious denominations in this State were, in accordance with the census of 1850, as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist	58 ..	17,615 ..	\$84,050	German Ref.	— ..	— ..	\$ —	R. Catholic.	42 ..	15,972 ..	\$159,775
Christian ...	1 ..	350 ..	1,006	Jewish	— ..	— ..	—	Swedenbo'n	— ..	— ..	—
Congregat'l. .	29 ..	10,500 ..	59,550	Lutheran ...	12 ..	3,205 ..	12,625	Tunker.	— ..	— ..	—
Dutch Ref. .	6 ..	1,575 ..	6,250	Mennonite.	— ..	— ..	—	Union.	3 ..	800 ..	1,400
Episcopal ...	25 ..	8,425 ..	82,800	Methodist ...	103 ..	33,610 ..	142,650	Unitarian.	— ..	— ..	—
Free.	1 ..	700 ..	3,000	Moravian ...	1 ..	200 ..	500	Universalist. .	6 ..	1,210 ..	7,100
Friends.	7 ..	1,400 ..	4,850	Presbyter'n. .	67 ..	22,530 ..	142,650	Minor Sects. .	1 ..	800 ..	15,000

—making a total of 362 churches, with accommodation for 118,892 persons, and valued as property at \$423,200. Michigan constitutes a diocese of the Protestant Episcopal Church; and also the Roman Catholic diocese of Detroit.

Pauperism and Crime.—Whole number of paupers who were relieved or received support within the year ending 1st June, 1850, 1,190—649 native-born, and 541 foreigners; whole number of paupers receiving support at the date specified, 429—245 native-born, and 181 foreigners; total annual cost of support \$27,556. The State prison is located at Jackson. The number of convicts on the 30th November, 1849, was 109; received during the year 50, and discharged during the year 28, leaving in prison 30th November, 1850, 131, of whom 115 were white, and 16 colored. Of the 50 received, 25 were committed for larceny, 3 for burglary, and 5 for burglary and larceny; and of the 28 discharged, 21 by expiration of sentence, 2 by pardon, 2 by death, 2 by escape, and 1 by order of Supreme Court. The income of the prison was \$10,700 53, and the expenditures \$16,736 14, the deficiency being supplied by the State. Of the 131 prisoners remaining under sentence, 5 were educated at college, 1 at a medical school, 8 in academies, and 91 in common schools; 94 can read and write, 84 can read only, and 3 can not read; 19 learned to read in prison; 86 were native-born, and 45 foreign-born.

Historical Sketch.—The discovery and early settlement of Michigan is due to the French, whose motives seem to have been the prosecution of the fur trade, and incidentally the conversion of the Indians. In prosecution of the latter object, Father Sagard reached Lake Huron in 1632, seven years subsequent to the founding of Quebec, but the present site of the city of Detroit had been visited as early as 1610. Soon after the middle of the 17th century, trading-posts were established at Sault Ste. Marie, Michilimackinac, and Green Bay—the two first, in a military point of view, important positions, and the latter post is noted as the starting-point of the expedition of Joliet and Marquette in search of the Mississippi, in

1673. In 1702, an expedition sent out by the Governor of New France laid the foundation of Detroit. From this period until the erection of the country into a territory of the United States, the history of Michigan is simply a history of that post, and though full of romantic interest, and perhaps of useful information relating to the progress of settlement, is not of sufficient importance to require notice in this place. The Indian wars may also be passed over in silence. The definitive treaty of peace which acknowledged the independence of the United States, gave to the young republic a vast western domain, of which Michigan formed a part. It had been ceded to the English in 1763, when France renounced her vast American possessions. The disturbed state of affairs at the period referred to, however, delayed the United States in taking possession of the territory; nor was it until 1796 that the Americans entered Detroit. Michigan from this time was included under the government of the territory north-west of the Ohio, and hence has ever been amenable to the ordinance of 1787. In 1805, the territory of Michigan was constituted, and on the 1st July of that year the government was organized at Detroit by Gen. William Hull, its first governor. In 1812, war against Great Britain was declared by Congress, and the first shock fell upon Michigan. Detroit was given up to the British, and the country became the scene of rapine and bloodshed. The history of this war is one of the most disgusting episodes of which cruelty and treachery can boast, and in which the Briton and the Indian were competitors for distinction. On the re-occupation of the territory, the governorship was vested in Gen. Lewis Cass. In 1835, it having been found that Michigan had a population greater than required by law to enable her to become a State, a convention was ordered, and having convened at Detroit, a constitution was framed; and by an act of Congress, approved 26th January, 1837, Michigan was declared "to be one of the United States, and admitted into the Union on an equal footing with the original States in all respects whatever."

LANSING is the political capital of the State; until December, 1847, Detroit was the seat of government, and is still the largest and most important place.

MICHIGAN lake. One of the five great lakes of North America, and the largest body of water lying wholly within the limits of the United States. It is situate between latitudes $41^{\circ} 38' 58''$ and $46^{\circ} 0' N.$, and the longitudes $84^{\circ} 40'$ and $87^{\circ} 8' W.$ It is a long and narrow lake, stretching a little north-easterly between the lower peninsula of Michigan on the east, and the States of Illinois and Wisconsin on the west, and on the south it also washes the shore of Indiana. The northern part, together with the strait of Michilimackinac, which connects it with Lake Huron, separates the two peninsulas of Michigan. The area of its waters is stated at 16,981 sq. m., or 11,067,840 acres, being inferior in surface only to lakes Superior and Huron. It is 330 miles in extreme length, and on an average 60 miles broad, and its elevation above tide-water 574 feet, its depth at the same time being about 900 feet. Green Bay, its largest arm, lies on the N. W., and itself is a large sheet of water, 120 miles long, and from 25 to 28 miles wide. It is the recipient of the waters of Winnebago lake through Fox river, and has other minor affluents both from Wisconsin and the northern peninsula. The lake receives also a number of large and small rivers; from the lower peninsula it receives Grand, Maskegon, St. Joseph, and Kalamazoo rivers; from Indiana, Calumet river, etc.; from Illinois, Chicago river, etc.; from Wisconsin, the Milwaukee, Sheboygan, and other streams, and from the upper peninsula, Manistee river and a number of other small rivers. Many of these have fine harbors at their confluence, and commercial towns rapidly progressing to importance have been built in every direction. The commerce of the lake, indeed, has already become considerable, and its increase from year to year has been such as to astonish the most sanguine. In 1850-51 the imports and exports from the several ports on the lake were as follows:

Ports.	Imports.	Exports.
Green Bay.....	\$151,537.....	\$80,830
Manitowoc.....	49,120.....	13,719
Sheboygan.....	571,500.....	12,191
Port Washington.....	275,311.....	48,267
Milwaukee.....	3,825,650.....	2,008,469
Racine.....	1,452,750.....	650,950
Southport.....	623,791.....	583,608
Waukegan.....	69,081.....	253,107
St. Joseph.....	672,892.....	543,894
Michigan City.....	28,915.....	309,168
Chicago.....	7,751,872.....	4,151,905

—making for all the ports an aggregate of imports valued at \$15,434,723, and of exports an aggregate valued at \$3,886,108. This amount would undoubtedly be much larger if the canal from Chicago to the navigable waters of the Illinois, and the numerous railroads diverging from the same point, did not carry off the great bulk of the commercial material

needed and produced in the country on the west side of the lake, but these also act as its feeders. The geographical position of the lake, indeed, is most advantageous for its becoming the channel of an immense commerce. Its length lies in the direction between the Mississippi and the great lakes, and it is navigable for vessels of the greatest tonnage. Steamboats ply regularly between all the ports, and to and from these and the ports of Lake Erie, having Buffalo, Erie, Cleveland, Sandusky, etc., as their eastern destination, and at these connecting with the great lines to the Interior and Atlantic sea-board.

MICHIGAN CITY, p. v., La Porte co., *Ind.*: at the mouth of Trail cr., on Lake Michigan, 12 m. N. W. of Laporte, and 187 m. N. by W. from Indianapolis. This is the only lake harbor in the State. It was first settled in 1836. The Michigan Central R. R. passes through the v., 54 m. from Chicago, and 228 m. from Detroit. It is the proposed terminus of a number of other railroads. There are a number of large warehouses situated on Trail creek, for the storage and shipment of wheat, and had the improvement of the harbor been continued as was contemplated, the great emporium of the northern trade of the State would have been here; as it is, vessels can only be loaded by means of *lighters*, and in pleasant weather. Dry goods, grocery, and provision stores are numerous, and there are also in the place several factories and workshops. A branch of the State bank is situate here. The "Michigan City News" (whig) is published weekly. There is a light-house (fixed light) on the beach, the lantern being 60 feet above the level of the sea. Pop. about 1,000.

MICHIGANTOWN, p. v., Clinton co., *Ind.*: 39 m. N. by W. Indianapolis, and 42 m. by the Michigan plank-road.

MICHILIMACKINAC county, *Mich.* Situate E. on S. side of Upper Peninsula, and contains about 1,260 sq. m. Drained by Pine and Carp rivers, and other small streams flowing into the straits of Mackinaw, its S. boundary. It embraces many islands, of which Mackinaw, Bois Blanc, and Great Beaver (settled by the Mormons) are chief. The main land is visited mostly by fur traders; the waters adjacent abound in fish, principally white fish and bass, and the fisheries are very valuable. Pop. about 3,000. *Capital*: Mackinaw.

MIDBRIDGE, p. o., Giles county, *Tenn.*: 72 m. S. by W. Nashville.

MIDDLEBOROUGH, t. and p. v., Plymouth co., *Mass.*: 37 m. S. S. E. Boston. Drained by Assawamset and Long Pond, together with several smaller ones, which discharge their waters into Taunton r., affording excellent hydraulic power. Surface in parts rocky; soil varied. Iron ore is found in abundance. There are 2 forges, an air and cupola furnace, several mills, and a number of manufactories in the t. The village is on the line of the Fall River R. R., at the junction

MID

with Cape Cod Branch R. R., 19 m. from Fall River, and has numerous manufactories. Pop. of t. 5,336.

MIDDLEBOURNE, p. v., Guernsey co., *Ohio*: on Will's cr., 84 m. E. Columbus.

MIDDLEBOURNE, p. v., and cap. Tyler co., *Virg.*: on the E. side of Middle Island cr., 236 m. N. W. Richmond. It contains the court-house and a few dwellings.

MIDDLE BRANCH, p. o., Stark county, *Ohio*: 104 m. N. E. Columbus.

MIDDLE BROOK, p. v., Augusta co., *Virg.*: on a fork of Shenandoah r., 102 m. W. N. W. Richmond.

MIDDLEBROOK MILLS, p. v., Montgomery co., *Md.*: on Seneca cr., 38 m. W. N. W. Annapolis.

MIDDLEBURG, p. v., Casey co., *Ky.*: on Pine cr., 58 m. S. Frankfort.

MIDDLEBURG, p. v., Carroll co., *Md.*: between Sam's and Big Pipe creeks, 2 m. from their junction, 13 m. W. of Westminster, 54 m. N. W. Annapolis.

MIDDLEBURG, t. and p. v., Schoharie co., *N. Y.*: 81 m. W. by S. Albany. Drained by Catskill cr. and Schoharie Kill, which afford excellent water-power. Surface uneven; in parts hilly. Soil varied, in many places rich and productive. There are a number of mills and manufactories, besides several workshops, here. The v. is on the E. side of Schoharie cr., and has a number of mills and a furnace. Pop. of t. 2,967.

MIDDLEBURG, p. v., Union county, *Penn.*: on Middle cr., 41 m. N. by W. Harrisburg. Beaver Furnace at this place has an annual capacity of 1,600 tons.

MIDDLEBURG, p. v., Hardeman county, *Tenn.*: on the Memphis post-road, 144 m. W. S. W. Nashville.

MIDDLEBURG, t. and p. o., Shiawassee co., *Mich.*: 23 m. N. † E. Lansing. Drained by branches of Maple r. Surface rolling; soil fertile, adapted to grain. Pop. of t. 132.

MIDDLEBURG, p. v., Loudon co., *Virg.*: on a tributary of the Potomac r., 99 m. N. Richmond.

MIDDLEBURG, t. and p. o., Cuyahoga co., *Ohio*: 113 m. N. N. E. Columbus. Drained by E. branch of Rocky r. and Cuyahoga r. Surface level; soil very fertile, producing excellent grain and grass. There are furnaces and several mills here. Berea is the name of a pleasant v. and station in the N. W. part of the t., on the line of the Cleveland, Columbus, and Cincinnati R. R., which passes through it 12 m. S. W. Cleveland. Pop. of t. 1,490.

MIDDLEBURG, p. o., Boone co., *Mo.*: 29 m. N. by W. Jefferson City.

MIDDLEBURG, p. v., Duval co., *Flor.*: on Black cr., 152 m. E. by S. Tallahassee.

MIDDLEBURY, t. and p. v., New Haven co., *Conn.*: 27 m. S. W. Hartford. Drained by Hope Branch of Naugatuck r. and Quassepau pond, outlet of which empties into the Housatonic r., furnishing excellent water-power. Surface very uneven; in parts rocky; soil excellent for grazing and the growth of rye. Copper has been found near Quassepau pond. Incorporated in 1807, and contains several mills and manufactories. The v. is situated centrally, and has several stores and workshops. Pop. of t. 763.

MIDDLEBURY, p. v., Elkhart co., *Ind.*: on the S. W. side of Little Elkhart r., 132 m. N. by E. Indianapolis.

MIDDLEBURY, t. and p. v., Wyoming co., *N. Y.*: on the line of the Buffalo and New York City R. R., 43 m. from Buffalo, and 229 m. W. Albany. Drained by branches of Genesee r. and Tonawanda cr. Surface uneven; soil of fine quality, productive of grain or grass. It has excellent water-power, which propels several factories and mills. The v. contains a number of stores, mills, and workshops. Pop. of t. 1,799.

MIDDLEBURY, p. v., Mercer co., *Mo.*: on the E. side of Muddy cr., 145 m. N. N. W. Jefferson City.

MIDDLEBURY, p. v., Summit co., *Ohio*: on the Cleveland and Taunton post-road, 108 m. N. E. Columbus.

MIDDLEBURY, t., p. v., and cap. Addison county, *Verm.*: 27 m. S. W. Montpelier. Drained by Otter cr. (which passes

MID

through the W. part of t.) and Middlebury r., affording excellent hydraulic power. Surface generally level, Chipman's Hill, 440 feet above Otter cr., being the greatest elevation; soil fertile and very productive. There are a large number of manufactories and mills here in successful operation; also a furnace and forge. The v. is pleasantly situated on the bank of Otter cr., at the falls, the Rutland and Burlington R. R. passing through it 33 m. from Burlington. There are some extensive manufactories and a large number of fine dwellings, stores, and workshops in the village. A large quarry of superior white and variegated marble is situated near the v., which is extensively wrought. It is the seat of the Middlebury College, founded in 1800, having (in 1850) a president, 6 professors, 877 alumni, of whom 397 were in the ministry, and 63 students, with a library of 6,000 volumes. The college is built of stone, and is a fine structure. The "Middlebury Register" (whig) is issued weekly. East Middlebury is the name of a post-office in the E. part of the town. Pop. of the t. 3,517.

MIDDLEBURY river, *Verm.*: rises in Hancock t., in a hilly region, and flowing W. and N., through Goshen and Middlebury, empties into Otter cr. It is 14 m. in length, and affords several mill-seats.

MIDDLEBUSI, p. o., Somerset county, *N. Jer.*: 23 m. N. Trenton.

MIDDLE CREEK, p. o., Monroe county, *Ohio*: 101 m. E. Columbus.

MIDDLE CREEK, t. and p. o., Union co., *Penn.*: 28 m. N. Harrisburg. Drained by Middle cr., which flows into the Susquehanna r. Surface hilly; soil fertile. It has some manufactories, and several stores and workshops. Pop. of the t. about 575.

MIDDLE CREEK, p. v., Wake co., *N. Car.*: on N. side of a cr. so called, 11 m. S. Raleigh.

MIDDLE CREEK MILLS, p. o., Boone co., *Ky.*: 56 m. N. Frankfort.

MIDDLE FABIUS, p. v., Scotland co., *Mo.*: on Middle Fabius cr., and on W. boundary of co., 127 m. N. Jefferson City.

MIDDLEFIELD, t. and p. v., Hampshire co., *Mass.*: 98 m. W. Boston. Drained by several affluents of the W. branch of Westfield r. Surface elevated and uneven; soil well adapted to grazing. The Western R. R. passes through the v., 132 m. from Boston. The t. contains several manufactories. Pop. 1,737.

MIDDLEFIELD, t. and p. v., Otsego co., *N. Y.*: 63 m. W. Albany. Drained by Cherry Valley cr., and bounded on the W. by Otsego Lake and a branch of Susquehanna r., its outlet. Surface uneven, in parts hilly; soil fertile. Water-power is extensive. There are in the t. a large number of mills, and several manufactories and workshops. The v. is in N. part, and contains several stores, mills, and workshops. Pop. of t. 8,131.

MIDDLEFIELD, p. v., Geauga county, *Ohio*: 141 m. N. E. Columbus.

MIDDLEFIELD CENTEE, p. v., Otsego co., *N. Y.*: on E. side of Otsego Lake, 63 m. W. Albany; contains several mills.

MIDDLEFORD, p. o., Sussex co., *Del.*: 36 m. S. by E. Dover.

MIDDLE FORK, p. o., Clinton co., *Ind.*: 46 m. N. by W. Indianapolis.

MIDDLE FORK, p. o., Randolph co., *Virg.*: 159 m. N. W. Richmond.

MIDDLE FORK, p. o., Henderson co., *Tenn.*: 102 m. W. S. W. Nashville.

MIDDLE FORK, p. v., Macon co., *Mo.*: between Middle Fork and East Chariton r., tributaries of the Missouri, 95 m. N. by W. Jefferson City.

MIDDLE GRANVILLE, p. v., Washington co., *N. Y.*: on line of the Rutland and Washington R. R., 61 m. N. N. E. Troy, and 67 m. N. N. E. Albany; contains a cotton factory and some mills.

MIDDLE GROVE, p. o., Fulton co., *Ill.*: on the Monmouth post-road, 71 m. N. W. Springfield.

MIDDLE GROVE, p. o., Saratoga county, *N. Y.*: 25 m. N. Albany.

MIDDLE GROVE, p. o., Monroe county, *Mo.*: 57 miles N. Jefferson City.

MIDDLE HADDAM, p. v., Middlesex co., *Conn.*: on the Portland and East Haddam post-road, near the E. bank of Connecticut r., 19 m. S. by W. Hartford.

MIDDLE HORE, p. o., Orange co., *N. Y.*: 87 m. S. by W. Albany.

MIDDLE ISLAND, p. v., Suffolk co., *N. Y.*: 8 m. N. Long Island R. R., 129 m. S. E. Albany.

MIDDLE island, *Mich.*: a small island in Lake Huron, about 1 m. E. of the N. E. part of Alpena county.

MIDDLE ISLAND creek, *Virg.*: rises by two branches in the E. part of Dodridge co., flows N. W. to Middlebourne v., and from thence S. W. to its confluence with the Ohio r., a short distance below Grape Island.

MIDDLE LANCASTER, p. o., Butler county, *Penn.*: 174 m. W. N. W. Harrisburg.

MIDDLE MILLS, p. o., Chippewa co., *Wisc.*: 175 m. N. W. Madison.

MIDDLE MOUNTAIN, p. o., Botetourt co., *Virg.*: on the W. border of the county, 145 m. W. Richmond.

MIDDLE PORT, p. v., and cap. Iroquois co., *Ill.*: on S. side of the Iroquois r., 124 m. N. E. Springfield; contains the court-house, jail, and a few dwellings. The country round about is composed of fine meadow land.

MIDDLEPORT, p. v., Niagara co., *N. Y.*: on line of the Rochester, Lockport, and Niagara Falls R. R., 45 m. W. Rochester, 253 m. W. N. W. Albany. The Erie Canal also passes through it. The v. contains several stores, warehouses, and mills.

MIDDLEPORT, p. v., Schuylkill co., *Penn.*: 51 m. N. E. Harrisburg, and is chiefly inhabited by miners from the neighboring coal regions.

MIDDLE RIDGE, p. o., Newton county, *Ga.*: 54 m. N. W. Milledgeville.

MIDDLE RIVER, p. v., Franklin county, *Ga.*: 103 m. N. Milledgeville.

MIDDLE RIVER, p. o., Allen county, *Ohio*: 83 m. N. W. Columbus.

MIDDLESEX county, *Conn.* Situate S. middle, and contains 342 sq. m. Drained by small affluents of the Connecticut, which flows S. through it, and small streams emptying into Long Island Sound, its S. boundary. Surface generally uneven, but not rough; soil mostly good—on the Connecticut very fertile. It raises good crops of corn and potatoes, has some fine dairies, and shears considerable wool, but is better adapted for commerce and manufactures. The Connecticut is here broad and deep, and the county has an extensive coasting trade, while the streams afford fine water-power, which is all employed. Cotton and woolen goods, flour, paper, cordage, powder, earthen-ware, and liquors are leading manufactures. Ship-building is also extensively carried on. The celebrated quarries of Portland stone are on the banks of the Connecticut, and a variety of feldspar, used to glaze porcelain, is abundant in their vicinity. Farms 2,018; manuf. 903; dwell. 5,382, and pop.—wh. 30,397, fr. col. 238—total 30,630. *Capitals*: Middletown and Haddam. *Public Works*: New Haven and New London R. R.; Middletown Branch R. R.

MIDDLESEX county, *Mass.* Situate N. E., and contains 923 sq. m. Drained by Merrimack, Charles, Mystic, Concord, and Nashua rivers, which supply an abundance of water-power unsurpassed by any in the Union. Surface uneven—in parts hilly. Soils various, with some excellent land. Corn and potatoes are the farming staples. The dairies are fine, but attention is directed mainly to furnishing the cities with fruits and vegetables. The absorbing interests are commerce and manufactures, the former confined to a few towns near Boston, the latter extending to every town in it, and embracing almost every imaginable article of utility or luxury. Cotton and woolen goods of all

kinds, carpets, de laines, iron-ware, iron castings, and machinery of every description, are prominent manufactures. Farms 4,345; manuf. 1,089; dwell. 23,450, and pop.—wh. 160,694, fr. col. 689—total 161,383. *Capitals*: Cambridge, Concord, and Lowell. *Public Works*: Middlesex Canal; Boston and Lowell R. R.; Boston and Maine R. R.; Boston and Worcester R. R.; Eastern R. R.; Fitchburg R. R.; Lowell and Lawrence R. R.; Nashua and Lowell R. R.; Salem and Lowell R. R.; Stony Brook R. R., etc.

MIDDLESEX county, *N. Jer.* Situate N. E., and contains 284 sq. m. Drained by Raritan, Millstone, and Rahway rivers. Surface generally even; soils various—in parts sandy, and mostly under high cultivation. Corn, wheat, rye, buckwheat, oats and potatoes, for the most part, produce average crops, and much attention is paid to gardens and orchards, the products of which are superior and very valuable. Raritan Bay on the E. is a good harbor; Raritan river is navigable through the co., and it is extensively engaged in ship-building and commerce. Its manufactures are very large and important, consisting of flour, leather, cotton goods, iron castings, cordage, glass, carriages, earthen-ware, canvas, paper, etc., etc. Farms 1,523; manuf. 196; dwell. 4,657, and pop.—wh. 27,255, fr. col. 1,369, sl. 11—total 23,635. *Capital*: New Brunswick. *Public Works*: Delaware and Raritan Canal; Camden and Amboy R. R.; New Jersey R. R., etc.

MIDDLESEX county, *Virg.* Situate E., and contains 106 sq. m. It lies between the Rappahannock on the N. E., the Piankitan on the S. W., and Chesapeake Bay on the E., and has few streams of any size. Surface level, or slightly broken; soil of moderate fertility, but largely covered with valuable timber. Corn is the chief crop. Wheat is raised in parts. Wood and ship timber are exported. Farms 280; manuf. 14; dwell. 401, and pop.—wh. 1,903, fr. col. 149, sl. 2,342—total 4,394. *Capital*: Urbana.

MIDDLESEX, t. and p. v., Yates co., *N. Y.*: 185 m. W. Albany. Bounded on the W. by Canandaigua Lake, and drained by West creek, which forms its outlet. Surface uneven—in parts hilly; soil fertile, well adapted to grains. There are some mills and manufactories in the t. The v. is situate on West creek. Pop. of t. 1,385.

MIDDLESEX, v. and fur., Mercer co., *Penn.*: on the Beaver and Erie Canal, 195 m. W. N. W. Harrisburg. There is a raw bituminous coal hot blast furnace here, with an annual capacity of 2,000 tons.

MIDDLESEX, t. and p. v., Washington co., *Verm.*: immediately W. of Montpelier. Drained by a branch of Onion river, which latter bounds it on the S. Surface uneven; in parts mountainous; soil in general fertile. Along the banks of the river it is rocky. A mountain, called "Hogback," is situate near the N. W. boundary. There is some good timber here. The v. is situate on Onion r., and on the line of the Vermont Central R. R., 88 m. N. by W. Windsor, and 74 m. S. E. Rouse's Point. It contains a number of mills, and several stores and workshops. Pop. of t. 1,365.

MIDDLESEX VILLAGE, p. v., Middlesex co., *Mass.*: at the junction of the Middlesex Canal, on the Merrimack r., 27 m. N. W. from Boston.

MIDDLE THREE river, *Ia.*: rises in Madison and Guthrie counties, and flows N. E. across Warren into Polk co., and empties into the Des Moines, near Dudley village.

MIDDLETON, t. and p. v., Essex county, *Mass.*: 16 m. N. Boston. Drained by Ipswich r., which divides it, and several small affluents. Surface varied, with a well cultivated soil. The t. contains several stores and an extensive paper manufactory. The v. is on the line of the Essex County R. R., 9 m. from Salem, and contains several workshops. Pop. of t. 832.

MIDDLETON, t. and p. v., Strafford co., *N. Hamp.*: 27 m. N. E. Concord. Incorporated in 1773. Surface, with the exception where Moose Mountain separates it from Brookfield, very level. There are no ponds or streams in the town. Pop. 476.

MIDDLETON, p. v., Carroll co., *Miss.*: 83 m. N. Jackson. MIDDLETON, t. and p. o., Dane co., *Wisc.*: immediately W. of Madison. Drained by Black Earth r., which flows into Wisconsin r. Surface rolling; soil fertile, and well adapted to fruit. Pop. of t. 804.

MIDDLETOWN, t., p. city, port of entry, and one of the caps. Middlesex co., *Conn.*: 14 m. S. E. Hartford. Drained by several streams flowing into Connecticut r., which here bounds it on the E. Surface generally undulating; soil of average fertility. There are fine meadows in this t., and water-power is furnished by several streams, on which are seated extensive manufactures. A range of hills crosses the Connecticut about 2 m. below the city, compressing the channel into a strait only 35 rods wide, and rising from 400 to 600 feet above the river. Here occurs an inexhaustible deposit of feldspar, used in the manufacture of porcelain. That portion of the t. formerly known as Upper Middletown, has been recently erected into a separate t. under the name of Cromwell. There are silver and lead mines in the t., the silver ore yielding about 58 per cent. of metal, and the lead 84 per cent. The works are extensive and very valuable.

The city is situate on ground gently rising from the river, here from 80 to 100 rods wide. Lat. $41^{\circ} 33' 08''$ N., and long. $72^{\circ} 39'$ W. The streets are laid out at right angles with each other, the main street running parallel with the water, and on this are the principal stores, hotels, the Court House, Custom House, and other buildings. The more elevated portions of the city, west of the main street, are adorned with many elegant mansions. Several of the public edifices are of beautiful construction. The buildings of Wesleyan University, situate here, are also handsome structures.

Middletown is a busy commercial town and a port of entry. The wharves are commodious, and the river sufficiently deep to admit of any vessels that can pass the bar at its mouth. Foreign shipping seldom arrives here, but it has a comparatively extensive coasting trade; and the shipping owned in the district in 1850, amounted to 12,129 tons, chiefly employed in coasting, and of which 1,940 tons were navigated by steam. The shipping built in the district in the year above named amounted to 1,831 tons. The New York and Hartford steamboats call here daily, and there is a branch railroad connecting it with Hartford. Middletown will also be intersected by the New York and Boston direct line of railroad now being constructed. The Wesleyan University was founded in 1831, and has a president and 7 professors, and in 1850 its alumni numbered 402 and its students 116. The library contains about 12,000 volumes. The institution has also a valuable philosophical apparatus. There are also several academies in the city and numerous public schools. The newspapers published here are, the "Sentinel" (dem.), the "Constitution" (whig), and the "Weekly News." There are 3 commercial banks in the city and a savings institution. Pop. of t. in 1820, 6,479; in 1830, 6,892; in 1840, 7,010; and in 1850, 8,791, about one-half residing in the city.

MIDDLETOWN, p. v., Livingston co., *Mich.*: 31 m. S. E. Lansing.

MIDDLETOWN, p. v., New Castle co., *Del.*: near Appoquinimink cr., 23 m. N. $\frac{1}{2}$ W. Dover.

MIDDLETOWN, p. v., Logan co., *Ill.*: on the border of a prairie, 20 m. N. E. Springfield.

MIDDLETOWN, p. v., Henry co., *Ind.*: 39 m. N. E. by E. Indianapolis.

MIDDLETOWN, p. v., Jefferson county, *Ky.*: 36 m. W. Frankfort, and 12 m. E. Louisville.

MIDDLETOWN, p. v., Frederick co., *Md.*: on the E. side of Catoctin cr., on the Hagerstown turnpike, 9 m. W. of Frederick City, and 58 m. N. W. of Annapolis. Middle cr. joins Catoctin r. N. of the village.

MIDDLETOWN, p. o., Montgomery co., *Mo.*: 56 m. N. E. Jefferson City.

MIDDLETOWN, t. and p. v., Monmouth co., *N. Jer.*: 31 m. 474

N. E. Trenton. Bounded on the N. by Raritan and Sandy Hook bays, on the E. by the Atlantic Ocean, on the S. by Navesink and Swimming rivers, and on the W. by branches of the latter. Drained by branches of Navesink and Swimming rivers, and a number of small streams flowing into the bays, affording in all excellent water-power. Surface varied—in the centre and E. part hilly or mountainous, the remainder even; soil very fertile and productive. In the N. part of the t., adjoining the ocean, are the Highlands of Navesink, in height some 350 to 400 feet, on which are 2 lights, 1 revolving and 1 fixed. Lat. $40^{\circ} 28' 40''$ and long. $73^{\circ} 59' 42''$ Sandy Hook, a sandy beach, extends N. from Shrewsbury inlet, and S. point of the Highlands, and is from one-half to a mile in width; and on the N. part there is a fixed light and 2 beacons, the light 90 feet above the sea. Lat. $40^{\circ} 27' 37''$, long. $74^{\circ} 00' 42''$. There are a number of villages in the t. The v. of Middletown is in the centre, in the hilly part, and contains several stores and dwellings, and a number of workshops. The town has several mills and manufactories, and a number of distilleries. The "Democratic Banner" (dem.) is the name of a weekly issue. Pop. of t. 3,245.

MIDDLETOWN, p. v., Des Moines co., *Ia.*: 63 m. S. by E. Iowa City.

MIDDLETOWN, p. v., Orange co., *N. Y.*: on line of the Erie R. R., 77 m. N. W. New York, 89 m. S. S. W. Albany. This is a beautiful and flourishing v., and contains several workshops, etc.

MIDDLETOWN, p. v., Hyde county, *N. Car.*: on Pamlico Sound, 151 m. E. by S. Raleigh.

MIDDLETOWN, p. v., Butler co., *Ohio*: on the E. side of Miami r., on the Miami Canal, 41 m. N. Cincinnati, and 71 m. W. S. W. Columbus. A bridge across the river connects the v. with the Cincinnati, Hamilton, and Dayton R. R., 23 m. S. by W. Dayton. It contains several stores and manufactories, and 1,092 inhabitants.

MIDDLETOWN, p. b., Dauphin co., *Penn.*: on the E. bank of the Susquehanna r., above the confluence of Swatara cr., 10 m. S. E. by E. Harrisburg. The Middletown furnaces at this place have an annual capacity of 2,150 tons. The Harrisburg and Lancaster R. R. passes through the v., and the Union Canal here enters the Susquehanna river.

MIDDLETOWN, t. and p. v., Rutland co., *Verm.*: between two mountains, 10 m. S. by W. Rutland. Drained by Poultney r., a branch of Carleton r. Surface uneven, in parts mountainous; soil best adapted to grazing. It has several saw-mills, etc. The v. is pleasantly situate in the valley of the mountains, and has a marble manufactory. Population of t. 875.

MIDDLETOWN, p. v., Frederick co., *Virg.*: on Meadow Run, a fork of the Shenandoah r., 131 m. N. N. W. Richmond. The v. has excellent water-power, and contains several mills and workshops, together with a wagon manufactory. Pop. about 450.

MIDDLETOWN CENTRE, p. o., Delaware co., *N. Y.*: 57 m. S. W. Albany.

MIDDLETOWN POINT, p. v. and port of delivery, Monmouth co., *N. Jer.*: on E. bank of Middletown cr., 29 m. N. E. Trenton. The v. is pleasantly situate on an elevation of some 60 feet from the water. It is a flourishing v., with some fine stores and dwellings, and considerable trade. The Farmers' and Mechanics' Bank is situate here. Capital \$50,000.

MIDDLE VILLAGE, p. o., Queens co., *N. Y.*: 129 m. S. Albany.

MIDDLEVILLE, p. v., Barry co., *Mich.*: on W. fork of Grand Haven r., 49 m. W. Lansing.

MIDDLEVILLE, p. o., Sussex county, *N. Jer.*: 61 m. N. Trenton.

MIDDLEVILLE, p. v., Herkimer co., *N. Y.*: on West Canada cr., 71 m. N. W. Albany. It contains several stores, mills, and manufactories, among the latter is an extensive chair and cabinet factory.

MIDDLEWAY, p. v., Jefferson co., *Virg.*: 127 m. N. by W-

Richmond. The Winchester and Potomac R. R. passes near the village.

MIDLAND county, *Mich.* Situate E. at head of Saginaw Bay, and contains 722 sq. m. Drained by Tittabawassee r. and its branches, Salt, Pine, and Chippewa rivers. Surface undulating; soil well adapted to grass and grain. In the N. and S. E. are dense forests of Norway and white pine timber, which are very valuable, and the county contains abundance of gypsum and excellent salt springs. It is thinly settled yet. Farms 4; manuf. 0; dwell. 10, and pop.—wh. 64, fr. col. 1—total 65. *Capital:* Midland.

MIDLAND, p. v., Charlotte co., *Virg.*: on the E. side of Staunton r., 78 m. S. W. by W. Richmond.

MIDVILLE, p. v., Burke co., *Ga.*: on the N. side Ogeechee r., 75 m. E. S. E. Milledgeville, on the line of the Central R. R., 94 m. from Savannah, and 91 m. from Macon.

MIDWAY, p. o., Giles county, *Virg.*: 174 m. W. by S. Richmond.

MIDWAY, p. v., Barbour co., *Ala.*: on a fork of Pea r., 46 m. E. S. E. Montgomery.

MIDWAY, p. o., Fulton county, *Ill.*: 58 miles N. W. Springfield.

MIDWAY, p. v., Spencer co., *Ind.*: on the E. side of Little Pigeon cr., 133 m. S. S. W. Indianapolis.

MIDWAY, p. v., Woodford co., *Ky.*: on the line of the Lexington and Frankfort R. R., 15 m. E. Frankfort.

MIDWAY, p. o., Madison co., *Miss.*: 28 m. N. Jackson.

MIDWAY, p. v., Cooper co., *Mo.*: on the Boonville and Jefferson City post-road, 26 m. N. W. Jefferson City.

MIDWAY, p. v., Davidson co., *N. Car.*: 85 m. W. by N. Raleigh.

MIDWAY, p. v., Barnwell dist., *S. Car.*: on the line of the South Carolina R. R., 72 m. from Charleston, 54 m. S. Columbia.

MIDWAY, p. o., Newton county, *Tex.*: 139 m. E. by N. Austin City.

MIDWAY, p. o., Hot Springs county, *Ark.*: 47 m. S. W. Little Rock.

MIDWAY, p. v., Monroe co., *Tenn.*: 181 m. E. S. E. Nashville.

MIDWAY JUNCTION, p. v., Prince Edward co., *Virg.*: on the Prince Edward and Marysville post-road, 65 m. S. W. Richmond.

MIER, p. o., Grant co., *Ind.*: 58 m. N. by E. Indianapolis.

MIER, p. v., Wabash co., *Ill.*: 132 m. S. E. Springfield.

MIER, p. o., Madison county, *Missouri*: 125 m. S. E. Jefferson City.

MIFFLIN county, *Penn.* Situate centrally, and contains 223 sq. m. Drained by the Juniata and its branches. Surface uneven, and much broken. Soil, except in the most rugged parts, very rich. Wheat, rye, corn, and oats produce fine crops, and the shearings of wool are heavy, and dairies large. It has excellent mill streams, and manufactures woolen goods extensively. Iron ore is abundant, and the manufacture of iron is the leading interest of the county. Farms 787; manuf. 102; dwell. 2,591, and pop.—wh. 14,570, fr. col. 410—total 14,980. *Capital:* Lewistown. *Public Works:* Pennsylvania Canal; Pennsylvania R. R.

MIFFLIN, t. and p. o., Ashland co., *Ohio*: 62 m. N. N. E. Columbus. Drained in the W. by Black Fork of Walhonding r.; soil fertile and well cultivated. Pop. 891.

MIFFLIN, t. and p. v., Iowa co., *Wis.*: 52 m. W. by S. Madison. Drained by branches of Picannica r. Surface various; soil fertile, with good woodlands. The v. is situate in the S. part of the town, and will be intersected by the Milwaukee and Mississippi Railroad as projected. Population of t. 640.

MIFFLIN, p. v., Crawford co., *Ind.*: 102 m. S. by W. Indianapolis.

MIFFLIN, p. v., Henderson co., *Tenn.*: 107 m. W. S. W. Nashville.

MIFFLINBURG, p. b., Union co., *Penn.*: on the S. side of Buffalo cr., 48 m. N. by W. Harrisburg. Incorporated in

1827; has several manufactories, a number of stores and workshops, 145 dwellings, and 783 inhabitants.

MIFFLINTOWN, p. b., and cap. Juniata co., *Penn.*: on the N. bank of the Juniata r., 84 m. N. W. Harrisburg. The Pennsylvania Canal passes through the borough. It has a number of dwellings, several stores, and workshops. The "Juniata Register," and "Juniata Sentinel" (whig), are weekly issues. Pop. 455.

MIFFLINVILLE, p. v., Columbia co., *Penn.*: on the S. side of the Susquehanna r., 57 m. N. N. E. Harrisburg.

MILAM county, *Tex.* Situate E. centrally, and contains 1,243 sq. m. Drained by Little r., a branch of the Brazos, its E. boundary, and its branches Indian, Elm, and Brushy creeks, and San Gabriel r. Surface undulating or level, a large part open prairie, but with a plenty of timber in every part. Soil mostly very fertile, producing great crops of cotton, corn, Irish and sweet potatoes, and admirably adapted to grain-growing and grazing. Indigo grows spontaneously in great abundance. It is rich in minerals, and has valuable stone quarries, millstone grit, and numerous salt springs. Farms 152; manuf. 1; dwell. 414, and pop.—wh. 2,469, fr. col. 2, sl. 436—total 2,908. *Capital:* Cameron.

MILAM, p. v., and cap. Sabine co., *Tex.*: on the Old Military Road, 247 m. N. E. Austin City.

MILAN, p. v., Ripley county, *Ind.*: 65 miles S. E. Indianapolis.

MILAN, t. and p. o., Monroe co., *Mich.*: 47 m. S. E. Lansing. Drained by N. branch of Macon r. Surface undulating; soil fertile, adapted to grain. It contains a number of mills and manufactories, and several workshops. Pop. of t. 642.

MILAN, p. v., and cap. Sullivan co., *Mo.*: on the E. fork of Locust cr., 124 m. N. N. W. Jefferson City. The U. S. Land Office for the Milan district is here.

MILAN, t. and p. v., Coos co., *N. Hamp.*: 91 m. N. $\frac{1}{2}$ E. Concord. Drained by the Androscoggin r. and S. branch of Upper Ammonoosuc r. Surface uneven; in N. E. and S. W. mountainous; soil adapted to grazing. Here are some mills and manufactories. Chartered in 1771. The v. is situate centrally on the line of the Atlantic and St. Lawrence R. R., 104 m. N. W. Portland (Me.), 19 m. E. Northumberland. It contains several stores and workshops. Population of t. 493.

MILAN, t. and p. v., Dutchess co., *N. Y.*: 49 m. S. Albany. Drained by several creeks flowing into the Hudson r. Surface uneven, and parts hilly; soil clay loam. It contains the v., situate centrally, and has some stores, several mills and manufactories, and a number of workshops. Pop. of t. 1,764.

MILAN, t. and p. v., Erie county, *Ohio*: 93 m. N. by E. Columbus. Drained by Huron r. and its branches. Surface hilly; soil fertile and productive. The v. on the S. bank of the river is pleasantly located on a bluff some 70 feet above the water, on the site of an old Indian town. It is connected with Huron harbor 8 m. by a ship canal, by which vessels pass up to the village. It is a flourishing village, and contains churches, an academy, a number of stores, several mills, and various mechanic shops. The t. has in it a number of schools. The "Milan Tribune" (whig) is issued weekly. Pop. of t. 2,697.

MILAN, p. o., Bradford county, *Penn.*: 118 m. N. Harrisburg.

MILBURG, p. o., Greenville dist., *S. Car.*: 98 m. N. W. Columbia.

MILESBURG, p. v., Centre co., *Penn.*: in an extensive coal region, on S. side of Bald Eagle cr., 67 m. N. W. Harrisburg. The country round about is mountainous. There are in the village a cold blast furnace of 1,100 tons annual capacity, 2 charcoal forges, producing 450 tons blooms each, and 2 rolling mills, producing 600 tons each annually. Pop. 474.

MILESTOWN, p. v., St. Mary's co., *Md.*: E. of Wicomico r., and 41 m. S. by W. Annapolis.

MILESTOWN, p. v., Philadelphia county, *Penn.*: on an

elevation, 89 miles E. by S. Harrisburg, and 9 miles N. Philadelphia.

MILFORD, t. and p. v., New Haven co., *Conn.*: 43 m. S. S. W. Hartford. Bounded on the S. by Long Island Sound, and in the W. by the Housatonic r. Drained by Wepawaug river and several small creeks flowing into the Sound. Surface undulating; soil fertile; and there is a quarry of beautiful serpentine marble in the town. It has a fine harbor for vessels of from 150 to 200 tons burden. Many of the inhabitants are engaged in the oyster and clam trade and in coasting. The Washington bridge crosses the Housatonic r. near Milford Point to Stratford, at which place there is a draw to admit vessels. The v. is very pleasantly situate at the mouth of Wepawaug r. at the head of the harbor, on line of the New York and New Haven R. R., 10 m. from New Haven. There are in the t. several stores and mills, together with a number of manufactories. Pop. of t. 2,465.

MILFORD, t. and p. v., Jefferson co., *Wisc.*: 27 m. E. Madison. Drained by Beaver dam branch of Rock river. Surface varied; soil fertile, with good timber lands. The v. is situate on Rock r., and contains several stores and dwellings. Pop. of t. 728.

MILFORD, p. v. and hund., Kent co., *Del.*: on N. bank of Mispillion cr., 16 m. S. Dover. There are in the hund. numerous stores, several mills, manufactories, and workshops. Area, 47,500 sq. m. The "Milford Beacon" is issued weekly. Pop. 2,529.

MILFORD, p. v., Hunterdon co., *N. Jer.*: on the E. bank of the Delaware r., 29 m. N. W. Trenton.

MILFORD, p. v., Iroquois co., *Ill.*: on the N. side of Sugar creek, 113 m. N. E. Springfield. The v. is surrounded by excellent prairie land.

MILFORD, p. v., Kosciusko county, *Ind.*: 115 m. N. Indianapolis. There is a railroad in course of construction from Peru to Goshen, which will pass through the village.

MILFORD, t. and p. v., Penobscot co., *Me.*: 76 m. N. E. Augusta, on the E. side of the Penobscot r., by which and the Sunkchaze r. the t. is drained. Orono lies on the opposite side of the river. Pop. 687.

MILFORD, t. and p. v., Worcester co., *Mass.*: 29 m. S. W. Boston. Drained by branches of Pawtucket and Charles rivers, which afford excellent hydraulic power. Surface pleasantly diversified; soil fertile and well cultivated. There are a number of mills and several manufactories of various kinds in successful operation here. The v. is very pleasantly situate on the borders of a pond in centre of t. The Milford Branch R. R. connects the v. with Farmington, 13 m. distant, where it forms a junction with the Boston and Worcester R. R. There are a number of fine dwellings, some stores, and several workshops in the village. The "Practical Christian" is the name of a semi-monthly issue. Pop. of the t. 4,819.

MILFORD, p. v., Caroline co., *Verg.*: on the Richmond, Fredericksburg, and Potomac R. R., 83 m. from Richmond.

MILFORD, t. and p. v., Oakland co., *Mich.*: 49 m. E. by S. Lansing. Drained by branches of Huron r. Surface undulating; soil very fertile, and produces grain. The village is on a branch of Huron r., and has several neat dwellings. Pop. of t. 1,470.

MILFORD, p. v., Bracken county, *Ky.*: on a branch of Licking r., 53 m. N. E. by E. Frankfort.

MILFORD, t. and p. v., Hillsborough co., *N. Hamp.*: 29 m. S. $\frac{1}{2}$ E. Concord. Souhegan river divides the t., running through the N. part, by which and its branches it is drained, and produces excellent water-power. Surface undulating; soil rich. The v. is on the Wilton R. R., 4 m. from Wilton. The t. has considerable manufactures. Pop. of t. 2,159.

MILFORD, t. and p. v., Otsego co., *N. Y.*: 67 m. W. Albany. Drained by Susquehanna r. and its branches. Surface very

uneven—in parts much broken; soil strong rich loam, and very fertile. The v. is pleasantly situate on a level plain near the Susquehanna r., and contains several stores, mills, and tanneries. Pop. of t. 2,227.

MILFORD, p. v., Clermont co., *Ohio*: on the E. side of the Little Miami r., 81 m. S. W. Columbus, and connected by a bridge with the station on the Little Miami R. R., on the W. side of the river, 14 m. from Cincinnati. Population about 600.

MILFORD, t., p. v., and cap. Pike county, *Penn.*: 129 m. N. E. Harrisburg. Drained by several small lakes, emptying into the Delaware r., which bounds the town on the S. E. Surface mountainous and much broken; soil inferior, except along the banks of the river, where it is good. The village, on the W. bank of the Delaware, is very pleasantly situated on an elevation; at which point a substantial bridge affords communication with the opposite shore. Pop. 858.

MILFORD, p. v., Greenville district, *S. Car.*: on a fork of Congaree r., 94 m. N. W. Columbia.

MILFORD CENTRE, p. v., Union co., *Ohio*: on S. side of Big Darby cr., 81 m. N. W. by W. Columbus. Pop. 211.

MILFORDTON, p. o., Knox co., *Ohio*: 28 m. N. E. by N. Columbus.

MILITARY BOUNTY TRACT, *Ill.*: the region generally denominated the Military Bounty Tract, was surveyed during the years 1815 and 1816, and the greater part subsequently appropriated in bounties to the soldiers of the regular army, who served in the late war between the United States and Great Britain. It is situated between the rivers Mississippi and Illinois, and extends from their junction due north by a meridian line, denominated the fourth principal meridian, 169 miles, presenting an irregular, curvilinear triangle, the acute angle of which is at the junction of these two rivers. From this point the two rivers diverge, so as to make a distance of 90 miles between the extreme points of the northern boundary. Half way between the extremes the width is 64 miles. The base line running due east and west, and commencing just above Quincy, on the Mississippi, and terminating at the Illinois, a little below Beardstown, intersects the fourth principal meridian at right angles above the junction of the Mississippi and Illinois rivers. The whole tract, according to the public surveys, contains 207 entire townships, of six miles square, and 61 fractional townships—altogether 5,360,000 acres, of which 3,500,000 have been appropriated in military bounties. This tract of country lies between $35^{\circ} 54'$ and $41^{\circ} 40'$ of north latitude, and 130° west longitude from Washington City, and bounded on the south-west for 255 miles by the Mississippi river, and for about the same distance on the south-east by the Illinois. Thus do these two great rivers in their diverging course, with Rock river approximating from the north, form a spacious peninsula, furnishing a border to the bounty lands by a sheet of navigable waters for steamboats more than 500 miles in extent, leaving no part of the tract more than 45 miles, and the greater part not exceeding 20 miles from steamboat navigation. The water communication now completed between the Mississippi and the lakes, by means of the Illinois and Chicago Canal, greatly increases the value of the bounty lands, by affording a choice of markets for their products, either at Chicago, Detroit, Buffalo, New York, Montreal, or Quebec, by way of the Illinois Canal and the lakes, or by the natural channels of the rivers south, at St. Louis and New Orleans. In the interior of the tract, traversing it in various directions, are several rivers and creeks of less consequence, in a commercial point of view, but nevertheless of great utility to the settlements in their vicinity. Of these, Spoon, Henderson, Edwards, and Pope's rivers, and Crooked, Kickapoo or Red Bud, Copperas, Otter, McKee's, McCraney's, Hadley's Mill, and Bear creeks, are the most considerable. About two-thirds of this tract is timbered, and the other third is mostly prairie of good quality. It has become considerably settled, and yearly

furnishes considerable amounts of products for export. Corn, wheat, barley, hemp, and potatoes, are the principal productions.—*Curtiss' Western Portraiture*, 1852.

MILITARY GROVE, p. o., McDowell co., *N. Car.*: 188 m. W. Raleigh.

MILITARY INSTITUTE, p. o., Franklin co., *Ky.*: at Drennon Springs, $1\frac{1}{2}$ m. W. Kentucky r., 20 m. N. Frankfort. The annual session of this college commences the second Monday in September, and the second term of the session on the first Monday in February of each year. Its course of studies embraces the scientific course of the United States Military Academy at West Point, and thorough instruction in history, international and constitutional law, the Greek and Latin languages, and civil engineering. Great facilities are also offered for the study of the modern European languages. A flourishing law school is connected with the institute, and affords great advantages to the students. The military feature introduced is not merely for the purpose of diffusing military knowledge, but as the means of exercising complete control, and of securing to the student the personal advantages of a uniform and economical distribution of time, habits of punctuality, health, physical development, and a consequent increase of mental vigor. The location of the Institute is very healthy, and is removed from the allurements, the vices, and the dissipations usually incident to college life. Situated on the Kentucky river, it may be reached by steamboat from Louisville or Cincinnati, or by railroad from Louisville to Eminence, on the Louisville and Frankfort road, and thence by stage to Drennon, a distance of 12 miles. Institute charges for tuition, boarding, lodging, fuel, lights, washing, servants' attendance, and use of furniture and arms, \$80 per term. Surgeon's fee, \$5 per session. Charges in the law school for the above and use of text-books, \$160 per term; each term commencing and ending with the semi-annual session of the Institute.

MILITARY ROAD, p. o., Jefferson co., *N. Y.*: 151 m. N. W. Albany.

MILITARY SPRINGS, p. o., Fayette county, *Ala.*: 133 m. N. W. Montgomery.

MILLAN, p. o., Pike co., *Miss.*: 73 m. S. Jackson.

MILLARD county, *Utah Ter.* Situate S. W., and contains about 20,000 sq. m. The S. line is the parallel of $38^{\circ} 30'$; the E. the meridian of $84^{\circ} 40'$ W. from Washington, and the W. the California State line. It is about 60 m. wide, and embraces a great variety of surface, soil, and climate, of which little is known definitely. In the W. are several large lakes and rivers, of which Walker r. and lake, and Carson r. and lake are the largest, and in the E. is Nicollet r., flowing N. into Nicollet lake. Several mountain chains intersect it, and the surface is mostly elevated. On the E. border is a high ridge, on which, at an elevation of 4,790 feet above sea level, and in lat. $38^{\circ} 58' 40''$, is Fillmore City, the cap. of the co. and territory. The co. was a part of San Pete in 1850.

MILLARD, p. o., Walworth county, *Wisc.*: 53 m. S. E. Madison.

MILLARDSVILLE, p. v., Susquehanna co., *Penn.*: 127 m. N. N. E. Harrisburg.

MILL ARK, p. o., Fulton county, *Ind.*: 53 miles N. Indianapolis.

MILLBACH, p. o., Lebanon county, *Penn.*: 23 m. E. N. E. Harrisburg.

MILL BAYOU, p. v., Mississippi co., *Ark.*: 133 m. N. E. Little Rock.

MILL BEND, p. o., Hawkins co., *Tenn.*: 216 m. W. by N. Nashville.

MILLBOROUGH SPRINGS, p. v., Bath county, *Virg.*: 123 m. W. N. W. Richmond, on the line of the Virginia Central Railroad.

MILLBRIDGE, t. and p. o., Washington co., *Me.*: 93 m. E. by N. Augusta. Drained by Naragansett river, which divides it. It contains Naragansett bay, which sets up from the sea, and the p. o. so called is on the E. side of the r.,

in N. part. Coasting trade and fishery is the chief occupation of the inhabitants. Pop. of t. 1,170.

MILL BROOK, p. o., Litchfield co., *Conn.*: 26 m. W. N. W. Hartford.

MILL BROOK, p. o., Warren co., *N. Jer.*: 47 m. N. by W. Trenton.

MILL BROOK, p. v., Wayne county, *Ohio*: 71 m. N. E. Columbus. It contains several stores and dwellings, and some mechanic shops.

MILL BROOK, p. o., Warren co., *N. Y.*: 63 m. N. Albany.

MILLBURN, p. v., Ballard county, *Ky.*: 246 m. W. S. W. Frankfort. The contemplated line of the Mobile and Ohio R. R. passes through this village.

MILLBURN, p. v., Lake co., *Ill.*: on Mill creek, 195 m. N. N. W. Springfield.

MILLBURY, t. and p. v., Worcester county, *Mass.*: 37 m. W. S. W. Boston. The t. is divided by the Blackstone r., by which and its branches it is drained, affording valuable water-power. Surface uneven, in parts hilly; soil of good quality and very productive. There are extensive manufacturing and a large number of mills and workshops in the town. Incorporated in 1818. The Blackstone Canal passes through the town. The village is on the line of the Providence and Worcester R. R., 6 m. S. Worcester, and contains several churches, an academy, some fine dwellings and stores, a number of mills, and several workshops. The Millbury Bank is situate in the village. Population of the town 3,031.

MILL CREEK, p. o., Pulaski county, *Ill.*: 173 m. S. by E. Springfield.

MILL CREEK, p. v., Ripley co., *Mo.*: on the W. side of Current river, at the confluence of Mill cr., 153 m. S. S. E. Jefferson City.

MILL CREEK, p. o., Person co., *N. Car.*: 59 m. N. N. W. Raleigh.

MILL CREEK, p. o., Carroll county, *Ky.*: 35 m. N. by W. Frankfort.

MILL CREEK, p. o., Kent county, *Mich.*: 53 m. W. by N. Lansing.

MILL CREEK, p. v., Huntingdon co., *Penn.*: N. side of the Juniata r., and on the line of the Eastern Division of the Pennsylvania R. R., 92 m. W. Harrisburg. The country round about is mountainous and abounds in iron. There is in the v. a hot-blast furnace of 1,000 tons, and a cold-blast furnace of 1,400 tons annual capacity.

MILL CREEK, fur., Venango co., *Penn.* The furnace located here has an annual capacity of 1,000 tons.

MILL CREEK, p. o., Fulton co., *Ohio*: 132 m. N. W. by N. Columbus.

MILL CREEK, hund., New Castle co., *Del.*: between Red and White Clay creeks, 37 m. N. by W. Dover. Area 27,760 square miles. Pop. 3,522.

MILL CREEK, p. o., Berkeley co., *Virg.*: 136 m. N. by W. Richmond.

MILL CREEK, p. o., Sabine par., *La.*: 147 m. N. W. Baton Rouge.

MILL CREEK, *Ind.*: rises in S. W. part of Henry co., flows S. through N. W. part of Morgan and S. E. part of Putnam into Owen, where it takes a sudden bend, and returning into Putnam in a N. W. direction, flows into Eel r., a fork of White river.

MILDALE, p. v., Warren co., *Miss.*: 4 m. E. of Yazoo r., and 36 m. W. by N. Jackson.

MILDALE, p. o., Defiance county, *Ohio*: 123 m. N. W. Columbus.

MILDALE, p. o., Warren county, *Virg.*: 107 m. N. N. W. Richmond.

MILL DAM, p. o., Madison county, *Mo.*: 129 m. S. E. Jefferson City.

MILLEDGEVILLE, p. city, and cap. Baldwin co., *Ga.*: and capital of the State: at the head of navigation of Oconee r., and at the confluence of Fishing cr., in lat. $33^{\circ} 7' 20''$ N., and long. $83^{\circ} 19' 45''$ W.—642 m. S. W. Washington. The

city is built on an elevated and somewhat uneven site in the midst of a rich and populous cotton-growing region, and is the centre of a considerable commerce. It is laid out regularly, having ten streets running parallel with the river, and ten others intersecting them at right angles, all of which are 100 feet wide, except Washington Street, which is 120 feet. There are three public squares, named respectively, State-House Square, Governor's Square, and Penitentiary Square, the sides of each of which are 450 feet long. State-House Square is near the centre of the city, and on elevated ground, and on this is built the State House, a fine Gothic edifice, surmounted by a cupola, and containing in its halls portraits of Gen. Oglethorpe and other eminent men of olden times. The building cost about \$120,000. On this square are also the State arsenal and a powder magazine. Other prominent buildings are the penitentiary and the governor's house, which give names to two of the squares, a market-house, 4 or 5 churches, etc. Five periodicals are published here; the "Federal Union" (whig), the "Southern Presbyterian" (relig.), and the "Southern Recorder," all weekly issues; and the "Star of Truth" (literary), and the "Gem" (literary), monthly issues. The Milledgeville and Gordon R. R. extends hence 17 m. to a connection with the Georgia Central R. R. at Gordon, 170 m. from Savannah, and 11 from Macon. A railroad is also completed to Eatonton. The Oconee r. is here spanned by a toll-bridge. Milledgeville was founded in 1808—in 1810 it had 1,256 inhabitants; in 1820, 1,411; in 1830, 1,599; in 1840, 2,095; and in 1850, about 2,216. In the v. of Medway, near Milledgeville, is located Oglethorpe College, founded 1836—in 1850 it had a president, 6 professors, 83 alumni, and 85 students, and its library contained 4,500 volumes.

MILLEDGEVILLE, p. v., Carroll co., *Ill.*: on the W. side of Elkhorn cr., 152 m. N. Springfield.

MILLEDGEVILLE, p. o., Lincoln co., *Ky.*: 47 m. S. by E. Frankfort.

MILLEDGEVILLE, p. v., Montgomery co., *N. Car.*: 73 m. W. S. W. Raleigh.

MILLEN, sta., Burke co., *Ga.*: on the line of the Central (Georgia) R. R., at which point the Augusta and Waynesboro' R. R. diverges, 15 m. S. Augusta, and 111 m. E. Macon. It is named after the famous engineer so called.

MILLER county, *Mo.* Situate S. centrally, and contains 549 sq. m. Drained by Bushy fork, Tavern cr., and other branches of the Osage, which flows through the N. part. Surface somewhat broken; soil mostly very fertile, and adapted especially to grazing. Corn is the staple, and pork the principal export. It has fine mill-seats, and abundance of timber. Farms 369; manuf. 0; dwell. 592, and pop.—wh. 3,645, fr. col. 0, sl. 189—total 3,834. *Capital*: Tusculumbia.

MILLER'S, p. o., Fayette co., *Tex.*: 57 m. S. E. Austin City.

MILLER'S, sta., Cook co., *Ill.*: on line of the Northern Indiana R. R., 29 m. from Chicago.

MILLER'S, p. o., Lawrence county, *Ohio*: 79 m. S. S. W. Columbus.

MILLER'S river, *Mass.*: rises in ponds in Ashburnham and Winchenden, passing W. through Royalston, Athol, Orange, and Wendell, flows into the Connecticut r. at Irving village. It has many tributaries, and affords excellent mill privileges.

MILLER'S river, *Verm.*: rises in Sheffield, waters a part of Wheelock, and empties into the Passumpsic, in Lyndon. It affords good mill privileges, particularly in Wheelock, where there is a considerable fall.

MILLER'S BAY, p. o., Jefferson co., *N. Y.*: 143 m. N. W. Albany.

MILLERSBURG, p. v., and cap. Mercer co., *Ill.*: on the N. side of Edward's r., 112 m. N. N. W. Springfield. It contains the county court-house and several dwellings.

MILLERSBURG, p. v., Bourbon co., *Ky.*: on a branch of Licking r., 86 m. E. by N. Frankfort. Pop. 214.

MILLERSBURG, p. v., Callaway co., *Mo.*: on a branch of Cedar cr., 23 m. N. Jefferson City.

MILLERSBURG, p. v., and cap. Holmes co., *Ohio*: on the

E. side of Killbuck cr., 67 m. N. E. Columbus. It contains the court-house, jail, and usual number of public buildings, a number of stores and dwellings, and about 800 inhabitants. The Cleveland, Zanesville, and Cincinnati R. R., formerly the Akron Branch, will pass through the v., affording direct communication with Cleveland and Zanesville. The road now (1853) extends several miles below Clinton. The "Holmes County Farmer" (dem.), "Holmes County Democrat" (dem.), and "Holmes County Whig" (whig), are issued weekly.

MILLERSBURG, p. v., Dauphin co., *Penn.*: on the E. side of the Susquehanna r., and at the mouth of Wisconsin creek, 20 m. N. by W. Harrisburg.

MILLERSBURG, p. v., Rutherford co., *Tenn.*: on the Nashville post-road, 41 m. S. S. E. Nashville.

MILLER'S CREEK, p. o., Estill county, *Ky.*: 58 m. S. E. Frankfort.

MILLER'S CREEK, p. o., Davis county, *Utah Ter.*: 155 m. N. Fillmore City.

MILLER'S MILL, p. o., Christian co., *Ky.*: 174 m. S. W. by W. Frankfort.

MILLER'S MILL, p. o., Bath co., *Virg.*: 187 m. W. by N. Richmond.

MILLER'S PLACE, p. v., Suffolk co., *N. Y.*: on Long Island Sound, 127 m. S. S. E. Albany. It contains an academy and several dwellings.

MILLERSPORT, p. v., Fairfield county, *Ohio*: on the Ohio Canal, 191 m. Cleveland, and 24 m. Columbus. Pop. 126.

MILLER'S TAVERN, p. o., Essex co., *Virg.*: 42 m. N. E. Richmond.

MILLERSTOWN, p. v., Grayson co., *Ky.*: on W. bank of Nolin cr., 73 m. S. W. Frankfort.

MILLERSTOWN, p. o., Champaign co., *Ohio*: 48 m. W. by N. Columbus.

MILLERSTOWN, p. v., Perry co., *Penn.*: on the left bank of the Juniata r., and on line of the E. division of the Pennsylvania R. R., 33 m. N. W. Harrisburg.

MILLESVILLE, p. o., Adair county, *Ky.*: 78 m. S. by W. Frankfort.

MILLESVILLE, p. v., Anne Arundel co., *Md.*: on the W. side of Severn r., 10 m. N. W. Annapolis, and on the line of the Annapolis and Elkridge R. R., equidistant between the two places.

MILLESVILLE, p. v., Lancaster co., *Penn.*: on a branch of the Conestoga cr., 83 m. S. E. by E. Harrisburg, 4 m. S. Lancaster.

MILLESVILLE, p. v., Marion co., *Ind.*

MILLETON, sta., Columbia co., *N. Y.*: on the line of the Harlem R. R., 66 m. S. Albany.

MILFFIELD, p. v., Athens co., *Ohio*: on Sunday cr., 58 m. S. E. Columbus. There are salt-works in this vicinity, producing large quantities of salt annually. The v. contains several stores, workshops, and dwellings.

MILFORD MILLS, p. o., Prince William co., *Virg.*: 89 m. N. Richmond.

MILL GREEN, p. o., Hartford co., *Md.*: 48 m. N. Annapolis.

MILL GROVE, p. v., Cobb county, *Ga.*: 101 m. N. W. Milledgeville.

MILL GROVE, p. o., Erie co., *N. Y.*: 257 m. W. $\frac{1}{2}$ N. Albany.

MILL GROVE, p. v., Owen co., *Ind.*: on the E. side of Mill cr., 88 m. S. W. by W. Indianapolis.

MILL GROVE, p. v., Sumter dist., *S. Car.*: on the Darlington and Sumterville post-road, 41 m. E. N. E. Columbia.

MILL HALL, p. o., Clinton co., *Penn.*: on the S. side of Bald Eagle cr., 67 m. N. N. W. Harrisburg. The Mill Hall iron furnace, situate here, has an annual capacity of 1,600 tons. Pop. 492.

MILL HAVEN, p. v., Scriven co., *Ga.*: 101 m. E. by S. Milledgeville.

MILLHEIM, p. v., Centre county, *Penn.*: 54 m. N. W. Harrisburg.

MILL HILL, p. o., Cabarras co., *N. Car.*: 93 m. W. S. W. Raleigh.

MILL HOUSEN, p. v., Decatur county, *Ind.*: 53 m. S. E. Indianapolis.

MILLICAN, p. o., Brazos co., *Tex.*: 85 m. E. N. E. Austin City.

MILLIKEN'S BEND, p. o., Madison par., *La.*: on W. side of the Mississippi r., 137 m. N. Baton Rouge.

MILLEN, p. o., Burke co., *Ga.*: on the E. side of Ogeechee r., 93 m. E. S. E. Milledgeville. The Central E. R. passes through this v., 79 m. from Savannah, and the Augusta and Waynesboro' R. E. diverges from it, 51 m. S. from Augusta. Is named from M. B. Millen, Esq., the eminent engineer of the Central E. R.

MILLINGTON, p. v., Middlesex co., *Conn.*: on the East Haddam and Bozrah post-road, 27 m. S. E. Hartford.

MILLINGTON, p. v., Kent co., *Md.*: on the N. side of Chester r., 18 m. E. of Chestertown, and 53 m. N. E. Annapolis. It is a flourishing village.

MILLINGTON, p. o., Somerset co., *N. Jer.*: on the Passaic r., 36 m. N. N. E. Trenton.

MILLINGTON, p. v., Albemarle co., *Virg.*: near the fork of Pevanna r., 73 m. N. W. Richmond.

MILLINOKET lake, Penobscot co., *Me.*: borders on the E. boundary of Piscataquis co., and receives several rivers. Its outlet is the river so called, which with it forms an important source of the W. branch of the Penobscot river, and connects it with Pemadumcook lake, near the great falls so called.

MILL PLAIN, p. v., Fairfield co., *Conn.*: on the Danbury post-road, 51 m. S. W. Hartford.

MILL POINT, p. o., Sullivan co., *Tenn.*: 243 m. E. by N. Nashville.

MILL POINT, p. o., Pocahontas co., *Virg.*: 151 m. W. N. W. Richmond.

MILL POINT, p. o., Ottawa co., *Mich.*: 85 m. N. N. W. Lansing.

MILL PORT, p. v., Fayette co., *Ala.*: on the Fayette post-road, 131 m. N. W. Montgomery.

MILLPORT, p. v., Chemung co., *N. Y.*: on Catherine's cr., and on the line of the Canandaigua R. R., 12 m. N. Elmira, 167 m. W. S. W. Albany. The Chemung Canal passes through the village. It has extensive water-power, which supplies a large number of mills of different kinds. There are several manufactories, and a boat-yard for building and repairing canal boats. Large quantities of lumber are annually exported.

MILL PORT, p. o., Potter county, *Penn.*: 123 m. N. N. W. Harrisburg.

MILL PORT, p. v., Washington co., *Ind.*: on the Muscatatuck r., 69 m. S. Indianapolis.

MILL RAY, p. o., Bullock co., *Ga.*: 108 m. S. E. Milledgeville.

MILL RIDGE, p. o., St. Francis co., *Ark.*: 71 m. E. N. E. Little Rock.

MILL RIVER, p. v., Berkshire co., *Mass.*: on a branch of the Housatonic r., 117 m. W. S. W. Boston.

MILL RIVER, p. o., Henderson county, *N. Car.*: 232 m. W. by S. Raleigh.

MILLS county, *Ia.* Situate S. W., and contains 326 sq. m. Bounded W. by the Missouri, and drained by Nishnabotona r. and Mosquito and Key creeks. It lies just S. of Council Bluffs, and is yet but little settled. Unorganized in 1850.

MILLSBOROUGH, p. v., Sussex county, *Del.*: on S. side of Indian r., 41 m. S. $\frac{1}{2}$ E. Dover.

MILLSBOROUGH, p. v., Washington co., *Penn.*: on the W. side of the Monongahela r. and N. of the confluence of Ten Mile cr., 164 m. W. Harrisburg.

MILLS' BRIDGE, p. o., Pike county, *Ga.*: 74 miles W. Milledgeville.

MILLS' CORNERS, p. o., Fulton co., *N. Y.*: 87 m. N. W. Albany.

MILLS' GAP, p. o., Rutherford co., *N. Car.*: 206 m. W. by S. Raleigh.

MILLS' MILLS, p. o., Alleghany co., *N. Y.*: 225 m. W. by S. Albany.

MILLS' PRAIRIE, p. v., Edwards co., *Ill.*: 122 m. S. E. Springfield.

MILLS river, *Ill.*: rises in N. part of Jackson co., makes a semicircular bend into Perry, and empties into the Mississippi r. in Randolph County.

MILL SPRING, p. o., Jefferson county, *Tenn.*: 194 m. E. Nashville.

MILL SPRING, p. v., Wayne co., *Ky.*: on the S. side of Cumberland r., 86 m. S. Frankfort.

MILLSTADT, p. v., St. Clair co., *Ill.*: on the Waterloo and Belleville post-road, 96 m. S. by W. Springfield.

MILLSTONE, p. v., Oglethorpe co., *Ga.*: on the S. side of Broad r., 67 m. N. by E. Milledgeville.

MILLSTONE, p. v., Somerset co., *N. Jer.*: on W. side Millstone r., 22 m. N. by E. Trenton; contains a number of very neat dwellings, some stores, and several workshops.

MILLSTONE river, *N. Jer.*: rises in Millstone, Monmouth County, flows in a N. and W. by N. course to Kingston, forming the division between Middlesex and Mercer, and thence N. through Somerset, joins the Raritan r. about 2 $\frac{1}{2}$ m. E. Sonterville. This is a rapid stream and has many tributaries affording excellent mill-sites. The Delaware and Raritan Canal follows this river a considerable distance.

MILLTOWN, p. o., Chester county, *Penn.*: 63 m. E. by S. Harrisburg.

MILLTOWN, p. v., Crawford co., *Ind.*: on the W. bank of the Great Blue r., 157 m. S. Indianapolis.

MILLTOWN, p. o., Washington co., *Me.*: 123 m. E. by N. Augusta.

MILLTOWN, p. o., Chambers co., *Ala.*: 73 m. N. E. by E. Montgomery.

MILLTOWN, p. v., Putnam co., *N. Y.*: 81 m. S. Albany; contains several stores, a foundry, and a few mills.

MILLVIEW, p. o., Fauquier co., *Virg.*: 94 m. N. by W. Richmond.

MILLVIEW, p. o., Sullivan county, *Penn.*: 84 miles N. Harrisburg.

MILLVILLE, p. v., Butler county, *Ala.*: 43 miles S. Montgomery.

MILLVILLE, p. v., Jo Davies co., *Ill.*: on a fork of Apple r., 193 m. N. Springfield.

MILLVILLE, p. v., Clayton co., *Ia.*: on S. bank of Turkey r., 74 m. N. by E. Iowa City. There are in this v. a number of fine farms and some mills. The country round about is well cultivated, and lead is to be found along the banks of the river.

MILLVILLE, p. v., Worcester co., *Mass.*: on the Providence and Worcester R. R., 20 m. from Providence, 35 m. S. W. Boston.

MILLVILLE, sta., Essex county, *N. Jer.*: on line of the Morris and Essex R. R., 10 m. W. Newark, and 24 m. S. E. Dover.

MILLVILLE, t. and p. v., Cumberland co., *N. Jer.*: 49 m. S. Trenton. Drained by Maurice r. and its branches. Surface even; soil inferior and unproductive. There are a number of mills and workshops in the t. Glass is manufactured here to a considerable extent. The v. is situate on the E. bank of Maurice r., and contains a number of stores and some fine dwellings. Pop. of the t. 2,332.

MILLVILLE, p. v., Orleans co., *N. Y.*: 245 m. W. by N. Albany. It contains several dwellings, an incorporated academy, a number of mills, and a carriage manufactory.

MILLVILLE, p. v., Butler co., *Ohio*: on a branch of Miami r., 96 m. W. S. W. Columbus. It contains several dwellings, a number of stores and workshops, and about 300 inhabitants.

MILLVILLE, p. v., Columbia county, *Penn.*: on the line of the Catawissa and Towanda R. R., 57 miles N. by E. Harrisburg.

MILLVILLE, p. v., Spartanburg dist., *S. Car.*: on a fork of Congaree r., 74 m. N. W. Columbia.

MILLVILLE, p. o., Lincoln county, *Tenn.*: 69 m. S. by E. Nashville.

MILLVILLE, p. v., Ray co., *Mo.*: on a branch of Wyaconda cr., 112 m. N. W. by W. Jefferson City.

MILLVILLE, p. o., King George co., *Virg.*: 53 m. N. by E. Richmond.

MILLWEES, p. o., Anderson dist., *S. Car.*: 108 m. W. N. W. Columbia.

MILLWOOD, p. v., Dooly county, *Ga.*: 77 m. S. S. W. Milledgeville.

MILLWOOD, p. v., Lincoln county, *Mo.*: 68 m. N. E. Jefferson City.

MILLWOOD, p. v., Jackson co., *Flor.*: 54 m. N. W. by W. Tallahassee.

MILLWOOD, p. v., Knox co., *Ohio*: on the N. side of Vernon r., 47 m. N. E. Columbus.

MILLWOOD, p. v., Clark co., *Virg.*: on the W. side of Shenandoah r., 113 m. N. by W. Richmond.

MILLWOOD, p. o., Collin county, *Tex.*: 209 m. N. by E. Austin City.

MILNER, p. v., Pike co., *Ga.*: 61 m. W. Milledgeville. The Macon and Western R. R. passes the v. 47 m. from Macon.

MILNEYSVILLE, p. o., Guernsey co., *Ohio*: 47 m. E. by N. Columbus.

MILQ, t. and p. v., Piscataquis co., *Me.*: 75 m. N. N. E. Augusta. Drained by the Piscataquis r. and its branches, Sebec and Pleasant rivers. Surface pleasantly diversified; soil fertile, especially on the banks of the rivers; well adapted to grain. There are a few mills and some manufactories here. The v. is situate on the N. side of Sebec r., and contains a number of dwellings, stores, and workshops. Pop. of the t. 932.

MILQ, t. and p. v., Yates co., *N. Y.*: 169 m. W. Albany. Drained by a small stream, which bounds it on the N., and connects Crooked lake with Seneca lake, the former bounding it on the W. and the latter on the E. Surface undulating; soil fertile. It is quite a flourishing t., and contains several stores, a number of mills and manufactories, and a furnace, all in active operation. The v. is in S. E. part, near Seneca lake, and contains a number of mills, stores, and workshops. Penn Yan, a considerable village, and capital of the county, is situate in the N., on the outlet of Crooked lake. Pop. of t. 4,791.

MILQ, p. v., Bureau co., *Ill.*: 93 m. N. Springfield. Surrounded by good prairie lands.

MILQ CENTRE, p. v., Yates co., *N. Y.*: at the head of Crooked lake, on the line of the Canandaigua and Elmira R. R., 89 m. N. by W. Elmira, and 171 m. W. Albany. The country round about is very rich, producing large crops of wheat annually.

MILROY, p. v., Rush co., *Ind.*: on Little Flat Rock cr., 89 m. S. E. by E. Indianapolis.

MILROY, p. o., Mifflin county, *Penn.*: 48 m. N. W. Harrisburg.

MILTON, p. v., Autauga co., *Ala.*: on a branch of Coosa r., 83 m. W. N. W. Montgomery.

MILTON, p. v., Litchfield co., *Conn.*: on the Litchfield post-road, on E. side of Shepaug r., 81 m. W. Hartford.

MILTON, p. v., Sussex co., *Del.*: on N. side of a small cr. flowing into Delaware Bay, 27 m. S. Dover.

MILTON, p. v., and cap. Santa Rosa co., *Flor.*: on the W. side of Blackwater r., 15 m. N. Pensacola, 165 m. W. Tallahassee. The country round about the v. is celebrated for excellent live oak.

MILTON, p. v., Pike co., *Ill.*: 54 m. W. by S. Springfield.

MILTON, p. v., Wayne co., *Ind.*: on the W. branch of the White Water r., 68 m. E. Indianapolis. The White Water Canal passes through the village.

MILTON, p. v., Trimble co., *Ky.*: on the S. bank of the Ohio r., 44 m. N. W. Frankfort. A small v., containing a number of stores and workshops, a few dwellings, and about 250 inhabitants.

MILTON, t. and p. v., Norfolk county, *Mass.*: 7 m. S. Boston. Bounded on the N. and W. by Neponset r., by

which and its branches it is drained. Surface undulating, except in the S., where it is mountainous; soil very fertile. The river affords extensive hydraulic power, and has some fine mill-sites, of which there are quite a number, as also manufactories. Extensive and valuable granite quarries are found here. The v. (called the Mills) is situate on the Neponset r., at the head of navigation, and is in a very thriving condition, being the seat of considerable trade and manufacture. A fine granite bridge here crosses the Neponset river, and the Dorchester and Milton Branch R. R. diverges hence, and connects with the Old Colony R. R. at Neponset, 5 m. from Boston. Milton contains some fine country seats and beautiful scenery. Blue Hill, a celebrated land-mark for sailors, 710 feet above the sea, is in S. part of the t., 12 m. from Boston. Pop. 2,241.

MILTON, p. o., Lafayette co., *Miss.*: 135 m. N. N. E. Jackson.

MILTON, p. v., Randolph co., *Mo.*: on Elk Fork, a branch of Salt River, 63 m. N. $\frac{1}{2}$ W. Jefferson City.

MILTON, p. v., Morris co., *N. Jer.*: E. side Rockaway r., near Hamburg Mountain, 55 m. N. $\frac{1}{2}$ E. Trenton.

MILTON, t. and p. v., Strafford co., *N. Hamp.*: 27 m. N. E. Concord. Bounded on the E. by Salmon r., by the branches of which it is drained. Surface various; in the E. is Teneriffe, a rocky mountain, near which is Milton Pond, connecting with Salmon r. Soil good. It has extensive hydraulic power. The v., in N. part of t., is a pleasant settlement, and has a number of stores and workshops. Pop. of t. 1,619.

MILTON, p. v., Ulster co., *N. Y.*: on W. side of the Hudson r., at the head of a landing, 73 m. S. by W. Albany. The country round about is very productive, yielding a large amount of produce, which is sent away annually by means of barges which ply betw. the village and New York. There are 75 dwellings, with several stores and workshops, and about 475 inhabitants in the village.

MILTON, t. and p. v., Mahoning co., *Ohio*: 127 m. N. E. Columbus. Drained by affluents of Mahoning r. Surface undulating; soil fertile and well cultivated. It has excellent water-power. The v. is situate on a branch of Mahoning r., in N. W. part of t., and contains several stores and workshops. Pop. 1,120.

MILTON, p. v., Caswell co., *N. Car.*: on the S. side of Dan r., 66 m. N. N. W. Raleigh. A newspaper, the "Milton Chronicle" (whig), is here issued weekly.

MILTON, p. b., Northumberland co., *Penn.*: on the E. side of the W. branch of the Susquehanna r., at the confluence of Limestone r., 53 m. N. by W. Harrisburg. A bridge crosses the Susquehanna r. at that point. The b. contains about 300 dwellings, numerous stores, and several manufactories. The "Miltonian" (whig), a weekly paper, is issued here. Pop. 1,646.

MILTON, p. v., Rutherford co., *Tenn.*: 81 m. E. S. E. Nashville.

MILTON, p. o., Wilkinson county, *Ga.*: 19 miles S. Milledgeville.

MILTON, p. v., Laurens dist., *S. Car.*: on Little r., 53 m. N. W. by W. Columbia.

MILTON, t. and p. v., Chittenden co., *Verm.*: 84 m. N. W. Montpelier. Drained by Lamolliere river and its branches. Surface pleasantly diversified; soil good, with fine pasturage. It has immense hydraulic power, owing to an extensive waterfall in the river. There are a number of mills and manufactories. The t. is bounded on the W. by Lake Champlain. Sand Bar bridge connects it with South Hero, on Grand Isle. The v. is pleasantly situate on Lamolliere r., near the falls, and on the line of the Vermont Central R. R., 121 m. from Windsor. It contains several mills and some manufactories, together with a number of workshops and about 60 dwellings. Pop. of t. 2,451.

MILTON, t. and p. o., Rock county, *Wisc.*: 29 m. S. E. Madison. Bounded on the N. by Koshkonong lake, by the outlets of which it is drained; and diversified by a num-

ber of small ponds. Surface undulating; soil fertile. There are several mills and manufactories in the town. The v. is on the line of the Milwaukee and Mississippi R. R., 62 m. W. S. W. Milwaukee, and contains several dwellings, a number of stores, and workshops. Pop. of t. 1,032.

MILTON MILLS, p. o., Strafford county, *N. Hamp.*: 25 m. N. E. Concord.

MILTONSBURG, p. v., Monroe co., *Ohio*: on the Woodfield post-road, 96 m. E. Columbus.

MILTONVILLE, p. v., Wood co., *Ohio*: on the E. bank of the Maumee r., 109 m. N. N. W. Columbus.

MILVILLE, p. o., Rusk co., *Tex.*: 219 m. N. E. Austin City.

MILWAUKIE county, *Wisc.* Situate S. E., on Lake Michigan, and contains 258 sq. m. Drained by Oak cr. and Root and Milwaukee rivers. Surface gently rolling, with a slope toward the lake; soil highly productive. Corn and wheat, with the other grains, live-stock, beef, pork, and wool, are the farming staples and large exports. The co. was originally heavily timbered, and is extensively engaged in the lumber trade. It has fine harbors, and a very large trade on the lake. The basis of the co. is limestone, which furnishes an excellent building material and good lime. It has various and extensive manufactures, and exports great numbers of bricks of a superior kind. Farms 935; manuf. 236; dwell. 5,680, and pop.—wh. 30,967, fr. col. 110—total 31,077. *Capital*: Milwaukee. *Public Works*: Milwaukee and Mississippi R. R.; Lake Shore R. R.; Milwaukee and Fond du Lac R. R.; plank-roads, etc.

MILWAUKIE, p. v., Clackamas co., *Oreg.*: on the E. bank of the Willamette r., some 6 m. below the falls, and 37 m. N. E. Salem. It may be said to be at the head of ship navigation on the Willamette. Above the v. the r. is unsuited to ship navigation. In a commercial point of view, this is an important site, and is a very prosperous village.

MILWAUKIE, t., p. city, and cap. Milwaukee co., *Wisc.*: on the W. shore of Lake Michigan, 75 m. E. Madison. Lat. 43° 04', long. 87° 57'. Drained by Milwaukee r. and branch, which former, running parallel with the lake, divides the t. Surface uneven, along the banks of the river and lake hilly; soil rich and very productive. The shore on Lake Michigan consists of a bank of clay from 20 to 100 feet high, and as nearly perpendicular as the nature of the material will admit of. The country rises gradually to the W. The city is the most important town on Lake Michigan (except Chicago, which is some 90 miles farther S.), and is of some twenty years' growth. The inhabitants, of whom a large number are Dutch, Swiss, Norwegians, and Irish, are of a quiet, industrious turn. It is noted for its splendid blocks of buildings, and its superior brick, which probably surpass those of any part of our nation. They have become a valuable article of export, being hard, smooth, and of a beautiful straw color. The Milwaukee and Mississippi R. R. extends from here as far as Janesville, a distance of 70 miles, and, when completed, will extend to Dubuque, thus connecting the lake with the Mississippi river. The city is situate on the river of same name, near its mouth, on an elevation, 90 m. from Chicago, and 73 m. due E. from Madison. It was laid out as a village in 1835, and such was the rapidity of its increase, that in June of the succeeding year it numbered 1,206 inhabitants. The bay is a semi-circular indentation of Lake Michigan, about 6 m. across, and 3 m. deep. The N. and S. points, or capes, protect the shipping from the effects of all storms and gales of wind, except from the E., which seldom occur. The bottom is composed of clay, affording excellent anchorage ground. There are 39 sail vessels owned in and sailing out of this port, of which the total tonnage is 5,542; also stock in steamboats and propellers of 3,000 tons, making the total tonnage owned in the port 8,542. Sixteen sail of vessels are engaged exclusively in the lumber trade, and the remainder in freighting produce and merchandise. The arrivals during the season of 1843 were, steamboats, 495; propellers, 245; barks and brigs, 119; schooners, 511; making a total

of 1,176. The exports of wheat from 1845 to 1849 inclusive, was 4,372,400 bushels, as follows: 1845, 133,310; 1846, 292,228; 1847, 662,211; 1848, 1,076,134; 1849, 2,208,517 bushels, being an increase at the rate of more than 100 per cent. per annum. There are invested in manufactories over two million of dollars, the products of which consist of woolen goods, machinery, castings, carriages, wagons, leather, lumber, cabinet-ware, tin, sheet iron, and copper manufactories, saddles and harness, soap and candles, burr mill-stones, steam-boilers, sails, rigging, plows, fanning mills, paper, clothings, smithings, tobacco, and segars, book-binding, coopers' wares, brick, etc. In addition to this, there are 5 flouring mills, propelled by water-power, and 1 by steam containing 17 runs of stones, each run capable of turning out 80 to 100 barrels of flour per day, and consuming in all 7,000 bushels of wheat daily. The imports amount to near four million dollars annually, consisting chiefly of merchandise, salt, furniture, coal, lime, plaster, fruits, lumber, etc. The exports, amounting to two and a half million dollars annually, consist of wheat, barrels of flour, pork, beef, lead, shot, hides, and sundry manufactured articles. There is a United States land office situate here. The "Wisconsin Banner," daily, tri-weekly, and weekly (dem.), "Taglicher Volksfreund," daily and weekly (dem.), "Commercial Advertiser," daily, tri-weekly, and weekly (dem.), "Milwaukee Sentinel," daily, tri-weekly, and weekly (whig), "Free Democrat," daily, tri-weekly, and weekly (free soil), tri-weekly, and weekly "Wisconsin," daily (dem.), are the names of newspapers published here. The progress of the city has been most remarkable. In 1834 it was surrounded by a wilderness, and contained only two log-houses, since which time it has increased rapidly. In 1840, there were 1,700 inhabitants; 1842, 2,700; 1846, June 1, 9,655; 1849, December 15, 15,071; 1850, the city, 20,061, but including the town, 21,461.

MILWAUKIE bay, *Wisc.*: an inlet of Lake Michigan, in the county so called. At the head of the bay is the city above described.

MILWAUKIE river, *Wisc.*: a large stream rising by a number of branches in Fond du Lac and Sheboygan counties, flows S. to Salisbury, E. to Fredonia, thence S. through Washington and a part of Milwaukee co., empties into Milwaukee Bay of Lake Michigan at Milwaukee City, from which point the Milwaukee and Mississippi R. R. diverges.

MINA, t. and p. v., Chautauque co., *N. Y.*: W. part of co., 313 m. W. by S. Albany. Drained by French cr. Finley's Lake is in W. part of t. Surface uneven; soil of good quality. It contains a few mills and manufactories, and several dwellings. The village is situate in N. E. part, on French cr., and has some neat dwellings, and a number of stores and workshops. Pop. of t. 996.

MINAVILLE, p. o., Montgomery co., *N. Y.*: 83 m. N. W. Albany.

MINDEN, p. o., Rusk co., *Tex.*: 223 m. N. E. Austin City.

MINDEN, p. v., Claiborne par., *La.*: on an outlet of Lake Bisteneau, 193 m. N. W. Baton Rouge. It contains a courthouse, jail, a number of dwellings, and some workshops. The "Minden Herald," a weekly issue, is published here.

MINDEN, t. and p. o., Montgomery county, *N. Y.*: 53 m. W. N. W. Albany. Bounded on the N. and E. by the Mohawk r. and Erie Canal, by which and Otsquake cr. it is drained. Surface variable, in parts hilly; soil various, rich in the valleys, and very productive. There are a number of manufactories, mills, and some workshops here. Pop. of t. 4,623.

MINDENVILLE, p. o., Montgomery county, *N. Y.*: 53 m. W. N. W. Albany.

MINE CREEK, p. o., Hempstead co., *Ark.*: 109 m. S. W. Little Rock.

MINE KILL FALLS, p. o., Schoharie co., *N. Y.*: 39 m. W. Albany.

MINE LA MOTTE, p. v., Madison co., *Mo.*: on a branch of St. Francis r., 123 m. S. E. by E. Jefferson City. There

is an extensive lead mine here yielding 72 per cent. *pure* metal. The ores are easily reduced, and 6 ounces of silver is procured per ton. The carbonate is reduced by means of a blast furnace. Copper and zinc ores are found in the vicinity; *manganese* ores are also very abundant, and in time will be sought after with much avidity. *Cobalt* has become an object of exploration. It is found associated with nickel, in the form of the sulphuret, or the black oxide. An apparatus for the preparation of cobalt oxide has been fitted up at the mine, and it is estimated that the tract will produce from 3,000 to 5,000 pounds of the article per annum. Cobalt is an invaluable article in the manufacture of porcelain and pottery, all the blue colors of which are derived from it.

MINERAL POINT, t., p. v., and cap. Iowa co., *Wisc.*: 43 m. S. W. Madison. Drained by head branches of Pecatonica r. Surface rugged; soil fertile, and very productive, with a basis of limestone. There are a number of farms and several dwellings in the t. The v. is on a branch of Pecatonica r., and contains, besides the usual public buildings, a U. S. land office, a number of stores and dwellings, and a few workshops. Lead and copper of an excellent quality are to be found here in abundance; there are several furnaces used for smelting. Pop. of t. 2,534.

MINERAL SPRING, p. o., Anderson dist., *S. Car.*: 114 m. W. N. W. Columbia.

MINERAL SPRINGS, p. o., Bexar co., *Tex.*: 77 m. S. Austin City. There is a spring here, whose waters have for ages been held in high estimation by the aborigines for their medicinal qualities.

MINERAL SPRINGS, p. v., Columbia co., *Flor.*: on the S. side of Suwanee r., 71 m. E. Tallahassee.

MINERAL SPRINGS, p. o., Lowndes co., *Ga.*: 156 m. S. Milledgeville.

MINERSVILLE, p. b., Schuylkill co., *Penn.*: 41 m. N. E.

Harrisburg. It contains about 125 dwellings, several stores and one newspaper, the "Minersville Bulletin," is issued weekly. There are a number of anthracite coal mines in the vicinity. Pop. about 1,600.

MINERSVILLE, p. v., McDowell co., *N. Car.*: at head of Cane cr., 175 m. W. Raleigh.

MINERVA, p. v., Houston co., *Ga.*: at the source of Beaver cr., 62 m. S. W. Milledgeville.

MINERVA, p. v., Mason county, *Ky.*: 72 m. E. N. E. Frankfort.

MINERVA, t. and p. v., Essex co., *N. Y.*: 79 m. N. $\frac{1}{2}$ W. Albany. Drained by Hudson r., and Boreas, Cedar, and Indian rivers, its forks. Surface hilly, in parts mountainous, the Adirondack Mountains being situate here. In the valley is to be found some fertile land. Water-power is good; there are several mills and some manufactures here. The v. in which the post-office is situate is in the S. E. part of the t. Pop. of the t. 536.

MINERVA, p. v., Stark co., *Ohio*: on the line of the Sandy and Beaver Canal, 107 m. E. N. E. Columbus. It contains several stores, and about 450 inhabitants.

MINETTO, p. o., Oswego co., *N. Y.*: 137 m. N. W. Albany.

MINGO FLAT, p. o., Randolph co., *Virg.*: 137 m. N. W. Richmond.

MINISINK, t. and p. v., Orange co., *N. Y.*: 97 m. S. S. W. Albany. Bounded on the E. and S. E. by Walkkill, by which and its branches it is drained. Surface in the W. hilly and in the E. varied, being partly covered by what is termed the *drowned lands*; soil in parts fertile and productive. There are in the t. a large number of mills, several manufactories, and a variety of stores. The New York and Erie R. E. crosses the N. W. part of the t. The v. is near the Walkkill, and has several stores and workshops. Westtown is the name of a post-office in the S. part. Population of t. 4,972.

THE TERRITORY OF MINNESOTA.

MINNESOTA occupies "all that part of the territory of the United States which lies within the following limits, to wit: beginning in the Mississippi River, at the point where the line of 43° 30' of north latitude crosses the same; thence running due west on said line, which is the northern boundary of the State of Iowa, to the north-west corner of the said State of Iowa; thence southerly along the western boundary of the said State to the point where the said boundary strikes the Missouri River; thence up the middle of the main channel of the Missouri River to the mouth of the White-earth River; thence up the middle of the main channel of the White-earth River to the boundary line between the possessions of the United States and Great Britain; thence east and south of east along the boundary line between the possessions of the United States and Great Britain to Lake Superior; thence in a straight line to the northernmost point of the State of Wisconsin in Lake Superior; thence along the western boundary line of said State of Wisconsin to the Mississippi River; thence down the main channel of said river to the place of beginning."—*Act of Congress*, 3d March, 1849. Within this territory the area may be computed at 140,000 or 150,000 square miles; according to the census report it is only 83,000 square miles, which is evidently an error.

This immense region is bountifully watered by the Mississippi, of which it contains the true sources, the Minnesota, the Missouri River, and the Red River of the north, and their numerous tributary streams, which traverse it in every part. There are also innumerable bodies of fresh water, which abound in fish of various kinds, the white fish especially being found in great numbers in the more northern or large lakes. The general character of Minnesota is that of a high rolling prairie, but the streams and lakes are bordered with heavy bodies of timber, which contain every species of wood known along the Mississippi below, except beech and sycamore. At a point about 8 miles above the Falls of St. Anthony, west of the Mississippi, commences a large and remarkable forest, which extends to the south nearly at a right angle across the Minnesota, or St. Peter's River, to the branches of the Makato, or Blue-earth River. This vast body of woodland is more than 120 miles in length and from 15 to 40 in breadth. Many beautiful lakes of limpid water are found within its limits. In this fine country are to be found all the requisites to sustain a dense population. The soil is of great fertility and unusual depth, covered as it is with the mold of a thousand years. The soil of Minnesota, indeed, is admirably adapted to the cultivation of all the cereal grains. Wheat, oats, and barley are safe crops, even as far north as the Red River settlement on the British line. The country is destined to become a great agricultural region, and its prairies are well calculated for the raising of stock. There is also such an extent of water-power throughout its broad surface that no reason can be perceived why manufactures would not flourish also. The reports of those scientific men who have explored the country justify the belief that the territory is rich in copper ores, and also in galena or lead ores. Whether coal exists is a problem yet to be solved. If it should be found in any considerable quantities, the discovery will be of more real advantage than the richest mines of silver and gold.

On the upper portion of the Mississippi and St. Croix valleys lies the great region of pine which has been and will continue to be a great source of wealth to the Territory and State for centuries to come. The manufacture of pine lumber already occupies a large part of the industrial labor of the people. Much of this is needed for home consumption, caused by the rapid increase of population, but the larger portion is sent to St. Louis, where it meets with a ready sale. The climate of Minnesota is not subject to sudden variations, especially in winter. Although in some years the snow falls to a

MINNESOTA.

great depth, yet, as a general rule, it is far less than is experienced in New England or the northern part of the State of New York. The comparative absence of moisture in the country is attributable, doubtless, to the fact that no very large bodies of water are to be found, although, as before stated, small lakes abound. During the coldest weather in winter the air is perfectly still; consequently the weather is much more tolerable, and even pleasant, than could be supposed by those who reside in the same latitude on the Atlantic coast. The navigation of the Mississippi, however, is not to be relied on after the first week in December, and steamboats arrive in the spring about the middle of April, so that the river may be considered as closed about five months in the year.

Minnesota, in 1850, according to the census of that year, was divided into nine counties, the general statistics of which and the capitals of each were as follows:

Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.		
Benton.....	71 ...	418 ..	20 ...	1 ...	Sauk Rapids	Ramsey.....	884 ...	2,227 ..	19 ...	ST. PAUL	
Dakotah.....	78 ...	584 ...	— ...	— ...	Fort Snelling	Wabashaw	55 ...	243 ...	8 ...	—	
Itasca.....	23 ...	97 ...	86 ...	— ...	—	Wahnahta	26 ...	160 ...	5 ...	—	
Mankatah....	16 ...	158 ...	4 ...	— ...	—	Washington.....	161 ...	1,056 ...	48 ...	4 ...	Stillwater
Pembina.....	188 ...	1,134 ..	17 ...	— ...	Pembina						

The whole number of dwellings in the Territory was, at the above date, 1,002, of families 1,016, and of inhabitants 6,077, viz.: whites 6,083—males 3,695, and females 2,343; and of free colored persons 39—males 21, and females 18. Of the whole population, there were *deaf and dumb*—wh. 0, fr. col. 0—total 0; *blind*—wh. 0, fr. col. 0—total 0; *insane*—wh. 0, fr. col. 0—total 0; and *idiotic*—wh. 1, fr. col. 0—total 1. The number of free persons born in the United States was 4,007; the number of foreign birth, 2,048; and the number of birth unknown, 22. The *native* population originated as follows: Maine 865, N. Hamp. 47, Verm. 100, Mass. 92, R. I. 3, Conn. 43, N. York 488, N. Jer. 115, Penn. 227, Del. 3, Md. 31, Dist. of Col. 3, Virg. 59, N. Car. 6, S. Car. 4, Ga. 4, Flor. 0, Ala. 6, Miss. 0, La. 4, Tex. 0, Ark. 11, Tenn. 21, Ky. 71, Ohio 291, Mich. 41, Ind. 35, Ill. 168, Mo. 90, Ia. 81, Wisc. 301, Calif. 1, and territories 7; and the *foreign* population was composed of persons from—England 84, Ireland 271, Scotland 89, Wales 2, Germany 141, France 29, Holland 16, Spain 1, Portugal 0, Belgium 1, Turkey 0, Italy 1, Austria 1, Switzerland 32, Russia 2, Norway 7, Denmark 1, Sweden 4, Prussia 5, Sardinia 0, Greece 0, China 0, Asia 0, Africa 0, British America 1,417, Mexico 0, South America 0, Central America 0, West Indies 0, Sandwich Islands 0, other countries 4.

The statistics of the wealth, industry, institutions, etc., of the Territory, according to the seventh census of the United States taken in 1850, and other official returns referring to the same period of time, are as follows:

Occupied Lands, etc.—Improved farm lands 5,035 acres, and unimproved lands 23,846 acres, valued in cash at \$161,943; number of farms under cultivation, 157; value of farming implements and machinery, \$15,931.

Live-Stock.—Horses 560, asses and mules 14, milch cows 607, working oxen 655; other cattle 740, sheep 80, and swine 734—valued in the aggregate at \$2,859.

Animal Products.—Wool 85 pounds, butter 1,100 pounds, cheese 0 pounds; and the value of animals slaughtered during the year had been \$2,840.

Grain and Food Crops.—Wheat 1,401 bushels, rye 125 bushels, Indian corn 16,725 bushels, oats 38,532 bushels, barley 1,216 bushels, and buckwheat 515 bushels. Peas and beans were produced to the amount of 10,002 bushels, and potatoes—Irish 21,145 bushels, and sweet 200 bushels.

Miscellaneous Crops.—Hay 2,019 tons, maple sugar 2,950 pounds; value of the produce of market gardens \$150.

Manufactures, of course, can not be looked for in so young a community as that of Minnesota. According to the census there were in the Territory only *five* industrial establishments producing to the value of \$500 and upward annually. The *commerce* of the country is wholly carried on by means of steamboats navigating its rivers, and there is some overland intercourse maintained between the Pembina settlement on the Red River and the south-eastern towns, but to no great amount. Regular steamers ply between St. Louis and St. Paul *via* Fevre River, etc.

Government.—The government is based on the act of Congress constituting the Territory, passed 30th March, 1849. This act gives the right of suffrage to every free white male inhabitant 21 years old, and who has taken an oath to support the Constitution of the United States and the act forming the Constitution of the Territory. All electors are eligible to be elected.

The *Legislature* consists of a Council and House of Representatives. The Council has 9 members elected in districts by a plurality of votes, for two years, and the House 18 members elected for one year. The legislature may increase the number of councillors to 15, and the number of representatives to 39. Members of either body must reside in their district, and every district shall be represented according to its population after deducting Indians. No session of the Legislative Assembly shall exceed sixty days. No law shall be passed interfering with the primary disposal of the soil; no tax shall be imposed on the property of the United States; nor shall the property of non-residents be taxed higher than that of residents. All laws shall be submitted to Congress, and if disapproved shall be null.

The *Governor* is appointed by the President and Senate for four years, and until his successor be appointed and qualified, unless sooner removed by the President. He is *ex-officio* superintendent of Indian affairs, and commander-in-chief of the militia. He may grant pardons for offenses against territorial laws, and reprieve, until the decision of the President be known, for offenses against the laws of the United States. His veto may be defeated by a subsequent two-third vote of the Legislative Assembly. The Secretary of the Territory, whose mode of appointment and tenure of office, is the same as the Governor's, would assume his functions in case of his absence, or the vacation of his office.

The *judiciary* consists of a Supreme Court, District Courts, etc. The Supreme Court consists of a Chief Justice and two associates, appointed by the President and the Senate for four years, any two of whom constitute a quorum, and hold an annual term at the seat of government. The Territory is divided into three districts, in each of which one of the three justices reside, and hold a District Court, having the jurisdiction of the United States District and Circuit Courts in all cases arising under the laws or constitution of the United States, for jury trials, subject to appeal to the Supreme Court, in which issues at law only are heard. From the Supreme Court writs of error and appeals lie to the Supreme Court of the United States (as from a Circuit Court), where the matter in dispute exceeds in value \$1,000. Both the District and Supreme Courts possess chancery powers. Justices of the peace have no jurisdiction where the title or boundaries of land are in dispute, or where the sum claimed exceeds \$100. An attorney and marshal of the Territory are appointed by the President and Senate for four years. Inhabitants of the Territory are secured all the rights heretofore granted to the

inhabitants of Wisconsin, and the laws of Wisconsin, at the date of its admission as a State, so far as compatible with the present organization, until repealed or modified. A delegate to the House of Representatives in Congress is chosen by a plurality of votes for two years.

The *financial* condition of the Territory is exhibited in the official reports to the 1st January, 1852: Territorial taxes for 1850, collected \$561 41, and delinquent \$271 08, or a total of \$832 49; territorial taxes for 1851, due, etc., \$1,282 81—making a total revenue for 1850 and '51 amounting to \$2,114 80. Warrants drawn on the Treasury, in 1850, \$1,181 50, and in 1851 \$350—total for the two years \$2,031 50. Excess of revenue, including unpaid tax, \$88 80.

The *militia* force of Minnesota, in 1850, consisted of 2,003 men of all arms, of which 7 were commissioned officers, and 1,996 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 2 were general officers, and 5 general staff officers.

Education.—Schools are established in the more thickly populated sections, and are supported chiefly by local tax. The United States Government appropriates also \$12,000 to the purposes of education. Two sections of the land from every township are reserved for the support of schools—in the older settled States only one section in each town was thus set apart. Congress also appropriated \$20,000 for a public library.

Religious Denominations.—The census of 1850 does not record any thing respecting the denominations in this Territory. The following are from the annual reports of the several churches: The Roman Catholics, in 1853, had 7 churches, and 10 clergymen, chiefly employed on missions. The Territory was erected into the Roman Catholic diocese of St. Paul, on the 28th June, 1850. The Episcopalians have a church at St. Paul, and several others in different parts, and are under a missionary bishop. The Methodists and Baptists have also congregations, and perhaps number larger than any of the other sects, but it seems that the newness of the settlements, or distance from the central establishments, has prevented the usual reports being sent in. So little, indeed, is known of the religious condition of the people of Minnesota, that it were perhaps better to advance no opinion on the subject until reliable information can be obtained.

Nor is there any definite information respecting the public press. The census is silent on this point, but there are at St. Paul at least two newspapers, and others may or may not be published elsewhere. Nor have any records of crime and pauperism as yet been published.

Historical Sketch.—Previous to Minnesota being erected into a Territory by the Act of Congress of 8d March, 1849, that portion of it east of the Mississippi River formed a part of Wisconsin Territory, and that west of that river a part of Iowa Territory. The Territory derives its name from *minni-sotah*, the Indian name for St. Peter's River—*minni* in their language meaning "water," and *sotah* "muddy or slightly turbid." The country originally belonged to the French by priority of discovery. At an early period their traders, missionaries, and soldiers had penetrated into the western wilderness. The United States had little authority in this region until 1812. In 1816 a law of Congress excluded foreigners from the Indian trade, and for the encouragement of our own citizens the military post at Fort Snelling was established in 1819. Among the explorers of this country the names of Carver, Pike, Cass, Long, Beltrami, Schoolcraft, Nicollet, Owen, etc., will ever be intimately connected with its history. The honor of verifying the sources of the Mississippi belongs to Schoolcraft. The Territorial Government was organized by Governor Ramsey. The first legislature, which adjourned after a session of 60 days on the 1st November, 1849, was chiefly employed in consolidating the government and dividing the Territory into suitable civil districts, and appointing civil officers to enforce the laws. Among its most important acts were those establishing the judiciary, a school system, and relative to the improvements of the roads. All these will have a paramount influence over the future destiny of the country. Perhaps one of the most humane and politic acts of the legislature was the admission to citizenship of "all persons of a mixture of white and Indian blood who shall have adopted the habits and customs of civilized men;" and not less politic is that law which requires the establishment of schools throughout the Territory. The act of the General Government, erecting the Territory, appropriates two sections in every township for the support of common schools. No other State had previously received more than one section in each township for such purpose. In June, 1849, the citizen population numbered 4,780; in June, 1850, it had increased to 6,077—a fact which speaks well for the future progress of this rising Territory.

"Congress may hereafter divide said Territory, or annex any portion of it to another State or Territory.—*Act of Congress, 8d March, 1849.*

ST. PAUL, on the left bank of the Mississippi River, is the political capital of the Territory.

MINOT, t. and p. o., Cumberland county, *Me.*: 81 m. S. W. by W. Augusta. Drained by Little Androscoggin r. and its branches, which afford excellent hydraulic power. Surface diversified; soil fertile, and well cultivated. The inhabitants are chiefly employed in agricultural pursuits. There are a number of mills here, and it is important for its manufactories. The v. of West Minot is in the N. W. part of the t., on a branch of the Little Androscoggin r. and on the line of the Buckfield Branch R. R. (which crosses the W. part of the t.) 9 m. from Buckfield. Pop. of the t. 1,734.

MINSTER, p. v., Auglaize co., *Ohio*: on the Miami Canal, 122 m. N. Cincinnati, and 68 m. W. N. W. Columbus.

MINST SAGAONGING, or MILLE LACS, *Minn.*: a circular lake lying in Ramsay and bordering on Washington County 79 m. N. St. Paul. Its principal outlet is Rum r. on the S., which empties into the Mississippi.

MINTONVILLE, p. v., Gates co., *N. Car.*: 128 m. E. N. E. Raleigh.

MINT SPRING, p. o., Augusta co., *Virg.*: 98 m. W. N. W. Richmond.

MIRABLE, p. o., Caldwell county, *Mo.*: 128 m. N. W. Jefferson City.

MIRANDA, p. v., Rowan co., *N. Car.*: 108 m. W. by S. Raleigh.

MIRICKVILLE, p. o., Bristol co., *Mass.*: 35 m. S. Boston.

MISERY river, *Mich.*: rises in a pond in the W. part of Houghton County, flows N. W., and empties into Lake Superior.

MISHAWAKA, p. v., St. Joseph co., *Ind.*: on the line of the Northern Indiana R. R., and on the S. side of the St. Joseph's r., 131 m. N. Indianapolis.

MISMICOTT, p. v., Manitowoc co., *Wisc.*: W. side of East Twin r., 121 m. N. E. Madison.

MISPILION, hundred, Kent co., *Del.*: between Mispillion and Mother Kill creeks, which flow into Delaware Bay, 13 m. S. Dover. Area, 72,580. It contains several stores, mills, and manufactories, and a number of mechanic shops.

MISPILION creek, *Del.*: rises in the N. part of Sussex co., flowing N. E. divides it from Kent, and empties into Delaware Bay.

MISSIONARY STATION, p. v., Floyd co., *Ga.*: on the N. side of COOSA r., 157 m. N. W. by W. Milledgeville.

MISSAUKEE county, *Mich.*: Situate N. centrally on Lower Peninsula, and contains 576 sq. m. Drained by branches of Manistee and Muskegon rivers, which flow into Lake Michigan. Unorganized.

MISSION POINT, p. o., La Salle co., *Ill.*: 130 m. N. N. E. Springfield.

MISSION SAN JOSE, p. o., Contra Costa co., Calif.: 25 m. S. Vallejo.

MISSISQUE bay, *Verm.*: a large sheet of water, an arm of Lake Champlain, extending into Canada, between Swanton and Highgate E., and Albany W. On the Canada line its width is about 5 m., and extends N. the same distance. It covers an area of 35 square miles. Several streams flow into it, the principal of which is the one so called.

MISSISQUE river, *Verm.*: this crooked river rises in the hilly part of Lowell, flows N. through Westfield and Troy into Canada, where it receives a large stream from the N. E.; running W. several miles, it returns into Vermont through Richford, and after a westerly course through Berkshire, Enosburg, Sheldon, Highgate, and Swanton, returns N. into Highgate, and empties into Missisquoi Bay, Lake Champlain, at Highgate, near the Canada line. At Enosburg it receives Trout r., besides which Black cr. and Tay-

lor's Branch are its most important tributaries, affording a number of valuable mill-sites. Its length, including windings, is about 75 miles. It has a number of falls in its course. Navigable for vessels of 50 tons burden to Swanton Falls, distant 6 m., where there is extensive hydraulic power.

MISSISSINAWA, t. and p. o., Darke co., Ohio: 94 m. W. by N. Columbus. Drained by Mississinawa r. Surface level; soil fertile, adapted to grain. Danemora v. is in the E. part of the t. on Mississinawa r. Pop. of t. 378.

MISSISSINAWA river, *Ind.*: rises in W. part of Darke co., Ohio, flowing in a N. W. course into Indiana, passes through the counties of Randolph, Delaware, Grant, and Wabash, and empties into the Wabash river, in Miami co., a short distance below Peru. It forms one of the principal tributaries of the Wabash river. Its upper parts furnish good mill-seats, and its lower is navigable at high water for boats of 10 tons burden.

THE STATE OF MISSISSIPPI.

MISSISSIPPI is bounded on the north by Tennessee, on the east by Alabama, on the south by the Gulf of Mexico and Louisiana, and on the west by Pearl and Mississippi rivers, which separate it from Louisiana and Arkansas. Like Alabama, it has a narrow strip of land about 90 miles long and 50 miles wide, south of the main body of the State to the Gulf of Mexico. Independently of this tract, it lies between 31° and 35° latitudes north, and extends from 88° 12' to 91° 36' longitudes west from Greenwich, or 11° 10' and 14° 34' from Washington. In the north, the width is about 116 miles, but it expands pretty regularly to 189 miles in the south, and its length, exclusive of the strip above mentioned, is about 276 miles, comprising an area of 47,156 square miles.

The surface of Mississippi has a general slope to the south-west and to the south, as appears from the course of the rivers; but a small section sends off its waters to the south-east. There are no mountains within the limits of the State, yet numerous ranges of hills of moderate elevation give to the greater part of the surface an undulating and diversified character: some of these eminences terminate abruptly upon a level plain, or upon the banks of a river, and bear the names of bluffs or river hills. The western border on the Mississippi is an extensive region of swamps; and between the Mississippi and Yazoo there is a tract of 170 miles in length by 50 in width, with an area of nearly 7,000 square miles annually overflowed. "The broad and extensive low grounds or flats, between Memphis and Vicksburg, are subject to frequent inundations to the depth of many feet, and a width of from 10 to 20, and even occasionally 30 miles. Much of the surface is occupied by swamps, morasses, lagoons, slashes, etc., through which the Yazoo River has its course; the whole of which, from the junction of the Cold Water and Tallahatchee rivers, lies between this valley region. From the circumstances already detailed, this extensive tract has been denominated by some the Mississippi, and by others the Yazoo Swamp. During the prevalence of high floods, it assumes the character of a marine forest rather than that of a woodland bottom." The south-eastern counties are generally low, but have an undulating surface; and the southern part of the State, generally for about 100 miles from the Gulf of Mexico, is mostly a sandy level country, covered with a pine forest, interspersed with cypress swamps, prairies, water-marshes, and a few hills of slight elevation.

Every portion of the State is well watered; clear and running streams penetrate it in every direction, and its rivers are numerous and wide-spreading. The Tennessee River laves the north-eastern corner, and the Tombigbee, which rises in this section, has been navigated by steamboats to Aberdeen, in Monroe County. The Mississippi washes the whole western border for a distance, by the circuitous course of its channel, of 580 miles, but in a straight line of not half that distance. From Memphis, just above the northern frontier of Mississippi, to Vicksburg, a distance of 450 miles, the uplands or river hills are separated from the river by inundated bottoms of greater or less width, and afford no site suitable for a port; below Vicksburg, the only eligible port is Natchez, 100 miles south, and below this point there is no bank of much magnitude above the reach of high water till we come to Baton Rouge, in Louisiana. The Mississippi, however, receives several considerable streams from the most valuable part of the State. The Yazoo is formed by the junction of the Yallahusha and Tallahatchee, which rise in the northern part of the State, near the head waters of the Tombigbee, and flows into the Mississippi 12 miles above Vicksburg, after a course of 200 miles, 50 miles of which are navigable for large boats. Big Black River is next in point of size, and enters the Mississippi immediately above Grand Gulf by a mouth 40 yards wide. Its length is 200 miles, and it is navigated by steamboats for 50 miles. The Bayou Pierre and the Homochitto are the other principal tributaries of the Mississippi from this State; the latter enters the Mississippi 49 miles below Natchez. The other rivers have a southerly course to the Gulf of Mexico and the lagoons connected with it. The Amiteé has but a small part of its course in Mississippi. The Pearl River rises near the centre of the State, and flows through a fertile and populous region into the Rigolets, or outlet of Lake Pontchartrain. Below 31° north latitude it divides the State from Louisiana, and has been navigated by steamboats to Jackson. The Pascagoula waters the south-eastern section. It is formed by the confluence of the Chickasawha and Leaf rivers, and empties into the sound of the same name. It is navigable for 50 miles for vessels of 6 feet draft of water, and for boats 100 miles farther, but the bay at its mouth has only 4 feet of water.

The coast, which extends along the Gulf of Mexico for about 60 miles, has no harbors except those of Mississippi City and Shieldsboro', which, however, do not admit large vessels. A chain of low sand islands, six or seven miles from the shore, inclose several bays or sounds, the largest of which are Pascagoula Sound and Lake Borgne. Ship and Cat islands are eligible stations for ocean steamers. The ports on the Mississippi are Vicksburg, Grand Gulf, and Natchez.

The upper portion of the State is generally known as North Mississippi, though the region thus designated includes a portion only of the north. This section of the State (the Chickasaw cession) came into market and cultivation some fifteen years ago. The surface of the ground is rather rolling, but generally is very clean; has an open champaign appearance, and is beautifully wooded with oak, hickory, etc., devoid of undergrowth. The uplands produce very abundantly, but the substratum of the country being sandy, they are soon ruined by the heavy rains. The valley lands, as they are termed, are much more durable, the soil being heavier and darker, and are highly productive; but they are

MISSISSIPPI.

liable to be and frequently are submerged, acres at a time, under billows of sand washed from the uplands during heavy freshets. Cotton has hitherto been the staple product. The chief outlet of this region is by wagons to Memphis. Another section of North Mississippi is called the "Prairie," or "Tombigbee" country, covering the north-east part of the State, and sweeping far down on the Alabama line. This country is uniformly level, with scarcely a tree, covered by rank grass, dotted sometimes with pools and marshes, and intersected by dull, sluggish branches. The soil is a dark, heavy loam, coal-black, and of surprising strength and fertility. The mold is different from that of Lower Louisiana in this, that it is more of an original and less of a depository character; and also in being thick and highly adhesive, instead of light and ashy, as the former. It is also corrosive and deeply impregnated with lime—strong and apparently inexhaustible. The crop is and ever will be cotton, of which the yield is abundant. Corn also yields profusely. This region, though lying by the Chickasaw counties, finds its market at Mobile by means of the Tombigbee River principally. The border counties, down the Alabama line, change from the prairie and partake more of the character of the Chickasaw lands. It is a beautiful and healthy range of counties, finely watered, and produces cotton and the lighter grains. A large portion of the State is known as East Mississippi, which really includes the south-east and part of the southern sections. Though one of the oldest, it is one of the thinnest settled parts of the State. The character of the land is mixed—some poor and some very rich; broken hills and fertile valleys. Cotton is produced, but to no great extent; corn and small grain abundantly, and sometimes rice; it is also famous for its cattle. Indeed, the region possesses many of the pleasant characteristics of a pastoral country. The natural market of this section is Mobile, although a small portion of its trade is done at Jackson, and some of it seeks New Orleans by way of Pearl River. The portion of the State bordering on the sea-shore, with its bathing, fish, oysters, and pleasant summer retreats, is well known to the dust-covered denizens of New Orleans, and is becoming to the South what Newport and Cape May are to the North. Back from the sea-coast is generally a sandy, broken tract, covered by quantities of fine pine, which is now being worked off the land for timber and naval stores. The south-west and country above it is the oldest settled portion of the State; the soil is rich, and the population wealthy. Commencing some 50 miles below the mouth of the Yazoo River, inclining to the interior for about 100 miles in a line gently circling northward up through the centre, then diverging to the north-west to a point below Memphis, is to be found as noble a sweep of country as any in the world. It is washed by the Mississippi from Memphis to Vicksburg, and is intersected by the Yazoo, its head waters and tributaries, throughout its greatest extent. The facilities for market are unequalled. The Yazoo River running through nearly its whole extent, is an excellent stream, affording steam navigation as high as the south-west corner of Marshall County. The soil is of a most productive character, being, as it is called, *swamp land*. It possesses all the strength of the prairie lands without their adhesive and corrosive nature. This region has but recently come into cultivation, it having hitherto been considered damp and unhealthy; but this idea experience has much modified. One drawback on these lands, however, is their liability to overflow from freshets in the Mississippi River. The section last spoken of embraces the counties of Yazoo, Sunflower, Washington, Bolivar, Coahoma, Tunica, Tallahatchie, and a portion of De Soto, Panola, Yalabusha, Carroll, and Holmes, and is generally known as the region of the "River Counties." [Several valuable articles on the topography etc., of Mississippi will be found in "*De Bow's Industrial Resources*," etc., volume II.]

Mississippi is divided into 59 counties, the general statistics of which in 1850 were as follows:

NORTHERN MISSISSIPPI—TWENTY-THREE COUNTIES.

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Attala.....	1,431...	10,999...	1,836...	44...	Kosciusko
Bolivar.....	95...	2,577...	57...	0...	Bolivar
Carroll.....	1,441...	18,491...	986...	45...	Carrollton
Chickasaw...	1,647...	16,368...	1,167...	29...	Houston
Choctaw.....	1,405...	19,042...	1,132...	17...	Greensboro'

MISSISSIPPI.

The whole number of dwellings in the State was, at the above date, 51,681, of families 52,107, and of inhabitants 606,565, viz.: whites 295,758—males 158,260, and females 139,498, free colored 889—males 473, and females 426; slaves 309,893. Of the whole population, there were *deaf and dumb*—wh. 81, fr. col. 1, sl. 26—total 108; *blind*—wh. 130, fr. col. 1, sl. 86—total 217; *insane*—wh. 127, fr. col. 0, sl. 22—total 149; and *idiotic*—wh. 141, fr. col. 5, sl. 64—total 210. The number of free persons born in the United States was 291,114; the number of foreign birth 4,958, and of birth unknown 576; the native population originated as follows: Maine 139, N. Hamp. 100, Verm. 141, Mass. 389, R. I. 62, Conn. 242, N. York 952, N. Jer. 221, Penn. 981, Del. 67, Md. 791, Dist. of Col. 93, Virg. 40,777, N. Car. 17,009, S. Car. 2,919, Ga. 1,254, Flor. 67, Ala. 2,067, *Mississippi* 140,885, La. 2,557, Tex. 189, Ark. 456, Tenn. 27,439, Ky. 3,948, Ohio 564, Mich. 101, Ind. 418, Ill. 811, Mo. 808, Ia. 7, Wisc. 4, Calif. 1, Territories 5; and the *foreign* population was composed of persons from—England 593, Ireland 1,928, Scotland 817, Wales 10, Germany 1,064, France 440, Spain 49, Portugal 2, Belgium 3, Holland 8, Italy 121, Austria 16, Switzerland 41, Russia 9, Denmark 24, Norway 8, Sweden 14, Prussia 71, Asia 2, Africa 6, British America 79, Mexico 13, Central America 1, South America 4, West Indies 25, and other countries 110.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authorities in 1800:

Census Year.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1800	5,179	182	3,489	3,671	8,850	—	—
1810	23,024	240	17,088	17,328	40,852	31,502	355.9
1820	42,176	458	32,514	33,272	75,448	35,096	86.9
1830	70,448	519	65,659	66,178	136,621	61,173	81.0
1840	179,074	1,366	195,211	196,577	275,651	239,080	175.1
1850	295,758	899	309,893	310,797	606,555	230,904	61.4

The statistics of the wealth, industry, and institutions of the State, as exhibited by the seventh census of the United States, taken in 1850, are as follows:

Occupied Lands, &c.—Improved farm lands, 3,444,359 acres, and unimproved lands, 7,046,061 acres—valued together at \$54,738,634. Total number of farms under cultivation 1st June, 1850, 38,960; in the Northern District, 19,851; and in the Southern District, 14,109. Value of farming implements and machinery, \$5,762,927.

Live-Stock.—Horses, 115,460; asses and mules, 54,547; milch cows, 214,231; working oxen, 83,485; other cattle, 436,254; sheep, 804,929; and swine, 1,582,734—valued in the aggregate at \$19,403,662. According to the census of 1840, there were in the State at that date, 109,227 horses, mules, &c.; 623,197 neat cattle of all kinds; 128,367 sheep; and 1,001,209 sheep.

Products of Animals.—Wool, 559,619 (in 1840, 175,196) pounds; butter, 4,346,234 pounds; cheese, 21,191 pounds; and the value of animals slaughtered in the year was \$3,636,582. The quantity of beeswax and honey produced was 397,460 pounds.

Grain Crops.—Wheat, 137,990 bushels; rye, 9,606 bushels; Indian corn, 22,446,552 bushels; oats, 1,508,238 bushels; barley, 229 bushels, and buckwheat, 1,121 bushels. The crops of the several grains, according to the census of 1840, were—wheat, 196,626 bushels; rye, 11,444 bushels; Indian corn, 13,161,237 bushels; oats, 668,624 bushels; barley, 1,654 bushels; and buckwheat, 61 bushels.

Other Food Crops.—Rice, 2,719,856 bushels; peas and beans, 1,072,757; potatoes—Irish, 261,482, and sweet, 4,741,795 bushels. The rice crop, according to the returns of 1840, amounted to 777,195 pounds; and the crop of potatoes to 1,630,100 bushels.

Miscellaneous Crops.—Tobacco, 49,960 (in 1840, 83,470) pounds; ginned cotton, 484,293 bales of 400 pounds (in 1840, 193,401,577 pounds); hay, 12,505 (in 1840, 171) tons; clover-seed, 84 bushels; other grass-seed, 538 bushels; hops, 473 pounds; hemp—dew-rotted, 7 tons, and water-rotted, 0 tons; flax, 665 tons; flax-seed, 26 bushels; silk cocoons, 2 pounds; sugar—maple, 0 pounds, and cane, 388 hogheads of 1,000 pounds; molasses, 18,318 gallons; wine, 407 gallons, &c.; value of orchard products, \$50,405, and of market-garden products, \$46,250.

The table annexed exhibits the absolute and relative difference in the chief crops, as ascertained under the censuses of 1840 and 1850:

Staples.	1840.	1850.	Movement.	
Wool.....	175,196 pounds	559,619 pounds	incr.	884,423 pounds, or 219.4 per cent.
Indian Corn	13,161,237 bushels	22,446,552 bushels	incr.	9,285,315 bushels, or 70.5 “
Rice	777,195 pounds	2,719,856 pounds	incr.	1,942,661 pounds, or 249.9 “
Tobacco	83,471 “	49,960 “	decr.	83,511 “ or 40.1 “
Cotton	193,401,577 “	193,717,200 “	incr.	315,623 “ or 0.16 “
Sugar	77 “	888,000 “	incr.	887,923 “ or 503,796.1 “

Thus it would appear that of all the staples, except tobacco and cotton, the ratio of increase has been immeasurably ahead of the ratio of the increase of the population. Cotton has almost exactly kept its absolute status, which, in fact, is a relative decline in the production of the staple; and if it had increased in like proportion with the population, the crop should have been about 322,350,000 pounds. This result in the crop of 1850 is accounted for by the terrible inundations of the Mississippi in 1849, and may in part be set down to drafting of labor to other fields; the decline, however, is not permanent.

Home-made Manufactures for the year ending 1st June, 1850, were valued at \$1,164,020. The same denomination of manufactures in 1839-40, according to the census of the latter year, were valued at \$652,945.

Manufactures.—Total capital invested \$0,000,000; value of all raw material, fuel, &c., consumed, \$0,000,000; average number of hands employed, 00,000—males 00,000, and females 0,000; average monthly cost of labor, \$000,000—male \$000,000, and female \$00,000; value of manufactures produced in the official year, \$0,000,000. Amount of capital invested in manufactures in 1840, \$1,797,722. The whole number of industrial establishments in the State, producing to the value of \$500 and upward on the 1st June, 1850, was 866—in the northern district 536, and in the southern district 330, and distributed to the counties, as shown in the general table. Of the whole number, 2 were cotton factories, 92 tanneries, and 8 forges, besides which there are several machine-shops, carriage factories, &c.; but the greater part of the capital invested is in grist and saw mills, and other establishments usual in an agricultural country.

Capital employed in the *cotton manufacture*, \$38,000; annual consumption of cotton, 430 bales, valued at \$21,500; hands employed, 36; monthly cost of labor, \$371; annual products, 171,000 pounds yarn; value of entire products, \$30,500.

MISSISSIPPI.

Capital invested in the *iron manufacture*, \$100,000; material consumed in the year—pig iron 1,197 tons, mineral coal 248 tons, and coke and charcoal 92,000 bushels—valued together at \$50,870; hands employed, 112; average wages per month, \$37 91; castings made, 924 tons; total value of products, \$117,400.

Capital invested in *tanneries*, \$145,615; value of all raw material, \$111,474; hands employed, 269; monthly cost of labor, \$4,949; skins tanned 9,780, and sides tanned 104,630; value of products, \$229,407.

Internal Communication.—Mississippi has hitherto been most miserably provided with the means of intercommunication; and had it not been that nature had given it highways in the form of navigable rivers, its great and fertile interior must have remained a wilderness in the midst of thriving populations. Its present condition, even, is little removed from such abnormal uselessness. Excepting its ordinary roads, which, however, are none of the best, the genius of modern times had done little or nothing to facilitate its access to the markets. True, it has not been backward in projects, yet none but in the single instance of the Vicksburg, Brandon, and Jackson Railroad has been brought to fruition. Here, then, is the present condition of the commercial avenues of the State. Its prospects for the future are more encouraging. There are now in progress the Mobile and Ohio Railroad, and the New Orleans, Jackson, and Northern Railroad traversing the State north and south, and forming in Mississippi links in the great chain that is to unite the Upper Mississippi and the great lakes with two of the great ports of the Gulf of Mexico; and traversing the State east and west are the Memphis and Charleston Railroad on the north line; a line of railroad from Selma, *Ala.*, westward to Brandon, there uniting with the already complete railroad to Vicksburg, and a line from Madisonville, on Lake Pontchartrain, eastward to a junction with the Mobile and Ohio Railroad near Mobile. These are the trunk lines now in progress, from which it is proposed to build lateral lines to the principal centres of production, and so build up a system convenient both for through travel and transportation and for local communication. The exterior connections of these lines will connect the State with every part of the Union; with the Atlantic through the East Tennessee, Alabama, and Georgia lines and their continuations; with the north-eastern portion of the central valley through the lines going to and diverging from Nashville, and with the upper country through the lines terminating at and diverging from the mouth of the Ohio River. Westward it will connect with Texas through the lines from New Orleans and Vicksburg in that direction. The beneficial effect of these great lines on the development of the resources of the State, its commerce and general welfare, can not be doubted. Its rich agricultural regions will be rapidly settled, and the lands which are now lying waste will become the scenes of a busy industry in the cultivation of the great staples for which the State is famous, while its consumption of manufactures to be exchanged for its productions, will create a commerce as extensive as it will be profitable to all sections of the Union concerned in the interchange.

Commerce.—The commercial material of Mississippi is carried to New Orleans and Mobile by river for exportation to foreign countries and the home ports, and its imports are received through the same channels. The direct commerce of the State is therefore inconsiderable, and in fact it is very seldom that an arrival or departure in the foreign trade is recorded; years may pass by and the Treasury reports make no mention of either. In 1849–50 no direct foreign commerce or navigation is noted. Its navigation is consequently almost entirely confined to its rivers and the Gulf. The shipping employed in the coasting and river trade is chiefly owned in the adjoining States of Louisiana and Alabama. The tonnage owned in this State amounts only to 1,827 tons, of which 675 tons is navigated by steam; and of the whole, 1,867 tons is owned in the district of Pearl River, and 460 in that of Vicksburg. Of all the States having a front on the sea, Mississippi is most destitute of harbors, and has the least direct seaward navigation; but its access to its natural ports by river fully compensates for the specified disability.

Banking.—No returns of the banks of this State are made public, and as a general thing their issues are of a doubtful character. The Northern Bank of Mississippi, at Holly Springs (capital \$100,000), is said to be the only sound banking institution in the State.

Government.—The government is based on the constitution that went into effect in 1817. The *right of suffrage* is granted to every adult free white male person, a citizen of the United States, resident in the State one year and in the town or county four months next before the election. The general elections are held on the first Monday and Tuesday in November.

The *Legislature* is composed of a House of Representatives and a Senate. Representatives, not fewer than thirty-six, nor more than one hundred in number (and not less than one to each county), are chosen every second year for two years; they must be qualified voters, and have resided two years in the State, and one year in the place they represent. A census is taken at intervals of not more than eight nor less than six years, and the appointment of members made accordingly. Senators, in number not less than one-fourth nor more than one-third the number of representatives, must be thirty years of age, for four years citizens of the United States, and for one year residents of their district, and be chosen for four years, one half biennially. The legislature meets at Jackson on the first Monday in January biennially.

The *Governor* must have attained the age of 30 years, have been a citizen of the United States for 20 years, and for five years a resident of the State. He is chosen by a plurality of votes for two years, and can not hold the office for more than four out of any six years. He may *veto* a bill, but it may be passed and become law, notwithstanding his veto, by a subsequent vote of both houses of the legislature.

All officers are elected either in districts or counties, or by the people at large. No person denying the being of God or a future state of rewards and punishments, can hold office. No money can be expended for internal improvements, except by a vote of two-thirds of both houses; and no State loan can be raised unless the bill be passed by a majority of each house, be published three months before the next election, and be confirmed by a majority of each house, at the next legislature. The legislature can not emancipate slaves without the owner's consent, except on account of great public services, and then must pay for them; nor can it prevent immigrants from importing slaves of the same description with those in the State, if they be *bona fide* property, and not criminals. It may pass laws enabling owners to emancipate slaves, saving the rights of creditors and the public from being at their charge; and laws directing a sale, on the owner's account, if he treat his slaves cruelly. The introduction of slaves as merchandise after 1st May, 1833, is prohibited, but settlers may import them for their own use until 1845. (These two periods being passed, it is probable that the importation of slaves is now prohibited). No grand jury is necessary in the prosecution of slaves for crimes not capital.

The *Judiciary* consists of a High Court of Errors and Appeals, a Superior Court of Chancery, District Chancery Courts, and District or Circuit Courts. The jurisdiction of the "High Court" is exclusively appellate. There are two terms each year at Jackson, commencing on the first Monday of January and November. The court may continue in session as long as business requires, and may order a special term, or adjourn to meet at any time. The Judges are also authorized to meet annually on the third Monday in June, in the town of Oxford, to receive the written, and hear the oral, arguments

MISSISSIPPI.

of causes from the third district, provided the State is not a party. The Legislature appoints the reporter, and has abolished the common law form of pleading, and adopted a system somewhat similar to that of chancery or civil law. The "Superior Court of Chancery," held by the chancellor at the capital, is in law considered always open. The chancellor is authorized to hold the same at such times and for such periods as business may require, upon giving three weeks' notice in the public newspapers. There are in the State three chancery districts; the "District Chancery Courts," each with a vice-chancellor, have concurrent power and jurisdiction with the Superior Court within their respective districts where the amount in controversy does not exceed \$500,000. Special terms of these courts may be held by giving thirty days' public notice. For the purpose of holding district or circuit courts, the State is divided into seven districts. The "Circuit Court" has original jurisdiction in civil cases in which the sum in controversy exceeds \$50, and it has also exclusive criminal jurisdiction. For each of the districts a judge and attorney are elected every four years.

Amendments to the constitution, if they be passed by two-thirds of each house, shall be submitted to the people six months before the next general election, and if approved by them shall be adopted.

The *Militia* force of Mississippi consists of 86,084 men of all arms, of which 825 are commissioned officers, and 35,259 non-commissioned officers, musicians, and privates. Of the commissioned officers 15 are general officers, 70 general staff officers, 892 field officers, etc., and 848 company officers.

The *benevolent institutions* of the State are the Institution for the Blind, and the Mississippi Lunatic Asylum at Jackson.

Finances, etc.—The receipts into the treasury for the year ending 30th April, 1850, amounted to \$397,402 63, and the expenditures by warrant during the same year to \$234,999 53. Excess of means, \$94,403 05. The chief sources of income and the amounts collected from each, were—State tax \$334,689, internal improvement fund \$13,196, the sinking fund \$19,357, penitentiary \$3,189, the seminary fund \$1,251, redemption of lands \$4,001, land sales \$2,720, etc.; and the principal objects and amounts of expenditure, were—Legislature \$48,731, judiciary \$82,307, executive \$3,869, contingent fund (executive) \$4,195, appropriations \$26,179, penitentiary \$25,266, printing \$5,323, executed slaves \$3,762, University \$10,937, Common Schools \$17, Lunatic Asylum \$5,000, Institution for the Blind \$2,455, seminary fund \$3,920, commissions for assessing \$9,540, elections \$2,024, ten per cent. fund \$83,312, etc. The State tax is based on personal and real estate, and the objects of taxation are occupied lands and town lots, money at interest, merchandise sold, bank stock, auction sales, pleasure carriages, watches, clocks, ten-pin alleys, race-tracks, bowie-knives, pistols, cattle over 20 head, horses, stallions, jacks, pianos, male free negroes, slaves under 60 years old, free white polls, etc. The absolute *debt* of the State amounts \$2,271,707, and the contingent debt to \$5,000,000—total, \$7,271,707. The annual interest on the absolute debt is about \$136,000. The State has property to the value of \$2,000,000, but this is at present unproductive. The total assessed value of taxable property in the State in 1850 was \$203,422,167; the true value of property, as ascertained by the census of 1850, amounts to \$223,304,332.

Federal Representation.—Mississippi, in accordance with the act of 23d May, 1850, apportioning representation, sends five representatives to the Congress of the United States.

Education.—Mississippi has never had an efficient common school system, the sparseness of the population having proved a formidable obstacle to the success of any general system. A law was passed in 1846 giving the appointment of school commissioners to the Board of Policy in each county, with power to levy taxes, etc. All the large towns organized schools under this system; but by a later act essential alterations have been made in the law, and special laws for particular counties now govern these institutions. The means of the State for school purposes are ample, consisting of funds arising from leases of the sixteenth sections of land, from fines and forfeitures, and from licenses of hawkers and pedlars, keepers of billiard-tables, retailers of liquors, and brokers. Besides the common schools, there are in the State numerous seminaries, to the support of which the State contributes annually. The collegiate institutions of Mississippi are—the University at Oxford, founded 1844; Oakland College, founded 1830, and Mississippi College at Clinton. The University is partly supported by the State, and in 1850 had 6 professors and 134 students.

Public Libraries.—One State library, 5,000 volumes; 3 college libraries, 5,189 volumes; 2 students' libraries, 2,411 volumes; 102 public school libraries, 3,050 volumes—total libraries, 103, and 15,650 volumes.

Periodical Press.—Whole number of periodicals and newspapers, 56—16 whig, 21 democratic, and 19 neutral in politics, the latter number, including also those devoted to literature, science, religion, and all the character of which is not ascertained. Of the whole number, 2 are issued tri-weekly, and circulate 3,500 copies at each issue, or 546,000 copies annually; 2 semi-weekly, 888 copies, or annually 92,352 copies; and 52 weekly, 26,492 copies, or annually 1,377,064 copies. The *tri-weeklies* are the "Vicksburg Sentinel" and the "Vicksburg Whig;" the *semi-weeklies* are the "Natchez Courier" and the "Natchez Free-Trader;" and the *weeklies* are published—2 at Vicksburg, editions of the tri-weeklies; 2 at Natchez, editions of the semi-weeklies; 3 at Kosciusko, 1 at Liberty, 2 at Carrollton, 1 at Port Gibson, 3 at Houston, 1 at Gallatin, 1 at Hernando, 1 at Gainesville, 1 at Biloxi, 4 at Jackson, 2 at Lexington, 1 at Paulding, 2 at Fayette, 1 at Monticello, 1 at Marion, 2 at Oxford, 1 at Columbus, 2 at Canton, 2 at Holly Springs, 2 at Aberdeen, 1 at Macon, 1 at Holmesville, 1 at Panola, 2 at Pontotoc, 1 at Brandon, 1 at Jacinto, 1 at Ripley, 2 at Woodville, 1 at Louisville, 1 at Grenada, and 1 at Coffeeville.

Religious Denominations.—The statistics of the several religious denominations in the State, according to the census of 1850, were for that year as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.

—making a total of 914 churches, with accommodation for 275,979 persons, and valued as property at \$754,542. Mississippi constitutes a diocese of the same name of the Protestant Episcopal Church, and also the Roman Catholic diocese of Natchez, a suffragan of the ecclesiastical province of New Orleans.

Pauperism and Crime.—The whole number of paupers relieved or supported in the year ending 1st June, 1850, was 260, of which 248 were native-born and 12 foreigners; and the whole number of paupers at the date specified, 257, of

which 245 were native-born, and 12 foreigners; annual cost of support, \$18,132. The State prison is located at Jackson. The whole number of convicts on the 30th November, 1848, was 83, and the whole number received since the establishment of the prison in 1840 was 247, averaging 81 per annum. Of the number in prison in 1848, 7 were foreigners, and 81 natives, and 5 were confined for attempts to kill, 13 for manslaughter, 14 for negro stealing, 5 for forgery, 29 for petty larceny, and 11 for grand larceny. The discharges for the year ending as above were—by expiration of sentence 10, by pardon of governor 13, and by writ of error 1.

Historical Sketch.—Mississippi was discovered by De Soto in 1542, but no permanent settlement was attempted by him. The Indians inhabiting the country were the Choctaws, Chickasaws, Natchez, etc., with which, from the time of the first white trespasser on their lands to the cession of 1763, there was a constant warring. La Salle, descending the rivers from the Illinois country, visited the section bordering on the Mississippi in 1681; and in 1693 the first attempts to found permanent settlements were made by Iberville, the Governor of Louisiana. His colony arrived at Ship Island in 1700, and after exploring the country along and beyond the Mississippi, the parties returned and built a fort at Biloxi, at the mouth of the river of the same name, about 20 miles north of the island. Other settlements were made on the Mississippi River, as New Orleans, Natchez, etc. Fort Rosalie, on the present site of Natchez, was surprised and captured by the Natchez Indians in 1729, and great distress was also, at this time and for many years after, caused by the hostility of this tribe and the Chickasaws. The Choctaws were generally allies of the white settlers, and fought bravely by their side. These hostile tribes were subsequently brought to sue for peace under Bienville, and are now only known by the history their warlike opposition has made for them—not one remains to tell the story of their wrongs. The war between England and France, which forms so conspicuous a page in the history of the middle of the 18th century, ended in 1763, France relinquishing to Britain all her possessions east of the Mississippi, and to Spain all west of that river. Spain at the same time gave up Florida to the British. In 1783 the country north of the parallel of 31° north was included in the limits of the United States by the treaty acknowledging the independence of the Union; and the Floridas reverted to the Spanish crown. By its charter granted in 1732, Georgia extended westward to the Mississippi, and hence, though at that period Mississippi was *de facto* a French colony, yet, on its coming into the possession of the English, it of course fell into the limits of the Georgia charter. These extensive territories were subsequently ceded to the United States, both in sovereignty and ownership. In 1793, they were formed into a Territorial Government, which included also the present State of Alabama. In 1811, that portion of the country south of 31° was attached to the territory, having been wrested from Spain—because that nation could not take care of it. In 1817, the territory was divided, the eastern portion forming a territory under the name of Alabama, and the western portion was erected into the State of Mississippi. The date of its admission into the Union as a State was the 1st March, 1817.

JACKSON, on the west bank of Pearl River, is the political capital of the State.

MISSISSIPPI county, Ark. Situate N. E., and contains 1,129 sq. m. Bounded E. by the Mississippi, W. by the St. Francis, and drained by Whitewater river and its affluents. Surface low and swampy in many parts, with several large lakes. Soil very fertile, where capable of cultivation, and covered mostly with fine timber. Corn is the principal product. The most hazardous navigation of the Mississippi, and the first cotton plantations descending the river, are on the S. border. Farms 170; manuf. 2; dwell. 284, and pop.—wh. 1,496, fr. col. 7, sl. 865—total 2,363. *Capital*: Osceola.

MISSISSIPPI county, Mo. Situate S. E., and contains 368 sq. m. Bounded E. by the Mississippi, and drained by Cypress and James bayous. Surface low and marshy, and in parts subject to inundation; soil very fertile. Corn is the staple, and the crops are very large. Timber is abundant. Farms 27; manuf. 0; dwell. 443, and pop.—wh. 2,373, fr. col. 3, sl. 746—total 3,122. *Capital*: Ohio City.

MISSISSIPPI CITY, p. v., and cap. Harrison co., Miss.: on Pascagoula Sound of the Gulf of Mexico, 67 m. E. N. E. New Orleans, and 145 m. S. E. Jackson. It contains the usual county buildings, and has some coasting trade.

MISSISSIPPI river: an immense river of the United States, which, whether we consider its great length, its vast tributaries, the extent of country which it drains, and the distance to which it is navigable, well deserves the title which the Indians give it of the "father of waters." The import in the Algonquin language of *Missi Sepe*, the name by which it is designated, is great river. It drains a country of over 1,000,000 square miles in extent, eminently fertile, and sending through it to its destined market a vast amount of produce, and receiving in return the productions of other parts of the world. Its extreme source was discovered by Schoolcraft in July 13th, 1832, to be Itasca lake, in 47° 10' N. lat., and 94° 54' W. long., at an elevation of 1,500 feet above the ocean, and 3,160 miles from its entrance into the Gulf of Mexico. Itasca lake, or Lac la Biche of the French, is a beautiful sheet of water, of an irregular shape, about 8 m. long, situated among hills covered with pine forests, and fed chiefly by springs. It has its outlet to the N., which is about 10 or 12 feet wide, and from 12 to 18 inches deep, and flow-

ing northwardly, it passes through lakes Irving and Traverse, and then turns eastwardly, and proceeding through several small lakes, it enters Lake Cass. This lake is about 16 m. long, contains several islands, is about 8,000 m. from the Gulf of Mexico, at an elevation of 1,330 feet above the ocean, and 182 m. below Lake Itasca, the source of the Mississippi. It then flows E. to Lake Winnipeg, and S. E. to Little Lake Winnipeg, below which it receives Leech lake fork, the outlet of a considerable body of water of a very irregular form, called Leech lake. This was formerly regarded as the source of the Mississippi. The most northerly point obtained by the Mississippi is a little short of 48° N. lat. From the junction of Leech lake fork the river expands to 100 feet in width, and increase of depth, and flows with a mean current of 1½ miles per hour, and a descent of 3 in. in a mile, through a low prairie country covered with wild rice, rushes, sword-grass, and other aquatic plants, and is the favorite resort of water-fowls and various amphibious quadrupeds. At the falls of Peckagama the first rocky stratum and the first wooded island is seen, at the distance of 685 m. above the falls of St. Anthony. At the fall of Peckagama the river descends 20 feet in 300 yards, by a rapid which entirely obstructs navigation. At the head of these falls the prairies entirely cease, and below a forest of elm, maple, birch, oak, and ash overshadow the stream. The river now takes a southerly course, curving to the west, and again to the east, to the falls of St. Anthony. The fall of the river above may be computed at 6 inches in a mile, with a current of 3 m. an hour, exclusive of some rapids, and has some dry prairies on its shores, the resort of the buffalo, elk, and deer, and are the only part of the Mississippi in which the buffalo is now found. At the falls of St. Anthony, 843 m. above the mouth of the Missouri, the river has a perpendicular descent of about 25 feet, with a formidable rapid above and below. The rapid above the falls has a descent of 10 feet in the distance of 300 yards, and below the falls a descent of 15 feet in the distance of half a mile. An island at the brink of the falls divides the current into two parts, the largest of which is on the west of the island, and immediately below the falls are large fragments of rock, in the interstices of which some alluvial soil has accumu-

lated, supporting a stunted growth of cedars. The whole fall has a descent of about 41 feet in less than three-fourths of a mile. This fall has nothing of the grandeur of Niagara, but the cataract and the surrounding scenery are widely picturesque and beautiful. In times of high floods it may approach to the sublime. The width of the river above the falls is 500 or 600 yards, and at the falls is 227 yards, but narrows to 200 yards a short distance below. The portage around the falls is about 260 rods. In 1806 the United States purchased of the Sioux tribe of Indians a tract of 9 m. square, including the falls of St. Anthony, for a military post, for the sum of \$2,000. On this territory Fort Snelling is situated. A considerable tract of fertile land has been put under cultivation by the garrison. As an indication of the climate, the first green peas were eaten here on the 15th of June, and the first green corn on the 20th of July; and on the last of July Schoolcraft found much of the corn too hard to be boiled for the table, and some ears might have been selected sufficiently ripe for seed corn. A little below the falls of St. Anthony the Minnesota river enters from the W., and is much the largest tributary of the upper Mississippi. For 200 m. above its entrance Carver found it about 100 yards wide, with a great depth, and it receives several important tributaries. It is 150 yards wide at its mouth, and 10 or 15 feet deep. About 44° 45' N. lat. the St. Croix enters on the N. E. side, which is 100 yards wide at its mouth. About 500 yards above its mouth it expands into a lake called St. Croix lake, which is 36 m. long, and from 1½ to 8 m. broad, and the river is said to be navigable for boats for 200 miles. About 15 m. below the mouth of the St. Croix the Mississippi expands into a beautiful sheet of water called Lake Pepin, which is 24 m. long, and from 2 to 4 m. broad, and is 100 m. below the falls of St. Anthony. On the E. shore is a range of limestone bluffs, and on the W. an elevated level prairie, covered with a luxuriant growth of grass, and nearly destitute of forest trees, with occasional conical hills, which appear like artificial mounds. At the lower termination of Lake Pepin Chippeway river enters from the N. W., after a course of about 800 m. In 43° N. lat. Wisconsin river enters on the E. side; it is navigable 200 miles, and a canal is in construction near Fort Winnebago, Columbia co., which, 1½ m. long, will connect with Neenah river, and thereby with the great lakes. A little below this comes in Turkey river from the W. A little below 42° N. lat. enters the Wapsipinicon, a considerable river from the W., and a little down, Rock river, a clear and beautiful stream, enters on the E. side. A little above Rock river are long rapids, which at low water render it difficult for boats to ascend. At 41° 10' enters the Iowa, a large river from the W., and below that enter on the same side Skunk and Des Moines rivers. The latter is perhaps the largest western tributary above the Missouri. It is 150 yards wide at its mouth, and said to be boatable for nearly 800 miles. A few miles above its mouth are rapids, 9 m. long, forming a serious impediment to navigation at low water; but these obstacles will be overcome by a canal now in construction. In about 39° N. lat. comes the Illinois river, a noble, broad, and deep stream, and the most considerable tributary of the Mississippi above the Missouri. It is nearly 400 yards wide at its mouth, is about 400 m. long, and navigable to Peru, 269 m. from its mouth, at which point commences the Illinois and Michigan Canal, extending to Chicago, 100 m. long. A little below 39° N. lat. comes in from the W. the mighty Missouri, which is longer and probably discharges more water than the Mississippi; and had it been earlier explored it would probably been considered as the parent stream, but it will henceforth be considered only as a tributary. The Mississippi above the junction is a remarkably clear stream, but this is entirely destroyed by the entrance of the turbid Missouri, which communicates its own muddy appearance to the Mississippi through the remainder of its course, thus asserting its superiority. (see MISSOURI river). Near 38° N. lat. the Kaskaskia river comes in on the E. side. It is 80 yards wide at its mouth,

flows through a beautiful country, is over 800 m. long, and is boatable in high water over 100 m. Near 37° N. lat. comes in from the E. the beautiful Ohio, "*La Belle Rivière*" of the French, and is much the largest eastern tributary, and from the densely populated and highly fertile country on its borders, it is at present much the most important branch of the Mississippi. The large tributaries, the Cumberland, Tennessee, and Wabash, contribute to its magnificence and importance. At 34° 40' the St. Francis enters from the W., 200 yards wide at its mouth, and supposed to be navigable by one of its forks for 800 miles. At 34° N. lat. White river enters on the W. side, by a mouth from 800 to 400 yards wide, and is probably about 1,200 m. long. Thirty m. below, at 33° 48', the Arkansas enters from the W., by a mouth 500 yards wide, and is supposed to be 2,500 m. long. It is, next to the Missouri, the largest western tributary, and its waters are of a dark flame color when the river is full. At 32° 24', a little above the Walnut hills, in the State of Mississippi, near Vicksburg, the Yazoo river enters on the E. side, by a mouth from 200 to 800 yards wide. At 31° 04' Red river enters on the W. side. It is nearly as large as the Arkansas, and discharges about as much water. Here the Mississippi carries its greatest volume of water, as immediately below this, and at intervals after, it sends off several large outlets. Three m. below the mouth of Red river passes off on the W. side, the Atchafalaya or Chaffalio Bayou, as it is called, which is supposed to carry off as much as the Red river brings in. Here the Mississippi has a famous "cut-off," by crossing the isthmus of a large bend, so that the main channel does not pass the mouth of Red river. The Atchafalaya has been supposed to be the ancient bed of Red river, by which its waters were discharged without mingling with the Mississippi, and much of its water is now discharged by this outlet. A little below Baton Rouge the Iberville passes off on the E. side, going through lakes Maurepas, Pontchartrain, and Borgne into the Gulf of Mexico. In times of flood it carries off considerable water. Between this outlet on the E. and Atchafalaya on the W. is what is called the Delta of the Mississippi. Between Atchafalaya and New Orleans pass off, on the W. side, Plaquemine, which joins the Atchafalaya, and La Fourche, which pursues an independent course to the Gulf of Mexico. At the distance of 105 m. below New Orleans by the course of the river, and 90 m. in a direct line, this majestic river enters the Gulf of Mexico by several mouths, the principal of which are called the Balize or north-east pass, in 29° 7' 25" N. lat., and 89° 10' W. long., and the south-west pass in 29° 8' N. lat., and 89° 25' W. long. The depth of water on the bar at each of these passes is 12 feet, but much greater a little without and within the bar. Most of the vessels enter and leave the river by the north-east pass. It might naturally be expected from the extent of country drained by the Mississippi that the spring floods would be great. From the mouth of the Missouri the flood commences in March, and does not subside before the last of May, at an average height of 15 feet. From the Missouri to the Ohio it rises 25 feet, and for a great distance below the Ohio it rises 50 feet. At every flood it overspreads the country, chiefly on its W. side, for 500 m. from its mouth, to the distance of from 10 to 30 miles. From the falls of St. Anthony to the mouth of the Missouri it has a medial current of 2 m. an hour; and at every place, except at the rapids of the Des Moines, it has a depth of water of not less than 4 feet at the lowest stages. Below the Missouri its depth is greatly increased, but its width, except in the forests and swamps, when overflowed, is very little increased. To the mouth of the Ohio it has in the channel 6 feet of water at its lowest stages, and at the highest of 25 feet. From the mouth of the Ohio to the St. Francis there are various shoal places, where at low water pilots are often perplexed to find a sufficient depth of water. Below that point there is no difficulty for vessels of any draught, except to find the right channel. Above Natchez the flood begins to decline; at

Baton Rouge it seldom exceeds 80, and at New Orleans 12 feet. This river is exceedingly winding in its course, and sometimes a bend will occur of 80 miles, where the distance across the neck will not exceed a mile. The mighty volume of water often carries away a large mass of earth, with its trees, from a projecting point, and frequently endangers vessels. Trees are also often bedded in mud, with their tops projecting, producing snags and sawyers, as they are called, dangerous to navigators. The whirls or eddies which are produced by the tortuous course of the river and its projecting points, render the navigation to a degree difficult and dangerous. Below the Missouri the medial current is about 4 m. an hour. It is difficult, on viewing it for the first time, to have an adequate idea of its grandeur, and the amount of water which it carries. In the spring, when below the mouth of the Ohio its banks are overflowed, although the sheet of water that is making its way to the gulf may be 80 m. wide, yet finding its way through forests and swamps which conceal it from the eye, no expanse of water is seen but that which is included between its wooded banks, which seldom exceeds but often falls short of a mile in width; but when it is seen, from time to time, to swallow up many large rivers, it will be easily conceived that it must have a great depth. At the lowest water, at the efflux of the Atchafalaya, at the head of the Delta, it is from 75 to 80 feet deep; at the outlet of La Fourche, at Donaldsonville, 180 feet; upward of 100 feet at New Orleans, and from 75 to 80 feet 8 m. above the main bars. Vessels are often from 5 to 80 days in ascending from the mouth of the river to New Orleans, though they will, with a favorable wind, often

descend in 12 hours. Before the introduction of steamboats it required 8 or 10 weeks to go to the Illinois. Boats of 40 tons ascend the river to the falls of St. Anthony, more than 2,000 m. from its mouth. The use of steamboats has nearly superseded all other vessels for ascending the river. Large flat-bottomed boats, denominated arks, which are not designed to return, are extensively used for transportation down the river. The first steamboat on the western waters was built at Pittsburg, in 1811; there are now over 800 on the Mississippi and its tributaries, many of them of great burthen. The passage from Cincinnati to New Orleans and back has been made in 19 days. Large ships, moved by sails, rarely ascend above Natchez. There are no tides in the Mississippi.

MISSISSIPPI SPRINGS, p. v., Hines co., Miss.: 10 m. W. Jackson.

THE STATE OF MISSOURI.

MISSOURI is situated generally between the latitudes of $36^{\circ} 30'$ and $40^{\circ} 30'$ north, and the longitudes of $88^{\circ} 55'$ and $95^{\circ} 38'$ west from Greenwich, or $11^{\circ} 58'$ and $18^{\circ} 36'$ from Washington. It is bounded on the north by Iowa, on the east by Illinois and Kentucky, on the south by Arkansas, and on the west by the Indian and Nebraska territories. More specifically its eastern boundary is the Mississippi River, beginning at latitude 36° and running north to the mouth of the Des Moines River, whence the line follows the latter up to its rapids ($40^{\circ} 30'$); thence along that line westward to where it cuts the Missouri River; thence down that river to the mouth of the Kansas, whence it runs due south to $36^{\circ} 30'$, and along that line eastward to the St. Francis; thence follows that river to 36° , and traverses that line to the place of beginning. Its general extent from north to south is 278 miles, but including the narrow strip between the St. Francis and Mississippi rivers 312 miles; and greatest extent from east to west is 813 miles, and its least extent less than 200 miles; and the area of its superficies is estimated at 67,880 square miles.

The river Missouri separates this State into two parts, distinguished from each other by dissimilar geographical and geological features. South of that river, as far west as the Osage, the surface of the country is rolling, and gradually rises into a hilly and mountainous district, forming the outskirts of the Ozark Mountains. Beyond the Osage, at some distance, commences a vast expanse of prairie land, which stretches away to the Rocky Mountains. The chief geological deposits of the region are solid strata of carboniferous and silurian limestone and sandstone, reposing on or around the unstratified primary rocks. In the hilly and broken mineral region, which includes the greater part of the State south of the Missouri, the soil is formed of decomposed sandstone, sienite and magnesian limestone. Soils constituted of the two last elements are fertile, but in many of the districts of the mineral region their productiveness is impaired by the admixture of oxyde of iron. Other districts, as the Bellevue Valley, and the valleys of the Maramec, Gasconade, and Osage are well fitted for cultivation or for pasture. Around the head waters of the White, Eleven Points, Current, and Big Black, where the land is most mountainous, the soil is formed of decomposed semivitreous sandstone, and is in general unproductive, though it supports a magnificent growth of yellow pine, valuable for its lumber. The intervening valleys, however, are decidedly fertile, but of small extent. The lands situated more immediately south of the Missouri are partly sandy and partly calcareous, and in general where alumina or clay sufficiently abounds the soil is excellent and well adapted to the production of the staples of the State.

That part of the State lying north of the Missouri River is in no place mountainous, but either rolling or quite flat. It contains a much richer soil than the southern division, and is in a more advanced state of cultivation. Its geological substratum is chiefly carboniferous limestone. The coal measure of Illinois extends west of the Mississippi at St. Louis, and is probably commensurate with the northern division of the State, being limited on the south by the narrow strip of land above spoken of, lying south of the Missouri. The soils of this region are chiefly calcareous and arenaceous, the aluminous being limited in extent. The calcareous, or those abounding in lime, which are predominant, are fertile, particularly near the margins of rivers. Of this character are the lands in the western parts along the Missouri. The counties of Clay, Platte, and Buchanan can not readily be surpassed in productiveness, and the other western and interior counties are nearly equal in fertility. In the eastern part of this region arenaceous or sandy soil predominates. These lands, which are comparatively barren, are found on the southern flank of the prairies which have their origin in north Missouri, and extend to the head waters of the Mississippi River.

The south-eastern part of the State, the surface of which was once capable of cultivation, became after the earthquakes of 1811-12 marshy. This district contains on estimate 1,517,287 acres, and extends south from the neighborhood of Cape Girardeau into the northern part of Arkansas, a distance, in Missouri alone, of 108 miles, and westwardly as far as the river St. Francis. The land is well located, as regards facilities of transport, and is said to be as fertile as any in the

MISSOURI.

valley; and as the greater portion can be reclaimed, it may be brought under cultivation at some future time. This inundated tract is for the most part heavily timbered.

Missouri is bountifully supplied with navigable water courses, affording an easy access to every portion of the State. Omitting the Mississippi, which washes the eastern boundary for 470 miles, the great river, and the one from which it derives its name, is the Missouri. This river rises in the Rocky Mountains, not far from the head waters of the Columbia, 3,095 miles from its mouth. The last 400 or 500 miles of its course above lie within the limits of this State. The trough through which the river flows is from 4 to 5 miles wide, and is bounded by rocky limestone hills, which rise to the height of from 100 to 300 feet. Nearly all the bottoms of the Missouri are on its north side, and ordinarily they are not subject to inundation. In this respect they differ widely from those of the Mississippi, which latter are of greater width and formed of a less sandy soil, and are less easily percolated by water. The Missouri flows down an inclined plane, the upper strata of which are easily disintegrated, and the particles mingling with the rapid current, give a turbid appearance to its waters. The alluvial lands lying along its course are subject to be covered, during inundations, with drifting sand; they are, however, occupied by a luxuriant vegetation both of trees and herbs. These bottoms are favorites with settlers, and are capable of supporting a dense population. The river is navigable to its falls, 2,000 miles, but is rapid and can only be readily ascended by steam-power. Of the tributaries of the Missouri, the largest is the Osage River, which disembogues 120 miles from its mouth. At this point it is 400 yards wide, and is navigable for boats of light draft for about 200 miles at high water. About the head waters of this stream are found the best cotton lands in the State. The Gasconade comes into the Missouri east of the Osage, near the village of Hermann, and is important for the supplies of fine plank and timber it furnishes to the country below. The Maramée, a beautiful river, runs through the mineral region, and flows into the Mississippi 18 miles below St. Louis. Further south are the rivers St. Francis and White, which pass into Arkansas after spreading numerous branches over the southern part of this State. Several tributaries of the Arkansas water the south-west section, but are not navigable.

North of the Missouri are Salt and Copper rivers, which empty into the Mississippi; and the northern tributaries of the Missouri are the Grand and Chariton rivers, both navigable, and composed of numerous branches, which drain a large country. Further west, and falling also into the Missouri, are the Platte and Nodaway. Many of the rivers of Missouri are obstructed by rafts and fallen trees, and more especially is this the case with the Grand, Osage, Salt, Maramée, and St. Francis; the navigation of these, however, will be improved at no distant period, or as soon as the wants and interests of the people demand such improvements. Other rivers than those mentioned are of minor importance.

The mineral region of Missouri occupies an area of about 18,000,000 acres. As early as 1718 it was described in a French chart as "au pays plein de mines." It extends from the head waters of the St. Francis to the Maramée River, a distance of about 70 miles in length, and from the Mississippi in a south-westerly direction, about 60 miles. The elevation of the district above the sea level varies from 600 to 1,200 feet. The climate is equable and salubrious, and the superincumbent soil moderately fertile. No one of the mining districts of Europe enjoys such facilities of supporting a large population; and yet the Harz Mountains, with an area of 800,000 acres, sustains 60,000 inhabitants; the Erzgebirge, of Saxony, with about 1,500,000 acres, sustains 500,000 inhabitants; and Cornwall, with 760,000 acres, 800,000 inhabitants. Populated as the Erzgebirge, in the ratio of one inhabitant to every three acres, the mineral region of Missouri would sustain 6,000,000 of souls, and probably the working members of such a population might find here employment for ages. Excepting gold and platinum, most of the important and useful metals and ores are known to exist in Missouri. The following minerals, metallic and non-metallic, arranged here according to their intrinsic value, have been found within its limits—lead, iron, copper, cobalt, silver, nickel, zinc and calamine, manganese and wadd, coal, rock salt, barytes, sand and quartz, carbonate and sulphate of lime, alumine and potter's clay, fuller's earth, variegated marble and oolite, saltpetre, antimony, tin, tungstate of iron and lead, diamonds, chalcidony and feldspar, and some others of perhaps a minor importance.

The lead mines have been wrought since the first settlement of the country. The ore is in the form of sulphuret and carbonate, and in the upper mines at Potosi it is found mixed with calamine and blende. The lead region extends over the counties of Madison, St. François, St. Louis, Washington, etc. Formerly the carbonate was considered as worthless, but it is now reduced in blast furnaces, and yields 72 per cent. The sulphuret yields from 66 to 80 per cent., and contains about 6 per cent. of silver. Iron in the form of hematite, and the ochrey, the micaceous and red oxides, are found in the greatest abundance. The ores exist throughout the mineral region, and extend even into the coal formation, which occupies so large a surface. Abundant, easily manufactured, and the transportation easy, this is essentially the staple of Missouri. Her celebrated mountains of micaceous oxides—the Iron Mountain and Pilot Knob—are almost inexhaustible. They form the eastern extreme of the Ozarks, and are situated in St. François County, a few miles east of Potosi, and only 40 miles from St. Genevieve, on the Mississippi. The two peaks are about 6 miles apart, the more northerly of the elevations, the Iron Mountain, is $1\frac{1}{2}$ miles long and 444 feet high. Its whole top is a solid mass of iron, and one sees nothing but iron lumps as far as the eye can reach. The ore yields 60 per cent. of pig, and is deemed a most superior metal. Pilot Knob is 1,500 feet high. Dr. Feuchtwanger estimates the quantity of pig iron embedded in these mountains alone at 600,000,000 of tons, enough to supply the world for more than a century. The mines of Elba, of Sweden, or of Norway, together, do not contain an amount equal to this. The mines of copper are chiefly found in the south and west portions of the mineral region, but exist in other parts. The ore is of every variety and usually very rich. It is found in combination with lead and iron, frequently with manganese, cobalt, and nickel, and occasionally with silver. It is generally pyritous, but oxides and carbonates are frequently found. The ores appear as a cement uniting angular fragments of lime rock forming a breccia, and much of it is easily removed by a pickaxe alone. As a general thing the yield is about 84 per cent. of metal. Hitherto mining for copper has been little attended to, but it is now probable that operations will be commenced on a large scale, and as the indications of extensive lodes have been traced for miles, this product is destined to be one of the most valuable of the State; indeed, the copper mines of Missouri are said to be more valuable than even those of Lake Superior. The several metals found in combination with the above, namely, silver, zinc, manganese, cobalt, nickel, etc., give an additional value to the mines, and as tin has been found near Caledonia, it may be said of Missouri, that no other State or country is richer in metallic wealth, or has better prospects of future prosperity. The substantial wealth of England and Belgium is drawn from their mines, but neither of these countries can compare in any one respect with this State.

Minerals of the non-metallic kinds are everywhere as abundant as could be desired. The carboniferous limestone formation, on which St. Louis is built, and which extends throughout the northern division of the State, forms a beautiful and compact building material. Sandstones are abundant, but coarse and loose in texture. The white sandstone of St.

MISSOURI.

Genevieve makes superior glass. Porphyries, susceptible of a high polish, are numerous in Southern Missouri, and are well fitted for architectural and ornamental uses. Sienite is also found, and marbles of various textures exist in several counties. Gypsum has been discovered in Jackson County; and in caverns near the Maramec, Current, and Gasconade, saltpetre exists in vast quantities. Sulphate of baryta, or heavy spar, is found in the lead diggings.

The northern coal measures of Missouri are continuous with those of Illinois; it is in general called bituminous coal. At Côte sans Desein, however, it assumes the form of cannel. It has been discovered at several distinct points in Cole and Callaway counties, and as high as forty miles upon the Osage. Some of its layers are of great thickness, and on distillation it yields excellent coke and a gas that burns with a bright and copious flame; and being destitute of sulphur, it is well adapted to furnaces and manufacturing purposes.

A great variety of clays, useful for economical purposes, are found in different parts. The subsoil of the region around St. Louis, abounding as it does in oxyde of iron and alumina, makes brick of a handsome red tint and smooth texture; it is fitted, too, for the manufacture of pottery. Variegated clays are found in the same vicinity. Kaolin, or porcelain clay, and pipe clays have been discovered near Caledonia and Cape Girardeau, and delft-ware is manufactured in St. Louis from clays obtained near Commerce, in Scott County.

Except on the prairies, Missouri is well timbered. The river bottoms, in particular, are covered with a luxuriant growth of oak, elm, ash, hickory, cotton-wood, and black and white walnut. In the more barren districts are found white and pin oak, and sometimes forests of yellow pine. Many of the trees and shrubs met with differ from those found in the same latitude in Ohio. The crab-apple, pawpaw, and persimmon are abundant, as also the hazel and pecan. Three wild species of grape-vine are common throughout the country. The prairies are clothed in the proper season with numerous varieties of flowers, and with a coarse, tall grass, which, either green or cured, is excellent fodder for cattle. The general capacity of the country for agriculture is unsurpassed, and every kind of grain and esculent vegetable, with flax and hemp, find in one part or another a congenial soil and climate. Tobacco is also a staple production; and table fruits, as the apple, pear, peach, nectarine, etc., grow in profusion. As a grazing country, Missouri is one of the best; the prairies are excellent natural pastures, and the business of rearing cattle is almost reduced to the simple operation of turning them upon these prairies and letting them fatten until the owner thinks proper to claim the tribute of their hides and other products. Hogs are also raised with great ease in the forests.

Missouri is divided into 100 counties, the general statistics of which and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.

The whole number of dwellings in the State was, at the above date, 96,849; of families, 100,590; and of inhabitants, 682,048*; viz., whites 592,077—males 312,986, and females 279,091; fr. col. 2,544—males 1,388, and females 1,206, and sl. 87,422. Of the whole population there were, *deaf and dumb*—wh. 244, fr. col. 0, sl. 15—total 259; *blind*—wh. 180, fr. col. 8, sl. 28—total 211; *insane*—wh. 271, fr. col. 2, sl. 9—total 282; and *idiotic*—wh. 304, fr. col. 0, sl. 29—total 338. The number of free persons born in the United States was 520,826, the number of foreign birth 72,474, and of birth unknown 1,322. The native population originated as follows: Me. 311, N. Hamp. 304, Verm. 630, Mass. 1,103, R. I. 124, Conn. 742, N. Y. 5,010, N. J. 885, Penn. 8,291, Del. 518, Md. 4,253, Dist. of Col. 288, Virg. 8,357, N. Car. 21,487, S. Car. 27,908, Ga. 17,506, Flor. 629, Ala. 34,047, Miss. 638, La. 746, Tex. 248, Ark. 2,120, Tenn. 44,970, Ky. 69,694, Oh. 12,737, Mich. 295, Ind. 12,752, Ill. 10,917, *Missouri* 277,604, Ia. 1,366, Wisc. 123, Territories 80; and the foreign population was composed of persons from—England 5,379, Ireland 14,734, Scotland 1,049, Wales 176, Germany 44,852, France 2,138, Spain 46, Portugal 11, Belgium 53, Holland 189, Turkey 7, Italy 124, Austria 71, Switzerland 984, Russia 29, Denmark 55, Norway 155, Sweden 37, Prussia 697, Sardinia 1, Asia 3, Africa 7, British America 1,053, Mexico 94, Central America 0, South America 20, West Indies 50, Sandwich Islands 1, and other countries 954.

The following table will show the decennial progress of the population since the first census of the State taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1810	17,227	607	3,011	3,918	20,845		
1820	56,081	281	10,222	10,505	66,586	45,741	219.6
1830	114,808	563	25,091	25,652	140,455	73,869	110.9
1840	323,838	1,574	58,240	59,814	383,702	243,247	173.2
1850	592,078	2,544	87,422	89,966	682,044	298,342	77.8

The statistics of the wealth, industry, and institutions of the State, as exhibited by the census of 1850, and other official documents referring to the same period of time, are as follows:

Occupied Lands, etc.—Improved farm lands, 2,924,991 acres, and attached lands unimproved, 6,767,937 acres—valued together in cash at \$68,057,482. Whole number of farms under cultivation, 54,453. Value of farming implements and machinery, \$3,965,945.

Live-Stock.—Horses, 228,598; asses and mules, 41,508; milch cows, 228,559; working oxen, 111,268; other cattle, 445,615; sheep, 756,809; and swine, 1,692,043—valued in the aggregate at \$19,766,851. In 1840, according to the census of that year, there were in the State: 196,082 horses, mules, etc.; 438,375 neat cattle of all kinds; 843,018 sheep; and 1,271,161 swine.

Products of Animals.—Wool, 1,615,860 pounds; butter, 7,792,499 pounds; cheese, 202,122 pounds; and the cash value of animals slaughtered during the year amounted to \$3,349,517. The production of silk cocoons was 186 pounds; and the quantity of beeswax and honey obtained was 1,827,512 pounds.

Grain Crops.—Wheat, 2,966,928 bushels; rye, 44,112 bushels; Indian corn, 36,069,543 bushels; oats, 5,243,476 bushels; barley, 9,681 bushels; and buckwheat, 23,590 bushels. The crops of these cereals, according to the census of 1840, were: wheat, 1,087,386 bushels; rye, 68,068 bushels; Indian corn, 17,832,524 bushels; oats, 2,234,947 bushels; barley, 9,801 bushels; and buckwheat, 15,818 bushels.

Other Food Crops.—Rice, 700 pounds; peas and beans, 45,974 bushels; and potatoes—Irish, 934,627 bushels, and sweet, 332,120 bushels. The potato crop reported in the census of 1840 was 783,768 bushels.

Miscellaneous Crops.—Tobacco, 17,100,834 pounds; hay, 116,743 tons; clover-seed, 615 bushels; other grass-seed, 4,387 bushels; hops, 8,180 pounds; hemp—dew-rotted 17,207 tons, and water-rotted 5,351 tons; flax, 520,008 pounds; flax-seed, 13,641 bushels; maple sugar, 178,750 pounds; molasses, 5,636 gallons; wine, 10,563 gallons, etc. The value of orchard products was \$512,527, and of market-garden products \$99,454. In the census of 1840 the production of cotton is noted at 121,122 pounds—this crop is not noticed in the census of 1850.

The following table will exhibit the increase of live-stock, and of the principal crops in the decade ending 1st June, 1850:

Staples.	1840.	1850.	Increase.
Wheat	1,087,386 bushels	2,966,928 bushels	1,929,542 bushels, or 186.0 per cent.
Indian corn	17,832,524 "	36,069,543 "	18,737,019 " or 108.1 "
Oats	2,234,947 "	5,243,476 "	3,008,529 " or 134.6 "
Tobacco	9,067,918 pounds	17,100,834 pounds	8,032,971 pounds, or 88.6 "
Hemp, dew-rotted	18,010½ tons	17,207 tons	10,705,743 " or 26.5 "
" water-rotted		5,351 "	
Flax	438,375 heads	520,008 pounds	851,561 heads, or 81.0 "
Neat Cattle		783,436 heads	
Swine	1,271,161 "	1,692,043 "	420,882 " or 33.1 "
Sheep	843,018 "	756,309 "	408,291 " or 117.3 "
Wool	562,265 pounds	1,615,860 pounds	1,053,595 pounds, or 187.4 "

—furnishing results indicative of the more rapid development of the agricultural interests of the State, than the ratio of increase in the population would warrant; and these results are the more astonishing, when the increase of mining and manufacturing interests, which have been relatively extensive, are taken into consideration.

* A census of Missouri, taken under State authority, for 1852, gave the population at 724,667—634,994 whites, 2,526 fr. col., and 87,207 slaves.

MISSOURI.

Home-made manufactures for the year ending 1st June, 1850, were valued at \$1,663,016. The same class of goods made in 1839-40, were valued at \$1,149,544.

Manufactures.—Aggregate capital invested, \$0,000,000; value of raw material, fuel, etc., consumed in the year, \$0,000,000; average number of hands employed 00,000—males 00,000, and females 0,000; average monthly cost of labor \$000,000—male \$000,000, and female \$000,000; total value of products for the year ending 1st June, 1850, \$0,000,000. The whole number of manufacturing establishments in the State producing to the value of \$500 and upward annually, at the above date, was 3,030, and of these *two* were cotton factories, *one* a woolen factory, 18 iron manufactories—6 of castings, 5 of pig iron, and 1 of wrought iron, and 148 were tanneries. Nearly one-half the total number of establishments are in and about St. Louis, where almost every trade and handicraft has gained a footing, while in the interior counties the manufactories consist of the kinds usually found in agricultural and mining countries. The total capital invested in manufactories in 1840 was \$2,704,405.

The *cotton* manufactures employ a capital of \$102,000, and consume annually 2,160 bales of cotton, and 1,658 tons of coal, valued at \$86,446; employ 155 hands—males 75, and females 80; monthly cost of labor, \$1,620; products, 13,260 bales of batting, and value of entire products, \$142,900.

In the *woolen* manufacture \$20,000 are invested; 80,000 pounds of wool is used annually; total value of raw material, fuel, etc., \$16,000; hands employed 25—15 males and 10 females, at a monthly cost amounting to \$545; products of the year, 12,000 yards of cloth, and 6,000 pairs of blankets, valued in the whole at \$56,000.

The *iron* manufactures are stated, in the census of 1850, as follows:

Manufactures.	Capital Invested.	Value of Raw Material, etc.	Average Hands Employed.	Monthly Cost of Labor.	Product. Tons.	Value of Annual Products.
Pig iron	\$619,000	\$97,367	334	\$3,112	19,250	\$314,600
Cast iron	187,000	183,114	297	5,880	5,200	836,495
Wrought iron.....	42,100	24,509	101	3,030	963	63,700

In 1840 there were 80 men employed in the manufacture of iron, and the capital invested in all iron manufactories amounted only to \$79,000, and hence the increase has been nearly 1,000 per cent. in the 10 subsequent years.

The *lead mines* have been comparatively deserted for the past few years, on account of the miners having gone to California, and other circumstances. The receipts of lead at St. Louis alone, in 1850, was 568,300 pigs of 70 pounds, being a decrease of 210,169 pigs from the receipts of 1847. Of the receipts at other ports on the Missouri there are no accessible reports.

In *tanneries* the capital invested amounts to \$228,095; value of hides and skins used, \$247,956; hands employed, 417; monthly cost of labor, \$8,347; sides of leather produced, 241,334, and skins tanned, 44,493; value of products, \$466,214.

Foreign Commerce.—Missouri, from its inland position, can never enjoy any large share of direct commerce with foreign nations. The U. S. Treasury reports, except for the year 1844, have not mentioned exports being made directly, and for that year they were valued at \$293,901; but for many years imports, increasing in value year by year, are entered at the ports. In 1850 the imports were valued at \$359,643. The value of imports in a series of years, commencing with 1833, were as follows: in 1833, \$5,881; in 1836, \$3,227; in 1838, \$15,921; in 1840, \$10,600; in 1841, \$33,375; in 1842, \$31,137; in 1844, \$120,673; in 1845, \$544,291; in 1846, \$73,569; in 1847, \$167,195; in 1848, \$148,560; in 1849, \$130,382; in 1850, \$359,643. The shipping owned in the district, of which St. Louis is the port of entry, amounted in 1850 to 23,907 tons, all employed in the river trade, and of which 24,955 tons were navigated by steam. During the year ending 30th June, 1850, five steamers, with an aggregate tonnage of 1,353 tons, were built in the district.

River and Internal Trade.—Missouri, if shut out from foreign commerce, has a river and internal trade, which fully compensates its disadvantages. The Mississippi River forms its great external highway, and the Missouri River, with its wide-spreading affluents, gives it access to the interior. On these rivers an immense trade is constantly being carried on, St. Louis being the great receiving and distributing depot of the State. It would be almost impossible to estimate the extent or value of this commerce. In 1851 of steamboats alone 2,641 arrived at St. Louis, and of these 300 were from New Orleans, 401 from ports on the Ohio River, 634 from the Illinois River, 639 from the Upper Mississippi, 801 from the Missouri River, 43 from the Cumberland River, 119 from Cairo, and 175 from other ports. These bring and take away the material of a vast trade, and give to St. Louis all the advantages that port could have if near the sea-board. But beside these, barges and keel boats navigate all the waters, and perhaps transport an equal amount of merchandise with the steamboats. The whole tonnage entered in the year above named was 638,140 tons.

Internal Improvements.—Common roads and bridges excepted, Missouri is almost blameless of works of internal improvement. Every other interest of the State is far ahead of this, the most needful to its permanent prosperity. At the commencement of 1850 there were only five macadamized roads in the whole country, and these, all centering at St. Louis, only passed a few miles into the interior. The spirit of modern improvement, however, has not slept, nor have the people been unmindful of the benefit that the railroad will realize to the country. A splendid system of railroads has been provided for, which will carry two lines directly across the State—one from Hannibal, on the Mississippi, to St. Josephs, on the Missouri, and the other from St. Louis to the mouth of Kansas River—both intended to be carried ultimately to the Pacific Ocean, and from the latter a south-western branch will be built to the borders of Arkansas. From St. Louis will also be built a railroad northward and through Iowa to the settlements of Minnesota. Besides these a railroad will be built from St. Louis to the Iron Mountain; and other roads contemplated are the Platte County Railroad, the Lexington and Daviess County Railroad, and the Canton and Bloomfield Railroad. The whole length of these railroads projected is about 1,200 miles, but less than 40 miles was in use on the 1st January, 1853. The following sums have been appropriated by the General Assembly to aid in their construction: for the Hannibal and St. Josephs Railroad, \$1,500,000; the Pacific Railroad and its south-western branch, \$4,000,000; the North Missouri Railroad, \$2,000,000; the Iron Mountain Railroad, \$750,000; the Platte County Railroad, \$500,000; the Lexington and Daviess County Railroad, \$300,000, and the Canton and Bloomfield Railroad, \$300,000. The right of way through the public lands is also granted by the General Government. With these means and facilities the works ought to progress rapidly to completion.

Banks.—The Bank of the State of Missouri, at St. Louis, and its branches at Lafayette, Jackson, Lexington, Palmyra, and Springfield, were the only banking institutions in operation on the 1st January, 1851, and their aggregate condition at that date was as follows: *Liabilities*—capital, \$1,209,181 (of which \$954,205 were owned by the State, and \$254,926 by individuals); circulation, \$2,522,500; deposits, \$1,093,981, and due other banks, \$76,230; and—*assets*: loans and discounts, \$3,533,463; real estate, \$123,928; other investments, \$273,317; due by other banks, \$63,028; notes of other banks, \$37,513;

MISSOURI.

and specie, \$1,198,268. There is a constitutional prohibition against establishing more than one bank, with not more than five branches, and the capital is limited to \$5,000,000, of which at least one half must be held by the State.

Government.—The government is based on the constitution "done in convention" on the 12th June, 1820. The right of suffrage is enjoyed by every free white male citizen of the United States, twenty-one years old, resident in the State one year before the election, and three months in the place where he offers his vote. The general election is held on the first Monday in August biennially.

Legislative power is vested in a General Assembly, composed of a House of Representatives and a Senate. Representatives, in number not above 100, and chosen in counties every second year, shall be free white male citizens of the United States, 24 years of age, inhabitants of the State for two years, and of the county for one year next before the election, and shall have paid a tax. Senators, in number not more than 33, nor less than 14, shall have attained the age of 30, and be citizens of the United States, residents of the State four years, and shall be chosen for four years, one half of the senators retiring every second year. The General Assembly convenes at Jefferson City on the last Monday in December, biennially. No laws shall be passed to emancipate slaves without the consent and payment of their owners, or to prevent immigrants from bringing with them slaves of the same description with those in the State; but laws may be passed prohibiting the importation of the slaves who have committed a high crime, or as merchandise, slaves, or the offspring of slaves, imported into the United States, and permitting emancipation, saving the rights of creditors. Owners are obliged to treat their slaves with humanity, and slaves, in criminal cases, shall have a trial by jury, and have the same protection in their lives and persons as white persons. Free negroes and mulattoes are prohibited from coming into the State. The laws of the General Assembly shall be revised and digested every ten years.

The Governor must be 35 years of age, a native citizen of the United States, or a citizen thereof at the adoption of the constitution, or an inhabitant of the territory now called Missouri at the time of its cession, must have resided in the State four years next before election, and is chosen for a term of four years, but can not serve two successive terms. The lieutenant-governor, who is *ex-officio* president of the Senate, must have the same qualifications, etc., as the governor, and is elected at the same time and for the same term. The governor may veto a bill of the General Assembly, but a subsequent majority of both houses makes it law notwithstanding. A vacancy occurring in the office of governor, is filled first by the lieutenant-governor, and after him by the president of the Senate *pro tempore*, and he failing, by the Speaker of the House; but a new election shall be had after three months' notice, unless the vacancy occur within 18 months of the end of the term.

The principal administrative officers of the State are the Secretary of State, who is also Superintendent of Public Schools, the Auditor of Accounts, the State Treasurer, the Attorney-general, the Register of Lands, the Adjutant-general, Quartermaster-general, and Surveyor-general, and the President and Cashier of the Bank of the State.

The *judiciary* consists of a Supreme Court and Circuit Courts, County Courts, Justices' Courts, etc. The *supreme court* has appellate jurisdiction only. The three judges of this court are elected for six years by the qualified voters of the State, and are re-eligible at the expiration of the term. Two sessions are held annually, one at Jefferson City, and one at St. Louis. The attorney-general is *ex-officio* reporter of the decisions of the Court. A *circuit court* is held twice a year in each county; its jurisdiction extends to all matters of cost and contract over \$90, where the demand is liquidated, and over \$50, where the agreement is parole; and it has exclusive criminal jurisdiction, and a supervision over the county courts and justices of the peace, subject to the correction of the supreme court. The judges of the circuit court are elected by the qualified voters of their respective circuits, and for the term of six years. The jurisdiction of the *county courts* is limited to matters of probate and local county affairs, as roads, etc. A county court sits in each county, and is composed of three justices, who are elected by the people, and hold their offices for four years. Appeal lies to the circuit court. The county court of St. Louis County is composed of seven justices. In addition to the circuit and county courts, St. Louis has a Court of Common Pleas, with jurisdiction very similar to the circuit court; a Criminal Court; a distinct Court of Probate, which relieves the county court from probate duties; and a Recorder's Court. The judges of the circuit and criminal court are elected in the same manner and for the same term as the circuit judges. There is also a distinct Court of Common Pleas for the city of Hannibal. These are local tribunals, exercising jurisdiction only in their counties, except the Recorder's Court of St. Louis, the jurisdiction of which is confined to small offenses, and within the city limits. From the Court of Common Pleas and the Criminal Court appeal lies to the Supreme Court, and the judges of the Common Pleas are appointed like the circuit judges, with like tenures. The probate judge is elected by the people of the county for four years, and the recorder by the people of the city of St. Louis for two years.

Amendments to the constitution may be proposed by a vote of two-thirds of the members of the General Assembly, and shall be published twelve months before the general election; and if at the first session thereafter they are confirmed by a vote of two-thirds of the members, they become a part of the constitution.

The *militia force* of the State, according to the Army Register for 1850, consists of 61,000 men of all arms, of which 3,919 are commissioned officers, and 57,081 non-commissioned officers, musicians, artificers, and privates. Of the commissioned officers 45 are general officers, 94 general staff officers, 790 field officers, etc., and 2,990 company officers.

The *State institutions* for the relief of the unfortunate, are the Lunatic Asylum at Fulton, completed in 1852, and which in that year received twenty-three patients; and the Deaf and Dumb Asylum at the same place, and yet completed but partially, which had seventeen inmates. At St. Louis there are several benevolent institutions, hospitals, etc., which in part are supported by the State.

State Finances, Debt, etc.—The receipts into the Treasury for the two years ending 30th September, 1850, amounted to \$787,088 71, to which must be added balance from the biennial period 1847-48 of \$405,404 90—making a total means of \$1,192,493 61. Expenditures in 1849-50, \$592,555 82, leaving a balance of \$659,907 79, of which sum \$569,086 19 belongs to the revenue fund. The State debt, exclusive of the surplus revenue deposited with the State, was \$922,261, which was the exact amount of State bonds sold and outstanding. Of these bonds, \$34,000 have been redeemed and cancelled during the year. The sinking fund, at the date of report, amounted to \$9,394 73, and had claims to \$3,497 54, dividends not re-invested; and the State owns bank stock in the Bank of Missouri, amounting to \$954,205 22, as follows: Of the seminary fund, \$100,000; of the State school fund, \$575,667 96; of the sinking fund, \$6,273 66; and in its own right, \$272,263 60; but the bank claims a due from the State for money advanced and interest, \$124,026 47. The value of all property, real and personal, assessed for taxation in 1850, amounted, according to the State reports, to \$98,595,463—but as truly estimated by the census of the same year, to \$137,247,707.

Federal Representation.—In accordance with the act apportioning representation, passed on the 28d May, 1850, Missouri sends seven representatives to the Congress of the United States.

MISSOURI.

Education.—The public education is under the charge of the Secretary of State, who is *ex-officio* superintendent of common schools. The principal of the common school fund amounts to \$575,667 96, and has been loaned on bond to the State Bank, which pays interest on the amount semi-annually. The proceeds of this are distributed among the counties according to the number of children reported, and this proportion is distributed among teachers therein. There is also a seminary fund, amounting to \$100,000. Private schools and academies are established throughout the State; and besides these there are six collegiate establishments: the Missouri University, the University of St. Louis, St. Vincent's College, the Masonic College, St. Charles College, and Fayette College. The statistics of these several establishments in 1850, were as follows:

Names.	Location.	Founded.	Professors.	Students.	Alumni.	Libraries.
University of Missouri	Columbia.....	1840	12	52	26	1,800
University of St. Louis (R. Cath.)	St. Louis	1832	17	160	25	12,000
St. Vincent's College (R. Cath.)	Cape Girardeau	1843	10	—	85	5,500
Masonic College	New Palmyra.....	1831	5	45	13	2,350
St. Charles College (Meth.)	St. Charles.....	1837	4	20	17	900
Fayette College	Fayette.....	—	2	75	—	—

There are medical departments attached to both universities; and besides the above, there are several theological seminaries in the State.

Libraries.—One State library, 4,637 volumes; two social, 5,799 volumes; five college, 18,465 volumes; five students', 1,605 volumes; one academic or professional, 500 volumes; one scientific and historical, 300 volumes; four public school, 6,200 volumes—total, 19 libraries, 37,506 volumes.

Periodical Press.—The whole number of periodicals published in Missouri in 1850 was 74, circulating at each issue 80,000 copies, or annually 4,675,680 copies. Of this number 16 were whig in politics, 17 democratic, and 41 neutral, or papers devoted to religious, literary, scientific subjects, etc., including all the characters of which is not named in the returns; and of the whole number 7 were published daily, issuing 10,500 copies, or 1,220,400 annually; 3 tri-weekly, 1,200 copies, or annually 187,200 copies; 3 semi-weekly, 2,200 copies, or annually 228,800 copies; 51 weekly, 56,140 copies, or annually 2,919,250 copies; and 7 monthly, 10,000 copies, or annually 120,000 copies. The *dailies* are all published at St. Louis—the "Times," the "Intelligencer," the "Organ and Reveille," the "Republican," the "Union," and two German papers; the *tri-weeklies* at St. Louis, and are editions of the dailies, the "Times," the "Republican," and the "Union"; the *semi-weeklies* at St. Louis, Independence, and Boonville; the *weeklies*—12 at St. Louis, 5 of which are editions of the dailies, 1 at Warsaw, 1 at Columbia, 2 at Sparta, 1 at Fulton, 1 at Jackson, 2 at Cape Girardeau, 1 at Brunswick, 1 at Liberty, 2 at Jefferson City, 2 at Boonville, 1 at Union, 1 at Hermann, 2 at Springfield, 2 at Fayette, 2 at Glasgow, 1 at Independence, 2 at Lexington, 1 at Bloomington, 1 at Palmyra, 2 at Hannibal, 1 at New Madrid, 2 at Louisiana, 2 at Weston, 2 at St. Genevieve, 1 at St. Charles, 1 at Osceola, 1 at Paris, 1 at Monticello, and 1 at Chillicothe; and the *monthlies*, 1 at Hermann, the "Licht Freund," a German rationalist advocate, and 6 at St. Louis, the "Valley Farmer," the "St. Louis Probe," the "Insurance Reporter," the "Western Journal," the "Bank Note Detector," and the "Signet."

Religious Denominations.—The statistics of the several religious denominations in the State for the year 1850, according to the census, were as follows:

Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.	Denomina- tions.	No. of Churches.	Church accom.	Value of Property.
Baptist.....	273 ..	71,837 ..	\$154,480	Germ'n Ref.	— ..	— ..	\$ —	R. Catholic ..	64 ..	26,102 ..	\$494,575

—making a total of 778 churches, having accommodation for 241,139 persons, and valued at \$1,558,590. Missouri constitutes a diocese of the Protestant Episcopal Church; and also the Roman Catholic diocese of St. Louis, in the ecclesiastical province of the same name.

Historical Sketch.—Hernando de Soto may be said to have been the first European that beheld the river Mississippi, called by him (April, 1541) on its discovery the Rio Grande. Crossing this stream, probably some 80 miles below Helena, in the State of Arkansas, he traversed at the head of his adventurous band a goodly portion of the territory beyond. He is thought by some, but without sufficient reason, to have come during his march into the present limits of Missouri. The Mississippi was first explored in 1673 by Joliet and Marquette, and more fully in 1682 by La Salle, and by the latter all the region between the so-called Illinois country and the Gulf of Mexico was called Louisiana, and declared to be an appendage of France. From this time settlements began to be made in the valley, advancing from its northern and southern extremities into the interior. Canada had long (from 1608) been inhabited by colonists from France; but not till the beginning of the eighteenth century was the region bordering on the Gulf alike distinguished. Natchez was settled in 1700, New Orleans in 1718, and within a few years the whole territory was protected from Spanish invasion by a chain of forts extending from the lakes to the Gulf. Among these was built in 1719 Fort Orleans, near the mouth of the Osage, not far from the present capital of the State. In legal proceedings the region, now known as Missouri, was included by the French and Spanish in the Illinois country, but popularly and historically it was denominated Upper Louisiana. The State of Arkansas was included in the same division. Situated in the central part of the valley, the progress of Missouri was not rapid. Its lead mines were worked as early as 1720. In 1755 its oldest town, St. Genevieve, was founded; St. Louis in 1764; and afterward a number of towns in quick succession. Meanwhile (1763) the jurisdiction of the valley passed from France to Spain and England, the Mississippi being the dividing line between their respective apporionments; and by the same treaty Canada also reverted to England. France, after a violent contest, had been despoiled of all her territorial possessions in North America. During the contest, numbers of Canadian French emigrated by way of the lakes, and going southward located in both Upper and Lower Louisiana. Hence the first important impulse to the colonization of Missouri. The population of Spanish Louisiana, at the time of the public transfer (1769), was estimated at 18,340 persons, of whom 5,556 were whites, and the remainder negroes. New Orleans alone contained 8,190 souls domi-

ciliated in 468 dwellings. A river trade had sprung up between the northern and southern portions of the province, and the exports at this period amounted to \$250,000 annually.

The character of the new government was conciliating. The laws of Spain were promulgated as the law of the land. The highest tribunal in Louisiana was that of the governor, and in Upper Louisiana that of the Lieutenant-governor. The commandants of the various posts in the provinces were the inferior tribunals. Lands were granted liberally to colonists, and every facility was given to settlers. Numerous emigrants from Spain flocked into the country. In 1775, St. Louis, originally a depot for the fur-trade, had increased in population to 800, and St. Genevieve contained 460 inhabitants. At this time the American Revolution was commencing, and Spain, siding with the English colonists, entered into hostilities against England. In Lower Louisiana and Florida the arms of Spain were successful. Meanwhile, St. Louis was attacked (1780) by a body of English and Indians, 1,540 strong, from Michilimackinac and the southern extremity of Lake Michigan. During the siege, which lasted a week, about 60 persons were killed in the town and vicinity, and it is impossible to tell to what extent the enemy might have gone, had not the timely arrival of General Clarke from Kaskaskia turned the tide of fortune in favor of the settlers. The general peace of 1783 put an end to hostilities. Spain retained her previous possessions, and received, in addition, the whole of Florida, of which she had been deprived 20 years before. Great Britain resigned East Louisiana, called also the Illinois country, to the United States, retaining only her northern possessions.

Emigration into Spanish Louisiana began once more on the restoration of peace, and trade and agriculture to flourish. The hardy settlers of the western part of the United States now built their cabins in numerous places on the west side of the Mississippi. As might have been expected, difficulties soon arose between Spain and the Union. The foreign power became jealous of the increasing greatness of the latter. A dispute relative to the navigation of the Mississippi was settled by treaty (20th Oct., 1795), by which Spain granted to the United States free navigation of that river. But Spain never acted faithfully in this matter, and threw obstacles in the way of Americans navigating that stream. War, indeed, seemed inevitable, and was only prevented by the cession of Louisiana to France, on the 21st March, 1801, and its disposal by that power to the United States on the 30th April, 1803. At the time of this last cession, the province contained 49,500 inhabitants, of whom 6,028 were living in Upper Louisiana. The products of its agriculture in 1802 had been chiefly cotton and sugar—of the former 20,000 bales, and of the latter 5,000 hogsheads. The commerce of New Orleans had become extensive; its exports coming from the province and the western States and territory, and consisting chiefly of flour, pork, salt beef, tobacco, cotton, sugar, molasses, peltries, naval stores, etc., amounted to 40,000 tons. The commerce of Upper Louisiana was flourishing, and a prosperous trade was already carried on between St. Louis and New Orleans, and with the settlements on the Ohio, Cumberland, and Tennessee rivers. The annual crop was about 88,000 minots (264,000 bushels) of wheat, 84,000 minots of Indian corn, and 23,627 pounds of tobacco. The mines produced 1,700 quintals of lead, and the salines about 1,000 barrels of salt. The fur trade brought in about \$70,000. Louisiana henceforth formed part of the United States, itself "an empire," bought, to use the words of Napoleon, "for a mere trifle."

The new purchase was immediately divided into the "Territory of Orleans" (since 1812, the State of Louisiana) and the "District of Louisiana," erected in 1805 into a territorial government, administered by a governor and judges, under the title of "Territory of Louisiana." The seat of the government was St. Louis; its districts, St. Charles, St. Louis, Cape Girardeau, New Madrid, and Arkansas. In 1812, on the admission of the present State of Louisiana into the Union, the name of this territory was changed to "Missouri Territory." The territory extended from latitude 38° to 41° north, and the government became representative. The first governor under the new government was William Clarke. The legislature consisted of a council of 9 members appointed by the President, and a House of Representatives, one member for every 500 free white males, elected by the people. The limits of the Territory on the west were gradually extended by treaties with the Indians. People from the western States began to move in from the time of the purchase, so that in 1810 the population numbered 20,845, of whom all but about 1,500 belonging to Arkansas were settled within the present limits of the State of Missouri. The French settlements were now overrun by Americans from Kentucky, Tennessee, Ohio, etc., and American habits, usages, laws, and institutions soon became prevalent. The original settlers were quickly merged and almost lost among the later and more active population, until at length the whole became a homogeneous people. Immigration was so rapid, that in 1817 the territory contained 60,000 souls. St. Louis counted at this time 5,000 inhabitants against 1,000 in 1804. It had already become the emporium of the Upper Mississippi. In 1817, application was made by the Assembly to Congress for authority to frame a State constitution preliminary to admission into the Union. A fierce and stormy debate arose at once on the subject in Congress. A powerful party demanded that the new States should exclude slavery by their constitutions. The discussion raged for two years, threatening to tear the Union asunder; at length, however, the debate was stopped by the passage of the compromise resolutions of Mr. Clay, by which it was agreed that the institution of slavery should be recognized in Missouri, but in no other new State north of latitude 36° 30'. The State constitution, somewhat modified since its adoption, was framed by a convention of forty delegates, which met at St. Louis on the 12th June, 1820, and adopted on the 19th July following. The new State was found, by a census taken the same year, to contain a population of 66,536, of whom 10,222 were slaves. From this time until the present there has flowed a constant tide of immigration from the southern, western, and northern States, and from Europe; agriculture and commerce have more than kept pace with the increase, and mining and manufactures, though not made prominent industrial pursuits, have been gradually developed. Few other States, indeed, can boast of so rapid a development of the material resources it may possess, which, though in a great measure due to the facilities afforded by the country itself, yet much must be accorded to the enterprise of its hardy, intelligent, and industrious inhabitants.

JEFFERSON CITY, on the south bank of the Missouri River, 143 miles from its mouth, is the political capital of the State.

MISSOURI, p. v., Pike co., *Ala.*: 44 m. S. E. Montgomery. MISSOURI river: a large river of the United States, rises in the Rocky mountains, and takes this name after the union of three branches, denominated Jefferson, Gallatin, and Madison, in 45° 10' N. lat., and 110° W. long. The springs which give rise to the Missouri are not more than a mile distant from some of the head waters of the Columbia, which flows W. into the Pacific ocean. At the distance of 411 m. from the extreme point of the navigation of its head branches, are what are denominated the "Gates of the

Rocky Mountains," which present a view exceedingly grand. For the distance of 54 m. the rocks rise perpendicularly from the margin of the river to the height of 1,200 feet. The river is compressed to the width of 150 yards, and for the first 8 m. there is only one spot, and that only of a few yards, on which a man could stand, between the water and the perpendicular ascent of the mountain. At the distance of 110 m. below this, and 521 m. from its source, are the Great Falls, 2,575 m. above its entrance into the Mississippi. The river descends, by a succession of rapids and falls, 357

feet in about 164 m. The lower and greatest fall has a perpendicular pitch of 87 feet; the second of 19 feet; the third of 47 feet; the fourth of 26 feet. Between and below these falls are continual rapids of from 8 to 18 feet descent. These falls, next to those of Niagara, are the grandest on the continent. The course of the river above these falls is northerly. The Yellowstone river, 800 yards wide at its mouth, probably the largest tributary of the Missouri, enters it on the S. W. side, 1,216 m. from its navigable source, and about 1,880 m. from its mouth. This river, at the place of junction, is as large as the Missouri. Steamboats ascend to this place, and could go farther by each branch. Chienne river, 400 yards wide at its mouth, enters the Missouri on the S. W. side, 1,310 m. from its mouth, in 44° 20' N. lat. White river, 800 yards wide, enters it on the S. W. side, 1,180 m. from its mouth. Big Sioux river, 110 yards wide, enters it 853 m. from its mouth, in 42° 48' N. lat., on the N. E. side. Platte river, 600 yards wide at its mouth, enters it on the S. W. side, 600 m. from its mouth, in 40° 50' N. lat. Kansas river, 223 yards wide at its mouth, enters it on the S. W. side, in 39° 5' N. lat., at the distance of 840 m. from its mouth. Grand river enters it on the N. E. side, 240 miles from its mouth, and is 190 yards wide. La Mine river, 70 yards wide, enters it 200 miles from its mouth. Osage river, 397 yards wide at its mouth, enters it on the S. W. side, in 39° 31' N. lat., 133 m. from its mouth. Gasconade river enters it on the S. W. side, in 38° 45' N. lat., 100 m. from its mouth. The Missouri enters Mississippi river 8,096 m. from its source, which, added to 1,253 m., the distance to the Gulf of Mexico, makes its whole length 4,349 m., and it is probably the longest river in the world. Through its whole course there is no substantial obstruction of the navigation before arriving at the Great Falls.

Distances navigable by steam on Missouri river and its principal branches:

	Miles.		Miles.
Missouri	1,500	Grand	90
Gasconade	66	Kansas	150
Osage	275	Platte	40
Chariton	50	Yellowstone	300

The alluvial fertile soil on this stream and its tributaries is not very broad, and back of this are prairies of vast extent. Through the greater part of its course the Missouri is a rapid and turbid stream, and in the upper part of its course flows through an arid and sterile country. It is over half a mile wide at its mouth, and through a greater part of its course it is wider. Notwithstanding it drains such an extensive country, and receives so many large tributaries, at certain seasons it is shallow, hardly affording sufficient water for steamboat navigation, owing to its passing through a dry and open country, and being subject to extensive evaporation.

MISSOURI, p. v., St. Charles co., *Mo.*: on the N. W. bank of Missouri r., 77 m. E. Jefferson City.

MITCHELL county, *Ia.* Situate E. on N. line, and contains 432 sq. m. Drained by heads of Cedar river, a branch of the Iowa. Unorganized.

MITCHELL, p. o., Sheboygan co., *Wis.*: 77 m. N. E. Madison.

MITCHELLS, p. o., Walker county, *Tex.*: 133 m. E. N. E. Austin City.

MITCHELL'S MILLS, p. o., Indiana co., *Penn.*: 128 m. W. by N. Harrisburg.

MITCHELL'S PEAK, Alleghany co., *N. Car.* This peak enjoys the reputation of being the highest summit on the E. side of the Rocky mountains. It derives its name from Professor Mitchell, of Cincinnati, who determined its altitude to be more than 250 feet higher than Mount Washington, in New Hampshire. Its height is 6,720 feet.

MITCHELL'S SALT WORKS, p. o., Jefferson co., *Ohio.*: 124 m. E. N. E. Columbus.

MITCHELLSVILLE, p. v., Robertson co., *Tenn.*: 33 m. N. by E. Nashville; on the line of the proposed R. R. between Louisville and Nashville.

MITCHELLSVILLE, p. o., Boone co., *Ky.*: 58 m. N. by E. Frankfort.

MIXERVILLE, p. o., Franklin county, *Ind.*: 60 m. E. S. E. Indianapolis.

MIXTOWN, p. o., Tioga county, *Penn.*: 101 m. N. by W. Harrisburg.

MOBILE county, *Ala.* Situate S. W. corner, and contains 1,316 sq. m. It has the Gulf of Mexico on the S., Mobile bay and river on the E., and a few small streams flowing into them. Surface mostly level, with some hills in the N., and covered largely with pine forests; soil of very moderate fertility, producing small crops of corn and potatoes, and furnishing pasture for cattle in considerable numbers. The important interest of the county is commerce, which is of immense extent, as it has the transportation of most of the products of a back country, comprising the largest and best part of the State. Farms 249; manuf. 61; dwell. 3,027, and pop.—wh. 17,306, fr. col. 933, sl. 9,356—total 27,600. *Capital*: Mobile. *Public Works*: Mobile and Ohio R.R., etc.

MOBILE, p. city, port of entry, and cap. Mobile co., *Ala.*: on the W. bank Mobile river, just above its entrance into Mobile bay, 163 m. S. W. Montgomery. Lat. 30° 41' 48" N., and long. 87° 59' 04" W. The site is but very little elevated above the water, but sufficiently so for all purposes of convenient drainage. The soil is dry and sandy. Immediately opposite the city, on the E., is a large low island, covered with high grass and rushes, and known as "the marsh;" above on the N. is a large swamp, extending along the banks of the r.; and back of the city on the N. W., W. and S., the dry sandy pine hills commence, affording delightful and healthy retreats from the heat, sickness, and annoyances of the city during the summer; and here have sprung up the pleasant villages of Touminville, Spring Hill, Cottage Hill, Summerville, and Fulton. South from the city, the shores of the bay are dotted for many miles with elegant residences, and these spots have been usually exempt from epidemic diseases.

The city is not compactly built, except in the portions occupied by the commercial and business houses. The streets generally are wide, and run mostly north and south, and east and west. Much attention has been paid of late years to planting shade trees along the pavements, and the comfort and probably the health of the place has been much improved thereby. The prevailing winds during the winter months are the N. and N. E.; from the middle of April (at which time the warm spring weather begins), the S. winds, cool, refreshing, and laden with moisture, make the heat quite bearable, and these, being also the prevailing summer winds, even in that hot season, negative in a great measure the climatic extreme. The climate, however, is warm and relaxing to the energies, and even in the winter months is trying to the constitution, from the many and sudden changes that occur. During the coldest weather the ground is but seldom frozen. Most rain falls in December, January, June, and July.

No system of underground drainage has ever been attempted at Mobile; the light, porous character of the soil answering the same purpose, and making the streets dry immediately after the heaviest fall of rain. The city is supplied with good wholesome water through the water-works from a stream some few miles distant.

The sanitary condition of Mobile has greatly improved of late years; for a long period it enjoyed the unenviable reputation of being a very unhealthy place, and the devastating epidemics of 1819-25-29-37-39, and '43, in truth gave a coloring to the accusation. Since the last-named year there has been no severe visitation of sickness, which may be accounted for in some measure by the fact, that the wet, muddy morasses that until then had occupied the northern part of the city have been filled in, and their places are now the sites of large cotton presses and warehouses. The deaths in 1849-50 numbered only 611, or one to every 334 living. A better system of drainage has also been adopted, and

more exertion has been used in cleansing and purifying the streets than heretofore.

Mobile contains the county court-house, several United States courts, the municipal courts, the city hall, a jail, and other public buildings; a splendid Roman Catholic cathedral, numerous churches of various denominations, hospitals, schools, markets, a theatre and circus, several first-class hotels, etc. The hospitals—the United States Marine Hospital and the City Hospital—are large and commodious buildings, each capable of accommodating from 250 to 300 patients; and there are other charitable institutions worthy of notice, among which stand pre-eminent the Catholic and Protestant Orphan Asylums, the Benevolent Society, which, among other functions, has charge of destitute widows, and the Samaritan Society. A blind asylum has also been founded, and an asylum for the deaf and dumb provided for. There are three cemeteries belonging to the city.

Mobile was originally a Spanish settlement, and at a later period a portion of Louisiana. It was surrendered to the Americans in 1813. In 1814 it was chartered as a town, and in 1819 became a city. In 1814 the total valuation of property in the town was only \$350,950; in 1819, \$764,510; in 1824, \$1,107,500; in 1829, \$2,719,148; in 1834, \$6,756,025; in 1839, \$24,480,315; in 1844, \$18,098,877; in 1849, \$12,629,700; and in 1850, \$11,985,790. The population of the city in 1830 was 8,194; in 1840, 12,672; and in 1850, 20,518.

The commercial statistics of the city will be found under the head of ALABAMA. Mobile is the only sea-port of the State open to foreign commerce, and from this point is shipped the great bulk of the cotton of Eastern Mississippi and Western Alabama. The total quantity shipped for the year ending 31st August, 1852, was 575,104 bales, or one-sixth of all the cotton produced in the Union. Of this amount 307,518 bales were sent to England, 95,917 to France, and 27,048 to other foreign States; and 144,626 coastwise to domestic ports. Staves, lumber, and naval stores, are also shipped in large quantities. There are two commercial banks in the city—the Bank of Mobile and the Southern Bank of Alabama. The Planters' and Merchants' Bank has lately closed its business. Mobile has four newspapers—the "Alabama Tribune" (indep.), daily; the "M. Advertiser" (whig), daily and semi-weekly; the "Register and Journal" (dem.), daily and weekly; and the "Alabama Planter" (agric.), weekly. The local trade of Mobile is very extensive and valuable. The Mobile and Ohio R. R. will connect the city with the whole north-west; the Girard and Mobile R. R. will connect it with the Atlantic ports, and a railroad to Madisonville will connect it with New Orleans. None of these are built except a portion of the first named.

As a commercial mart of the Gulf, Mobile is second only to New Orleans in its facilities and available position. Immense rivers connect it with an extensive and highly productive interior, and a fine bay gives it access to the sea. Mobile Bay sets up from the Gulf, and is 80 m. long, and on an average 12 m. broad; it communicates with the Gulf by two straits, one on each side of Dauphin Island. The strait on the W. side will not admit of vessels of more than 5 feet draft; but that on the E. side, between the island and Mobile Point, has 18 feet water, the channel passing within a few yards of the point. There is a bar across the bay near its upper end, which has only eleven feet water. Mobile river, which falls into the bay immediately below the city, is formed by the junction of the Alabama and Tombigbee rivers 50 m. above the city. A few miles below the junction it divides into several channels. The main W. channel is called Mobile, and the main E. channel, which is the deepest and widest, is called the Tensaw. It is navigable for vessels drawing less than six feet water by the Tombigbee branch to St. Stephen's, and by the Alabama branch to Claiborne. In times of flood it sometimes rises 50 or 60 feet. The entrance to the harbor is defended by Fort Morgan, situated on a long, low, sandy point, at the mouth of the bay, 80 m. below the city, opposite to Dauphin Island.

MOBILE bay, Ala.: sets up from the Gulf of Mexico, with which it communicates by two straits, one on each side of Dauphin Island. The strait on the E. side, between the island and Mobile Point, has 18 feet water, while the one on the W. has only 5 feet. The channel passes within a short distance of the point. The bar at the upper end has only 11 feet water on it. Mobile City is situate at the head of the bay.

MOBILE river, Ala.: the great river of the State, is formed by the junction of the Alabama and Tombigbee, 50 miles above Mobile bay; a few miles below the junction, it gives out a large branch, called the Tensaw, which also receives an arm from the Alabama, and reaches Mobile Bay below Blakely, and at the city of Mobile. It is navigable as far up as St. Stephen's, 93 miles, on the Tombigbee, for vessels drawing 6 feet of water, and steamboats of moderate burden; to Tuscaloosa, on the eastern branch, 300 miles, and to Columbus, in Mississippi, on the Western branch; its length is about 450 miles. Its tributaries are inconsiderable compared with its great length: the Buttahatchee, Sipsey, and Okanoxabee, are the principal. The Alabama, or eastern branch of the Mobile, is navigable to Claiborne, 100 miles from the bay, by the same class of vessels that go up to St. Stephen's, and for smaller steamboats about 300 miles by the windings of the stream. The two branches unite in lat. 31° 06' N., and long. 110° 05' W. In times of flood it sometimes rises from 50 to 60 feet.

MOB JACK bay, *Virg.*: an arm of Chesapeake Bay, makes up between Mathews and Gloucester. The Gloucester court-house is at the head of the bay.

MOBLEY POND, p. v., Scriven co., Ga.: on a small cr., flowing into the Savannah river, 104 m. E. Milledgeville.

MOCKVILLE, p. v., and cap. Davie co., N. Car.: 108 m. W. Raleigh, and contains the county court-house and other public buildings.

MODENA, p. o., Ulster co., N. Y.: 73 m. S. S. W. Albany.

MODER TOWN, p. v., Accomack county, *Virg.*: 102 m. E. by N. Richmond, and 2 m. from the Atlantic coast. It contains about 60 inhabitants.

MODRELL'S POINT, p. o., Coles co., Ill.: 85 m. E. by S. Springfield.

MOFFETT'S STORE, p. o., Columbia co., N. Y.: 23 m. S. E. Albany.

MOFFETTSVILLE, p. v., Anderson dist., S. Car.: near the Savannah r., 101 m. W. by N. Columbia.

MOFFET'S MILLS, p. o., Randolph co., N. Car.: 73 m. W. Raleigh.

MOGADORE, p. o., Summit county, Ohio: 118 m. N. E. Columbus.

MOHAWK, p. v., Herkimer co., N. Y.: on the S. side of the Mohawk r., and on the line of the Erie Canal, 95 m. from Albany. The Mohawk Valley Bank is situate here. The v. contains several stores and workshops, and about 600 inhabitants. The "Mohawk Times" (free soil), is issued weekly.

MOHAWK river, N. Y.: the principal tributary of the Hudson r., rises in the S. part of Lewis co., flows S. to Rome, where, turning to the S. E., it continues that course, and enters the Hudson r. by several mouths at Waterford, 8 or 10 m. above Albany. It receives West Canada cr. from the N. and Schoharie cr. from the S. There are several rapids and two large falls in its course. At Little Falls it descends over a stony bed, and through a remarkable gorge in the mountain, 42 feet in the course of a mile. At Cohoes Falls, 2 m. from its mouth, it has a perpendicular descent of 70 feet, a short distance below which there is a bridge across the river. The Erie Canal passes along its S. bank, nearly through its whole course, in consequence of which the channel is little used for navigation. The banks of the river are very fertile—its whole length is 135 m. Along the banks of the river there are a number of populous and thriving villages and wealthy cities. The great wheat district of the State commences in the valley of the Mohawk above Little Falls.

MOHAWK VALLEY, p. o., Coshocton co., *Ohio*: 67 m. N. E. Columbus.

MOHEGAN, sta., New London co., *Conn.*: on the line of the New London, Willimantic, and Palmer R. R., 9 m. N. New London, and on the W. bank of Thames r., 88 m. S. E. Hartford.

MOHICAN, t. and p. o., Ashland co., *Ohio*: 64 m. N. N. E. Columbus. Drained by a branch of Walhonding r. Surface rolling; soil fertile and productive. Jeromesville and Mechanicsville are names of villages in the t. Population of t. 1,775.

MOHESVILLE, p. o. and sta., Berks co., *Penn.*: on the line of the Philadelphia and Reading R. R., 68 m. N. W. Philadelphia. The Windsor iron furnace located here has an annual capacity of 1,200 tons.

MOIRA, t. and p. v., Franklin co., *N. Y.*: 157 m. N. N. W. Albany. Drained by branches of Salmon and St. Regis rivers. Surface even; soil fertile. The Northern (Ogdensburg) R. R. crosses the t., on which is the sta., 47 m. E. of Ogdensburg. Pop. of t. 1,340.

MOLALLA, p. o., Clackamas co., *Oreg. Ter.*: about 29 m. N. E. Salem.

MOLINE, p. v., Rock Island co., *Ill.*: on the E. side of the Mississippi, 5 m. above Rock Island City, 127 m. N. N. W. Springfield. It lies opposite the head of Rock Island, where there is excellent water-power, is extensively engaged in manufacturing and milling, and has about 1,000 inhabitants.

MOLINO, p. o., Lincoln county, *Tenn.*: 68 m. S. by E. Nashville.

MOLINO, p. o., Tippah co., *Miss.*: 188 m. N. E. Jackson.

MOLINO, p. o., Randolph co., *Ala.*: 82 m. N. E. Jackson.

MOLINO DEL REY, p. o., Arkansas co., *Ark.*: 10 m. W. of White r., 66 m. S. E. by E. Little Rock.

MOLLHORN, p. o., Newberry dist., *S. Car.*

MOLLTOWN, p. o., Berks county, *Penn.*: 56 m. E. N. E. Harrisburg.

MOLUNKUS RIVER, *Me.*: rises near the E. line of Penobscot co. and empties into the Matawamkeag, about 10 m. E. of its S. entrance into the Penobscot. Its course is S. S. E., and passes through a densely timbered region about 50 m., affording great water-power.

MOMENKE, p. v., Will co., *Ill.*: on the right bank of Kankakee r., 144 m. N. E. Springfield.

MONADNOCK MOUNTAIN, Cheshire co., *N. Hamp.*: lies between the towns of Jaffrey and Dublin, 10 m. N. of the S. line of the State, and extends N. and S. about 5 m. and E. and W. about 8 m. The highest peak, called Grand Monadnock, is 3,718 feet above the ocean level, and commands a view of the country around it for 50 m. on every side. The summit is bare rock, but the prospect is one of remarkable beauty. At its base is a mineral spring, and large quantities of plumbago are found on the E. side.

MONAGAN, p. o., St. Clair co., *Mo.*: on a branch of Osage r. so called, 102 m. W. S. W. Jefferson City.

MONCHES, p. o., Waukesha co., *Wisc.*: 55 m. E. by N. Madison.

MONCLOVA, p. o., Lucas county, *Ohio*: 114 m. N. by W. Columbus.

MONEEK, p. o., Winneshiek co., *Ia.*: 108 m. N. by W. Iowa City.

MOKEY CREEK, p. o., McLean co., *Ill.*: on a branch of Mackinaw cr., 69 m. N. N. E. Springfield.

MONGAUP, p. o., Sullivan co., *N. Y.*: 92 m. S. W. by S. Albany.

MONGAUP VALLEY, p. o., Sullivan county, *N. Y.*: 86 m. S. W. by S. Albany.

MONGOQUINONG, p. v., La Grange co., *Ind.*: on the N. side of Pigeon r., 137 m. N. by E. Indianapolis. A plank-road connects it with the Michigan Southern R. R.

MONISTIQUE RIVER, Schoolcraft co., *Mich.*: rises near the S. shore of Lake Superior, and empties into the N. end of Lake Michigan, after draining with its numerous branches the E. half of Schoolcraft co., and receiving from the W. the

waters of Monistique lake, a large sheet of water on its S. border.

MONITEAU COUNTY, *Mo.* Situate centrally, and contains 389 sq. m. Drained by Moniteau cr. and Straight and South forks of Moreau cr., affluents of the Missouri, which forms its N. E. boundary. Surface uneven; soil mostly fertile, and adapted for grazing. Corn is the staple cereal. Wheat and tobacco are successful crops, cattle are reared in large numbers, and pork is a considerable export. It has good mill streams, plenty of timber, and some iron ore. Farms 761; manuf. 15; dwell. 901, and pop.—wh. 5,434, fr. col. 4, sl. 566—total 6,004. *Capital*: California.

MONK'S CORNERS, p. o., Charleston district, *S. Car.*: on Cooper cr., near its head, 81 m. S. E. Columbia.

MONK'S STORE, p. o., Sampson co., *N. Car.*: 44 m. S. S. E. Raleigh.

MONKTON, t. and p. o., Addison co., *Verm.*: 26 m. W. Montpelier. Drained by Lewis cr. and its branches, on which are several mills. Surface uneven, and soil fertile. It is a fine grazing t., exporting live-stock, wool, and dairy produce. In the S. superior iron ore and porcelain clay are extensively dug. Pop. 1,246.

MONKTON MILLS, p. v., Baltimore co., *Md.*: on Great Gunpowder Falls, 34 m. N. by W. Annapolis. It is on the Baltimore and Susquehanna R. R., 22 m. N. Baltimore, and contains large flouring mills.

MONMOUTH COUNTY, *N. Jer.* Situate E. middle, and contains 618 sq. m. Raritan and New York bays bound it N., the Atlantic E., and it is drained by small streams flowing into them and the Delaware. Surface generally level, with the Highlands of Navesink in the N.; soil of marine formation, with parts too sandy for tillage; but abundance of marl, by the application of which and good cultivation, it is mostly very productive. Corn, rye, potatoes, wheat, buckwheat, and oats are all good crops. It has some excellent dairies, and exports beef, wool, and pork. Iron ore and marl are extensively found, and pine timber abounds in parts. Its water-power is considerable and manufactures various, principally lumber, liquors, iron, iron-ware, leather, woolens, and cordage. Farms 2,014; manuf. 214; dwell. 5,155, and pop.—wh. 27,927, fr. col. 2,311, sl. 75—total 30,313. *Capital*: Freehold.

MONMOUTH, p. v., and cap. Warren co., *Ill.*: about 8 m. S. of Cedar fork of Henderson's r., 91 m. N. W. by N. Springfield. It has a fine situation for trade in farming products, with limestone and coal abundant in the vicinity, and contains a court-house and jail, a high school, and 15 or 20 stores. The "M. Atlas" (indep.) is published here weekly.

MONMOUTH, p. v., Adams co., *Ind.*: on St. Mary's r., 116 m. N. E. Indianapolis. A plank-road passes along the river from Decatur to Fort Wayne. Near the v. are good mill-sites and several mills.

MONMOUTH, t. and p. v., Kennebec co., *Me.*: 16 m. S. W. Augusta. It contains several large ponds which feed excellent mill streams. Surface uneven; soil fertile, producing good grain crops and supporting fine dairies. The v. contains an academy and several stores. The Androscoggin and Kennebec R. R. crosses the t. and has a sta. in it, 47 m. from Portland. Pop. of t. 1,925.

MONOCAOT, sta., Frederick county, *Md.*: 59 m. W. of Baltimore, on the Baltimore and Ohio R. R.

MONOCACY RIVER, *Penn.* and *Md.*: rises in Adams co., *Penn.*, and flows S. S. W. about 70 m., emptying into the Potomac 23 m. below Harper's Ferry.

MONOMOY ISLAND, *Mass.*: a long, narrow island in the Atlantic Ocean, on the S. side of Barnstable co., belonging to Chatham.

MONON, p. o., White county, *Ind.*: 82 m. N. N. W. Indianapolis.

MONONA, p. o., Clayton co., *Ia.*: 94 m. N. by E. Iowa City.

MONONGAHELA RIVER, *Virg.* and *Penn.*: rises in Randolph co., *Virg.*, on the W. base of the Laurel Mountains, and after a generally N. course of about 800 m., unites with

the Alleghany at Pittsburgh, the Ohio being formed by their junction. Its principal affluents are Cheat and Yioughiogeny rivers, which flow into it from the E. It is ascended by boats in favorable seasons 200 m., and large boats can always come up to Brownsville, 60 m. from its mouth.

MONONGAHELA CITY, p. v., Washington co., *Penn.*: on the left bank of Monongahela r., 156 m. W. Harrisburg. It is on the National Road, and contains 976 inhabitants.

MONONGALIA county, *Virg.* Situate N. W., and contains 308 sq. m. Drained by Monongahela and Cheat rivers. Surface elevated and broken; soil very fertile, with excellent pastures. Corn, wheat, and oats are the staples, and usually large crops. Fine dairies, large numbers of cattle, and very large flocks of sheep are supported on the grazing land, and wool is a valuable export. The county abounds in iron ore and bituminous coal, and manufactures iron, flour, leather, woolens, and distilled liquors. Farms 727; manuf. 57; dwell. 2,124, and pop.—wh. 12,092, fr. col. 119, sl. 176—total 12,387. *Capital*: Morgantown. *Public Works*: Baltimore and Ohio R. R.

MONOQUET, p. v., Kosciusko co., *Ind.*: about 2 m. W. of Tippecanoe r., 123 m. N. by E. Indianapolis.

MONROE county, *Ala.* Situate S. W., and contains 1,063 sq. m. Bounded W. by the Alabama, and drained by its affluents, Little r. and Flat and Limestone creeks. Surface mostly level or slightly uneven; soil of average fertility, with some very productive land on the streams, near which are also marshes adapted to rice-growing. Cotton is the staple and corn the leading cereal. Farms 692; manuf. 23; dwell. 1,005, and pop.—wh. 5,648, fr. col. 40, sl. 6,325—total 12,013. *Capital*: Claiborne.

MONROE county, *Ark.* Situate E. middle, and contains 1,059 sq. m. Drained by White r., Cache r., and Lick cr. Surface level, and in parts low and swampy; soil fertile. Corn and cotton are the chief crops, and the produce not large. Pork is exported and cattle are reared in small numbers. It has excellent ash and cypress timber. Farms 133; manuf. 0; dwell. 310, and pop.—wh. 1,652, fr. col. 2, sl. 395—total 2,049. *Capital*: Lawrenceville.

MONROE county, *Flor.* Situate S., and contains about 2,050 sq. m. Caloosahatchee r. bounds it N., and it has but few streams, all which flow into the Gulf. Surface low and mostly swamps, densely covered with pine, cypress, cedar, and magnolia trees of great size. The main land is scarcely settled by whites. The islands known as the Florida Keys are comprised in its limits. The principal business of the inhabitants is assisting wrecked vessels, which are often lost on the dangerous reefs around them. Farms 6; manuf. 11; dwell. 420, and pop.—wh. 2,086, fr. col. 126, sl. 431—total 2,643. *Capital*: Key West.

MONROE county, *Ga.* Situate W. centrally, and contains 422 sq. m. Bounded E. by the Ocmulgee and drained by its branches. Surface pleasantly diversified; soil very fertile. Cotton is the staple, and a very large amount is raised. Corn is the chief grain, and wheat a very successful crop, but cotton commands the most attention. Farms 746; manuf. 2; dwell. 1,194, and pop.—wh. 6,810, fr. col. 5, sl. 10,170—total 16,985. *Capital*: Forsyth. *Public Works*: Macon and Western R. R.

MONROE county, *Ill.* Situate S. W., and contains 414 sq. m. Drained by Fountain cr. of the Mississippi, which is its W. boundary, and Richland and Horse creeks of the Kaskaskia. Surface level, broken only by the bluffs along the Mississippi, and much of it prairie; soil of great fertility; the celebrated "American Bottom" lies between the bluffs and the Mississippi, which is wooded near the river, and back is prairie of inexhaustible fertility. Corn is the chief crop. Wheat grows well, and the rearing of cattle and the fattening of pork is most attended to. It lies opposite the great lead region of Missouri, and lead, copper, and iron are found in the W. part. Farms 874; manuf. 33; dwell. 1,421, and population—wh. 7,633, fr. col. 46—total 7,679. *Capital*: Harrisonville.

MONROE county, *Ind.* Situate S. W. centrally, and contains 420 sq. m. Drained by Salt, Clear, and Bean Blossom creeks. Surface mostly uneven, rolling near the centre, and originally heavily timbered; soils excellent; in the bottoms very rich. Corn and wheat are the staples, and pork a considerable export. It has good water-power, and extensive manufactories of iron, flour, woolens, and leather. Iron ore is abundant, and salt springs are found. Farms 1,230; manuf. 46; dwell. 1,892, and pop.—wh. 11,259, fr. col. 27—total 11,286. *Capital*: Bloomington. *Public Works*: New Albany and Salem R. R.

MONROE county, *Ia.* Situate S. E. centrally, and contains 432 sq. m. Drained by Cedar, Gray's, Miller's, Upper and Lower Avery's, and Soap creeks, branches of the Des Moines, which touches the N. E. corner. Surface rolling and slightly broken; soil fertile, well timbered, abundantly supplied with mill streams, and adapted to grain or grass. Corn, live-stock, beef, and pork are the chief products. Farms 337; manuf. 0; dwell. 515, and pop.—wh. 4,882, fr. col. 0—total 4,882. *Capital*: Albia.

MONROE county, *Ky.* Situate on S. line centrally, and contains 312 sq. m. Drained W. by Big Barren r. and its branches, and E. by the Cumberland. Surface various, generally uneven; soil fertile. Corn is the staple grain. Wheat and tobacco are profitable crops, and some cotton is raised. Pork is the great export. Farms 740; manuf. 9; dwell. 1,190, and pop.—wh. 6,902, fr. col. 23, sl. 830—total 7,755. *Capital*: Tompkinsville.

MONROE county, *Mich.* Situate S. E. corner, and contains 547 sq. m. Drained by Huron r., Swan, Sandy, Stony, and Half-way creeks, and River Raisin, all flowing into Lake Erie, its E. boundary. Surface N. and E. level and heavily timbered; S. and W. rolling, and alternate prairie and grove: soil mostly fertile; in parts sandy, and S. a sandy loam; admirably fitted for grazing. Corn, wheat, oats, and potatoes are good crops; cattle and pork are exported. It has good water-power, and manufactures flour, woolens, leather, glass, and machinery of various kinds. It is favorably situated for trade on the lake, and is the great thoroughfare for western emigration. Limestone for building is plenty, marl abundant, sulphur springs are found, and a superior fine sand for manufacturing glass. Farms 1,277; manuf. 45; dwell. 2,544, and pop.—wh. 14,642, fr. col. 56—total 14,698. *Capital*: Monroe. *Public Works*: Erie and Kalamazoo R. R.; Michigan Southern R. R.; Toledo and Detroit R. R., etc.

MONROE county, *Miss.* Situate N. E., and contains 723 sq. m. Drained by the Tombigbee and its branches, Buttahatchee r., W. fork, etc. Surface agreeably diversified and somewhat uneven, with good water-privileges, and generally a sufficiency of good timber; soil fertile; on the streams very productive of corn and cotton, the staples of the co. Wheat, oats, and potatoes are thriving crops, and the pasturage fine. Neat cattle are raised in large numbers, and pork is exported. It manufactures flour, cotton goods, earthen-ware, iron castings, lumber, and leather. Farms 843; manuf. 13; dwell. 1,576, and pop.—wh. 9,417, fr. col. 38, sl. 11,717—total 21,172. *Capital*: Hamilton. *Public Works*: Mobile and Ohio R. R.

MONROE county, *Mo.* Situate N. E., and contains 657 sq. m. Drained by Salt r. and its branches, N., S., Otter, and Elk forks, Crooked cr., and Long branch. Surface moderately uneven; soil fertile, a part prairie, and most well fitted for grazing. Corn is the staple; wheat, tobacco, and potatoes are fine crops, and pork a very large export. It has fine mill streams, plenty of timber, and some manufactures. Farms 926; manuf. 21; dwell. 1,290, and pop.—wh. 8,464, fr. col. 29, sl. 2,048—total 10,541. *Capital*: Paris.

MONROE county, *N. Y.* Situate W. on Lake Ontario, and contains 607 sq. m. Drained by Genesee r., its branches, Black, Allen, and Honeoye creeks, and Sandy, Salmon, and Little Salmon creeks, emptying into the lake. Surface sloping toward the lake, and broken into two terraces.

parallel to it; soil a very deep, gravelly loam, of great fertility, and produces more grain than any other co. in the State. It yields the best of Genesee wheat, which is the great staple, and large crops of corn, oats, and potatoes, besides pasturing great numbers of sheep. The falls of the Genesee afford unsurpassed water-power, and move the largest flouring mills in the Union. Lumber, iron, cloths, paper, and leather are largely manufactured. The Genesee is navigable through the co. On the lake are good harbors, and the county has a large trade with the interior. Marl is abundant, gypsum is largely found, iron and lead ores in smaller quantities, and in parts a valuable fire stone for lining furnaces and stoves. Farms 4,118; manuf. 526; dwell. 15,027, and pop.—wh. 86,973, fr. col. 677—total 87,650. *Capital*: Rochester. *Public Works*: Erie Canal; Genesee Valley Canal; Buffalo and Rochester R. R.; Rochester, Lockport, and Niagara Falls R. R.; Syracuse and Rochester Railroad, etc.

MONROE county, *Ohio*. Situate S. E., and contains 522 sq. m. Bounded E. by the Ohio, and drained by Muskingum r., Clear, Sunfish, and Seneca creeks. Surface uneven and broken; soil generally fertile. Wheat, corn, oats, and potatoes are produced largely. Tobacco is extensively cultivated, and pork and wool are exported. It manufactures flour, iron, woollens, leather, etc. The W. abounds in iron and coal. Farms 2,637; manuf. 43; dwell. 4,892, and population—wh. 28,281, fr. col. 70—total 28,351. *Capital*: Woodsfield.

MONROE county, *Penn.* Situate N. E., and contains 494 sq. m. Bounded W. by the Lehigh, E. by the Delaware, and drained by their affluents. Surface rough and broken; soil very fertile in the lower parts. Corn, rye, buckwheat, oats, and potatoes are all fine crops. Sheep are reared largely, and fine dairies are kept. It has much water-power, and manufactures flour, iron, leather, lumber, and woollens. Farms 904; manuf. 76; dwell. 2,155, and pop.—wh. 13,170, fr. col. 100—total 13,270. *Capital*: Stroudsburg. *Public Works*: Cobb's Gap R. R.

MONROE county, *Tenn.* Situate S. E., and contains 768 sq. m. Drained by Tellico r., Cilico and Lyon's creeks, and Tennessee r., which touches the N. part. Surface various; on the S. E. line a mountain ridge, and W. and middle large valleys; soil generally rich, and much of it superior pasture. Corn is the principal crop. Wheat and oats are successfully cultivated, and pork exported. Water-power is plenty, and manufactures of flour, lumber, earthen-ware, iron castings, etc., are rapidly increasing. Farms 918; manuf. 59; dwell. 1,816, and pop.—wh. 10,623, fr. col. 63, sl. 1,188—total 11,874. *Capital*: Madisonville. *Public Works*: East Tennessee and Georgia R. R.

MONROE county, *Virg.* Situate S. W., and contains 573 sq. m. Drained by Greenbrier and Great Kanawha rivers, the last forming its W. boundary. Surface elevated, with the Alleghany mountains on the E., and delightful valleys in every part; soil a rich loam, especially adapted to grazing. Corn, wheat, rye, and oats are very fine crops. It has superior dairies, and exports largely of live-stock, beef, and wool. Water-power is abundant, and small manufactures of flour, leather, liquors, woollens, and oil numerous. It has celebrated red and salt sulphur springs, and much visited sweet springs. Farms 910; manuf. 30; dwell. 1,576, and pop.—wh. 9,062, fr. col. 51, sl. 1,061—total 10,204. *Capital*: Union. *Public Works*: Covington and Ohio R. R.

MONROE, p. v., Morgan county, *Ala.*: 148 m. N. by W. Montgomery.

MONROE, t. and p. v., Fairfield co., *Conn.*: 43 m. S. W. Hartford. Drained by Mill and Pequannock rivers and branches of the Housatonic. Surface uneven; soil stony, but fine pasture land. Farming and grazing are the chief pursuits. The Housatonic R. R. passes through it. The v. is on high ground, and contains an academy and several stores. Pop. of t. 1,440.

MONROE, p. v., and cap. Walton co., *Ga.*: 58 m. N. N. W.

Milledgeville. It contains a court-house, jail, academy, a dozen stores, and 500 inhabitants.

MONROE, p. o., Perry co., *Miss.*: on Leaf r., 78 m. S. E. Jackson.

MONROE, p. v., Tippecanoe co., *Ind.*: 45 m. N. W. by N. Indianapolis.

MONROE, p. o., Jasper co., *Ia.*: 82 m. W. by S. Iowa City.

MONROE, t. and p. o., Bedford co., *Penn.*: 78 m. W. S. W. Harrisburg. Drained by Sliding Hill cr., and affluents of Raystown branch. Surface broken; soil very fertile in parts, and generally good pasture land. Farming and grazing the chief pursuits.

MONROE, p. o., Hart county, *Ky.*: 78 m. S. W. by S. Frankfort.

MONROE, p. v., and cap. Wachita par., *La.*: on the E. side of Wachita r., 146 m. N. N. W. Baton Rouge. It is at the head of steamboat navigation, and is the shipping-place for the cotton of a large and fertile district. It has also a valuable trade, and contains a court-house, jail, academy, several stores and warehouses, and 500 inhabitants.

MONROE, t. and p. o., Waldo co., *Me.*: 48 m. E. N. E. Augusta. Drained by Marsh r., a branch of the Penobscot. Surface varied; soil fertile of grain and grass, and well timbered. Wool and lumber are exported. Pop. 1,606.

MONROE, t. and p. o., Franklin co., *Mass.*: on the N. line of the State, 101 m. W. N. W. Boston. Drained by branches of Deerfield river. Surface elevated and mountainous; soil adapted to grazing, which is the chief business. Pop. 254.

MONROE, t. p. city, and cap. Monroe co., *Mich.*: on Lake Erie, 87 m. S. E. Lansing. Drained by Raisin r. and small creeks flowing into the lake. Surface mostly level; soil sandy, and fertile of grass and grain. Building stone and sulphur springs are found. The city is on the river, 2½ m. above its mouth, and has superior facilities for manufactures and commerce, the river affording great water-power and communication with the lake ports and eastern markets. It contains a court-house, jail, several elegant churches, an academy, numerous flouring-mills, and manufactures of various kinds, and 2,509 inhabitants. Three papers are published—two weeklies, the "M. Commercial," and "Free Citizen," and a literary monthly, the "Seminary Waifs." This city is an important point in the great thoroughfare of travel and transportation between the E. and W., being the E. terminus of the Michigan Southern R. R., which here connects with steamers for all the lake ports. The Toledo, Norwalk, and Cleveland R. R. will soon be extended to Detroit through this place, giving it a continuous railroad communication with the Atlantic cities. Pop. of t. 3,647.

MONROE, p. v., Sussex county, *N. Jer.*: 60 m. N. by E. Trenton.

MONROE, t. and p. v., Orange co., *N. Y.*: 92 m. S. by W. Albany. Drained by Ramapo r., a branch of the Passaic, which furnishes good water-power. Surface hilly and broken; soil adapted to grazing, with some fine farms. It is well timbered, and abounds in iron ore. The Erie R. R. passes through the t. Monroe station is 59 m. from New York. The v. is on the Ramapo r., and contains an academy, several large stores and mills, and about 1,000 inhabitants. It is surrounded by a great dairy region, and about 3,000 gallons of milk are sent daily by railroad to New York from this place. Pop. of t. 4,230.

MONROE, p. v., and cap. Union co., *N. Car.*: on Richardson's cr., a W. affluent of Yadkin river, 111 m. W. S. W. Raleigh. It contains a court-house, jail, and several stores.

MONROE, p. v., Butler co., *Ohio*: about 5 m. E. of Miami river, 51 m. S. W. by W. Columbus. It contains an academy, several stores, and 213 inhabitants.

MONROE, p. v., Overton co., *Tenn.*: about 5 m. S. of E. fork of Obeyes r., 55 m. E. by N. Nashville. It contains a jail and several stores, and was the former capital of the co.

MONROE, p. v., and cap. Greene co., *Wisc.*: 87 m. S. by W. Madison. Drained by branches of Peckatonica r. Surface moderately uneven; soil generally fertile. It lies in the

mineral region, and lead abounds. The v. contains the co. buildings and several stores, and has a valuable trade in the staples of the district. A literary weekly, the "Greene County Union," is published here. Pop. of t. 1,146.

MONROE lake, Orange co., *Vlor.*: an expansion of St. John's r., near the centre of the county.

MONROE CENTRE, p. o., Waldo co., *Me.*: 41 m. E. N. E. Augusta.

MONROE CENTRE, p. v., Ashtabula co., *Ohio*: 174 m. N. E. Columbus.

MONROE MILLS, p. v., Knox county, *Ohio*: on Vernon r., 48 m. N. N. E. Columbus.

MONROTON, p. v., Bradford co., *Penn.*: on Towanda cr., 98 m. N. by E. Harrisburg.

MONROTON, p. o., Rockingham county, *N. Car.*: 76 m. W. N. W. Raleigh.

MONROVILLE, p. v., Monroe county, *Ala.*: 82 m. S. W. Montgomery. It was the former capital of the county, and contains several stores and 250 inhabitants.

MONROVILLE, p. v., and new cap. Colusi county, *Calif.*: 142 m. N. by E. Vallejo. It is a new v. on the Upper Sacramento, near Stone creek, and lies at the head of low water navigation. Boats of 3 feet draft come up to this point at the lowest water, and at high water first-class steamers land here. The land around it is of the best in the Sacramento Valley.

MONROVILLE, p. v., Huron co., *Ohio*: on Huron r., 86 m. N. by E. Columbus. It has fine water privileges, and contains several mills and 12 stores. It is 16 m. S. of Sandusky City, on the Sandusky, Mansfield, and Newark R. R., which here intersects the Toledo, Norwalk, and Cleveland R. R.

MONROVILLE, p. v., Alleghany co., *Penn.*: 72 m. W. by N. Harrisburg.

MONROE WORKS, p. v. and sta., Orange co., *N. Y.*: on Ramapo river, 98 m. S. by W. Albany. Iron of a superior quality for the manufacture of cannon is abundant in the vicinity, and wrought in the works here, which are on the Erie R. R., 52 m. from New York.

MONROVIA, p. v., Morgan county, *Ind.*: 21 m. S. W. Indianapolis.

MONROVIA, p. v., Frederick co., *Md.*: on Bush cr., 46 m. N. W. Annapolis. The Baltimore and Ohio R. R. passes through it 50 m. W. of Baltimore.

MONSEY, p. o. and sta., Rockland county, *N. Y.*: 106 m. S. by W. Albany. The sta. is 5 m. E. of Suffern's, and 37 m. from New York.

MONSON, t. and p. o., Piscataquis co., *Me.*: 69 m. N. by E. Augusta. It has several ponds, the sources of affluents of the Piscataquis, which furnish mill-sites. Surface varied, and soil mostly fertile. It has many good farms, and abundance of timber. Pop. 654.

MONSON, t. and p. v., Hampden co., *Mass.*: on the S. line of the State, 68 m. W. S. W. Boston. Drained by branches of Chicopee r., which supply excellent water-power. Surface agreeably varied; soil very fertile. It has superior farms and orchards, and is extensively engaged in manufacturing cotton and woolen goods, and various kinds of machinery. The New London, Willimantic, and Palmer R. R. crosses the t., and has a sta. at the factories, 4 m. S. of Palmer depot, where it intersects the Western R. R. The v. at the centre contains a hotel, several stores, and an old, well-endowed, and highly popular academy. Pop. of t. 2,831.

MONTACUTE, p. o., Polk co., *Ia.*: 99 m. W. Iowa City.

MONTAGUE, t. and p. o., Franklin co., *Mass.*: on the E. side of the Connecticut, 77 m. W. by N. Boston. Drained by Saw-mill r. Surface uneven, and soil various. It has many fine farms, and is well-wooded. A bridge crosses the river, above which, in the N. part of the t., are Turner's Falls, much visited for the wildness of their scenery. Copper and iron ores are found here. A dam thrown across the river, and a canal 8 m. long, with 70 feet lockage, facilitate navigation, and furnish excellent water-power. The Vermont and Massachusetts R. R. crosses the t., and Montague station is 4 m. E. of Greenfield. Pop. 1,518.

MONTAGUE, t. and p. v., Sussex co., *N. Jer.*: on Delaware river, in the extreme N. of the State, 72 m. N. Trenton. Drained by Mill brook, and Big and Little Flat kills, which afford power for several mills. Surface mountainous on the E., the Blue Mountains occupying the E. border; in the W. alluvial meadow. Soil excellent and well cultivated. The v. is on the Delaware, which is here crossed by a bridge, and contains several mills on Chambers cr. Pop. of t. 1,009.

MONTAGUE, p. o., Essex co., *Verg.*: about 3 m. W. of Rappahannock r., 44 m. E. N. E. Richmond.

MONTAGUE CANAL, p. v., Franklin co., *Mass.*: on the E. side of Connecticut r., 79 m. W. by N. Boston.

MONT ALTO, p. v., Franklin co., *Penn.*: 46 m. S. W. Harrisburg. Here are located a furnace of 1,800 tons capacity, a forge producing 300 tons of blooms, and 200 tons of bars per annum, and a rolling-mill making 350 tons of bars and rods per annum, moved by the waters of Antietam cr., and together employing about 500 hands.

MONTAUK, p. o., Crawford co., *Mo.*: 63 m. S. E. Jefferson City.

MONTAUK POINT, *N. Y.*: is a bold promontory, constituting the extreme E. end of Long Island, on which is a stone light-house, erected in 1795. Lat. $41^{\circ} 4' 10''$, long. $71^{\circ} 51' 58''$. It is 19 m. S. of Stonington, and 116 m. E. by N. of New York. The ocean presents peculiar phases of grandeur here, whether in calm or storm, and attracts many visitors to this place in the summer season.

MONTCALEM county, *Mich.* Situate S. centrally, on Lower Peninsula, and contains 376 sq. m. Drained by Flat r. and Fish and Prairie creeks of Grand r., and Pine r., a branch of the Tittibawassie. Surface undulating, and generally well wooded with oak, ash, maple, and black-walnut; soil black sandy loam, and mostly very fertile, with but little waste land, equally adapted to grass and grain, and free from stone. Farms 26; manuf. 5; dwell. 164, and pop.—wh. 891, fr. col. 0—total 891. *Capital*: Greenville.

MONTCALEM, t. and p. o., Montcalm co., *Mich.*: 42 m. N. W. Lansing. Drained by tributaries of Grand r. Pop. 185.

MONTABELLO, p. v., Hancock co., *Ill.*: on the left bank of Mississippi r., 96 m. W. N. W. Springfield.

MONTELLO, p. o., Marquette co., *Wisc.*: 49 m. N. by E. Madison.

MONTPELL's, sta., Baltimore co., *Md.*: 11 m. N. Baltimore, on the Westminster Branch R. R.

MONTEREY county, *Calif.* Situate W. middle, and contains 2,779 sq. m. Drained by Pajaro and Monterey or Salinas rivers. The Coast Range forms the E. boundary, separating the co. from the San Joaquin valley, and the Santa Cruz mts. in the middle parallel to them, dividing the co. into two extended valleys. San Juan valley, occupying the E. part, is a beautiful and very fertile plain, with few large streams, but rich mines of quicksilver and gold in the N.; the W. valley is drained by the Monterey, a large and well-timbered stream, is fertile, and easy accessible, lying on the Pacific, and having a fine harbor. Pop. in 1852, 2,753. *Capital*: Monterey.

MONTEREY, p. o., Red River co., *Tex.*: 291 m. N. E. by N. Austin City.

MONTEREY, p. o., Pulaski county, *Ind.*: 93 m. N. N. W. Indianapolis.

MONTEREY, p. o., Davis co., *Ia.*: 76 m. S. W. Iowa City.

MONTEREY, t. and p. o., Berkshire co., *Mass.*: 112 m. W. by S. Boston. Drained by Mill r., a branch of the Housatonic. Surface elevated and rough; soil good pasture land, and covered with fine timber. Grazing is the leading interest. Incorporated in 1849. Pop. 761.

MONTEREY, t. and p. o., Allegan county, *Mich.*: 66 m. W. Lansing. Drained by Rabbit r. and branches. Surface uneven; soil fertile and well timbered with pine. Pop. 238.

MONTEREY, p. o., Berks county, *Penn.*: 43 m. E. N. E. Harrisburg.

MONTEREY, p. o., Dutchess co., *N. Y.*: 39 m. S. Albany.

MONTEREY, p. o., Clermont co., *Ohio*: 86 m. S. W. Columbus.

MONTEREY, p. v., and cap. Highland co., *Virg.*: 124 m. W. N. W. Richmond. It contains a court-house, academy, and several stores.

MONTEREY, p. o., Abbeville district, *S. Car.*: 73 m. W. Columbia.

MONTEREY, p. o., McNairy county, *Tenn.*: 118 m. S. W. Nashville.

MONTEREY, p. o., Butler co., *Ala.*: about 3 m. S. of Cedar cr., 46 m. S. W. Montgomery.

MONTEREY, p. o., Owen co., *Ky.*: 21 m. N. Frankfort.

MONTEREY, p. v., Calhoun co., *Ill.*: on the right bank of Illinois r., opposite the mouth of Otter cr., 68 m. S. W. Springfield.

MONTEREY, p. o., Waukesha co., *Wisc.*: 54 m. E. by S. Madison.

MONTEREY, p. v., and cap. Monterey co., *Calif.*: on the S. side of Monterey Bay, in lat. $36^{\circ} 36' 24''$ N., and long. $121^{\circ} 52' 25''$ W., 101 m. S. by E. Vallejo. This was one of the largest and most frequented towns of California Alta before the cession of 1848, and was originally the site of a Catholic Mission founded more than a century ago. The harbor is unequalled for safety and access, and is capacious enough to contain the navies of the whole world together. Behind it the coast range of mountains rises to a majestic height. The v. is built on a wide, gently-sloping terrace, not far distant from the shore, and only about $\frac{3}{4}$ m. inland from the W. point of Punto Pinos. The vicinity is full of splendid scenery, and has a climate beautiful as the oft-sung clime of Italy. Not being directly interested in the mining regions, this place has been neglected, but there is no doubt of its eventually becoming an important point in the navigation of the Pacific Ocean. It was constituted a port of entry by the act of Congress, 28th September, 1850, and the collection district of the same name includes the counties Monterey, San Luis Obispo, and Santa Cruz. Pop. of v. about 1,600.

MONTEVALLO, p. o., Shelby co., *Ala.*: 53 m. N. W. by N. Montgomery.

MONTEVIDEO, p. o., Elbert co., *Ga.*: about 4 m. W. of Savannah r., 92 m. N. N. E. Milledgeville.

MONTEZUMA, sta., Macon co., *Ga.*: 2 m. N. of Oglethorpe, on the South-western R. R.

MONTEZUMA, p. v., Pike co., *Ill.*: on the right bank of Illinois r., 53 m. W. S. W. Springfield.

MONTEZUMA, p. o., Greene county, *Wisc.*: 28 m. S. by W. Madison.

MONTEZUMA, p. v., Parke co., *Ind.*: on the left bank of Wabash r., 61 m. W. Indianapolis. It contains several stores and warehouses, and has a large trade in the staples of a rich district, brought to it on plank-roads from the E. and W., and shipped by the Wabash and Erie Canal.

MONTEZUMA, p. v., Cayuga co., *N. Y.*: at the junction of the Cayuga and Seneca Canal with the Erie Canal, 158 m. W. by N. Albany. Here are several salt springs, from which is manufactured salt of the best and purest quality. It is 34 m. by canal E. of Syracuse, and contains several stores and large warehouses, and a population of 800.

MONTEZUMA, p. o., Union co., *Ky.*: 172 m. W. by S. Frankfort.

MONTEZUMA, p. v., Mercer co., *Ohio*: 89 m. W. by N. Columbus.

MONTEZUMA, p. v., and cap. Poweshiek co., *Ia.*: 64 m. W. Iowa City. It is near Fisher's cr. of English r., and contains the co. buildings and several stores.

MONTGOMERY county, *Ala.* Situate S. E. centrally, and contains 941 sq. m. Bounded N. W. by the Coosa, and drained by the Tallapoosa and Oakfusskee, Coloma, and Pintala creeks. Surface moderately uneven: soil exceedingly fertile. Cotton and corn are the almost exclusive agricultural products. The amount of cotton raised is surpassed by few counties in the State or Union, and the quality excelled by none. Corn is also a very large crop, and in parts some wheat is grown, and on the rivers a little rice. It lies favorably for transportation of its products by water,

and commands the trade of several adjacent counties. Farms 962; manuf. 6; dwell. 1,881, and pop.—wh. 10,172, fr. col. 112, sl. 19,511—total 29,795. *Capital*: Montgomery. *Public Works*: Montgomery and West Point R. R.; Montgomery and Mobile R. R.

MONTGOMERY county, *Ark.* Situate W. centrally, and contains 1,073 sq. m. Drained by Washita r. and Fourche Caddo and their branches. Surface varied, with hilly portions in the N. and level tracks in the S.; soil mostly productive, and well adapted to grazing. Corn and live-stock are the staples. It has some coal and fine sulphur springs. Farms 215; manuf. 6; dwell. 819, and pop.—wh. 1,891, fr. col. 1, sl. 66—total 1,958. *Capital*: Mount Ida.

MONTGOMERY county, *Ga.* Situate S. E. centrally, and contains 1,106 sq. m. Drained by Ocmulgee, Little Ocmulgee, Oconee, Pendleton's, and Great Ochopee rivers. Surface generally even, and covered with a growth of pine; soil sandy and of moderate fertility, except on some of the streams, where rich swamps abound. Corn and cotton are raised in small quantities, and a little sugar and rice. Lumber and tar, pitch and turpentine are small exports. Farms 168; manuf. 0; dwell. 236, and pop.—wh. 1,541, fr. col. 0, sl. 613—total 2,154. *Capital*: Mount Vernon. *Public Works*: Savannah and Albany R. R.

MONTGOMERY county, *Ill.* Situate S. W. centrally, and contains 720 sq. m. Drained by Macoupin, Shoal, and Beaver creeks. Surface high and undulating; soil very fertile. Corn and wheat are the staple cereals. Live-stock, beef, and pork are the principal exports. It has some fine mill-seats and growing manufactures. Farms 511; manuf. 17; dwell. 1,051, and pop.—wh. 6,258, fr. col. 18—total 6,276. *Capital*: Hillsboro'. *Public Works*: Terre Haute and Alton R. R.

MONTGOMERY county, *Ind.* Situate W. middle, and contains 504 sq. m. Drained by Sugar, Big, and Little Raceoon creeks, and other tributaries of Wabash r. Surface various, in the centre rolling, S. level, and near the creeks somewhat hilly; soil everywhere rich. Most of the county was originally heavily timbered. Corn is the great staple, and wheat a very fine crop. Live-stock, beef, wool, and pork are exported, the last very largely. It has excellent water-power, and extensive manufactures of flour, woollens, leather, oil, lumber, and earthen and iron ware. Farm 1,880; manuf. 87; dwell. 2,971, and pop.—wh. 17,955, fr. col. 129—total 18,084. *Capital*: Crawfordsville. *Public Works*: New Albany and Salem R. R.; Lafayette and Crawfordsville R. R.

MONTGOMERY county, *Ia.* Situate S. W., and contains 492 sq. m. Drained W. by Nishnabotona r., and E. by Nodaway r., branches of the Missouri. Erected since 1850.

MONTGOMERY county, *Ky.* Situate N. E. centrally, and contains 544 sq. m. Drained by Red r., of the Kentucky and Slate cr. of the Licking. Surface diversified, and soil excellent for grain and grass. Corn is the staple, and the produce very large; wheat and rye are also fine crops. Horses, cattle, wool, and pork are important exports, the last especially. It has abundant water-power and growing manufactures. Iron ore is found. Farms 856; manuf. 32; dwell. 1,103, and pop.—wh. 6,671, fr. col. 159, sl. 3,073—total 9,903. *Capital*: Mount Sterling.

MONTGOMERY county, *Mo.* Situate W. middle, and contains 440 sq. m. Bounded N. E. by Patuxent r., S. W. by the Potomac, and drained mostly by affluents of the Potomac, which afford excellent mill-sites. Surface diversified, with many hills in the N. parts; soils various, some thin and sterile, and some very rich, and productive of wheat, corn, and tobacco, the leading products. It has manufactories of woolen and cotton goods, flour, leather, lumber, and machinery, flour being the heaviest article. A variety of iron ore, used in making pigments, and gold, found in small quantities, are the chief minerals. Farms 1,051; manuf. 71; dwell. 1,923, and pop.—wh. 9,485, fr. col. 1,811, sl. 5,114—total 15,860. *Capital*: Rockville. *Public Works*: Chesapeake and Ohio Canal.

MONTGOMERY county, Mo. Situate E. middle, and contains 594 sq. m. Drained by Oak cr. and Au Cuivre r., of the Mississippi and Loutre r., a branch of the Missouri, which forms its S. boundary. Surface moderately uneven; soil generally fertile, on the large streams very rich. Corn and tobacco are the chief crops. Much of the county is adapted to grazing, and the rearing of cattle. Mill streams are numerous, timber abundant, and markets convenient. Farms 607; manuf. 16; dwell. 754, and pop.—wh. 4,449, fr. col. S, sl. 1,087—total 5,489. *Capital*: Danville.

MONTGOMERY county, N. Y. Situate E. centrally, and contains 856 sq. m. Drained by Mohawk r. and its branches, the principal of which is the Schoharie. Surface hilly and somewhat mountainous, with alluvial plains on the Mohawk and some of its branches; soil a gravelly or clayey loam, and generally very productive of grass and all the grains. The dairy is a great object of attention, and potatoes and all the grains yield fine crops. Butter, cheese, and wool are exported, the last largely. Mill-sites are abundant, and occupied by numerous manufactories of flour, woolen goods, distilled liquors, and leather. There are in the county several valuable limestone quarries. Farms 1,883; manuf. 267; dwell. 5,353, and pop.—wh. 81,579, fr. col. 413—total 81,992. *Capital*: Fonda. *Public Works*: Erie Canal; Utica and Schenectady R. R.

MONTGOMERY county, N. Car. Situate S. in W. part, and contains 438 sq. m. Bounded W. by the Yadkin, and drained by its branches, Little r., Utiarie r., etc. Surface rough and mountainous, with beautiful valleys; soil mostly fertile. Cotton is the staple; corn and wheat are heavy crops, and in parts tobacco flourishes. It has much good pasture land, and superior horses and dairies. Water-power is plenty, and cotton goods, flour, leather, and distilled liquors are extensively made. Farms 541; manuf. 14; dwell. 902, and pop.—wh. 5,055, fr. col. 44, sl. 1,773—total 6,872. *Capital*: Troy.

MONTGOMERY county, Ohio. Situate S. W., and contains 468 sq. m. Drained by Miami and Mad rivers and their branches. Surface gently undulating. Soil of great fertility, equally adapted to grass and grain. Corn and wheat are the leading crops; rye, oats, and potatoes but little inferior. Very large amounts of pork are exported, the clippings of wool are heavy, and the produce of the dairies very valuable. It has great facilities for manufacturing in an abundance of superior water-power, and easy communication with markets in every direction. The principal articles made are flour, cotton and woolen goods, iron castings, and machinery, paper, and earthen-ware. Farms 2,068; manuf. 224; dwell. 6,527, and pop.—wh. 87,973, fr. col. 246—total 88,219. *Capital*: Dayton. *Public Works*: Miami Canal; Mad River and Lake Erie R. R.; Cincinnati, Hamilton, and Dayton R. R.; Little Miami R. R.; Dayton and Western R. R.; Greenville and Miami R. R.; Dayton and Michigan R. R.; Dayton and Xenia R. R., etc.

MONTGOMERY county, Penn. Situate S. E., and contains 508 sq. m. Drained by the Schuylkill, which runs on its S. W. border, and its branches, which furnish excellent water-power in abundance. Surface moderately uneven; soil very fertile, especially on the Schuylkill. Corn, wheat, rye, oats, and potatoes are all very large crops. The dairies are large, and the land under very high cultivation, but the leading interest is manufactures. The S. E. consist largely of iron works, the native ore being abundant, flouring-mills, tanneries, lumber, paper, and powder mills, and woolen factories, besides machine shops, and almost every branch of mechanism. Farms 4,456; manuf. 697; dwell. 10,022, and pop.—wh. 57,442, fr. col. 849—total 58,291. *Capital*: Norristown. *Public Works*: Philadelphia and Reading R. R.; Norristown Branch R. R.

MONTGOMERY county, Tenn. Situate W. on N. line, and contains 438 sq. m. Intersected by Cumberland r., and drained by its branches, Red r., Barren and Montgomery forks, and Yellow cr. Surface varied; soil very fertile.

Corn and tobacco are the chief crops, the produce of the latter being very large; wheat and oats yield well. Large numbers of cattle are raised, and pork is a heavy export. Though a superior farming county, manufactures are flourishing and rapidly advancing, particularly of iron, for which it furnishes excellent ore. Farms 1,227; manuf. 59; dwell. 2,086, and pop. wh.—11,900, fr. col. 74, sl. 9,071—total 21,045. *Capital*: Clarksville. *Public Works*: Nashville and Henderson R. R.

MONTGOMERY county, Tex. Situate S. E., and contains 1,182 sq. m. Drained by San Jacinto r. and its numerous branches, the largest being Peach, Caney, Spring, and Mill creeks. Surface undulating and nearly level. The streams are skirted with timber, the rest is mostly prairie; soil in the bottoms a deep black mold of very great fertility, and the prairies are excellent pastures. Corn, cotton, and potatoes produce great crops; most of the grains do well. Sugar can easily be grown when the land is cleared, and cattle and sheep raised in immense numbers. Pine predominates in the San Jacinto bottom, and in the W. excellent building timber is abundant. Ledges of "rotten-stone" and clay beds are found plentifully in the S. and sulphur and salt springs and iron ore are also found. Farms 180; manuf. 8; dwell. 260, and pop.—wh. 1,439, fr. col. 0, sl. 945—total 2,384. *Capital*: Montgomery.

MONTGOMERY county, Virg. Situate S. W., and contains 435 sq. m. Bounded S. W. by New r. and Brush cr. and drained by heads of Roanoke r., which rises in this county. Surface rough and mountainous, with beautiful and fertile valleys; soil mostly good, and in parts very productive. Wheat and corn are large crops, and tobacco grows finely in the bottoms. It has excellent pastures, and, lying between the Blue Ridge and spurs of the Alleghany Mountains, many small mill streams. Farms 546; manuf. 0; dwell. 1,121, and pop.—wh. 6,322, fr. col. 66, sl. 1,471—total 8,359. *Capital*: Christiansburg. *Public Works*: Virginia and Tennessee R. R.; and branch toward the Ohio r., etc.

MONTGOMERY, p. city, and cap. Montgomery co., Ala., and capital of the State: on the left bank of the Alabama r., and at the head of steamboat navigation thereof, in lat. 32° 22' N., and long. 86° 26' W., 118 m. S. E. by E. Tuscaloosa, the old capital, which it succeeded in 1847. The city is built on a high bluff, and contains the capitol and other State buildings, and the usual county offices, also churches of the principal denominations, and is the location of the U. S. land office of the Montgomery land district. The surrounding country is one of the most productive cotton regions of the State, and from this point that staple is shipped down the river to Mobile, or carried east to the Chattahoochee by the Montgomery and West Point R. R., 88 m. to West Point, and shipped to Appalachicola, in Florida. When the La Grange R. R. is finished there will be a continuous railroad route from Montgomery to Savannah, 467 miles, and to Charleston, 433 miles. A railroad is also projected from Montgomery *via* Greenville to Mobile. The newspapers published here are, the "State Gazette" (dem.), daily and weekly; the "Atlas" (dem.), and the "Alabama Journal" (whig), both daily, tri-weekly, and weekly; and the "Alabama State Register" (whig), tri-weekly and weekly. It is one of the most progressive cities of the South-west; it was laid out in 1817—in 1840 had 2,170 inhabitants, and in 1850, 4,957.

MONTGOMERY, t. and p. o., Hampden co., Mass.: 94 m. W. by S. Boston. Drained by branches of Westfield r., its S. W. boundary, along which the Western R. R. passes. Surface hilly and broken; soil adapted to grazing. It has much timber, and produces live-stock, butter, cheese, and wool. Pop. 883.

MONTGOMERY, t. and p. v., Orange co., N. Y.: 81 m. S. by W. Albany. Drained by the Walkill and its branches, which supply it with numerous mill-sites. Surface hilly; soil clayey and gravelly loam, very productive of grass and grain, and under high cultivation. The meadows abound

in bones of the *mastodon*, and the most complete specimen ever discovered was found in the E. part in 1845. Manufactures of various kinds are largely prosecuted, particularly in the v., which is on the E. bank of the Walkill, and contains an academy, a dozen stores, and a foundry, several mills, and 1,000 inhabitants. Pop. of t. 8,938.

MONTGOMERY, p. v., Hamilton co., *Ohio*: 86 m. S. W. by W. Columbus.

MONTGOMERY, p. o., Sumner co., *Tenn.*: 18 m. N. N. E. Nashville.

MONTGOMERY, p. v., and cap. Montgomery county, *Tenn.*: about equidistant from Lake cr. and San Jacinto r., 121 m. E. Austin City. It lies in a district heavily timbered with the best of building material, and contains the county buildings and several stores.

MONTGOMERY, t. and p. o., Franklin co., *Verm.*: 45 m. N. Montpelier. Drained by Trout r., a branch of Missisquoi r., which furnishes superior water-power. Surface rough, except on the river, where is a fertile interval. It is well wooded and has good pastures. Pop. 1,006.

MONTGOMERY, p. o., Jennings co., *Ind.*: 65 m. S. S. E. Indianapolis.

MONTGOMERY CENTRE, p. v., Franklin county, *Verm.*: on Trout r., 46 m. N. Montpelier.

MONTGOMERY CROSS ROADS, p. v., Woods co., *Ohio*: on an E. branch of Cortage r., 94 m. N. N. W. Columbus.

MONTGOMERY'S FERRY, p. o., Perry co., *Penn.*: on the right bank of Susquehanna r., 14 m. N. W. Harrisburg.

MONTGOMERYVILLE, p. v., Montgomery co., *Penn.*: 73 m. E. Harrisburg.

MONTHALIA, p. o., Panola county, *Miss.*: 147 m. N. Jackson.

MONTICELLO, p. v., and cap. Jefferson co., *Flor.*: 25 m. E. by N. Tallahassee. It lies on elevated ground, about 4 m. E. of Mickosukie lake, surrounded by rich cotton plantations, and contains a court-house and jail, an academy, and 329 inhabitants.

MONTICELLO, p. v., and cap. Jasper county, *Ga.*: 31 m. W. N. W. Milledgeville. It contains a court-house, jail, academy, about 20 stores, and a population of 600.

MONTICELLO, p. v., and cap. Drew co., *Ark.*: 73 m. S. S. E. Little Rock. It contains a court-house and a few stores.

MONTICELLO, p. v., and cap. Platt co., *Ill.*: about 2 m. E. of the N. fork of Sangamon r., 59 m. E. by N. Springfield. It contains a court-house, jail, and several stores.

MONTICELLO, p. v., and cap. White co., *Ind.*: on the right bank of Tippecanoe r., 72 m. N. N. W. Indianapolis. It lies on a high bank on the edge of the Grand Prairie, and has a valuable trade and superior facilities for manufacturing. The river may be made to yield a great power, and already moves large flouring-mills. The v. contains a court-house and jail, an academy, and several stores. The "Prairie Chieftain" is published weekly.

MONTICELLO, p. v., and cap. Wayne co., *Ky.*: about 8 m. S. of Cumberland r., 92 m. S. Frankfort. It contains a court-house, jail, and a population of 300.

MONTICELLO, t. and p. o., Aroostook county, *Me.*: 169 m. N. E. by N. Augusta. Drained by Meduxnekeag r., a branch of St. John's r. It is densely covered with timber, the preparing of which for market forms the chief business. Population 227.

MONTICELLO, p. o., Pike county, *Ala.*: 47 miles S. E. Montgomery.

MONTICELLO, p. o., Jones county, *Ia.*: 49 m. N. N. E. Iowa City.

MONTICELLO, p. v., and cap. Lawrence co., *Miss.*: on the right bank of Pearl river, 51 m. S. by E. Jackson. It has a favorable location for trade, and is the shipping point for a large cotton region, and contains a court-house, jail, academy, several warehouses and stores, and 500 inhabitants. The "Southern Journal" (dem.) is published weekly.

MONTICELLO, p. v., and cap. Lewis co., *Mo.*: on North Fabius river, 107 m. N. by E. Jefferson City. It contains

a court-house, academy, several stores, and a population of 450.

MONTICELLO, p. v., and cap. Sullivan co., *N. Y.*: 86 m. S. W. by S. Albany. It has an elevated position near a branch of Mongaup creek, and contains a court-house and jail, the clerk's office, 2 banks, a dozen stores, and 800 inhabitants. Two weekly papers are published, the "Republican Watchman" (dem.), and the "Sullivan County Whig."

MONTICELLO, p. o., Guilford co., *N. Car.*: 65 m. W. N. W. Raleigh.

MONTICELLO, p. v., Fairfield dist., *S. Car.*: about 3 m. E. of Broad river, 23 m. N. W. Columbia. It contains an academy, several stores, and 350 inhabitants, and was for a time the capital of the county.

MONTICELLO, p. o., Greene co., *Wisc.*: 29 m. S. S. W. Madison.

MONTICELLO, p. v., and cap. Lewis co., *Oreg. Ter.*: 142 m. N. Salem. On the 25th Nov., 1852, a convention of the citizens of Northern Oregon was held at this place, and a memorial to Congress agreed upon, asking for the division of the present territory, and the erection of a new territory from all that portion N. of the Columbia and E. to the Rocky Mountains. This section was erected into the "Territory of Washington" in March, 1853.

MONTICELLO, p. o., Carroll parish, *La.*: 149 miles N. Baton Rouge.

MONTMORENCI county, *Mich.* Situate N. E. on Lower Peninsula, and contains 576 sq. m. Drained by Thunder Bay r. and its branches flowing into Lake Huron. Erected since 1850.

MONTONGA, p. o., Drew county, *Ark.*: 72 m. S. S. E. Little Rock.

MONTOUR county, *Penn.* Situate E. centrally, and contains 206 sq. m. Drained by Roaring and Potts creeks, affluents of E. branch of the Susquehanna, which intersects the county and furnishes abundance of water-power. Surface broken; soil of superior fertility, adapted to grass or grain. Wheat, rye, corn, oats, and potatoes afford large crops, and the pastures feed fine dairies and great numbers of sheep. Live-stock, butter, cheese, and wool are the exports. Iron ore abounds, and the manufacture of iron employs a large capital. Flour, leather, woolens, and distilled liquors are largely made. Farms 785; manuf. 89; dwell. 2,239, and pop.—wh. 13,155, fr. col. 84—total 13,239. *Capital*: Danville. *Public Works*: North Branch Canal; Extension of Pennsylvania Coal Company's R. R. to Northumberland, etc.

MONTOUR'S, p. o., Alleghany co., *Penn.*: 154 m. W. by N. Harrisburg.

MONTPELIER, p. o., Marengo county, *Ala.*: 76 m. W. Montgomery.

MONTPELIER, p. o., Monroe county, *Ga.*: 47 m. W. by N. Milledgeville.

MONTPELIER, p. v., Blackford co., *Ind.*: on the S. side of Salamonie r., 63 m. N. E. by N. Indianapolis.

MONTPELIER, p. o., Williams co., *Ohio*: 137 m. N. W. by N. Columbus.

MONTPELIER, p. o., Adair county, *Ky.*: 83 m. S. by W. Frankfort.

MONTPELIER, p. o., Richmond co., *N. Car.*: about 4 m. W. of Lumber r., 65 m. S. S. W. Raleigh.

MONTPELIER, t., p. v., and cap. Washington co., *Verm.*, and capital of the State: on Winooski r., in lat. 44° 17' N., and long. 72° 36' W., 524 m. N. N. E. Washington. Drained by tributaries of the Winooski, which afford fine water-power and numerous mill-seats. Surface uneven and hilly; soil various—on the hills furnishing fine pastures. The v. is the centre of a large commerce and of roads diverging in every direction. The Vermont Central R. R. touches Montpelier, 77 m. from Windsor, and 40 m. from Burlington. The public buildings are the State House, court-house, jail, etc. The State House is an elegant granite structure, 150 feet long—the centre, including portico, 100 feet deep, and the wings 72 feet deep; the centre front has a fine Doric

portico of 6 columns, each 6 feet diameter and 36 feet high, and the whole edifice is surmounted by a dome 100 feet from the ground. In the interior are convenient State offices and spacious and elegant rooms for the Senate and Representatives. Montpelier became capital in 1805. It has several workshops and factories, a bank, and numerous wholesale and retail stores; and five newspapers, the "Vermont Patriot" (dem.), the "Verm. Watchman" (whig), the "Green Mountain Freeman" (free soil), the "Christian Repository," and the "Christian Messenger"—all weekly publications. Pop. in 1830, 1,792; in 1840, 3,725; and in 1850, 2,810. The t. of East Montpelier was taken from the original t. in 1848, and in 1850 contained 1,447 inhabitants.

MONTPELIER, p. o., Hanover co., *Virg.*: 21 m. N. N. W. Richmond.

MONTRA, p. o., Shelby county, *Ohio*: 68 m. W. N. W. Columbus.

MONTREAL river, *Mich. and Wisc.*: rises in several lakes in *Wisc.*, and flows N. W. into Lake Superior, forming the boundary between the two States.

MONTROSE, p. v., Lee co., *Ia.*: on the Mississippi, 12 m. above the mouth of the Des Moines, 92 m. S. Iowa City. It is opposite Nauvoo, and was first settled by Spaniards in 1799.

MONTROSE, p. o., Jasper county, *Miss.*: 63 m. E. S. E. Jackson.

MONTROSE, p. b., and cap. Susquehanna co., *Penn.*: 115 m. N. by E. Harrisburg. It occupies an elevated position, and is compactly built, containing a court-house and jail, an academy, 20 stores, several manufactories, and 916 inhabitants. Two weekly papers, the "S. Register" (whig), and the "M. Democrat," are published. The Lackawanna and Western R. R. passes a few miles E., and Montrose sta. is 13 m. S. of Great Bend, on the Erie R. R.

MONTROSE, p. o., Smith county, *Tenn.*: 44 m. E. N. E. Nashville.

MONTROSE, p. o., Summit co., *Ohio*: 118 m. N. E. by N. Columbus.

MONTROSE, p. o., Westmoreland co., *Virg.*: 49 m. N. E. Richmond.

MONTROSE DEPÔT, p. o. and sta., Susquehanna co., *Penn.*: on the Lackawanna and Western R. R., 13 m. S. of Great Bend, 118 m. N. N. E. Harrisburg.

MONTRESVILLE, p. v., Lyscom co., *Penn.*: on the left bank of the W. branch of Susquehanna r., 66 m. N. by W. Harrisburg. It is on the W. branch of Pennsylvania Canal, 6 m. E. Williamsport.

MONTVALE SPRINGS, p. o., Blount co., *Tenn.*: 163 m. E. by S. Nashville.

MONTVILLE, t. and p. o., Waldo co., *Me.*: 24 m. E. by N. Augusta. Drained by heads of Sheepscot and St. George's rivers. Surface varied, and soil fertile, and adapted to grain. A superior farming t. Pop. 1,878.

MONTVILLE, sta., New London co., *Conn.*: on the right bank of the Thames, 6 m. N. of New London, on the New London, Willimantic, and Palmer R. R.

MONTVILLE, t. and p. o., Geauga co., *Ohio*: 148 m. N. E. Columbus. Drained by a branch of Grand r., and the head of Cuyahoga r., which rises in it. Surface somewhat uneven, and soil very fertile. Pop. 702.

MONTVILLE, p. v., Morris co., *N. Jer.*: on a N. branch of Rockaway r., 51 m. N. N. E. Trenton. It lies in a deep valley on the Morris Canal, 40 m. from Jersey City, and contains several stores and mills.

MONUMENT, p. o., Pike county, *Ill.*: 89 m. W. by S. Springfield.

MONUMENT, p. o. and sta., Barnstable co., *Mass.*: on the Cape Cod Branch R. R., 21 m. S. E. Middleboro', 49 m. S. S. E. Boston.

MONUMENT ISLAND, p. o., Delaware co., *N. Y.*: on Delaware r., 94 m. W. S. W. Albany.

MOODUS, p. o., Middlesex co., *Conn.*: on an E. branch of the Connecticut, 23 m. S. E. by S. Hartford.

MOODY'S MILLS, p. o., Morgan co., *Ohio*: 68 m. E. S. E. Columbus.

MOORE'S, t. and p. v., Clinton co., *N. Y.*: on the Canada line, 118 m. N. Albany. Drained by Chazy r. of Lake Champlain, and English r., an affluent of the St. Lawrence. Surface hilly, and heavily timbered; soil various, principally adapted to grazing, which is the leading interest. The v., 2 m. S. of the Canada line, on the N. side of Chazy r., is extensively engaged in manufactures. It is 20 m. N. of Plattsburg, on the Plattsburg and Montreal R. R., which 1 m. N. of the v. intersects the Northern (Ogdensburg) R. R., 12 m. W. of Rouse's Point. Pop. of t. 3,365.

MOON, t. and p. o., Alleghany co., *Penn.*: on the left bank of the Ohio, 173 m. W. by N. Harrisburg. Drained by affluents of the Ohio, which furnish water-power. Surface hilly; soil loam, and for the most part very fertile. It contains several flouring-mills and small manufactories, but farming is the chief pursuit.

MOONEX, p. o., Phillips co., *Ark.*: 87 m. E. by S. Little Rock.

MOONEX, p. o., Jackson co., *Ind.*: about 2 m. S. of Salt cr., 53 m. S. Indianapolis.

MOON'S, p. o., Fayette co., *Ohio*: on Rattlesnake cr., 44 m. S. W. by S. Columbus.

MOON'S, sta., Cobb co., *Ga.*: on the Western and Atlantic R. R., 30 m. N. of Atlanta.

MOORE county, *N. Car.* Situate centrally, and contains 864 sq. m. Drained S. by Lumber r., N. by Deep r., and many other branches of Cape Fear r. Surface diversified, and generally somewhat uneven; soil of average fertility, with superior land on the larger rivers. Cotton and corn are the leading crops; wheat, oats, and potatoes, and some tobacco are cultivated; but none of its products are very large. Farms 713; manuf. 4; dwell. 1,286, and pop.—wh. 7,197, fr. col. 169, sl. 1,976—total 9,342. Capital: Carthage.

MOOREFIELD, p. v., Switzerland co., *Ind.*: 81 m. S. E. by S. Indianapolis.

MOOREFIELD, p. o., Nicholas county, *Ky.*: 45 m. E. by N. Frankfort.

MOOREFIELD, t. and p. v., Harrison co., *Ohio*: 94 m. E. by N. Columbus. Drained by branches of Tuscarawas r. Surface slightly uneven, and soil mostly very fertile. The v. contains 44 inhabitants. Pop. of t. 1,066.

MOOREFIELD, p. v., and cap. Hardy co., *Virg.*: on the E. side of the S. fork of Potomac r., 131 m. N. W. by N. Richmond. It has growing manufactures, favored by the extensive water-power of two branches of the r. uniting here, and contains a court-house, jail, academy, several mills, and 500 inhabitants.

MOORE'S, p. o., Bowie co., *Tex.*: 306 m. N. E. Austin City.

MOORESBOROUGH, p. o., Cleveland co., *N. Car.*: on Sandy Run of Broad r., 169 m. W. by S. Raleigh.

MOORESBURG, p. v., Pulaski co., *Ind.*: on an E. branch of Tippecanoe r., 85 m. W. by N. Indianapolis.

MOORESBURG, p. v., Montour co., *Penn.*: about 3 m. N. of Susquehanna r. and the Pennsylvania Canal, 49 m. N. by E. Harrisburg. A charcoal furnace of 1,400 tons capacity is located here.

MOORESBURG, p. o., Hawkins co., *Tenn.*: 205 m. E. by N. Nashville.

MOORE'S CREEK, p. o., New Hanover co., *N. Car.*: on a branch of Cape Fear r., 91 m. S. by E. Raleigh.

MOORE'S CROSS ROADS, p. o., Hardeman county, *Tenn.*: 169 m. S. W. by W. Nashville. It is near the S. line of the State, and on the line of the Memphis and Charleston R. R. MOORE'S FORK, p. o., Clinton county, *N. Y.*: 114 m. N. Albany.

MOORE'S HILL, p. v., Dearborn county, *Ind.*: 71 m. S. E. by E. Indianapolis.

MOORE'S MILLS, p. o., Jackson county, *Virg.*: 287 m. W. N. W. Richmond.

MOORE'S ORDINARY, p. o., Prince Edward county, *Virg.*: 61 m. W. S. W. Richmond.

MOORE'S PRAIRIE, p. o., Jefferson co., *Ill.*: 126 m. S. S. E. Springfield.

MOORE'S REST, p. o., Anderson co., *Tex.*: 148 m. N. E. Austin City.

MOORE'S SALT-WORKS, p. v., Jefferson county, *Ohio*: on Yellow cr., 116 m. E. N. E. Columbus.

MOORE'S STORE, p. o., Shenandoah co., *Virg.*: 107 m. N. W. by N. Richmond.

MOORE'S STORE, p. o., Caswell co., *N. Car.*: 68 m. N. W. Raleigh.

MOORESTOWN, p. v., Burlington co., *N. Jer.*: 5 m. E. of Delaware r., 20 m. S. S. W. Trenton.

MOORESVILLE, p. v., Limestone co., *Ala.*: between Shoal and Limestone creeks, about 5 m. N. of the Tennessee, 153 m. N. by W. Montgomery. It has an academy, and in the vicinity are fine water privileges and several cotton-mills.

MOORESVILLE, p. v., Morgan co., *Ind.*: on the E. side of White Lick cr., 16 m. S. W. Indianapolis.

MOORESVILLE, p. o., Orange co., *N. Car.*: 54 m. N. W. Raleigh.

MOORESVILLE, p. o., Union par., *La.*: 167 m. N. N. W. Baton Rouge.

MOORESVILLE, p. v., Marshall co., *Tenn.*: 47 m. S. by W. Nashville.

MOORE'S VINEYARD, p. o., Bartholomew co., *Ind.*: 46 m. S. S. E. Indianapolis.

MOORHEADVILLE, p. v., Erie county, *Penn.*: 206 miles N. W. by W. Harrisburg.

MOORLAND, p. v., Wayne county, *Ohio*: 85 m. N. E. Columbus.

MOORVILLE, p. o., Itawamba co., *Miss.*: 165 m. N. E. Jackson.

MOOSEHELOC, Grafton co., *N. Hamp.*: lies in the E. part of Benton, and consists of two peaks, the N. 4,556, and the S. 4,686 feet above the ocean level. The summits are bare masses of granite, on which the snow lies the year round.

MOOSE river, *N. Y.*: has its source in Hamilton co. in several large lakes, and flows W. across Herkimer into Lewis co., where it empties into Black r., above the High Falls.

MOOSE river, *Me.*: rises in the highlands, on the W. line of the State, and flows E. through several lakes into Moosehead lake, being its largest affluent.

MOOSEHEAD lake, *Me.*: lies between Somerset and Penobscot counties, and is the principal source of Kennebec r. It contains several large islands, and is about 35 m. long, varying in width from 4 to 12 miles.

MOOSE MEADOW, p. o., Tolland co., *Conn.*

MOOSE RIVER, p. o., Somerset co., *Me.*: 95 m. N. by W. Augusta.

MOOSOP, p. o., Windham co., *Conn.*: on an E. branch of the Quinnebaug, 41 m. E. by S. Hartford.

MOQUELUMNE, v., Calaveras co., *Calif.*: about 2 m. W. of the N. fork of the r. so called, 104 m. E. by N. Vallejo.

MOQUELUMNE river, *Calif.*: a tributary of Joaquin r. from the Sierra Nevada. It flows through a rich gold region.

MOQUELUMNE HILL, v., Calaveras co., *Calif.*: on the S. side of the S. fork of Moquelumne r., 106 m. E. by N. Vallejo.

MORALES DE LAVACA, p. o., Jackson co., *Tex.*: 106 m. S. S. E. Austin City.

MORAVIA, t. and p. v., Cayuga co., *N. Y.*: 189 m. W. Albany. Drained by Owasco inlet, which affords fine mill-sites, and flows into Owasco lake in the N. W. corner. A broad and fertile valley borders the inlet, back of which the surface is hilly and the soil indifferent. The v. is on the inlet, and contains several factories and the Moravian Institute. Pop. of t. 1,876.

MOREAU, t. and p. o., Saratoga county, *N. Y.*: 88 m. N. Albany. Bounded N. and E. by the Hudson, on which, in the N. E. corner, are Glen's and Baker's falls, which supply immense water-power. Surface mostly even, with hills in the E.; soil sandy and clayey loam, generally fertile. Black marble of superior beauty is plentiful on the Hudson, which

is spanned by a bridge above the falls. The Saratoga and Washington R. R. passes through it. Pop. 1,834.

MOREAU STATION, p. o. and sta., Saratoga co., *N. Y.*: 40 m. N. Albany, on the Saratoga and Washington R. R., 16 m. N. of Saratoga.

MOREFIELD, p. o., Greene county, *Wisc.*: 27 m. S. S. W. Madison.

MOREHAUSE parish, *La.* Situate N. E., and contains 845 sq. m. Drained by Washita and Au Bœuf rivers and bayou Bartholomew—the first forming its W. and the last its E. boundary. Surface undulating, and in parts swampy, with a fine growth of timber; soil fertile, on the margins of the streams especially so, and productive of large crops of cotton and corn, the staples of the county. It has good pasture land, and raises many cattle and fattens pork largely. Farms 260; manuf. 4; dwell. 872, and pop.—wh. 1,877, fr. col. 80, sl. 2,006—total 3,913. *Capital*: Bastrop. *Public Works*: Louisiana and Texas R. R.

MOREHAUSEVILLE, p. v., and cap. Hamilton co., *N. Y.*: 78 m. N. W. Albany. A small v., surrounded by fine pasture lands and forests of excellent timber, containing a court-house and 150 inhabitants.

MORELAND, p. o., Bourbon county, *Ky.*: 80 m. E. by S. Frankfort.

MORELAND, p. o., Fauquier co., *Virg.*: 71 m. N. by W. Richmond.

MORELAND, p. o., Chemung co., *N. Y.*: 103 m. W. by S. Albany.

MORELAND, t. and p. o., Lycoming co., *Penn.*: 63 m. N. Harrisburg. Drained by Little Muncy cr. It has a hilly surface, a gravelly soil, and abundance of white pine timber, which affords material for numerous saw-mills.

MOREMAN'S RIVER, p. o., Albemarle co., *Virg.*: 62 m. W. N. W. Richmond.

MORENO, p. o., Lenawee county, *Mich.*: 42 m. S. S. E. Lansing.

MORESVILLE, p. v., Delaware co., *N. Y.*: 45 m. W. S. W. Albany.

MORRTOWN, t. and p. v., Washington co., *Verm.*: 8 m. W. Montpelier. Drained by Mad r., a branch of Onion r., which furnishes good water-power. The Vermont Central R. R. passes along Onion r., the N. boundary of the t. Surface mountainous and in many parts unfillable. The v. is on Mad r., and contains several mills and stores. Population of t. 1,835.

MORETZ MILL, p. o., Ashe co., *N. Car.*: 161 m. W. by N. Raleigh.

MORGAN county, *Ala.* Situate N. middle, and contains 714 sq. m. Bounded N. by the Tennessee, and drained by its affluents. Surface varied, in the S. broken and uneven; soil in the N. very fertile, producing very heavy cotton crops, which constitute the staple, and large corn crops; in the S. better adapted to grain and grass, yielding good returns of wheat and oats, and rearing large numbers of neat cattle and swine, and exporting beef and pork in large quantities. It has some mill streams and growing manufactures of cotton goods. Farms 684; manuf. 18; dwell. 1,108, and pop.—wh. 6,693, fr. col. 50, sl. 8,437—total 10,125. *Capital*: Somerville. *Public Works*: Memphis and Charleston R. R.

MORGAN county, *Ga.* Situate N. centrally, and contains 274 sq. m. Drained by Little r. and other branches of the Oconee, which forms its E. boundary. Surface gently uneven, with many mill streams; soil very fertile. Cotton is raised in great quantities, forming the staple product and almost excluding other crops. Its manufactures are rapidly increasing, particularly of cotton goods. Farms 886; manuf. 31; dwell. 621, and pop.—wh. 3,684, fr. col. 16, sl. 7,094—total 10,744. *Capital*: Madison. *Public Works*: Georgia R. R.

MORGAN county, *Ill.* Situate W. middle, and contains 539 sq. m. Drained by Indian and Mauvaiseterre creeks, branches of the Illinois, which forms the W. boundary. Surface undulating or nearly level; soil of great fertility, largely made up of prairies, which afford the very best of

grazing lands. Corn and wheat are very heavy crops. Live-stock, beef, wool, and pork are large exports. Timber is found near all the streams, which afford considerable fine water-power. Flour, leather, woolen goods, iron castings, and machinery are leading manufactures. Farms 1,574; manuf. 59; dwell. 2,661, and pop.—wh. 15,939, fr. col. 125—total 16,064. *Capital*: Jacksonville. *Public Works*: Sangamon and Morgan R. R.

MORGAN county, *Ind.* Situate S. centrally, and contains 453 sq. m. Drained by W. fork of White r. and its branches, White Lick, Big Indian, Mill, and Stott's creeks. Surface undulating or level, with hills near the streams and wide bottoms on their margins; soils everywhere excellent and well timbered. Corn and wheat are heavy staples, and pork a large export. Wool is extensively grown, and fine dairies kept. Farms 1,892; manuf. 14; dwell. 2,401, and pop.—wh. 14,502, fr. col. 74—total 14,576. *Capital*: Martinsville. *Public Works*: Martinsville R. R.

MORGAN county, *Ky.* Situate N. E., and contains 802 sq. m. Drained by Licking and Reel rivers and their tributaries. Surface much diversified, and in parts rugged or mountainous; soil of average fertility, better adapted to grazing than grain-growing. Corn is the chief cereal produced; other grains are raised in small quantities, and pork is the principal export. It has abundant timber and water-power. Farms 615; manuf. 0; dwell. 1,201, and pop.—wh. 7,895, fr. col. 88, sl. 187—total 7,620. *Capital*: West Liberty.

MORGAN county, *Mo.* Situate centrally, and contains 649 sq. m. Drained by the Osage r., which runs on and near its S. border, and its branches, and N. by Flat cr., a branch of La Mine r. Surface moderately uneven, in parts prairie, but generally well wooded. Corn is the staple, but other grains thrive, and tobacco flourishes in parts. Fine pasturage is abundant, and the rearing of cattle and sheep demands much attention. Pork is the principal export. Water-power is abundant. Farms 455; manuf. 12; dwell. 754, and pop.—wh. 4,292, fr. col. 5, sl. 453—total 4,750. *Capital*: Versailles.

MORGAN county, *Ohio.* Situate S. E., and contains 354 sq. m. Intersected by Muskingum r., and drained by its branches, and branches of Hocking r., which furnish fine water-power. Surface somewhat broken; soil very fertile. Wheat and corn are the staple cereals, and the produce very large. Tobacco is cultivated with marked success and profit. It has very fine dairies, shears a large amount of wool, and exports pork extensively. Bituminous coal is found, and numerous salt-springs, which formerly furnished a great quantity of salt. It manufactures salt, leather, woollens, iron castings, machinery, liquors, and stone-ware. Farms 2,126; manuf. 95; dwell. 4,886, and pop.—wh. 28,515, fr. col. 70—total 28,585. *Capital*: McConnellsville.

MORGAN county, *Tenn.* Situate N. E., and contains 888 sq. m. Drained N. by branches of Cumberland r., and S. by Emery's r. and its branches, affluents of Clinch r. Surface rough and uneven, being crossed by Cumberland mts.; soil better adapted to grazing than grain. Corn, oats, and potatoes are the chief crops, and pork the principal export. Its mill streams are numerous and fine. Farms 430; manuf. 8; dwell. 551, and pop.—wh. 8,301, fr. col. 28, sl. 101—total 8,430. *Capital*: Morgan.

MORGAN county, *Virg.* Situate N. E., and contains 295 sq. m. Drained by Cacapon r. and Sleepy cr., affluents of the Potomac, which forms the N. and N. W. boundary. Surface much broken, in parts mountainous; soil in the valleys very fertile; parts are too rugged for cultivation. Corn, wheat, rye, oats, and potatoes are raised, generally in good crops, though the amounts are not large. Sheep find good pasturage. It has superior mill-seats, and manufactures flour, woollens, leather, and earthen-ware. Farms 300; manuf. 9; dwell. 606, and pop.—wh. 8,431, fr. col. 8, sl. 128—total 8,557. *Capital*: Bath. *Public Works*: Baltimore and Ohio R. R.

MORGAN, t. and p. o., Ashtabula co., *Ohio*: 159 m. N. E. Columbus. Drained by Grand r. and its branches, which afford good mill-sites. Surface even, and soil productive. Various small manufactories are operated. Pop. 891.

MORGAN, p. v., and cap. Morgan co., *Tenn.*: on Emery's r., a branch of Clinch r., 118 m. E. Nashville. It contains a court-house and jail, and several stores and workshops, with about 200 inhabitants.

MORGAN, t. and p. o., Orleans co., *Verm.*: 45 m. N. E. Montpelier. Seymour's lake, a tributary of Clyde r., occupies the central part. Surface uneven, but not rough; soil mostly good. Grazing is the chief pursuit. The St. Lawrence and Atlantic R. R. crosses the E. part. Pop. 486.

MORGAN CITY, sta., Morgan co., *Ill.*: 9 m. E. of Naples, on the Sangamon and Morgan R. R.

MORGANFIELD, p. v., Union co., *Ky.*: about 8 m. S. of the Ohio, 167 m. W. by S. Frankfort. It contains a court-house, academy, several stores, and 300 inhabitants.

MORGANSBURG, p. o., Fauquier co., *Virg.*: 84 m. N. by W. Richmond.

MORGAN'S CORNERS, sta., Delaware co., *Penn.*: 14 m. from Philadelphia, on the Columbia and Philadelphia R. E. and Philadelphia and Westchester R. R.

MORGAN'S CREEK, p. o., Benton co., *Tenn.*: near the left bank of the Tennessee, 68 m. W. by S. Nashville.

MORGAN'S CREEK, p. o., Orange county, *N. Car.*: 41 m. W. N. W. Raleigh.

MORGAN'S FORK, p. o., Pike county, *Ohio*: 66 m. S. Columbus.

MORGAN'S MILLS, p. o., Union county, *N. Car.*: 108 m. W. S. W. Raleigh.

MORGAN'S RIDGE, p. o., Marion county, *Virg.*: 205 m. N. W. by W. Richmond.

MORGANVILLE, p. v., Morgan co., *Ohio*: on a W. branch of the Muskingum, 58 m. E. S. E. Columbus.

MORGANVILLE, p. v., Genesee co., *N. Y.*: on Black cr., 232 m. W. Albany. It contains several stores and mills, and 300 inhabitants.

MORGANTOWN, p. v., Morgan co., *Ind.*: on the N. side of Big Indian cr., 23 m. S. by W. Indianapolis. The Martinsville R. R. passes through it 13 m. W. of Franklin.

MORGANTOWN, p. v., and cap. Butler co., *Ky.*: on the S. side of Green r., 118 m. S. W. by W. Frankfort. Large quantities of grain and tobacco are sent from this place down the r., which is navigable for boats of light draught at all times. It contains a court-house, jail, academy, several stores and small manufactories, and 400 inhabitants.

MORGANTOWN, p. v., Berks co., *Penn.*: 52 m. E. by S. Harrisburg. It contains several stores, and 500 inhabitants.

MORGANTOWN, p. v., and cap. Burke co., *N. Car.*: on the S. side of Catawba r., 166 m. W. Raleigh. It lies on elevated ground, surrounded by a rich grain country, with flourishing manufactories in the vicinity, and has an extensive trade. It contains a court-house, jail, academy, bank, a dozen stores, and a population of 386 souls.

MORGANTOWN, p. v., Blount co., *Tenn.*: on the E. side of Tennessee r., 145 m. E. by S. Nashville.

MORGANTOWN, p. v., and cap. Monongalia co., *Virg.*: on the E. side of Monongahela r., 197 m. N. W. Richmond. It lies at the head of steamboat navigation, and has a large trade and rapidly increasing manufactures, for which there is ample water-power and abundance of coal in the vicinity. It contains a court-house, jail, two academies, a dozen stores, several mills, and a population of 1,600. The "Monongalia Mirror" and the "Watchman" (literary), and the "Mountain Messenger" (Baptist), are published weekly.

MORGANVILLE, p. o., Nottaway county, *Virg.*: 38 m. S. W. by W. Richmond.

MORGANVILLE, p. v., Hillsdale county, *Mich.*: 62 m. S. Lansing.

MORIAH, t. and p. v., Essex co., *N. Y.*: on Lake Champlain, 93 m. N. Albany. Surface very uneven; soil fertile

in the valleys. Marble of good quality is found. Iron ore and timber are abundant, and attention is principally directed to them. The v. is on high ground, about 3 m. W. of the lake, and contains an academy, several stores, and 1,000 inhabitants. Pop. of t. 3,065.

MORICHES, p. v., Suffolk co., *N. Y.*: on the S. side of Long Island, 136 m. S. S. E. Albany.

MORINGVILLE, p. o., Chatham co., *N. Car.*: 18 m. W. of Raleigh.

MORINGVILLE, p. v. and sta., Westchester co., *N. Y.*: on Bronx r., 112 m. S. Albany. It is 25 m. N. of New York, on the Harlem R. R.

MORLAN'S GROVE, p. o., Wayne co., *Ill.*: 119 m. S. E. by S. Springfield.

MORLEY, p. o., St. Lawrence co., *N. Y.*: 153 m. N. W. by N. Albany.

MORMON HILL, p. o., Marshall co., *Ia.*: 81 m. W. N. W. Iowa City.

MORMON ISLAND, p. o., Sacramento co., *Calif.*: on the S. fork of American r., 74 m. E. N. E. Vallejo. It was here that the first discoveries of gold were made in 1848.

MORNING SUN, p. o., Louisa co., *Ia.*: 81 m. S. S. E. Iowa City.

MORNING SUN, p. v., Preble co., *Ohio*: on Four Mile cr., 95 m. W. S. W. Columbus. The Four Mile Valley R. R. passes through it.

MORNING SUN, p. o., Shelby co., *Tenn.*: 170 m. W. S. W. Nashville.

MORO, p. o., Calhoun co., *Ark.*: 63 m. S. by W. Little Rock.

MORRILL'S, sta., Cumberland co., *Me.*: 3 m. from Portland, on the York and Cumberland R. R.

MORRIS county, *N. Jer.* Situate N. middle, and contains 406 sq. m. Drained by Pequannock r., its N. boundary, Passaic r., its E. boundary, and W. by branches of the Raritan and Delaware. Surface broken N. and W. by ranges of high hills; in the S. is the beautiful valley of the Passaic. Soil generally very productive, and in parts fine grazing land. Wheat, corn, rye, buckwheat, oats, and potatoes, are all good crops, and the rye and buckwheat of a superior quality. Large products of the dairy, beef and wool, are the farming exports. It has valuable mines of magnetic iron ore, which are wrought extensively and with much profit, the metal obtained being much sought after, and highly prized. Manufactures of almost every kind are prosecuted, the more important being iron cast and wrought, cotton and woolen fabrics, leather, distilled liquors, paper, carriages, and cabinet furniture. Farms 1,343; manuf. 242; dwell. 5,076, and pop.—wh. 29,146, fr. col., 993, sl. 19—total 80,158. *Capital*: Morristown. *Public Works*: Morris Canal; Morris and Essex R. R.

MORRIS, p. v., and cap. Grundy co., *Ill.*: on the right bank of Illinois r., 121 m. N. N. E. Springfield. It is on the Illinois and Michigan Canal, 23 m. S. W. of Juliet, and has an extensive trade in the staples of the surrounding country, which are shipped here in great amounts, and growing manufactures. It lies on a gentle slope toward the r., and contains a court-house and jail, numerous stores and warehouses, and about 627 inhabitants. A weekly newspaper is published here.

MORRIS, p. o., Otsego co., *N. Y.*: 63 m. W. Albany.

MORRIS, t. and p. o., Tioga co., *Penn.*: 96 m. N. N. W. Harrisburg. Drained by Pine cr. and its branches, which afford much water-power. Surface hilly; soil clayey and covered with heavy timber. Coal and iron ore are found.

MORRISANIA, p. v. and sta., Westchester county, *N. Y.*: 10 m. N. of the City Hall, in New York, by the Harlem R. R., 126 m. S. Albany. It is in the S. part of West Farms t., on the E. side of the Harlem r., is laid out with the regularity of a city, and being rapidly built up into a suburb of the great metropolis. Pop. about 3,000.

MORRIS' CHURCH, p. o., Campbell county, *Virg.*: 92 m. W. by S. Richmond.

MORRIS' CROSS ROADS, p. o., Fayette co., *Penn.*: 148 m. W. by S. Harrisburg.

MORRISDALE, p. o., Clearfield co., *Penn.*: about 3 m. W. of Mushanon cr., 84 m. N. W. by W. Harrisburg.

MORRIS' HILL, p. o., Alleghany co., *Virg.*: 146 m. W. by N. Richmond.

MORRISON'S BLUFF, p. o., Johnson co., *Ark.*: on the right bank of the Arkansas, 83 m. W. N. W. Little Rock.

MORRISON'S STONE HOUSE, p. o., Monroe co., *Ill.*: about 1 m. W. of Kaskaskia r., 107 m. S. by W. Springfield.

MORRISON'S TAN-YARD, p. o., Mecklenburg co., *N. Car.*: 118 m. W. S. W. Raleigh.

MORRIS' PLAINS, sta., Morris co., *N. Jer.*: 34 m. W. of Trenton, on the Morris and Essex R. R.

MORRISTOWN, p. v., Henry co., *Ill.*: about 3 m. S. of Green r., on a small creek, 116 m. N. N. W. Springfield.

MORRISTOWN, p. v., Shelby co., *Ind.*: about 1 m. E. of Blue r., 24 m. E. by S. Indianapolis. The Knightstown and Shelbyville R. R. passes through it, 13 m. N. of Shelbyville.

MORRISTOWN, p. v., and cap. Morris co., *N. Jer.*: 41 m. N. by E. Trenton. It lies on an elevated plain, on the S. side of Whippany r., and is regularly laid out, with a large square in the centre. It contains a court-house and jail, 2 academies, a bank, about 40 stores, and 3,000 inhabitants. Manufactures of various kinds are extensively carried on, particularly of paper, iron castings, carriages, machinery, etc. The Morris and Essex R. R. passes through it 32 m. W. of New York. Three papers are published—the "Jerseyman" (whig), and "Free Democratic Banner" (dem.), weekly, and the "New Jersey Freeman" (abolitionist), monthly. The t. is called Morris, is well supplied with water-power by Passaic and Whippany rivers, and has an uneven surface and fertile soil. Pop. of t. 4,992.

MORRISTOWN, t. and p. v., St. Lawrence co., *N. Y.*: on the St. Lawrence, 164 m. N. W. by N. Albany. Surface slightly rolling, and soil fertile. Black lake lies on the S. E. The v. is on the St. Lawrence, and a regular landing-place for steamboats. Pop. of t. 2,274.

MORRISTOWN, t. and p. v., Lamoille co., *Verm.*: 23 m. N. Montpelier. Drained by Lamoille r. and its branches, which supply good mill privileges. Surface somewhat hilly; soil fertile, especially on the r. It is a fine farming t., exporting cattle, wool, and dairy products, to a large amount. The v. is on the r., and contains several stores and mills. Pop. of t. 1,142.

MORRISTOWN, p. v., Belmont co., *Ohio*: on McMahon's cr. of the Ohio, 99 m. E. by N. Columbus. It contains several stores and mills, and 455 inhabitants.

MORRISTOWN, p. v., Grainger co., *Tenn.*: on a branch of Holston r., 159 m. E. Nashville.

MORRISTOWN, p. o., Cass co., *Mo.*: 131 m. W. Jefferson City.

MORRISVILLE, p. v., Hendrick's co., *Ind.*: on the Terre Haute and Richmond R. R., 25 m. W. by S. Indianapolis.

MORRISVILLE, p. v., and cap. Madison co., *N. Y.*: on a branch of the Chenango r., 102 m. W. by N. Albany. It contains a court-house, jail, clerk's office, academy, several stores and mills, and about 800 inhabitants. Two weekly papers are published here—the "M. County Journal" (whig), and the "Madison Observer" (dem.)

MORRISVILLE, p. o., Wake co., *N. Car.*

MORRISVILLE, p. b., Bucks co., *Penn.*: on the right bank of Delaware r., 109 m. E. Harrisburg. It is opposite Trenton, with which it is connected by a bridge 1,100 feet long, and has fine water privileges, which are improved by various extensive manufactures. It is 29 m. N. E. Philadelphia on the Philadelphia and Trenton R. R.

MORRISVILLE, p. v., Lamoille co., *Verm.*: on Lamoille r., 21 miles N. Montpelier. Here is good water-power and several mills.

MORRISVILLE, p. v., Fauquier co., *Virg.*: 66 m. N. by W. Richmond.

MORROW county, *Ohio*. Situate N. centrally, and contains 397 sq. m. Drained by branches of Whetstone r.,

Vernon r., and Clear fork of Walhonding r., the first a branch of the Scioto, the last two of the Muskingum river. Surface rolling; soil fertile, and adapted equally to grass and grain. Corn and wheat are the staples. Tobacco is cultivated. Sheep are raised in great numbers, and wool and pork are large exports; live-stock and beef are also exported. Manufactures are of considerable though minor interest, consisting principally of woollen goods, leather, liquors, and farming implements. Farms 1,552; manuf. 51; dwell. 8,652, and pop.—wh. 20,270, fr. col. 10—total 20,280. *Capital*: Mount Gilead. *Public Works*: Cleveland, Columbus, and Cincinnati Railroad; Springfield and Mount Vernon and Pittsburg R. R.

MORROW, p. v., Warren co., *Ohio*: on Little Miami river, 74 m. S. W. by W. Columbus. The Little Miami R. R. passes it 41 m. N. of Cincinnati.

MORSE CREEK, p. o., McNairy co., *Tenn.*: on a branch of Big Hatchie r., 116 m. W. S. W. Nashville.

MORRISVILLE, p. v., Schoharie co., *N. Y.*: 42 m. W. Albany.

MORSTON, p. o., Sullivan co., *N. Y.*: 86 m. S. S. W. Albany.

MORTON, p. o., Tazewell county, *Ill.*: 46 m. N. by E. Springfield.

MORTON'S STORE, p. o., Alamance co., *N. Car.*: 53 m. W. N. W. Raleigh.

MORTONVILLE, p. o., Woodford co., *Ky.*: about 2 m. E. of Kentucky, 15 m. S. by E. Frankfort.

MORTONVILLE, p. v., Orange co., *N. Y.*: 85 m. S. S. W. Albany.

MORTONVILLE, p. v., Chester co., *Penn.*: 59 m. E. S. E. Harrisburg.

MORVEN, p. o., Anson co., *N. Car.*: about 6 m. W. of Yaddin r., 86 m. S. W. Raleigh.

MORVEN, p. o., Clark county, *Ala.*: 103 m. W. S. W. Montgomery.

MOSALEM, p. o., Dubuque co., *Ia.*: about 2 m. W. of the Mississippi, 63 m. N. E. Iowa City.

MOSCOW, p. o., Marion county, *Ala.*: 141 m. N. W. Montgomery.

MOSCOW, p. v., Rush co., *Ind.*: on the W. side of Flat Rock cr., 83 m. S. E. by E. Indianapolis.

MOSCOW, p. v., Muscatine co., *Ia.*: on Cedar r., near the entrance of Sugar cr., 24 m. E. by S. Iowa City. It has a superior location for trade and manufactures, and contains several stores and mills.

MOSCOW, p. o., Hickman county, *Ky.*: 249 m. W. S. W. Frankfort.

MOSCOW, t. and p. o., Hillsdale county, *Mich.*: 83 m. S. Lansing. Drained by S. branch of the Kalamazoo. Surface rolling; soil sandy loam, producing large crops of all the grains. A good building stone is quarried. Pop. 942.

MOSCOW, p. v., Livingston co., *N. Y.*: on a small affluent of Genesee r., 214 m. W. by N. Albany. It lies on high ground, 1 m. W. of Genesee Flats, and contains several stores and 500 inhabitants.

MOSCOW, p. v., Clermont co., *Ohio*: on the Ohio, 95 m. S. W. by S. Columbus. It has a steamboat landing, a valuable trade with the interior, and about 500 inhabitants.

MOSCOW, p. o., Luzerne county, *Penn.*: 85 m. N. E. Harrisburg.

MOSCOW, p. v., Fayette co., *Tenn.*: on Wolf cr. and the line of the Memphis and Charleston R. R., 161 m. W. S. W. Nashville.

MOSCOW MILLS, p. o., Morgan co., *Ohio*: 66 m. E. by S. Columbus.

MOSSELM, p. o., Berks county, *Penn.*: 53 m. E. by N. Harrisburg. A charcoal furnace of 1,350 tons capacity is located here.

MOSELEY HALL, p. o., Lenoir co., *N. Car.*: about 8 m. N. of Neuse r., 53 m. E. S. E. Raleigh.

MOSELEY HALL, p. o., Madison co., *Flor.*: 45 m. E. by S. Tallahassee.

MOSELEY'S GROVE, p. o., Dallas county, *Ala.*: 56 m. W. Montgomery.

MOSELLE, p. o., Jo Daviess co., *Ill.*: about 1 m. E. of the Mississippi, 176 m. N. by W. Springfield.

MOSELLE FURNACE, p. o., Franklin co., *Mo.*: 71 m. E. by S. Jefferson City.

MOSELY HALL, p. o., Madison co., *Flor.*: 43 m. E. by S. Tallahassee.

MOSELY'S STORE, p. o., Franklin co., *Ga.*: 102 m. N. Milledgeville.

MOSS, p. o., La Fayette co., *Mo.*: on Dan's Fork of Black river, 92 m. W. by N. Jefferson City.

MOSS SIDE, p. o., Allegheny co., *Penn.*: 169 m. W. by N. Harrisburg.

MOSSY CREEK, p. o., Augusta co., *Virg.*: on a W. affluent of the Shenandoah so called, 104 m. N. W. by W. Richmond.

MOSSY CREEK, p. o., Jefferson county, *Tenn.*: 179 m. E. Nashville.

MOTHER KILL, hund., Kent co., *Del.*: extends across the State, with an area of 59,320 acres. Drained W. by heads of Choptank r., and E. by Jones and Mother Kill creeks. Surface even, with small elevations in the W. It has good timber and water-power. Pop. 4,973.

MOTTER, p. o., Pendleton county, *Ky.*: 52 miles N. E. Frankfort.

MOTLEY, p. o., Allen co., *Ky.*: 124 m. S. W. Frankfort.

MOTT HAVEN, p. v. and sta., Westchester co., *N. Y.*: 126 m. S. Albany. It is 8 m. N. of the City Hall in New York, on the Harlem R. R., and New York and New Haven R. R.

MOTT'S CORNERS, p. v., Tompkins co., *N. Y.*: on Six Mile creek, 137 m. W. by S. Albany. It contains several stores, mills, and manufactories, and 400 inhabitants.

MOTTVILLE, t. and p. v., St. Joseph's co., *Mich.*: on the S. line of the State, 86 m. S. W. Lansing. Drained by Pigeon and St. Joseph's rivers, which furnish water-power. Surface undulating; soil very fertile. The Michigan Southern R. R. passes through the t. into Indiana. The v. is on the St. Joseph's, and contains several stores. Population of t. 610.

MOTTVILLE, p. v., Onondaga co., *N. Y.*: on the outlet of Skaneateles lake, 141 m. W. by N. Albany. It contains several stores, a foundry, machine shop, and 500 inhabitants, and lies 3 m. S. of the Rochester and Syracuse R. R., with which a branch road connects it.

MOULTON, p. v., and cap. Lawrence co., *Ala.*: near the head of Big Nance cr. of the Tennessee, 151 m. N. N. W. Montgomery. It contains a court-house, jail, academy, and about 400 inhabitants. The "M. Advertiser" (neutral) is published weekly.

MOULTONBORO', t., p. v., and cap. Carroll co., *N. Hamp.*: 33 m. N. by E. Concord. Drained by Red Hill and Melvin rivers. Surface hilly. Red Hill and Ossipee mountains, large elevations, are within it, and much of it is occupied by ponds. Squam lake lies on the W., and Winnipiseogee lake on the S., into which a long neck extends. Soil fertile. Iron ore, and mineral springs containing sulphur, are found. Numerous Indian relics have been dug up on the shores and on the islands of the lake. The village contains a court-house, jail, and an academy. Pop. of t. 1,743.

MOULTONVILLE, p. v., Madison co., *Ill.*: 72 m. S. by W. Springfield.

MOULTRE county, *Ill.* Situate E. centrally, and contains 335 sq. m. Drained by Kaskaskia r., which flows through the S., and its branches. Surface undulating or level, largely open prairie, with good timber in the S., and scattered groves everywhere. Soil fertile, and excellent grazing land. Corn is the staple, and live-stock the principal export. On the Kaskaskia are good mill-sites. Farms 804; manuf. 11; dwell. 554, and pop.—wh. 3,225, fr. col. 9—total 3,234. *Capital*: Sullivan. *Public Works*: Chicago Branch of Central Illinois R. R.; Terre Haute and Alton R. R., etc.

MOULTRE, p. o., Spartanburg dist., *S. Car.*: 85 m. N. W. Columbia.

MOULTRE, p. o. and sta., Columbiana co., *Ohio*: 8 m. S. of Alliance, on the Cleveland and Pittsburg R. R.

MOUND BAYOU, p. o., Tensas parish, *La.*: 98 m. N. Baton Rouge.

MOUND CITY, p. v., Crittenden co., *Ark.*: on Mississippi r., 8 m. above Memphis, 128 m. E. N. E. Little Rock.

MOUNDSVILLE, p. v., Marshall co., *Virg.*: on the Ohio r., at the mouth of Big Grave cr., 235 m. N. W. Richmond; on the creek, just above the v., are many mounds, one 75 feet high and 40 rods in circuit, on which is an observatory. The v. contains an academy, a steam flouring-mill, and several stores. Elizabethtown, the co. seat, lies opposite, on the upper side of the cr., and the two contain about 1,500 inhabitants. The "Marshall Beacon" (whig) is published weekly. The Baltimore and Ohio R. R. passes through it, 11 m. S. of Wheeling.

MOUNDVILLE, p. v., Marquette co., *Wisc.*: 47 m. N. by E. Madison.

MOUNT ADAMS, Coos co., *N. Hamp.*: a peak of the White Mountains, 5,960 feet high.

MOUNT ADAMS, *Oreg. Ter.*: an eastern spur of the Coast Range, lat. 46° 12', and long. 121° 20'.

MOUNTAIN COVE, p. v., Fayette co., *Virg.*: on the E. side of Great Kanawha river, 196 m. W. by N. Richmond. A colony of spiritualists and spirit mediums have commenced a settlement here, and publish a periodical, called the "Mountain Cove Journal," to propagate their views.

MOUNTAIN CREEK, p. o., Catawba co., *N. Car.*: about 8 m. W. of Catawba r., 124 m. W. Raleigh.

MOUNTAIN CREEK, p. o., Anderson dist., *S. Car.*: 103 m. N. W. by W. Columbia.

MOUNTAIN FALLS, p. o., Frederick co., *Virg.*: 117 m. N. N. W. Richmond.

MOUNTAIN GROVE, p. o., Bath co., *Virg.*: 87 m. W. by N. Richmond.

MOUNTAIN HOME, p. o., Lawrence county, *Ala.*: 153 m. N. N. W. Montgomery.

MOUNTAIN HOME, p. o., McDowell co., *N. Car.*: 194 m. W. Raleigh.

MOUNTAIN SHOALS, p. o., Spartanburg dist., *S. Car.*: on the N. side of Ennoree r., 66 m. N. W. Columbia.

MOUNTAIN SPRING, p. o., Martin co., *Ind.*: 76 m. S. S. W. Indianapolis.

MOUNTAIN STAND, p. o., Marshall co., *Ala.*: 119 m. N. Montgomery.

MOUNTAIN TOP, p. o., Augusta co., *Virg.*: 85 m. W. N. W. Richmond.

MOUNTAIN VIEW, p. o., Abbeville dist., *S. Car.*: 83 m. W. Columbia.

MOUNT AIRY, p. v. and sta., Carroll county, *Md.*: on the Baltimore and Ohio R. R., 44 m. W. of Baltimore, 43 m. N. W. Annapolis.

MOUNT AIRY, p. o., Randolph co., *Mo.*: 64 m. N. N. W. Jefferson City.

MOUNT AIRY, p. o., Hamilton county, *Ohio*: 83 m. S. W. Columbus.

MOUNT AIRY, p. o., Berks co., *Penn.*: 53 m. E. by N. Harrisburg.

MOUNT AIRY, p. o., Surry co., *N. Car.*: 116 m. W. N. W. Raleigh. The "Siamese Twins," of exhibitionary notoriety, are settled here, and cultivate a large plantation.

MOUNT AIRY, p. o., Bledsoe co., *Tenn.*: about 2 m. W. of Sequatchy r., 88 m. E. S. E. Nashville.

MOUNT AIRY, p. o., Pittsylvania co., *Virg.*: on a branch of Dan r., 98 m. W. S. W. Richmond.

MOUNT ALBAN, sta., Warren county, *Miss.*: 6 m. E. of Vicksburg, on the Vicksburg, Jackson, and Brandon Railroad.

MOUNT ANDREW, p. o., Barbour co., *Ala.*: 57 m. E. S. E. Montgomery.

MOUNT AUBURN, p. o., Christian co., *Ill.*: 19 m. E. by S. Springfield.

MOUNT AUBURN, p. v., Shelby co., *Ind.*: about 2 m. E. of the Knightstown and Shelbyville R. R., 29 m. S. S. E. Indianapolis.

MOUNT BAKER, *Oreg. Ter.*: a peak of the Cascade Range, 10,340 feet high, in lat. 43° 45', and long. 121° 30'.

MOUNT BERNANDINO, San Diego co., *Calif.*: an elevated peak of the Coast Range, in lat. 34°, and long. 117°.

MOUNT BETHEL, p. o. Northampton co., *Penn.*: 113 m. E. N. E. Harrisburg.

MOUNT BETHEL, p. o., Newberry dist., *S. Car.*: about 3 m. S. of Ennoree r., 36 m. N. W. Columbia.

MOUNT BLANCHARD, p. v., Hancock county, *Ohio*: on Blanchard's Fork of Maumee r., 81 m. N. W. Columbus.

MOUNT CALVARY, p. o., Davis co., *Ia.*: 78 m. S. W. by S. Iowa City.

MOUNT CAMBRIA, p. o., Niagara co., *N. Y.*: 257 m. W. Albany.

MOUNT CARBON, p. o., Hampshire county, *Virg.*: 147 m. N. W. by N. Richmond.

MOUNT CARBON, sta., Schuylkill co., *Penn.*: 84 m. N. of Reading, on the Philadelphia and Reading R. R. The vicinity is noted for its anthracite mines.

MOUNT CARMEL, p. o., Henry co., *Ga.*: 64 m. W. N. W. Milledgeville.

MOUNT CARMEL, p. v., and cap. Wabash co., *Ill.*: on the right bank of Wabash r., below the rapids, and opposite the mouth of White r., 142 m. S. E. Springfield. It has a favorable site for trade and manufactures, and contains a court-house and jail, about 30 stores and warehouses, several flouring-mills and machine shops, and 1,500 inhabitants.

MOUNT CARMEL, p. o., Franklin co., *Ind.*: about 2 m. E. of Red Cedar Grove cr., 63 m. E. S. E. Indianapolis.

MOUNT CARMEL, p. o., Fleming co., *Ky.*: 77 m. E. N. E. Frankfort.

MOUNT CARMEL, p. o., Covington co., *Miss.*: 43 m. S. S. E. Jackson.

MOUNT CARMEL, p. o., Cooper co., *Mo.*: 42 m. W. by N. Jefferson City.

MOUNT CARMEL, p. o., Clermont co., *Ohio*: 86 m. S. W. Columbus.

MOUNT CARMEL, p. o., Halifax co., *Virg.*: 83 m. S. W. by W. Richmond.

MOUNT CARMEL, p. o., Northumberland co., *Penn.*: 83 m. N. by E. Harrisburg.

MOUNT CARMEL, p. o. and sta., New Haven co., *Conn.*: 8 m. N. of New Haven, on the N. H. and Northampton Railroad.

MOUNT CARROLL, p. v., and cap. Carroll co., *Ill.*: on a branch of Plum r., 10 m. E. of the Mississippi, and 162 m. N. by W. Springfield. It contains a court-house, jail, several stores, and 500 inhabitants.

MOUNT CHESTNUT, p. o., Butler county, *Penn.*: 173 m. W. N. W. Harrisburg.

MOUNT CLARE, sta., Baltimore co., *Md.*: on the Baltimore and Ohio R. R., 2 m. from Baltimore.

MOUNT CLEMENS, p. v., and cap. Macomb co., *Mich.*: on the N. bank of Clinton r., 4 m. from its entrance into Lake St. Clair, 85 m. E. by S. Lansing. It is favorably located for ship-building, having abundance of timber in its vicinity—is at the head of navigation, and communicates by steamboat with ports N. and S. of it. Glass is manufactured from a superior sand abundant here. It contains a court-house and jail, a bank, an academy, several mills, and a dozen stores. Two papers, the "Macomb Gazette" (dem.), and the "Macomb County Herald" (whig), are published weekly.

MOUNT CLIFTON, p. o., Shenandoah co., *Virg.*: 112 m. N. W. Richmond.

MOUNT CLINTON, p. o., Rockingham co., *Virg.*: 85 m. N. W. Richmond.

MOUNT CLIO, p. o., Sumter dist., *S. Car.*: about 3 m. E. of Black r., 44 m. E. Columbia.

MOUNT COMFORT, p. o., Hancock county, *Ind.*: 24 m. E. by N. Indianapolis.

MOUNT COMFORT, p. o., Fayette county, *Tenn.*: 153 m. W. S. W. Nashville.

MOUNT CRAWFORD, p. o., Rockingham co., *Virg.*: on a

W. branch of Shenandoah river, 98 m. N. W. by W. Richmond.

MOUNT CROGHAN, p. o., Chesterfield dist., *S. Car.*: 69 m. N. E. Columbia.

MOUNT DEFIANCE, Essex co., *N. Y.*: on the W. shore of Lake Champlain, has an elevation of 750 feet above tide-water.

MOUNT DESERT, t. and p. o., Hancock co., *Me.*: in the N. W. part of the island of that name, 72 m. E. Augusta. The soil is productive, but the chief business is the coasting trade—for this, its singular position and excellent harbors are peculiarly adapted. The fisheries are also very lucrative, and ship-building is carried on. Pop. 777.

MOUNT DESERT island, *Me.*: lies off the S. shore of the State, on the W. side of Frenchman's Bay, and forms a part of Hancock County. Its greatest length and breadth are 12 and 15 m., but the coast has many indentations, forming excellent harbors, which give it great facilities for the coasting trade and fisheries. It contains three towns, Eden, Mount Desert, and Tremont, and 3,323 inhabitants.

MOUNT EATON, p. v., Wayne county, *Ohio*: 81 m. N. E. Columbus.

MOUNT EDEN, p. o., Spencer co., *Ky.*: 23 m. W. by S. Frankfort.

MOUNT ELBA, p. o., Bradley co., *Ark.*: on Saline r., 60 m. S. by E. Little Rock.

MOUNT ELON, p. o., Darlington dist., *S. Car.*: about 6 m. E. of Lynch's cr., 53 m. E. N. E. Columbia.

MOUNT EMINENCE, p. o., Orange co., *Virg.*: 56 m. N. N. W. Richmond.

MOUNT EMMONS, Hamilton co., *N. Y.*: is an isolated peak, elevated about 3,500 feet above tide-water.

MOUNT ENTERPRISE, p. o., Rusk co., *Tex.*: about 3 m. E. of Big Shawnee cr. of the Angelina, 216 m. N. E. by E. Austin City.

MOUNT EOLIA, p. o., Union co., *Ga.*: 143 m. N. N. W. Milledgeville.

MOUNT EPHRAIM, p. v., Guernsey co., *Ohio*: 63 m. E. Columbus. It contains several stores and 121 inhabitants.

MOUNT ETNA, p. v., Huntington co., *Ind.*: on the S. side of Wabash r., 73 m. N. N. E. Indianapolis.

MOUNT EVERETT, Berkshire co., *Mass.*: one of the highest peaks of the Taghkanic range, lies in Mount Washington t. in the S. W. corner of the State, and rises to the height of 2,634 feet. The summit is scantily covered with scrub-pine and bushes, but commands the grandest scenery in the State, overlooking mountains on all sides, and affording glimpses of rare beauties between and beyond them. Near it is the Bashapish Fall, which descends 150 feet in two perpendicular leaps, and has worn out a dome-like cavity, called the "Gorge," 194 feet deep. The wildness of the surrounding region and the grandeur of their localities, attract many tourists hither in the summer.

MOUNT FREEDOM, p. o., Jessamine co., *Ky.*: 29 m. S. E. Frankfort.

MOUNT FREEDOM, p. o., Pendleton county, *Virg.*: 123 m. N. W. by W. Richmond.

MOUNT GALLAGHER, p. o., Laurens dist., *S. Car.*: about 3 m. E. of Saluda r., 71 m. W. N. W. Columbia.

MOUNT GILEAD, p. o., Franklin co., *Ark.*: on the S. side of Arkansas r., 93 m. W. N. W. Little Rock.

MOUNT GILEAD, p. o., Mason co., *Ky.*: 63 m. E. N. E. Frankfort.

MOUNT GILEAD, p. v., and cap. Morrow co., *Ohio*: on the E. branch of Whetstone r., 40 m. N. by E. Columbus. It is about 3 m. E. of the Cincinnati, Cleveland, and Columbus R. R., and in the vicinity are numerous mills and factories. It contains a court-house, jail, academy, a dozen stores, and 500 inhabitants. Pop. of Gilead t. 1,680.

MOUNT GILEAD, p. o., Montgomery co., *N. Car.*: about 3 m. N. of Yadkin r., 77 m. W. S. W. Raleigh.

MOUNT GILEAD, p. v., Loudon co., *Virg.*: on Kittoctan Mountain, 106 m. N. Richmond. It is regularly laid out on

a commanding elevation, and contains several stores and 150 inhabitants.

MOUNT HAWKINS, p. o., Perry co., *Ill.*: 122 m. S. by E. Springfield.

MOUNT HAWLEY, p. o., Peoria co., *Ill.*: about 3 m. W. of Peoria lake, 72 m. N. Springfield.

MOUNT HEALTHY, p. v., Hamilton county, *Ohio*: 93 m. S. W. by W. Columbus.

MOUNT HEALTHY, p. v., Bartholomew county, *Ind.*: on White cr., 43 m. S. by E. Indianapolis.

MOUNT HEBRON, p. o., Greene co., *Ala.*: 107 m. W. N. W. Montgomery.

MOUNT HERON, p. o., Darke county, *Ohio*: 86 m. W. Columbus.

MOUNT HICKORY, p. o., Chattooga co., *Ga.*: 163 m. N. W. Milledgeville.

MOUNT HICKORY, p. o., Chambers county, *Ala.*: on an E. branch of Tallapoosa r., 66 m. N. E. by E. Montgomery.

MOUNT HILL, p. o., Morgan co., *Ala.*: 134 m. N. by W. Montgomery.

MOUNT HILL, p. o., Abbeville district, *S. Car.*: 73 m. W. N. W. Columbia.

MOUNT HILLIARD, p. o., Pike county, *Ala.*: 42 m. S. E. Montgomery.

MOUNT HOLLY, p. o., Union co., *Ark.*: 103 m. S. S. W. Little Rock.

MOUNT HOLLY, p. v., Randolph co., *Ind.*: about 3 m. S. of Mississinewa river, and 2 m. W. of the Ohio line, 72 m. E. N. E. Indianapolis.

MOUNT HOLLY, p. v., and cap. Burlington co., *N. Jer.*: on the N. branch of Rancocas cr., 16 m. S. Trenton. It lies at the head of navigation, and contains a court-house and jail, an academy, a bank, several mills for making paper, woollens, etc., and about 1,500 inhabitants. Two weekly papers, the "New Jersey Mirror" (whig) and "Mount Holly Herald" (dem.), are published. A branch railroad, 6 m. long, connects it with the Camden and Amboy R. R. at Burlington.

MOUNT HOLLY, p. o., Warren county, *Ohio*: 71 m. S. W. Columbus.

MOUNT HOLLY, t. and p. o., Rutland co., *Verm.*: 51 m. S. by W. Montpelier. Drained by Black r. of the Connecticut, and Mill r., a branch of Otter cr. Surface elevated, in parts mountainous; soil adapted to grazing, which is the leading interest, and furnishes for export large amounts of wool, beef, butter, and cheese. The Rutland and Burlington R. R. crosses the N. E. part. Mount Holly sta., in the N. E., is 15 m. S. E. of Rutland. Pop. 1,534.

MOUNT HOLYOKE, p. o., Henry co., *Tenn.*: 93 m. W. by N. Nashville.

MOUNT HOOD, *Oreg. Ter.*: a peak of the Coast Range, on the S. side of Columbia r., elevated about 12,000 feet above the ocean.

MOUNT HOPE, p. o., Tyler county, *Tex.*: 209 m. E. by N. Austin City.

MOUNT HOPE, p. o., Lawrence co., *Ala.*: near the head of Town cr. of the Tennessee, 152 m. N. N. W. Montgomery.

MOUNT HOPE, p. o., De Kalb co., *Ind.*: 127 m. N. N. E. Indianapolis.

MOUNT HOPE, p. o., Delaware co., *Pa.*: 54 m. N. Iowa City.

MOUNT HOPE, p. o., La Fayette co., *Mo.*: about 4 m. S. of the Missouri, 87 m. W. N. W. Jefferson City.

MOUNT HOPE, t. and p. v., Orange county, *N. Y.*: 92 m. S. S. W. Albany. Drained by Shawangunk cr. Surface hilly and broken; soil gravelly loam, and adapted to grazing; it is well timbered and supplied with water-power. Tanning and various manufactures are extensively prosecuted. The village contains an academy and about 400 inhabitants. The Erie R. R. passes through the t. Pop. of the t. 1,512.

MOUNT HOPE, p. o., McLean co., *Ill.*: 44 m. N. E. by N. Springfield.

MOUNT HOPE, p. o., Holmes co., *Ohio*: 74 m. N. E. by E. Columbus.

MOUNT HOPE, p. o., Lancaster co., *Penn.*: 87 m. E. by S. Harrisburg. Here is a charcoal furnace of 1,450 tons capacity.

MOUNT HOPE bay, *R. I.*: sets up from the N. E. corner of Narragansett bay, between Bristol and Tiverton, and receives the waters of Taunton river.

MOUNT HOREB, p. o., Nelson co., *Virg.*: at the E. base of the Blue Ridge, 84 m. W. by N. Richmond.

MOUNT IDA, p. v., and cap. Montgomery co., *Ark.*: on Brushy fork of Washita r., 74 m. W. by S. Little Rock. It contains a court-house and a few stores and dwellings.

MOUNT IDA, p. o., Montgomery co., *Ky.*: 57 m. E. S. E. Frankfort.

MOUNT ISABEL, p. o., De Soto county, *Miss.*: 171 m. N. Jackson.

MOUNT ISRAEL, p. o., Albemarle co., *Virg.*: near the line of the Virginia Central R. R., at the base of the Blue Ridge, 78 m. W. N. W. Richmond.

MOUNT JACKSON, p. v., Lawrence co., *Penn.*: on Hickory cr., 194 m. W. by N. Harrisburg. It is about 8 m. W. of Mahoning river, and the Beaver and Erie Canal, and has good water-power on the cr. above and below it, where are several mills and factories. It has a valuable trade, and contains a number of large stores.

MOUNT JACKSON, p. o., Shenandoah co., *Virg.*: on the N. fork of Shenandoah r., 104 m. N. W. Richmond.

MOUNT JEFFERSON, p. o., Chambers county, *Ala.*: 59 m. E. N. E. Montgomery.

MOUNT JEFFERSON, *Oreg. Ter.*: a peak of the Cascade Range, in lat. $44^{\circ} 40'$, and long. $121^{\circ} 32'$.

MOUNT JEFFERSON, Coos co., *N. Hamp.*: a N. peak of the White Mountains, in the S. part of Randolph, 5,360 feet above the ocean level.

MOUNT JEFFERSON, p. o., Carroll co., *Ind.*: 57 m. N. by W. Indianapolis.

MOUNT JOY, t. and p. o., Lancaster co., *Penn.*: 17 m. E. S. E. Harrisburg. Drained by Little Chiques and Cone-wago creeks, which supply good mill-seats. Surface rolling; soil gravelly loam of excellent quality, and well tilled. It has several flouring-mills and other manufactures, and is fine grazing land. The Harrisburg and Lancaster R. R. crosses it, and Mount Joy station is 12 m. W. of Lancaster. Population of t. 2,626.

MOUNT KINGSTON, p. o., Montgomery co., *Ill.*: about 4 m. W. of Shoal cr., 49 m. S. Springfield.

MOUNT KISKO, p. o., Westchester co., *N. Y.*: 91 m. S. Albany.

MOUNT LAFAYETTE, Grafton co., *N. Hamp.*: lies on E. line of Bethlehem and Franconia, and rises 4,723 feet above the ocean level.

MOUNT LANGUM, p. o., Iroquois co., *Ill.*: about 3 m. S. E. of the junction of Kankakee and Iroquois rivers, 133 m. N. E. Springfield.

MOUNT LAUREL, p. o., Halifax co., *Virg.*: about 2 m. W. of Roanoke r., 82 m. W. S. W. Richmond.

MOUNT LAUREL, p. v., Burlington county, *N. Jer.*: 20 m. S. S. W. Trenton.

MOUNT LEBANON, p. o., Claiborne par., *La.*: about 5 m. E. of Bayou Dorchest, 137 m. N. W. by N. Baton Rouge.

MOUNT LEBANON, p. o., Spartanburg dist., *S. Car.*: 87 m. N. W. by N. Columbia.

MOUNT LEVEL, p. o., Dinwiddie county, *Virg.*: near the South Side R. R., 23 m. S. S. W. Richmond.

MOUNT LIBERTY, p. o., Marion co., *Ill.*: 95 m. S. S. E. Springfield.

MOUNT LIBERTY, p. v., Knox co., *Ohio*: 81 m. N. E. by N. Columbus.

MOUNT LINCOLN, Hampshire co., *Mass.*: lies in the N. part of Pelham, and is 1,248 feet above the ocean level.

MOUNT MADISON, Coos co., *N. Hamp.*: a peak of the White Mountains, 5,620 feet high above the ocean level.

MOUNT MARCY, Essex co., *N. Y.*: lies in the S. part of Keene, and is the highest of the Adirondack group, being 5,467 feet above the ocean level. In the same t. are other peaks almost as high.

MOUNT M'INTIRE, Essex county, *N. Y.*: a peak of the Adirondack group in Keene, has an elevation of 5,133 feet above the ocean.

MOUNT M'LAUGHLIN, *Oreg. Ter.*: a peak of the Cascade Range, in lat. $43^{\circ} 36'$, long. $121^{\circ} 50'$.

MOUNT M'MARTIN, Essex county, *N. Y.*: a peak of the Adirondack group in Keene, is about 5,000 feet above tide-water.

MOUNT MEIGS, p. o., Montgomery co., *Ala.*: about 4 m. S. of Tallapoosa r., 13 m. E. Montgomery.

MOUNT MERIDIAN, p. v., Putnam co., *Ind.*: on Deep cr., 84 m. W. by S. Indianapolis. A plank-road connects it with the New Albany and Salem R. R.

MOUNT MERIDIAN, p. o., Augusta co., *Virg.*: on the base of the Blue Ridge, 84 m. W. N. W. Richmond.

MOUNT METAWAMPE, Hampshire co., *Mass.*: lies on the E. side of Connecticut r., opposite Sugar-loaf Mountain, and between Sunderland and Leverett. It is about 1,100 feet high, and wooded to the summit, which commands a more extensive but less beautiful view than Holyoke. At its base are "Sunderland Cave," and the "Roaring Brook."

MOUNT MONROE, Coos co., *N. Hamp.*: a peak of the White Mountains, 5,510 feet above tide-water.

MOUNT MORIAH, p. o., Hempstead co., *Ark.*: on a S. affluent of Little Missouri r., 95 m. S. W. Little Rock.

MOUNT MORIAH, p. o., Mecklenburg co., *N. Car.*: 117 m. W. by S. Raleigh.

MOUNT MORIAH, p. o., Brown county, *Ind.*: 42 m. S. Indianapolis.

MOUNT MORNE, p. o., Pike county, *Ga.*: 74 miles W. Milledgeville.

MOUNT MORRIS, Essex county, *N. Y.*: a peak of the Adirondack group, 4,576 feet above the ocean level.

MOUNT MORRIS, p. v., Ogle co., *Ill.*: on Pine cr. of Rock river, 159 m. N. Springfield. It contains a flourishing seminary, several manufactories of farming and mechanical implements, and 600 inhabitants. The "M. M. Gazette" (whig) is published weekly.

MOUNT MORRIS, t. and p. v., Livingston co., *N. Y.*: 213 m. W. Albany. Drained by Genesee r. and its branch, Cashaqua cr., which supply abundant water-power. Surface varied; portions are high table land; soil clayey loam, and very productive of wheat. It is a superior farming t., with extensive and valuable manufactories of flour, woolen goods, leather, iron castings, etc. The village, half a mile E. of the Genesee, has excellent water-power obtained from the r. by a dam and raceway, and a favorable location for trade, lying on the Genesee Valley Canal, 87 m. S. of Rochester. It contains an academy, several flouring and other mills, a furnace, 30 stores, and 1,500 inhabitants. Population of t. 4,531.

MOUNT MORRIS, p. v., Greene co., *Penn.*: on Dunkard's cr. of the Monongahela, 163 m. W. by S. Harrisburg. It lies on the Virginia line, and contains several mills.

MOUNT MOURNE, p. o., Iredell county, *N. Car.*: 115 m. W. by S. Raleigh.

MOUNT NEBO, p. o., Lancaster co., *Penn.*: 46 m. E. by S. Harrisburg.

MOUNT NEBO, p. o., Yadkin co., *N. Car.*: 129 m. W. N. W. Raleigh.

MOUNT NILES, p. o., St. Clair co., *Ala.*: on Canoe cr. of Coosa r., 95 m. N. Montgomery.

MOUNT NORWOTUCK, Hampshire co., *Mass.*: on E. peak of the Holyoke range, 4 m. from the Connecticut, separating Amherst and Granby; is, next to Mount Holyoke, the highest of the chain, having an elevation of 800 feet, and commands a fine view N. and S.

MOUNT OLIVE, p. o., Coosa county, *Ala.*: 39 m. N. by E. Montgomery.

MOUNT OLIVE, p. o., Macoupin co., *Ill.*: 46 m. S. S. W. Springfield.

MOUNT OLIVE, p. o., Elkhart co., *Ind.*: 122 m. N. by E. Indianapolis.

MOUNT OLIVE, p. o., Clermont co., *Ohio*: 70 m. S. W. Columbus.

MOUNT OLIVE, p. o., St. Mary's county, *Md.*: 46 m. S. Annapolis.

MOUNT OLIVE, p. o., Izard co., *Ark.*: on the left bank of White r., 83 m. N. by E. Little Rock.

MOUNT OLIVET, p. o., Bracken co., *Ky.*: 62 m. N. E. Frankfort.

MOUNT PALATINE, p. o., Putnam co., *Ill.*: 98 m. N. by E. Springfield.

MOUNT PARHENON, p. o., Newton county, *Ark.*: 97 m. N. W. by N. Little Rock.

MOUNT PELIA, p. o., Weakley county, *Tenn.*: 117 m. W. by N. Nashville.

MOUNT PERRY, p. o., Perry county, *Ohio*: 46 m. E. S. E. Columbus.

MOUNT PETREA, p. o., De Witt co., *Tex.*: 82 m. S. by E. Austin City.

MOUNT PINSON, p. o., Jefferson co., *Ala.*: 88 m. N. by W. Montgomery.

MOUNT PINSON, p. o., Jackson co., *Ark.*: 85 m. N. E. by N. Little Rock.

MOUNT PINSON, p. o., Madison co., *Tenn.*: 124 m. W. by S. Nashville.

MOUNT PISGAH, p. o., Alexander county, *N. Car.*: 129 m. W. by N. Raleigh.

MOUNT PISGAH, p. o., La Grange co., *Ind.*: 132 m. N. N. E. Indianapolis.

MOUNT PISGAH, p. o., Clermont co., *Ohio*: 86 m. S. S. W. Columbus.

MOUNT PITT, *Oregon Ter.*: a peak of the Cascade or Coast Range, on the W. side of Klamath lake, in lat. 42° 23', long. 122° 17'.

MOUNT PLEASANT, t. and p. o., Greene co., *Wisc.*: 24 m. S. by W. Madison. Drained by a W. branch of Sugar r., on which are good mill-seats. Surface mostly even, and soil productive of corn and grass. Lead is found. Pop. 579.

MOUNT PLEASANT, p. o., Monroe co., *Ala.*: about 4 m. E. of Alabama r., 104 m. S. W. Montgomery.

MOUNT PLEASANT, p. o., Carroll co., *Ark.*: 103 m. N. N. W. Little Rock.

MOUNT PLEASANT, p. o., Union co., *Ill.*: 167 m. S. by E. Springfield.

MOUNT PLEASANT, p. v., Martin co., *Ind.*: on the W. side of the E. fork of White r., 84 m. S. S. W. Indianapolis. It was the former cap. of the co., and contains several stores, and 350 inhabitants.

MOUNT PLEASANT, p. v., and cap. Henry co., *Ia.*: about 2 m. E. of Big cr., 61 m. S. Iowa City. It lies on elevated ground, and contains a court-house and jail, an academy, and numerous stores. A heavy business is done here in the products of a large and fertile district. Two papers, the "Iowa Observer" (whig), and the "True Democrat," are published weekly.

MOUNT PLEASANT, p. v., and cap. Titus co., *Tex.*: about midway between White Oak and Big Cypress bayous, 272 m. N. E. Austin City. It is a thriving settlement, containing county buildings and several stores.

MOUNT PLEASANT, p. o., Frederick co., *Md.*: 53 m. N. W. Annapolis.

MOUNT PLEASANT, p. v., Oakland county, *Mich.*: 44 m. E. by N. Lansing.

MOUNT PLEASANT, p. o., Talbot co., *Ga.*: 86 m. W. by S. Milledgeville.

MOUNT PLEASANT, p. o., Lawrence co., *Mo.*: on the W. base of the Ozark Mountains, 149 m. S. W. Jefferson City.

MOUNT PLEASANT, p. v., Hunterdon co., *N. Jer.*: 3 m. E. of Delaware r., 25 m. N. W. by N. Trenton.

MOUNT PLEASANT, p. o., Saratoga co., *N. Y.*

MOUNT PLEASANT, t. and p. v., Jefferson co., *Ohio*: 115 m. E. by N. Columbus. Drained by Short cr., which supplies fine water-power. Surface uneven; soil fertile. A good grazing t., which manufactures fur, leather, woollens, agricultural implements, etc., to a large amount. The v. contains a bank, an academy, a dozen stores, and 800 inhabitants. Pop. of t. 1,848.

MOUNT PLEASANT, p. o., Cabarras co., *N. Car.*: on Dutch Buffalo cr. of Rocky r., 93 m. W. by S. Raleigh.

MOUNT PLEASANT, t. and p. v., Westmoreland co., *Penn.*: 139 m. W. by S. Harrisburg. Drained by Jacob's cr. Surface moderately uneven; soil a fertile gravelly loam. A superior farming and grazing t. The v. contains a flouring mill, tannery, several stores, and 700 inhabitants.

MOUNT PLEASANT, p. o., Maury co., *Tenn.*: about 2 m. E. Duck r., 45 m. S. S. W. Nashville.

MOUNT PLEASANT, p. o., Spotsylvania co., *Virg.*: 41 m. N. N. W. Richmond.

MOUNT PLEASANT, t. and p. o., Racine co., *Wisc.*: about 6 m. W. of Lake Michigan, 83 m. E. S. E. Madison. Surface rolling; soil prairie, of great fertility. Grain and dairy products are the staples. Pop. 1,078.

MOUNT PLEASANT p. o., Caldwell par., *La.*: 134 m. N. N. W. Baton Rouge.

MOUNT PLEASANT MILLS, p. o., Union co., *Penn.*: on a branch of W. Mahantango cr., 83 m. N. by W. Harrisburg.

MOUNT POLK, p. o., Benton co., *Ala.*: on an E. branch of Coosa r., 99 m. N. by E. Montgomery.

MOUNT PROSPECT, p. v., Crawford county, *Ind.*: 96 m. S. by W. Indianapolis.

MOUNT PROSPECT, p. o., Whitesides co., *Ill.*: 142 m. N. by W. Springfield.

MOUNT PROSPECT, p. o., Obion county, *Tenn.*: 197 m. W. by N. Nashville.

MOUNT PULASKI, p. o., Sangamon co., *Ill.*: 23 m. E. by N. Springfield.

MOUNT RAINIER, *Oreg. Ter.*: a peak of the Cascade Range, 10,231 feet high, in lat. 46° 47', long. 121° 33'.

MOUNT ROCK, p. o., Cumberland county, *Penn.*: 17 m. W. S. W. Harrisburg.

MOUNT ROSE, p. v., Mercer co., *N. Jer.*: 10 m. N. by E. Trenton.

MOUNT ST. HELENS, *Oreg. Ter.*: a peak of the Cascade Range, 12,000 feet high, on the N. side of Columbia r., in lat. 46° 13'.

MOUNT ST. JOSEPH'S, Shasté co., *Calif.*: a peak of the Sierra Nevada, near the E. line of the State, in lat. 41° 06'.

MOUNT SALEM, p. o., Kanawha county, *Virg.*: 218 m. W. N. W. Richmond.

MOUNT SALEM, p. o., Sussex county, *N. Jer.*: 57 m. N. Trenton.

MOUNT SAVAGE, p. v., Alleghany co., *Md.*: on Jennings Run, 133 m. W. N. W. Annapolis. The Mount Savage Iron Works are located here, and a branch of the Baltimore and Ohio R. R., 10 m. long, diverges from Cumberland to this place. It is one of the best mining regions of the Union.

MOUNT SAVAGE, p. o., Carter county, *Ky.*: 107 m. E. Frankfort.

MOUNT SERENE, p. o., Barbour co., *Ala.*: 66 m. E. S. E. Montgomery.

MOUNT SEWARD, Franklin co., *N. Y.*: a branch of the Adirondack group, with an elevation of 4,000 feet above the ocean.

MOUNT SHASTÉ, Shasté co., *Calif.*: a peak of the Coast Range, 14,390 feet high, in lat. 41° 34', long. 121° 43'.

MOUNT SIDNEY, p. v., Augusta co., *Virg.*: 98 m. W. N. W. Richmond. It is about 4 m. N. of Middle r., and contains an academy, several stores, and 300 inhabitants.

MOUNT SINAI, p. o., Suffolk co., *N. Y.*: on the N. shore of Long Island, 124 m. S. S. E. Albany.

MOUNT SOLON, p. o., Augusta co., *Virg.*: 112 m. W. N. W. Richmond.

MOUNT STERLING, p. o., Choctaw co., *Ala.*: on a W. branch of Tombigbee r., 127 m. W. S. W. Montgomery.

MOUNT STERLING, p. o., Crawford co., *Wisc.*: on Copper creek, about 8 $\frac{1}{2}$ m. E. of the Mississippi, 83 m. W. by N. Madison.

MOUNT STERLING, p. v., and cap. Brown co., *Ill.*: 59 m. W. by N. Springfield. It contains a court-house and jail, an academy, several stores, and 500 inhabitants.

MOUNT STERLING, p. v., Switzerland co., *Ind.*: about 1 m. E. of Indian cr., and 4 m. N. of the Ohio, 87 m. S. E. Indianapolis.

MOUNT STERLING, p. v., and cap. Montgomery co., *Ky.*: 52 m. E. by S. Frankfort. It has a large trade in live-stock and hemp, and the products of a rich grain region, and contains a court-house, and jail, an academy, a dozen stores, and 700 inhabitants. The "Kentucky Whig" is published weekly.

MOUNT STERLING, p. o., Gasconade co., *Mo.*: on the E. side of Gasconade r., 82 m. E. by S. Jefferson City.

MOUNT STERLING, p. v., Madison co., *Ohio*: on Deer cr., 21 m. S. S. W. Columbus. Pop. 117.

MOUNT SUMNER, p. o., Jo Daviess co., *Ill.*: 189 m. N. Springfield.

MOUNT SURPRISE, p. o., Luzerne co., *Penn.*: 67 m. N. E. Harrisburg.

MOUNT SYLVAN, p. o., Lafayette county, *Miss.*: 138 m. N. by E. Jackson.

MOUNT SYLVANIA, p. o., Washington co., *Oreg. Ter.*: about 53 m. N. by E. Salem.

MOUNT TABOR, p. v., Monroe co., *Ind.*: on Bean Blossom cr., about 2 m. E. of the New Albany and Salem R. R., 89 m. S. W. by S. Indianapolis.

MOUNT TABOR, p. o., Union dist., *S. Car.*: about 8 m. W. of Broad r., 57 m. N. N. W. Columbia.

MOUNT TIEZAH, p. o., Person co., *N. Car.*: about 3 m. E. of Flat r., a head stream of the Neuse, 41 m. N. N. W. Raleigh.

MOUNT TOM, Hampshire co., *Mass.*: lies on the W. bank of Connecticut r., opposite Mount Holyoke, and is 1,214 feet high. It belongs to a range, which E. of the river takes the name of Holyoke, and extends S. to near New Haven.

MOUNT ULLAH, p. o., Rowan county, *N. Car.*: 104 m. W. Raleigh.

MOUNT UNION, p. v., Stark co., *Ohio*: 113 m. N. E. by E. Columbus. It is about 3 m. W. of the Cleveland and Pittsburgh R. R., and 1 m. S. of the Ohio and Pennsylvania Railroad.

MOUNT UNION, p. o. and sta., Huntingdon co., *Penn.*: on the Juniata, 57 m. W. by N. Harrisburg. The station is 11 m. E. of Huntingdon, on the E. division of the Pennsylvania R. R.

MOUNT UPTON, p. v., Chenango co., *N. Y.*: on the W. side of Unadilla r., 89 m. W. by S. Albany. It contains several stores and mills, and 400 inhabitants.

MOUNT VERNON, p. v., Mobile co., *Ala.*: about 4 m. S. of Mobile r., 134 m. S. W. Montgomery. It contains a U. S. arsenal, several stores, and about 400 inhabitants.

MOUNT VERNON, p. v., and cap. St. Francis co., *Ark.*: about 5 m. W. of St. Francis r., 83 m. E. by N. Little Rock. It contains a court-house and jail, several stores, and a population of 300.

MOUNT VERNON, p. v., and cap. Jefferson co., *Ill.*: on a branch of Big Muddy r. It E. side of Casey's Prairie, 109 m. S. S. E. Springfield. It contains a court-house and jail, several stores, and 300 inhabitants.

MOUNT VERNON, p. v., and cap. Posey co., *Ind.*: on the Ohio r., 16 m. above the mouth of the Wabash, 153 m. S. W. by S. Indianapolis. It is built on a high bank, and contains a court-house, jail, academy, numerous stores and warehouses, several flouring-mills, and 1,200 inhabitants. It commands a large trade with the interior and on the river. The "South-western Advocate," neutral in politics, is published weekly.

MOUNT VERNON, t. and p. o., Kennebec co., *Me.*: 15 m. N. W. Augusta. It contains several large ponds, from which it is well supplied with water-power, and has a very fertile soil. A superior farming t., and well timbered. Pop. 1,479.

MOUNT VERNON, p. v., and cap. Rock Castle co., *Ky.*: 64 m. S. S. E. Frankfort. It contains a court-house, jail, several stores, and a population of 250. The Knoxville and Lexington R. will pass through it.

MOUNT VERNON, p. v., and cap. Montgomery co., *Ga.*: on the E. side of Oconee r., 76 m. S. S. E. Milledgeville.

MOUNT VERNON, p. o., Macomb county, *Mich.*: 82 m. E. Lansing.

MOUNT VERNON, p. o., Wabashaw co., *Minn. Ter.*

MOUNT VERNON, p. o., Lawrence co., *Mo.*: 132 m. S. W. Jefferson City.

MOUNT VERNON, t. and p. o., Hillsboro' co., *N. Hamp.*: 24 m. S. S. W. Concord. Drained by branches of Souhegan r., which afford good mill-sites. Surface elevated and uneven; soil adapted to grazing, which is the principal business. The v. lies on high ground, and contains an academy and several stores. Pop. of t. 722.

MOUNT VERNON, p. o., Westchester co., *N. Y.*: 109 m. S. Albany.

MOUNT VERNON, p. o., Rowan co., *N. Car.*: 97 m. W. Raleigh.

MOUNT VERNON, p. v., and cap. Knox co., *Ohio*: on Vernon r., 37 m. N. E. Columbus. The river supplies water-power, and the trade of a rich agricultural district centres here, giving it importance as a manufacturing and commercial place, which is much increased by its railroad communication. The Sandusky, Mansfield, and Newark R. R. passes through it, 24 m. N. of Newark and 36 m. S. of Mansfield, and will be intersected here by the Springfield, Mount Vernon, and Pittsburg R. R., which will bring it near markets for its produce and manufactures in all directions. It contains an elegant court-house, a jail, an academy, a bank, several flouring-mills, foundries, manufactories of railroad equipments, etc. Three newspapers are published weekly, the "Democratic Banner," "M. V. Free Whig," and "Ohio Times" (free soil). Pop. 3,710.

MOUNT VERNON, p. o., Linn co., *Ia.*: N. Iowa City.

MOUNT VERNON, p. o., Chester co., *Penn.*: 58 m. E. S. E. Harrisburg.

MOUNT VERNON, p. v., Providence co., *R. I.*: on a small branch of Moosup r., 17 m. W. by S. Providence.

MOUNT VERNON, p. o., Monroe co., *Tenn.*: 143 m. E. S. E. Nashville.

MOUNT VERNON, Fairfax co., *Virg.*: on the W. side of the Potomac, 6 m. below Alexandria, was the residence of George Washington. Here he died, and here, on an eminence commanding a wide view of the noble river, his remains repose.

MOUNT VIEW, p. o., Davidson co., *Tenn.*

MOUNT VIEW, p. o., Benton co., *Mo.*: 63 m. W. S. W. Jefferson City.

MOUNTVILLE, p. v. and sta., Lancaster co., *Penn.*: 8 m. W. of Lancaster, on the Columbia and Philadelphia R. R., 23 m. S. E. by E. Harrisburg.

MOUNTVILLE, p. v., Troup county, *Ga.*: 109 miles W. Milledgeville.

MOUNTVILLE, p. o., Laurens district, *S. Car.*: 58 m. N. W. by W. Columbia.

MOUNTVILLE, p. o., Loudon county, *Virg.*: 89 m. N. Richmond.

MOUNT VINOO, p. o., Buckingham co., *Virg.*: 64 m. W. Richmond.

MOUNT VISION, p. v., Otsego co., *N. Y.*: on Otsego cr. of Susquehanna r., 70 m. W. Albany. It contains a woolen factory and several mills.

MOUNT WARREN, p. o., Weakley county, *Tenn.*: 112 m. W. by N. Nashville.

MOUNT WASHINGTON, p. o., Morgan county, *Ind.*: 27 m. S. W. Indianapolis.

MOUNT WASHINGTON, p. o., Bullitt co., *Ky.*: about 4 m. N. of Salt r., 88 m. W. S. W. Frankfort.

MOUNT WASHINGTON, Coos co., *N. Hamp.*: is the highest peak of the White Mountains, being 6,428 feet above the ocean level. Its top, always covered with snow, is visible to mariners when more than 50 m. from shore, or about 125 m. distant.

MOUNT WASHINGTON, p. o., Steuben co., *N. Y.*: 182 m. W. by S. Albany.

MOUNT WASHINGTON, t. and p. o., Berkshire co., *Mass.*: in the S. W. corner of the State, 126 m. W. by S. Boston. Drained by affluents of Salmon cr., which furnish many mill-seats. Surface mountainous. The Taghconnie range crosses the t., and one of its peaks is 3,150 feet high. Wool-growing is the leading interest. Timber is abundant, and iron ore is found. Pop. 351.

MOUNT WASHINGTON, p. o., Hamilton co., *Ohio*: 98 m. S. W. by W. Columbus.

MOUNT WELCOME, p. o., Clay county, *Ky.*: 95 m. S. E. Frankfort.

MOUNT WILLING, p. o., Lowndes co., *Ala.*: 32 m. S. W. Montgomery.

MOUNT WILLING, p. o., East Feliciana par., *La.*: 19 m. N. Baton Rouge. It is about 10 miles N. E. of Port Hudson, and on the line of the Clinton and Port Hudson Railroad.

MOUNT WILLING, p. o., Orange co., *N. Car.*: about 6 m. E. of Haw r., 43 m. W. N. W. Raleigh.

MOUNT WILLING, p. o., Edgefield dist., *S. Car.*: 36 m. W. Columbia.

MOUNT WOLF, p. o., York county, *Penn.*: 13 m. S. Harrisburg.

MOUNT YONAH, p. o., Habersham co., *Ga.*: on Chestate river, 118 m. N. by W. Milledgeville.

MOUNT ZION, p. o., Tallapoosa county, *Ala.*: 37 m. N. E. Montgomery.

MOUNT ZION, p. v., Hancock county, *Ga.*: 25 m. N. E. Milledgeville. Here are an academy and several stores.

MOUNT ZION, p. o., Lebanon co., *Penn.*: 23 m. E. by N. Harrisburg.

MUD CREEK, p. o., Henderson co., *N. Car.*: on an E. branch of French Broad r., so named, 219 m. W. by S. Raleigh.

MUDDY CREEK, p. o., Preston co., *Virg.*: 192 m. N. W. Richmond.

MUDDY CREEK, p. o., Forsyth co., *N. Car.*: on an E. branch of the Yaddin, 93 m. W. by N. Raleigh.

MUDDY CREEK FORKS, p. o., York co., *Penn.*: 37 m. S. E. Harrisburg.

MUDDY FORK, p. o., Cleveland co., *N. Car.*: on a fork of Buffalo cr., 143 m. W. by S. Raleigh.

MUDDY LANE, p. o., McDonough co., *Ill.*: 82 m. N. W. Springfield.

MUD LICK, p. o., Chatham co., *N. Car.*: 46 m. W. by N. Raleigh.

MUD SPRING, p. o., El Dorado co., *Calif.*: 103 m. E. N. E. Vallejo.

MUD SPRING, p. o., Denton co., *Tex.*: 206 m. N. by E. Austin City.

MUHLBURG county, *Ky.* Situate W. centrally, and contains 583 sq. m. Green r. forms its N. E. and Pond r. its W. boundary, and it is drained by Cypress, Clifty, Big Muddy, and other creeks of Green r. Surface varied, and soil of good quality in most parts. Corn and wheat are the staples, and tobacco thriving in the best land. Raising cattle and sheep, and fattening pork are objects of much attention, and furnish valuable exports, especially of the last. The county possesses good water-power, and manufactures iron castings, flour, and leather. Farms 921; manuf. 16; dwell. 1,451, and pop.—wh. 3,250, fr. col. 37, sl. 1,522—total 9,809. *Capital*: Greenville.

MUHLBURG, p. o., Luzerne co., *Penn.*: 84 m. N. N. E. Harrisburg.

MUKER, p. o., Washington co., *Wisc.*: 69 m. E. by N. Madison.

MUKWA, p. v., and cap. Waupaca co., *Wisc.*: on Wolf r., near the confluence of Waupaca r., 92 m. N. by E. Madison. It is a well located and growing v. in a newly-organized county.

MUKWANAGO, t. and p. o., Waukesha co., *Wisc.*: 56 m. E. by S. Madison. Drained by affluents of Fox r. Surface level, and soil adapted to grain. The Milwaukee and Mississippi R. R. passes through the N. W. corner. Population 1,094.

MULBERRY, p. o., Autauga co., *Ala.*: 23 m. W. by N. Montgomery.

MULBERRY, p. o., Jackson co., *Ga.*: 79 m. N. N. W. Milledgeville.

MULBERRY, p. o., Wilkes co., *N. Car.*: 139 m. W. N. W. Raleigh.

MULBERRY, p. v., Clermont co., *Ohio*: 84 m. S. W. by W. Columbus.

MULBERRY, p. o., Lincoln co., *Tenn.*: on a branch of Elk r., 63 m. S. by E. Nashville.

MULBERRY, river, *Ala.*: a large W. branch of the Black Warrior, rises in the N. part of Blount county, flows nearly parallel to the main stream in a S. W. course for 85 miles, and empties into it on the W. line of Jefferson county. It crosses a region rich in deposits of coal.

MULBERRY CORNERS, p. v., Geauga co., *Ohio*: 133 m. N. E. Columbus.

MULBERRY GAP, p. o., Hancock co., *Tenn.*: about 3 m. S. of Powell's r., 199 m. E. by N. Nashville.

MULBERRY GROVE, p. o., Harris co., *Ga.*: about 6 m. E. of Chattahoochee r., 111 m. W. by S. Milledgeville.

MULBERRY GROVE, p. o., Bond co., *Ill.*: about 8 m. W. of Hurricane cr., 62 m. S. S. E. Springfield.

MULBERRY GROVE, p. o., Hopkins county, *Ky.*: 163 m. W. S. W. Frankfort.

MULL GROVE, p. o., Lincoln county, *N. Car.*: 152 m. W. by S. Raleigh.

MULLIGAN (or LITTLE EGG HARBOR) river, *N. Jer.*: rises among the heads of Rancocas cr., and flows S. E. between Burlington and Atlantic counties, into Great Bay and the Atlantic Ocean. Vessels of 60 tons can ascend it 20 miles.

MULLICO HILL, p. v., Gloucester county, *N. Jer.*: on Raccoon cr., 41 m. S. W. Trenton. It contains several stores, and about 500 inhabitants.

MULLINGAR, p. o., Warren co., *Penn.*: 158 m. N. W. by W. Harrisburg.

MULLOY'S, p. o., Robertson co., *Tenn.*: 26 m. N. by W. Nashville.

MULTONOMAH island, *Oreg. Ter.*: lies in Columbia r., and extends 15 m. down the r., from the mouth of the Willamette, varying in width from 1 to 2 miles.

MUMFORD, p. v., Monroe co., *N. Y.*: 212 m. W. by N. Albany. It contains several stores and mills, and 300 inhabitants.

MUNCIE TOWN, p. v., and cap. Delaware co., *Ind.*: on the S. side of White r., 48 m. N. E. by E. Indianapolis. It is regularly built on elevated ground, and has a heavy trade in the products of a rich grain region. It contains a court-house and jail, an academy, 20 stores, and 1,000 inhabitants. Two newspapers, the "Whig Banner" and "Muncietonian," are published weekly. It is on the Indianapolis and Bellefontaine R. R., 13 m. E. of Andersonstown, and will be intersected by the Fort Wayne and Southern R. R.

MUNCY, p. b., Lycoming co., *Penn.*: about 1 m. E. of the Susquehanna, and S. of Muncy cr., 64 m. N. Harrisburg. It is largely engaged in the lumber trade, and contains a dozen stores, and 910 inhabitants. The W. branch division of the Pennsylvania Canal passes it 24 m. N. of Northumberland. The "M. Luminary" (whig) is issued here weekly. The t. is Muncy Creek, and has a hilly surface and clayey soil; drained by Big and Little Muncy creeks. It is well timbered, and contains several woolen factories.

MUNDY, t. and p. o., Genesee co., *Mich.*: 45 m. E. by N. Lansing. Drained by Swartz's cr. and other S. affluents of Flint r., which supply good water-power. Surface rolling; soil sandy loam, in parts covered with pine. Pop. 786.

MUNFORDSVILLE, p. v., and cap. Hart co., *Ky.*: on the N. side of Green r., 79 m. S. W. Frankfort. It has a valuable trade in corn and tobacco, and contains a court-house and jail, several stores, and 850 inhabitants.

MUNGER'S MILLS, p. o., Shannon co., *Mo.*: 98 m. S. E. by S. Jefferson City.

MUNGO PARK, p. o., Washington co., *Penn.*: 184 m. W. Harrisburg.

MUNNSVILLE, p. v., Madison co., *N. Y.*: on Oneida cr., 98 m. W. by N. Albany. It contains a flouring mill, several stores, and 400 inhabitants.

MUNTOWN, p. v., Washington co., *Penn.*: 168 m. W. Harrisburg.

MUNNVILLE, p. v., Coshocot co., *Ohio*: 63 m. E. N. E. Columbus.

MUNSONVILLE, Putnam county, *Flor.*: 168 m. E. S. E. Tallahassee.

MUNSONVILLE, p. v., Cheshire county, *N. Hamp.*: 83 m. W. S. W. Concord.

MURAT, p. o., Paulding co., *Ohio*: 118 m. N. W. by W. Columbus.

MURDOCKSVILLE, p. v., Washington co., *Penn.*: 176 m. W. Harrisburg.

MURFEE'S DEPÔT, p. o., Southampton co., *Virg.*: 52 m. S. S. E. Richmond.

MURFREESBORO', p. v., Pike co., *Ark.*: on the E. side of Hickory cr. of Little Missouri r., 97 m. S. W. by W. Little Rock.

MURFREESBORO', p. v., Hertford co., *N. Car.*: on the S. side of Meherrin r., 93 m. E. N. E. Raleigh. It contains an academy and several stores, and has a large trade in lumber.

MURFREESBORO', p. b., and cap. Rutherford co., *Tenn.*: on a branch of Stone r., 23 m. S. E. Nashville. It is well laid out on an eminence overlooking a very fertile region of corn and tobacco land, and is neatly built, mostly with brick. It was formerly the capital of the State; and has a heavy trade in the products of a large and highly cultivated district. It contains a court-house, jail, bank, an academy, college, many large stores and warehouses, and about 2,000 inhabitants. Union College was founded here, in 1843, and in 1850 had 5 instructors, 6 alumni, 100 students, and 2,000 volumes in its library. The "R. Telegraph" (whig), and "Circle of Honor" (temp.), are published weekly. It is on the Nashville and Chattanooga R. R., 32 m. from Nashville.

MURFREY, p. v., and cap. Cherokee co., *N. Car.*: at the confluence of Valley and Hiwassee rivers, 313 m. W. by S. Raleigh. It lies in a valley, with a superior farming district around it, and several thriving manufactories in the vicinity. It contains a court-house and jail, an academy, and 400 inhabitants. The "Cherokee Sentinel" is published weekly.

MURFEE'S VALLEY, p. o., Blount co., *Ala.*: 107 m. N. Montgomery.

MURPHY'S, p. o., Calaveras co., *Calif.*: on Stanislaus r., 94 m. E. by S. Vallejo.

MURPHYSBOROUGH, p. v., and cap. Jackson co., *Ill.*: on the right bank of Big Muddy r., 143 m. S. by E. Springfield. It has a valuable trade, and ships large quantities of grain down the r. It contains a court-house and jail, several stores and warehouses, and 500 inhabitants.

MURPHYSVILLE, p. v., Mason co., *Ky.*: on an E. branch of Licking r., 67 m. E. N. E. Frankfort.

MURRAY county, *Ga.* Situate N. W., and contains 586 sq. m. Drained by Coosawatee and Connasauga rivers, head waters of the Coosa. Surface much broken by ranges of hills and mountain spurs, but finely diversified with valleys of good size and great fertility. Corn is the largest product; wheat of excellent quality and some cotton are grown. Superior grazing abounds, fine dairies are kept, and wool is sheared largely. The streams furnish many mill-seats, which are fast being occupied with flourishing manufactories. Iron ore is found, and valuable mineral springs. Farms 1,034; manuf. 25; dwell. 2,047, and pop.—wh. 12,492, fr. col. 11, sl. 1,930—total, 14,433. *Capital*: Spring Place. *Public Works*: East Tennessee and Georgia R. R., and Western and Atlantic R. R.

MURRAY, p. o., Wells co., *Ind.*: 73 m. N. E. Indianapolis.

MURRAY, p. v., Callaway co., *Ky.*: on the E. side of Clark's r., 213 m. S. W. by W. Frankfort. It was for a time the capital of the county, and contains several stores, and 200 inhabitants.

MURRAY, t. and p. o., Orleans co., *N. Y.*: 10 m. S. of Lake Ontario, 223 m. W. by N. Albany. Drained by Sandy and Little Salmon creeks flowing into the lake, which furnish good mill-seats. Surface nearly level; soil fertile. It is a fine grazing t., with several thriving manufacturing villages in it. The Rochester, Lockport, and Niagara Falls R. R. and Erie Canal pass through it. Murray sta. is 25 m. W. of Rochester. Pop. 2,520.

MURRAY'S FERRY, p. o., Williamsburg dist., *S. Car.*: 66 m. E. S. E. Columbia.

MURRAYSVILLE, p. v., Jackson co., *Virg.*: on the Ohio r., 253 m. W. N. W. Richmond. It occupies a narrow tongue, with the r. on the N. and S., and is engaged in boat-building.

MURRELL'S SHOP, p. o., Nelson co., *Virg.*: 74 m. W. by N. Richmond.

MURRINSVILLE, p. v., Butler co., *Penn.*: 168 m. W. N. W. Harrisburg.

MURRYSVILLE, p. v., Westmoreland co., *Penn.*: on an E. branch of the Monongahela, 144 m. W. by N. Harrisburg. It contains several stores and a woolen factory.

MUSCATINE county, *Ia.* Situate S. E., and contains 441 sq. m. Bounded S. E. by the Mississippi, and drained by Cedar r. and its branches. Surface rolling; soil very fertile. Corn, wheat, oats, and potatoes, are excellent crops. It is a very fine farming county, and almost as good for grazing. The streams afford abundant water-power, and the location is very favorable for commerce, making it the thoroughfare of the immigration and transportation of a large back country. Farms 460; manuf. 19; dwell. 999, and pop.—wh. 5,663, fr. col. 68—total 5,731. *Capital:* Muscatine.

MUSCATINE (formerly BLOOMINGTON), p. v., and cap. Muscatine co., *Ia.*: on the Mississippi, 82 miles below Davenport, 31 m. S. E. by E. Iowa City. It has an excellent steamboat landing, and is a large commercial place, being the shipping port of the rich district between Iowa City and the Mississippi, the trade of which it mostly commands. It has advantages for trade and commerce which must make it a place of great wealth and importance. It contains a court-house, jail, 2 academies, several handsome churches, numerous large stores and warehouses, and 2,534 inhabitants. Two weekly papers are published—the “Democratic Inquirer” and “M. Journal.”

MUSCODA, p. o., Grant co., *Wisc.*: on the S. side of Wisconsin r., 54 m. W. by N. Madison.

MUSCOGEE county, *Ga.* Situate middle on W. line, and contains 376 sq. m. Drained by Apotai cr. and smaller tributaries of the Chattahoochee, which forms the W. boundary. Surface diversified; soil exceedingly fertile on the large streams, and generally of good quality. Cotton is the staple. Corn is a fine crop, and good wheat is grown. Water-power in abundance is furnished by the falls of the Chattahoochee, and large manufactories of cotton and woolen goods are in successful operation on and near that river. The same stream, being navigable at all seasons, affords great facilities for the transportation of the products of a large and fertile region, which pass through this county. Farms 581; manuf. 90; dwell. 1,884, and pop.—wh. 10,360, fr. col. 62, sl. 8,156—total 13,576. *Capital:* Columbus. *Public Works:* Muscogee R. R.

MUSH CREEK, p. o., Greenville dist., *S. Car.*: 93 m. N. W. Columbia.

MUSHULAVILLE, p. o., Noxubee co., *Miss.*: 108 m. N. E. Jackson.

MUSKEGO, p. o., Milwaukee co., *Wisc.*: 72 m. E. by S. Madison.

MUSKEGO CENTRE, p. o., Waukesha co., *Wisc.*: 67 m. E. by S. Madison.

MUSKEGON, t. and p. o., Ottawa county, *Mich.*: 85 m. W. N. W. Lansing. Drained by Muskegon r. and its branches. Surface even, and soil very productive and heavily timbered with oak and pine. Marl is found in large quantities. Pop. 494.

MUSKET, p. o., Navarro county, *Tex.*: 146 m. N. N. E. Austin City.

MUSKINGUM county, *Ohio.* Situate S. E. centrally, and contains 809 sq. m. Drained by Muskingum r. and its branches, Licking r. and Wills' and Salt creeks, which afford almost unlimited water-power. Surface somewhat hilly; soil of great fertility, equally adapted to grass and grain. Wheat and corn are the great staples, and the crops very large. Most of the grains thrive. Large dairies are kept, and great numbers of sheep and swine raised. The county contains valuable salt springs, which formerly yielded immense quantities of salt. The product, though much less now, is still large. It has large beds of bituminous coal and quarries of burr stone, much used for mill-stones, and a superior clay for pottery. Its manufactures are various and very large—flour, stone and earthen-ware, salt, cotton and woolen goods, leather, distilled and malt liquors, iron castings, and machinery being the principal. Farms 2,680; manuf. 853; dwell. 7,757, and pop.—wh. 44,421, fr. col. 628—total 45,049. *Capital:* Zanesville. *Public Works:* Ohio

Canal; Cleveland, Zanesville, and Cincinnati R. R.; Central Ohio R. R.; Cincinnati, Wilmington, and Zanesville Railroad.

MUSKINGUM, t. and p. o., Muskingum co., *Ohio*: 49 m. E. by N. Columbus. Bounded E. by Muskingum r., and drained by a branch of the Licking. Surface slightly uneven; soil very fertile. It has numerous salt springs. Pop. 1,509.

MUSKINGUM RIVER, *Ohio*: formed by the union at Coshocton of Walhonding and Tuscarawas rivers, which rise in the S. part of the Connecticut Reserve, flows about 120 m. in a S. E. course, and empties into the Ohio at Marietta. It is 225 yards wide at the mouth, and by means of locks, dams, and short canals is navigable 96 m. to Dresden. The Ohio Canal here connects with it by a side cut, and proceeds up the valley of the Tuscarawas, and the Walhonding Canal follows the other constituent, diverging from the former at Roscoe. The numerous falls of the river afford almost unlimited water-power.

MUSTANG, p. o., Lavaca county, *Tex.*: 76 m. S. S. E. Austin City.

MUTUAL, p. o., Champaign co., *Ohio*: 46 m. W. by N. Columbus.

MYATTE, p. o., Fulton co., *Ark.*: on a creek so called, a N. affluent of Spring r., 118 m. N. by E. Little Rock.

MYERSBURG, p. v., Bradford co., *Penn.*: 93 m. N. by E. Harrisburg.

MYERSTOWN, p. v., Lebanon co., *Penn.*: on Tulpehocken cr. and the Union Canal, 81 m. E. by N. Harrisburg. The “M. Gazette” (dem.) is published weekly. Pop. 400.

MYERSVILLE, p. v., Frederick county, *Md.*: 67 m. N. W. Annapolis.

MYERS' MILLS, p. o., Vermillion co., *Ill.*: on the N. fork of Big Vermillion r., 109 m. E. by N. Springfield.

MYRICK'S, sta., Bristol co., *Mass.*: on the Fall River R. R. and New Bedford and Taunton R. R. at their intersection, 12 m. from Fall River and 14 m. from New Bedford.

MYRTLE SPRINGS, p. o., Bowie co., *Tex.*: 291 m. N. E. Austin City.

MYSTIC, p. v., New London county, *Conn.*: on Mystic r., 45 m. S. E. Hartford.

MYSTIC BRIDGE, p. v., New London county, *Conn.*: on Mystic r., 2 m. above its mouth, 48 m. S. E. Hartford. The v. lies on both sides of the river, which is spanned by a toll bridge, and is navigable for vessels of 400 tons burden. Ship-building and the coasting and West India trade are the leading interests of the v., which contains 2 banks, an academy, and about 1,000 inhabitants.

MYSTIC RIVER, p. o., New London co., *Conn.*: 47 m. S. E. Hartford.

N.

NAAMAN'S CREEK, p. o. and sta., New Castle co., *Del.*: on Naaman's cr. of Delaware r., and on the Philadelphia and Baltimore R. R., 20 m. S. W. Philadelphia.

NAAUSAY, p. o., Kendall county, *Ill.*: 135 m. N. N. E. Springfield.

NACOGDOCHES county, *Tex.* Situate toward the N. E., and contains 948 sq. m. Drained by branches of Attoyac r., which forms its western boundary, and by branches of Angelina r., which runs on the S. W. and W. Surface level, or gently undulating; soil very fertile, particularly on the Attoyac and Angelina rivers, where the land is rich and well adapted to the culture of cotton, corn, and fruits of different kinds. Grapes are abundant, and might, with cultivation, be rendered valuable. It is well wooded, and has some fine springs and streams of clear running water of excellent quality. It contains some minerals. Farms 237; manuf. 8; dwell. 631, and pop.—wh. 3,753, fr. col. 81, sl. 1,404—total 5,193. *Capital:* Nacogdoches. *Public Works:* Spanish Military Road.

NACOGDOCHES, p. v., and cap. Nacogdoches co., *Tex.*: is on an elevated angular plain, between and above the junction of the beautiful streams Bonito, on the W., and Lanana, on the E., the main branches of Bayou Lanana, 210 m. N. E. by E. Austin City. This v. was one among the first settled by the Spanish in Texas, and grew to considerable importance; but under the wars with Mexico it suffered greatly. In 1832, the Mexican Centralist troops were expelled by the citizens and inhabitants of the neighboring country. It is now rapidly progressing in prosperity.

NACOOCHIE, p. o., Habersham co., *Ga.*: 118 m. N. by W. Milledgeville.

NAGLESVILLE, p. v., Monroe county, *Penn.*: 96 m. N. E. Harrisburg. Cobb's Gap R. R. passes through this village.

NAHANT, peninsula and p. o., Essex co., *Mass.*: 9 m. N. E. Boston. This peninsula is part of the town of Lynn, from which it projects S. 4 m. into Massachusetts Bay, forming on the E. side Nahant Bay, and on the W. side Lynn Harbor. It consists of four parts: Long Beach, Little Nahant, Bass Neck or Nahant Beach, and Great Nahant. Long Beach, which connects it with Lynn, is $\frac{1}{4}$ m. in length, smooth and very hard, affording a most delightful ride. Little Nahant contains 42 acres, of which a part is cultivated. Bass Neck connects this with the outer and main portion of the peninsula, called Great Nahant, or more generally, Nahant, which is 2 m. long, in parts $\frac{1}{4}$ m. wide, and contains 463 acres. The surface is uneven, being from 40 to 100 feet above the level of the sea. The shores mostly consist of precipitous rocks, with a great depth of water below. At times the roar of the ocean surge is sublime. In fair weather the scenery is delightful. During the summer months it is greatly resorted to from Boston and vicinity, by steamboats hourly plying. A large hotel and other boarding-houses provide excellent accommodations.

NAIMYOO bay, Door co., *Wisc.*: an inlet of Green Bay, W. from Sturgeon Bay.

NAHUNTA, p. o. and sta., Wayne co., *N. Car.*: on Wilmington and Weldon R. R., 10 m. N. Goldsboro', 42 m. E. S. E. Raleigh.

NAIL FACTORY, p. o., Gaston county, *N. Car.*: 138 m. W. S. W. Raleigh.

NAIKIN, p. o., Scioto co., *Ohio*: 75 m. S. by E. Columbus.

NAMAHUTUN, p. o., Marquette co., *Wisc.*: 55 m. N. by E. Madison.

NAMASKET river, Bristol co., *Mass.*: unites with Bridge-water r. in Taunton.

NAMBEIN lake, La Pointe co., *Wisc.*: one of the sources of Bad r., 24 m. S. S. W. from its entrance into Lake Superior.

NAMEKEGON river, La Pointe co., *Wisc.*: rises in Nidjikwe lake, drains S. part of La Pointe county, and is a head branch of St. Croix river.

NAMOZINE, p. o., Amelia co., *Virg.*: on Namozine cr., 27 m. W. S. W. Richmond.

NANAFALIA, p. v., Marengo co., *Ala.*: on the E. side of Tombigbee r., 1 m. from the bluff and landing, 99 m. W. by S. Montgomery.

NANCEMONT, p. o., Cass co., *Ill.*: 24 m. N. W. by W. Springfield.

NANJEMOY, p. v., Charles co., *Md.*: W. of Nanjemoy Bay, 47 m. S. W. Annapolis, is a port, and has considerable trade.

NANJEMOY bay, Charles co., *Md.*: a small inlet on E. side of Potomac r., 8 m. S. W. Port Tobacco.

NANKIN, t. and p. o., Wayne co., *Mich.*: 64 m. E. S. E. Lansing. Drained by the W. and S. branches of Rouge r. Surface undulating; soil sandy loam; is first-rate grass land. There is considerable water-power on both branches of the Rouge. The greater portion of this and adjoining towns is heavily timbered. Pop. 1,617.

NANKIN, p. v., Ashland co., *Ohio*: on a branch of Wal-bonding r., 14 m. N. N. E. Columbus.

NANSEMOND county, *Virg.* Situate S. E., and contains

444 sq. m. Drained by branches of Nansemond r., which falls into James r., on the N. border. Surface even; soil in general fertile, and produces good crops of cotton, Indian corn, etc. It contains a portion of the Dismal Swamp and Lake Drummond, which supplies the Dismal Swamp Canal by a feeder five miles long. Farms 731; manuf. 32; dwell. 1,523, and pop.—wh. 5,425, fr. col. 2,143, sl. 4,715—total 12,233. *Capital*: Suffolk. *Public Works*: Sen-board and Roanoke R. R.; Petersburg and Norfolk R. R.; Dismal Swamp Canal, etc.

NANSEMOND river, Nansemond co., *Virg.*: rises in Dismal Swamp, and from Suffolk to its entrance into Hampton Roads, is navigable for vessels of 100 tons.

NANTASKET, sta., Plymouth co., *Mass.*: on South Shore R. R., 19 m. from Boston.

NANTASKET BEACH, peninsula, Plymouth co., *Mass.*: 9 m. E. S. E. Boston. This peninsula, in Boston harbor, which is part of the ancient town of Hull, is now a place of much resort during the summer months from Boston and vicinity. A fine steamboat makes several trips daily. Here are numerous houses of entertainment, opportunities for bathing, fishing, etc.

NANTASKET ROAD, *Mass.*: one of the main entrances into Boston harbor, S. of the light-house; affords good anchorage, with five or six fathoms water.

NANTICOKE river, *Del.* and *Md.*: rises in Sussex co., *Del.*, flows S. W. in Md., receives Marshy Hope r., and enters a branch of Chesapeake bay, by a wide estuary, 45 m. from its source.

NANTICOKE, hund., Sussex co., *Del.*: 30 m. S. Dover. Drained by creeks of Nanticoke r., which form its W. boundary. Area, 63,910 acres.

NANTICOKE, p. v., Luzerne co., *Penn.*: on S. side of E. branch of Susquehanna r., 75 m. N. E. by N. Harrisburg.

NANTICOKE FALLS, *Penn.*: in Susquehanna r., 8 m. below Wilkesbarre. A dam which is here erected for feeding the North Branch Canal, supplies a vast quantity of surplus water and great water-power.

NANTICOKE SPRINGS, p. v., Broome co., *N. Y.*: 126 m. W. by S. Albany. Contains a sulphur-spring, hotel, etc. The v. is in t. of Nanticoke, which is drained by head branches of Nanticoke r.; has undulating surface. Pop. of t. 576.

NANTUCKET county, *Mass.*: situate in the Atlantic ocean, and comprising the island of Nantucket and other smaller islands adjacent; the main island is distant from Martha's Vineyard 10 m. E., and from Cape Cod 30 m. S., and contains an area of 50 sq. m. Surface in the S. level, in the N. somewhat elevated; soil in general barren, and no tree or shrub of any size is to be found on the island. Most of the land is common, on which large numbers of cattle are fed. The inhabitants are chiefly employed in navigation and the fisheries. Off the S. E. of the island are Nantucket Shoals. Farms 58; manuf. 60; dwell. 1,255, and pop.—wh. 8,110, fr. col. 342—total 8,452. *Capital*: Nantucket.

NANTUCKET, port of entry, t., p. v., and cap. Nantucket co., *Mass.*: on N. side of Nantucket island, 90 m. S. S. E. Boston. Lat. N. $41^{\circ} 16' 56''$; long. W. $70^{\circ} 6' 12''$. The v. is situated at the bottom of the bay, which is 6 m. long, and almost entirely land-locked, being divided from the ocean by a narrow beach. The projecting points of beach, which thus lock in the harbor, are $\frac{1}{2}$ m. apart, and furnished with light-houses, as is also the harbor. The harbor is good. Two miles N. of the harbor is a bar, with $7\frac{1}{2}$ ft. of water at low tide. The shore on which the v. is built is more inclined to the water than the rest of the island. It is built very compactly, with narrow streets. In 1846, July 13th, it suffered most severely by a conflagration, which destroyed in a few hours 360 buildings; amount of loss, \$1,000,000; amount insured, \$320,000; number of families who suffered, 450; contributions received from Boston and other places, \$65,000. This place was the first to engage in the whale fisheries, and is still more largely engaged than any other town in the United States, except New Bedford, where this business was estab-

lished by persons from Nantucket. On 30th June, 1850, Nantucket had an aggregate permanent tonnage of 29,012 tons; of which 25,837 were registered, and 3,175 enrolled and licensed. Registered in the whale fishery, 19,055 tons, enrolled and licensed in cod fishery, 408 tons; in mackerel fishery, 592 tons; in coasting trade, 2,180 tons; in steam navigation, 479 tons. The receipts from the whale fishery in 1849 were 17,837 barrels sperm oil, and 6,461 barrels whale oil, and 63,200 pounds whale-bone. The Athenæum has a good building, 2,500 volumes in library, and a valuable collection of curiosities. A steamboat plies daily to New Bedford. The Pacific Bank has a capital of \$200,000. The "N. Inquirer" is published tri-weekly and weekly; the "N. Mirror" (neut.), weekly. Pop. of t. 8,452.

NANUET, p. o., Rockland county, *N. Y.*: 104 m. S. by W. Albany.

NAPA county, *Calif.* Situate W. and to the N. of San Pablo Bay, which lies on its S. border, and receives its drainage by the Napa r. Surface mountainous with extensive valleys; the Coast Range traversing it. Pop. in 1858, 2,116. *Capital*: Napa.

NAPA, p. v., and cap. Napa co., *Calif.*: on E. bank of Napa cr., 26 m. N. N. W. Vallejo, in the centre of one of the most beautiful, fertile, and extensive valleys which border on San Pablo bay, and promising to become the flourishing centre of this rich agricultural district.

NAPANOCK, p. v., Ulster county, *N. Y.*: 70 m. S. S. W. Albany, on Rondout cr., $\frac{1}{4}$ m. from Delaware and Hudson Canal.

NAPEVILLE, p. v., and cap. Du Page co., *Ill.*: on E. side of W. fork of Du Page r., 161 m. N. E. by N. Springfield. Contains the court-house and county buildings. Two newspapers are issued weekly—"Du Page County Recorder" (dem.), and "Democratic Plaindealer" (dem.) Pop. 2,000.

NAPLES, t. p. v., and sta., Scott co., *Ill.*: on E. side of Illinois r., 2 m. above the mouth of Mauvaiseterre cr., 30 m. W. Springfield. This is the W. terminus of the Sangamon and Morgan R. R., 55 m. from Springfield. The "N. Observer" (dem.) is issued weekly.

NAPLES, t. and p. o., Cumberland county, *Me.*: N. side of Sebago pond, 60 m. S. W. Augusta. Watered by Sebago and Long ponds, and Crooked and Sango rivers, which afford mill privileges. The v. is on E. side of Long pond, or Bay of Naples. Pop. of t. 1,025.

NAPLES, t. and p. v., Ontario co., *N. Y.*: 192 m. W. Albany. Surface hilly; soil clay loam; drained by inlets of Canandaigua and Honeoye lakes. The v. contains numerous mills and factories. Pop. of t. 2,376.

NAPOLEON, p. v., Desha co., *Ark.*: on W. bank of Mississippi r., at junction of Arkansas r., 99 m. S. E. Little Rock.

NAPOLEON, p. v., Ripley county, *Ind.*: 58 miles S. E. Indianapolis.

NAPOLEON, p. v., Gallatin co., *Ky.*: 42 m. N. Frankfort.

NAPOLEON, t. and p. v., Jackson co., *Mich.*: 41 m. E. S. E. Lansing. The t. is well timbered, has several large lakes, and fine streams. White sandstone of superior quality abounds. Surface undulating; soil rich sandy loam. The v. is in N. E. corner of the t. Pop. of t. 1,208.

NAPOLEON, t. p. v., and cap. Henry county, *Ohio*: on N. bank of Maumee r., 78 m. N. W. Columbus, on the Wabash and Erie Canal. Pop. of t. 566.

NAPOLEONVILLE, p. v., and cap. Assumption par., *La.*: on W. bank of Bayou la Fourche, 36 m. S. by E. Baton Rouge. A newspaper, "Le Pionnier de l'Assumption," is published weekly.

NAPOLI, t. and p. o., Cattaraugus county, *N. Y.*: 204 m. W. by S. Albany. Surface of town undulating; soil good. Drained by Cold Spring cr. Pop. 1,288.

NARRAGANSETT, p. o., Washington co., *R. I.*

NARRAGANSETT bay, *R. I.* This beautiful bay sets up N. from the Atlantic, between Seaconnet rocks on the E. and Point Judith on the W., which are 17 m. apart. It contains the large islands Rhode, Canonicut, Prudence, and numer-

ous small ones, extends N. 29 m., and terminates in Providence r. Its more inland portions are called Providence Bay, Mount Hope Bay, and Greenwich Bay. It is one of the finest bays in the United States, being always accessible, capacious, safe, and deep enough for the largest vessels.

NARRAGUAGUS, p. o., Washington co., *Me.*: on E. bank of Narraguagus r., 96 m. E. by N. Augusta.

NARRAGUAGUS river and bay, Washington co., *Me.*: rises in ponds N. of town of Beddington, runs S. S. E. 85 m., draining the towns of Beddington, Deblois, Cherryfield, and Millbridge, and empties into Narraguagus bay, which contains a number of islands, has a good entrance, and on the E. connects with Pleasant Bay.

NARROWS, p. o., Pike county, *Penn.*: on Laxawason cr., 118 m. N. E. Harrisburg.

NARROWS, p. o., Noddaway county, *Mo.*: 186 m. N. W. Jefferson City.

NARROWS, New York Harbor—the channel from New York Bay to the lower bay, 1 m. wide; defended on Staten Island side by Forts Richmond and Tompkins, and on Long Island side by Forts Hamilton and La Fayette.

NARROWS, p. o., Jefferson county, *N. Y.*: 164 m. N. W. Albany.

NARROWSBURG, p. v., and sta., Sullivan county, *N. Y.*: on Delaware r., 93 m. S. W. Albany; sta. of Erie R. R., 132 m. from New York. Near N. are many tanneries, owing to the abundance of hemlock. The scenery of the vicinity is very beautiful. The "Narrows" of the Delaware r. are crossed by a wooden bridge having a span of 184 feet.

NARROW VALLEY, p. o., Benton co., *Ala.*: 102 m. N. N. E. Montgomery.

NASH county, *N. Car.* Situate toward the N. E., and contains 588 sq. m. Drained by Tar r. and its branches. Surface level; in some parts it is broken; soil in general fertile, and well adapted to grain. On the streams there is much good land, and cotton is grown extensively. Farms 718; manuf. 24; dwell. 1,243, and pop.—wh. 5,972, fr. col. 629, sl. 4,056—total 10,657. *Capital*: Nashville. *Public Works*: Wilmington and Weldon R. R., on its E. border.

NASHOTAH lakes, Waukesha co., *Wisc.*: these two small lakes present a most beautiful appearance. On the E. bank of the N. lake is the Nashotah mission school, college, etc., of the Episcopal Church.

NASHPORT, p. v., Muskingum county, *Ohio*: on N. bank Licking r., and on the Ohio and Erie Canal, 87 m. E. by N. Columbus.

NASH'S FORD, p. o., Russell co., *Virg.*: 247 m. W. S. W. Richmond.

NASH'S STREAM, *N. Hamp.*: a short branch of Upper Ammonoosuck r., draining W. part of towns of Stratford and Northumberland.

NASHUA, t. and p. v., Hillsboro' co., *N. Hamp.*: on W. side of Merrimac r., at confluence of Nashua r., 81 m. S. by E. Concord. The t. is bounded on the N. and W. by Nashua river, separating it from the town of Nashville, which, until 1842, with it formed the town of Nashua. Surface of town is level on the E., uneven on the W.; soil on the streams fertile. This town, formerly called DUNSTABLE, was the first one settled in the S. part of New Hampshire, and suffered much by attacks from Indians. The v. is in the N. E. corner of the town, and is now a very important manufacturing village, deriving a great water-power from Nashua river, which in two miles falls 65 feet. In 1822-3 the greater portion of the lands in the village and on the river up to the falls was purchased by the "Nashua Manufacturing Company," which, with a capital of \$300,000, commenced building a dam, canal, and other works for factories. This company now has a capital of \$1,000,000, and 4 large mills manufacturing shirting and drills, printing cloths, and jeans, and sheetings. Whole number of spindles is 37,450; looms, 1,089; male operatives, 150; females, 850. These mills manufacture 13,000,000 yards of cloth yearly, using 10,000

bales of cotton, or 4,000,000 lbs., 150,000 lbs. starch, 8,000 gallons of sperm oil, \$4,000 worth of leather, 800 cords wood. The "Jackson Company" have 2 mills manufacturing sheetings and shirtings, using yearly 4,500 bales of cotton, or 1,800,000 lbs., 50,000 lbs. starch, etc. The machine-shop, built by the Nashua Company in 1845, is occupied by manufacturers of steam-engines, machinists' tools, locks, guns, axes, etc., and here several hundred men are employed. The "Nashua Iron Company," established in 1848, have a capital of \$100,000, and employ 60 men; they use 3,500 tons coal yearly; their sales are \$175,000. Baldwin's factory of shuttles and spool bobbins employs 120 men; yearly sales, \$100,000. There are other large factories, foundries of stoves, large iron castings, etc. Summary of N. cotton manufactures: no. of spindles, 49,994; looms, 1,483; male operatives, 240; females, 1,200; yards manufactured, 18,000,000; capital invested, \$1,480,000. The total capital invested in factories in N. is about \$2,000,000; male operatives, 1,000; females, 1,300. The Nashua and Jackson companies each have a savings institution for their employees. Four railroads connect N. with the large towns adjacent, viz., Lowell and Nashua, Worcester and Nashua, Nashua and Wilton, and Concord R. R. There are 2 banks, capital \$225,000, and 7 churches. Three newspapers are published weekly: "N. H. Telegraph" (whig), "N. Gazette" (dem.), "The Oasis" (lit.) Pop. 5,820.

NASHUA river, *N. Hamp. and Mass.*: rises in Worcester co., *Mass.*, being formed by 2 branches uniting in Lancaster, flows chiefly in a N. N. E. course, and empties into Merrimack r., at Nashua, *N. Hamp.*

NASHVILLE, p. v., Lee co., *Ind.*: on the W. bank of Mississippi r., 80 m. S. by E. Iowa City.

NASHVILLE, p. v., and cap. Washington co., *Ill.*: at the heads of Little Crooked creek of Illinois r., 102 m. S. by E. Springfield. It contains a court-house, several stores, and about 40 dwellings.

NASHVILLE, p. v., and cap. Brown co., *Ind.*: 39 m. S. by W. Indianapolis.

NASHVILLE, p. v., Lowndes co., *Miss.*: on the N. bank of Tombigbee r., at junction of Kincades cr., 126 m. N. E. Jackson.

NASHVILLE, p. v., Boone co., *Mo.*: on N. side of Missouri river, 24 m. N. N. W. Jefferson City.

NASHVILLE, t., p. v., and sta., Hillsborough co., *N. Hamp.*: on W. side Merrimack r., and N. side of Nashua r. The v., in S. E. part of t., is connected with Nashua village, and contains numerous factories. Pop. 3,122.

NASHVILLE, p. o., Chautauque county, *N. Y.*: 270 m. W. Albany.

NASHVILLE, p. v., and cap. Nash co., *N. Car.*: on S. side Stony cr. of Tar r., 30 m. N. E. Raleigh.

NASHVILLE, p. v., Holmes county, *Ohio*: 41 m. N. E. Columbus.

NASHVILLE, p. city, port of entry, and cap. Davidson co., *Tenn.*, and cap. of the State of Tennessee: on the left bank of the Cumberland river, 120 m. above its entrance into the Ohio, and at the head of steamboat navigation thereof. Lat. 36° 09' 38", and long. 86° 49' 03"—714 m. W. by S. Washington. The city is built on an elevated bluff of limestone, and on every side presents to the approaching traveler an imposing appearance. From Capitol Hill, within the city, a more interesting scene is seldom witnessed. Covering the base of the hill, and crowding to the extremest margin of the business-laden Cumberland, is the city itself, its streets alive with the bustle of an active commerce, and its suburbs literally growing under the eye of the spectator. Surrounding it with a border of beautiful cultivation, its extensive and valuable farms, intersected by numerous turnpikes, which, centering in the city, radiate to opposite neighborhoods; and in every direction is seen the railroad, complete and incomplete, which will open outlets to one of the richest agricultural and mining regions of the great West; and girding in all to a quiet security, rise a range of low

and pleasant hills, partly covered with native cedars, and adorned with graceful dwellings. But it is not altogether the natural beauties of the locality that attract the traveler's attention; the country for miles around is rich in soil and abounding in minerals, yielding to industry a compensatory reward, and to commerce material of no mean valuation.

Nashville was laid out at the latter part of the last century, but although always a place of some consideration, the tide of its prosperity rose slowly until within the last half the term of its existence. In 1880 it contained only 5,566 inhabitants, and even in 1840 only 6,929. In 1850 its population had increased to 10,478, or in the ratio of 51.2 per cent. in the decade between 1840 and 1850. Its commerce has increased in even a larger proportion, owing to the extent of roads having been multiplied, and to the improvements in the navigation of the river. The tonnage owned in the district of which Nashville is the port amounted in 1850 to 3,797 tons, all comprised in steamers, some of them magnificent passenger boats, navigating the Cumberland and its tributaries, or sailing between Nashville and the ports of the Ohio river. The railroads centering here are the Nashville and Chattanooga R. R., extending in a S. E. direction to Chattanooga, on the Tennessee river, where it connects with the railroads to Charleston and Savannah, the distance from Nashville to the first being 599 m., and to the latter 533 m.; the New Orleans and Nashville R. R., extending S. W. in the direction of the first named place; the Memphis and Nashville R. R.; the Nashville and Paris R. R.; the Nashville and Henderson R. R.; the Louisville and Nashville Railroad, and the Lexington and Nashville R. R. Of these several lines only the first is completed, but most of the others are progressing, or under contract to be built forthwith, and the whole system will probably be in operation in three or four years from the 1st Jan., 1853. These, when completed, will connect this commercial centre with every part of the Union—with the Gulf, the Ohio and Mississippi, the great lakes, and the Atlantic, from Maine to Florida—and make it one of the most important receiving and distributing depôts of the internal commerce of the central valley.

The city was originally laid out on a plot of 200 acres, but it has long since overstepped the limits its projectors assigned to it, and hence suburbs almost equal in extent and population to the city proper have grown up around it. The city has a handsome public square, on which stands the county court-house, market-house, etc. The court-house is a splendid building, 105 feet in front by 63 feet deep, with basement and two stories, surmounted by a dome, the top of which is 90 feet from the ground, and supported by eight Ionic columns; the market-house is also a spacious and substantial edifice, a portion of which is occupied as a city hall and clerk's office. The other public buildings are the State-house, the University, the Lunatic Asylum, the State Prison, 12 or 14 churches of various denominations, numerous schools and academies, 8 banks (capital \$3,653,500), etc. The State-house is located on one of the highest eminences of the city. It was built about 10 years ago, on a four acre plot, presented by the city to the State, and is a noble edifice, towering above the place, and serving as a landmark for miles around, being the first object descried by the approaching traveler. It has spacious halls for the legislature, and other convenient offices. The Lunatic Asylum is a large and commodious building, three stories high, and will accommodate 100 patients. The Penitentiary or State Prison is located in the western suburbs, and has a front of 310 feet, and is 350 feet deep. It has apartments for the keeper, an hospital, guard-room, and cells for 200 convicts. The Halls of the University were founded in 1806. The main building is 200 feet long and 50 feet deep, three stories high, with wings, and an extensive building used as a chemical laboratory. All the college buildings, except the president's house, are within the college campus, an area of 8 acres. In 1850 it had 7 professors and 75 students, and

its library contained 10,207 volumes. The number of its alumni at that date was 398. The medical department had 7 professors. Near Nashville is also Franklin College, founded in 1845, and which, in 1850, had 5 professors, 26 alumni, 80 students, and a library of 3,000 volumes. Many of the churches are large and elegant structures; the Episcopal church is a magnificent Gothic building, and the school-houses, of which there are many, are in general neat and commodious. Nashville is the see of a Roman Catholic diocese of the same name, and there are within the city efficient Catholic schools for both boys and girls.

The newspaper and periodical press of the city consists of 5 daily and 7 weekly papers, and 2 monthly periodicals. The dailies are the "American" (dem.), the "Gazette" (neutral), the "Republican Banner" (whig), the "Evening Reporter" (neutral), and the "N. Union" (dem.); the weeklies, the "Western Christian Advocate" (Meth.), the "Tennessee Organ" (temp.), the "Presbyterian Record" (relig.), the "Gazette," an edition of the daily, the "Tennessee Baptist" (relig.), the "True Whig," and the "West Tennessee Whig;" and the monthlies are the "Christian Magazine" (Campbellite) and the "Sunday School Companion."

No town in the great valley of the West enjoys in a greater degree the blessings of health. Situate in about 36° N. lat., it possesses a temperate climate, and from its local position it is free from fevers which characterize many of the western cities, particularly such as are situated upon water courses. It is true that a small portion of Nashville, at the upper and lower ends, are in times of high flood inundated; but these inundations continue but a few days, and sometimes at intervals of several years, and produce no injurious effect upon the salubrity of the town. Although the summer heats are occasionally oppressive, the winters are mild and moderate, with none of the severe cold of the northern and eastern states, nor the relaxing heats of the south. It is a climate, indeed, preferable in many respects to all others, and here and in the vicinity it is seldom necessary to house cattle, even in the coldest winters. In summer thousands flock to the city to escape from the malarial influences of the lower regions of the country.

About 13 or 14 m. to the N. E. of the city is the Hermitage, the homestead of the late Andrew Jackson, President of the United States. In this secluded rural abode the last days of that great patriot were passed, and here, on the 8th June, 1845, at the patriarchal age of 79, died the illustrious statesman and warrior.

NASHVILLE, p. v., Milam co., *Tex.*: on W. side of Brazos river, 2 m. below the confluence of Little r., 76 m. N. E. by E. Austin City; formerly called VIESCA. It has one of the most delightful situations in Texas, an abundance of excellent water, and is very healthy.

NASONVILLE, p. o., Providence co., *R. I.*

NASSAU, p. v., Lee co., *Ia.*: on a bank of Des Moines r., near its mouth, 86 m. S. by E. Iowa City.

NASSAU, t. and p. v., Rensselaer co., *N. Y.*: 19 m. S. E. Albany. Surface of t. hilly; soil gravelly loam—well drained by Kinderhook cr. and its branches, and contains several mills, factories, and tanneries. Pop. of t. 3,261.

NASSAU river, Nassau co., *Flor.*: rises in W. part of co., flows E., widens into Nassau inlet, and empties into Atlantic Ocean.

NATCHAUG river, Windham county, *Conn.*: is the main branch of Shetucket r., rises in Woodstock and Union, and flows S. S. W. to its confluence in Mansfield with the Shetucket.

NATCHEZ, p. city, port, and cap. Adams co., *Miss.*: on E. bank of Mississippi r., 87 m. S. W. by W. Jackson. Lat. N. 31° 34'. long. W. 91° 24' 42". This is the principal city in Mississippi, its importance arising from its being the dépôt of cotton from the fine lands around it and in the interior, and being also the main entrepôt of the internal commerce of the State. By the river it is 309 m. from New-Orleans, but in a direct line 127 m. N. W. by N. A part of the city

is built at the landing on the margin of the river, but this chiefly consists of warehouses, stores, etc., while the larger and more agreeable portion is on a bluff, 200 feet above the level of the river. This part, though uneven in surface, is regularly laid out with broad streets, crossing at right angles. Many of the houses, though built plainly of wood, present an elegant appearance, having piazzas and balconies, surrounded with trees, beautiful shrubbery, etc. Its elevated site affords a fine view of the river and vicinity. It contains the court-house and jail, a hospital, orphan asylum, academies, several churches, etc. Here are oil-mills, manufacturing oil from cotton-seed. Two newspapers, the "N. Courier" (whig), and "N. Free Trader" (dem.), are each published semi-weekly and weekly. Pop. 5,239.

NATCHEZ, p. v., Martin co., *Ind.*: 85 m. S. S. W. by S. Indianapolis.

NATCHITOCHES parish, *La.* Situate N. W., and contains 2,257 sq. m. Drained by Red r., which passes through its centre, Old r., a branch of Red r., and Black lake, Cedar and Sabie creeks, with other streams. Surface level, and much diversified with lakes; soil varied—on the streams being fertile, and well adapted to grain, cotton, and Indian corn, but a large portion of the land is sterile and covered with forest timber. Farms 842; manuf. 9; dwell. 1,492, and pop.—wh. 5,466, fr. col. 881, sl. 7,854—total 14,201. *Capital*: Natchitoches. *Public Works*: New-Orleans, Opelousas, and Great Western R. R.

NATCHITOCHES, p. v., and cap. Natchitoches, par., *La.*: on W. side of Red r., 148 m. N. W. Baton Rouge, handsomely situated at the foot of a bluff. It is a very old town, having been settled by the French in 1717. The present population is a mixture of American, French, and Spanish. It has considerable trade, and is a growing place. Contains a court-house and jail, an U. S. land office, several churches and academies. The "N. Chronicle" (dem.), is published weekly.

NATHAN'S CREEK, p. o., Ashe county, *N. Car.*: 163 m. W. N. W. Raleigh.

NATHANSVILLE, p. v., Conecuh co., *Ala.*: on the S. side of Conecuh r., at the confluence of Murder and Burnt Corn creeks, 99 m. S. S. W. by W. Montgomery.

NATICK, t., p. v., and sta., Middlesex co., *Mass.*: 16 m. W. S. W. Boston. Drained by Charles river, and having within its limits several small lakes. The Boston and Worcester R. R. passes through the v. 17½ m. from Boston. In 1660, the Rev. Mr. Elliott here founded an Indian missionary settlement, which flourished under a succession of native and English ministers for many years. Considerable manufacturing is now done in this t. Pop. 2,944.

NATICK, p. v., Kent co., *R. I.*: on N. bank of Pawtuxet r., 10 m. S. W. Providence; has several factories.

NATION FORD, p. o. and sta., York dist., *S. Car.*: S. side Catawba r., 68 m. N. Columbia, on Charlotte and South Carolina R. R.

NATURAL BRIDGE, p. v., Jefferson co., *N. Y.*: 136 m. N. W. Albany, on Indian river, which is here crossed by a natural bridge 6 feet above the water, and 15 feet wide.

NATURAL BRIDGE, p. o., Rockbridge co., *Virg.*: near the Natural Bridge of limestone rock over Cedar creek, near its junction with James river, 120 m. W. Richmond. This bridge is justly regarded as one of the greatest natural curiosities in the world. It is of stupendous size, as is evident from the following statement: The height of its top from the creek is 215 feet; the chasm spanned 90 feet wide at the top, and 50 feet at the bottom; the average width of the arch is 80 feet, its thickness is 55 feet. It is covered with a stratum of clayey earth, from 4 to 6 feet deep, and has on each side a natural parapet of rocks, trees, etc. The view from the top or from the creek is awfully grand. The bridge is most useful, there being no other crossing place possible for several miles above or below.

NATURAL CANAL, in Canton t., St. Lawrence co., *N. Y.*: is a creek which connects Oswegatchie and Grape rivers,

6 m. long, very straight, 10 to 20 rods wide, and navigable at high water for boats of 10 tons burden.

NATURAL DAM, p. o., Crawford co., *Ark.*: on Lees creek, 147 m. W. N. W. Little Rock.

NATURAL GROVE, p. o., Williamsburg dist., *S. Car.*: 78 m. E. S. E. Columbia.

NAUGATUCK river, *Conn.*: the creeks forming this important mill stream rise in N. part of Litchfield co., and unite in Torrington, whence it flows S. 35 m. affording water-power to numerous factories on its banks, and empties at Derby into Housatonic river.

NAUGATUCK, t., p. v., and sta., New Haven co., *Conn.*: on Naugatuck r., 25 m. S. W. Hartford, 15 m. N. N. W. New Haven. Surface of town uneven; soil good on the river. The v. is principally located on its W. bank, and contains numerous factories. The Naugatuck R. R. passes through the v. 27 m. from Bridgeport. Pop. 1,730.

NAUNEESHA river, *Wisc.*: a small affluent of W. branch of Rock r., flowing from Dane co. into Dodge co.

NAUVOO, t. and p. v., Hancock co., *Ill.*: on E. bank of Mississippi r., 108 m. N. W. by W. Springfield. Surface of t. is elevated, and commands a fine view of the r. and vicinity. This t. is famous as having been for several years (from 1840 to June, 1844) the settlement of the "Latter Day Saints," or "Mormons," who here erected some fine buildings. This property is now occupied by a colony of French Communists or Icarians, under the direction of Mons. Cabet. The large temple was burned in Oct., 1843, set on fire by an incendiary.

NAUVOO, p. o., Tioga co., *Penn.*: 110 m. N. by W. Harrisburg.

NAVARINO, p. o., Onondaga co., *N. Y.*: 184 m. W. by N. Albany.

NAVAREE, p. v., Des Moines co., *Ia.*: 53 m. E. S. E. Iowa City, N. of Flint creek, and drained by a branch of it.

NAVAREE, p. v., Stark county, *Ohio*: 92 miles E. N. E. Columbus, on the Ohio and Erie Canal, and E. side of Chippewa river.

NAVARRO county, *Tex.* Situate toward the N., and contains about 3,800 sq. m. Drained by branches of Trinity, which forms its S. E. boundary, and by affluents of the Rio Brazos, which flows on its W. border. Surface undulating; soil a fine, deep, vegetable mold, with sand and clay intermixed, and very fertile, especially on the streams, where it produces in abundance cotton and corn. It is also favorable to the growth of fruit, oranges, lemons, citrons, peaches, etc., yielding well. It has some excellent timber land, and much fine pasture for cattle. Fine beds of iron ore are found, and limestone and freestone are extensive formations. Farms 804; manuf. 13; dwell. 576, and pop.—wh. 3,444, fr. col. 11, sl. 383—total 3,843. *Capital*: Corsicana.

NAVARRO, p. o., Leon co., *Tex.*: 129 m. N. E. by E. Austin City.

NAVASOTA river, *Tex.*: its source is in Limestone county, draining also Leon, Robertson, Grimes, and Brazos counties, emptying into the Brazos r. opposite the v. of Washington. Its current is not rapid, and is navigable for keel boats for 30 to 40 m. from its mouth. This is a clear and beautiful stream of wholesome water.

NAVIDAD river, *Tex.*: rises in Fayette co., draining its S. part, flows S. and S. W. through Lavaca and Jackson counties, and empties into Lavaca r. 10 m. from Lavaca bay. It is navigable as far as Texana for steamboats. Its waters are clear, pure, and wholesome.

NAYLOR'S STORE, p. o., St. Charles co., *Mo.*: 79 m. E. by N. Jefferson City.

NAZARETH, p. o., Northampton co., *Penn.*: 87 m. E. N. E. Harrisburg.

NEASHOE, p. v., and cap. Newton co., *Mo.*: S. side of Neh-hah r., 165 m. S. W. Jefferson City.

NEATSVILLE, p. v., Adair county, *Ky.*: 66 m. S. by W. Frankfort.

NEBO, p. o., Hopkins county, *Ky.*: 156 m. W. S. W. Frankfort.

NEBO, p. o., Jefferson county, *Ohio*: 120 m. E. by N. Columbus.

THE TERRITORY OF NEBRASKA.

NEBRASKA is an unorganized Territory of the United States, occupying all the country below the parallel of 42° north latitude to the north boundaries of the Indian Territory, the State of Texas, and the Territory of New Mexico, and extending east and west between the Rocky Mountains, bordering Oregon and Utah Territories, and the western line of the States of Iowa and Missouri. The area of this immense region is estimated at 136,700 square miles.

Across this Territory flow several of the great rivers of the Continent—the Nebraska, or Platte, from which the Territory takes its name, the Kansas and its wide-spreading tributaries, the Arkansas, etc. The Missouri River forms a great part of its eastern boundary, and is the common recipient of the rivers above named, except the Arkansas. The Nebraska rises by two forks in the Rocky Mountains, and these uniting in latitude 41° 05' 05" N., and longitude 101° 21' 24" W., flow in a united stream to a confluence with the Missouri, in latitude 41° 03' 13" N., or about 620 miles above the entrance of the latter into the Mississippi, and 52 miles below Council Bluffs. It has few tributaries, and none of any great size; the principal are Elkhorn River, Loup Fork, and Wood River on the north, and Saline River on the south. It is from one to three miles broad, and so shallow, that, excepting in high flood, it is fordable in almost any part. It is full of islands covered with cotton wood, willows, and shrubs, and the shifting sands in its bed, together with the rapidity of its current, effectually prevent navigation. Colonel Long estimates that only 40 miles of its lower course are open to steamboat navigation. The north fork of the river rises in the same region as the Colorado of the West, about 40° 30' N., and having received Sweet-water River and other affluents in its course northward, breaks through the main range of the Rocky Mountains, and flows thence in a direction E. S. E., and the South Fork rises near the sources of the Arkansas, and flows E. N. E. to the junction. The great emigrant* route to Oregon, Utah, and California, follows this river and its North Fork—the Fremont route of 1843 takes the South Fork. The Kansas River meets the Missouri in 39° 06' 08" north latitude, and 94° 32' 54" west longitude, nearly equidistant between Fort Leavenworth and Independence. It is navigable for steamboats for 150 miles from its mouth, and its width at its entrance into the Missouri is 340 yards. The sources of this river are near the eastern base of the Rocky Mountains, between the Nebraska and Arkansas, and the distance between its two forks—the Republican and Smoky Hill forks—is at least 120 miles through the greater part of their course. Republican Fork rises in a considerable lake in latitude 39° 52', and longitude 108° 30', and Smoky Hill Fork rises in the mountain region eastward of the South Park; the junction is made near the meridian of 96° 30'. These, as well as the main stream, receive numerous large tributaries, which drain at least one half the Territory. The Arkansas rises to the south of South Park and Pike's Peak, near the sources of the Rio Grande del Norte, and has a general east course, forming in part the north boundary of the Indian Territory, and then taking a course to the south-east, it passes through

* For a minute description of this route, the reader is referred to "Horn's Overland Guide to California," published by J. H. Colton, No. 86 Cedar-street, New York, 1852. Refer, also, to Fremont's Reports

that country to the Mississippi, which it strikes on the parallel of $33^{\circ} 40'$, and is navigable for steamboats 603 miles from its confluence. This river was formerly the boundary between the Mexican Republic and the United States, westward of the 100th meridian; but by the recent changes in the political divisions of the country, the whole length from that point has been thrown into the present Territory of Nebraska.

The whole of this country is yet in its primitive wilderness state. Little or nothing is known of its topography, and the delineations on maps are but the isolated reminiscences of travelers and traders. The red man still roams over its prairies and mountains in quest of game and plunder; and as the ocean to the sea-farer, so its wilderness to the emigrant, it is only traversed as the highway to countries beyond its limits. The great features of the Territory, however, are known; in the east it is chiefly prairie, and in the west are the outliers of the Rocky Mountains, which rise up in grandeur and majesty, forming the water-shed between the mighty rivers that drain the western portion of the Central Valley and the Pacific slope of the Continent. The central portions are unprofitable, irreclaimable wilderness, with scarcely an oasis to relieve the monotony of its dreariness; it is the great American Desert, in crossing which the way-farer has more to dread than the mariner that dares the deep, not only on account of the inhospitable character of the country, but also from the hostilities of the native savages besetting his path and seeking his destruction. Thousands have perished under the rifle and tomahawk, and at every step the grave of some unfortunate gives warning of dangers to be avoided, or tells of the sufferings endured by the hardy men whose tracks are the tide-marks of empire flowing to its western destination.

Nebraska, with the exception of a small strip on its southern border, south of the Arkansas, was a portion of the Louisiana purchase, and came into the possession of the United States in 1803. It has never received as yet any white settlers, except those engaged in the service of the United States as Indian agents and military occupants, or missionaries of the several Christian denominations. Fort Leavenworth and Council Bluffs are within this Territory—the first a military station, established for the surveillance of the Indians, and the latter an Indian agency. But it is now proposed to organize the Territory, and prepare it for the emigrant. For this purpose, a bill was introduced into Congress as early as 1845, but was not acted upon; and another bill was brought forward in 1853, with the like result. The day, however, is not far distant when the white settlements will break through their present limits, the Indian be driven back, and the portions of the country in the immediate Valley of the Missouri be opened to the enterprising pioneer. Whither will the Indian retreat, and what his destiny before the tide of civilization? The past and present will answer for the future.

NEBRASKA, p. o., Crawford county, *Ind.*: on the Ohio r., 115 m. S. by W. Indianapolis.

NEBRASKA river: a large tributary of the Missouri. (See the "TERRITORY OF NEBRASKA.")

NECHE'S SALINE, p. o., Smith co., *Tex.*: on the W. side of Neeche's r., 190 m. N. E. Austin City. Salt is here manufactured in large quantities.

NECHE'S river, *Tex.*: its source is in Vansandt co., and drains Smith, Henderson, Anderson, Cherokee, Houston, Angelina, Trinity, Tyler, Jasper, and Jefferson counties, emptying into Sabine lake 208 m. from its source in a direct line, and 255 m. in its meanderings. It is navigable by flat boats 100 m., and by steamboats nearly as far from its mouth.

NECOT, p. v., Linn co., *Ia.*: 28 m. N. Iowa City.

NEEDHAM, t. and p. v., Norfolk co., *Mass.*: 8 m. S. W. Boston. Drained by Charles r., on the N. E. and S. affording 2 waterfalls, which are improved for manufacturing. At each fall there is a thriving v. The t. is diversified by hills and plains, well watered, with good soil, and the encircling river gives beauty to the scenery. There is a depôt of the Boston and Worcester R. R. at W. Needham, 15 m. from Boston. Pop. of t. 1,944.

NEL'S CREEK, p. o., Jefferson co., *Ind.*: 80 m. S. E. by S. Indianapolis.

NEELYSVILLE, p. o., Morgan co., *Ohio*: 63 m. E. S. E. Columbus.

NEENAH, t. and p. v., Winnebago co., *Wisc.*: at outlet of Winnebago lake, 96 m. N. N. E. Madison; is a fine growing town. Pop. of t. 1,520.

NEENAH river, *Wisc.*: this important navigable river is formed near Fort Winnebago, Columbia County, by the junction of its head branches, which rise in the N. E. part of the county. At this point it is distant only $\frac{1}{4}$ m. from Wisconsin r. The natural advantages thus presented to form a continuous route of steamboat navigation from the lakes through the Wisconsin river with the Mississippi, have been improved by the Portage Canal Company, who are here constructing a canal between the rivers. From Fort Winnebago the Neenah flows N.; in Marquette county it widens into Buffalo lake, whence, flowing with smaller streams in a S. E. direction for five miles, it again expands into Puckawa lake; thence its course is N. E. into the centre of Winnebago county, where it again expands into a lake called Great Butte des Moris (meaning *Great Hill of the Dead*, from the Indian mounds supposed to contain dead bodies), and thence flows S. E. into Lake Winnebago at

Oshkosh, of which it is the outlet, into Green Bay by a N. E. course. In its descent it falls about 160 feet, chiefly by a succession of rapids, of which the most important are at the Grand Chute, a descent of 29 feet in 8,525; at the Little Chute, 81 feet in 9,200; at the Grand Kakalin, 44 feet in 8,600. The estimated cost of rendering these rapids navigable is \$500,000. The splendid water-powers which these rapids afford are being improved by Eastern capitalists.

NEEPESKUNK lake, *Wisc.*: lies 12 m. W. Winnebago lake, in Winnebago and Fond du Lac counties, and has a N. outlet into Neenah river.

NEERSVILLE, p. v., Loudon co., *Virg.*: 105 m. N. N. W. Richmond.

NEFFSVILLE, p. v., Lancaster co., *Penn.*: 32 m. E. S. E. Harrisburg, 4 m. N. Lancaster.

NEGRO FOOT, p. o., Hanover co., *Virg.*: 18 m. W. N. W. Richmond.

NEHAMICO, p. o., Russell co., *Ala.*: 66 m. E. Montgomery.

NEILL'S CREEK, p. o., Cumberland co., *N. Car.*: on a cr. so called of Cape Fear r., 24 m. S. Raleigh.

NEKAMA, p. v., Winnebago co., *Wisc.*: on W. side of Winnebago lake, 75 m. N. N. E. Madison. Pop. of t. 910.

NELSON county, *Ky.* Situate centrally, and contains 357 sq. m. Drained by Rolling and Beech forks of Salt r., and their affluents. Surface level; soil fertile, and adapted to the culture of grain. On the streams the land is rich, and produces in abundance wheat, Indian corn, and other grain, which form the staples. The sugar-cane is cultivated. Farms 844; manuf. 52; dwell. 1,613, and pop.—wh. 9,550, fr. col. 109, sl. 5,180—total 14,739. *Capital*: Bardstown.

NELSON county, *Virg.* Situate centrally, and contains 438 sq. m. Drained by Rock, Rock-fish, and Tye rivers. Surface uneven and hilly; in parts mountainous; soil in general fertile, and produces abundantly wheat, Indian corn, and tobacco. In the N. W. portion lies the Blue Ridge. Farms 638; manuf. 70; dwell. 1,217, and pop.—wh. 6,478, fr. col. 133, sl. 6,142—total 12,753. *Capital*: Covington. *Public Works*: James River and Kanawha Canal; and it is proposed to extend the Orange and Alexandria R. R. through the county to Lynchburg.

NELSON, t. and p. o., Cheshire co., *N. Hamp.*: 33 m. S. W. Concord. Surface elevated and hilly; contains four ponds, outlets from which are branches of Ashuelot and Contoocook rivers, and afford water-power to several mills. Population 751.

NELSON, t. and p. o., Madison co., *N. Y.*: 102 m. W. by N.

Albany. Surface undulating; soil, clay and calcareous loam, and well drained. Pop. 1,965.

NELSON, t. and p. o., Portage county, *Ohio*: 110 m. N. E. Columbus, in N. E. corner of county. Drained by branches of Mahoning river. Soil fertile, adapted to grain and grass. Pop. 1,388.

NELSONPORT, p. o., Potter co., *Penn.*: 115 m. N. N. W. Harrisburg.

NELSON'S, p. o., Tioga county, *Penn.*: on N. side of Cowanesque cr., 118 m. N. by W. Harrisburg.

NELSON'S LANDING, p. o., Chippewa co., *Wisc.*: on E. bank of Mississippi r., at junction of Chippewa r., 167 m. N. W. Madison.

NELSONVILLE, p. v., Athens county, *Ohio*: on N. bank Hocking river, 53 m. S. E. Columbus. The Hocking Canal passes through it.

NENELAU river, *Mich.*: rises in Alcona county, and flows N. E. through Alpena county into Thunder Bay river.

NEOSHO, p. v., Dodge county, *Wisc.*: 47 m. E. N. E. Madison.

NEPERAU, p. o., Westchester county, *N. Y.*: 108 m. S. Albany.

NEPEUSKUN, p. o., Winnebago co., *Wisc.*: 84 m. E. N. E. Madison.

NEPIH CITY, p. v., Juab co., *Utah Ter.*: 45 m. N. N. E. Fillmore City.

NEPONSET river, *Mass.*: draining Norfolk co., it empties into Dorchester bay. It is navigable for 4 m. to Milton for vessels of 150 tons.

NEPONSET VILLAGE, p. v. and sta., Norfolk co., *Mass.*: on the S. side of Neponset r., 5 m. S. Boston. There are several manufactories at the falls of the river. The Old Colony R. R. passes through, 54 m. from Boston.

NEPTUNE, p. v., Mercer co., *Ohio*: 90 m. N. W. by W. Columbus, on a cr. of St. Mary's river.

NERO, p. o., Henderson county, *Tenn.*: 96 m. E. S. E. Nashville.

NESAQUAKE river, Suffolk co., *N. Y.*: rises in Smithtown, runs N., dividing the t. into Long Island Sound, is navigable 5 miles.

NESCOPECK, t. and p. v., Luzerne co., *Penn.*: on the S. W. side of the Susquehanna r., 61 m. N. N. E. Harrisburg. The surface is uneven, with good bottom-lands on the streams. The t. is drained by Big and Little Wapwollopen and Nescopeck creeks. The v. is at the entrance of Nescopeck cr. into the Susquehanna, which is here crossed by an expensive roofed bridge, 1,256 feet long.

NESCOPECK mountain, Luzerne co., *Penn.*: this mountain is parallel to Wyoming Mountain, 20 m. long, 850 feet high, and on N. side of Nescopeck cr.

NESHAMING river, *Penn.*: rises in Hilltown, Bucks co., and after a winding course of 35 m., chiefly S. E., empties into Delaware r., 3 m. below Bristol.

NESHKORO, p. o., Marquette co., *Wisc.*: 53 m. N. by E. Madison.

NESHOBA county, *Miss.* Situate E. centrally, and contains 578 sq. m. Drained by Pearl r. and its branches, and other small streams. Surface level; soil, black calcareous mold, fertile, and adapted to cotton, which is the staple. Good crops of grain are raised, and tobacco is produced in some quantity. Farms 426; manuf. 0; dwell. 545, and pop.—wh. 3,393, fr. col. 0, sl. 1,335—total 4,728. *Capital*: Philadelphia.

NESQUALLY, p. o., Lewis co., *Oreg. Ter.*: on E. side of Puget Sound, 146 m. N. by E. Salem. This settlement is mainly occupied by the "Puget's Sound Agricultural Company," which supplies provisions to the Hudson Bay Company's employees W. of the mountains, and has here very extensive and highly cultivated farms; as also on the Cowlitz r.

NESQUALLY river, *Oreg. Ter.*: a considerable stream, emptying into a S. estuary of Puget's Sound, flowing in due W. course from its source in the mountains.

NESQUEONING, p. o., Carbon co., *Penn.*: on the S. side

of Broad Mountain, 66 m. N. E. Harrisburg. Near by are extensive coal-mines.

NESTORVILLE, p. o., Barbour co., *Virg.*: 174 m. N. W. Richmond.

NETHERLAND, p. o., Overton co., *Tenn.*: 84 m. E. by N. Nashville.

NETHER PROVIDENCE, t. and p. v., Delaware co., *Penn.*: 83 m. E. by S. Harrisburg. Drained by Ridley cr. on the W., and Cram cr. on its E. boundary, both emptying into the Delaware river. The surface is level; soil rich and productive clay, and well tilled. It contains several mills and stores.

NETTLE CARRIE, p. o., Overton co., *Tenn.*: 80 m. E. by N. Nashville.

NETTLE LAKE, p. o., Williams co., *Ohio*: 140 m. N. W. Columbus.

NEUSE river, *N. Car.*: rises in Person and Orange counties, flows in a course mainly E. by S., about 200 m., and empties by a broad estuary into Pamlico Sound.

NEVADA county, *Calif.* Situate on E. line of State, in lat. 39° 20', and chiefly occupied by the Sierra Nevada. Drained by numerous affluents of Yuba river, which runs on its N. border, and by Bear creek and N. fork of American river. Surface mountainous, with extensive valleys. Gold is the chief product; but there are many localities suitable for farms. Pop. 21,365, of which 3,266 are Indians, and 4,669 foreigners. *Capital*: Nevada City.

NEVADA, p. o., Greene county, *Wisc.*: 32 m. S. by W. Madison.

NEVADA CITY, p. v., and cap. Nevada co., *Calif.*: 117 m. N. E. Vallejo. Situate between Deer cr. and Barlow's creek of Yuba r.

NEVERSINK, t. and p. o., Sullivan co., *N. Y.*: 68 m. S. S. W. Albany. Surface hilly and mountainous; soil adapted to grazing. Drained by Neversink r., Roundout and Beaver creeks. Pop. 2,281.

NEVERSKIN river, *N. Y.*: rises in N. W. part of Ulster co., runs S. through E. portion of Sullivan co., and empties into Delaware r., at Port Jervis. Upon its banks are numerous tanneries and saw-mills.

NEVILLE, p. v., Clermont co., *Ohio*: on Ohio r., 98 m. S. W. by S. Columbus.

NEVIN, p. o., Highland county, *Ohio*: 60 m. S. S. W. Columbus.

NEVISINK HIGHLANDS, Monmouth co., *N. Jer.*: on the Atlantic coast, in t. of Middletown, 300 to 400 feet high, covered with trees, are a well-known land-mark for sailors.

NEVISINK river, Monmouth co., *N. Jer.*: flowing between towns of Middletown and Shrewsbury, in N. E. direction, with wide estuary into Sandy Hook bay.

NEWAGGEN cape, *Me.*: an island, extending below t. of Boothbay into the sea, forming E. boundary of Sheepscot bay, 40 m. S. by E. Augusta.

NEWAGO county, *Mich.* Situate W. on the S. peninsula, and contains 864 sq. m. Drained by Maskegon, White, and Notpicago rivers. Surface level; soil generally deep and fertile. Farms 0; manuf. 12; dwell. 92, and pop.—wh. 509, fr. col. 1—total 510. *Capital*: Newago.

NEWAGO, t. and p. o., Newago co., *Mich.*: 76 m. N. W. Lansing. Drained by Maskegon r. and its branches.

NEW ALBANY, p. v., Mahoning county, *Ohio*: on Little Beaver cr., 128 m. N. E. by E. Columbus.

NEW ALBANY, p. city, and cap. Floyd co., *Ind.*: on Ohio r., 100 m. S. by E. Indianapolis, 4 m. N. W. Louisville. This city, which is now the largest in the State, was laid out in 1813. It is beautifully situated, has wide streets, parallel to the r., which are crossed at right angles by others. The largest business is that of building and repairing steamboats and other vessels, which employ several hundred men. There are large iron foundries, machine shops, and factories. The New Albany and Salem R. R. is now completed to Juliet, 65 miles, and will be continued to Chicago. A brisk trade is carried on with the interior and the valleys

of the Ohio and Mississipp. The State Bank of Indiana has here a branch. There are 9 churches and a lyceum. The academies and schools are well conducted, and much attention is generally given to education. Two newspapers are published, each daily and weekly—the "Ledger" (dem.) and "Bulletin" (whig). Pop. 9,785.

NEW ALBANY, p. v., Pontotoc co., *Miss.*: on Tallahatchee r., 157 m. N. N. E. Jackson.

NEW ALSACE, p. o., Dearborn county, *Ind.*: 80 m. S. E. Indianapolis.

NEW ALSTEAD, p. o., Cheshire co., *N. Hamp.*: on S. side of Cold r., 33 m. W. S. W. Concord.

NEW AMSTERDAM, p. v., Harrison co., *Ind.*: on Ohio r., near mouth of Indian cr., 113 m. S. Indianapolis.

NEW ANTIOCH, p. v., Clinton county, *Ohio*: 54 m. S. W. Columbus.

NEWARK, p. v., New Castle co., *Del.*: on the N. side of Christiana cr., 37 m. N. N. W. Dover. The Philadelphia and Baltimore R. R. passes through the v., 40 m. from Philadelphia, and 53 m. from Baltimore. Is a pleasant village, and the seat of Delaware College, founded 1833. In 1850 it had 5 professors, 78 alumni, 80 students.

NEWARK, p. v., Linn county, *Ia.*: N. side Cedar r., 20 m. N. by W. Iowa City.

NEWARK, p. v., Kendall co., *Ill.*: on the S. E. side of Fox r., 136 m. N. N. E. Springfield.

NEWARK, p. o., Warrick co., *Ind.*: near Big Pigeon cr., on line of Wabash and Erie Canal, 130 miles S. S. W. Indianapolis.

NEWARK, p. v., Worcester county, *Mass.*: on a creek of Sinepuxent bay, 88 m. S. E. Annapolis.

NEWARK, t. and p. v., Rock county, *Wisc.*: 41 m. S. by E. Madison. Pop. 793.

NEWARK, p. v., Knox county, *Mo.*: on N. side of South Fabius r., 100 m. N. Jefferson City.

NEWARK, t., p. city, port of entry, and cap. Essex co., *N. J.*: on W. bank of Passaic r., 3 m. above its entrance into Newark Bay, 47 m. N. E. Trenton, 9 m. W. New York. Lat. 40° 45' N., long. 74° 10' W. This is the most populous and flourishing place in the State. It is pleasantly located on a fertile plain, somewhat elevated above the river. In its W. part the ground rises, affording fine sites for residences. It is regularly laid out with very broad and straight streets, many of which are bordered with very large and lofty elms, presenting a most beautiful appearance. Two spacious public parks are also well shaded by fine trees. It is lighted with gas, and supplied by a company with pure water from a spring 2 m. distant, conveyed through iron pipes. The court-house, which occupies a commanding position in the W. part of the city, is a large and elegant building of brown freestone, in the Egyptian style of architecture. The railroad depôt is also a splendid structure of freestone. There are 80 churches, of which several are very fine specimens of architecture; and 3 literary associations—1 has a library of 3,000 volumes. The N. Wesleyan Institute is the principal seminary. Newark is very extensively engaged in manufactures. The principal articles made are the various fabrics of leather and India rubber, carriages, wagons, railroad cars, machinery, jewelry, paper hangings, cutlery, soap, candles, etc. The extensive paint factory of the N. J. Zinc Company daily manufactures ten tons of paint. The

commerce of N. is considerable and steadily increasing. The river is navigable to this place for vessels of light draft. A fine passenger steamboat plies twice daily to New York. On June 30th, 1850, the total tonnage of N. district was 6,629 tons, of which 78 tons were registered, and 6,551 tons enrolled and licensed; 1,227 tons were employed in steam navigation; 6,406 tons were in the coasting trade. During the year ending June 30th, 1850, there were 11 clearances for foreign countries, having 1,131 tons, 62 men; number of entrances from foreign countries (all foreign vessels), was 17, having 1,601 tons, 95 men. There are 4 banks with \$1,300,000 capital. Three newspapers are published daily, "Advertiser" (whig), "Mercury" (whig), "Eagle" (dem.); two weekly, "Sentinel of Freedom" (whig), "Eagle" (dem.) The New Jersey R. R. affords constant communication with New York, the trains running each way every half hour. Very many persons doing business in New York have here their permanent residences. The Morris Canal passes through the city. The Morris and Essex R. R. here terminates, connecting with New Jersey R. R. Pop. in 1830, 10,953; in 1840, 17,290; in 1850, 38,894.

NEWARK, p. v., Wayne co., *N. Y.*: on the Erie Canal, 176 m. W. by N. Albany. Contains several churches, stores, and factories.

NEWARK, t., p. v., and cap. Licking co., *Ohio*: situate at the confluence of three principal branches of Licking r., 83 m. E. by N. Columbus, with which it is connected by the Central Ohio R. R. It is also connected with Sandusky by railroad, and is a station of the Ohio and Erie Canal. Besides a court-house and jail, it contains several churches and academies. Three newspapers are published weekly, "Advocate" (dem.), "Gazette" (whig), "Licking Herald" (dem.)—the latter publish semi-weekly editions. Pop. of v. 3,778, of t. 5,006.

NEWARK, p. o., White county, *Tenn.*: 75 m. E. S. E. Nashville.

NEWARK, t. and p. o., Caledonia co., *Verm.*: 45 m. N. E. Montpelier. Drained by head waters of Passumpsic river. Pop. 434.

NEWARK, p. v., Wirt co., *Virg.*: 232 m. N. W. Richmond. NEWARK VALLEY, p. v., Tioga county, *N. Y.*: 132 m. W. S. W. Albany, on E. Owego cr., in t. of Newark. Pop. of t. 1,983.

NEW ASHFORD, t. and p. o., Berkshire co., *Mass.*: 112 m. W. by N. Boston. Drained by head branches of Green and Housatonic rivers. Surface mountainous; soil adapted to grazing. Considerable attention is given to raising of sheep. A variegated marble is quarried in this t. Pop. of t. 136.

NEW ATHENS, p. v., Harrison co., *Ohio*: 104 m. E. by N. Columbus. Pop. 331. Seat of Franklin College, founded 1825. In 1850 it had 4 professors, 90 alumni, 80 students, 2,200 vols. in library.

NEW ATHENS, p. y., Clarion co., *Penn.*: 145 m. W. N. W. Harrisburg.

NEW BABYLON, p. o., Paulding county, *Ga.*: 124 miles N. W. by W. Milledgeville.

NEW BALTIMORE, t. and p. v., Greene co., *N. Y.*: W. side Hudson r., 15 m. S. Albany. Surface of t. hilly; soil clay and sandy loam, well drained. The v. has a convenient steamboat landing, and contains some brick-yards. A ship canal from this place to Albany has been chartered by the legislature of 1853. Pop. of t. 2,381.

NEW BALTIMORE, p. v., Stark co., *Ohio*: 111 m. N. E. Columbus. Drained by a creek of Cuyahoga river.

NEW BALTIMORE, p. v. Fauquier county, *Virg.*: 87 m. N. by W. Richmond.

NEW BATAVIA, p. o., Henry county, *Ohio*: 108 miles N. W. by N. Columbus.

NEW BEDFORD, p. city, port of entry, and semi-cap. Bristol co., *Mass.*: on W. bank of Acushnet r., 4 m. from its entrance into Buzzard's bay, 51 m. S. by E. Boston. Lat. N. 41° 38' 7"; long. W. 70° 55' 49". The harbor is spacious, safe, and deep. The site of the city rises rapidly from the

river, and being thus built upon a bold elevation, regularly laid out, and having many fine buildings, it presents a very commanding and beautiful appearance. The principal public buildings are the town hall, custom-house, court-house, and some handsome churches. The town hall, built of granite, 100 feet long, 61 feet wide, 3 stories high, at a cost of \$60,000, is justly regarded as one of the handsomest town halls in New England. The custom-house, also of granite, presents a very fine appearance. Much attention is given to general education in the public schools. The Friends' academy for young ladies is a handsome structure, with beautiful grounds. The Social Library contains over 4,000 volumes. Two newspapers are published daily: "Mercury" (whig) and "Evening Standard;" 8 weekly: "Mercury," "Standard," and "Whaleman's Shipping List;" 1 monthly: "Golden Age" (lit.). The New Bedford and Taunton R. R. runs hence, 31 m. to Mansfield sta., on Boston and Providence R. R. A steamboat plies daily to Nantucket. There are 4 banks (capital \$1,900,000.) This is one of the wealthiest cities in America in proportion to its population, and has derived its wealth mainly from the whale fishery. At present two-thirds of the total tonnage of U. S. vessels in the whale fishery belong to this port. The principal business in the city is connected with the whale fisheries, in receiving the oil and bone, and preparing them for market. The quantity of sperm oil brought to the port in 1849, was 46,838 barrels, whale oil 72,961 barrels, and whalebone 797,300 lbs. About 30 manufactories of oil and candles are in constant operation. The cooperage business employs a great number of hands. A very large steam cordage factory (capital \$60,000), manufactures 400 tons of cordage annually. Other large manufactories are devoted to making iron hoops, copper and iron rivets, butt hinges, etc. Here also is a manufactory of Prussian-blue, and some print-works. Ship-building and repairing is carried on extensively. The N. B. Railway and Wharf Co. (cap. \$50,000) use a marine railway at their ship-yard, which is of much service in speedily raising small vessels to be repaired. On 30th June, 1850, the total tonnage of New Bedford district was 127,960 tons, of which 119,026 were registered, and 8,934 enrolled and licensed. Of the registered tonnage, 116,582 tons were permanent, 2,144 temporary; 96,420 tons were in the whale fishery. Of the enrolled and licensed tonnage, 8,444 tons were permanent, 7,949 tons were in the coasting trade, 151 in the cod fishery, 344 in the mackerel fishery, 58 tons propelled by steam. The tonnage licensed (under 20 tons) in the coasting trade was 258 tons; in the cod fishery, 232 tons. During the year ending June 30th, 1850, the number of clearances for foreign countries was 118—32,027 tons; entrances from do. 184—33,154 tons. Vessels built, 2 ships and 2 schooners—731 tons. Pop. in 1830, 7,592; in 1840, 12,087; in 1850, 16,464.

NEW BEDFORD, p. v., Coshocot county, Ohio: 70 m. N. E. by E. Columbus.

NEW BEDFORD, p. v., Lawrence county, Penn.: near the Ohio State line, 196 m. W. N. W. Harrisburg.

NEW BERLIN, t. and p. v., Chenango co., N. Y.: on W. side of Unadilla r., 84 m. W. by S. Albany. Surface of t. undulating; soil moist clay loam. The v. contains several churches, mills, and factories. Pop. of t. 2,562.

NEW BERLIN, p. v., Stark co., Ohio: 100 m. N. E. by E. Columbus.

NEW BERLIN, t., p. v., and cap. Union co., Penn.: on the N. side of Penn's cr., 43 m. N. by W. Harrisburg. It contains the court-house, jail, several stores and manufactories. Five newspapers are published weekly: the "Evangelical Messenger" (relig.), "Union Democrat" (whig), "Union Times" (dem.), "Good Samaritan" (temp.), and the "Union Star" (whig).

NEW BERLIN, p. v., Milwaukie co., Wisc.: 70 m. E. by S. Madison.

NEW BERLIN CENTRE, p. o., Chenango co., N. Y.: 85 m. W. by S. Albany.

NEWBURN, p. v., port of entry, and cap. Craven county N. Car.: on S. W. bank of Neuse r., at confluence of Trent river, 47 m. above Pamlico Sound, 100 m. E. S. E. Raleigh. Lat. N. 35° 20'; long. W. 77° 5'. The Neuse is here 1½ m. wide, and Trent r. ¼ m., with sufficient depth of water for steamboats, etc. It is a well-built and healthy city, and was formerly capital of the State; contains a court-house, jail, 2 banks (capital \$375,000), and 4 churches. It has considerable trade; its chief exports are lumber, naval stores, and agricultural products. On 30th June, 1850, the total tonnage of Newbern district was 5,208 tons, of which 1,519 tons were registered, and 3,689 enrolled and licensed. Of registered tonnage 1,077 tons were permanent, and 442 tons temporary. Of enrolled and licensed tonnage 3,508 tons were in the coasting trade, 119 tons propelled by steam. Entrances from foreign countries during year previous, 23—2,664 tons; clearances, 30—3,643 tons; vessels built, 8—867 tons. Newbern has considerable inland trade, wholesale and retail. Two newspapers are published weekly: "Newbernian" (whig) and "Republican" (dem.) It is about to be connected with the interior by railroad to Goldsboro', etc. Pop. in 1830, 3,776; in 1840, 3,690; in 1850, 4,722.

NEWBURN, p. v., Greene county, Ala.: 78 m. W. by N. Montgomery.

NEWBURN, p. v., Jersey county, Ill.: 86 m. S. W. by S. Springfield.

NEWBURN, p. v., Bartholomew co., Ind.: on S. bank of Clifty cr., 42 m. E. S. E. Indianapolis.

NEWBURN, p. v., and cap. Pulaski county, Virg.: 178 m. W. S. W. Richmond.

NEWBERRY district, S. Car. Situate N. W., and contains 757 sq. m. Drained by affluents of Broad r., which flows on its E. border, and by branches of Saluda r., which forms its S. boundary. Surface generally level; soil varied—a large portion is very fertile, and there is excellent pasture for cattle. Staples, cotton, wheat, Indian corn, and potatoes. Farms 1,045; manuf. 39; dwell. 1,494, and pop.—wh. 7,243, fr. col. 212, sl. 12,638—total 20,143. Capital: Newberry Court-House. Public Works: Greenville and Columbia R. R.; Laurens R. R.

NEWBERRY, p. v., Wayne co., Ky.: on W. side Otter cr. of Cumberland r., 96 m. S. Frankfort.

NEWBERRY, p. v., Greene co., Ind.: on E. bank of W. fork of White r., and on line of Wabash and Erie Canal, 73 m. S. E. by S. Indianapolis.

NEWBERRY, p. v., Lycoming co., Penn.: on the N. side of the Susquehanna r., and the W. side of Lycoming cr., 68 m. N. by W. Harrisburg. There is a blast furnace, one forge, and one rolling-mill at this place. With the opening of railroads this v. has good business prospects.

NEWBERRY, p. v., sta., and cap. Newberry dist., S. Car.: on Greenville and Columbia R. R., 47 m. W. N. W. from Columbia. Contains the court-house, jail, 6 churches, 2 hotels, 15 stores, 2 academies. The v. is noted for the wealth, refinement, and education of its citizens. The "N. Sentinel" (dem.) is published weekly. Pop. 1,250. A mile W. of the v., the Laurens R. R. diverges from the main track.

NEWBERRYTOWN, p. v., York co., Penn.: 2 m. S. S. E. Harrisburg.

NEW BETHEL, p. o., Benton co., Ala.: 102 m. N. by E. Montgomery.

NEW BETHEL, p. v., Marion county, Ind.: 9 miles S. E. Indianapolis.

NEW BETHLEHEM, p. v., Clarion co., Penn.: on the N. side of Red Bank cr., 141 m. W. N. W. Harrisburg.

NEW BLOOMFIELD, p. v., Callaway county, Mo.: 12 m. N. N. E. Jefferson City.

NEW BLOOMFIELD, p. b., and cap. Perry co., Penn.: 20 m. N. W. by W. Harrisburg. It contains the court-house, jail, several stores, and is surrounded by a thriving agricultural district.

NEWBORN, p. v., Newton county, Ga.: 45 miles N. W. Milledgeville.

NEW BOSTON, p. v., Lee county, *Ia.*: 75 m. S. Iowa City; and 7 m. W. Nauvoo, Ill.

NEW BOSTON, p. o., Windham co., *Conn.*: on the Quinebaug r., 41 m. E. N. E. Hartford, 72 m. N. E. New Haven; has several factories.

NEW BOSTON, p. v., Mercer co., *Ill.*: on the N. E. side of Mississippi r., 1½ m. above the mouth of Edwards r., 114 m. N. W. Springfield. The v. has a good landing on the r., and is surrounded by a fertile country.

NEW BOSTON, p. v., Berkshire co., *Mass.*: on the W. side of Farmington r., 106 m. W. by S. Boston.

NEW BOSTON, sta., Worcester co., *Mass.*: on Worcester and Nashua R. R., 18 m. from Worcester.

NEW BOSTON, t. and p. o., Hillsborough co., *N. Hamp.*: on S. branch of Piscataquog r., 20 m. S. S. W. Concord. Surface hilly; soil fertile. Contains numerous mills, and 2 churches. Pop. 1,476.

NEW BRAINTREE, t. and p. v., Worcester co., *Mass.*: 54 m. W. Boston. Drained by numerous brooks, and on the N. W. by Ware r. Surface uneven; soil fertile in parts, and particularly adapted to grazing. Pop. of t. 852.

NEW BRAUNFELS, t., p. v., and cap. Comal co., *Tex.*: on Gaudaloupe and Comal rivers, at their junction, 45 m. S. S. W. Austin City. This place occupies a very beautiful site, in the most fertile portion of Texas. The inhabitants are mostly Germans. They are mainly Lutherans, but there is also a Catholic chapel.

NEW BREMEN, p. v., Auglaize co., *Ohio*: 60 m. W. N. W. Columbus, on Miami Canal. Pop. 844.

NEW BREMEN, p. o., Cook county, *Ill.*: 164 miles N. E. Springfield.

NEW BREMEN, t. and p. o., Lewis co., *N. Y.*: on E. side of Black r., 87 m. N. W. Albany. Drained by Black r. and branches. Pop. 1,510.

NEW BRIDGE, p. o., Lumpkin co., *Ga.*: on the E. side of Chestatee r., 111 m. N. by W. Milledgeville.

NEW BRIDGEVILLE, p. o., York county, *Penn.*: 82 m. S. Harrisburg.

NEW BRINGTON, p. b., Beaver co., *Penn.*: on the E. side of Beaver r., 8 m. above its mouth, and 160 m. W. by N. Harrisburg. The Ohio and Pennsylvania R. R. passes through this place, 28 m. from Pittsburg. The r. here affords water-power, and a very considerable manufacturing and local commercial business is done. The b. is regularly laid out, and contains many beautiful residences and substantial business houses. Two bridges span the r., one at either end of the village.

NEW BRIGHTON, p. v., Richmond co., *N. Y.*: 6 m. S. W. New York, 132 m. S. by W. Albany. This v. is most beautifully situated on Staten Island, and is a favorite resort of the citizens of New York City in the summer months. No place in the vicinity of New York affords more delightful views of the bay and city.

NEW BRITAIN, t., p. b., and sta., Hartford county, *Conn.*: 27 m. N. by E. New Haven, 9 m. S. S. W. Hartford; station on the Hartford, Providence, and Fishkill R. R. Drained by Mill r. Contains numerous factories, chiefly of brass and hardware. The Connecticut State Normal School, established here in 1851, has an annual appropriation of \$2,500, and employs four instructors. The "New Britain Journal" is published weekly. Pop. of t. 3,923.

NEW BRITAIN, p. o., Columbia co., *N. Y.*: 22 m. S. E. Albany.

NEW BRUNSWICK, p. city, port, and cap. Middlesex co., *N. Jer.*: on Raritan r., 26 m. N. E. Trenton, 81 m. by New Jersey R. R. from New York, 55 m. from Philadelphia. This flourishing city is at the head of navigation on the Raritan, 14 m. from its mouth, and is accessible for vessels drawing eight feet of water. Here terminates the Delaware and Raritan Canal, which connects with these rivers here and at Bordentown. It is 43 m. long, 75 feet wide, and 7 feet deep; admitting the passage of vessels of 100 tons. It has a rise and fall of 116 feet by 14 locks. New Brunswick

was incorporated as a city in 1784. It is the dep t of a fertile district, and has considerable trade and manufactures. The oldest portion of the city is built upon the river, on low ground, having narrow and crooked streets, but the rest is built upon a declivity, with regular and broad streets, presenting a handsome appearance, and commanding fine prospects. Many houses are elegantly surrounded by gardens. Upon the highest part of the city is Rutgers' College, founded in 1770. In 1850 it had 7 instructors, 66 students, 513 alumni, and 10,000 vols. in library. In the vicinity is the Theol. Seminary of the Dutch Reformed Church, established in 1784, having 3 professors, 34 students, 179 alumni, and 7,000 vols. in library. The city contains the court-house and jail, 9 churches, etc.; 2 banks, cap. \$200,000, and several large factories. Three newspapers are issued weekly—"N. Jersey Union" (dem.), "N. B. Times" (dem.), "Fredonian" (whig). The constant communication of New Brunswick with New York for the last few years has greatly increased its business and population. Pop. in 1830, 7,381; in 1840, 8,663; in 1850, 13,387.

NEW BUDA, p. v., Decatur co., *Ia.*: on Crooked fork of Grand r., 133 m. S. W. by W. Iowa City. This is a new Hungarian settlement, planted by the exiles who came over to the United States with Gov. Ujhazy.

NEW BUFFALO, t. and p. v., Berrien co., *Mich.*: on Lake Michigan, 125 m. W. S. W. Lansing, at mouth of Galain r., which is here an estuary 3 m. wide, affording a good harbor. The v. was formerly the termination of the Michigan Central R. R., now extended to Chicago.

NEW BUFFALO, p. v., Perry co., *Penn.*: on W. side of Susquehanna r., 5 m. above the mouth of Juniata r., 16 m. N. by W. Harrisburg.

NEWBURG, p. v., Macon county, *Mo.*: 100 m. N. by W. Jefferson City.

NEWBURG, p. v., Franklin co., *Ala.*: 159 m. N. N. W. Montgomery.

NEWBURG, p. v., Warrick co., *Ind.*: on Ohio r., 133 m. S. S. W. Indianapolis. It has a convenient steamboat landing, and contains several stores and warehouses, and a population of about 600. The "Warrick Democrat" is published weekly.

NEWBURG, t. and p. o., Cass county, *Mich.*: 88 m. S. W. Lansing. Pop. 383.

NEWBURG, p. o., Washington co., *Wis.*: 68 m. E. N. E. Madison.

NEWBURG, p. v., and cap. Lewis co., *Tenn.*: 54 m. S. S. W. Nashville.

NEWBURG, t. and p. o., Penobscot co., *Me.*: 49 m. N. E. Augusta. Drained by a branch of Sowadabscook r. Soil fertile. Pop. 1,399.

NEWBURG, t., p. v., and semi-cap. Orange co., *N. Y.*: on W. bank Hudson r., 84 m. S. by W. Albany, 54 m. N. New York. Lat. 41° 31' N., long. 74° 1' W. Surface of t. elevated, somewhat broken, and hilly. Drained by the Hudson and small creeks. Soil clay and gravelly loam, fertile, but best adapted to grazing. This vicinity, with the rest of Orange co., is celebrated for its superior dairy products and excellent live-stock. The v. is handsomely situated on an acclivity rising from the shore to an elevation of 800 feet, where is afforded a most delightful and extensive prospect of the river, which here widens into Newburg Bay, fertile and beautiful valleys, the Highlands, and the villages of West Point and Fishkill. This v. was settled in 1701 by Germans, and incorporated in 1800. General Washington had here his head-quarters during the winter of 1782-3, at which period the celebrated Newburg letters were written. The old stone-house in which he resided is still standing in good preservation. On 28d June, 1783, the troops here stationed were disbanded. The v. contains a court-house and jail, numerous churches, seminaries, etc. The Theological Seminary of Assoc. Ref. Church, established in 1836, has 1 professor, 11 students, 143 alumni, 3,200 vols. in library. There are large factories of carriages, machinery, chairs,

cordage, plaster, flour, candles, etc., iron foundries, breweries, tanneries, stone and lumber yards, etc.; 4 banks have a capital of \$700,000. A steam ferry connects the v. with Fishkill and Hudson River R. R. The Newburg branch R. R. connects with Erie R. R. at Chester junction, 19 m. The immense quantities of agricultural products, etc., of the vicinity and interior, which are here received for the New York markets, with the other commerce of the v., constantly employ many freight barges, sloops, and steamboats. Four newspapers are issued weekly, "N. Gazette" (whig), "Telegraph" (dem.), "Excelsior" (dem.), "Highland Courier" (dem.). Pop. in 1890, 6,424; in 1840, 8,933; in 1850, 11,415.

NEWBURG, t., p. v., and sta., Cuyahoga co., Ohio: 123 m. N. E. by N. Columbus, 8 m. S. E. Cleveland, on Cleveland and Pittsburg R. R. Soil of t. fertile. Drained by Mill cr., upon which the v. is situated, at a fall in the stream, affording extensive water-power. Pop. of t. 1,542.

NEWBURG, p. o., Cumberland co., Penn.: on N. side of Conedogwinit cr., 87 m. W. by S. Harrisburg.

NEW BURLINGTON, p. o., Delaware co., Ind.: on Prairie cr., 47 m. E. N. E. Indianapolis.

NEW BURLINGTON, p. o., Clinton co., Ohio: 54 m. S. W. Columbus.

NEWBURY, t. and p. o., Merrimac co., N. Hamp.: 24 m. W. N. W. Concord. It is bordered on the N. W. by Sunapee lake. Drained by a branch of Warner r.; has two churches. Pop. 738.

NEWBURY, t. and p. o., Geauga co., Ohio: 121 m. N. E. Columbus. Surface of t. diversified; soil fertile; timber abundant. Drained by the heads of Chagrin and Cuyahoga rivers. Pop. 1,253.

NEWBURY, t., p. v., and sta., Orange co., Verm.: on Connecticut r., 27 m. E. S. E. Montpelier. Wells' r., in the N. part of t., affords good water-power. The Connecticut and Passumpsic R. R. passes through the t. The Newbury Seminary is a flourishing Methodist academy, and has six teachers. The "Aurora of the Valley" (lit.) is published weekly. Pop. 2,984.

NEWBURYPORT, p. city, port of entry, and one of the caps. Essex co., Mass.: on the S. bank of Merrimac r., 4 m. from the ocean, 84 m. N. N. E. Boston. Lat. 42° 48' 32" N., long. 70° 52' 47" W. The harbor is safe and spacious, and protected by a break-water, but its entrance is obstructed by a sand-bar. The city is beautifully situated on a gentle acclivity, and very regularly laid out, with wide streets, those parallel with the river rising like terraces. This place has suffered severely by fires, commercial losses, and otherwise, but for the last few years it has been steadily increasing in wealth and importance. A U. S. naval officer is stationed here. It is still largely engaged in the mackerel and cod fisheries, coasting trade, and foreign commerce. Five large cotton manufacturing companies have a capital of \$1,180,000. Ship-building is extensively carried on. There are 3 banks; capital \$570,000. The principal buildings are, custom-house, of rough granite, with fine wrought Doric portico; court-house, of brick; stone jail, 10 churches, a fine academy, lyceum, etc. Much attention is given to education. The Putnam High School is endowed with \$70,000. Another institution, chiefly for classical studies, has a large fund, given by Mr. Moses Brown. Rev. George Whitefield, the celebrated divine, died in this town, Sept. 21, 1770; his tomb and monument are in the First Presbyterian Church. The Eastern R. R. passes through the city, 84 m. from Boston. The Newburyport R. R. branches off to Bradford, connecting with the Boston and Maine R. R. Two daily papers are issued, "Herald" (whig), "Union" (dem.); 1 semi-weekly, "N. Herald" (whig). On 30th June, 1850, the total tonnage of N. district was 23,262 tons, of which 16,214 tons were registered, and 7,048 tons enrolled and licensed. Of registered tonnage, 14,018 were permanent, and 2,196 temporary. Of the enrolled and licensed tonnage, 7,048 were permanent, 494 tons were employed in the coasting trade, 3,739 tons were in the cod fishery, and 2,815 tons in the mackerel

fishery. During the year previous the number of clearances for foreign ports was 140—9,703 tons; number of entrances 123—3,605 tons. Vessels built, 10 (8 ships, 2 schooners), 4,657 tons. Pop. in 1830, 6,375; in 1840, 7,161; in 1850, 9,572.

NEWBY'S BRIDGE, p. o., Perquimans co., N. Car.: 130 m. N. E. Raleigh.

NEW CALIFORNIA, p. v., Grant co., Wisc.: 60 m. W. S. W. Madison.

NEW CALIFORNIA, p. o., Union co., Ohio: 30 m. N. W. Columbus.

NEW CANAAN, t. and p. v., Fairfield co., Conn.: 32 m. W. S. W. New Haven, 61 m. S. W. Hartford. Surface of t. uneven; soil gravelly loam, well watered by several streams from Long Island Sound. Contains a number of mills and has some manufactures. The v. is on high ground, and contains 3 churches and an academy. Pop. of t. 2,601.

NEW CANANDAIGUA, p. o., Oakland co., Mich.: 65 m. E. by S. Lansing.

NEW CANTON, p. v., Hawkins co., Tenn.: 225 m. E. by N. Nashville.

NEW CANTON, p. v., Buckingham county, Virg.: on S. side State cr., a quarter of a mile from James r., 45 m. W. N. W. Richmond. Four miles W. are the extensive Virginia flour-mills.

NEW CARLISLE, p. v., St. Joseph county, Ind.: 133 m. N. by W. Indianapolis.

NEW CARLISLE, p. v., Clark co., Ohio: 54 m. W. by S. Columbus. Pop. 634.

NEW CARTHAGE, p. v., Madison par., La.: N. side of a bend of Mississippi r., 120 m. N. Baton Rouge.

NEW CASTLE county, Del. Situate N., and contains 928 sq. m. Drained by Christiana, St. George's, Brandywine, Red Clay, Naaman's, Blackbird, and Duck creeks. Surface varied—in the N. and W. being hilly, in the E. low and marshy and unfit for tillage; soil, where capable of cultivation, is fertile. Staples, wheat, Indian corn, and potatoes; and in this county are the principal manufacturing establishments of the State. Farms 1,662; manuf. 251; dwell. 7,093, and pop.—wh. 34,322, fr. col. 7,563, sl. 894—total 42,784. Capital: New Castle. Public Works: Philadelphia, Wilmington, and Baltimore R. R.; New Castle and Frenchtown R. R.; New Castle and Wilmington R. R. Chesapeake and Delaware Canal, etc.

NEW CASTLE, hund., p. v., port of entry, and cap. New Castle co., Del.: on W. bank of Delaware r., 81 m. N. Dover, 5 m. S. Wilmington. Lat. 39° 40' N., long. 75° 38' W. The hund. is bounded on the N. and W. by Christiana cr. Surface moderately hilly; soil fertile. The v. is an old town, and once the capital of the State. Its harbor is well protected by long piers. Railroads to Wilmington and Frenchtown afford direct connection with Philadelphia and Baltimore. It contains the court-house, jail, town-house, arsenal, market-house, 1 bank—capital \$138,000; 5 churches, and public library of 4,000 vols. Here is a large manufactory of steam-engines, locomotives, etc. The total tonnage of New Castle district on the 30th June, 1850, was 7,259 tons enrolled and licensed, of which 7,124 tons were permanently employed in the coasting trade, 135 tons were licensed under 20 tons; 1,345 tons were propelled by steam. Pop. 3,500.

NEW CASTLE, p. o., Gentry county, Mo.: 162 m. N. W. Jefferson City.

NEW CASTLE, p. v., sta., and cap. Henry county, Ind.: on E. side Blue r., 40 m. E. by N. Indianapolis. The New Castle and Richmond R. R. passes through the village. It contains a court-house and jail, several good schools, and numerous stores.

NEW CASTLE, t. and p. v., Lincoln co., Me.: 24 m. S. S. E. Augusta, between Damariscotta and Sheepscot rivers. The Damariscotta r. is navigable for large vessels to the v., 15 m. from the ocean. There are numerous mills of different kinds in the v. and t. The "Lincoln Democrat" is published weekly. Pop. 2,012.

NEW CASTLE, p. o., Logan co., *Ill.*: on the N. side of Kickapoo cr., 87 m. N. E. by N. Springfield.

NEW CASTLE, t., p. v., and sta., Westchester co., *N. Y.*: 102 m. S. Albany. Surface of t. hilly; soil gravelly and sandy loam. The Harlem R. R. passes through the t., 40 m. from New York. Pop. 1,800.

NEW CASTLE, t. and p. v., Coshocton co., *Ohio*: 48 m. E. N. E. Columbus. Drained by Walhonding river and branches. Pop. 1,227.

NEW CASTLE, p. v., Wilkes co., *N. Car.*: 138 m. W. N. W. Raleigh.

NEW CASTLE, p. b., and cap. Lawrence co., *Penn.*: at the junction of the Shenango and Neshannock creeks, 187 m. W. by N. Harrisburg. The Beaver and Erie Canal passes through the v. Iron ore deposits are found in the vicinity; 2 rolling-mills, 1 blast-furnace, several manufactories, and a number of stores, make this a place of considerable business importance. There are two newspapers issued weekly—the "N. C. Gazette" (whig), and "Lawrence Journal" (dem.).

NEW CASTLE, p. v., Hardeman county, *Tenn.*: 147 m. W. S. W. Nashville.

NEW CASTLE, t. and p. o., Rockingham co., *N. Hamp.*: 43 m. E. S. E. Concord. Consists of an island in Portsmouth harbor, connected with Portsmouth by a bridge. Here are Fort Constitution and the light-house; also 1 church. The island is much resorted to from Portsmouth, for the purpose of fishing. Pop. 891.

NEW CASTLE, p. v., Botetourt co., *Virg.*: on Craig's cr., 145 m. W. Richmond.

NEW CASTLE C. H., p. v., and cap. Henry co., *Ky.*: 21 m. N. W. Frankfort.

NEW CENTREVILLE, p. v., Jennings co., *Ind.*: on S. side Vernon Fork r., 63 m. S. S. E. Indianapolis.

NEW CHAMBERSBURG, p. v., Columbiana co., *Ohio*: 114 m. N. E. by E. Columbus.

NEW CHESTER, p. o., Adams co., *Penn.*: on Conewago cr., 26 m. S. S. W. Harrisburg.

NEW CHURCH, p. o., Accomac county, *Virg.*: 101 m. E. by N. Richmond.

NEW COLUMBIA, p. v., Union co., *Penn.*: on W. side of W. branch of Susquehanna r., 53 m. N. Harrisburg.

NEW COLUMBIA, p. v., Newton co., *Ten.*: on W. side of Saline r., 258 m. E. by N. Austin City; has a good landing for steamboats.

NEW COLUMBUS, p. o., Luzerne co., *Penn.*: 68 m. N. N. E. Harrisburg.

NEW COMERSTOWN, p. v., Tuscarawas co., *Ohio*: on W. bank Tuscarawas r., and on the Ohio and Erie Canal, 75 m. E. N. E. Columbus. Pop. 476.

NEW CONCORD, p. v., Callaway co., *Ky.*: 213 m. S. W. Frankfort.

NEW CONCORD, p. v., Muskingum county, *Ohio*: 65 m. E. by N. Columbus. Has an academy, several churches, and mills. Pop. 384.

NEW CORWIN, p. o., Highland co., *Ohio*: 60 m. S. W. by S. Columbus.

NEW CORYDON, p. v., Jay co., *Ind.*: on S. side of Wabash r., 55 m. N. E. Indianapolis.

NEW CUMBERLAND, p. b., Cumberland co., *Penn.*: on W. side of Susquehanna r., at the confluence of the Yellow Breeches cr., 3 m. S. Harrisburg. The York and Cumberland R. R. passes through the b., to connect with the Cumberland Valley and other lines. Here are several stores, and some manufacturing is done.

NEW CUMBERLAND, p. o., Brooke county, *Virg.*: 254 m. W. N. W. Richmond.

NEW DERRY, p. v., Westmoreland co., *Penn.*: 124 m. W. Harrisburg. The Pennsylvania R. R. passes through town of Derry, 49 m. from Pittsburgh.

NEW DIGGINS, t. and p. v., Lafayette co., *Wisc.*: on Fever r., 63 m. S. W. Madison. Pop. 1,742.

NEW DURHAM, p. v., La Porte county, *Ind.*: 125 m. N. N. E. by N. Indianapolis.

NEW DURHAM, t., p. o., and sta., Strafford co., *N. Hamp.*: 22 m. N. E. Concord, on Cocheco R. R., 22 m. from Dover. Surface very uneven; soil moist, and adapted to grazing. Pop. 1,048.

NEW DURHAM, p. v., Hudson co., *N. Jer.*: 55 m. N. E. Trenton.

NEW EGYPT, p. v., Ocean co., *N. Jer.*: 15 m. S. E. by E. Trenton, on Crosswick's cr., upon which are numerous and valuable mills.

NEWELL, p. o., Anderson dist., *S. Car.*: 95 m. N. W. Columbia.

NEW ENGLAND VILLAGE, p. v., Worcester co., *Mass.*: 38 m. W. Boston, 7 m. S. E. Worcester, 1 m. from Boston and Worcester R. R., on Quinsigamond cr., the outlet of Long Pond. This stream in its descent falls 50 feet, affording great water-power. This is a very flourishing and growing village.

NEW FAIRFIELD, t. and p. o., Fairfield co., *Conn.*: 48 m. W. S. W. Hartford, 82 m. W. N. W. New Haven. Surface of t. rough and hilly; soil gravelly. Drained by Rock r. Pop. 927.

NEWFANE, t. and p. o., Niagara county, *N. Y.*: 262 m. W. by N. Albany. Drained by Eighteen-Mile cr. Surface inclined toward the lake; soil sandy loam. Pop. 3,255.

NEWFIELD, t. and p. o., York county, *Ma.*: 76 m. S. W. Augusta. Drained by Little Ossipee r., on which there are some mills. Pop. 1,418.

NEWFIELD, t. and p. v., Tompkin's co., *N. Y.*: 148 m. W. by S. Albany. Surface of t. broken and hilly; soil gravelly loam and very fertile; is well drained.

NEW FLORENCE, sta., Westmoreland co., *Pa.*: on S. side Conemaugh r., 114 W. by N. Harrisburg, on Pennsylvania R. R., 70 m. from Pittsburgh.

NEWFOUND, lake and river, Grafton co., *N. H.* The lake is six m. long, 2 to 3 m. wide; its outlet, or the river, is a considerable stream, flowing into Pemigewasset r.

NEWFOUNDLAND, p. o., Morris co., *N. Jer.*: on S. bank of Pequannock r., 53 m. N. N. E. Trenton.

NEW FRANKFORT, p. o., Scott co., *Ind.*: on N. side of Sucker's Fork, 75 m. S. S. E. Indianapolis.

NEW FRANKLIN, p. v., Stark co., *Ohio*: 111 m. N. E. by E. Columbus.

NEW FRANKLIN, p. o., Wayne co., *Ill.*: 118 m. S. E. by S. Springfield.

NEW FREEDOM, p. o., York county, *Penn.*: 25 m. S. Harrisburg.

NEW GARDEN, p. o., Wayne co., *Ind.*: 65 m. E. Indianapolis.

NEW GARDEN, p. o., Russell co., *Virg.*: 261 m. W. by S. Richmond.

NEW GARDEN, p. v., Guilford co., *N. Car.*: 78 m. W. N. W. Raleigh.

NEW GARDEN, p. v., Columbiana county, *Ohio*: 118 m. E. N. E. Columbus.

NEW GARDEN, t. and p. o., Chester co., *Penn.*: 68 m. E. S. E. Harrisburg. Surface level; soil calcareous loam. Drained by Red Clay and White Clay creeks.

NEW GASCONY, p. v., Jefferson co., *Ark.*: on N. bank of Arkansas r., 42 m. E. S. E. Little Rock.

NEW GENEVA, p. v., Fayette co., *Penn.*: on E. side of Monongahela r. above the confluence of George cr., 160 m. W. by S. Harrisburg.

NEW GERMANTOWN, p. v., Hunterdon county, *N. Jer.*: W. of Lamington r., 82 m. N. Trenton. Contains several churches and stores and an academy.

NEW GERMANTOWN, p. v., Perry co., *Penn.*: 86 m. W. Harrisburg.

NEW GILEAD, p. v., Moore co., *N. Car.*: 60 m. S. W. Raleigh.

NEW GLARUS, p. o., Green co., *Wisc.*: on fork of Sugar r., 25 m. S. S. W. Madison.

NEW GLASGOW, p. v., Amherst co., *Virg.*: 87 m. W. Richmond.

NEW GLOUCESTER, t., p. o., and sta., Cumberland co., *Me.*: 86 m. S. W. Augusta. Drained by Royal's r., which affords water-power to mills of various kinds. The Atlantic and St. Lawrence R. R. passes through this t., 22 m. from Portland. Pop. 1,848.

NEW GOSHEN, p. o., Vigo county, *Ind.*: 70 m. W. S. W. Indianapolis.

NEW GOTTINGEN, p. v., Guernsey co., *Ohio*: 65 m. E. Columbus. Pop. 54.

NEW GRAEFENBERG, p. o., Herkimer co., *N. Y.*: 70 m. W. N. W. Albany.

NEW GRENADA, p. o., Fulton co., *Penn.*: 70 m. W. S. W. Harrisburg.

NEW GREYNA, p. o., Burlington co., *N. Jer.*: 80 m. S. Trenton.

NEW GUILFORD, p. o., Coshocton co., *Ohio*: 50 m. E. N. E. Columbus.

NEW HACKENSACK, p. o., Dutchess co., *N. Y.*: 80 m. S. by W. Albany.

NEW HAGESSTOWN, p. v., Carroll co., *Ohio*: 97 m. E. N. E. Columbus.

NEW HAMBURG, p. v. and sta., Dutchess co., *N. Y.*: on E. bank of Hudson r., at mouth of Wappinger's cr., 74 m. S. by W. Albany. Is a station of the Hudson River R. R., 66 m. from New York, 73 m. from Albany.

THE STATE OF NEW HAMPSHIRE.

NEW HAMPSHIRE is situated between 42° 41' and 45° 11' latitudes north, and between 70° 40' and 72° 28' longitudes, west from Greenwich, or between 4° 34' and 6° 22' east from Washington. It is bounded on the north by Lower Canada, on the east by the State of Maine and the Atlantic Ocean, on the south by the State of Massachusetts, and on the east by that of Vermont, from which it is separated by the Connecticut River. From north to south its length is 163 miles, and its width, from east to west, from 90 to 20 miles, its form tapering toward the north. It contains an area of 9,250 square miles.

New Hampshire has a sea-coast of but 18 miles in length. The shore is little otherwise than a sandy beach, bordered in front by salt marshes, and indented by creeks and coves, which form, however, eligible harbors for small craft. Behind there is a narrow, level, or gently undulating tract of 25 or 30 miles in width, and beyond this zone the general surface becomes mountainous, principally in the north, the hills increasing in height as they recede from the sea, until they swell to the lofty grandeur of the White Mountains. This range, which may be considered as a continuation of the Alleghanies, enters New Hampshire between the Connecticut and Merrimac rivers, and of which the Grand Monadnock, 3,254 feet in height, Sunapee, 4,636 feet, and Mooseloc, 4,686 feet, appear to be links, reaches its greatest elevation in Mount Washington, the summit of which is 6,428 feet above the level of the sea, and the highest culmination east of the Rocky Mountains. The other principal peaks in this range, for as such it may be described, although it is not always continuous, are: Mount Adams, 5,960 feet; Mount Jefferson, 5,860 feet; Mount Madison, 5,620 feet, Mount Monroe, 5,510 feet; Mount Franklin, 5,060 feet, and others little inferior in elevation, and the Kearsarge Mountains rise to the height of 2,480 feet. These mountains are composed of huge rocks of granite and gneiss, and round their bases are forests of heavy timber, which is succeeded by a belt of stunted fir trees, from 10 to 15 feet high, above this a growth of thick bushes, and farther up the surface is covered with a dark pall of mosses and lichens. The snow lies on their summits for nine or ten months of the year, giving them the appearance from which they take their name. The "Notch" is a remarkable chasm two miles in length, and where narrowest it is only 22 feet wide. It is the only pass through the great mountain barrier. Through the high, steep precipices, which form its walls, flows one of the head branches of the Saco River, and in its course receiving the waters of several cascades which leap down the declivities. This stream, after a heavy fall of rain, becomes fearfully swollen, and frequently at such times sweeps away all opposing obstacles, and fills the valley with ruin. In 1836, a violent rain storm caused a slide of earth, rocks, and trees, which choked up the streams, and flooding the country, spread desolation far and wide, and in the general confusion a family of eleven persons, residing at the Notch House, were overwhelmed.

The general slope of the State is from north to south, and in that direction the principal rivers flow, following the courses of the local valleys. The slope toward the Connecticut valley is short and precipitous, and in this direction the only streams of consequence are the Ammonoosuc and Ashuelot. The Androscoggin passes through the north-eastern part of the State, but this is properly a river of Maine. The Piscataqua, the only considerable river that has its whole course within the State, is formed by the junction of Salmon Falls and Cochecho rivers from the north, and several smaller streams from the west, and it is only from this junction to the sea, a distance of ten miles, that it bears the name of Piscataqua. At its mouth is the harbor of Portsmouth, one of the finest in the United States. The Merrimac rises in the White Mountains, not far distant from the sources of the Saco, and running south through the centre of the State, passes into Massachusetts, where it turns and runs in a north-easterly direction, and falls into the Atlantic. The principal tributaries of the Merrimac are from the west, the Nashua, which, after bending beyond the State line, again enters New Hampshire, and empties itself in the town of Nashua; the Contoocook, which empties itself at Concord, and Baker's River, which rises in Mooseloc Mountain, and empties itself at Plymouth; and from the east the principal tributaries are Winnipisogee River, the outlet of the lake of the same name, and Squam River, which is the outlet of Squam Lake. None of the rivers of New Hampshire, however, are much used for navigation, but afford the best of mill-sites.

It is estimated that 110,000 acres of the surface of this State are covered with water. Lake Winnipisogee (Win-ne-pesok-ee, *Indian*) is the most extensive sheet of water within its limits. It is 23 miles in length, and from 2 to 10 in breadth. Upward of 360 islands are sprinkled over its bosom, and its shores are indented by numerous bays formed by gentle swells of land projecting into the lake and rising gracefully from its waters. It abounds in fish, and its waters are remarkably pure. Being on the route to the White Mountains, it is much visited by travelers, and a steamboat is employed on the lake during the summer season. Lake Umbagog, on the eastern State line, and others in the south and west, are smaller, but all have attractive scenery, and are the recipients and outlets of several streams.

Off the coast are the Isles of Shoals, seven in number, which belong partly to Maine and partly to New Hampshire (see MAINE). They lie about eight miles out to sea, between Portsmouth and Newburyport, and are hardly more than a cluster of rocks rising above the water. For more than a century before the Revolution they were quite populous, containing at one time 600 inhabitants, who found there an advantageous situation for carrying on the fisheries. To this day the best cod are those known under the name of Isles of Shoals sun-fish. From 3,000 to 4,000 quintals were once annually taken and cured here, but the business has of late years declined.

New Hampshire has been called the "Switzerland of America." Its scenery is full of grandeur and wild magnificence.

NEW HAMPSHIRE.

From the lofty summits of its rugged mountains the eye surveys one of the wildest, and at the same time enchanting, countries of the world, and is never drowsed by monotony. Rocks piled on rocks, clothed in gigantic forest growths and shrubs, placid lakes embosoming countless verdant islets; pleasant valleys and farm lands in the highest state of cultivation, successively greet the eye, while the foaming cataract and leaping cascade, now rushing down the slopes and dashing to the vales, and now reposing into the gently gliding streams, and anon swelling into rivers, coursing like molten silver through the plains, and winding their way to the sea, enchant the senses and cheat the mind of its cares. From Mount Washington the prospect is noble and extensive, only bounded on the one hand by the dim distance of the ocean, and on the other by the blue horizon resting on the green base of the land. From Monadnock and Mooseloe, and many of the other higher elevations, the scenery is not less alluring. Nor is that of the lakes inferior. Surrounded by forest-clad hills, these beautiful basins interspersed with islets, and reflecting from their glassy bosoms the bright blue sky, and the neighboring slopes, are truly a feature of loveliness, and well might the Indian, charmed by the beauties of the scenery around Winnipiseogee, call it "The smile of the Great Spirit." Umbagog, Sunapee, and others, have their charms; they are smaller, indeed, but all are highly picturesque, and abound with the most lovely scenery.

The mineral resources of New Hampshire are by no means insignificant. The recent geological survey by Dr. Charles F. Jackson, one of the most scientific geologists of New England, has resulted in many highly valuable discoveries. His examinations have brought to light the existence of several beds of iron, and a valuable one of limestone, not hitherto known, which will prove sources of great wealth to the State. Iron exists in almost every county. The ore beds that have been chiefly worked are at Franconia and Lisbon, in the northerly part of the State, and these are considered as among the richest in the United States, the ores yielding from 60 to 70 per cent. of metal. Ores of copper are found also at Franconia, Warren, Eaton, and other places, which want only a judicious investment of capital and labor to develop their treasures. The zinc ore mines of Warren are described as abounding and rich, and a very rich mine of tin ore has been discovered in the town of Jackson, near the foot of the White Mountains, which promises to yield from 40 to 60 per cent. in pure worked metal. This is the first valuable tin mine that has been discovered in the United States. In the town of Eaton there are also extensive deposits of ores of zinc and lead, mixed in some of the shale with veins of silver, the amount of which is sufficiently great to allow of its being profitably separated.

There is no State which possesses greater quantities of granite, suited to the purposes of architecture, than New Hampshire. At various points on the very margins, or near the banks of the Merrimac and Connecticut, are found immense and apparently exhaustless ranges of this stone. It is of the best texture and color, and capable of yielding blocks of any required size. Marble is also abundant, as also most of the rocks attributed to the primary era.

The soils of New Hampshire are generally of a stubborn nature, and not of the most fertile description. They require considerable labor to make them moderately productive; those of the intervals are the most profitable, and are moderately rich. All, however, yield well to the industry applied to them, and under proper management, the natural ruggedness of the country has been converted into a garden-like scene. The climate is somewhat colder than that of Maine, and more steady; the difference of elevation, however, decides the prevailing temperature, and in some cases the difference between that of the base and summit of the mountains is from 18° to 25°. The temperature of the summer is great, and sometimes rises to 100° Fahr. In the winter season it has been known to sink so low as to freeze the mercury in the tube. These extremes, however, seldom occur, and are of short duration. In the neighborhood of the White Mountains, the peaks of which are almost always capped in snow, the winters are excessively cold. No part of the State, however, is unhealthy, but on the contrary, many instances of longevity are recorded, and it is no unusual thing to find persons enjoying good health at the patriarchal age of 100 years and upward. William Perkins, of New Market, died in 1732, at 116; William Scory, of Londonderry, in 1754, at 110; Robert Melin, in 1785, at 115; Samuel Welch, of Bow, in 1823, at 118; and more recent instances are not wanting. In 1840 there were living in the State 10 persons of 100 years of age and upward, and in 1850, 13 persons. The cold weather sets in about the middle of September, and continues till May; the severity of winter, however, does not commence before November, from which time to the opening of the spring season, the country is clothed in a thick mantle of snow, and the rivers are frozen to their sources.

The natural growths of the country are various kinds of useful timber, as oak, pine, hemlock, ash, beech, and birch; and these in former times constituted the chief merchantable products of the region, and when formed into masts, staves, planks, boards, etc., were largely exported. The sugar-maple is also abundant, and the pitch-yielding pine. Wolves, bears, and other fur-bearing animals are still found in the State, and although a bounty has long been paid by the government for their destruction, the farmers continue to complain of their visits. The rivers and lakes are well stored with fish, and wild fowl and game are plentiful in all parts.

New Hampshire is divided into 10 counties and 243 townships, the general statistics of the counties and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Belknap	8,436	17,721	2,438	163	Gilford	Hillsboro'	9,999	57,477	3,675	899	Amherst
Carroll	3,724	20,156	2,805	135	Ossipee	Merrimac	7,400	38,445	3,220	215	Concord
Cheshire	5,302	30,144	2,905	377	Keene	Rockingham	9,118	50,936	3,811	994	Exeter
Cook	2,114	11,853	1,439	69	Lancaster	Strafford	4,764	29,364	1,844	394	Dover
Grafton	7,898	42,843	5,063	421	Haverhill	Sullivan	3,649	19,375	2,129	141	Newport
					Plymouth						

The whole number of dwellings in the State was, at the above date, 57,389, of families 62,237, and of inhabitants 317,864, viz., whites 317,389—males 155,902, and females 161,487; free colored 475—males 143, and females 232. Of the whole population, there were *deaf and dumb*—wh. 163, fr. col. 0—total 163; *blind*—wh. 134, fr. col. 2—total 136; *insane*—wh. 835, fr. col. 0—total 835; and *idiotic*—wh. 343, fr. col. 4—total 352. The number of free persons born in the United States, was 304,227; the number of foreign birth, 12,571; and of birth unknown, 178. The *native* population originated as follows: Maine 9,835, *New Hampshire* 261,591, Verm. 11,256, Mass. 18,495, R. I. 864, Conn. 1,105, N. York 1,171, N. Jer. 49, Penn. 143, Del. 10, Md. 84, Dist. of Col. 14, Ind. 43, N. Car. 10, S. Car. 21, Ga. 16, Flor. 1, Ala. 13, Miss. 9, La. 3, Tex. 2, Ark. 8, Tenn. 3, Ky. 11, Ohio 66, Mich. 48, Virg. 20, Ill. 31, Mo. 12, Ia. 4, Wis. 10, Calif. 1, Territories 2; and the *foreign* population was composed of persons from—England 1,469, Ireland 8,311, Scotland 467, Wales 11, Germany 147, France 69, Spain 3, Belgium 0, Holland 1, Italy 0, Austria 1, Switzerland 9, Denmark 3, Norway 2, Sweden 12, Prussia 2, Asia 4, Africa 3, British America 2,501, Mexico 5, Central America 0, South America 31, West Indies 17, Sandwich Islands 3, and other countries 7.

NEW HAMPSHIRE.

The following table will show the decennial progress of the population since the first census of the State, taken by the United States authorities:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	141,111	680	158	788	141,899	—	—
1800	182,878	856	8	864	183,762	41,868	29.5
1810	213,390	970	—	970	214,860	30,598	16.6
1820	248,286	925	—	925	244,161	29,801	13.9
1830	268,721	604	8	607	269,828	25,167	10.3
1840	284,086	587	1	588	284,574	15,246	5.6
1850	317,389	475	—	475	317,864	88,290	11.16

The statistics of the wealth, productions, manufactures, and institutions of New Hampshire, as ascertained by the census of the State, taken in 1850, and other official reports referring to the same year, are as follows:

Occupied Lands, etc.—Improved lands, 2,251,488 acres; and unimproved lands, 1,140,926 acres—valued in cash at \$55,245,997. Whole number of farms under cultivation, 29,229. Value of farming implements and machinery, \$2,314,125.

Live-Stock.—Horses, 84,283; asses and mules, 19; milch cows, 94,277; working oxen, 59,027; other cattle, 114,606; sheep, 884,756; swine, 68,487—valued in the aggregate at \$8,871,901. The returns of 1840 exhibited the live-stock as follows: Horses, mules, etc., 43,892; neat cattle of all descriptions, 275,562; sheep, 617,890; and swine, 121,671.

Products of Animals.—Wool, 1,864,084 (in 1840, 1,260,517) pounds; butter, 6,977,056 pounds; cheese, 3,196,568 pounds; and the value of animals slaughtered in the year, \$1,522,878. Silk cocoons were produced to the amount of 4,191 (in 1840, 4194) pounds, being two-sevenths the whole product of the United States; and beeswax and honey to the amount of 117,140 pounds.

Grain Crops.—Wheat, 185,658 bushels; rye, 188,117 bushels; Indian corn, 1,573,670 bushels; oats, 978,381 bushels; barley, 70,256 bushels; and buckwheat, 65,265 bushels. The crops of 1839, according to the census of 1840, were as follows: Wheat, 422,124 bushels; rye, 808,143 bushels; Indian corn, 1,162,572 bushels; oats, 1,296,114 bushels; barley, 121,899 bushels; and buckwheat, 105,103 bushels.

Other Food Crops.—Peas and beans, 70,856 bushels; and potatoes, Irish, 4,304,919 bushels. The potato crop of 1839-40 amounted to 6,206,606 bushels.

Miscellaneous Crops.—Tobacco, 50 pounds; hay, 598,854 (in 1840, 496,107) tons; clover-seed, 829 bushels; other grass-seed, 8,071 bushels; hops, 257,174 (in 1840, 243,425) pounds; flax, 7,652 pounds; flax-seed, 189 bushels; maple sugar, 1,294,863 pounds; molasses, 9,511 gallons; wine, 844 gallons, etc. Value of orchard products, \$243,563; and of market-garden products, \$56,810.

Home-made Manufactures were produced in the year ending 1st June, 1850, to the value of \$393,455.

Manufactures.—Aggregate capital invested, \$400,000,000; value of all raw material, fuel, etc., \$40,000,000; hands employed—males 00,000, and females 00,000; monthly cost of labor, \$800,000; entire value of products, \$400,000,000. The capital employed in manufactures in 1840, was \$9,252,443. The whole number of manufacturing establishments producing to the value of \$500 and upward annually, on the 1st June, 1850, was 3,301; and of this number 44 were cotton factories, 61 woolen factories, 163 tanneries, and 29 iron manufactories—26 making castings, 1 pig iron, and 2 wrought iron. The following are the general statistics of these several manufactures:

In the *cotton* manufacture a capital of \$10,950,500 is invested, and hence in this interest New Hampshire is second only to Massachusetts, and equal to one-seventh the aggregate of the United States. It consumes annually 88,026 bales of cotton, and 7,679 tons coal, valued together at \$4,889,429, and employs 12,122 hands—2,911 males and 9,211 females, at a monthly cost of \$199,844—to males \$75,713, and to females \$124,181. The annual products are 118,106,247 yards of sheeting, etc., and 149,700 pounds of yarn—valued at \$8,880,619. In 1840—capital invested, \$5,528,200; hands, 6,991; value of products, \$4,142,304.

The *woolen* manufacture employs a capital of \$2,487,700; wool consumed, 8,604,108 pounds; and coal, 8,600 tons—valued at \$1,267,829; hands, 2,127—males 926, and females 1,201; monthly cost of labor, \$88,628—male \$21,177, and female \$17,451; annual products, 9,712,840 yards of cloth, and 165,200 pounds yarn—together valued at \$2,127,745. In 1840—capital, \$740,345; hands, 898; value of products, \$795,784.

Tanneries use a capital of \$441,976; value of all raw material, \$543,779; hands, 502; monthly cost of labor, \$11,737; skins tanned, 109,595, and sides of leather tanned, 833,153; value of products, \$900,421. In 1840, capital \$386,402; hands, 776.

The statistics of the *iron* manufacture are as follows:

Specifications.	Pig Iron.	Cast Iron.	Wrought Iron.	Total.
Capital invested.....dollars...	2,000	232,700	4,000	236,700
Iron ore used.....tons.....	500	—	—	500
Other iron used.....“.....	—	6,678	145	6,818
Mineral coal consumed.....“.....	—	1,680	—	168
Coke, charcoal, etc.....“.....	50,000	20,500	50,000	120,500
Value of all raw material.....dollars...	4,900	177,060	5,600	187,560
Hands employed.....number..	10	874	6	890
Monthly cost of labor.....dollars...	180	12,361	192	12,738
Iron annually made.....tons.....	200	5,764	110	6,074
Value of all products.....dollars...	6,000	871,710	10,400	888,110

Besides the above principal manufactures, there are in New Hampshire a great variety of others, less conspicuous, indeed, but which in the aggregate are little less valuable. Among these may be mentioned her numerous grist and saw mills, her carriage factories, paper-mills, powder-mills, machine-shops, hardware, cutlery, etc., factories, etc.

Commerce, Navigation, etc.—New Hampshire, in the year ending 30th June, 1850, exported to foreign countries, produce and merchandise to the value of \$8,927, and imported to that of \$49,079. Of the exports, \$8,732 was the value of domestic produce—in American vessels \$2,835, and in foreign vessels \$5,887, and \$205 was the value of foreign produce re-exported; and of the imports, \$19,962 was the value of goods carried in American vessels, and \$29,117 that of goods carried in foreign vessels. The entrances and clearances for the same year were as follows:

NEW HAMPSHIRE.

ENTRANCES.				CLEARANCES.			
Nationality.	Vessels.	Tonnage.	Crews.	Nationality.	Vessels.	Tonnage.	Crews.
American.....	9	3,572	181	American.....	5	682	84
Foreign.....	101	7,472	512	Foreign.....	102	7,581	517
Total.....	110	11,044	643	Total.....	107	8,213	551

This commerce belongs to the port of Portsmouth, the only port of entry in the State. The great bulk of the commercial material of New Hampshire is carried to Boston for exportation, and its foreign supplies are chiefly brought through the same channel. The following table will exhibit the variations of the imports and exports for a series of years:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791.....	\$142,859	\$	1811.....	\$368,368	\$	1831.....	\$111,222	\$146,205
1792.....	181,413	—	1812.....	208,401	—	1832.....	115,582	115,171
1793.....	198,204	—	1813.....	29,996	—	1833.....	155,258	167,754

1810.....	234,650	—	1830.....	96,184	180,828	1850.....	8,927	49,079

The total shipping owned in the State at the date referred to amounted to 23,096: registered shipping, 14,979 tons; enrolled and licensed, 7,593 tons; and licensed (under 20 ton boats), 224 tons. The proportion of the enrolled and licensed tonnage employed in the coasting trade was 4,025 tons, in the cod fishery 2,664 tons, and in the mackerel fishery 1,204 tons. The shipping built in the State during the year consisted of 8 ships and 2 schooners, with an aggregate burden of 6,914 tons.

Internal Improvement.—New Hampshire has completed a fine system of railroads, the principal lines being in a N. W. and a S. E. direction, or between the Atlantic sea-board at Boston and Portsmouth, and the Connecticut River, where connection is made with the Vermont lines to Lake Champlain and Canada. The great Atlantic and St. Lawrence Railroad also traverses the State in the North section. Most of the lines in the southern part of the State centre at Concord, the capital, and thence diverge in every direction. The total length of completed railroad in the State, on the 1st of January, 1853, was 480 miles, or 1 mile to every 17 square miles of territory, or to every 662 inhabitants.

Banks, &c.—There were 22 banks in the State, in December, 1850, the condition of which was as follows: *Liabilities*—capital, \$2,375,900; circulation, \$1,397,111; and deposits, \$566,634; and *assets*—loans and discounts, \$3,821,120; real estate, \$48,670; due by other banks, \$477,453; notes of other banks, \$91,444; and specie, \$129,399. Thirteen savings' institutions at the above date had deposits to the amount of \$1,641,512.

Government.—The constitution of 1784, as amended in 1792, is the fundamental law of the State. A new constitution was framed by a convention in 1850, but was subsequently rejected by the people.

The *right of suffrage* is secured to every male inhabitant 21 years old, excepting paupers and persons excused from paying taxes at their own request. The general election is held on the 2d Tuesday in March annually.

The *General Court* consists of a House of Representatives and a Senate. Representatives shall have resided for the last two years in the State, shall have an estate valued at \$100 (at the rate of six shillings and eight pence the ounce of silver), one-half thereof to be freehold within their district, and shall be inhabitants of their district. Every town of 150 rateable polls, 21 years old, may choose 1 representative, and every 300 such polls additional shall entitle the town to another representative. There are also classed towns, and towns allowed by special act to send representatives. The Senate consists of 12 members, who must be 30 years old, inhabitants of the State for seven years, and seized of a freehold of \$200 value within the State. Senatorial districts, 12 in number, shall be set off "according to the proportion of public taxes paid by the said districts." In case of a vacancy in a senatorial district, one of the two candidates having most votes in the district shall be chosen by the legislature on joint ballot. The legislature thus constituted meets on the 1st Monday of June annually.

The *Executive Council* consists of 5 councilors, and is elected annually by the people. Councilors must be 30 years of age, 7 years resident in the State, and possessed of an estate of \$500, of which \$300 shall be freehold. Vacancies are filled as in the Senate. The governor convenes the council, and their resolutions and advice are recorded in a public record, and signed by those agreeing thereto.

The *Governor* shall have the qualifications of a councilor, except as to his estate, which shall be \$300, one-half freehold. If there be no choice of governor by the people, one of the two highest candidates shall be chosen by the General Court on joint ballot. The governor may veto a bill, but two-thirds of both houses voting subsequently in favor of its passage, it becomes law nevertheless. With the assistance of the council he shall nominate and appoint all judicial officers, the Attorney-general, solicitors, sheriffs, and registers of probate. The governor and council shall have a negative on each other, both in nominations and appointments.

The *Judiciary* consists of the Superior Court, Courts of Common Pleas, Courts of Probate, &c. The superior court consists of a chief-justice and four associate justices. At the session of the legislature in June, 1851, provision was made

NEW HAMPSHIRE.

for appointing four circuit justices of common pleas; two only are now appointed. If a vacancy other than in the office of the chief-justice occurs in the superior court, it is not to be filled, but an additional circuit justice of the common pleas is to be appointed until the whole number of four is filled up, and after that the superior court will consist of the chief-justice and two associate justices, any two of whom will be a quorum. Two terms of the superior court are held annually at Concord, on the 2d Tuesdays of July and December, for the hearing and determining of questions of law and petitions for divorce from all the counties in the State. This court is also vested with chancery powers. At the trial of capital cases two justices of the superior court, or one justice of the superior court and one circuit judge are required to be present. The judges of the superior court of judicature are *ex-officio* judges of the court of common pleas. This court, before which all actions for recovery of debts, enforcement of contracts, etc., and all jury trials are brought, consists of one of the justices of the superior court, or one of the circuit judges of the court of common pleas, and of any two county justices, who are generally appointed from among the yeomanry, whose principal duty it is to attend to the ordinary business of the county, its roads, expenses, etc. Terms of the common pleas are held semi-annually in each county. Grafton County is divided into two judicial districts, and terms are held semi-annually in each district. County treasurers and registers shall be elected by the counties. Justices of the peace are appointed for five years, with jurisdiction in cases below \$4. Clerks of courts shall be appointed by the courts. All judicial officers shall hold office during good behavior, or until 70 years of age, but are removable on address of both houses of the legislature.

No person can hold any office of profit or honor under this government unless he be of the Protestant religion.

Every seven years the people shall vote for or against amending the constitution, and if a majority of the votes be in favor thereof, the general court shall call a convention; and if their amendments be approved by two-thirds of the votes when submitted to the people, they shall be adopted.

The militia force of New Hampshire comprises 32,151 men of all arms, of which 1,348 are commissioned officers, and 30,803 non-commissioned officers, musicians, privates, etc. Of the commissioned officers 12 are general officers, 51 general staff-officers, 836 field officers, etc., and 949 company officers. There is a school of instruction for officers. Every white male between 18 and 45 years of age, except such as the law excepts, is enrolled annually. Parades were abolished by the legislature in 1850; but volunteer companies may remain organized, and new companies be formed, and each volunteer who has performed his duty acceptably shall receive \$3 annually from the select-men of the town to which he belongs. The militia is organized in 4 divisions, 8 brigades, and 42 regiments. The governor is commander-in-chief.

The New Hampshire Asylum for the Insane, located at Concord, is a State institution. It is one of the most efficient establishments of the kind in the Union. Adjoining the asylum are more than 120 acres of valuable lands, well adapted to the wants of the institution, which is cultivated by the labor of the patients. The number of patients in the asylum 31st May, 1849, was 144; admitted during the year following, 108; discharged during the year, 90; recovered, 45; partially recovered, 18; not relieved, 20, and died, 7. Remaining under treatment 1st January, 1850, 127, of which 53 were females. The sum of \$1,600 was granted by the legislature June, 1850, for the relief of the indigent insane. The price of board, etc., for patients from this State is \$2 25 for the first 13 weeks, and \$2 for all subsequent time. The blind are provided for in the Perkins Institution of Massachusetts, and the deaf and dumb in the American Asylum of Connecticut.

Finances, Debts, etc.—The total receipts into the State treasury for the year ending 5th June, 1850, was \$173,056 55, and the expenditures for the same period, \$167,011 63—excess of receipts, \$5,044 92. The chief sources of income were: balance in treasury 6th June, 1849, \$6,126 80; railroad tax, \$49,414 29; money borrowed, \$51,400; civil commissions (fees), \$175; State tax for 1849 and previous years, \$59,547 21; allowance by United States of Indian Stream claim, \$5,362 56; and the principal objects of expenditure were: salaries, executive and judicial, \$19,018 85; pay of council, \$885 40; pay of senate, \$1,073 50; pay of representatives, \$20,127 40; money borrowed and repaid, \$58,145 83; State printing, \$2,951 50; publishing laws, \$380 50; New Hampshire Asylum for Insane (new building), \$15,000; Perkins Institution, education of the blind, \$750; American Asylum, education of deaf and dumb, \$2,075; officers' school of instruction, \$7,731 20. The state of the treasury on the 5th June, 1850, was: total amount of available funds, \$5,608 84; and total amount of indebtedness, \$26,601 67; balance against the treasury, \$2,997 51. The assessed value of real and personal property in the State in 1850, was \$92,177,953, and the true or estimated value was \$103,682,835.

Federal Representation.—New Hampshire, in accordance with the federal act of 23d May, 1850, sends three representatives to the Congress of the United States.

Education.—The common schools of the State are under county commissioners, who form a board of education, and meet at Concord on the third Wednesday in August annually. Their duty is to recommend such books as may appear to them most suitable to be used in the schools, and such methods of instruction, modes of government and discipline, as may best promote the advancement of the schools. In each town is a superintending committee, which reports to the Secretary of the State by the first day of April, the condition and progress of each school, and the secretary is requested to hand over the several returns so received to the Secretary of the Board of Education. Each county commissioner spends at least one day in each town of his county to promote the cause of education by addresses, etc., and he has also charge of any teachers' institute that may be held in his county. The office of State School Commissioner was abolished by the general court of 1850. The whole number of school districts reported June, 1850, was 2,167; average attendance in the winter schools, 60,271, and in the summer schools, 46,225; average length of winter schools, 9 4-5 weeks, and of summer schools, 9 2-5 weeks. Average monthly wages of male teachers, \$14 73, and of female teachers, \$6 21; number of male teachers in winter schools, 1,246, and of female teachers, 961; money raised by taxes for schools, \$145,592; amount contributed in board and fuel, \$9,738; income of local funds, \$8,097; interest of literary fund, \$10,790; amount for teachers and institutes, \$1,020, being an aggregate of \$174,517 raised for the district schools. The number of incorporated academies in the State at the date referred to was 83, and the whole number of pupils attending them, 2,261. Number of unincorporated academies, private schools, and schools kept to prolong common schools, 74, attended by an average of 3,698 scholars.

Dartmouth College is the only collegiate institution of the State; it was founded in 1769, and is located at Hanover. The academical faculty consists of a president and 10 professors, and in 1850 it had 3,710 alumni, of which about 800 were in the ministry, and 237 students. Its library contained nearly 25,000 volumes. The New Hampshire Medical College at the same place, founded 1793, is a department of Dartmouth. It has a president, six professors, and a demonstrator of anatomy, and in 1850 had 45 students. Its graduates of that date numbered 850. The Chandler School of Science and the Arts opened August, 1852, and, founded on a donation of \$50,000, bequeathed by the will of the late Mr. Chandler, of Boston, is attached to the Dartmouth College. There are in the State four theological schools: the New Hampton Acad-
emical and Theological Institution, founded 1825; the Methodist General Biblical Institute, founded 1847, and located at

NEW HAMPSHIRE.

Concord; the New Hampshire Conference Seminary at Northfield, and the Gilmanton Theological Seminary, founded in 1835.

Public Libraries.—One State library—4,700 volumes; 9 social—18,373 volumes; 1 College—6,400 volumes; 5 students'—16,200 volumes; 7 professional and academic—10,700 volumes; 2 scientific and historical—2,800 volumes; 25 public school—2,500 volumes; total, 50 libraries, and 87,173 volumes.

Periodical Press.—The whole number of periodicals and newspapers published in New Hampshire in 1850, was 41—of which 10 were whig, and 10 democratic in politics, and 21 neutral, or devoted to religion, science, literature, etc., including all the character of which had not been ascertained; and of the whole number 2 were published daily, 36 weekly, 1 semi-monthly, and 2 monthly. The total circulation of the dailies was about 1,500 copies at each issue; of the weeklies, 58,426; of the semi-monthly, 600; and of the monthly, 1,150 copies. The *dailies* were published at Manchester and Portsmouth; the *weeklies*, 1 each at Winchester, Lancaster, Manchester (Coos co.), Lebanon, Haverhill, Peterboro', Nashua Village, Amherst, Exeter, Claremont, and Newport; 2 each at Meredith Bridge, Nashua, and Great Falls; 8 each at Keene and Portsmouth; 4 each at Manchester and Concord, and 5 at Dover; the *semi-monthly* at Concord; and the *monthlies* at Hanover and Dover.

Religious Denominations.—The general statistics of the several religious denominations in the State, for the year 1850, were as follows:

Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.	Denomina- tions.	No. of Churches.	Church accon.	Value of Property.
Baptist.....	130 ..	62,621 ..	\$313,756	German Ref.	— ..	— ..	\$—	R. Catholic..	2 ..	1,450 ..	\$20,000
Christian....	23 ..	7,260 ..	80,350	Jewish.....	— ..	— ..	—	Swedenbo'n ..	— ..	— ..	—
Congregat'l..	172 ..	79,656 ..	527,340	Lutheran	— ..	— ..	—	Tunker	— ..	— ..	—

Friends	15 ..	4,700 ..	15,200	Presbyterian	13 ..	6,500 ..	71,000	Minor Sects. .	4 ..	1,100 ..	3,000

—making a total of 602 churches, having accommodations for 233,892 persons, and valued as property at \$1,401,586. New Hampshire constitutes a diocese of the Protestant Episcopal Church, and a portion of the Roman Catholic diocese of Boston.

Pauperism and Crime.—The whole number of paupers who were relieved or supported in the State during the year ending 1st June, 1850, was 3,600, of whom 2,558 were native-born, and 747 foreign-born; and the whole number of paupers on the list at the date specified, was 2,183, of whom 1,993 were native-born, and 186 foreigners. Annual cost of support, \$157,351. The State Prison is located at Concord, and was first opened for the reception of convicts in 1812, from which period to June, 1850, there had been 796 commitments. Whole number of inmates on 31st May, 1849, *eighty-two*; received in 1849-50, *thirty-six*; and discharged, 27; leaving in prison 91—88 males, and 3 females; and of these 72 were committed for offenses against property, 1 for arson, 8 for rape, 2 for manslaughter, and 4 for murder. Expenditure for the year, \$7,509.

The first settlements in New Hampshire were made by Gorges and Mason, two of the most active members of the Plymouth Company. In 1621, Mason obtained a grant of all the lands between the Naumkeag and Merrimac, and in the next year another grant was made to Mason and Gorges of the country between the Merrimac and Sagadahock rivers. The first tract was named Mariana, and the latter Laconia. Designing to establish fisheries, they sent over in 1623 a colony—one division of which landed at Little Harbor, on the southern shore of the Piscataqua, and the other settled at Dover. Other settlements were effected on the coast both by the granters under Mason, and by emigrants from Plymouth and Massachusetts. Fishing and trading being the sole objects of these parties, the settlements were slow in their progress for many years.

In 1629, Mason procured a further grant of the land between the Piscataqua and Merrimac, and extending 60 miles into the country, and this he called New Hampshire. In 1631, a house, called the Great House, was built at Strawberry Hill, now Portsmouth. In 1633, John Wheelwright, the brother of the celebrated Mrs. Hutchinson, banished from Massachusetts for his Antinomian principles, came with a number of his adherents to Squamscot Falls, where they founded Exeter. Here they combined, as a body politic, chose rulers and swore to obey them. Similar governments were established by the colonists at Dover and Strawberry Hill. All these petty establishments, however, placed themselves under the protection of Massachusetts in 1641, and were governed as a part of that colony until 1680, the year previous to which a decree was passed constituting New Hampshire a separate province. A president and council were now appointed by the crown, and a house of representatives elected by the people. The first assembly, consisting of eleven persons, met at Portsmouth the same year. At this session a code of laws were enacted, of which the first declared, "That no act, imposition, law, or ordinance should be imposed upon the inhabitants of the province, but such as should be made by the assembly, and approved by the president and council." From 1675, to the accession of James II., the colony was much disturbed by contentions between the heirs of Mason and the holders of land; nor was it, indeed, until 1747, that peace was secured—in that year all claims having been purchased by the government. These contentions retarded greatly the progress of the colony, and were a main source of the grievances which alienated the public affections from the mother country.

On the accession of James to the English throne, new schemes of oppression were meditated for the colonies, and every vestige of liberty was to be erased. In 1686, Sir Edmond Andros arrived at Boston, commissioned as Governor in Chief over all New England, and authorized with his council to make such laws and impose such taxes as he thought proper. New Hampshire had already declared her will, which was offensive to the governing powers, and, like her sister colonies, became a prey to his tyranny—the press was shackled, liberty of conscience invaded, and oppressive taxes imposed, and, to prevent complaints being heard, no person was allowed to leave the country without express license. This state of things continued until the Revolution in England, when Andros was seized by the people and sent home a prisoner.

New Hampshire being now without a government, the people determined to return to their ancient connection with Massachusetts. This union only lasted three years, a separation having been determined on and effected by the English authorities.

New Hampshire was, perhaps, of all the colonies, the one that suffered most from Indian hostilities. From her earliest settlement her progress was retarded by savage inroad, nor did the Indian cease from his forays until the reduction of

Quebec. In the twelve years of peace that followed, New Hampshire increased wonderfully in population and wealth. Her settlements extended farther west than the original limits prescribed by the patents, and until 1764 it was supposed that the territory which now forms the State of Vermont was part of the province, and grants were accordingly made by the authorities in that direction. The district, however, was allotted to New York, and a vexatious controversy ensued, which continued until the independence of Vermont was acknowledged in 1790. During the contest many towns lying near the Connecticut attached themselves to the Vermontese, but in the end returned to their former allegiance.

The State bore an active and honorable part in the war of the Revolution. On the arrival of news of the battle of Lexington, 1,200 men marched to the assistance of their brethren at Boston. The royal governors were obliged to seek safety in flight, and a temporary government was established. In 1792, a permanent constitution was formed.

The present prosperous condition of the State may be attributed to the unswerving patriotism and virtues which have ever distinguished its people. Still there are many points in the institutions of New Hampshire which savor of intolerance and bigotry, and of these none stand so prominently pre-eminent as the *Protestant* clauses of the Constitution, and the virtual exclusion of the moneyless man from the higher offices of State. A closer contact with the neighboring States, which the railroad system of the country will now insure, must, however, at no distant day, liberalize the views of the people, and effect all desirable reforms. The provisions of the rejected constitution of 1850 would have done much toward this end had it been approved, and all cause of reproach would have hence been removed. The document referred to, indeed, is a sufficient indication that no little progress has been effected, and that New Hampshire has sons who know how and are willing to redeem her from the antiquated errors that envelop her government policy.

CONCORD, on the Merrimac river, is the political capital of the State.

NEW HAMPTON, t. and p. v., Belknap co., *N. Hamp.*: on E. side of Pemigewasset r., 80 m. N. by W. Concord. Surface uneven; soil remarkably fertile. The Boston, Concord, and Montreal R. R. passes through the N. E. part of the t. "The New Hampton Academy and Theological Institution" is one of the best seminaries in the State. The theological department was established in 1825, and in 1850 had 2 professors, 86 students, and 2,000 volumes in library. Pop. of t. 1,612.

NEW HAMPTON, p. v. and sta., Hunterdon co., *N. Jer.*: on E. side of Musconetong cr., 35 m. N. N. W. Trenton, and by the New Jersey Central R. R., 65 m. from New York.

NEW HAMPTON, p. v., Orange co., *N. Y.*: on W. bank of the Walkkill, 90 m. S. S. W. Albany; is a station on the Erie R. R., 74 m. from New York.

NEW HANOVER county, *N. Car.* Situate S. E., and contains 998 sq. m. Drained by N. E. branch of Cape Fear r. and its tributaries. Surface level and low, a large part being swamps in the E. section of the co.; soil, where not too wet for cultivation, is fertile. Staples, rice, cotton, and Indian corn. Excellent grazing land is gained by the draining of the swamps. On the Atlantic shore, which bounds it on the S. E., are long narrow islands, the land lying low, and having inlets to the inner basin. Farms 559; manuf. 186; dwell. 1,884, and pop.—wh. 8,190, fr. col. 897, sl. 8,587—total 17,668. *Capital*: Wilmington. *Public Works*: Wilmington and Weldon R. R.; Wilmington and Manchester R. R.

NEW HANOVER, t. and p. v., Montgomery co., *Penn.*: 70 m. E. Harrisburg. Drained by Swamp cr. Surface uneven; soil red shale and loam, tolerably productive. The v. is on Swamp cr., where are several mills.

NEW HARMONY, t. and p. v., Posey co., *Ind.*: on E. bank of Wabash r., 143 m. S. W. by S. Indianapolis. This t. is remarkable for its history as the theatre of two "social communities." In 1814 a society of Germans, under the direction of George Rapp, removed here from Butler co., *Penn.*, where they had first settled upon their arrival from Europe. Here they purchased about 17,000 acres of land of excellent quality, which they cleared, planted, and finely cultivated, erecting good houses, churches, etc. They lived and labored in common until 1824, when they sold their settlement to Robert Owen, and moved to their present settlement at Economy, Beaver co., *Penn.* The community of Robert Owen was for a time very large, but ultimately became discordant, and broke up as a complete failure.

NEW HARRISBURG, p. v., Carroll co., *Ohio*: 102 m. E. N. E. Columbus.

NEW HARTFORD, t. and p. o., Litchfield co., *Conn.*: 18 m. W. by N. Hartford, 39 m. N. by W. New Haven. Surface hilly; soil gravelly loam. Drained by head branches of Farmington r.; contains several factories. Pop. 2,663.

NEW HARTFORD, p. v., Pike co., *Ill.*: 67 m. W. by S. Springfield.

NEW HARTFORD, t. and p. v., Oneida co., *N. Y.*: 86 m. W. N. W. Albany. Surface of t. diversified; soil rich, calcareous loam, very fertile, and well cultivated. Drained by Sadaquada cr., which affords extensive water-power to numerous factories. Two cotton factories of the v. are very extensive. Pop. of t. 4,347.

NEW HARTFORD CENTRE, p. v., Litchfield county, *Conn.*: 19 m. W. by N. Hartford, 39 m. N. by W. New Haven. Drained by Farmington r.; contains several factories.

NEW HAVEN county, *Conn.* Situate S., and contains 545 sq. m. Drained by Naugatuck, Pomperaug, Quinnepac, Mill, West, and Menunkatuck rivers. Surface uneven; soil varied, in some parts being strong and very productive, and in others consisting of a light sandy loam, and less fertile. Farms 2,794; manuf. 521; dwell. 10,204, and pop.—wh. 60,730, fr. col. 1,396—total 62,126. *Capital*: New Haven. *Public Works*: New Haven, Hartford, and Springfield R. R.; New Haven and Northampton R. R.; Naugatuck R. R.; New York and Boston (air line) R. R.; New Haven and New York R. R.; New Haven and New London R. R., etc.

NEW HAVEN, t., p. city, port of entry, and cap. New Haven co., *Conn.*: one of the capitals of Connecticut, is situated at the head of New Haven Bay, which sets up N. 4 m. from Long Island Sound. Lat. N. 41° 18' 23", long. W. from Greenwich 72° 56' 45", and E. from Washington 40° 5' 15". It is 86 m. S. S. W. Hartford, the other capital of the State; from Boston by R. R. 160 m.; from New York 76 m.; from Washington 223 m. New Haven colony was settled in April, 1637; the city incorporated in 1784. The city is on a large and beautiful plain, slightly inclined to the water, surrounded on three sides by hills, the termination of the western trap range, of which the extreme points, called East and West Rocks, are very bold, rocky eminences—the former 370, the latter 400 feet high; these are rude, bare trap rocks, of light-red color, with nearly perpendicular fronts, the most notable natural objects in the vicinity, and much visited in summer by citizens and strangers to enjoy the delightful prospect which they afford of the city, bay, and Sound. New Haven (city) occupies about 6 sq. m., and is very regularly laid out. The streets are so generally lined with noble elms that the city is called "the City of Elms." The central square, a public park, is bordered and crossed with numerous rows of elms, and is considered the finest public ground in the United States. The "Temple-street row of elms" is not surpassed for beauty in the world. In this square are 3 fine churches, the State House, an elegant edifice of Grecian architecture, built of brick, painted white, and the monument to Colonel Dixwell, one of the regicides, erected in 1849. The profusion of foliage, the fine and cleanly streets, with the rural appearance of many houses, surrounded by trees, shrubbery, and gardens, which characterize this city, combine in it the attractions of both city

and country. The churches, 22 in number, are handsome structures. Of these, 8 are Congregational, 4 Episcopal, 4 Methodist, 2 Baptist, 2 Catholic, 1 Universalist, 1 Jewish Synagogue. The cemetery, in the N. E. part of co., is beautifully laid out, has an imposing entrance of freestone, in Egyptian architecture, and surrounded by high and massive iron fence and stone wall. Here are interred the remains of Eli Whitney, Noah Webster, Rev. J. Ashmun, Colonel Humphrey, and many other eminent men. The new cemetery, and Wooster Square, are fine grounds, well laid out. The State Hospital, founded in 1832, is a substantial stone edifice, on elevated ground. The new R. R. Station-house is one of the finest structures of the kind in the United States. A few of the manufactories are very extensive, particularly those of carriages and clocks. There are 4 banks, with a capital of \$1,987,625. The taxable property in 1851 was assessed at \$12,720,911. Three newspapers are published daily, publishing, also, tri-weekly and weekly editions: "Journal and Courier" (whig), "Palladium" (whig), "Columbian Register" (dem.), two quarterlies, "New Engländer" (Cong.), and "Church Quarterly" (Episc.) The "American Journal of Science," commenced in 1819 by Professor Silliman, now published bi-monthly, ranks with the ablest scientific journals in Europe. "The Yale Literary Magazine" is published by the students monthly.

Yale College.—This noble institution (the third college established in United States), founded in 1700, and removed here in 1717, is next to Harvard College, the principal university in America. At present, and for a number of years past, it has had a larger number of students in the collegiate course than any other. Total number of alumni in 1850, 5,932, of whom 1,587 had entered the ministry; instructors, 22; students, 432; volumes in library, 51,000; commencement, last Thursday in July. The edifices present a fine appearance, fronting the public green. In the front range are five large brick edifices, four stories high, occupied by students; three buildings, having cupolas, between the college halls, are used as chapel, recitation rooms, etc. In the rear are the library buildings, mineralogical cabinet, Trumbull Gallery, etc.; the former are fine edifices of brown freestone, of Gothic architecture, divided into five separate fire-proof compartments. The central edifice, 151 feet long, contains the college library; the others contain libraries of societies of students. The cabinet of minerals and geological specimens is the most valuable in the United States, and surpassed by only two in Europe. The Trumbull Gallery, erected 1831, contains the splendid collection of paintings of Col. John Trumbull, consisting of eight historical paintings from subjects founded on the American Revolution, and about 250 portraits of distinguished persons. With the college proper are associated four professional schools, viz., of medicine, law, theology, and scientific department. The Medical College, founded in 1813, has a fine edifice, valuable anatomical-museum, 6 professors, 88 students, 595 graduates. The Theological Department, established 1822, has 3 professors, 38 students, 621 graduates, 900 volumes in library. Law School, 2 professors, 26 students. Scientific School, 2 professors, 30 students. Besides Yale College, New Haven has many seminaries, male and female, of high reputation, various learned societies, and two popular lyceums, having libraries, reading-rooms, etc.

Commerce.—The harbor is spacious but shallow, and gradually filling up. It receives three rivers, Quinnipiac and Mill r. on the E., and West r. on the W. To accommodate large vessels, a wharf, called "Long Wharf," was constructed many years since. The filling up of the harbor has several times required its extension; it is now nearly a mile in length, the longest in the United States. New Haven has a larger commerce with foreign countries than any other port in the State, and an extensive coasting trade. Its fisheries in oysters, clams, etc., are extensive and valuable. The total tonnage of New Haven district, on 30th June, 1850, was 15,731 tons, of which 4,995 tons were regis-

tered "permanent," and 10,736 tons were enrolled and licensed. Of the latter 10,440 tons were employed in the coasting trade, and 2,568 tons were propelled by steam. During the year ending 30th June, 1850, the total of clearances was 72—18,400 tons, men in crews, 591; number of entrances, 89—16,177 tons, men in crews, 695. Vessels built during the year, 12—1,110 tons. A passenger steamboat plies daily to New York. Four important railroads now terminate at New Haven, and connect at the main station: to New York, 76 m.; to Springfield, 62 m.; to New London, 50 m.; to Tariffville, 45 m., which will be continued to Northampton. To these will be added the direct line to Boston, *via* Middletown. Pop. of city in 1830, 10,180; in 1840, 12,960; in 1850, 20,345. Pop. of city and t. in 1840, 14,890; in 1850, 22,539.

NEW HAVEN, p. v., Gallatin co., Ill.: on the S. W. side of Little Wabash r., 2 m. above its entrance into the Wabash river, and 153 m. S. S. E. Springfield. It has several stores, and is surrounded by a very fertile country.

NEW HAVEN, p. o., Allen county, Ind.: 100 m. N. N. E. Indianapolis.

NEW HAVEN, p. v., Nelson co., Ky.: on the Rolling Fork of Salt r., 54 m. S. W. Frankfort. Near the v. is the large "Abbey of La Trappe," established in 1843 from Nantes, France. The community now number 62 religious. The farm embraces 1,400 acres.

NEW HAVEN, p. o., Macomb county, Mich.: 80 m. E. Lansing.

NEW HAVEN, t. and p. v., Oswego co., N. Y.: 145 m. W. N. W. Albany. Surface of t. undulating; soil sandy loam. Drained by Catfish cr., flowing into Lake Ontario. Pop. 2,015.

NEW HAVEN, t. p. o., and sta., Huron co., Ohio: 74 m. N. by E. Columbus. Drained by head branches of Huron river. Station on the Sandusky and Mansfield R. R., 84 m. S. Sandusky. Pop. 1,898.

NEW HAVEN, t. p. o., and sta., Addison co., Verm.: 80 m. W. S. W. Montpelier, on Rutland and Burlington R. R. 26 m. from Burlington. Drained by Otter cr. and branches, which furnish water-power. Here are quarries of excellent marble. Pop. 1,663.

NEW HAVEN MILLS, p. o., Addison county, Verm.: on N. bank of branch of Otter cr., 28 m. S. W. by W. Montpelier.

NEW HEBRON, p. o., Crawford co., Ill.: 115 m. E. S. E. Springfield.

NEW HOLLAND, p. v., Pickaway co., Ohio: 82 m. S. S. W. Columbus.

NEW HOLLAND, p. v., Lancaster co., Penn.: 42 m. E. by S. Harrisburg.

NEW HOLLAND, p. v., Wabash co., Ind.: on S. bank of Salamonie r., 73 m. N. N. E. Indianapolis.

NEW HOLSTEIN, t. and p. o., Calumet co., Wisc.: 90 m. N. E. Madison. Drained by branches of South and Sheboygan rivers.

NEW HOPE, p. v., Madison co., Ala.: on the W. side of Paint Rock r., 144 m. N. Montgomery.

NEW HOPE, p. o., Nelson co., Ky.: 43 m. S. W. Frankfort.

NEW HOPE, p. o., Spencer county, Ind.: 120 m. S. by W. Indianapolis.

NEW HOPE, Lincoln co., Mo.: 129 m. E. N. E. Jefferson City.

NEW HOPE, p. v., Iredell co., N. Car.: on the S. side of Rock cr. of Yadkin r., 125 m. W. Raleigh.

NEW HOPE, p. o., Tishomingo co., Miss.: 192 m. N. N. E. Jackson.

NEW HOPE, p. v., Brown co., Ohio: on E. bank of White Oak cr., 80 m. S. W. by S. Columbus. Pop. 106.

NEW HOPE, p. v., Bucks co., Penn.: on W. side of Delaware r., 101 m. E. Harrisburg. At this place Delaware r. is crossed by a fine covered bridge, supported by nine piers. This is a flourishing village, with numerous stores and manufactories.

NEW HOPE, p. o., Spartanburg district, S. Car.: 85 m. N. W. by N. Columbia.

NEW HOPE, p. v., Caroline co., *Md.*: 80 m. E. Annapolis.
 NEW HOPE, p. v., Augusta county, *Virg.*: on creek of Shenandoah r., 87 m. W. N. W. Richmond.

NEW HOUSE, p. o., York dist., *S. Car.*: 73 m. N. by W. Columbia.

NEW HUDSON, t. and p. o., Alleghany co., *N. Y.*: 239 m. W. by S. Albany. Surface undulating; soil good for grass. Drained by Black cr., etc. Pop. 1,435.

NEW HURLEY, p. o., Ulster co., *N. Y.*: on E. side of the Wallkill, on a branch, 76 m. S. by W. Albany.

NEW IBERIA, p. v., St. Martin's par., *La.*: on W. side of Bayou Teche, 48 m. S. W. Baton Rouge.

NEW INLET, *N. Car.*: the passage between Federal Point and Smith's Island, 25 m. S. Wilmington.

NEWINGTON, p. o. and sta., Hartford co., *Conn.*: 5 m.

S. W. by S. Hartford, on Hartford and New Haven R. R., and Hartford and Fishkill R. R. The inhabitants are chiefly engaged in agriculture.

NEWINGTON, t. and p. o., Rockingham co., *N. Hamp.*: on Piscataqua r., bounded W. by Great Bay, 85 m. E. S. E. Concord. The soil is sandy and unproductive, except on the streams. Pop. 472.

NEW IPSWICH, t. and p. v., Hillsboro' county, *N. Hamp.*: 37 m. S. W. by S. Concord. Drained by Souhegan r. and branches; soil fertile. There are several cotton factories in this t.; the first was erected in 1808. The academy in the v. was incorporated in 1739, and has educated many distinguished men; 1 bank, cap. \$100,000. Pop. of t. 1,877.

NEW JASPER, p. o., Greene county, *Ohio*: 50 m. W. S. W. Columbus.

THE STATE OF NEW JERSEY.

NEW JERSEY lies between 38° 55' and 41° 21' latitudes north, and between 73° 58' and 75° 29' longitudes west from Greenwich, or 10° 38' and 30° 04' east from Washington. It is bounded on the north by New York; on the east by New York, from which it is here separated by the Hudson River and the Atlantic Ocean; on the south by the Atlantic Ocean and Delaware Bay, the latter dividing it from the State of Delaware, and on the west by the Delaware River, which separates it from Pennsylvania. The State is almost encircled by water, the Hudson River, the Atlantic Ocean, and Delaware Bay and River, surrounding it, except on the north, where its boundary is a conventional line running northwest from a point on the Hudson River, in lat. 41° N. to the Delaware River, which it strikes in lat. 41° 21'. Its greatest length from Cape May to Carpenter's Point is 167 miles, and its breadth varies from 40 to 96 miles, being narrowest in the centre. The superficies of the State is 8,320 square miles.

The north-western part of the State is hilly, rather than mountainous, being traversed by the prolongation of several mountain ridges from Pennsylvania. These hills nowhere rise to a great height, but they abound in bold and varied scenery, and are interspersed with fertile and pleasant valleys, comprising some of the finest lands in the Union. Schooley's Mountain, the most prominent of these elevations, is much resorted to in summer, on account of the salubrious effect of its atmosphere, and for the purpose of using its mineral waters, which possess medicinal properties.

The eastern line of the State is formed by a bold ridge of trap rock, called the Palisades, or Cloister Hill, which, presenting a precipitous wall to the river at several places, as at Weehawken, 200 feet in height, gives an air of picturesque wildness to the scenery. This wall of rock extends about 20 miles along the shore, and forms one of the principal objects which distinguish the noble panorama of the Hudson River, and many historical recollections and national traditions are connected with its localities.

The southern part of the State, from Raritan Bay and Trenton to Cape May, consists of a great sandy plain, nowhere rising more than 60 feet above the sea, except at the Navesink Hills, which, although only 800 feet high, form a prominent object on the general level.

From the low projecting sand-bank, called Sandy Hook, opposite the Narrows, to the similarly formed point of Cape May, the whole eastern coast consists of a long line of sandy beaches, here and there interrupted by inlets, and inclosing narrow, shallow lagoons, behind which extends for several miles inland a low marshy tract. This coast is constantly changing—several old inlets having been closed, and new ones opened since the settlement of the country; and being exposed to the heavy surf of the Atlantic, and affording no efficient harbors, it has been the scene of many dreadful shipwrecks. Barnegat, Great Egg Harbor, and Little Egg Harbor inlets, are the principal points of access to the inland waters. The south-western coast on Delaware Bay consists chiefly of a strip of salt marsh, which gradually terminates in the predominating sandy plain. On the shores of the Delaware River the land is more elevated, the line being intersected by the mountain ridges tending eastward from the State of Pennsylvania, and over a ledge of which, crossing the Delaware River, the Falls of Trenton leap.

The rivers of New Jersey are better adapted for economical purposes than for navigation. None of them admit of the passage of ships of a large size. The Hackensack and the Passaic fall into Newark Bay. The former, which rises in New York, near the line of this State, is navigable for sloops to Hackensack village, 15 miles from its mouth, and the latter, which rises in Morris County, after receiving several considerable streams from the north-west and south, has a fall of 72 feet at Paterson. The great falls of the Passaic are surrounded by a scene of wild beauty, but much of their natural magnificence has been destroyed by turning their waters for mill purposes, and it is now only in time of flood that their normal grandeur is recognized. From these falls the course of the river is south, and it is navigable for small vessels from Aquackannock to its confluence with the Bay, a distance of 12 miles. About 5 or six miles above Paterson, the river has another descent of 51 feet, by two leaps, and a rocky rapid in the distance of half a mile—these descents are called the Little Falls of the Passaic. The Raritan, which is navigable for small craft to New Brunswick, 17 miles up, rises to the south of the hills; and having collected the waters of its several tributaries, it takes a course eastward, almost across the State, and falls into Raritan Bay, opposite the southern point of Staten Island. The principal streams in the southern part of the State are Great and Little Egg Harbor rivers, which admit of sloop navigation for about 20 miles inland, and Maurice River, which falls into Delaware Bay. The streams emptying into the Delaware River are numerous, but not navigable.

Although the State is bounded on three sides by navigable waters, it possesses few harbors. The sea-coast and shores of Delaware Bay present many inlets and coves, but none frequented by large shipping. Raritan Bay, between Sandy Hook and Staten Island, affords a ready communication from Amboy, the principal sea-port of the State, to the ocean. Newark Bay, to the mouth of Staten Island, has navigable communications through the "Kills," narrow straits, with New York Bay and Raritan Bay. Delaware Bay washes the south-western shore. The southern extremity of the State is Cape May, the northern point of the entrance from the ocean into Delaware Bay. Sandy Hook, the southern cape of Raritan Bay, is a low, sandy island, about three miles in length, and is constantly extending by the accumulation of sand and other debris, and thus is always influencing and changing the currents to and from the Bay of New York.

NEW JERSEY.

The geological structure of New Jersey has been explored by scientific men, and many of the most useful minerals have been found embedded in its hills. All the rocks referable to the primitive, secondary, and transition eras exist; gneiss sienite, graywacke, and graywacke slate, calcareous rocks, etc., are the principal formations in the northern region, and contain vast masses of metals and metallic oxides. Iron in all its forms occurs abundantly, and copper, which appears in the secondary formations, is also found in considerable quantities. Nearly a century ago, several lumps of virgin copper were ploughed up near New Brunswick, and a mine, near Belleville, on the Passaic, was discovered as early as 1719. There are many veins in the latter which might be worked with profit, and it is said that these mines contain a good quantity of silver ore. There is still another mine north of Somerville, which contains, according to Dr. Torrey, a native copper, carbonate and phosphate of copper, green and red oxide of copper, native silver, green quartz, chrysophase, phenite, etc. In the mountain section, which extends in breadth varying from 15 to 85 miles in right angles, with the general course of the mountains, the geological formations are strongly blended. Rocks of a pretty uniform character, however, are found in the primitive ridges, but they are of a coarse and uneven texture, and surface aggregated with crystals of quartz and felspar. Sometimes they contain short, garnets, hornblende, epidote, and mica. Granite, gneiss and sienite are formed in this section by the blending and combination of these materials; and at some points the primitive greenstone is seen. The richest and most productive iron mines are also found here; some of the beds are from 8 to 12 feet in thickness. There is also found here large quantities of graphite. Black mica is found on the Ramapo River, near the Monroe works, and highly magnetic iron ore in Schooley's and Musconetong mountains. Walkkill Valley, west of the Hamburg Mountains, is noted for the number and variety of its minerals. The bottom of the valley rests on white chrystalline limestone and marble. The first bed of minerals, which is at Franklin Furnace, appears like a black mountain mass, but it contains iron ore, very little magnetic, and, as a new metallic combination, it has received the name of "Frankinite." It is composed of 60 per cent. of iron, 16 of zinc, and 17 of red oxide of manganese. This ore is not only irreducible to iron, but it obstructs the fusion of other ores. Large masses of this mineral are also found at Sterling. In Schol's Mountain, capacious mines of magnetic iron ore are worked, and the same exists plentifully through the whole primitive region. At Mendham a beautiful marble is found, which is capable of being highly polished, and is suitable for ornamental architecture, resembling much in its appearance the marble of Florence.

The recently discovered zinc mines of Sussex County are among the most valuable of the world, and are now being successfully worked by the New Jersey Exploring and Mining Company. The principal mines are at Sterling Hill, on the westerly side of Walkkill. Foliated, or lamellar zinc, which has hitherto been considered a rare production and highly prized for cabinet collections, is abundant in these mines, and in one instance a mass weighing over 1,300 pounds, seven-tenths of which was foliated, was excavated. The ore, however, is chiefly in the form of red oxide associated with iron and manganese, neither of which being volatile leave a very fine metal on reduction. The zinc ores of Europe are either carbonates or sulphurets, and in many instances are mechanically combined with galena, arsenic, and antimony, volatile metals which deteriorate the chemical purity of the fused metal. The company working these mines is at the present time confining its operations to the manufacture of zinc paint, and for this purpose have erected extensive works at Newark. This paint is said to be more durable and less liable to injure the health than the paints having the oxides of lead for their bases.

The soils of New Jersey vary materially with the topography of the country. The mountain section is principally in its natural state, only now and then a cultivated farm being seen on the hill-side. The soil best adapted for agricultural purposes is found in the alluvial valleys, in which every description of farm vegetable is successfully cultivated. The sandy plain in the south is not unfruitful, but the soil requires some considerable preparation to render it profitable to industry. Clay and marl abound in some districts, and are eminently useful to the farmers as manures for the more sterile soils. The vegetation of New Jersey is similar to that of the central region of the United States generally: on the mountains are found the oak, pine, and other forest trees, which in many instances occupy large tracts, in which the deer, bear, wolf, and most of the wild animals indigenous to that region still roam. Abundance of stunted oaks and other trees cover the southern plain, and these, though useless for building purposes, have been found a valuable resource for steamboats and for consumption at the glass-houses which have been established in this region. The middle section is the most highly improved and wealthy part of the State. The apples and cider of this section are as noted for their superior quality as the peaches of the southern section, and these find a ready market in New York and Philadelphia. The climate of New Jersey is in many respects similar to that of Southern New York, but is much influenced by locality and elevation: in the north, where the hills are highest, it is much cooler than in the south, where the influence of the ocean is most felt, and where a low situation and reflecting sands accumulate heat in the superincumbent atmosphere. In those parts where the mephitic vapors of the swamps taint the air with their poison, agues and fevers of a malignant type prevail, but generally the State, especially in the higher lands, is very salubrious, and at Shrewsbury, on the eastern coast, and at Cape May in the summer season invalids and pleasure-seekers find a balmy retreat, in which they may enjoy all the luxuries and benefits of country retirement and refined society.

The earliest estimate of the inhabitants of New Jersey was that of 1701, when the number was stated at 15,000; in 1760, it had increased to 60,000, and on the taking of the first United States census in 1790, it amounted to 184,189. From the latter period to 1840, its decennial rate of increase was very equal, having generally not varied much from 15 per cent.; but from 1840 to 1850, this rate has been doubled, most probably a result attributable to the influx of people from New York and Philadelphia, who, while doing business in those cities have their families residing on their opposite shores, and perhaps in some measure to the immigration of persons engaged in the manufactories and mines, which of late years have attracted the attention of capital in a greater degree than formerly. The general movement of the population will exhibit the results more definitely, and are as exhibited in the subjoined table:

Census Years.	White Persons.	Colored Persons.			Total Population.	Decennial Increase.	
		Free.	Slave.	Total.		Numerical.	Per cent.
1790	169,954	2,762	11,423	14,185	184,189	—	—
1800	195,135	4,402	12,422	16,824	211,949	27,810	15.1
1810	226,861	7,848	10,851	18,694	245,555	38,606	15.9
1820	257,409	12,609	7,557	20,166	277,575	32,020	13.0
1830	300,466	18,103	2,254	20,357	320,823	43,248	15.5
1840	351,588	21,044	674	21,718	373,306	52,483	16.3
1850	466,240	23,093	222	23,315	459,555	116,249	31.1

NEW JERSEY.

New Jersey is divided into 20 counties, the general statistics of which and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms in cult.	Manuf. Estab.	Capitals.
Atlantic	1,584..	8,961..	827..	62..	May's Landing	Mercer	4,624..	27,992..	1,061..	191..	TRENTON

The whole number of dwellings in the State was, at the above date, 81,064; of families, 89,030; and of inhabitants, 489,555; viz., whites 466,240—males 233,746, and females 232,494; fr. col. 23,093—males 11,542, and females 11,551, and sl. 222. Of the whole population there were, *deaf and dumb*—wh. 192, fr. col. 11, sl. 0—total 203; *blind*—wh. 186, fr. col. 27, sl. 0—total 213; *insane*—wh. 375, fr. col. 11, sl. 0—total 386; and *idiotic*—wh. 310, fr. col. 16, sl. 0—total 326. The number of free persons born in the United States was 434,431, the number of foreign birth 459,326, and of birth unknown 521. The *native* population originated as follows: Me. 237, N. Hamp. 301, Verm. 280, Mass. 1,494, R. I. 264, Conn. 2,105, N. Y. 20,561, *New Jersey* 385,423, Penn. 15,014, Del. 1,834, Md. 1,400, Dist. of Col. 82, Virg. 628, N. Car. 93, S. Car. 141, Ga. 37, Flor. 17, Ala. 36, Miss. 43, La. 53, Tex. 6, Ark. 2, Tenn. 21, Ky. 64, Oh. 372, Mich. 68, Ind. 61, Ill. 61, Mo. 23, Ia. 7, Wisc. 15, Calif. 3, Territories 1; and the *foreign* population was composed of persons from—England 11,377, Ireland 31,092, Scotland 2,363, Wales 116, Germany 10,636, France 942, Spain 23, Portugal 16, Belgium 43, Holland 337, Italy 30, Austria 20, Switzerland 204, Russia 22, Denmark 23, Norway 4, Sweden 34, Prussia 57, Sardinia 1, Greece 4, China 4, Asia 10, Africa 13, British America 531, Central America 2, Mexico 23, South America 27, West Indies 265, and other countries 66.

The statistics of the wealth, industry, and institutions of the State, as exhibited in the census returns of 1850, and other official documents referring to the same period, are as follows:

Occupied Lands, &c.—Improved farm land, 1,767,991 acres, and unimproved land, 984,985 acres—together valued in cash at \$120,237,511. The total number of farms under cultivation 1st June, 1850, was 23,905. Value of farming implements and machinery, \$4,425,503.

Live-Stock.—Horses, 63,955; asses and mules, 4,089; milch cows, 118,736; working oxen, 12,070; other cattle, 30,455; sheep, 160,483; and swine, 250,370—valued in the aggregate at \$10,679,291. The live-stock in 1840 numbered as follows: horses, mules, etc., 70,502; neat cattle of all kinds, 220,202; sheep, 219,235; and swine, 261,448.

Products of Animals.—Wool, 375,396 (in 1840, 397,207) pounds; butter, 9,437,210 pounds; cheese, 365,756 pounds; and the value of animals slaughtered during the year, \$2,633,552. Silk cocoons were produced to the amount of 23 pounds, and beeswax and honey to that of 156,694 pounds.

Grain Crops.—Wheat, 1,601,190 bushels; rye, 1,255,578 bushels; Indian corn, 8,759,704 bushels; oats, 3,373,063 bushels; barley, 6,492 bushels; and buckwheat, 373,934 bushels. The crops, according to the census of 1840, were as follows: wheat, 774,203 bushels; rye, 1,665,620 bushels; Indian corn, 4,361,975 bushels; oats, 3,033,524 bushels; barley, 12,501 bushels; and buckwheat, 856,117 bushels.

Other Food Crops.—Peas and beans, 14,174 bushels; and potatoes—Irish, 3,207,236 bushels, and sweet, 508,015 bushels. The potato crop of 1839 amounted to 2,072,069 bushels.

Miscellaneous Crops.—Tobacco, 310 pounds; hay, 435,950 tons; clover-seed, 28,280 bushels; other grass-seed, 63,061 bushels; hops, 2,133 pounds; flax, 132,965 pounds; flax-seed, 16,525 bushels; maple sugar, 2,197 pounds; molasses, 954 gallons; wine, 1,311 gallons, etc. Value of orchard products, \$607,263, and of market-garden products \$475,242.

The following table exhibits the crops of certain staples in 1840 and 1850 comparatively:

Staples.	1840.	1850.	Movement.
Wool.....	397,207 pounds	375,396 pounds	<i>decr.</i> 21,811 pounds, or 5.5 per cent.
Wheat.....	774,203 bushels	1,601,190 bushels	<i>incr.</i> 826,987 bushels, or 106.8 "
Indian Corn.....	4,361,975 "	8,759,704 "	<i>incr.</i> 4,397,729 " or 100.8 "
Potatoes.....	2,072,069 "	3,715,251 "	<i>incr.</i> 1,643,182 " or 79.3 "
Hay.....	334,361 tons	435,950 tons	<i>incr.</i> 101,089 tons, or 30.2 "

Home-made manufactures for the year ending 1st June, 1850, were valued at \$112,731. The same description of goods, according to the census of 1840, were valued at \$201,625.

Manufactures.—Aggregate capital invested, \$00,000,000; value of all raw material, fuel, etc. used, \$0,000,000; average number of hands employed, 00,000—males 00,000, and females 0,000; monthly cost of labor, \$000,000—male \$000,000, and female \$00,000; value of products for the year, \$00,000,000. Capital employed in manufactures in 1840, \$11,517,532. The whole number of industrial establishments producing to the value of \$500 and upward annually, on the 1st June, 1850, was 4,374; and of these 21 were cotton factories, 41 woolen factories, 133 tanneries, and 103 iron manufactures, viz., 10 for pig iron, 45 for castings, and 53 for wrought iron.

The *cotton* factories have capital, \$1,433,500; use annually, 1,437 bales of cotton, 4,467 tons of coal and other material, valued in gross at \$666,645; hands employed, 1,712—616 males, and 1,096 females; monthly cost of labor, \$21,565; value of products for the year, \$1,109,524; products, 5,122,530 yards sheeting, etc., and 2,000,000 pounds yarn. Capital in 1840, \$1,722,310.

The *woolen* factories have capital \$494,274; wool consumed annually, 1,510,239 pounds; value of all raw material, fuel, etc., \$543,367; hands employed, 893—411 males, and 482 females; monthly cost of labor, \$14,559—male \$10,367, and female \$4,192; annual products, 771,100 yards cloth, and 350,000 pounds yarn; value of entire products, \$1,164,446. Capital in 1840, \$341,650.

The *tanneries* have capital \$372,557; value of hides and skins used annually, \$423,537; hands employed, 405; monthly cost of labor, \$3,946; skins tanned 120,731, and sides leather tanned, 202,970; value of entire products, \$724,466. Capital in 1840, \$413,723.

NEW JERSEY.

The *iron* manufacture for the year 1849-50, is exhibited in the following statistics:

Specifications.	Pig Iron.	Castings.	Wrought Iron.	Total.
Capital invested.....dollars.....	967,000.....	593,250.....	1,016,843.....	2,577,098
Iron ore used.....tons.....	51,266.....	—.....	14,549.....	65,815
Pig iron.....“.....	—.....	10,666.....	10,430.....	21,096
Old iron.....“.....	—.....	850.....	—.....	850
Mineral coal.....“.....	20,865.....	5,444.....	4,507.....	30,816
Coke and charcoal.....bushels.....	1,621,000.....	175,500.....	1,994,180.....	3,790,980
Value of raw material, fuel, etc.....dollars.....	332,707.....	301,048.....	320,950.....	954,705
Hands employed.....number.....	600.....	803.....	593.....	1,996
Monthly cost of labor.....dollars.....	12,720.....	19,344.....	16,473.....	48,537
Metal produced.....tons.....	24,081.....	10,259.....	8,162.....	42,452
Value of entire products.....dollars.....	560,544.....	686,430.....	629,273.....	1,876,247
—Capital in 1840, \$1,721,320.				

Besides the above, New Jersey is distinguished for its machine shops, saddleries, carriage and locomotive factories, jewelry works, glass-houses, potteries, fire-brick yards, paper manufactories, small arms factories, distilleries, paint-works, etc., and has also a large number of grist, saw, and other mills. The principal seats of manufacturing industry in the State are Newark and Patterson. Trenton and Jersey City have also considerable manufacturing interests, and many of the interior towns are employed in the manufacture of shoes and boots, hats, etc.

Commerce.—The foreign business of New Jersey is mostly transacted at the ports of New York and Philadelphia, and hence the direct commerce as reported in the United States treasury returns, is comparatively insignificant. The value of direct exports to foreign countries in the year ending 30th June, 1850, was \$1,655, and the value of imports \$1,494. Entrances 17 (1,601 tons), and clearances 11 (1,181 tons). Total amount of shipping owned in the State at the period above referred to, 80,800 tons, viz.: registered shipping 201 tons, enrolled and licensed shipping 77,735 tons, and licensed shipping (vessels under 20 tons), 2,864 tons. Of the enrolled and licensed shipping, 5,489 tons are navigated by steam. The importance of the several districts in relation to their tonnage is as follows: Perth Amboy 22,084, Bridgetown 14,473, Great Egg Harbor 14,084, Burlington 7,578, Camden 6,569, Newark 6,623, Little Egg Harbor 6,138. Fifty-seven vessels of all kinds, with an aggregate capacity of 6,242 tons, were built during 1849-50, viz., 1 ship, 1 brig, 35 schooners, 17 sloops, and 3 steamers; and of the whole number and capacity, Perth Amboy built 21 (2,637 tons), Bridgetown 9 (926 tons), Camden 9 (425 tons), Newark 2 (271 tons), Little Egg Harbor 5 (599 tons), and Great Egg Harbor 11 (1,342 tons). The value of the commerce of New Jersey for a series of years from 1791, exhibits the following variations:

Year.	Exports.	Imports.	Year.	Exports.	Imports.	Year.	Exports.	Imports.
1791.....	\$26,988	\$ —.....	1811.....	\$1,871	\$ —.....	1831.....	\$11,430	\$ —.....
1792.....	23,406	—.....	1812.....	4,186	—.....	1832.....	61,794	70,460
1793.....	54,179	—.....	1813.....	10,260	—.....	1833.....	32,753	170
1794.....	58,154	—.....	1814.....	—.....	—.....	1834.....	8,131	4,492
1795.....	130,814	—.....	1815.....	5,279	—.....	1835.....	74,041	18,932
1796.....	59,227	—.....	1816.....	9,746	—.....	1836.....	62,809	24,263
1797.....	18,161	—.....	1817.....	5,949	—.....	1837.....	44,217	69,152

Internal Improvement.—The railroads of New Jersey, as well as the canals, are mostly constructed with a view to intercourse between New York and Pennsylvania. The Union Railroad is the only line running in any other direction, and this connects the travel west and east on the New York and Erie Railroad with New York, passing through Paterson, one of the chief manufacturing cities of the State. The canals are, the Morris Canal and the Delaware and Raritan Canal—the first extending from Easton to Jersey City, and forming an outlet of the anthracite region of Pennsylvania; and the latter extending from Bordentown and Trenton, on the Delaware, to New Brunswick, on the Raritan, and is the channel through which the coal of Maryland is brought to the New York market. All these lines are of infinite advantage to internal commerce and through travel. The total length of completed railroad in the State on the 1st January, 1853, was 345 miles, being in the proportion of 1 mile to every 27 square miles of territory and to every 1,406 inhabitants.

Banks.—On the 1st January, 1851, there were 26 banks in operation, and their condition in the aggregate at that period was as follows: *Liabilities*—capital, \$3,754,900; circulation, \$3,046,658; deposits, \$2,411,861; due other banks, \$373,453; and *assets*—loans and discounts, \$7,058,977; real estate, \$270,546; other investments, \$183,468; due by other banks, \$1,573,063; specie, \$622,834. Since the above return was made a Free Banking Law has been adopted, and numerous banks have organized under its provisions.

The constitution under which the State is organized was adopted on the 18th August, 1844, and went into operation on the 2d September of the same year.

The *right of voting* is conceded to every white male citizen of the United States of 21 years of age and upward who has resided in the State for one year and in the county where he claims to vote for five months next before the election. All votes are taken by ballot. The general election is held on the second Tuesday in October annually.

NEW JERSEY.

The *legislature* consists of a Senate and General Assembly (house of representatives). Each county is entitled to return one senator, and the members of the assembly, not to exceed 60 in number, are apportioned among the counties in ratio of their population; but each county is entitled to at least one member. The ratio is determined according to the decennial censuses of the United States. Senators must have attained the age of 30 years, and members of the assembly that of 21 years. One-third of the senators and all the members of the assembly are elected annually; and the legislature meets at Trenton on the second Tuesday in every January.

The *chief executive officer* is styled Governor. He must be at least 30 years of age, have been a citizen of the United States for 20 years, and a resident of the State for seven years next before his election. He is elected by a plurality of the popular votes, or in case of an even vote, by a majority of the members of both houses of the legislature in joint meeting. The term of office is three years, and the same person is not eligible for the three years next following. The powers of the governor are limited; he may *veto* a bill, but a majority of both houses may pass it notwithstanding his objection; he may also grant reprieves for 90 days after conviction, and he, the chancellor, and the judges of the court of error and appeals may jointly grant pardons. During the last week of his official term he is forbid to nominate or appoint to any office. There is no lieutenant-governor, but in case of vacancy in the office of governor, the President of the Senate, and after him the Speaker of the General Assembly becomes *ex-officio* governor; but if the vacancy occur more than 30 days before the general election, a successor is to be chosen at such election; if within 30 days, then at the succeeding election. The greater portion of administrative officers are appointed by the governor.

The *judiciary* consists of a Court of Errors and Appeals, a Court of Chancery, a Supreme Court, Circuit Courts, Courts of Common Pleas, etc. The "court of errors and appeals" consists of the chancellor, the justices of the supreme court, and six judges appointed by the governor, with the consent of the senate, for six years, one every year. The chancellor and supreme court judges, on appeals from their respective decisions, may state the reasons of their judgment, but can not vote. The Secretary of State is clerk of the court. The court holds terms at Trenton on the third Tuesday in January, April, July, and October. The chancellor is appointed by the governor, with the consent of the senate, for seven years, and with a clerk constitutes the "court of chancery." He is also ordinary and judge of the Prerogative Court. The court of chancery holds four terms annually at Trenton on the third Tuesday in March, June, September, and December. The "supreme court" consists of a chief judge and at least two (now four) associate judges, who are appointed by the governor for seven years. This court holds four terms each year, at the same time and place as the terms of the court of errors; and the judges of this court hold "circuit courts" and "courts of oyer and terminer" four times a year in each county, except in the counties of Atlantic and Cape May, in which only two terms are held. The circuit court has within the county a common law jurisdiction, except in criminal cases, concurrent with the supreme court; and its final judgments may be declared in that court. The "court of common pleas" consists of not more than five judges in each county; the judges of this court are chosen by joint ballot of the legislature for the term of five years, and are paid by fees. Justices of the peace are chosen for five years by the people in towns. The attorney-general, clerks of the supreme court and the court of chancery are appointed by the governor for five years. Clerks and surrogates of counties are elected by the people thereof for five years, and sheriffs and coroners annually; but sheriffs and coroners can not serve for more than three consecutive years. No person can be imprisoned for debt, except in cases of fraud; and in libel cases the truth may be given in evidence, and if published with good motives and for justifiable ends, is a sufficient defense—the jury to determine the law and the facts.

The powers of the legislature are limited by the Constitution. In no case can it lend the credit of the State, nor create any debt which shall raise the whole State debt above \$100,000, except in case of war, invasion, or insurrection, and unless such be authorized by a law for some single object or work, to be distinctly specified therein, which law shall provide the ways and means, exclusive of loans, to pay the interest of each debt or liability as it falls due, and also to pay and discharge the principal within thirty-five years from the time of the contracting thereof; and no such law shall take effect until, at the general election, a majority of the people voting shall have sanctioned it. No divorce shall be granted, or lottery authorized, and no lottery tickets shall be sold in the State. Every law shall have but one object, and that object shall be expressed in its title. No special law can be passed for the sale of property belonging to minors or persons under legal disability. Bank charters shall be granted, continued, or amended, only by a vote of three-fifths of the members elected to each house, and for a term not exceeding 20 years.

Finances, Debts, etc.—The financial condition of the State is exhibited in the treasury report up to the close of 1850. The available means of the treasury had been for the year commencing 1st January, 1850, \$138,544, of which \$9,961 was a balance from the preceding year, and the disbursements, ordinary and extraordinary, for the same period had been \$125,543, leaving a balance of means over expenditures of \$13,001. The chief sources of income are transit duties, and dividends on the stock of railroads and canals, taxes on railroad stock, etc. The principal expenditures were for the support of the executive, judiciary, and legislature, of State prison, and of the indigent deaf and dumb, blind, and insane, etc. The resources of the treasury are ample, amounting to \$1,455,653, of which \$290,957 is productive, consisting of railroad and canal shares, of company bonds, of dividends, etc., and \$764,671 unproductive, being surplus revenues loaned to several counties, and paying no interest. The absolute debt of the State amounts to \$71,810.

The principal *benevolent* institution under State patronage is the State Lunatic Asylum at Trenton. It was first opened for the admission of patients 15th May, 1848. On the 1st Jan., 1850, there were in the Asylum 110 patients—62 males and 48 females; received during the year 110—52 males and 58 females; and discharged 58—23 males and 30 females. Since the opening of the building 292 patients have been received, and 105 discharged, cured, or improved. The building is a substantial edifice, warmed by steam, lighted by gas, and ventilated thoroughly. A House of Refuge has been established at Kingston, Middlesex County, and the buildings are partially complete, but work in them has been suspended for the present.

Federal Representation.—New Jersey, in accordance with the act of 23d May, 1850, sends *five* representatives to the Congress of the United States.

Education.—In 1850 there were in the State 1,575 school districts, and of these 1,476 made returns. Children between 5 and 16 years of age, 114,722; whole number of children taught during the year, 75,245, of which number 13,676 attended school less than 4 months, 14,816 less than 8 months, and 10,599 less than 12 months. Colored children included in the above 1,607. Average length of schools 8½ months; average cost of tuition per quarter to each scholar, \$2 10. The school fund amounts to \$338,099 70, less \$11,169 35 unavailable. Appropriated or received for school purposes \$152,578 62, and expended \$99,569 13. In every part of the State there are grammar schools, academies, etc. The principal colleges are—the College of New Jersey at Princeton, founded 1746; Rutgers College at New Brunswick,

NEW JERSEY.

founded 1770; and Burlington College (Episcopal), founded 1846. The college at Princeton has a law school, and at the same place is the Theological Seminary of the Presbyterian Church. The Theological Seminary of the Reformed Dutch Church, at New Brunswick, is a department of Rutgers College.

Libraries.—One State library—5,000 volumes; 8 social—4,800 volumes; 8 college—13,000 volumes; 2 students—7,000 volumes; 1 academic or professional—9,000 volumes; 1 scientific and historical—826 volumes; 6 public school—218 volumes. Total, 17 libraries, and 46,805 volumes.

Periodical Press.—Whole number of periodicals and newspapers published in the State 1st June, 1850, 61—of which 22 were whig, 20 democratic, and 19 neutral in politics, the last including all devoted to literature, religion, science, etc.; and of the whole number 8 were issued daily, circulating 6,950 copies at each issue; 50 weekly, circulating 85,944 copies; and 3 monthly, circulating 960 copies. Of the *dailies* 3 were published at Newark, 1 at Elizabethtown, 3 at Trenton, and 1 at Deckertown; of the *weeklies*, 1 each at Burlington, Elizabethtown, Woodbury, Lambertville, Hightstown, Princeton, Middletown, Dover, and Deckertown, 2 each at Mount Holly, Bridgeton, Newark, Plainfield, Jersey City, Flemington, Rahway, Morristown, Paterson, Salem, Somerville, Newton, and Belvidere; 3 each at Camden and New Brunswick; 4 at Trenton, and 5 at Freehold; and of the *monthlies*, 2 at Princeton, and 1 at Morristown.

Religious Denominations.—The statistics of the several religious denominations in the State for the year 1850, as ascertained by the census of that year, were as follows:

Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.	Denominations.	No. of Churches.	Church accom.	Value of Property.
Baptist	107	43,225	\$384,600	German Ref.	—	—	\$ —	R. Catholic.	21	9,385	\$99,385

—making a total of 807 churches, with accommodation for 844,933 persons, and valued as property at \$3,540,486. The State constitutes the diocese of New Jersey, a see of the Protestant Episcopal Church; and in the Roman Catholic Church is divided between the arch-diocese of New York and the diocese of Philadelphia.

Pauperism and Crime.—The whole number of paupers relieved or supported within the year ending 1st June, 1850, was 2,892, of whom 1,816 were native-born, and 576 foreigners; and the whole number of paupers on the list at the date noted was 1,578, of whom 1,339 were native-born, and 239 foreigners. Annual cost of support, \$93,110. The State Prison is located at Trenton. The number of convicts in that institution on the 31st December, 1849, was 185; received during the year 122, and discharged 97, leaving 210 in prison at the end of the year 1850. Of the last number 140 were white males, and 9 white females; and 59 colored males, and 4 colored females. Committed for manslaughter 6, for murder in the second degree 10, for rape 6, for forgery 8, for burglary 21, for larceny 41, for violent assaults 41, and for burning 4. Native-born 167, and foreigners 43.

Historical Sketch.—No precise date is assigned to the first white settlement in this State. The Dutch from New York planted themselves in the eastern part; while in the west, bordering on the Delaware, small bodies of Swedes were settled. The Dutch claimed the whole country from the Connecticut to the Delaware, and protested against the Swedish occupation. Without regard, however, to the validity of the title of either party, Charles II., in 1664, granted to his brother, the Duke of York, a patent for the whole Dutch claim. In the same year the duke sold the district between the Hudson and Delaware rivers to Lord Berkely and Sir George Carteret. To encourage immigration, liberal grants were made to settlers, and the important privilege of self-government secured to them, the proprietors reserving to themselves the appointment of the executive. Philip Carteret was the first governor. The colony continued to thrive under the prudent management of the proprietors until 1673, when the Dutch, having re-taken New York, extended their power again over this province. Their government, however, was of brief duration; for on the conclusion of peace, the country was restored to England. The duke's patent was re-confirmed; but he, considering his grant to Berkely and Carteret annulled, claimed immediate jurisdiction not only over New York, but also over the Territory of New Jersey, and appointed Sir Edmund Andros governor of his Territories from the Connecticut to the Delaware. This tyrant arrived in America in 1674, and proceeded to the exercise of his functions. In the same year Lord Berkely assigned his undivided half of New Jersey to William Penn and three others, and Carteret subsequently agreed to receive East Jersey as his share of the province. The rights of the original proprietors were not acknowledged by the duke until 1680, and then not until forced by the highest legal opinion in favor of their claims. About this time the province received a considerable accession of inhabitants by the arrival of a number of Quakers, who principally settled in the neighborhood of the present towns of Burlington and Salem, which they built. In 1682 Carteret transferred his interest in the province to William Penn and eleven other persons of the sect of Quakers; these immediately conveyed one-half of the province to a company of Scotchmen, at the head of whom was the Earl of Perth. After this event many immigrants arrived from Scotland. The first governor of East Jersey under the proprietors was Robert Barkley, the celebrated author of the "Apology for the Quakers." After the accession of the Duke of York to the throne, a writ of *quo warranto* was directed to issue against the proprietors, who, finding there was no other resource, endeavored to save what they could by voluntary submission, and made a formal surrender of their patent, praying only for a grant of the soil. It was intended by the new king that the whole province, together with that of New York, should be united with New England in an arbitrary government; and arrangements were making to carry the design into execution, when the Revolution of 1688 fortunately put an end to his power. In 1702 the proprietary of both parts was surrendered to Queen Anne, and the provinces which had experienced no repose in separation, were again united under a single government. Lord Cornbury was the first royal governor; he was also Governor of New York, and abused his functions in both provinces. From this period to the epoch of the American Revolution, New Jersey was not the scene of any memorable event. Its population and prosperity augmented under an orderly and prudent administration of affairs. From its connection with England, however, the province became involved in the wars of that country; and though remote from the scene of action, we find it contributing on several occasions to the expeditions undertaken for the conquest of the French possessions. The last royal governor of the province was William Temple Franklin, a son of the celebrated Benjamin Franklin. During the Revolution New Jersey suffered much, and Trenton, Princeton, Millstone, Red Bank, and Monmouth, are famous as

the scenes of American triumphs. When the blessings of peace were again restored to the United States, New Jersey soon recovered its former prosperity; and the usual accompaniment of prosperity, a barrenness of striking events, attends her history from that period.

TRENTON, on the Delaware, is the political capital of the State.

NEW JERUSALEM, p. o., Berks co., *Penn.*: 58 m. E. by N. Harrisburg. There are in this vicinity beds of iron ore, a furnace, and a forge.

NEW KENT county, *Virg.* Situate toward the E., and contains 241 sq. m. Drained by Pamunky and Chickhominy rivers, branches of James and York rivers. Surface level; soil of average fertility. Staples, wheat, oats, and Indian corn. Farms 818; manuf. 12; dwell. 535, and pop.—wh. 2,221, fr. col. 433, sl. 8,410—total 6,064. Capital: New Kent C. H.

NEW KENT, p. v., and cap. New Kent co., *Virg.*: 25 m. E. Richmond. Besides the court-house and jail, it contains only a few dwellings.

NEW KINGSTON, p. o., Cumberland county, *Penn.*: 15 m. W. by S. Harrisburg.

NEW KIRK'S MILLS, p. o., Fulton county, *N. Y.*: 49 m. N. W. Albany.

NEW LANCASTER, p. o., Tipton co., *Ind.*: on branch of Duck cr. of White r., 85 m. N. by E. Indianapolis.

NEW LANCASTER, p. v., Warren county, *Ill.*: 86 m. N. W. Springfield.

NEW LEBANON, p. o., De Kalb co., *Ill.*: 165 m. N. N. E. Springfield.

NEW LEBANON, p. o., Mercer co., *Penn.*: 177 m. W. N. W. Harrisburg.

NEW LEBANON, p. o., Sullivan county, *Ind.*: 85 m. S. W. Indianapolis.

NEW LEBANON, t. and p. v., Columbia co., *N. Y.*: 23 m. S. E. Albany. Drained by Lebanon and Kinderhook creeks, which here unite. Surface on E. and W. sides hilly and mountainous; the rest being chiefly a rich valley. Contains 3 principal settlements, New Lebanon, New Lebanon Springs, and New Lebanon Shaker Village. Pop. of t. 2,300.

NEW LEBANON, p. o., Montgomery county, *Ohio*: 66 m. W. by S. Columbus.

NEW LEBANON CENTRE, p. o., Columbia co., *N. Y.*: 24 m. S. E. Albany.

NEW LEBANON SPRINGS, p. v., Columbia county, *N. Y.*: 25 m. S. E. Albany, near the Mass. State line. This fashionable watering-place of great resort is justly celebrated for the medicinal qualities of its springs, salubrity of climate, and beautiful scenery. Here are several fine hotels. A railroad is in construction from Bennington to Chatham Four Corners, to pass through the v. The usual number of visitors to these springs per annum is from 7,000 to 8,000. In this v. is the Thermometer Manufactory of the Kendall brothers, who make 25,000 yearly.

NEW LEXINGTON, p. v., Somerset co., *Penn.*: on E. side of Laurel Hill cr., 124 m. W. by S. Harrisburg.

NEW LEXINGTON, p. v., Tuscaloosa co., *Ala.*: on the W. side of North r., 111 m. N. W. Montgomery.

NEW LEXINGTON, p. v., Van Buren co., *Ja.*: on N. bank of Des Moines r., 80 m. W. by S. Iowa City.

NEW LEXINGTON, p. v., Perry co., *Ohio*: 45 m. E. S. E. Columbus.

NEW LIBERTY, p. v., Owen co., *Ky.*: 27 m. N. Frankfort.

NEW LIBERTY, p. v., Pope co., *Ill.*: on E. side of Ohio r., 196 m. S. by E. Springfield.

NEW LIGHT, p. o., Wake co., *N. Car.*: on New Light cr., 24 m. N. Raleigh.

NEW LISBON, p. v., Henry co., *Ind.*: 85 m. E. by N. Indianapolis.

NEW LISBON, t. and p. o., Otsego county, *N. Y.*: 76 m. W. Albany. Surface of t. hilly; soil, sandy loam. Drained by Butternut and Otego creeks. Pop. 1,773.

NEW LISBON, p. v., Burlington co., *N. Jer.*: on Rancocas cr., 16 m. S. by E. Trenton.

NEW LISBON, p. v., and cap. Columbiana county, *Ohio*: 126 m. E. N. E. by N. Columbus, on N. side of Middle Fork

of Little Beaver r., and on the Sandy and Beaver Canal. The r. furnishes a large water-power, which is used by several saw-mills, flour-mills, and factories. Besides the court-house and jail, it contains 7 churches. Four newspapers are published weekly, "American Palladium" (whig), "American Patriot," "Ohio Patriot" (dem.), "Aurora" (F. S.).

NEW LONDON county, *Conn.* Situate S. E., and contains 550 sq. m. Drained by Thames r. formed by the junction of Yantic and Shetucket rivers, which supply good water-power. Connecticut r. bounds it on the S. W. and Pawcatuck on the S. E. Surface hilly; soil fertile and adapted to the production of different kinds of grain. On Long Island Sound, which bounds it on the S., are a number of fine harbors. Chief productions, wheat, Indian corn, oats, and potatoes. Farms 2,619; manuf. 765; dwell. 8,336, and pop.—wh. 50,323, fr. col. 1,493—total 51,821. Capital: New London. *Public Works*: New Haven and New London R. R.; New London and Stonington R. R.; New London, Willimantic, and Palmer R. R.; Norwich and Worcester R. R., etc.

NEW LONDON, t., p. city, port of entry, and semi-cap. New London co., *Conn.*: on W. bank of Thames r., 3 m. from its entrance into Long Island Sound, 43 m. S. E. Hartford, 43 m. E. New Haven. Lat. N. 41° 22', long. W. 72° 9'. The harbor is the best in the State, and one of the best in the United States. It has a depth of 80 feet, is spacious and safe. Its entrance is narrow and defended by forts Trumbull and Griswold; the former is garrisoned by a company of U. S. Artillery. It is one of the whaling ports of New England. In 1849 it received 1,949 barrels of sperm oil, 88,080 barrels of whale oil, and 801,100 pounds of whalebone. The city is built upon an acclivity, rising from the r. toward the W. and N. Back of the city is a summit of high ground, where the observer has a fine view of the harbor and surrounding country. The surface is uneven, lying on granite rocks, on which account the city was laid out irregularly; but lately various improvements have been made. This t. was settled in 1646, and a large portion of it burnt by the British under Arnold, Sept. 6, 1781. It contains the county buildings, 7 churches, academies, etc. There are 3 banks with capital of \$414,625. New London is connected by railroad with New Haven, 60 m.; with Willimantic, 30 m.; and with Worcester from Allyn's Point, 66 m. There is also a daily line of steamboats from New York. Two newspapers are published daily, "Chronicle" (whig), and "Morning Star" (dem.); two weekly, "Chronicle," and "Democrat." This is the principal port in the State; and the inhabitants are extensively engaged in the coasting trade and the fisheries. On the 30th June, 1850, the total tonnage of this district was 40,485 tons. The registered tonnage was 23,364 tons, of which 22,504 were permanent and 860 temporary; 2,622 tons were in the whale fishery. The enrolled and licensed tonnage was 17,121 tons, of which 16,173 tons were permanent, 8,579 propelled by steam, 11,577 were in the coasting trade, 8,594 in cod fishery, 1,007 in mackerel fishery; of tonnage licensed under 20 tons, 181 tons were in the coasting trade, and 762 in cod fishery. During the year preceding, the clearances for foreign countries were 18—4,943 tons; number of entrances, do., 26—7,576 tons; number of vessels built, 8 (schooners)—606 tons. Pop. in 1830, 4,356; in 1840, 5,519; in 1850, 9,006.

NEW LONDON, p. v., Henry county, *Ja.*: 51 m. S. by E. Iowa City.

NEW LONDON, p. v., Frederick co., *Md.*: 50 m. N. W. Annapolis.

NEW LONDON, p. v., and cap. Rails co., *Mo.*: on S. side Salt r., 80 m. N. N. E. Jefferson City.

NEW LONDON, t. and p. o., Merrimac co., *N. Hamp.*:

27 m. N. W. by W. Concord. Surface uneven; soil good. Sunipee lake lies on its S. W. border; and there are 3 other ponds in the t. At the outlet of Pleasant pond, on Blackwater r., is a scythe factory, making 36,000 scythes yearly. Pop. 945.

NEW LONDON, p. v., Oneida co., *N. Y.*: 102 m. W. N. W. Albany, on Erie Canal.

NEW LONDON, p. v., Howard co., *Ind.*: on S. side of Wild Cat cr. of Wabash r., 43 m. N. by W. Indianapolis.

NEW LONDON, t., p. v., and sta., Huron co., *Ohio*: 82 m. N. N. E. Columbus. Drained by Vermillion r. and branches. The v. is situated on E. side of the r. The Cincinnati, Cleveland, and Columbus R. R. passes through it, 47 m. from Cleveland, 88 m. from Columbus. Pop. of t. 1,329.

NEW LONDON, p. v., Campbell co., *Virg.*: on branch of Staunton r., 98 m. W. by S. Richmond; is one of the oldest towns in the State, though of small population. The U. S. Armory, now at Harper's Ferry, was originally located here.

NEW LONDON, t. and p. v., Chester county, *Penn.*: 61 m. S. E. by E. Harrisburg. Drained by Clay cr., and by Elk cr., which is its W. boundary. Surface nearly even, with slight declivities; soil sandy loam. The v. contains several stores, and considerable manufacturing is done in the town. At New London Cross-roads there is a forge and a rolling-mill.

NEW LYME, t. and p. o., Ashtabula co., *Ohio*: 156 m. N. E. Columbus. Drained by branches of Grand r. Pop. 628.

NEW MADISON, p. o., Darke county, *Ohio*: on a creek of Whitewater river, 92 m. W. Columbus.

NEW MADRID county, *Mo.* Situate S. E., and contains 573 sq. m. Drained by Whitewater river, which traverses its western portion, and by the lakes, which occupy a large portion of the county. Surface low and level, and liable to submersion, in consequence of which the soil is in many parts unfit for cultivation, but in other sections is fertile and productive. Farms 407; manuf. 30; dwell. 752, and pop.—wh. 4,057, fr. col. 3, sl. 1,481—total 5,541. *Capital*: New Madrid.

NEW MADRID, p. v., and cap. New Madrid co., *Mo.*: on the Mississippi r., on the N. W. bank of a large bend, and at mouth of St. John river. It contains the court-house and county offices. The "Commercial Herald" (Miscel.) and "Journal of the Times" (Miscel.) are published weekly. This place suffered severely by earthquakes in 1811 and '12. The bluff bank, upon which the v. was built, was thereby lowered 15 or 20 feet. Since then the river has washed away a portion of the bank.

NEW MAHONING, p. o., Carbon county, *Penn.*: 70 m. N. E. Harrisburg.

NEWMAN'S MILLS, p. v., Indiana county, *Penn.*: 106 m. W. N. W. Harrisburg. A plank-road 43 m. long, passing through Indiana v., connects this v. with the Pennsylvania Railroad.

NEWMANSVILLE, p. o., Greene county, *Tenn.*: 220 m. E. Nashville.

NEW MARION, p. v., Ripley county, *Ind.*: on S. side of Graham's Fork, 65 m. S. E. by S. Indianapolis. A plank-road runs hence to Madison.

NEW MARKET, p. v., Madison county, *Ala.*: 171 m. N. Montgomery, 3 m. S. Tennessee State line.

NEW MARKET, p. o., Vigo co., *Ind.*: 1 m. E. Illinois State line, 70 m. W. S. W. Indianapolis.

NEW MARKET, p. v., Marion co., *Ky.*: on N. side of Rolling Fork of Salt r., 48 m. S. S. W. Frankfort.

NEW MARKET, p. v., Frederick co., *Md.*: on N. bank of Bush cr., 47 m. N. W. by W. Annapolis, 1 m. from Monrovia, on Balt. and Ohio R. R.; has some trade.

NEW MARKET, p. v., Platte co., *Mo.*: 153 m. W. N. W. Jefferson City.

NEW MARKET, t., p. o., and sta., Rockingham county, *N. Hamp.*: 30 m. E. S. E. Concord. Bounded on the E. by Great Bay. Drained by a branch of Lamprey r. The Boston and Maine R. R. passes through the t., 57 m. from Boston. Pop. 1,689.

NEW MARKET, t. and p. o., Highland co., *Ohio*: 63 m. S. W. by S. Columbus. Pop. 1,528.

NEW MARKET, p. o., Abbeville district, *S. Car.*: 63 m. W. by N. Columbia.

NEW MARKET, p. v., Jefferson county, *Tenn.*: 180 m. E. Nashville.

NEW MARKET, p. v., Shenandoah co., *Virg.*: on the N. fork of the Shenandoah r., 98 m. N. W. Richmond.

NEW MARKET, p. o., Monroe county, *Ga.*: 48 m. W. Milledgeville.

NEW MARKET, p. o., Lewis co., *Oreg. Ter.*: on a southern inlet of Puget Sound, 143 m. N. by E. Salem.

NEW MARLBOROUGH, t. and p. v., Berkshire co., *Mass.*: 112 m. W. by S. Boston. Drained by Konkapt r., and a small lake with its outlet in the S. part of the town, which empties into Blackberry r., in Conn. Surface generally uneven, with a ridge of high hills traversing from N. to S.; soil adapted to grazing. The t. contains several stores and manufactories. Pop. 1,847.

NEW MARTINSVILLE, p. o., Wetzel county, *Virg.*: 225 m. N. W. Richmond.

NEW MAYSVILLE, p. v., Putnam county, *Ind.*: 30 m. W. Indianapolis.

NEW MAYSVILLE, p. o., Pike county, *Ill.*: W. by S. Springfield.

THE TERRITORY OF NEW MEXICO.

NEW MEXICO, as now organized, lies between the latitudes 32° and 38°, and stretches east and west between Texas on the one hand and Utah and California on the other. Its definite boundary begins "at a point in the Colorado River, where the boundary line of the Republic of Mexico crosses the same; thence eastwardly with said boundary line to the Rio Grande; thence following the main channel of said river to the parallel of the 32d degree of north latitude; thence eastward with same degree to its intersection with the 109d degree of longitude west from Greenwich; thence north with said degree of longitude to the parallel of the 38th degree of north latitude; thence west with said parallel to the summit of the Sierra Madre; thence south with the crest of said mountains to the 37th parallel of north latitude; thence west with the said parallel to its intersection with the boundary line of the State of California; thence with the said boundary line to the place of beginning." Within these boundaries the area is estimated at 210,744 square miles.

That portion of New Mexico westward of the Sierra Madre can only be considered as a temporary appendage to the Territory. It is bounded south by the Rio Gila, and extends north to the 37th parallel, being watered by the Colorado and numerous affluents of the river bounding it on the south. In the north-east part it is occupied by considerable mountains and mountain valleys, and the whole eastern line is also mountainous and rugged. The interior forms a varied country, with much fine agricultural lands, and the country bordering on the Gila, which is hilly and broken, abounds in mines of copper, gold, silver, etc., accounts of which are recorded by the Commissioners of the Boundary Survey. It is divided into the counties of Rio Arriba and Socorro, and comprises about two-fifths of the area of the Territory. It is

NEW MEXICO.

solely inhabited by Indians—the Navajoes in the north-east, the Apaches in the east and south-east, the Pimos in the west and south-west, and the Pah-Utahs in the north-west.

New Mexico proper, in its general aspect, is mountainous, with a large valley in the middle, running from north to south, and formed by the Rio Grande. The valley is generally about twenty miles wide, and bordered on the east and west by mountain chains, continuations of the Rocky Mountains, which have here received various names, as Sierra Blanca, Sierra de los Organos, Sierra Oscura, etc., on the east side, and Sierra Madre, Sierra de los Grullas, de Acha, de los Mimbres, etc., on the west side. The height of these mountains south of Santa Fé may, upon an average, be from 6,000 to 8,000 feet, while near Santa Fé, and in the more northern regions, some snow-capped peaks are seen that may rise from 10,000 to 12,000 feet above the sea. The mountains are principally composed of igneous rocks, as sienite, granite, diorite, basalt, etc. On the higher mountains excellent pine timber grows; on the lower, cedars, and sometimes oaks, and in the central valleys, mezquite, etc.

The main artery of New Mexico is the Rio Grande, a large and long river. Its head waters were explored in 1807 by Captain Pike, between 37° and 38° north latitude, but its highest sources are some two degrees farther north, in the recesses of the Rocky Mountains, near the head waters of the Arkansas and the Colorado of the West. Following a generally southern direction, it passes through the territory, where its principal affluent is the Rio Chamas from the west, and winds its way in a south-eastern direction, dividing in its course, below 32° north latitude, the United States from the Mexican Republic, to the Gulf, into which it falls in 25° 50' north latitude. Its tributaries below New Mexico are, from the north, the Rio Pecos, and from the south the Conchos, Salado, Alamo, and San Juan. The length of the river in a straight line is about 1,200 miles, but from the meanderings of its lower course, it runs at least 2,000 miles from the region of eternal snows to the almost tropical climate of the Gulf. The elevation of the river above the sea at Albuquerque is about 4,800 feet; at El Paso about 3,800 feet; and at Reynosa, about 800 or 400 miles above its mouth, not more than 170 feet. The fall of the water between Albuquerque and El Paso is from two to three feet in a mile, and below El Paso about one foot in two miles. The fall of the river is seldom used as a motive power, except for some flour mills, which are oftener worked by mules than by water. The principal advantage at present derived from the stream is for agriculture, by a well-managed system of irrigation. As to its navigation in New Mexico, it is doubtful if even canoes could be used, except, perhaps, during May or June, when the river is in its highest stage, from the melting of the snows in the mountains. It is entirely too shallow, and interrupted by too many sand bars to promise anything for navigation. On the southern portions of the river steamboats may ascend from the Gulf as far as Laredo, a distance of about 700 miles. "Whenever a closer connection between this head point of navigation and New Mexico shall be considered," says Dr. Wislizenus, "nothing would answer but a railroad crossing from the valley of the Rio Grande to the high table-land in the State of Chihuahua."

The soil in the valley of New Mexico is generally sandy, and looks poor, but by irrigation it produces abundant crops, and though agriculture is carried on in a very primitive way, with the hoe alone, or with a rough plow, made entirely of wood, without any particle of iron, the inhabitants raise large quantities of Indian corn and wheat, beans, onions, red peppers, and some fruits. The most fertile part of the valley begins below Santa Fé, along the river, and is called "Rio Abajo," or the country down the river. It is not uncommon there to raise two crops within the year. The general dryness of the climate, and the aridity of the soil, however, will always confine agriculture to the valleys of the water-courses. "But this important defect," says Dr. Wislizenus, "may be remedied by artesian wells. On several occasions I remarked on the high table-lands of Santa Fé south, that in a certain depth layers of clay are found that may form reservoirs of sunken water-courses from the eastern to the western chain, which, by the improved method of boring, might be easily made to yield their waters to the surface. If experiments to that effect should prove successful, the progress of agriculture in New Mexico would be more rapid, and even many dreaded 'jornada' might be changed from waterless deserts into cultivated plains." But at present irrigation from a water-course is the only available means of carrying on agriculture. The irrigation is effected by leading the waters over the cultivated lands through canals. The consequence of this is that the inhabitants locate themselves together, and allot water to each at certain periods. The corn fields are generally without fences, which are less needed here, as the grazing stock are tended by herdsmen. The best cultivated lands are found in the "estancias," or large estates belonging to the rich. These haciendas are apparently a remnant of the old feudal system, and were granted with the Indians and all other appurtenances by the Spanish crown to favorite vassals. The great number of human beings attached to these estates are nothing more than mere serfs, receiving from their task-masters food, lodging, and clothing. How far the American element in the constitution of society in the Territory may modify this industrial monstrosity has yet to be seen.

The inhabitants pay considerable attention to raising stock, and the great owners are possessed of large numbers of horses, mules, cattle, and sheep. These, however, are of small size, because little attention has been given to improving the breeds; but they increase very rapidly, and little trouble is experienced in rearing them, as no housing is required in winter. The pasturage in the uncultivated parts is extensive, and thousands of stock graze thereon the year through. The Indians prove the greatest enemies to the farmers, and frequently carry off whole herds of cattle, etc.

The mines of New Mexico are very rich, but mining operations have been much neglected, and a great many of the most valuable which were formerly worked have been entirely deserted, owing chiefly to the unsettled state of the country, the invasions of the Indians, and other impediments. Gold, silver, iron, copper, etc., are abundant in all the mountain country. Gold has been found in the Santa Fé district and south of it for a hundred miles, as far as Gran Quivira, and north one hundred and twenty miles up to the Rio Sangre de Cristo. The poorer classes occupy much of their time in washing out gold dust, which is largely deposited in the mountain streams about Santa Fé; these washings are very rich, and some gold mines are also worked there. These mines, according to Dr. Wislizenus, are the only mines of any consequence worked at the present time in all New Mexico. Several rich silver mines were worked by the Spaniards at Avo, at Cerrillos, and in the Nambé Mountains, but operations have long since ceased. Copper is abundant throughout the country, but especially at Las Tijeras, Jemez, Abiqui, Guadalupeta de Mora, etc. Only one mine south of the placeros is at the present time worked. Iron, though equally abundant, is entirely overlooked, being considered of little value, in comparison with the precious metals. Coal has been discovered in a number of places, as in the Raton Mountains, near the village of Jemez, south-west of Santa Fé, and other places to the south. Gypsum, common and selenite, is also found in large quantities; the common is used as lime for white-washing, and the selenite or crystalline instead of window-glass. About 100 miles south-east of Santa Fé, on the high table-lands between the Del Norte and Pecos, are some extensive salt lakes or salinas, from which all the domestic salt used in New Mexico is procured. Large

caravans go there from the capital in the dry season, and return with as much as they can conveniently transport, and the merchants exchange their salt for wheat, bushel for bushel, or sell it for one or even two dollars a bushel.

"Not far from these salinas," says Dr. Wislizenus, "the ruins of an old city are found—the fabulous 'la Gran Quiviri.' The common report in relation to this place is, that a very large and wealthy city was once here situated, with very rich mines, the produce of which was once or twice a year sent to Spain. At one season, when they were making extraordinary preparations for transporting the precious metals, the Indians attacked them; whereupon the miners buried their treasures, worth forty millions, and left the city together; but they were all killed except two, who went to Mexico, giving the particulars of the affair, and soliciting aid to return. But the distance being so great and the Indians so numerous, nobody would advance, and the thing was dropped. One of the two went to New Orleans, then under the dominion of Spain, raised five hundred men, and started by way of the Sabine but was never heard of afterward. So far the report. Within the last few years several Americans and Frenchmen have visited the place; and although they have not found the treasure, they certify at least to the existence of an aqueduct, about 10 miles in length, to the still standing walls of several churches, the sculptures of the Spanish coat-of-arms, and to many spacious pits, supposed to be silver mines. It was, no doubt, a Spanish mining town, and it is not unlikely it was destroyed in 1680, in the general successful insurrection of the Indians in New Mexico against the Spaniards. Dr. Samuel G. Morton, in a late pamphlet, suggests the probability that it was originally an old Indian city, into which the Spaniards, as in several other instances, had introduced themselves, and subsequently abandoned it. Further investigation, it is to be hoped, will clear up this point."

The climate of New Mexico is generally temperate, constant, and healthy. Considerable atmospheric differences, however, are experienced in the mountain districts and in the low valley of the Rio Grande. In the latter, the summer heat sometimes rises to 100° Fahrenheit, but the nights are always cool and pleasant. The winters are comparatively long, and the higher mountains are always covered with snow, and ice and snow are common at Santa Fé, but the main river is never frozen over strong enough to admit the passage of horses and carriages. The sky is generally clear and dry, owing to the condensation of moisture on the surrounding hills. The months of July and October inclusive, constitute the rainy season, but the rains are neither so heavy nor so regular in their returns as on the more southern part of the continent. Disease is little known, except some inflammations and typhoid fevers in the winter season.

The constitution of society in New Mexico, irrespective of the changes effected by the intermixture among the people of the American residents, is much similar to that of other nations of Spanish origin. While the higher classes conform to the dictates of modern fashion, the mass of the people adhere to the manners and customs of former times. The men are faithful to their *serapes*, or colored blankets, and to their wide trowsers, with glittering buttons, and split from hip to ankle, to give the white cotton drawers a chance to be seen; and the women of all classes retain the *rebozo*, or small shawl, drawn over their heads, which gives them so coquettish an appearance, and adds so greatly to their irresistible charms. Both sexes enjoy their cigaritos, their siesta, and their evening amusement at *monté* or *sandango*. Their dances are very graceful, and combine the waltz and quadrille. The prominent ingredient in the Mexican race is their Indian blood—it is visible in their features, complexion, in their acts and disposals. The men are ill-favored, but the women are graceful in their deportment and manners. The difference in the sexes are nowhere more observable. The men are lazy, mendacious, treacherous, and cruel, while the women are open-hearted, and when their affections are required, faithful wives; but they are too often considered as mere household drudges. As a general remark, the females are devoid of education, but possess a strong common sense and natural aptness and sympathy, which are often of more practical use than the most refined book education. The sufferings of the Texans captured while prosecuting the Santa Fé expedition were much mitigated by the benevolent attentions and disinterested kindnesses of the women—acts which, when contrasted with the barbarities and insults heaped upon them by the male portion of the inhabitants, will ever reflect honor on their many virtues.

New Mexico is divided in seven counties, the general statistics of which, and the capitals of each, in 1850, were as follows:

Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.	Counties.	Dwell.	Pop.	Farms Manuf. in cult. Estab.	Capitals.
Bernalillo.....	1,684 ..	7,751 ..	164 .. 0 ..	Albuquerque	San Miguel ...	1,781 ..	7,074 ..	177 .. 0 ..	San Miguel
Rio Arriba.....	2,418 ..	10,668 ..	472 .. 0 ..	Cuchillo	Taos.....	2,214 ..	9,507 ..	651 .. 13 ..	Taos
Santa Ana.....	978 ..	4,645 ..	194 .. 0 ..	Jemez	Socorro (new) ..	— ..	— ..	— ..	Socorro
Santa Fé.....	1,561 ..	7,718 ..	713 .. 6 ..	SANTA FÉ	Valencia.....	2,877 ..	14,147 ..	1,379 .. 1 ..	Valencia

The whole number of dwellings in the State was, at the above date, 13,453, of families 13,502, and of inhabitants 61,506, viz: whites 61,488—males 31,706, and females 29,782, fr. col. 17—males 14, and females 3. Of the whole population there were *deaf and dumb*—wh. 14, fr. col. 0—total 14; *blind*—wh. 98, fr. col. 0—total 98; *insane*—wh. 11, fr. col. 0—total 11; and *idiot*—wh. 88, fr. col. 0—total 88. The number of free persons born in the United States was 59,261, the number of foreign birth 2,063, and of birth unknown 223. The *native* population originated as follows: Me. 12, N. Hamp. 6, Verm. 8, Mass. 24, R. I. 1, Conn. 10, N. Y. 101, N. Jer. 9, Penn. 97, Del. 6, Md. 37, Dist. of Col. 12, Virg. 77, N. Car. 13, S. Car. 18, Ga. 9, Flor. 5, Ala. 5, Miss. 0, La. 4, Tex. 46, Ark. 17, Tenn. 25, Ky. 62, Ohio 34, Mich. 8, Ind. 11, Ill. 24, Mo. 63, Ia. 3, Wisc. 1, Calif. 6, *New Mexico* 58,451, Territories 56; and the *foreign* population was composed of persons from—England 43, Ireland 292, Scotland, 29, Wales 1, Germany 215, France 26, Spain 8, Portugal 1, Belgium 0, Holland 2, Italy 1, Austria 0, Switzerland 11, Russia 4, Denmark 2, Norway 2, Sweden 1, Prussia 14, Sardinia 0, Greece 0, China 0, British America 38, Mexico 1,365, West Indies 2, and other countries 5.

The statistical returns of the wealth, industry, products, etc., of the Territory, according to the census of 1850, and other official documents referring to the same period of time, are as follows:

Occupied Lands, etc.—Improved farm lands 166,201 acres, and unimproved lands 124,370 acres—valued in cash at \$1,653,952; number of farms under cultivation 3,750; value of farming implements and machinery \$77,960.

Live-Stock.—Horses, 5,079; asses and mules, 8,654; milch cows, 10,635; working oxen, 12,257; other cattle, 10,085; sheep, 877,271; swine, 7,314—in the aggregate valued in cash at \$1,494,629.

Products of Animals.—Wool, 32,901 pounds; butter, 111 pounds; cheese, 5,848 pounds; and the value of animals slaughtered during the year \$82,125. Neither silk, nor beeswax and honey are returned by the census takers, although it is well known that both are produced to a considerable amount.

Grain and other Food Crops.—Wheat, 196,516 bushels; rye, 0 bushels; Indian corn, 365,411 bushels; oats, 5 bushels; barley, 5 bushels; and buckwheat, 100 bushels. The other food crops consisted of 15,688 bushels of peas, and three bushels of Irish potatoes.

NEW MEXICO.

Miscellaneous Crops.—Tobacco, 8,467 pounds; molasses, 4,236 gallons; and wine, 2,363 gallons. Value of orchard products, \$8,231, and of market-garden products, \$6,679.

Home-made Manufactures for the year ending 1st June, 1850, were valued at \$6,039. There is but one tannery in the Territory with a capital of \$500.

"The New Mexicans are celebrated for the manufacture of coarse blankets, which is an article of considerable traffic between them and the southern provinces, as also with the neighboring Indians, and on some occasions with the States eastward of the country. The finer articles are curiously woven in handsome figures of various colors. These are of different qualities, the most ordinary being valued at about two dollars, while those of the finest texture, especially their imitations of the *serape Navajo*, will sell for twenty dollars or more. There have been also made in New Mexico a few imitations of the *serape Saltillo*, the blanket of Saltillo, a city of the South, celebrated for the manufacture of the most splendid fancy blankets, singularly figured with all the colors of the rainbow. These are often sold for more than fifty dollars each. What renders the weaving of the fancy blankets extremely tedious is, that the variegation of colors is all effected with the shuttle; the texture in other respects being perfectly plain, without even a twill. An additional value is set upon the fine *serape* on account of its being a fashionable substitute for a cloak. Indeed, the inferior *serape* is the only over-dress used by the peasantry in the winter.

"Besides blankets, the New Mexicans manufacture a kind of coarse twilled woolen stuff called *gerga*, which is checkered with black and white, and is used for carpets, and also by the peasantry for clothing; which, in fact, with some other similar domestic stuffs, together with buckskin, constituted almost the only article of wear they were possessed of, till the trade from Missouri furnished them with foreign fabrics at more reasonable prices than they had been in the habit of paying to the traders of the southern provinces. Their domestic textures are nearly all of wool, there being no flax or hemp, and but little cotton spun. The manufacture even of these articles is greatly embarrassed for want of good spinning and weaving machinery. Much of the spinning is done with the *huso*, or *malacate* (the whirlingig spindle), which is kept whirling in a bowl with the fingers, while the thread is drawn. The dexterity with which the females spin with this simple apparatus is truly astonishing."—*Gregg*.

New Mexico receives most of its foreign goods by the overland route. This trade is carried on by caravans that traverse the desert at stated periods annually. Before 1822 it had scarcely an existence, but since that time it has gradually increased and become profitable; and it is probable that the total value of goods thus annually brought into the territory is not less than a million of dollars; but a great portion of the goods representing this amount is smuggled into Chihuahua and other Mexican States. The established post or *entrepôt* for depositing the goods brought on the voyage upward by the Missouri for the Santa Fé trade, is the town of Independence, situate about twelve miles from the Indian border and two or three south of the Missouri River.

Government.—The government is based on the act of Congress approved 9th September, 1850, establishing the Territory. It provides—That every free white male inhabitant 21 years of age, who shall have been a resident of the territory at the time of the passage of the act above named, shall be entitled to vote. The right of suffrage and of holding office shall be exercised only by citizens of the United States, including those recognized as citizens by the treaty with the Republic of Mexico, concluded 2d February, 1848.

The *Legislative Assembly* consists of a Council and House of Representatives. The council consists of 19 members, to serve for two years, and the house of 26 members, to serve for one year. Members are to be residents in and inhabitants of the district from which elected. A plurality of votes elects, and in case of a tie, the governor orders a new election. All acts passed by the legislature and approved by the governor, shall be submitted to Congress, and if disapproved, shall be of no effect.

The *Governor* is appointed by the President of the United States for four years, and until his successor be qualified. He must reside within the territory, and is *ex-officio* Superintendent of Indian Affairs. He may pardon for offenses against the laws of the Territory, and relieve convicted offenders against those of the United States, until the will of the President be known. A Secretary of State is appointed in like manner, for four years, unless sooner removed, who shall act as governor when said office is vacant, or the governor is necessarily absent.

The *Judiciary* is vested in a Supreme Court, District Courts, Probate Courts, and in justices of the peace. The supreme court consists of a chief justice and two associate justices, any two of whom form a quorum. A term is held at the seat of government annually. The Territory is divided into three judicial districts, and a district court is held in each by one of the justices of the Superior Court, at such time and place as may be prescribed by law, and the said justices are obliged to reside in the districts assigned them. The supreme and district courts possess chancery as well as common law jurisdiction. Writs of error, exceptions, and appeals from the district courts, lie to the supreme court, but in no case removed to the supreme court shall there be a trial by jury. Where the value of property in question exceeds \$1,000, final appeal lies to the supreme court of the United States. Probate courts are established in the several counties. Justices of the peace are not competent to try any cause in which the boundaries of land may be in controversy, nor where the amount claimed exceeds \$100. There is also an attorney and marshal appointed for four years. The other township, district, or county officers shall be appointed or elected as the law may provide.

Congressional Delegation.—A delegate to Congress shall be elected by a plurality of the qualified voters.

When the lands of the Territory shall be surveyed, under the directions of the general government, preparatory to bringing the same into market, sections numbered 16 and 36 in each township shall be reserved for schools in the Territory, and in the states and territories hereafter to be erected out of the same. The Constitution, and all the laws of the United States which are not locally inapplicable, shall have the same force and effect within the Territory as elsewhere within the United States; and no citizen of the United States shall be deprived of his life, liberty, or property, except by the judgment of his peers and the laws of the land.

The assessed value of all real and personal estate in the Territory, in 1850, was \$5,174,471.

Religious Denominations.—New Mexico is an Apostolic Vicariate of the Roman Catholic Church, and at present is governed by the Right Rev. John Lamy, D.D., who was consecrated November 24th, 1850. According to the census of 1850, the number of churches of this denomination, which, before the session of 1843, was the established religion, and that professed by the whole population, was 146, having accommodation for 76,100 persons, and the buildings being valued as property at \$188,200. The fact of the country being now a part of the United States has done away with the exclusive nature of this church; and although no other churches are noticed in the official returns as existing within the Territory, yet it is assumable that others do exist for the accommodation of those citizen immigrants from the old States whose religious views do not coincide with the general and popular creed. Assuredly there is no impediment to their foundation.

Historical Sketch.—New Mexico became known to the Spaniards about the year 1581, and formal possession was taken of the country in 1598. Christianity and slavery were early and simultaneously introduced among the Indians, and conversion and personal service enforced by the sword. The converted Indians were made to live in villages, and were distinguished from the roving bands by the title of *Pueblos*. Many towns, of which only the ruins now remain, were established at this time. The mines were successfully worked, and the occupation of the country seemed to be secured, when, quite unexpectedly, in 1680, a general insurrection of all the Indian tribes broke out against the Spanish yoke. The Spaniards were either massacred or driven southward, where they founded El Paso del Norte. The country was not recovered for ten or twelve years. Several insurrections have since occurred, but none so universal or disastrous as this one. The deep rancor of the Indians, however, bequeathed from sire to son for successive generations, still animates the race, and is often displayed in the most bloody and cruel outbreaks, which, however, have not been very frequent since the United States became master of the country. This country followed the fate of Mexico after the revolution that overthrew the Spanish power, and since that period, to within the last few years, has been silently degenerating. The history of New Mexico, previous to the invasion by the Americans, has little to arrest attention. It is a continuous record of barbarism and tyranny. On the 8th September, 1846, Santa Fé was captured by the Americans under General Kearney, and soon after several of the river towns were visited on his route to California. A civil government was now established. On the 19th of January, 1847, an insurrection broke out against the Americans, and in several pueblos many Americans were murdered, among whom was Mr. Bent, the governor. Taos, Arroyo-Hondo, and Rio Colorado were the chief scenes of strife. The battles of La Canada and El Embudo also occurred in this month, and in February the battle of Taos, in all of which the Mexicans were completely vanquished. Some few skirmishes occurred after these, but none of importance, and from this period the United States authorities exercised exclusive power. On the 2d February, 1848, a treaty of peace and cession was signed at Guadalupe Hidalgo, by which New Mexico was assigned to the Union, and on the 9th September, 1850, the country within its present limits was erected into a territorial government. In the interim, however, the people had formed for themselves a State constitution, but this was revoked by Congress, and the country remanded back to a territorial condition, under which it is now flourishing and happy.

SANTA FÉ, on the east side of the Rio Grande, is the political capital of the Territory.

NEW MICHIGAN, p. o., Livingston co., Ill.: 96 m. N. E. Springfield.

NEW MIDDLETOWN, p. v., Mahoning co., Ohio: 144 m. N. E. by E. Columbus. Drained by a cr. of Mahoning r.

NEW MILFORD, t. and p. v., Litchfield co., Conn.: 41 m. W. S. W. Hartford, 32 m. N. W. by W. New Haven, on Housatonic r. and E. R., 37 m. from Bridgeport. Surface uneven and hilly: soil gravelly and clay loam, well watered by Housatonic river and its branches. The t. contains 10 churches, several tanneries, and mills. The v. is very handsome, the streets being wide and well shaded. Population of t. 4,503.

NEW MILFORD, p. o., Winnibago co., Ill.: 183 m. N. by E. Springfield.

NEW MILFORD, p. o., Orange co., N. Y.: 102 m. S. by W. Albany.

NEW MILFORD, t. and p. v., Susquehanna co., Penn.: 124 m. N. N. E. Harrisburg. Drained by Mitchell's and Salt Lick creeks; the surface is hilly, with a soil of clay and gravel. There is some manufacturing done in the t. The Lackawanna and Western R. R. passes through the t., and connects with the New York and Erie R. R., 6 m. distant.

NEW MILTOWN, p. o., Lancaster co., Penn.: 33 m. S. E. Harrisburg.

NEW MILTON, p. o., Doddridge co., Virg.: 214 m. N. W. Richmond.

NEW MOUNT PLEASANT, p. o., Monroe co., Penn.: 98 m. N. E. Harrisburg.

NEW MOUNT PLEASANT, p. v., Jay co., Ind.: 67 m. N. E. Indianapolis. A plank-road from Bluffton to Richmond passes through the v.

NEWMAN, p. v., and cap. Coweta co., Ga.: 97 m. W. by N. Milledgeville. It contains the court-house, jail, and several stores. The La Grango R. R. passes through the v., 40 m. from Atlanta. The "Georgia Banner" (dem.) is published weekly.

NEWMANSVILLE, p. v., and cap. Alachua county, Flor.: 122 m. E. S. E. Tallahassee. It contains a U. S. land office.

NEW OHIO, p. o., Broome co., N. Y.: 112 m. W. S. W. Albany.

NEW ORLEANS, p. city, port of entry, and cap. Orleans par., La.: on the E. or left bank of the Mississippi river, 105 m. above its mouth, and in a direct line 75 m. S. E. Baton Rouge. Lat. 29° 57' 30" N., and long. 90° W.

A traveler is struck on entering the city "with the old and narrow streets, the high houses ornamented with tasteful cornices, iron balconies, and many other circumstances

peculiar to towns in France and Spain, and pointing out the past history of this city, fated to change its masters so often." The newer parts of the city are, however, built more in the American style, the streets being wide and regularly laid out. Many of the dwellings are built in a style of magnificence and beauty that will rival those of any other city, while the beautiful grounds attached to them, filled with the luxuriant foliage of the south, give to them an air of comfort and ease which are seldom enjoyed by the city resident. There are in the city six public squares, laid out with taste, inclosed with handsome fencing, and adorned with a variety of trees and shrubbery. These afford a pleasant retreat from the heat and glare of the streets, and tend also to improve the health of the city. The old city is built in the form of a parallelogram. The present city consists of this part, the suburbs of St. Mary's, Anunciation, and La Course, called Faubourgs, and the City of Lafayette above, and the suburbs of Maugney, Dournois, and Declonet below, and Tremé and St. John in the rear. Including these, it extends about 5 miles along the river, and is rapidly being extended back toward Lake Pontchartrain, with which it communicates by means of the Basin, Canal, and Bayou St. John, with Mobile, Pensacola, and the whole Gulf shore. It also communicates by means of the bayoux Plaquemine and Lafourche with the Attakapas country, and has many other communications by means of the numerous bayoux and lakes with the lower part of Louisiana.

The charter of this now opulent city was granted in 1805. In 1836 it was thought advisable to divide the city into three separate municipalities, each with distinct municipal powers. These municipalities extended backward six miles to Lake Pontchartrain. The first municipality was divided into five wards, and the second and third into four wards each. Each had a recorder and twelve aldermen, except the third, which had only seven aldermen. A mayor and twelve aldermen, four aldermen from each municipality, elected by general ticket, and called the general council, presided over the whole city. This system was altered in 1852, when the city was organized into one community, embracing also the city of Lafayette, under a single administration.

The Mississippi opposite the city is half a mile wide, and from 100 to 160 feet deep, and continues of this depth to near the Gulf, where there are bars, having only from 13 to 16 feet of water. The city is built on an inclined plane, the declivity falling gently from the river to the swamps in the

rear. At high water it is from three to nine feet below the water surface, and, to protect it from inundation, an embankment called the *Levee* is raised on its border. "Levee" is a French word of primary importance within the State of Louisiana; it pervades its statute books, and is heard daily within its halls of justice. There is little or no land on the banks of the river in this State, if we except an inconsiderable quantity in the neighborhood of Baton Rouge, which would not be covered with the waters of the Mississippi in the spring months, were it not for the artificial embankment which the industry of man has raised to exclude them. The Levee of New Orleans is one continuous landing-place or quay, four miles in extent, and of an average width of 100 feet. It is 15 feet above low water mark, and 6 feet above the level of the city, to which it is graduated by an easy descent. Like the river it margins, it holds a serpentine course, advancing or receding as the Mississippi encroaches upon the city, or falls off toward the opposite bank. It is constructed of deposit, a rich alluvion swept from the N., and held in suspension by the waters until their rapidity is checked by a sudden change of direction, or swollen to overflowing, they spread over the adjacent swamps again to retire and again to bless the land they have visited by an increase of soil. The deposit is so great, and the consequent formation of new land so rapid immediately in front of that portion of the quay, which is most used for the purposes of commerce, that it has within a few years become necessary to build piled wharves, jutting out from 50 to 100 feet into the river. The new formation which is governed as to its locality by what may well be termed the freaks of the Mississippi, is called "batture," and when it has progressed to such an extent as to be left bare by the returning water at its lowest stage, is held capable of ownership. Here may be seen what New Orleans was before the application of steam to navigation. Hundreds of long, narrow, black, dirty-looking, crocodile-like rafts lie sluggishly without moorings upon the soft batture, and pour out their contents upon the quay—a heterogeneous compound of the products of the Upper Mississippi and its tributaries. These are rafts, or flat-boats, as they are technically called, each frequently carrying cargoes valued at from \$3,000 to \$15,000. Twenty years ago, and these were the only craft on the river! nor has their number been decreased since the introduction of the steamboat. Not less characteristic of New Orleans is the landing of the latter class of craft. The quay is here all action, and the very water is covered with life. Huge vessels float upon its bosom which acknowledge none of the powers of air and wait no tide. One is weighed down to the guards with cotton, a freight of 3,000 bales—\$180,000! Twenty more lie side by side laden with the same commodity. Huge piles, bale upon bale, story above story, cover the levee. Pork without end, as if the Ohio had emptied its lap at the door of New Orleans; and flour by the thousand barrels rolled out upon the quay and heaped up—a large area is covered with these two products of the up-country, and still appears seemingly undiminished, although the seller, the buyer, and drayman are busy in the midst of it. Here is a boat freighted with lead from Galena; and another brings furs and peltry from the head waters of the Missouri, 3,000 miles to the north-west! The Illinois, the Ohio, the Missouri, the Arkansas, and Red River, all are tributaries to this commercial depot, and send down to its wharves merchantable material of the annual value of *one hundred million of dollars* more or less. Nearly 20,000 miles of inland navigation is tributary to this city. The quay appropriated to the foreign and coastwise shipping presents another and a different scene. Here the cotton bale, tobacco hoghead, pork and flour barrel, and the whisky cask yield to bales of foreign and domestic manufactures, piles of wine, and crates of wares. The shipping stretches away as far as the eye can reach, two miles or more in extent three tiers deep, with their heads to the current curving with the river—a beautiful

crescent. The English, the French, the Spanish, the Dane, the Russian, the Swede, the Hollander, etc., are here commingled, and compete for the commerce of the teeming West.

The following statistics will exhibit the extent and value of the trade of New Orleans, in 1850-51:

1.—Receipts down the Mississippi, from the interior:

4.—Principal exports to foreign countries, in 1849-50 :

Country.	Cotton, Bales.	Tobacco, Hhds.
Great Britain.....	582,372 ..	13,223
France	180,362 ..	4,182
North of Europe	47,736 ..	9,393
South of Europe, etc.....	84,120 ..	13,859
Flour, 264,356 barrels; pork, 16,230 brls.; lard, 188,363 kegs; beef, 20,645 barrels; corn, 158,618 sacks.		

The arrivals at New Orleans from the interior, etc., in 1849-50 were: *flat boats* 941—from Ohio 218, from Kentucky 58, from Indiana 293, from Virginia 12, from Pennsylvania 222, from Illinois 19, from Tennessee 104, and from Mississippi 10; and the *river steamboats* 2,918.

The total value of domestic merchandise exported from New Orleans to foreign countries from the 1st July, 1850, to 30th June, 1851, amounted to \$58,988,013, of which to the value of \$38,022,609 was carried in American, and \$15,965,404 in foreign bottoms; and the total value of foreign merchandise re-exported was \$445,950, of which to the value of \$388,265 was carried in American, and \$57,685 in foreign bottoms. The following are the entrances and clearances in the foreign trade in the year above named :

A branch of the United States mint is located here; also the U. S. land office for the land district of New Orleans; the U. S. custom-house, and other federal establishments. The mint has extensive buildings on the Esplanade; the main edifice is 282 feet long and 108 feet deep, and its two

The total number of entrances in the coastwise trade in 1850-51 was 1,227 vessels, of the aggregate burden of 353,175 tons, and the total number of clearances was 1,178, of the aggregate burden of 435,892 tons.

The manufactures of New Orleans are not extensive. There are several furnaces, machine shops, distilleries, sugar refineries, lumber yards, steam saw-mills, tobacco factories, etc.—in all using a capital of some three millions of dollars; and besides these there are the handicrafts common to all large cities, which in the aggregate make up a respectable list of occupations. The most extensive foundry and machine shop of the south-west is that of John Leeds & Co. in this city; it employs 175 men, and from 4 to 5 tons of metal are daily melted down and run off into the thousand-and-one things for which iron and brass may be used—a steam-engine and sugar-mill down to a nut and screw. This establishment has grown up from a little shop owned by the father of one of the principals 20 years ago, and is a fair illustration of what, from small beginnings, American energy, perseverance, and enterprise, can accomplish. Its cotton presses are among the largest in the Union, and cover an immense area. The New Orleans Cotton Press occupies an area of 194,656 square feet, most of which is covered by the buildings. On an average, 160,000 bales of cotton are annually pressed at this establishment. The market houses of New Orleans are in general substantial and expensive buildings; the meat market on the Levee is a conspicuous building, and is one of the principal objects seen from the river; St. Mary's Market is 436 feet long, and 42 feet in width; and Washington Market is also an extensive building. These are well supplied with all kinds of south-western produce, and abound in tropical fruits and esculents. The retail trade of New Orleans is extravagantly provided for; its stores and sales-rooms are magnificent, and their patronage beyond precedent large. The dress, habits, and customs of the inhabitants require this lavish exhibition of merchandise, and they willingly support it at an immense cost to individual revenue. The New Orleans banks are seven in number, and their condition on the 30th Nov., 1850, was as follows :

wings are 81 feet by 29 feet, the whole of three stories. The coinage at this branch is only gold and silver. For the year ending 1st July, 1851, the value of gold deposits was \$3,285,637, and of gold money coined, \$3,994,000; of the deposits, \$3,152,579 was California gold, and of the coinage,

\$6,670,000 were double eagles, \$1,495,000 eagles, \$165,000 half eagles, \$510,000 quarter eagles, and \$154,000 dollar pieces; and the value of silver deposits was \$22,085, of which \$57,572 was silver extracted from California gold, and of the coinage \$3,000 were dollar pieces, \$356,000 half dollars, \$69,000 quarter dollars, \$53,000 dimes, \$51,500 half dimes, and \$18,000 three cent pieces. Total deposits, \$9,107,732—coinage, \$10,044,500. The custom-house at this place, when completed, will be one of the most expensive buildings in the Union, and a great ornament to the city. It is situate on the Levee at the corner of Canal Street. The building will also contain apartments for the U. S. Courts, and other accommodations for the general government. It will be almost as large as the Capitol at Washington with the additions now being made. The material is to come from the celebrated Quincy quarries. On the right and left of the cathedral on the Place d'Armes are the district and city offices—one in the Tuscan and the other in the Doric style, and both two stories high. These accommodate the city council, the courts of the district and parish, the police, city guard, etc. New Orleans was capital of the State until 1849, in which year the State records were removed to Baton Rouge. The old State-house, formerly the Charity Hospital, is a good building, occupies a square between Common and Canal streets, and consists of a main building and two detached wings.

New Orleans is magnificent in its church buildings, though there are complaints that there is not sufficient accommodation for the large population it contains. Including chapels, there are 19 Catholic places of worship. The Cathedral of St. Louis, on the Place d'Armes, is a venerable and imposing structure. It was founded in 1792 by Don André on the condition that masses be offered every Saturday evening for the repose of his soul, and the tolling of the bell at sunset on that day still proclaims the observance of the custom. The Episcopalians, Presbyterians, Methodists, etc., have also churches. The Methodist church on the corner of Poydras and Carondelet streets is a splendid copy of the temple of Theseus, with a steeple 170 feet in height. The Second Presbyterian church in Lafayette Square, is also a handsome structure, and has a fine portico of Græco-Doric architecture. The Episcopal churches, of which there are 3, are substantial, without any distinguishing features.

The newspaper press of New Orleans is world-renowned, and its issues are among the most talented in the Union. There are 9 daily newspapers, the "Crescent" (neut.), the "Delta" (dem.), the "Picayune" (whig), the "True Delta" (neut.), all of which also issue weekly editions, the "Bulletin" (whig), which has also a semi-weekly edition, the "Orleanean" (neut.), the "State Gazette" (dem.), the "Bee" (whig), and the "Courier" (dem.) The "Franco-American" is issued tri-weekly, and the "Prices Current" semi-weekly. The weeklies are "La Propagateur Catholique" (relig.), and "La Patria" (whig). De Bow's "Review of the Southern and Western States" (statistical), is published monthly. The last-named is one of the most useful and complete works of the kind in the Union, and ought to be in the library of every person wishing to keep up with the progress of the country. The "Resources of the Southern and Western States" lately published by Professor De Bow, is also a work of great and lasting value, more exact and detailed in its subjects than any work hitherto issued from the American press, and has been of essential service in the compilation of this Gazetteer.

The means provided for education are ample. Besides the public schools and academies, the city contains several collegiate establishments and literary institutions. The University was founded in 1849. The buildings consist of a central edifice 100 feet front and 104 feet deep, with two detached wings. The main building is occupied by the medical department, and contains three large lecture-rooms, each of which will contain more than 600 persons, a large museum of anatomy, dissecting-rooms, etc., and the other

buildings are appropriated to the academic, law, and other departments. There are 7 professors in the academic department, 3 in the law department, and 7 in the medical department. There is also a chair of political economy, at present ably filled by Professor J. D. B. De Bow, head of the Census Bureau at Washington. The students in the medical department enjoy clinics in the Charity Hospital, an institution which surpasses all others in the United States as a school of practical instruction. This hospital is situate on Common Street, between St. Mary and Girond streets, and is 290 feet long, and three stories high. There are generally 1,000 patients in the wards. In 1851 the whole number of patients admitted was 18,476, discharged 15,989, and died 1,884, leaving 1,603. The surgical cases numbered about 2,600; and about one-half the medical cases were intermittent and remittent fevers—of the first 6,871 cases, and of the latter 2,866 cases are reported. From the cupola of the building the view is magnificent. This institution is the refuge alike of the citizen and stranger in times of sickness, and is attended chiefly by those exemplary women whose deeds of charity reflect so great an honor on the Catholic Church.

New Orleans has nine cemeteries: the Protestant, the Catholic, Cypress Grove, the Odd Fellows', St. Vincent de Paul, St. Patrick's, Potter's Field, the Charity Hospital, and Lafayette. These are all conspicuous appendages of the city. The Catholic and Protestant cemeteries are unique in place and method of interment. Each is inclosed in a brick wall of arched cavities, or ovens, as they are here called, made just large enough to admit a single coffin, and raised tier upon tier to the height of about 12 feet, with a thickness of 10. The whole inclosure is divided into plats, with gravel paths intersecting each other at right angles, and is densely covered with tombs built wholly above ground, and from one to three stories in height. This method of sepulchre is adopted from necessity, and burial underground is never attempted excepting in the Potter's Field, where the stranger without friends, and the poor without money find an uncertain rest, the water with which the soil is always saturated often forcing the coffin and its contents out of its narrow and shallow cell, to rot with no other covering than the arch of heaven. The cemeteries here indeed look as if modeled after a growing city. The tombs have an air of freshness about them; the peculiarity of their structure, their close juxtaposition, filling plats like blocks of buildings, the well-graveled walks between, the walls about the whole, with their numerous receptacles of the dead, rising story above story, almost persuade the visitor that he stands in the midst of a panorama of the great mart of commerce, the former inhabitants of which now inhabit these cities of the dead. The total number of burials in the several cemeteries in 1849 was 9,862, of which 3,569 were of foreigners, 1,308 of the United States, of which number only 774 were natives of New Orleans, and 4,985 of birth unknown. These facts speak volumes—one half the deaths of persons without name or country! and yet thousands press on to fill the void thus created, and in their turn to be numbered with the unknown dead.

The hotels and theatres of New Orleans are also distinguishing features of the city, and among its most splendid buildings the St. Charles Theatre, on the east side of St. Charles Street, cost about \$350,000, and is 132 feet long, by 170 feet deep. The Orleans, or French Theatre, is also a large and expensive building, running from Orleans Street to St. Anne Street, and the performances are done in the French language. The American theatre, corner of Camp and Poydras streets, is 160 feet by 60, and cost about \$130,000. These three theatres will in the aggregate accommodate 4,500 persons, and are nightly filled, often to suffocation. Among the hotels, the principal are St. Charles', Exchange, City Exchange, Verandah, Orleans, and others, almost equal in extent and good accommodations. Some of these are not surpassed in beauty of structure, substantiality, and popular-

ity by any in the Union. The St. Charles' was destroyed by fire in 1850, and is now being rebuilt on a more magnificent scale than before, at a cost estimated at \$600,000. As the majority of persons having business in the city reside there only temporarily, these are constantly crowded with boarders.
